PLAN DESIGNATION: 3 UNITS PER ACRE (MST2006-00522)**

The 4,776 square foot project size is currently developed with a 2,100 square foot single-family residence and garage. The proposed project involves demolition of all development on site and the construction of a 3-story structure consisting of a 2-story residence with a 2-car garage and basement/storage area below. The discretionary applications required for this project are Modifications to permit construction within the required thirty-foot front setback (SBMC §28.15.060); for the required open yard to be provided in portions of the front yard and with dimensions less than 20 feet (SBMC §28.15.060), and for walls to exceed 3 ½' in height when located within ten-feet of a front lot line or within twenty-feet along the driveway (SBMC §28.87.170). This is a revision to a previous project that received Modification approvals for similar improvements in 2006. Those approvals have since expired.

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Guidelines Section 15303 & 15305.
