*** THE COMMISSION RECESSED FROM 3:10 TO 3:23 P.M. ***

B. ACTUAL TIME: 3:24 P.M.

PLANNING COMMISSION REVIEW OF PROPOSED AMENDMENTS TO TITLE 30 OF THE SANTA BARBARA MUNICIPAL CODE (SBMC) TO AMEND DEVELOPMENT REGULATIONS FOR THE AVERAGE UNIT-SIZE DENSITY (AUD) INCENTIVE PROGRAM ORDINANCE.

The amendments propose to require two onsite parking spaces for AUD units with three or more bedrooms, in projects located outside of the Central Business District, and prohibit AUD units from future conversion to a hotel use as defined in SBMC Section 30.295.040.O.

Staff recommends that the Planning Commission review the proposed amendments and forward a recommendation to the City Council for adoption.

Jessica Metzger, Project Planner, gave the Staff presentation. Renee Brooke, City Planner, and Dan Gullett, Supervising Transportation Planner, were available to answer questions.

Public comment opened at 3:38 p.m.

The following people spoke in support:

1. Brian Cearnal, Architect
2. Rob Fredericks, Housing Authority of the City of Santa Barbara

The following people spoke in opposition or with concerns:

1. Laura Bernard, Coastal Housing Coalition, stated that any further restrictions on parking prevent the construction of housing and there may be more creative ways to provide the needed parking. Written correspondence was also submitted by the Coastal Housing Coalition.
2. Mark Sheridan explained that the program will change the downtown and cause many issues such as the loss of landscape and open space; the ability for the community to push back during construction; warzone like conditions with dust and trucks; and lot line mergers that will change neighborhoods. Mr. Sheridan further explained that the project is misguided and hurting the downtown area.
3. Anna Marie Gott discussed the issue of the AUD programs transparency and claimed that AUD's being used as vacation rentals were withheld from City Council. Ms. Gott also discussed parking and its multiple issues.
4. Frank Rodriguez discussed the concern for affordable housing and wished to represent the immigrant and Latino population.

Public comment closed at 4:07 p.m.

Commissioner comments:

Commissioner Jordan:

- Agrees with the proposed changes and looks forward to seeing phase two.

Commissioner Campanella:

- Municipal Code Chapter 30.175.050, parking acceptations and reductions, referenced in the proposed amendments, is a carryover from what exist, it is not new. To preclude AUD projects from taking advantage of parking acceptations, as would other projects, is a detriment to the AUD project itself.
- When we go to Phase II, if there are Phase II changes to parking it should be a new item that we consider and should not be treated as an exception but an absolute.

Commissioner Schwartz:

- Uncomfortable making a parking decision without further, in depth conversations, on sustainability and sound planning.

- Supports removing vacation rentals from the equation of Average Unit-Size Density residential units.
- Data analytics and public outreach hearings should be held to discuss the issues with parking before amendments are made.

Commissioner Lodge:

- This program was developed to encourage the construction of rentals that are affordable to the workforce and there are instances where projects are not meeting those goals.
- Ridership with the MTD is at a low and car sales are at a high. We need to understand that those cars will have to go somewhere.

Commissioner Higgins:

- Without a more comprehensive conversation about parking, what is presented today does not seem to comply with sound community planning.
- Agrees with the amendments made with regard to the prohibition against the conversion of Average Unit-Size Density (AUD) Incentive Program residential units to hotels or similar uses.

Chair Wiscomb:

- With the task to look at the AUD program and where changes can be made, there is enough information provided to make a decision.
- Ultimately, developers will look at return on investment (ROI) and if the ROI involves three bedroom apartments with two parking spaces outside the CBD, that's what developers will do.
- The ordinance as proposed is moving in the right direction.

MOTION: Lodge/Wiscomb

Forward the recommendation to City Council for adoption to approve amendments to Title 30 of the Santa Barbara Municipal Code (SBMC) with regard to parking for the average unit-size density (AUD) incentive program ordinance, as outlined in the Staff Memo dated September 12, 2018 with the following revisions.

1. The last sentence in Section F.2 should read: "Except for project proposing Affordable and senior housing, residential units developed under this Chapter shall not qualify for any additional Parking Exceptions or Reductions pursuant to Chapter 30.175, Parking Regulations."

The motion carried by the following vote:

Ayes: 5 Noes: 1 (Higgins) Abstain: 0 Absent: 1 (Jordan)
