The 4,235 square-foot site is currently developed with a single family residence and no on-site parking. The proposed project involves two new uncovered parking spaces located within the secondary front setback along Quinto Street. The project includes requests for Minor Zoning Exceptions for proposed over-height fences along both Quinto Street and De La Vina Street and a driveway gate along Quinto Street. Additionally, new doors and windows, utility upgrades, new siding, an interior remodel, along with site improvements such as rain gutter installation, are proposed. A waiver from the Public Works Director for the proposed driveway gate, and a waiver from the Single Family Design Board for reduced screening for the uncovered parking is also requested. This project will abate violations identified in ZIR2014-00412. The discretionary applications under the jurisdiction of the Staff Hearing Officer required for this project are:

1. Modification to allow for two uncovered parking spaces instead of covered spaces (SBMC §30.175.030.N.1 and SBMC §30.250.030.B);
2. Front Setback Modification to allow for uncovered parking in the required front setback fronting Quinto Street (SBMC Table 30.20.030.B and SBMC §30.250.030.B); and

3. Open Yard Modification to allow for a reduction in the nonconforming open yard to accommodate the proposed uncovered parking (SBMC §30.165.100 and SBMC §30.250.030.B).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15301 (Existing Facilities) and 15305 (Minor Alterations in Land Use Limitations).
