NOTICE OF INTENT TO ADOPT DRAFT MITIGATED NEGATIVE DECLARATION – PLN2019-00425 AND NOTICE OF PUBLIC HEARING

A Draft Mitigated Negative Declaration (DMND) has been prepared for the following project, pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970," as amended to date.

PROJECT LOCATION: 604 East Ortega Street

PROJECT DESCRIPTION: *The project consists of the Ortega Park Master Plan, including demolition of existing facilities and construction of a new swimming pool, wading pool, water slide, skate park, splash pad, sports courts, shade sails, sports field with synthetic turf, ping pong tables, cornhole, and buildings for restrooms and maintenance. On-site improvements such as fencing, parking, landscaping, dumpsters and related enclosures and internal walkways are also proposed. Right-of-way improvements including street parking, parking medians, and sidewalk installation are also proposed. Front setback modifications to allow parking within the required 10-foot front setbacks along both Ortega Street and Salsipuedes Street are requested. Planning Commission review and approval of the proposed skate park for consistency with amenities allowed in the Community Park category of Park, as well as review of the proposed Modifications, is required. A formal recommendation from the Parks and Recreation Commission to the Planning Commission regarding the Master Plan is required. Review and approval for all exterior improvements on a City-owned lot is required by the Architectural Board of Review. County Environmental Health Services review and approval of the project's Soil Management Plan is required. Parks and Recreation department staff are seeking grant funding from State and non-profit organizations. The park is considered a Community Park (except the ballfields and related facilities), a Sports Facility (for the ballfields and related facilities only), and a Community Building (the Welcome House) per City Council Resolution 17-074. The parcel is zoned P-R, with a General Plan designation of Parks and Open Space.*

DRAFT ENVIRONMENTAL DOCUMENT: An Initial Study and a DMND have been prepared for this project and are available for review and comment. The DMND examines environmental impacts which may be associated with this project. Significant environmental effects identified in the DMND which are anticipated as a result of the project include impacts related to Biological Resources, Hazards and Hazardous Materials, Noise, and Water Quality and Hydrology. The DMND includes proposed mitigation measures to mitigate potentially significant impacts to a less than significant level. The project site used to function as a municipal dump; a Phase II Environmental Site Assessment of the parcel concluded that various metals, including lead and zinc, exist in the soil and groundwater at levels that exceed California Hazardous Waste Thresholds. Accordingly, a Soil Management Plan has been reviewed and conditionally approved by County Environmental Health Services to ensure compliance with applicable federal, state, and local regulations. It is noted, however, that the site is not identified on any of the lists enumerated under Section 65962.5 of the Government Code.

DOCUMENT AVAILABILITY: The DMND is available for review online at www.SantaBarbaraCa.gov/eir. If you are unable to review the document online, please contact Stephanie Swanson (contact information below).
