A. APPLICATION OF BRAD KLINZING, APPLICANT FOR CITY OF SANTA BARBARA, 4 S. CALLE CESAR CHAVEZ, APN 017-113-023, OM-1 / SD-3 (OCEAN-ORIENTED LIGHT MANUFACTURING / COASTAL OVERLAY) ZONES, GENERAL PLAN DESIGNATION: INSTITUTIONAL, LOCAL COASTAL PLAN DESIGNATION: MAJOR PUBLIC AND INSTITUTIONAL (MST2014-00554)

The project consists of the installation of two pre-fabricated steel structures totaling 1,170 square feet at the existing City Fire Training Facility, located on a two-acre parcel within the City's El Estero Wastewater Treatment Facility property. One structure would be a one-story, 240 square-foot structure with a maximum height of 8-½ feet, and the second structure would be a two-story, 930 square-foot structure with a maximum height of 17 feet. The structures would be utilized for fire observation and fire training purposes. The project also proposes on-site drainage improvements, consistent with the City's Tier 3 Storm Water Management Plan requirements. The project also includes the legalization of several "as-built" structures that were previously developed on site and total approximately 3,476 square feet.

The discretionary applications required for this project are:

1. A Development Plan to allow the construction of 4,646 square feet of nonresidential development (SBMC Chapter 28.85);
2. A Conditional Use Permit to allow the construction of 4,646 square feet of nonresidential development for use as a Fire Training Facility in the OM-1/SD-3 zone (SBMC §28.94.030(x)); and
3. A Coastal Development Permit (CDP2015-00006) to allow the proposed development in the Appealable Jurisdiction of the City's Coastal Zone (SBMC §28.44.060).

The project requires an environmental finding pursuant to California Environmental Quality Act Guidelines Section 15183, Projects Consistent with a Community Plan or Zoning.

The project consists of a proposal to construct a new 400 square-foot pool and spa with associated pool equipment and safety fencing on a 17,490 square-foot lot in the Hillside Design District. This proposal is an amendment to the recent Coastal Development Permit dated May 2, 2013, and revised on August 8, 2014, under MST2012-00135, which approved 2,508 square feet of one- and two-story additions, the demolition of the existing garage, and the conversion of 488 of existing habitable floor area into a new two-car garage.
