DESIGNATION: LOW DENSITY RESIDENTIAL (MST2013-00118)**

The 18,900 square-foot site is located in the Hillside Design District and is currently developed with a 1,992 square foot, one-story residence and a detached 481 square foot garage. The proposed project involves one-story additions totaling 722 square feet to the existing residence, construction of a 251 square foot attached garage, permitting of as-built site walls, and the remodel of the existing detached garage. The project will result in a 2,714 square foot one-story residence with an attached 251 square foot garage and a 481 square foot detached garage. A similar project was reviewed earlier and required review by the Single Family Design Board (SFDB). This is a revised project that does not require review by the SFDB.

The discretionary applications required for this project are:

1. A Modification to allow alterations, including an increase in roof pitch, to the detached garage within the required thirty-foot front setback (SBMC § 28.15.060 and SBMC § 28.92.110); and
2. A Modification to allow the total garage floor area to exceed the maximum allowable of 500 square feet. (SBMC § 28.87.160 and SBMC § 28.92.110.)

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15301.
