- *1 Groundwater recharge & Blend Water not part of potable system use.
- *2 Based on 2013 potable system production of 13,765 AF with 30% conservation.
- *3 Cachuma Balance: Net of entitlement, carryover, spills, & transfers, per COMB
- *4 Effective 2011 WY, Net Production to Distribution System (Meter Distr. Flow - EEWTP process water).
- *5 Planned blend water assumes additional downtime for recycled system repairs.
- *6 Groundwater from Storage Unit #3 is non-potable water serving recycled water demands.

Annual Flow is Calculated Adjusted Influent Flow

Recycled Production by Source of Supply for 2019 (Acre-Feet)

City of Santa Barbara
Public Works Department

Interoffice Memorandum

DATE: May 15, 2019
TO: Water Commission
FROM: Joshua Haggmark, Water Resources Manager
SUBJECT: Water Supply Update

Following is the status of implementation of Pass Through Operations under the 1989 Upper Santa Ynez River Operations Agreement ("Pass Through Agreement"). There have been no significant changes since the last update, which is provided below.

Reclamation's Environmental Assessment and Finding of No Significant Impact

City staff presented Reclamation with responses to their remaining technical questions. City staff continues to wait for a response from the Area Manager regarding remaining issues on Reclamation's EA.

Warren Act Contract

In parallel with the above, negotiations continue on suitable language for the Warren Act contract. Staff is working to ensure that Reclamation's standard template is modified as necessary to reflect the unique provisions of the Pass Through Agreement. The effort also includes consideration of Warren Act requirements associated with the conveyance of Gibraltar water through Cachuma Project facilities, specifically Lauro Reservoir. Staff met with Reclamation on June 6, 2018 to clarify the City's water rights as they relate to the draft contract. Staff met with Reclamation again on September 6, 2018 to further develop suitable Warren Act contract language and to further clarify the City's water rights.

cc: Kelley Dyer, Water Supply Manager
