

TABLE OF CONTENTS

City of Santa Barbara Sea-Level Rise Adaptation Plan

EXECUTIVE SUMMARY	
Sea-Level Rise Vulnerabilities.....	
Adaptation Planning Framework.....	
Santa Barbara’s Recommended Adaptation Strategies.....	
Adaptation Scenarios.....	
Implementation and Next Steps.....	
Section 1, Introduction	
1.1 Purpose and Objective.....	
1.2 Sea-Level Rise and the Vulnerability of Coastal Resources.....	
1.3 Plan Organization.....	
Section 2, Relevant Plans, Guidelines, and Regulatory Framework	
2.1 California Coastal Act.....	
2.2 City of Santa Barbara Local Coastal Program.....	
2.3 City of Santa Barbara General Plan.....	
2.4 Santa Barbara County Multi-Jurisdictional Hazard Mitigation Plan.....	
2.5 City of Santa Barbara Municipal Code.....	
2.6 California Coastal Commission Sea-Level Rise Policy Guidance.....	
2.7 State of California Sea-Level Rise Guidance.....	
2.8 Safeguarding California Plan: 2018 Update, California’s Climate Adaptation Strategy.....	
2.9 California Adaptation Planning Guide.....	
2.10 Coastal Regional Sediment Management Plan.....	
2.11 Waterfront Sediment Management Plan (WSMP).....	
2.12 FEMA Hazard Mitigation Programs.....	
2.13 Regulatory Framework.....	
Section 3, Adaptation Planning Framework	
3.1 Guiding Principles.....	
3.2 Monitoring Change.....	
3.3 Project-Level Planning.....	
3.4 Reevaluation.....	
Section 4, Adaptation Measures	
4.1 Categories of Adaptation Strategies.....	
4.2 Potential Adaptation Strategies for Santa Barbara.....	
4.2.1 Coastal Sediment Management - Beach and Dune Nourishment	
4.2.2 Coastal Sediment Management - Sand Bypassing	
4.2.3 Sand Retention Structures - Groins	
4.2.4 Sand Retention Structures - Breakwaters	
4.2.5 Sand Retention Structures - Offshore Reefs	
4.2.6 Coastal Bluff Erosion BMPs	
4.2.7 Shoreline Protection Devices	
4.2.8 Tide Gates, Weirs, and Pump Stations	

- 4.2.9 Groundwater Pumping
- 4.2.10 Creek Flood Walls or Levees
- 4.2.11 Elevating or Waterproofing Structures and Infrastructure
- 4.2.12 Elevating Property Grade
- 4.2.13 Managed Retreat

Section 5, Bluff Areas.....

- 5.1 Vulnerability of Bluff Areas to Sea-Level Rise
- 5.2 Bluff Areas Adaptation Thresholds
- 5.3 Bluff Areas Adaptation Options.....
- 5.4 Bluff Areas Adaptation Recommendations.....

Section 6, Low-Lying Waterfront and Beach Area.....

- 6.1 Vulnerability of Low-Lying Waterfront and Beach Areas to Sea-Level Rise
- 6.2 Low-Lying Waterfront and Beach Adaptation Thresholds.....
- 6.3 Low-Lying Waterfront and Beach Adaptation Options
- 6.4 Low-Lying Waterfront and Beach Adaptation Recommendations.....

Section 7, Low-Lying Flood Area.....

- 7.1 Vulnerability of Low-Lying Flood Areas
- 7.2 Low-Lying Flood Area Adaptation Thresholds.....
- 7.3 Low-Lying Flood Area Adaptation Options
- 7.4 Low-Lying Flood Area Adaptation Recommendations

Section 8, Harbor and Stearns Wharf.....

- 8.1 Vulnerability of Harbor and Stearns Wharf
- 8.2 Harbor and Stearns Wharf Adaptation Thresholds
- 8.3 Harbor and Stearns Wharf Adaptation Options
- 8.4 Harbor and Stearns Wharf Adaptation Recommendations

Section 9, Major Infrastructure Facilities

- 9.1 Vulnerability of Major Infrastructure Facilities.....
- 9.2 El Estero Wastewater Treatment Plant and Charles E. Meyer Desalination Plant
- 9.3 Major Transportation Corridors

Section 10, Potential Adaptation Scenario Analysis

- 10.1 Scenario Description
- 10.2 Adaptation Scenario Analysis Methodology
- 10.3 Adaptation Cost Benefit Analysis Results

Section 11, Implementation and Next Steps.....

- 11.1 City Tools to Facilitate Implementation.....
- 11.2 Implementation Programs and Policies
- 11.3 Funding Sources and Mechanisms
- 11.4 Next Steps and Studies Needed.....
- 11.5 Near-Term Action Plan
