The Tentative Subdivision Map is consistent with the General Plan and the Zoning Ordinance of the City of Santa Barbara. The site is physically suitable for the proposed condominium conversion, the project is consistent with the variable density provisions

of the Municipal Code and the General Plan, and the proposed use is consistent with the vision for this neighborhood of the General Plan. The design of the project will not cause substantial environmental damage, and associated improvements will not cause serious public health problems.

B. Condominium Conversion (SBMC §28.88.120)

1. All provisions of the Condominium Conversion Ordinance are met and the project will not be detrimental to the health, safety, and general welfare of the community.
2. The proposed conversion is consistent with the General Plan of the City of Santa Barbara and with the density requirement of its Land Use Element.
3. The proposed conversion will conform to the Santa Barbara Municipal Code in effect at the time the application was deemed complete, except as otherwise provided in the Condominium Conversion Ordinance.
4. The overall design (including project amenities) and physical condition of the conversion will result in a project, which is aesthetically attractive, safe, and of quality construction.
5. The units have not been "affordable rental units"; therefore, affordability restrictions do not apply to the project.
6. The Applicant has not engaged in coercive retaliatory action regarding the tenants after the submittal of the first application for City review through the date of approval.
7. The owner notified the tenants about the condominium conversion proposal and informed the tenant of their rights pursuant to SBMC §28.88.
