III. STAFF HEARING OFFICER APPEAL:

ACTUAL TIME: 3:03 P.M.

**APPEAL BY ANDERS TROEDSSON OF THE STAFF HEARING OFFICER'S
DECISION OF THE APPLICATION OF ANDERS TROEDESSON, APPLICANT
FOR ROBERT AND GRACE GULOCK REVOCABLE TRUST, 941 MEDIO
ROAD 029-321-016, E-1 SINGLE FAMILY RESIDENTIAL ZONE, GENERAL
PLAN DESIGNATION: LOW DENSITY RESIDENTIAL (MAX. 3 DU/ACRE)
(MST2015-00344)**

The 10,690 square-foot site is currently developed with a 1,215 square foot single family residence, a 77 square foot basement, a 331 square foot detached garage, a detached 62 square foot shed and a trellis. The proposed project involves demolition of the existing garage, trellis and shed, and 16 square feet of the existing residence; construction of 1,278 square feet of additions to the dwelling, a 208 square foot basement addition, a new 419 square foot two-car garage, new decks and a new stairway. The proposal also includes a new CMU pool equipment enclosure, new condenser units, new retaining walls, new fencing, a new trash enclosure, new swimming pool, restoration of an historic sandstone cap and pier wall and associated grading for the project. The proposal will address violations outlined in a Zoning Information Report (ZIR2014-00443). The proposed total of 3,181 square feet is 83% of the maximum required floor to lot area ratio.

The discretionary applications required for this project are:

1. A Front Setback Modification to allow a new garage, additions, and alterations to the dwelling including roof alterations, new doors and windows, a trash area, condensing units and a pool equipment enclosure with pool equipment within the required 30-foot front setback facing Ferrelo Road to the northwest of the property (SBMC § 28.15.060 and SBMC § 28.92.110); and
2. A Front Setback Modification to allow additions and alterations to the dwelling including new doors and windows, a new deck and a new stairway within the required 30-foot front setback and to allow a new swimming pool within the required 15-foot front setback facing Medio Road to the southwest of the property (SBMC § 28.15.060 and SBMC § 28.92.110); and
3. An Interior Setback Modification to allow a condensing unit and a pool equipment enclosure with pool equipment within the required 10-foot interior setback (SBMC § 28.15.060 and SBMC § 28.92.110).

On December 9, 2015, the Staff Hearing Officer partially approved the Modification requests subject to several conditions. The appellant is appealing a condition that limits the encroachment into the Medio Road front setback to a maximum of 13 feet.

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15301 and 15305 (Existing Facilities and Minor Alterations in Land Use Limitations).

**** Approved the appeal, with revised condition of approval. ****

IV. NEW ITEM:

ACTUAL TIME: 1:49 P.M.

**APPLICATION OF LISA ARROYO AND RAYNE OF SANTA BARBARA, INC.,
APPLICANTS FOR CITY OF SANTA BARBARA, 520 E. YANONALI STREET,
APN 017-113-016 OM-1/SD-3 (OCEAN-ORIENTED LIGHT
MANUFACTURING/COASTAL OVERLAY) ZONES, GENERAL PLAN
DESIGNATION: INSTITUTIONAL, LOCAL COASTAL PLAN DESIGNATION:
MAJOR PUBLIC AND INSTITUTIONAL (MST2014-00199)**

The project consists of a new brine water discharge facility in the southwest corner of the El Estero Waste Water Treatment Plant. Brine water would be trucked to the site by Rayne of Santa Barbara, Inc. (or other authorized company), discharged into the new facility, and released into the Pacific Ocean via the existing ocean outfall conveyance system.

The project includes the installation of a new 4-inch stainless steel discharge pipe with hose adaptor onto the northern wall of the existing ocean outfall mixing box structure, and a new three-foot by three-foot pre-cast concrete basin beneath the hose adaptor to catch any spills during discharge. An interim digital display meter would be installed on the existing control panel located on the easterly side of the outfall mixing box structure. In the near future, in coordination with the City, this equipment would be upgraded to provide automation of testing equipment and reporting. A small 1-inch sampling line, for testing purposes, would be installed underground and would extend from the southeast corner of the structure approximately 15 feet to one of the new City-installed 6-inch discharge conduits.

The discretionary application required for this project is:

1. A Coastal Development Permit (CDP2014-00009) to allow the proposed development in the Appealable Jurisdiction of the City's Coastal Zone (SBMC §28.44.060); and
2. A Conditional Use Permit to allow the proposed use in the OM-1 Zone (SBMC Section 28.73.030 and SBMC Chapter 28.94).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines §15303 (New Construction or Conversion of Small Structures).

**** Approved Coastal Development Permit and Conditional Use Permit
with revised conditions of approval.****

*** THE HEARING RECESSED AT 2:17 P.M., AND RECONVENED AT 2:33 P.M. ***

V. ENVIRONMENTAL HEARING:

ACTUAL TIME: 2:33 P.M.

**ENVIRONMENTAL HEARING TO TAKE PUBLIC COMMENT ON A DRAFT
MITIGATED NEGATIVE DECLARATION FOR 1925 EL CAMINO DE LA LUZ**

A Draft Mitigated Negative Declaration (DMND) has been prepared for the 1925 El Camino de la Luz residence project, pursuant to the California Environmental Quality Act which evaluates environmental impacts of the proposed project.

The project proposes construction of a 3,101 square foot three-story single-family residence and two-car garage, along with associated infrastructure improvements, and native vegetation restoration and landscaping. The development would entail initial demolition and removal of existing infrastructure and debris. Site stabilization and foundation design would utilize deep caissons into bedrock, shear-pins, and tie backs. The project proposes dedication to the City of a lateral public recreational access easement across the beach area of the parcel, an open space easement on the lower coastal bluff and native vegetation area, and an air space public view corridor easement from El Camino de la Luz over the residence toward the ocean. The duration of the demolition, grading, slope stabilization, and construction process is estimated at 94 weeks (1.8 years). The project requires City approval of a Coastal Development Permit.

The hearing is to receive public and Commission comment on the draft environmental document only. No action on the environmental document or project permit request will be taken by the Planning Commission at this hearing. The public review period for the DMND extends through March 10, 2016.
