

Santa Barbara City Fire Department - Standard Operating Procedures Training Operations	Code: T-II-2
General Instructions - Captain	
Chpt: II Hose Lays	Revised: 3/21/13 Pages: 1

I. PROCEDURES

- A. When giving orders, the captain shall give orders to the engineer before leaving the cab, and again to the firefighter where the firefighter is riding in the apparatus.
- B. The captain shall always go to the left side of the rear of the engine when laying hose.
- C. When captain gives "Order to Proceed" to the engineer, he shall step to the left of the engine far enough for the engineer to see him.
- D. The captain shall then say the words "Go-Ahead" and at the same time give the hand signal. (The hand signal shall consist of raising the arm vertically from the shoulder, palm front, then bringing the arm forward and down to the side of the body.)
