STATE POLITICAL REFORM ACT SOLE PROPRIETOR ADVISORY: State law, in certain circumstances, allows an architect, engineer, or a person in a related profession who is a "sole practitioner" to make informational presentation of drawings or submissions of an architectural, engineering, or similar nature to the same Board on which he or she is seated, if the practitioner does not advocate for the project.

LICENSING ADVISORY: The Business and Professions Code of the State of California and the Municipal Code of the City of Santa Barbara restrict preparation of plans for certain project types to licensed professionals. See SFDB Guidelines 2.1.2A and 3.1.2C for specific information.

NOTICE: On Thursday, May 21, 2020, this Agenda was posted on the outdoor bulletin board at the Community Development Department, 630 Garden Street and online at SantaBarbaraCA.gov/SFDB. Approximate times are set for each item; however, the schedule is subject to change.

PLEASE BE ADVISED

The following advisories are generally also contained in the City's Single Family Design Board General Design Guidelines and Meeting Procedures ([SFDB Guidelines](#)). The specific SFDB Guideline number is listed after each advisory. Applicants are encouraged to review the full version of the SFDB Guidelines.

- The approximate time the project will be reviewed is listed to the left of each item. It is suggested that applicants arrive 15 minutes early. The agenda schedule is subject to change as cancellations occur. Staff

will attempt to notify applicants of time changes. (3.2.2)

- The applicant's presence is required. If an applicant is not present, the item will be postponed indefinitely. If an applicant cancels or postpones an item without providing advance notice, the item will be postponed indefinitely and will not be placed on the following SFDB agenda. (3.2.4)
- Substitution of plans is not allowed. If plans differing from the submittal sets are brought to the meeting, motions for Project Design Approval or Final Approval will be contingent upon staff review for code compliance. (3.2.4)
- Concept review comments are generally valid for one year. Per SMBC 22.22.180, a Project Design Approval is valid for three years from the date of the approval unless a time extension has been granted or a building permit has been issued. Projects with a valid land use approval will also automatically extend the Project Design Approval expiration date. (3.2.9) An SFDB approval does not constitute a Zoning clearance or a Building and Safety Permit.
- CEQA Guidelines §15183 Exemptions (Projects Consistent with General Plan). Under this California Environmental Quality Act (CEQA) Guidelines section, projects with new development (new nonresidential square footage or new residential units) qualify for an exemption from further environmental review documents if (1) they are consistent with the General Plan development density evaluated in the 2011 General Plan Program Environmental Impact Report, and (2) any potentially significant project-specific impacts are addressed through existing development standards. Section 15183 exemptions are determined by staff based on a preliminary environmental review process. A decision-maker CEQA finding is required for a Section 15183 exemption. City Council General Plan environmental findings remain applicable for the project.
