

## City of Santa Barbara Transportation & Circulation Committee Staff Report

**DATE:** December 10, 2015

**TO:** Transportation and Circulation Committee

**FROM:** Browning Allen, Transportation Manager

**SUBJECT:** Citywide: 2015 Bicycle Master Plan, Draft Document

---

### **RECOMMENDATION:**

That the Transportation and Circulation Committee (TCC) finalize the draft BMP and recommend that Council adopt the plan.

### **DISCUSSION:**

This meeting is being held for the TCC to receive and review the revisions to the Draft 2015 Bicycle Master Plan (BMP) that were made since the October 29, 2015 joint meeting held with the Planning Commission.

The meeting provides an opportunity for the TCC to finalize the Draft BMP. Minor editorial and word choice changes were not tracked but significant changes and additions are shown in pink font. The TCC is being asked to recommend that Council adopt the plan in January or February of 2016.

### **NEXT STEPS:**

The Draft BMP is also scheduled for review at the Planning Commission the afternoon of December 10, 2015, prior to being taken to Council for final action. Neighborhood, business, advisory body and community interests have been gathered and analyzed and have significantly shaped the BMP document. The consultant team, with staff's help, has used the information gathered to design a plan that meets a majority of the public desires received through the engagement process.
