MODIFICATIONS
MARCH 14, 2013

APPEAL BY GEOFFREY E. ROCKWELL OF THE STAFF HEARING OFFICER'S DECISION FOR THE APPLICATION OF CATHERINE DUNBAR, AGENT FOR GEOFFREY ROCKWELL, 1210 OLIVE STREET, APN 029-141-016, R-3 LIMITED MULTIPLE-FAMILY RESIDENCE ZONE, GENERAL PLAN DESIGNATION: MEDIUM HIGH DENSITY RESIDENTIAL (MST2012-00468)

The 3,266 square-foot site is currently developed with 1,257 square foot, two-story, single-family residence. The house is built such that the second story is at the same level as the sidewalk on Olive Street. The proposed project involves "as-built" additions and alterations to the residence including a 126 square-foot, first-story addition, a 107 square-foot second-story addition, an "as-built" deck expansion, an "as-built" 43 square foot storage/utility room, and an "as-built" 8-foot high wall, which includes a covered entry door, along the front property line. On February 6, 2013, the Staff Hearing Officer partially approved the Modification requests subject to several conditions. The appellant is appealing the partial denial of the project and related conditions of approval.

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Sections 15301 (Existing Facilities) and 15305 (Minor Land Use Limitations).

WHEREAS, the Planning Commission has held the required public hearing on the above application, and the Applicant was present.

WHEREAS, no one appeared to speak in favor of the application, and no one appeared to speak in opposition thereto, and the following exhibits were presented for the record:

1. Staff Report with Attachments, March 7, 2013
2. Site Plans
3. Correspondence received in opposition to the project:
 - a. Paula Westbury, Santa Barbara, CA

NOW, THEREFORE BE IT RESOLVED that the City Planning Commission:

- I. Upheld the appeal and approved the subject application making the following findings and determinations:

The Modification to allow the additions and alterations to the existing residence within the required ten-foot front setback is consistent with the purposes and intent of the Zoning Ordinance, creates a uniform improvement, and is necessary to secure an appropriate improvement on the lot. The proposed lower level addition is appropriate because it is a uniform addition to the residence that is not visible from the street frontage. The proposed upper (street) level addition and covered entry element, provide covered storage and utility screening at the front of the property at street level. The proposed additions and alterations within the front setback are not anticipated to adversely impact the street or the adjacent neighbors.

The Modification to allow the "as-built" eight-foot tall wall along the front property is consistent with the purposes and intent of the Zoning Ordinance and is necessary to secure an appropriate improvement on the lot. The proposed wall will allow for privacy for the deck area while not significantly impacting the public street frontage.

- II. Said approval is subject to the following conditions:

- A. Any proposed doors or gates built at the front property line will be required to swing inward or having self-closing hardware to comply with SBMC§22.64.
- B. The detached storage shed and the 43 sq. ft. utility/storage room located in the front setback shall be demolished.
- C. The abatement of all violations listed in ZIR2012-00486, ENF2012-00824, and ENF2012-00954 shall be clearly documented on the plans submitted for a building permit.

This motion was passed and adopted on the 14th day of March, 2013 by the Planning Commission of the City of Santa Barbara, by the following vote:

AYES: 4 NOES: 1 (Lodge) ABSTAIN: 0 ABSENT 2 (Jordan, Pujo)

RESOLUTION NO. 006-13

1533 AND 1537 SHORELINE DRIVE

STREET FRONTAGE MODIFICATION, COASTAL DEVELOPMENT PERMIT, LOT LINE ADJUSTMENT

MARCH 21, 2013

APPLICATION OF JIM ZIMMERMAN, ARCHITECT FOR ANINA DAVENPORT, 1533 AND 1547 SHORELINE DRIVE, APN 045-182-013 AND 014, E-3/SD-3 ZONES, ONE FAMILY RESIDENCE AND COASTAL OVERLAY ZONES, GENERAL PLAN DESIGNATION: LOW DENSITY RESIDENTIAL (MST2012-00046).

The project involves a lot line adjustment between two existing lots at 1533 Shoreline Drive (Parcel 1) and 1537 Shoreline Drive (Parcel 2). Parcel 1 is developed with a single family residence and Parcel 2 is vacant. Approximately 79 square feet of lot area will be transferred from Parcel 1 to Parcel 2. The newly created parcel at 1533 Shoreline Drive will be 18,275 sq. ft. with an average slope of 40.8% and 1537 Shoreline Drive will be 7,503 sq. ft. with an average slope of 3%

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15305(a) Minor Lot Line Adjustments.

WHEREAS, the Planning Commission has held the required public hearing on the above application, and the Applicant was present.

WHEREAS, no one appeared to speak in favor of the application, and no one appeared to speak in opposition thereto, and the following exhibits were presented for the record:

1. Staff Report with Attachments, March 14, 2013.
2. Site Plans
3. Correspondence received in opposition to the project:
 - a. Paula Westbury, Santa Barbara, CA

NOW, THEREFORE BE IT RESOLVED that the City Planning Commission:

I. Approved the subject application making the following findings and determinations:

A. **STREET FRONTAGE MODIFICATION (SBMC §28.15.080 AND §28.92.110.a)**

The street frontage modification is consistent with the purposes and intent of the Zoning Ordinance and is necessary to secure an appropriate improvement by correcting the lots so that the driveway and garage can be accessed from the street as discussed in Section VI.A.1 of the Staff Report. There are two existing residential properties with a combined total of 99.3 linear feet of street frontage. Although the lot line dividing the two properties will be adjusted, the total amount of street frontage will not be reduced, and this proposal will not exacerbate the existing legally non-conforming situation.

B. **COASTAL DEVELOPMENT PERMIT (SBMC §28.44.150)**

1. The proposed project is consistent with the policies of the California Coastal Act, because it does not result in any adverse affects related to coastal resources, including views and public access as described in Section VI.C. of the Staff Report.
2. The project is consistent with all applicable policies of the City's Local Coastal Plan, all applicable implementing guidelines, and all applicable provisions of the Code because the reconfigured lots are compatible with the existing pattern of development in the neighborhood; will not include changes to bluff top vegetation and appearance, would not impact views from public view corridors, would not impact any existing public access points to the beach, is not located on an archaeologically sensitive site and will not contribute to safety or drainage hazards on the site as described in Section VI.C. of the Staff Report.

C. **LOT LINE ADJUSTMENT**

As described in Section VI of the Staff Report, the proposed Lot Line Adjustment is appropriate for the area and is consistent with the City's General Plan, Local Coastal Plan and Building and Zoning Ordinances. There are two legal lots on the project site, and the existing development potential would remain two single family residences each located on an E-3 zoned lot and therefore the proposed project would not change the density with regard to the General Plan Land Use designation.

II. Said approval is subject to the following conditions:

A. **Order of Development.** In order to accomplish the proposed development, the following steps shall occur in the order identified:

1. Obtain all required design review approvals.
2. Pay Land Development Team Recovery Fee.
3. Submit an application for and obtain Building Permit(s) for, and complete, the construction of all private improvements.
4. Submit an application for and obtain City Council approval of the Lot Line Adjustment and Agreement(s) and record said documents.

Details on implementation of these steps are provided throughout the conditions of approval.

Recorded Conditions Agreement. Prior to or concurrent with the recordation of the Lot Line Adjustment, ~~Prior to the issuance of any Building permit for the project on the Real Property, except a demolition or other appropriate (as determined by City staff) building permit for work in anticipation of primary project improvements,~~ the Owner shall execute an *Agreement Relating to Conditions Imposed on Real Property*, which shall be reviewed as to form and content by the City Attorney, Community Development Director and Public Works Director, recorded in the Office of the County Recorder and shall include the following:

7. **Recreational Vehicle Storage Limitation.** No recreational vehicles, boats, or trailers shall be stored on the Real Property unless enclosed or concealed from view as approved by the Single Family Design Board (SFDB).
8. **Storm Water Pollution Control and Drainage Systems Maintenance.** Owner shall maintain the drainage system and storm water pollution control devices in a functioning state. Should any of the project's surface or subsurface drainage structures or storm water pollution control methods fail to capture, infiltrate, and/or treat water, or result in increased erosion, the Owner shall be responsible for any necessary repairs to the system and restoration of the eroded area. Should repairs or restoration become necessary, prior to the commencement of such repair or restoration work, the Owner shall submit a repair and restoration plan to the Community Development Director to determine if an amendment or a new Building Permit and Coastal Development Permit is required to authorize such work. The Owner is responsible for the adequacy of any project-related drainage facilities and for the continued maintenance thereof in a manner that will preclude any hazard to life, health, or damage to the Real Property or any adjoining property.
9. **Coastal Bluff Liability Limitation.** The Owner understands and is advised that the site may be subject to extraordinary hazards from waves during storms and erosion, retreat, settlement, or subsidence and assumes liability for such hazards. The Owner unconditionally waives any present, future, and unforeseen claims of liability on the part of the City arising from the aforementioned or other natural hazards and relating to this ~~permit~~ approval, as a condition of this approval. Further, the Owner agrees to indemnify and hold harmless the City and its employees for any alleged or proven acts or omissions and related cost of defense, related to the City's approval of this ~~permit~~ Lot Line Adjustment and arising from the aforementioned or other natural hazards whether such claims should be stated by the Owner's successor-in-interest or third parties.

10. **Geotechnical Liability Limitation.** The Owner understands and is advised that the site may be subject to extraordinary hazards from landslides, erosion, retreat, settlement, or subsidence and assumes liability for such hazards.
