(Proposal to address Zoning Information Report and Enforcement Case violations by relocating an "as-built" shed, and remove an existing chicken coop and detached trellis cover out of the required front setback. The proposed project also includes removing the "as-built" plexi-glass cover attached to the rear of the existing two-car garage encroaching into the required interior setback, demolishing the "as-built" exterior stairs, removal of the unpermitted driveway gate, and permitting the conversion of 70 square feet of porch area to habitable floor area. The project is requesting a Zoning Administrative Exception to allow the existing "as-built" six foot fence in the front yard to exceed the allowable height of three and one-half feet. The proposed total of 1,685 square feet on a 7,405 square foot lot is 56% of the maximum allowable floor-to-lot area ratio (FAR). This project will address violations in ZIR2016-00128 and ENF2016-00473.)

(Action may be taken if sufficient information is provided. Applicant is requesting an exception to the fence and screen height standards per SBMC 28.87.170. Determination required for consistency with neighborhood character.)

Continued one week to Consent with comments:

1. Revise the plans to address plan check corrections.
2. The existing "as-built" fence appears to be out of character; return with photographs of the surrounding neighborhood.
