Action: James/Miller, 6/0/0. Motion carried. (Woolery absent).

Motion: Ratify the Consent Minutes of **November 2, 2015**. The Consent Minutes were reviewed by James/Miller.

Action: James/Miller, 6/0/0. Motion carried. (Woolery absent).

D. Announcements, requests by applicants for continuances and withdrawals, future agenda items, and appeals.

1. Mr. Eng made the following announcements:

- a) Board member Woolery will be absent from the meeting.
- b) The applicant for Item #1, 1542 Cliff Drive, has withdrawn the project and the scheduled site visit was cancelled. The applicant has indicated his intent to modify the project to be under the height threshold for requiring design review.
- c) The Planning Commission will review the project at 2321 Edgewater Way on Thursday, November 5th. A site visit is scheduled in the morning on Tuesday, November 3rd. Chair Sweeney has volunteered to represent the Single Family Design Board at the Planning Commission hearing.

2. Mr. Limón reported on a discussion held at the Architectural Board of Review (ABR) concerning the length of time allotted to reviewing projects. The ABR expressed concern that staff may not be allotting adequate time for discussion. Staff conducting a statistical analysis of ABR proceedings and found that sufficient time was allotted 70% of time. Mr. Limón requested feedback from SFDB to assess whether adjustments needed to be made for proper review of its projects. He mentioned a suggestion to include a note on agendas that presentations be limited to a third of the time allotted for review.

Chair Sweeney noted that gaps in the meeting do occur when projects are reviewed quickly; yet, also acknowledged that there are occasions when extensive public comment prolongs the review of a project. There was a consensus among the Board members that review of single family homes tends to be less controversial than projects heard at ABR. There is no need to make changes to the scheduling of projects.

Board member Bernstein suggested that applicants be advised to arrive at meetings earlier to help reduce the time the Board spends waiting. Mr. Limón's only concern was ensuring that projects are not reviewed so early that members of the public miss their opportunity to voice their comments. He acknowledged that quicker reviews will result in time spent waiting and mentioned that items could be heard ten minutes earlier than scheduled.

3. Chair Sweeney expressed concern with the application of fence and hedge height regulations, especially on sloped terrain such as that at 1542 Cliff Drive and its northerly neighbor. He anticipates that more projects will come forward with neighbors dealing with the same circumstances. He questioned if it would be necessary to include a staff recommendation during the review to provide sufficient direction to the neighbors to avoid controversy. Mr. Limón clarified that with administrative exception approvals, staff does look to the review boards for their guidance on the supportability of any over-height fence, wall, or hedge.

E. Subcommittee Reports.

No subcommittee reports.

PROJECT DESIGN REVIEW**1. 1542 CLIFF DR****E-3 Zone**

(3:10) Assessor's Parcel Number: 035-170-002
