

Role and Responsibility of Water Commission

The following information was generated to provide clarity to Council, Water Commission, and staff on what subjects require a Council briefing/discussion ahead of Water Commission. In addition, several additional actions were also agreed upon to enhance the effectiveness of Water Commission. This information was reviewed, discussed, and agreed upon at a meeting on September 12, 2016 between the Water Commission Chair and Vice Chair and the Mayor and Council Liaison to the Water Commission. This document was agreed to be updated annually at the Water Commission Work Session.

Summary of Discussion:

Items to Water Commission for input, information, or policy recommendations to Council:

- Water use regulations
- Budget development and Capital Improvement Plan
- Water and Wastewater Rates
- Water and Wastewater Capacity Fees
- Water and Wastewater Operational changes that significantly alter Water Quality
- Water Distribution Program Updates:
 - Meters
 - Reservoirs
 - Pump stations
 - Mains
- Gibraltar Pass-through Agreement
- Supplemental Water Purchases
- Cachuma Master Contract Renewal
- Public Outreach
- Recycled Water production and plant operations
- Water supply planning (i.e., long term water supply planning updates)
- Water and Wastewater infrastructure planning

Routine Work Items that will not go to Water Commission but require Council action:

- Renewal of Recycled Water User Agreements
- Easements for water meters on private property
- Routine contracts for services (chemicals and materials)

Items to Water Commission after written briefing sent to Council:

- Desal status
- Desal Expansion
- State Water Rights Order
- Biological Opinion
- Cachuma pipeline extension

Items to be addressed with Council directly:

- Any potential or active litigation
- Water Sales Agreement with Montecito Water District
- Wastewater Consent Decree
- Drought related Water Quality violations

Enhanced Water Commission Effectiveness:

- The Council Liaison will attend Water Commission meetings as often as possible.
- A representative from the City Attorney's Office will be in attendance at Water Commission meetings.
- The Water Supply Manager/Water Resources Manager will provide a regular briefing to Water Commission on COMB, CCRB, and CCWA issues.
- Continue monthly briefings with Council Liaison and Water Commission Chair and Vice Chair for enhanced discussion and improved succession planning.
- Items covered in drought updates to Council will be in accordance with the communication strategy outlined above.
- 2-Person Water Commission Ad-Hoc groups for enhanced engagement as needed by staff.
 - Examples:
 - Water and Wastewater rates
 - Long-Term Water Supply Plan
 - Cachuma Contract Renewal
