III. NEW ITEM

ACTUAL TIME: 1:05 P.M.

APPLICATION OF ROBERT AND MADELINE TOWERY, PROPERTY OWNERS, 2507 MESA SCHOOL LANE, APN 041-311-002, E-3/S-D-3 (ONE FAMILY RESIDENCE/COASTAL OVERLAY) ZONES, LOCAL COASTAL PROGRAM LAND USE PLAN DESIGNATION: RESIDENTIAL – 5 units per acre (MST2017-00550)

The proposed project involves the addition of 810 square feet of habitable floor area and a new attached 400 square foot garage to an existing one-story, 1,014 square foot single-family residence, resulting in a 2,223 square foot, one-story single-family residence on the 6,319 square foot lot. The project would also address violations identified in ZIR2015-00604, specifically through demolition of the unpermitted carport and storage at the rear of the house, demolition of the storage shed attached to the front of the house, reduction of the front fence to 42 inches in height, and removal of unpermitted laundry hookups and water heater. The project also includes removal of several trees located in the front setback.

The proposed addition would reduce the amount of code compliant open yard area provided on site and requires a modification. An existing koi pond with waterfall is located in the required interior setback at the rear of the house and is proposed to remain, requiring a modification.

The discretionary applications required for this project are:

1. An Open Yard Modification to allow less than the required 1,250 square feet of open yard area with minimum dimensions of twenty feet (SBMC §28.92.110, §28.15.060.C);
2. An Interior Setback Modification to allow the existing unpermitted pond to encroach into the required six-foot interior setback (SBMC §28.92.110 and §28.15.060.B.5); and
3. A Coastal Development Permit (CDP2017-00008) to allow the proposed development in the Appealable Jurisdiction of the City's Coastal Zone (SBMC §28.44.060).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Sections 15301 and 15305.

Approve the project, making the findings for the Open Yard Modification, Interior Setback Modification, and Coastal Development Permit (CDP2017-00008) as outlined in the Staff Report dated April 26, 2018 and subject to the Conditions of Approval as outlined in the Staff Report.

Campanella/Lodge Vote: 7/0

Resolution No. 009-18

IV. NEW ITEM

ACTUAL TIME: 1:49 P.M.

APPLICATION OF CITY CREEKS DIVISION FOR CREEK RESTORATION AT ARROYO BURRO CREEK, LOCATED AT 1425 AND 601 LAS POSITAS ROAD, APN 047-010-064, -009, -065, AND 047-061-026, PARKS AND RECREATION (PR), VERONICA SPRINGS SPECIFIC PLAN (SP-9), AND COASTAL (SD-3) ZONES, GENERAL PLAN DESIGNATION (NORTH PORTION) LOW-DENSITY RESIDENTIAL AND PARKS/OPEN SPACE AND LOCAL COASTAL PROGRAM LAND USE PLAN DESIGNATION (SOUTH PORTION) OPEN SPACE AND RESIDENTIAL (MST2017-00773)

The project would restore 1,400 linear feet of the creek that is degraded, eroded, and populated with non-native plant species. Man-made debris such as metal and concrete would be removed from the creek bed. New floodplain terraces would be created through the grading of 13,000 cubic yards of soil, of which 12,600 cubic yards would be exported and the remainder would be used on site. The project would potentially impact 54 arroyo willows, 2 western sycamores, and 9 eucalyptus trees. The arroyo willows and western sycamores will be preserved or relocated where feasible. The nine eucalyptus in proximity to the creek are proposed to be removed as part of this project to make way for large stature native trees like western sycamores and cottonwoods. The creek site would be re-vegetated with approximately 7,500 native plants including 550 trees. Three acres of native riparian floodplain habitat would be created as well as an acre of native planting within an adjacent oak woodland. After restoration work, creek banks would be stabilized with 100% bio-degradable erosion control materials including coconut fiber blankets and straw wattles. Wood rail fencing would be placed along the restoration area in appropriate places for visitor viewing. Two small interpretive signs would be placed on site. New water service would be required for temporary irrigation (2-5 years) to the re-vegetated areas. No new structures are proposed. Public access through the site would be maintained during the duration of the restoration project.

Project activities would take approximately five months to complete and would be implemented in the dry season (July-December). The portions of the project involving heavy equipment and grading are anticipated to take three months to complete. The landscape portion of the project is estimated to take two months to complete (November -December). The project design includes measures to address potential environmental impacts. Project funding will come from Measure B and matching grant funds from the Department of Fish and Wildlife and California Coastal Conservancy.

The discretionary applications required for this project are:

1. Coastal Development Permit (CDP2017-00013) to allow the proposed development in the Appealable/Non-Appealable Jurisdictions of the City's Coastal Zone (SBMC § 28.44.060); and
2. Design Review Approval by the Architectural Board of Review (SBMC § 22.68).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines §15333, Class 33-Small Habitat Restoration Projects; §15301(i), Class 1-Existing Facilities; and §15307, Class 7-Actions by Regulatory Agencies for Protection of Natural Resources.

Approve the project, making the findings for the Coastal Development Permit (CDP2017-00013) as outlined in the Staff Report dated April 26, 2018, subject to the Conditions of Approval as outlined in the Staff Report, with the following revisions to the Conditions of Approval.

V. NEW ITEM

ACTUAL TIME: 3:15 P.M.

APPLICATION OF TONY TOMASELLO, RRM DESIGN GROUP, AGENT FOR WESTMONT COLLEGE (MST2018-00139)

Planning Commission Public Hearing: The purpose of the meeting is to initiate an amendment to the Westmont College Specific Plan (SP5-WC), specifically SBMC §30.110.040.B (Affordability Requirements for Residential Units), to give Westmont College more flexibility in administering its Housing Program. SP5-WC is the zoning for properties located at 802-1141 Westmont Road. Staff is requesting Planning Commission input on the proposal and initiation of the amendment if deemed appropriate.

The Environmental Analyst has determined that the project is statutorily exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15262.

Approved the Initiation of the Specific Plan Ordinance Amendment as outlined in the Staff Report dated April 26, 2018.
