II. PROJECTS:

A. **APPLICATION OF BILDSTEN + SHERWIN DESIGN STUDIO INC., ARCHITECT FOR ROBERT & CINDY PANGBORN, 1608 LA CORONILLA DRIVE, APN 035-033-015, E-1 ZONE, GENERAL PLAN DESIGNATION: LOW DENSITY RESIDENTIAL (MST2012-00216)**

The 15,516 square foot project site is currently developed with a 2,322 square foot, single-family residence. The proposed project involves demolition and replacement of an existing 940 square foot, second-story deck. The City issued a building permit for the deck in error in 1978, as the location of the deck was misrepresented on the site plan associated with that permit, which showed the deck to be outside of all setbacks. The discretionary application required for this project is a Modification to allow the new deck to encroach into the ten-foot interior setback no more than the existing deck (SBMC § 28.15.060 and 28.92.110).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15301 (Existing Facilities) and 15305 (Minor Alterations in Land Use Limitations).

The 7,405 square-foot site is currently developed with a 1,336 square foot one-story residence with an attached garage. The proposed project involves a 216 square foot one-story addition located partially within the front setback, the permitting of a 32 square foot Juliet style balcony in the interior setback, and the construction of garden walls, fencing, and a driveway gate.

The discretionary applications required for this project are:

1. A Modification to allow the balcony to encroach into the required ten-foot (10') interior setback (SBMC § 28.15.060 and 28.92.110); and
2. A Modification to allow an additions and alterations to existing residence within the required thirty-foot (30') front setback (SBMC § 28.15.060 and 28.92.110).

The 29,259 square-foot project site is currently developed with a two-story, 3,151 square foot residence and 527 square foot attached garage. The subject application is a proposal to permit the following "as-built" construction: split-level patio with deck, outdoor fireplace, barbeque, counter, and sink; retaining walls; entry pilasters; stairs and new front entry.
