II. CONSENT ITEMS**ACTUAL TIME: 9:03 A.M.****A. APPLICATION OF ALICIA HARRISON, BROWNSTEIN HYATT FARBER SCHRECK, AGENT FOR 800 SANTA BARBARA STREET LLC, APN: 031-012-028, C-2, COMMERCIAL ZONE, GENERAL PLAN DESIGNATION: COMMERCIAL/HIGH DENSITY RESIDENTIAL (MST2006-00129)**

This is a request for a two year time extension for the Tentative Map approved by the City Council on September 30, 2008 for 800 Santa Barbara Street. The approved Map was originally set to expire on September 30, 2010; however, with the statutory extensions provided by the State and a one-year time extension approved by the Staff Hearing Officer in 2016, the expiration date was extended to September 30, 2017. A second time extension request was timely submitted prior to this expiration date. Due to specific requirements needed for this particular project to obtain building permits, staff is recommending that the Staff Hearing Officer approve a two year time extension to September 30, 2019.

The 2008 approved project consists of the demolition of the existing 1,965 square-foot one-story commercial building and the construction of a 14,747 square-foot, two- and three-story mixed-use building containing six residential condominium units and ten commercial condominiums. The residential mix includes five three-bedroom units and one two-bedroom unit, ranging in size from 1,316 square feet to 2,249 square feet. The commercial condominiums total 4,605 square feet of non-residential floor area. Twenty-seven parking spaces are provided in an underground parking structure, with eleven of those spaces provided to 223 E. De la Guerra Street through a lease agreement. The project is approved under the variable density standards applicable in 2008.

Alicia Harrison, Applicant, gave the Applicant presentation.

Megan Arciniega, Associate Planner, gave the Staff presentation and recommendation.

Ms. Reardon announced that she read the Staff Report for the proposed project and also visited the site and surrounding neighborhood.

ACTION:**Assigned Resolution No. 060-17**

Approved the Two-Year Time Extension to September 30, 2019, for the Tentative Map originally approved by City Council on September 30, 2008, including statutory extensions provided by the State and subsequent one-year granted extension by the Staff Hearing Officer to September 30, 2017, making the findings as outlined in the Staff Report dated September 7, 2017.

Said approval is subject to the original Conditions of Approval contained in the original Planning Commission Resolution No. 022-08, dated June 12, 2008.

III. PROJECTS**ACTUAL TIME: 9:09 A.M.****A. APPLICATION OF FRANK ROGUE, AGENT FOR TERI TUASON, 601 ALAMEDA PADRE SERRA, APN 031-261-004, R-2 TWO-FAMILY RESIDENCE ZONE, GENERAL PLAN LAND USE DESIGNATION: MEDIUM-DENSITY RESIDENTIAL (12 DU/ACRE) (MST2014-00422)**

The 7,405 square foot site is currently developed with 1,759 square foot two-story single-family dwelling with an attached 400 square foot two-car garage. The existing residence is legal nonconforming since it encroaches into the 15-foot setback on the easterly side (Alameda Padre Serra). The proposed project involves construction of a new 1,193 square foot three-story attached second unit with a 523 square foot garage. The project also includes changes to the roof pitch of the existing dwelling, and the addition of a 345 square foot roof deck.

The discretionary applications required for this project are:

1. A Lot Area Modification to allow a second unit in a R-2 Zone with less than the required lot area for lots with 10-20% slopes (SBMC §28.18.075.F and §28.92.110);
2. A Front Yard Setback Modification to allow less than the required setbacks for the existing nonconforming residence to remain in place with substantial exterior alterations (i.e. roof change and second-unit addition) as well as encroachment of a second-floor balcony on the proposed second unit per SBMC §28.87.030.D and §28.92.110; and
3. An Open Yard Modification to allow less than the required open yard area (SBMC §28.92.110).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15303, New Construction and Conversion of Small Structures, which includes construction of a second dwelling unit in a residential zone.

Megan Arciniega, Associate Planner, gave the Staff presentation and recommendation.

Frank Rogue, Agent, gave the Applicant presentation and clarified his reasons for the requested modifications.

Ms. Reardon announced that she read the Staff Report for the proposed project and also visited the site and surrounding neighborhood.

Public comment opened at 9:30 a.m.

Robert Betancourt, property owner across from the project, spoke in opposition to the project.

Teri Tuason, owner, spoke in support of the project.

Correspondence from b. j. Danetra and Bruce and Trudi Ramsey in opposition was acknowledged.

Public comment closed at 9:37 a.m.

Ms. Reardon stated she could make the required findings for the requested lot area modification and open yard modification.

However, Ms. Reardon stated that due to the fact that the Single Family Design Board could not support the design nor find that the requested modifications are aesthetically appropriate, and the fact that the application for the front setback does not promote uniformity of improvement, is not appropriate for the lot, and is not consistent with the purposes and intent of the Zoning Ordinance, she could not make the required findings for the front setback modification.

ACTION: **Assigned Resolution No. 061-17**
Approved the Lot Area Modification and Open Yard Modification, and denied the Front Yard Setback Modifications, making the findings as outlined in the Staff Report dated September 6, 2017, and as revised at the hearing.

Said approval is subject to the conditions as outlined in the Staff Report dated September 6, 2017.

The ten calendar day appeal period to the Planning Commission was announced, and that the action is subject to suspension for review by the Planning Commission.
