3. Street Tree Advisory Committee. If the application is referred to the Street Tree Advisory Committee by the Director or at the request of the applicant or any interested person, the application shall be presented to the Street Tree Advisory Committee at the next available meeting of the Committee. The Street Tree Advisory Committee shall consider the application and make a recommendation to the Parks and Recreation Commission to approve, conditionally approve, or deny the application. When making its recommendation, the Street Tree Advisory Committee shall consider the following factors:

a. Whether such tree is designated as an historic or specimen tree;

b. Whether the tree species and placement conform to the “Master Street Tree Plan;"
c. The condition and structure of the tree and the potential for proper tree growth and development of the tree canopy;
d. The number and location of adjacent trees on City property and the possibility of maintaining desirable tree density in the area through additional planting on City property; and
e. Any beneficial effects upon adjacent trees to be expected from the proposed removal.

4. Parks and Recreation Commission. Once the Street Tree Advisory Committee has made its recommendation, the application and the Street Tree Advisory Committee’s recommendation shall be presented to the Parks and Recreation Commission at the next available meeting of the Commission. After receiving the recommendation of the Street Tree Advisory Committee and a recommendation from the Director, the Parks and Recreation Commission shall approve, conditionally approve, or deny the application. When making its decision, the Parks and Recreation Commission shall consider the following factors:
   a. Whether such tree is designated as an historic or specimen tree;
   b. Whether the tree species and placement conform to the “Master Street Tree Plan;”
   c. The condition and structure of the tree and the potential for proper tree growth and development of the tree canopy;
   d. The number and location of adjacent trees on City property and the possibility of maintaining desirable tree density in the area through additional planting on City property; and
   e. Any beneficial effects upon adjacent trees to be expected from the proposed removal. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4327, 1985; Ord. 4245, 1983.)

15.20.115 Work Without a Permit – Unlawful Acts.

It is unlawful for any person, except a person acting at the direction of the Director, to plant, prune, trim, perform maintenance on, or remove any tree planted in a parkway strip, tree well, public area or street right-of-way without the permit required pursuant to Section 15.20.110 of this Code. (Ord. 5505, 2009.)

15.20.120 Permit for Maintenance or Removal - Time Limit.

Any work authorized by a permit shall be done under the general supervision of the Director and in accordance with rules established by the Director. All costs incurred in maintaining or removing a tree as permitted pursuant to this Chapter 15.20 shall be borne by the permittee. When a tree is removed under permit, the Director or Parks and Recreation Commission may require a replacement tree to be planted, and all costs related to the replacement tree shall be borne by the permittee. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.130 Conditions of Approval for Maintenance or Removal.

Any person, business, or corporation who receives a permit to maintain or remove an official or parkway tree shall comply with all of the following conditions:
A. Carry public liability and property damage insurance in an amount to be determined by the City Council, and maintain a current certificate of such insurance on file with the City Clerk.
B. Conduct all maintenance activities in compliance with the current pruning standards published by the American National Standards Institute [ANSI A300] and the companion best management practices published by the International Society of Arboriculture. The Director or the Parks and Recreation Commission may require written specifications for the work proposed as a condition of the permit.
C. Post a performance bond in the amount equal to the cost of a proposed job, if required by the Director. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4327, 1985; Ord. 4245, 1983.)

15.20.140 Interference with Work Prohibited.

No person shall interfere, or cause any person to interfere with, any work being done under provisions of this chapter by any employee of the City or any person or firm doing work for the City on bid, hire or assignment. (Ord. 4245, 1983.)

15.20.150 Injuring Trees - Unlawful Acts.

It is unlawful for any person to injure or destroy any tree growing within a City street right-of-way or in public areas by any means, including, but not limited to the following:
A. Constructing a concrete, asphalt, brick or gravel sidewalk or otherwise filling up the ground area around any tree so as to substantially shut off air, light or water from its roots;
B. Piling building equipment, material or any other substance around any tree so as to cause injury;
C. Pouring any deleterious matter on or around any tree or on the surrounding ground, lawn or sidewalk;
D. Posting any sign, poster, notice or otherwise on any tree, tree stake or guard, or fastening any guy wire, cable, rope, nails, screws or other device to any tree, tree stake or guard without having first obtained a permit from the Director;
E. Causing any wire charged with electricity to come in contact with any tree without having first obtained a permit from the Director;
F. Causing any fire or burning near or around any tree. (Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.160 Appeals to Parks and Recreation Commission.

Any applicant or interested person may appeal a decision of the Director regarding a permit required for planting or maintaining a tree in a street right-of-way or public area by filing a written notice thereof with the Parks and Recreation Department within ten days after such decision is made. Implementation of the decision shall be stayed during the pendency of the appeal. The notice shall clearly specify the reasons for the appeal. The appeal shall be placed on the agenda of the Parks and Recreation Commission at its next available meeting. The Parks and Recreation Commission shall make a ruling based on the evidence presented, and may sustain, modify or reverse the decision of the Director. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.170 Appeals to City Council.

Any action of the Parks and Recreation Commission made pursuant to this Chapter 15.20 may be appealed to the City Council pursuant to the provisions of Section 1.30.050 of this Code. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 5136, 1999; Ord. 4245, 1983.)

15.20.180 Designation of "Specimen" and "Historic" Trees.

Any recommendation by the Parks and Recreation Commission or the Historic Landmarks Commission to City Council for the designation of a "Specimen" or "Historic" tree shall be preceded by two public hearings, which shall be at least 30 days apart. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4245, 1983.)

### 15.24.001 Title.

Recognizing that trees on private property can make valuable contributions to the urban forest of the City of Santa Barbara, this chapter shall be known as and may be cited and referred to as the "Tree Preservation Ordinance of the City of Santa Barbara." (Ord. 5505, 2009.)

### 15.24.002 Use of American National Standards Institute Pruning Standards.

The City follows the pruning standards published by the American National Standards Institute [ANSI A300] and the companion best management practices published by the International Society of Arboriculture in the care and maintenance of City trees. The City encourages residents to utilize and follow the current standards and best management practices in the care and maintenance of their trees. (Ord. 5505, 2009.)

### 15.24.010 Definitions.

For the purpose of this Chapter, certain terms and words are hereby defined as follows:

- **TREE.** A usually tall, woody plant, distinguished from a shrub by having comparatively greater height and, characteristically, a single trunk rather than several stems;
- **PALM TREE.** Any tree from the Palmae plant family;
- **SPECIMEN TREE.** Any tree which has been found by the Parks and Recreation Commission to be of high value because of its type and/or age and which has been designated by resolution of the City Council as a "specimen tree";
- **HISTORIC TREE.** A tree which has been found by the Parks and Recreation Commission, the Historic Landmarks Commission or the City Council to be a tree of notable historic interest and has been designated by resolution of the City Council as an "historic tree". For purposes of this definition, trees designated by the City Council as an “historic tree” or an “historic landmark tree” shall be treated as “historic trees”;
- **DIRECTOR.** The Director of the City’s Parks and Recreation Department or the Director’s designated representative.
- **REMOVE A TREE.** To cut a tree down or to otherwise remove a tree from its location by any means.
- **SETBACK TREE.** A tree located in the front setback of any lot as the term front setback is defined and specified in Title 28 of this Code, the Zoning Ordinance. A tree is a setback tree if more than 50% of the tree trunk, measured at the highest natural grade adjacent to the trunk, is within the front setback.
- **PARKING LOT TREE.** A tree situated in a planter required pursuant to Section 28.90.050 of this Code.
- **SIGNIFICANTLY ALTER A TREE.** To prune a tree in such a way that either (i) its natural character is significantly altered, or (ii) the height and/or spread of the tree crown is reduced by more than one-quarter within any twelve-month period.
- **TREE CROWN.** The leaves and branches of a tree measured from the lowest branch on the trunk to the top of the tree.
- **TREE ON AN APPROVED PLAN.** A tree shown on an approved plan on record with the City for a lot developed with a commercial, multiple-family residential, or industrial use. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4619, 1990; Ord. 4154, 1982; Ord. 3863, 1976; Ord 3360, 1969.)
15.24.020 Prohibition.

Except as provided in Sections 15.24.030 and 15.24.035, it is unlawful for any person to remove or significantly alter or to authorize or allow the removal or significant alteration of any of the following trees without a permit:
A. A setback tree,
B. A parking lot tree,
C. A tree on an approved plan, or
D. A tree designated as an historic or specimen tree by the City Council.  (Ord. 5505, 2009; Ord. 5459, 2008; Ord. 5312, 2004; Ord. 4154, 1982; Ord. 3863, 1976; Ord. 3360, 1969.)

15.24.030 Lawful Removal of Trees Without a Permit.

Notwithstanding the prohibition specified in Section 15.24.020, a tree that is subject to the prohibition specified in Section 15.24.020 may be lawfully removed without a permit if the tree satisfies any one of the following definitions:
A. The main trunk of the tree is less than four inches (4”) in diameter at a point four feet six inches (4’6”) above the highest natural grade adjacent to the trunk;
B. The tree is diseased, and the tree's condition is a source of present danger to healthy trees in the immediate vicinity; provided, a certificate attesting such condition has been filed with the Parks and Recreation Director by a member of the American Society of Consulting Arborists, an arborist certified by the International Society of Arboriculture, or by an authorized employee of the City Parks and Recreation Department at least forty-eight (48) hours prior to the removal of the tree;
C. The tree is so weakened by age, disease, storm, fire, or any injury so as to cause imminent danger to persons or property; provided, prior written notice of such condition has been given to the Parks and Recreation Director at least forty-eight (48) hours prior to the removal of the tree, or shorter period if approved by the Parks and Recreation Director;
D. The tree is dead; provided, prior written notice of such condition has been given to the Parks and Recreation Director at least forty-eight (48) hours prior to the removal of the tree, or shorter period if approved by the Parks and Recreation Director; or
E. The Fire Department has ordered the tree removed in order to maintain required defensible space on the lot or to comply with the City’s Wildland Fire Plan.

If the tree to be removed pursuant to this Section is located on a lot within El Pueblo Viejo Landmark District or the Brinkerhoff Avenue Landmark District, and the removal of the tree will significantly affect the exterior visual qualities of the lot, the Parks and Recreation Director or the Community Development Director may require the replacement of the tree with a tree approved by the Historic Landmarks Commission.  (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4154, 1982; Ord. 3863, 1976; Ord. 3360, 1969.)

15.24.035 Lawful Significant Alteration of Trees Without a Permit.

Notwithstanding the prohibition specified in Section 15.24.020, a tree that is subject to the prohibition specified in Section 15.24.020 may be significantly altered without a permit if the tree satisfies either of the following definitions:
A. The tree poses a potential danger to persons or property due to age, disease, storm, fire, or other injury; provided:
  1. A written report prepared by a member of the American Society of Consulting Arborists or an arborist certified by the International Society of Arboriculture specifying the reason(s) for the reduction and the extent of the proposed work is filed with the Parks and Recreation Director; and
  2. An authorized employee of the City Parks and Recreation Department assesses the condition of the tree and approves the proposed work as comporting with sound arboricultural practices as specified in the American National Standards Institute tree pruning standards [ANSI A300].
B. The City Fire Department has ordered the pruning of the tree in order to maintain required defensible space or to comply with the City’s Wildland Fire Plan; provided, the scope of the pruning allowed pursuant to this section is limited to the extent of the pruning specified in the Fire Department order that is filed with the Parks and Recreation Director.  (Ord. 5505, 2009; Ord. 5312, 2004.)

15.24.040 Application to Remove a Setback Tree.

When a permit is required for the removal of a setback tree pursuant to this Chapter 15.24, the application for such permit shall be processed as follows (excluding trees on lots within El Pueblo Viejo Landmark District or the Brinkerhoff Avenue Landmark District, which are processed pursuant to Section 15.24.055):
A. APPLICATION. An application shall be filed with the Parks and Recreation Department on forms provided for such purpose. The application shall show the location and identity of the tree or trees sought to be removed by diagram or plot plan and photograph(s), the name and address of the owner, and such other information as indicated on the form provided.
B. STREET TREE ADVISORY COMMITTEE RECOMMENDATION. The application shall be presented to the Street Tree Advisory Committee at the first available meeting of the Committee following receipt of the application. The Street Tree Advisory Committee may receive a report from the Parks and Recreation Director regarding the application, and the Committee shall make a recommendation to the Parks and Recreation Commission to approve, conditionally approve, or deny the application based on the considerations specified in Section 15.24.080.

C. DECISION ON APPLICATION. The application shall be presented to the Parks and Recreation Commission at the first available meeting of the Commission after the Street Tree Advisory Committee has made its recommendation. After receiving the recommendation of the Street Tree Advisory Committee and a report from the Parks and Recreation Director, the Parks and Recreation Commission shall approve, conditionally approve, or deny the application. When making its decision, the Parks and Recreation Commission shall consider the factors listed in Section 15.24.080 and make one or more of the findings specified in Section 15.24.090. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 3863, 1976; Ord. 3360, 1969.)

15.24.050 Application to Remove a Parking Lot Tree or a Tree on an Approved Plan.

When a permit is required for the removal of a parking lot tree or a tree on an approved plan pursuant to this Chapter 15.24, the application for such permit shall be processed as follows (excluding trees on lots within El Pueblo Viejo Landmark District or the Brinkerhoff Avenue Landmark District, which are processed pursuant to Section 15.24.055):

A. APPLICATION. An application shall be filed with the Community Development Department on forms provided for such purpose. The application shall show the location and identity of the tree or trees sought to be removed by diagram or plot plan and photograph(s), the name and address of the owner, and such other information as indicated on the form provided.

B. DECISION ON APPLICATION. The application shall be presented to the Architectural Board of Review at the first available meeting of the Board. After receiving a report from the Community Development Director, the Architectural Board of Review shall approve, conditionally approve, or deny the application. When making its decision, the Architectural Board of Review shall consider the factors listed in Section 15.24.080 and make one or more of the findings specified in Section 15.24.090. (Ord. 5505, 2009.)

15.24.055 Application to Remove a Tree Located in El Pueblo Viejo Landmark District or the Brinkerhoff Avenue Landmark District.

When a permit is required for the removal of a tree pursuant to this Chapter 15.24, and the tree is located on a lot within El Pueblo Viejo Landmark District or the Brinkerhoff Avenue Landmark District (except historic or specimen trees, which are processed pursuant to Section 15.24.060), the application for such permit shall be processed as follows:

A. APPLICATION. An application shall be filed with the Community Development Department on forms provided for such purpose. The application shall show the location and identity of the tree or trees sought to be removed by diagram or plot plan and photograph(s), the name and address of the owner, and such other information as indicated on the form provided.

B. DECISION ON APPLICATION. The application shall be presented to the Historic Landmarks Commission at the first available meeting of the Commission. After receiving a report from the Community Development Director, the Historic Landmarks Commission shall approve, conditionally approve, or deny the application. When making its decision, the Historic Landmarks Commission shall consider the factors listed in Section 15.24.080 and make one or more of the findings specified in Section 15.24.090. (Ord. 5505, 2009.)

15.24.060 Application to Remove an Historic or Specimen Tree.

When a permit is required for the removal of an historic or specimen tree pursuant to this Chapter 15.24, the application for such permit shall be processed as follows:

A. APPLICATION. An application shall be filed with the Parks and Recreation Department on forms provided for such purpose. The application shall show the location and identity of the tree or trees sought to be removed by diagram or plot plan and photograph(s), the name and address of the owner, and such other information as indicated on the form provided.

B. STREET TREE ADVISORY COMMITTEE RECOMMENDATION. The application shall be presented to the Street Tree Advisory Committee at the first available meeting of the Committee following receipt of the application. The Street Tree Advisory Committee may receive a report from the Parks and Recreation Director regarding the application, and the Committee shall make a recommendation to the Parks and Recreation Commission to approve, conditionally approve, or deny the application based on the considerations specified in Section 15.24.080.

C. DECISION ON APPLICATION. The application shall be presented to the Parks and Recreation Commission at the first available meeting of the Commission after the Street Tree Advisory Committee has made its recommendation. After receiving the recommendation of the Street Tree Advisory Committee and a report from the Parks and Recreation Director, the Parks and Recreation Commission shall approve, conditionally approve, or deny the application. When making its decision, the Parks and Recreation Commission shall consider the factors listed in Section 15.24.080 and make one or more of the findings specified in Section 15.24.090. (Ord. 5505, 2009.)
15.24.070 Action on Permit Application.

As provided in Sections 15.24.040 through 15.24.060 above, the Parks and Recreation Commission, the Historic Landmarks Commission, or the Architectural Board of Review (as applicable) shall vote upon the application within sixty (60) days after it is filed. A majority vote of the members present shall be required to approve a tree removal. A failure to vote to approve, conditionally approve, or deny the application within sixty (60) days shall be deemed an approval of the application without condition. When a decision is made by the appropriate Board or Commission, the City Department processing the application shall notify the applicant in writing of the decision. (Ord. 5505, 2009.)

15.24.080 Considerations for Removal.

The following considerations shall be taken into account by the Parks and Recreation Commission, the Historic Landmarks Commission, or the Architectural Board of Review, as applicable, in acting upon a tree removal request made pursuant to this chapter:
A. Whether such tree is designated as an historic or specimen tree;
B. The potential size of the tree in relation to the size of the lot or building site and the size of the proposed or existing improvements;
C. The number and size of other trees which would remain upon the building site after the requested removal;
D. The number and location of adjacent trees on City property and the possibility of maintaining desirable tree density in the area through additional planting on City property;
E. Any beneficial effects upon adjacent trees to be expected from the proposed removal;
F. Whether the tree sought to be removed was planted by or with the permission of the applicant or the applicant's co-tenant at the time such tree was planted.
G. The condition and structure of the tree and the potential for proper tree growth and development of the tree canopy. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 3863, 1976; Ord. 3360, 1969.)

15.24.090 Findings for Removal.

Before approving or conditionally approving an application for the removal of a tree pursuant to this Chapter 15.24, the Parks and Recreation Commission, the Historic Landmarks Commission, or the Architectural Board of Review, as applicable, shall make one (1) or more of the following findings:
A. That principles of good forest management will best be served by the proposed removal;
B. That a reasonable and practical development of the property on which the tree is located requires removal of the tree or trees whose removal is sought;
C. That the character of the immediate neighborhood with respect to forestation will not be materially affected by the proposed removal;
D. That topography of the building site renders removal desirable;
E. That regard for the safety of persons or property dictates the removal. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 3863, 1976; Ord. 3360, 1969.)

15.24.100 Appeals to City Council.

Any action of the Parks and Recreation Commission, the Historic Landmarks Commission, or the Architectural Board of Review made pursuant to this Chapter 15.24 may be appealed to the City Council pursuant to the provisions of Section 1.30.050 of this Code. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 5136, 1999; Ord. 3863, 1976.)

15.24.110 Other City Regulations Related to Trees and Landscaping.

For purposes of reference, the following provisions of this Code also concern the maintenance of trees and plants within the City of Santa Barbara:
A. Section 8.04.020.G.5 & 6: Fire Code Vegetation Management and Defensible Space Requirements
B. Chapter 8.20: “Vegetation Obstructing Public Places”
C. Chapter 15.20: “Tree Planting and Maintenance”
D. Chapter 22.10: “Vegetation Removal”
E. Chapter 22.11: “Maintenance of Approved Landscape Plans”
F. Section 22.22.130: “Approval for Construction, Demolition, Moving or Exterior Alteration” (El Pueblo Viejo Landmark District and Brinkerhoff Avenue Landmark District)
G. Chapter 22.68: “Architectural Board of Review” (Landscape Plans)
H. Chapter 22.69: “Single Family Design Board” (Landscape Plans)
I. Chapter 22.76: “View Dispute Resolution Process”
J. Section 28.87.170: “Fences, Walls, Screens and Hedges”
K. Section 28.87.200: “Landscape or Planting Plan Approvals - Standards”
L. Section 28.90.050: “Landscape and Lighting” (Parking Lot Design Standards) (Ord. 5505, 2009.)

Chapter 16.02
GENERAL PROVISIONS

16.02.010 Purpose.

The purpose of this Title is to protect the Waters of the State; provide against pollution of streams, creeks and storm drains; control and regulate Discharges to storm drains; and to control and regulate all Discharges of Waste or Wastewater into, either directly or indirectly, the sewerage system and Publicly-Owned Treatment Works (POTW) of the City of Santa Barbara. (Ord. 5675, 2014; Ord. 5087, 1998; Ord. 4589, 1989; Ord. 3883, 1977.)

16.02.020 Scope; Conflict With Other Provisions of Code.

A. GENERAL APPLICABILITY. This Title establishes rules, regulations, and standards for the elimination of Pollutants, and governs the quality and quantity of discharged Wastes, the degree of waste pretreatment required, the issuance of Wastewater Discharge Permits, the assessment of fees and charges and the imposition of penalties for violation of this Title. Subject to the exception of subsection B hereof, the provisions of this Title shall apply to all Discharges, directly or indirectly into the ocean, creeks, lagoons, storm drains and other Waters of the State, and to all Discharges of Wastes and Wastewater directly or indirectly into any Community Sewer or POTW of the City. To the extent that the provisions of this Title are in conflict with any other provisions of this Code, this Title shall prevail. It is not intended, however, that this Title shall operate to repeal any other provisions of this Code or to relieve any responsibility or liability imposed by or incurred under any other provision of this Code.

B. AIRPORT DISCHARGE REGULATIONS. The provisions of this Title that control Discharges into the Community Sewer or POTW of the City shall not apply to Discharges of Wastes and Wastewater into a wastewater treatment system for those areas of the City that are provided sewer service by the Goleta Sanitary District (primarily the City Airport). Rules, regulations and standards governing the quality and quantity of discharged Wastes, the degree of required pretreatment, the issuance of Wastewater Discharge Permits, the assessment of fees and charges for discharge into the Goleta Sanitary District treatment or wastewater system, and the enforcement of applicable ordinances, rules and regulations for the Goleta Sanitary District shall be determined by the Goleta Sanitary District and as described in Ordinances of the Goleta Sanitary District as presently enacted or hereinafter amended. (Ord. 5675, 2014; Ord. 5087, 1998; Ord. 4773, 1992; Ord. 4589, 1989; Ord. 3883, 1977.)

16.02.030 Policy.

A. PROTECTION OF HEALTH, WELFARE AND SAFETY. The City of Santa Barbara protects the health, welfare and safety of its residents by constructing, operating and maintaining a system of local Sewers, pump stations, trunk sewers and interceptors, and liquid waste treatment and disposal facilities that serve homes, industries, commercial establishments, and institutional facilities throughout the City and surrounding area and in accordance with the requirements of State and Federal law. The following policies apply to all Sewage and liquid and industrial Waste discharged directly or indirectly into the POTW:
1. Sewage and liquid and industrial Waste will be accepted into the City sewer system, provided their acceptance will not: (a) threaten or endanger public health, (b) result in Pass Through, (c) create nuisances such as odors, insects, etc., (d) damage structures, (e) impose excessive or unnecessary collection, treatment or disposal costs on the City, (f) significantly interfere with Wastewater collection or treatment processes, (g) interfere with Wastewater and biosolids reclamation processes, (h) exceed quality limits and quantity requirements set forth in this Title or other Applicable Regulations, or (i) cause the City to violate its NPDES Permit.

2. The highest and best use of the sewerage system is the collection, treatment and reclamation or disposal of Commercial, Domestic and Industrial Wastewater.

3. Industrial Users are encouraged to meet the limitations on discharges of industrial Waste and Wastewater through the development and use of recovery and reuse procedures rather than procedures designed solely to meet Discharge limitations.

4. The City is committed to a policy of Wastewater renovation and reuse designed to provide an additional source of water supply and to reduce overall costs of Wastewater treatment and disposal.

5. Optimum use of City facilities may require scheduling discharge of Wastewater during periods of low flow in the sewerage system as established by the Public Works Director.

6. Provisions are made in this Title to regulate industrial and other waste Discharges, to comply with applicable State and Federal government requirements and policies regarding industrial Discharges of Wastes and Wastewaters to Sewers and POTW, and to meet increasingly higher standards for treatment plant effluent quality and related environmental considerations. This Title establishes quantity and quality limitations on Sewage, liquid waste and industrial waste Discharges where such Discharges may adversely affect the sewerage system or the effluent quality. Methods of cost recovery are also established where industrial waste Discharges impose on the City additional, unnecessary or unreasonable collection, treatment, monitoring or disposal costs. Fees and charges for issuance of permits and fines for violations of the provisions of this Title shall be established by resolution of the City Council. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.02.040 Definitions.

Unless otherwise defined herein, terms shall be as adopted in the most recent edition of Standard Methods for the Examination of Water and Wastewater, published by the American Public Health Association, the American Water Works Association, and the Water Environment Federation. Waste constituents and characteristics shall be measured in accordance with the procedures established by the Administrator under Section 304(h) of the Federal Act, and as set forth in detail in methods promulgated or approved pursuant to 40 CFR Part 136, Test Procedures for the Analysis of Pollutants. Methods for sampling and analysis of wastewater may deviate from these regulations only when 40 CFR Part 136 fails to address sampling or analytical techniques for a particular Pollutant or when alternative methods of analysis have been approved by the Administrator as equivalent procedures. Unless the context requires a different meaning, the following words shall have the meaning indicated:

A. ADMINISTRATOR. The EPA Administrator or his or her designee.

B. APPLICABLE REGULATION(S). All City, State, and Federal regulations, rules, laws, ordinances, and codes as they apply to Discharges by Users to, on, or in the POTW and/or any Community Sewer.

C. AUTHORIZED OR DULY AUTHORIZED REPRESENTATIVE OF THE USER.

1. If the User is a corporation:

   a. The president, secretary, treasurer, or a vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation; or

   b. The manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility, including having the explicit or implicit duty of making major capital investment recommendations, and initiate and direct other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations; can ensure that the necessary systems are established or actions taken to gather complete and accurate information for Wastewater Discharge Permit requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

2. If the User is a partnership or sole proprietorship:

   a. A general partner or proprietor, respectively.

3. If the User is a Federal, State, or local government facility:

   a. A director or highest official appointed or designated to oversee the operation and performance of the activities of the government facility, or their designee.

4. The individuals described in subdivisions 1 through 3 above may designate a duly authorized representative if the authorization is in writing. The authorization specifies the individual or position responsible for the overall operation of the facility from which the Discharge originates or having overall responsibility for environmental matters for the facility. This authorization must be made in writing by the principal executive officer or ranking elected official, and submitted to the City prior to or together with any document being submitted.

D. BATCH DUMP or BATCH DISCHARGE. The Discharge of concentrated, Non-Compatible Pollutants of a quality or in a manner or method which does not comply with this Title or other applicable State or Federal laws and regulations.
E. BEST MANAGEMENT PRACTICES or BMPs. The schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to implement the prohibitions listed in 40 CFR Part 403.5(a)(1) and (b). BMPs include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw materials storage.

F. BUILDING SEWER. A Sewer conveying Wastewater from the Premises of a User to a Community Sewer.

G. BENEFICIAL USES. Any and all use of the Waters of the State that are protected against quality degradation, including, but not limited to, domestic, municipal, and agricultural use, use for industrial supply, power generation, recreation, aesthetic enjoyment, or navigation, use for the preservation and enhancement of fish, wildlife and other aquatic resources or reserves, and other beneficial uses, tangible and intangible, as specified by Federal or State law or other Applicable Regulations.

H. BIOCHEMICAL OXYGEN DEMAND or BOD. The quantity of oxygen required for the biochemical oxidation of organic matter under standard laboratory procedures for five (5) days at twenty (20) degrees centigrade, usually expressed as a concentration (e.g., mg/L).

I. BYPASS. The intentional diversion of waste streams from any portion of a User's treatment facility.

J. CALIFORNIA CODE OF REGULATIONS or CCR. The publication of the State of California government containing finalized State regulations.

K. CATEGORICAL INDUSTRIAL USER. Any User subject to a Categorical Pretreatment Standard or Categorical Standard.

L. CATEGORICAL PRETREATMENT STANDARD or CATEGORICAL STANDARDS. Any regulation containing Pollutant Discharge limits promulgated by EPA in accordance with Sections 307(b) and (c) of the Federal Act (33 U.S.C. 1317) that apply to specific category of Users and that appear in 40 CFR Chapter I, Subchapter N, Parts 405-471.

M. CODE OF FEDERAL REGULATIONS or CFR. The publication of the United States government that contains finalized Federal regulations.

N. CITY. City of Santa Barbara.

O. COMMERCIAL USER. Any source of Wastewater Discharge originating from a commercial business.

P. COMMERCIAL WASTEWATER. Liquid wastes originating from a commercial business, excluding Domestic Wastewater and Industrial Wastewater.

Q. COMMUNITY SEWER or SEWER. A sewer owned and operated by the City or other public agency and tributary to the POTW operated by the City.

R. COMPATIBLE POLLUTANT. Pollutants that include Biochemical Oxygen Demand, suspended solids, pH and fecal coliform bacteria. Compatible Pollutants are non-compatible when discharged in quantities that have an adverse effect on the City's collection system, treatment plant or NPDES Permit.

S. CONTAMINATION. An impairment of the quality of the Waters of the State by Waste to a degree which creates a hazard to the public health through poisoning or through the spread of disease, aquatic life, or beneficial uses. Contamination shall include any equivalent effect resulting from the disposal of Wastewater, whether or not Waters of the State are affected.

T. DISCHARGE (including Discharged, Discharging, Discharges). Any spilling, leaking, pumping, pouring, emitting, emptying, injecting, escaping, leaching, dumping, disposing or releasing of any Waste or Wastewater to, on or in the POTW or any Community Sewer.

U. DOMESTIC WASTEWATER. Liquid Wastes (a) from the non-commercial preparation, cooking, and handling of food; or (b) containing human excrement and similar matter from the sanitary conveniences of dwellings, commercial buildings, industrial facilities and institutions and as are distinct from Industrial Wastewater.

V. ENVIRONMENTAL PROTECTION AGENCY or EPA. The United States Environmental Protection Agency or, where appropriate, the Regional Water Management Division Director, the Regional Administrator, or other duly authorized official of said agency.

W. EXISTING SOURCE. Any source of Discharge that is not a “New Source”.

X. FEDERAL ACT. The Federal Water Pollution Control Act, PL 92-500, also known as the Clean Water Act, codified as amended at 33 USC Section 1251 et seq., and any amendments thereto; as well as any guidelines, limitations and standards promulgated by EPA pursuant to the Federal Act.

Y. FOOD ESTABLISHMENT. Any restaurant, kitchen or other similar facility, whether or not operated commercially or for profit, which is required by the County of Santa Barbara to have a permit for the preparation or provision of food for human consumption.

Z. GRAB SAMPLE. A sample that is taken from the wastestream without regard to the flow in the wastestream and over a period of time not to exceed fifteen (15) minutes.

AA. HOLDING TANK WASTE. Any waste discharged from a holding tank, including, but not limited to, vessels, chemical toilets, recreational vehicles, septic tanks, and vacuum pump tank trucks.

BB. INCOMPATIBLE POLLUTANT or NON-COMPATIBLE POLLUTANT. Any Pollutant which is not a Compatible Pollutant as defined in Section 16.02.040 of this Title. Incompatible Pollutants shall be regulated by applicable Pretreatment Standards, as set forth in this Title.

CC. INDUSTRIAL USER. Any source of Industrial Wastewater Discharge.

DD. INDUSTRIAL WASTEWATER. All water-carried Wastes, excluding Domestic Wastewater and Commercial Wastewater, resulting from the processing or manufacture of goods or products.
EE. INTERFERENCE. A Discharge that, alone or in conjunction with a Discharge or Discharges from other sources, inhibits or disrupts the POTW's treatment processes or operations or the processing, use or disposal of sludge by the POTW; or which causes a violation of the City's NPDES Permit or prevents lawful sludge disposal or use in compliance with any of the following statutory/regulatory provisions or permits issued thereunder, or any more stringent State or local regulations: Section 405 of the Federal Act; the Solid Waste Disposal Act, including Title II commonly referred to as the Resource Conservation and Recovery Act (RCRA); any State regulations contained in any State sludge management plan prepared to Subtitle D of the Solid Waste Disposal Act; the Clean Air Act; the Toxic Substances Control Act; and the Marine Protection, Research, and Sanctuaries Act.

FF. LOCAL LIMIT. Specific Discharge limits developed and enforced by the City upon a permitted User to implement general and specific Discharge prohibitions listed in 40 CFR Part 403.5(a)(1) and (b).

GG. LOWER EXPLOSIVE LIMIT or LEL. The minimum concentration of a combustible gas or vapor (usually expressed in percent by volume at sea level) which will ignite if an ignition source (sufficient ignition energy) is present. These concentrations can be found in the National Institute of Occupational Safety and Health Pocket Guide to Chemical Hazards.

HH. MASS EMISSION RATE. The weight of material discharged to the Community Sewer during a given time interval. Unless otherwise specified, the Mass Emission Rate shall mean pounds per day of a particular constituent or combination of constituents.

II. MEDICAL WASTE. Isolation wastes, infectious agents, human blood and blood products, pathological wastes, sharps, body parts, contaminated bedding, surgical wastes, potentially contaminated laboratory wastes, and dialysis wastes.

JJ. NATIONAL PRETREATMENT STANDARD, PRETREATMENT STANDARD or STANDARD. Any regulation containing Pollutant Discharge limits promulgated by the EPA in accordance with Sections 307 (b) and (c) of the Federal Act, which applies to Industrial Users. This term includes prohibitive Discharge limits.

KK. NEW SOURCE.
   1. Any building, structure, facility or installation from which there is (or may be) a Discharge of Pollutants, the construction of which commenced after the publication of proposed Pretreatment Standards under Section 307(c) of the Federal Act that will be applicable to such source if such Standards are thereafter promulgated in accordance with that section, provided that:
      a. The building, structure, facility, or installation is constructed at a site at which no other source is located; or
      b. The building, structure, facility, or installation totally replaces the process or production equipment that causes the Discharge of Pollutants at an Existing Source; or
      c. The production or Wastewater generating processes of the building, structure, facility, or installation are substantially independent of an Existing Source at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the Existing Source should be considered.
   2. Construction on a site at which an Existing Source is located results in a modification rather than a New Source if the construction does not create a new building, structure, facility, or installation meeting the criteria of paragraphs 16.02.040(KK)(1)(b) or (c) of this Title, but otherwise alters, replaces, or adds to existing process or production equipment.
   3. Construction of a New Source as defined under this paragraph has commenced if the owner or operator has:
      a. Begun, or caused to begin, as part of a continuous onsite construction program:
         (1) Any placement, assembly, or installation of facilities or equipment; or
         (2) Significant site preparation work including clearing, excavation, or removal of existing buildings, structures, or facilities which is necessary for the placement, assembly, or installation of New Source facilities or equipment; or
      b. Entered into a binding contractual obligation for the purchase of facilities or equipment which are intended to be used in its operation within a reasonable time. Options to purchase or contracts which can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contract under this paragraph.

LL. NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT or NPDES PERMIT. The permit issued to control Discharges from the POTW to Waters of the United States.

MM. NUISANCE. Anything which is injurious to health or is indecent or offensive to the senses or an obstruction to the free use of property so as to interfere with the comfort or enjoyment of life or property, or which affects at the same time an entire community or neighborhood or any considerable number of Persons, although the extent of the annoyance or damage inflicted upon individuals may be unequal.

NN. PASS THROUGH. A Discharge which exits the POTW into waters of the United States in quantities or concentrations, which alone or in conjunction with a Discharge or Discharges from other sources, is a cause of a violation of any requirement of the City's NPDES Permit, including an increase in the magnitude or duration of a Discharge.
2. The failure of a User on three (3) or more occasions within a twelve-month period to file timely any
report or other document required to be filed by the User pursuant to any applicable regulation.

PP. PERSON. Any individual, partnership, co-partnership, firm, company, association, corporation, joint stock
company, trust, estate, government entity, or any other legal entity, or their legal representatives, agents, or assigns.
This definition includes all Federal, State, and local government entities.

QQ. POLLUTANT. Dredged spoil, solid incinerator residue, filter backwash, sanitary sewage, garbage,
sewage sludge, munitions, Medical Waste, chemical waste, biological materials, radioactive materials, heat, wrecked
or discarded equipment, rock, sand, cellar dirt, municipal, agricultural, and industrial waste, and certain
characteristics of Wastewater (e.g., pH, temperature, TSS, turbidity, color, BOD, COD, toxicity, or odor).

RR. POLLUTION. An alteration of the quality of the Waters of the State by waste to a degree which
unreasonably affects or impairs such waters for Beneficial Use or facilities which serve such Beneficial Uses.
Pollution may include Contamination.

SS. PREMISES. Any land, including any improvements or structures thereon, which is owned, used, occupied,
leased or operated by a User and from or on which Discharges occur or Wastewater is created.

TT. PRETREATMENT. The reduction of the amount of Pollutants, the elimination of Pollutants, or the
alteration of the nature of pollutant properties in Wastewater prior to, or in lieu of, introducing such Pollutants into
the POTW. This reduction or alteration can be obtained by physical, chemical, or biological processes; by process
changes; or by other means, except by diluting the concentration of the Pollutants, unless allowed by an Applicable
Pretreatment Standard.

UU. PRETREATMENT FACILITY. Any wastewater treatment system consisting of one or more treatment
devices designed to remove sufficient Pollutants from waste streams to allow a User to comply with effluent limits.

VV. PRETREATMENT REQUIREMENTS. Any substantive or procedural requirement related to
Pretreatment, other than a National Pretreatment Standard, imposed on a User.

WW. PRETREATMENT STANDARD or STANDARDS. Prohibited Discharge Standards, Categorical
Pretreatment Standards, and Local Limits.

XX. PROCESS WASTEWATER. Any water, which during manufacturing or processing, comes into direct
contact with or results from the production or use of any raw material, intermediate product, finished product, by-
product, or waste product from any industrial, commercial, institutional, or agricultural source.

YY. PROHIBITED DISCHARGE STANDARDS. Absolute prohibitions against Discharge of certain
substances, as specified in this Title.

ZZ. PUBLICLY-OWNED TREATMENT WORKS or POTW. A treatment works, as defined by Section 212
of the Federal Act (33 USC Section 1292), which is owned by the City. This definition includes any devices or
systems used in the collection, storage, treatment, recycling, and reclamation of Sewage or Industrial Wastewater and
any conveyances which convey Wastewater to a treatment plant.

AAA. PUBLIC WORKS DIRECTOR. The Director of Public Works for the City of Santa Barbara or his or
her designated representative.

BBB. SEWAGE. Human excrement and gray water (household showers, dishwashing operations, etc.).

CCC. STANDARD INDUSTRIAL CLASSIFICATION or SIC. The system of classifying industries as
identified in the SIC Manual, 1972, Office of Management and Budget, and as may be amended.

DDD. SIGNIFICANT INDUSTRIAL USER or SIU. Any User who:

1. Discharges an average of 10,000 gallons per day or more of Process Wastewater to the POTW,
excluding sanitary, non-contact cooling, and boiler blowdown wastewater; or

2. Contributes a process waste stream that makes up five percent (5%) or more of the average dry
weather hydraulic or organic capacity of the POTW; or

3. Is designated by the City on the basis that the User:
   a. Has a reasonable potential, either individually or in combination with other contributing
    industries, for adversely affecting the POTW operation or the quality of effluent from the POTW; or
   b. May cause or threaten to cause the City to violate its NPDES Permit; or
   c. Has a reasonable potential to violate any Pretreatment Standard; or
   d. Has in its Waste Discharge an Incompatible Pollutant.

The City may determine that an Industrial User subject to Categorical Pretreatment Standards is a
Non-Significant Categorical Industrial User rather than a Significant Industrial User on a finding that the Industrial User
never discharges more than 100 gallons per day (gpd) of total categorical Wastewater, excluding sanitary, non-contact
cooling and boiler blowdown Wastewater, unless specifically included in the Pretreatment Standard, and the
following conditions are met:

a. The Industrial User, prior to the City’s finding, has consistently complied with all applicable
Categorical Pretreatment Standards and Requirements;
b. The Industrial User annually submits the certification statement required in this Title, together with any additional information necessary to support the certification statement; and

c. The Industrial User never discharges untreated concentrated Wastewater.

EEE. SIGNIFICANT NONCOMPLIANCE or SNC. Any action or conduct by a User which constitutes a violation of any applicable regulation and which consists of one or more of the following:

1. Chronic violations of Wastewater Discharge limits, defined here as those in which 66 percent (66%) or more of all of the measurements taken for the same Pollutant parameter during a 6-month period exceed (by any magnitude) a numeric Pretreatment Standard or Requirement, including instantaneous limits, as defined by 40 CFR Part 403.3(l);

2. Technical Review Criteria (TRC) violations, defined here as those in which 33 percent (33%) or more of all of the measurements taken for the same Pollutant parameter during a 6-month period equal or exceed the product of the numeric Pretreatment Standard or Requirement including instantaneous limits, as defined by 40 CFR Part 403.3(l) multiplied by the applicable TRC (TRC=1.4 for BOD, TSS, fats, oil, and grease, and 1.2 for all other Pollutants except pH);

3. Any other violation of a Pretreatment Standard or Requirement as defined by 40 CFR Part 403.3(l) (daily maximum, long-term average, instantaneous limit, or narrative Standard) that the City determines has caused, alone or in combination with other Discharges, Interference, or Pass Through (including endangering the health and safety of City personnel or the general public);

4. Any Discharge of a Pollutant that has caused imminent endangerment to human health, welfare or to the environment, or has resulted in the City’s exercise of its emergency authority to halt or prevent such a Discharge;

5. Failure to meet, within 90 days after the schedule date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance;

6. Failure to provide, within 45 days after the due date, required reports such as baseline monitoring reports, 90-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;

7. Failure to accurately report noncompliance; or

8. Any other violation or group of violations, which may include a violation of BMPs, which the City determines will adversely affect the operation or implementation of its Pretreatment Program.

FFF. SLUG LOAD or SLUG DISCHARGE. Any Discharge at a flow rate or concentration which could cause a violation of the Prohibited Discharge Standards in Chapter 16.04 of this Title. A Slug Discharge is any Discharge of a non-routine, episodic nature, including, but not limited to, an accidental spill or a non-customary Batch Discharge, which has a reasonable potential to cause Interference or Pass Through, or in any other way violate the City’s regulations, Local Limits or Wastewater Discharge Permit conditions.

GGG. STATE. The State of California, including any department or agency thereof.

HHH. STORM WATER. Any flow occurring during or following any form of natural precipitation, and resulting from such precipitation, including snowmelt.

### III. TOTAL TOXIC ORGANICS

The sum of all quantifiable values greater than 0.01 mg/L for the toxic organics listed below:

<table>

**JII. TOTAL SUSPENDED SOLIDS or SUSPENDED SOLIDS.** The total suspended matter that floats on the surface of, or is suspended in, water, Wastewater, or other liquid, and that is removable by laboratory filtering.

**KKK. UNPOLISHED WATER.** Water to which no constituent has been added, either intentionally or accidentally, which would render such water unacceptable to the City having jurisdiction thereof for disposal to storm or natural drainages or directly to surface waters.

**LLL. USER.** Any Person who discharges from any Premises used, in whole or in part, and whether intermittently or continuously, for any commercial, industrial, manufacturing, or institutional purpose.

**MMM. WASTE.** Sewage and any and all other waste substances, liquid, solid, gaseous or radioactive, associated with human habitation, or of human or animal origin, or from any producing, manufacturing or processing operation of whatever nature, including such Waste placed within containers of whatever nature prior to, and for purposes of, disposal.

**NNN. WASTEWATER.** Liquid and water-carried industrial Wastes and Sewage from residential dwellings, commercial buildings, industrial and manufacturing facilities, and institutions, whether treated or untreated, which contribute to the POTW.

**OOO. WASTEWATER CONSTITUENTS AND CHARACTERISTICS.** The individual chemical, physical, bacteriological and radiological parameters, including volume and flow rate and such other parameters, that serve to define, classify or measure the contents, quality, quantity and strength of Wastewater.

**PPP. WASTEWATER DISCHARGE PERMIT.** A permit issued to a User that allows it to discharge Wastewater to the Community Sewer and POTW.

**QQQ. WATERS OF THE STATE.** Any water, surface or underground, including saline waters within the boundaries of the State as defined in 40 CFR Part 230.3(s). (Ord. 5675, 2014; Ord. 5340, 2004; Ord. 4589, 1989; Ord. 4269, 1984; Ord. 3883 §1, 1977.)

16.04.010 General Prohibitions on Discharges.

No Person shall introduce or cause to be introduced into a Community Sewer or the POTW any Waste or Wastewater which causes Pass Through or Interference. Additionally, no User shall introduce or cause to be introduced into the POTW the following Pollutants, substances, or Wastewater:

A. That create a fire or explosive hazard in the POTW, including, but not limited to, wastestreams with a closed-cup flashpoint of less than 140 degrees Fahrenheit (60 degrees centigrade) using the test methods specified in 40 CFR Part 261.21. Closed-cup flashpoint values may be found in the National Institute of Occupational Safety and Health (NIOSH) Pocket Guide to Chemical Hazards;

B. That have a pH lower than 6.0 or greater than 10.0, or otherwise causing corrosive structural damage to the POTW or equipment;

C. That contain solids or viscous substances in amounts which will cause obstruction of flow in the POTW resulting in Interference or damage;

D. That include oxygen-demanding substances (BOD, etc.) which are released at a flow rate and/or pollutant concentration which, either singly or by interaction with other pollutants, will cause Interference with the POTW;

E. That cause the temperature at the POTW to be greater than 104 degrees Fahrenheit (40 degrees centigrade), impairment or inhibition of biological treatment processes or temperatures of greater than 140 degrees Fahrenheit (60 degrees centigrade) at the point of Discharge;

F. That include petroleum oil, non-biodegradable cutting oil, or products of mineral oil origin, in amounts that will cause Interference or Pass Through;

G. That result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems;

H. From any trucked or hauled Pollutants, except at Discharge points designated by the City;

I. That are noxious or malodorous liquids, gases, solids, or other Wastewater which, either singly or by interaction with other Wastes, are sufficient to create a public nuisance or a hazard to life, or to prevent entry into the Community Sewer for maintenance and repair;

J. That causes the City’s effluent or any other product of the treatment process, residues, sludges, or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process;

K. That causes a detrimental environmental impact or a nuisance in the Waters of the State or a condition unacceptable to any public agency having regulatory jurisdiction over the City;

L. That create conditions at or near the City's POTW which violate any statute or any rule, regulation, or ordinance of any public agency or State or Federal regulatory body, or which cause the City to violate its NPDES Permit;

M. Quantities or rates of flow which overload the City's collection or treatment facilities, cause excessive City collection or treatment costs, or use a disproportionate share of the City facilities;

N. That causes an LEL reading of greater than ten percent (10%) as hexane at any point within the POTW. LEL values may be found in the NIOSH Pocket Guide to Chemical Hazards;

O. That causes obstruction or increased treatment costs due to the presence of any sand, grit, straw, metal, glass, rags, feathers, tar, plastic, wood, manure, dead animals, offal or any other solid viscous substance which in any way interferes with the proper operation of the POTW; or

P. That causes toxicity at the treatment plant or in the collection system due to the presence of toxic or poisonous substances in sufficient quantities to constitute a hazard to humans or animals, or to create a hazard at the treatment plant, or to injure or interfere with any sewage treatment processes.

Q. Medical Wastes, except as specifically authorized by the Public Works Director in a Wastewater Discharge Permit.

R. Hazardous Waste, which meets the definition under CCR Title 22, Article 11, except as specifically authorized by the Public Works Director in a Wastewater Discharge Permit.

rev. 12/31/14
S. Radioactive waste.
T. Containing gasoline, naphtha, petroleum oils or any volatile, flammable or explosive gas, liquid or solid, in sufficient quantities or combinations to constitute a hazard to humans or animals, to create a hazard in the POTW, or to injure or interfere with any sewage treatment process.

Pollutants, substances, or Wastewater prohibited by this Section shall not be processed or stored in such a manner that it could be discharged to the POTW. (Ord. 5675, 2014; Ord. 5078, 1998; Ord. 4589, 1989; Ord. 3883 §1, 1977.)

16.04.040 Prohibition on Unpolluted Water.

A. PROHIBITED DISCHARGE INTO COMMUNITY SEWER. No Person shall discharge or cause to be discharged any Storm Water, surface water, ground water, subsurface drainage, or any uncontaminated, unseptic, or non-septic cooling water, boiler exhaust, blow-off water, non-septic wash-rack drainage, or uncontaminated and non-septic industrial process water, directly or indirectly, to, on or into a Community Sewer unless a permit has previously been issued thereof by the City. The City may approve the Discharge of such water only when no reasonable alternative method of disposal is available.

If a permit is granted for the Discharge of such water into a Community Sewer, the Person shall pay the applicable user charges and fees and meet such other conditions as required by the City. (Ord. 5675, 2014; Ord. 5087, 1998; Ord. 4589, 1989; Ord. 3883, 1977.)

16.04.050 Slug Discharges.

No User shall discharge or cause to be discharged any Slug Load of materials, chemicals, products, or Waste into the POTW. (Ord. 5675, 2014.)

Waste from commercial garbage grinders shall not be discharged into a Community Sewer. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.04.080 Requirement for Interceptors.

A. Sand and Oil Interceptors. Sand and oil interceptors shall be provided when, in the opinion of the Public Works Director, they are necessary for the removal of sand or oil. All interceptor units shall be of a type and capacity approved by the Public Works Director and shall be located to be easily accessible for cleaning and inspection. Such interceptors shall be installed, utilized and properly maintained in continuous and efficient operation at all times and at the expense of the User.

B. Food Establishments. Grease and oil interceptors shall be provided at all Food Establishments, or when the Health Officer of the County or the Public Works Director determines that they are necessary for the proper handling of liquid waste containing excessive amounts of grease or oil. No such interceptor shall be required for private dwellings. Grease and oil interceptors shall be installed, utilized and properly maintained in continuous and efficient operation at all times and at the expense of the User. All interceptors shall be of a type, capacity and construction approved in writing by the Public Works Director. Interceptors shall be located so as to be readily and easily accessible for cleaning and inspection and shall be accessible at all times to personnel from the City and the Health Officer of the County for inspection and sampling. Food Establishments which do not have a dishwashing machine or garbage grinder and which show that the Discharge does not contribute grease or oil in excess of the limitations of this Title may apply for a variance from the requirement to install an interceptor. (Ord. 5675, 2014; Ord. 4589, 1989.)

16.04.090 Requirement for Installation of Sampling Box.

When directed by the Public Works Director, Food Establishments shall install a sampling box of a size and type to be specified by the Public Works Director. (Ord. 5675, 2014; Ord. 4589, 1989.)

16.04.100 Limitations on Point of Discharge.

No Person shall discharge any substances directly into a manhole or other opening in a Community Sewer other than through a City-approved Building Sewer. The User must submit a written application and payment of the applicable User charges and fees to the City. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

A User proposing to discharge Holding Tank Waste into a Community Sewer must obtain a City permit. Unless allowed by the City under the terms and conditions of the permit, a separate permit must be obtained for each separate Discharge. This permit will state the specific location of Discharge, the time of day the Discharge is to occur, the volume of the Discharge and the Wastewater Constituents and Characteristics. If a permit is granted for Discharge of such waste into a Community Sewer, the User shall pay the applicable User charges and fees and shall meet such other conditions as required by the City. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)
16.04.120 Local Limitations on Wastewater Strength.

A. LIMITS ON WASTEWATER STRENGTH. No Person shall discharge Wastewater containing an excess of (as a daily maximum):

- 0.27 milligrams per liter (mg/L) arsenic
- 0.09 mg/L cadmium
- 1.1 mg/L copper
- 0.97 mg/L cyanide
- 2.0 mg/L lead
- 0.032 mg/L mercury
- 1.86 mg/L nickel
- 0.59 mg/L silver
- 2.64 mg/L total chromium
- 7.11 mg/L zinc
- 9.37 mg/L selenium
- 0.189 mg/L chlorinated phenolics
- 42.47 mg/L phenolics
- 100 mg/L oil or grease of animal or vegetable origin
- 100 mg/L oil or grease of mineral or petroleum origin
- 1.3 micrograms per liter (µg/L) endosulfan
- 0.6 µg/L endrin
- 0.7 µg/L HCH, or
- 0.222 mg/L PCBs.

The above limits apply at the point where the Wastewater is discharged to the Community Sewer. All concentrations for metallic substances are for total metal, unless indicated otherwise. The City may impose mass limitation in addition to the concentration-based limitations above.

B. DILUTION PROHIBITED. No User shall ever increase the use of process waste, or in any way attempt to dilute a Discharge, as a partial or complete substitute for adequate treatment to achieve compliance with a Discharge limitation, unless expressly authorized by an applicable Pretreatment Standard or Requirement. The City may impose mass limitations on Users who are using dilution to meet applicable Pretreatment Standards or Requirements, or in cases when the imposition of mass limitation is appropriate.

C. NATIONAL CATEGORICAL PRETREATMENT STANDARDS. Users must comply with the categorical Pretreatment Standards found in 40 CFR Chapter I, Subchapter N, Parts 405-471.

D. BMPs. The Public Works Director may develop BMPs, by ordinance or in Wastewater Discharge Permits, to implement Local Limits and the requirements of Chapter 16.04. (Ord. 5675, 2014; Ord. 5078, 1998; Ord. 4775, 1992; Ord. 4589, 1989; Ord. 3883, 1977.)

16.04.140 Fire Precautions.

Smoking, open fires, the striking of matches, open flame lamps or lanterns, and electrical equipment and appliances that will generate or produce sparks or fire shall not be permitted in any tunnel, storm drain, Sewer or portion thereof where there is or may be an accumulation of flammable gas in explosive quantities. (Ord. 5675, 2014; Ord. 4589, 1989.)

16.04.150 Right to Revision.

The City reserves the right to establish, by ordinance or in Wastewater Discharge Permits, more stringent Standards or Requirements on Discharges to the POTW consistent with the purpose of this Title. (Ord. 5675, 2014.)
Chapter 16.08

ADMINISTRATION

16.08.190 Users Outside City.  
16.08.200 Special Agreements.  

16.08.010 Baseline Monitoring Report.

A. REQUIRED REPORTING. Within 180 days after the effective date of a Categorical Pretreatment Standard or 180 days after the final administrative decision made upon a category determination submission under 40 CFR Part 403.6(a)(4), whichever is later, Existing Sources subject to such Categorical Pretreatment Standards and currently discharging to or scheduled to discharge to the POTW shall be required to submit to the City a report which contains the information listed in Sections 16.08.010.B.1-8 of this Title. At least ninety (90) days prior to commencement of Discharge, New Sources, and sources that become Categorical Industrial Users subsequent to the promulgation of an applicable Categorical Standard, shall be required to submit to the City a report which contains the information listed in Sections 16.08.010.B.1-5 of this Title. New Sources shall report the method of pretreatment they intend to use to meet applicable Categorical Standards. New Sources shall give estimates of the information requested in Sections 16.08.010.B.4 and 5 of this Title:

B. REQUIRED REPORTING INFORMATION. Users, including Existing Users and New Sources, shall submit to the City within the time limits set forth above, the information provided below:

1. Identifying Information. The User shall submit the name and address of the facility, including the name of the operator and owners:
2. Permits. The User shall submit a list of any environmental control permits held by or for the facility.
3. Description of Operation. The User shall submit a brief description of the nature, average rate of production, and Standard Industrial Classification of the operation(s) carried out by such Industrial User. This description should include a schematic process diagram which indicates points of Discharge to the POTW from the regulated processes.
4. Flow Measurement. The User shall submit information showing the measured average daily and maximum daily flow, in gallons per day, to the City from each of the following:
   a. Regulated process streams; and
   b. Other streams as necessary to allow use of the combined waste stream formula of 40 CFR Part 403.6(e). (See paragraph B.5.f of this section.)
   a. The User shall identify the Categorical Pretreatment Standards applicable to each regulated process and any new categorically-regulated processes for Existing Sources.
   b. The User shall submit the results of sampling and analysis identifying the nature and concentration (or mass, where required by the City) of regulated Pollutants in the Discharge from each regulated process.
   c. Instantaneous, daily maximum, and long-term average concentrations (or mass, where required) shall be reported.
   d. The sample shall be representative of daily operations. In cases where the Standard requires compliance with a BMP or pollution prevention alternative, the User shall submit documentation as required by the City or the applicable Standards to determine compliance with the Standard.
   e. The User shall take a minimum of one representative sample to compile that data necessary to comply with the requirements of this paragraph.
f. Samples should be taken immediately downstream from pretreatment facilities if such exist or immediately downstream from the regulated process if no pretreatment exists. If other wastewaters are mixed with the regulated Wastewater prior to pretreatment, the User should measure the flows and concentrations necessary to allow use of the combined wastestream formula of 40 CFR Part 403.6(e) in order to evaluate compliance with the Pretreatment Standards. Where an alternate concentration or mass limit has been calculated in accordance with 40 CFR Part 403.6(e), this adjusted limit along with supporting data shall be submitted to the City.

g. Sampling and analysis shall be performed in accordance with the techniques prescribed in 40 CFR Part 136 and amendments thereto. Where 40 CFR Part 136 does not contain sampling or analytical techniques for the Pollutant in question, or where the Administrator determines that the 40 CFR Part 136 sampling and analytical techniques are inappropriate for the Pollutant in question, sampling and analysis shall be performed by using validated analytical methods or any other applicable sampling and analytical procedures approved by the Administrator, including procedures suggested by the City or other parties.

h. The City may allow the submission of a baseline report which utilizes only historical data as long as the data provides information sufficient to determine the need for industrial Pretreatment measures.

i. The baseline report shall indicate the time, date and place of sampling and methods of analysis, and shall certify that such sampling and analysis is representative of normal work cycles and expected Pollutant Discharges to the POTW.

6. Compliance Certification. A statement, reviewed by an Authorized Representative of the User and certified by a qualified professional, indicating whether Pretreatment Standards are being met on a consistent basis, and, if not, whether additional operation and maintenance (O&M) and/or additional pretreatment is required for the User to meet the Pretreatment Standards and Requirements.

7. Compliance Schedule. If additional pretreatment and/or O&M will be required to meet the Pretreatment Standards, the shortest schedule by which the User will provide such additional pretreatment and/or O&M must be provided. The completion date in this schedule shall not be later than the compliance date established for the applicable Pretreatment Standard.

8. Signature and Report Certification. All baseline monitoring reports must be certified in accordance with Section 16.08.060 of this Title and signed by an Authorized Representative of the User. (Ord. 5675, 2014.)

16.08.020 Compliance Schedule Progress Report.

The following conditions shall apply to the schedule required by Section 16.08.010.B.7 of this Title:

A. The schedule shall contain progress increments in the form of dates for the commencement and completion of major events leading to the construction and operation of additional Pretreatment required for the User to meet the applicable Pretreatment Standards (e.g., hiring an engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, etc.);

B. No increment referred to above shall exceed nine (9) months;

C. The User shall submit a progress report to the City no later than fourteen (14) days following each date in the schedule and the final date of compliance including, as a minimum, whether or not it complied with the increment of progress, the reason for delay, and if appropriate, the steps being taken by the User to return to the established schedule; and

D. In no event shall more than nine (9) months elapse between such progress reports to the City. (Ord. 5675, 2014.)

16.08.030 Reports on Compliance With Categorical Pretreatment Standard Deadline.

Within ninety (90) days following the date for final compliance with applicable Categorical Pretreatment Standards or, in the case of a New Source, following commencement of the introduction of Wastewater into the POTW, any User subject to Pretreatment Standards and Requirements shall submit to the City a report containing the information described in Section 16.08.010.B.4 and .5 of this Title. For Users subject to equivalent mass or concentration limits established by the City in accordance with the procedures in 40 CFR Part 403.6(c), this report shall contain a reasonable measure of the User’s long-term production rate. For all other Users subject to Categorical Pretreatment Standards expressed in terms of allowable Pollutant Discharge per unit of production (or other measure of operation), this report shall include the User’s actual production during the appropriate sampling period. All compliance reports must be signed and certified in accordance with Section 16.08.060 of this Title. (Ord. 5675, 2014.)

16.08.040 Compliance Reports.

A. INDUSTRIAL USER REPORTS. All Significant Industrial Users (Tier I Users in Section 16.08.120.B.1) shall submit reports to the City in accordance with 40 CFR Part 403.12(e) and (h). These reports shall be submitted twice each year for the periods July 1 through December 31 and January 1 through June 30, and shall be due on January 30 and July 30 of each year, respectively. If a User monitors any regulated Pollutant at the appropriate sampling location more frequently than required, using the procedures specified in Section 16.08.130 of this Title, the results of this monitoring shall be included in these reports.
B. PERMITTED USER REPORTS. All other permitted Users (Tier II and Tier III as defined in Section 16.08.120.B.2 and .3) shall submit reports to the City in accordance with its Wastewater Discharge Permit requirements.

C. REQUIRED CERTIFICATION OF REPORTS. All periodic compliance reports must be signed and certified in accordance with Section 16.08.060 of this Title. (Ord. 5675, 2014.)

16.08.050 Hauled Waste Reporting/Requirements.

Industrial waste haulers must provide a waste tracking form for every load. This form shall include, at a minimum, the name and address of the industrial waste hauler, permit number, truck identification, names and addresses of sources of waste, and volume and characteristics of waste. The form shall identify the type of industry, known or suspected waste constituents, and whether any wastes are RCRA hazardous wastes. (Ord. 5675, 2014.)

16.08.060 Certification Requirement.

A. Certification of Permit Applications and User Reports. All reports shall include the following certification:

"I certify under penalty of perjury that this document and all attachments to it were prepared under my direction or supervision and in accordance with a system designed to assure the qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the Person or Persons who manage the system or those Persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for known violations." Reports shall be signed by a responsible corporate officer, general partner, or a duly authorized individual as defined in 40 CFR Part 403.12(l).

B. Annual Certification for Non-Significant Categorical Industrial Users. A facility determined to be a Non-Significant Categorical Industrial User by the City pursuant to Sections 16.02.040.DDD and 16.08.120.D.9 of this Title must annually submit the following certification statement signed in accordance with the signatory requirements in Section 16.02.040.C. This certification must accompany an alternative report required by the City:

"Based on my inquiry of the person or persons directly responsible for managing compliance with the categorical Pretreatment Standards under 40 CFR ___, I certify, to the best of my knowledge and belief, that during the period from ______ to ______ [month, days, year]:

1. The facility described as ______ [facility name] met the definition of a Non-Significant Categorical Industrial User as described in Section 16.02.040.DDD of this Title;

2. The facility complied with all applicable Pretreatment Standards and requirements during this reporting period; and

3. The facility never discharged more than 100 gallons of total categorical wastewater on any given day during this reporting period.

This compliance certification is based on the following information."

(Ord. 5675, 2014; Ord. 4589, 1989.)

16.08.070 Notification of Changed Discharge.

All Users shall promptly notify the City in advance of any substantial change in the volume or character of Pollutants in their Discharge, or of any planned significant changes to the User's operations or system which might alter the nature, quality or volume of the Discharge. The City may require the User to submit such information as may be deemed necessary to evaluate the changed condition, including the submission of a Wastewater Discharge Permit application under Section 16.08.120 of this Title, if necessary. (Ord. 5675, 2014.)

16.08.090 Notification of Violation.

If sampling performed by a User indicates a violation, the User must notify the City within twenty-four (24) hours of becoming aware of the violation. The User shall also repeat the sampling and analysis and submit the results of the repeat analysis to the City within thirty (30) days after becoming aware of the violation. Resampling by the User is not required if the City performs sampling at the User's facility at least once a month, or if the City performs sampling at the User's facility between the time when the initial sampling was conducted and the time when the User or the City receives the results of this sampling, or if City has performed the sampling and analysis in lieu of the User.

If the City performed the sampling and analysis in lieu of the User, the City will perform the repeat sampling and analysis unless it notifies the User of the violation and requires the User to perform the repeat sampling and analysis. (Ord. 5675, 2014.)
16.08.100 Notification of Potential Problems.

A. REQUIRED NOTICE OF DISCHARGE. In case of any Discharge, including, but not limited to, accidental Discharges, Discharges of a non-routine, episodic nature, a noncustomary Batch Discharge, a Slug Discharge or Slug Load, that might cause potential problems for the POTW, the User shall immediately telephone and notify the Public Works Director of the incident. This notification shall include the location of the Discharge, type of waste, concentration, and volume, if known, and corrective actions taken by the User.

B. REPORT ON DISCHARGE. Within five (5) days following such Discharge, the User shall, unless waived by the Public Works Director, submit a detailed written report describing the cause(s) of the Discharge and measures to be taken by the User to prevent similar future occurrences. Such notification shall not relieve the User of any expense, loss, damage, or other liability that might be incurred as the result of damage to the POTW, natural resources, or any other damage to Person or property; nor shall such notice relieve the User of any fines, penalties, or other liability which may be imposed pursuant this Title.

C. NOTIFICATION PROTOCOL. A notice shall be permanently posted on the User’s bulletin board or other prominent place advising employees who to call in the event of a Discharge described in Section 16.08.100(A). Employers shall ensure that all employees who cause such a Discharge to occur are advised of the emergency notification procedure.

D. NOTICE OF SLUG DISCHARGE. A User is required to notify the Public Works Director immediately of any changes at its facility affecting the potential for a Slug Discharge. (Ord. 5675, 2014.)

16.08.120 Wastewater Discharge Permits.

A. PERMIT ADMINISTRATION. All permits under this Title shall be administered by Public Works Director or designee.

B. MANDATORY PERMITS. Users proposing to connect or to discharge into a Community Sewer must obtain a Wastewater Discharge Permit prior to discharge:

1. Tier I Significant Industrial User - Any User who meets any of the following conditions:
   a. Has a Waste Discharge subject to Categorical Pretreatment Standards;
   b. Has an average Discharge flow of 10,000 gallons per day or more of Process Wastewater to the POTW, excluding sanitary, non-contact cooling water, and boiler blowdown wastewater;
   c. Contributes a process waste stream that makes up five percent (5%) or more of the average dry weather hydraulic or organic capacity of the POTW; or
   d. Is designated by the City on the basis that the User:
      (1) Has a reasonable potential, either individually or in combination with other contributing industries, for adversely affecting the POTW operation or upon the quality of effluent from the POTW;
      (2) May cause or threaten to cause the City to violate its NPDES permit;
      (3) Has reasonable potential to violate any Pretreatment Standard; or
      (4) Has in its Waste Discharge a toxic Pollutant.

2. Tier II Non-Significant Industrial User - any User who meets any of the following criteria:
   a. Is not required to obtain a Tier I Permit;
   b. Is a Non-Significant Categorical Industrial User;
   c. Has Discharge characteristics greater than typical Domestic Wastewater;
   d. Discharges industrial or commercial wastewater which may have potential effects on the City’s POTW; or
   e. Has a reasonable potential to violate any Local Limit, Pretreatment Standard, or Pretreatment Requirement.

3. Tier III Groundwater Dischargers - any User who discharges groundwater to the POTW.

C. OPTIONAL PERMITS. The Public Works Director may issue a Wastewater Discharge Permit upon application and in accordance with the terms of this Title, for any of the following kinds of Users:

1. A User who has elected that user charges and fees be based on an estimation of Wastewater flow;
2. A User who has installed or been required to install equipment designed or intended to reduce Wastewater strength; or
3. A User for whom the Public Works Director has determined that monitoring is required to ensure that Discharges comply with all Applicable Regulations.

D. PERMIT APPLICATION. Prospective or existing Users seeking a Wastewater Discharge Permit shall complete and file with the City an application in the form prescribed by the Public Works Director, accompanied by the applicable fees. The applicant shall be required to submit, in units and terms appropriate for evaluation, the following information:

   1. Identifying Information.
      a. The name and address of the facility, including the name of the operator and owner.
      b. Contact information, description of activities, facilities, and plant production processes on the Premises.
   2. Environmental Permits. A list of any environmental control permits held by or for the facility.
3. Description of Operations, including all of the information listed below:
   a. A brief description of the nature, average rate of production (including each product produced by type, amount, processes, and rate of production), and SIC number(s) of the operation(s) carried out by such User. This description should include a schematic process diagram which indicates the points of Discharge to the POTW from regulated processes.
   b. Types of wastes generated and a list of all raw materials and chemicals used or stored at the facility which are, or could accidentally or intentionally be, discharged to the POTW.
   c. Number and type of employees, hours of operation, and proposed or actual hours of operation.
   d. Type and amount of raw materials processed (average and maximum per day).
   e. Site plans, floor plans, mechanical and plumbing plans, and details to show all Sewers, floor drains, and appurtenances by size, location, and elevation, and all points of Discharge.
4. Time and duration of Discharges.
5. The location of monitoring all Wastes covered by the Wastewater Discharge Permit.
6. Flow Measurement. Information showing the measured average daily and maximum daily flow, in gallons per day, to the POTW from regulated process streams and other streams, as necessary, to allow use of the combined wastestream formula (40 CFR Part 403.6(e)). Flow rates should also include the 30-minute peak wastewater flow rate and monthly and seasonal variations if they exist.
   a. The User shall identify the Categorical Pretreatment Standards applicable to each regulated process and any new categorically-regulated processes for Existing Sources.
   b. The User shall submit the results of sampling and analysis identifying the nature and concentration (or mass, where required by the City) of regulated Pollutants in the Discharge from each regulated process.
   c. Instantaneous, daily maximum, and long-term average concentrations (or mass, where required) shall be reported.
   d. The sample shall be representative of daily operations. In cases where the Standard requires compliance with a BMP or pollution prevention alternative, the User shall submit documentation as required by the City or the applicable Standards to determine compliance with the Standard.
8. Any other information deemed by the Public Works Director to be necessary to evaluate the permit application.
9. Application Signatories and Certifications. All Wastewater Discharge Permit applications must be certified in accordance with Section 16.08.060 of this Title and signed by an Authorized Representative of the User. A facility determined to be a Non-Significant Categorical Industrial User by the Public Works Director pursuant to Section 16.02.040.DDD must annually submit the signed certification statement in Section 16.08.060.B.

E. PUBLIC WORKS DIRECTOR PERMIT REVIEW AND DETERMINATION. The Public Works Director will evaluate the data furnished by the User. After evaluation and acceptance of the data furnished, the Public Works Director may issue a Wastewater Discharge Permit subject to terms and conditions provided herein. The Public Works Director may deny issuance of a permit where the Discharge alone, or in combination with other Discharges, has the potential to cause:
1. Interference;
2. Pass Through;
3. Insufficient capacity; or
4. Risk to health and safety.

F. PERMIT CONDITIONS. Wastewater Discharge Permits shall be subject to all Applicable Regulations, User charges and fees established by the City. The conditions of Wastewater Discharge Permits shall be enforced by the Public Works Director in accordance with all Applicable Regulations. Wastewater Discharge Permits must contain the following:
1. A statement that indicates the Wastewater Discharge Permit issuance date, expiration date, and effective date.
2. A statement that the Wastewater Discharge Permit is nontransferable.
3. Effluent limits, including BMPs, based on applicable Pretreatment Standards.
4. Self-monitoring, sampling, reporting, notification, and recordkeeping requirements. These requirements shall include an identification of Pollutants (or BMPs) to be monitored, sampling location, sampling frequency, and sample type based on Federal, State, and local law.
5. A statement of applicable civil and criminal penalties for violation of Pretreatment Standards and Requirements, and any applicable compliance schedule. Such schedule may not extend the time for compliance beyond that required by applicable Federal, State, or local law.
6. Requirements to control Slug Discharge, if determined by the Public Works Director to be necessary.
7. Compliance with the Wastewater Discharge Permit does not relieve the User of responsibility for compliance with all applicable Federal and State Pretreatment Standards, including those which become effective during the term of the Wastewater Discharge Permit.
8. Wastewater Discharge Permits may include any of the following:
   a. Limits on rate and time of discharge and/or requirements for flow regulations and equalization;
   b. Requirements for the installation of Pretreatment technology, pollution control, or construction of appropriate containment devices designed to reduce, eliminate, or prevent the introduction of Pollutants into the POTW;
   c. Requirements for the development and implementation of spill control plans or other special conditions, including BMPs necessary to adequately prevent accidental, unanticipated, or non-routine Discharges;
   d. Development and implementation of waste minimization plans to reduce the amount of Pollutants discharged to the POTW;
   e. Requirements for installation and maintenance of inspection and sampling facilities and equipment, including flow measurement devices;
   f. Statements of applicable administrative, civil, and criminal penalties for violation of Pretreatment Standards and Requirements, and any applicable compliance schedule. Such schedule may not extend the time for compliance beyond that requirement by applicable Federal, State, or local law; and
   g. Other conditions as deemed appropriate by the Public Works Director to ensure compliance with this Title, and State and Federal laws, rules, and regulations.

G. DURATION OF PERMITS. Permits shall be issued for a specified time period, not to exceed five (5) consecutive years from the effective date of the permit. If the User wants to continue discharge after the expiration of the Wastewater Discharge Permit, a Wastewater Discharge Permit application must be submitted a minimum of forty-five (45) days prior to the expiration date of the Wastewater Discharge Permit. If the User submits a completed Wastewater Discharge Permit application and, through no fault of the User, a new Wastewater Discharge Permit is not issued prior to the expiration of the existing Wastewater Discharge Permit, the existing Wastewater Discharge Permit will remain in effect until the City reissues or denies, as the case may be, a new Wastewater Discharge Permit. All Wastewater Discharge Permits issued to a User are void upon issuance of a new Wastewater Discharge Permit to that User.

H. PERMIT FEES. Wastewater Discharge Permit fees shall be set by a resolution of the City Council and shall reflect all costs associated with administering the permit.

I. PERMIT MODIFICATIONS. The terms and conditions of the Wastewater Discharge Permit are subject to modification and change by the Public Works Director prior to the expiration of the permit. The Public Works Director shall attempt to inform the User of modifications to a Wastewater Discharge Permit at least thirty (30) days prior to the modification effective date. Unless the circumstances require otherwise as determined by the Public Works Director, modifications or new conditions to a Wastewater Discharge Permit shall be issued in writing and shall include a reasonable time schedule for compliance. A Wastewater Discharge Permit may be modified for any of the following reasons:
   1. To incorporate any new or revised Federal, State, or local Pretreatment Standards or Requirements,
   2. To address significant alterations or additions to the User’s operations, processes, or wastewater volume or character since the time of permit issuance,
   3. A change in the POTW that requires either a temporary or permanent reduction or elimination of an authorized Discharge,
   4. Information indicating that the permitted User poses a threat to the City’s POTW, personnel, or receiving waters.
   5. Violation of any terms or conditions of the permit,
   6. Misrepresentation or failure to fully disclose all relevant facts in the permit application or in any required reporting,
   7. Revision of, or a grant of variance from, any Categorical Pretreatment Standard,
   8. To correct typographical or other errors in the permit.

J. NO PERMIT TRANSFER. Wastewater Discharge Permits are issued to a specific User for a specific operation. A Wastewater Discharge Permit shall not be reassigned, transferred or sold to a new or different owner, User, or Premises, or to a new or changed operation at or on any permitted or previously permitted Premises. Wastewater Discharge Permits shall be void upon cessation of operations or transfer to a different User.

K. PERMIT REVOCATION. Any User who violates any of the following conditions of the Wastewater Discharge Permit or of this Title, or applicable State and Federal regulations, is subject to having its permit revoked:
   1. Failure to provide prior notification to the Public Works Director of changed conditions pursuant to Section 16.08.070 of this Title;
   2. Misrepresentation or failure to fully disclose all relevant facts in the Wastewater Discharge Permit application;
   3. Falsifying self-monitoring reports and certification statements;
   4. Tampering with monitoring equipment;
   5. Refusing to allow the Public Works Director timely access to the facility Premises and/or records;
   6. Failure to meet effluent limitations;
   7. Failure to pay fines;
   8. Failure to pay sewer charges;
   9. Failure to meet compliance schedules;
   10. Information indicating that the permitted User poses a threat to the City’s POTW, personnel, or receiving waters; or
16.08.130 Monitoring Facilities and Sampling Procedures.

A. INSTALLATION OF MONITORING FACILITIES. The Public Works Director shall require the User to construct, at its own expense, monitoring facilities adequate to allow inspection and sampling of the Sewer or internal drainage systems at, upon, or in the User's Premises. The Public Works Director may also require the construction of flow measurement facilities and sampling or metering equipment, and may specify which facilities and equipment shall be provided, installed, and operated at the User's expense. The monitoring facility should normally be situated on the User's Premises, but the Public Works Director may, when such a location would be impractical or would cause undue hardship on the User, allow the facility to be constructed in the public street or sidewalk area and located so that it will not be obstructed by landscaping or parked vehicles; provided, however, that the User shall be required to comply with all applicable encroachment and other land use requirements.

B. ACCESS TO MONITORING FACILITIES. If the monitoring facility is inside or on the User's Premises, User shall allow ready access for City personnel. Any change to the accessibility of the User’s Premises, such as a new lock or combination, must be provided to the Public Works Director within twenty-four (24) hours following the change.

C. OBSTRUCTION TO ACCESS. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the User at the request of the Public Works Director and shall not be replaced. The costs of clearing such access shall be paid by the User. All costs of removing temporary or permanent obstructions shall be paid by the User.

D. CONSTRUCTION OF MONITORING FACILITIES. Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the City's requirements and all applicable construction standards and specifications. Construction shall be completed within ninety (90) days following written notification by the City unless a time extension is otherwise granted by the City.

E. SAMPLING PROCEDURES.

1. Except as provided in Subsection 16.08.130.E.2 and .3 of this Chapter, the User must collect Wastewater samples using 24-hour flow-proportional composite sampling techniques, unless time-proportional composite sampling or grab sampling is authorized by the Public Works Director. Where time-proportional composite sampling or grab sampling is authorized by the Public Works Director, the samples must be representative of the Discharge. Using protocols (including appropriate preservation) specified in 40 CFR Part 136 and appropriate EPA guidance, multiple Grab Samples collected during a 24-hour period may be composited prior to the analysis as follows: for cyanide, total phenols, and sulfides, the samples may be composited in the laboratory or in the field; for volatile organics and oil and grease, the samples may be composited in the laboratory. Composite samples for other parameters unaffected by the compositing procedures as documented in approved EPA methodologies may be authorized by the City, as appropriate. In addition, Grab Samples may be required to show compliance with instantaneous limits.

2. Samples for oil and grease, temperature, pH, cyanide, total phenols, sulfides, and volatile organic compounds must be obtained using grab collection techniques. Actual sample type requirements shall be included in the Wastewater Discharge Permit.

3. For sampling required in support of the reports required in Sections 16.08.010 and 16.08.030 of this Chapter, a minimum of four (4) Grab Samples must be used for pH, cyanide, total phenols, oil and grease, sulfide, and volatile organic compounds, for facilities for which historical sampling data do not exist; for facilities for which historical sampling data are available, the Public Works Director may authorize fewer grab samples.

4. For reports required by Section 16.08.040 of this Title, the User is required to collect the number of Grab Samples necessary to assess and assure compliance with applicable Pretreatment Standards and Requirements. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.08.140 Recordkeeping.

Users subject to the reporting requirements of this Title shall retain, and make available for inspection and copying, all records of information obtained pursuant to any monitoring activities required by this Title, any additional records of information obtained pursuant to monitoring activities undertaken by the User independent of such requirements, and documentation associated with BMPs established under Section 16.04.120.E of this Title. Records shall include the date, exact place, method, and time of sampling, and the name of the person(s) taking the samples; the dates analyses were performed; who performed the analyses; the analytical techniques or methods used; and the results of such analyses. These records shall remain available for a period of at least three (3) years. This period shall be automatically extended for the duration of any litigation concerning the User or the City, or where the User has been specifically notified of a longer retention period by the Public Works Director. (Ord. 5675, 2014.)
16.08.150 Inspection and Sampling.

The Public Works Director shall have the right to enter the Premises of any User to determine whether the User is complying with all requirements of this Title and any Wastewater Discharge Permit or order issued hereunder. Users shall allow the Public Works Director access to all parts of the Premises for the purposes of inspection, sampling, records examination and copying, and the performance of any additional duties.

A. USER SECURITY. Where a User has security measures in force which require proper identification and clearance before entry into its Premises, the User shall make necessary arrangements with its security guards so that, upon presentation of suitable identification, the Public Works Director shall be permitted to enter without delay for the purposes of performing specific responsibilities.

B. INSPECTION INSTALLATIONS. The Public Works Director shall have the right to install devices on the User’s property, or require installation of devices, as are necessary to conduct sampling and/or metering of the User’s operation.

C. DELAY IN ACCESS. Unreasonable delays in allowing the Public Works Director access to the User’s Premises shall be a violation of this Title.

D. PUBLIC WORKS DIRECTOR SEARCH WARRANT. If the Public Works Director has been refused access to a building, structure, or property, or any part thereof, and holds a reasonable suspicion that there may be a violation of this Title, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program of the City designed to verify compliance with this Title or any permit or order issued hereunder, or to protect overall public health, safety, and welfare of the City, the Public Works Director may seek issuance of a search warrant from the City Attorney. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.08.160 Pretreatment.

Users shall meet limitations established herein before Discharging to any Community Sewer. Any facilities required to pretreat Wastewater shall be provided and maintained and continuously operated at the User's expense. Prior to construction of any facility subject to regulation under the provisions of this Title, detailed plans showing pretreatment facilities and operating procedures shall be submitted to the Public Works Director for review, and shall be approved by the City before construction of the facility. The review of such plans and operating procedures will in no way relieve the User of responsibility for modifying the facility as necessary to produce a wastewater that meets the provisions of this Title. Any subsequent changes in the pretreatment facilities or operation thereof shall be reported to and approved by the Public Works Director prior to implementation. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.08.170 Protection From Accidental Discharge.

A. ACCIDENTAL DISCHARGE. Each User shall provide facilities to prevent the accidental Discharge of prohibited materials or other Wastes regulated by this Title. Such facilities shall be provided and maintained at the User's expense. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the City for review, and shall be approved by the City before construction of the facility.

B. USER RESPONSIBILITY. The review of such plans and operating procedures shall in no way relieve the User from the responsibility of modifying the facility as needed to provide the protection necessary to meet the requirements of this Title. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.08.180 Confidential Information.

Information and data regarding a User obtained from reports, surveys, Wastewater Discharge Permit applications, Wastewater Discharge Permits, monitoring programs, and from the Public Works Director’s inspection and sampling activities shall be made available to the public without restriction unless the User specifically requests in writing, and is able to demonstrate to the satisfaction of the Public Works Director, that the release of such information would divulge information, processes, or methods of production entitled to protection as trade secrets under applicable State law. Any such request must be made at the time of submission of the information or data. When sufficiently demonstrated by the User furnishing a report that such information should be held confidential, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available immediately upon request to governmental agencies for uses related to the NPDES program or Pretreatment program and in enforcement proceedings involving the person furnishing the report. Notwithstanding the above, Wastewater Constituents and Characteristics and other effluent data as defined in 40 CFR Part 2.302 shall not be recognized as confidential information and shall be made available to the public without restriction. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.08.190 Users Outside City.

The provisions of this Title shall apply to all Users who discharge Wastewater to, on or into any Community Sewer or the POTW from Premises located inside or outside the City limits. (Ord. 5675, 2014; Ord. 4589, 1989.)
16.08.200 Special Agreements.

Special agreements and arrangements between the City and any Person may be established when, in the opinion of the Public Works Director, unusual or extraordinary circumstances compel special terms and conditions. However, in no instance shall special agreements relieve a Person from compliance with Categorical Pretreatment Limits or the National Pretreatment Regulations found in 40 CFR Part 403. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

Chapter 16.10

DETERMINATIONS AND CHARGES

Sections:
16.10.010 Determination of Components.

16.10.010 Determination of Components.

In order to ensure compliance with the local limitations on Wastewater strength in Section 16.04.120 of this Title, a determination of components contained in Sewage, liquid waste, and industrial waste Discharges will be conducted by the Public Works Director. Monitoring will be performed by means of a sampling device approved by the Public Works Director. Sampling, resampling, and laboratory work performed by the City for monitoring will be performed at the expense of the User. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 4286, 1984; Ord. 3883, 1977.)

All analyses shall be performed in accordance with procedures established by the Administrator pursuant to Section 304(h) of the Federal Act and contained in 40 CFR Part 136 and amendments thereto, or with any other test procedures approved by the Administrator. (See 40 CFR Parts 136.4 and 136.5.) Sampling shall be performed in accordance with the techniques approved by the Administrator. Where 40 CFR Part 136 does not include sampling or analytical techniques for the Pollutants in question, or where the Administrator determines that the 40 CFR Part 136 sampling and analytical techniques are inappropriate for the Pollutant in question, sampling and analyses shall be performed using validated analytical methods or any other sampling procedures approved by the Administrator, including procedures suggested by the City or other parties. (Ord. 5675, 2014; Ord. 4589, 1989.)
Chapter 16.12
ENFORCEMENT

Sections:
16.12.040 Cease and Desist Orders.

The Public Works Director shall investigate instances of noncompliance with any provision of this Title, or with any Pretreatment Standards and Requirements, as indicated in the reports and notices required under 40 CFR Part 403.12, or indicated by analysis, inspection, and surveillance activities performed by the Public Works Director. The City shall conduct enforcement proceedings in accordance with its Enforcement Response Plan. The Enforcement Response Plan, adopted by resolution of the City Council, is incorporated herein by reference and may be amended from time to time to ensure consistent application of the provisions of this Title and Federal and State regulations. (Ord. 5675, 2014.)

A. NOTIFICATION OF DISCHARGE. Any User who causes or permits a Discharge which violates any applicable law, regulation, or the Wastewater Discharge Permit shall immediately notify the Public Works Director. Notification by the User as required in this Section shall not, however, relieve the User of liability for any expense, loss or damage to any Community Sewer or the POTW which occurs, directly or indirectly, as a result of the Discharge, nor shall notification by the User relieve the User of liability for any expense, fee or fine incurred by the City as a result of the Discharge. No later than fourteen (14) days after the Discharge, the User shall deliver to the Public Works Director a detailed written statement describing the cause(s) of the Discharge and the measures taken and/or to be taken to prevent similar Discharges.

B. NOTICES TO EMPLOYEES. Each User shall make available to its employees, if any, current copies of this Title and all other information or notices sent to the User by the City that describe or discuss effective water pollution control.

C. PREVENTIVE MEASURES. Each User shall eliminate any direct or indirect connection or entry point in the plumbing and/or drainage system on the User's Premises if the connection or entry point can or does allow any Incompatible Pollutant to enter a Community Sewer. Where it would be impracticable or unreasonable to eliminate this kind of connection or entry point, the User shall label these connections and entry points in a manner designed to prevent Persons from causing Incompatible Pollutants to enter the Community Sewer. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

When the Public Works Director finds that any User has violated, or continues to violate, a provision of this Title, a Wastewater Discharge Permit, an order issued hereunder, a Pretreatment Standard or Requirement, or any applicable local, State or Federal law, the Public Works Director may serve upon such User a written Notice of Violation. Within fourteen (14) calendar days of the date of the Notice of Violation, User shall submit to the City a written explanation of the violation and a plan for the satisfactory correction and prevention thereof, which shall include specific required actions to be taken. Submission of this plan in no way relieves the User of liability for any violations occurring before or after the date of the notice of violation. Nothing in this Section limits the authority of the City to take emergency action, or any other enforcement action, without issuing a Notice of Violation. (Ord. 5675, 2014.)

16.12.040 Cease and Desist Orders.

When the Public Works Director finds that a User has violated, or continues to violate, any provision of this Title, a Wastewater Discharge Permit, an order issued hereunder, or any other Pretreatment Standards or Requirement, or that the User's past violations are likely to reoccur, the City may issue an order to the User directing it to cease and desist all violations and directing the User to immediately comply with all requirements of this Title and applicable local, State and Federal law. Nothing in this Section limits the authority of the City to take emergency action, or any other enforcement action, without issuing a Cease and Desist Order. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

When the Public Works Director finds that a Discharge of Wastewater has been taking place in violation of prohibitions or limitations prescribed in this Title, Wastewater source control requirements, effluent limitations or pretreatment standards, or the provisions of a Wastewater Discharge Permit, the City may require the User to submit for approval, with such modifications as it deems necessary, a detailed time schedule of specific actions which the User shall take in order to prevent or correct a violation of any of these requirements.

If the Public Works Director determines that a Discharge has occurred or is occurring, and that the Discharge violates any applicable regulation or Wastewater Discharge Permit, the Public Works Director may require the Person who caused or permitted the Discharge to submit to the City a detailed time schedule of specific actions which the Person shall take in order to prevent or correct any violation of any applicable regulation or Wastewater Discharge Permit. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.12.060 Appeals.

A. REQUEST FOR RECONSIDERATION. Any User, permit applicant, permit holder, or Person affected by any decision, action or determination, including the assessment of fines and civil penalties, Cease and Desist Orders, revocation of a permit, and other administrative remedies, made by the Public Works Director, interpreting or implementing the provisions of this Title or in any permit issued herein, may file with the Public Works Director a written request for reconsideration within fifteen (15) calendar days of such decision, action, or determination, setting forth in detail the facts supporting the User's or Person's request for reconsideration.

B. PUBLIC WORKS DIRECTOR DECISION REMAINS IN EFFECT PENDING APPEAL. The decision, action or determination of the Public Works Director shall remain in effect during such period of reconsideration and during the period of any appeal or judicial review under the provisions of this Code.

C. APPEAL TO CITY COUNCIL. A decision, action or determination of the Public Works Director, after reconsideration is granted or denied, may be appealed to the City Council under the provisions of Chapter 1.30 of this Code, except that, as to decisions to assess administrative penalties in accordance with Chapter 16.12 herein, the time limit for judicial review that is to be found in California Code of Regulations Section 54740.6, as may be amended from time to time, shall control to the extent allowed by law. (Ord. 5675, 2014; Ord. 5078, 1998; Ord. 4589, 1989; Ord. 3883, 1977.)

A. UPSET.

1. For the purposes of this Section, "upset" means an exceptional incident in which there is unintentional and temporary noncompliance with applicable Pretreatment Standards because of factors beyond the reasonable control of the User. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

2. An upset shall constitute an affirmative defense to an action brought for noncompliance with applicable Pretreatment Standards if the requirements of Section 16.12.070.A.3 of this Title are met.

3. A User who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed and contemporaneous operating logs, or other relevant evidence that:
   a. An upset occurred and the User can identify the cause(s) of the upset;
   b. The facility was at the time being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures; and
   c. The User has submitted the following information to the City within twenty-four (24) hours of becoming aware of the upset (if this information is provided orally, a written submission must be provided within five (5) days):
      (1) A description of the indirect Discharge and cause of noncompliance;
      (2) The period of noncompliance, including exact dates and times or, if not corrected, the anticipated time the noncompliance is expected to continue; and
      (3) Steps being taken and/or planned to reduce, eliminate, and prevent recurrence of the noncompliance.

4. In any enforcement proceeding, the User seeking to establish the occurrence of an upset shall have the burden of proof.

5. Users may seek a judicial determination of a claim of upset only in an enforcement action brought for noncompliance with applicable Pretreatment Standards.

6. Users shall control production of all Discharges to the extent necessary to maintain compliance with applicable Pretreatment Standards upon reduction, loss, or failure of their treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost, or fails.
B. PROHIBITED DISCHARGE STANDARDS.

1. A User shall have an affirmative defense to an enforcement action brought against it for noncompliance with the general and specific prohibitions in Chapter 16.04 of this Title if it can prove that it did not know, or have reason to know, that its Discharge, alone or in conjunction with Discharges from other sources, would cause Pass Through or Interference, and that either:
   a. A Local Limit exists for each Pollutant discharged and the User was in compliance with each limit directly prior to, and during, the Pass Through or Interference; or
   b. No Local Limit exists, but the Discharge did not change substantially in nature or constituents from the User’s prior Discharge when the City was regularly in compliance with its NPDES permit, and in the case of Interference, was in compliance with applicable sludge use or disposal requirements.

C. BYPASS.

1. A User may allow a Bypass to occur which does not cause Pretreatment Standards or Requirements to be violated, but only if it also is essential for maintenance to assure efficient operation. A Bypass meeting this limitation is not subject to the provisions of Sections 16.12.070.C.2 or .3 of this Title.

2. Bypass Notifications.
   a. If a User knows in advance of the need for a Bypass, it shall submit prior notice to the Public Works Director at least ten (10) days before the date of the Bypass, if possible.
   b. A User shall submit oral notice to the Public Works Director of an unanticipated Bypass that exceeds applicable Pretreatment Standards within twenty-four (24) hours from the time it becomes aware of the Bypass. A written submission shall also be provided within five (5) calendar days of the time that the User becomes aware of the Bypass. The written submission shall contain: a description of the Bypass and its cause; the duration of the Bypass, including exact dates and times, and, if the Bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the Bypass. The Public Works Director may waive the written report on a case-by-case basis if the oral report has been received within twenty-four (24) hours.

3. Prohibited Bypass.
   a. Bypass is prohibited and the Public Works Director may take an enforcement action against a User for a Bypass, unless all of the following are met:
      (1) Bypass is unavoidable to prevent loss of life, personal injury or Severe Property Damage, which means substantial physical damage to property, damage to the treatment facilities which causes them to be inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a Bypass. Severe Property Damage does not mean economic loss caused by delays in production;
      (2) There was no feasible alternative to the Bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a Bypass which occurred during normal periods of equipment downtime or preventative maintenance; and
      (3) The User submitted notices as required by Section 16.12.070.C.2 of this Title.
   b. The Public Works Director may approve an anticipated Bypass after considering its adverse effects if the Public Works Director determines that the Bypass will meet the three conditions listed in Section 16.12.070.C.3.a of this Title. (Ord. 5675, 2014.)
Chapter 16.14

ABATEMENT

Sections:

| 16.14.090 | Emergency Suspension. |

Discharges of Wastewater which in any way violate this Title or any permit or order issued by the Public Works Director pursuant to this Title are a public nuisance and shall be corrected or abated as directed by the Public Works Director. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

When the Public Works Director finds that a User has violated, or continues to violate, any provision of this Title, a Wastewater Discharge Permit, an order issued hereunder, or any other Pretreatment Standard or Requirement, the Public Works Director may petition the Superior Court through the City Attorney for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the Wastewater Discharge Permit, order, or other requirement imposed by this order on activities of the User. The Public Works Director may also seek such other action as appropriate for legal and/or equitable relief, including a requirement for the User to conduct environmental remediation. A petition for injunctive relief shall not be a bar against, or a prerequisite for, taking any other action against a User. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

When a User causes a Discharge of Waste which obstructs, damages or impairs the POTW or a Community Sewer, the City may assess a charge against the User for the work required to clean or repair the facility and add such charge to the User's sewer service charges. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

The City will publish annually, in a newspaper of general circulation that provides meaningful public notice within the jurisdiction served by the City, a list of the Users which, at any time during the previous twelve (12) months, were in Significant Noncompliance with applicable Pretreatment Standards and Requirements. The term Significant Noncompliance, as defined in Section 16.02.040.EEE of this Title, shall be applicable to all Tier I Users. This term also shall apply to any other Users that violate Sections 16.02.040.EEE.3 and .4, or .8 of this Title, and those Users will also be included in this list. (Ord. 5675, 2014; Ord. 4589, 1989.)

Any provision of this Title may be enforced by the Public Works Director acting through use of administrative procedures and imposing administrative civil penalties for violations, as follows:

A. The Public Works Director may determine violations of this Title by administrative hearing and, based upon the results of that hearing, order administrative civil penalty(ies) to be assessed against the party responsible for the violation in accord with the provisions of this Title and California Code of Regulations Section 54740.5, as may be amended from time to time.

B. In addition to general enforcement through administrative civil penalties as authorized herein, the Public Works Director is designated to be the hearing officer for administrative enforcement authorized pursuant to California Code of Regulations Sections 54740.5 and 54740.6.

C. Hearing, waiver of hearing, orders, reconsideration, appeal to the City Council, judicial review, delinquencies, lien, and confirmation regarding administrative remedies shall be as provided in accordance with California Code of Regulations Sections 54740.5 and 54740.6, as may be amended from time to time, and as provided in this Title.

D. In determining the amount of civil liability, the hearing officer or board may take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, any economic benefit gained through the User’s violation, the length of time over which the violation occurs and corrective actions taken by the User.
Civil penalties may be imposed by the City as follows:

1. In an amount which shall not exceed two thousand dollars ($2,000) for each day for failing or refusing to furnish technical or monitoring reports.
2. In an amount which shall not exceed three thousand dollars ($3,000) for each day for failing or refusing to timely comply with any compliance schedule established by the City.
3. In an amount which shall not exceed five thousand dollars ($5,000) per violation for each day for Discharges in violation of any waste Discharge limitation, permit condition, or requirement issued, reissued, or adopted by the local agency.
4. In an amount which does not exceed ten dollars ($10) per gallon for Discharges in violation of any suspension, cease and desist order or other orders, or prohibition issued, reissued, or adopted by a City.
5. The amount of any civil penalties imposed under this section which have remained delinquent for a period of 60 days shall constitute a lien against the real property of the discharger from which the Discharge originated resulting in the imposition of the civil penalty. The lien provided herein shall have no force and effect until recorded with the county recorder and when recorded shall have the force and effect and priority of a judgment lien and continue for 10 years from the time of recording unless sooner released, and shall be renewable in accordance with the provisions of law.
6. All moneys collected under this section shall be deposited in a special account of the City and shall be made available for the monitoring, treatment, and control of Discharges into the City's Community Sewer or POTW or for other mitigation measures.
7. Unless appealed, orders setting administrative civil penalties shall become effective and final upon issuance thereof, and payment shall be made within 30 days. Copies of these orders shall be served by personal service or by registered mail upon the party served with the administrative complaint and upon other persons who appeared at the hearing and requested a copy.
8. The City may, at its option, elect to petition the Superior Court to confirm any order establishing civil penalties and enter judgment in conformity therewith in accordance with the provisions of law.

Except as provided in this Section, remedies under this Section are in addition to, and do not supersede or limit the use of; any and all other remedies, civil or criminal, available under this Title and under the statutes and regulations of the State of California and the United States of America. No penalties shall be recoverable under this Section 16.14.050 for any violation for which civil liability is recovered under Section 16.14.060 or California Code of Regulations Section 54740.

Administrative remedies, fines and other civil penalties imposed pursuant to the provisions of this Title may, at the sole discretion of the Public Works Director, be added to and collected with the applicable User’s sewer service charges.

Except as provided in this Section, issuance of an administrative penalty shall not be a bar against, or a prerequisite for, taking any other action against the User. (Ord. 5675, 2014; Ord. 5078, 1998; Ord. 4775, 1992; Ord. 4589, 1989.)

Judicial Civil Penalties.

A. CIVIL PENALTIES. Any User who violated, or continues to violate, any provision of this Title, a Wastewater Discharge Permit, an order issued hereunder, or any other Pretreatment Standard or Requirement, shall be liable to the City for a maximum civil penalty of $25,000 a day for each violation. In the case of an exceedance of a monthly or other long-term average Discharge limit, penalties shall accrue for each day during the period of the violation. The City Attorney, upon order of the City Council, shall petition the Superior Court to impose, assess and recover such sums.

B. ATTORNEY’S FEES. The City may recover reasonable attorneys’ fees, court costs, and other expenses associated with enforcement activities, including sampling and monitoring expenses, and the cost of any actual damages incurred by the City.

C. FACTORS RELEVANT TO LIABILITY. In determining the amount of civil liability, the Court shall take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the magnitude and duration of the violation, any economic benefit gained through the User’s violation, corrective actions taken by the User, the compliance history of the User, and any other factor as justice requires.

D. REMEDIES NOT EXCLUSIVE. Filing a suit for civil penalties shall not be a bar against, or a prerequisite for, taking any other action against a User; provided, however, no liability shall be recoverable under this Section for any violation for which liability is recovered under Section 16.14.050 herein, or California Code of Regulations Section 54740. (Ord. 5675, 2014; Ord. 4775, 1992; Ord. 4589, 1989; Ord. 3883, 1977.)

Criminal Penalties.

Any Person who intentionally or negligently violates any provision of this Title, a Wastewater Discharge Permit, an order issued hereunder, or any other Pretreatment Standard or Requirement, upon conviction shall be liable for a sum not less than $1,000 per violation per day, or for imprisonment for not more than six (6) months in the County jail, or both. (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

It is unlawful for any Person to make or file, or cause to be made or filed, any statement, representation, record, report, plan or other document which is false and which is required to be made or filed pursuant to any applicable regulation or Wastewater Discharge Permit, or to falsify, tamper with, or knowingly render inaccurate any monitoring device, sampling or method required under this Title and shall be subject to any and all enforcement provisions provided in this Title.  (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)

16.14.090  Emergency Suspension.

The Public Works Director may immediately suspend a User’s Discharge after informal notice to the User, whenever such suspension is necessary to stop an actual or threatened Discharge which reasonably appears to present or cause an imminent or substantial endangerment to the health or welfare of persons. The Public Works Director may also immediately suspend a User’s Discharge, after notice and opportunity to respond, that threatens to interfere with the operation of the Community Sewer or POTW, or which presents, or may present, an endangerment to the environment. Nothing in this Section shall be interpreted as requiring a hearing prior to any emergency suspension under this Title.

A.  NOTIFICATION OF SUSPENSION. Any User notified of a suspension of its Discharge shall immediately stop or eliminate its Discharge. In the event of a User’s failure to immediately voluntarily comply with the suspension order, the Public Works Director may take such steps as deemed necessary, including immediate severance of the Sewer connection or turning off water supply, to prevent or minimize damage to the Community Sewer or POTW, its receiving stream, danger to any individuals, or to prevent continued violation of this Title or Wastewater Discharge Permit. The Public Works Director may allow the User to recommence its Discharge when the User has demonstrated to the satisfaction of the Public Works Director that the violation has passed, unless termination proceedings in accordance with Section 16.14.100 of this Title are initiated against the User.

B.  USER RESPONSIBILITY. A User responsible, in whole or in part, for any Discharge presenting imminent danger shall submit a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence, to the Public Works Director prior to the date of any termination hearing under Section 16.14.100 of this Title.

C.  COST TO SUSPEND OR MITIGATE. The User is responsible for any costs incurred to suspend or mitigate the impact of the Discharge. Such costs may be added to the User’s sewer service charges.  (Ord. 5675, 2014.)

Any User who violates any of the following conditions is subject to Discharge termination:

A.  Violation of Wastewater Discharge Permit conditions.

B.  Failure to accurately report Wastewater Constituents and Characteristics of its Discharge.

C.  Failure to report significant changes in operations or Wastewater Constituents, and Characteristics prior to discharge.

D.  Refusal of reasonable access to the User’s Premises for the purpose of inspection, monitoring, or sampling.

E.  Violation of the Pretreatment Standards in Chapter 16.04 of this Title.

Such User shall be notified of the proposed termination of its Discharge and be offered an opportunity to show why the proposed action should not be taken. Termination of the User’s Discharge by the Public Works Director shall not be a bar, or a prerequisite for, taking any other action against the User.  (Ord. 5675, 2014; Ord. 4589, 1989; Ord. 3883, 1977.)
Chapter 16.15

Urban Pollution Controls Non-Point Source Discharge Restrictions

Sections:

16.15.010 Water Pollution Prohibited.
16.15.020 Discharges Exempt From Prohibition.
16.15.030 Discharge of Hazardous Substances Prohibited.

16.15.010 Water Pollution Prohibited.

No Person who does not possess a current and valid permit or agreement for the discharge, shall throw, discharge or otherwise deposit or place, or cause or permit to be placed, into the Waters of the State or into any drain, drop inlet, conduit, or natural or artificial watercourse flowing into any storm drain, creek, lagoon or other Waters of the State, any Waste, Medical Waste, Contamination or Pollution or other substance which impairs the quality of the drainage, including, without limitation:

A. Any Pollution or Contamination or any substance, matter, or thing, liquid, solid or gas, which materially impairs the aesthetics or usefulness of such water, except as may be provided for in this Chapter;
B. Any commercial or industrial waste, including, without limitation, any fuel, solvent, detergent, plastic pieces or other pellets, hazardous substances, fertilizers, pesticides, slag, ash, or sludge;
C. Any measurable quantity of heavy metals, including, without limitation, any cadmium, lead, zinc, copper, silver, nickel, mercury or chromium, or the elements of phosphorous, arsenic, or nitrogen;
D. Any animal feces, any animal waste, or animal discharge from confinement facilities for animals, kennel, coup, pen, stable, or recreational or show facilities;
E. Any human feces, diseased matter, or matter containing significant concentrations of fecal coliform, fecal streptococcus, or enterococcus;
F. Any substance having a pH of less than 6 or greater than 9;
G. Any quantity of petroleum hydrocarbons, including, without limitation, any crude oil or any fraction thereof, hydrocarbon fuel, solvent, lubricants, surfactants, waste oil, coolant, or grease;
H. Any water or other solvent or substance used for: commercial or industrial processing; for commercial washing of automobiles or parts of automobiles; for cleaning industrial or commercial operations or Premises; for cleaning debris, Waste or residue collectors; for cleaning carpets, pads, flooring or walkways; or for cleaning construction, pavement, concrete, paint or plaster;
I. Any residue or collection from portable toilets or water softeners;
J. Any water or other solvent or substance collected after the use of the substance to clean, cleanse, flush, rinse or otherwise treat any commercial or industrial premises, process or equipment, or food production;
K. Any water for swimming pools, spas or Jacuzzis; or
L. Any economic poison, toxic or hazardous material.

Any permit for such discharge must be approved by the Public Works Director or a California State official or U.S. Government official having jurisdiction over such discharge. (Ord. 5675, 2014; Ord. 5087, 1998.)

16.15.020 Discharges Exempt From Prohibition.

The following discharges are exempt from the prohibitions of Section 16.15.010 of this Title:

A. Uncontaminated discharges from landscape irrigation;
B. Uncontaminated discharges from water line flushing;
C. Uncontaminated discharges from potable water sources;
D. Uncontaminated discharges from foundation drains;
E. Uncontaminated discharges from footing drains;
F. Uncontaminated discharges from air conditioning condensate;
G. Uncontaminated discharges from irrigation water;
H. Uncontaminated discharges from lawn watering;
I. Uncontaminated discharges from crawl space pumps;
J. Uncontaminated discharges from individual residential automobile washing; and
K. Uncontaminated discharges from street washing, including sidewalk washing. (Ord. 5675, 2014; Ord. 5087, 1998.)

16.15.030 Discharge of Hazardous Substances Prohibited.

No Person shall throw, discharge or otherwise deposit, or cause or permit to be placed, into the Waters of the State or into any drain, drop inlet, conduit, or natural or artificial watercourse flowing into any storm drain, creek, lagoon or other Waters of the State, any quantity of hazardous substance as included or defined in CCR Section 25316, without a permit or agreement approved by the Public Works Director, a California State official or U.S. Government official having jurisdiction over the Discharge. (Ord. 5675, 2014; Ord. 5087, 1998.)
Chapter 16.16

SEVERABILITY

Section:
16.16.010 Severability.

If any provision of this Title is invalidated by any court of competent jurisdiction, the remaining provisions of this Title shall not be affected and shall continue in full force and effect. (Ord. 5675, 2014; Ord. 3883, 1977.)

Chapter 17.04 Definitions

The following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning:

A. **ANCHOR.** A heavy metal device, fastened to chain or line, designed to help hold a vessel in position. (Ord. 5386, 2006.)

B. **ANCHORING EQUIPMENT.** An Anchor, line or chain and associated gear that is retrievable, stowable, non-permanent ground tackle designed to engage the seafloor and through its resistance to drag maintain a vessel within a given radius. (Ord. 5386, 2006.)

C. **BERTH.** A water surface area, delineated by either floating or fixed dock structures, intended for the purposes of embarking, disembarking and the wet storage of boats. A Berth is also known as a “Slip.” (Ord. 5386, 2006.)

D. **CITY-APPROVED MOORING INSPECTOR.** An individual who, by satisfactorily demonstrating appropriate qualifications, has been included on a City-approved list of inspectors eligible to install, inspect and repair ground tackle for Mooring Permittees in the Santa Barbara Mooring Area. (Ord. 5386, 2006.)

E. **CITY PIER.** The City Pier is located adjacent to the Breakwater at the Southeastern end of Harbor Way in the Santa Barbara Harbor formerly known as the "Navy Pier." (Ord. 5386, 2006; Ord. 4757, 1992.)

F. **DINGHY.** A small boat used as a tender to a larger vessel. A Dinghy is also known as a “Skiff.” (Ord. 5386, 2006.)

G. **DISCHARGE.** To spill, leak, pump, pour, emit, empty, dump, deposit, or throw. (Ord. 5386, 2006; Ord. 5282, 2003.)

H. **DOCK.** A platform, either floating or fixed, provided in a marina for the wet storage of a boat and pedestrian access to and from the boat. (Ord. 5386, 2006.)

I. **DOCKAGE.** The daily rate assessed a vessel which ties up to any wharf or pier in the Harbor. (Ord. 5386, 2006; Ord. 4757, 1992.)

J. **FLOAT.** A wharf, pier, quay or landing. (Ord. 5386, 2006; Prior Code §24.1.)

K. **GROUND TACKLE.** All equipment used for Mooring or anchoring a vessel securely to the seafloor. (Ord. 5386, 2006.)

L. **HARBOR.** The area depicted on Exhibit “A” attached to Chapter 17.20 generally bounded by and including Stearns Wharf on the east, the Breakwater on the south, the seawall abutting Harbor Way and the Harbor commercial area on the west, the concrete walkway and seawall along currently-designated Marinas 2, 3 and 4 and including the area commonly known as West Beach on the north. (Ord. 5386, 2006; Ord. 4757, 1992; Prior Code §24.1.)

M. **HARBOR DISTRICT.** The entire Waterfront of the City, including all navigable waters and all tidelands and submerged lands, whether filled or unfilled, situated below the line of mean high tide, bounded by the limits of the City as now fixed or hereafter may be extended. (Ord. 5386, 2006; Ord. 4757, 1992; Prior Code §24.1.)
N. **HARBORMASTER.** The person designated by the Waterfront Director as the division manager of the Operations Division of the Waterfront Department. (Ord. 5386, 2006; Ord. 4757, 1992.)

O. **HARBOR PATROL SUPERVISOR.** The person designated by the Waterfront Director as the supervisor of the Harbor Patrol Officers in the Operations Division of the Waterfront Department. (Ord. 5386, 2006; Ord. 4757, 1992.)

P. **LIVE-ABOARD.** The use or occupancy of a vessel for habitation on any four (4) nights during a seven (7) day period. The term does not include the vacation use of a vessel, as defined in Section 17.18.090, by its registered owner and the owner's guests. (Ord. 5386, 2006; Ord. 4757, 1992; Ord. 4387, 1986.)

Q. **MARINA.** A connected system of slips in the Harbor. (Ord. 5386, 2006; Ord. 4757, 1992.)

R. **MARINE SANITATION DEVICE.** Equipment on board a vessel that is designed to receive, retain, treat, process, or discharge sewage. (Ord. 5386, 2006; Ord. 5282, 2003.)

S. **MINIMUM GROUND TACKLE SPECIFICATIONS.** The specifications for Ground Tackle used to moor a vessel, attached as Attachment “A” to the Resolution of the Council of the City of Santa Barbara Establishing Minimum Ground Tackle Specifications and Procedures for Installing, Inspecting and Repairing Moorings in the Santa Barbara Mooring Area, as may be amended from time to time by the Harbor Commission, with which all vessels intending to moor in the City of Santa Barbara Mooring Area must comply. (Ord. 5386, 2006.)

T. **MOORING.** An Anchor, chain, buoy, pendant, snubber, chafing gear and associated equipment, not typically stowed or carried aboard a vessel when underway, used to engage the seafloor and through its resistance to drag maintain a vessel within a given radius. (Ord. 5386, 2006; Ord. 4757, 1992; Prior Code §24.1.)

U. **MOORING INSPECTION REPORT.** A City form on which a City-Approved Mooring Inspector provides the results and recommendations of a Mooring Inspection. (Ord. 5386, 2006.)

V. **MOORING PERMIT.** An annual non-transferable Mooring Site rental agreement issued by the Waterfront Director to a Mooring Permittee to place a Mooring and vessel in a Mooring Site in the Santa Barbara Mooring Area. (Ord. 5386, 2006.)

W. **MOORING SITE.** A designated location within the Santa Barbara Mooring Area assigned by the Waterfront Director through a Mooring Permit to a Mooring Permittee for purposes of Mooring a vessel. (Ord. 5386, 2006.)

X. **OPERABLE.** A vessel’s ability to maneuver safely under its own power from any place in the Harbor District to the open waters of the Pacific Ocean and back to its point of origin. (Ord. 5386, 2006.)

Y. **RODE.** All gear, collectively, that lies between a boat and its Anchor. (Ord. 5386, 2006.)

Z. **SANTA BARBARA MOORING AREA.** The area located in the City of Santa Barbara tidal waters east of Stearns Wharf as depicted on the reference map attached as Exhibit “A” to Chapter 17.20. (Ord. 5386, 2006.)

AA. **SEASONAL ANCHORAGE.** The area depicted on the reference map attached as Exhibit “A” to Chapter 17.20. (Ord. 5386, 2006.)

BB. **SEWAGE.** Human body wastes and the wastes from toilets and other receptacles intended to receive or retain body waste. (Ord. 5386, 2006; Ord. 5282, 2003.)

CC. **SLIP.** A docking space for a vessel within the Harbor. (Ord. 5386, 2006; Ord. 4757, 1992.)

DD. **SLIP FEE.** The monthly license fee paid by a slip permittee for berthing privileges in the Harbor, including the monthly fees paid for live-aboard privileges if applicable. (Ord. 5420, 2007.)

EE. **SLIP PERMIT.** A slip rental agreement issued by the Waterfront Director to a Slip Permittee to berth a vessel in a slip in the Santa Barbara Harbor. (Ord. 5386, 2006; Ord. 4757, 1992.)

FF. **SPECIAL ACTIVITY MOORING PERMIT.** A Mooring Permit issued by the Waterfront Director to individuals, organizations and governmental entities found to be operating research, scientific, clean-up or other functions necessary to the long-term health and operation of the Harbor District and marine environment, or critical to the safety, welfare and protection of persons and assets within the Harbor District. (Ord. 5386, 2006.)

GG. **STEARNS WHARF.** The wharf structure and all of its improvements located at the foot of State Street. (Ord. 5386, 2006; Ord. 4757, 1992; Ord. 4272, 1984.)

HH. **TRANSFER FEE.** The fee charged to transfer a Slip Permit. (Ord. 5420, 2007; Ord. 5386, 2006; Ord. 4757, 1992.)

II. **VESSEL.** A craft whose physical characteristics indicate that it was designed and constructed for the purpose of carrying people or goods over water. (Ord. 5728, 2015.)

JJ. **WATERFRONT.** The Harbor, Stearns Wharf, West Beach and all City-owned or -operated parking lots and related structures and facilities along Cabrillo Boulevard or Shoreline Drive within the City of Santa Barbara. (Ord. 5386, 2006; Ord. 4757, 1992; Ord. 4272, 1984.)

KK. **WHARFAGE.** The hourly rate assessed any vessel which uses or is tied up to any structure in the Harbor for the loading or unloading of merchandise, excluding the products of commercial fishing. (Ord. 5386, 2006; Ord. 4757, 1992.)

LL. **YEAR-ROUND ANCHORAGE.** The area depicted on the reference map attached as Exhibit “A” to Chapter 17.20. (Ord. 5728, 2015; Ord. 5386, 2006.)
Chapter 17.06

BOARD OF HARBOR COMMISSIONERS

Sections:
17.06.010 Harbor Commission - Powers and Duties.

17.06.010 Harbor Commission - Powers and Duties.

The Board of Harbor Commissioners shall have the same powers and duties regarding the Waterfront as it possesses with respect to the Harbor pursuant to the provisions of Section 811 of Article VIII of the Charter of the City of Santa Barbara. (Ord. 4272, 1984.)

Chapter 17.08

WATERFRONT DIRECTOR

Sections:
17.08.010 Powers and Duties - Harbor. 17.08.030 Additional Powers and Duties.
17.08.020 Performance by Deputy or Assistant. 17.08.040 Carrying of Firearms.

17.08.010 Powers and Duties - Harbor.

The Waterfront Director, acting under the orders and jurisdiction of the City Administrator, shall have full authority in the enforcement of all provisions of this Code, and all the ordinances and regulations affecting the Waterfront, Stearns Wharf and the Harbor District. The powers and duties of the Waterfront Director shall expressly include, but not be limited to, the following:

A. DESIGNATION OF MOORING AREAS. To designate and mark, by buoys or otherwise, the areas within which vessels of different sizes and classes shall be moored.

B. ASSIGNMENT OF SLIPS. To assign vessels to slips within designated areas in the Harbor. To approve, issue and collect fees for Slip Permits.

C. TERMINATION OF SLIP PERMITS. To terminate Slip Permits pursuant to Section 17.20.005.J herein.

D. ASSIGNMENT OF MOORINGS. To assign moorings to vessels within designated areas in the Harbor District.

E. ORDER VESSEL MOVEMENT. To order the owner of any vessel within the Harbor District to move the vessel to any other position the Waterfront Director may designate in the interest of safety, space limitations, traffic and reduction of risk due to fire, sinking, breakaway or collision. To move the vessel, and to collect moving costs from the vessel's owner, in the event the vessel is not moved by its owner.

F. MOVING VESSELS. To move the vessel, and to collect moving costs from the vessel's owner, in the event the vessel is not moved by its owner.

G. POLICE POWERS. The Waterfront Director and his appointed deputies and assistants are peace officers who make arrests for public offenses.

H. CLOSURE OF STEARNS WHARF. To order the closure of Stearns Wharf to the general public when necessary to protect the public health, safety, or welfare or to maintain Stearns Wharf.

I. COMMERCIAL AND INDUSTRIAL USE OF STEARNS WHARF. To restrict and control the commercial and industrial use made of Stearns Wharf, including the authority to impose fees, in amounts determined by the City Council, for specified activities, to insure that such use is consistent with the recreational nature of Stearns Wharf.

J. REGULATIONS FOR THE USE OF STEARNS WHARF. To adopt and enforce reasonable regulations for the proper use and enjoyment of Stearns Wharf by the public.

K. COLLECTION OF PARKING FEES ON STEARNS WHARF. To collect fees and charges established by Resolution of the City Council for vehicles entering or parking on Stearns Wharf.

L. PARKING REGULATIONS. To establish regulations, including, but not limited to, parking time limitations and procedures for the validation of parking by Stearns Wharf merchants, and by Waterfront Merchants, as necessary for the orderly control of traffic and parking on Stearns Wharf, the Waterfront, and the Harbor District in general.
M. PARKING POLICY. To promulgate parking policy with respect to Stearns Wharf tenants, Waterfront tenants, and their employees in conformance with existing leases and in order to maximize the availability of public parking.

N. GENERAL. The primary duty of the Waterfront Director and his or her deputies and assistants shall be the enforcement of the law in or about the Santa Barbara Harbor, Harbor District, and Waterfront area, or when performing necessary duties with respect to patrons, employees, and properties of the Santa Barbara Harbor, Harbor District, and Waterfront area. (Ord. 5420, 2007; Ord. 5201, 2001; Ord. 4757, 1992; Ord. 4282, 1984; Ord. 4272, 1984; Ord. 4133, 1982; Ord. 4074, 1980; Prior Code Section 24.2.)

17.08.020 Performance by Deputy or Assistant.

Whenever a power is granted to, or duty is imposed upon, the Waterfront Director, the power may be exercised or the duty may be performed by a deputy, or assistant of the Waterfront Director, or by a person authorized, pursuant to law, by the City Administrator, unless this title expressly provides otherwise. (Ord. 4272, 1984; Ord. 4074, 1980; Prior Code Section 24.3.)

17.08.030 Additional Powers and Duties.

The Waterfront Department shall be under the direction of the Waterfront Director. The Waterfront Director shall be subject to the control and general supervision of the City Administrator. All references in the City Charter, this Code or in any ordinance which refer to the position of Harbor Manager, Harbormaster or Harbor Director as the Department Head of the Waterfront Department, shall be deemed to refer to the Waterfront Director, provided that nothing herein shall be construed to change the salary of the Waterfront Director. (Ord. 4757, 1992; Ord. 4272, 1984; Ord. 4074, 1980; Ord. 3919 Section 7, 1977; Ord. 3336 Section 1, 1968.)

17.08.040 Carrying of Firearms.

Subject to the approval of the Waterfront Director, the Harbormaster, the Harbor Patrol Supervisor, and Harbor Patrol Officers may carry firearms while engaged in the performance of their official duties. Prior to carrying firearms, the Harbormaster, Harbor Patrol Supervisor and Harbor Patrol Officers must satisfactorily complete a training course in the carrying and use of firearms which meets the minimum standards prescribed by the Commission on Peace Officers Standards and Training. Once every ninety (90) days, Harbor Patrol Officers shall demonstrate their competency in handling firearms in a manner satisfactory to the Chief of Police. Upon being determined to be competent, said Officers shall be so certified by the Chief of Police for the succeeding ninety (90) day period. The purpose and intent of the authorization to carry firearms in this section is to provide a means of self-defense only. The use and handling of such weapons shall comply in all respects with all applicable rules and regulations of the Fire and Police Commission. (Ord. 5377, 2005; Ord. 4757, 1992; Ord. 4282, 1984; Ord. 4272, 1984; Ord. 4133, 1982; Ord. 4074, 1980; Ord. 3674 Section 2, 1974.)

#### 17.12.010 Disposition, Etc., of Sunken Vessels, Derelicts, Flotsam, Etc.

The Waterfront Director shall take custody of all property found within the Harbor district not in the lawful possession or control of any person. The lawful owners may claim such property by showing proof of ownership and paying all expenses incurred by the Waterfront Director in connection therewith, including charges for raising, keeping and storing the same. If any property is not claimed, and all charges are not paid, within sixty (60) days after the Waterfront Director has taken custody of it, the Waterfront Director is authorized to sell the same as abandoned property in accordance with the terms of existing law. (Ord. 4757, 1992; Prior Code §24.4.)

Prior to departure from the Harbor, all boat owners or operators shall report to the Waterfront Director if a slip is to be released, vacated or unoccupied for five (5) or more days. (Ord. 5386, 2006; Ord. 4757, 1992; Prior Code §24.6.)

#### 17.12.030 Launching and Removing Vessels - Procedure.

Vessel launching or removal from the Harbor is unlawful, except at public or commercial locations designated for such purpose, without first obtaining permission from the Waterfront Director. (Ord. 4757, 1992; Ord. 4200, 1983; Ord. 2973 §1, 1964; Ord. 2915 §1, 1963; Ord. 2882 §1, 1962; prior Code §24.7.)

#### 17.12.040 Public Launching Ramp Fees.

Fees for the privilege to enter and use the public launching ramp for launching a boat shall be established by City Council resolution. (Ord. 4757, 1992; Ord. 3932 §1, 1977; Ord. 3333, 1968; Ord. 2973, 1964; prior Code §24.7(a).)

#### 17.12.050 Vessels Berthed, Moored or Anchored in the Harbor District.

After December 1, 2015, only Vessels as defined in Section 17.04.010.II. shall be berthed, moored or anchored in the Harbor District. Man-made floating objects that are existing and berthed, moored or anchored in the Harbor District as of December 1, 2015, and do not meet the definition of “Vessel,” as set forth in Section 17.04.010.II., shall be allowed to continue to berth, moor or anchor in the Harbor District and shall not be required to meet the definition of Vessel. All other requirements of Title 17 of the Santa Barbara Municipal Code shall apply to these man-made floating objects, with the following exceptions:

1. Waiver of operability requirements described in Section 17.20.005.K.1.
2. No length or beam variations after December 1, 2015. (Ord. 5728, 2015.)

#### 17.12.060 Damaging, Etc., Harbor Property.

It is unlawful for any person to wilfully or carelessly destroy, damage, disturb, deface or interfere with any buoy, float, life preserver, sign, notice or any other municipal or public property within the Harbor district under the jurisdiction of the City, and such person shall make full restitution for any resulting damages to the City. (Ord. 4757, 1992; Prior Code §24.8.)
17.12.070 Information to be Furnished Waterfront Director.

The master and pursers of all vessels using the Harbor or wharves shall furnish the Waterfront Director with information regarding the size and kind of vessel; the amount, kind and value of waterborne freight handled, and the number of passengers carried and submit their papers, including their manifests for inspection, upon demand. (Ord. 4757, 1992; Prior Code §24.9.)

17.12.090 Assumption of Risk by Vessel Owner.

The owner of any vessel shall assume all risk of damage or loss of any kind to his property while it is within the limits of the Harbor district. The City assumes no risk on account of fire, theft, act of God, conditions of the sea, or damages of any kind to vessels. (Ord. 4757, 1992; Prior Code §24.11.)

17.12.100 Permission to Leave Vessel by Wharf, Pier, Etc.

It is unlawful for any person to leave any vessel unattended or unoccupied at, or alongside any public wharf, pier, float, quay or landing without obtaining permission of the Waterfront Director to do so. (Ord. 4757, 1992; Prior Code §24.12.)

17.12.120 Obstructing Access to and Use of Landings, Piers, Fairways, Walkways and Docks.

It shall be unlawful for any person to obstruct access to or use of any public area including landings, piers, fairways, walkways and docks or to berth any vessel where the length of the vessel exceeds the maximum permissible length for the slip as established by resolution of the City Council. (Ord. 5152, 2000; Ord. 4757, 1992; Prior Code §24.14.)

17.12.130 Certain Craft Requiring Permit to Cross Main Channel.

No person shall operate any surfboard, sailboard, paddleboard, raft, or similar craft or device, in or across the main channel, or in area of launching ramps, marinas, and turning basins; without first having obtained permission from the Waterfront Director. (Ord. 4757, 1992; Ord. 4308, 1984; Ord. 2749 §1, 1959; prior Code §24.141.)

17.12.135 Sailboarding Restricted.

No person shall use or operate any sailboard, windsurfer or similar device in the waters bounded by West Beach, Stearns Wharf, the rock groin at the Harbor entrance and an imaginary line connecting the Santa Barbara Harbor Light 4 (located at the end of Stearns Wharf) to Santa Barbara Harbor Breakwater Light (located at the most southeasterly point of the breakwater) between the hours of 12:00 noon to 6:00 p.m. on Sundays during the months of April, May, June and July. (Ord. 4308, 1984.)

17.12.150 Operation of Vessels in Harbor.

It is unlawful for any person to operate a vessel within the Harbor:
1. at a speed greater than five (5) nautical miles per hour;
2. in a manner that creates a wake that causes docks, floating structures or vessels secured to docks or floating structures to move in a way that threatens safety, or damages floating structures or vessels; or
3. in a manner that fails to account for visibility, weather conditions, other vessels, property or for the safety of all persons.

This section shall not apply to public officers in the performance of their official duties or persons issued a special permit by the Waterfront Director. (Ord. 5602, 2012; Ord. 5124, 1999; Ord. 4757, 1992; Ord. 2666 §1, 1958; prior Code §24.16.)

17.12.170 Power Driven Vessels and Sail Vessels in Swim Areas.

It shall be unlawful to operate a power driven vessel, or a sail vessel, within any designated swim area in the Harbor District unless authorized by the Waterfront Director. Swim areas shall be designated by the placement of regulatory buoys. (Ord. 5458, 2008; Ord. 4757, 1992; Ord. 2666 §2, 1958; prior Code §24.17(a).)

No person shall enter the Harbor waters except slip permittees, lessees, licensees and those persons with valid Business Activity Permits, who, in the course of doing boat maintenance are required to be in the water. Swimming is permitted from that portion of West Beach bordered by Stearns Wharf, the rock groin and the navigation channel, and the seaward portion of the sandspit. (Ord. 4757, 1992; Ord. 2749 §2, 1959; prior Code §24.18.)
Chapter 17.13
STEARN'S WHARF

Sections:
17.13.010 Vessels Tied Up to Stearn's Wharf.  
17.13.030 Commercial Photography.  
17.13.040 Diving From Stearns Wharf.  
17.13.050 Closure of Stearns Wharf.  
17.13.060 Stearns Wharf Designated Fishing Areas.

17.13.010 Vessels Tied Up to Stearn's Wharf.

A. It is unlawful for any person to leave or permit any vessel to be unattended or unoccupied at, or alongside of, Stearns Wharf without first obtaining the permission of the Waterfront Director.

B. The Waterfront Director may order any vessel to leave Stearns Wharf or to change its location alongside Stearns Wharf, if necessary for the health, safety or welfare of persons on or near the Wharf or for the operational efficiency of Stearns Wharf.

C. Fees, charges, and regulations may be established by City Council Resolution for tie up of vessels at the passenger loading ramp on Stearns Wharf for the primary purpose of embarking or debarking commercial passengers. (Ord. 4757, 1992; Ord. 4272, 1984.)

17.13.030 Commercial Photography.

Commercial, still, motion or sound photography is permitted on Stearns Wharf after doing the following:

A. Obtaining permission of the Waterfront Director; and,

B. Obtaining the appropriate permits from the City of Santa Barbara; and,

C. Paying appropriate fees as established by City Council resolution. (Ord. 4757, 1992.)

17.13.040 Diving From Stearns Wharf.

It is unlawful to dive or jump from Stearns Wharf without the express permission of the Waterfront Director. (Ord. 4757, 1992.)

17.13.050 Closure of Stearns Wharf.

The Waterfront Director may order the closure of Stearns Wharf to the general public when necessary to protect the public health, safety, or welfare or to maintain Stearns Wharf. When closure of Stearns Wharf is directed on a regular basis or at certain prescribed times during the day, notice of said closure shall be posted in a prominent manner at both the pedestrian and vehicle access entrances to Stearns Wharf. (Ord. 5420, 2007.)

17.13.060 Stearns Wharf Designated Fishing Areas.

It shall be unlawful to fish from Stearns Wharf except in the areas depicted as “Designated Fishing Areas” on the map attached as Exhibit “A” to Chapter 17.13. The Waterfront Director, or his or her designee, may make temporary changes to the boundaries of the “Designated Fishing Areas” as shown on Exhibit “A” to accommodate special events. Exhibit “A” attached to Chapter 17.13 shall not be revised to reflect such temporary changes, but notice of such temporary changes will be posted at visible locations on Stearns Wharf. (Ord. 5712, 2015.)

Chapter 17.16
SANITATION AND CONTAMINATION OF HARBOR WATERS

Sections:

17.16.010 Discharge of Contaminants into Harbor District Waters Unlawful.
17.16.020 Allowing Contaminants to be Washed into Harbor Water Unlawful.
17.16.030 Violation of Section 17.16.010.
17.16.040 Exception to Section 17.16.010.
17.16.050 Throwing or Casting Adrift Navigation Hazards.
17.16.060 Leaving Garbage or Refuse on Shore.
17.16.070 Violation - Penalty.

17.16.010 Discharge of Contaminants into Harbor District Waters Unlawful.

It is unlawful for any person to discharge, either directly or indirectly, any pollutant or contaminating substance or material, including rubbish, trash, litter, sewage, or refuse of any kind into the waters of the Santa Barbara Harbor District. The terms "pollutant" or "contaminating substance" also include ballast water, bilge water or waste water containing or contaminated with any paint, varnish or other insoluble products in a liquid state. The terms "pollutant" or "contaminating substance" shall not include "wash down water", engine discharge or exhaust gas or substances normally contained in such discharges or exhausts, or galley sink, shower or hand basin water. (Ord. 5458, 2008; Ord. 5282, 2003; Ord. 4757, 1992; Ord. 3482 §1, 1971; prior Code §24.20.)

17.16.020 Allowing Contaminants to be Washed into Harbor Water Unlawful.

It is unlawful for any person to deposit, leave or discharge any pollutants or contaminating substances or materials mentioned in Section 17.16.010 of this Chapter upon any street, walkway, breakwater, beach, parking lot or other place, where the same may be washed into the waters of Santa Barbara Harbor, either by tides, storm floods or other drainage. (Ord. 4757, 1992; Ord. 3482 §2, 1971.)

17.16.030 Violation of Section 17.16.010.

Within ten (10) days of a final judicial determination that Section 17.16.010 has been violated by the registered owner or operator of a vessel, the Waterfront Director shall advise the appropriate regional water quality control board, the State Water Quality Control Board, and any other appropriate governmental regulatory body of the facts and circumstances surrounding that finding. (Ord. 5282, 2003; Ord. 4757, 1992; Ord. 3482 §4, 1971.)

17.16.040 Exception to Section 17.16.010.

In an emergency which jeopardizes the safety of any vessel or its occupants, the provisions of Section 17.16.010 are inapplicable if the discharge of any pollutant or contaminating substance mentioned in Section 17.16.010 into the waters of the Harbor district is reasonably necessary to an attempt to avert the emergency. (Ord. 4757, 1992; Ord. 3482 §5, 1971.)

17.16.050 Throwing or Casting Adrift Navigation Hazards.

It is unlawful to dump, throw or set adrift material of any sort into the waters of the Harbor district that is, or might become, obstructive or dangerous to navigation. (Ord. 4757, 1992; Prior Code §24.21.)

17.16.060 Leaving Garbage or Refuse on Shore.

It is unlawful for any person to leave, or allow to remain, garbage of any description upon the shores, lands, floats, slips, or other structures in the Waterfront area. The Waterfront Director may remove the same with or without notice. Any person violating this provision shall be responsible for paying the costs of removal and shall be subject to the penalty provided for violations of this Code. (Ord. 4757, 1992; Prior Code §24.23.)

17.16.070 Violation - Penalty.

In addition to any other remedy or penalty provided by law, the City may, upon repetition of a violation of any of the provisions of this chapter, revoke the right to use or moor, any vessel owned, operated, or used by the violator in the Harbor District.(Ord. 4757, 1992; Ord. 3471 §5, 1971.)

## 17.18.010 Permit Required.

It is unlawful for any person to live-aboard in the Santa Barbara Harbor without having been issued a valid live-aboard permit by the Waterfront Director. (Ord. 4757, 1992; Ord. 4387, 1986)

## 17.18.020 Standards for Permit Issuance.

### A. REQUIREMENTS FOR ISSUANCE OF LIVE-ABOARD PERMITS.

A live-aboard permit may be issued only if all of the following standards are met:

1. **Principal Residence.** All applicant(s) for live-aboard permits shall be the registered owner of the vessel to be occupied, and the vessel shall be that person's principal residence, as well as the principal residence, as that term is defined in the U.S. Internal Revenue Code, of any named "Other Occupants" on the applicant's permit.

2. **Sanitation.** The vessel shall be equipped with a fully operational type I, II, or III Coast Guard-approved marine sanitation device suitable in the opinion of the Waterfront Director to prevent direct discharge of human waste into the Harbor.

3. **Slip Permit.** The vessel shall occupy a Slip pursuant to a valid Slip Permit but not a yacht brokerage slip as defined in section 17.20.005.F.

4. **Live-Aboard Slip Permittee.** All applicants for live-aboard permits shall be current slip permittees for the Slip in which the live-aboard vessel is berthed.

5. **Number of Applicants.** No more than one (1) person may apply for a single live-aboard permit, provided he/she meets the requirements of this Chapter.

### B. OTHER OCCUPANTS.

For the purpose of this Chapter, “Other Occupants” are defined as persons, other than the live-aboard permittee, living aboard a vessel for which a valid live-aboard permit has been issued and who are listed on that live-aboard permit.

### C. MAXIMUM NUMBER OF OTHER OCCUPANTS.

No more than four (4) Other Occupants may be added to a live-aboard permit, unless authorized in writing by the Waterfront Director. (Ord. 5420, 2007; Ord. 5273, 2003; Ord. 5023, 1997; Ord. 4757, 1992; Ord. 4387, 1986.)

## 17.18.030 Regulations.

### A. REGISTRATION.

All persons living aboard a vessel pursuant to a permit must be registered as a live-aboard with the Waterfront Director and shall be listed as a live-aboard or "Other Occupant" on the live-aboard permit for that vessel.

### B. RULES AND REGULATIONS.

All persons living aboard a vessel pursuant to a permit shall comply with all regulations, laws, and rules of the Harbor.

### C. MONTHLY FEE.

The live-aboard permittee shall pay a monthly live-aboard fee in an amount established by resolution of the City Council. The monthly live-aboard fee shall be due and payable to the Waterfront Department as part of and in addition to the monthly Slip Fee.

### D. GUESTS.

The live-aboard permittee shall notify the Waterfront Department regarding live-aboard guests if their anticipated stay is 7 days or longer. The permittee is limited to 60 live-aboard guest days per year, unless authorized in writing by the Waterfront Director. (Ord. 5420, 2007; Ord. 5273, 2003; Ord. 4757, 1992; Ord. 4387, 1986.)

## 17.18.040 Live-Aboard Permit Expiration, Renewal, and Transfer.

Unless suspended, revoked or terminated pursuant to this Chapter, a live-aboard permit may be renewed annually effective May 1 upon application and compliance with all terms of this Chapter. A live-aboard permit may not be transferred to another person but may be transferred by the live-aboard permittee to a new vessel or to a new Slip Permit of the original live-aboard permittee with prior written approval of the Waterfront Director. (Ord. 5420, 2007;
Ord. 5273, 2003; Ord. 4757, 1992; Ord. 4387, 1986.)
17.18.050 Termination of Live-Aboard Permit.

A. TERMINATION. A live-aboard permittee may terminate his or her Live-Aboard permit upon thirty (30) days prior written notice of termination to the Waterfront Department.

B. TERMINATION BY WATERFRONT DIRECTOR. The Waterfront Director may terminate a Live-Aboard permit upon thirty (30) days prior written notice of termination to the Live-Aboard permittee for any of the following reasons:
   1. Failure to Maintain Berthed Vessel in Operable Condition. The failure of a Live-Aboard permittee to continuously maintain a vessel berthed in a Slip in an Operable condition as required by Section 17.20.005.L herein.
   2. Failure of Live-Aboard Permittee to Comply with Waterfront Department Rules and Regulations. The failure of a Live-Aboard permittee or Live-Aboard permittee’s “other occupant,” guest or visitor to comply with all applicable local, state and federal laws and all Waterfront Department Rules and Regulations.

C. ISSUANCE OF LIVE-ABOARD PERMIT AFTER TERMINATION. A Live-Aboard permittee whose Live-Aboard permit is terminated as provided herein may not apply for another Live-Aboard permit until six months after the date upon which the Live-Aboard permit is terminated. The Waterfront Director shall have the sole discretion to decide whether to issue another Live-Aboard permit or not. The Waterfront Director’s decision shall be final.

D. APPEAL. If the Waterfront Director terminates a Live-Aboard permit, the Live-Aboard permittee may request a waiver of the termination from the Waterfront Director. To request a waiver of the termination, the Live-Aboard permittee shall file a written waiver request setting forth the grounds upon which the waiver is requested with the Waterfront Director within ten (10) days of the date that the Live-Aboard permit is terminated. If the Waterfront Director denies the waiver, the Live-Aboard permittee may appeal the Waterfront Director’s decision to the Harbor Commission. The appeal shall be filed in writing with the City Clerk within ten (10) days of the date of the Waterfront Director’s decision. The Harbor Commission’s decision on the appeal shall be final. If no waiver request is filed, the Live-Aboard permittee may appeal the Waterfront Director’s decision to terminate the Live-Aboard permit to the Harbor Commission. The Live-Aboard permittee shall file a written appeal setting forth the grounds upon which the appeal is based with the City Clerk within ten (10) days of the date of the Live-Aboard permit termination. (Ord. 5528, 2010; Ord. 5420, 2007; Ord. 5273, 2003; Ord. 4757, 1992; Ord. 4387, 1986.)

17.18.060 Fees.

Fees for the issuance, renewal, or reinstatement of live-aboard permits shall be in an amount established by resolution of the City Council. (Ord. 5420, 2007; Ord. 4387, 1986.)

17.18.070 Limitation on Number of Permits.

A. GENERAL RULE. No more than one hundred thirteen (113) live-aboard permits shall be outstanding at any time.

B. WAITING LIST.
   1. Procedure. A waiting list for live-aboard permits may be maintained and available for public inspection. Live-aboard permits shall be issued according to application date and availability of live-aboard permits. When a live-aboard permit becomes available, it shall be offered to the first person on the waiting list. Notification will be mailed to the most current address on file in the Harbormaster's office. It is the sole responsibility of the applicant to keep the address on file with the Harbormaster current. Acceptance must be made in writing to the Waterfront Department within thirty (30) days of the mailing date of notification. If a live-aboard permit is offered and not accepted within thirty (30) days, the applicant’s name will be removed from the list. Fees paid to be included on the live-aboard waiting list are non-refundable.
2. **Fees.** A live-aboard permit waiting list fee in an amount established by resolution of the City Council shall be paid to the Waterfront Department at the time of the request to be placed on the waiting list. A renewal fee in an amount established by resolution of the City Council shall be paid each year an applicant remains on the live-aboard waiting list. Should the City cancel the live-aboard waiting list before offering the applicant a permit, the City will refund the renewal fee paid by the applicant for the current year. (Ord. 5420, 2007; Ord. 5273, 2003; Ord. 5149, 2000; Ord. 4757, 1992; Ord. 4387, 1986)

**17.18.080 Penalty for Violation.**

A Slip Permit may be terminated if three or more administrative citations are issued to any Person, as defined in Section 1.25.030.F, illegally living aboard a vessel in an individual Slip during any twelve-month period, in violation of Section 17.18.010. An administrative citation shall be considered “issued” when either of the following occurs: the period in which an administrative citation may be appealed has expired or when the Hearing Administrator upholds an administrative citation pursuant to an appeal hearing. (Ord. 5420, 2007; Ord. 5273, 2003; Ord. 4387, 1986)

**17.18.090 Vacation Use Exception.**

The vacation use of a vessel by a slip permittee and the slip permittee's guests does not require a live-aboard permit, provided:

1. Such vacation use does not exceed a total of sixty (60) days in any calendar year;
2. A minimum of fifty percent (50%) of vacation use is utilized in increments of seven (7) days or more;
3. The names of the vacation users and the dates of vacation use are registered with the Waterfront Director by the slip permittee; and
4. The vessel is equipped with a fully operational marine sanitation device suitable for preventing direct discharge of human waste into the Harbor. (Ord. 5420, 2007; Ord. 5273, 2003; Ord. 4757, 1992; Ord. 4387, 1986.)

**17.20.005 Slip Assignment Policy.**

**A. PURPOSE.**

1. Generally. The purpose of the Slip Assignment Policy is to provide regulations for the primary purpose of the Harbor, which is to provide in-water storage for commercial and recreational vessels actively used for their intended purpose.
2. Limited Secondary Use. As a limited secondary use, a slip permittee may be permitted to reside aboard a vessel by obtaining a permit from the Waterfront Department pursuant to the Santa Barbara Municipal Code.

**B. SLIP RENTAL AGREEMENT.**

1. **Slip Permit.** Before any vessel is allowed in a Slip in the Santa Barbara Harbor, a permit must be issued pursuant to the Santa Barbara Municipal Code for that vessel by the Waterfront Department. Slip Permits, as approved by the Waterfront Director, shall be for month-to-month terms. Slip permittees shall comply with applicable ordinances and resolutions, including fee provisions, adopted by the Santa Barbara City Council. No such Slip Permit shall be transferable after death of the slip permittee or by inheritance. A Slip Permit may, however, be assigned to a deceased slip permittee’s surviving spouse or domestic partner registered with the City Clerk in
accordance with Chapter 9.135 of the Santa Barbara Municipal Code pursuant to Section 17.20.005.D.2 b herein.
2. **Ownership of Vessel Required.** A slip permittee must at all times have an equity ownership interest in the vessel assigned to the Slip Permit.

   a. **Proof of Ownership Required.** An equity ownership interest in a vessel must be demonstrated at the time a Slip Permit is issued to a slip permittee or transferred in accordance with Section 17.20.005.D herein by submitting any of the following documents to the Waterfront Department: (i) State vessel registration listing the prospective slip permittee as an owner, (ii) federal documentation listing the prospective slip permittee as an owner or, (iii) a notarized bill of sale in the name of the prospective slip permittee. If proof of vessel ownership is a notarized bill of sale, a fully completed state registration or federal documentation with all slip permittees listed as vessel owners must be provided to the Waterfront Department within ninety (90) days of the submittal of the Slip Permit application. The Slip Permit shall be subject to termination if proof of ownership is not provided to the Waterfront Department within ninety (90) days.

   b. **Permitted Types of Ownership.** Corporations, limited liability corporations, partnerships, non-profit organizations, trusts, governmental agencies or individuals may own vessels. If a vessel is owned by an entity other than an individual, non-profit organization or governmental agency, the Slip Permit applicant(s) or slip permittee(s) must submit to the Waterfront Department either a partnership agreement or articles of incorporation which establishes that each slip permittee is either a general partner or an officer of the entity with the authority to legally bind the ownership entity. If the vessel is owned by a governmental agency or non-profit organization, the agency or organization must designate in writing a representative from the agency or organization who will be responsible for all aspects of the Slip Permit. Changing the name of the person so designated shall require payment of a slip transfer fee pursuant to Section 17.20.005.D herein, unless waived by the Waterfront Director.

3. **Replacement Vessel.** If the vessel assigned to the Slip Permit is sold, donated, stolen, destroyed or otherwise permanently removed from its Slip, its owner must notify the Waterfront Department within fifteen (15) days of the occurrence of the event causing the removal of the vessel assigned to the Slip Permit, unless granted a written exemption from the Waterfront Director. Failure of timely reporting of a sold, donated, stolen, destroyed or otherwise permanently removed vessel, or timely assignment of a replacement vessel, shall be grounds for termination of the Slip Permit.

4. **Slip Fees.** The slip permittee shall pay one month's Slip Fee, in advance, plus applicable fees and deposits when the Slip Permit application is submitted to the Waterfront Department. Slip Fees shall be established by resolution of the City Council.

5. **Commercial Fishing and Aquaculture.** The City Council may by resolution establish exclusive or preferential uses within all, or within certain areas of, the Harbor for use by vessels employed in commercial fishing and/or aquaculture. For purposes of this Section, a commercial fishing vessel or vessel employed in aquaculture is a vessel in use pursuant to a valid and current commercial fishing or aquaculture permit issued by the California Department of Fish and Game. Such a vessel shall be a continuing source of income pursuant to the appropriate California permits, in accord with regulations adopted from time to time by resolution of the City Council.

C. **SLIP WAITING LISTS.**

1. **Master Waiting List.** The waiting list for the assignment of Harbor marina slips, as created by City Council Ordinance, is renamed the “Master Waiting List.” The Master Waiting List is divided into categories according to slip length. Applicants on the Master Waiting List have designated a category of slip length from which they seek a slip assignment. Applicants may not change their designated category of slip length and no new applicants shall be added to the Master Waiting List.

   a. **Procedure for Slip Assignment to Master Waiting List Applicants.** When a slip becomes available, it shall be offered for assignment according to whether the slip is a designated commercial fishing slip or whether it can be utilized for either commercial or recreational purposes. For purposes of this Section, commercial fishing slip means a slip that is specially designated by the Waterfront Director as a slip reserved for qualified commercial fishermen (“Commercial Fishing Slip”). If the slip is designated as a Commercial Fishing Slip, it shall be assigned according to Section C.5 herein to a qualified commercial fisherman. If it is not so designated, it shall be offered for assignment to the applicant in the slip-length category of the available slip with the earliest chronological application date on the Master Waiting List. The available slip shall be offered to each applicant in turn on the Master Waiting List within the slip-length category of the available slip until the slip is either accepted by an applicant or declined by all applicants for that slip-length category.

   b. **Procedure for Accepting or Declining a Slip Assignment Offer.**

      (1) Acceptance of Slip Assignment Offer. Notification of slip availability shall be mailed by the Waterfront Department to the applicant’s most recent address on file in the Waterfront Department. Acceptance of the slip assignment offer must be submitted by the applicant in writing to the Waterfront Department within thirty (30) days of the date of mailing the notice of slip availability.

      (2) Declined Slip Offer. Failure of an applicant to accept a slip assignment offer within thirty (30) days of the date of mailing of such offer by the Waterfront Department shall be considered a declined offer. Declining a slip offer will result in removal of the applicant’s name from the List and in the loss of all fees paid by the applicant.

   c. **Unassigned Slips from the Master Waiting List.** If an available slip is offered and declined by all applicants on the Master Waiting List registered for the slip-length category of the available slip, or if a slip-length category on the Master Waiting List is depleted of applicants, the slip shall be referred for assignment to a Sub-Master Waiting List in accordance with Section C.2 herein.
2. Sub-Master Waiting List. All applicants in all slip-length categories on the Master Waiting List shall also be applicants on the Sub-Master Waiting List. The Sub-Master Waiting List shall be ordered chronologically, according to application date, and not divided into slip-length categories. The applicant on the Master Waiting List with the earliest chronological application date, regardless of designated slip-length category, shall be the first applicant on the Sub-Master List. The applicant on the Master Waiting List with the second earliest chronological application date shall be the second applicant on the Sub-Master List, and so on.

   a. Procedure for Slip Assignment to Sub-Master Waiting List Applicants. A slip that becomes available for assignment to the Sub-Master Waiting List shall be offered to the first applicant on the Sub-Master Waiting List. If the slip offer is declined, it shall be offered to the second applicant on the list, and so on, until the slip is either accepted by an applicant or declined by all applicants on the Sub-Master List.

   b. Procedure for Accepting or Declining a Slip Assignment Offer.

      (1) Acceptance of Slip Assignment Offer. Notification of slip availability shall be mailed by the Waterfront Department to the applicant at the applicant’s most recent address on file in the Waterfront Department. Acceptance of the slip assignment offer must be submitted by the applicant in writing to the Waterfront Department within fourteen (14) days of the date of mailing the notice of slip availability.

      (2) Declined Slip Offer. Failure of an applicant to accept a slip assignment offer in writing within fourteen (14) days of the date of mailing of such offer by the Waterfront Department shall be considered a declined offer. Declining a slip offer from the Sub-Master List will not result in removal of the applicant’s name from the Master or Sub-Master Waiting lists, loss of any fees paid, or change in the applicant’s position on either list.

   c. Unassigned Slips from the Sub-Master Waiting List. If a slip assignment offer is declined by all applicants on the Sub-Master Waiting List, or if there are no applicants on the Sub-Master Waiting List, the slip shall be referred for assignment to a Lottery List in accordance with Section C.3 herein.

3. Lottery List. Any slip that remains unassigned after being offered for assignment to the Master Waiting List and Sub-Master Waiting List, or if the Sub-Master Waiting List is depleted of applicants, shall be offered for assignment to a Lottery List. The Lottery List shall be comprised of applicants selected by lot by the Harbor Commission Chair at a public meeting. Procedures for formation of the Lottery List shall be established by the Waterfront Department Slip Waiting Lists regulation adopted by resolution of the City Council.

   a. Procedure for Placement on the Lottery List.

      (1) Qualification for Placement on the Lottery List. To qualify for placement on the Lottery List, all applicants must timely submit a Lottery List Participation Request in accordance with the Slip Waiting Lists regulation containing the applicant’s name, telephone number and address. An individual may submit only one Lottery List Participation Request.

      (2) Notification of Ranking and Potential Placement on Lottery List. Within five (5) business days after the Harbor Commission Lottery List drawing, the Waterfront Department shall mail notification to each applicant whose Lottery Participation Request was selected by the Harbor Commission of their ranking and potential placement on the Lottery List. Notification shall be provided by certified mail, return receipt requested, to the applicant at the address shown on the Lottery List Participation Request form. A Lottery List Acceptance Form shall accompany the notification. Applicants not selected for ranking in the Lottery List drawing shall be notified in writing that their Lottery List Participation Request was not selected. The Waterfront Department shall discard the Lottery List Participation Requests not selected.

   (3) Procedure to Accept Placement on the Lottery List.

      (a) Within thirty (30) days of the date of mailing notification of Lottery List rankings, selected applicants ranked numbers one (1) through fifty (50) shall return the completed Lottery List Acceptance Form and the Lottery List Placement Fee in an amount established by resolution of the City Council to the Waterfront Department. Any such applicant failing to return the Acceptance Form and Lottery List Placement Fee to the Waterfront Department within the required thirty (30) day period shall not have a position on the Lottery List, and their Lottery Participation Request shall be discarded by the Waterfront Department.

      (b) Should any applicant ranked numbers one (1) through fifty (50) fail timely return of the Lottery List Acceptance Form and the Lottery List Placement Fee, notification will be sent to the next-ranked applicant for potential placement on the Lottery List as provided by resolution of City Council. Any such applicant ranked numbers fifty-one (51) through seventy (70) offered potential placement on the Lottery List shall, within fourteen (14) days of the date of such mailing, return the completed Lottery List Acceptance Form and the Lottery List Placement Fee in an amount established by resolution of the City Council to the Waterfront Department. Any such applicant failing to return the Acceptance Form and Lottery List Placement Fee to the Waterfront Department within the required fourteen (14) day period shall not have a position on the Lottery List, and their Lottery Participation Request shall be discarded by the Waterfront Department.

   b. Procedure for Slip Assignment to Lottery List Applicants. A slip that becomes available for assignment to the Lottery List shall be offered for assignment to applicants on the Lottery List according to their rank on the Lottery List. With the exception of assignments for twenty-foot slips, if a slip assignment offer is declined by all applicants on the Lottery List, the slip shall be held in the Waterfront Department’s visitor slip inventory for a period of six (6) months. After six (6) months, the slip assignment shall be re-offered individually to applicants on the Lottery List in the same order as the slip assignment was initially offered. If the slip remains unassigned after the re-offer, the procedure shall be repeated every six (6) months until the slip assignment offer is accepted. If all applicants on the Lottery List decline a slip assignment offer for a twenty-foot slip, the slip assignment for the twenty-foot slip shall be offered for assignment through a separate twenty-foot lottery pursuant to City Council Resolution.
c. Procedure for Accepting or Declining a Slip Assignment Offer from the Lottery List.
   (1) Acceptance of Slip Assignment Offer.
      (a) Notification of slip availability shall be mailed by the Waterfront Department to the
          applicant at the applicant’s most recent address on file in the Waterfront Department. Acceptance of the slip
          assignment offer must be submitted by the applicant in writing to the Waterfront Department within fourteen (14)
          days of the date of mailing the notice of slip availability. Acceptance must be submitted to the Waterfront
          Department in writing along with payment of a non-refundable Lottery List Assignment Fee as provided in Section
          C.4.b.(3) herein.
      (b) An existing marina slip permittee who is offered a Lottery List slip assignment shall
          relinquish an existing slip permit to the Waterfront Department prior to, and in exchange for, a slip assignment from
          the Lottery List.
   (2) Declined Lottery List Assignment Offer. Failure of an applicant to accept a slip assignment
          offer in writing within fourteen (14) days of the date of mailing of such offer by the Waterfront Department and
          payment of the Lottery List Assignment Fee as provided in Section C.4.b.(3) herein shall be considered a declined
          offer. Declining a slip assignment offer will not result in removal of the applicant’s name from the Lottery List, loss
          of the applicant’s Lottery List Placement Fee, Lottery List Renewal Fee, or change in the applicant’s position on the
          Lottery List.
   d. Lottery List Eligibility. An applicant whose name is on the Master Slip Waiting List is not eligible
      for inclusion on the Lottery List.

4. Slip Waiting Lists Fees.
   a. Master Waiting List Renewal Fee. An annual non-refundable Master Waiting List renewal fee in an
      amount established by resolution of the City Council shall be paid by each applicant on the Master Waiting List prior
      to the first day of November each year. Failure to timely pay the annual renewal fee shall cause removal of the
      applicant’s name from the List.
   b. Lottery List Placement Fee, Renewal Fee and Assignment Fee.
      (1) Lottery List Placement Fee. Each applicant selected for placement on the Lottery List shall
          return the Lottery List Acceptance Form along with a non-refundable Lottery List Placement Fee in an amount
          established by resolution of the City Council. Failure to timely pay the Lottery List Placement Fee shall cause the
          applicant’s name to not be placed on the Lottery List.
      (2) Lottery List Renewal Fee. An annual non-refundable Lottery List Renewal Fee in an amount
          established by resolution of the City Council shall be paid prior to the first day of November each year. Failure to
          timely pay the annual Lottery List Renewal Fee shall cause removal of the applicant’s name from the Lottery List.
      (3) Lottery List Assignment Fee. A Lottery List Assignment Fee shall be paid by the applicant at
          the time a Lottery List slip assignment is made in an amount established by resolution of the City Council. Failure to
          timely pay the Lottery List Assignment Fee shall be deemed a declined offer.
   c. Slip Waiting Lists Transfer Fee.
      (1) Slip Waiting Lists Transfer Fee. Any slip permittee assigned a slip from either the Master
          Waiting List, Sub-Master Waiting List or Lottery List shall pay a Slip Waiting List Transfer Fee in an amount
          established by resolution of the City Council to transfer the slip within five (5) years of the date of the slip
          assignment. After five (5) years, a standard Slip Transfer Fee shall be paid in an amount established by resolution of
          the City Council. A slip transfer shall be accomplished in accordance with Section D herein.
      (2) Exemptions from Slip Waiting Lists Transfer Fee. Payment of the Slip Waiting Lists Transfer Fee shall not be required for the transfer of a slip permit by a slip
          permittee who obtained a permit to occupy a slip pursuant to a mooring licensee priority assignment as provided in
          the Marina One and Four Expansion Slip Assignment Policy and Procedures Document. A standard Slip Transfer Fee
          is required.
      (3) Hardship Waiver/Appeal. The Waterfront Department, Waterfront Director, Harbor
          Commission or City Council shall not accept or consider any slip permittee’s appeal or request for a waiver from
          payment of the Slip Waiting Lists Transfer Fee.

5. Commercial Fishing/Aquaculture Slip Assignment. Commercial Fishing Slips shall be offered for
assignment only to qualified commercial fishermen. Prior to assignment of a Commercial Fishing Slip from either
the Master Waiting List, Sub-Master Waiting List, or the Commercial Fishing Slip Lottery, a commercial fisherman
must demonstrate to the satisfaction of the Waterfront Department that the commercial fisherman possesses the
following minimum qualifications: (i) a commercial fishing or aquaculture permit issued by the California
Department of Fish and Game; (ii) a Fish and Game permit for the vessel that is to be moored in the Commercial
Fishing Slip as a commercial fishing vessel; and (iii) satisfaction of the terms and criteria to qualify as a qualified
commercial fisherman, as established by City Council resolution, including the requirement for earnings from
commercial fishing in years prior to the pending Commercial Fishing Slip assignment (“Qualified Commercial
Fisherman”).
a. Master Waiting List. Commercial Fishing Slips that become available for assignment to commercial fishermen on the Master Waiting List shall be offered for assignment to the commercial fisherman registered in the slip-length category of the available slip with the earliest chronological application date. If there are no commercial fishermen registered on the Master Waiting List in the slip-length category available, the slip shall be referred to the Sub-Master List.

(1) Acceptance of Commercial Fishing Slip Assignment Offer. A Commercial Fishing Slip offered for assignment to a commercial fisherman from the Master Waiting List shall be accepted in accordance with the procedures for acceptance of a slip from the Master Waiting List set forth in Section C.1.b.(1). Prior to assignment of the Commercial Fishing Slip, the commercial fisherman must demonstrate to the satisfaction of the Waterfront Department that he or she is a Qualified Commercial Fisherman.

(2) Declined Slip Offers. Failure of an applicant to accept a slip assignment offer in writing within thirty (30) days of the date of mailing of such offer by the Waterfront Department shall be considered a declined offer. Declining a Commercial Fishing Slip offer shall result in removal of the commercial fisherman’s name from the Master Waiting List and loss of all fees paid by the commercial fisherman.

b. Sub-Master Waiting List. Commercial fishermen registered for commercial slips on the Master Waiting List shall also be applicants on the Sub-Master Waiting List. The commercial fisherman registered for a commercial slip on the Master Waiting List with the earliest chronological application date shall be the first-ranked commercial fisherman on the Sub-Master List. If a commercial slip offer is declined by all commercial fishermen registered for commercial slips on the Sub-Master List, it shall be referred to the Commercial Fishing Slip Lottery process for assignment.

(1) Acceptance of Commercial Fishing Slip. A Commercial Fishing Slip offered for assignment to the Sub-Master Waiting List shall be accepted according to the procedures for acceptance of a slip from the Sub-Master Waiting List set forth in Section C.2.b(1). Prior to assignment of the Commercial Fishing Slip, the commercial fisherman must demonstrate to the satisfaction of the Waterfront Department that he or she is a Qualified Commercial Fisherman.

(2) Declined Commercial Fishing Slip Offers. Failure of the applicant to accept the slip in writing within fourteen (14) days of the date of mailing of such offer by the Waterfront Department shall be considered a declined offer. Declining a slip offer will not result in the commercial fisherman’s name being removed from the List, loss of the applicant’s fees, or change in the applicant’s position on the List.

c. Commercial Fishing Slip Lottery. A Commercial Fishing Slip that remains unaccepted after being offered to all commercial fishermen registered for commercial slips on the Sub-Master List shall be offered for assignment to a single lottery process called the Commercial Fishing Slip Lottery. Procedures for formation of the Commercial Fishing Slip Lottery shall be established by the Waterfront Department Slip Waiting Lists regulation adopted by resolution of the City Council. To qualify for participation in the Commercial Fishing Slip Lottery, all applicants must timely submit a Lottery Participation Request in accordance with the Slip Waiting Lists regulation containing the applicant’s name, telephone number and address. An individual may submit only one Commercial Fishing Lottery List Participation Request.

(1) Procedure for Assignment from Commercial Fishing Slip Lottery.

(a) Offer of Commercial Fishing Slip Assignment. A Commercial Fishing Slip that becomes available for assignment in accordance with the Slip Waiting Lists regulation shall be offered for assignment to an applicant according to his or her rank in the Commercial Fishing Slip Lottery. The applicant ranked in the first position shall be offered the available Commercial Fishing Slip. If the first-ranked applicant declines the offer or fails to meet the requirements for a Qualified Commercial Fisherman, the second-ranked applicant shall be offered the Commercial Fishing Slip assignment, and so on.

(b) Acceptance of Commercial Fishing Slip. Acceptance of the slip assignment offer must be made in writing and submitted to the Waterfront Department within thirty (30) days of the date of mailing notice of slip availability. The acceptance form shall include the necessary information to verify qualification for a Commercial Fishing Slip. Any applicant failing to submit the required information to verify eligibility, or any applicant failing to meet the eligibility requirements set forth in Section C. 5 for a Qualified Commercial Fisherman, shall be removed from consideration for slip assignment during that Lottery.

(c) Declined Commercial Fishing Slip Offer. Failure of an applicant to accept the Commercial Fishing Slip assignment offer in writing within thirty (30) days of the date of mailing of such offer by the Waterfront Department shall be considered a declined offer. Declining a slip offer, or failing to meet the requirements for a Qualified Commercial Fisherman shall result in removal of the applicant’s name for slip assignment in that Lottery.

(d) An existing marina slip permittee who is offered a Commercial Fishing Slip assignment shall relinquish an existing slip permit to the Waterfront Department prior to, and in exchange for, a Commercial Fishing Slip assignment from the Commercial Fishing Slip Lottery.

(2) Unassigned Commercial Fishing Slips. If a Commercial Fishing Slip assignment offer is declined by all applicants selected in the Commercial Fishing Slip Lottery, or if no selected applicants meet the requirements of a Qualified Commercial Fisherman, the Commercial Fishing Slip shall be held in the Waterfront Department’s visitor-slip inventory for a period of six (6) months. After six (6) months, the Commercial Fishing Slip assignment shall be offered to applicants in a new Commercial Fishing Slip Lottery. If the Commercial Fishing Slip remains unassigned, this procedure shall be repeated every six (6) months until the Commercial Fishing Slip is assigned.
D. TRANSFER OF SLIP PERMITS.

1. Procedure. The permittee of a Slip may transfer the Slip Permit to a new or changed vessel owner upon the sale or transfer of an equity ownership interest in a vessel if all the following conditions are met:
   a. A written application for the transfer of a Slip Permit is filed within fifteen (15) days after the sale or transfer of the equity ownership interest in the vessel.
   b. The slip permittee shall notify the Waterfront Department in writing within fifteen days of the sale or transfer of an equity ownership interest, whether in whole or in part, of a vessel to an individual, entity, non-profit or governmental agency and specify if the Slip Permit is to be transferred or retained by the permittee.
   c. Every permittee must supply proof of ownership of a permitted vessel pursuant to the requirements of Section 17.20.005.B.2 within fifteen (15) days of any change, in whole or in part, in the equity ownership of the vessel.
   d. The Transfer Fee or waiting list Transfer Fee and all other fees and deposits are paid in full within fifteen (15) days after the sale or transfer of interest, in whole or in part, of the vessel.
   e. The owner must bring an Operable vessel to the Administration Dock for verification of length. If the vessel is not operable, the Waterfront Director may waive these requirements for not more than ninety (90) days for the purpose of repair.
   f. A slip permittee must be in good standing with the Waterfront Department at the time that the Slip Permit transfer application is submitted to the Waterfront Department. A slip permittee is in good standing with the Waterfront Department if, at the time of submittal of the Slip Permit transfer application, both of the following are true and correct: (i) all fees or charges owed to the Waterfront Department by the slip permittee have been paid in full and, (ii) the Waterfront Department has not issued a written notice to terminate the Slip Permit, whether such notice of termination has been received by the slip permittee or not.

2. Death of Slip Permittee.
   a. Death of Sole Slip Permittee.
      (1) No Transfer of Slip Permit After Death. No Slip Permit may be transferred after the death of a sole slip permittee.
      (2) Notification of Death. Not later than thirty (30) days after the date established on the death certificate as the date of death of the slip permittee, the administrator or executor of the estate of the slip permittee shall notify the Waterfront Department in writing of the death. If such notification is not received by the Waterfront Department within thirty (30) days of the date shown on the death certificate as the date of death, the Slip Permit shall be deemed to be terminated sixty (60) days after such date. Upon termination of the Slip Permit, permission to berth shall be denied by the Waterfront Director, and the administrator or executor of the estate of the deceased slip permittee shall remove the vessel from the Harbor District immediately. Failure to immediately remove the vessel from the Harbor may, at the option of the Waterfront Director, result in the assessment of visitor fees at the visitor fee rate then in effect.
   b. Death of Slip Permittee with Spouse or Registered Domestic Partner at Time of Death.
      (1) Assignment of Slip Permit After Death. Subject to compliance with the requirements below, a Slip Permit may be assigned to the surviving spouse or domestic partner (registered with the City Clerk in accordance with Chapter 9.135 of the Santa Barbara Municipal Code) of a slip permittee after the death of the slip permittee.
      (2) Notification of Death. Not later than thirty (30) days after the date established on the death certificate as the date of death of the slip permittee, the administrator or executor of the estate of the slip permittee or the slip permittee’s surviving spouse or registered domestic partner shall notify the Waterfront Department in writing of the death of the slip permittee. The notification to the Waterfront Department shall also state whether the spouse or legally registered domestic partner seeks assignment of the Slip Permit. Assignment of the Slip Permit to the surviving spouse or registered domestic partner can satisfactorily demonstrate an equity ownership interest in the vessel as provided in Section 17.20.005.B herein, and (ii) either proof of marriage to the slip permittee at the time of the slip permittee’s death is provided to the Waterfront Department or proof of registration on the domestic partnership list as the slip permittee’s domestic partner at the time of the slip permittee’s death is provided to the Waterfront Department. If notification is not received by the Waterfront Department within thirty (30) days after the date established on the death certificate as the date of death of the slip permittee, or the surviving spouse or legally registered domestic partner does not qualify for assignment of the Slip Permit, the Slip Permit shall be deemed to be terminated sixty (60) days after the date established on the death certificate as the date of death of the slip permittee. Upon termination of the Slip Permit, permission to berth shall be denied by the Waterfront Director and the surviving spouse, registered domestic partner or estate of the deceased slip permittee shall remove the vessel from the Harbor District immediately. Failure to immediately remove the vessel from the Harbor may, at the option of the Waterfront Director, result in the assessment of visitor fees at the visitor fee rate then in effect.
(3) Removal of Vessel. If notification of death as required in Section 17.20.005.D.2 herein is received by the Waterfront Department and the slip permittee’s surviving spouse or registered domestic partner does not seek assignment of the Slip Permit, or does not qualify for assignment as provided herein, the estate of the deceased slip permittee, surviving spouse or registered domestic partner shall have a period of time not exceeding one hundred and twenty (120) days after the date established on the death certificate as the date of death of the slip permittee to remove the vessel from the Slip. All regular Slip Fees are due and payable by the surviving spouse, registered domestic partner or estate of the deceased slip permittee during this period.

c. Death of Slip Permittee with Multiple Slip Permit Partners.

(1) Slip Permit Remains Valid. Upon the death of one of the slip permittee partners, subject to compliance with the requirements herein, a Slip Permit held by multiple Slip Permit partners remains valid in the names of the remaining Slip Permit partners.

(2) Notification of Death. Not later than thirty (30) days after the date established on the death certificate as the date of death of the slip permittee, either the administrator or executor of the estate of the deceased slip permittee or the deceased slip permittee’s surviving spouse or registered domestic partner or one of the remaining Slip Permit partners shall notify the Waterfront Department in writing of the death of the slip permittee. Such notification shall also state whether the spouse or registered domestic partner seeks assignment of the Slip Permit in the deceased slip permittee’s partnership position or not. To become a Slip Permit partner, the surviving spouse or registered domestic partner must satisfy the requirements set forth in Section 17.20.005.D.2 (b).

E. YACHT BROKERAGES.

1. Definitions. For the purpose of this section, "yacht brokerage" means a business entity that deals in the sale of vessels in compliance with applicable State, Federal and Local laws and regulations, and conducts the brokerage upon real property in the Harbor Area in accordance with a current and valid lease agreement with the City. For the purpose of this section, "yacht brokerage slip" means any slip assigned to a yacht brokerage.

2. Number of Slips. No yacht brokerage may validly hold permits to more than fifteen (15) slips at any given time in the Santa Barbara Harbor. No more than thirty (30) yacht brokerage slips shall be assigned at any time. Any assignments exceeding these limits are void.

3. Slip Assignments. Yacht brokerage slip assignments will be registered with the Waterfront Department and the appropriate fee paid. Yacht brokerage slip assignments shall not extend beyond one (1) year. The Waterfront Director retains the discretion to assign vacant slips, temporarily cancelled slips, visitor slips, end ties and side ties as yacht brokerage slips.

4. No Overnight Stays. Use of any yacht brokerage slip for overnight stays is illegal at all times and under all circumstances, unless expressly authorized during emergencies by the Waterfront Director.

5. Payment. Yacht brokerages will pay full monthly rental rates when due to the City on all slips and will not charge slip rates in excess of that charged by the City in the current Resolution of the City Council Establishing Mooring and Slip Fees in the Santa Barbara Harbor.

F. TEMPORARY CANCELLATION.

1. Temporary Cancellation. A slip permittee may request temporary cancellation of the slip permit. The Waterfront Department may grant the request for temporary cancellation of a slip permit to a slip permittee desiring to take an extended cruise for a period of not less than ninety (90) days. During the period of temporary cancellation, the permittee shall pay a reduced slip fee equivalent to twenty-five percent (25%) of the normal slip fee. In the event the permittee's vessel returns before expiration of the ninety (90) days, the full monthly slip rate will be reinstated and shall be charged for the entire period of time that the permittee's vessel was absent from the Harbor.

2. Ownership of Vessel on Temporary Cancellation. A slip permittee must be and remain at all times an owner of the vessel registered to the slip permit that is issued temporary cancellation status by the Waterfront Department. Relinquishing ownership of the vessel for any reason shall be cause for termination of temporary status and reinstatement of the full monthly slip fees beginning on the date ownership of the vessel is relinquished. In the event that the vessel is destroyed by fire or other natural causes, reinstatement of monthly slip fees shall be determined by the Waterfront Director in his or her sole discretion.

3. Removal of Personal Belongings Prior to Temporary Cancellation. Prior to beginning temporary cancellation status, all skiffs, kayaks, boat lines, fenders, dock steps and all other appurtenances or equipment must be removed from the slip berthing the vessel whose owner requests temporary cancellation and from the dock adjacent to the slip berthing the vessel whose owner requests temporary cancellation.

4. Temporary Cancellation Exceeding One Year. Slip permittees with vessels absent for more than one (1) year on extended cruise shall advise the Waterfront Department if the slip permittee intends to continue on extended cruise status on or before the end of the one-year period and shall provide the Waterfront Director with proof of ownership of the vessel. Lack of annual notification or verification of vessel ownership is grounds for revoking temporary cancellation status.

G. VISITOR SLIP ASSIGNMENTS.

The Waterfront Department retains the right to utilize vacant slips and slips with temporarily canceled slip permits for transient slip assignments. No more than thirty (30) visitor slips, exclusive of temporary cancellations and endties and sideties, shall be maintained for transient vessels.
H. EXCHANGE OF PERMITS.

Slip permittees utilizing comparably sized slips may exchange (trade) slips with one another upon approval of the Waterfront Director. A processing fee or the slip transfer fee shall be charged upon the exchange of permits as provided by City Council resolution. A permittee subject to the Waiting List Transfer Fee (see Section 17.20.005(C)) who exchanges a permit pursuant to this section shall remain subject to the Waiting List Transfer Fee. If the Waiting List Transfer Fee is charged following the exchange, it will be charged according to the fee applicable to the slip originally assigned. For purposes of the Waiting List Transfer Fee, the time the permittee holds the exchanged permit shall be added to the time the original permit was held. No exchanges will be permitted unless all rents, fees and deposits due are paid.

I. WATERFRONT DIRECTOR TERMINATION OF SLIP PERMITS.

The Waterfront Director may terminate a Slip Permit upon thirty days prior written notice of termination (except for the longer notice period provided in subsection 2 herein) to the slip permittee for any of the following reasons:

1. Late Payment of Monthly Slip Fees. Monthly Slip Fees are due and payable on the first day of the month with or without receipt of billing, and monthly Slip Fees are delinquent after the fifteenth day of the month. After the fifteenth day of the month, a late charge, in an amount established by resolution of the City Council, will be assessed and added to the Slip Fees which are delinquent. Failure to pay monthly Slip Fees, together with all accumulated late charges, may result in termination of the Slip Permit. Termination of a Slip Permit due to late payment of Slip Fees may also result in termination of a live-aboard permit that may have been issued to a slip permittee of the terminated Slip Permit.

2. Death of a Sole Slip Permittee. A Slip Permit shall terminate sixty (60) days after the date of death of a slip permittee under circumstances where the slip permittee has no surviving spouse, registered domestic partner or Slip Permit partners at the time of death.

3. Failure to Meet Requirements for Commercial Fishing Earnings. Failure of a person with a specially designated Commercial Fishing Slip Permit issued in accordance with Section 17.20.005.B herein to meet the requirements for commercial fishing earnings, as such earnings requirement is established by resolution of the City Council, may result in termination of the Commercial Fishing Slip Permit.

4. Failure to Maintain Berthed Vessel in Operable Condition. Failure of a slip permittee to continuously maintain a vessel berthed in a Slip in an Operable condition as required by Section 17.20.005.L herein may result in termination of the Slip Permit.

5. Failure of Slip Permittee to Comply With Waterfront Department Rules and Regulations. A slip permittee’s or slip permittee’s guest, visitor or invitee’s failure to comply with all applicable local, state and federal laws and all Waterfront Department Rules and Regulations may result in termination of the Slip Permit.

J. APPEAL.

If the Waterfront Director terminates a Slip Permit, the slip permittee may request a waiver of the termination from the Waterfront Director. To request a waiver, the slip permittee must file a written waiver request setting forth the grounds upon which the waiver is requested with the Waterfront Director within ten (10) days of the date that the Slip Permit is terminated. If the Waterfront Director denies the waiver, the slip permittee may appeal the Waterfront Director's decision to the Harbor Commission. The appeal shall be filed in writing with the City Clerk within ten (10) days of the date of the Waterfront Director's decision. The Harbor Commission's decision on the appeal shall be final. If no waiver request is filed, the slip permittee may appeal the Waterfront Director’s decision to terminate the Slip Permit to the Harbor Commission. The slip permittee must file a written appeal setting forth the grounds upon which the appeal is based with the City Clerk within ten (10) days of the date that the Slip Permit is terminated. The Harbor Commission's decision on the appeal shall be final.

K. VESSELS IN THE HARBOR MUST BE OPERABLE.

1. Vessels Assigned to a Slip Permit Must be Maintained as Operable Vessels. Vessels assigned to a Slip Permit must be continuously maintained in an Operable condition. If, at any time, based upon the appearance of the vessel, inspection by the Waterfront Director, or other facts, the Waterfront Director determines that a vessel is not Operable, the Waterfront Director shall give notice to the slip permittee requiring the slip permittee to demonstrate that the vessel is Operable within fifteen (15) days of the date of the notice. If the slip permittee does not demonstrate Operability of the vessel within the fifteen (15) day period, the Slip Permit may be terminated and the vessel shall be removed from the Harbor.

a. Exception - Vessels Not Operable. Vessels that had assigned slips in the Santa Barbara Harbor on September 9, 1980, and which, on that date, were not Operable, shall be exempt from the operation of this section until transfer of the Slip Permit, after which time the Operability is required.

2. Vessels in the Harbor Must be Operable. Vessels in the Harbor must be continuously maintained as Operable Vessels. It shall be unlawful to berth a vessel in the Harbor that is not Operable.

L. ISSUANCE OF SLIP PERMIT AFTER TERMINATION. A slip permittee whose Slip Permit is terminated as provided herein may not apply for another Slip Permit until one year after the date upon which the Slip Permit is terminated. The Waterfront Director shall have the sole discretion to decide whether to issue another Slip Permit or not. The Waterfront Director’s decision shall be final. (Ord. 5528, 2010; Ord. 5500, 2009; Ord. 5458, 2008; Ord. 5453, 2008; Ord. 5420, 2007; Ord. 5386, 2006; Ord. 5377, 2005; Ord. 5347, 2005; Ord. 5273, 2003; Ord. 5206, 2001; Ord. 5140, 2000; Ord. 5109, 1999; Ord. 5023, 1997; Ord. 4757, 1992.)
17.20.010 Permission to Moor, Anchor, Berth or Dock Required.

It is unlawful for any person to Moor, Berth, Dock or Anchor any vessel or to allow a vessel under their command and control to remain Moored, Berthed, Docked or Anchored in any part of the Harbor District, except anchoring in the Seasonal and Year-Round Anchorage areas depicted in Exhibit “A” attached hereto, without first obtaining permission to do so from the Waterfront Director. The Waterfront Director may refuse permission to Moor, Berth, Dock, or Anchor a vessel in the Harbor District when the Waterfront Director determines it is in the interest of public health, safety or the protection of the environment, assets or resources of the City to do so. (Ord. 5602, 2012; Ord. 5386, 2006; Ord. 4757, 1992; Prior Code §24.24.)

17.20.020 Unseaworthy Vessels Not to be Moored.

The Waterfront Director has the authority to determine if a sunken, submerged, or badly deteriorated vessel, or property of any kind is unseaworthy or is a menace to navigation. Any vessel or property in such condition will be declared to be a public nuisance and shall be considered abandoned property and subject to sale in the manner prescribed in Chapter 9.88. (Ord. 4757, 1992; Prior Code §24.5.)

17.20.030 Fees to be Paid - Exception.

It is unlawful for any person to moor any vessel in any part of the Harbor, without first submitting a written application to the Waterfront Director, paying all fees to the City as required by this Chapter and obtaining a permit from the Waterfront Director. (Ord. 4757, 1992; Prior Code §24.25)

17.20.040 Specifications for Mooring.

The City may grant a license to occupy and use a specific water area in the Santa Barbara Harbor for the mooring of a specifically named vessel. The location of the specific mooring shall be within the sole discretion of the Waterfront Director. Licensee shall be responsible for the provision, installation and maintenance of all mooring equipment. Such equipment shall remain the property of the Licensee. The type, quality, maintenance and location of mooring equipment shall be as specified by the Waterfront Director. The City or Licensee may terminate the license agreement for a mooring after giving reasonable notice as provided in the license agreement. Upon termination of a License to occupy a mooring, Licensee shall remove the mooring equipment within ten days. If not removed within ten days, title to the mooring equipment shall pass to the City and the City may remove and dispose of such equipment as it deems appropriate. (Ord. 4757, 1992; Prior Code §24.26)

17.20.140 Slip and Mooring Fees.

Slip fees and mooring fees shall be established by City Council resolution. (Ord. 4757, 1992; Ord. 3791, 1975; Ord. 3435 §1, 1970; Ord. 3178 §1(part), 1966; Ord. 2942 §1(part), 1963; Ord. 2845 §2(part), 1961; prior Code §24.36(part).)

17.20.150 Payment of Slip and Mooring Fees.

A. **DEPOSIT FOR SLIP PERMITS.**

1. **Amount of Deposit Required.** A deposit equal to two (2) months' slip permit fees shall be paid with the first monthly slip permit fee payment.

2. **Deposit Increase.** At the discretion of the Waterfront Director, Slip Permittees may be required, upon thirty (30) days written notice, to increase the deposit set out above in 17.20.150.A.1, if the slip permit fees have been increased and the existing deposit does not equal two (2) months' slip fees.

B. **PAYMENT PROCEDURE FOR SLIP PERMIT FEES.**

Slip permit fees in an amount established by resolution of the City Council shall be due and payable monthly, in advance.

C. **PAYMENT FOR MOORING PERMITS.**

Mooring Permit fees in an amount established by resolution of the City Council shall be due and payable on the date of Mooring Permit issuance and annually thereafter on the date of renewal. (Ord. 5386, 2006; Ord. 5377, 2005; Ord. 4757, 1992; Ord. 3840, 1976; prior Code §24.37.)

17.20.160 Gate Lock Key Charges.

The charges, fees and policies for the issuance of key cards to open gates to the marinas, doors to the restrooms and related facilities shall be established by the Waterfront Director and shall be approved by City Council resolution. (Ord. 4757, 1992; Ord. 4133, 1982; Ord. 3466 §1, 1971; Ord. 3178 §1 (part), 1966; Ord. 2942 §1 (part), 1963; Ord. 2845 §2 (part), 1961; prior Code §24.36 (part).)
Unauthorized Entry to Marinas, Restrooms and Related Facilities; Prohibition, Penalty.

The unauthorized transfer or use of a key card is prohibited. The entry into a locked or controlled marina, restroom or related facility without a key card and without the authorization of the Waterfront Director is prohibited. A violation of this section of the Code is an infraction. (Ord. 4757, 1992; Ord. 4133, 1982.)

Impound and Relocation of Vessels.

A. IMPOUND AND RELOCATION OF VESSELS BERTHED, DOCKED, MOORED OR ANCHORED IN THE HARBOR DISTRICT IN VIOLATION OF THE SANTA BARBARA MUNICIPAL CODE. A vessel berthed, docked, moored or anchored in the Harbor District in violation of the Santa Barbara Municipal Code may be impounded in its location, including a dock, pier, slip, wharf or open ocean of the Harbor District, or may be impounded, relocated and stored in another location designated by the Waterfront Director.

B. IMPOUND AND RELOCATION OF VESSELS FOR DELINQUENT FEES. A vessel whose owner is delinquent on the payment of Slip or other fees to the Waterfront Department may be impounded in its location, including a dock, pier, slip, wharf or open ocean of the Harbor District, or may be impounded, relocated and stored in another location designated by the Waterfront Director.

C. PAYMENT OF IMPOUND FEE. The owner of any vessel impounded under either section A or B of this section, whether relocated and stored or not, shall pay an impound fee established by Resolution of the City Council, in addition to any storage or delinquent fees, to the Waterfront Director prior to release of the vessel.

D. NOTICE OF STORAGE AND HEARING. Whenever the Waterfront Department impounds and stores a vessel as permitted by this Section, the Waterfront Department shall provide the vessel’s registered owner(s) of record, with the opportunity for a post-storage hearing to determine the validity of the storage.

1. Notice of Storage. Notice of the storage shall be mailed or personally delivered to the registered owner(s) within 48 hours, excluding weekends and holidays, and shall include the following information:
   a. The name, address, and telephone number of the Waterfront Department.
   b. The location of the place of storage and description of the vessel.
   c. The authority and purpose for the impound and storage of the vessel.
   d. A statement that, in order to receive the post-storage hearing, the owner(s) shall request the hearing in person or in writing within ten (10) days of the date appearing on the notice.

2. Post-Storage Hearing. The post-storage hearing shall be conducted within 48 hours of the receipt of the request for the hearing by the Waterfront Department, excluding weekends and holidays. The City may authorize its own officer or employee to conduct the hearing if the hearing officer is not the same person who directed the storage of the vessel.

3. Failure to Request or Attend Hearing. The failure of the registered owner(s) to request or to attend a scheduled hearing shall satisfy the post-storage hearing requirement.

4. Finality of Hearing and Return of Fees. The Waterfront Department shall return to the registered owner(s) of the vessel all impound and storage fees paid by the owner if it is determined by the hearing officer that reasonable grounds for the storage of the vessel are not established. The decision of the hearing officer after the post-storage hearing shall be final. (Ord. 5500, 2009; Ord. 5458, 2008; Ord. 4757, 1992; Prior Code §24.42.)

Visiting Vessels.

A. Visitors to the Santa Barbara Harbor shall pay, in advance, daily fees per foot of vessel length, to the City, as established by City Council resolution.

B. If any visitor leaves a visitor berth or mooring, unless forced to do so by weather or fire, without first paying accrued visitor fees, both the vessel and the person representing the vessel shall be placed upon a delinquent list, and will not be permitted to use any slip or mooring without first paying double the fees incurred and an additional charge of ten dollars ($10.00), except by the express permission of the Waterfront Director.

C. It is unlawful for any person using a vessel to overstay the “maximum allowable stay,” as established by City Council Resolution, without the express permission of the Waterfront Director. Any person violating this subsection shall pay a monetary penalty over and above the required visitor fees as such penalty amounts may be established by resolution of the City Council. The payment of such monetary penalties shall not limit the City’s ability to exercise any other remedy, civil or criminal, or other administrative procedures, as may be set forth in this Code, against the person in violation of this subsection. (Ord. 5315, 2004; Ord. 4757, 1992.)

Permits for Vessel Placement on Leadbetter Beach and Vessel and Storage Rack Placement on West Beach.

A. An annual non-transferable permit fee as established by City Council Resolution will be charged for the seasonal placement of vessels on a portion of Leadbetter Beach, also designated and referred to as Catamaran Beach, and year-round placement of vessels and storage racks on West Beach in locations and upon terms and conditions designated by the Waterfront Director.
B. It is unlawful to place or store a vessel on Leadbetter Beach or a vessel or storage rack on West Beach without a permit issued by the City for such purposes, unless expressly allowed to do so by the Waterfront Director in writing.

C. It is unlawful to place or store containers, boxes, or any other vessel equipment or appurtenances on Leadbetter Beach or West Beach unless expressly allowed to do so by the Waterfront Director in writing.

D. In addition to prosecution under this Code, when any person places or stores a vessel or storage rack without a permit, or one of the items described in subsection C above, on Leadbetter Beach or West Beach, said vessel or item may be padlocked on the beach and it may be removed from its location and stored in another area inside or outside the Harbor as designated by the Waterfront Director. A storage fee as established by City Council shall be charged for the storage of unpermitted vessels or items as described in subsection C above on Leadbetter Beach or West Beach. (Ord. 5315, 2004; Ord. 4757, 1992.)

17.20.255 Santa Barbara Mooring Area.

A. MOORING OF VESSELS IN THE HARBOR DISTRICT.

1. Unlawful Mooring in Harbor District. It is unlawful to place, erect, construct or maintain a Mooring in any area of the Harbor District without a current and valid Mooring Permit issued by the Waterfront Director or without the express permission of the Waterfront Director.

2. Unlawful Anchoring in Santa Barbara Mooring Area. It is unlawful for any person having charge of a vessel to Anchor a vessel in the Santa Barbara Mooring Area without express permission of the Waterfront Director.

B. MOORED VESSELS MUST BE OPERABLE.

1. Unlawful to Moor Inoperable Vessels. It shall be unlawful to Moor a vessel in the Santa Barbara Mooring Area that is not Operable.

2. Moored Vessels Must be Maintained as Operable Vessels. Vessels assigned to a Mooring Site in the Santa Barbara Mooring Area must be continuously maintained in an Operable condition. If, at any time, based upon the appearance of the vessel, inspection by the Waterfront Director, or other facts, the Waterfront Director determines that a vessel is not Operable, the Waterfront Director shall give notice to the Mooring Permittee requiring the Mooring Permittee to demonstrate that the vessel is Operable within fifteen (15) days of the date of the notice. If the Mooring Permittee does not demonstrate Operability of the vessel within the fifteen (15) day period, the Mooring Permit shall be terminated and the Mooring and vessel shall be removed from the Santa Barbara Mooring Area as required in the Mooring Permit Rules and Regulations. Vessels issued Special Activity Mooring Permits may be exempt from this provision, based on a determination of exemption by the Waterfront Director.

C. SANTA BARBARA MOORING AREA USE AND REGULATIONS.

1. Use of Mooring Sites. The Santa Barbara Mooring Area is divided into separate designated Mooring Sites. Mooring Sites shall be used only for the Mooring of Operable vessels and Dinghies by vessel owners who have been issued a Mooring Permit by the Waterfront Director. Mooring Sites shall not be used for commercial purposes without the express permission of the Waterfront Director. Mooring Permittees shall at all times use the Mooring Site in compliance with the Mooring Permit, Minimum Ground Tackle Specifications, this Chapter, and all local, state and federal rules. Failure to comply with all rules and regulations shall be cause for termination of a Mooring Permit.

2. Mooring Permit Administration.

a. Mooring Permits may be issued by the Waterfront Director in accordance with the Mooring Permit Rules and Regulations adopted by Resolution of the City Council of the City of Santa Barbara.

b. Special Activity Mooring Permits may be issued by the Waterfront Director.

c. Mooring Permit, Term. A Mooring Permit shall be issued for a period of one year and may be renewed annually thereafter by the Waterfront Director.

d. A Mooring Permittee shall hold no more than one permit. No person shall at any time be issued or hold more than one Mooring Permit.

e. Slip Permittees Not Eligible for Mooring Permits. Slip Permittees in Santa Barbara Harbor are not eligible for assignment of Mooring Permits in the Santa Barbara Mooring Area, and Mooring Permittees in Santa Barbara Mooring Area are not eligible for Slip Permits in Santa Barbara Harbor either through assignment or transfer, unless one of the permits is relinquished prior to issuance of the other permit.

f. Transfer of Permit. Mooring Permits are not transferable or inheritable.

g. Rental of Mooring Sites Prohibited. It shall be unlawful for any person issued a Mooring Permit to rent or lease (whether or not for compensation paid or other value), sublease or loan a Mooring Site to any other person or entity.

3. Termination of Mooring Permit. Mooring Permits may be terminated either by the Waterfront Director or the Mooring Permittee as provided in the Mooring Permit Rules and Regulations. Upon termination of the Mooring Permit, the vessel and Mooring shall be removed from the Santa Barbara Mooring Area in accordance with the Mooring Permit Rules and Regulations.
4. **Failure to Timely Remove a Vessel or Mooring from the Santa Barbara Mooring Area.** If the Mooring is not removed within the time provided for such removal in the Mooring Permit Rules and Regulations, title to the Mooring shall vest in the City. The City may, thereafter, remove and sell or dispose of the Mooring and recover the removal, storage or disposal costs from the Mooring Permittee. If the Mooring Permittee fails to pay such cost, the Waterfront Director may collect such costs in any court of competent jurisdiction or may recover any costs from the proceeds of sale of the Mooring. Vessels not removed from the Mooring Site within the time provided in the Mooring Permit Rules and Regulations shall be impounded by the City and subject to storage fees, disposal or lien sale proceedings as provided by law.

5. **Appeal of Mooring Permit Termination.** If the Waterfront Director terminates a Mooring Permit, the mooring permittee may request a waiver of the termination from the Waterfront Director. To request a waiver, the mooring permittee must file a written request setting forth the grounds upon which the waiver is requested with the Waterfront Director within ten (10) days of the date of termination under Section D 1 or D 2 of the Rules and Regulations of MooringPermits. If the Waterfront Director denies the waiver, the mooring permittee may appeal the Waterfront Director’s decision to the Harbor Commission. The appeal shall be filed in writing with the City Clerk within ten (10) days of the date of the Waterfront Director’s decision on the waiver. The Harbor Commission’s decision on the appeal shall be final. If no waiver request is filed, the mooring permittee may appeal the termination to the Harbor Commission. The mooring permittee shall file a written appeal setting forth the grounds upon which the appeal is based with the City Clerk within ten (10) days of the date of termination under Section D 1 or D 2 of the Rules and Regulations of Mooring Permits.

D. **MOORING INSTALLATION REQUIREMENTS AND ANNUAL INSPECTION.**

1. **Mooring Installation.** If offered a Mooring Permit, an individual shall place a Mooring and vessel in the Mooring Site designated in the Mooring Permit within ninety (90) days of acceptance of the Mooring Permit offer. The Mooring placement shall be made in accordance with the Minimum Ground Tackle Specifications by a City-Approved Mooring Inspector. If the Mooring and vessel are not timely placed in the Mooring Site, or if the Mooring is not approved as required by the Mooring Permit Rules and Regulations, no Mooring Permit shall be issued.

2. **Mooring Position.** Any vessel moored in a Mooring Site within the City of Santa Barbara Mooring Area shall be firmly secured to a Mooring in such a manner as to prevent the vessel from drifting, dragging or otherwise moving off the Mooring Site. If the Waterfront Director determines that the migration of a vessel off the Mooring Site may cause an immediate threat or danger to life, property or the environment, the Waterfront Director may take action deemed necessary to abate such hazard. Any costs incurred by such abatement shall be borne by the Mooring Permittee.

3. **Mooring Inspections.** Moorings shall be inspected by a City-Approved Mooring Inspector upon installation at the Mooring Site and annually thereafter on each anniversary date of the issuance of the Mooring Permit (or more frequently at the Permittee’s option or as deemed necessary by the Waterfront Director) to determine compliance with Minimum Ground Tackle Specifications. The installation and inspection shall be performed in accordance with the Mooring Permit Rules and Regulations by a City-Approved Mooring Inspector at the Mooring Permittee’s sole cost and expense. (Ord. 5696, 2015; Ord. 5528, 2010; Ord. 5386, 2006.)

17.20.260 Anchoring Vessels Within the Santa Barbara Year-Round and Seasonal Anchorages.

A. **ANCHORING IN YEAR-ROUNDD ANCHORAGE AREAS.** Subject to compliance with the rules and regulations of the Waterfront Department, this Chapter, and all applicable state and Federal laws, vessels may Anchor at any time in the Year-Round Anchorage.

B. **ANCHORING IN SEASONAL ANCHORAGE AREAS.** Subject to compliance with the rules and regulations of the Waterfront Department, this Chapter, and all applicable state and Federal laws, vessels may Anchor in the Seasonal Anchorage during the months of April through October. It is unlawful to Anchor in the Seasonal Anchorage during the months of November through March.

C. **ANCHORED VESSELS MUST BE OPERABLE.** Vessels Anchoring in the Year-Round or Seasonal Anchorages must be continuously maintained as Operable vessels. It shall be unlawful to Anchor a vessel in the Year-Round or Seasonal Anchorage that is not Operable.

D. **UNLAWFUL MOORING AND ANCHORING.** It shall be unlawful to (i) Moor a vessel at any time, (ii) Moor or Anchor a vessel within 100 feet of any swim area designated by the placement of regulatory buoys, or (iii) leave Anchoring Equipment unattended without an attached vessel in the Seasonal or Year-Round Anchorages.

E. **CITY REMOVAL OF MOORING OR ANCHORING EQUIPMENT.** Any unlawfully placed Mooring or abandoned Anchoring Equipment may be removed by the City and sold or otherwise disposed of by the City as abandoned property. In addition to any fees incurred pursuant to Section 17.20.260.D, the City may recover the costs of removal, storage, or disposal of the Mooring or Anchoring Equipment from the vessel’s owner. (Ord. 5458, 2008; Ord. 5420, 2007; Ord. 5386, 2006.)
17.20.265ANCHORING VESSELS WITHIN WATERS OF HARBOR DISTRICT NOT DESIGNATED AS SEASONAL OR YEAR-ROUND ANCHORAGE.

A. UNLAWFUL ANCHORING.
1. Consent of Waterfront Director Required to Anchor Vessels in Harbor. It shall be unlawful to anchor a vessel in the waters of the Harbor at any time without the consent of the Waterfront Director.

2. No Anchoring in Harbor District Except as Provided Herein. It shall be unlawful to anchor a vessel in waters of the Harbor District between the sunset and the sunrise, except the Seasonal and Year-Round Anchorages as delineated on the reference map attached as Exhibit “A” to Chapter 17.20, without prior permission of the Waterfront Director.

3. No Anchoring in Harbor District at Any Time. It shall be unlawful to anchor a vessel in the waters of the Harbor District at any time of the day or night in the area located between the eastern edge of Stearns Wharf and a line connecting Boundary A and Boundary B on the western edge of the Seasonal Anchorage as depicted on the reference map attached as Exhibit “A” to Chapter 17.20 without the prior permission of the Waterfront Director.

B. ANCHORED VESSELS MUST BE OPERABLE. Vessels anchoring in any area of the Harbor District must be continuously maintained as Operable vessels. It shall be unlawful to anchor a vessel in any area of the Harbor District that is not Operable.

C. UNLAWFUL MOORING AND ANCHORING. It shall be unlawful to moor a vessel at any time or to leave anchoring equipment unattended without an attached vessel in the waters of the Harbor District not designated as Seasonal, Year-round or the Santa Barbara Mooring Area.

D. CITY REMOVAL OF MOORING OR ANCHORING EQUIPMENT. Any unlawfully placed mooring or abandoned anchoring equipment may be removed by the city and sold or otherwise disposed of by the City as abandoned property. In addition to any fees incurred pursuant to Section 17.20.265 C, the City may recover the costs of removal, storage, or disposal of the mooring or anchoring equipment from the vessel’s owner. (Ord. 5500, 2009; Ord. 5420, 2007; Ord. 5386, 2006.)

Project Description
The East Beach Mooring/Anchoring Program is designed to provide 48 mooring spaces for individually permitted vessels, plus seasonal anchoring opportunities for non-permitted vessels. By formalizing the mooring area and enforcing ground tackle specifications for moored vessels, the Waterfront Department hopes to decrease pollution, vessel groundings on East Beach and financial impacts to the City.

Chapter 17.24
WHARFAGE AND DOCKAGE RATES

17.24.030 Vessels Accorded Free Dockage.

Free dockage will be accorded vessels:
A. When, in the discretion of Waterfront Director conditions warrant the temporary suspension of regular dockage charges against vessels of the United States Government or any other nation, or otherwise in the interest of public welfare;
B. While actively engaged as a tug boat when made fast to another vessel which is being charged dockage.
(Ord. 4757, 1992; Ord. 2832 §4(part), 1961; prior Code §24.45(b).)

17.24.060 Assessment According to Length - Types of Boats - Exceptions.

A. USE OF CITY PIER. Dockage shall be assessed based upon the overall length of the vessel. No dockage shall be charged for any fishing boat permitted under the provisions of this chapter to unload or load fish or fishing supplies at the City Pier, unless the owner or operator of the fishing boat fails or neglects to begin unloading within thirty (30) minutes following the docking of the boat, or unless the boat remains docked at the City Pier for more than fifteen (15) minutes after loading or unloading is completed.
B. DOCKAGE RATES. Dockage shall be computed, assessed and paid on a per tie-up basis for each twenty-four (24) hours, at a rate established by City Council resolution.
1. EXCEPTION 1: Tie-ups not to exceed thirty (30) minutes shall be permitted without charge at the discretion of the Waterfront Director, as follows:
   a. For transacting official business with the Harbormaster; or
   b. For the convenience and safety of the Harbor.
2. EXCEPTION 2: There shall be no charge for tie-ups at the launching ramp service float for trailered boats launched at the City-owned launching ramp provided the tie-up time is not in excess of thirty (30) minutes.
3. EXCEPTION 3: There shall be no charge for tying up at the Accommodations Dock for up to fifteen (15) minutes. Permission for the tie-up may be denied at the discretion of the Waterfront Director if an emergency exists or if a dangerous congestion or threat to navigation would result from the tie-up. (Ord. 4757, 1992; Ord. 3460 §1, 1970; Ord. 3435 §4, 1970; Ord. 3320 §2, 1968; Ord. 2832 §4(part), 1961; prior Code §24.45(e).)

17.24.070 Credit Dockage List.

The Waterfront Director may, at his discretion, approve payment of dockage charges by the week or month or other regular intervals and may require a deposit to be made in advance equal to one (1) month's dockage charges for the privilege of being on the credit dockage list. (Ord. 4757, 1992; Ord. 2832 §4(part), 1961; prior Code §24.45(f).)

17.24.080 Duration of Dockage.

Dockage shall commence when a vessel enters the Harbor for the purpose of tying-up to any wharf or pier in the Harbor and ends when the vessel vacates the wharf or pier. No deduction shall be made for Saturdays, Sundays or holidays. (Ord. 5386, 2006; Ord. 4757, 1992; Ord. 2832 §4(part), 1961; prior Code §24.45(g).)

17.24.090 Payment of Bills.

All bills for dockage must be paid when due. If dockage is not paid when due, the vessel will be placed on the delinquent list and will be subject to the penalties provided by law. (Ord. 4757, 1992; Ord. 2832 §4(part), 1961; prior Code §24.45(h).)
17.24.100 Leaving Slip Prior to Payment.

If any person leaves a slip, unless forced to do so by weather or fire, without first paying all fees due (unless such vessel is upon the credit dockage list), such vessel shall be placed upon the delinquent list, in which case it will not be permitted to use any slip without first paying all fees and late charges as established by resolution of City Council, except by permission of the Waterfront Director. (Ord. 5386, 2006; Ord. 4757, 1992; Ord. 2832 §4(part), 1961; prior Code §24.45(i).)

17.24.110 Wharfage Charges.

The rates for wharfage shall be established by the City Council by resolution, except as otherwise specifically provided in this chapter. (Ord. 4757, 1992; Ord. 3940 §1, 1978; Ord. 3846, 1976; Ord. 3320, 1968; Ord. 3131, 1966; Ord. 2832, 1961; prior Code §24.46(a) & (c).)

17.24.200 Right of Inspection by Waterfront Director.

The Waterfront Director is hereby authorized to enter upon and inspect any vessel which is loading or unloading merchandise to ascertain the kind and quantity of merchandise thereon, and it shall be unlawful to refuse permission to or prevent the Waterfront Director, his representatives, or such other persons, from entering upon any vessel for the purpose specified in this rule. (Ord. 4757, 1992; Ord. 3131 §1(part), 1966; Ord. 2832 §5(part), 1961; prior Code §24.46(j).)

17.24.230 Rates for Delivery of Fresh Water to Vessels.

Rates for fresh water delivered to vessels in the Harbor shall be as established by resolution of City Council. (Ord. 4757, 1992; Ord. 2727 §1(part), 1959; prior Code §24.47(part).)

17.24.240 Unlawful to Attach Water Outlet or Hydrant Without Permission - Exception.

A. It is unlawful for any person to attach a hose to any water outlet or hydrant, or to use any water hose or meter, or to take or attempt to take any water, without permission of the Waterfront Director.

B. Nothing herein contained shall prevent any person from attaching a hose, or otherwise using the water from any outlet, for the prevention of fire only. (Ord. 4757, 1992; Ord. 2727 §1(part), 1959; prior Code §24.47(part).)

17.24.270 City Pier Designated.

The Waterfront Director, subject to the approval of the Harbor Commission, shall designate a portion of the wharf in Santa Barbara Harbor, commonly and herein referred to as "City Pier", for the unloading of fresh fish, mollusks, crustaceans and sea water mammals. The portion of the City Pier so designated shall be clearly sign-posted by the Waterfront Director, in a manner visible from the surface of the City Pier and from its seaward approaches. (Ord. 4757, 1992; Ord. 2911 §1(part), 1964; Ord. 2832 §1(part), 1961; prior Code §24.49(a).)

### 17.28.010 Permit Required - Business Activity.

Except as expressly authorized in writing by the Waterfront Director or his or her designee, no person shall engage in any business or commercial activity of any kind whatsoever in the Harbor District without first having applied for and obtained the appropriate license, lease or permit. (Ord. 5528, 2010; Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

### 17.28.020 Permission Required - Advertising.

It shall be unlawful to erect, repair, alter, relocate or maintain any post, distribute or display signs, commercial advertisements or circulars within the Harbor District, or to direct or authorize another person to do so, except pursuant to a sign permit obtained in accordance with Chapter 22.70 of the Santa Barbara Municipal Code, unless the sign is specifically exempted from the permit requirements as provided in Chapter 22.70. The requirements of this Chapter shall not apply to a "For Sale" sign displayed on a vessel occupying a slip by the owner of the vessel, or a sign, an announcement, or a flyer posted on a bulletin board provided on a Marina gate. (Ord. 5528, 2010; Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

### 17.28.030 Permit Fee and Duration.

A fee, established by resolution of City Council, shall be charged by the Waterfront Director for each Business Activity Permit issued pursuant to this chapter. The permit extends for a period of one (1) year, beginning on August 1 of each year and expiring on July 31 of each year. (Ord. 5458, 2008; Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

### 17.28.040 Regulation.

Activities permitted shall be subject to such further regulation, in the public interest, as determined by the Harbor Commission at a regularly noticed meeting. (Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

### 17.28.050 Revocation of Permit.

The following activities by the permittee shall be grounds for revocation of the Business Activity Permit by the Waterfront Director without refund of fee:

A. Any of the following activities or any other activities which violate Waterfront policy, City ordinances or any State or Federal Law:
   1. Any activity which causes a risk of injury or property damage to any person.
   2. Any activity which poses a navigation hazard with the Harbor.
   3. Any activity which impedes the free circulation of vessels, vehicles or persons within the Harbor District, or adversely affects traffic.
   4. Any activity which pollutes the Harbor waters or litters the marinas, walkways or land areas of the Harbor District.
B. Any misrepresentation in the application for a Business Activity Permit. (Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

### 17.28.060 Permits Non-Transferable.

Business Activity Permits are not transferable. (Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)
17.28.070  Appeal.

If the Waterfront Director denies or revokes a Business Activity Permit, the permittee may request a waiver of the denial or revocation from the Waterfront Director. To request a waiver, the permittee must file a written waiver request setting forth the grounds upon which the waiver is requested with the Waterfront Director within ten (10) days of the date that the permit is denied or revoked. If the Waterfront Director denies the waiver, the permittee may appeal the Waterfront Director’s decision to the Harbor Commission. The appeal shall be filed in writing with the City Clerk within ten (10) days of the date of the Waterfront Director's decision. The Harbor Commission's decision on the appeal shall be final. If no waiver request is filed, the permittee may appeal the Waterfront Director’s decision to deny or revoke the permit to the Harbor Commission. The permittee shall file a written appeal setting forth the grounds upon which the appeal is based with the City Clerk within ten (10) days of the date that the permit is denied or revoked. The Harbor Commission's decision on the appeal shall be final. (Ord. 5528, 2010; Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

17.28.090  Business Tax Not Permit.

The payment of a business tax, or a building or sign permit fee by the City does not constitute a permit under this chapter, nor shall the granting of a permit under this chapter excuse the payment of a business tax or the obtaining of any other permit, or non-compliance with any applicable law. (Ord. 4757, 1992; Ord. 3517 §2(part), 1972.)

17.28.100  Commercial Photography in Harbor.

Still, motion or sound photography is permitted in the Harbor after doing the following:
A. Obtaining permission of the Waterfront Director; and,
B. Obtaining the appropriate permits from the City of Santa Barbara; and,
C. Paying appropriate fees as established by City Council resolution. (Ord. 4757, 1992.)

Chapter 17.32
PETROLEUM PRODUCTS IN HARBOR DISTRICT

Sections:
17.32.020  Sale or Delivery of Petroleum Products in Harbor District Limited to Franchise Holders.

No oil, gasoline, petroleum or other hydrocarbon substance or product shall be sold, exchanged, delivered to or accepted by any person whatsoever in any commercial deal or transaction from, upon or off of any barge, boat, float, wharf, tank, tanker within the Harbor district except by agents of the fuel dock tenant of the City. (Ord. 4757, 1992; Prior Code §33.23(part).)
Chapter 17.36

WATERFRONT PARKING

17.36.010 Parking in Waterfront Parking Lots.

A. WATERFRONT PARKING LOTS. Waterfront Parking Lots shall mean all parking lots managed and maintained by the Waterfront Department, including Leadbetter Parking Lot, Harbor West Parking Lot, Harbor Parking Lot, Garden Street Parking Lot, Palm Park Parking Lot, Cabrillo West Parking Lot, Cabrillo East Parking Lot and Stearns Wharf.

B. HARBOR PARKING LOT. The Harbor Parking Lot shall mean the Waterfront Parking Lot bounded on the east by West Beach, on the West by Harbor Way, on the north by Shoreline Drive and Cabrillo Boulevard and on the south by Marinas 2, 3, 4 and the small-boat launch ramp.

C. PARKING FEES AND PERMITS. No person shall park a vehicle in the Waterfront Parking Lots without having paid or paying the required parking fee. Parking fees and the permit system for Waterfront Parking Lots shall be established by resolution of the City Council.

D. PAY AND DISPLAY PARKING MANAGEMENT SYSTEMS. When entering Waterfront Parking Lots operated by a Pay and Display Parking Management System, the owner or operator of a vehicle entering the lot must purchase a receipt from a Pay and Display Parking Management System machine in accordance with instructions and requirements posted on the machine. Such receipt shall be prominently displayed on the driver’s side dashboard in such a manner that the date and expiration time of the receipt are readily visible from the exterior of the vehicle. Any owner or operator of a vehicle who fails to purchase or properly display a valid receipt purchased from a Pay and Display Parking Management System machine shall pay a fee as described by City Council Resolution.

(Ord. 5649, 2014; Ord. 4757, 1992.)

17.36.020 Parking for Certain Purposes Prohibited.

A. IMPROPER USE OF WATERFRONT LOT. No person shall park a vehicle in any Waterfront parking lot for the principal purpose of displaying such vehicle for sale, repairing such vehicle (except repairs necessitated by an emergency), or washing such vehicle.

B. INOPERABLE VEHICLES. No person shall park or permit to remain, any motor vehicle which is wrecked or inoperable for a period longer than two (2) hours in any Waterfront parking lot.

C. NO VEHICLES TO REMAIN IN PARKING LOT PAST TIME OF PARKING LOT CLOSING. No person shall leave a vehicle in a Waterfront parking lot past the posted closing time. (Ord. 5564, 2011; Ord. 4757, 1992.)

17.36.030 Trailer Parking in Harbor Parking Lot.

A. BOAT TRAILER PARKING PERMITTED. Persons who own or have possession of boat trailers shall be allowed to park boat trailers in the Harbor parking lot in designated boat-trailer parking stalls located adjacent to the small-vessel launch ramp for a period of time not to exceed three (3) consecutive nights. For the purpose of this section, one night’s parking is defined as parking a boat trailer in a designated trailer parking stall any time between the hours of midnight to 4:00 a.m. No trailer, other than a boat trailer, shall be allowed to park in a parking stall in the Harbor lot without the prior written permission of the Waterfront Director or his or her designee.

B. BOAT TRAILER PARKING PROHIBITED. No person who owns or has possession of a boat trailer shall park such trailer in any area of the Harbor parking lot other than as provided in Section 17.36.030A herein without the prior written permission of the Waterfront Director or his or her designee.

C. BOAT TRAILER PARKING IN VIOLATION OF THIS SECTION; REMOVAL OF TRAILER AND PENALTIES. Any boat trailer parked in violation of this section may be removed by the City of Santa Barbara Police Department in accordance with the requirements of the California Vehicle Code and the owner or person in possession of the boat trailer parked in violation of this Section may be prosecuted in accordance with Santa Barbara Police Department regulations.
Municipal Code Chapter 1.28. (Ord. 5564, 2011.)
17.36.040 72-Hour Vehicle Parking Limit in Parking Lots.

A. 72-HOUR VEHICLE PARKING LIMIT IN WATERFRONT PARKING LOTS. Except as provided in Subsection B, no person who owns, or has possession, custody or control of any vehicle shall park, stop or leave the vehicle in the same parking space in any of the Waterfront Parking Lots in excess of a period of seventy-two (72) consecutive hours.

B. 72-HOUR VEHICLE PARKING LIMIT IN HARBOR PARKING LOT. No person who owns, or has possession, custody or control of any vehicle shall park, stop or leave the vehicle in the Harbor Parking Lot in excess of a period of seventy-two (72) consecutive hours, except persons with valid permits or prepaid permits as established by City Council Resolution, under the following circumstances:
   1. Vehicles owned by harbor slip holders who have also been issued a valid Waterfront slip-holder's parking permit will be allowed unlimited parking in the Harbor Parking Lot, providing that such vehicles are currently registered with the California Department of Motor Vehicles and are fully operational.
   2. Any person wishing to park a vehicle in the Harbor Parking Lot over the seventy-two (72) hour limit may be allowed to do so if the vehicle owner registers with the Waterfront parking office prior to leaving the vehicle in the Harbor Parking Lot. (Ord. 5649, 2014; Ord. 4757, 1992.)

17.36.050 Penalties for Vehicle Parking Over 72 Hours in Parking Lots.

A. PENALTIES FOR VEHICLE PARKING OVER 72 HOURS IN WATERFRONT PARKING LOTS. In the event a vehicle is parked, stopped or left standing in any of the Waterfront Parking Lots, except the Harbor Parking Lot pursuant to the provisions of Section 17.36.040B, in excess of a period of seventy-two (72) consecutive hours, the vehicle may be cited and the vehicle may be removed from the Waterfront Parking Lots by any member of the Police Department authorized by the Chief of Police in the manner and consistent with the requirements of the California Vehicle Code.

B. PENALTIES FOR VEHICLE PARKING OVER 72 HOURS IN HARBOR PARKING LOT. In the event a vehicle is parked, stopped or left standing in the Harbor Parking Lot in excess of a period of seventy-two (72) consecutive hours, does not have a valid slip holder parking permit, and has not been registered with the Waterfront parking office in advance, the vehicle may be cited and removed from the Harbor Parking Lot by any member of the Police Department authorized by the Chief of Police in the manner and consistent with the requirements of the California Vehicle Code. (Ord. 5649, 2014; Ord. 4757, 1992.)

17.36.060 Oversized Vehicles in Harbor Parking Lot.

All vehicles over twenty feet (20') in length are prohibited from parking in the Harbor Parking Lot, excepting those vehicles exempted by resolution of City Council. (Ord. 5458, 2008; Ord. 4757, 1992.)

17.36.070 Oversized Vehicles in Waterfront Parking Lots.

All vehicles over thirty three (33) feet in length are prohibited from entering or using any Waterfront Parking Lot, excepting those vehicles exempted by resolution of City Council. (Ord. 5262, 2002.)

17.36.080 Oversized Vehicles in Designated Waterfront Parking Lots.

The Waterfront Director shall designate parking spaces in Waterfront Parking Lots, including a limited number of oversize parking spaces, by signs, pavement stripes or other means of designation.

A. PARKING IN DESIGNATED PARKING STALLS ONLY. No vehicle shall be stopped, left standing or parked in any Waterfront Parking Lot, other than within a single marked stall designated for that size of vehicle.

B. PARKING IN MARKED STALLS ONLY. No vehicle shall be stopped, left standing or parked in any Waterfront Parking Lot, at angles, horizontally, diagonally or otherwise across the lines marking a parking stall designated for parking a vehicle.

C. NO PARKING IN OVERSIZED STALLS. No vehicle that is less than twenty (20) feet in length shall be stopped, left standing or parked in any Waterfront Parking Lot within a parking stall designated for an oversize vehicle.

D. NO PARKING OF OVERSIZED VEHICLES IN PASSENGER VEHICLE STALLS. No vehicle that is over twenty (20) feet in length shall be stopped, left standing or parked in any Waterfront Parking Lot, within a parking stall designated for passenger vehicles of ordinary length (less than twenty (20) feet). (Ord. 5564, 2011; Ord. 5262, 2002.)

17.36.090 No Personal Property in Parking Stalls.

No person shall occupy, fill or obstruct a space designated for parking in any Waterfront Parking Lot with any personal property other than a vehicle appropriate for the size of the parking stall, except by special permit of the Waterfront Director. (Ord. 5564, 2011; Ord. 5262, 2002.)
Chapter 17.40

RESERVE FOR HARBOR PRESERVATION

Sections:
17.40.010    Purpose.
17.40.020    Reserve for Harbor Preservation.
17.40.030    Accumulation of Funds.

17.40.010    Purpose.

The City Council has identified certain funds that shall be reserved for the purpose of accumulating funds for the preservation and enhancement of the Harbor, State Tidelands Trust, and Waterfront Department properties under the management of the City of Santa Barbara. Sources of funds to be committed for this purpose include but are not limited to surplus Waterfront Fund funds, interest earnings, and other sources as may be directed by the City Council. (Ord. 5110, 1999.)

17.40.020    Reserve for Harbor Preservation.

The City Finance Director shall establish and maintain a Reserve for Harbor Preservation in the Waterfront Tidelands Trust Fund for monies accumulated for preservation, enhancement, and management of Harbor, State Tideland Trust, and Waterfront Department properties. (Ord. 5110, 1999.)

17.40.030    Accumulation of Funds.

The City Finance Director shall deposit any funds received for the preservation and enhancement of the Harbor, State Tidelands Trust, and Waterfront Department properties and all interest earned from the investment of such funds in the Reserve for Harbor Preservation until a total of $5 million has been accumulated. If at any time the account balance for the Reserve for Harbor Preservation exceeds $5 million, the City Finance Director shall deposit all or a portion of the interest earned from the investment of those funds into the Operating Fund of the Waterfront Department as directed by a Resolution of the City Council. (Ord. 5110, 1999.)

Chapter 18.04 Definitions

Sections:
18.04.010 Definitions.

The following words and phrases, whenever used in this Title, shall have the meaning and be construed as defined in this section.

A. Aircraft. Any machine or device capable of flight including, but not limited to, Airplanes, Helicopters, Gliders and Ultralights.

B. Airfield. That area on the Aircraft operation side of the Airport security perimeter fence including, but not limited to, baggage handling areas, Aircraft parking areas, hangars, fuel storage areas, perimeter roads, and all areas separated from roadways, sidewalks, buildings and highways by means of fencing, no trespassing signs or lack of evidence of provision of proper facilities for convenient, safe and easy entrance into and around subject land sections and areas, any other specific areas designated by the Airport Director as Airfield, or any other area on the Airport not otherwise defined in this chapter.

C. Air Operations Area. All portions of the Airport used or intended for use by Aircraft landing, taking-off and surface maneuvering, including, but not limited to, Controlled Movement Area, ramps and adjacent unpaved areas. The Air Operations Area does not include the Secure Area.

D. Airplane. A fixed-wing machine or device capable of flight.

E. Airfield. The area comprising the Santa Barbara Municipal Airport, as the same may exist from time to time. The boundaries of the Airport are shown on the Airport Layout Plan adopted by resolution of the City Council as amended from time to time.

F. Airport-Authorized Escort. A person who has been authorized in writing by the Airport Director to accompany a person in a Restricted Area of the Airport.

G. Airport Director. The head of the Airport Department responsible to and under the direction of the City Administrator. The Airport Director shall also assist the Airport Commission in the performance of its duties to the City Council and shall keep the Airport Commission advised of the affairs of the Airport.

H. Air Traffic Control Tower. An Airport traffic control service operated by appropriate authority to promote the safe, orderly and expeditious flow of air traffic on or in the vicinity of the Airport.

I. Authorized Person. Any individual who has been issued Personnel Identification Media by the Airport Department which allows that individual to gain access to a Restricted Area.

J. Controlled Movement Area. The runways, taxiways, and other areas of the Airfield which are used for taxiing, takeoff, and landing of aircraft, not including aircraft parking areas.

K. Glider. An unpowered heavier-than-air Aircraft that is supported in flight by the dynamic reaction of the air against its lifting surfaces.

L. Hang Glider. A Glider capable of being carried, foot-launched and foot-landed solely by the energy and use of the pilot’s legs, including, but not limited to, paragliders.

M. Helicopter. A rotary-wing machine or device capable of flight.

N. Motor Vehicle. A self-propelled land conveyance that does not run on rails.

O. Personnel Identification Media. A badge, credential, card, or other media that is issued by the Airport Director to an individual for purposes of allowing an individual to gain access to a Restricted Area.
P. **Restricted Area.** An area posted to indicate that access is limited to persons authorized by the Airport Director or under Airport-Authorized Escort. A Restricted Area includes, but is not limited to, a Secure Area, Air Operations Area, Security Identification Area, and Sterile Area.

Q. **Secure Area.** A portion of the Airport in which certain security measures specified in 49 C.F.R Part 1542 are in effect and where aircraft operators and foreign aircraft operators which have a security program under 49 C.F.R. Part 1544 or 1546 enplane and deplane passengers or sort or load baggage, including any adjacent areas which are not separated by adequate security barriers or measures.

R. **Security Device.** A mechanical or electronic device designed to detect, deter or prevent unauthorized access into a Restricted Area.

S. **Security Identification Display Area.** An area identified by the Airport Director where each person within the area is required to continuously display Personnel Identification Media or be accompanied by an Airport-Authorized Escort. This includes all Restricted Areas around the airline terminal used for boarding and servicing of Aircraft of scheduled commercial airlines or used for the loading or sorting of baggage.

T. **Security Vulnerability.** An unanticipated change to any system, measure, or procedure relating to Airport security that would diminish the Airport Department’s ability to deter or detect unauthorized access to Restricted Areas.

U. **Sterile Area.** A portion of the Airport to which access is generally controlled by the TSA, or by an aircraft operator under 49 C.F.R. Part 1544, or by a foreign air carrier under 49 C.F.R. Part 1546, through the screening of persons and property.

V. **TSA.** The federal Transportation Security Administration of the Department of Homeland Security.

W. **Ultralight.** An Aircraft or device which satisfies the definition of an ultralight vehicle found in Title 14 of the Code of Federal Regulations. 

---

Chapter 18.08

GENERAL REGULATIONS

18.08.010 Hours for Public Use.

A. **AIRFIELD HOURS OF OPERATION.** The Airfield shall be open for public aviation use twenty-four (24) hours of the day. The Airport Director may restrict use of the Airfield due to the condition of the runway, inclement weather or other causes in the interest of public safety.

B. **AIRLINE TERMINAL HOURS OF OPERATION.** The Airline Terminal shall be open for public use one hour before the first departing commercial airline flight and throughout the day until one hour after the last arriving commercial flight. The Airport Director may restrict the use of the Airline Terminal in the interest of public safety. 

18.08.020 Solicitation.

A. **UNLAWFUL SOLICITATION IN AIRLINE TERMINAL.** It shall be unlawful for any person to solicit and receive funds inside the Airline Terminal at the Airport.

B. **UNLAWFUL SOLICITATION IN PARKING AREAS.** It shall be unlawful for any person to solicit and receive funds in the parking areas at the Airport.

C. **UNLAWFUL SOLICITATION ON SIDEWALKS.** It shall be unlawful for any person to solicit and receive funds on the sidewalk adjacent to the Airline Terminal or the sidewalk adjacent to the parking areas at the Airport.
D. LAWFUL DISTRIBUTION AND SOLICITATION. Subdivisions A, B, and C apply only if the solicitation and receipt of funds is conducted by a person to or with passers-by in a continuous or repetitive manner. Nothing herein is intended to prohibit the distribution of flyers, brochures, pamphlets, books, or any other printed or written matter so long as such distribution is not made with the intent of immediately receiving funds, as defined in Subdivision E, at the locations referred to in Subdivision A, B, or C.

E. DEFINITIONS. For the purpose of this Section, the term “solicit and receive funds” means any written or oral request for (1) the donation of money, alms, property, or anything else of value, or (2) the pledge of a future donation of money, alms, property, or anything else of value, or (3) the sale or offering for sale of any property upon the representation, express or implied, that the proceeds of such sale will be used for a charitable or religious purpose. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.08.030 Business Activity.

It shall be unlawful for any person to engage in any business or commercial activity or provide any service on the Airport unless such person has a fixed place of business or a specific operating area assigned by the Airport Director on the Airport which is occupied by virtue of a lease, operating permit, license or rental agreement with the City of Santa Barbara permitting such activity, as recommended by the Airport Commission, and as required and approved, if necessary, by the City Council. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.08.040 Advertising.

It shall be unlawful to erect, repair, alter, relocate or maintain any sign within the Airport, or to direct or authorize another person to do so, except pursuant to a sign permit obtained in accordance with Chapter 22.70 of the Santa Barbara Municipal Code unless the sign is specifically exempted from the permit requirements as provided in Chapter 22.70. Signs which are exempt from the permit requirements as provided in Chapter 22.70 and which are located within the Air Operations Area and which face towards the Airfield, must be approved in writing by the Airport Director prior to their installation. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.08.050 Business Tax Not Approval.

The issuance of a City business license certificate or the granting of City building or sign permit shall not constitute City approval to solicit or do business, engage in commercial activity, or advertise on the Airport. (Ord. 5557, 2011; Ord. 3480 §2(part), 1971.)

18.08.060 Off-Airport Car Rental Agencies.

A. OFF-AIRPORT RENTAL AGENCY PERMITS. Any business entity not having a fixed place of business on the Airport and which offers motor vehicles for rent (or which arranges to rent motor vehicles) to the general public at the Airport may only do so after having obtained an "Off-Airport Rental Agency Permit" from the City (hereinafter such a business entity shall be referred to as an "Off-Airport Rental Agency" or "Agency"). Such permits shall be in a form acceptable to the Airport Director and City Attorney and approved by the City Council.

B. PAYMENT OF PERMIT FEE TO THE CITY. The Off-Airport Rental Agency Permit shall require the Rental Agency holding such a Permit to pay a monthly fee to the City based on a percentage of the gross receipts generated by the Agency from its operations at the Airport.

C. OPERATING CONDITIONS. Every Off-Airport Rental Agency shall conduct its business in compliance with all of the terms and conditions of the Off-Airport Rental Agency Permit. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4836, 1993; Ord. 4242, 1983; Ord. 3480, §2 (part), 1971.)

18.08.065 Commercial Ground Transportation Program.

A. RULES AND REGULATIONS. The City Council may adopt such rules and regulations, as recommended by the Airport Commission, which may be necessary to govern the conduct and operation of all commercial ground transportation providers on the Airport. Such rules and regulations shall be called the “Santa Barbara Airport Commercial Ground Transportation Program.” For purposes of this Section, the term “Commercial Ground Transportation Providers” includes, but is not limited to, taxicabs, limousines, buses, courtesy shuttles and courier operators (for purposes of this Chapter, “courier operators” shall mean any person transporting property, baggage, or parcels for business purposes on Airport property and not for use or consumption on Airport property excluding persons transporting property, baggage, or parcels incidental to transporting Airport passengers, commercial air freight, and governmental entities providing ground transportation services at the Airport). The Airport Director shall administer the day-to-day operations of the Santa Barbara Airport Commercial Ground Transportation Program. The Airport Director has the discretion to make minor operational adjustments to the Program as needed for the effective operation of the Program. Substantive revisions to the Santa Barbara Airport Commercial Ground Transportation Program shall be made by the Airport Commission based upon recommendation of the Airport Director.
B. SANTA BARBARA AIRPORT COMMERCIAL GROUND TRANSPORTATION PROGRAM PERMITS. The Santa Barbara Airport Commercial Ground Transportation Program may include a requirement that all Commercial Ground Transportation Providers obtain a permit issued by the Airport Director and pay fees in the amounts established by resolution of the City Council. The procedure for the review and approval or rejection of the permit, if required, shall be set forth in the Santa Barbara Airport Commercial Ground Transportation Program.

C. FAILURE TO COMPLY WITH SANTA BARBARA AIRPORT COMMERCIAL GROUND TRANSPORTATION PROGRAM. The Airport Director, in his or her discretion, may deny, suspend, or terminate a Commercial Ground Transportation Provider permit for failure to comply with the Santa Barbara Airport Commercial Ground Transportation Program rules and regulations or any City, state or federal law. Written notification of the Airport Director’s decision to deny, suspend, or terminate a Commercial Ground Transportation Provider permit shall be provided to the Provider at the address stated in the Provider permit application and shall state the date upon which the Provider’s permit shall be denied, suspended or terminated. The decision of the Airport Director to deny, suspend, or terminate a Commercial Ground Transportation Provider permit may be appealed to the Airport Commission. A written notice of appeal shall be filed with the City Clerk within ten (10) days of the date of the Airport Director’s written notification to the Provider of the permit denial, suspension or termination. The written appeal filed with the City Clerk shall state the grounds for appeal. The decision of the Airport Commission acting on the appeal shall be final.

D. NO SOLICITATION. It shall be unlawful for any person on the Airport to solicit or invite any person to ride in a vehicle used for the purpose of carrying passengers for hire, either by driving slowly past a loading entrance of the terminal building or by any other act or utterance calculated to induce that person to engage the vehicle, except that operators of properly permitted vehicles for hire may enter the airline terminal and display a passenger's name or affiliation on an otherwise blank sign no larger than one hundred (100) square inches to assist in identifying a passenger that has made a reservation, in advance, with the operator for ground transport services. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983.)

18.08.090 Approval of Airport Director for Aviation Demonstrations.

A. AVIATION DEMONSTRATION. It shall be unlawful for any person to conduct a public Aircraft, ground or aerial demonstration or exhibition on the Airport without the prior written approval of the Airport Director.

B. UNREGISTERED AIRCRAFT. It shall be unlawful for any person to operate an unregistered Aircraft on the Airport, except unregistered Aircraft with temporary authorization required under 14 CFR Part 47.31(b) and Aircraft of the United States Armed Forces. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.08.100 Aircraft Equipment and Operation Rules.

A. OPERATIONAL AIRPLANE BRAKES. Except when authorized by the Airport Director, it shall be unlawful to operate any Airplane on the Airport unless it has an operational tail or nose wheel and wheel brakes.

B. AIRPLANE TAXIING. If the pilot of an Airplane that does not have adequate brakes is authorized by the Airport Director to taxi the Airplane, the pilot shall taxi it in such a manner so as not to endanger any persons, buildings, fixtures or other Aircraft. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983.)

18.08.130 Removal of Wrecked, Damaged or Disabled Aircraft.

Aircraft owners, their pilots or agents, shall be responsible for the prompt removal of any wrecked, damaged or disabled Aircraft or parts thereof, from any runway or taxiway or areas adjacent to runways or taxiways on the Airport. In the event of an unsafe or emergency condition, the Airport Director may cause the removal of a wrecked, damaged or disabled Aircraft or any of its parts, from any runways or taxiways or areas adjacent to runways or taxiways at the owner or agent's expense without liability for damage that may result from such move. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.08.140 Preservation of Property.

A. UNLAWFUL DESTRUCTION OF AIRPORT PROPERTY. It shall be unlawful for any person to destroy, injure, deface or disturb any building, sign, equipment, marker, or other structure, tree, flower, lawn or other public property on the Airport.

B. UNLAWFUL ALTERATION OF AIRPORT BUILDING. It shall be unlawful for any person to alter or add to any building on the Airport without first obtaining the express written approval of the Airport Director and all other required permits and approvals.

C. UNLAWFUL DUMPING ON AIRPORT PROPERTY. It shall be unlawful for any person to make an excavation, or dump any material on the Airport without express written approval of the Airport Director.

D. UNLAWFUL INTERFERENCE WITH AIRPORT PROPERTY. It shall be unlawful for any person to interfere or tamper with, or injure any part of the Airport or its equipment.
E. UNLAWFUL ABANDONMENT OF PERSONAL PROPERTY. It shall be unlawful for any person to abandon any personal property or litter on the Airport. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.08.150 Area Uses.

A. UNLAWFUL OBJECTS ON AIRPORT PROPERTY. It shall be unlawful for any person to place, store or leave unattended any object on a road, walkway or Aircraft tie-down or other area on the Airport without approval of the Airport Director.

B. UNLAWFUL UNCOVERED TRASH CONTAINERS. It shall be unlawful for any person to keep uncovered trash containers on the Airport.

C. UNLAWFUL HAULING. It shall be unlawful for any person to operate a vehicle for hauling trash, dirt, or any other material on the Airport unless the vehicle is equipped to prevent its contents from dropping, sifting, blowing, leaking or otherwise escaping.

D. UNLAWFUL CAMPING ON AIRPORT PROPERTY. It shall be unlawful for any person to camp (as that term is defined in Santa Barbara Municipal Code Section 15.16.060) or sleep, which means, for the purpose of this provision, sleeping on the Airport, including, but not limited to, the Airfield, leased buildings, Motor Vehicles, Aircraft, Helicopters or in field areas for a period of not less than two (2) consecutive hours, without the express written consent of the Airport Director.

E. UNLAWFUL STORAGE OF PERSONAL PROPERTY. It shall be unlawful for any person to store items of personal property, including, but not limited to, boats, motorhomes and semi-trailers on the Airport without the express written consent of the Airport Director. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.08.155 Duty to Notify.

In addition to all other local, state or federal reporting requirements, in the event of a release or threatened release of hazardous materials or other contaminants into the environment relating to or arising out of a person’s use or occupancy of the Airport or in the event of any claim, demand, action or notice made against any person regarding a failure or alleged failure to comply with any environmental laws on the Airport, the person shall immediately notify the Airport Director and shall provide the Airport Director with copies of any written claims, demands, notices or actions so made. (Ord. 5203, 2001.)

18.08.160 Interfering or Tampering with Aircraft.

It shall be unlawful to interfere or tamper with an Aircraft on the Airport or put the engine in motion, or use any Aircraft, aircraft parts, radios, instruments or tools on the Airport, without the permission of the owner of the Aircraft. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.08.170 Animals.

A. ANIMALS PROHIBITED IN AIRPORT AIRLINE TERMINAL AND ON AIRFIELD. It shall be unlawful to enter the Airport Airline terminal or Airfield with a domestic or wild animal except for domestic animals allowed in Section 18.08.170.D herein or without the permission of the Airport Director.

B. HUNTING AND FISHING ON AIRPORT PROPERTY PROHIBITED. It shall be unlawful to hunt or fish on the Airport property.

C. HORSE RIDING ON AIRPORT PROPERTY PROHIBITED. It shall be unlawful to ride or walk a horse on the Airport property except as necessary to transport such animal by air.

D. PERMITTED DOMESTIC ANIMALS.

1. Animals Permitted in Airline Terminal or Airfield. Domestic animals may be allowed in the Airline Terminal and on the Airfield in the following circumstances:
   (i) an assistance animal for a disabled person;
   (ii) a person entering the Airline Terminal for the purpose of air travel with a domestic animal that is confined within an approved pet transport;
   (iii) a person entering the Air Operations Area, for the purpose of air travel via a private or charter Aircraft, with a domestic animal that is restrained by a leash or is otherwise confined so as to be completely under control; or
   (iv) an animal accompanying a law enforcement officer.

2. Domestic Animals Permitted on the Airport Property Except Airline Terminal and Airfield. Domestic animals may be allowed on the Airport property in the following circumstances:
   (i) domestic animals, if the keeping of domestic animals is specifically permitted by an agreement entered into between the City of Santa Barbara and a person or entity for the rental or other occupancy of the Airport property. Such domesticated animals must be at all times restrained by a leash or confined in a kennel or other appropriate enclosure; or
   (ii) domestic animals kept in accordance with Section 6.08.020 of the Municipal Code.
E. PROPER DISPOSAL OF ANIMAL WASTE. All animal waste must be immediately removed from the Airport property and disposed of properly.

F. ANIMALS MAY BE PROHIBITED BY AIRPORT DIRECTOR. Animals determined by the Airport Director, in his or her absolute discretion, to be an annoyance or a risk to the health and safety of the public shall be immediately and permanently removed from the Airport property. (Ord. 5390, 2006; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.08.180 Commercial Photography.

It shall be unlawful for any person to take still or motion photography on the Airport for commercial purposes without first obtaining the express written consent of the Airport Director, as well as obtaining all required permits from the City of Santa Barbara and paying the appropriate fees as established by a resolution of the Council of the City of Santa Barbara. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.08.190 Prohibited Uses of Airspace.

It shall be unlawful for any person except an employee of the United States performing his official duties, or a person who has the permission of the Airport Director, to prepare to operate, operate or release a kite, parachute, balloon, model aircraft, rocket or other non-aeronautical airborne objects on the Airport. (Ord. 5557, 2011; Ord. 3480 §2(part), 1971.)

18.08.200 Controlled Movement Area.

A. COMMUNICATION EQUIPMENT WITHIN CONTROLLED MOVEMENT AREA. All persons entering or within the Controlled Movement Area shall comply with either of the following requirements:
   1. Be equipped with an operating two-way radio capable of communicating on the Airport’s Common Traffic Advisory Frequency and ground control frequency; or
   2. Be escorted by a person with this capability.

B. AIRPORT TRAFFIC CONTROL TOWER APPROVAL. At those times when the Airport Traffic Control Tower is operational, except as needed to avoid danger, no person shall enter or move within the Controlled Movement Area without receiving approval from the Airport Traffic Control Tower.

C. AFTER-HOURS ACCESS TO CONTROLLED MOVEMENT AREA. At those times when the Airport Traffic Control Tower is not operational, all persons entering into or on the Controlled Movement Area must use the Common Traffic Advisory Frequency, shall announce all intended movements and shall perform all movements only when it is safe to do so. (Ord. 5557, 2011.)

18.08.210 City Responsibilities.

The City, its agents or employees operating the Airport, assume no responsibilities for damage to property stored thereon or property thereon of persons using the Airport facilities, by reason of fire, theft, vandalism, windstorm, flood, earthquake, collision or other cause, nor does it assume any liability by reason of injury to persons while on the Airport or while using the Airport facilities. (Ord. 3480 §2(part), 1971.)
Chapter 18.10
AIRPORT SECURITY

Sections:
18.10.010 Airport Restricted Areas.
18.10.020 Personnel Identification Media.
18.10.030 Tampering with Security Device.
18.10.040 Custody of Keys or Other Means of Access.
18.10.050 Unattended Baggage.

18.10.010 Airport Restricted Areas.

A. AIRPORT RESTRICTED AREAS; GENERALLY. The City Council may adopt by Resolution such rules and regulations as deemed necessary to control access to and conduct within the Airport Restricted Area. Failure to comply with the Restricted Area Rules and Regulations adopted by the City Council shall constitute a violation of this Code and be unlawful.

B. ACCESS TO AIRPORT RESTRICTED AREAS. Except as otherwise provided in this Code, it shall be unlawful for any person to enter into or to be present inside any Airport Restricted Area without the prior express permission from the Airport Director unless such person is accompanied by Airport-Authorized Escort. Any person given permission by the Airport Director to enter an Airport Restricted Area must enter and exit the Restricted Area through a designated entrance or exit point.

C. PASSING, THROWING, OR CARRYING OBJECTS INTO AN AIRPORT RESTRICTED AREA. It shall be unlawful for any person to pass, throw, or carry any object into an Airport Restricted Area, except objects that are carried through a designated entrance or exit by an Authorized Person or by a person under Airport-Authorized Escort.

D. VEHICLE ACCESS. Vehicles driven, parked, or stationed in an Airport Restricted Area must have prior authorization granted by the Airport Director or be supervised by an Airport-Authorized Escort. The Airport Director, or the Airport Director’s designee, may remove non-authorized vehicles from the Restricted Area at the vehicle owner’s expense. (Ord. 5557, 2011.)

18.10.020 Personnel Identification Media.

A. ISSUANCE OF PERSONNEL IDENTIFICATION MEDIA. The issuance of Personnel Identification Media is at the sole discretion of the Airport Director. Such media shall remain the property of the Airport and shall be surrendered to the Airport Department upon demand or upon termination of the need for access to the area for which the identification was issued.

B. MISUSE OF PERSONNEL IDENTIFICATION MEDIA. It shall be unlawful to falsify, forge, counterfeit, alter, or tamper with any Airport-issued Personnel Identification Media.

C. USE OF PERSONNEL IDENTIFICATION MEDIA ISSUED TO ANOTHER PERSON. It shall be unlawful to use or attempt to use the Personnel Identification Media issued to another person for entry into, exit from, or while inside a Restricted Area.

D. EXPIRED PERSONNEL IDENTIFICATION MEDIA. It shall be unlawful to use or attempt to use an expired Personnel Identification Media for entry into, exit from, or while inside a Restricted Area. Each person in possession of expired Personnel Identification Media shall immediately surrender it to the Airport Director. (Ord. 5557, 2011.)

18.10.030 Tampering with Security Device.

It shall be unlawful to tamper with, or attempt to tamper with, or in any way hamper the effective operation of a Security Device. (Ord. 5557, 2011.)

18.10.040 Custody of Keys or Other Means of Access.

Only persons authorized by the Airport Director shall have custody of, access to, or use of keys or other means of access used to lock and secure a Restricted Area. Authorized Persons shall not duplicate or distribute keys or other means used for access to a Restricted Area to anyone without written authorization from the Airport Director. (Ord. 5557, 2011.)

18.10.050 Unattended Baggage.

It shall be unlawful for any person to leave any bag, luggage, box, or container unattended in any public Airline Terminal areas of the Airport unless authorized by the Airport Director. An item shall be deemed unattended if the item is out of the line of sight or more than thirty five (35) feet away from the person who had possession of the item before it was left unattended. This section does not apply to items left in a baggage claim area by airline or baggage
service personnel in the ordinary course of business.  (Ord. 5557, 2011.)

#### 18.16.010  Engine Run-Ups.

All engine run-ups shall be made in designated areas.  (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

#### 18.16.020  Operator Must be at Controls.

No person shall start or run an engine in an Aircraft on the Airport unless there is a person trained as a pilot or Aircraft mechanic in the Aircraft at the engine controls.  (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

#### 18.16.030  Caution in Starting Engines.

**A. STARTING ENGINES.** It shall be unlawful for any person to start an engine of an Aircraft parked on the Airport in a manner that damages any other property, Aircraft, or persons, or that blows paper, dirt or other material across taxiways or runways, so as to endanger the safety of operations on the Airport.

**B. FOREIGN OBJECT DEBRIS.** It shall be unlawful for any person to use any material (such as oil absorbents or similar material) in such a manner that creates a hazard of personal injury or property damage when picked up, swirled or blown about by the blast from an Aircraft engine.  (Ord. 5557, 2011; Ord. 5203; 2001; Ord. 3480 §2(part), 1971.)

#### 18.16.050  Take-Offs from End of Runway.

Take-offs shall be made from the end of the runway unless the Airport Traffic Control Tower is in operation and has directed otherwise.  (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

#### 18.16.070  Landings - Fixed-Wing Aircraft.

All landings shall be confined to the hard surface runways and shall be made on the runway designated by the Airport Traffic Control Tower or the proper runway for safe operation as indicated by wind and weather conditions when the tower is not in operation.  (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

#### 18.16.080  Landings - Helicopter and Autogyro.

Helicopters may land in an area designated by the Airport Director or as directed by the Airport Traffic Control Tower, exercising due care with respect to other aircraft and/or people.  Autogiros shall land and take-off on the active runway and taxi to the parking area as do fixed-wing Aircraft.  (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

#### 18.16.090  Common Traffic Advisory Frequency.

In the interest of aviation safety during the hours that the Airport Traffic Control Tower is not in operation, all pilots conducting flight operations shall use the Common Traffic Advisory Frequency.  (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)
18.16.095 Take-Offs and Landings Prohibited Outside of the Santa Barbara Municipal Airport - Exceptions.

A. LANDINGS OUTSIDE AIRPORT PROHIBITED. It shall be unlawful for any person to take off from or land any Aircraft within the limits of the City of Santa Barbara outside of the Santa Barbara Municipal Airport, except under the following circumstances:
   1. In emergency situations where it is impossible or impractical for the Aircraft to remain in the air and landing is necessary to avoid greater danger;
   2. When special permission has been secured from the City Administrator, or other person designated by the City Council of the City of Santa Barbara to grant such permission, in which event such landing and taking-off shall be solely in the area and under the conditions imposed by such public official;
   3. Helicopters landing at officially-designated heliports;
   4. Aircraft while engaged in firefighting, rescue operations or responding to a medical emergency;
   5. Parachute or other contrivance used primarily as safety equipment;
   6. Hang Gliders;
   7. Military aircraft;

18.16.100 Motorless Aircraft.

No motorless Aircraft shall land or take-off at the Airport without prior permission from the Airport Director. (Ord. 5557, 2011; Ord. 5203, 2001.)

18.16.110 Towing Objects from Aircraft.

It shall be unlawful to take off in an Aircraft towing any object or device, including but not limited to, Gliders and banners, without prior written permission from the Airport Director. (Ord. 5557, 2011; Ord. 5203, 2001.)

18.16.120 Turbojet and Turboprop Touch-and-Go Landings Prohibited.

Operators of turbojet and turboprop Aircraft are prohibited from conducting a series of touch-and-go practice landings at the Airport without the prior consent of the Airport Director. (Ord. 5557, 2011.)

18.16.130 Local Helicopter Training Operations.

Local Traffic (for purposes of this Section, “Local Traffic” means Helicopters conducting training operations operating in the traffic pattern, within sight of the tower, or Helicopters known to be departing or arriving from flight in local practice areas) Helicopter training operations shall not be conducted on the Airport without the prior written consent of the Airport Director. (Ord. 5557, 2011.)

Chapter 18.18
OPERATION OF HANG GLIDERS

Sections:
18.18.010 Prohibited Operations of Ultralights and Hang Gliders.

18.18.010 Prohibited Operations of Ultralights and Hang Gliders.

It shall be unlawful to operate a Hang Glider or Ultralight over the Airport or within one hundred feet (100') of any building used as a residence within the City of Santa Barbara. (Ord. 5557, 2011; Ord. 5265, 2003; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3831, 1976.)
Chapter 18.20

PARKED AIRCRAFT

18.20.010  Aircraft Parking.

Aircraft shall be parked only in a prescribed tie-down area or in a hangar unless otherwise instructed by the Airport Director. It shall be unlawful to park an Aircraft so as to restrict the flow of traffic within tie-down areas or on taxiways. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.20.020  Proper Tie-Down.

It shall be unlawful to leave an Aircraft unattended unless it is properly secured or placed in a hangar. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.20.030  Repair Areas.

It shall be unlawful to repair an Aircraft, engine, propeller, or apparatus on the Airport unless the area has been designated for that purpose by the Airport Director; except Aircraft owners may personally perform preventative maintenance on their own Aircraft in their assigned tie-down areas or hangars. Preventative Maintenance as used in this section is defined as those activities identified as preventative maintenance in Federal Aviation Regulation Part 43, Appendix A, except the spray application of paints and other similar decorative or protective coatings is prohibited. Aircraft owners personally performing preventative maintenance to their Aircraft must prevent the release of lubricants and other contaminants into the environment and ensure proper disposal of all wastes resulting from Aircraft maintenance activities. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.20.040  Dismantled, Inoperable, Parked Aircraft or Parts Thereof.

A. REMOVAL OF INOPERABLE AIRCRAFT. The owner of dismantled or inoperable Aircraft, or parts thereof, parked within the Airport, but excluding wrecked, damaged or disabled Aircraft located on or adjacent to a runway or taxiway, must remove such Aircraft, or parts thereof, from the Airport within seven (7) days of receipt of written notice from the Airport Director requesting such removal. The Aircraft, or parts thereof, may be moved to a non-public leased facility and out of public view subject to approval of the Airport Director.

B. REQUIREMENT TO MOVE PARKED AIRCRAFT. At the request of the Airport Director, in the interest of public safety and to preserve all necessary accesses, the operator, owner or pilot of any Aircraft on the Airport must move the Aircraft from the place where it is parked or stored to any other designated place on the Airport. If the owner, pilot or operator refuses to comply with this direction, the Airport Director may move the Aircraft at the owner's expense and without liability for damage that may result from such move. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)
Chapter 18.24

TAXIING

Sections:
18.24.010 Complying with Orders.  
18.24.020 Engine Blast.  
18.24.050 Taxiing Into and Out of Hangars Prohibited.

18.24.010 Complying with Orders.

Each person operating an Aircraft on a part of the Airport that is not under the direction of the Airport Traffic Control Tower shall comply with orders, signals, and directions of an authorized representative of the Airport Director. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.24.020 Engine Blast.

It shall be unlawful to taxi any Aircraft on the Airport in a place where exhaust blast is likely to cause injury to persons or property. If Aircraft cannot be taxied without violating this section, the operator must have the Aircraft towed to the desired location on the Airport. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.24.050 Taxiing Into and Out of Hangars Prohibited.

It shall be unlawful to operate an Aircraft in, or taxi into or out of, a hangar. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

Chapter 18.28

MOTOR VEHICLE REGULATIONS

Sections:
18.28.010 General Regulations.  
18.28.020 Accident Reporting.  
18.28.030 Parking.  
18.28.040 Fire Gates and Equipment.  
18.28.060 Reckless Operation.  
18.28.070 Yield Right-of-Way.  
18.28.080 Pass to Rear of Aircraft.  
18.28.090 Blocking Taxiway.  
18.28.100 Rapid Removal of Gas Tenders.  
18.28.110 Repairs to Motor Vehicles.  
18.28.120 Obedience to Traffic Control Devices.

18.28.010 General Regulations.

A. UNLAWFUL OPERATION OF MOTOR VEHICLES ON AIRPORT. It shall be unlawful for any person to operate a Motor Vehicle on the Airport in violation of any provision of this Code, any rule or regulation adopted by resolution of the City Council, or any rule or regulation adopted by the Airport Director pursuant to authority granted under this Code.

B. MOTOR VEHICLE RULES AND REGULATIONS. The Airport Director is authorized to adopt rules and regulations governing the operation of Motor Vehicles on the Airport consistent with the provisions of this Code.

C. OPERATION OF MOTOR VEHICLES ON ROADS. It shall be unlawful to operate a Motor Vehicle on the Airport except on roadways, parking areas and other hard surfaces that are designated for such vehicles, except service vehicles authorized in writing by the Airport Director and emergency vehicles.

D. SERVICE VEHICLE IDENTIFICATION. All authorized service vehicles operating within the Air Operations Area of the Airport must have company identification displayed on both sides of the vehicle, visible and legible from a distance of one hundred (100) feet.

E. DESIGNATION OF CONSTRUCTION VEHICLES. All construction vehicles operating within the Air Operations Area shall display an orange and white checkered flag of not less than nine (9) square feet and shall obtain clearance from the Airport Traffic Control Tower when operating within one hundred (100) feet of a runway or taxiway.

F. NIGHTTIME VEHICLE DESIGNATION. All vehicles operating on the Air Operations Area from sunset to sunrise shall operate a rotating amber light beacon or strobe on the roof of the vehicle. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)
18.28.020 Accident Reporting.

Each operator of a Motor Vehicle involved in an accident between that vehicle and an Aircraft or another vehicle on the Airport shall report such accident fully to the Airport Director as soon as possible after the accident. The report shall include to the greatest extent possible: the date, time and location of the accident; a description of all vehicles or Aircraft involved in the accident, including license or tail numbers; the name of the owners of the vehicles or Aircraft; the names of the vehicle or Aircraft operators and their license numbers; the owners’ and operators’ insurance carriers; the circumstances of the accident; and a list of any injuries or damages. (Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.28.030 Parking.

A. PAYED PARKING AREAS. It shall be unlawful to:

1. Park a Motor Vehicle on the Airport in an area requiring payment for parking unless the required amount is paid.
2. Park a Motor Vehicle in such a manner as to occupy parts of two (2) marked spaces, unless approved by the Airport Director.

B. NO ABANDONED VEHICLES. It shall be unlawful to abandon a Motor Vehicle on the Airport.

C. OBEY SIGNS AND MARKINGS. It shall be unlawful to park or stand a Motor Vehicle at any place on the Airport in violation of any sign or pavement marking posted by the Airport Director.

D. NO PARKING WITHIN FIFTEEN FEET OF FIRE HYDRANT. It shall be unlawful to park or stand a Motor Vehicle within fifteen feet (15') of a fire hydrant on the Airport.

E. PARKING IN AIR OPERATIONS AREA. It shall be unlawful to park a Motor Vehicle in the Air Operations Area or in any Aircraft tie-down area unless authorized by the Airport Director. The Airport Director may authorize an owner or operator of an Aircraft stored in a hangar on the Airport to park a Motor Vehicle used to access the Aircraft in an aircraft hangar while using the Aircraft.

F. PARKING ONLY IN DESIGNATED AREAS. It shall be unlawful to park a Motor Vehicle on the Airport anywhere other than on an area that has been designated for parking by the Airport Director.

G. OBEY SIGNS AND MARKINGS. It shall be unlawful to park or stand a Motor Vehicle at any place on the Airport in violation of any sign or pavement marking posted by the Airport Director.

H. NO PARKING WITHIN FIFTEEN FEET OF FIRE HYDRANT. It shall be unlawful to park or stand a Motor Vehicle within fifteen feet (15') of a fire hydrant on the Airport.

I. REMOVAL OF UNAUTHORIZED VEHICLES. The Airport Director or his or her designee may remove, at the owner's expense, any vehicle parked on the Airport in violation of this Title, and the vehicle shall be subject to a lien for the cost of removal. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.28.040 Fire Gates and Equipment.

Motor Vehicles shall be kept clear of gates, entrances and fire equipment at all times. (Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.28.060 Reckless Operation.

A. MOTOR VEHICLE OPERATION ON AIRPORT. It shall be unlawful to operate a Motor Vehicle on the Airport in a negligent or reckless manner or in excess of twenty-five (25) miles per hour or as otherwise posted.

B. MOTOR VEHICLE OPERATION IN AIR OPERATIONS AREA. It shall be unlawful to operate a Motor Vehicle in the Air Operations Area in a negligent or reckless manner or in excess of fifteen (15) miles per hour or as otherwise posted. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 4242, 1983; Ord. 3480 §2(part), 1971.)

18.28.070 Yield Right-of-Way.

Motor Vehicles on the Airfield shall yield right-of-way to taxiing Aircraft. (Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.28.080 Pass to Rear of Aircraft.

Motor Vehicles on the Airfield shall pass to the rear of Aircraft if the Aircraft’s engine is running. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.28.090 Blocking Taxiway.

Gasoline tenders shall not be operated or parked so as to restrict taxiing Aircraft. (Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.28.100 Rapid Removal of Gas Tenders.

Gasoline tenders shall not be so positioned as to prevent their rapid removal. (Ord. 3480 §2(part), 1971.)
18.28.110 Repairs to Motor Vehicles.

Except as authorized in writing by the Airport Director, or to make minor repairs necessary for the prompt removal of the Motor Vehicle, it shall be unlawful to clean or make repairs to Motor Vehicles anywhere on the Airport other than designated shop areas. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.28.120 Obedience to Traffic Control Devices.

All roads and parking lots on the Airport are subject to public traffic regulations and control. It shall be unlawful to operate a Motor Vehicle in violation of any sign, signal or other traffic control device on the Airport. (Ord. 5557, 2011; Ord. 5203, 2001.)

Chapter 18.32
FIRE REGULATIONS

| Sections: | 18.32.010 Smoking. | 18.32.050 Doping Materials. | 18.32.020 Storage. | 18.32.060 Fueling Operations. | 18.32.030 Cleaning Fluids. | 18.32.070 Fire Apparatus. | 18.32.040 Apron Surface Areas and Floor Surfaces. |

18.32.010 Smoking.

It shall be unlawful to smoke in any place on the Airport where smoking is prohibited by state law or City ordinance. In addition, it shall be unlawful to smoke within any baggage claim pavilion, the Security Identification Display Area, any hangar or within one hundred (100) feet of any Aircraft. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.32.020 Storage.

A. FIRE HAZARDS PROHIBITED. It shall be unlawful to store or stack material or equipment on the Airport in any manner that constitutes a fire hazard.

B. FLAMMABLE MATERIALS. It shall be unlawful to keep or store any flammable liquid, gas signal flare, or other similar material in a hangar or other building on the Airport, except that such material may be kept in an Aircraft in proper receptacles, in rooms or areas or in safety cans as approved by the City Fire Chief.

C. STORAGE IN HANGARS. All hangars on the Airport must be equipped with suitable metal receptacles, with self-closing covers, for storage of waste, rags and other rubbish, and all rubbish shall be removed from the hangar. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.32.030 Cleaning Fluids.

It shall be unlawful to use a flammable liquid having a flash point of less than one hundred ten degrees Fahrenheit (110 F) to clean an Aircraft or other engine, propeller or appliance on the Airport, unless it is done in the open air or in a room specifically set aside for that purpose. If a room is used, it must be a properly designed, fireproof and ventilated room or building, equipped with automatic sprinklers and adequate and readily accessible fire extinguishing apparatus, and in which all lights, wiring, heating, ventilation equipment, switches, outlets and fixtures are explosion proof, spark proof and vapor proof. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.32.040 Apron Surface Areas and Floor Surfaces.

Each person to whom a space on the Airport is leased, assigned, or made available for use, shall keep the space free and clear of weeds, oil, grease or other foreign materials that could cause a fire hazard or a slippery or otherwise unsafe condition. (Ord. 3480 §2(part), 1971.)
18.32.050 Doping Materials.

A. DOPING MATERIAL PROHIBITED EXCEPT AS PROVIDED HEREIN. It shall be unlawful to apply a doping material on the Airport except in a properly designed, fireproof and ventilated room or building in which all lights, wiring, heating, ventilation equipment, switches, outlets and fixtures are explosion proof, spark proof and vapor proof, and in which room or building all windows and doors are easily opened.

B. NO ENTRY INTO AREA WHERE DOPING MATERIAL BEING APPLIED. It shall be unlawful to enter or work in a room where doping materials are being used unless the person is wearing spark proof shoes. (Ord. 5557, 2011; Ord. 3480 §2(part), 1971.)

18.32.060 Fueling Operations.

A. AIRCRAFT FUELING RESTRICTIONS. Except as provided in the National Fire Protection Association (NFPA) 407 “Standards for Aircraft Fuel Servicing,” it shall be unlawful to fuel or defuel an Aircraft on the Airport while:

1. The Aircraft engine is running;
2. The Aircraft is in a hangar or enclosed place;
3. Passengers are in the Aircraft, unless a passenger loading ramp is in place at the cabin door, the door is open, and a cabin attendant is at or near the door;
4. Operating a radio transmitter or receiver, or operating electrical switches.

B. FUELING PRECAUTIONS. It shall be unlawful to start the engine of an Aircraft on the Airport if there is any gasoline or other flammable liquid on the ground underneath.

C. BONDING. During the fueling of an Aircraft, the dispensing apparatus and the Aircraft must be bonded in accordance with the most current version of the National Fire Protection Association (NFPA) 407 “Standards for Aircraft Fuel Servicing.”

D. OVERFLOW PREVENTION. Each person engaged in fueling or defueling shall exercise care to prevent the overflow of fuel, and must have readily accessible adequate fire extinguishers.

E. NO SMOKING. During the fueling or defueling of an Aircraft, no person shall, within one hundred feet (100’) of that Aircraft, smoke or use any material that is likely to cause a spark or be a source of ignition.

F. FUELING EQUIPMENT MAINTENANCE. Each hose, funnel or apparatus used in fueling or defueling an Aircraft must be maintained in a safe and non-leaking condition and must be properly grounded to prevent ignition of flammable liquids.

G. FUELING PROCEDURES. Each person fueling or defueling an Aircraft on the Airport shall comply with the fire safety requirements and the fuel spill procedures set forth in the applicable and current version of the Airport Minimum Standards. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

18.32.070 Fire Apparatus.

Each occupant on the Airport shall supply and maintain adequate and readily accessible fire extinguishers, approved by fire underwriters for the hazard involved, that the Airport Director considers necessary. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

Chapter 18.36

FEES

Section:

18.36.010 Rates and Fees.

Rates and fees charged by the City of Santa Barbara for public parking at the Airport shall be established by resolution of the City Council after consideration of the recommendations of the Airport Commission. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

### 18.40.010 Powers of Airport Director.

The Airport Director shall be responsible for the enforcement of the provisions of this Title. (Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

### 18.40.020 Issuance of Citations.

The Airport Director, and those employees of the Airport Department charged by the Airport Director with enforcement duties, are authorized to issue written notices to appear as provided in Chapter 1.20 of this Code, of Section 853.6 of the California Penal Code, and to issue notices of illegal parking as provided in Section 40202 of the California Vehicle Code. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3480 §2(part), 1971.)

### 18.40.030 Carrying Firearms.

The Patrol Supervisor and Airport Patrol Officers may carry firearms while engaged in the performance of their duties. Prior to carrying firearms, the Patrol Supervisor and all Airport Patrol Officers must satisfactorily complete a course of training in the carrying and use of firearms which meets the minimum standards prescribed by the Commission on Peace Officers Standards and Training. The purpose and intent of the authorization to carry firearms provided in this section is to provide a means of self-defense or defense of others. The use and handling of such weapons shall comply in all respects with all applicable policies, rules and regulations. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3674 §2, 1974.)

### 18.40.040 Penalty.

The violation of any provision of this Title is a misdemeanor and upon conviction thereof shall be punishable by a fine not to exceed the sum of one thousand dollars ($1,000.00), or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. (Ord. 5557, 2011; Ord. 3480 §2(part), 1971.)
Chapter 18.44
AIRPORT COMMISSION

18.44.010 Establishment.

There is hereby created and established an Airport Commission for the City of Santa Barbara. (Ord. 3726 §2, 1975.)

18.44.020 Membership.

The Commission shall consist of seven (7) regular members who shall be appointed and serve as follows:

A. REGULAR MEMBER INTERVIEWS. Prior to the appointment of a regular member, the prospective member shall be interviewed by members of the City Council at a public meeting attended by not less than a quorum of the City Council.

B. APPOINTMENT BY CITY COUNCIL. The seven regular members of the Commission shall be appointed by the City Council. They shall be subject to removal by motion of the City Council adopted by the affirmative votes of a majority of the total membership thereof. The regular members shall serve for terms of four years and until their respective successors are appointed and qualified. The terms for new and existing regular members shall be staggered so that the number of terms on the Commission expiring in any year shall not differ by more than one from the number of terms expiring in any other year. Such terms shall expire on January first of the appropriate year. A vacancy occurring before the expiration of a term shall be filled by appointment for the remainder of the unexpired term.

C. COMPOSITION OF COMMISSION. No less than four regular members appointed by the City Council to serve on the Commission shall be residents and electors of the City. (Ord. 5557, 2011; Ord. 3992, 1979; Ord. 3904, 1977; Ord. 3860, 1976.)

18.44.040 Compensation of Members.

The City Council may by resolution provide for remuneration of Commissioners. (Ord. 3726 §2, 1975.)

18.44.050 Officers, Record, Quorum.

The Airport Commission shall annually elect one (1) of its regular members as chairperson, one (1) of its regular members as vice chairperson, and such other officers as it may desire. The chairperson shall not serve more than two (2) consecutive terms of one (1) year each. The Commission shall cause to be kept a complete record of all its proceedings. A majority of the regular members of the Commission shall constitute a quorum for the transaction of all business of the Commission. In the event the City Council delegates the power to approve the execution of any agreement, lease, contract or the expenditure of funds to the Airport Commission, four (4) regular member votes shall be required to pass any action exercising such authority. (Ord. 5557, 2011; Ord. 5203, 2001; Ord. 3726 §2, 1975.)

18.44.060 Meetings.

The Airport Commission shall meet regularly once a month and at such other times as deemed necessary by the Commission. (Ord. 3726 §2, 1975.)

18.44.070 Powers and Duties.

The Airport Commission shall have the power and duty to advise the City Council regarding the following:

A. APPOINTMENT OF AIRPORT DIRECTOR. The selection and appointment of an Airport Director for the management of the Airport.
B. CONTRACTS, AGREEMENTS AND LEASES. The terms and conditions of all contracts and agreements pertaining to the operation of the Airport, and those leases which have terms for periods of longer than five (5) years or which involve Special Circumstances as defined in Section 18.44.075.C. Any matter required to be accomplished by ordinance of the City Council under the City Charter shall not be binding upon the City until the effective date of the ordinance adopted by the City Council.

C. RULES AND REGULATIONS. The promulgation of rules and regulations related to operation and maintenance of the Airport, including the fixing of rates, tolls, fees, rents, charges, or other payments to be made or received in connection with operation of the Airport.

D. FINANCIAL PLANS AND BUDGETS. The preparation of the financial plan and the budget for the operation of the Airport.

E. AIRPORT DEVELOPMENT PLANS. The preparation and submission for approval of the development plans of the Airport.

F. AIRPORT RESOLUTIONS. The preparation of resolutions regarding matters pertaining to the Airport.

(Ord. 5557, 2011; Ord. 5337, 2004; Ord. 3726 §2, 1975.)

18.44.075 Airport Commission Authority.

A. AUTHORITY OF AIRPORT COMMISSION TO APPROVE AND AIRPORT DIRECTOR TO EXECUTE LEASES. Pursuant to the authority of Charter Section 812, the Airport Commission shall have the authority to review and approve on behalf of the City, and the Airport Director shall have the authority to execute, those leases, lease amendments, lease extensions, lease assignments and aeronautical permits for Airport-owned property or aviation activity which have a term of not longer than five (5) years or which do not involve Special Circumstances as defined in Subsection C hereof.

B. APPEAL. A prospective lessee under a lease or prospective aeronautical permit holder under an aeronautical permit that is denied by the Airport Commission may appeal the action of the Airport Commission denying the lease to the City Council. The procedures for such an appeal shall be as provided in Santa Barbara Municipal Code Section 1.30.050.

C. SPECIAL CIRCUMSTANCES. The term "Special Circumstances" as used in this Section shall mean those leases which, in the discretion of the Airport Director or the Airport Commission, involve issues of public interest, including, but not limited to, environmental, land use, or other issues that may be of concern to the general public.

(Ord. 5557, 2011; Ord. 5337, 2004.)

18.44.080 Delegation of Authority by City Council.

The Airport Commission shall have the duty and power in its discretion to submit to the City Council requests for the delegation of authority regarding any or all matters referenced in Section 18.44.070 above. (Ord. 3726 §2, 1975.)

18.44.090 Continuation of Existing Arrangements.

After the effective date of this ordinance, services provided by City departments and offices to the Airport shall continue to be provided under existing arrangements until such time as the City Council does approve other arrangements. (Ord. 3726 §2, 1975.)

**22.04.010 Adoption of California Codes by Reference.**

Subject to the amendments specified in Sections 22.04.020 through 22.04.080, the following Codes, certain appendix chapters, and the standards and secondary codes referenced therein are adopted and shall be known as the City of Santa Barbara Building Code.

Standards Commission, based on the 2012 International Building Code (also known as Part 2 of Title 24 of the California Code of Regulations), including Appendix Chapters B and J.

The California Building Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.020.

A. Section 105 “Permits” is amended by adding Sections 105.1.3 and 105.1.4 to read as follows:

105.1.3 Paving and Striping. Building permits shall be required for all paving, re-paving (including slurry coating), striping, re-striping, signage, and re-signage of parking spaces in parking lots and structures. Accessible parking spaces, access aisles, and signage shall be provided that meets currently adopted codes.

105.1.4 Demolition Permits. Building permits shall be required to demolish any building, portion of a building, or structure within the City of Santa Barbara and shall be subject to the following conditions:

1. The applicant shall ensure all utility connections have been removed by the appropriate utility providers, except such utility services that are approved for use in connection with the work of the demolition. The applicant shall provide verification from the utility providers that utility service has been disconnected.

2. The applicant shall obtain clearance from the Santa Barbara Air Pollution Control District for all parking, and is not served by any utilities. The combined square footage of exempt accessory structures may not exceed 200 square feet on any single parcel.

3. All resulting building debris, trash, junk, vegetation, dead organic matter, rodent harborage, or combustible material that constitutes a threat to life, health, or property, or is detrimental to the public welfare or which may reduce adjacent property value shall be removed from the site within thirty (30) days after the demolition of the structure.

B. Section 105.2 “Work Exempt From Permit” is amended to read as follows:

Section 105.2 Work Exempt From Permit. Exemptions from permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction. Permits shall not be required for the following (Note: For work involving detached one- and two-family dwellings or townhouses or buildings accessory to detached one- and two-family dwellings or townhouses, see Section 105 of the California Residential Code as amended):

Building:

1. One-story detached residential accessory structures used as tool and storage sheds, playhouses, portable and fixed playground equipment, bicycle or skateboard ramps and similar uses, provided the floor area does not exceed 120 square feet (11 m²) and the height does not exceed ten (10) feet at the highest point; and further provided the structure does not encroach into required setbacks or required open yards, does not obstruct required parking, and is not served by any utilities. The combined square footage of exempt accessory structures may not exceed 200 square feet on any single parcel.
2. Residential fences and walls not over 3½ feet high, as measured from the lowest adjacent grade within 5 feet of the fence or wall, that do not adversely affect drainage or cause erosion.
3. Oil derricks.
4. Residential retaining walls which are not over 4 feet in height as measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding flammable liquids, is installed on a slope 20% or greater, or the wall will tend to adversely affect drainage or cause increased erosion.
5. Water tanks supported directly upon grade if the capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2:1.
6. Uncovered residential platforms, decks, porches, walks, and similar structures not more than 10 inches above adjacent grade, and not over any basement or story below.
7. Interior painting, papering, and similar finish work.
8. Temporary motion picture, television, and theater stage sets and scenery.
9. Ground mounted radio, television and other masts or antennae or dish shaped communication reception or transmitting structures less than 3 feet in diameter, which do not extend more than 15 feet above grade and are not served by electrical circuits regulated under the National Electrical Code (NEC). Lightweight roof-mounted radio, television, and other masts or antennae or dish shaped communication reception or transmitting structures less than 2 feet in diameter, which do not extend more than 15 feet above the roof, are not served by electrical circuits regulated under the NEC, and which are not subject to design review by the Architectural Board of Review, Historic Landmarks Commission, or Single Family Design Board.
10. Freestanding or movable cases, counters, and interior partitions not over 5 feet 9 inches in height, and not containing or requiring connections to electrical power or plumbing systems.
11. Permit applications shall be submitted for other miscellaneous and minor work; however, work which does not exceed $500 in valuation may be exempted by the Chief Building Official from permits and inspections.

**Electrical:**

**Repairs and Maintenance.** Minor repair work, including the replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles.

**Radio and Television Transmitting Stations.** The provisions of this code shall not apply to electrical equipment used for radio and television transmissions, but do apply to equipment and wiring for power supply and installations of towers and antennae.

**Temporary Testing Systems.** A permit shall not be required for the installation of any temporary system required for the testing or servicing of electrical equipment or apparatus.

**Gas:**

1. Portable heating appliance.
2. Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.

**Mechanical:**

1. Portable heating appliance.
2. Portable ventilation equipment.
3. Portable cooling unit.
4. Steam, hot or chilled water piping within any heating or cooling equipment regulated by this code.
5. Replacement of any part that does not alter its approval or make it unsafe.
6. Portable evaporative cooler.
7. Self-contained refrigeration system containing 10 pounds (5 kg) or less of refrigerant and actuated by motors of 1 horsepower (746 W) or less.

**Plumbing:**

1. The stopping of leaks in drains, water, soil, waste or vent pipe, provided, however, that if any concealed trap, drain pipe, water, soil, waste or vent pipe becomes defective and it becomes necessary to remove and replace the same with the new material, such work shall be considered as new work and a permit shall be obtained and inspection made as provided in this code.
2. The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures, and the removal and reinstallation of water closets, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures.

C. Section 105.4 “Validity of Permit” is amended by adding Section 105.4.1 to read as follows:

**105.4.1 Issuance.** All work authorized by building permit for other than R-3 or U occupancies shall be issued to an appropriate contractor licensed in accordance with the provisions of California State Law.

D. Section 113 “Board of Appeals” is deleted in its entirety and readopted to read as follows:

**113. Board of Appeals.** In order to hear and decide appeals of orders, decisions or determinations made by the Fire Code Official or Building Official relative to the application and interpretations of the technical codes, there shall be and is hereby created a Building and Fire Code Board of Appeals consisting of members who are qualified by experience and training to pass upon matters pertaining to building construction and building service equipment and who are not employees of the jurisdiction. The Fire Code Official or the Building Official shall be ex officio members and shall act as secretary to said Board but shall have no vote upon any matter before the Board. The Building and Fire Code Board of Appeals shall be appointed by the City Council and shall hold office at its pleasure.
The Board shall abide by the rules and procedures in Appendix B of this code and shall render all decisions and findings in writing to the appellant with a duplicate copy to the Fire Code Official or Building Official. This Board shall serve as the appeals board defined in Section 1.8.8 and 1.9.1.5.

E. Section 701A.1 “Scope” is amended to read as follows:

**Scope.** This chapter applies to building materials, systems and/or assemblies used in the exterior design and construction of new buildings, remodels or additions to existing buildings located within a Wildland Urban Interface Fire Area as defined in Section 702A and 701A.3.1 Item No. 3.

F. Section 701A.3 “Application” is amended to read as follows:

**Application.** New buildings, remodels or additions to existing buildings in any Fire Hazard Severity Zone or Wildland Urban Interface Area designated by the enforcing agency constructed after the application date shall comply with this chapter.

**Exception:** Accessory and/or Group U occupancy buildings may be exempted from all or portions of this chapter upon approval of the Fire Marshall and/or Chief Building Official.

G. Section 705A.2 “Roof Coverings” is deleted in its entirety and readopted to read as follows:

**Roof Coverings.** Roof coverings on new buildings shall be class A noncombustible in accordance with adopted CBC Standards or otherwise as may be approved by the Chief Building Official. Roof coverings shall be class A or noncombustible fire retardant materials on existing buildings and additions or repairs to existing buildings. Treated or untreated wood shakes or shingles shall not be permitted, except on existing structures which are constructed with shake or shingle roofs, where less than 20% of the existing roof is being replaced within a two (2) year period, provided such replacement roofing is fire retardant treated wood shakes or shingles. “Green” or “Vegetated” roofs shall not be used in the Wildland Urban Interface Fire Area.

H. Section 705A.4 “Roof Gutters” is amended to read as follows:

**Roof Gutters.** Roof gutters shall be provided with the means to prevent the accumulation of leaves and debris in the gutter. All roof gutters and downspouts shall be constructed of noncombustible materials.

I. Section 706A.2 “Requirements” is amended to read as follows:

**Requirements.** Ventilation openings for enclosed attics, enclosed eave soffit spaces, enclosed rafter spaces formed where ceilings are applied directly to the underside of roof rafters, and under-floor ventilation openings shall be fully covered with metal wire mesh, vents, other materials, or other devices that meet the following requirements:

1. The dimensions of the openings therein shall be a minimum of 1/16th inch (1.6 mm) and shall not exceed 1/8th inch (3.2mm).
2. The materials used shall be noncombustible.
3. The materials used shall be corrosion resistant.
4. Turbine attic vents shall be equipped to allow one-way direction rotation only and shall not free spin in both directions.
5. Ventilation openings protected with vent openings that resist the intrusion of flame and embers, and which are listed by the State Fire Marshal, are exempt from complying with this subsection.

J. Section 708A.2 “Exterior Glazing” is amended to read as follows:

**Exterior Glazing.** The following exterior glazing materials and/or assemblies shall comply with this section:

1. Exterior windows and/or skylights.
2. Exterior glazed doors.
3. Glazed openings within exterior doors.
4. Glazed openings within exterior garage doors.
5. Exterior structural glass veneer.
6. Glazing frames made of vinyl materials shall have welded corners, metal reinforcement in the interlock area, and be certified to the most current edition of ANSI/AAMA/NWWDA 101/I.S.2 structural requirements.

K. Section 903.2 “Where Required” is amended by adding Section 903.2.20 “Local Requirements” to read as follows:

**Local Requirements.** Approved automatic sprinkler systems shall be installed throughout buildings and structures as specified elsewhere in this Section 903.2 or as specified in this Section 903.2.18, whichever is more protective:

**New Buildings, Generally.** The construction of a new building containing any of the following occupancies: A, B, E, F, H, I, L, M, R, S or U.

**Exceptions:** A new building containing a Group U occupancy that is constructed in the City’s designated High Fire Hazard Area is not required to provide a sprinkler system as long as the building does not exceed 500 square feet of floor area. A new building containing a U occupancy that is constructed outside the City’s designated High Fire Hazard Area is not required to provide a sprinkler system as long as the building does not exceed 5000 square feet of floor area.
903.2.20.2 New Buildings in the High Fire Hazard Area. The construction of any new building within the City’s designated High Fire Hazard Area.

**Exception:** A new building containing a Group U occupancy that is constructed in the City’s designated High Fire Hazard Area is not required to provide a sprinkler system as long as the building does not exceed 500 square feet of floor area.

903.2.20.3 Additions to Buildings Other Than Single Family Residences. The addition of floor area to an existing building that contains any occupancy other than Group R, Division 3.

903.2.20.4 Remodels of Buildings Other Than Single Family Residences. The remodel or alteration of the interior of an existing building that contains any occupancy other than Group R, Division 3, where the floor area of the portion of the building that is modified or altered exceeds 50% of the existing floor area of the building. For purposes of this section, all modifications or alterations to an existing building that occur after the effective date of the ordinance adopting this section shall be counted in the aggregate toward the 50% threshold measured against the floor area of the building as it existed on the effective date of the ordinance adopting this section.

903.2.20.5 Change of Occupancy to a Higher Hazard Classification. Any change of occupancy in an existing building where the occupancy changes to a higher hazard classification.

903.2.20.6 Computation of Square Footage. For the purposes of this Section 903.2.18, the floor area of buildings shall be computed in accordance with the definition of “Floor Area, Gross” provided in Section 1002.1 of the California Building Code.

903.2.20.7 Existing Use. Any existing building not classified as Group R, Division 3, in existence at the time of the effective date of this code may have their use continued if such use was legal at the time. Additions to existing buildings shall require an automatic fire sprinkler system installed throughout, including areas not previously protected.

M. Section 907 "Where Required – New Buildings and Structures” is amended by adding Section 907.2.30 “Mixed Use Occupancies” to read as follows:

**907.2.30 Mixed Use Occupancies.** Where residential occupancies are combined with commercial occupancies, a fire alarm system shall be installed which notifies all occupants in the event of a fire. The system shall include automatic smoke detection throughout the commercial and common areas. In addition, a notification system shall be installed in a manner and location approved by the Fire Code Official that indicates the presence of residential dwelling units in accordance with Municipal Code Section 8.04.030.B.

N. Section 1208.4 “Efficiency Dwelling Units” is amended to read as follows:

**1208.4 Efficiency Dwelling Units.** Unless modified by local ordinance pursuant to Health and Safety Code Section 17958.1, efficiency dwelling units shall comply with the following:

1. The unit shall have a living room of not less than 220 square feet (20.4 m²) of floor area. An additional 100 square feet (9.3 m²) of floor area shall be provided for each occupant of such unit in excess of two.
2. The unit shall be provided with a separate closet.
3. The unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a clear working space of not less than 30 inches (762 mm) in front. Light and ventilation conforming to this code shall be provided.
4. The unit shall be provided with a separate bathroom containing a water closet, lavatory and bathtub or shower.
5. Notwithstanding the provisions of subsection 1 above, for projects constructed or operated by a nonprofit or governmental agency offering housing at an Affordable Housing Cost to Lower Income Households (as those terms are defined in sections 50582.5 and 50079.5 of the California Health and Safety Code), the City may permit efficiency dwelling units for occupancy by no more than two persons who qualify as either very low or low income households, where the units have a minimum useable floor area (excluding floor area in the kitchen, bathroom and closet), of not less than 150 square feet. In all other respects, such efficiency dwelling units shall conform to the minimum standards specified in this code.

O. Table 1505.1 is amended to read as follows:

P. Section 1505.1.3 “Roof Coverings Within All Other Areas” is deleted in its entirety and readopted to read as follows:

**1505.1.3 Roof Coverings Within All Other Areas.** The roof covering or roofing assembly of any new building or the re-roofing of any existing building, regardless of type or occupancy classification, shall be no less than Class B, except that Group H, Division 1 and Group I occupancies shall be Class A. Treated or untreated wood shakes or shingles shall not be permitted, except on existing structures which are constructed with shake or shingle roofs where less than 20% of the existing roof is being replaced within a two (2) year period, provided such replacement roofing is fire retardant treated wood shakes or shingles.
Q. Section 1705.11.2 “Structural Wood” is amended to read as follows:

1705.11.2 Structural Wood. Continuous special inspection is required during field gluing operations of elements of the seismic force-resisting system. Periodic special inspection is required for nailing, bolting, anchoring and other fastening of components within the seismic force-resisting system, including wood shear walls, wood diaphragms, drag struts, braces, shear panels and hold-downs.

Exceptions:
1. Special inspection is not required for wood shear walls, shear panels and diaphragms, including nailing, bolting, anchoring and other fastening of components of the seismic force-resisting system, where the fastener spacing of the sheathing is more than 4 inches (102 mm) on center (o.c.).
2. Special inspection is not required if the building is designed in accordance with AWC SDPWS-2008 (NDS) Table 4.3A (Note: PLF values must be divided in half per 4.3.3) assuming that the allowable shear values reflected are reduced by 25%.

R. Appendix B “Board of Appeals” is deleted in its entirety and readopted to read as follows:

B101.1 Application. The application for appeal shall be filed on a form obtained from the Building Official within 20 days after the notice was served.

B101.2 Membership of the Board. The City Council shall appoint individuals to an eligibility list. Appeals shall be scheduled before five members selected from the eligibility list by the Community Development Director or the Fire Chief as may be appropriate based on the subject matter.

B101.2.1 Quorum. It shall take a quorum of three members to hear an appeal and a majority vote of the Board convened to sustain an appeal.

B101.2.2 Chairperson. The chairperson shall be selected by the convened Board. The chairperson shall maintain order and conduct the meeting in accordance with Sections B102 and B102.1.

B102 Rules and Procedures. The Chief Building Official or Fire Chief may use the procedure for “Conduct of Hearing Appeals” in accordance with Chapter 6 of the Uniform Code for the Abatement of Dangerous Buildings for appeals. The Board may elect alternate procedures by a unanimous vote of the convened Board as they may deem appropriate.

B102.1 Procedures. Appeal hearings shall be conducted substantially in accordance with the following format:

1. The Chairperson shall call the meeting to order.
2. The Chairperson shall note the Board members present for the minutes.
3. The Chairperson shall recognize the Chief Building Official or Fire Chief for presentation of the appeal. The Chief Building Official or the Fire Chief shall read his/her recommendation to the Board. This recommendation shall be the standing motion before the Board.
4. The Chairperson shall recognize the Appellant for presentation of rebuttals.
5. All witnesses must be called by either the Appellant or the Chief Building Official or the Fire Chief and may be questioned.
6. After a motion to amend, accept, or deny the standing motion has been made and seconded, the Board may entertain comments from the public.
7. The Board shall vote on the standing or amended motion.
8. The Chairperson shall adjourn the meeting at the end of business.
9. The Secretary shall prepare minutes for the record and shall serve as custodian of case records and said minutes.

B102.2 Meetings. The Board shall meet when needed to hear an appeal or when needed to transact business of the Board. Either the Chief Building Official or the Fire Chief or their designee shall act as Secretary of the Board.

B103 Alternatives. The Board may consider any alternate provided that it finds that the proposed design, material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in the technical codes in accessibility, suitability, strength, effectiveness, fire resistance, durability, safety, and sanitation.

B104 Board Decisions. The decision of the Building and Fire Code Board of Appeals shall be final on all matters of appeals and shall become an order to the Appellant, Building Official or Fire Chief as may be appropriate.

S. Appendix J “Grading” is deleted in its entirety and readopted to read as follows:

J101 GRADING GENERAL

J101.1 Scope. The provisions of this chapter apply to grading, excavation and earthwork construction, including fills and embankments, and the control of grading site runoff, including erosion sediments and construction-related pollutants. The purpose of this appendix is to safeguard life, limb, property and the public welfare by regulating grading on private property.

J101.2 General Hazards. Whenever the Building Official determines that any existing excavation or embankment or fill on private property has become a hazard to life and limb, or endangers property, or adversely affects the safety, use or stability of a public way or drainage channel, the owner of the property upon which the excavation or fill is located, or other person or agent in control of said property, upon receipt of notice in writing from the Building Official, shall within the period specified therein repair or eliminate such excavation or embankment to eliminate the hazard and to be in conformance with the requirements of this code.
**J101.3 Safety Precautions.** If at any stage of the work the Building Official determines by inspection that further grading as authorized is likely to endanger any public or private property or result in the deposition of debris on any public way or interfere with any existing drainage course, the Building Official may order the work stopped by notice in writing served on any persons engaged in doing or causing such work to be done, and any such person shall forthwith stop such work. The Building Official may authorize the work to proceed if the Building Official finds adequate safety precautions can be taken or corrective measures incorporated in the work to avoid likelihood of such danger, deposition or interference.

If the grading work as done has created or resulted in a hazardous condition, the Building Official shall give written notice requiring correction thereof as specified in California Building Code - Section 114 “Violations” or California Residential Code - Section 113 “Violations”.

**J101.4 Protection of Utilities.** The owner of any property on which grading has been performed, and which requires a grading permit under Section J103, shall be responsible for the prevention of damage to any public utilities or services.

**J101.5 Protection of Adjacent Property.** The owner of any property on which grading has been performed, and which requires a grading permit under Section J103, is responsible for the prevention of damage to adjacent property, and no person shall excavate on land sufficiently close to the property line to endanger any adjoining public street, sidewalk, alley, or other public or private property without supporting and protecting such property from settling, cracking or other damage which might result. Special precautions approved by the Building Official shall be made to prevent imported or exported materials from being deposited on the adjacent public way and/or drainage courses.

**J101.6 Storm Water Control Measures.** The owner of any property on which grading has been performed, and which requires a grading permit under Section J103, shall put into effect and maintain all precautionary measures necessary to protect adjacent water courses and public or private property from damage by erosion, flooding, and deposition of mud, debris, and construction-related pollutants originating from the site during grading and related construction activities as required in Chapter 22.85 and/or any special conditions imposed on a project as a result of the issuance of a discretionary permit by the City.

**J101.7 Maintenance of Protective Devices.** The owner of any property on which grading has been performed pursuant to a permit issued under the provisions of this code, or any other person or agent in control of such property, shall maintain in good condition and repair all drainage structures and other protective devices when they are shown on the grading plans filed with the application for grading permit and approved as a condition precedent to the issuance of such permit.

**J101.8 Conditions of Approval.** In granting any permit under this code, the Building Official may include such conditions as may be reasonably necessary to prevent creation of a nuisance or hazard to public or private property. Such conditions may include, but shall not be limited to:

1. Improvement of any existing grading to comply with the standards of this code.
2. Requirements for fencing of excavations or fills which may otherwise be hazardous.
3. Storm water control measures beyond those required by Section J101.6 of this Appendix J.

**SECTION J102 DEFINITIONS**

**J102.1 Definitions.** For the purposes of this appendix chapter, the terms, phrases and words listed in this section and their derivatives shall have the indicated meanings.

**APPROVAL.** Shall mean that the proposed work or completed work conforms to this chapter to the satisfaction of the Building Official.

**AS–GRADED.** The extent of surface conditions on completion of the approved grading project.

**BEDROCK.** In–place solid rock. The relatively solid, undisturbed rock in place either at the ground surface or beneath superficial deposits of alluvium, colluvium and/or soil.

**BENCH.** A relatively level step excavated into earth material on which fill is to be placed.

**BEST MANAGEMENT PRACTICE (BMP).** A stormwater pollution mitigation measure which is required to be employed in order to comply with the requirements of the NPDES permit issued to the City of Santa Barbara by the California Regional Water Quality Control Board.

**BORROW.** Earth material acquired from an off–site location for use in grading on a site.

**CIVIL ENGINEER.** A professional engineer registered in the state to practice in the field of civil works.

**CIVIL ENGINEERING.** The application of the knowledge of the forces of nature, principles of mechanics and the properties of materials to the evaluation, design and construction of civil works.

**COMPACTION.** The densification of a fill by mechanical means.

**CUT.** See Excavation.

**DESILTING BASINS.** Physical structures constructed to allow the removal of sediments from surface water runoff.

**DESIGN ENGINEER.** Shall mean the civil engineer responsible for the preparation of the grading plans for the site grading work.

**DOWN DRAIN.** A device for collecting water from a swale or ditch located on or above a slope, and safely delivering it to an approved drainage facility.

**EARTH MATERIAL.** Any rock, natural soil or fill or any combination thereof.
ENGINEERING GEOLOGIST. A geologist experienced and knowledgeable in engineering geology. Shall mean a person holding a valid certificate of registration as a geologist in the specialty of engineering geology issued by the State of California under the applicable provisions of the Geologist and Geophysicist Act of the Business and Professions Code.

ENGINEERING GEOLOGY. The application of geologic knowledge and principles in the investigation and evaluation of naturally occurring rock and soil for use in the design of civil works.

EROSION. The wearing away of the ground surface as a result of the movement of wind, water or ice.

EROSION/SEDIMENTATION CONTROL PLAN (ESC). A site drawing with details, notes, and related documents that identify the measures taken by the permittee to (1) control construction-related erosion and prevent construction-related sediment and pollutants from being carried offsite by stormwater, and (2) prevent construction-related non-stormwater discharges from entering the storm drain system that complies with the latest version of the Building & Safety Division’s ESC Policy.

EXCAVATION. The removal of earth material by artificial means, also referred to as a cut.

FIELD ENGINEER. The civil engineer responsible for performing the functions as set forth in Section J105.4.

FILL. Deposition of earth materials by artificial means.

GEOTECHNICAL ENGINEER. See Soils Engineer.

GEOTECHNICAL HAZARD. An adverse condition due to landslide, settlement, and/or slippage. These hazards include loose debris, slopewash, and the potential for mud flows from natural or graded slopes.

GRADE. The vertical location of the ground surface.

GRADE, EXISTING. The grade prior to grading.

GRADE, FINISHED. The final grade of the site that conforms to the approved plan.

GRADE, ROUGH. A stage at which the grade approximately conforms to the approved plan.

GRADING. An excavation or fill or combination thereof.

KEY. A compacted fill placed in a trench excavated in earth material beneath the toe of a slope.

LANDSCAPE ARCHITECT. A person who holds a certificate to practice landscape architecture in the State of California under the applicable landscape architecture provisions of Division 3, Chapter 3.5 of the Business and Professions Code.

LINE. Horizontal location of the ground surface.

NATURAL GRADE. The vertical location of the ground surface prior to any excavation or fill.

PRIVATE SEWAGE DISPOSAL SYSTEM. A septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits or into a combination of subsurface disposal field and seepage pit or of such other facilities as may be permitted.

PROJECT CONSULTANTS. Professional consultants required by this code which may consist of the design engineer, field engineer, soils engineer, engineering geologist, and architect as applicable to this chapter.

PROFESSIONAL INSPECTION. The inspection required by this code to be performed by the civil engineer, soils engineer or engineering geologist. Such inspections include those performed by persons supervised by such engineers or geologists and shall be sufficient to form an opinion relating to the conduct of the work.

SITE. Any lot or parcel of land or contiguous combination thereof, under the same ownership, where grading is performed or permitted.

SLOPE. An inclined ground surface the inclination of which is expressed as a ratio of horizontal distance to vertical distance.

SOIL. Naturally occurring superficial deposits overlying bedrock.

SOILS ENGINEER (GEOTECHNICAL ENGINEER). An engineer experienced and knowledgeable in the practice of soils (geotechnical) engineering.

SOILS ENGINEERING (GEOTECHNICAL ENGINEERING). The application of the principles of soil mechanics in the investigation, evaluation and design of civil works involving the use of earth materials and the inspection or testing of construction thereof.

STORM DRAIN SYSTEM. A conveyance or system of conveyances, including roads with drainage systems, municipal streets, catch basins, curbs, gutters, pipes, ditches and man-made channels, designed or used for collecting, dissipating, or conveying stormwater.

SURFACE DRAINAGE. Flows over the ground surface.

SOIL TESTING AGENCY. An agency regularly engaged in the testing of soils and rock under the direction of a civil engineer experienced in soil testing.

TERRACE. A relatively level step constructed in the face of a graded slope for drainage and maintenance purposes.

SECTION J103 PERMITS REQUIRED

J103.1 Permits Required. Except as exempted in Section J103.2, no grading shall be performed without first having obtained a permit therefore from the Building Official. A grading permit does not include the construction of retaining walls or other structures. A separate permit shall be obtained for each site and may cover both excavations and fills. Any Engineered Grading as described in Section J104 shall be performed by a contractor licensed by the State of California to perform the work described herein. Regular Grading less than 5,000 cubic yards may require a licensed contractor if the Building Official determines that special conditions or hazards exist.
**J103.2 Exemptions.** A grading permit shall not be required for the following:

1. When approved by the Building Official, grading in an isolated, self-contained area, provided there is no danger to the public, and that such grading will not adversely affect adjoining properties.
2. Excavation for the construction of a structure permitted under this code.
3. Cemetery graves.
4. Excavations for wells, or trenches for utilities.
5. Exploratory excavations performed under the direction of a Soils Engineer or Engineering Geologist. This shall not exempt grading of access roads or pads created for exploratory excavations. Exploratory excavations must be restored to existing conditions, unless approved by the Building Official.
6. An excavation that is less than 50 cubic yards (38.3 m³) and complies with one of the following conditions:
   a) is less than 2 feet (610 mm) in depth, or
   b) does not create a cut slope greater than 5 feet (1524 mm) measured vertically upward from the cut surface to the surface of the natural grade and is steeper than 2 units horizontal to 1 unit vertical (50% slope).
7. A fill not intended to support a structure which does not obstruct a drainage course and complies with one of the following conditions:
   a) is less than 1 foot (305 mm) in depth and is placed on natural terrain with a slope flatter than 5 units horizontal to 1 unit vertical in (20% slope),
   b) is less than 3 feet (914 mm) in depth at its deepest point measured vertically upward from natural grade to the surface of the fill, and does not exceed 50 cubic yards and creates a fill slope no steeper than 2 units horizontal to 1 unit vertical (50% slope), or
   c) is less than 5 feet (1524 mm) in depth at its deepest point measured vertically upward from natural grade to the surface of the fill, and does not exceed 20 cubic yards and creates a fill slope no steeper than 2 units horizontal to 1 unit vertical (50% slope).

8. Exemption from the permit requirements of this appendix shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction.

**J103.3 Unpermitted Grading.** A person shall not own, use, occupy or maintain any site containing unpermitted grading. For the purposes of this Code, unpermitted grading shall be defined as any grading that was performed, at any point in time, without the required permit(s) having first been obtained from the Building Official, pursuant to Section 103.1.

**J103.4 Availability of Permit at Site.** No person shall perform any grading for which a permit is required under this chapter unless a copy of the grading permit and approved grading plans is in the possession of a responsible person and available at the site.

**J103.5 Grading Plan Review, Inspection and Permit Fees.** Fees shall be assessed in accordance with the provisions set forth in the City of Santa Barbara’s most currently adopted fee schedule.

**J103.6 Grading Security.** The Building Official may require a security in such form and amounts as may be deemed necessary to ensure that the work, if not completed in accordance with the approved plans and specifications, will be corrected to eliminate hazardous conditions. If required, a permit shall not be issued for grading unless the owner posts with the Building Official a security in one of the following forms:

1. A bond furnished by a corporate surety authorized to do business in this state.
2. A cash bond.
3. Savings and loan certificates or shares deposited and assigned to the City of Santa Barbara.
4. An instrument of credit from a financial institution subject to regulation by the State or Federal government and pledging that the funds necessary to carry out the grading are on deposit and guaranteed for payment, or a letter of credit issued by such a financial institution.
5. Where unusual conditions or special hazards exist, the Building Official may require security for grading involving less than 1,000 cubic yards (764.6 m³). Security required by this section may include incidental off-site grading on property contiguous with the site to be developed, provided written consent of the owner of such contiguous property is filed with the Building Official.
6. The Building Official may waive the requirements for a security for:
   a) Grading being done by or for a governmental agency.
   b) Grading necessary to remove a geotechnical hazard, where such work is covered by an agreement and security posted pursuant to the provisions of the City’s "Subdivision Ordinance”.
   c) Minor grading on a site, not exceeding a slope of three horizontal to one vertical, provided such grading as determined by the Building Official will not affect drainage from or to adjacent properties.
   d) Filling of holes or depressions, provided such grading will not affect the drainage from or to adjacent properties, or affect a rare, threatened or endangered species or its habitat, or other sensitive habitat.

J103.6.1 Amount of Security. The amount of security shall be based on the number of cubic yards of material in either excavation or fill, whichever is greater, plus the cost of all drainage or other protective devices or work necessary to eliminate geotechnical hazards. That portion of the security valuation based on the volume of material in either excavation or fill shall be computed as follows:
1. 100,000 cubic yards or less - 50 percent of the estimated cost of grading work.
2. Over 100,000 cubic yards - 50 percent of the cost of the first 100,000 cubic yards plus 25 percent of the estimated cost of that portion in excess of 100,000 cubic yards.
3. When the rough grading has been completed in conformance with the requirements of this code, the Building Official may at his or her discretion consent to a proportionate reduction of the security to an amount estimated to be adequate to ensure completion of the grading work, site development or planting remaining to be performed. The costs referred to in this section shall be as estimated by the Building Official.

J103.6.2 Conditions. All security shall include the conditions that the principal shall:
1. Comply with all of the provisions of this code, applicable laws, and ordinances;
2. Comply with all of the terms and conditions of the grading permit; and
3. Complete all of the work authorized by the permit.

J103.6.3 Term of Security. The term of each security shall begin upon the filing thereof with the Building Official, and the security shall remain in effect until the work authorized by the grading permit is completed and approved by the Building Official.

J103.6.4 Default Procedures. In the event the owner or the owner's agent shall fail to complete the work or fail to comply with all terms and conditions of the grading permit, it shall be deemed a default has occurred. The Building Official shall give notice thereof to the principal and security or financial institution on the grading permit security, or to the owner in the case of a cash deposit or assignment, and may order the work required to complete the grading in conformance with the requirements of this code be performed. The surety or financial institution executing the security shall continue to be firmly bound under an obligation up to the full amount of the security, for the payment of all necessary costs and expenses that may be incurred by the Building Official in causing any and all such required work to be done. In the case of a cash deposit or assignment, the unused portion of such deposit or funds assigned shall be returned or reassigned to the person making said deposit or assignment.

J103.6.5 Right of Entry. The Building Official or the authorized representative of the surety company or financial institution shall have access to the premises described in the permit for the purpose of inspecting the work. In the event of default in the performance of any term or condition of the permit, the surety, or financial institution or the Building Official, or any person employed or engaged in the behalf of any of these parties, shall have the right to go upon the premises to perform the required work.

In addition to the provisions of Section J106, a grading plan shall show the existing grade and finished grade in contour intervals of sufficient clarity to indicate the nature and extent of the work and show in detail that it complies with the requirements of this code. The plans shall show the existing grade on adjoining properties in sufficient detail to identify how grade changes will conform to the requirements of this code.
**J104.2.1 Grading Designation.** Grading in excess of 5,000 cubic yards or for the support of a structure shall be performed in accordance with the approved grading plan prepared by a civil engineer, and shall be designated as “engineered grading.” Grading involving less than 5,000 cubic yards (3825 m³) shall be designated “regular grading” unless the permittee chooses to have the grading performed as engineered grading, or the Building Official determines that special conditions or unusual hazards exist, in which case grading shall conform to the requirements for engineered grading.

**J104.2.2 Regular Grading Requirements.** In addition to the provisions of Section J106 and Section J104.2, an application for a regular grading permit shall be accompanied by three sets of plans in sufficient clarity to indicate the nature and extent of the work. The plans and specifications shall be prepared and signed by an individual licensed by the state to prepare such plans or specifications.

Plans shall be drawn to scale upon substantial paper or mylar and shall be of sufficient clarity to indicate the nature and extent of the work proposed and show in detail that they will conform to the provisions of this code and all relevant laws, ordinances, rules and regulations. Each sheet of each set of plans shall give the location of the work, the name and address of the owner, and the person by whom they were prepared.

The plans shall include, but shall not be limited to, the following information:

1. General vicinity of the proposed site.
2. Limiting dimensions and depth of cut and fill.
3. Location of any buildings or structures where work is to be performed, and the location of any buildings or structures within 15 feet of the proposed grading.
4. Contours, flow areas, elevations, or slopes which define existing and proposed drainage patterns.
5. Erosion/Sedimentation, storm water, and dust control provisions are required to be shown on the grading plan in accordance with the requirements of Sections J110, J111 and 112 of this appendix.

**J104.2.3 Engineered Grading Requirements.** In addition to the provisions of Sections J104.2 and J106, an application for an engineered grading permit shall be accompanied by specifications and supporting data consisting of a soils engineering report and engineering geology report. The plans and specifications shall be prepared and signed by an individual licensed by the state to prepare such plans or specifications when required by the Building Official.

Specifications shall contain information covering construction and material requirements.

Plans shall be drawn to scale upon substantial paper or mylar and shall be of sufficient clarity to indicate the nature and extent of the work proposed and show in detail that they will conform to the provisions of this code and all relevant laws, ordinances, rules and regulations. Each sheet of each set of plans shall give the location of the work, the name and address of the owner, and the person by whom they were prepared.

The plans shall include, but shall not be limited to, the following information:

1. A vicinity map showing the proposed site.
2. Property limits and accurate contours of existing ground, and details of terrain and area drainage.
3. Limiting dimensions, elevations or finish contours to be achieved by the grading, and proposed drainage channels and related construction.
4. Detailed plans of all surface and subsurface drainage devices, walls, cribbing, dams and other protective devices to be constructed with, or as a part of, the proposed work, together with a map showing the drainage area and the estimated runoff of the area served by any drains.
5. Location of any buildings or structures on the property where the work is to be performed and the location of any buildings or structures on land of adjacent owners that are within 15 feet of the property or that may be affected by the proposed grading operations.
6. Recommendations included in the soils engineering report and the engineering geology report shall be incorporated in the grading plans or specifications. When approved by the Building Official, specific recommendations contained in the soils engineering report and the engineering geology report, which are applicable to grading, may be included by reference.
7. The dates of the soils engineering and engineering geology reports, together with the names, addresses and phone numbers of the firms or individuals who prepared the reports.
8. A statement of the quantities of material to be excavated and/or filled and the amount of such material to be imported to, or exported from, the site.
9. A statement of the estimated starting and completion dates for work covered by the permit.
10. A statement signed by the owner acknowledging that a field engineer, soils engineer and engineering geologist, when appropriate, will be employed to perform the services required by this code, whenever approval of the plans and issuance of the permit are to be based on the condition that such professional persons be so employed.
11. Erosion/Sedimentation, storm water, and dust control provisions are required to be shown on the grading plan in accordance with the requirements of Sections J110, J111 and J112 of this appendix.
12. A drainage plan for that portion of a lot or parcel to be utilized as a building site (building pad), including elevations of floors with respect to finish site grade and locations of proposed stoops, slabs and fences that may affect drainage.
13. Location and type of any proposed private sewage disposal system.
14. Location of existing utilities and drainage facilities and recorded easements (public and private).
15. Location of all flood zones as designated and defined in Title 44, Code of Federal Regulations.
J104.3 Soils Engineering Report. The soils engineering report required by Section J104.2.2 shall include data regarding the nature, distribution and strength of existing soils, conclusions and recommendations for grading procedures and design criteria for corrective measures, including buttress fills, when necessary, and opinion on adequacy for the intended use of sites to be developed by the proposed grading as affected by soils engineering factors, including the stability of slopes. All reports shall conform with the requirements of this Code and shall be subject to review by the Building Official. Supplemental reports and data may be required as the Building Official may deem necessary. Recommendations included in the reports and approved by the Building Official shall be incorporated in the grading plan or specifications.

J104.4 Engineering Geology Report. The engineering geology report required by Section J104.2.2 shall include an adequate description of the geology of the site, conclusions and recommendations regarding the effect of geologic conditions on the proposed development, and opinion on the adequacy for the intended use of sites to be developed by the proposed grading, as affected by geologic factors. The engineering geology report shall include a geologic map and cross sections utilizing the most recent grading plan as a base. All reports shall conform with the requirements of this Code and shall be subject to review by the Building Official. Supplemental reports and data may be required as the Building Official may deem necessary. Recommendations included in the reports and approved by the Building Official shall be incorporated in the grading plan or specifications.

Exception: A soils engineering or engineering geology report is not required where the Building Official determines that the nature of the work applied for is such that a report is not necessary.

J104.5 Liquefaction Study. A geotechnical investigation may be required when the proposed work is a “Project” as defined in California Public Resources Code Section 2693, and is located in an area designated as a “Seismic Hazard Zone” as defined in Title 14, Section 3722 of the California Code of Regulations on Seismic Hazard Zone Maps issued by the State Geologist under Public Resources Code Section 2696.

Exception: A liquefaction study is not required where the Building Official determines from established local data that the liquefaction potential is low.

SECTION J105 INSPECTION

J105.1 General. Grading inspections shall be governed by Section J109 of this Appendix J and as indicated herein. Grading operations for which a permit is required shall be subject to inspection by the Building Official. Professional inspection of grading operations shall be provided by the Civil Engineer, Soils Engineer and the Engineering Geologist retained to provide such services in accordance with this Section for engineered grading and as required by the Building Official for regular grading.

J105.2 Special and Supplemental Inspections. The special inspection requirements of Section 1704.7 shall apply to work performed under a grading permit where required by the Building Official. In addition to the called inspections specified in Section J109, the Building Official may make such other inspections as may be deemed necessary to determine that the work is being performed in conformance with the requirements of this code. Investigations and reports by an approved soil testing agency, Soils Engineer and/or Engineering Geologist, and Field Engineer may be required. Inspection reports shall be provided when requested by the Building Official.

Inspection of drainage devices by the Field Engineer in accordance with this section may be required when the Building Official determines the drainage devices are necessary for the protection of the structures in accordance with this code.

J105.3 Field Engineer Inspections. When required, the field engineer shall provide professional inspection within such engineer’s area of technical specialty, oversee and coordinate all field surveys, set grade stakes, and provide site inspections during grading operations to ensure the site is graded in accordance with the approved grading plan and the appropriate requirements of this code. During site grading, and at the completion of both rough grading and final grading, the Field Engineer shall submit statements and reports required by Sections J105.11 and J105.12. If revised grading plans are required during the course of the work, they shall be prepared by a Civil Engineer and approved by the Building Official.

J105.4 Soils Engineer Inspections. When required, the Soils Engineer shall provide professional inspection within such engineer’s area of technical specialty, which shall include observation during grading and testing for required compaction. The Soils Engineer shall provide sufficient observation during the preparation of the natural ground and placement and compaction of the fill to verify that such work is being performed in accordance with the conditions of the approved plan and the appropriate requirements of this chapter. Revised recommendations relating to conditions differing from the approved soils engineering and engineering geology reports shall be submitted to the permittee, the Building Official and the Field Engineer.

J105.5 Engineering Geologist Inspection. When required, the Engineering Geologist shall provide professional inspection within such engineer’s area of technical specialty, which shall include professional inspection of the bedrock excavation to determine if conditions encountered are in conformance with the approved report. Revised recommendations relating to conditions differing from the approved engineering geology report shall be submitted to the Soils Engineer.

J105.6 Permittee. The permittee shall be responsible for the work to be performed in accordance with the approved plans and specifications and in conformance with the provisions of this code. The permittee shall engage project consultants, if required, to provide professional inspections on a timely basis. The permittee shall act as a coordinator between the project consultants, the contractor and the Building Official. In the event of changed conditions, the permittee shall be responsible for informing the Building Official of such change and shall provide revised plans for approval.
J105.7 Building Official Inspections. The Building Official may inspect the project site at the following various stages of work requiring approval to determine that adequate control is being exercised by the professional consultants:

1. **Pregrade.** Before any construction or grading activities occur at the site, the permittee shall schedule a pregrade inspection with the Building Official. The permittee is responsible for coordinating that all project consultants are present at the pregrade inspection.

2. **Initial.** When the site has been cleared of vegetation and unapproved fill, and it has been scarified, benched or otherwise prepared for fill. No fill shall have been placed prior to this inspection. All measures as shown on the Erosion/Sedimentation Control Plan shall be installed and/or materials stockpiled for use as needed.

3. **Rough.** When approximate final elevations have been established; drainage terraces, swales and other drainage devices necessary for the protection of the building sites from flooding are installed; berms installed at the top of the slopes; and the statements required by Section J105.12 have been received.

4. **Final.** When grading has been completed; all drainage devices necessary to drain the building pad and project site are installed; slope planting established; irrigation systems installed; and the as-graded plans and required statements and reports have been submitted.

J105.8 Notification of Noncompliance. If, in the course of fulfilling their respective duties under this chapter, the Field Engineer, the Soils Engineer or the Engineering Geologist finds that the work is not being done in conformance with this chapter or the approved grading plans, the discrepancies and corrective measures which should be taken shall be reported immediately in writing to the permittee and to the Building Official.

J105.9 Transfer of Responsibility. If the Field Engineer, the Soils Engineer, or the Engineering Geologist of record is changed during grading, the work shall be stopped until the replacement has agreed in writing to accept their responsibility within the area of technical competence for approval upon completion of the work. It shall be the duty of the permittee to notify the Building Official in writing of such change prior to the recommencement of such grading.

J105.10 Non-Inspected Grading. No person shall own, use, occupy or maintain any non-inspected grading. For the purposes of this code, non-inspected grading shall be defined as any grading for which a grading permit was first obtained pursuant to Section J103, supra, but which has progressed beyond any point requiring inspection and approval by the Building Official, without such inspection and approval having been obtained.

J105.11 Routine Field Inspections and Reports. Unless waived by the Building Official, routine inspection reports shall be provided by the Field Engineer for all engineered grading projects. The Field Engineer shall file these reports with the Building Official as follows:

1. bi-weekly during all times when grading of 400 cubic yards or more per week is active on the site;

2. monthly, at all other times; and

3. at any time when requested in writing by the Building Official.

Such reports shall certify to the Building Official that the Field Engineer has inspected the grading site and related activities and has found them in compliance with the approved grading plans, the building code, grading permit conditions, and other applicable ordinances and requirements.

J105.12 Completion of Work. Upon completion of the rough grading work and at the final completion of the work, the following reports and drawings and supplements thereto are required for engineered grading or when professional inspection is required by the Building Official:

1. An as–built grading plan prepared by the Field Engineer retained to provide such services in accordance with Section J105.3, showing all plan revisions as approved by the Building Official. This shall include original ground surface elevations, as–graded ground surface elevations, lot drainage patterns, and the locations and elevations of surface drainage facilities and the outlets of subsurface drains. As–constructed locations, elevations and details of subsurface drains shall be shown as reported by the soils engineer.

2. The Field Engineer shall state in a report to the Building Official that to the best of their knowledge, the work within their area of responsibility was done in accordance with the final approved grading plan.

3. A report prepared by the Soils Engineer retained to provide such services in accordance with Section J105.4, including locations and elevations of field density tests, summaries of field and laboratory tests, other substantiating data, and comments on any changes made during grading and their effect on the recommendations made in the approved soils engineering investigation report. Soils Engineer shall submit a statement that, to the best of their knowledge, the work within their area of responsibilities is in accordance with the approved soils engineering report and applicable provisions of this chapter. The report shall contain a finding regarding the safety of the completed grading and any proposed structures against hazard from landslide, settlement, or slippage.

4. A report prepared by the Engineering Geologist retained to provide such services in accordance with Section J105.5, including a final description of the geology of the site and any new information disclosed during the grading and the effect of same on recommendations incorporated in the approved grading plan. The Engineering Geologist shall submit a statement that, to the best of their knowledge, the work within their area of responsibility is in accordance with the approved engineering geologist report and applicable provisions of this chapter.

5. The grading contractor shall submit a statement of conformance to said as–built plan and the specifications.

J105.13 Notification of Completion. The permittee shall notify the Building Official when the grading operation is ready for final inspection. Final approval shall not be given until all work, including installation of all drainage facilities and their protective devices, and all erosion control measures have been completed in accordance with the final approved grading plan, and the required reports have been submitted and approved.
SECTION J106 EXCAVATIONS

J106.1 General. Unless otherwise recommended in the approved soils engineering or engineering geology report, cuts shall conform to the provisions of this section.

In the absence of an approved soils engineering or engineering geology report, these provisions may be waived, as approved by the Building Official, for minor cuts not intended to support structures nor subject to a surcharge.

J106.2 Maximum Slope. The slope of cut surfaces shall be no steeper than is safe for the intended use and shall be no steeper than 2 units horizontal in 1 unit vertical (50% slope), unless the permittee furnishes a soils engineering or an engineering geology report, or both, stating that the site has been investigated and giving an opinion that a cut at a steeper slope will be stable and not create a hazard to public or private property in conformance with the requirements of Section J111. The Building Official may require the excavation to be made with a cut face flatter in slope than two horizontal to one vertical if the Building Official finds it necessary for stability and safety.

J106.3 Slope Surface Protection. All slopes must be stabilized against surface erosion. Stabilization may be accomplished through the application of erosion control blankets, soil stabilizers or other means as approved by the Building Official.

J106.4 Drainage. Drainage, including drainage terraces and overflow protection, shall be provided as required by Section J109.

SECTION J107 FILLS

J107.1 General. Unless otherwise recommended in the approved soils engineering report, fills shall conform to the provisions of this section. In the absence of an approved soils engineering report, and if approved by the Building Official, these provisions may be waived for minor fills not intended to support structures.

J107.2 Preparation of Ground. Fill slopes shall not be constructed on natural slopes steeper than 2 units horizontal in 1 unit vertical (50% slope). The ground surface shall be prepared to receive fill by removing vegetation, non-complying fill, topsoil and other unsuitable materials scarifying to provide a bond with the new fill and, where slopes are steeper than 5 units horizontal in 1 unit vertical (20% slope) and the height is greater than 5 feet, benching into sound bedrock or other competent material shall be provided as a minimum in accordance with Figure J107.2 or as determined by the soils engineer. The bench under the toe of a fill on a slope steeper than 5 units horizontal in 1 unit vertical (20% slope) shall be at least 10 feet wide. The area beyond the toe of fill shall be sloped for sheet overflow or a paved drain shall be provided. When fill is to be placed over a cut, the bench under the toe of fill shall be at least 10 feet wide but the cut shall be made before placing the fill and acceptance by the Soils Engineer or Engineering Geologist, or both, as a suitable foundation for fill.

---

**FIGURE J107.2 BENCHING DETAILS**

REV. 1/1/14

384-13
**J107.3 Subdrains.** Except where recommended by the Soils Engineer or Engineering Geologist as not being necessary, subdrains shall be provided under all fills placed in natural drainage courses and in other locations where seepage is evident. Such sub-drainage systems shall be of a material and design approved by the Soils Engineer and acceptable to the Building Official. The permittee shall provide continuous inspection during the process of subdrain installation to conform with approved plans and Engineering Geologist’s and Soils Engineer’s recommendation. Such inspection shall be done by the soil testing agency. The location of the subdrains shall be shown on a plan by the Soils Engineer. Excavations for the subdrains shall be inspected by the Engineering Geologist when such subdrains are included in the recommendations of the Engineering Geologist.

**J107.4 Fill Material.** Detrimental amounts of organic material shall not be permitted in fills. Unless approved by the Building Official, no rock or similar irreducible material with a maximum dimension greater than 12 inches shall be buried or placed in fills.

**Exception:** The Building Official may permit placement of larger rock when the Soils Engineer properly devises a method of placement, and continuously inspects its placement and approves the fill stability. The following conditions shall also apply:

1. Prior to issuance of the grading permit, potential rock disposal areas shall be delineated on the grading plan.
2. Rock sizes greater than 12 inches in maximum dimension shall be 10 feet or more below grade, measured vertically.
3. Rocks shall be placed so as to assure filling of all voids with well-graded soil.
4. The reports submitted by the Soils Engineer shall acknowledge the placement of the oversized material and whether the work was performed in accordance with the engineer’s recommendations and the approved plans.
5. The location of oversized rock dispersal areas shall be shown on the as-built plan.

**J107.5 Compaction.** All fills shall be compacted to a minimum of 90 percent of maximum density. Fills shall be compacted throughout their full extent to a minimum relative compaction of 90 percent of maximum dry density within 40 feet below finished grade and 93 percent of maximum dry density deeper than 40 feet below finished grade, unless a lower relative compaction (not less than 90 percent of maximum dry density) is justified by the Soils Engineer. The relative compaction shall be determined by A.S.T.M. soil compaction test D1557 where applicable. Where not applicable, a test acceptable to the Building Official shall be used, unless the owner furnishes a soils engineering report conforming with the requirements of Section J104.3, stating that the site has been investigated and giving an opinion that a fill at a steeper slope will be stable and not create a hazard to public or private property. Substantiating calculations and supporting data may be required where the Building Official determines that such information is necessary to verify the stability and safety of the proposed slope. The Building Official may require the fill slope be constructed with a face flatter in slope than two horizontal to one vertical if the Building Official finds it necessary for stability and safety.

Field density shall be determined by a method acceptable to the Building Official. However, not less than ten percent of the required density tests, uniformly distributed, shall be obtained by the Sand Cone Method.

Fill slopes steeper than two horizontal to one vertical shall be constructed by the placement of soil a sufficient distance beyond the proposed finish slope to allow compaction equipment to operate at the outer surface limits of the final slope surface. The excess fill shall be removed prior to completion of rough grading. Other construction procedures may be utilized when it is first shown to the satisfaction of the Building Official that the angle of slope, construction method and other factors will accomplish the intent of this Section.

**J107.4 Maximum Slope.** The slope of fill surfaces shall be no steeper than is safe for the intended use. Fill slopes shall be no steeper than 2 units horizontal in 1 unit vertical (50% slope).

**J107.5 Slopes to Receive Fill.** Where fill is to be placed above the top of an existing slope steeper than three horizontal to one vertical, the toe of the fill shall be set back from the top edge of the slope a minimum distance of 6 feet measured horizontally or such other distance as may be specifically recommended by a Soils Engineer or Engineering Geologist and approved by the Building Official.

**J107.6 Inspection of Fill.** For engineered grading, the Soils Engineer shall provide sufficient inspections during the preparation of the natural ground and the placement and compaction of the fill to be satisfied that the work is being performed in accordance with the conditions of plan approval and the appropriate requirements of this chapter. In addition to the above, the Soils Engineer shall be present during the entire fill placement and compaction of fills that will exceed a vertical height or depth of 30 feet (9144 mm) or result in a slope surface steeper than two horizontal to one vertical.

**J107.6 Testing of Fills.** Sufficient tests of the fill soils shall be made to determine the density thereof and to verify compliance of the soil properties with the design requirements, including soil types and shear strengths in accordance with the standards established by the Building Official.

**SECTION J108 SETBACKS**

**J108.1 General.** Cut and fill slopes shall be set back from the property lines in accordance with this section. Setback dimensions shall be horizontal distances measured perpendicular to the property line and shall be as shown in Figure J108.1, unless substantiating data is submitted justifying reduced setbacks.

**J108.2 Top of Slope.** The setback at the top of a cut slope shall not be less than that shown in Figure J108.1, or than is required to accommodate any required interceptor drains, whichever is greater.
J108.3 Toe of Fill Slope. The toe of fill slope shall be made not nearer to the site boundary line than one half the height of the slope with a minimum of 2 feet (610 mm) and a maximum of 20 feet (6096 mm). Where required to protect adjacent properties at the toe of a slope from adverse effects of the grading, additional protection approved by the Building Official, shall be included. Such protection may include, but shall not be limited to:

1. Setbacks greater than those required by Figure J108.1.
2. Provisions for retaining walls or similar construction.
3. Erosion protection of the fill slopes.
4. Provision for the control of surface waters.

J108.4 Alternate Setbacks. The Building Official may approve alternate setbacks. The Building Official may require an investigation and recommendation by a qualified engineer or engineering geologist to demonstrate that the intent of this section has been satisfied.

SECTION J109 DRAINAGE AND TERRACING
J109.1 General. Unless otherwise recommended by a registered design professional, and approved by the Building Official, drainage facilities and terracing shall be provided in accordance with the requirements of this Section.

Exception: Drainage facilities and terracing need not be provided where the ground slope is not steeper than 3 horizontal to 1 vertical (33 percent).

J109.2 Drainage Terraces. Drainage terraces at least 8 feet (2438 mm) in width shall be established at not more than 30 foot (9144 mm) vertical intervals on all cut or fill slopes to control surface drainage and debris, except that where only one terrace is required, it shall be at mid-height. For cut or fill slopes greater than 100 feet (30480 mm) and up to 120 feet (36,576 mm) in vertical height, one terrace at approximately mid-height shall be 20 feet (6,096 mm) in width. Terrace widths and spacing for cut and fill slopes greater than 120 feet (36,576 mm) in height shall be designed by the Civil Engineer and approved by the Building Official. Suitable access shall be provided to permit proper cleaning and maintenance.
Drainage swales or ditches on terraces shall have a minimum gradient of 5 percent longitudinal grade of not less than 5 percent nor more than 12 percent and a minimum depth of 1 foot (305 mm) at the flow line. There shall be no reduction in grade along the direction of flow unless the velocity of flow is such that slope debris will remain in suspension on the reduced grade. Such terraces must be paved with reinforced concrete not less than 3 inches (76 mm) in thickness, reinforced with 6-inch (152 mm) by 6-inch (152 mm) No. 10 by No. 10 welded wire fabric or equivalent reinforcing centered in the concrete slab or an approved equal paving. They shall have a minimum depth at the deepest point of 1 foot (305 mm) and a minimum paved width of 5 feet (1524 mm). Drainage terraces exceeding 8 feet (2438 mm) in width need only be so paved for a width of 8 feet (2438 mm), provided such pavement provides a paved channel at least 1 foot (305 mm) in depth. Downdrains or drainage outlets shall be provided at approximately 300-foot (91.44 m) intervals along the drainage terrace or at equivalent locations. Downdrains and drainage outlets shall be of approved materials and of adequate capacity to convey the intercepted waters to the point of disposal as defined in Section J109.5.

J109.3 Interceptor Drains and Overflow Protection. Berms, interceptor drains or other devices shall be provided at the top of cut or fill slopes to prevent surface waters from overflowing onto and damaging the face of a slope. Berms used for slope protection shall not be less than 12 inches (305 mm) above the level of the pad and shall slope back at least 4 feet (1219 mm) from the top of the slope.

Interceptor drains shall be installed along the top of manufactured slopes receiving drainage from a slope with a tributary width greater than 40 feet (12,192 mm), measured horizontally. They shall have a minimum depth of 1 foot (305 mm) and a minimum width of 3 feet (915 mm). The slope shall be approved by the Building Official, but shall not be less than 50 horizontal to 1 vertical (2 percent). The drain shall be paved with concrete not less than 3 inches (76 mm) in thickness, or by other materials suitable to the application. Discharge from the drain shall be accomplished in a manner to prevent erosion and shall be approved by the Building Official.

J109.4 Drainage Across Property Lines. Surface drainage across property lines shall not exceed that which existed prior to grading. Excess or concentrated drainage shall be contained on site or directed to an approved drainage facility. Erosion of the ground in the area of discharge shall be prevented by installation of non-erosive down drains or other devices.

J109.5 Disposal. All drainage facilities shall be designed to carry waters to the nearest practicable street, storm drain, or natural watercourse drainage way approved by the Building Official and Public Works Director or other appropriate governmental agency jurisdiction as a safe place to deposit such waters. Erosion of ground in the area of discharge shall be prevented by installation of non-erosive down drains or other devices. Desilting basins, filter barriers or other methods, as approved by the Building Official and/or the Public Works Director, shall be employed to control erosion and provide safety.

SECTION J110 SLOPE PLANTING AND EROSION CONTROL

J110.1 General. The faces of cut and fill slopes shall be prepared and maintained to control erosion. This control shall consist of effective planting, erosion control blankets, soil stabilizers or other means as approved by the Building Official.

Exception: Erosion control measures need not be provided on cut slopes not subject to erosion due to the erosion-resistant character of the materials as approved by the Building Official.

Erosion control for the slopes shall be installed as soon as practicable and prior to calling for final inspection.

J110.2 Other Devices. Where necessary, check dams, cribbing, riprap or other devices or methods shall be employed to control erosion and provide safety.

SECTION J111 NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) COMPLIANCE

J111.1 General. All grading plans and permits shall comply with the provisions of this section for NPDES compliance, including the owner of any property on which grading has been performed and which requires a grading permit under Section J103.

J111.2 Erosion/Sedimentation Control Plan (ESCP). No grading permit shall be issued unless the plans for such work include an Erosion/Sedimentation Control Plan that conforms to the Erosion/Sedimentation Control Policy of the City of Santa Barbara's Building & Safety Division, with details of best management practices, including desilting basins or other temporary drainage or control measures, or both, as may be necessary to control construction-related pollutants which originate from the site as a result of construction-related activities. Sites which have been graded and which require a grading permit under Section J103 are subject to penalties and fines per Section J111.4.

All best management practices shall be installed before grading begins. As grading progresses, all best management practices shall be updated as necessary to prevent erosion and control construction-related pollutants from discharging from the site. All best management practices shall be maintained in good working order to the satisfaction of the Building Official, unless final grading approval has been granted by the Building Official and all permanent drainage and erosion control systems, if required, are in place.
J111.4 Erosion/Sedimentation Control Plan, Effect of Noncompliance. Should the owner fail to install the best management practices required by Section J111.2, it shall be deemed that a default has occurred under the conditions of the grading permit security. Thereupon, the Building Official may enter the property for the purpose of installing, by City forces or by other means, the drainage, erosion control and other devices shown on the approved plans, or if there are no approved plans, as the Building Official may deem necessary to protect adjoining property from the effects of erosion, flooding, or the deposition of mud, debris or construction-related pollutants, or the Building Official may cause the owner to be prosecuted as a violator of this Code or may take both actions. The Building Official shall have the authority to collect the penalties imposed by this section upon determining that the site is in noncompliance. Payment of penalty shall not relieve any persons from fully complying with the requirements of this Code in the execution of the work.

If the best management practices for storm water pollution prevention are not installed as prescribed in Section J111.2 and approved by the Building Official, the following penalties shall be imposed:

Grading Permit Volume Penalty:
- 1–10,000 cubic yards (1–7,645.5 m$^3$) = $100.00 per day
- 10,001–100,000 cubic yards (7,646.3–76,455 m$^3$) = $250.00 per day
- More than 100,000 cubic yards (76,455 m$^3$) = $500.00 per day

NOTE: See Section J108 for inspection request requirements.

SECTION J112 DUST CONTROL
Santa Barbara County Air Pollution Control District's dust control measures identified as Construction Impact Mitigation: PM10 Mitigation Measures in the District's Scope and Content of Air Quality Sections in Environmental Documents shall be adhered to during all ground disturbing activities.

SECTION J113 REFERENCED STANDARDS
These regulations establish minimum standards and are not intended to prevent the use of alternate materials, methods or means of conforming to such standards, provided such alternate has been approved.

The Building Official shall approve such an alternate provided he or she finds that the alternate is, for the purpose intended, at least the equivalent of that prescribed in this Code in quality, strength, effectiveness, durability and safety.

The Building Official shall require that sufficient evidence or proof be submitted to substantiate any claims regarding the alternate.

The standards listed below are recognized standards. Compliance with these recognized standards shall be prima facie evidence with the standard of duty set forth in Section 107.

1. Testing.
   a) ASTM D 1557, Laboratory Characteristics Compaction of Soil Using Modified Effort
   b) ASTM D 1556, Density and Unit Weight of Soils In Place by the Sand Cone Method
   c) ASTM D 2167, Density and Unit Weight of Soils In Place by the Rubber Balloon Method
   d) ASTM D 2937, Density of Soils in Place by the Drive Cylinder Method
   e) ASTM D 2922, Density of Soil and Soil Aggregate In Place by Nuclear Methods
   f) ASTM D 3017, Water Content of Soil and Rock In Place by Nuclear Methods

(Ord. 5639, 2013; Ord. 5536, 2010; Ord. 5498, 2009; Ord. 5451, 2008; Ord. 5440, 2007.)

22.04.025 Amendments to California Residential Code.

The 2013 California Residential Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.025.

A. Section R105.1 “Required” is amended by adding Section R105.1.1 “Driveways and Parking Areas” and R105.1.2 “Demolition Permits,” to read as follows:

Section R105.1.1 Driveways and Parking Areas. Any work that is intended to create new, or to alter or demolish existing vehicular driveways and/or parking areas shall require a building permit. Prior to commencement of such work, the owner or authorized agent shall first make application to the Building Official and obtain the required permit.

Section R105.1.2 Demolition Permits. Building permits shall be required to demolish any building, portion of a building, or structure within the City of Santa Barbara, and shall be subject to the following conditions:

1. The applicant shall ensure all utility connections have been removed by the appropriate utility providers, except such utility services that are approved for use in connection with the work of the demolition. The applicant shall provide verification from the utility providers that utility service has been disconnected.

2. All resulting building debris, trash, junk, vegetation, dead organic matter, rodent harborage, or combustible material that constitutes a threat to life, health or property, or is detrimental to the public welfare, or which may reduce adjacent property value, shall be removed from the site within thirty (30) days after the demolition of the structure.

B. Section R105.2 is deleted in its entirety and readopted to read as follows:

Section R105.2 Work Exempt From Permit. Permits shall not be required for the following. Exemption from permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction. (Note: For work other than work involving, or accessory to, detached one- and two-family dwellings or townhouses, see Section 105 of the 2013 California Building Code as amended):
Building:

1. One-story detached residential accessory structures used as tool and storage sheds, playhouses, portable and fixed playground equipment, bicycle or skateboard ramps and similar uses, provided the floor area does not exceed 120 square feet and the height does not exceed 10 feet at the highest point; and further provided the structure does not encroach into required setbacks or required open yards, does not obstruct required parking, and is not served by any utilities. The combined square footage of exempt accessory structures may not exceed 200 square feet on any single parcel.

2. Residential fences and walls not over 3½ feet high, as measured from the lowest adjacent grade of the fence or wall, and that such fence or wall will not adversely affect drainage or cause erosion.

3. Residential retaining walls which are not over 4 feet in height as measured from the bottom of the footing to the top of the wall, and that such wall will not support a surcharge, will not adversely affect drainage or cause erosion and is not located on a slope greater than 20%.

4. Water tanks supported directly upon grade if the capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2:1.

5. Uncovered residential platforms, decks, porches, walks, patios, flatwork and similar structures not more than 10 inches above adjacent grade, and not over any basement or story below.

6. Interior painting, papering, tiling, carpeting, counter tops and similar finish work.

7. Prefabricated swimming pools that are less than 24” deep.

8. Ground-mounted radio, television and other masts or antenna or dish-shaped communication reception or transmitting structures less than 3 feet in diameter, which do not extend more than 15 feet above grade and are not served by electrical circuits regulated under the National Electrical Code (NEC). Lightweight roof-mounted radio, television, and other masts or antenna or dish-shaped communication reception or transmitting structures less than 2 feet in diameter, which do not extend more than 15 feet above the roof, are not served by electrical circuits regulated under the NEC, and which are not subject to design review by the Architectural Board of Review, Historic Landmarks Commission, or Single Family Design Board.

Electrical:

1. Listed cord-and-plug connected temporary decorative lighting.

2. Reinstallation of attachment plug receptacles but not the outlets therefore.

3. Replacement of branch circuit over current devices of the required capacity in the same location.

4. Electrical wiring, devices, appliances, apparatus, or equipment operating at less than 25 volts and not capable of supplying more than 50 watts of energy.

5. Minor repair work, including the replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles.

Gas:

1. Portable heating appliance.

2. Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.

3. Portable fuel cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.

Mechanical:

1. Portable heating appliance.

2. Portable ventilation equipment.

3. Portable cooling unit.

4. Steam, hot- or chilled-water piping within any heating or cooling equipment regulated by this code.

5. Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.

6. Portable evaporative cooler.

7. Self-contained refrigeration system containing 10 pounds or less of refrigerant or that are actuated by motors of 1 horsepower or less.

Plumbing:

1. The stopping of leaks in drains, water, soil, waste or vent pipe, provided, however, that if any concealed trap, drain pipe, water, soil, waste or vent pipe becomes defective and it becomes necessary to remove and replace the same with the new material, such work shall be considered as new work and a permit shall be obtained and inspection made as provided in this code.

2. The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures, and the removal and reinstallation of water closets, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures.

C. Section R112.1 “General” of Section R112 “Board of Appeals” is amended to read as follows:

R112.1 General. Appeals of orders, decisions, or determinations made by the Authority Having Jurisdiction shall be addressed in accordance with the provisions of Section 113 and Appendix B of the California Building Code as amended by the City of Santa Barbara in Section 22.04.020 of this Code.
D. Section R313.1 “Townhouse Automatic Fire Sprinkler Systems” is amended to read as follows:

**R313.1 Townhouse Automatic Fire Sprinkler Systems.** An automatic residential fire sprinkler system shall be installed in townhouses.

**R313.1.1 Design and Installation.** Automatic residential fire sprinkler systems for townhouses shall be designed and installed in accordance with Section P2904 R313.3 or NFPA 13D.

E. Section R313.2 “One- and Two-Family Dwellings Automatic Fire Sprinkler Systems” is amended to read as follows:

**R313.2 One- and Two-Family Dwellings Automatic Fire Sprinkler Systems.** An automatic residential fire sprinkler system shall be installed in one- and two-family dwellings.

**R313.2.1 Design and Installation.** Automatic residential fire sprinkler systems shall be designed and installed in accordance with Section P2904 R313.3 or NFPA 13D.

**R313.2.2 City of Santa Barbara Local Requirements.** Approved sprinkler systems shall be provided throughout a building in connection with the projects or changes of occupancy listed in this Section R313.2.2 or as specified elsewhere in this Section R313, whichever is more protective.

**R313.2.3 Additions to or Remodels of Single Family Residences, Duplexes and Townhouses.** Sprinklers are required for the addition of floor area to, or the modification or alteration of the interior of, an existing building that contains a Group R, Division 3 occupancy and townhouses, where the floor area of the portion of the building that is added, modified, or altered exceeds 75% of the existing floor area of the building. For purposes of this section, all additions, modifications, or alterations to an existing building that occur after the effective date of the ordinance adopting this section shall be counted in the aggregate toward the 75% threshold measured against the floor area of the building as it existed on the effective date of the ordinance adopting this section.

**R313.2.4 Computation of Square Footage.** For the purposes of this Section R313, the floor area of buildings shall be computed in accordance with the definition of “Floor Area, Gross” provided in Section 1002.1 of the California Building Code.

**R313.2.5 Existing Use.** Except as provided in this Section R313, any building in existence at the time of the effective date of the ordinance adopting this section may continue with such use if such use was legal at the time.

F. Section R327.1.1 “Scope” is amended to read as follows:

**R327.1.1 Scope.** This chapter applies to building materials, systems and/or assemblies used in the exterior design and construction of new buildings, remodels or additions to existing buildings located within a Wildland Urban Interface Fire Area as defined in Section R327.2 and R327.1.3.1, Item No. 3.

G. Section R327.1.3 “Application” is amended to read as follows:

**R327.1.3 Application.** New buildings, remodeled buildings or additions to existing buildings in any Fire Hazard Severity Zone or Wildland Urban Interface Area designated by the enforcing agency constructed after the application date shall comply with this chapter.

**Exception:** Accessory and/or Group U occupancy buildings may be exempted from all or portions of this chapter upon approval of the Fire Marshall and/or Chief Building Official.

H. Section R327.5 “Roofing” is deleted in its entirety and readopted to read as follows:

**R327.5 Roofing**

**R327.5.1 General.** Roofs shall comply with the requirements of Sections R327 and R902. Roofs shall have a roofing assembly installed in accordance with its listing and manufacturer’s installation instructions.

**R327.5.2 Roof Coverings.** Roof coverings on new buildings shall be class A noncombustible in accordance with adopted CRC Standards or otherwise as may be approved by the Chief Building Official. Roof coverings shall be class A or noncombustible fire retardant materials on existing buildings and additions or repairs to existing buildings. Treated or untreated wood shakes or shingles shall not be permitted, except on existing structures which are constructed with shake or shingle roofs where less than 20% of the existing roof is being replaced within a two (2) year period, provided such replacement roofing is fire retardant treated wood shakes or shingles. “Green” or “Vegetated” roofs shall not be used in the Wildland Urban Interface Fire Area.

**R327.5.3 Roof Valleys.** Where valley flashing is installed, the flashing shall be not less than 0.019-inch (0.48 mm) No. 26 gage galvanized sheet corrosion-resistant metal installed over not less than one layer of minimum 72 pound (32.4 kg) mineral-surfaced non-perforated cap sheet complying with ASTM D 3909, at least 36-inch wide (914 mm) running the full length of the valley.

**R327.5.4 Roof Gutters.** Roof gutters shall be provided with an approved means to prevent the accumulation of leaves and debris in the gutter. All roof gutters and downsplotts shall be constructed of noncombustible materials.

**R327.5.5 Drip Edge Flashing.** When drip edge flashing is used at the free edges of roofing materials, it shall be noncombustible.

I. Section R327.6.2 “Requirements” is amended to read as follows:

**R327.6.2 Requirements.** Ventilation openings for enclosed attics, enclosed eave soffit spaces, enclosed rafter spaces formed where ceilings are applied directly to the underside of roof rafters, and underfloor ventilation openings shall be fully covered with metal wire mesh, vents, other materials, or other devices that meet the following requirements:

1. The dimensions of the openings therein shall be a minimum of 1/16th inch (1.6 mm) and shall not exceed 1/8th inch (3.2 mm).
2. The materials used shall be noncombustible.
Exception to No. 2: Vents located under the roof covering, along the ridge of roofs, with the exposed surface of the vent covered by noncombustible wire mesh, may be of combustible materials.

3. The materials used shall be corrosion resistant.
4. Individual ventilation openings shall not exceed 144 square inches.
5. Turbine attic vents shall be equipped to allow one-way direction rotation only and shall not free spin in both directions.
6. Ventilation openings protected with vent openings that resist the intrusion of flame and embers, and which are listed by the State Fire Marshal, are exempt from complying with this subsection.

J. Section R327.8.2 “Exterior Glazing” is amended to read as follows:

**R327.8.2 Exterior Glazing.** The following exterior glazing materials and/or assemblies shall comply with this section:

1. Exterior windows and/or skylights.
2. Exterior glazed doors.
3. Glazed openings within exterior doors.
4. Glazed openings within exterior garage doors.
5. Exterior structural glass veneer.

K. Chapter 3 “Building Planning” is amended by adding Sections R332 through R334 to read as follows:

**R332 Special Inspections and Structural Tests.** When structural tests and special inspections are required due to the methods of construction, the tests and inspections shall be performed and documented as is required in Chapter 17 of the California Building Code.

**R333 Encroachments into the Public Right-of-Way.** Encroachments into the public right-of-way shall comply with the standards of Chapter 32 of the California Building Code.

**R334 Safeguards During Construction.** Provisions for pedestrian safety during construction and the protection of adjacent public and private properties shall be governed by the requirements of Section 33 of the California Building Code.

L. Section R401 “Foundations” is amended by adding Section 401.5 “Grading” to read as follows:

**R401.5 Grading.** All grading, excavations and earthwork, including work required and/or related to structures regulated by this code, shall comply with Appendix J “Grading” of the 2013 California Building Code as amended.

M. Section R401.4 “Soils Tests” is deleted in its entirety and readopted to read as follows:

**R401.4 Soils Reports/Geotech Investigations.** A Soils Report or Geotechnical Investigation shall be required as outlined in Section 1803 of the California Building Code.

**Exceptions:**

1. Single-story additions with less than a 500 square-foot “footprint” and that are less than 50% of the existing structure they are attached to.
2. Second story additions to an existing slab on grade structure that does not require new footings.
3. Detached “U” Occupancy Category buildings.

N. Section R401.4.1 “Geotechnical Evaluations” is amended to read as follows:

**R401.4.1 Load-Bearing Values.** Projects utilizing any of the exceptions of Section R401.4 shall use the presumptive load-bearing values of Table R401.4.1. Table R401.4.1 is not amended.

O. Section R403.1.2 “Continuous Footing in Seismic Design Categories D0, D1 and D2” is amended to read as follows:

**R403.1.2 Continuous Footing in Seismic Design Categories D0, D1 and D2.** The braced wall panels at exterior walls of buildings located in Seismic Design Categories D0, D1 and D2 shall be supported by continuous footings. All required interior braced wall panels in buildings shall be supported by continuous footings.

P. Section R403.1.5 “Slope” is amended to read as follows:

**R403.1.5 Slope.** The top surface of footings shall be level. The bottom surface of footings shall not have a slope exceeding one unit vertical in ten units horizontal (10% slope). Footings shall be stepped where it is necessary to change the elevation of the top surface of the footings or where the slope of the bottom surface of the footings will exceed one unit vertical in ten units horizontal (10% slope).

For structures located in Seismic Design Categories D0, D1, D2, and E, stepped footings shall be reinforced with four ½-inch diameter (12.7 mm) deformed reinforcing bars. Two bars shall be placed at the top of the footing, and two bars shall be placed at the bottom of the footing.

Q. Section R404.2 “Wood Foundation Walls” is amended to read as follows:

**R404.2 Wood Foundation Walls.** Wood foundation walls shall be constructed in accordance with the provisions of Sections R404.2.1 through R404.2.6 and with the details shown in Figures 403.1(2) and R403.1(3). Wood foundation walls shall not be used for structures located in Seismic Design Categories D0, D1, D2, and E.

R. Section R802.10.2 “Design.” Wood trusses shall be designed in accordance with accepted engineering practice. The design and manufacture of metal-plate-connected wood trusses shall comply with ANSI/TPI 1. The truss design drawings shall be prepared by a professional registered by the State of California.
S. Section R902.1 “Roofing Covering Materials” is amended to read as follows:

**R902.1 Roof Covering Materials.** Roofs shall be covered with materials as set forth in Sections R904 and R905. A minimum Class A or B roof shall be installed in areas designated by this section. Classes A and B roofing required by this section to be listed shall be tested in accordance with UL 790 or ASTM E 108.

T. Section R902.1.1 “Roof Coverings Within Very-High Fire Hazard Severity Zones” is amended to read as follows:

**R902.1.1 Roof Coverings Within Wildland Urban Interface Fire Area.** The roofing and re-roofing requirements of structures within a Wildland Urban Interface Fire Area as defined in Section R327.2 and R327.1.3.1 Item No. 3 shall meet the requirements of R327.

U. Section R902.1.2 “Roof Coverings Within State-Responsibility Areas” is deleted in its entirety without replacement.

V. Section R902.1.3 “Roof Coverings in All Other Areas” is deleted in its entirety and readopted to read as follows:

**R902.1.3 Roof Coverings in All Other Areas.** The roof covering or roofing assembly of any new building or the re-roofing of any existing building, regardless of type or occupancy classification, shall be no less than Class B, except that Group H, Division 1 and Group I occupancies shall be Class A. Treated or untreated wood shingles or shingles shall not be permitted, except on existing structures which are constructed with shake or shingle roofs where less than 20% of the existing roof is being replaced within a two-year period, provided such replacement roofing is fire retardant treated wood shakes or shingles.

**Exception:** In the High Fire Hazard District, roof coverings shall be in accordance with Section R327 as amended.

W. Appendix Chapter G - Section AG105.2 “Outdoor Swimming Pool” is amended to read as follows:

**AG105.2 Outdoor Swimming Pool.** An outdoor swimming pool, including an in-ground, above-ground or on-ground pool, hot tub or spa, shall be surrounded by a barrier which shall comply with the following:

1. The top of the barrier shall be at least 60 inches (1524 mm) above grade measured on the side of the barrier which faces away from the swimming pool. The maximum vertical clearance between the grade and the bottom of the barrier shall be 2 inches (51 mm) measured on the side of the barrier which faces away from the swimming pool. Where the top of the pool structure is above grade, such as an above-ground pool, the barrier may be at ground level, such as the pool structure, or mounted on top of the pool structure. Where the barrier is mounted on top of the pool structure, the maximum vertical clearance between the top of the pool structure and the bottom of the barrier shall be 4 inches (102 mm).
2. Openings in the barrier shall not allow the passage of a 4-inch diameter (102 mm) sphere.
3. Solid barriers which do not have openings, such as a masonry or stone wall, shall not contain indentations or protrusions, except for normal construction tolerances and tooled masonry joints.
4. Where the barrier is composed of horizontal and vertical members, and the distance between the tops of the horizontal members is less than 45 inches (1143 mm), the horizontal members shall be located on the swimming pool side of the fence. Spacing between vertical members shall not exceed 1¾ inches (44 mm) in width. Where there are decorative cutouts within vertical members, spacing within the cutouts shall not exceed 1 ¼ inches (44 mm) in width.
5. Where the barrier is composed of horizontal and vertical members, and the distance between the tops of the horizontal members is 45 inches (1143 mm) or more, spacing between vertical members shall not exceed 4 inches (102 mm). Where the decorative cutouts within vertical members, spacing within the cutouts shall not exceed 1¼ inches (44 mm).
6. Maximum mesh size for chain link fences shall be a 2½-inch (57 mm) square, unless the fence has slats fastened at the top of the bottom or the bottom which reduce the openings to not more than 1¾ inches (44 mm).
7. Where the barrier is composed of diagonal members, such as a lattice fence, the maximum opening formed by the diagonal members shall not be more than 1½ inches (44 mm).
8. Access gates shall comply with the requirements of Items 1 through 7, and shall be equipped to accommodate a locking device. Pedestrian access gates shall open outward away from the pool, and shall be self-closing and have a self-latching device. Gates, other than pedestrian access gates, shall have a self-latching device. Where the release mechanism of the self-latching device is located less than 54 inches (1372 mm) from the bottom of the gate, the release mechanism and openings shall comply with the following:
9. The release mechanism shall be located on the pool side of the gate at least 3 inches (76 mm) below the top of the gate; and
10. The gate and barrier shall have no opening larger than ½ inch (12/7 mm) within 18 inches (457 mm) of the release mechanism.
9. Where a wall of a dwelling serves as part of the barrier, one of the following conditions will be met:
10.1 The pool shall be equipped with a powered safety cover in compliance with ASTM F 1346;
10.2 Doors with direct access to the pool through that wall shall be equipped with an alarm which produces an audible warning when the door and/or its screen, if present, are opened. The alarm shall be listed and labeled in accordance with UL 2017. The deactivation switch(es) shall be located at least 54 inches (1372 mm) above the threshold of the door; or
10.3 Other means of protection, such as self-closing doors with self-latching devices, which are approved by the governing body, shall be acceptable as long as the degree of protection afforded is not less than the protection afforded by Items 9.1 or 9.2 described herein.
10. Where an above-ground pool structure is used as a barrier, or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps:

10.1. The ladder or steps shall be capable of being secured, locked or removed to prevent access; or
10.2. The ladder or steps shall be surrounded by a barrier which meets the requirements of Items 1 through 9. When ladder or steps are secured, locked or removed, any opening created shall not allow the passage of a 4-inch diameter (102 mm) sphere.

X. Appendix Chapter I - Section A1101 “I” is deleted in its entirety and readopted to read as follows:

A1101.1 General. Private sewage disposal systems shall conform to the 2013 California Plumbing Code Appendix Chapter H.

(Ord. 5639, 2013; Ord. 5536, 2010; Ord. 5498, 2009; Ord. 5451, 2008; Ord. 5440, 2007.)

**22.04.030 Amendments to California Plumbing Code.**

The 2013 California Plumbing Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.030.

A. Section 102.3 “Board of Appeals.” is hereby deleted in its entirety and readopted to read as follows:

**102.3 Board of Appeals.** Appeals of orders, decisions, or determinations made by the Authority Having Jurisdiction shall be addressed in accordance with the provisions of Section 113 and Appendix B of the California Building Code, as amended by the City of Santa Barbara in Section 22.04.020.

B. Section 103.4 “Fees” is deleted in its entirety and readopted to read as follows:

**103.4 Fees.** Fee payments, fee schedules, work commencing prior to permit issuance, related fees and refunds shall be in accordance with 2013 California Residential Code Section R108 for one- and two-family dwellings and townhomes, and in accordance with 2013 California Building Code Section 109 for all other fees.

C. Section 402 “Installation” is amended by adding subsections 402.13 “Fountains” and 402.14 “Vehicle Wash Facilities” to read as follows:

**402.13 Fountains.** All fountains and other decorative bodies of water shall be equipped with a recirculation system and shall be designed to operate without a continuous supply of water.

**402.14 Vehicle Wash Facilities.**

402.14.1 All vehicle wash facilities using conveyorized, touchless and/or rollover in-bay technology shall reuse a minimum of fifty percent (50%) of water from previous vehicle rinses in subsequent washes.

402.14.2 Vehicle wash facilities using reverse osmosis to produce water rinse with a lower mineral content shall incorporate the unused concentrate in subsequent vehicle washes.

402.14.3 All hoses, pipes and faucets designed for the manual application of water to vehicles at vehicle wash facilities shall be equipped with a positive shut-off valve designed to interrupt the flow of water in the absence of operator-applied pressure.

D. Section 422.1 “Fixture Count” is deleted in its entirety and readopted to read as follows:

**422.1 Fixture Count.** Plumbing fixtures shall be provided for the type of building occupancy and in the minimum number shown in Table 422.1 (OSHPD 1, 2, 3, and 4) and Table 4-2.

**Exception:** Within existing buildings, the Chief Building Official may make alternate consideration findings for partial compliance on the basis of one or more of the following criteria:

1. The cost of compliance is in excess of 15% of all cost of construction as proposed or incurred within one (1) year before or after the work proposed; or
2. The proposed use does not intensify the occupant load by more than 15% of the existing occupant load; or
3. Due to physical constraints of existing buildings and occupancies relative to disabled access regulations.

The total occupant load and occupancy classification shall be determined in accordance with Occupant Load Factor Table A. Occupancy classification not shown in Table 422.1 shall be considered separately by the Authority Having Jurisdiction.

The minimum number of fixtures shall be calculated at 50 percent male and 50 percent female based on the total occupant load. Where information submitted indicates a difference in the distribution of the sexes, such information shall be used in order to determine the number of fixtures for each sex. Once the occupancy load and occupancy are determined, Table 422.1 shall be applied to determine the minimum number of plumbing fixtures required. Where applying the fixture ratios in Table 422.1 results in fractional numbers, such numbers shall be rounded to the next whole number. For multiple occupancies, fractional numbers shall be first summed and then rounded to the next whole number.

**422.1.1 Family or Assisted-Use Toilet and Bathing Facilities.** Where family or assisted-use toilet and bathing rooms are required in applicable building regulations, the facilities shall be installed in accordance with those regulations.
422.1.2 [DSA-AC] Effective January 1, 1990, in new construction and those existing facilities which
occupancy type are listed in Tables 422.1 and 4-4 for public use, which apply for permit to undertake construction,
structural alterations, repairs or improvements which exceed 50 percent of the square footage of the entire facility,
shall install water closets, urinals, lavatories and drinking fountains as stipulated in Tables 422.1 and 404 for public
use. Community and/or municipal parks with bleacher capacity not exceeding 500 seats shall be exempt from the
requirements of this section and Tables 422.1 and 4-4. Each bathroom shall comply with Part 2, Chapter 11A and
11B of the California Building Code.

E. Chapter 4 “Plumbing Fixtures and Fixture Fittings” is amended by the addition of Section 423 “Water Meters
Required”.

423 Water Meters Required.

423.1 Group R Occupancies. Each dwelling unit, including apartment units and secondary units, shall be
served by a separate City water meter. For projects of five (5) dwelling units or more, such meter shall serve only
uses within the dwelling unit. All other uses, including, but not limited to, irrigation, water features (pools, spas,
fountains), and shared laundry facilities, shall be served by an additional separate City water meter.

423.2 Occupancies Other Than Group R. All occupancies other than Group R serving a separate legal
parcel shall be served by a single meter and no such meter shall also serve Group R occupancy.

F. Section 603.1 “General” is amended to read as follows:

603.1 General. Cross-connection control shall be provided in accordance with the provisions of this chapter
and Sections 7683 through 7630 (“Drinking Water Supplies”) of Title 17 of the California Administrative Code, and
where there is a conflict between the requirements, the higher level of protection shall apply.

No person shall install any water-operated equipment or mechanism, or use any water-treating chemical or
substance, if it is found that such equipment, mechanism, chemical, or substance causes pollution or contamination of
the domestic water supply. Such equipment or mechanism shall be permitted only when equipped with an approved
backflow prevention device or assembly.

G. Section 608.2 “Excessive Water Pressure” is amended to read as follows:

608.2 Excessive Water Pressure. Regardless of the pressure at the main, all occupancies served by the
City of Santa Barbara Water Resources Division shall be equipped with an approved pressure regulator preceded by a
strainer (unless a strainer is built into the device). Any irrigation system or other secondary piping that bypasses said
regulator shall be equipped with its own approved pressure regulator and strainer, installed upstream of any piping,
backflow device, valve, solenoid or outlet. Such regulator(s) shall control the pressure to all water outlets in the
building unless otherwise approved by the Authority Having Jurisdiction. Each such regulator and strainer shall be
accessibly located above ground or in a vault equipped with a properly sized and sloped bore-sighted drain to
daylight, shall be protected from freezing, and shall have the strainer readily accessible for cleaning without removing
the regulator or strainer body, or disconnecting the supply piping. Pipe size determinations shall be based on 80
percent of the reduced pressure when using Table 6-6. An approved expansion tank shall be installed in the cold
water distribution piping downstream of each such regulator to prevent excessive pressure from developing due to
thermal expansion and to maintain the pressure setting of the regulator. The expansion tank shall be properly sized
and installed in accordance with the manufacturer's instructions and listing. Systems designed by registered engineers
shall be permitted to use approved pressure relief valves in lieu of expansion tanks, provided such relief valves have a
maximum pressure relief setting of one hundred (100) pounds per square inch (689 kPa) or less.

H. Section 710.0 “Drainage of Fixtures Below the Next Upstream Manhole or Below the Main Sewer Level” is
amended by adding Sections 710.14 “Sewage Pump Signaling Device” and 710.15 “Approved Type Backwater
Valve,” to read as follows:

710.14 Sewage Pump Signaling Device. Specially designed sewage disposal systems which depend upon a
sewage lift pump or ejector for their operation shall be provided with an approved audible signaling device to warn
building occupants in the event of pump failure.

710.15 Approved Type Backwater Valve. When the valuation of an addition, alteration, or repair to a
building exceeds $1,000.00, or when additions, alterations, or repairs are made to the plumbing system or fixtures and
a permit is required, an approved backwater valve shall be installed in accordance with Section 710.0 of this Code.

Exception: Repairs to the exterior surface of a building are exempt from the requirements of this section.

I. Section 713.2 “Private Sewage Disposal System” is amended to read as follows:

713.2 When no public sewer intended to serve any lot or premises is available in any thoroughfare or right-of-way
abutting such lot or premises, drainage piping from any building or works shall be connected to an approved
private sewage disposal system.

Approved private systems may be used until a public system is available. Upon written notice by the Chief
Building Official to the record owner of title, such private systems shall be abandoned in accordance with the
provisions of Section 722.0 of this code, and permits to connect to the public system must be secured.

(Ord. 5639, 2013; Ord. 5550, 2011; Ord. 5536, 2010; Ord. 5451, 2008; Ord. 5440, 2007.)
22.04.040 Amendments to California Mechanical Code.

The 2013 California Mechanical Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.040.

A. Section 108 “Board of Appeals” is hereby deleted in its entirety and readopted to read as follows:

108 Board of Appeals. Appeals of orders, decisions, or determinations made by the Authority Having Jurisdiction shall be addressed in accordance with the provisions of Section 113 and Appendix B of the California Building Code as amended by the City of Santa Barbara in Section 22.04.020.

B. Section 114.0 “Fees” is deleted in its entirety and readopted to read as follows:

114.0 Permit Fees. Fee payments, fee schedules, work commencing prior to permit issuance, related fees and refunds shall be in accordance with CRC Section R108 for one- and two-family dwellings and townhomes, and in accordance with CBC Section 109 for all other fees.

(Ord. 5639, 2013; Ord. 5536, 2010; Ord. 5440, 2007.)

22.04.050 Amendments to California Electrical Code.

A. The 2013 California Electrical Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.050. Article 89.108.8 of the California Electrical Code is deleted and readopted to read as follows:

89.108.8 Appeals Board. Appeals of orders, decisions, or determinations made by the Authority Having Jurisdiction shall be addressed in accordance with the provisions of Section 113 and Appendix B of the California Building Code as amended by the City of Santa Barbara in Section 22.04.020.

B. A new Article 690.4 (I) is added to the California Electrical Code to read as follows:

690.4 (I) Single-Family Residences. New single-family residences shall comply with the requirements of this Article.

(1) Conduit for Future Solar Photovoltaic System. Newly-constructed single-family dwelling units shall include minimum 1-inch diameter, metallic electrical conduit installed per this Section to accommodate future installation of roof-mounted solar photovoltaic systems. The electrical junction box and the segment of conduit run in the attic, or where there is no attic, to the roof deck, shall be permanently and visibly marked as "For Future Solar Photovoltaic”.

(2) Conduit and Junction Box Locations. One conduit run shall originate at a readily accessible attic or roof deck location with proximity to California Energy Code’s “Solar Zone Area” and terminate at a minimum 4-inch-square approved electrical junction box located within 72 inches horizontally and 12 inches vertically of a main electrical panel. A second conduit run shall originate at the electrical junction box and terminate at the main electrical panel.

(Ord. 5713, 2015; Ord. 5639, 2013; Ord. 5536, 2010; Ord. 5440, 2007.)

22.04.060 Amendments to 2013 California Green Building Standards Code.

The 2013 California Green Building Standards Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.060.

A. Section 4.304 “Outdoor Water Use” is amended by adding Section 4.304.2 “Fountains” to read as follows:

4.304.2 Fountains. All fountains directly plumbed by potable water, on a single parcel of land, shall not exceed a total water surface area of twenty five square feet.

B. Section 5.304.2 “Outdoor Potable Water Use” is deleted in its entirety and readopted to read as follows:

5.304.2 Outdoor Potable Water Use. For new water service or for addition or alteration requiring upgraded water service for landscaped areas of at least 1,000 square feet but not more than 5,000 square feet (the level at which Water Code §535 applies), a separate City-issued irrigation meter shall be installed for outdoor potable water use.

C. Section 5.304 is amended by adding Section 5.304.4 to read as follows:

5.304.4 Fountains. All fountains directly plumbed by potable water, on a single parcel of land, shall not exceed a total water surface area of twenty five square feet.

(Ord. 5639, 2013.)

The 2012 International Property Maintenance Code, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.060.

A. Section 101.1 “Title” is amended to read as follows:

101.1 Title. These regulations shall be known as the International Property Maintenance Code of the City of Santa Barbara, hereinafter referred to as “this code”.

B. Section 103 “Department of Property Maintenance Inspection” is deleted in its entirety without replacement.

C. Section 111 “Means of Appeal” is deleted and readopted to read as follows:

111 Means of Appeal. Appeals of orders, decisions, or determinations made by the Authority Having Jurisdiction shall be addressed in accordance with the provisions of Section 113 and Appendix B of the California Building Code, as amended by the City of Santa Barbara in Section 22.04.020.
D. Section 112.4 “Failure to Comply” is amended to read as follows:  
   **112.4 Failure to Comply.** Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, may be assessed a citation as outlined in Santa Barbara Municipal Code Chapter 1.25.

E. Section 302.4 “Weeds” is amended to read as follows:  
   **302.4 Weeds.** All premises and exterior property shall be maintained free from weeds or plant growth in excess of 12”. All noxious weeds shall be prohibited. Weeds shall be defined as all grasses, annual plants and vegetation, other than trees or shrubs, provided, however, this term shall not include cultivated flowers and gardens. Upon failure of the owner or agent having charge of a property to cut and destroy weeds after service of a notice of violation, any duly authorized employee of the jurisdiction or contractor hired by the jurisdiction shall be authorized to enter upon the property in violation and cut and destroy the weeds growing thereon, and the costs of such removal shall be paid by the owner or agent responsible for the property.

F. Section 304.14 “Insect Screens” is amended to read as follows:  
   **304.14 Insect Screens.** Every door, window and other outside opening required for ventilation of habitable rooms, food preparation areas, food service areas or any areas where products to be included or utilized in food for human consumption are processed, manufactured, packaged or stored shall be supplied with approved tightly-fitted screens of minimum 12 mesh per inch (16 mesh per 25mm), and every screen door used for insect control shall have a self-closing device in good working condition.  
   **Exception:** Screens shall not be required where other approved means, such as air curtains or insect repellent fans, are employed.

G. Section 602.2 “Residential Occupancies” is deleted in its entirety and readopted to read as follows:  
   **602.2 Residential Occupancies.** Dwellings shall be provided with heating facilities capable of maintaining a room temperature of 68°F (20°C) in all habitable rooms. Cooking appliances shall not be used, nor shall portable unvented fuel-burning space heaters be used, as a means to provide required heating.

H. Section 602.3 “Heat Supply” is deleted in its entirety without replacement.

I. Section 602.4 “Occupiable Work Spaces” is deleted in its entirety without replacement.  
(Ord. 5639, 2013.)

**22.04.080 Amendments to 1997 Uniform Code for Abatement of Dangerous Buildings.**

A. The 1997 Uniform Code for Abatement of Dangerous Buildings, as adopted by reference pursuant to this Chapter, is amended as set forth in this Section 22.04.080. Section 205 is deleted and readopted to read as follows:  
   **205 Board of Appeals.** Appeals of orders, decisions, or determinations made by the Authority Having Jurisdiction shall be addressed in accordance with the provisions of Section 113 and Appendix B of the California Building Code, as amended by the City of Santa Barbara in Section 22.04.020.  
(Ord. 5639, 2013.)
Chapter 22.05  
HAZARDOUS WASTE MANAGEMENT PLAN

Sections:  
22.05.010 Purpose. 22.05.020 Decisions Shall be Consistent with County Hazardous Waste Management Plan.

22.05.010 Purpose.

The California State Legislature has declared it to be in the public interest to establish an effective process for hazardous waste management planning and has adopted a process for development and public review of local plans to serve as the primary planning documents for hazardous waste management. The County of Santa Barbara and appropriate city and state agencies have approved a Santa Barbara County Hazardous Waste Management Plan pursuant to that process.

It is the purpose of this Chapter to require certain decisions to be consistent with the portions of the approved county plan which identify general areas or siting criteria for hazardous waste facilities. (Ord. 4825, 1993.)

22.05.020 Decisions Shall be Consistent with County Hazardous Waste Management Plan.

To the extent required by the provisions of California Health and Safety Code Section 25135.7, all applicable zoning, subdivision, development plan, conditional use permit, modification and variance decisions on projects made by and on behalf of the City of Santa Barbara shall be consistent with the Hazardous Waste Management Plan for the County of Santa Barbara, as adopted, approved and amended, from time to time. The County has adopted the Hazardous Waste Management Plan as the Hazardous Waste Element of the Santa Barbara County Comprehensive Plan. (Ord. 4825, 1993.)
Chapter 22.06
HAZARDOUS WASTE GENERATORS

22.06.010 Title.

This Chapter shall be referred to as the Hazardous Waste Generators Ordinance of the City of Santa Barbara. (Ord. 4825, 1993.)

22.06.020 Purpose and Intent.

The purpose of this Chapter is to implement certain policies of the Hazardous Waste Management Plan adopted in Chapter 22.05 of this Code by requiring hazardous waste generators to incorporate waste minimization and emergency response considerations into their uses and developments. The intent is to require generators to submit a Waste Minimization Plan to the Santa Barbara County Department of Environmental Health Services or successor agency and incorporate waste minimization techniques where technically and economically feasible, comply with the County Department of Environmental Health Services’ Generator Permit Program and prepare an emergency response plan where required by Chapter 6.95 (commencing with Section 25500) of the California Health and Safety Code. (Ord. 4825, 1993.)

22.06.030 Definitions.

Whenever in this Chapter the following terms are used, they shall be construed to have the meaning(s) ascribed to them in this section unless it is apparent from the context in which they appear that some other meaning is intended.

A. Business Plan. A "Business Plan" means that plan which each business with specified quantities of hazardous materials (including wastes) must prepare under Chapter 6.95 of the California Health and Safety Code. The business plan must include an inventory of hazardous materials on site, an emergency response plan and employee training procedures.

B. Generator. "Generator" means the person, business or facility who, by nature of ownership, management or control is responsible for causing or allowing to be caused the creation of hazardous waste.

C. Generator Permit. "Generator Permit" means the annual permit to operate required by State law of all generators of hazardous waste. Generator Permits must be obtained from the Santa Barbara County Department of Environmental Health Services, or successor agency.

D. Hazardous Waste. "Hazardous Waste" means a waste, or combination of wastes, which because of the quantity, concentration or physical and chemical characteristics may either a) cause or significantly contribute to an increase in mortality or an increase in serious irreversible or incapacitating reversible illness, or b) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed or otherwise managed. Hazardous waste also includes those materials described in Title 22, Division 4.5, Chapter 11, California Code of Regulations (CCR).

E. Waste Minimization. "Waste Minimization" means the reduction, to the maximum extent feasible, of hazardous waste that is generated or subsequently stored, treated or disposed of. Waste minimization is a reduction in the total volume or quantity of hazardous waste and minimizes the present and future threat to human health and the environment. As used in the Hazardous Waste Management Plan and this Code, waste minimization includes source reduction, recycling and on site treatment of hazardous wastes. (Ord. 4825, 1993.)

22.06.040 Applicability.

The provisions of this Chapter apply to any activity within the City of Santa Barbara for which a Generator Permit is required that is undertaken by a person or business who is or will be a generator of hazardous waste. (Ord. 4825, 1993.)

22.06.050 Requirements.

A. As part of the application to the County Department of Environmental Health Services for a Generator Permit, the applicant shall submit a Waste Minimization Plan.

B. All new or modified Generator Permits shall incorporate waste minimization techniques to the maximum extent that is economically and technically feasible.
C. Prior to the issuance of any City building permit, the applicant shall have an approved Generator Permit from the County Department of Environmental Health Services or an accepted application for a Generator Permit.

D. Prior to commencement of operations, any building permit shall require submittal of a Business Plan to the County Department of Environmental Health Services if such a plan is required under Chapter 6.95 (commencing with Section 25500) of the California Health and Safety Code. (Ord. 4825, 1993.)

22.07.010 Creation of Easements.

Pursuant to Article 2.7 (commencing with Section 65870) of Chapter 4 of Division 1 of Title 7 of the Government Code, which authorizes any city to adopt an ordinance for the imposition of covenants of easements, each City official or agency with authority to issue or approve a land use or development permit shall have authority to require recordation of covenants of easement to assure compliance with any conditions of approval and any other requirement of law. A covenant of easement required pursuant to this Chapter may be for parking, ingress, egress, emergency access, light and air access, landscaping, or open space purposes or a combination of the aforementioned purposes. For purposes hereof, "land use or development permit" shall include, but not be limited to, a grading permit, building permit, development plan approval, specific plan approval, conditional use permit, variance, modification, architectural design approval and all similar permits and approvals for the use of development of land. (Ord. 4454, 1987.)

22.07.020 Common Ownership.

A covenant of easement created pursuant to this Chapter shall only be effective if at the time of its recordation, all of the real property benefited or burdened by the covenant shall be in common ownership. (Ord. 4454, 1987.)

22.07.030 Effective Date, Duration.

The covenant of easement shall be effective when recorded and shall act as an easement pursuant to Chapter 3 (commencing with Section 801) of Title 2 of Part 2 of Division 2 of the Civil Code, except that it shall not merge into any other interest in the real property. Section 1104 of the Civil Code shall be applicable to conveyance of the affected real property. A covenant or easement authorized by this Chapter may not be terminated except as authorized by Section 22.07.070. (Ord. 4454, 1987.)

22.07.040 Identification of Easement and Approval.

A covenant of easement recorded pursuant to this Chapter shall describe the real property to be subject to easement and the real property to be benefited thereby and shall identify the approval, permit, or designation granted which relied upon or required the covenant. (Ord. 4454, 1987.)

22.07.050 Runs with Real Property.

A covenant executed pursuant to this Chapter shall be enforceable by the successors in interest to the real property benefited by the covenant, the City and any person authorized to enforce it by the City. (Ord. 4454, 1987.)

22.07.060 Recordation.

The covenant of easement (i) shall be recorded in the official records of the County of Santa Barbara, (ii) shall contain a legal description of the real property, and (iii) shall be executed by the owner of the real property. From and after the time of its recordation, the covenant shall impart notice thereof to all persons to the extent afforded by the recording laws of this state. Upon recordation, the burdens of the covenant shall be binding upon, and the benefits of the covenant shall inure to, all successors in interest to the real property. (Ord. 4454, 1987.)
22.07.070 Procedure for Release of Covenant.

A. RELEASE. Any owner of property which is burdened or benefited by the covenant of easement may file an application for the release of its covenant. The application shall be filed with the Community Development Department on forms approved by that Department, shall contain the information required by the Department and be accompanied by all applicable processing fees. The Community Development Department shall review said application and shall make a recommendation to the Planning Commission which shall conduct a hearing on said application. Upon a determination that the restriction of the property is no longer necessary to achieve the land use goals of the City, the Planning Commission shall direct the Community Development Director to record a release of the covenant.

B. APPEAL TO CITY COUNCIL. Any decision of the Planning Commission under this Section may be appealed to the City Council by filing a notice of appeal with the City Clerk and making payment of all required appeal fees within ten days after the decision of the Planning Commission. (Ord. 4454, 1987.)

22.07.080 Fees.

The City Council may, by resolution, establish fees for filing applications, processing covenants of easement and releases thereof and any other matters related to this Chapter. (Ord. 4454, 1987.)

---

Chapter 22.08

PARTIALLY DESTROYED BUILDINGS

Sections:
22.08.010 Title and Purpose.
22.08.020 Definitions Generally.
22.08.025 Partially Destroyed Buildings.
22.08.030 Notice to Property Owner.
22.08.040 Duties of Property Owner.
22.08.050 Failure to Abate.
22.08.060 Findings.
22.08.070 Financial Hardship.
22.08.080 Duties of Public Works Director.
22.08.090 Costs to be Borne by Property Owner.
22.08.100 Lien.
22.08.110 Interest Charges.

22.08.010 Title and Purpose.

The City Council hereby finds that the continued presence in an area or neighborhood of a partially destroyed building causes a blight on that neighborhood, adversely affects neighboring property values, invites vandalism, and may result in injury to persons and property. The City Council further finds that the continued presence of partially destroyed buildings is an unsightly and blighting physical object contrary to the general welfare and character of the community. The City Council further finds that the health, safety and welfare of the City requires the removal, repair, or reconstruction of partially destroyed buildings by the property owner or removal of said buildings by the City at the expense of the property owner after the property owner has been given the opportunity, but fails to carry out his duty to abate the condition. (Ord. 4032, 1979.)

22.08.020 Definitions Generally.

For the purposes of this chapter, words, phrases and terms not specifically defined in the Municipal Code shall have the meanings stated in the most recent versions of the California Building Code, as adopted and amended by the City, or Uniform Housing Code that has been adopted by the City. (Ord. 5451, Section 5, 2008; Ord. 4032, 1979.)

22.08.025 Partially Destroyed Buildings.

A partially destroyed building shall be any building or structure or part thereof which has received damage by fire, earthquake, flood, wind or by any similar cause except normal usage and which has not been repaired and which will require reconstruction or repair in order to restore the building or structure to its prior use and normal exterior appearance. (Ord. 4032, 1979.)
22.08.030 Notice to Property Owner.

The Building Official of the City shall give written notice by either personal service or by mail to the property owner of record of a partially destroyed building. Said notice shall include a copy of this chapter of the Code and a statement that the Building Official has determined that the building is a partially destroyed building with a brief and concise description of the conditions which make said building violative of this chapter. Said statement shall also specify a time within which the partially destroyed building shall be repaired, reconstructed or removed by the property owner. (Ord. 4032, 1979.)

22.08.040 Duties of Property Owner.

Within forty-five (45) days after receipt of written notice from the Building Official as provided for in §22.08.030, the property owner shall either remove the partially destroyed building or begin actual repair or reconstruction of such partially destroyed building. The Building Official, upon a showing of good cause and that the removal, repair or reconstruction is delayed due to causes beyond the control of the property owner, may extend the period of time for commencement and/or completion of the work. (Ord. 4032, 1979.)

22.08.050 Failure to Abate.

In the event the property owner has not begun the repair and reconstruction or removal of the structure within the time limits set forth in §22.08.040, the Building Official shall cause to be filed for record with the County Recorder, a Notice of Intention to Record a Notice of Order to Abate describing the real property, naming the property owner thereof, describing the violation and giving notice of the City Council hearing. The Building Official shall give written notice by personal delivery or mail to the property owner that the City intends to carry out the removal of the structure and have the cost of said removal be made a charge against the property owner and lien against the property, unless the building is removed, repaired and/or reconstructed so as to eliminate the condition that is violative of this chapter. The Building Official shall also advise the property owner that he has a right to attend and present evidence at a scheduled hearing before the City Council of the City of Santa Barbara for the purpose of final determination that the building is a partially destroyed building as defined under this chapter, that the blighting condition should be eliminated and that the building should be removed by the City if the violation of this chapter is not eliminated by other parties. Said hearing shall begin no later than thirty (30) days after the date of the personal delivery or mailing of the notice and may be continued by the City Council. (Ord. 4032, 1979.)

22.08.060 Findings.

Upon completion of the hearing, the City Council shall find as to the fact that the building is a partially destroyed building and upon such fact being found shall determine that the building shall be removed, repaired, and/or reconstructed by the property owner within a prescribed time or the City shall cause the building to be removed. Said determination shall be made based upon the evidence presented and a report from the Building Official regarding the existing condition of the building, the estimated costs of repair, reconstruction and removal and the desirability of abating the blighted condition. If the City Council makes such a determination, written findings and an order shall be approved. After said hearing, the City Clerk shall cause to be filed for record a Notice of Order to Abate with the County Recorder and shall give all parties who have a recorded interest in the property notice of such recordation by mail. (Ord. 4032, 1979.)

22.08.070 Financial Hardship.

If the property owner makes an application to the City Council for financial assistance for the repair and/or reconstruction of the partially destroyed building prior to the conclusion of the hearing conducted under 22.08.050 and during the course of that hearing it is determined by the City Council that said partially destroyed building included a legal dwelling as defined by City zoning ordinance; and, if the City Council finds during said hearing that the property owner of said partially destroyed building desires to repair and/or reconstruct the building; and, if the property owner is unable, after making reasonable efforts, to obtain the necessary financing for said repair and/or reconstruction and does not have his or her own financial resources to complete same; and, if the City Council determines that it would be both appropriate and desirable to repair and/or restore said dwelling, then under such conditions the City Council may:
   a. determine that a financial hardship exists;
   b. determine that the restoration of the dwelling is consistent with the City's housing plans, programs, and priorities thereof;
   c. authorize the appropriate City department, advisory committee, commission, or authority to process an appropriate application for financial assistance from any source of funds then available to the City or to any resident of the City, for the purpose of repair and/or reconstruction of said dwelling;
   d. upon the authorization set forth in (c) above, extend the prescribed time for the removal, repair or reconstruction to such date as shall allow sufficient time to determine the outcome of the application for financial assistance. (Ord. 4032, 1979.)
22.08.080 Duties of Public Works Director.

The Public Works Director shall, after completion of the hearing and approval of the findings by the City Council that the building is a partially destroyed building, and after the failure of property owner to remove, repair or reconstruct the partially destroyed building within the prescribed time as set forth in the order, obtain the necessary services by contract or by using City forces to carry out the removal of the partially destroyed building as directed by City Council. A record shall be kept of all costs incurred by the City including time spent for the preparation of plans and the supervision of the work to carry out the removal of the building as a partially destroyed building. Upon completion of said efforts, the Public Works Director shall file a report with the City Council as to the costs incurred. The property owner shall be provided a copy of said report, notice of a hearing before the City Council, and an opportunity to appear before the City Council to be heard regarding the reasonableness of the costs incurred by the City. (Ord. 4032, 1979.)

22.08.090 Costs to be Borne by Property Owner.

Upon completion of the hearing before the City Council as to the reasonableness of the costs, the City Council shall determine the reasonable costs incurred by the City to remove the partially destroyed building and the property owner shall be advised of said amount which shall be due and payable to the City. Upon request of the property owner, the City may agree to a mutually acceptable payment schedule. (Ord. 4032, 1979.)

22.08.100 Lien.

In the event the amount determined to be due and payable to the City is not paid within thirty (30) days after the determination by the City Council or as otherwise agreed, said amount shall become a charge against the property involved. The City Administrator shall thereafter cause the amount of said charge to be recorded on the assessment roll as an assessment against the property and thereafter said assessment shall constitute a special assessment and lien against and upon the property. Any portion of said assessment remaining unpaid after the due date for payment thereof shall be subject to the penalties and proceedings then in effect for property taxes due within the City of Santa Barbara. (Ord. 4032, 1979.)

22.08.110 Interest Charges.

The City shall be entitled to interest at the rate applicable for unpaid taxes on all costs incurred by the City as determined pursuant to Section 22.08.090. (Ord. 4032, 1979.)

Chapter 22.09

BUILDING SAFETY ASSESSMENT PLACARD SYSTEM

Sections:

- 22.09.010 Building Safety Assessment Placard.
- 22.09.020 Definitions.
- 22.09.030 Placards.
- 22.09.040 Standards.
- 22.09.050 Posting of Placards.
- 22.09.060 Unlawful to Alter or Remove Placard.
- 22.09.070 Unlawful to Violate Placard Conditions.

22.09.010 Building Safety Assessment Placard System.

The City of Santa Barbara hereby establishes a building safety assessment placard system for the purpose of notifying the public of the condition of inspected buildings and structures and to inform the public of any conditions or limitations placed on the entry into or continued occupancy of inspected buildings or structures. The Chief Building Official shall administer the building safety assessment placard system. The provisions of this Chapter are applicable to all buildings and structures regulated by the City of Santa Barbara. (Ord. 5495, 2009.)
22.09.020 Definitions.

For purposes of this Chapter, the following terms and phrases are defined as follows:

A. BUILDING AND SAFETY DIVISION. The Building and Safety Division of the Community Development Department of the City of Santa Barbara.

B. CHIEF BUILDING OFFICIAL. The Chief Building Official of the City of Santa Barbara or his or her authorized representative.

C. PLACARD. A form established by the Chief Building Official that announces the condition of a building or structure and informs persons of any applicable conditions or limitations on the entry into or continued occupancy of the building or structure.

D. SAFETY ASSESSMENT. A visual, non-destructive examination of a building or structure for the purpose of determining the condition of the building or structure and establishing appropriate conditions or limitations on the entry into or continued occupancy of the building or structure. (Ord. 5495, 2009.)

22.09.030 Placards.

The Chief Building Official shall develop and maintain building safety assessment placard forms. Each placard form shall include a reference to this Chapter, the City Seal, and the address and phone number of the Building and Safety Division. (Ord. 5495, 2009.)

22.09.040 Standards.

Subject to the discretion of the Chief Building Official to respond to individual circumstances, the building safety assessment placards should fall within the following general categories and should be used in the following circumstances:

A. INSPECTED – LAWFUL OCCUPANCY PERMITTED. This placard is posted on a building or structure when the Chief Building Official has determined, following a safety assessment, the building or structure has no apparent structural hazards. This placard does not necessarily mean that there is no damage to the building or structure.

B. RESTRICTED USE. This placard is posted on a building or structure when the Chief Building Official has determined, following a safety assessment, the building or structure is damaged and entry into or continued occupancy of the building or structure must be conditioned or limited in order to protect the safety of the public and the occupants. The placard will note in general terms the type of damage observed during the safety assessment and will specify the conditions or limitations on entry into or continued occupancy of the building or structure.

C. UNSAFE – DO NOT ENTER OR OCCUPY. This placard is posted on a building or structure when the Chief Building Official has determined, following a safety assessment, the building or structure has been damaged to such a degree that entry into or continued occupancy of the building or structure poses a threat to life and safety. Buildings or structures posted with this placard shall not be entered under any circumstance, except as authorized in writing by the Chief Building Official. Safety assessment teams working under the authority of the Chief Building Official are authorized to enter these buildings or structures at any time. The placard will note in general terms the type of damage observed during the safety assessment. This placard is a not demolition order. If the Chief Building Official determines a building or structure must be demolished in order to protect public safety, a separate demolition order shall be issued. (Ord. 5495, 2009.)

22.09.050 Posting of Placards.

A. LAWFUL OCCUPANCY PERMITTED. Upon completion of a safety assessment during which the Chief Building Official determines that the building or structure has no apparent structural hazard, the Chief Building Official may post an INSPECTED – LAWFUL OCCUPANCY PERMITTED placard at each entry point into the building or structure.

B. RESTRICTED OR UNSAFE. Upon completion of a safety assessment during which the Chief Building Official determines the building or structure has been damaged to a degree that public safety requires restrictions on, or prohibitions against, the entry into or continued occupancy of the building or structure, the Chief Building Official shall post the appropriate placard from the categories specified in subsections B or C of Section 22.09.040 at each entry point into the building or structure. Once a placard is attached to, or posted at, a building or structure, the placard shall not be removed, altered, or covered except by, or at the direction of, the Chief Building Official. (Ord. 5495, 2009.)

22.09.060 Unlawful to Alter or Remove Placard.

It shall be unlawful for any person to alter, remove, cover, or deface a placard except as authorized by the Chief Building Official. (Ord. 5495, 2009.)
22.09.070 Unlawful to Violate Placard Conditions.

A. It shall be unlawful for any person to enter or continue to occupy any building or structure in violation of any condition or limitation specified on any placard affixed to, or posted at, a building or structure pursuant to this Chapter.

B. It shall be unlawful for any person to knowingly enter or continue to occupy any building or structure in violation of any condition or limitation placed on such entry or occupancy by the Chief Building Official, whether or not a placard remains affixed to, or posted at, the building or structure. (Ord. 5495, 2009.)
Chapter 22.10

VEGETATION REMOVAL

22.10.010 Title.

This chapter shall be known and referred to as the Vegetation Removal Ordinance of the City of Santa Barbara. (Ord. 3808 §1, 1975.)

22.10.020 Purpose.

The purpose of this chapter is to control the removal of vegetation from hillside areas of the City of Santa Barbara and areas designated as open space in the Open Space Element of the General Plan in order to prevent erosion damage, reservoir siltation, denuding, flood hazards, soil loss, and other dangers created by or increased by improper clearing activities; and to establish the administrative procedure for issuance of permits for vegetation removal. (Ord. 4043, 1980; Ord. 3808 §1, 1975.)

22.10.030 Definitions.

For the purposes of this Chapter, the following words shall have the meanings set forth herein unless the context requires a different meaning:

A. "HILLSIDE DESIGN DISTRICT" means a parcel or a portion of a parcel which is within the Hillside Design District as defined in Section 22.68.060 of this Code.
B. "PERSON" means any individual, firm, partnership, joint venture, association, social club, fraternal organization, corporation, estate, trust, business trust, receiver, syndicate, or any other group or combination acting as a unit, and the plural as well as the singular number.
C. "SITE" means any lot or parcel of land or contiguous combination thereof under the same ownership, or portion of any lot or parcel, where vegetation removal is performed or permitted.
D. "VEGETATION" means introduced or native plants, shrubs, trees, grasses, and roots thereof. (Ord. 5416, 2007; Ord. 4878, 1994; Ord. 3808 §1, 1975.)

22.10.040 Permit Required - Exceptions.

No person may permit, cause to have done or perform vegetation removal on any site in the Hillside Design District, as defined in Section 22.10.030. A contrary to the terms of or without first having obtained a permit from the Division of Land Use Controls; except that a permit is not required for the following:

A. Harvesting of crops, fruit or nut trees.
B. Removal or destruction of vegetation on a site on which the total area of native vegetation removal is less than one thousand (1,000) square feet within a period of one year, and not exceeding three thousand (3,000) square feet in any five year period, if such removal or destruction of vegetation is deemed appropriate, taking into account potential siltation or pesticide contamination of creeks, drainages or water supply reservoirs, by the Chief of Building and Zoning. Removal or destruction of non-native vegetation on a site on which the total area of non-native vegetation removal is less than two thousand (2,000) square feet within a period of one year, and not exceeding six thousand (6,000) square feet in any five year period, if such removal or destruction of vegetation is deemed appropriate, taking into account potential siltation or pesticide contamination of creeks, drainages or water supply reservoirs, by the Chief of Building and Zoning. Removal or destruction of native or non-native vegetation will not be subject to a Vegetation Removal Permit if the Applicant can show that the average slope of the removal site and access to the removal site is less than twenty percent (20%).
C. The removal or destruction of vegetation performed, caused to be performed, required to be performed, or approved by a fire prevention agency having jurisdiction including but not limited to weed abatement, clearance around a building or structure, fuel breaks, fire breaks and controlled burns, except that when new construction is proposed in the Hillside Design District and clearance will be required around the new construction under the California Fire Code, a Vegetation Removal Permit shall be required unless the applicant can show that the vegetation removal meets the exception set forth in Paragraph B above.
D. The removal or destruction of vegetation by public utilities on existing rights-of-way or property owned by such utility or existing access rights-of-way to such utility rights-of-way or property.
E. The removal or destruction of vegetation by public agencies on publicly owned property or rights-of-way for trails, roads, highways, streets, flood control projects or other similar or related public uses.

F. The removal or destruction of vegetation in connection with work performed under a valid grading permit issued pursuant to the provisions of Chapter 22.06 of the Municipal Code (Grading Ordinance) when the work includes precautionary measures to control erosion and flood hazards during the prosecution of such work as well as upon completion thereof and all conditions set forth in Section 22.10.060 of this Chapter have been met. (Ord. 4878, 1994; Ord. 4043, 1980; Ord. 3808 §1, 1975.)

22.10.050 Application.

Prior to the removal or destruction of vegetation covered by this chapter, the owner or person in control of a site, or the agent of either one, shall submit a written application on forms prescribed and provided by the Division of Land Use Controls of the City of Santa Barbara, properly filled in. Said forms when completed shall at a minimum describe the proposed location, method, purpose, and duration of the vegetation removal and the anticipated impact on flood hazards, erosion, soil loss, reservoir siltation, sedimentation and water quality. No application shall be considered complete until the data requested by the application form is submitted to the Division of Land Use Controls, and an Environmental Assessment, if required, has been completed. (Ord. 4043, 1980; Ord. 3808 §1, 1975.)

22.10.055 Fees.

Application and permit fees shall be established by resolution of the City Council. There shall be a fee for filing of an application which is intended to cover the costs of processing the application and is not refundable. In addition, there shall be a separate fee for the permit that is issued. Any person who shall commence work for which a permit is required under this chapter without first having obtained a required permit, shall, if subsequently permitted to obtain a permit, pay fees in the amount of five (5) times the required fees as established by resolution. (Ord. 4043, 1980.)

22.10.060 Approval - Conditions.

The Division of Land Use Controls shall issue a permit approving the proposed vegetation removal when satisfied that the performance of the work will not be likely to create new or increase existing flood, erosion, soil loss, reservoir siltation, sedimentation or water quality hazards, and the proposed work conforms with the requirements of all applicable laws and regulations adopted pursuant thereto. No such permit shall be issued unless it has been approved by the Architectural Board of Review or the Historic Landmarks Commission if it is in a Landmarks District.

A. The Community Development Department may impose such conditions on the issuance of a permit as are deemed reasonably necessary to avoid creating new or increasing existing flood, erosion, soil loss, reservoir siltation, sedimentation or water quality hazards. These conditions may include, but shall not be limited to, the following:
1. A requirement that certain protective structures or devices be installed in or adjacent to drainage courses to control downstream transportation of silt or debris;
2. The methods to be used in the removal or destruction of vegetation and the sequence of such operations;
3. A requirement that portions of the area cleared which are not necessary for prompt use for crops or trees be planted with approved grasses or other plants to provide protection against erosion damage.
B. Each permit issued shall contain the following conditions:
1. Vegetation removal shall be prohibited from November 1 to April 15 of any year unless effective and specific erosion control measures approved by the Division of Land Use Controls are in place.
2. Removal of any native vegetation in the one hundred (100) year flood zone of any creek or drainage shall be prohibited except as required for flood control purposes or to restore native habitat.
3. Soil Suitability. Site specific agricultural soil tests shall be required on all very low suitability land planned for orchard crop production in order to determine the viability of that land for such crops prior to the issuance of any land use permits as set forth in Administrative Guidelines approved by resolution of City Council. Agricultural use shall not be allowed on land with non-viable soils including soils that are shown to have a very high erosion hazard potential or which qualify as Class VIII soils as defined by the United States Department of Agriculture Soil Conservation Service.
4. Avocado Root Rot. Where a property is or is proposed to be planted with avocados in an area which is shown to have a very high root rot hazard, a three (3) to six foot (6') fence, wall or other suitable barrier shall be installed in order to prevent the spread of Avocado Root Rot.
5. Minimization of Soil Erosion. A mixture of Blando Brome and Zorro Fescue shall be seeded in all cleared orchard areas between October 1 and November 15. Seeds shall be hand broadcast at a rate of eight (8) pounds per acre and shall be covered by one-half (1/2) to one (1) inch of soil. Mowing shall occur after the seeded grass has matured in the Spring in order to allow for continued perpetuation.
6. Oak Tree Removal. Any oak tree with a minimum trunk diameter of four inches (4") measured four feet (4') from the base of the trunk removed shall be replaced by five (5) oak trees of the same species elsewhere on the lot. Replaced oak trees shall be effectively maintained.

7. Habitat Protection. Removal of any native vegetation in the one hundred (100) year flood zone of any creek or drainage is prohibited, except as required for flood control purposes. In addition, vegetation removal shall be prohibited in any area that is determined to be a Southern Oak Woodland, Riparian or Bunchgrass habitat by a qualified biologist.

8. Land clearing that involves noise generation greater than 60 dB(A) at the property line adjacent to any school or other educational facility shall not occur during hours when classes are in session. (Ord. 4878, 1994; Ord. 4043, 1980; Ord. 3808 §1, 1975.)

22.10.090 Severability.

If any portion of this chapter or the application thereof to any person or circumstance is held invalid, the remainder of this chapter and the application thereof to other persons or circumstances shall not be affected thereby. (Ord. 3808 §1, 1975.)
Chapter 22.11

MAINTENANCE OF APPROVED LANDSCAPE PLANS

Sections:
22.11.010 General Provisions.
22.11.020 Definitions.
22.11.030 Maintenance Required.
22.11.040 No Alteration of Approved Landscape Plan Without a Permit.
22.11.050 Alterations to Approved Landscape Plans.

22.11.010 General Provisions.

The provisions of this Chapter shall apply as follows:

A. SCOPE OF APPLICATION. The provisions of this Chapter shall apply to the following lots within the City:
   1. Any lot developed with a multiple-family residential, commercial, or industrial use; or
   2. Any lot developed solely with a single-family residence or a duplex residential unit, where the conditions of approval for the development on the lot require the installation and maintenance of trees or landscaping in accordance with an approved landscape plan.

B. RELATIONSHIP TO CITY TREE PRESERVATION ORDINANCE. If a tree is protected under both Chapter 15.24 and this Chapter 22.11, the alteration or removal of such a tree shall be processed and regulated in accordance with the provisions of Chapter 15.24. Otherwise, any tree shown on an approved landscape plan for a lot subject to this Chapter shall be maintained in accordance with the approved landscape plan and the provisions of this Chapter. (Ord. 5505, 2009.)

22.11.020 Definitions.

As used in this Chapter, the following terms shall have the indicated meanings:

A. ALTERATION. An alteration shall include, but not be limited to, the addition, placement, replacement, cutting, or removal of trees, plants, or other improvements on an approved landscape (excluding the replacement of trees, plants, or other improvements with trees, plants, or other improvements of substantially similar design, character, and coverage at maturity).

B. APPROVED LANDSCAPE PLAN. Any approved plan on record with the City that shows landscaping or tree improvements on the lot.

C. MAINTENANCE. Maintenance of an approved landscape plan consists of all of the following:
   1. Regular watering, pruning, fertilizing, and clearing of debris and weeds in a manner that promotes and maintains the health and natural growing conditions of the trees and plants shown to remain or to be installed on the approved landscape plan.
   2. Timely and regular removal of dead trees or plants shown to remain or to be installed on the approved landscape plan and the immediate replacement of such dead trees or plants with new trees or plants of substantially similar design, character, and coverage at maturity as the trees or plants shown to remain or to be installed on the approved landscape plan. Removal of dead trees may require prior notice to and approval from the Parks and Recreation Director pursuant to Section 15.24.030.
   3. Installation, maintenance, repair, and replacement (as necessary) of irrigation systems as specified on the approved landscape plan.
   4. Compliance with any additional directions or specifications regarding the maintenance of trees and plants shown to remain or to be installed on the approved landscape plan and the irrigation systems indicated on an approved landscape plan for the lot. (Ord. 5505, 2009.)

22.11.030 Maintenance Required.

It is unlawful for an owner of a lot subject to the provisions of this Chapter to not maintain the trees, plants, irrigation system, and other improvements shown on an approved landscape plan in accordance with the approved landscape plan and the provisions of this Chapter. (Ord. 5505, 2009.)

22.11.040 No Alteration of Approved Landscape Plan Without a Permit.

It is unlawful for any person to alter or to authorize or allow the alteration of an approved landscape plan for a lot subject to the provisions of this Chapter without the permit required pursuant to Section 22.11.050. (Ord. 5505, 2009.)
22.11.050 Alterations to Approved Landscape Plans.

Alterations to approved landscape plans for lots subject to the provisions of this Chapter are subject to the following regulations:

A. PERMIT REQUIRED. Except as provided in Subsections C and D of this Section, any alteration to the design, character, plant coverage at maturity, or other improvements specified on an approved landscape plan shall require a permit issued by the Community Development Department.

B. REVIEW AND APPROVAL. An application for a permit to alter an approved landscape plan shall require prior approval from the Historic Landmarks Commission, the Architectural Board of Review, or the Single Family Design Board, depending upon which body approved the landscape plan or which body is responsible for reviewing the development on the lot.

C. SIGNIFICANT ALTERATION OR REMOVAL OF TREES. Any significant alteration or removal of a tree shown on an approved landscape plan for a lot subject to this Chapter shall require compliance with Chapter 15.24 of this Code. For purposes of this subsection C, the significant alteration or removal of a tree is defined as specified in Section 15.24.020 of this Code.

D. EXCEPTIONS.

1. Notwithstanding Subsection A above, a permit is not required for minor alterations as specified in the administrative procedures for the Historic Landmarks Commission, the Architectural Board of Review, or the Single Family Design Board, as approved by a resolution of the City Council. Minor alterations to approved landscape plans may be approved as a ministerial action by the Community Development Director (or the Director’s designee) without review by the Historic Landmarks Commission, the Architectural Board of Review, or the Single Family Design Board. The Community Development Director or the Director’s designee shall have the authority and discretion to refer any minor alteration to the Historic Landmarks Commission, the Architectural Board of Review, or the Single Family Design Board if, in the opinion of the Community Development Director, the alteration has the potential to have an adverse effect on the integrity of the landscape plan.

2. Any alteration to an approved landscape plan for a lot located within El Pueblo Viejo Landmark District or the Brinkerhoff Avenue Landmark District shall be reviewed and approved pursuant to Section 22.22.130 of this Code. (Ord. 5505, 2009.)
Chapter 22.12

ARCHAEOLOGICAL AND PALEONTOLOGICAL RESOURCES

Sections:

22.12.001 Legislative Intent.
22.12.010 Applicability.
22.12.020 Standards.

22.12.001 Legislative Intent.

It is the intent of this Section to provide for the preservation and protection of significant archaeological and paleontological resources found in the City of Santa Barbara.

22.12.010 Applicability.

All new development in the City of Santa Barbara shall be designed and constructed wherever feasible to avoid destruction of archaeological and paleontological resources consistent with the standards outlined in Section 22.12.020, below.

22.12.020 Standards.

1. KNOWN SITES. Permits to perform grading determined through the Environmental Review process or indicated through records kept by the State of California, or the University of California, to be within an area of known or probable archaeological or paleontological significance may be conditioned in such a manner as to:
   (a) Ensure the preservation or avoidance of the site, if feasible; or
   (b) Minimize adverse impacts on the site; or
   (c) Allow reasonable time for qualified professionals to perform archaeological or paleontological investigations at the site; or
   (d) Preserve for posterity, in such other manner as may be necessary or appropriate in the public interest, the positive aspects of the archaeological or paleontological site involved.

2. UNKNOWN SITES. Where a grading permit has been issued with respect to an area not known at the time of issuance to include archaeological or paleontological resources, and where it is subsequently learned, either by representatives of the City or by any persons doing development pursuant to a grading permit, that significant archaeological or paleontological resources may be encompassed within the area to be graded or being graded, all grading which has substantial potential to damage archaeological or paleontological resources shall cease and the grading permit deemed suspended to that extent. The finding of a site which may contain significant archaeological or paleontological resources shall be reported to the Chief of Building and Zoning, or the Public Works Director if a public project, and the Community Development Director within 72 hours from the time such archaeological or paleontological resources are found. The Chief of Building and Zoning, or the Public Works Director if a public project, upon receiving such a report, shall cause a preliminary investigation of the site to be made by qualified experts at the permittee's expense within five (5) working days after the time such a report is received. If the preliminary investigation should confirm that the site does or may contain significant archaeological or paleontological resources, the grading permit shall be suspended for a period not to exceed 45 days after the date the finding of the resources was first reported to or learned by the City. During the period of suspension, and as promptly as reasonably possible, the Chief of Building and Zoning, or the Public Works Director if a public project, shall develop conditions to be included in the grading permit pursuant to the provisions of Subsection 22.12.020.1 When such conditions are developed and included in the grading permit, said permit shall be deemed reissued subject to such conditions, and the suspension shall be deemed terminated. In extraordinary circumstances, the suspension may be extended beyond 45 days if the Chief of Building and Zoning, or the Public Works Director if a public project, makes application to the City Council for such an extension and the Council shall approve extension of the suspension.

3. APPEALS. Any condition or conditions imposed pursuant to the provisions of Subsection 22.12.020.1 may be appealed to the Planning Commission and thence to the Council in the manner prescribed by Section 1.30.050 of this Code. (Ord. 5136, 1999; Ord. 4174, 1982.)
Chapter 22.14
SURFACE MINING AND RECLAMATION PRACTICE

Sections:
Regulations. 22.14.090 Periodic Review.
Requirements. 22.14.120 Appeals.

22.14.010 Purpose and Intent.
This Ordinance is adopted pursuant to the California Surface Mining and Reclamation Act of 1975 (Public Resources Code 2710 et seq.), hereinafter referred to as the State Act, and the California Administrative Code Regulations adopted pursuant thereto (14 Cal. Admin. Code §3500 et seq.), hereinafter referred to as the State Regulations.

The City Council finds and declares that the extraction of minerals is essential to the continued economic well-being of the City and to the needs of society and the reclamation of mined lands is necessary to prevent or minimize adverse effects on the environment and to protect public health and safety.

The City Council further finds that the reclamation of mined lands, as provided in this ordinance, the State Act, and the State Regulations, will permit the continued mining of minerals and will provide for the protection and subsequent beneficial use of the mined and reclaimed land.

The City Council further finds that surface mining takes place in diverse areas where the geologic, topographic, climatic, biological, and social conditions are significantly different and that reclamation operations and the specifications therefore, may vary accordingly.

The City Council further finds that the purpose of the regulation of surface mining operations is to assure that:
A. Adverse environmental effects are prevented or minimized and that mined lands are reclaimed to a usable condition which is readily adaptable for alternative land uses.
B. The production and conservation of minerals are encouraged, while giving consideration to values relating to recreation, watershed, wildlife, and aesthetic enjoyment.
C. Residual hazards to the public health and safety are eliminated. (Ord. 4483, 1987)

A. "Exploration" or "Prospecting" means the search for minerals by geological, geophysical, geochemical or other techniques, including, but not limited to, sampling, assaying, drilling, or any surface or underground works needed to determine the type, extent, or quantity of materials present.
B. "Mined Lands" includes the surface, subsurface, and groundwater of an area in which surface mining operations will be, are being or have been conducted, including private ways and roads appurtenant to any such area, land excavations, workings, mining waste, and areas in which structures, facilities, equipment, machines, tools or other materials or property which results from, or is used in, surface mining operations are located.
C. "Minerals" include any naturally occurring chemical element or compound, or groups, elements or compounds, formed from inorganic processes and organic substances, including, but not limited to, coal, peat, and bituminous rock, but excluding geothermal resources, natural gas, and petroleum.
D. "Mining Waste" includes the residual of soil, rock, tailings, mineral, liquid, vegetation, equipment, machines, tools, or other materials or property directly resulting from, or displaced by, surface mining operations.
E. "Operator" means any person who is engaged in surface mining operations, himself, or who contracts with others to conduct operations on his behalf.
F. "Overburden" includes soil, rock or other materials that lie above the natural mineral deposit or in between deposits, before or after their removal, by surface mining operations.
G. "Permit" includes any formal authorization from or approval by, the City, the absence of which would preclude surface mining operations.
H. "Person" means any individual, firm, association, corporation, organization, or partnership, or any city, county, district, or the state or any department or agency thereof.
I. "Reclamation" is the process of land treatment that minimizes water degradation, air pollution, damaged aquatic or wildlife habitat, flooding, erosion, and other adverse effect from surface mining operations, including adverse surface effects, incidental to underground mines, so that mined lands are reclaimed to a usable condition which is readily adaptable for alternate land uses and creates no danger to public health or safety. The process may extend to affected lands surrounding mined lands, and may require backfilling, grading, resoiling, revegetation, soil compaction, stabilization or other measures.

J. "State Board" means the State Mining and Geology Board, and the Department of Conservation, State of California.

K. "State Geologist" is the individual holding office as structured in Section 677 of Article 3, Chapter 2 of Division 1 of the Public Resources Code.

L. "Surface Mining Operations" are all or any part of the process involved in the mining of minerals on mined lands by removing overburden and mining directly from the mineral deposits, open pit mining of minerals naturally exposed, mining by the auger method, dredging and quarrying, or surface work incidental to an underground mine.

Surface mining operations shall include but are not limited to, in-place distillation, retorting or leaching; the production and disposal of mineral wastes; prospecting and exploratory activities. (Ord. 4483, 1987)

22.14.030 Incorporation of State Act and Regulations.

The provision of the California Surface Mining and Reclamation Act of 1975 (Public Resources Code Sections 2710 through 2793) and the California Administrative Code Regulations implementing the Act (14 Cal. Admin. Code Sections 3500 through 3508), as either may be amended from time to time, are made part of this paragraph by reference, as if fully set forth herein. (Ord. 4483, 1987)

The provisions of this Chapter shall apply to the incorporated areas of the City of Santa Barbara and all lands owned by the City outside the corporate limits, except as follows:

A. Excavations or grading conducted for farming or on-site construction or for the purpose of restoring land following a flood or natural disaster.

B. Prospecting and exploration for minerals of commercial value where less than 1000 cubic yards of overburden is removed in any one location of one acre or less.

C. Any surface mining operation that does not involve either the removal of a total of more than 1,000 cubic yards of minerals, ores, and overburden, or involve more than one acre in any location.

D. Surface mining operations that are required by federal law in order to protect a mining claim, if such operations are conducted solely for that purpose.

E. Such other mining operations that the City deter-mines to be of an infrequent nature, and which involve only minor surface disturbances and are categorically identified by the State Board, pursuant to Sections 2714(d) and 2758(c) of the California Surface and Mining Reclamation Act of 1975. (Ord. 4483, 1987)

22.14.050 Permit and Reclamation Plan Requirements.

A. Unless exempt by provisions of the State Act or State Regulations, any person who proposes to engage in surface mining operations, as defined in this Chapter, shall, prior to the commencement of such operations, obtain (1) a permit to mine and (2) approval of a reclamation plan in accordance with the provisions set forth in this Chapter, the State Act and the State Regulations.

An application for a permit or for approval of a reclamation plan for surface mining operations shall be made on forms provided by the Community Development Department.

B. A person who has obtained a vested right to conduct a surface mining operation prior to January 1, 1976, shall not be required to secure a permit pursuant to the pro-visions of this Chapter, as long as such vested right continues, provided that no substantial change is made in that operation except in accordance with the provisions of this Chapter. A person shall be deemed to have such vested rights if, prior to January 1, 1976, he has in good faith and in reliance upon a permit or other authorization, if such permit or such other authorization was required, diligently commenced surface mining operations and incurred substantial liabilities for work and materials necessary therefore. Expenses incurred in obtaining the enactment of an ordinance in relation to a particular operation or the issuance of a permit shall not be deemed liabilities for work or materials.

A person who claims to have obtained a vested right to conduct surface mining operations prior to January 1, 1976 shall submit to the Community Development Department not later than March 31, 1988, an application for approval of a reclamation plan for operations to be conducted after January 1, 1976, unless (i) a reclamation plan was approved by the County of Santa Barbara prior to January 1, 1976, and (ii) the person submitting that plan has accepted responsibility for re-claiming the mined lands in accordance with that Plan. No provision of this Chapter shall be construed to require the filing of a reclamation plan or, the reclamation of mined lands, on which surface mining operations were con ducted prior to, but not after January 1, 1976.
C. The Community Development Director shall notify the State geologist of the filing of all permit applications within thirty (30) days of receipt of the completed application.

D. This Ordinance shall be periodically reviewed and revised, as necessary, in order to insure that it is in accordance with the State policy for mined lands and reclamation. (Ord. 4483, 1987)

The Community Development Department shall forward the completed application to the Environmental Analyst for environmental review. Following completion of the environmental review process, the Community Development Director shall schedule a public hearing before the Planning Commission for the purpose of consideration of the issuance of a conditional use permit for the proposed surface mining operation. (Ord. 4483, 1987)

### 22.14.070 Performance Bond.

On a finding by the Planning Commission that a supplemental guarantee for the reclamation of the mined land is necessary, and upon a determination by the Community Development Department of the cost of the reclamation of the mined land according to the reclamation plan, a surety bond, lien, or other security guarantee, conditioned upon the faithful performance of the reclamation plan, shall be filed with the Community Development Department. Such surety shall be executed in favor of the City of Santa Barbara and shall be reviewed and revised as necessary, biannually. Such surety shall be maintained in an amount equal to the cost of completing the remaining reclamation of the site as prescribed in the approved or amended reclamation plan during the succeeding two year period or other reasonable term. (Ord. 4483, 1987)

Any reclamation plan, report, application, and other document pursuant to this Chapter is a public record unless it can be demonstrated to the satisfaction of the City that the release of such information or part thereof, would reveal production, reserves, or rate of depletion entitled to protection as proprietary information. The City shall identify such proprietary information as a separate part of each application. A copy of all permits, reclamation plans, reports, applications and other documents submitted pursuant to this chapter, including proprietary information, shall be furnished to the district geologist of the State Division of Mines and Geology by the City of Santa Barbara. Proprietary information shall be made available to persons other than the state geologist only when authorized by the mine operator and by the mine owner, in accordance with Section 2778, California Surface and Reclamation Act of 1975. (Ord. 4483, 1987)

### 22.14.090 Periodic Review.

As a condition of approval for the permit or the reclamation plan or both, a schedule for periodic inspections of the site shall be established to evaluate continuing compliance with the permit and the reclamation plan. (Ord. 4483, 1987)

### 22.14.100 Amendments.

A proposed amendment to an approved reclamation plan may be submitted to the City at any time, detailing proposed changes from the original plan. Deviation from the original plan shall not be undertaken until such amendment has been filed with, and approved by, the City.

An amendment to an approved reclamation plan shall be approved in the same procedure as is prescribed for approval of the reclamation plan.

Variations in approved reclamation plans may be allowed upon request of the operator or applicant upon a finding by the Planning Commission that each such requested variation is necessary to achieve the prescribed or higher post-mining use of the re-claimed land. (Ord. 4483, 1987)

### 22.14.110 Enforcement.

It shall be the duty of the Community Development Director to enforce this Chapter. Any person who violates the provisions of this Chapter shall be subject to the penalties described in Chapter 1.28 of the Santa Barbara Municipal Code. (Ord. 4483, 1987)

### 22.14.120 Appeals.

Any person aggrieved by an act or determination of the Planning Commission in the exercise of the authority granted herein shall have the right to appeal to the City Council pursuant to the provisions of Section 1.30.050 of this Code. (Ord. 5136, 1999; Ord. 4483, 1987)
Chapter 22.18

SEISMIC SAFETY ORDINANCE

Sections:
22.18.010 Scope.
22.18.020 Definitions.
22.18.030 General Requirements.
22.18.040 Appeals.
22.18.050 Enforcement.
22.18.060 Administration.

22.18.010 Scope.

This Chapter shall apply to all buildings identified by street address within the "City of Santa Barbara Survey of Potentially Hazardous Buildings" completed in 1988 ("Survey"). The Chapter shall also apply to any other building which utilizes unreinforced masonry bearing walls as an element of construction and for which construction began prior to the City's adoption on July 24, 1947 of the 1946 Edition of the California Building Code as adopted and amended by the City. This Chapter does not apply to (i) single family residences, duplexes, or buildings containing less than five dwelling units and used exclusively for residential purposes, and (ii) buildings owned and occupied by federal, state or county governments. (Ord. 5451, Section 5, 2008; Ord. 4984, 1996; Ord. 4586, 1989.)

22.18.020 Definitions.

A. BEARING WALL. A wall with a total superimposed load in excess of one hundred (100) pounds per linear foot, or an infill wall that will experience lateral forces as a result of the inability of other lateral load resisting framing elements to resist the lateral forces specified in Appendix Chapter One of the Uniform Code for Building Conservation.

B. DISTRICT MITIGATION SCHEDULE. A document adopted by resolution of City Council that subdivides the City of Santa Barbara into five districts, and includes a schedule identifying, by district, deadlines for permit approval and for completion of construction.

C. HIGH RISK BUILDING. Any Potentially Hazardous Building having an occupant load in excess of one hundred (100) persons, as determined by California Building Code, as adopted and amended by the City, Section 1002.1, except (i) a building having exterior walls braced with masonry or wood frame crosswalls of at least full story height, with a minimum length of one and one-half (1 1/2) times the story height, spaced less than forty (40) feet apart in each story, or (ii) a building occupied less than twenty (20) hours per week. Any building meeting one of these exception criteria shall be classified as a Moderate Risk Building.

D. MODERATE RISK BUILDING. Any Potentially Hazardous Building not classified as a High Risk Building.

E. NOTICE OF BUILDING CLASSIFICATION. A notice to be mailed by the Chief of Building and Safety to the owner of every structure identified within the Survey, specifying the degree of risk represented by that structure.

F. POTENTIALLY HAZARDOUS BUILDING. A building for which construction began prior to the City's adoption on July 24, 1947 of the 1946 Edition of the California Building Code, as adopted and amended by the City, and which is constructed of unreinforced masonry bearing wall construction.

G. SERVICE DATE. The date a notice is posted by the United States Postal Service, as evidenced by certified mail receipt, to a building owner at the address most recently indicated by the roles of the County Tax Assessor.

H. CALIFORNIA HISTORICAL BUILDING CODE. Part 8 of Title 24 of the California Code of Regulations.

I. CALIFORNIA BUILDING CODE, AS ADOPTED AND AMENDED BY THE CITY. A model code published by the International Conference of Building Officials, incorporated by reference in Section 22.04.010 of this Code.

J. UNIFORM CODE FOR BUILDING CONSERVATION. A code applying exclusively to existing buildings and published by the International Conference of Building Officials, the Second Printing (copyright 1987) portions of which have been amended by local ordinance and incorporated by reference in Section 22.04.010 of this Code. (Ord. 5451, Section 5, 2008; Ord. 4984, 1996; Ord. 4586, 1989.)

22.18.030 General Requirements.

Each Potentially Hazardous Building shall be designated as either a High or Moderate Risk Building and shall be included on a list of such structures maintained by the Chief of Building and Safety. The owners of each structure listed in the Survey shall be served a Notice of Building Classification and a District Mitigation Schedule.
A. PERMITS AND CONSTRUCTION. Unless otherwise excepted, each Potentially Hazardous Building shall meet all of the requirements outlined in Appendix Chapter One of the Uniform Code for Building Conservation as amended by local ordinance. Where the scope of work proposed by the owner of a Potentially Hazardous Building, including demolition and replacement of an existing building or structure pursuant to Section 28.87.045, is limited to compliance with this Chapter, the requirements for permit approval shall be exclusively those outlined within this Chapter. Minor exterior work, such as parapet bracing or wall anchor plate installation on buildings located within El Pueblo Viejo Landmark District or another landmark district or on a building that is a designated Landmark, shall be subject to review by the Community Development Director or designee in accordance with guidelines approved by the Historic Landmarks Commission. Such minor exterior work on buildings outside of landmark districts shall be subject to review by the Community Development Director or designee in accordance with guidelines approved by the Architectural Board of Review. Other exterior work will be subject to full Historic Landmarks Commission or Architectural Board of Review approval, as applicable. Nothing in this Chapter shall be construed so as to prohibit additions to buildings as permitted under Municipal Code Chapter 28.85.

B. TIME LIMITS. All time limits shall be as outlined in the District Mitigation Schedule established by resolution of the City Council.

C. EXCEPTIONS. Two categories of buildings are excepted from this general requirement as provided below: (i) Moderate Risk Buildings which may utilize alternative compliance measures provided by Appendix Chapter One of the Uniform Code for Building Conservation in accordance with Table No. A1-E as amended by local ordinance and adopted by reference in Chapter 22.04 of this Code, and (ii) historical buildings listed in the 1987 Cultural Resources Section of the City's Master Environmental Assessment, and Landmarks and Structures of Merit designated pursuant to Chapter 22.22 of this Code which may utilize the alternative compliance measures outlined in (i) above or those described in Chapter 8-5 "Alternative Structural Regulations" of the California Historical Building Code. Application of alternative compliance measures for High Risk Historic Buildings shall be evaluated on a case by case basis in accordance with the required findings of reasonable safety contained in the California Historical Building Code. (Ord. 5609, 2013; Ord. 5451, Section 5, 2008; Ord. 4984, 1996; Ord. 4847, 1994; Ord. 4586, 1989.)

22.18.040 Appeals.

Property owners appealing the determination that their building is potentially hazardous must do so in writing to the Building and Fire Code Board of Appeals ("Board") in accordance with Section 204 of the Uniform Administrative Code. An appeal shall be filed with the City Clerk within 180 days of the service date for the Notice of Building Classification. Each appeal request shall be accompanied by a fee in an amount set by resolution of the City Council and shall include verification that (i) construction began after July 24, 1947, (ii) materials used were other than unreinforced masonry, or (iii) the building is in compliance with requirements outlined in Sections A106 through A108 of the Uniform Code for Building Conservation, as demonstrated by a complete structural analysis in accordance with those sections. The Chief of Building and Safety shall review all materials used in support of the appeal prior to scheduling the appeal and may reclassify such buildings based upon the information submitted. All decisions and appeals shall be governed by standards and procedures established by the Community Development Director and all decisions of the Board shall be final. (Ord. 4984, 1996; Ord. 4586, 1989.)

22.18.050 Enforcement.

Any person who fails to comply with the provisions of this Chapter within the time limits established herein is guilty of a misdemeanor. Each 30 day period of continued failure to comply shall constitute a separate offense. In the alternative, the Chief of Building and Safety may elect to invoke the provisions of the Uniform Code for the Abatement of Dangerous Buildings. (Ord. 4984, 1996; Ord. 4586, 1989.)

22.18.060 Administration.

The Chief of Building and Safety may promulgate administrative rules and policies for the administration of this Chapter. (Ord. 4984, 1996; Ord. 4586, 1989.)

### 22.21.010 Encroachments into Public Roads, Streets, Alleys and Rights of Way Declared a Nuisance.

A. Encroachments in, on, under, or interfering with the use or improvement of any public road, street, alley, storm drain, sewer or waterline easement, or other public property or right of way which are not removed within 30 days following demand by the City Public Works Director or City Engineer may be declared to be a public nuisance by resolution of the City Council.

B. Any obstruction to the use or improvement of any public road, street, alley, sewer or water easement, or other public property or right of way may be declared to be a public nuisance by resolution of the City Council.

C. A condition declared to be a public nuisance by resolution of the City Council may be abated at the joint and several expense of:
   1. the person or persons who placed, installed, or constructed such encroachment or obstruction;
   2. the person or persons for whose benefit such encroachment or obstruction was placed, installed or constructed; and,
   3. the present owner(s) of the land or premises for the benefit of which the encroachment or obstruction was placed, installed or constructed.  (Ord. 4831, 1993)

### 22.21.020 Description of Property in Resolution Declaring Nuisance.

The resolution adopted pursuant to Section 22.21.010 shall describe the property upon which the nuisance exists, or the property for the benefit of which such nuisance was placed, installed, or constructed by reference to the latest County Tax Assessor's records available to the public, and no other description of the property shall be required. In lieu thereof, reference may be made to the parcel or lot and block number of the property according to the official map or other records.  (Ord. 4831, 1993)

### 22.21.030 Resolution May Cover Several Parcels.

Any number of parcels of property may be included in one and the same resolution declaring the nuisance. (Ord. 4831, 1993)

### 22.21.040 Posting and Form of Notice to Abate.

After adoption of the resolution as provided by Sections 22.21.020 and 22.21.030, the Public Works Director, or City Engineer shall cause a notice to abate the nuisance to be mailed to the person responsible for the obstruction or encroachment, if known, and conspicuously posted on the property on which the nuisance exists, and on the property which was to benefit from the obstruction or encroachment, if reasonably identified. At least three such notices shall be placed on such property, near such nuisance, at intervals not more than one hundred feet (100') in distance apart. Such notice shall include the words: "Notice to Abate Nuisance" in letters not less than one inch (1") in height, and shall be substantially in the following form:
NOTICE TO ABATE NUISANCE

NOTICE IS HEREBY GIVEN, that on __________, 19 __, the Santa Barbara City Council adopted a resolution declaring that an obstruction or encroachment located within or extended into public property by __________, or installed for the benefit of property more particularly described in such resolution, constitutes a public nuisance which must be abated by removal, otherwise the obstruction or encroachment will be removed and the nuisance will be abated by order of the City in which case the cost of such removal, together with incidental expenses, shall be charged to such person or agency responsible and assessed upon the lots and lands for the benefit of which such installation was made, and such costs and incidental expenses will constitute a lien upon such lots or lands until paid. Reference is hereby made to such resolution for further particulars.

All persons and all property owners having any objections to the proposed abatement are hereby notified to attend a meeting of the Santa Barbara City Council to be held on the _______ day of __________, 19 __, at the Council Chamber of the Santa Barbara City Hall, 735 Anacapa Street, Santa Barbara, California, when their objections will be heard and given due consideration.

Dated:

(Ord. 4831, 1993)

22.21.050 Time for Posting Notice to Abate.

The notice provided in Section 22.21.040 shall be posted at least ten (10) days prior to the time stated therein for hearing objections by the City Council. (Ord. 4831, 1993)

22.21.060 Council to Hear Objections to Proposed Removal.

At the time stated in the notice posted pursuant to Sections 22.21.040 and 22.21.050, the Council shall hear and consider all objections or protests, if any, to the proposed abatement found by resolution to be a nuisance, and may continue the hearing from time to time. Upon the conclusion of the hearing the Council by motion or resolution shall allow or overrule any or all objections, whereupon the Council may perform the work of removal. The decision of the Council on the matter shall be final and conclusive. (Ord. 4831, 1993)

22.21.070 Order to Abate - Owner May Abate Before City Begins Work.

After final action has been taken by the Council under Section 22.21.060 on the disposition of any protests or objections, or in case no protests or objections have been received, the Council, by motion or resolution, may order the Public Works Director or City Engineer to abate the nuisance considered pursuant to this Chapter by causing such nuisance to be removed and the premises restored to a lawful condition, suitable for public use and such officer, and the deputies, agents and employees of such officer are hereby expressly authorized to enter upon private property for that purpose. Any property owner, or other person responsible, shall have the right to have such nuisance abated at his own expense; providing abatement is accomplished prior to the arrival of the City officer or representatives prepared to do the same. (Ord. 4831, 1993)

The City officer or deputy charged with such abatement shall keep an account of the costs, including the costs of printing and posting notices, of abating the nuisance as provided in this Chapter. The City officer or deputy charged with such abatement shall render an itemized written report to the Council, identifying the parties known to be responsible, and showing the costs, apportioned to each separate lot or parcel of land as provided in this Chapter. At least five days before such report is submitted to the Council for confirmation, a copy of the report, together with a notice of the time when such report shall be submitted to the Council for confirmation, shall be mailed to the address of the parties responsible, if their address is known, and posted with City Council meeting notices on the premises of City Hall. (Ord. 4831, 1993)
22.21.090 Hearing On and Confirmation of City's Costs - Costs to be Lien - Collecting Costs.

At the time fixed for receiving and considering the report required by Section 22.21.080, the City Council shall hear the same, together with any objections which may be raised by any of the persons liable to be assessed for the work of abating the nuisance and thereupon make such modifications in the report as they deem necessary, after which, by motion or resolution, the report shall be confirmed. The amount of the cost for abating such nuisance shall be referred to the City Finance Director for collection and may be assessed against the various parcels of land referred to in the report and, as confirmed, shall constitute a lien on such property for the amount of such assessments, respectively.

After confirmation of such report, a copy thereof shall, as determined by the Finance Director, be delivered to the County Assessor and to the County Tax Collector, whereupon it shall be the duty of such officers to add the amounts of the respective assessments to the next regular bills for taxes levied against the respective lots and parcels of land identified and thereafter such amounts shall be collected at the same time and in the same manner as ordinary property taxes are collected, and shall be subject to the same penalties and the same procedure for foreclosure and sale in case of delinquency as is provided for ordinary property taxes. (Ord. 4831, 1993)

22.21.100 Reservation of Police Powers.

Nothing in this Chapter is intended to limit the ability of the City to respond as needed to remove a nuisance or other obstruction where required to maintain the public health, peace or safety, under provisions of Chapter 10.56 of this Code, or as otherwise required in proper exercise of a police power. At the discretion of the Public Works Director or City Engineer any such obstruction, encroachment or other nuisance which has been placed, fallen, or is so positioned as to directly interfere which public use, obscure visibility, impede traffic, produce imminent hazard, or which is placed in violation of any law, shall be removed without the order, delay, notice, or accounting provided in this Chapter. The Public Works Director is authorized to seek recovery for the costs of such removal from the party or parties responsible. (Ord. 4861, 1994; Ord. 4831, 1993)
Chapter 22.22

HISTORIC STRUCTURES

22.22.010 Purpose.

It is hereby declared as a matter of public policy that the recognition, preservation, enhancement, perpetuation and use of structures, natural features, sites and areas within the City of Santa Barbara having historic, architectural, archaeological, cultural or aesthetic significance is required in the interest of the health, economic prosperity, cultural enrichment and general welfare of the people. The purpose of this chapter is to:

A. Safeguard the heritage of the City by providing for the protection of landmarks representing significant elements of its history;
B. Enhance the visual character of the City by encouraging and regulating the compatibility of architectural styles within landmark districts reflecting unique and established architectural traditions;
C. Foster public appreciation of and civic pride in the beauty of the City and the accomplishments of its past;
D. Strengthen the economy of the City by protecting and enhancing the City's attractions to residents, tourists and visitors;
E. Promote the private and public use of landmarks and landmark districts for the education, prosperity and general welfare of the people;
F. Stabilize and improve property values within the City;
G. Undertake the identification, inventory, and consideration of those structures, sites and natural features within the City which may merit designation as a City Historic Resource in accordance with the Historic Resource criteria established by state Public Resource Code Section 5024.1, as it is presently enacted or hereinafter amended. (Ord. 5333, 2004; Ord. 3900 §1, 1977.)

22.22.020 Definitions.

Unless the context requires a different meaning, the words and phrases used in this chapter are defined as follows:
A. "ADOBE." An unburnt, sun-dried, clay brick; or a building made of adobe bricks.
B. "ADVISORY MEMBER." An Honorary Member of the Historic Landmarks Commission of the City of...
Santa Barbara appointed under the provisions of the City Charter.
C. "ALTERATION." An exterior change or modification. For the purposes of this chapter, an alteration shall include, but not be limited to, exterior changes to or modification of a structure, including the architectural details or visual characteristics such as paint color and surface texture, grading, surface paving, new structures, a structural addition, cutting or removal of trees and other natural features, disturbance of archaeological sites or areas, and the placement or removal of any exterior objects such as signs, plaques, light fixtures, street furniture, walls, fences, steps, plantings and landscape accessories affecting the exterior visual qualities of the property.

D. "ARCHAEOLOGICAL." Pertaining to the scientific study of the life and culture of earlier peoples by excavation of sites and relics.

E. "ARCHITECTURAL." Pertaining to the science, art or profession of designing and constructing buildings.

F. "CEQA." The “California Environmental Quality Act” as codified at state Public Resources Code §§ 21000 et seq. and the approved Administrative Guidelines related thereto as established in the California Code of Regulation, Title 14, Chapter 3, §§ 15000-15387.

G. "COMMISSION." Historic Landmarks Commission established by City Charter.

H. "CONTRIBUTING RESOURCE OR STRUCTURE." A building, structure, object, or site within the boundaries of an Historic District which reflects the significance of the district as a whole, either because of historic associations, historic architectural qualities, or its archaeological features. Another key aspect of a “contributing resource” is its possible historic integrity.

I. "COUNTY ASSESSOR." The Tax Assessor of the County of Santa Barbara.

J. "CULTURAL." Pertaining to the concepts, habits, skills, arts, instruments, institutions, etc. of a given people in a given period.

K. "DEMOLITION." The permanent removal from a structure of either a significant component or a character defining element, as may be determined by the Historic Landmarks Commission or where appropriate, by the Community Development Director. Demolition shall include, but not be limited to, the act of pulling down, destroying, removing, relocating or razing a structure or commencing the work thereof with the intent of completing the same.

L. "ELEVATIONS." The flat scale orthographic projected drawings of all exterior vertical surfaces of a building.

M. "FAÇADE." The front of a building or the part of a building facing a street, courtyard, etc.

N. "HISTORIC DISTRICT." A delineated geographic area of the City (or a noncontiguous grouping of real properties within the City) where most of the properties within the district are thematically architecturally related and possess historical significance, special character, or aesthetic value, including, but not limited to, a distinct section of the City possessing a significant concentration of cultural resources which are united historically or aesthetically either by plan or by physical development, as such a district is designated by the City Council, acting by resolution or by ordinance, as being worthy of protection under this Chapter.

O. "HISTORIC RESOURCE." A City designated “Landmark” or a City designated “Structure of Merit.”

P. "HISTORIC RESOURCE SURVEY." A field investigation of structures, sites, or natural features within a certain designated area or neighborhood of the City made by the City for the purpose of identifying potential City Historic Resources.

Q. "LANDMARK." A structure, natural feature, site or area having historic, architectural, archaeological, cultural or aesthetic significance and designated as a landmark under the provisions of this chapter.

R. "LANDMARK DISTRICT." An area of the City of Santa Barbara containing a number of structures, natural features or sites having historic, architectural, archaeological, cultural or aesthetic significance and designated as a landmark district under the provisions of this chapter.

S. "MEMBER." A member of the Historic Landmarks Commission of the City of Santa Barbara appointed under the provisions of the City Charter.

T. "NATURAL FEATURE." A tree, plant life or geological or other distinctive physical characteristic or natural feature or element present on the real property.

U. "NEIGHBORHOOD." An area of the City of Santa Barbara designated as such in the City's General Plan.

V. "NON-CONTRIBUTING RESOURCE OR STRUCTURE." A building, structure, object, or site within the boundaries of an Historic District that does not possess the age, qualifications, or characteristics of a Contributing Resource, but which has been included within the Historic District because of its geographic location within the Historic District.

W. "OWNER." A person, association, partnership, firm, corporation or public entity appearing as the holder of legal title to any property on the last assessment roll of the County Assessor.

X. "POTENTIAL HISTORIC RESOURCES LIST." A list consisting of those structures, real property sites, or real property natural features which have been identified by the Historic Landmarks Commission as being a potentially significant historic resource as such identification process is provided for in Section 22.22.030 hereof.

Y. "PRESTENSION EASEMENT." An interest held by the public in any structure, natural feature, site or area not owned by the public and restricting its use, alteration, relocation or demolition for the purpose of preservation.

Z. "PROJECT DESIGN APPROVAL." The review and approval of an application on its merits where the application has been filed pursuant to Santa Barbara Municipal Code Chapter 22.22, Chapter 22.68, or Chapter 22.69, and where the minutes of the Historic Landmarks Commission (or the Architectural Board of Review or the Single Family Design Board, as the appropriate case may be) designate the approval as the “Project Design Approval.” For the purposes of the state "Permit Streamlining Act” (Government Code section 65950 et seq.), the “Project Design Approval” is the substantive approval of the project on its design merits.
22.22.030 The Preparation and Use of Historic Resource Surveys; Identification of Potential Historic Resources for Possible Designation as a City Landmark or a Structure of Merit.

A. POTENTIAL HISTORIC RESOURCES LIST. The Historic Landmarks Commission, acting with the administrative support of Community Development Department staff, shall periodically review, amend, and maintain a master list of potential Historic Resources within the City (the City’s “Potential Historic Resources List”) as part of the certified Master Environmental Assessment Guidelines for Archaeological Resources and Historic Structures and Sites (hereinafter the “MEA Historic Resources Guidelines”) as such Guidelines are defined and provided for in CEQA Guideline Section 15169.

B. SURVEYS AND IDENTIFICATION OF POTENTIAL HISTORIC RESOURCES.

1. Use of Historic Resource Surveys. The Community Development Director shall prepare, administer, and implement regulations for undertaking and completing Historic Resource Surveys within certain designated areas and neighborhoods of the City of Santa Barbara on a regularly scheduled basis for the purposes of identifying possible Historic Resources pursuant to the mandate of Subsection (A) above for the listing of such resources on the Potential Historic Resources List. Such Historic Resource Surveys shall be conducted in a manner consistent with the requirements of the City’s MEA Historic Resources Guidelines and with appropriate survey regulations as approved by resolution of the City Council. The Historic Resource Surveys shall also be undertaken in accordance with locational priorities established by the Commission for certain areas and neighborhoods of the City, subject only to the necessary direction and budgetary approval of the City Council.

2. Initial Survey Study Area Designation. The area of the City shown on the “2004 Demolition Review/Historic Resources Survey Study Area” as shown on the map denominated the “2004 Demolition Review/Historic Resources Survey Study Area” attached hereto as a Chapter exhibit (dated as of the effective date of the ordinance approving this amendment), shall be the first area of the City designated for neighborhood Historic Resource Surveys pursuant to the requirements of Subsection (B)(1) above.

3. Administrative Review of Existing Potential Historic Resources List. Upon the adoption of the ordinance making this amendment to Chapter 22.22, the Community Development Director, acting through the City’s Urban Historian or other appropriate designated staff, is hereby directed to undertake an administrative review of each of the properties, buildings, structures, and real property features which were heretofore listed on the City’s Potential Historic Resources List, as such List was attached as an appendix to the City’s Master Environmental Assessment Historic Resources Guidelines as approved by action of the City Council in January 2002. This administrative review shall be completed within two (2) years of the adoption of the ordinance amending this Chapter and shall, within one hundred twenty (120) days of its completion, result in the submission to the HLC of a proposed revised Potential Historic Resources List consistent with the provisions of this Chapter for consideration and approval, and its approval by the HLC at a noticed public hearing conducted in accordance with the processes set forth in subsection (E) and subsection (F) hereof.

C. IDENTIFICATION OF POTENTIAL RESOURCES BY COMMISSION MEMBERS. In addition to the identification of potential Historic Resources through the use of Historic Resource Surveys pursuant to subsection (B) above, a member of the Commission may identify a structure, a real property site, or a natural feature which, in the Commissioner’s opinion, may qualify for possible inclusion on the City’s Potential Historic Resources List. Any such identification may be made by the filing of a written request for the listing of the structure, site, or natural feature as a Potential City Historic Resource pursuant to the provisions of this Section. Such written request shall state in detail the reasons the Commissioner believes that such a listing is appropriate and shall be made in accordance with the criteria for listing as a Potential Historic Resource established in the MEA Historic Resources Guidelines.

D. LISTING OF STRUCTURES, SITES, AND NATURAL FEATURES ON THE CITY’S POTENTIAL HISTORIC RESOURCES LIST.

1. Use of Survey Identifications. Those structures, real property sites, or natural features identified through the survey process established by Subsection (B) hereof as having potential for designation as a City Historic Resource shall be considered and acted upon by the Commission for official listing on the City’s Potential Historic Resources List at a noticed hearing conducted in accordance with subsection (E) below held not more than one year after the identification of the structure, real property site, or feature through the completion of the Survey process for that area of the City.

Pending a hearing on possible listing initiated pursuant to this subsection (D), the Community Development staff may arrange for the preparation of an expert Historic Structure/Site Report regarding the possible Historic Resource significance of the structure, site, or feature. Such report shall be prepared in accordance with the requirements of the MEA Historic Resources Guidelines.

The failure of the Commission to list an identified structure, site or feature within the one year time frame required by this subsection shall constitute a determination by the Commission that the structure, site, or feature is not appropriate for listing on the City’s Potential Historic Resources List, unless a delay beyond one year is at the specific written request of the owner of the real property being considered for listing.
2. **Commissioner Historic Resource Identification Requests.** Those structures, real property sites, or natural features identified as a result of a Commissioner request as having a potential for designation as City Historic Resources pursuant to Subsection (C) above shall be considered and acted upon by the Commission for listing on the Potential Historic Resources List at a noticed hearing conducted in accordance with subsection (E) below held not more than one hundred twenty (120) days after the date of the filing with the Community Development Director of the written request by a Commissioner pursuant to subsection (C) hereof. Pending a hearing on a possible listing initiated pursuant to this subsection, the Community Development staff may request the preparation of a report prepared by the City’s Urban Historian regarding the possible Historic Resource significance of the site, structure, or feature.

The failure of the Commission to list a structure, site, or feature identified by a Commissioner as having a potential for designation within the one hundred twenty (120) day time frame required by this subsection shall constitute a determination by the Commission that the structure, site, or feature is not appropriate for listing on the City’s Potential Historic Resources List unless a delay beyond one hundred twenty (120) days is at the specific written request of the owner of the real property being considered for listing.

3. **Use of Historic Structure/Site Report Obtained in Connection with HLC Review.** Those structures, real property sites, or natural features identified as a result of a Historic Structure/Site Report obtained either in connection with HLC review occurring pursuant to the landmark district requirements of Section 22.22.130 or Section 22.22.140 (or obtained in connection with environmental review of a proposed new development conducted in accordance with the requirements of the City MEA Historic Resource Guidelines) as having the potential for designation as City Historic Resources shall be considered and acted upon by the Commission for listing on the Potential Historic Resources List. Such consideration shall occur at a Commission hearing held concurrent and in accordance with the landmark district hearing process required by Section 22.22.130 or concurrent with HLC final comment review of the submitted Historic Structure/Site Report scheduled in accordance with the process established for such HLC comments in the MEA, as the case may be.

E. **PUBLIC HEARING PROCESS FOR POSSIBLE LISTING.** Prior to conducting the noticed hearing required by subsection (D)(1) or (D)(2) above for the listing of an identified structure, site, or natural feature, the owner(s) of the real property upon which the structure or feature is located (as such ownership is listed on the last equalized County of Santa Barbara Tax Assessment Roll) shall be provided with written notice of the Commission’s hearing by depositing a notice thereof in the regular United States Mail not less than sixty (60) days prior to the scheduled hearing date, unless the owner consents in writing to a lesser period of time. Such notice shall, at a minimum, contain the notice information required by state Government Code Section 65094, [as currently enacted or hereinafter amended].

At the Commission hearing to consider the listing, the property owner [or owner’s representative] and City staff shall be entitled to present any relevant evidence, both oral and written, to establish whether the structure, site or natural feature has appropriate potential for designation as a City Historic Resource.

F. **APPEAL OF LISTING DETERMINATION TO THE CITY COUNCIL.** A decision by the Commission to list a structure, site, or feature on the City’s Potential Historic Resources List may be appealed to the City Council in accordance with the appeal procedures established in Santa Barbara Municipal Code Chapter 1.30.

G. **ADMINISTRATIVE REGULATIONS RELATING TO THE PRESERVATION OF CITY HISTORIC RESOURCES.** The City Community Development Director shall prepare administrative regulations relating to the proper completion of Historic Surveys, the method of listing of Potentially Historic Resources and the appropriate process for evaluating measures intended to protect and preserve identified potentially Historic Resources, and such administrative regulations shall be approved by a resolution of the City Council adopted concurrently with the ordinance effectuating this amendment to Santa Barbara Municipal Code Chapter 22.22. (Ord. 5333, 2004.)

22.22.035 Demolition Applications Within a Survey Area.

A. **PROPOSED DEMOLITION OF AN OLDER UNSURVEYED STRUCTURE, FEATURE OR SITE.** An application for a building permit to alter a structure, site, or natural feature within the area denominated as the “2004 Demolition Review/Historic Resources Survey Study Area” (or within any other survey area which may subsequently be established by the City Council pursuant to this Chapter) shall be referred to the Community Development Director for a determination of whether the structure, site, or feature may have potential as a City Historic Resource in accordance with the criteria established in this Chapter and for a determination of whether the alteration work proposed in the permit application could constitute a “demolition” as that term is defined by this Chapter.

B. **ADMINISTRATIVE RESOURCE EVALUATIONS.** If, under Section (A) above, the site, structure, or feature proposed for demolition (as determined by the Community Development Director in accordance with definition in this Chapter) has not yet been surveyed and it is determined, through the use of City records, that the structure or feature is in excess of fifty years of age, the Community Development Director shall request that an administrative historic resource evaluation be prepared by the City Urban Historian (or other appropriate City staff person designated by the Director). This evaluation shall be for the purposes of assessing the potential historic resource significance of the structure, site, or feature prior to its demolition. In addition, the purpose of the administrative historic resource evaluation shall be to determine whether it is appropriate to obtain an Historic Structure/Site Report in order to assist the Commission in determining whether the structure, site, or feature should be considered by the Commission for designation as a City Historic Resource pursuant to this Chapter.
C. COMPLETION OF THE ADMINISTRATIVE EVALUATION - ACTION ON EVALUATIONS.

1. Timeframe for Administrative Evaluation – Failure to Complete. The administrative Historic Resource evaluation required by Subsection (B) above shall be completed within thirty (30) calendar days of the date of an applicant’s request for a permit to demolish a structure or natural feature or site within a survey area. Absent the written consent of the property owner, the failure to complete such an administrative evaluation within the required thirty (30) day period shall be deemed a determination that the structure, feature, or site has no potential as a City Historic Resource, and thereafter, the City shall issue the requested demolition permit on a ministerial basis, provided that the applicant/owner has otherwise complied with applicable City building/demolition permit submittal requirements for such a demolition.

2. Determination of No Potential Historic Significance. If the administrative Historic Resource evaluation determines in a timely fashion under this Section that the structure, feature, or site has no significant potential as an Historic Resource, the City shall issue the requested demolition permit on a ministerial basis, provided the applicant has otherwise complied with any other applicable City building/demolition permit submittal requirements for such a demolition.

3. Determination of Potential Historic Significance. If the administrative Historic Resource evaluation determines that a structure, site, or a natural feature has potential as a City Historic Resource, the Community Development Director shall refer the requested demolition permit for full discretionary review by the Commission and for a concurrent determination by the Commission concerning the possible designation of the structure, site, or feature as a City Historic Resource. Such a Commission hearing shall be conducted pursuant to the hearing requirements of subsection (D) below and shall occur within the time frame set forth therein.

   Upon completion of an Administrative Evaluation which indicates that the structure, site or feature may have potential as a City Historic Resource, and pending a Commission hearing on the issuance of the demolition permit or the possible designation of the structure, site, or feature, the Community Development Director shall require the applicant, at the applicant’s expense, to obtain and submit a professional report on the possible Historic Resource significance of the structure, site, or feature for which the demolition permit application has been made. Such a report shall be prepared in accordance with the requirements of the MEA Historic Resource Guidelines and shall be made available to the Commission for consideration at its scheduled hearing on the permit request and possible designation.

D. COMMISSION PUBLIC HEARING PROCESS FOR DEMOLITION APPLICATIONS AND POSSIBLE LISTING OR DESIGNATION.

1. Complete Demolitions. For those demolition applications referred to the Commission pursuant to the requirements of subsection (C)(3) above which, in the opinion of the Community Development Director, constitute the complete demolition of a possibly historic structure or of a site feature, the demolition permit request shall be scheduled at the Commission for a hearing on the demolition permit application in accordance with this Section concurrently with a duly noticed hearing to allow the Commission to initiate a recommendation to the City Council to designate the structure or feature as a City Landmark pursuant to Section 22.22.050 of this Chapter.

   The Commission hearing shall be scheduled within sixty (60) days of the completion of and submission to the City of the owner’s Historic Resource Report required by subsection (C)(3) above, as such completion shall be certified in writing by the Community Development Director. The applicant/owner shall be provided with not less than fifteen (15) days prior written notice of the Commission hearing, which notice shall contain the information required by state Government Code Section 65094, as currently enacted or hereinafter amended, provided that such notice period may be less with the owner’s specific written consent.

   At the Commission hearing, the applicant/owner and City staff shall be entitled to present all relevant evidence, both oral and written, to establish whether a demolition permit should be issued for the structure, site or feature and to establish whether the structure, site, or feature should or should not be recommended for designation as a City Landmark.

   In deciding whether to approve the issuance of a demolition permit pursuant to this subsection (D)(1), if the Commission determines that the demolition permit should be issued, the Commission may also impose those historic preservation mitigation measures in connection with the issuance of the demolition permit that the Commission deems appropriate.

   If the Commission declines to issue the requested demolition permit, the Commission shall concurrently act to adopt a resolution of intention initiating the possible designation of the structure, site or feature as a City Landmark to the City Council pursuant to the Landmark designation provisions of Section 22.22.050 of this Chapter.

2. Partial Demolitions. For those permit applications referred to the Commission pursuant to the requirements of subsection (C)(3) above which, in the opinion of the Community Development Director, constitute the removal or demolition of a significant component or character-defining element of a possibly historic structure, site, or feature (hereinafter referred to as a “partial demolition”), the permit request shall be scheduled at the Commission for a hearing on the application in accordance with this subsection (D)(2) concurrently with a duly noticed hearing to allow the Commission to also decide among the following options: 1. the listing of the structure, site, or feature as a Potential Historic Resource, or 2. its designation by the Commission as a City Structure of Merit, or 3. a recommendation to the City Council to designate the structure, site, or feature as a City Landmark pursuant to this Chapter.
22.22.037 Demolition of a Listed Historic Structure.

A. GENERALLY. No building permit shall be issued for the demolition (as defined in this Chapter) of a structure, site, or natural feature listed on the City’s Potential Historic Resources List except upon the completion of a review of the application by the Commission and except upon the imposition of appropriate and necessary measures designed by the Commission to mitigate any potential for loss of Historic Resources resulting from the demolition or partial demolition. However, the Commission may not deny an application to partially or completely demolish a listed structure, natural feature, or site unless the Commission undertakes one of the following actions: 1. initiates and completes the designation of the structure, natural feature, or site as a City Structure of Merit, or 2. the Commission adopts a resolution of intention recommending the designation of the structure, site, or feature as a City Landmark to the City Council pursuant to the Landmark designation processes and notice requirements established by this Chapter. Should the Commission fail to act to designate a structure, site, or feature for which a demolition application has been made and deemed complete and which has been referred to the Commission pursuant to subsection (C)(3) of Section 22.22.035 above as a Structure of Merit, or should the Commission fail to recommend the City Council designate a structure, site or feature as a City Landmark as required by this Section, the demolition application shall be deemed approved and shall be issued by City staff without additional conditions except those related to compliance with other Municipal Code requirements. (Ord. 5333, 2004.)

B. AUTHORITY TO PROHIBIT THE DEMOLITION OF A POTENTIAL CITY HISTORIC RESOURCE. The Commission may appropriately condition the demolition or partial demolition of a structure, site, or natural feature listed on the Potential Historic Resources List as necessary to mitigate the potential loss of Historic Resources resulting from the demolition or partial demolition. The Commission hearing shall be scheduled within sixty (60) days of the completion of and submission to the City of the owner’s Historic Resource Report required by subsection (C)(3) above, as such completion shall be certified complete by the Community Development Director. The applicant/owner shall be provided with not less than fifteen (15) days prior written notice of the Commission hearing, which notice shall contain the information required by state Government Code Section 65094, as currently enacted or hereinafter amended provided that such notice period may be less with the owner’s specific written consent.

In deciding whether to approve the City’s issuance of a building permit for a partial demolition pursuant to this subsection (D)(2), if the Commission decides that the permit may be issued, the Commission may impose appropriate historic preservation mitigation measures in connection with the issuance of the permit and may also elect to list the altered structure, site, or feature as a Potential City Historic Resource or to designate it as a Structure of Merit or to recommend its designation as a City Landmark by the City Council pursuant to the designation requirements of this Chapter.

When deciding an application for a permit for a partial demolition pursuant to this subsection (D)(2), if the Commission declines to issue such a permit altogether, it shall concurrently act to either designate the structure, site, or feature as a City Structure of Merit or to adopt a resolution of intention recommending its designation as a City Landmark by the City Council pursuant to the Landmark designation requirements of this Chapter.

In considering whether to designate the structure, site or feature a City Landmark, the City Council, if it elects not to designate the structure, site, or feature as a City Landmark, may approve the issuance of the requested permit with those historic preservation mitigation measures deemed appropriate by the Council, which conditions may include the designation of the altered structure as a Structure of Merit.

E. FAILURE TO ACT WITHIN A TIMELY MANNER. Should the Commission fail to act to designate a structure, site, or feature for which a demolition application has been made and deemed complete and which has been referred to the Commission pursuant to subsection (C)(3) of Section 22.22.035 above as a Structure of Merit, or should the Commission fail to recommend the City Council designate a structure, site or feature as a City Landmark as required by this Section, the demolition application shall be deemed approved and shall be issued by City staff without additional conditions except those related to compliance with other Municipal Code requirements.

(Ord. 5333, 2004.)

22.22.037 Demolition of a Listed Historic Structure.

A. GENERALLY. No building permit shall be issued for the demolition (as defined in this Chapter) of a structure, site, or natural feature listed on the City’s Potential Historic Resources List except upon the completion of a review of the application by the Commission and except upon the imposition of appropriate and necessary measures designed by the Commission to mitigate any potential for loss of Historic Resources.

Such Commission review shall be conducted in accordance with the resource preservation criteria and process established in the MEA Historic Resource Guidelines.

B. AUTHORITY TO PROHIBIT THE DEMOLITION OF A POTENTIAL CITY HISTORIC RESOURCE. The Commission may appropriately condition the demolition or partial demolition of a structure, site, or natural feature listed on the Potential Historic Resources List as necessary to mitigate the potential loss of Historic Resources resulting from the demolition or partial demolition. However, the Commission may not deny an application to partially or completely demolish a listed structure, natural feature, or site unless the Commission undertakes one of the following actions: 1. initiates and completes the designation of the structure, natural feature, or site as a City Structure of Merit, or 2. the Commission adopts a resolution of intention recommending the designation of the structure, site, or feature as a City Landmark to the City Council pursuant to the Landmark designation processes and notice requirements established by this Chapter.

C. FAILURE OF THE COMMISSION TO DESIGNATE IN A TIMELY FASHION; STANDARD DEMOLITION CONDITIONS. The failure of the Commission to make a Structure of Merit designation (or to initiate a Landmark designation to the City Council in the case of a Landmark) in connection with the denial of a partial or complete demolition application for a structure, feature, or site covered by this Section within sixty (60) days of the completion of the City’s environmental review of the application shall be deemed an approval of the permit without permit conditions concerning the mitigation of the loss of Historic Resources, except for those standard mitigation measures identified in the MEA Historic Resource Guidelines as being appropriate for the loss of a listed structure, site, or feature, and except for those conditions necessary for compliance with other Municipal Code building permit requirements.

D. MINOR ALTERATIONS TO POTENTIAL HISTORIC RESOURCES. Notwithstanding subsection (A) hereof, nothing herein shall be deemed to require HLC review of all building permit applications for alterations to a property listed on the Potential Historic Resources List except for those alterations which otherwise require the issuance of a building permit and which, in the determination of the Community Development Director, constitute a “demolition” as that term is defined in this Chapter.
In addition, certain exterior alterations to a potentially significant Historic Resource (as listed on the Potential Historic Resources List) which require the issuance of a building permit may be approved by the Community Development Director on an administrative basis pursuant to the processes established in Section 22.22.030(G) [the Historic Resource Administrative Regulations] if, in the prior written determination of the Community Development Director, the proposed alteration will not substantially and adversely alter the structure’s appearance or remove a character-defining feature of the structure, site or natural feature. Such administrative review shall be in the sole discretion of the Community Development Director and, if necessary, may be referred to the HLC for a determination of whether any particular application may constitute a substantial and adverse alteration to the structure, site, or feature necessitating formal review of the application by the HLC. (Ord. 5333, 2004.)

22.22.040 Criteria for Designation of Landmarks and Structures of Merit.

In considering a proposal to recommend to the City Council any structure, natural feature, site or area for designation as a Landmark or, in designating a City Structure of Merit, the Commission shall utilize any or all of the following criteria and considerations:

A. Its character, interest or value as a significant part of the heritage of the City, the State or the Nation;
B. Its location as a site of a significant historic event;
C. Its identification with a person or persons who significantly contributed to the culture and development of the City, the State or the Nation;
D. Its exemplification of a particular architectural style or way of life important to the City, the State or the Nation;
E. Its exemplification of the best remaining architectural type in a neighborhood;
F. Its identification as the creation, design or work of a person or persons whose effort has significantly influenced the heritage of the City, the State or the Nation;
G. Its embodiment of elements demonstrating outstanding attention to architectural design, detail, materials or craftsmanship;
H. Its relationship to any other landmark if its preservation is essential to the integrity of that landmark;
I. Its unique location or singular physical characteristic representing an established and familiar visual feature of a neighborhood;
J. Its potential of yielding significant information of archaeological interest;
K. Its integrity as a natural environment that strongly contributes to the well-being of the people of the City, the State or the Nation. (Ord. 5333, 2004; Ord. 4848, 1994; Ord. 3900 §1, 1977.)

22.22.050 Procedure for Designation of a Landmark.

Upon its own initiative or upon the application of any person or entity (hereinafter referred to as the "applicant") the Commission may recommend to the City Council the designation as a landmark of any structure, natural feature, site or area (hereinafter referred to as the "property") having historic, architectural, archaeological, cultural or aesthetic significance. The procedure for designation of any landmark is as follows:

A. The Commission may adopt a resolution of intention announcing its intention to consider recommendation of the property to the City Council for designation as a landmark.
B. No later than thirty-five (35) days from the date of such resolution of intention, the Commission shall conduct a public hearing on the proposed designation, at which hearing any interested party shall be provided a reasonable opportunity to be heard. In the absence of timely oral or written objection by any interested party, such public hearing may be continued to subsequent meetings of the Commission.
C. Prior to the Commission's public hearing on the proposed designation, notice of the time, place and purpose of the hearing shall be given at least ten (10) days prior to the date of the hearing by publication at least once in a newspaper of general circulation within the City, and, at least ten (10) days prior to the date of the hearing, by first class mail to the applicant, to the owner or owners of the property, and to the owners of abutting properties, as the ownership of such properties is listed on the last equalized assessment roll for the County of Santa Barbara.
D. Upon the completion of the properly noticed public hearing on the proposed designation, the Commission shall adopt a resolution to either recommend designation of the property as a landmark or to deny such a designation, no later than the next regularly scheduled meeting following the public hearing. However, in the absence of timely oral or written objection by any interested party, adoption of any such resolution may be continued to subsequent meetings of the Commission. The resolution shall be reduced to writing and shall contain specific findings by the Commission to recommend the designation or to deny the designation, as the case may be. Upon adoption of a resolution to deny recommendation, consideration of the proposal for designation shall terminate in the absence of a timely appeal to the City Council.
E. After receipt of a resolution of recommendation for designation from the Commission, the City Council shall consider the recommendation pursuant to Section 22.22.055.
F. An appeal from a decision rendered by the Commission under Section 22.22.050.D may be filed pursuant to Section 22.22.170. (Ord. 5333, 2004; Ord. 4848, 1994; Ord. 3900 §1, 1977.)

A. PROCEDURE FOR ADOPTION OF RESOLUTION OF DESIGNATION. Upon receipt of a resolution of designation from the Historic Landmarks Commission or an appeal of a denial in accordance with the requirements of Section 22.22.170, and after completion of a public hearing in accordance with the following procedures, the City Council may designate any structure, natural feature, site or area as a Landmark by adopting a resolution of designation as follows:

1. At its next regular City Council meeting for which an agenda has not been finalized, the City Council shall set a date for a public hearing thereon to consider the Commission's resolution of recommendation or an appeal of a resolution of denial.

2. Notice of the time, place and purpose of the hearing shall be given at least ten (10) days prior to the date of the hearing by publication at least once in a newspaper of general circulation within the City and by first class mail to any applicant, the owner or owners of the property, and to abutting property owner(s) as such ownership is listed on the last equalized assessment roll for Santa Barbara County.

3. A public hearing on the recommendation for designation shall be held on the date designated, at which hearing any interested party shall be provided a reasonable opportunity to be heard.

4. Upon the City Council's adoption of a resolution of designation as a Landmark, the City Clerk shall cause such resolution of designation to be recorded against the property in the Office of the Recorder of the County of Santa Barbara within sixty (60) days of the City Council's adoption of the resolution of designation.

B. FAILURE TO ADOPT WITHIN NINETY (90) DAYS. If the City Council does not act to adopt a resolution of designation within ninety (90) days after a resolution of recommendation of designation from the Historic Landmarks Commission is received by the City Clerk, designation of the property as a landmark shall be deemed to be denied. (Ord. 5333, 2004; Ord. 4848, 1994.)

22.22.070 Repair and Maintenance of Landmarks and Structures of Merit.

A. PRESERVATION OF LANDMARKS AND STRUCTURES OF MERIT. Every Landmark and Structure of Merit shall be maintained in good repair by the owner thereof, or such other person or persons who may have the legal custody and control thereof, in order to preserve it against decay and deterioration. Nothing in this chapter shall be construed so as to prohibit ordinary and necessary maintenance and repair of a Landmark provided that whenever such repair or maintenance would result in an alteration to the exterior of the structure or whenever it would require the issuance of a City building permit, the issuance of such a permit shall be reviewed by the Commission and, if necessary, conditioned in accordance with the requirements of this Chapter, provided that such review shall be consistent with the Landmark alteration review authority granted by Section 817(c) of the City Charter and Section 22.22.080 hereof. Every Landmark or Structure of Merit is hereby determined to be eligible for application of alternative standards for historical structures as provided in the California Building Code as adopted and amended by the City.

B. RECONSTRUCTION OF HISTORIC RESOURCES WITHIN THE CONEJO SLIDE AREA. Designated City Historic Resources located within the Slide Mass C Area may be reconstructed in accordance with the latest edition of the Historical Building Code as adopted by the State of California, as amended by the City of Santa Barbara, provided that such reconstruction is accomplished as follows:

1. in a manner which follows the Secretary of Interior’s Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings (1995); and

2. in a manner consistent with appropriate historic design review where design approval is obtained from the City's Historic Landmarks Commission as required by Santa Barbara Municipal Code Sections 22.22.080 and 22.22.090; and

3. the structure constituting the Historic Resource is never expanded in size except for a one-time expansion not to exceed one hundred and fifty (150) net square feet provided that such expansion is first reviewed and approved by the City Historic Landmarks Commission.. (Ord. 5522, 2010; Ord. 5451, Section 5, 2008; Ord. 5333, 2004; Ord. 3900 §1, 1977.)

22.22.080 Demolition, Relocation, or Alteration of a Landmark.

A. ALTERATIONS TO A CITY LANDMARK – REQUIRED FINDINGS. No City Landmark shall be altered on the exterior, relocated, or demolished, except where the Historic Landmarks Commission has determined that one or more of the following findings are applicable to the proposed alteration, relocation, or demolition:

1. The exterior alterations are being made primarily for the purposes of restoring the Landmark to its original appearance or in order to substantially aid in the preservation or enhancement of the Landmark.

2. The relocation of the Landmark will substantially aid its long-term preservation or enhancement.

3. The landmark has been damaged by an earthquake, fire, or other similar natural casualty such that its repair or restoration is not reasonably practical or feasible and specific measures have been imposed as pre-conditions on the demolition, which measures mitigate the loss of the Landmark to a less than significant level or which measures are deemed sufficient to warrant a finding of overriding considerations pursuant to the CEQA.
B. ISSUANCE OF AN APPROVAL FOR THE RELOCATION, DEMOLITION, OR ALTERATION OF A CITY LANDMARK. In issuing an approval for the alteration of a City Landmark pursuant to this Section, the Commission shall make one or more of the findings required by Subsection (A) hereof in addition to imposing mitigation measures as conditions of approval consistent with such findings.

C. ALTERATIONS TO A PROPOSED LANDMARK. No structure, natural feature, or site recommended for designation as a Landmark pursuant to Section 22.22.050 hereof shall be altered on the exterior, relocated, or demolished after adoption by the Commission of a resolution of intention for such designation, except pursuant to the requirements of this Section.

D. APPEALS TO THE CITY COUNCIL. A final decision made by the Historic Landmarks Commission pursuant to the provisions of this Section may be appealed to the City Council pursuant to the requirements of Santa Barbara Municipal Code Chapter 1.30. Any decision by the City Council on appeal pursuant to this Section shall comply with the finding requirements of Subparagraph (A) hereof as well as the applicable requirements and provisions of the California Environmental Quality Act.

E. SIGNIFICANT PRUNING OR REMOVAL OF AN HISTORIC TREE. The significant pruning or removal of an historic tree is processed and regulated in accordance with Chapter 15.24 of this Code. (Ord. 5505, 2009; Ord. 5333, 2004; Ord. 4848, 1994; Ord. 4029, 1979; Ord. 3900 §1, 1977.)

22.22.085 Designation of Structures of Merit.

A. DESIGNATIONS. The City has established the Structure of Merit designation in order to encourage the preservation of the City's historic and architecturally significant structures, sites, or features under circumstances where such buildings and sites do not rise to the level of a City Landmark. The Commission may designate as a Structure of Merit any structure not designated as a Landmark but deserving of official City recognition as having historic, architectural, archaeological, cultural or aesthetic significance.

B. CRITERIA FOR STRUCTURE OF MERIT DESIGNATION. In considering a proposal for designation of a Structure of Merit, the Commission shall apply the considerations and criteria provided for Landmarks in Section 22.22.040 of this Chapter. Some of the determining factors in the appropriateness of a Structure of Merit designation rather than a City Landmark designation are the following: 1. the amount of eligibility criteria found applicable; 2. the level of original structural or historical integrity of the Historic Resource; and, 3. the quality or number of resources of this type remaining within the City.

C. NOTICE OF INTENT TO DESIGNATE A STRUCTURE OF MERIT. Except for those structures, sites or features designated Structures of Merit pursuant to the demolition regulations of Section 22.22.035 and Section 22.22.037, prior to taking action to designate a structure as a City Structure of Merit, the Commission shall adopt a resolution of intention announcing its intention to consider such a designation at a hearing to be held not less than seventy-five (75) days after the adoption of the Resolution, unless the owner of the property proposed for designation consents in writing to a lesser period of notice. Prior to conducting the public hearing required by this subsection for the designation of an identified structure, site, or feature, the owner(s) of the real property upon which the structure or feature is located (as such ownership is listed on the last equalized County of Santa Barbara Assessment Roll) shall be provided with a copy of the Commission resolution and a written notice of the Commission hearing by depositing a notice thereof in the regular United States Mail not less than sixty (60) days prior to the scheduled hearing date. Such notice shall, at a minimum, contain the notice information required by state Government Code Section 65094, as currently enacted or hereinafter amended.

D. HEARING OF STRUCTURE OF MERIT DESIGNATION. At the scheduled Commission hearing, the property owner or owner’s representative and the City staff shall be entitled to present relevant evidence, both oral and written, to establish whether the structure has appropriate potential for possible designation as a City Historic Resource. Upon completion of the public hearing, the Commission shall vote to adopt or to not adopt a resolution of the Commission designating the structure, site or feature as a City Structure of Merit.

E. APPEALS TO THE CITY COUNCIL. A final decision made by the Commission pursuant to the provisions of this Section may be appealed to the City Council pursuant to the requirements of Santa Barbara Municipal Code Chapter 1.30. Upon the Commission’s adoption of a resolution of designation as a City Structure of Merit (or upon a final decision of the City Council on an appeal of such a designation), the Community Development Director shall cause such resolution of designation to be recorded with respect to the real property thereof in the Office of the Recorder of the County of Santa Barbara within sixty (60) days of the Commission’s adoption of the resolution of designation. (Ord. 5333, 2004; Ord. 4848, 1994; Ord. 3900 §1, 1977.)

22.22.090 Demolition, Relocation, or Alteration of a Structure of Merit.

A. ALTERATIONS TO A STRUCTURE OF MERIT – REQUIRED FINDINGS. No Structure of Merit shall be altered on the exterior, relocated, or demolished except where the Historic Landmarks Commission has made one or more of the following findings:

1. The exterior alterations are being made for the purposes of restoring the Structure of Merit to its original appearance or in order to substantially aid its preservation or enhancement as a Historic Resource.

2. The relocation of the Structure of Merit will substantially aid in its long-term preservation or enhancement as a Historic Resource.
3. The Structure of Merit has been damaged by an earthquake, fire, or other similar casualty such that its repair or restoration is not reasonably practical or economically feasible and specific measures have been imposed as pre-conditions on the demolition or alterations, which measures mitigate the potential for adverse historic resource impacts resulting from loss of the Structure to a less than significant level or which measures are sufficient to warrant a finding of overriding considerations pursuant to the CEQA.

4. The Commission has determined that the preservation of the Structure of Merit is not economically feasible or that the demolition of a Structure of Merit is warranted in order to avoid or lessen the economic hardship to the Owner, and the Commission has conditioned the issuance of a City demolition permit upon specific measures which will mitigate the potential for adverse historic resource impacts resulting from the demolition of the Structure of Merit to a less than significant level or such measures are sufficient to warrant a finding of overriding considerations pursuant to the CEQA.

5. The Commission has determined that the proposed changes to the Structure of Merit do not constitute a demolition as defined by this Chapter and constitute alterations which are not incompatible with the goal of long-term preservation or enhancement of the Structure as a City Historic Resource.

B. ISSUANCE OF PERMITS FOR RELOCATION, DEMOLITION, OR ALTERATION OF A CITY STRUCTURE OF MERIT. An application for a permit to alter on the exterior, relocate, or demolish any City Structure of Merit shall be referred to the Historic Landmarks Commission for its review, approval, approval with conditions, or denial prior to the issuance of such a permit along with any environmental review deemed appropriate under CEQA. Such Commission review, in addition to determining that the proposed changes are appropriate and compatible with the historic resource, shall be for the purposes of determining the potential for loss of resources of historic significance and be conducted in the manner provided for in the City's MEA Historic Resource Guidelines and the California Environmental Quality Act. In issuing such a permit, the Commission shall make one or more of the findings required by subsection (A) hereof:

Should the Commission deny the issuance of a demolition permit for a Structure of Merit, concurrent with such a denial, the Commission shall initiate the procedures called for in SBMC Section 22.22.050 to adopt a resolution of intention announcing its intention to make a recommendation that the site, structure or feature be designated a City Landmark and forwarding such resolution of recommendation to the City Council for action by the Council in accordance with this Chapter.

C. APPEALS TO THE CITY COUNCIL. A final decision made by the Historic Landmarks Commission pursuant to the provisions of this Section may be appealed to the City Council pursuant to the requirements of Santa Barbara Municipal Code Chapter 1.30. Any decision by the City Council on appeal pursuant to this Section shall comply with the finding requirements of Subparagraph (A) hereof as well as the applicable requirements and provisions of the California Environmental Quality Act.

D. DENIAL OF A DEMOLITION PERMIT BY THE CITY COUNCIL. In the event that the City Council, on an appeal pursuant to subsection (C) hereof, declines to authorize the issuance of a demolition permit for a Structure of Merit (either with or without mitigating conditions), the Council shall, within forty five (45) days of such a Council determination, adopt a Resolution of Intention announcing its intention to designate such Structure of Merit as a City Landmark in accordance with the Landmark designation requirements of this Chapter and, thereafter, to preclude its demolition except under the limited circumstances of Section 22.22.080.

Should the City Council fail to act to designate the structure, site, or feature as a City Landmark within the time period required by Section 22.22.055, a demolition permit shall be issued within thirty (30) days of the expiration of the time within which the Council may act, provided that prior to the Building Official’s issuance of such a permit, appropriate mitigation conditions (and as determined by environmental review) may be imposed on the permit by the City Building Official as such conditions may be recommended to the Official by the Commission during the thirty (30) day period. (Ord. 5333, 2004.)

22.22.092 Bed and Breakfast Inns in Designated Historic Structures.

Plans for conversion of an existing Structure of Merit or a Landmark in the R-O Restricted Office Zone into a Bed and Breakfast Inn, or for alterations to such structures for this purpose, or for construction of new structures to be used for this purpose on a lot on which a Structure of Merit or Landmark used as a Bed and Breakfast Inn is located, shall be submitted to the Historic Landmarks Commission for review and action, in accordance with this chapter. (Ord. 4848, 1994; Ord. 4697, 1991.)

22.22.100 El Pueblo Viejo Landmark District.

A. PURPOSE. The purpose of the El Pueblo Viejo Landmark District is to preserve and enhance the unique historic and architectural character of the central core area of the City of Santa Barbara, which developed around the Royal Presidio, founded in 1782, and which contains many of the City's important historic and architectural landmarks. In addition to the preservation of those landmarks as provided in this chapter, that purpose is to be achieved by regulating the compatibility of architectural styles used in the construction of new structures and the exterior alteration of existing structures within a designated area, which includes the scenic entrances to the central core area of the City, in order to continue and perpetuate the City of Santa Barbara's renowned tradition of Hispanic architecture.
B. **DESIGNATION.** The following described area within the City of Santa Barbara is hereby designated as a landmark district and shall be known as "El Pueblo Viejo":

**Part I**

Beginning at the intersection of State Street with Mission Street; thence southeasterly along State Street to its intersection with Sola Street; thence northeasterly along Sola Street to its intersection with Laguna Street; thence southeasterly along Laguna Street to its intersection with Ortega Street; thence southwesterly along Ortega Street to its intersection with State Street; thence southeasterly along State Street to its intersection with East Cabrillo Boulevard; thence northeasterly along East Cabrillo Boulevard to its intersection with Santa Barbara Street; thence northwesterly along Santa Barbara Street to its intersection with the extension of Garden Street; thence northerly along the extension of Garden Street to U.S. Highway 101; thence returning southwesterly along Garden and Santa Barbara Streets to the intersection of Santa Barbara Street with East Cabrillo Boulevard; thence northeasterly along East Cabrillo Boulevard to its intersection with U.S. Highway 101; thence returning along Cabrillo Boulevard to its intersection with Castillo Street; thence northwesterly along Castillo Street to its intersection with U.S. Highway 101; thence returning southeasterly along Castillo Street to its intersection with Chapala Street; thence northwesterly along Chapala Street to its intersection with Sola Street; thence southwesterly along Sola Street to its intersection with State Street; thence southwesterly along State Street to its intersection with Mission Street; said intersection being the point of beginning.

**Part II**

Beginning at the intersection of Los Olivos Street and Laguna Street; thence southwesterly along Los Olivos Street to its intersection with Garden Street; thence northwesterly along Garden Street to its intersection with the southerly prolongation of a line bearing N. 03º16’40"W. as shown in Assessor's Map Book 51, page 15, County of Santa Barbara, dated 1960; thence northerly along said line to its intersection with a line bearing N.29º11’W.; thence northwesterly along said line to its intersection with the boundary line of the City of Santa Barbara; thence beginning northeasterly and continuing along said boundary line to its intersection with the northerly prolongation of Mission Ridge Road; thence southerly and westerly along Mission Ridge Road to a line bearing N.03ºW., said line being the westerly line of Mission Ridge Road and the easterly boundary line of Parcel 19-071-10 shown in Assessor's Map Book 19, page 07, County of Santa Barbara, dated 9/73; thence along a straight line southwesterly to the intersection of Plaza Rubio and Emerson Avenue; thence southwesterly along Plaza Rubio to its intersection with Laguna Street; thence northeasterly along Laguna Street to its intersection with Los Olivos Street, said intersection being the point of beginning.

The El Pueblo Viejo Landmark District shall include all properties located within the area described in this section, and all properties fronting on either side of any street or line forming the boundary of such area; except that the following areas shall be excluded:

1. Steamers Wharf;
2. areas located within the Brinkerhoff Avenue Landmark District; and
3. that area south of West Cabrillo Boulevard and to the west of a point one-hundred-and-fifty (150) feet east of an imaginary extension of Bath Street at its same course. (Ord. 4729, 1991; Ord. 4237, 1983; Ord. 4177, 1982; Ord. 4175, 1982; Ord. 3900 §1, 1977; Ord. 3888, 1977.)

**22.22.102 Map.**

The areas described in Section 22.22.100 are shown on the map(s) labeled "El Pueblo Viejo Landmark District". All notations, references and other information shown on said map(s) are incorporated by reference herein and made a part hereof. In the event of variance between the map and the written description contained in Section 22.22.100, the written description shall prevail. (Ord. 4175, 1982; Ord. 3900 §1, 1977.)

**22.22.104 Required Architectural Styles.**

**A. ALTERATIONS TO STRUCTURES WITHIN EL PUEBLO VIEJO.**

1. **Generally.** Any structure hereafter constructed or altered as to its exterior appearance and located within El Pueblo Viejo Landmark District shall, as to its exterior architecture, be compatible with the Hispanic tradition as it has developed in the City of Santa Barbara from the later 18th century to the present, with emphasis on the early 19th century "California Adobe" and "Monterey Revival" styles, and the "Spanish Colonial Revival" style of the period from 1915 to 1930. Examples of these styles are:

   a. Hill-Carrillo Adobe ("California Adobe").
   b. De la Guerra Adobe ("California Adobe").
   c. Covarrubias Adobe ("California Adobe").
   d. Mihran Studios ("Monterey Revival").
e. Arlington Theatre ("Spanish Colonial Revival").
f. Santa Barbara County Courthouse ("Spanish Colonial Revival").
g. El Paseo ("Spanish Colonial Revival").
h. Lobero Theatre ("Spanish Colonial Revival").

2. **Alterations Within El Pueblo Viejo.** Notwithstanding subsection (A)(1) hereof, alterations to existing structures within the El Pueblo Viejo Landmark District may also be permitted by the Commission under the following circumstances:
   a. The Commission determines that the owner of the existing structure is proposing alterations or additions to the structure that match the original architectural style and such alterations or additions do not significantly alter the structure; and
   b. The Commission determines that the alteration or addition would be more compatible with the existing structure by matching and maintaining the existing architectural style which demonstrates outstanding attention to architectural design, detail, material, or craftsmanship.

B. **LANDMARKS AND STRUCTURES OF MERIT.** A designated Landmark or Structure of Merit not conforming to any of the architectural styles required in Sections 22.22.100(A.) and 22.22.104(A.) of this Chapter may be altered on the exterior for the purpose of restoration of its original appearance, or to substantially aid its preservation or enhancement, in its particular architectural style, with the prior written approval of the Commission or City Council under Section 22.22.170.

C. **OUTDOOR LIGHTING.** Any structure hereafter constructed or altered as to its exterior appearance and located within El Pueblo Viejo Landmark District shall comply with the applicable requirements of Chapter 22.75 as to its outdoor lighting, and with the City's Outdoor Lighting Design Guidelines. (Ord. 5333, 2004; Ord. 5035, 1997; Ord. 4848, 1994; Ord. 4729, 1991; Ord. 4175, 1982; Òrd. 3900 §1, 1977.)

### 22.22.110 Brinkerhoff Avenue Landmark District.

A. **PURPOSE.** The purpose of the Brinkerhoff Avenue Landmark District is to preserve and enhance the historic and architectural character of the Brinkerhoff Avenue area of the City of Santa Barbara, which is a unique neighborhood of late 19th century and early 20th century structures. That purpose is to be achieved by regulating, within a designated area, the compatibility of architectural styles used in the construction of new structures, and the exterior alteration of existing structures in conformance with their original, significant architectural qualities, in order to continue and perpetuate examples of this important era in Santa Barbara's history.

B. **DESIGNATION.** The following described area within the City of Santa Barbara is hereby designated as a landmark district and shall be known as "Brinkerhoff Avenue Landmark District":

The Brinkerhoff Avenue Landmark District shall include all properties located within the above described area and those portions of streets fronting on those parcels as shown on the attached map labeled "Brinkerhoff Avenue Landmark District." (Ord. 4237, 1983; Ord. 4175, 1982; §22.22.110 as adopted by Ord. 3900 was renumbered to §22.22.102 by Ord. 4175, 1982; Ord. 3900, §1, 1977; Ord. 3888, 1977.)

### 22.22.112 Map.

The area described in Section 22.22.110 is shown on the map labeled "Brinkerhoff Avenue Landmark District." All notations, references and other information shown on said map are incorporated by reference herein and made a part hereof. (Ord. 4175, 1982.)

### 22.22.114 Required Architectural Styles.

A. **BRINKERHOFF ARCHITECTURAL STYLE.** Any structure hereafter constructed or altered as to its exterior appearance and located within Brinkerhoff Avenue Landmark District shall, as to its exterior architecture, be compatible with the late 19th century and early 20th century tradition as it developed in the Santa Barbara area, with emphasis on the "Italianate," "Eastlake," "Colonial Revival," and "Queen Anne" styles. Examples of these styles are:
   1. Hemster House, 136 W. Cota Street ("Italianate")
   2. Tallant House, 528 Brinkerhoff Avenue ("Eastlake" "Stick")
   3. Ross House, 514 Brinkerhoff Avenue ("Queen Anne/Colonial Revival")
   4. 501 Chapala Street ("Queen Anne")

B. **LANDMARKS AND STRUCTURES OF MERIT.** A designated landmark or structure of merit located within Brinkerhoff Avenue Landmark District and not conforming to any of the architectural styles required in Sections 22.22.110(A.) and 22.22.114(A.) of this chapter may be altered on the exterior for the purpose of restoration of its original appearance, or to substantially aid its preservation or enhancement, in its particular architectural style with the prior written approval of the Commission or City Council under Section 22.22.170. (Ord. 4848, 1994; Ord. 4729, 1991; Ord. 4175, 1982.)

398-5 rev. 6/30/13
22.22.120 Riviera Campus Historic District.

A. PURPOSE. The purpose of the Riviera Campus Historic District is to preserve and enhance the historic and architectural character of the Riviera Campus in the City of Santa Barbara, which is comprised of the historic campus of the Santa Barbara Normal School of Manual Arts and Home Economics, which later became the University of California at Santa Barbara. That purpose is to be achieved by regulating, within a designated area, the compatibility of architectural styles used in the construction of new structures, and the exterior alteration of existing structures in conformance with their original, significant architectural qualities, in order to continue and perpetuate the preservation of this valued feature of the City’s built environment.

B. DESIGNATION. The area within Specific Plan No. 7 (Riviera Campus) within the City of Santa Barbara is hereby designated as a historic district and shall be known as "Riviera Campus Historic District." The Riviera Campus Historic District shall include all properties located within the above-described area and those portions of streets fronting on those parcels as shown on the attached map labeled "Riviera Campus Historic District."

C. REQUIRED ARCHITECTURAL STYLES. Any structure hereafter constructed or altered as to its exterior appearance and located within Riviera Campus Historic District shall, as to its exterior architecture, be compatible with the Spanish Colonial Revival and Spanish Eclectic architecture of the extant buildings on the Riviera Campus. Examples of these styles are:
   a. The Quadrangle Building, 2030 Alameda Padre Serra ("Spanish Eclectic")
   b. The Grand Stairway, 2030 Alameda Padre Serra ("Spanish Eclectic")
   c. Furse Hall, 2040 Alameda Padre Serra ("Spanish Colonial Revival")
   d. Ebbets Hall, 2020 Alameda Padre Serra ("Spanish Colonial Revival")

D. LANDMARKS AND STRUCTURES OF MERIT. A designated landmark or structure of merit located within Riviera Campus Historic District, and not conforming to any of the architectural styles required in Subsections A and C of this Section, may be altered on the exterior for the purpose of restoration of its original appearance, or to substantially aid its preservation or enhancement, in its particular architectural style with the prior written approval of the Commission or City Council under Section 22.22.170. (Ord. 5319, 2004.)

22.22.125 El Encanto Hotel Historic District.

A. Purpose. The purpose of El Encanto Hotel Historic District is to preserve and enhance the historic and architectural character of the historic El Encanto Hotel Landmark site in the City of Santa Barbara, which is a unique complex of early 20th century structures and landscape features. That purpose is to be achieved by regulating, within a designated area, the compatibility of architectural styles used in the construction of new structures, and the exterior alteration of existing structures in conformance with their original, significant architectural qualities, in order to continue and perpetuate examples of this important era in Santa Barbara’s history.

B. Designation. The area within the map labeled El Encanto Hotel-Historic District (attached hereto as a Chapter exhibit) within the City of Santa Barbara is hereby designated as a historic district and shall be known as “El Encanto Hotel Historic District.” The El Encanto Hotel Historic District shall include all the properties located within the above-described area and those portions of streets fronting on the parcel as shown on the labeled “El Encanto Hotel Historic District” map.

   1. No structure or real property within the El Encanto Hotel Historic District shall be constructed, demolished, moved, or altered on its exterior without approval of the Commission.
   2. Any structure hereafter constructed or altered as to its exterior appearance and located within El Encanto Hotel Historic District shall, as to its exterior architecture, be compatible with the currently existing Craftsman/Vernacular and Spanish Colonial Revival architecture of the Contributing Resource buildings within the El Encanto Hotel Historic District.

D. Contributing Resource Structures and Landscape Features.
   1. Any Contributing Resource structure or Contributing feature located within El Encanto Hotel Historic District shall be preserved and maintained by owners thereof in good condition and repair. Contributing Resource structures may be repaired and altered on the exterior for the purpose of restoring its original appearance, or to substantially aid in its preservation or enhancement (especially with respect to its particular architectural style) with the prior written approval of the Commission.
   2. Any landscape feature within El Encanto Hotel Historic District identified by the City as a Contributing Resource shall, as to its exterior appearance, be preserved and not significantly altered without the prior written approval of the Commission. (Ord. 5624, 2013.)

22.22.130 El Pueblo Viejo Landmark District and Brinkerhoff Avenue Landmark District.

A. APPROVAL FOR CONSTRUCTION, DEMOLITION, MOVING OR EXTERIOR ALTERATION. No structure or real property in El Pueblo Viejo Landmark District or Brinkerhoff Avenue Landmark District shall be constructed, demolished, moved or altered on its exterior without the approval of the Commission or City Council upon appeal. Minor alterations specified in the Historic Landmarks Commission Rules and Procedures, adopted from time to time by resolution, may be allowed subject to the review of the Community Development Director or his/her representative.
B. **PROCEDURE.** Any application for an approval or permit to construct, demolish, move or alter the exterior of any structure or real property located within El Pueblo Viejo Landmark District or Brinkerhoff Avenue Landmark District, together with plans, elevations and site plans therefore, shall be referred to the Commission for review. A permit shall not be issued without the prior written approval of the Commission or City Council upon appeal. Any change of the exterior color or the outdoor lighting of any structure shall be referred to the Commission for review. If a building permit is not required, there shall not be any exterior alteration or change of exterior color unless there has been a final written approval of the Commission, where required, or the City Council upon appeal. The Commission or City Council on appeal shall not approve issuance of such permit unless the plans conform to the provisions of this Chapter. Any application shall be considered and either approved or disapproved by the Commission at its next regularly scheduled meeting for which an agenda has not been finalized after completion of any required environmental assessment, but may be continued to the next regular meeting. In the absence of timely oral or written objection by the applicant, the Commission may continue consideration of an application to subsequent meetings. In the event an applicant objects to continuance by the Commission and if the Commission takes no action on the application, then the application shall be deemed approved.

C. **SIGN PERMITS.** Signs which have been approved by the Sign Committee or the Commission or City Council upon appeal and for which a valid permit has been issued by the City shall not require a permit or approval under this section. Applications for permits for signs to be erected or altered within El Pueblo Viejo Landmark District and Brinkerhoff Avenue Landmark District shall be considered by the Commission only upon an appeal filed pursuant to Section 22.70.050.I.

D. **PLACEMENT, ALTERATION, OR REMOVAL OF NATURAL FEATURES (INCLUDING TREES) ON PRIVATE PROPERTY.** No natural feature affecting the exterior visual qualities of private property located in El Pueblo Viejo Landmark District or Brinkerhoff Avenue Landmark District (excluding trees listed in Section 15.24.020 of this Code, which are processed pursuant to Chapter 15.24) shall be placed, altered, or removed without the approval of the Commission or City Council upon appeal. Minor alterations specified in the Historic Landmarks Commission Rules and Procedures, adopted from time to time by resolution, may be allowed subject to the review of the Community Development Director or his or her representative. (Ord. 5505, 2009; Ord. 5035, 1997; Ord. 4995, 1996; Ord. 4916, 1995; Ord. 4893, 1994; Ord. 4878, 1994; Ord. 4848, 1994; Ord. 4175, 1982; Ord. 4111, 1981; Ord. 4101, 1981; Ord. 4029, 1979; Ord. 3900, §1, 1977.)

### 22.22.131 Review of Single Family Residential Units.

A. **NEIGHBORHOOD PRESERVATION ORDINANCE FINDINGS.** If a project is referred to the Historic Landmarks Commission for review pursuant to Section 22.69.030 of this Code, the Historic Landmarks Commission shall, in addition to any review required pursuant to this Chapter 22.22, make the findings required for approval of the project as specified in Section 22.69.050 of this Code prior to approving the project.

B. **GREEN BUILDING STANDARD FOR LARGE RESIDENCES.** If a project referred to the Historic Landmarks Commission for review pursuant to Section 22.69.030 of this Code proposes 500 square feet or more of new net floor area (new construction, replacement construction, or additions), and the net floor area of all existing and new buildings on the lot resulting from the application will exceed four thousand (4,000) square feet of net floor area as calculated pursuant to Section 28.04.315, all new square footage (new construction, replacement construction, or additions) proposed as part of the project shall meet or exceed a three-star designation under the Santa Barbara Contractors’ Association Built Green program or equivalent standards under another green construction program recognized by the City. (Ord. 5518, 2010; Ord. 5416, 2007; Ord. 4995, 1996.)

### 22.22.132 Historic Landmarks Commission Notice and Hearing.

A. **PROJECTS THAT REQUIRE PUBLIC HEARING.** Historic Landmarks Commission review of the following projects must be preceded by a noticed public hearing:

1. New single residential units, residential duplexes, multiple residential units, mixed use (residential and non-residential) buildings, or nonresidential buildings,
2. The addition of over 500 square feet of net floor area to a single residential unit or residential duplex,
3. An addition of a new second or higher story to an existing single residential unit or residential duplex,
4. An addition of over 150 square feet of net floor area to an existing second or higher story of a single residential unit or residential duplex,
5. The addition of over 500 square feet of net floor area or any change that will result in an additional residential unit to a multiple residential unit,
6. Small non-residential additions as defined in Chapter 28.85,
7. Projects involving grading in excess of 250 cubic yards outside the footprint of any main building (soil located within five feet (5’) of an exterior wall of a main building that is excavated and recompacted shall not be included in the calculation of the volume of grading outside the building footprint),
8. Projects involving exterior lighting with the apparent potential to create significant glare on neighboring parcels,
9. Projects involving the placement or removal of natural features with the apparent potential to significantly alter the exterior visual qualities of real property, or
10. Projects involving an application for an exception to the parking requirements for a single family residential unit as specified in Section 28.90.100.G.1.c. of this Code.

B. MAILED NOTICE. Not less than ten calendar days before the date of the hearing required by Subsection A above, the City shall cause written notice of the hearing to be sent by first class mail to the following persons: (1) the applicant and (2) the current record owner (as shown on the latest equalized assessment roll) of any lot, or any portion of a lot, which is located not more than three hundred feet (300') from the exterior boundaries of the lot which is the subject of the action. The written notice shall advise the recipient of the following: (1) the date, time and location of the hearing, (2) the right of the recipient to appear at the hearing and to be heard by the Historic Landmarks Commission, (3) the location of the subject property, and (4) the nature of the application subject to design review.

C. ADDITIONAL NOTICING METHODS. In addition to the required mailed notice specified in Subsection B, the City may also require notice of the hearing to be provided by the applicant in any other manner that the City deems necessary or desirable, including, but not limited to, posted notice on the project site and notice delivered to non-owner residents of any of the ten (10) lots closest to the lot which is the subject of the action. However, the failure of any person or entity to receive notice given pursuant to such additional noticing methods shall not constitute grounds for any court to invalidate the actions of the City for which the notice was given.

D. PROJECTS REQUIRING DECISIONS BY THE CITY COUNCIL, PLANNING COMMISSION, OR STAFF HEARING OFFICER. Whenever a project requires another land use decision or approval by the City Council, the Planning Commission, or the Staff Hearing Officer, the mailed notice for the first hearing before the Historic Landmarks Commission shall comply with the notice requirements of this Section or the notice requirements applicable to the other land use decision or approval, whichever are greater. However, nothing in this Section shall require either: 1. notice of any hearing before the Historic Landmarks Commission to be published in a newspaper, or 2. mailed notice of hearings before the Historic Landmarks Commission after the first hearing conducted by the Historic Landmarks Commission, except as otherwise provided in the Historic Landmarks Commission Guidelines adopted by resolution of the City Council. (Ord. 5609, 2013; Ord. 5518, 2010; Ord. 5505, 2009; Ord. 5444, 2008; Ord. 5416, 2007; Ord. 5380, 2005; Ord. 4995, 1996.)

22.22.133 Historic Landmarks Commission Referral to Planning Commission.

A. PLANNING COMMISSION COMMENTS. When the Historic Landmarks Commission determines that a development is proposed for a site which is highly visible to the general public, the Historic Landmarks Commission may, prior to granting project design approval of the application, require presentation of the application to the Planning Commission solely for the purpose of obtaining comments from the Planning Commission regarding the application for use by the Historic Landmarks Commission in its deliberations.

B. PLANNING COMMISSION NOTICE AND HEARING. Prior to making any comments regarding an application pursuant to this Section, the Planning Commission shall hold a noticed public hearing. Notice of the hearing shall be provided in accordance with the requirements of Section 22.22.132. (Ord. 5671, 2014; Ord. 5444, 2008; Ord. 5380, 2005; Ord. 4995, 1996.)

22.22.135 Application Fee.

Applications submitted pursuant to Section 22.22.130 shall be accompanied by an application fee in the amount established by resolution of the City Council. (Ord. 3955 §7, 1978.)

22.22.140 Publicly Owned Property.

A. PUBLICLY OWNED BUILDINGS GENERALLY. Except as provided in Subsections (B) and (C) below, any structure, natural feature, site or area owned or leased by any public entity other than the City of Santa Barbara and designated as a Landmark or Structure of Merit, or located within any landmark district, shall not be subject to the provisions of Sections 22.22.070, 22.22.080, 22.22.104, 22.22.114, 22.22.130, and 22.22.170 of this Chapter.

B. EXCEPTION FOR CITY FACILITIES. The alteration, construction or relocation of any structure, natural feature, site or area owned or leased by the City and designated as a Landmark or Structure of Merit, or located within any landmark district, shall be reviewed by the Commission unless the City Council deems that said review would not be in the public interest.

C. EXCEPTION FOR IMPROVEMENTS WITHIN THE HIGHWAY 101 SANTA BARBARA COASTAL PARKWAY DESIGN DISTRICT. The alteration, construction or relocation of any structure, natural feature, site or area owned or leased by a public entity within the Highway 101 Santa Barbara Coastal Parkway Special Design District as defined by Municipal Code Section 22.68.060, which requires a Coastal Development Permit pursuant to Municipal Code Chapter 28.44 and which is designated as a Landmark or Structure of Merit, or which is located within any landmark district shall be reviewed by the Commission.

D. EXCEPTION FOR STREET TREES, CITY TREES, HISTORIC TREES AND SPECIMEN TREES. Notwithstanding Subsection B above, the placement, alteration, or removal of the following trees shall be processed and regulated as follows:

1. Any tree planted in a parkway strip, tree well, public area, or street right-of-way owned or maintained by the City is processed and regulated pursuant to Chapter 15.20 of this Code.
2. Any tree designated by a resolution of the City Council as an “historic tree”, an “historic landmark tree” or a “specimen tree” is processed and regulated pursuant to Chapter 15.24. (Ord. 5505, 2009; Ord. 5416, 2007; Ord. 5333, 2004; Ord. 4940, 1996; Ord. 4848, 1994; Ord. 4175, 1982; Ord. 3900 §1, 1977.)

22.22.145 Project Compatibility Analysis.

A. PURPOSE. The purpose of this section is to promote effective and appropriate communication between the Historic Landmarks Commission and the Planning Commission (or the Staff Hearing Officer) in the review of development projects and in order to promote consistency between the City land use decision making process and the City design review process as well as to show appropriate concern for preserving the historic character of certain areas of the City.

B. PROJECT COMPATIBILITY CONSIDERATIONS. In addition to any other considerations and requirements specified in this Code, the following criteria shall be considered by the Historic Landmarks Commission when it reviews and approves or disapproves the design of a proposed development project in a noticed public hearing pursuant to the requirements of Section 22.22.132:

1. Compliance with City Charter and Municipal Code; Consistency with Design Guidelines. Does the project fully comply with all applicable City Charter and Municipal Code requirements? Is the project’s design consistent with design guidelines applicable to the location of the project within the City?

2. Compatible with Architectural Character of City and Neighborhood. Is the design of the project compatible with the desirable architectural qualities and characteristics which are distinctive of Santa Barbara and of the particular neighborhood surrounding the project?

3. Appropriate size, mass, height, and scale. Is the size, mass, bulk, height, and scale of the project appropriate for its location and its neighborhood?

4. Sensitivity to Adjacent Landmarks and Historic Resources. Is the design of the project appropriately sensitive to adjacent Federal, State, or City Landmarks or other nearby designated historic resources, including City structures of merit, sites, or natural features?

5. Public Views of the Ocean and Mountains. Does the design of the project respond appropriately to established scenic public vistas?

6. Use of Open Space and Landscaping. Does the project include an appropriate amount of open space and landscaping?

C. PROCEDURES FOR CONSIDERING PROJECT COMPATIBILITY.

1. Projects with Design Review Only. If a project only requires design review by the Historic Landmarks Commission pursuant to the provisions of this Chapter and does not require some form of discretionary land use approval, the Historic Landmarks Commission shall consider the criteria listed in Subsection (B) above during the course of its review of the project’s design prior to the issuance of the preliminary design approval for the project.

2. Projects with Design Review and Other Discretionary Approvals. If, in addition to design review by the Historic Landmarks Commission, a project requires a discretionary land use approval (either from the Staff Hearing Officer, the Planning Commission, or the City Council), the Historic Landmarks Commission shall review and discuss the criteria listed in Subsection (B) above during its conceptual review of the project and shall provide its comments on those criteria as part of the minutes of the Commission decision forwarded to the Staff Hearing Officer, the Planning Commission, or the City Council (as the appropriate case may be) and as deemed necessary by the Historic Landmarks Commission. (Ord. 5464, 2008.)

22.22.150 Preservation Easements.

Easements restricting the use, alteration, relocation or demolition for the purpose of preservation of the facades or any other portions of designated landmarks or structures of merit may be acquired by the City through gift, devise or purchase. (Ord. 3900 §1, 1977.)

22.22.160 Incentives for Preserving Historic Resources.

A. Legislative Intent; Administrative Regulations. In enacting this section, the City Council seeks to adopt a City program of incentives to encourage the maintenance and preservation of historic resources within the City of Santa Barbara. In order to carry out this program more effectively and equitably and to further the purposes of this section, the Council may also, by resolution, supplement these provisions by adopting administrative regulations and standardized forms for a broad City program of economic and other incentives intended to support the preservation, maintenance, and appropriate rehabilitation of the City's significant historic resources.

B. Preservation Incentives Under the State Mills Act - Government Code Sections 50280-50290. Preservation incentives may be made available by the City to owners of properties that are “Qualified Historic Properties” (as that term is used by Government Code Section 50280.1) such as individually designated City landmarks or structures of merit or those properties that are deemed to contribute to designated City Historic Districts (or Districts listed in the National Register) as determined appropriate by the City Council.
C. Qualified Historic Property Mills Act Contracts.

1. Purpose.
   a. The purpose of this Section is to implement state Government Code Sections 50280 through 50290 in order to allow the City approval of Qualified Historic Property Contracts by establishing a uniform City process for the owners of qualified historic resource properties within the City to enter into Mills Act contracts with the City.
   b. The City Council finds and determines that entering into Qualified Historic Property Contracts, as hereinafter provided, is an incentive for owners of designated historic resources to rehabilitate, maintain, and preserve those properties.
   c. The City Council further finds that, in some instances, the preservation of these properties will assist in restoring, maintaining, and preserving the City's existing stock of affordable housing and support the goals and objectives in the Land Use Element of the City General Plan concerning the preserving of historically and architecturally significant residential structures.

2. Limitations on Eligibility For a Mills Act Contract.
   a. In approving this program, it is the intent of the City Council that unrealized revenue to the City from property taxes not collected due to executed Qualified Historic Property Contracts shall not exceed a total annual amount (including total individual amounts for any one historic property), as such amounts are established by a resolution of the City Council adopted concurrently with the enactment of this Chapter, unless exceeding this limit is specifically approved by the Council.
   b. In furtherance of this policy, Qualified Historic Property Contracts shall be limited to a maximum number of contracts each year consisting of a certain number of residential properties each year and a certain number of commercial or industrial properties each year, unless the City Council approves additional contracts beyond the established limits as such amounts are established by a resolution of the City Council adopted concurrently with the enactment of this Chapter. In addition, no single-family residence approved for a City contract pursuant to this section may have an assessment value in excess of an amount established by the City Council nor may the assessed value of any non-single-family home property (i.e., a multi-family residential, commercial, or industrial property) exceed an amount established in the City Council’s concurrent resolution.
   c. For the purpose of this Subparagraph (2), “assessed valuation” does not include any portion of the value of a mixed-use structure which is already exempt from payment of property taxes by a determination of the County Assessor in compliance with Sections 4(b) and 5 of Article XIII of the California Constitution, and Sections 214, 254.5, and 259.5 of the Revenue and Taxation Code.

Mills Act Provisions Required.
   a. The required provisions of a Qualified Historic Property Contract between the City and the property owner shall be those required by State law (Government Code Sections 50281 and 50286) expressly including the following specifications:

   **Term.**
   (i) The contract shall be for the minimum ten (10) year term, with automatic renewal yearly by either the City or the property owner on the anniversary of the contract date in the manner provided in Government Code Section 50282.

   **Restoration and Maintenance Plan; Standards.**
   (ii) The fundamental purpose of the contract will be an agreement to assist the property owner in the owner’s restoration, maintenance, and preservation of the qualified historic resource; therefore, the plan for restoration and maintenance of the property required by the contract shall conform to the rules and regulations of the State of California Office of Historic Preservation (California Department of Parks and Recreation), the Secretary of the Department of the Interior’s Standards, and the State Historical Building Code.

   **Verification of Compliance with Plan.**
   (iii) The real property owner will expressly agree in the contract to permit periodic examination of the interior and exterior of the premises by the County Assessor, the City Community Development Director (or his or her designee), the State Department of Parks and Recreation, and the State Board of Equalization, as may be necessary to verify the owner's compliance with the contract agreement, and to provide any information requested to ensure compliance with the contract agreement.

   **Property Visible from Street.**
   (iv) The real property owner will expressly agree and the plan shall provide that any fencing or landscaping along the public right-of-way frontages of the real property will such that it allows the home or building to be visible to the public from the public rights-of-way.

   **Recordation of Contract.**
   (v) The contract shall be recorded by the Santa Barbara County Recorder’s Office and shall be binding on all successors-in-interest of the owner with respect to both the benefits and burdens of the contract.

   **Notice to State.**
   (vi) The City shall provide written notice of the contract to the State of California Office of Historic Preservation within 180 days of entering into the contract.

   **Procedure for Non-Renewal.**
   (vii) The procedure for notice of non-renewal by the owner or the City shall be as identified in State law [Government Code Section 50282 (a), (b), and (c), and Section 50285.]
Annual Report Required.

(viii) The contract shall require the real property owner to file an annual report, initially, on the program of implementing the plan or restoration or rehabilitation until that has been completed to the satisfaction of the Community Development Director, and thereafter, on the annual maintenance of the property, which report may require documentation of the owner’s expenditures in restoring, rehabilitating, and maintaining the Qualified Historic Property.

Cancellation of Contracts.

(ix) The contract shall expressly provide for the City’s authority to cancel the contract if the City determines that the owner has breached the contract either by his or her failure to restore or rehabilitate the property in accordance with the approved plan or by the failure to maintain the property as restored or rehabilitated. The manner of cancellation shall be as set forth in Government Code Sections 50285 and 50286.

Breach of Contract.

b. Additionally, the contract shall state that the City may cancel the contract if it determines that the owner has breached any of the other substantive provisions of the contract or has allowed the property to deteriorate to the point that it no longer meets the significance criteria under which it was originally designated.

Cancellation Fee.

c. The contract may also provide that if the City cancels the contract for any of these reasons, the owner shall pay the State of California a cancellation fee of twelve and one-half percent of the full value of the property at the time of cancellation, as determined by the County Assessor, without regard to any restriction on the property imposed by the Historic Property Contract.

Force Majeure Cancellations.

d. The contract shall require that in the event preservation, rehabilitation, or restoration of the Qualified Historic Property becomes infeasible due to damage caused by natural disaster (e.g., earthquake, fire, flood, etc.), the City may cancel the contract without requiring the owner to pay the State of California the above-referenced cancellation fee as a penalty. However, in this event, a contract may not be cancelled by the City unless the City determines, after consultation with the State of California Office of Historic Preservation, in compliance with Public Resources Code Section 5028, that preservation, rehabilitation, or restoration is infeasible.

Standard Contract.

e. The City Community Development Department shall prepare and maintain a sample "Historic Property Contract" with all required provisions specified by this Subparagraph (3).

4. Procedures for Application for and Approval of Historic Property Contracts.

a. An owner of a qualified historic property (as listed in Paragraph (B) above) may file an application for entering into an Historic Property Contract with the City.

b. Each application shall be accompanied by a complete legal description of the property; and

c. Within sixty (60) days of the submission of the application, a plan for the restoration or rehabilitation of the property.

d. In January of each year, the City may notify, either by mailing or published notices, the owners of qualified historic properties of the period of application for and process for City Historic Property Contracts for that calendar year.

e. Application forms, as prescribed by the City, shall be mailed to any property owner who requests the application forms.

f. Upon submission of an application and the plan for restoration or rehabilitation of the property, the application and plan shall be reviewed for completeness by the City’s Urban Historian within sixty (60) days of the submission. In connection with this review, the Urban Historian shall complete an initial inspection of the Qualified Historic Property, obtain photo documentation of the existing condition of the property, and utilize the inspection information to revise the plan for restoration or rehabilitation where necessary.

g. All applications and plans for restoration or rehabilitation deemed complete and acceptable to the City’s Urban Historian shall, within sixty (60) days of being deemed complete, be submitted to the City’s Historic Landmarks Commission. Such application and plans shall be evaluated by both the Urban Historian and the Commission for compliance with established City criteria that will include, but not be limited to, the following findings:

   (i) the plan will substantially contribute to the preservation of an historic and unique City resource which is threatened by possible abandonment, deterioration, or conflicting regulations, and it will enhance opportunities for maintaining or creating affordable housing, or it will facilitate the preservation and maintenance of a property in cases of economic hardship.

   (ii) the plan will support substantial reinvestment in a historic resource and rehabilitation of a historic structure in the expanded State Enterprise Zone and other areas where the City is concentrating resources on facade improvements, home rehabilitation, or similar revitalization efforts.

   (iii) the Community Development Director has certified that the property does not now consist of any unpermitted or unsafe construction or building elements, is not the subject of a pending City code enforcement matter, and is current on the payment of all property taxes.

   (iv) whether the plan calls for any new construction, in particular new construction or additions which might impact the eligibility for the structure to qualify as a Qualified Historic Resource, as that term is used in the Mills Act.
h. Upon completion of the Historic Landmarks Commission review of the application and plan, the Commission shall make a recommendation to the City Community Development Director for the City approval or disapproval of the contract.

i. If an application is recommended for approval by the Historic Landmarks Commission and the Urban Historian, the City shall prepare a contract according to its standard contract form, which shall be deemed to have all provisions necessary for a Historic Property Contract with the City.

j. Additional provisions in the Contract desired by the owner shall be subject to approval by the Community Development Director or, when determined appropriate by the Community Development Director, by the City Council and as to form by the City Attorney in all cases.

k. The City Finance Director shall determine that the proposed contract does not cause the total annual revenue loss to the City to exceed the amounts established by resolution for this program by the City Council, both collectively and for individual properties.

l. Upon approval of the contract by the Finance Director, the contract signed by the property owners shall be submitted to the City Clerk/City Administrator and City Attorney for execution of the contract on behalf of the City and for recordation by the City Clerk’s Office.

m. Historic Property Contracts that exceed the limits identified in this Section shall only be approved and executed after and upon the express approval of the City Council. (Ord. 5501, 2009.)

22.22.170 Appeal from Commission to City Council.

A. APPEAL FROM COMMISSION TO THE CITY COUNCIL. A final decision of the Commission made pursuant to Section 22.22.035, Section 22.22.030(D), Section 22.22.037, Section 22.22.050(D), Section 22.22.080(D), Section 22.22.085, Section 22.22.130, or Section 22.22.132 may be appealed to the City Council by any interested person pursuant to the appeal procedures established by Santa Barbara Municipal Code Chapter 1.30. In deciding such an appeal, the City Council shall make those findings required of the Commission with respect to a Commission determination made pursuant to this Chapter.

B. NOTICE OF APPEAL. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Commission made pursuant to Subsection A above shall be provided in the same manner as notice was provided for the hearing before the Commission.

C. FEE FOR APPEAL. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council. (Ord. 5380, 2005; Ord. 5333, 2004; Ord. 4995, 1996; Ord. 4848, 1994; Ord. 3955 §8, 1978; Ord. 3900 §1, 1977.)

22.22.180 Expiration of Project Design Approvals.

A. PROJECT DESIGN APPROVAL.
1. Approval Valid for Three Years. A Project Design Approval issued by the Historic Landmarks Commission or the City Council on appeal shall expire if a building permit for the project is not issued within three (3) years of the granting of the Project Design Approval by the Commission or the City Council on appeal.

2. Extension of Project Design Approvals. Upon a written request from the applicant submitted prior to the expiration of the Project Design Approval, the Community Development Director may grant one (1) two-year extension of a Project Design Approval.

B. EXCLUSIONS OF TIME. The time period specified in this Chapter for the validity of a Project Design Approval shall not include any period of time during which either of the following applies:
1. a City moratorium ordinance on the issuance of building permits is in effect; or
2. a lawsuit challenging the validity of the Project’s approval by the City is pending in a court of competent jurisdiction. (Ord. 5537, 2010; Ord. 5518, 2010.)
Chapter 22.24
FLOOD PLAIN MANAGEMENT

Sections:

22.24.010 Findings of Fact.
22.24.020 Statement of Purpose.
22.24.030 Methods of Reducing Flood Losses.
22.24.040 Definitions.
22.24.050 Lands to Which This Chapter Applies.
22.24.060 Basis for Establishing the Areas of Special Flood Hazard.
22.24.070 Abrogation and Greater Restrictions.
22.24.080 Interpretation.
22.24.100 Warning and Disclaimer of Liability.
22.24.120 Designation of the Chief of Building and Zoning.
22.24.130 Duties and Responsibilities of the Chief of Building and Zoning.
22.24.140 Variance and Appeal Procedure.
22.24.150 Conditions for Variances.
22.24.170 Coastal High Hazard Areas.
22.24.180 Floodways.

22.24.010 Findings of Fact.

A. The flood hazard areas of the City of Santa Barbara are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

B. These flood losses are caused by the cumulative effect of obstructions in areas of special flood hazards which increase flood heights and velocities, and when inadequately anchored, damage uses in other areas. Uses that are inadequately floodproofed, elevated or otherwise protected from flood damage also contribute to the flood loss. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.020 Statement of Purpose.

It is the purpose of the chapter to promote the public health, safety, and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed:

A. To protect human life and health;
B. To minimize expenditure of public money for costly flood control projects;
C. To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
D. To minimize prolonged business interruptions;
E. To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in areas of special flood hazard;
F. To help maintain a stable tax base by providing for the second use and development of areas of special flood hazard so as to minimize future flood blight areas;
G. To insure that potential buyers are notified that property is in an area of special flood hazard; and
H. To ensure that those who occupy the areas of special flood hazard assume responsibility for their actions. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.030 Methods of Reducing Flood Losses.

In order to accomplish its purposes, this Chapter includes methods and provisions for:

A. Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;
B. Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
C. Controlling the alteration of natural flood plains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
D. Controlling filling, grading, dredging, and other development which may increase flood damage; and,
E. Preventing or regulating the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards in other areas. (Ord. 4522, 1988; Ord. 3972, 1978.)
22.24.040 Definitions.

Unless specifically defined below, words or phrases used in this Chapter shall be interpreted so as to give them the meaning they have in common usage and to give this Chapter its most reasonable application.

A. APPEAL. A request for a review of the Chief of Building and Zoning's interpretation of any provision of this Chapter or a request for a variance.

B. AREA OF SHALLOW FLOODING. An area designated AO, AH or VO Zone on the Flood Insurance Rate Map (FIRM) and as to which the base flood depths range from one to three feet, a clearly defined channel does not exist, the path of flooding is unpredictable and indeterminate, and velocity flow may be evident.

C. AREA OF SPECIAL FLOOD HAZARD. See "Special flood hazard area".

D. BASE FLOOD or 100 YEAR FLOOD. A flood having a one percent (1%) chance of being equalled or exceeded in any given year.

E. BASEMENT. An area of a building having its floor subgrade (below ground level) on all sides.

F. BREAKAWAY WALLS. Any type of wall, whether solid or lattice, and whether constructed of concrete, masonry, wood, metal, plastic or any other suitable building material which (i) is not part of the structural support of the building; (ii) is designed to break away under abnormally high tides or wave action without causing any damage to the structural integrity of the building or to any buildings to which they might be carried by flood waters; (iii) has a safe design loading resistance of not less than ten and no more than twenty pounds per square foot; and (iv) has been certified for use in the building by a registered engineer or architect and meets the following standards:
   1. Breakaway wall collapse will result from a water load less than that which would occur during the base flood; and
   2. The elevated portion of the building will not incur any structural damage due to the effects of wind and water loads acting simultaneously in the event of the base flood.

G. COASTAL HIGH HAZARD AREA. An area subject to high velocity waters, including coastal and tidal inundation or tsunamis and designated on a Flood Insurance Rate Map (FIRM) as Zone V1-V30, Ve or V.

H. DEVELOPMENT. Any man-made change to improved or unimproved real property, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

I. FLOOD or FLOODING. A general and temporary condition of partial or complete inundation of normally dry land areas from:
   1. The overflow of flood waters;
   2. The unusual and rapid accumulation or runoff of surface waters from any source; or
   3. The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in this definition.

J. FLOOD BOUNDARY AND FLOODWAY MAP. The official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the areas of flood hazard and the floodway.

K. FLOOD INSURANCE RATE MAP (FIRM). An official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

L. FLOOD INSURANCE STUDY. An official report provided by the Federal Insurance Administration that includes flood profiles, the FIRM, the Flood Boundary and Floodway Map, and the water surface elevation of the base flood.

M. FLOODPLAIN or FLOOD-PRONE AREA. Any land area susceptible to being inundated by water from any source (see definition of "floodng").

N. FLOODPLAIN MANAGEMENT. The operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to, emergency preparedness plans, flood control works and floodplain management regulations.

O. FLOODPLAIN MANAGEMENT REGULATIONS. Zoning ordinances, subdivision regulations, the California Building Code as adopted and amended by the City, health regulations, special purpose ordinances (such as floodplain ordinances, grading ordinances and erosion control ordinances) and other applications of police power. The term describes such state or local regulations in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

P. FLOODPROOFING. Any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Q. FLOODWAY or REGULATORY FLOODWAY. The channel of a river or other watercourse and the adjacent land areas that must be preserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one (1) foot.
R. FUNCTIONALLY DEPENDENT USE. A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes vessel docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, and does not include long-term storage or related manufacturing facilities.

S. HIGHEST ADJACENT GRADE. The highest undisturbed elevation of the ground surface prior to construction next to the proposed walls of a structure.

T. LOWEST FLOOR. The lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor, provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this chapter.

U. MANUFACTURED HOME. A structure, transportable in one or more sections, which is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes, the term "manufactured home" also includes park trailers, travel trailers and other similar vehicles placed on a site for greater than 180 consecutive days.

V. MANUFACTURED HOME PARK or SUBDIVISION. A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for sale or rent.

W. MEAN SEA LEVEL. The National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

X. NEW CONSTRUCTION. A structure for which the "start of construction" occurred on or after the effective date of this Chapter, or any applicable amendment thereto.

Y. ONE HUNDRED YEAR FLOOD. See "base flood".

Z. PERSON. An individual, firm, partnership, association or corporation, or agent of the foregoing, or this state or its agencies or political subdivisions.

AA. REMEDY A VIOLATION. To bring a structure or other development into compliance with state or local floodplain management regulations, or, if this is not possible, to reduce the impacts of its noncompliance by various means, including but not limited to, protecting the structure or other affected development from flood damages, implementing the enforcement provisions of the ordinance or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the structure or other development.

BB. RIVERINE. Relating to, formed by, or resembling a river (including tributaries), stream, or brook.

CC. SAND DUNES. Naturally occurring accumulations of sand in ridges or mounds landward of the beach.

DD. SPECIAL FLOOD HAZARD AREA (SFHA). An area having special flood or coastal high hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, AE, A99, AH, VO, V1-V30, VE or V.

EE. START OF CONSTRUCTION. The date the building permit was issued, provided the actual start of construction was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation pursuant to a valid building permit. Permanent construction does not include land preparation, such as clearing, grading, and filling, nor does it include the installation of streets or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not as part of the main structure.

FF. STRUCTURE. A walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

GG. SUBSTANTIAL IMPROVEMENT. Any repair, reconstruction, or improvement of a structure within any twenty four (24) month period, the cost of which equals or exceed fifty percent (50%) of the market value of the structure either before the improvement or repair is started or, if the structure has been damaged and is being restored, before the damage occurred. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either:

1. Any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions, or

2. Any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

HH. VARIANCE. A grant of relief from the requirements of this Chapter which permits construction in a manner that would otherwise be prohibited by this Chapter.

II. VIOLATION. The failure of a structure or other development to be in full compliance with this Chapter. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this Chapter is presumed to be in violation until such time as that documentation is provided. (Ord. 5451, Section 5, 2008; Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.050 Lands to Which This Chapter Applies.

This chapter shall apply to all areas of special flood hazards within the City of Santa Barbara. (Ord. 4522, 1988; Ord. 3972, 1978.)
22.24.060 Basis for Establishing the Areas of Special Flood Hazard.

"The Flood Insurance Study for The City of Santa Barbara", dated May 4, 1978 and revised October 15, 1985, and December 3, 1991 and all subsequent revisions by the U. S. Federal Emergency Management Agency with accompanying Flood Insurance Rate Maps is hereby adopted by reference and declared to be a part of this Chapter. Copies of the Flood Insurance Study and maps referred to therein, shall be maintained on file at 630 Garden Street, Santa Barbara, California, and at the Office of the City Clerk, City Hall, Santa Barbara, California. The Flood Insurance Study establishes the areas of special flood hazard identified by the Federal Emergency Management Agency or the Federal Insurance Administration. These areas are the minimum area of applicability of this Chapter; their boundaries may be changed, or new areas designated by the City Council following a recommendation thereon by the Chief of Building and Zoning. (Ord. 4731, 1991; Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.070 Compliance.

No structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the terms of this Chapter and other applicable regulations. Violations of the provisions of this Chapter by failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a misdemeanor. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.080 Abrogation and Greater Restrictions.

This Chapter is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this Chapter and another ordinance, easement, covenant, or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.090 Interpretation.

In the interpretation and application of this Chapter, all provisions shall be considered as minimum requirements, liberally construed in favor of the governing body, and, deemed neither to limit nor repeal any other powers granted under state statutes. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.100 Warning and Disclaimer of Liability.

The degree of flood protection required by this Chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This Chapter does not imply that land outside the areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This Chapter shall not create liability on the part of the City of Santa Barbara, any officer or employee thereof, or the Federal Insurance Administration, for any flood damages that result from reliance on this Chapter or any administrative decision made thereunder. (Ord.4522, 1988; Ord. 3972, 1978.)

A development permit shall be obtained before construction or development begins within any area of special flood hazard. Application for a development permit shall be made on forms furnished by the Chief of Building and Zoning and may include, but not be limited to: plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, fill, storage of materials, and drainage facilities; and the location of the foregoing. The following information is required on an application:

A. Elevation in relation to mean sea level, of the lowest floor (including basement) of all structures; in Zone AO or VO, elevation of highest adjacent grade and proposed elevation of lowest floor of all structures.
B. Elevation in relation to mean sea level to which any structure has been will be floodproofed;
C. All certifications required by Sections 22.24.130F and 22.24.160; and
D. Description of the extent to which any watercourse will be altered or relocated as a result of proposed development. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.120 Designation of the Chief of Building and Zoning.

The Chief of Building and Zoning is hereby appointed to administer and implement this Chapter by granting or denying development permit applications in accordance with its provisions. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.130 Duties and Responsibilities of the Chief of Building and Zoning.

Duties of the Chief of Building and Zoning shall include, but not be limited to:

A. Review of all development permits to determine that the permit requirements of this Chapter have been satisfied.
B. Review of all development permits to determine that all necessary permits have been obtained from those federal, state or local governmental agencies from which prior approval is required.

C. Review of all development permits to determine that the site is reasonably safe from flooding and will not result in flood elevations increasing more than one foot.

D. Review of all development permits to determine if the proposed development adversely affects the flood carrying capacity of areas where base flood elevations have been determined but a floodway has not been designated. For purposes of this Chapter, "adversely affects" means that the cumulative effect of the proposed development when combined with all other existing and anticipated development will not increase the water surface elevation of the base flood more than one foot at any point.

E. When base flood elevation data in accordance with Section 22.24.060 is unavailable, the Chief of Building and Zoning shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source, in order to administer Section 22.24.160 pertaining to specific standards for residential and nonresidential construction.

F. Maintain for public inspection all records pertaining to the provisions of this Chapter, including:
   1. The certification required in Section 22.24.160.C.1 (floor elevations);
   2. The certification required in Section 22.24.160.C.2 (elevations in areas of shallow flooding);
   3. The certification required in Section 22.24.160.C.3 (elevation or floodproofing of nonresidential structures);
   4. The certification required in Section 22.24.160.C.3 (wet floodproofing standard);
   5. The certified elevation required in Section 22.24.160.E.2 (subdivision standards);
   6. The certification required in Section 22.24.180.A (floodway encroachments); and

G. Notify adjacent communities, the Santa Barbara County Flood Control and Water Conservation District, and the California Department of Water Resources prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Insurance Administration. Require that the flood carrying capacity of the altered or relocated portion of the watercourse is maintained.

H. Make interpretations as to the exact location of the boundaries of the areas of special flood hazards, (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The persons contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Section 22.24.140.

I. Take action to remedy violations of this Chapter as specified in Section 22.24.070. (Ord. 4539, 1988; Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.140 Variance and Appeal Procedure.

A. The Planning Commission of the City of Santa Barbara shall hear and decide appeals and requests for variances from the requirements of this Chapter.

B. The Planning Commission shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the Chief of Building and Zoning in the enforcement or administration of this Chapter.

C. The applicant or any interested person may appeal the decision of the Planning Commission to the City Council in accordance with the procedures provided in Section 1.30.050 of this Code.

D. In reviewing such application, the Planning Commission shall consider all technical evaluations, all relevant factors, standards specified in other sections of this Chapter, and each of the following:
   1. The danger that materials may be swept onto other lands to the injury of others.
   2. The danger to life and property due to flooding or erosion damage.
   3. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
   4. The importance of the services provided by the proposed facility to the community.
   5. The necessity to the facility of a waterfront location, where applicable.
   6. The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage.
   7. The compatibility of the proposed use with existing and anticipated development.
   8. The relationship of the proposed use to the General Plan and Flood Plain Management Program for that area.
   9. The safety of access to the property in times of flood for ordinary and emergency vehicles.
   10. The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site.
   11. The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

E. Variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items identified in Paragraph D have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.
F. Upon consideration of the factors identified in Paragraph D and the purposes of this Chapter, the Planning Commission may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.

G. The Chief of Building and Zoning shall maintain the records of all appeal actions and report any variances to the Federal Insurance Administration upon request. (Ord. 5136, 1999; Ord. 4522, 1988; Ord. 3972, 1978.)

**22.24.150 Conditions for Variances.**

A. Variances may be issued for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use, provided the provisions of Section 22.24.140D are satisfied and that the structure or other development is protected by methods that minimize flood damage during the base flood and create no additional threats to public safety.

B. Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this section.

C. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

D. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

E. Variances shall only be issued upon:
   1. A determination that failure to grant the variance would result in exceptional hardship to the applicant; and
   2. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public as identified in Section 22.24.140.D, or conflict with existing local laws or ordinances.

F. An applicant to whom a variance is granted shall be given written notice that the structure will be permitted to be built with a lowest floor elevation below the base elevation and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation. A copy of the notice shall be recorded by the Chief of Building and Zoning in the office of the Santa Barbara County Recorder in a manner so that it appears in the chain of title of the affected parcel of land. (Ord. 4522, 1988, Ord. 3972, 1978.)

**22.24.160 General Standards for Flood Hazard Reduction.**

In all areas of special flood hazards the following standards shall apply:

A. Anchoring.
   1. All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
   2. All manufactured homes shall be securely anchored to a permanent foundation system to resist flotation, collapse, or lateral movement, and shall be elevated so that the lowest floor is at or above the base flood elevation, unless a higher elevation is required by the Chief of Building and Zoning.

B. Construction Material and Methods.
   1. All new construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
   2. All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damage.
   3. All new construction and substantial improvements shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and located so as to prevent water from entering or accumulating within the components during conditions of flooding.
   4. Require within Zones AH, AO or VO, adequate drainage paths around structures on slopes to guide flood waters around and away from proposed structures.

C. Elevation and Floodproofing.
   1. New construction and substantial improvement of any structure shall have the lowest floor, including basement, elevated to or above the base flood elevation, unless a higher elevation is required by the Chief of Building and Zoning. Nonresidential structures may meet the standards in subsection 3. below. Upon the completion of the structure the elevation of the lowest floor, including basement, shall be certified by a registered professional engineer or surveyor, or verified by the building inspector to be properly elevated. Such certification or verification shall be provided to the Chief of Building and Zoning.
   2. New construction and substantial improvement of any structure in Zone AO or VO shall have the lowest floor, including basement, elevated at least as high as the depth number specified in feet on the FIRM, or at least two feet above the highest adjacent grade if no depth number is specified. Nonresidential structures may meet the standards in subsection 3. below. Upon the completion of the structure the elevation of the lowest floor including basement shall be certified by a registered professional engineer or surveyor, or verified by the building inspector to be properly elevated. Such certification or verification shall be provided to the Chief of Building and Zoning.
3. Nonresidential construction shall either be elevated in conformance with subsection 2. above or, together with attendant utility and sanitary facilities, shall:
   a. Be floodproofed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water;
   b. Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects for buoyancy; and
   c. Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certifications shall be provided to the Chief of Building and Zoning.
   
   4. Require, for all new construction and substantial improvements, that fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:
      a. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves or other coverings or devices provided that they permit the automatic entry and exit of floodwaters; or
      b. Be certified to comply with a local floodproofing standard approved by the Federal Insurance Administration.
   
5. Manufactured homes shall also meet the standards in subsection A.2. above.

D. Utilities.
   
1. All new and replacement water supply and sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system and discharge from systems into flood waters.
2. On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

E. Subdivision Proposals.
   
1. All preliminary subdivision proposals shall identify the flood hazard area and the elevation of the base flood.
2. All final subdivision plans shall provide the elevation of proposed structure(s) and pads. If the site is filled above the base flood, the final pad elevation shall be certified by a registered professional engineer or surveyor and provided to the Chief of Building and Zoning.
3. All subdivision proposals shall be consistent with the need to minimize flood damage.
4. All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical, and water systems located and constructed to minimize flood damage.
5. All subdivision proposals shall have adequate drainage provided to reduce exposure to flood damage.

(Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.170 Coastal High Hazard Areas.

Within coastal high hazard areas established pursuant to Section 22.24.060, the following standards shall apply:

A. All new construction and substantial improvements shall be elevated on adequately anchored pilings or columns and securely anchored to such pilings or columns so that the lowest horizontal portion of the structural members of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood elevation, unless a higher elevation is required by the Chief of Building and Zoning.

B. All new construction and substantial improvements shall have the space below the lowest floor free of obstructions or constructed with breakaway walls. Such temporarily enclosed space shall not be used for human habitation or storage.

C. Fill shall not be used for structural support of buildings.

D. Man-made alteration of sand dunes which would increase potential flood damage is prohibited.

E. The Chief of Building and Zoning shall obtain and maintain the following records:
   1. Certification by a registered engineer or architect that a proposed structure complies with subsection A above.
   2. The elevation (in relation to mean sea level) of the bottom of the lowest structural member of the lowest floor (excluding pilings or columns) of all new and substantially improved structures, and whether such structures contain a basement. (Ord. 4522, 1988; Ord. 3972, 1978.)

22.24.180 Floodways.

Since the floodway is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles, and erosion potential, the following provisions apply to floodways.

A. No encroachments, including fill, new construction, substantial improvements, and other development are permitted unless a registered professional engineer or architect certifies that the development will not result in any increase in flood levels during the occurrence of the base flood discharge.

B. If subsection A above is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of Sections 22.24.160 and 22.24.170.

C. No mobile homes may be placed in any floodway, except in a mobile home park or mobile home subdivision established prior to the effective date of this Chapter. (Ord. 4522, 1988; Ord. 3972, 1978.)
Chapter 22.32

NUMBERING BUILDINGS

Sections:
22.32.010 Assignment of Numbers - When City Shall Affix at Owner's Expense.
22.32.020 Failure to Place Number Unlawful.
22.32.030 Size, Color and Location of Numbers.
22.32.040 Numbering System Generally.

22.32.010 Assignment of Numbers - When City Shall Affix at Owner's Expense.

The City engineer shall have charge of the matter of numbering houses, buildings and similar structures and shall, upon request, give any property owner or occupant of any house or building the number of his premises. It shall be his duty to notify, in writing, householders and others to place proper numbers where required. Such notice shall state the number required, and upon their failure to place the number on the building he may cause the same to be done at the expense of the City, which expense shall be collected from the person liable therefor. (Prior Code §11.5.)

22.32.020 Failure to Place Number Unlawful.

Any person failing to place a number upon premises owned or occupied by him within ten (10) days from the giving of the notice mentioned in Section 22.32.010 by the City Engineer, shall be guilty of a misdemeanor. (Prior Code §11.6.)

22.32.030 Size, Color and Location of Numbers.

The numbers required by this chapter shall be plain Arabic numbers at least three inches (3") in height and shall be so located that they are clearly visible from the street. The numbers shall be in a color contrasting to the background on which they are placed. (Prior Code §11.7.)

22.32.040 Numbering System Generally.

All houses, buildings and lots fronting on streets or public thoroughfares shall be numbered in the following manner:

(1) Beginning at State Street the lots, houses and buildings shall be numbered consecutively to the City limits on streets extending in northeasterly, northerly and southwesterly, southerly directions respectively. The even numbers shall be on the southeast or east side of streets running in a northeasterly or northerly direction respectively from State Street and odd numbers shall be on the northwesterly or westerly sides respectively of such streets. On streets running in a southwesterly or southerly direction from State Street, even numbers shall be on the northwesterly and westerly sides and odd numbers on the southeasterly and easterly sides respectively of such streets. One hundred (100) numbers shall be assigned to each block beginning with number one (1) at the opposite sides of State Street.

(2) Beginning at Quinientos Street, lots, houses and buildings shall be numbered consecutively to the City limits on streets extending in northwesterly and southeasterly directions respectively. On streets northwesterly of Quinientos Street and generally parallel to State Street, the numbers shall be even on the northeasterly or northerly sides and odd on the southwesterly or southerly sides. On streets southeasterly of Quinientos Street and generally parallel to the prolongation of the southerly end of State Street, the numbers shall be even on the southwesterly side and odd on northeasterly side. One hundred (100) numbers shall be assigned for each block starting with the number one (1) on opposite sides of Quinientos Street and the numbers southeasterly of Quinientos Street shall be followed by the letter S.

(3) Twenty-five feet (25') frontage shall be allowed for each number; provided, that where a block exceeds four hundred and fifty feet (450') then fractional numbers may be used in such manner that the total of the numbers in a block shall not exceed one hundred (100). All avenues, alleys or other places occupied or used for residence or business purposes shall be numbered in a like manner, and the numbers shall correspond with the numbers in the block in which such avenues, alleys or places are situated. (Prior Code §11.8.)
Chapter 22.38
UNDERGROUNDING OF UTILITIES

22.38.010 Purpose and Requirements for Undergrounding Utilities.

A. PURPOSE. This Chapter specifies the requirements for underground utilities related to construction projects in the City, which include but are not limited to new subdivisions, other private development projects, public streets and other public improvements.

B. SPECIFIC REQUIREMENTS. Specific requirements to place and maintain utility wires and related facilities underground are contained in various portions of the Santa Barbara Municipal Code, including:

2. Service Connections. Section 22.38.030 of this Code contains undergrounding requirements for service connections.

3. Subdivisions. Section 27.08.025 of this Code contains undergrounding requirements for subdivisions.

4. Underground Districts. Chapter 22.40 of this Code contains undergrounding requirements for underground utility districts that have been established pursuant to this Code. (Ord. 4318, 1985.)

22.38.020 Definitions.

The following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning:

A. NEW STRUCTURE. (i) A new free standing structure which has utility service; (ii) a structure to which additions are made, within any twenty-four (24) month period, which exceed 500 square feet and fifty percent (50%) of the existing floor area; (iii) a structure to which alterations and substantial improvements are made, within any twenty-four (24) month period, which exceed fifty percent (50%) of the replacement value of the structure; or (iv) a building, which has utility service, that is moved to another location or relocated on the same parcel.

B. ROADWAY. The portion of a highway or street improved, designed or ordinarily used for vehicular travel.

C. UTILITY. Electricity, telephone, street lighting, cable television, communications, personal communications, cellular phone service, other telecommunications and similar services.

D. SERVICE CONNECTIONS. The utility service equipment serving an individual parcel.

E. DISTRIBUTION FACILITIES. The utility service equipment serving more than one individual parcel.

F. UTILITY SERVICE EQUIPMENT. Facilities for the provision or transmission of electricity, telephone, street lighting, cable television, personal communications, cellular phone service, other telecommunications and similar services, including wires, conduit, poles, supports, antennae, transformers, insulators, switches, and related or appurtenant facilities. (Ord. 5048, 1998; Ord. 4907, 1995; Ord. 4318, 1985.)

22.38.030 Service Connection Requirements.

A. UNDERGROUND INSTALLATION REQUIRED. All service connections for utilities serving a new structure or any existing structure located on the same parcel as a new structure except for distribution facilities shall be installed or relocated underground, except as permitted by this Chapter.

B. ROUTING. Underground service routing for commercial and industrial properties shall be located in a manner that avoids interference with future potential building areas.

C. TRENCHING. When utilities are being installed as required by this Section or Section 22.38.040, cable or conduit shall be installed for all utilities while trenches are open to prevent unnecessary retrenching of driveways, streets and gutters.

D. ABOVEGROUND INSTALLATIONS. Construction plans which are submitted to the City for approval shall show transformers, pedestals and mounted terminal boxes and shall be subject to approval of the Chief of Building and Safety. (Ord. 4907, 1995; Ord. 4318, 1985.)
22.38.040 Undergrounding at the Time of Roadway Widening or Extension.

Whenever a roadway widening or roadway extension project in the City, whether undertaken pursuant to the provisions of Division 3 of the California Streets and Highways Code, a special assessment proceeding or otherwise, requires the relocation or extension of existing overhead utility services, such relocated or extended utility services shall be located underground pursuant to this Chapter. The participation by the respective utility companies in the costs for relocating or extending utility services shall be determined in accordance with the then applicable rules, regulations and tariffs on file with the California Public Utilities Commission. (Ord. 4218, 1985.)

22.38.050 Hardship Waiver; In-Lieu Fees.

A. PROCEDURE. Whenever the cost of placing utility services underground is so great as to constitute an unreasonable hardship, the applicant for a City building permit or other permit or the owner of an interest in the real property may apply in writing to the Chief of Building and Safety for relief from the provisions of this Chapter. The request shall contain (i) a detailed description of the overhead utility services proposed to be placed underground; (ii) separate itemized cost estimates for construction of the project if the utilities were placed or relocated (a) underground or (b) above ground; and (iii) such other information as needed to determine hardship.

B. INVESTIGATION AND HEARING. The Chief of Building and Safety shall investigate the costs of the project if the utilities were placed underground or relocated above ground and obtain any other necessary information to make a determination on the application. Within twenty (20) days after the filing of the application, the Chief of Building and Safety shall hold a hearing on the matter at a scheduled time and place.

C. UNREASONABLE HARDSHIP; FINDINGS. After considering the request for relief, the Chief of Building and Safety shall determine whether any relief is proper under the circumstances, including, but not limited to, indefinite deferral of the undergrounding requirement. The Chief of Building and Safety shall grant relief only upon the following findings, as applicable:

1. The cost of placing existing utility services underground is either so (i) exorbitant or (ii) disproportionate to the total cost of construction as to constitute an unreasonable hardship;
2. No new utility poles are to be erected;
3. There are other overhead utility lines in the immediate vicinity which would remain even if no waiver were granted;
4. The costs of undergrounding exceeds ten percent (10%) of the project valuation if the project is a subdivision, or five percent (5%) of the project valuation for a project other than a subdivision, as determined by the currently adopted valuation tables of the Chief of Building and Safety or through use of an estimate provided by the architect, engineer or contractor for the project, whichever is higher;
5. The grant of approval would not be inconsistent with the intent and purposes of this Chapter;
6. Where the project is or includes, as a substantial portion of the work, the installation or replacement of utilities distribution facilities and there are unusual conflicts or other conditions or circumstances which preclude reasonable measures to install underground utility, the Chief of Building and Safety shall provide such relief as is consistent with the intent and purposes of this Chapter; or
7. Where the project involves the reconstruction, restoration or rebuilding of a single family residence which was damaged or destroyed by fire, flood, wind, earthquake or other calamity or act of God or the public enemy; provided, however, this finding is only available if the affected utility has determined that the required undergrounding is infeasible or not advisable for technical or maintenance reasons. For purposes of this finding only, the payment of in-lieu fees, as provided in paragraph 3 of Subsection 22.38.050.D below, may be waived by the Community Development Director if the reconstructed single family residence does not exceed the net square footage of the residence that was legally permitted prior to the damage or destruction.

D. REQUIRED CONDITIONS. If relief is granted by the Chief of Building and Safety, the following conditions shall be imposed, as applicable:

1. The owner must execute and cause to be recorded, on forms to be provided by the City, a waiver of the right of protest to the formation of an assessment district proposed for the purpose of undergrounding utilities; and
2. An electric meter enclosure or other enclosure suitable for both overhead and underground utilities is to be installed; and
3. The owner shall pay the City an in-lieu fee of ten percent (10%) of the project valuation if the project is a subdivision and (i) the subdivision will contain more than two (2) new lots, or (ii) more than two (2) dwellings exist or may legally be constructed within the subdivision or (iii) the property is not zoned solely for residential uses. Alternatively, the owner shall pay the City an in-lieu fee of five percent (5%) of the project valuation for other subdivisions or a project other than a subdivision. Project valuation shall be determined utilizing valuation tables or through use of an estimate provided by the architect, engineer or contractor for the project, whichever is higher. The fees shall be deposited in a fund to be used only for undergrounding of utilities in the City and purposes directly related thereto. For subdivisions, the in-lieu fees shall be paid to the City prior to approval of a Final Map or Parcel Map. For other projects, the in-lieu fee shall be paid to the City prior to the issuance of the building permit for the project, unless a building permit is not required for the project, in which event the fee shall be paid to the City within thirty (30) days after the granting of the relief is final.
4. As to each subdivision for which a five percent (5%) in-lieu fee will be paid, an agreement approved by the City Attorney shall be recorded which (i) prohibits more than two lots within the property being subdivided, (ii) restricts the use of the subdivided property to residential uses, and (iii) prohibits the construction, maintenance or use of more than two dwellings on the subdivided property. The agreement shall require that if there is not compliance with the above conditions and restrictions, the Owner, at its sole cost, shall cause all utilities within the property that is subdivided to be placed underground.

5. Where the project is or includes, as a substantial portion of the work, the installation or replacement of utilities distribution facilities and there are unusual conflicts or other conditions or circumstances which preclude reasonable measures to install utilities underground, the Chief of Building and Safety shall provide, as a condition of any relief from requirements of this Chapter, an in lieu payment or other commitment sufficient to insure placement of overhead conduit underground to an extent which is equivalent to the extent of the conduit for which relief is granted.

E. INAPPLICABILITY TO SUBDIVISION APPROVALS. This Section does not authorize the waiver of any subdivision map condition related to undergrounding of utilities except as authorized by Sections 22.38.050.D and 27.08.025 of the Code.

F. TERMINATION OF AUTHORITY. The authority to grant relief pursuant to this Section or Section 22.38.060 shall terminate should a court of competent jurisdiction determine that the City may not lawfully impose or collect the in-lieu fee specified in Subsection D. (Ord. 5503, 2009; Ord. 5048, 1998; Ord. 4455, 1987; Ord. 4399, 1986; Ord. 4318, 1985.)

22.38.060 Appeal to City Council.

A. PROCEDURE. Any determination of the Chief of Building and Safety concerning a hardship waiver request under this Chapter may be appealed by any interested person to the City Council by filing a written appeal with the City Clerk within ten (10) days after the date of such decision. The decision of the Chief of Building and Safety is final if an appeal is not filed in a timely manner.

B. APPEAL REQUIREMENTS. The appeal shall contain (i) a detailed description of the overhead utility services proposed to be placed underground, (ii) separate itemized cost estimates for construction of the project if the utilities were placed underground or relocated aboveground, and (iii) the grounds for the appeal.

C. SCHEDULING OF HEARING. The City Council shall, at its regular meeting next following receipt of the appeal, set the appeal for hearing.

D. GRANTING APPEAL, UNREASONABLE HARDSHIP, FINDINGS, CONDITIONS. Upon consideration of the appeal, the City Council may grant such relief as it may deem proper under the circumstances, including, but not limited to, indefinite deferral of such requirement. Such appeal may be granted based upon the findings and conditions stated in Subsections C and D of Section 22.38.050. (Ord. 4318, 1985.)

22.38.065 Relief Where Undergrounding is Impossible.

Upon application therefor, the Planning Commission is authorized to relieve a property owner from the requirement that it underground all of the utilities provided the Commission finds that (i) the owner cannot obtain a right-of-way or right-of-way entry on an adjacent parcel which is necessary to accomplish the undergrounding, or (ii) it is otherwise impossible to underground the utilities. Relief granted under this Section shall not be effective unless the Owner (i) pays to the City the lesser of the costs of the undergrounding that is not required or the amount of the fees that would be required to obtain a waiver under Section 22.38.050 and (ii) waives the right to protest the amount of that payment. That payment shall be deposited in a fund to be used only for undergrounding in the City and purposes related thereto. The property owner shall have the burden of proof and the decision of the Planning Commission shall be final. (Ord. 4399, 1986.)

22.38.070 Fees.

The City Council may, by resolution, establish fees for applications and appeals authorized by this Chapter. (Ord. 4318, 1985.)

22.38.080 Rules and Regulations.

The Chief of Building and Safety shall have the authority to promulgate and administer rules and regulations necessary for the administration and interpretation of this Chapter. These rules and regulations shall be effective only for thirty (30) days after their adoption unless they are approved by resolution of the City Council. (Ord. 4318, 1985.)
22.38.100 Overhead Utilities Prohibited Where Services Underground.

A. UNLAWFUL TO INSTALL. It shall be unlawful for any person or utility to erect, construct, place, or install any utility poles, overhead wires, overhead conduits, or associated overhead structures:
   1. Along any public or private street, road, drive or access, public right of way, or other corridor in which the electrical power utility distribution lines or services for electricity have been placed or located underground; or,
   2. Along any public or private street, road, drive or access, public right of way, or other corridor in which the principal utilities providing service for that corridor are maintained underground.

B. UNLAWFUL TO MAINTAIN. It shall be unlawful for any person or utility to keep, maintain, continue, employ or operate utility poles, overhead wires, overhead conduits or associated overhead structures which have been installed, constructed or otherwise placed in violation of this Chapter. (Ord. 5048, 1998.)

22.38.110 Emergency Exceptions.

Notwithstanding the provisions of Section 22.38.100, overhead facilities may be installed and maintained for a period, not to exceed thirty (30) days, as necessary in order to provide emergency service. Emergency overhead facilities may be installed and maintained for a period in excess of 30 days, but not to exceed 180 days, upon the approval of the Public Works Director. (Ord. 5048, 1998.)

22.38.120 Unusual Circumstances and Other Exceptions.

With respect to overhead utility services and notwithstanding the provisions of Section 22.38.100, the City Council may authorize, on such terms and conditions as the Council may deem appropriate, a person or utility to erect, construct, install, maintain, use or operate overhead structures for any of the following services:

A. Poles, wires, and associated overhead structures for a period of time longer than one hundred and eighty (180) days as necessary to address emergency conditions, or to correct for damage to, loss of, unusual, or interrupted, utility service(s);

B. Municipal facilities or equipment installed under the supervision and to the satisfaction of the Public Works Director;

C. Poles or electroliers used exclusively for street lighting;

D. Overhead wires (exclusive of supporting structures) to cross a portion of the area serviced by underground utilities or connecting to buildings on the perimeter of such area when such wires originate in an area from which poles, overhead wires and associated overhead structures are not prohibited;

E. Poles, overhead wires and associated overhead structures used for the transmission of electric energy at nominal voltages in excess of 34,500 volts;

F. Overhead wires, attached to the exterior surface of a building by means of a bracket or other fixture and extending from one location on the building to another location on the same building or to an adjacent building without crossing any public street;

G. Antennae, associated equipment and supporting structures, used by a utility for furnishing communication services;

H. Equipment which is appurtenant to underground facilities, such as surface mounted transformers, pedestal mounted terminal boxes, meter cabinets and concealed duets;
   I. Temporary poles, overhead wires and associated overhead structures used or to be used in conjunction with construction projects; and,
   J. Poles, wires, and associated overhead structures which were existing in place on January 1, 1997. (Ord. 5048, 1998.)

22.38.125 Utilities Installed in Rights of Way, Permit Required.

In order to provide for coordination of conduits and protection for existing utility services, it shall be unlawful for any person or utility to place, install, construct or maintain overhead or underground utilities lines, conduits, poles, services or other improvements within a City street, public alley or other public right of way without approval by Public Works Permit issued by the Public Works Director. (Ord. 5048, 1998.)

### 22.40.010 Definitions.

Whenever in this chapter the words or phrases hereinafter in this section defined are used, they shall have the respective meanings assigned to them in the following definitions:

(a) "Commission" means the Public Utilities Commission of the State;

(b) "Underground Utility District" or "District" means that area in the City within which poles, overhead wires, and associated overhead structures are prohibited as such area is described in a resolution adopted pursuant to the provisions of Section 22.40.040;

(c) "Person" means and includes individuals, firms, corporations, partnerships, and their agents and employees;

(d) "Poles, overhead wires and associated overhead structures" mean poles, towers, supports, wires, conductors, guys, stubs, platforms, cross-arms, braces, transformers, insulators, cutouts, switches, communication circuits, appliances, attachments and appurtenances located above ground within a district and used or useful in supplying electric, communication or similar or associated service;

(e) "Utility" includes all persons or entities supplying electric, communication or similar or associated service by means of electrical materials or devices. (Ord. 3327 §1(part), 1968.)

### 22.40.020 Public Hearing by Council.

The Council may from time to time call public hearings to ascertain whether the public necessity, health, safety or welfare requires the removal of poles, overhead wires and associated overhead structures within designated areas of the City and the underground installation of wires and facilities for supplying electric, communication or similar or associated service. The City Clerk shall notify all affected property owners as shown on the last Equalized Assessment Roll and utilities concerned by mail of the time and place of such hearings at least ten (10) days prior to the date thereof. Each such hearing shall be open to the public and may be continued from time to time. At each such hearing all persons interested shall be given an opportunity to be heard. The decision of the Council shall be final and conclusive. (Ord. 3327 §1(part), 1968.)

### 22.40.030 Report by Public Works Director.

Prior to holding such public hearing, the Public Works Director shall consult with all affected utilities and shall prepare a report for submission at such hearing containing, among other information, the extent of such utilities' participation and estimates of the total costs to the City and affected property owners. Such report shall also contain an estimate of the time required to complete such underground installation and removal of overhead facilities. (Ord. 3327 §1(part), 1968.)

### 22.40.040 Council May Designate Underground Utility Districts by Resolution.

If, after any such public hearing the Council finds that the public necessity, health, safety or welfare requires such removal and such underground installation within a designated area, the Council shall, by resolution, declare such designated area an underground utility district and order such removal and underground installation. Such resolution shall include a description of the area comprising such district and shall fix the time within which such removal and underground installation shall be accomplished and within which affected property owners must be ready to receive underground service. A reasonable time shall be allowed for such removal and underground installation, having due regard for the availability of labor, materials and equipment necessary for such removal and for the installation of such underground facilities as may be occasioned thereby. (Ord. 3327 §1(part), 1968.)
22.40.050 Unlawful Acts.

Whenever the Council creates an underground utility district and orders the removal of poles, overhead wires and associated overhead structures therein as provided in Section 22.40.040, it is unlawful for any person or utility to erect, construct, place, keep, maintain, continue, employ or operate poles, overhead wires and associated overhead structures in the district after the date when the overhead facilities are required to be removed by such resolution, except as the overhead facilities may be required to furnish service to an owner or occupant of property prior to the performance by such owner or occupant of the underground work necessary for such owner or occupant to continue to receive utility service as provided in Section 22.40.100, and for such reasonable time required to remove said facilities after such work has been performed, and except as otherwise provided in this chapter. (Ord. 3327 §1(part), 1968.)

22.40.060 Exception, Emergency or Unusual Circumstances.

Notwithstanding the provisions of this chapter, overhead facilities may be installed and maintained for a period, not to exceed ten (10) days, without authority of the Council in order to provide emergency service. The Council may grant special permission, on such terms as the Council may deem appropriate, in cases of unusual circumstances, without discrimination as to any person or utility, to erect, construct, install, maintain, use or operate poles, overhead wires and associated overhead structures. (Ord. 3327 §1, 1968.)

22.40.070 Other Exceptions.

In any resolution adopted pursuant to Section 22.40.040, the City may authorize any or all of the following exceptions:

(a) Any municipal facilities or equipment installed under the supervision and to the satisfaction of the Public Works Director;

(b) Poles, or electroliers used exclusively for street lighting;

(c) Overhead wires (exclusive of supporting structures) crossing any portion of a district within which overhead wires have been prohibited, or connecting to buildings on the perimeter of a district, when such wires originate in an area from which poles, overhead wires and associated overhead structures are not prohibited;

(d) Poles, overhead wires and associated overhead structures used for the transmission of electric energy at nominal voltages in excess of 34,500 volts;

(e) Overhead wires attached to the exterior surface of a building by means of a bracket or other fixture and extending from one (1) location on the building to another location on the same building or to an adjacent building without crossing any public street;

(f) Antennae, associated equipment and supporting structures, used by a utility for furnishing communication services;

(g) Equipment appurtenant to underground facilities, such as surface mounted transformers, pedestal mounted terminal boxes and meter cabinets, and concealed ducts;

(h) Temporary poles, overhead wires and associated overhead structures used or to be used in conjunction with construction projects. (Ord. 3327 §1(part), 1968.)

22.40.080 Notice to Property Owners and Utility Companies.

Within ten (10) days after the effective date of a resolution adopted pursuant to Section 22.40.040, the City Clerk shall notify all affected utilities and persons owning real property within the district created by said resolution of the adoption thereof. The City Clerk shall further notify such affected property owners of the necessity that, if they or any person occupying such property desire to continue to receive electric, communication, or similar or associated service, they or such occupant shall provide all necessary facility changes on their premises so as to receive such service from the lines of the supplying utility or utilities at a new location.

Notification by the City Clerk shall be made by mailing a copy of the resolution adopted pursuant to Section 22.40.040, together with a copy of this chapter, to affected property owners as such are shown on the last Equalized Assessment Roll and to the affected utilities. (Ord. 3327 §1(part), 1968.)

22.40.090 Responsibility of Utility Companies.

If underground construction is necessary to provide utility service within a district created by any resolution adopted pursuant to Section 22.40.040, the supplying utility shall furnish that portion of the conduits, conductors and associated equipment required to be furnished by it under its applicable rules, regulations and tariffs on file with the Commission. (Ord. 3327 §1(part), 1968.)
22.40.100 Responsibility of Property Owners.

(a) Every person owning, operating, leasing, occupying or renting a building or structure within a district shall construct and provide that portion of the service connection on his property between the facilities referred to in Section 22.40.080 and the termination facility on or within said building or structure being served. If the above is not accomplished by any person within the time provided for in the resolution enacted pursuant to Section 22.40.040 hereof, the Public Works Director shall give notice in writing to the person in possession of such premises, and a notice in writing to the owner thereof as shown on the last Equalized Assessment Roll, to provide the required underground facilities within ten (10) days after receipt of such notice.

(b) The notice to provide the required underground facilities may be given either by personal service or mail. In case of service by mail on either of such persons, the notice must be deposited in the United States mail in a sealed envelope with postage prepaid, addressed to the person in possession of such premises at such premises, and the notice must be addressed to the owner thereof as such owner’s name appears, and must be addressed to such owner's last known address as the same appears on the last Equalized Assessment Roll, and when no address appears, to General Delivery, City of Santa Barbara. If notice is given by mail, such notice shall be deemed to have been received by the person to whom it has been sent within forty-eight (48) hours after mailing thereof. If notice is given by mail to either the owner or occupant of such premises, the Public Works Director shall, within forty-eight (48) hours after the mailing thereof, cause a copy thereof, printed on a card not less than eight inches (8”) by ten inches (10”) in size, to be posted in a conspicuous place on said premises.

(c) The notice given by the Public Works Director to provide the required underground facilities shall particularly specify what work is required to be done, and shall state that if the work is not completed within thirty (30) days after receipt of such notice, the Public Works Director will provide such required underground facilities, in which case the cost and expense thereof will be assessed against the property benefited and become a lien upon such property.

(d) If upon the expiration of the thirty (30) day period, the said required underground facilities have not been provided, the Public Works Director shall forthwith proceed to do the work, provided, however, if such premises are unoccupied and no electric or communications services are being furnished thereto, the Public Works Director shall in lieu of providing the required underground facilities, have the authority to order the disconnection and removal of any and all overhead service wires and associated facilities supplying utility service to said property. Upon completion of the work by the Public Works Director he shall file a written report with the City Council setting forth the fact that the required underground facilities have been provided and the cost thereof, together with a legal description of the property against which such cost is to be assessed. The Council shall thereupon fix a time and place for hearing protests against the assessment of the cost of such work upon such premises, which said time shall not be less than ten (10) days thereafter.

(e) The Public Works Director shall forthwith, upon the time for hearing such protests having been fixed, give a notice in writing to the person in possession of such premises, and a notice in writing to the owner thereof, in the manner hereinabove provided for the giving of the notice to provide the required underground facilities, of the time and place that the Council will pass upon such report and will hear protests against such assessment. Such notice shall also set forth the amount of the proposed assessment.

(f) Upon the date and hour set for the hearing of protests, the Council shall hear and consider the report and all protests, if there be any, and then proceed to affirm, modify or reject the assessment.

(g) If any assessment is not paid within five (5) days after its confirmation by the Council, the amount of the assessment shall become a lien upon the property against which the assessment is made by the Public Works Director, and the Public Works Director is directed to turn over to the Assessor and Tax Collector a notice of lien on each of the properties on which the assessment has not been paid, and the Assessor and Tax Collector shall add the amount of the assessment to the next regular bill for taxes levied against the premises upon which the assessment was not paid. Said assessment shall be due and payable at the same time as the property taxes are due and payable, and if not paid when due and payable, shall bear interest at the rate of six percent (6%) per annum. (Ord. 3946, 1978; Ord. 3327 §1(part), 1968.)

22.40.110 Responsibility of City.

The City shall remove at its own expense all City owned equipment from all poles required removed hereunder in ample time to enable the owner or user of such poles to remove the same within the time specified in the resolution enacted pursuant to Section 22.40.040. (Ord. 3327 §1(part), 1968.)

22.40.120 Extension of Time.

In the event that any act required by this ordinance or by a resolution adopted pursuant to Section 22.40.040 cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, civil disobedience, or any other circumstances beyond the control of the actor, then the time within which such act will be accomplished may be extended for a period equivalent to the time of such limitation, upon a showing of satisfactory evidence. (Ord. 3327 §1(part), 1968.)
22.40.130 Penalty for Violation.

It is unlawful for any person to violate any provision or to fail to comply with any of the requirements of this chapter. Any person violating any provision of this chapter or failing to comply with any of its requirements shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding five hundred dollars ($500.00) or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment. Each such person shall be deemed guilty of a separate offense for each day during any portion of which any violation of any of the provisions of this chapter is committed, continued or permitted by such person, and shall be punishable therefor as provided for in this chapter. (Ord. 3327 §1(part), 1968.)

Chapter 22.42
TANKS, WELLS, TRANSMISSION LINES AND CONDUITS AS PUBLIC NUISANCE

Sections:

22.42.010 Certain Tanks, Wells, Transmission Lines, Etc. Declared a Nuisance.
22.42.020 Description of Property in Resolution Declaring Nuisance.
22.42.030 Resolution May Cover Several Parcels.
22.42.040 Posting and Form of Notice to Abate.
22.42.050 Time for Posting Notice to Abate.
22.42.060 Council to Hear Objections to Proposed Removal.
22.42.070 Order to Abate - Owner May Abate Before City Begins Work.
22.42.080 Report of City's Expenses.
22.42.090 Hearing On and Confirmation of City's Costs - Costs to be Lien - Collecting Costs.
22.42.100 Reservation of Police Powers.

22.42.010 Certain Tanks, Wells, Transmission Lines, Etc. Declared a Nuisance.

Buried tanks, surface tanks, cisterns, wells, transmission lines and other conduits located within or extending into a park, beach, road, street, alley, harbor or airport property, or other public property or right of way which are not removed within 30 days following demand by the Public Works Director or City Engineer may be declared to be a public nuisance by resolution of the City Council and thereafter abated at the joint and several expense of:

1. the party, person or persons responsible for the installation;
2. the party, person or persons for whose benefit the installation was made; and,
3. the present owner(s) of the land or premises for the benefit of which the installation was made.
(Ord. 4830, 1993)

22.42.020 Description of Property in Resolution Declaring Nuisance.

The resolution adopted pursuant to Section 22.42.010 shall describe the property upon which the nuisance exists, or the property for the benefit of which such nuisance was installed, by reference to the latest County Tax Assessor's records available to the public, and no other description of the property shall be required. In lieu thereof, reference may be made to the parcel or lot and block number of the property according to the official map or other records.
(Ord. 4830, 1993)

22.42.030 Resolution May Cover Several Parcels.

Any number of parcels of property may be included in one and the same resolution declaring the nuisance. (Ord. 4830, 1993)

22.42.040 Posting and Form of Notice to Abate.

After adoption of the resolution as provided by Sections 22.42.020 and 22.42.030, the Public Works Director, or City Engineer shall cause a notice to abate the nuisance to be mailed to the person responsible for the installation, if known, and conspicuously posted on the property on which the nuisance exists, and on the property which was to benefit from the facility installed, if reasonably identified. At least three such notices shall be placed on such property, near such nuisance, at intervals not more than one hundred feet (100') in distance apart. Such notice shall include the words: "Notice to Abate Nuisance" in letters not less than one inch (1") in height, and shall be substantially in the following form:
NOTICE TO ABATE NUISANCE

NOTICE IS HEREBY GIVEN, that on the day of , , the Santa Barbara City Council adopted a resolution declaring that one or more tanks, wells, cisterns, transmission lines or other conduits located within or extended into public property by , or installed for the benefit of property more particularly described in such resolution, constitutes a public nuisance which must be abated by removal, otherwise they will be removed and the nuisance will be abated by order of the City in which case the cost of such removal, together with incidental expenses, shall be charged to such person or agency responsible and assessed upon the lots and lands for the benefit of which such installation was made, and such costs and incidental expenses will constitute a lien upon such lots or lands until paid. Reference is hereby made to such resolution for further particulars.

All persons and all property owners having any objections to the proposed abatement are hereby notified to attend a meeting of the Santa Barbara City Council to be held on the day of , , at the Council Chamber of the Santa Barbara City Hall, 735 Anacapa Street, Santa Barbara, California, when their objections will be heard and given due consideration.

Dated:

(Ord. 4830, 1993.)

**22.42.050 Time for Posting Notice to Abate.**

The notice provided in Section 22.42.040 shall be posted at least ten (10) days prior to the time stated therein for hearing objections by the City Council. (Ord. 4830, 1993)

**22.42.060 Council to Hear Objections to Proposed Removal.**

At the time stated in the notice posted pursuant to Sections 22.42.040 and 22.42.050, the Council shall hear and consider all objections or protests, if any, to the proposed abatement found by resolution to be a nuisance, and may continue the hearing from time to time. Upon the conclusion of the hearing the Council by motion or resolution shall allow or overrule any or all objections, whereupon the Council may perform the work of removal. The decision of the Council on the matter shall be final and conclusive. (Ord. 4830, 1993)

**22.42.070 Order to Abate - Owner May Abate Before City Begins Work.**

After final action has been taken by the Council under Section 22.42.060 on the disposition of any protests or objections, or in case no protests or objections have been received, the Council, by motion or resolution, may order the Public Works Director or City Engineer to abate the nuisance considered pursuant to this Chapter by causing such nuisance to be removed and the premises restored to a lawful condition suitable for public use and such officer, and the deputies, agents and employees of such officer are hereby expressly authorized to enter upon private property for that purpose. Any property owner, or other person responsible, shall have the right to have such nuisance abated at his own expense; providing abatement is accomplished prior to the arrival of the City officer or representatives prepared to do the same. (Ord. 4830, 1993)

**22.42.080 Report of City’s Expenses.**

The City officer or deputy charged with such abatement shall keep an account of the costs, including the costs of printing and posting notices, of abating the nuisance as provided in this Chapter. The City officer or deputy charged with such abatement shall render an itemized written report to the Council, identifying the parties known to be responsible, and showing the costs, apportioned to each separate lot or parcel of land as provided in this Chapter. At least five days before such report is submitted to the Council for confirmation, a copy of the report, together with a notice of the time when such report shall be submitted to the Council for confirmation, shall be mailed to the address of the parties responsible, if their address is known, and posted with City Council meeting notices on the premises of City Hall. (Ord. 4830, 1993.)

**22.42.090 Hearing On and Confirmation of City's Costs - Costs to be Lien - Collecting Costs.**

At the time fixed for receiving and considering the report required by Section 22.42.080, the Council shall hear the same, together with any objections which may be raised by any of the persons liable to be assessed for the work of abating the nuisance and thereupon make such modifications in the report as they deem necessary, after which, by motion or resolution, the report shall be confirmed. The amount of the cost for abating such nuisance shall be referred to the City Finance Director for collection and may be assessed against the various parcels of land referred to in the report and, as confirmed, shall constitute a lien on such property for the amount of such assessments, respectively.
After confirmation of such report, a copy thereof shall, as determined by the Finance Director, be delivered to the County Assessor and to the County Tax Collector, whereupon it shall be the duty of such officers to add the amounts of the respective assessments to the next regular bills for taxes levied against the respective lots and parcels of land identified and thereafter such amounts shall be collected at the same time and in the same manner as ordinary property taxes are collected, and shall be subject to the same penalties and the same procedure for foreclosure and sale in case of delinquency as is provided for ordinary property taxes. 
(Ord. 4830, 1993)

22.42.100 Reservation of Police Powers.

Nothing in this Chapter is intended to limit the ability of the City to respond as needed to remove a nuisance or other obstruction where required to maintain the public health, peace or safety, or where otherwise required in proper exercise of a police power. (Ord. 4830, 1993.)

22.44.010 Scope and Applicability.

(a) This chapter shall apply in all zones other than the A, E, R-1, or R-2 zones as set forth in Ordinance No. 3710 (the Zoning Ordinance) of the City, as amended. Except as otherwise provided in this chapter, no building or structure shall be erected, reconstructed, structurally altered or enlarged, and no building permit shall be issued therefor on any lot, if such lot abuts a public street or right-of-way for public street purposes, unless one-half (1/2) of such public street or right-of-way abutting such lot has been dedicated and improved so as to meet the standards for such street as provided in Section 22.44.080, or such dedication and improvement has been assured to the satisfaction of the Public Works Director.

(b) The maximum area of land required to be so dedicated shall not exceed twenty-five percent (25%) of the area of any such lot. In no event shall such dedication as required herein reduce the lot below an area of six thousand (6,000) square feet.

(c) No such dedication shall be required with respect to those portions of such a lot occupied by a main building.

(d) No additional street improvements shall be required in connection with the issuance of a building permit as set forth herein where the abutting street is satisfactory in its right-of-way width including existing street pavement, curbs, curbs and gutters, and sidewalks and where such existing improvements are contiguous to the lot represented in such building permit application.

(e) No building or structure shall hereafter be erected on any such lot within the street right-of-way limits or within the additional widening limits of street right-of-way as required by this chapter. (Ord. 3353 §1(part), 1969.)

22.44.020 Exceptions.

The provisions of Section 22.44.010 shall not apply to the following construction:

(a) One (1) single-family dwelling or duplex with customary accessory buildings when erected on a vacant lot;

(b) Additions and accessory buildings incidental to a residential building legally existing on the lot, provided no additional dwelling units or guest rooms are created;

(c) Additions and accessory buildings incidental to other than a residential building existing on the lot, provided the total accumulative floor area of all additions and accessory buildings shall not exceed twenty-five percent (25%) of the floor area of existing buildings;

(d) Building permit applications filed with the Building Division prior to the effective date of this chapter. (Ord. 3353 §1(part), 1969.)
22.44.030 Dedication Procedure.

(a) Any person required to dedicate land by the provisions of this chapter shall make an offer to dedicate for street right-of-way purposes including street right-of-way widening purposes, and such offer shall be properly executed by all parties of interest including beneficiaries and trustees in deeds of trust as shown by current preliminary title report prepared by a title company, approved by the City for that purpose. Such report shall be furnished by the applicant in the course of application for a building permit. Such offer shall be on a form approved by the City Attorney and the Public Works Director and shall be in such terms as to be binding on the owner of the lot involved, his heirs, assignees or successors in interest and shall continue until the City Council accepts or rejects such offer or until six (6) months from the date such offer is filed with the Public Works Director, whichever occurs first. The offer shall provide that the dedication shall be completed upon acceptance by resolution adopted by the City Council, after which the fact of such offer and acceptance shall be recorded by the City in the Office of the County Recorder. Upon recordation of the offer and acceptance of such street right-of-way, the Building Division and other City departments concerned shall proceed with the examination of the building permit application and complete the processes under such application including the issuance of such permit. Should a building permit not be issued in connection with said application or such application be withdrawn by the applicant within six (6) months, in either case from the date of recordation of the street right-of-way dedication and acceptance, the applicant for such building permit shall be issued a release from such dedication requirement and the right-of-way so recorded shall then be relinquished by the City to the owner of the lot involved in the application for building permit.

(b) For purposes of this section, dedication and acceptance of such right-of-way shall be considered as satisfactorily assured when the City Council accepts such dedication by resolution. (Ord. 3353 §1(part), 1969.)

22.44.040 Improvement Procedure.

(a) Any person required to make improvements by the provisions of this section shall make and complete the same to the satisfaction of the Public Works Director prior to the issuance of an occupancy permit by the Chief of Building and Zoning; provided, that where such improvements are not required to be immediately installed, such person shall file with the City Clerk a bond in such an amount as the Public Works Director shall estimate and determine to be necessary to cause the completion of such future improvements.

(b) Such bond may be either a cash bond or a bond executed by a company authorized to act as a surety in the State. The bond shall be payable to the City and be conditioned upon the faithful performance of any and all work required to be done, and that such work not be done or completed within the time specified, the City may at its option cause the same to be done or completed, and the parties executing the bond shall be firmly bound under a continuing obligation for the payment of all necessary costs and expenses incurred in the construction thereof. The bond shall be executed by the owner of the lot as principal, and if a surety bond, shall also be executed by a corporation authorized to act as a surety under the laws of the State.

(c) Whenever the owner elects to deposit a cash bond, subject to the approval of the City Council, the City is authorized in the event of any default on his part to use any or all of the deposit money to cause the required work to be done or completed and for payment of all incidental costs and expenses therefor. Any money remaining following completion of the required street improvement shall be refunded.

(d) When a substantial proportion of the presently required improvement has been completed to the satisfaction of the Public Works Director, and the completion of the remaining improvements is delayed due to conditions beyond the owner's control, the Public Works Director may recommend acceptance of the completed portions and the City Council may, upon such recommendation, authorize a bond in an amount estimated and determined by the Public Works Director to be adequate to assure the completion of the required improvements required to be made.

(e) Whenever a surety bond has been filed in compliance with this section, the City is authorized in the event of any default on the part of the principal, to enforce collection under such bond for any and all damages sustained by the City by reason of any failure on the part of the principal faithfully and properly to do or complete the required improvements, and in addition, may cause all of the required work to be done or completed, and the surety upon the bond shall be firmly bound for the payment of all necessary costs thereof.

(f) The terms of the bond obligation shall begin upon the deposit of cash or the filing of the surety bond and shall end upon the date of completion to the satisfaction of the Public Works Director and acceptance by the City Council of all improvements required to be made. The fact of such completion shall be endorsed by a statement thereof signed by the Public Works Director, and the deposit, if any shall be returned to the owner or the surety bond may be exonerated at any time thereafter.

(g) For purposes of the section, improvements shall be considered as satisfactorily assured when the Public Works Director or the City Council accepts the cash or surety bond provided for herein or the improvements required to be made have been completed to his satisfaction. Upon acceptance of either the cash bond or surety bond and evidence of the deposit of either with the City, the Public Works Director shall notify the Chief of Building and Zoning thereof. (Ord. 3353 §1(part), 1969.)
22.44.050  Issuance of Building Permits.

When all dedication and improvements required by this chapter have been completed or satisfactorily guaranteed as to completion, a building permit may be issued, provided all structural and zoning requirements directly applicable to the building permit have been satisfactorily complied with. (Ord. 3353 §1(part), 1969.)

22.44.070  Lots Affected by Street Widening.

On a lot which is affected by street widening required by the provisions of this chapter, all required yards, setbacks, parking area, loading space and building locations for new buildings or structures or additions to buildings or structures shall be measured and calculated from the new lot line created by said widening; however, in applying all other provisions of this chapter, the area of such lots shall be considered as that which existed immediately prior to such required street widening. (Ord. 3353 §1(part), 1969.)

22.44.080  Improvement Standards.

(a) The following dimensional street standards and improvements shall be applicable in the requirement for dedication and improvement, as required by this chapter, and by the street deficiency study of the City made pursuant to Section 2156 of the Streets and Highways Code, on file in the Office of the Public Works Director, and shall include proposed street right-of-way to be acquired as well as existing street right-of-way.

   (1) STREETS HAVING A RIGHT-OF-WAY WIDTH OF NOT LESS THAN ONE HUNDRED FEET (100'). Each one-half (1/2) of the street shall consist of not less than thirty-two feet (32') of paved section measured between curb faces and not less than ten feet (10') of sidewalk and parkway area of which at least five feet (5') shall be paved. The remaining eight feet (8') may be utilized as a portion of divider or median strip width.

   (2) STREETS HAVING A RIGHT-OF-WAY WIDTH OF NOT LESS THAN EIGHTY FEET (80') AND A PAVED ROADWAY WIDTH OF NOT LESS THAN SIXTY FEET (60'). Each one-half (1/2) of the street shall consist of not less than thirty feet (30') of paved section measured from the center line of pavement to the curb face, together with a parkway and sidewalk area measuring ten feet (10') from the curb face to the street right-of-way line with concrete sidewalks constructed within such area to the width currently required by the Zoning Ordinance (No. 3710) and the Santa Barbara Municipal Code.

   (3) STREET RIGHTS-OF-WAY HAVING A RIGHT-OF-WAY WIDTH NOT LESS THAN SIXTY FEET (60') WITH A PAVED ROADWAY WIDTH OF NOT LESS THAN FORTY FEET (40') WITH A SIDEWALK AREA OF TEN FEET (10') ON EACH SIDE OF THE PAVED SECTION. Each half of the street shall consist of not less than twenty feet (20') of pavement measured from the center line of pavement to the curb face, and ten feet (10') of sidewalk and parkway area with not less than five feet (5') of sidewalk.

   (4) A STREET RIGHT-OF-WAY NOT LESS THAN FIFTY-FOUR FEET (54') WITH A PAVED WIDTH OF NOT LESS THAN THIRTY-FOUR FEET (34') MEASURED FROM CURB FACE TO CURB FACE. Each half of the street shall have a paved width of not less than seventeen feet (17') measured from the center line of pavement to the curb face and including ten feet (10') of sidewalk and parkway area where the minimum width of sidewalk shall be five feet (5') or such dimension as required by the Zoning Ordinance or the Santa Barbara Municipal Code provisions as related to the zoning for the abutting property.

   (b) All improvements required to be made by the provisions of this subsection shall be done in accordance with the applicable provisions as set forth in standard specifications and/or standard plans on file in the Public Works Department of the City and as set forth under the applicable sections of Chapter 22.60 of the Santa Barbara Municipal Code.

   (c) The Public Works Director may approve and allow such variations and deviations from the aforesaid requirements as he determines are made necessary by the conditions of the terrain and the existing improvements contiguous to the property involved. (Ord. 3353 §1(part), 1969.)

22.44.090  Appeal.

Any person may appeal any determination of the Public Works Director made in connection with the administration and enforcement of the improvement provisions of this chapter by making such appeal to the City Council pursuant to the provisions of Section 1.30.050 of this Code. (Ord. 5136, 1999; Ord. 3353 §1(part), 1969.)
Chapter 22.48
NAMING OF PUBLIC FACILITIES AND PRIVATE STREETS

Sections:
22.48.010 Purpose.
22.48.030 Change of Name.
22.48.040 Recommendations of Community or Citizen Groups.

22.48.010 Purpose.

The City Council finds and determines that the public has an interest in the naming of public facilities, including parks, buildings and streets, owned or controlled by the City, that no consistent policy has been employed in the past in selecting the names of public facilities, that the renaming of facilities without due consideration in the context of established principles results in confusion and detracts from the honor accorded in naming a facility, and that, therefor, it is desirable and in the public interest to delineate the policies, principles and procedures for the selection of names and naming of public facilities. (Ord. 3485 §1(part), 1971.)

The election of names for public facilities shall conform to the following principles, policies and priorities:
(a) As a general policy, names which commemorate the culture and history of Santa Barbara will be given first priority; those names commemorating California history may be given second priority;
(b) The name of an individual shall be considered only if such individual has made a particularly meritorious and outstanding contribution, over a period of several years, to the general public interest or the interests of the City;
(c) A preference shall be given to names of long established local usage, names which are euphonious, and names which lend dignity to the facility to be named;
(d) Names selected shall be of enduring, honorable fame, not notoriety, and shall be commensurate with the significance of the facility;
(e) Proliferation of names for different parts of the same facility should be avoided, and the same name should not be applied to a similar kind of facility;
(f) Names with connotations which by contemporary community standards are derogatory or offensive shall not be considered. (Ord. 3485 §1(part), 1971.)

22.48.030 Change of Name.

Existing names and names once established shall not be changed unless, after investigation and public hearing, the name is found to be inappropriate. (Ord. 3485 §1(part), 1971.)

22.48.040 Recommendations of Community or Citizen Groups.

In the selection of names for City owned facilities the suggestions, comments and recommendations of community or citizen groups and the citizens in the neighborhood of the facility shall be duly considered; provided, that such suggestions, comments and recommendations are not inconsistent with the provisions of this chapter. (Ord. 3485 §1(part), 1971.)

22.48.050 Initiation.

Any person may initiate the naming of a City owned facility by submitting to the City Administrator a request for such action and setting forth the proposed name, a description of the facility, and a statement evidencing that the proposed name is consistent with the policies and guidelines of this chapter. (Ord. 3485 §1(part), 1971.)
22.48.060 Review of Request - Referral.

The City Administrator shall review all requests to name a City owned facility and shall refer the request to the department having jurisdiction of such facility and the appropriate commission or committee for consideration of the request. (Ord. 3485 §1(part), 1971.)

22.48.070 Hearing.

The commission or committee to which the City Administrator has referred a naming request pursuant to Section 22.48.060 shall hold a public hearing to consider the necessity or desirability of naming the facility, and the proposed name and any alternatives. Such commission or committee shall prepare a recommendation for action by the City Council. The recommendation shall include the name, if any, for the facility which is deemed most appropriate in accordance with the policies and guidelines of this chapter and the justification for the selection of such name. (Ord. 3485 §1(part), 1971.)

22.48.080 Private Street Names.

Whenever a private street or way is constructed, other than in a subdivision as provided in Title 27 of this Code, upon which structures will front, requiring an address, a proposed name for such street or way may be submitted to the Public Works Department for consideration by the Subdivision Review Committee. If such name is not a duplication of or so nearly the same as to cause confusion with the name of an existing street or way located in the City of Santa Barbara, or in close proximity thereto, and if such name is appropriate for a street name, such name shall be approved by such Committee, and recommended to the City Council for adoption.

If upon the completion of such private street or way, no name has been submitted as hereinabove set forth, the Public Works Director may propose a name for such private street or way and submit the same to the Subdivision Review Committee for approval. Such Committee shall adopt a resolution either approving such proposed name or any other name agreed upon by the Committee, which resolution shall be forwarded to the City Council as a recommendation for action by the Council.

A copy of the resolution of the City Council naming a private street or way shall be forwarded promptly to the City Police, Fire and Public Works Departments, the United States Postal Service, the County Clerk and County surveyor and the City Clerk shall also notify abutting property owners of such change of name. (Ord. 4090, 1980; Ord. 3249 §1, 1967.)

22.48.090 Change of Private Street Name.

Whenever it is ascertained by the Subdivision Review Committee that the existing name of any private street or way should be changed to avoid duplication of or confusion with the names of public streets, such Committee may adopt a resolution proposing a new name to be designated for such private street or way and submit the same to the City Council for action. The procedure for such change of name by the City Council shall be the same, as near as may be, as that provided by Section 970.5 of the Streets and Highways Code or any comparable section for change of name by County action. Upon the adoption of a resolution changing such name, notices thereof shall be sent as provided in Section 22.48.080 hereof. (Ord. 4090, 1980; Ord. 3249 §2, 1967.)

### 22.52.010 Existence of Blight.

It is hereby found and determined that there exists within the City of Santa Barbara blighted areas as defined in Article 3 (commencing with Section 33030), Chapter 1, Part 1, Division 24 of the California Health and Safety Code, which article is a part of the Community Redevelopment Law. (Ord. 3277 §1(part), 1968.)

### 22.52.020 Application of Community Redevelopment Law.

Except as herein or otherwise provided the procedures specified and the powers granted in the Community Redevelopment Law, consisting of Part 1 (commencing with Section 33000) of Division 24 of the California Health and Safety Code, shall be applicable in the City. (Ord. 3277 §1(part), 1968.)

### 22.52.030 Declaration of Need.

It is hereby found and declared, pursuant to Section 33101 of the California Health and Safety Code, that there is need for the Redevelopment Agency created by Section 33100 of such code to function in the City and such Agency is hereby authorized to transact business and exercise its powers under the Community Redevelopment Law and this chapter. (Ord. 3277 §1(part), 1968.)

### 22.52.040 City Council as Agency.

Pursuant to the provisions of Section 33200 of the California Health and Safety Code, the City Council declares itself to be the redevelopment agency, and all rights, powers, duties, privileges and immunities vested by the Community Redevelopment Law and this chapter in such agency are vested in the City Council. (Ord. 3906, 1977; Ord. 3428 §1, 1970; Ord. 3277 §1(part), 1968.)

### 22.60.010 Definitions.

For the purpose of this chapter:

- **Commercial or business property** means all property excepting property containing three (3) residential units or less, which property is used solely for residential purposes whether such units be in the same or different structures.
- **Contractor** means a contractor licensed in accordance with Chapter 9 of Division 3 of the Business and Professions Code (Contractors License Law) of the State of California.
- **Permittee** means a person who obtained a permit authorized by this chapter.
- **Public Works Director** means the Public Works Director of the City of Santa Barbara or a person authorized by him.
- **Residential property** means all property other than commercial or business property.
- **Working day** means a day that City offices are open for business. (Ord. 4090, 1980; prior Code 39.17.)

### 22.60.020 Permit Required, Issuance, Time for Completion.

A. **Permit.** No person shall construct, reconstruct, repair, remove or replace any pavement, sidewalk, driveway, curb, gutter or any other improvements in any public street, alley, court, right-of-way, or public place within the City, or commence any excavation therein, or construct any improvements on public property, easements or rights-of-way owned or to be conveyed to the City without first making application for and obtaining a written permit from the Public Works Director to perform such work.

B. **Emergency Repairs.** It shall be unlawful for any person to commence any work for which a permit is required by provision of this chapter until a permit for the subject work has been issued by the Public Works Department, except in those cases where emergency repairs of utilities or other excavation work done for the protection of the public safety require street excavation prior to issuance of a permit. This exception shall not apply to any such work done for the protection of public safety unless the person who performs such repairs or work files a complete application for a permit, including the required fees and charges, with the Public Works Department within three (3) working days after commencing such repairs or work and obtains the required permit.

---

415  rev. 12/31/96
C. Issuance. Permits issued pursuant to Section 22.60.020 will only be issued to:
   1. A contractor with the appropriate classification required to perform the work for which the permit is
      issued; or
   2. The owner of a single-family residence for the construction of a concrete sidewalk, driveway, curb and
      gutter adjacent to the parcel upon which said residence is located.

D. Time for Completion. The time to complete the work for which the permit is issued will be ninety (90) days
   after the date the permit is issued unless otherwise specified in writing on the permit by the Public Works Director.
   (Ord. 4090, 1980; prior Code 39.18.)

22.60.024 Permit Required for Blasting, House Moving or Heavy Load Transportation.

No person shall commence any blasting, house moving, or heavy load transportation for which a permit is
required by this Code or other ordinance of the City until a permit for that work has been issued by the Public Works
Department. (Ord. 4090, 1980.)

22.60.028 Fees for Permits.

The fees for permits authorized by this chapter and inspection charges shall be established by resolution of the
City Council. The fees for permits authorized by this chapter that are issued after the work has commenced shall be
two times the amount of the fee normally charged for such a permit, except where emergency repairs and work are
performed pursuant to Subsection B of Section 22.60.020 of this Code and a permit application has been filed in a
timely manner as set forth in said Subsection B. (Ord. 4090, 1980.)

22.60.030 Warranty of Work.

A. Guarantee. In addition to any other guarantee or warranty provided elsewhere by law, every permittee shall
   provide a guarantee and warranty that there shall be no failure of any work performed that is authorized by a permit
   issued pursuant to Section 22.60.020 of this Code within two (2) years after the completion of such work. The
   permittee shall be exonerated from this warranty when it is determined, on appeal pursuant to Subsection C of Section
   22.60.030 of this Code, that such failure did not result from work performed by the permittee. Whenever there is any
   failure of such work within said two-year period, the Public Works Department will give the permittee notice to
   repair such work to the satisfaction of the Public Works Department. A new two-year warranty period by the
   permittee shall commence to run with the completion of repairs to any work that has been reconstructed or repaired
   pursuant to notice by the City.

B. Failure to Repair. If the permittee fails to repair or correct the failed work within forty-eight (48) hours or
   within a greater time that is specified in the above notice, the City will have the failed work repaired and the costs
   will be charged to and paid by the permittee within thirty (30) days after receipt of a billing from the City. If the
   permittee does not pay said billing, or has not posted adequate security to guarantee payment of said billing upon
determination of an appeal, the permittee shall not be entitled to a permit under this chapter.

C. Appeal. A permittee may appeal any charges made under this chapter by filing a notice of appeal pursuant to
   the provisions of Section 1.30.050 of this Code.

D. Current Address. Every person who obtains a permit under this chapter shall notify the Public Works
   Department of any change of address within two (2) years after the completion of any work under such permit so that
   there can be prompt notification regarding any failed work. (Ord. 5136, 1999; Ord. 4090, 1980.)

22.60.070 Contractor to Notify Public Works Department to Inspect Before Commencement.

Before beginning the work as authorized by a permit required by Section 22.60.020, the permittee shall notify the
Public Works Department and request inspection not less than twenty-four (24) hours in advance of the
commencement of such work. (Ord. 4090, 1980; Ord. 2420 §13, 1953.)

22.60.090 Standards of Materials and Workmanship.

The materials and workmanship of all improvements referred to in Section 22.60.020 shall conform to the current
standards, specifications and requirements of the City Public Works Department as approved by the Public Works
Director and on file with the City Clerk. (Ord. 4090, 1980; prior Code §39.24.)

22.60.100 Standards of Material and Workmanship - Use of Portland Cement.

No material other than Portland cement concrete shall be used for the permanent construction of sidewalks,
driveways, curbs or curb and gutters in or adjacent to any street, alley, court or public place within the City. (Prior
Code §39.25.)
22.60.105 Applications to Make Curb Cut Exceeding Thirty (30) Feet.

Applications to make curb cuts exceeding thirty (30) feet in length will not be issued, unless approved by the City Administrator. (Ord. 4090, 1980.)

22.60.110 Width of Sidewalks - Next to Business Property.

Sidewalks contiguous to commercial or business property shall begin at the curb and extend the full width as required under Section 22.60.120, so as to leave no unpaved surface between the curb and sidewalk except as may be permitted by the City Council upon petition of the majority of the property owners abutting such street on the same side thereof within the nearest two (2) intersections. (Prior Code §39.26.)

22.60.120 Width of Sidewalks - Next to Residential Property.

Sidewalks contiguous to residential property shall have the following minimum widths; provided, that the City Council may grant permission for a lesser width where circumstances require such reduction;

1. Six feet (6') for streets having a right-of-way width of more than sixty feet (60').
2. Five feet (5') for streets having a width of sixty feet (60') or less. (Ord. 4090, 1980; prior Code §39.27.)

22.60.130 Minimum Thickness of Sidewalks.

No sidewalk shall be less than three and one-half inches (3-1/2") in thickness. (Prior Code §39.28.)

22.60.140 Minimum Thickness of Driveways.

The thickness of driveways shall be as follows:

1. To residential property, not less than six inches (6”).
2. To commercial or business property, not less than eight inches (8”). (Prior Code §39.29.)

22.60.180 Curing Construction, Etc., Defects.

When the Public Works Director requires defective construction or materials removed from a job authorized under Section 22.60.020, the contractor shall make satisfactory replacement before the work shall be finally accepted. (Ord. 4090, 1980; prior Code §39.33.)

22.60.190 Permittee's Duty to Protect Work.

The permittee shall adequately protect the work at all times and take all necessary precautions to prevent accidents during the progress thereof up to the time of final acceptance and he shall hold the City, its officers and employees free and save them harmless from any and all liability arising directly or indirectly out of or on account of the prosecution of the work performed under this chapter. Protective measures shall include furnishing and maintaining adequate barriers, lights, signs, temporary bridges, guards, watchman and the maintenance of detours as the same may be required for the safe and satisfactory execution of the work and the protection of the public up to the final acceptance of the project. Surplus materials, equipment and debris shall be removed immediately following the completion of the work. (Ord. 4090, 1980; prior Code §39.34.)

22.60.200 Closing Abandoned Access Openings in Sidewalks - Generally.

The Public Works Director is authorized to inspect all existing driveways, entrances, entries and other access openings through curb lines to streets in the City, and when the use of adjacent property is abandoned, or consolidated with the use of other property, or changed in nature, so as to no longer require any driveway, entrance, entry or access for the use of such property, the Public Works Director is hereby authorized to close such openings by replacing such curb, gutter, sidewalk or other work as is necessary to restore normal pedestrian, parking and gutter use. (Ord. 4090, 1980; prior Code §39.35.)

22.60.210 Abandoned Access Openings - Notice to Restore.

In any instance in which the Public Works Director determines that replacement restoration referred to in Section 22.60.200 is necessary because of abandonment of use, he shall cause notice by registered mail to be sent to the owners of the property adjacent to the opening in the curb, the use of which has been abandoned and to the person in possession of such property, to the address where such property is located and where the proposed replacement is to be made. Such notice shall state the proposed replacement, the determination of abandoned use and the date of commencement of work of such replacement. In no instance shall the date so stated for commencement of such work be less than thirty (30) days from the time of mailing such notice. (Ord. 4090, 1980; prior Code §39.35.)
22.60.220 Abandoned Access Openings - Restoration - Determination and Appeal.

The determination of abandonment of use and required replacement by the Public Works Director as outlined in Section 22.60.210 shall be final; provided, that upon application by the property owner to the City Council and upon proper showing at a regular meeting thereof, the Council may grant such relief from such proposed replacement and restoration as in its judgement the exigencies of the case may demand. Any such application to the City Council must be filed with the City Clerk not more than ten (10) days after the property owner received the notice provided in Section 22.60.210. (Ord. 4090, 1980; prior Code §39.37.)

22.60.230 Barricading Street During Paving, Prohibition of Parking, Detour of Traffic - Generally.

Whenever any street or portion of street in the City is being improved by grading, paving or other street improvement the Public Works Department may barricade and close such street or any portion of the street, prohibit parking thereon and detour traffic for such length of time as may be necessary to complete such work of improvement or allow such work of improvement to harden properly, set or become in condition for travel. (Ord. 4090, 1980; prior Code §39.5.)

22.60.240 Notice of Closed Streets.

In all cases of closing streets pursuant to Section 22.60.230 the Public Works Department shall place, or cause to be placed, barriers, obstructions or legible notices to indicate the closed condition of the closed area. (Ord. 4090, 1980; prior Code §39.6.)

22.60.280 Replacing Pavement.

No person shall remove, disturb or displace any part of the bituminous, concrete, or asphalt pavement of any street within the limits of the City for laying pipes, repairing streets or for any other purposes, unless pursuant to the current standards, specifications and requirements authorized under Section 22.60.090 of this Code. (Ord. 4090, 1980; prior Code §39.10.)

22.60.290 Conditions of Granting Building Permit Applications or Subdivisions - Generally.

No building permit application or subdivision shall be granted, except upon compliance with the terms and conditions contained in this Code. (Ord. 4090, 1980; prior Code §39.11.)

22.60.300 New Lots to be Served by Public Streets - Improvements and Construction.

A. GENERAL REQUIREMENT. Each lot created by a subdivision as to which a tentative map is approved after December 16, 1986 shall front upon a public street constructed according to the applicable specifications for streets, unless (i) the lot is served by a private road, lane, drive or driveway which serves no more than two (2) lots, or (ii) the Planning Commission (or City Council on appeal) waives this requirement.

B. APPLICATION FOR WAIVER. A property owner may file a request for a waiver of the requirement in Subsection A with the Public Works Department. The request shall contain all necessary information required by the Public Works Department and shall be accompanied by the required fee. The Public Works Director or the person designated by the Public Works Director shall review the request and recommend to the Planning Commission that the request should be (i) approved or approved with conditions which would allow the lots to be served by a private road, lane, drive or driveway, rather than a public street, or (ii) denied.

C. HEARING. The Planning Commission, or City Council on appeal, shall conduct a public hearing to determine whether the request should be (i) approved or approved with conditions which would allow the lots to be served by a private road, lane, drive or driveway, rather than a public street, or (ii) denied.

D. NOTICE. Not less than ten (10) days before the date of the public hearing, notice of the date, time and place of the hearing, location of the subject property and nature of the request shall be given to owners of (i) each lot abutting the subject property, (ii) any private road, lane, way or driveway needed for access to the subject property and (iii) each lot abutting any such private roads, lanes, ways and driveways. For this purpose, the last known name and address of the owners as shown upon the last assessment roll of the County of Santa Barbara shall be utilized.
E. FINDINGS. The Planning Commission, or City Council on appeal, may grant a waiver if it finds all of the following:
   1. The proposed roadway, lane, drive or driveway will provide adequate access to the subject property and other properties using said roadway, lane, drive or driveway.
   2. The proposed roadway, lane, drive or driveway and adjacent paved areas will provide adequate access for fire suppression vehicles as required by applicable fire regulations, including but not limited to turnaround area, width, grade and construction.
   3. There is adequate provision for maintenance of the proposed private road, lane, drive or driveway by either of the following:
      a. There is a recorded agreement that provides for adequate maintenance of said road, lane, drive or driveway, or
      b. The owner of the subject property has agreed to adequately maintain said private road, lane, drive or driveway and said agreement has been or will be recorded prior to recordation of the final or parcel map.
   4. The waiver is in the best interests of the City and will improve the quality and reduce the impacts of the proposed development.

F. REQUIRED CONDITIONS. If a waiver is granted, the following conditions shall be imposed:
   1. The owner must execute and cause to be recorded on form provided by the City, a waiver of the right to protest the formation of an assessment district proposed for the purpose of street, roadway or related improvements.
   2. The private roads, lanes, drives and driveways permitted under this Section shall be constructed and installed in compliance with the Subdivision Design and Improvement Standards approved by resolution of the City Council.
   3. The proposed private road, lane, drive or driveway has been or will be constructed to the standards approved by the Public Works Director and if the road, lane, drive or driveway has not been constructed, adequate improvement security to guarantee such construction has been given to the City's Public Works Department.
   4. An agreement for maintenance of the proposed private road, lane, drive or driveway, subject to the review and approval of the Public Works Director and City Attorney, has been or will be recorded.

G. ADDITIONAL CONDITIONS. The Planning Commission or City Council may impose other conditions on a waiver which are consistent with the intent and purposes of this Section.

H. APPEAL TO CITY COUNCIL. Any decision of the Planning Commission concerning a waiver request under this Section may be appealed in accordance with the provisions of Section 1.30.050 of this Code. (Ord. 5136, 1999; Ord. 4442, 1987; Ord. 4090, 1980; prior Code 39.12.)

22.60.310 Completion of Street Construction Before Issuance of Building Permit.

No building permit shall be granted for building construction upon new lots or parcels created subject to the terms of Section 22.60.300 until all of the construction of required streets and private roads, lanes, drives and driveways has been completed or improvement security for such completion has been filed with and accepted by the Public Works Department. (Ord. 4442, 1987; Ord. 4090, 1980; Ord. 2633 §1, 1957; prior Code §39.13.)

22.60.320 Permit Required for Joining Private Street to Official Street System.

No street, lane, alley, way, road, right-of-way, passage or thoroughfare shall be connected with the official street system of the City, without a written permit therefor issued by the Public Works Department. The word "street" as used in this section shall be defined as any lane, alley, way, road, right-of-way, passage or thoroughfare serving more than two (2) separate lots or parcels. (Ord. 4090, 1980; prior Code §39.14.)

22.60.330 City Personnel to Exert No Dominion Over Private Streets, Etc. - Position of Public Works Department.

No officer, agent or employee of the City shall perform any repair, maintenance, upkeep, or take any remedial or corrective action, nor exert any dominion, control or jurisdiction, nor to do any act upon or in connection with any street, lane, alley, way, road, right-of-way, driveway, passage or thoroughfare in the City which is not an official street of the City, as designated upon the official street map of the City. This shall not be construed to prevent the Public Works Department from carrying on its service functions pursuant to its rules and regulations, or from installing mains and incidental facilities in any such street, lane, alley, way, road, right-of-way, driveway, passage or thoroughfare within specially granted easements for use of the subsurface thereof. (Ord. 4090, 1980; prior Code §39.15.)
Chapter 22.64

GATES

Section:
22.64.010  Generally.

Each gate on or near the line of any public street or alley of the City shall be so hung that the same shall swing inward from such street or alley; or such gate shall be provided with a spring, or other arrangement, so as to make such gate self-closing, and so that the same shall not obstruct, or be liable to obstruct, the free use in the customary manner of any such street or alley, nor be, or liable to become inconvenient, injurious or dangerous to a person walking along any such street or alley, or the sidewalk. (Ord. 3144 §1, 1966; prior Code §32.17.)

Chapter 22.65

DESIGN STANDARDS FOR DEVELOPMENT NEAR HIGHWAY 101

Sections:
22.65.010  Purpose and Intent.
22.65.020  Definitions.
22.65.030  Applicability and Exemptions.

22.65.010  Purpose and Intent.

It is the purpose of this Chapter to limit and regulate development within close proximity to Highway 101 in a manner that promotes the health, safety, and welfare of the residents of the City of Santa Barbara.

Pursuant to 2011 General Plan Policy ER7, the design standards in this Chapter are intended to limit the number of people, including Sensitive Individuals, who receive Extensive Exposure to potential air pollution hazards from highway vehicle exhaust including diesel particulates by limiting the development of new sensitive land uses within close proximity of Highway 101 or by modifying the design of new sensitive land uses to reduce the amount of air pollution exposure received, until such time as statewide diesel particulate levels are reduced by planned State regulations or other means. (Ord. 5651, 2014.)

22.65.020  Definitions.

For the purpose of this Chapter, the following words and phrases shall have the following meanings:
A.  Accessory Building. As defined in Section 28.04.010 of this Code.
B.  Extensive Occupancy or Exposure. Substantial time periods involving daily occupancy or frequent lengthy visits of many hours occurring repeatedly over many years as experienced with residential land uses and schools.
C.  Main Building. As defined in Section 28.04.145 of this Code.
D.  Required Outdoor Living Space. Outdoor living space or open yard area required in accordance with City residential zoning standards as specified in Title 28 of this Code.
E.  Sensitive Individuals. Persons most susceptible to adverse effects of poor air quality (including from diesel particulates), including children, the elderly, and people who are ill or have serious chronic respiratory, heart, or other medical conditions that are exacerbated by air pollution.
F.  Sensitive Land Uses. Land uses that involve Extensive Occupancy or Exposure by Sensitive Individuals, including residences, nursing homes, retirement homes, and other community care facilities; schools; and large family day care facilities. Land uses not considered sensitive land uses include retail, commercial services, and offices.
G.  State Highway Roadside Sound Wall. A roadside sound wall constructed by the California Department of Transportation. (Ord. 5651, 2014.)

22.65.030  Applicability and Exemptions.

A.  Applicability.
   1.  Location. Any property that is located in whole or part within 250 feet of Highway 101 as measured from the outer edge of the nearest highway travel lane (excluding highway on- and off-ramps) is subject to the requirements of this Chapter, unless identified as exempt in Subsection B of this Section 22.65.030.
2. **Types of Development.** The following types of development are subject to the requirements of this Chapter, unless identified as exempt in Subsection B of this Section 22.65.030:
   a. The development of one or more new residential units on a lot.
   b. An addition to an existing residential unit that increases the net floor area of the residential unit by more than 50% of the net floor area that existed within the residential unit as of December 1, 2011. If multiple additions are made to a residential unit during the time this Chapter is in effect, the amount of the additional floor area shall be measured in the aggregate.
   c. The development of a new main building that will be occupied by a Sensitive Land Use.
   d. The demolition of an existing building and its replacement with a main building that will be occupied by a Sensitive Land Use.
   e. A change of use of an existing main building from a use not defined as a Sensitive Land Use to a Sensitive Land Use.
   f. A change of use of an existing Main Building from a Sensitive Land Use that existed on the effective date of the ordinance adopting this Chapter to a different Sensitive Land Use.

B. **Exemptions.** The following projects are exempt from this Chapter:
   1. **Sound Walls.** Projects on sites where a State Highway Roadside Sound Wall is located between the highway and project site.
   2. **Prior Applications.** Projects with applications submitted to the City before December 1, 2011, for development permits including a Master Application, building permit plan check, or for other development approval, where the application has not expired.
   3. **Approved Projects.** Projects that received a final approval from the City prior to December 1, 2011, where the approval remains valid.
   4. **New Buildings More than 250 Feet from Highway.** Projects where the property owner submits a site plan that demonstrates that no new Main Building or required outdoor living area that is to be occupied by a Sensitive Land Use will be located within 250 feet of Highway 101, as measured from the outer edge of the nearest highway travel lane.
   5. **Site-Specific Demonstration.** Projects where the property owner can demonstrate to the satisfaction of the Community Development Director or the Director’s designee that site-specific climatic or topographic conditions avoid or address the air quality risks from Highway 101 on the site such that the site-specific conditions present a health risk of less than 10 excess cancer cases per one million persons.

Nothing in this Subsection B prevents an applicant from incorporating the design standards specified in Section 22.65.040 to exempt projects on a voluntary basis. (Ord. 5651, 2014.)

22.65.040 Design Standards for Air Quality.

The following design standards apply to development and occupancy of main buildings to which this Chapter applies. The location, design, and filtration standards specified in this Section are not required for accessory buildings or areas on the lot where Sensitive Individuals would not be subject to Extensive Occupancy or Exposure (e.g., parking).

A. **Proximity to Highway 101 and Project Design Features.** Main buildings that will be occupied by Sensitive Land Uses are prohibited from locating within 250 feet of Highway 101, unless the City Community Development Director or designee determines that project design features satisfactorily address air quality risks. When determining whether the project design features satisfactorily address air quality risks, the Director shall consider the following factors:

1. **Distance from Highway 101.** Main buildings and outdoor living areas that will be extensively occupied by Sensitive Land Uses should be located as far from Highway 101 as feasible. For projects that have a mixture of Sensitive Land Uses and non-sensitive land uses, Main Buildings and areas expected to have Extensive Occupancy or Exposure by Sensitive Individuals should be located furthest from the highway, while facilities for non-sensitive populations and/or involving short-term use (such as parking facilities) should be placed closer to the highway.

2. **Building Orientation and Outdoor Living Areas.** Main Buildings for occupancy by Sensitive Land Uses should be oriented with doors and outdoor living areas on the side of the building away from the highway in order to provide physical screening by the building.

3. **Vegetative Screening and Physical Barriers.** Project sites to be occupied by Sensitive Land Uses should incorporate dense, tiered vegetative plantings between the highway and the Main buildings and outdoor living areas that are to be occupied by Sensitive Land Uses, which helps to remove air pollutants and reduce diesel particulate concentrations. Vegetation should largely entail trees with complex foliage (leafy vegetation or with needles) that allow substantial in-canopy airflow; preferably in multiple rows, using tree plantings of tall and uniform height that retain foliage year-round and have a long life span. Inclusion of physical barriers such as walls and solid fences between the highway and the project also help to reduce air pollutant exposure levels.

4. **Air Infiltration.** In addition to a filtration system as required in Section 22.65.040.B, Main Buildings occupied by Sensitive Land Uses should be designed to locate air intake vents on the side of building away from the highway and use double-paned windows throughout.

5. **Other Measures.** An applicant proposing a Sensitive Land Use that will be located within 250 feet of Highway 101 may propose other measures that have a demonstrated ability to reduce highway air pollution exposure.
B. Interior Air Filtration System. Main Buildings intended for occupation by a Sensitive Land Use that are located within 250 feet of Highway 101 and are not exempt pursuant to Section 22.65.030.B shall incorporate a central ventilation system with air filtration rated at Minimum Efficiency Reporting Value of “MERV13” or better for enhanced particulate removal efficiency. The owner of any development subject to this requirement shall attach a copy of the operator’s manual for the central ventilation and filtration system as an exhibit to every lease of the building or any portion of the building. (Ord. 5651, 2014.)

22.65.050 Maintenance of Design Features.

Design features incorporated into an approved project design pursuant to Section 22.65.040 shall be maintained as long as this Chapter remains in effect. (Ord. 5651, 2014.)

Chapter 22.68
ARCHITECTURAL BOARD OF REVIEW

22.68.010 Architectural Board of Review.

A. PURPOSE. Section 814 of the Santa Barbara City Charter creates and establishes an Architectural Board of Review for the City to promote the general public welfare of the City and to protect and preserve the natural and historical charm and beauty of the City and its aesthetic appeal and beauty.

B. MEMBERSHIP. The Architectural Board of Review shall be composed of seven (7) members to be appointed as provided in the Charter.

C. OFFICERS - QUORUM. The members of the Architectural Board of Review shall elect from their own members a chair and vice-chair. The Community Development Director or his or her designee shall act as secretary and record Board actions and render written reports thereof for the Board as required by this Chapter. The Board shall adopt its own rules of procedure. Four (4) members shall constitute a quorum, one (1) of which shall be an architect. (Ord. 5519, 2010; Ord. 5416, 2007; Ord. 5050, 1998; Ord. 4701, 1991; Ord. 3792, 1975; Ord. 3646, 1974.)
22.68.015 Definitions.

A. **DEFINED IN THIS CHAPTER.** If any word or phrase is defined in this Chapter 22.68, the definition given in this Chapter shall be operative for the purposes of this Chapter.

B. **DEFINED IN CHAPTER 28.04.** If a word or phrase used in this Chapter 22.68 is not defined in this Chapter, but is defined in Chapter 28.04 of this Code, the word or phrase shall have the same meaning in this Chapter as the meaning specified in Chapter 28.04.

C. **UNDEFINED WORDS AND PHRASES.** Any words or phrases used in this Chapter 22.68 that are not defined in this Chapter or Chapter 28.04 of this Code shall be construed according to the common meaning of the words and the context of their usage.

D. **PROJECT DESIGN APPROVAL.** With respect to design review by the Architectural Board of Review, a “Project Design Approval” is as defined in SBMC Section 22.22.020. (Ord. 5537, 2010; Ord. 5416, 2007.)

A. **APPROVAL REQUIRED BEFORE ISSUANCE OF PERMIT.** No building permit or grading permit, the application for which is subject to design review by the Architectural Board of Review in accordance with the requirements of this Chapter 22.68, shall be issued without the approval of the Board or the City Council, on appeal.

B. **BUILDING PERMITS - NONRESIDENTIAL, MULTIPLE RESIDENTIAL, DUPLEX, TWO OR MORE DETACHED RESIDENTIAL UNITS AND MIXED USE.** Any application for a building permit to construct, alter, or add to the exterior of a non-residential, multi-family residential, residential duplex or mixed use (residential and non-residential) building or a related accessory structure, or any application which will result in two or more detached residential units on one lot in any zone (other than the Single Family Zones listed in Chapter 28.15 of this Code), shall be referred to the Architectural Board of Review for design review in accordance with the requirements of this Chapter.

C. **SUBDIVISION GRADING PLANS.** All subdivision grading plans involving grading on a lot or lots located in any zone (other than the Single Family Zones listed in Chapter 28.15 of this Code) shall be referred to the Architectural Board of Review for a review of the proposed grading.

D. **GRADING PERMITS.** Any application for a grading permit that proposes grading on any lot (other than a lot located in the Single Family Zones listed in Chapter 28.15 of this Code or a lot that is developed exclusively with a single family residence in any zone) and which application is not submitted in connection with an application for a building permit for the construction or alteration of a building or structure on the same lot shall be referred to the Architectural Board of Review for a review of the proposed grading.

E. **EXTERIOR COLOR.**

1. **New Buildings.** The Architectural Board of Review shall review the exterior color of any new building or structure that is subject to design review by the Architectural Board of Review.

2. **Alterations.** If a change of the exterior color of a building or structure is proposed in connection with another alteration to a building or structure that is subject to design review by the Architectural Board of Review, the Architectural Board of Review shall review the proposed change of color in the course of the design review of the other alteration(s).

3. **Non-Residential Buildings or Structures.** The Architectural Board of Review shall review any change to the exterior color of a non-residential building or related accessory structure whether or not the change of color is proposed in connection with another alteration of the building or structure that is subject to design review by the Architectural Board of Review.

F. **HIGHWAY 101 IMPROVEMENTS.** Improvements to U.S. Highway 101 or appurtenant highway structures which require a Coastal Development Permit pursuant to the City’s Certified Local Coastal Program, and which are located within the Highway 101 Santa Barbara Coastal Parkway Special Design District as defined by Municipal Code Section 22.68.060, shall be referred to the Architectural Board of Review for design review, except for improvements to those portions of U.S. Highway 101 and its appurtenant structures that are located within the El Pueblo Viejo Landmark District, which are subject to review by the Historic Landmarks Commission pursuant to SBMC §22.22.140.B.

G. **SUBSTANTIAL ALTERATIONS TO APPROVED LANDSCAPE PLANS FOR LOTS DEVELOPED WITH NONRESIDENTIAL OR MULTI-FAMILY RESIDENTIAL USES.** The Architectural Board of Review shall review any substantial alteration or deviation from the design, character, plant coverage at maturity, or other improvements specified on an approved landscape plan for any lot within the City of Santa Barbara that is developed with a multiple residential unit, a mixed use development, or a building that is occupied by a nonresidential use, whether or not such alteration or deviation to the landscape plan is proposed in connection with an alteration to a building or structure on the lot that is subject to design review by the Architectural Board of Review. Whether a proposed alteration or deviation is substantial shall be determined in accordance with the Architectural Board of Review guidelines.

H. **ARCHITECTURAL BOARD OF REVIEW SUBMITTAL REQUIREMENTS.** Applications for review by the Architectural Board of Review shall be made in writing in such form as is approved by the Community Development Director. No application required to be referred to the Architectural Board of Review shall be considered complete unless accompanied by the application fee in the amount established by resolution of the City Council.
22.68.030 Alternative Design Review by Historic Landmarks Commission.

A project that is otherwise subject to review by the Architectural Board of Review in accordance with the requirements of this Chapter 22 shall be referred to the Historic Landmarks Commission for review in accordance with the requirements of Chapter 22.22 of this Code if the project is proposed in any of the following locations:

A. A lot on which a City Landmark or City Structure of Merit is located,
B. A property on the City's Potential Historic Resources List, or
C. Any property located within El Pueblo Viejo Landmark District or another landmark district.

This referral to the Historic Landmarks Commission is supplemental to any other design review requirements required by Chapter 22.22 due to the status of any building or structure on the lot or the location of the lot within a landmark district. The fact that an application for a building permit or grading permit is not subject to design review pursuant to this Chapter 22.68 shall not excuse or exempt an application from review pursuant to Chapter 22.22 of this Code. (Ord. 5416, 2007.)

22.68.040 Architectural Board of Review Notice and Hearing.

I. ADMINISTRATIVE REVIEW AND APPROVAL. Minor design alterations, as specified in the Architectural Board of Review Design Guidelines approved by a resolution of the City Council, may be approved as a ministerial action by the Community Development Director (or the Director’s designee) without review by the Architectural Board of Review. The Community Development Director or the Director’s designee shall have the authority and discretion to refer any minor design alteration to the Architectural Board of Review if, in the opinion of the Community Development Director, the alteration has the potential to have an adverse effect on the architectural or landscape integrity of the building, structure or surrounding property. (Ord. 5505, 2009; Ord. 5416, 2007; Ord. 5333, 2004; Ord. 5271, 2003; Ord. 5035, 1997; Ord. 4995, 1996; Ord. 4940, 1996; Ord. 4878, 1994; Ord. 4849, 1994; Ord. 4768, 1992; Ord. 4725, 1991; Ord. 4701, 1991; Ord. 4076, 1980; Ord. 4040, 1980; Ord. 3835, 1976; Ord. 3646, 1974.)

A. PROJECTS THAT REQUIRE A NOTICED HEARING. Review of the following projects by the Architectural Board of Review must be preceded by a noticed public hearing:

1. A new residential duplex, multiple residential unit, mixed-use (residential and non-residential) building, or non-residential building,
2. The addition of over 500 square feet of net floor area to a residential duplex or multiple residential unit,
3. An addition of a new story or an addition to an existing second or higher story of a residential duplex or multiple residential unit,
4. An addition or alteration to a multiple residential unit that will result in an additional residential unit,
5. Small non-residential additions as defined in Chapter 28.85 of this Code,
6. Projects involving grading in excess of 250 cubic yards outside the footprint of any main building (soil located within five feet (5’) of an exterior wall of a main building that is excavated and recompacted shall not be included in the calculation of the volume of grading outside the building footprint), or
7. Projects involving exterior lighting with the apparent potential to create significant glare on neighboring parcels.

B. MAILED NOTICE. Not less than ten calendar days before the date of the hearing required by Subsection A above, the City shall cause written notice of the project hearing to be sent by first class mail to the following persons: (1) the applicant and (2) the current record owner (as shown on the latest equalized assessment roll) of any lot, or any portion of a lot, which is located not more than three hundred feet (300’) from the exterior boundaries of the lot which is the subject of the action. The written notice shall advise the recipient of the following: (1) the date, time and location of the hearing, (2) the right of the recipient to appear at the hearing and to be heard by the Architectural Board of Review, (3) the location of the subject property, and (4) the nature of the application subject to design review.

C. ADDITIONAL NOTICING METHODS. In addition to the required mailed notice specified in Subsection B, the City may also require notice of the hearing to be provided by the applicant in any other manner that the City deems necessary or desirable, including, but not limited to, posted notice on the project site and notice delivered to non-owner residents of any of the twenty (20) lots closest to the lot which is the subject of the action. However, the failure of any person or entity to receive notice given pursuant to such additional noticing methods shall not constitute grounds for any court to invalidate the actions of the City for which the notice was given.

D. PROJECTS REQUIRING DECISIONS BY THE CITY COUNCIL, PLANNING COMMISSION, OR STAFF HEARING OFFICER. Whenever a project requires another land use decision or approval by the City Council, the Planning Commission, or the Staff Hearing Officer, the mailed notice of the first hearing before the Architectural Board of Review shall comply with the notice requirements of this Section or the notice requirements applicable to the other land use decision or approval, whichever are greater. However, nothing in this Section shall require either: 1. notice of any hearing before the Architectural Board of Review to be published in a newspaper, or 2. mailed notice of hearings before the Architectural Board of Review after the first hearing conducted by the Architectural Board of Review, except as otherwise provided in the Architectural Board of Review Guidelines adopted by resolution of the City Council. (Ord. 5609, 2013; Ord. 5444, 2008; Ord. 5416, 2007; Ord. 5380, 2005; Ord. 4995, 1996.)
22.68.045 Project Compatibility Analysis.

A. PURPOSE. The purpose of this section is to promote effective and appropriate communication between the Architectural Board of Review and the Planning Commission (or the Staff Hearing Officer) in the review of development projects and in order to promote consistency between the City land use decision making process and the City design review process as well as to show appropriate concern for preserving the historic character of certain areas of the City.

B. PROJECT COMPATIBILITY CONSIDERATIONS. In addition to any other considerations and requirements specified in this Code, the following criteria shall be considered by the Architectural Board of Review when it reviews and approves or disapproves the design of a proposed development project in a noticed public hearing pursuant to the requirements of Chapter 22.68:

1. Compliance with City Charter and Municipal Code; Consistency with Design Guidelines. Does the project fully comply with all applicable City Charter and Municipal Code requirements? Is the project’s design consistent with design guidelines applicable to the location of the project within the City?

2. Compatible with Architectural Character of City and Neighborhood. Is the design of the project compatible with the desirable architectural qualities and characteristics which are distinctive of Santa Barbara and of the particular neighborhood surrounding the project?

3. Appropriate size, mass, bulk, height, and scale. Is the size, mass, bulk, height, and scale of the project appropriate for its location and its neighborhood?

4. Sensitivity to Adjacent Landmarks and Historic Resources. Is the design of the project appropriately sensitive to adjacent Federal, State, and City Landmarks and other nearby designated historic resources, including City structures of merit, sites, or natural features?

5. Public Views of the Ocean and Mountains. Does the design of the project respond appropriately to established scenic public vistas?

6. Use of Open Space and Landscaping. Does the project include an appropriate amount of open space and landscaping?

C. PROCEDURES FOR CONSIDERING PROJECT COMPATIBILITY.

1. Projects with Design Review Only. If a project only requires design review by the Architectural Board of Review pursuant to the provisions of this Chapter and does not require some form of discretionary land use approval, the Architectural Board of Review shall consider the criteria listed in Subsection (B) above during the course of its review of the project design prior to the issuance of a preliminary design approval for the project.

2. Projects with Design Review and Other Discretionary Approvals. If, in addition to design review by the Architectural Board of Review, a project requires a discretionary land use approval (either from the Staff Hearing Officer, the Planning Commission, or the City Council), the Architectural Board of Review shall review and discuss the criteria listed in Subsection (B) above during its conceptual review of the project and shall provide its comments on those criteria as part of the minutes of the Board decision forwarded to the Staff Hearing Officer, the Planning Commission, or the City Council (as the appropriate case may be) as deemed necessary by the Architectural Board of Review. (Ord. 5464, 2008.)

22.68.050 Architectural Board of Review Referral to Planning Commission.

A. PLANNING COMMISSION COMMENTS. When the Architectural Board of Review determines that a project is proposed for a site which is highly visible to the public, the Board may, prior to granting preliminary approval on the application, require presentation of the application to the Planning Commission solely for the purpose of obtaining comments from the Planning Commission regarding the application for use by the Architectural Board of Review in its deliberations.

B. PLANNING COMMISSION NOTICE AND HEARING. The Planning Commission shall hold a noticed hearing prior to making any comments on a project pursuant to this Section. Notice of the Planning Commission hearing shall be provided in accordance with the requirements of Section 22.68.040. (Ord. 5416, 2007; Ord. 5380, 2005; Ord. 4995, 1996; Ord. 4849, 1994; Ord. 4768, 1992; Ord. 4725, 1991.)

22.68.060 Special Design Districts.

The following areas are identified as City Special Design Districts:

A. MISSION AREA SPECIAL DESIGN DISTRICT. All real property located within one thousand feet (1000') of Part II of El Pueblo Viejo Landmark District, as legally described in Section 22.22.100(b).

B. HILLSIDE DESIGN DISTRICT. All real property within the Hillside Design District as delineated on the maps labeled "Hillside Design District" which are part of this Code and are shown at the end of this Chapter. All notations, references, and other information shown on said maps are incorporated herein and made a part hereof. The entirety of any annexation shall become a part of the Hillside Design District upon annexation, unless otherwise determined as part of the annexation.

C. HIGHWAY 101 SANTA BARBARA COASTAL PARKWAY SPECIAL DESIGN DISTRICT. All real property within the State owned or leased right-of-way of Highway 101 and all City owned or leased right-of-way which intersects Highway 101 within the S-D-3 Coastal Overlay Zone.
D. LOWER RIVIERA SURVEY AREA - BUNGALOW DISTRICT. All real property within “Lower Riviera Survey Area – Bungalow District” as shown on the map labeled as such and appended to the end of this Chapter – hereinafter referred to as the “Bungalow District.” (Ord. 5416, 2007; Ord. 5380, 2005; Ord. 5333, 2004; Ord. 4940, 1996; Ord. 4768, 1992; Ord. 4725, 1991; Ord. 3646, 1974.)

22.68.070 Special Design District – Lower Riviera Survey Area (Bungalow District).

A. SPECIAL DESIGN DISTRICT AREA MAP – LOWER RIVIERA SURVEY AREA - BUNGALOW DISTRICT. Applications for building permits to construct, alter, or add to multi-family residential units or residential duplexes on lots located within the “Lower Riviera Survey Area - Bungalow District” established pursuant to SBMC Section 22.68.060 shall be subject to design review in accordance with the requirements of this Section 22.68.070 as follows:

B. REVIEW OF BUILDING PERMIT APPLICATIONS. Applications for building permits to construct, alter, or add to multi-family residential units or residential duplexes on lots located within the Bungalow District shall be referred to the Community Development Director for review to determine if the application constitutes a project to demolish the structure. For the purposes of this Section, a “demolition” shall be as defined in subparagraph (J) of Santa Barbara Municipal Code Section 22.22.020. Such a determination shall be made by the Community Development Director or the Director’s designee in writing within thirty (30) days of the date of the original application. If the Community Development Director or the Director’s designee determines that the property is eligible for listing on the City’s Potential Historic Resources list, the demolition application shall be referred to the Historic Landmarks Commission for determination of the historical significance of the building or structure pursuant to Section 22.22.035.C.3. If it is determined that the property is not eligible for listing on the City’s Potential Historic Resources list and the Community Development Director or the Director’s designee determines that the application does constitute an application to demolish the structure, such application shall be referred to the City’s Architectural Board of Review for review by the Board in accordance with the requirements of this Section. If the Community Development Director or the Director’s designee determines that the application does not constitute a demolition under the terms of this Section, the building permit shall be issued upon compliance with the otherwise applicable requirements of this Code for appropriate and required design and development review.

C. REVIEW OF BUNGALOW DISTRICT DEMOLITION APPLICATIONS BY THE ARCHITECTURAL BOARD OF REVIEW. An application referred to the Architectural Board of Review pursuant to Subsection B above shall be reviewed by the Architectural Board of Review in accordance with the hearing, noticing, and appeal procedures established in SBMC Sections 22.68.040 and 22.68.100. An application referred to the Architectural Board of Review pursuant to Subsection B above shall not be approved unless the Architectural Board of Review makes all of the following findings with respect to that application:

1. That the demolition will not result in the loss of a structure containing a primary feature or features of Bungalow or Arts and Crafts style residential architecture, which features are worthy of or appropriate for historical preservation;

2. That the demolition will not result in the loss of a structure which, although not eligible as a City Historic Resource, is a prime example of the Bungalow or Arts and Crafts style residential building appropriate for historical preservation;

3. That the demolition will not result in the loss of a structure which is prominent or which is a prime example of the Bungalow or Arts and Crafts style residential architecture for which this neighborhood is characterized or known.

D. ARCHITECTURAL BOARD OF REVIEW CONDITIONAL APPROVAL OF DEMOLITION WITHIN THE BUNGALOW DISTRICT. Notwithstanding the above-stated requirement for appropriate demolition findings, the ABR may approve a demolition application within the Bungalow District if the ABR conditions the demolition permit such that any proposed future development of the real property upon which the structure or structures are located must comply with express conditions of approval designed to preserve certain existing architectural features or buildings, as determined appropriate by the ABR.

Such conditions may provide that any future development of the property involved must either incorporate the existing structures, in whole or in part, into the new development, or it must preserve certain features or aspects of the existing structures or of the site such that these features are incorporated into any future development of the real property, either through the preservation of the building or feature or its replication in the new development, as may be determined appropriate by the ABR.

Such conditions of approval shall be prepared in written form acceptable to the Community Development Director and the City Attorney and shall be recorded in the official records of Santa Barbara County with respect to the involved real property prior to issuance of any building permit for said demolition such that these conditions shall be binding on all future owners of the real property as conditions imposed on any new development for a period of twenty (20) years after the conditional approval of the original demolition application and the completion of the demolition.
E. REVIEW OF NEW DEVELOPMENT WITHIN THE BUNGALOW DISTRICT BY
ARCHITECTURAL BOARD OF REVIEW. Applications for building permits to construct new multi-family
residential buildings or residential duplexes on lots located within the Bungalow District shall be referred to the
Architectural Board of Review for development plan review and approval in accordance with the public hearing,
noticing and appeal requirements of SBMC Section 22.68.040 and 22.68.100, provided that the property
owner/applicant may be required to submit those development plan materials deemed necessary for full and
appropriate review by the ABR prior to the ABR hearing.
F. BUNGALOW DISTRICT FINDINGS. The ABR shall not approve a new development within the
Bungalow District unless it makes both of the following findings:
1. Express conditions of approval have been imposed on the proposed development which appropriately
incorporate the existing structures or architectural features or other aspects of these structures (or of the site involved)
into the new development, or these structures, features or aspects will be appropriately replicated in the new
development; and
2. The proposed development will not substantially diminish the unique architectural style and character of
the Bungalow District as a residential neighborhood of the City.

G. GUIDELINES FOR SPECIAL DESIGN DISTRICT. The Lower Riviera Special Design District
Guidelines adopted by resolution of the City Council shall provide direction and appropriate guidance to the ABR,
the Planning Commission and City staff in connection with the review of applications filed pursuant to this Section.
(Ord. 5416, 2007; Ord. 5333, 2004.)

22.68.080 Signs.

Application for sign permits shall be considered by the Architectural Board of Review only upon an appeal filed
pursuant to Section 22.70.050.9 of this Code. (Ord. 4101, 1981; Ord. 3646, 1974.)

22.68.090 Approval of Plans for Buildings or Structures on City Lands.

No building or structure shall be erected upon any land owned or leased by the City, or allowed to extend over or
upon any street, or other public property, unless plans for the same and the location thereof shall first have been
submitted to the Architectural Board of Review or the Historic Landmarks Commission, as applicable, for its
approval. (Ord. 4849, 1994; Ord. 4701, 1991; Ord. 3646, 1974.)

22.68.100 Appeal to Council - Notice and Hearing.

A. PROCEDURE FOR APPEAL. Any action of the Architectural Board of Review on an application for
preliminary or final approval taken pursuant to this Chapter 22.68 may be appealed to the City Council by the
applicant or any interested person pursuant to Chapter 1.30 of this Code. In deciding such an appeal, the City Council
shall make those findings required of the Board with respect to a determination made pursuant to this Chapter.

B. NOTICE OF APPEAL. In addition to the procedures specified in Chapter 1.30, notice of the public hearing
before the City Council on an appeal from a decision of the Architectural Board of Review made pursuant to this
Chapter 22.68 shall be provided in the same manner as notice was provided for the hearing before the Architectural
3646, 1974.)

22.68.110 Expiration of Project Design Approvals.

A. PROJECT DESIGN APPROVAL. 1. Approval Valid for Three Years. A Project Design Approval issued by the Architectural Board of
Review or the City Council on appeal shall expire if a building permit for the project is not issued within three (3)
years of the granting of the Project Design Approval by the Architectural Board of Review or the City Council on
appeal.

2. Extension of Project Design Approvals. Upon a written request from the applicant submitted prior to
the expiration of the Project Design Approval, the Community Development Director may grant one (1) two-year
extension of a Project Design Approval.

B. EXCLUSIONS OF TIME. The time period specified in this Chapter for the validity of a Project Design
Approval shall not include any period of time during which either of the following applies:
1. a City moratorium ordinance on the issuance of building permits is in effect; or
2. a lawsuit challenging the validity of the Project’s approval by the City is pending in a court of competent
jurisdiction. (Ord. 5537, 2010; Ord. 5518, 2010.)
Chapter 22.69

SINGLE FAMILY DESIGN BOARD

Sections:

22.69.010 Single Family Design Board.
22.69.015 Definitions.
22.69.020 Neighborhood Preservation – Single Family Residential Unit Design Review.
22.69.030 Alternative Design Review by Historic Landmarks Commission.
22.69.040 Single Family Design Board Notice and Hearing.
22.69.050 Neighborhood Preservation, Grading and Vegetation Removal Ordinance Findings.
22.69.055 Green Building Standard for Large Residences.
22.69.060 Single Family Design Board Referral to Planning Commission for Comments.
22.69.065 Special Design District – Lower Riviera Survey Area (Bungalow District).
22.69.070 Appeals to Council – Notice and Hearing.
22.69.080 Expiration of Project Design Approvals.

22.69.010 Single Family Design Board.

A. PURPOSE. A Single Family Design Board is hereby created and established by the City to promote the general public welfare, protect and preserve the City’s natural and historical charm, and enhance the City’s aesthetic appeal and beauty. The goal of the Single Family Design Board shall be to ensure that single family residential unit projects are compatible with the surrounding neighborhood in size and design. The Single Family Design Board is also charged with the task of protecting public visual resources and promoting the ecological sustainability of the City’s built environment through the design review process.

B. MEMBERSHIP. The Single Family Design Board shall be composed of seven (7) members appointed by the City Council. Two (2) members shall be licensed architects, one (1) member shall be a licensed landscape architect, (3) members shall possess professional qualifications in fields related to architecture, including, but not limited to, building design, structural engineering, industrial design, or landscape contracting, and one (1) member shall be appointed from the public at large. All members of the Board shall reside within Santa Barbara County and shall hold office at the pleasure of the City Council. A person may serve on the Architectural Board of Review or the Historic Landmarks Commission and the Single Family Design Board at the same time.

C. CONDUCT OF MEETINGS. The members of the Single Family Design Board shall elect from their own members a chair and vice-chair. The Community Development Director or his or her designee shall act as secretary and record Board actions and render written reports thereof for the Board as required by this Chapter. The rules of procedure for the Board shall be established and approved by resolution of the City Council. Four (4) members shall constitute a quorum, one (1) of whom shall be a licensed architect. (Ord. 5646, 2014; Ord. 5416, 2007.)

22.69.015 Definitions.

A. DEFINED IN THIS CHAPTER. If any word or phrase is defined in this Chapter 22.69, the definition given in this Chapter shall be operative for the purposes of this Chapter.

B. DEFINED IN CHAPTER 28.04. If a word or phrase used in this Chapter 22.69 is not defined in this Chapter, but is defined in Chapter 28.04 of this Code, the word or phrase shall have the same meaning in this Chapter as the meaning specified in Chapter 28.04.

C. UNDEFINED WORDS AND PHRASES. Any words or phrases used in this Chapter 22.69 that are not defined in this Chapter or Chapter 28.04 of this Code shall be construed according to the common meaning of the words and the context of their usage.

D. PROJECT DESIGN APPROVAL. With respect to design review by the Single Family Design Board, a “Project Design Approval” is as defined in SBMC Section 22.22.020. (Ord. 5537, 2010; Ord. 5416, 2007.)

22.69.020 Neighborhood Preservation - Single Family Residential Unit Design Review.

A. APPROVAL REQUIRED BEFORE ISSUANCE OF PERMIT. No building permit, grading permit, vegetation removal permit, or subdivision grading plan, the application for which is subject to the review of the Single Family Design Board pursuant to this Chapter 22.69, shall be issued without the approval of the Board or the City Council, on appeal.

B. BUILDING PERMITS - SPECIAL DESIGN DISTRICTS.

1. Mission Area Special Design District and Lower Riviera Survey Area - Bungalow District. Applications for building permits to construct, alter, or add to the exterior of a single family residential unit or a related accessory structure on a lot or lots within the Mission Area Special Design District or the Lower Riviera Survey Area - Bungalow District identified in Section 22.68.060 shall be referred to the Single Family Design Board for design review in accordance with the requirements of this Chapter and the approved Single Family Design Board Guidelines.
2. Hillside Design District. Applications for building permits to construct, alter, or add to the exterior of a single family residential unit or a related accessory structure on a lot or lots within the Hillside Design District identified in Section 22.68.060 shall be referred to the Single Family Design Board for design review in accordance with the requirements of this Chapter and the approved Single Family Design Board Guidelines if either:

a. The average slope of the lot or the building site is 20% or more as calculated pursuant to Section 28.15.080 of this Code; or

b. The application involves the replacement of an existing roof covering with a roof covering of different materials or colors.

C. BUILDING PERMITS - SINGLE FAMILY RESIDENTIAL UNITS. Applications for building permits to construct, alter, or add to the exterior of a single family residential unit or a related accessory structure on any lot shall be referred to the Single Family Design Board for design review in accordance with the requirements of this Chapter and the Single Family Design Board Guidelines if the project for which the building permit is sought involves any of the following:

1. The construction of a new building or structure where any portion of the proposed construction is either:
   (i) two or more stories tall, or (ii) seventeen feet (17') or taller in building height (for purposes of this paragraph 1, building height shall be measured from natural grade or finished grade, whichever is lower), or
   2. An alteration to an existing building or structure where any portion of the proposed alteration either:
      (i) alters the second or higher story of the building or structure, or (ii) alters a point on the existing building or structure that is seventeen feet (17') or higher in building height (for purposes of this paragraph 2, building height shall be measured from natural grade or finished grade, whichever is lower), or
   3. An addition to an existing building or structure where any part of the proposed addition is either:
      (i) two or more stories tall, or (ii) seventeen feet (17') or taller in building height (for purposes of this paragraph 3, building height shall be measured from natural grade or finished grade, whichever is lower), or
   4. The net floor area of all floors of all existing and new buildings on the lot will exceed four thousand (4,000) square feet as calculated pursuant to Section 28.15.083 of this Code, or
   5. The project requires a net floor area modification pursuant to Section 28.92.110.A.6 of this Code, or
   6. The construction, alteration, or addition of a deck on the second or higher floor (including roof decks) or a balcony on the second or higher floor of any building that will extend perpendicularly more than three feet (3') from the adjacent exterior wall or will be more than seven feet (7') in length in the dimension parallel to the adjacent exterior wall, or
   7. The construction, alteration, or addition of a retaining wall that is six feet (6') or greater in height, or
   8. The construction, alteration, or addition of a wall, fence or gate in the front yard of the lot that is greater than three and one half feet (3.5') in height, excluding walls, fences, or gates that are constructed along the interior lot lines of the lot, shall be referred to the Single Family Design Board for a review of the proposed wall, fence or gate, or
   9. The installation of a manufactured home, mobile home or factory-built home (as those terms are defined in the California Health and Safety Code), subject to the limitations on review specified in Government Code section 65852.3 et seq., or
   10. The installation of a single family residential unit that was, as a whole or in part, previously located on another lot, or
   11. Grading outside the footprint of the main building on the lot that exceeds either:
      (i) fifty (50) cubic yards on a lot within the Hillside Design District identified in Section 22.68.060, or (ii) two hundred fifty (250) cubic yards on a lot that is not within the Hillside Design District. For purposes of this paragraph 11, soil located within five feet (5') of an exterior wall of a main building that is excavated and recompacted shall not be included in the calculation of the volume of grading outside the main building footprint, or
   12. Projects involving an application for an exception to the parking requirements for a single family residential unit as specified in Section 28.90.100.G.1.c. of this Code.

D. SUBDIVISION GRADING PLANS. All subdivision grading plans involving grading on a lot or lots located in any of the single family zones listed in Chapter 28.15 of this Code shall be referred to the Single Family Design Board for a review of the proposed grading.

E. GRADING PERMITS. Applications for grading permits that propose grading on a vacant lot or lots located within a single family zone listed in Chapter 28.15 of this Code or on any lot that is developed exclusively with a single family residence and related accessory buildings, and which are not submitted in connection with an application for a building permit for the construction or alteration of a building or structure on the same lot or lots, shall be referred to the Single Family Design Board for a review of the proposed grading.

F. VEGETATION REMOVAL PERMITS. Applications for vegetation removal permits pursuant to Chapter 22.10 of this Code on a lot or lots located within a single family zone listed in Chapter 28.15 of this Code, or on any lot that is developed exclusively with a single family residence and related accessory buildings, shall be referred to the Single Family Design Board for design review of the proposed retaining walls in accordance with the requirements of this Chapter and the approved Single Family Design Board Guidelines:

G. RETAINING WALLS. The following types of retaining wall improvements, if located on a lot or lots within a single family zone listed in Chapter 28.15 of this Code, or on any lot that is developed exclusively with a single family residence and related accessory buildings, shall be referred to the Single Family Design Board for design review of the proposed retaining walls in accordance with the requirements of this Chapter and the approved Single Family Design Board Guidelines:
1. The construction of a retaining wall on a lot or a building site with an average slope of 15% or more (as calculated pursuant to Section 28.15.080 of this Code), or
2. The construction of a retaining wall on a lot that is adjacent to or contains an ocean bluff, or
3. The construction of multiple terracing retaining walls that are not separated by a building or a horizontal distance of more than ten feet (10’) where the combined height of the walls exceeds six feet (6’).

H. SUBSTANTIAL ALTERATIONS TO APPROVED LANDSCAPE PLANS. The Single Family Design Board shall review any substantial alteration or deviation from the design, character, plant coverage at maturity, or other improvements specified on an approved landscape plan for any lot within the City of Santa Barbara that is developed with a single-family residence where the conditions of approval for the development on the lot require the installation and maintenance of trees or landscaping in accordance with an approved landscape plan, whether or not such alteration or deviation to the landscape plan is proposed in connection with an alteration to a building or structure on the lot that is subject to design review by the Single Family Design Board. Whether a proposed alteration or deviation is substantial shall be determined in accordance with the Single Family Design Guidelines.

I. SUBMITTAL REQUIREMENTS. Applications for review by the Single Family Design Board shall be made in writing in such form as is approved by the Director of Community Development. No application shall be considered complete unless accompanied by the application fee in the amount established by resolution of the City Council.

J. ADMINISTRATIVE APPROVAL. Minor design alterations, as specified in the Single Family Design Guidelines or the Single Family Design Board Guidelines approved by a resolution of the City Council, may be approved as a ministerial action by the Community Development Director or the Director’s designee without review by the Single Family Design Board. The Community Development Director (or the Director’s designee) shall have the authority and discretion to refer any minor design alteration to the Single Family Design Board if, in the opinion of the Community Development Director, the alteration has the potential to have an adverse effect on the architectural or landscape integrity of the building, structure or surrounding property.

K. PRESUMPTION REGARDING PRIOR GRADING, TREE REMOVAL, AND CONSTRUCTION. There shall be a presumption that any grading, removal of trees, or construction that occurred on the lot within two years prior to the submittal of an application for a building permit to construct, alter, or add to a single family residential unit or a related accessory structure was done in anticipation of such application, and said activities will be included in determining whether the project is subject to review by the Single Family Design Board pursuant to this Chapter. For purposes of this presumption, if the prior work required a permit from the City, the prior work shall not be considered complete unless a final inspection has occurred or a certificate of occupancy has been issued. An applicant has the burden to rebut this presumption with substantial evidence sufficient to convince the Single Family Design Board that such work was not done in an effort to avoid review of the entirety of the project by the Single Family Design Board.

L. SINGLE FAMILY DESIGN GUIDELINES. The Single Family Design Guidelines adopted by resolution of the City Council shall provide direction and appropriate guidance to decision makers and City staff in connection with applications reviewed pursuant to this Chapter. (Ord. 5518, 2010; Ord. 5505, 2009; Ord. 5444, 2008; Ord. 5416, 2007.)

22.69.030 Alternative Design Review by Historic Landmarks Commission.

A project that is otherwise subject to review by the Single Family Design Board in accordance with the requirements of this Chapter shall be referred to the Historic Landmarks Commission for review in accordance with the requirements of Chapter 22.22 of this Code if the project is proposed in any of the following locations:

A. A lot on which a City Landmark or City Structure of Merit is located,
B. A property on the City's Potential Historic Resources List, or
C. Any property located within El Pueblo Viejo Landmark District or another landmark district.

This referral to the Historic Landmarks Commission is supplemental to any other design review requirements required by Chapter 22.22 due to the status of any building or structure on the lot or the location of the lot within a landmark district. The fact that an application for a building permit, grading permit, or vegetation removal permit is not subject to design review pursuant to this Chapter 22.69 shall not excuse or exempt an application from review pursuant to Chapter 22.22 of this Code. (Ord. 5416, 2007.)

22.69.040 Single Family Design Board Notice and Hearing.

A. PROJECTS THAT REQUIRE A NOTICED PUBLIC HEARING. Single Family Design Board review of the following projects must be preceded by a noticed public hearing:

1. New single family residential unit,
2. The addition of over 500 square feet of net floor area to a single residential unit, including any related accessory structures,
3. An addition of a new second or higher story to a single residential unit or a related accessory structure,
4. An addition of over 150 square feet of net floor area to an existing second or higher story of a single residential unit or a related accessory structure,
5. Projects involving grading in excess of 250 cubic yards outside the footprint of any main building (soil located within five feet (5’) of an exterior wall of a main building that is excavated and recompacted shall not be included in the calculation of the volume of grading outside the building footprint),

6. Projects involving exterior lighting with the apparent potential to create significant glare on neighboring parcels, or

7. Projects involving an application for an exception to the parking requirements for a single family residential unit as specified in Section 28.90.100.G.1.c. of this Code.

B. MAILED NOTICE. Not less than ten calendar days before the date of the hearing required by Subsection A above, the City shall cause written notice of the project hearing to be sent by first class mail to the following persons: (1) the applicant, and (2) the current record owner (as shown on the latest equalized assessment roll) of any lot, or any portion of a lot, which is located not more than three hundred feet (300’) from the exterior boundaries of the lot which is the subject of the action. The written notice shall advise the recipient of the following: (1) the date, time and location of the hearing, (2) the right of the recipient to appear at the hearing and to be heard by the Single Family Design Board, (3) the location of the subject property, and (4) the nature of the application subject to design review.

C. ADDITIONAL NOTICING METHODS. In addition to the required mailed notice specified in Subsection B, the City may also require notice of the hearing to be provided by the applicant in any other manner that the City deems necessary or desirable, including, but not limited to, posted notice on the project site and notice delivered to non-owner residents of any of the ten (10) lots closest to the lot which is the subject of the action. However, the failure of any person or entity to receive notice given pursuant to such additional noticing methods shall not constitute grounds for any court to invalidate the actions of the City for which the notice was given.

D. PROJECTS REQUIRING DECISIONS BY THE CITY COUNCIL, PLANNING COMMISSION, OR STAFF HEARING OFFICER. Whenever a project requires another land use decision or approval by the City Council, the Planning Commission, or the Staff Hearing Officer, the mailed notice of the first hearing before the Single Family Design Board shall comply with the notice requirements of this Section or the notice requirements applicable to the other land use decision or approval, whichever are greater. However, nothing in this Section shall require either: 1. notice of any hearing before the Single Family Design Board to be published in a newspaper, or 2. mailed notice of hearings before the Single Family Design Board after the first hearing conducted by the Single Family Design Board, except as otherwise provided in the Single Family Design Board Guidelines adopted by resolution of the City Council. (Ord. 5518, 2010; Ord. 5444, 2008; Ord. 5416, 2007.)

22.69.050 Neighborhood Preservation, Grading and Vegetation Removal Ordinance Findings.

If a project is referred to the Single Family Design Board for review pursuant to Section 22.69.020 and the Single Family Design Board Guidelines, the Single Family Design Board shall make the findings specified below prior to approving the project.

A. NEIGHBORHOOD PRESERVATION FINDINGS. Prior to approval of any project, the Single Family Design Board shall make each of the following findings:

1. Consistency and Appearance. The proposed development is consistent with the scenic character of the City and will enhance the appearance of the neighborhood.

2. Compatibility. The proposed development is compatible with the neighborhood, and its size, bulk, and scale are appropriate to the site and neighborhood.

3. Quality Architecture and Materials. The proposed buildings and structures are designed with quality architectural details. The proposed materials and colors maintain the natural appearance of the ridgeline or hillside.

4. Trees. The proposed project does not include the removal of or significantly impact any designated Specimen Tree, Historic Tree or Landmark Tree. The proposed project, to the maximum extent feasible, preserves and protects healthy, non-invasive trees with a trunk diameter of four inches (4”) or more measured four feet (4’) above natural grade. If the project includes the removal of any healthy, non-invasive tree with a diameter of four inches (4”) or more measured four feet (4’) above natural grade, the project includes a plan to mitigate the impact of such removal by planting replacement trees in accordance with applicable tree replacement ratios.

5. Health, Safety, and Welfare. The public health, safety, and welfare are appropriately protected and preserved.

7. Public Views. The development, including proposed structures and grading, preserves significant public scenic views of and from the hillside.

B. HILLSIDE DESIGN DISTRICT AND SLOPED LOT FINDINGS. In addition to the findings specified in Subsection A above, prior to approval of any project on a lot within the Hillside Design District described in Section 22.68.060 or on a lot or a building site that has an average slope of 15% or more (as calculated pursuant to Section 28.15.080 of this Code), the Single Family Design Board shall make each of the following findings:

1. Natural Topography Protection. The development, including the proposed structures and grading, is appropriate to the site, is designed to avoid visible scarring, and does not significantly modify the natural topography of the site or the natural appearance of any ridgeline or hillside.

2. Building Scale. The development maintains a scale and form that blends with the hillside by minimizing the visual appearance of structures and the overall height of structures. (Ord. 5416, 2007.)
C. **GRADING FINDINGS.** In addition to any other applicable findings specified in this Section 22.69.050, prior to approval of any project that requires design review under either Paragraph 22.69.030.C.11 or Subsection 22.69.030.F of this Chapter, the Single Family Design Board shall make each of the following findings:

1. The proposed grading will not significantly increase siltation in or decrease the water quality of streams, drainages or water storage facilities to which the property drains; and

2. The proposed grading will not cause a substantial loss of southern oak woodland habitat.

D. **VEGETATION REMOVAL FINDINGS.** In addition to any other applicable findings specified in this Section 22.69.050, prior to approving a vegetation removal permit that requires design review under Subsection 22.69.050.F of this Chapter, the Single Family Design Board shall make each of the following findings:

1. The proposed vegetation removal will not significantly increase siltation in or decrease the water quality of streams, drainages or water storage facilities to which the property drains; and

2. The proposed vegetation removal will not cause a substantial loss of southern oak woodland habitat; and

3. The proposed vegetation removal will comply with all applicable provisions of Chapter 22.10, “Vegetation Removal,” of this Code. (Ord. 5444, 2008; Ord. 5416, 2007.)

### 22.69.055 Green Building Standard for Large Residences.

If a project proposes more than 500 square feet of new net floor area (new construction, replacement construction, or additions), and the net floor area of all existing and new buildings on the lot resulting from the application will exceed four thousand (4,000) square feet of net floor area as calculated pursuant to Section 28.04.315, all new square footage (new construction, replacement construction, or additions) proposed as part of the project shall meet or exceed a three-star designation under the Santa Barbara Contractors’ Association Built Green program or equivalent standards under another green construction program recognized by the City. (Ord. 5518, 2010.)

### 22.69.060 Single Family Design Board Referral to Planning Commission for Comments.

A. **PLANNING COMMISSION COMMENTS.** When the Single Family Design Board determines that a project is proposed for a site which is highly visible to the public, the Board may, prior to granting preliminary approval of the application, require presentation of the application to the Planning Commission solely for the purpose of obtaining comments from the Commission regarding the application for use by the Single Family Design Board in its deliberations.

B. **NOTICE AND HEARING.** Prior to making any comments regarding an application pursuant to this Section, the Planning Commission shall hold a noticed public hearing. Notice of the hearing shall be provided in accordance with the requirements of Section 22.69.040. (Ord. 5416, 2007.)

### 22.69.070 Special Design District – Lower Riviera Survey Area (Bungalow District).

A. **SPECIAL DESIGN DISTRICT AREA MAP – LOWER RIVIERA SURVEY AREA - BUNGALOW DISTRICT.** Applications for building permits to construct, alter, or add to single family residential units or related accessory buildings or structures on lots located within the “Lower Riviera Survey Area - Bungalow District” established pursuant to SBMC Section 22.68.060 shall be subject to design review in accordance with the requirements of this Section 22.69.070 as follows:

B. **REVIEW OF BUILDING PERMIT APPLICATIONS.** Applications for building permits to construct, alter, or add to single residential units on lots located within the Bungalow District shall be referred to the Community Development Director for review to determine if the application constitutes a project to demolish the structure. For the purposes of this Section, a “demolition” shall be as defined in subparagraph (J) of Santa Barbara Municipal Code Section 22.22.020. Such a determination shall be made by the Community Development Director or the Director’s designee in writing within thirty (30) days of the date of the original permit application. If the Community Development Director or the Director’s designee determines that the property is eligible for listing on the City’s Potential Historic Resources list, the application shall be referred to the Historic Landmarks Commission for determination of the historical significance of the buildings or structures pursuant to Section 22.22.035.C.3. If it is determined that the property is not eligible for listing on the City’s Potential Historic Resources list, and the Community Development Director or the Director’s designee determines that the application does constitute an application to demolish the structure, such application shall be referred to the City’s Single Family Design Board for review by the Board in accordance with the requirements of this Section. If the Community Development Director or the Director’s designee determines that the application does not constitute a demolition under the terms of this Section, the building permit shall be issued upon compliance with the otherwise applicable requirements of this Code for appropriate and required design and development review.

C. **REVIEW OF BUNGALOW DISTRICT DEMOLITION APPLICATIONS BY THE SINGLE FAMILY DESIGN BOARD.** An application referred to the Single Family Design Board pursuant to Subsection B above shall be reviewed by the Board in accordance with the hearing, noticing, and appeal procedures established in SBMC Sections 22.69.040 and 22.69.080. An application referred to the Single Family Design Board pursuant to Subsection B above shall not be approved unless the Single Family Design Board makes all of the following findings with respect to that application:

1. That the demolition will not result in the loss of a structure containing a primary feature or features of Bungalow or Arts and Crafts style residential architecture, which features are worthy of or appropriate for historical preservation;
2. That the demolition will not result in the loss of a structure which, although not eligible as a City Historic Resource, is a prime example of the Bungalow or Arts and Crafts style residential building appropriate for historical preservation;

3. That the demolition will not result in the loss of a structure which is prominent or which is a prime example of the Bungalow or Arts and Crafts style residential architecture for which this neighborhood is characterized or known.

**D. SINGLE FAMILY DESIGN BOARD CONDITIONAL APPROVAL OF DEMOLITION WITHIN THE BUNGALOW DISTRICT.** Notwithstanding the above-stated requirement for appropriate demolition findings, the Single Family Design Board may approve a demolition application within the Bungalow District if the Board conditions the demolition permit such that any proposed future development of the real property upon which the structure or structures are located must comply with express conditions of approval designed to preserve certain existing architectural features or buildings, as determined appropriate by the Board.

Such conditions may provide that any future development of the property involved must either incorporate the existing structures, in whole or in part, into the new development, or it must preserve certain features or aspects of the existing structures or of the site such that these features are incorporated into any future development of the real property, either through the preservation of the building or feature or its replication in the new development, as may be determined appropriate by the Board.

Such conditions of approval shall be prepared in written format acceptable to the Community Development Director and the City Attorney and shall be recorded in the official records of Santa Barbara County with respect to the involved real property prior to issuance of any building permit for said demolition such that these conditions shall be binding on all future owners of the real property as conditions imposed on any new development for a period of twenty (20) years after the conditional approval of the original demolition application and the completion of the demolition.

**E. REVIEW OF NEW DEVELOPMENT WITHIN THE BUNGALOW DISTRICT BY SINGLE FAMILY DESIGN BOARD.** Applications for building permits to construct new single family residential units on lots located within the Bungalow District shall be referred to the Single Family Design Board for development plan review and approval in accordance with the public hearing, noticing and appeal requirements of SBMC Section 22.69.040 and 22.69.080.

**F. BUNGALOW DISTRICT FINDINGS.** The Single Family Design Board shall not approve a new single residential unit development within the Bungalow District unless it makes both of the following findings:

1. Express conditions of approval have been imposed on the proposed development which appropriately incorporate the existing structures or architectural features or other aspects of these structures (or of the site involved) into the new development, or these structures, features or aspects will be appropriately replicated in the new development; and

2. The proposed development will not substantially diminish the unique architectural style and character of the Bungalow District as a residential neighborhood of the City.

**G. GUIDELINES FOR SPECIAL DESIGN DISTRICT.** The Lower Riviera Special Design District Guidelines adopted by resolution of the City Council shall provide direction and appropriate guidance to the decision makers and City staff in connection with the review of applications filed pursuant to this Section. (Ord. 5416, 2007.)

22.69.080 Appeals to Council – Notice and Hearing.

**A. PROCEDURE FOR APPEAL.** Any action of the Single Family Design Board on an application for preliminary or final approval taken pursuant to this Chapter 22.69 may be appealed to the City Council by the applicant or any interested person pursuant to Chapter 1.30 of this Code. In deciding such an appeal, the City Council shall make those findings required of the Board with respect to a determination made pursuant to this Chapter.

**B. NOTICE OF APPEAL.** In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Single Family Design Board made pursuant to this Chapter 22.69 shall be provided in the same manner as notice was provided for the hearing before the Single Family Design Board. (Ord. 5416, 2007.)

22.69.090 Expiration of Project Design Approvals.

**A. PROJECT DESIGN APPROVAL.**

1. **Approval Valid for Three Years.** A Project Design Approval issued by the Single Family Design Board or the City Council on appeal shall expire if a building permit for the project is not issued within three (3) years of the granting of the Project Design Approval by the Single Family Design Board or the City Council on appeal.

2. **Extension of Project Design Approval.** Upon a written request from the applicant submitted prior to the expiration of the Project Design Approval, the Community Development Director may grant one (1) two-year extension of a Project Design Approval.
B. EXCLUSIONS OF TIME. The time period specified in this Chapter for the validity of a Project Design Approval shall not include any period of time during which either of the following applies:

1. a City moratorium ordinance on the issuance of building permits is in effect; or
2. a lawsuit challenging the validity of the Project’s approval by the City is pending in a court of competent jurisdiction. (Ord. 5537, 2010; Ord. 5518, 2010; Ord. 5416, 2007.)

22.70.010 General Provisions.

A. TITLE. This Chapter shall be known and cited as the Sign Ordinance of the City of Santa Barbara.

B. PURPOSE AND INTENT. The City of Santa Barbara has a national and international reputation as a community of natural beauty, distinctive and historic architecture and historic tradition. Signs have a strong visual impact on the character and quality of the community. As a prominent part of the scenery, they attract or repel the viewing public, affect the safety of vehicular traffic, and their suitability or appropriateness helps to set the tone of the neighborhood. Since the City of Santa Barbara relies on its scenery and physical beauty to attract tourists and commerce, aesthetic considerations assume economic value. It is the intent of the City of Santa Barbara, through this ordinance, to protect and enhance the City's historic and residential character and its economic base through the provision of appropriate and aesthetic signing. In addition, it is the intent of the City to limit the size, type and location of signs in order to minimize their distracting effect on drivers and thereby improve traffic safety.

In view of these facts, the City of Santa Barbara adopts the policy that the sign should serve primarily to identify an establishment, organization or enterprise. As identification devices, signs must not subject the citizens of the City to excessive competition for their visual attention. As appropriate identification devices, signs must harmonize with the building, the neighborhood and other signs in the area.

C. COMPLIANCE WITH CHAPTER. It is unlawful for any person to construct, maintain, display or alter or cause to be constructed, maintained, displayed or altered, a sign within the City of Santa Barbara except in conformance with this chapter. (Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)

22.70.020 Definitions.

As used in this Chapter, the following terms and phrases shall have the indicated meanings:

A. ACCESSORY SIGN. A separate unit displaying information related to the principal business conducted on the premises, which is not attached to or supported by any other sign, and not made a part thereof.

B. ARCHITECTURAL FEATURE. Any window frame, recessed area, door, detail or other feature that is part of any building, or is a specific element of a recognized style of architecture.

C. AWNING SIGN. Any sign or graphic attached to, painted on or applied to an awning or awning canopy.

D. BACK-LIT SIGN. Any internally illuminated sign with opaque, reverse pan channel, halo-lit letters and elements with concealed light sources in which the light projects away from the viewer.

E. BALLOON. A lighter-than-air or inflated object no larger than eighteen (18) inches in any dimension.

F. BANNER. A bunting or other flexible sign characteristically supported at two or more points and hung on a building or otherwise suspended down or along its face, or across any public street of the City. The banner may or may not include copy or other graphic symbols.

G. BENCH SIGN. Any sign painted on or otherwise attached to a bench or other seat placed in an exterior area.

H. BILLBOARD. A freestanding sign which exceeds the size limitations of a ground or wall sign. A billboard may be on-premises or off-premises.

I. CIVIC EVENT SIGN. A sign, other than a commercial sign, posted to advertise or provide direction to a civic event sponsored by a public agency, the City, a school, church, civic-fraternal organization or similar noncommercial organization.
J. COMMERCIAL, OFFICE OR INDUSTRIAL COMPLEX. A group of contiguous businesses which employs a homogeneous design theme as a common perimeter treatment.

K. COMMERCIAL SIGN. Any sign which is intended to attract attention to a commercial activity, business, commodity, service, entertainment or attraction sold or offered, and which is to be viewed from public streets or public parking areas.

L. DIGITAL DISPLAY. A sign that displays still images, scrolling images, or moving images, including video or animation, through a series of grid lights, including cathode ray, light emitting diode display, liquid crystal display, plasma screen, fiber optic, or other electronic media or technology, where the display can be changed through electronic means. The definition of digital display does not include time and temperature signs or electronic signs placed in the right-of-way that function as traffic control devices.

M. EAVE. That portion of the roofline extending beyond the building wall, a canopy attachment on the wall having the simulated appearance of an eave, or the lowest horizontal line on any roof.

N. ELECTION SIGN. A noncommercial sign pertaining to an election for public office or to a ballot measure to be placed before the voters in a federal, state or local election.

O. ERECT. To build, construct, attach, hang, place, suspend, affix, fabricate (which shall also include painting of wall signs and window signs or other graphics), or project light in a manner that creates a projected light sign.

P. FACADE. The front of a building or structure facing a street.

Q. FLAG. A piece of fabric of distinctive design (customarily rectangular) that is used as a symbol of a nation, state, city, agency, corporation or person, or as a signaling device, and is usually displayed hanging free from a staff or halyard to which it is attached by one edge.

R. FRONTAGE. The width of any face of a building.
1. Dominant building frontage. The principal frontage of the building where its main entrance is located or which faces the street upon which its address is located.
2. Subordinate building frontage. Any frontage other than the dominant frontage.

S. GROUND SIGN. Any sign advertising goods manufactured, produced or sold, or services rendered on the premises upon which the sign is placed, or identifying in any fashion the premises or any owner or occupant, and which is supported by one (1) or more uprights or braces on the ground, the overall total height of which does not exceed (i) six (6) feet above grade measured at the edge of the public right-of-way, or (ii) six feet above the base of the sign structure when the grade at the public right-of-way is at least three and one-half feet lower than the grade at the base of the sign, whichever is higher. In no case shall an artificial grade be established for the sole purpose of placing a sign at more than six (6) feet above the grade at the edge of the public right-of-way.

T. HANGING SIGN. A sign attached to and located below any eave, roof, canopy, awning, or wall bracket.

U. ILLUMINATED SIGN. A physical sign that is illuminated internally or from an exterior light source. An illuminated sign is distinguished from a projected light sign by the fact that a projected light sign uses light to create the sign rather than using light to illuminate a sign of physical material.

V. INFLATABLE SIGNS. A lighter-than-air or inflated object tethered or otherwise attached to the ground, structure or other object. This definition includes, but is not limited to, inflated representations of blimps, products, cartoon characters, animals and the like. Balloons are a distinct subset of inflatable signs.

W. KIOSK. A small, freestanding structure permanently affixed to the ground, requiring a building permit, which may have one or more surfaces used to display temporary advertising signs.

X. LETTER HEIGHT. The height of a letter from its bottom to its top, including any shadow line.

Y. LIGHTING STANDARD. A device for providing artificial light on the sign surface.

Z. LOGO SIGN WITH COURTESY PANELS. Prefabricated signs bearing a brand name, registered trademark or logo with space for the name of a local business or occupant or other items of information to be applied thereto or erected thereon.

AA. MARQUEE. A permanent roof structure attached to and entirely supported by a wall of a building, having no connection or relationship with the roof of the building to which it is attached.

BB. MARQUEE SIGN. Any sign attached to a marquee.

CC. MOBILE SIGN. A sign on a boat or on a vehicle, other than on a public transit vehicle designed to carry at least 19 passengers, advertising a good, service, or entity other than that for which the boat or vehicle is principally used.

DD. MURAL. A painting or picture applied to and made part of a wall or window which may be pictorial or abstract, and is characteristically visually set off or separated from the background color or architectural environment.

EE. NONCOMMERCIAL SIGN. Any sign which is intended to convey a noncommercial message of social, political, educational, religious or charitable commentary.

FF. OFF-PREMISES SIGN. A commercial sign not located on the premises of the business or entity indicated or advertised by said sign, or a commercial sign advertising a commodity, service or entertainment offered at a location other than the location of the sign.

GG. PARAPET. A low wall used to protect the edge of a roof from view, also called a parapet wall.

HH. PARAPET OR PERGOLA SIGN. Any sign or other graphic attached to a parapet, ramada, pergola, or other similar structure.

II. PENNANT. A small triangular or rectangular flag or multiples thereof, individually supported or attached to each other by means of a string, rope, or other material, and meant to be stretched across or fastened to buildings, or between poles and/or structures.
JJ. PERGOLA. A structure usually consisting of parallel colonnades supporting an open roof of girders and cross-rafters, also known as an arbor, trellis or ramada.

KK. POLE SIGN. Any sign, other than a ground sign, supported by one (1) or more uprights or braces on the ground, the height of which is greater than a ground sign, and which is not part of any building or structure other than a structure erected solely for the purpose of supporting a sign.

LL. PORTABLE SIGN. Any sign, other than a mobile sign, designated or constructed in such a manner that it can be moved or relocated without involving any structural or support changes.

MM. PROJECTED LIGHT SIGN. A projection of light onto a physical surface in a manner designed to communicate a message by creating a variable intensity of light on the physical surface in the form of letters, shapes, or symbols.

NN. PROJECTING SIGN. Any sign which projects from and is supported by a wall of a building with the display surface of the sign perpendicular to the building wall.

OO. ROOF. The cover of any building, including the eaves and similar projections. False roofs on store fronts, coverings on or over oriels, bay windows, canopies and horizontally projecting surfaces other than marquees shall be considered roofs.

PP. ROOF SIGN. Any sign any part of which is on or over any portion of any roof or eave of a building or structure and any sign which extends above a parapet of a building or structure.

QQ. SIGN. Any form of visual communication including any physical object, projection of light, digital display, or open flame (with or without lettering, a symbol, logo) used to announce, declare, demonstrate, display, or otherwise present a message to or attract the attention of the public. A sign may include a commercial or noncommercial sign. A sign includes all parts, portions, units and materials used in constructing the sign, together with the illumination, frame, background, structure, support and anchorage thereof. A mural is not a sign.

RR. TEMPORARY. A period of time not exceeding thirty (30) consecutive days, unless otherwise specified.

SS. VENDING MACHINE. A machine or other mechanical device or container that dispenses a product or service through a self-service method of payment, but not including an automatic bank teller machine incorporated within a wall or a façade of a building; a newsrack; a machine dispensing fuel, compressed air, or water at an automobile service station; or a public telephone.

TT. WALL SIGN. Any sign affixed directly to or painted on or otherwise inscribed on an exterior wall or solid fence, the principal face of which is parallel to said wall or fence and which projects from that surface no more than twelve (12) inches at all points.

UU. WINDOW SIGN. A sign that is attached to, affixed to, leaning against, or otherwise placed within six (6) feet of a window in a manner so as to present a message to or attract the attention of the public on adjoining streets, walkways, malls or parking lots available for public use. (Ord. 5552, 2011; Ord. 5549, 2011; Ord. 5236, 2002; Ord. 4917, 1995; Ord. 4860, 1994; Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)

22.70.030 Sign Regulations.

A. PERMIT REQUIRED. It is unlawful for any person to erect, repair, alter, relocate or maintain any sign within the City, or to direct or authorize another person to do so, except pursuant to a sign permit obtained as provided in this Chapter, unless the sign is specifically exempted from permit requirements by the provisions of this Chapter. No permit shall be required for repainting, cleaning, or other normal maintenance and repair of a sign unless the structure, design, color or character is altered.

B. EXEMPT SIGNS. The following signs shall be allowed without a sign permit and shall not be included in the determination of type, number, or area of signs allowed on a building or parcel:

1. Any official federal, state, or local government sign and notice issued by any court, person, or officer in performance of a public duty, or any sign erected or placed on park or beach property owned or controlled by the City and which (i) pertains to an event not exceeding five (5) days in duration and (ii) has been approved by the agency with authority over such property.

2. Any temporary sign warning of construction, excavation, or similar hazards so long as the hazard exists.

3. One temporary construction sign, provided the sign (i) does not exceed six (6) square feet in one- and two-family residence zones and does not exceed twenty-four (24) square feet in all other zones, (ii) is used only to indicate the name of the construction project and the names and locations (city or community and state name only) of the contractors, architects, engineers, landscape designers, project or leasing agent, and financing company, (iii) is displayed during construction only, (iv) does not exceed the height limitations of a ground sign, and (v) meets all other applicable restrictions of this Chapter.

4. Any temporary sign relating to Fiesta, Solstice, or any official City holiday except banners, blinking lights, or signs and any related lighting that require a building, electrical, or other permit. Any such decorations or displays and any related lighting must be removed within ten (10) days following the event for which they were erected.

5. A sign consisting of a display of no more than twelve (12) balloons for any single business or residence, displayed at a height which is not above the roof ridge line of the main building or fifteen (15) feet, whichever is lower.
6. A noncommercial sign not exceeding six (6) square feet total for each lot in residential zones and twenty-four (24) square feet total for each lot in nonresidential zones. Such a sign shall be erected only with the permission of property owner or tenant. An election sign shall not be displayed for more than ninety (90) days prior to the election or for more than ten (10) days following the election for which it is erected.

7. A temporary real estate sign which indicates that the property is for sale, rent, or lease. Only one such sign is allowed on each street frontage of the property. A temporary real estate sign may be displayed only for such time as the lot or any portion of the lot is actively offered for sale, rent, or lease. Such a sign may be single-faced or double-faced and is limited to a maximum area on each face of four (4) square feet or less on property in residential zones and twelve (12) square feet or less on property in nonresidential zones. Signs allowed pursuant to this exemption shall not exceed the height limitations of a ground sign (six feet (6')).

8. Any temporary sign located on a kiosk.

9. Any "No Trespassing" sign, prohibiting or restricting access to property, provided it is (i) not more than one (1) square foot in size, (ii) placed at each corner and each entrance to the property and (iii) at intervals of not less than fifty (50) feet or in compliance with the requirements of law.

10. One identification sign of no more than one (1) square foot for a residence.

11. Any parking lot or other private traffic directional sign not to exceed two (2) square feet in area having black letters on a white or building color background, and limited to guidance of pedestrian or vehicular traffic within the premises. There shall be erected no more than three (3) such signs in each parking lot or more than one (1) sign per entrance.

12. Any informational commercial signs provided the sign (i) is in a nonresidential zone, (ii) has an aggregate area (when combined with all other similar signs on the parcel) of not more than one-and-one-half (1½) square feet at each public entrance nor more than five (5) square feet total, (iii) indicates address, hours and days of operation, whether a business is open or closed, credit information, and emergency address and telephone numbers. Lettering shall not exceed two (2) inches in height except for street numbers. Neon or light-emitting diode (LED) signs with the text “open” may be erected under this exemption subject to the following conditions: (i) no more than one (1) such sign may be erected per business, ii) the letter height of any such sign shall not exceed six (6) inches and the overall height of the sign shall not exceed twelve (12) inches, and (iii) such signs are not allowed in El Pueblo Viejo, unless the sign is located inside the building and at least ten (10) feet back from any window or other opening in the façade of the building.

13. Any street name and address stamped or painted on a sidewalk or curb.

14. Any civic event sign, except a banner. Such a sign shall be removed within twenty-four (24) hours after the time of the event, shall not exceed twenty-four (24) square feet in size and may be erected for a period not to exceed five (5) days out of any thirty (30) day period. Only one (1) such sign shall be erected per lot.

15. Temporary open house signs. Open house signs erected pursuant to this exemption shall contain only the address of the property where the open house is being held and the name of the real estate agent and/or real estate agency or party holding the open house. Open house signs may be single-faced or double-faced. Open house signs shall be erected and removed on the day the open house is held. Open house signs shall not be fastened or attached in any way to a building façade or architectural element.

a. On-Site Open House Signs. Pursuant to this exemption, one (1) on-site open house sign may be erected on each street frontage of the property that is for sale. Each face of an on-site open house sign shall have an area of three (3) square feet or less, and the height of the on-site open house sign, including the supporting structure, shall not exceed four (4) feet.

b. Off-Site Open House Signs. In addition to the on-site open house sign(s) allowed pursuant to this exemption, a maximum of five (5) off-site open house signs may be erected. Each face of an off-site open house sign shall have an area of three (3) square feet or less, and the height of the off-site open house sign, including the supporting structure, shall not exceed three (3) feet. Off-site open house signs shall not be erected on private property without the permission of the property owner. In addition to complying with the requirements listed above applicable to off-site open house signs, off-site open house signs may be erected within the public right-of-way if such signs comply with all of the following standards:
   i. Signs shall not be erected in a manner which obstructs the pedestrian path of travel or which constitutes a hazard to pedestrians or vehicular traffic;
   ii. Signs shall not be placed on vehicles;
   iii. Signs shall not be placed in street medians; and
   iv. Decorative attachments (i.e., balloons, streamers, etc.) shall not be attached to any sign.

16. Any sign on a telephone booth or newsrack, provided the sign (i) identifies only the product contained therein or displays operating instructions, and (ii) the lettering does not exceed two inches in height.

17. Flags flown on a temporary basis for purposes of honoring national or civic holidays which do not exceed eight (8) feet long in largest dimension. No more than two (2) flags may be flown pursuant to this exemption on a single parcel.

18. The official flag of a government, governmental agency, public institution, religion, corporation, business, or other similar entity. Only one (1) flag pole with a maximum height of twenty-five (25) feet and with a maximum dimension on the flag of eight (8) feet and which is not attached to the building shall be exempt. No more than two (2) flags may be flown pursuant to this exemption on a single parcel. Corporate or business flags displaying the emblem, name, logo, or other information of a business shall be included in the calculation of the maximum allowable sign area for the business.
19. Signs, except banners, announcing the opening of a new business which, in the aggregate, do not exceed ten (10) square feet in area or twenty-five percent (25%) of the window area, whichever is greater. Such signs shall be erected no more than thirty (30) days prior to the scheduled opening of the business and shall be removed no later than thirty (30) days after the opening of the business, but in no case shall such a sign be erected for more than forty-five (45) days within this period. The business owner or manager shall provide proof of opening date upon request.

20. Temporary window signs, except banners, not exceeding four (4) square feet or fifteen percent (15%) of the window area of each facade, whichever is greater. For windows which are more than twenty-five (25) feet from the public right-of-way, such signs shall not exceed twenty-five percent (25%) of such window area. No temporary window signs on a building or parcel shall be displayed for more than thirty (30) consecutive days nor more than a total of sixty (60) days per calendar year. Signs erected pursuant to this exemption shall not be illuminated. Unless specifically exempt pursuant to this subsection B, any illuminated sign erected within ten (10) feet of a window, door, or other opening in the façade of a building in a manner so as to present a message to or attract the attention of the public on adjoining streets, walkways, malls, or parking lots available for public use shall require a permit.

21. Signs specifically required by federal, state, or City law, of the minimum size required.

22. Signs on the air operation side of the Santa Barbara Municipal Airport which are designed and oriented to provide information to aircraft.

23. A sign, such as a menu, which (i) shows prices of goods or services not on window display to the public, (ii) does not exceed twenty-four (24) inches by eighteen (18) inches, (iii) has letters and numbers not exceeding three-quarters (3/4) of an inch in height, and (iv) is located on a wall or in a window.

24. Signs on public transit vehicles designed to transport at least 19 passengers. No more than one sign may be displayed on each side of these vehicles, except as approved by the Sign Committee.

25. Temporary "Garage Sale" or other similar signs located only on the premises upon which the sale is occurring.

26. Digital displays on gasoline pumps, provided the digital displays conform to all of the following standards:
   a. Each digital display shall not measure more than twenty-six (26) inches on the diagonal;
   b. Each digital display is integrated into the face of the gasoline pump and is not a stand-alone display;
   c. No more than one digital display is erected on each face of a gasoline pump.
   d. The luminance of each digital display shall not exceed 1500 nits;
   e. Any audio associated with a digital display shall not exceed 65 dB, measured at the nearest property line, between the hours of 7:00 a.m. and 10:00 p.m., and 55 dB, measured at the nearest property line, between the hours of 10:00 p.m. and 7:00 a.m.; and
   f. No digital display shall be installed within twenty-five (25) feet of any property zoned exclusively for residential use.

27. Digital displays on automated teller machines (ATMs), provided, (i) the digital display only displays the name of the financial institution that operates the ATM and the instructions for operating the ATM and (ii) the lettering does not exceed two inches in height.

C. PROHIBITED SIGNS. In addition to any sign not conforming to the provisions of this Chapter, the following signs are prohibited:

1. Any sign which, by color, shape, working, or location, resembles or conflicts with any traffic control sign or device.
2. Signs attached or placed adjacent to any utility pole, traffic sign post, traffic signal, historical marker, or any other official traffic control device.
3. Any sign, except as may be required by other code or ordinance, placed or maintained so as to interfere with free ingress or egress from any door, window, or fire escape.
4. Signs erected on public or private property without the permission of the property owner.
5. Signs visible from the public street or parking lot attached to or placed on merchandise or materials stored or displayed outdoors except for parking lot sales of less than four (4) days in duration.
6. Signs that rotate, move, glare, flash, change, reflect, blink, or appear to do any of the foregoing, except time and temperature devices and digital displays otherwise exempted by this Chapter.
7. Off-premises signs, including billboards, except off-site open house signs erected in compliance with the standards specified in Section 22.70.030.B.15 and digital displays erected in compliance with the standards specified in Section 22.70.030.B.26.
8. Any sign displaying obscene, indecent, or immoral matter as defined under the California Penal Code.
9. Signs on awnings or canopies except on the valance.
10. Signs that create a hazard by obstructing clear views of pedestrian and vehicular traffic.
11. Portable signs.
12. Mobile signs.
13. Any sign (generally known as a "snipe sign") tacked, nailed, posted, pasted, glued, or otherwise attached to trees, poles, stakes, fences, or the exterior of a building or other structure, where the information appearing thereon is not applicable to the present use of the premises upon which such sign is located. Whenever a sign is found so placed, the same shall constitute prima facie evidence that the person benefited by the sign placed or authorized the placement of the sign.
15. Banners, including any banner inside a building that is attached to, leaning against, or otherwise placed within ten (10) feet of a window, door, or other opening in the façade of the building in a manner so as to present a message to or attract the attention of the public on adjoining streets, walkways, malls or parking lots available for public use.

16. Roof signs and any other graphics which extend, wholly or in part, above the eave line of the structure to which it is attached.

17. Any parapet or pergola sign placed above or partially above the parapet or pergola.

18. Logo signs with courtesy panels.

19. Pennants.

20. Signs which cover or interrupt architectural features.

21. Signs containing changeable copy, except theater marquee signs, business directories, church and museum signs, gas price signs and restaurant interior menu boards.

22. Historical markers placed on the structure, tree or other historical monument itself, except as approved by the Historic Landmarks Commission.

23. Pole signs.

24. Exposed cabinet/raceways behind channel letters.

25. Inflatable signs, except for balloon displays exempted by this Chapter.

26. Unless otherwise exempted by this Chapter, digital displays, including any digital display inside a building that is attached to, leaning against, or otherwise placed within ten (10) feet of a window, door, or other opening in the façade of the building in a manner so as to present a message to or attract the attention of the public on adjoining streets, walkways, malls or parking lots available for public use.

D. GENERAL REQUIREMENTS.

1. No sign, other than a sign installed by a public agency, shall be allowed to be erected, installed, placed or maintained in or on any public property, including sidewalks and parkways, except off-site open house signs erected in compliance with the standards specified in Section 22.70.030.B.15.

2. Churches, schools, and other public or semi-public facilities may have one (1) on-site sign not exceeding eighteen (18) square feet in any area, provided that, except for the name of the premises, the lettering shall not exceed three (3) inches in height, and such signs in residential zones shall not be internally illuminated.

3. Any sign which is supported by more than one means and therefore cannot be clearly defined as a ground, marquee, wall, roof, projecting or other sign shall be administratively assigned to the sign category most logically applicable and be subject to the corresponding standards.

4. Accessory signs will be considered only if they are designed in conjunction with or made an integral part of the signing existing on the subject building or project. Said signs shall not exceed twenty-five (25%) percent of the building’s total signage.

5. A temporary window sign in excess of four (4) square feet, or fifteen percent (15%) of the window area of each façade, whichever is greater, requires a permit, unless the sign is otherwise exempt from the permit requirements of this chapter. For a window which is more than twenty-five (25) feet from the public right-of-way, such a sign shall not exceed twenty-five percent (25%) of the window area. Such signs shall not be displayed for more than thirty (30) consecutive days nor for more than a total of sixty (60) days per calendar year. Unless specifically exempted in subsection B above, all illuminated signs erected within ten (10) feet of a window, door, or other opening in the façade of a building in a manner so as to present a message to or attract the attention of the public on adjoining streets, walkways, malls, or parking lots available for public use shall require a permit.

6. Only one (1) face of a double-faced sign with parallel opposing faces, and bearing identical copy or language translation, shall be used in computing the area of a sign. Signing and illumination shall be on two opposing faces only.

7. In order to calculate the size of a sign, the following provisions apply:
   a. If the sign is enclosed by a box or outline, the area of the sign includes that portion of the sign comprised of said box or outline.
   b. If the sign consists of individual letters attached directly to the building or wall, the size is calculated by drawing a rectangle around each line of copy.
   c. If the sign is a ground sign, the base or support structure shall be included in calculating the height of the sign.

8. If a building consists of two (2) or more above-ground stories, no sign shall be allowed more than five feet six inches (5'6") above the second floor line or in conformance with Subsection D.11 below, where applicable.

9. Prior to issuance of a sign permit, a ground sign shall be approved by the traffic engineer to ensure that placement of the sign would not adversely affect traffic or pedestrian safety.

10. A non-temporary window sign shall be not larger than twenty-five percent (25%) of the window area of the facade on which it is displayed.

11. A wall sign may be attached flat against or pinned away from the wall. A wall sign placed in the space between windows on the same story shall not exceed more than two-thirds (2/3) of the height of the window, or major architectural details related thereto. A wall sign placed between windows on adjacent stories shall not exceed two-thirds (2/3) the height of the space between said windows.
12. A projecting or hanging sign must clear the nearest sidewalk by a minimum of seven (7) feet and may project no more than four (4) feet into the public right-of-way. Such a sign for a business in the second story of a building is allowed only if the business has a separate street or public parking lot entrance and may be placed at the entrance only.

13. A device displaying time or temperature is permitted in all zones except residential zones and designated historic districts, subject to the provisions herein regulating various types of signs. Such devices are limited to one (1) per block. Only a logo is allowed to appear on the same structure as such a device.

14. A kiosk is permitted in all nonresidential zones, subject to approval by the Sign Committee and (i) the Historic Landmarks Commission if within El Pueblo Viejo Landmark District or another landmark district, or (ii) the Architectural Board of Review in other parts of the City.

15. A relocated sign shall be considered to be a new sign, unless the relocation is required by a public agency as a result of a public improvement, in which case approval shall be obtained only for the new location and base of the sign.

16. Except as otherwise stated in this Chapter, letter height shall be limited to a maximum of twelve (12) inches, except where it can be found that said letter size is inconsistent with building size, architecture and setback from the public right-of-way.

17. A ground sign which exceeds six (6) square feet in area shall not be located within seventy-five (75) feet of any other ground sign.

18. All signs on parcels immediately adjacent to El Pueblo Viejo Landmark District are subject to El Pueblo Viejo regulations. (Ord. 5552, 2011; Ord. 5549, 2011; Ord. 5236, 2002; Ord. 4917, 1995; Ord. 4860, 1994; Ord. 4850, 1994; Ord. 4484, 1987; Ord. 4382, 1986; Ord. 4338, 1985; Ord. 4259, 1984.)

22.70.040 Sign Standards.

A. GENERAL REQUIREMENT. All signs shall conform to the following standards.

1. Residential Uses. The following sign standards shall apply to any residential use in any zone in the City:
   a. An apartment or condominium project identification sign identifying an apartment or condominium complex by name or address. One (1) such sign shall be allowed for each complex, shall not exceed ten (10) square feet in size if less than twenty-five (25) units, nor twenty-five (25) square feet if larger than twenty-five (25) units, and shall not be internally illuminated.
   b. The Sign Committee may authorize one (1) ground sign or wall sign, not to exceed an area of twenty-four (24) square feet, to identify a neighborhood or subdivision, other than an apartment or condominium project, at the entrance to such subdivision or neighborhood. Such sign shall not be internally illuminated.
   c. Any existing legal nonconforming use in a residential zone may have one-half (½) the number and size of signs as are allowed in commercial zones.

2. Office Uses. The following sign standards shall apply to office uses in any zone:
   a. The aggregate area for all signs identifying a building or complex shall not exceed one-half (½) square foot of sign area per linear foot of building frontage or twenty (20) square feet, whichever is less.
   b. Establishments within an office building or complex may collectively place a directory sign at each public entrance to said building listing establishments within.
   c. An office complex which maintains a group identity shall submit to the Sign Committee a sign program for all signs proposed within the complex. Upon approval, the sign program shall apply to all tenants. Proof of said inclusion in the standard lease for the office complex shall be submitted to the Planning Division by the lessor.

3. Commercial and Industrial Uses. The following sign standards shall apply to commercial and industrial uses, including hotels and motels in any zone:
   a. The total area for all signs identifying a business shall not exceed the following:
      (1) For a dominant building frontage up to one hundred (100) linear feet, one (1) square foot of sign area per linear foot of building frontage, or sixty-five (65) square feet, whichever is less.
      (2) For a dominant building frontage with more than one hundred (100) linear feet, three-quarters (3/4) square foot of sign area per linear foot of dominant building frontage or ninety (90) square feet, whichever is less.
   b. For a commercial or industrial complex containing four (4) or more occupants, the following sign standards apply:
      (1) One (1) sign per frontage to identify the commercial or industrial complex, allowing one (1) square foot of sign area per linear foot of complex frontage or seventy-five (75) square feet, whichever is less, on the dominant facade.
      (2) For each individual business with frontage on a public street or parking lot, one-half (½) square foot of sign area per linear foot or twenty-five (25) square feet, whichever is less.
      (3) One (1) directory sign not exceeding ten (10) square feet in size may be allowed at each public entrance.
(4) A commercial or industrial complex which maintains a group identity shall submit to the Sign Committee a sign program for all signs proposed within the complex. Upon approval, the sign program shall apply to all tenants. This sign program shall be included in the lease for each individual tenant. Proof of said inclusion shall be submitted to the Planning Division by the lessor.

B. EL PUEBLO VIEJO LANDMARK DISTRICT. Signs in El Pueblo Viejo Landmark District (EPV) shall contribute to the retention or restoration of the historical character of the area. In addition to the other standards and restrictions in this Chapter, signs in EPV shall comply with the following:

1. Colors shall be consistent with the Hispanic styles specified in Chapter 22.22.
2. The typeface used on all signs in EPV shall be consistent with the Hispanic styles specified in Chapter 22.22, except that where the business logo or trademark uses a particular typeface, it may be used.
3. Letter height shall be limited to a maximum height of ten (10) inches, except where it can be found that said letter size is inconsistent with building size, architecture, and setback from the public right-of-way.
4. No internally illuminated signs, except back-lit signs, are allowed. Traditional materials and methods are to be used as defined in Section 22.22.104 and described in Subsection 5 below. Internally illuminated projecting cabinet signs are prohibited.
5. The choice of materials is left to the discretion of the applicant, subject to the approval of the Sign Committee; however, the following materials and/or methods are acceptable and desirable:
   a. Sign face, supports, and standards made of resawn or rough sawn wood and/or wrought iron with painted or stained backgrounds and lettering.
   b. Sign face, supports, and standards made of smooth wood trimmed with moldings of historically based design and lettering.
   c. Signs painted directly on the face of the building.
   d. Projecting signs.
   e. Use of wood cutouts, wrought iron, or other metal silhouettes further identifying the business.
   f. Glass.
   g. Lighting standards and style typical of the building's architecture and period.
   h. Flush or inset mounted signs of tile or stone.
6. The following materials and details are not acceptable:
   a. Contemporary finish materials such as plastics, aluminum, and stainless steel.
   b. Imitation wood or imitation marble.
   c. Fluorescent paint.
   d. Spot lights, neon tubing, and exposed electrical conduits on the exterior of any building or structure.
   e. Neon tubing, light rope, or similar illuminated displays located within ten (10) feet of any window (except “open” signs as provided in Section 22.70.030.B.12 and “no vacancy” signs as provided in subparagraph 7 below).
7. For hotels and motels in the El Pueblo Viejo Landmark District (EPV), a single neon "No Vacancy" sign shall be allowed if the following conditions are met:
   a. Only one (1) double-faced neon "No Vacancy" sign per property or business.
   b. Letter size to be three (3) inches maximum height.
   c. Tube size to be twelve (12) mm. maximum diameter.
   d. Neon color to be clear red.
8. Landscaping:
   a. Landscaping in EPV shall conform to the El Pueblo Viejo Guidelines’ list of preferred plants.
   b. Low shrubs or dense ground cover is required to conceal non-decorative lighting fixtures.
   c. Irrigation plans shall be included where applicable.

(Ord. 5549, 2011; Ord. 4917, 1995; Ord. 4860, 1994; Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)

22.70.050 Sign Permits.

A. APPLICATION. Any person desiring to construct, maintain or display a sign for which a permit is required shall submit an application to the Planning Division of the Community Development Department. The application shall be made upon forms provided by the Community Development Department and shall be accompanied by the following materials:

1. Two copies of a plan showing:
   a. The position of each sign and its relation to adjacent buildings or structures.
   b. The proposed design, size, colors, and location on the premises of each sign including the type and intensity of any proposed lighting.
2. A statement showing the sizes and dimensions of all signs existing on the premises at the time of making such application.
3. Such other information as the Director of the Community Development Department may require to show full compliance with this and all other ordinances of the City of Santa Barbara.
4. A written authorization to submit the sign permit application signed by the property owner or lessee.
B. **FEES.** The sign permit application shall be accompanied by the appropriate fee established by the City Council by resolution. If installation of a sign is commenced before an application for a permit is made or before the plans are approved by the Sign Committee, the applicant shall be charged an additional field inspection fee equal to the permit fee.

C. **PROCESSING APPLICATIONS.**

1. Community Development Department staff shall review the application and accept it as complete or reject it as incomplete within three (3) working days from the date of filing.

2. No sign permit application will be accepted if:
   a. The applicant has installed a sign in violation of the provisions of this Chapter and, at the time of the submission of the application, each illegal sign has not been legalized, removed or included in the application; or
   b. Any sign under the control of the applicant on the premises of the proposed sign was installed in violation of this Chapter and at the time of submission of the application, each illegal sign has not been legalized, removed or included in the application; or
   c. The sign permit application is substantially the same as an application previously denied by staff or the Sign Committee or, on appeal, by the Historic Landmarks Commission, the Architectural Board of Review, or the City Council, unless:
      (i) Twelve (12) months have elapsed from the date of the final decision on the application; or
      (ii) New evidence or proof of changed conditions is furnished in the new application.

3. **Assignment of Level of Review.** Community Development Staff will review each sign permit application and assign each complete application to one of three review categories: conforming review, consent review, or full board review. Sign permit applications will be assigned to conforming review based on the criteria found in Section 22.70.050.E. Most other sign permit applications will be assigned to consent review. Sign permit applications that involve multiple exception requests, a large number of signs, or a large volume of signage will be assigned to full board review. Prior to a hearing on Consent Review, any member of the Sign Committee, Architectural Board of Review, or the Historic Landmarks Commission may request that an application assigned for consent review be re-assigned for full board review.

D. **BUILDING AND ELECTRICAL PERMITS.** After a sign has been approved by the Sign Committee the applicant shall obtain all required building and electrical permits from the Building and Safety Division of the Community Development Department.

E. **CONFORMING AND CONSENT SIGN REVIEW.**

1. **Sign Conformance Determination.** Applications for signs conforming to the Sign Ordinance and Sign Review Guidelines may be eligible for review and approval by the Chair or Vice-Chair of the Sign Committee or their designated alternate. Conforming signs which meet the following criteria shall be referred by Staff for Conforming Sign Review:
   a. Signs where the size, shape, color, placement, and any lighting of the sign are consistent with adopted guidelines;
   b. Signs located within El Pueblo Viejo Landmark District that comply with the requirements of Section 22.70.040.B and would be compatible with the required architectural style described in Section 22.22.104;
   c. Minor wording, name, color and/or face changes which do not affect the character or location of a sign;
   d. Signs for a commercial or industrial complex where a previously approved sign program is in effect and the proposed sign conforms to the program;
   e. Thirty (30) day extension of temporary signage;
   f. Conceptually approved signs, if all Committee conditions are met; and
   g. Awning signs.

   Sign applications which do not meet these specific criteria may be referred by Staff or the Chair, Vice-Chair or their designated alternate for Conforming Sign Review, if deemed appropriate. In addition, the full Sign Committee may also direct some projects or portions of projects to Conforming Sign Review for approval.

2. **Conforming Review.** Conforming reviews are conducted by any one (1) member of the Sign Committee.

3. Consent Review. Consent reviews are conducted by any two (2) members of the City Committee.

4. **Standard of Review and Findings.** Conforming Review and Consent Review are conducted using the review criteria provided in Section 22.70.050.G and making the findings required in Section 22.70.050.H.

F. **FULL BOARD REVIEW.** Full Board Review is conducted by the ABR or, if the sign is located in El Pueblo Viejo Landmark District or the sign is proposed on a site that is a designated historic resource or potential historic resource, the HLC. When conducting a Full Board Review of a sign permit application, the ABR or HLC shall assume the role of the Sign Committee, as provided in Chapter 22.70 and amended by this ordinance. The ABR or HLC shall employ the current adopted Sign Review Guidelines and shall conduct its review using the review criteria provided in Section 22.70.050.G and making the findings required in Section 22.70.050.H.
G. SIGN REVIEW CRITERIA.
   1. In reviewing a sign permit application, staff and the Sign Committee shall apply the following criteria as the basis for action:
      a. The sign shall be in proportion with and visually consistent with the architectural character of the building.
      b. The sign shall not constitute needless repetition, redundancy or proliferation of signing.
      c. The location of the proposed sign and the design of its visual elements (lettering, colors, decorative motif, spacing and proportion) shall result in a sign which is legible under normal viewing conditions existing at the sign's proposed location.
      d. The sign shall not obscure from view or unduly detract from existing signing.
      e. If the proposed sign will be adjacent to, in or near a residential area, it shall be harmonious and compatible with the residential character of the area.
      f. The size, shape, color and placement of the sign and any lighting shall be compatible to and harmonious with the building which it identifies and with the area in which it will be located.
      g. If the sign is to be located in El Pueblo Viejo Landmark District, the sign shall comply with the requirements of Section 22.70.040.E and shall be compatible with the required architectural style described in Section 22.22.104.
   2. If a sign permit application satisfies the above criteria and complies with the other provisions of this Chapter, it shall be approved.

H. FINDINGS. If a sign permit application is denied, specific and detailed findings setting forth the reasons why the proposed sign violates the criteria set forth above or other provisions of this Chapter shall be prepared in writing and mailed to the applicant or his agent and sign contractor within seven (7) days.

I. APPEALS. The applicant or any interested person may appeal decisions concerning sign permit applications as follows:
   1. Appeals to the Architectural Board of Review or the Historic Landmarks Commission. Any action of the Sign Committee or of the Division staff may be appealed by the applicant or any interested party to the Architectural Board of Review or, if the sign is in El Pueblo Viejo Landmark District or if the sign is proposed on a site that is a designated historic resource or potential historic resource, to the Historic Landmarks Commission. Said appeal shall be in writing, shall state reasons for the appeal and shall be filed with the staff of the Architectural Board of Review or the Historic Landmarks Commission within ten (10) days of the meeting at which the decision being appealed was rendered. A hearing shall be held by the Architectural Board of Review or the Historic Landmarks Commission, as appropriate, at the first available meeting of the Architectural Board of Review or the Historic Landmarks Commission following the filing of the appeal. Notice of the time and place of the hearing shall be sent to the applicant and appellant no later than five (5) days prior to said hearing. The Board or Commission may affirm, reverse or modify the decision of the Sign Committee or staff concerning the sign permit application. Said action shall take place within twenty-eight (28) days from the date of the filing of the appeal. Failure to act within said period will result in the sign permit application being deemed approved to the extent that it complies with the provisions of this Chapter. Upon such an automatic approval, the Division of Land Use Controls shall issue the permit. No member of the Board or Commission who is also a member of the Sign Committee and who participated in the decision of the Sign Committee shall act on the appeal.
   2. Appeal to the City Council. An appeal to the City Council from the decision of the Architectural Board of Review or the Historic Landmarks Commission shall be made pursuant to the provisions of Section 1.30.050 of this Code.

J. EXPIRATION OF PENDING APPLICATION. Signs must be installed within six months of the date of approval or the approval is void, unless the applicant has requested and received an extension not exceeding six (6) months from the Community Development Director. (Ord. 5537, 2010; Ord. 5444, 2008; Ord. 5136, 1999; Ord. 4917, 1995; Ord. 4850, 1994; Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)

22.70.060 Revocation of Sign Permits.

A. GROUNDS. Any permit issued under this Chapter may be revoked by order of the City Council when it is shown by substantial evidence that:
   1. The permit was issued without or in excess of the authority provided in this Chapter. Permittee shall be compensated for any and all costs incurred as a result of said revocation to the extent it occurs through no fault of the permittee.
   2. The application for a permit contained any material misrepresentation of fact.
B. HEARING. Prior to revoking a sign permit, the City Council shall hold a hearing concerning said revocation. Written notice of said hearing shall be given to the permittee not less than ten (10) days prior to the date of said hearing. Following the hearing, if the City Council revokes the sign permit, it shall adopt findings setting forth the basis for its decision. The findings shall be mailed to the permittee. (Ord. 4484, 1987; Ord. 4259, 1984.)
22.70.070 Exceptions.

A. APPLICATION. When a person desires to erect a sign which does not comply with the provisions of this Chapter, he shall file an application for an exception. An application for an exception shall be filed with a sign permit application, shall be accompanied by a fee established by the City Council by resolution, shall state the specific section or sections of this Chapter which the applicant desires to have waived, and shall state the grounds for the exception.

B. GROUNDS. Before an exception may be granted, the following shall be shown:
   1. There are exceptional or extraordinary circumstances or conditions applicable to the property involved, or to the intended use of the property, that do not apply generally to other properties in the vicinity.
   2. The granting of the exception will not be materially detrimental to the public welfare or injurious to the properties or improvements in the vicinity.
   3. The proposed sign is in conformance with the stated purpose and intent of the Sign Ordinance.

C. HEARING. A hearing on the exception application shall be held by the Sign Committee prior to considering the sign permit application. The time limits for the Sign Committee's action shall be the same as those set forth in Section 22.70.050.F of this Chapter.

D. APPEAL. The provisions for the appeal of the decision of the Sign Committee concerning an exception application shall be the same as those set forth in Section 22.70.050.I. (Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)

22.70.080 Nonconforming Signs.

A. DEFINITION. Every sign legally in existence on the effective date of (i) the ordinance adopting this Chapter, or (ii) any ordinance amending this Chapter, which violates or does not conform to the provisions of such ordinance or any such amendment, shall be a "nonconforming sign."

B. GENERAL PROVISIONS. A nonconforming sign may not be:
   1. Changed to another nonconforming sign.
   2. Structurally altered so as to extend its useful life.
   3. Expanded.
   4. Relocated.

C. REMOVAL.
   1. A sign which does not conform to the provisions of this Chapter, but which legally existed and was maintained on January 1, 1976, and which did not conform to provisions of the Sign Ordinance in effect at that time shall be removed or made to conform within one-hundred eighty (180) days after written notice from the Community Development Department. Said one-hundred eighty (180) day period shall be extended in the following circumstances:
      a. The owner of a nonconforming sign submits to the Community Development Department a declaration signed under penalty of perjury, on a form provided by the Community Development Department, stating that he intends to terminate the business identified by said sign within twelve (12) months of the date of the notice from the Community Development Department.
      b. The owner agrees in writing, on a form provided by the Community Development Department, to voluntarily remove said sign upon the expiration of the twelve-month period described in Subsection C.1.a. above or the date he terminates his business, whichever occurs first, and further agrees as consideration for this further extension of time to remove said sign(s) to waive any and all rights he may have to challenge the validity of the provisions of this Section.
   2. A sign which becomes nonconforming upon the effective date of (i) the ordinance by which this Chapter is adopted, or (ii) an ordinance amending this Chapter shall be removed or made to conform within sixty (60) days after written notice by the Community Development Department upon change of use of the premises.
   3. Exceptions to the provisions of this Section shall be granted by the Sign Committee upon the application of any owner of an on-site sign who presents substantial evidence showing the following:
      a. There are exceptional circumstances applicable to the property on which the nonconforming sign is located, including size, shape, topography, location, or surroundings which make it practically impossible to effectively identify the property to the public if strict application of all the provisions of this Chapter is required; or
      b. The original cost of the sign has not been fully amortized for tax purposes under Section 167 of the Internal Revenue Code by the sign's original owner. Such exception shall only be granted until completion of amortization pursuant to Section 167. Request for such extension shall be supported by legal documents, sworn statements, affidavits or other documents clearly establishing the need for additional time to amortize the original cost of the sign; or
      c. The sign possesses unique features which make it a significant part of the historical heritage of the area in which it is located.
   4. Denial of a request for an exception may be appealed pursuant to the provisions of Section 22.70.050.I. (Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)
22.70.090 Non-Current, Illegal or Unsafe Signs.

A. NON-CURRENT SIGNS. Any sign, including its supporting structure, which no longer identifies the current occupant or which otherwise fails to serve its original purpose after a lapse of three (3) months shall be deemed to be a public nuisance and shall be removed by the owner of the property on which it is located upon thirty (30) days written notice by the Community Development Department.

B. UNSAFE SIGNS. Any sign that, in the opinion of the City Building Official, is unsafe or insecure shall be deemed a public nuisance and shall be corrected or removed, together with any supporting structure, by the owner of the property on which the sign is located, within ten (10) days written notice by the Community Development Department.

C. ILLEGAL SIGNS. Any sign, including its supporting structure, which is installed or maintained on private property in violation of this Chapter shall be deemed to be a public nuisance and shall be removed by the owner of the property on which it is located upon thirty (30) days written notice by the Community Development Department.

D. FAILURE TO ABATE. In the event the property owner has not begun removal of the sign and its supporting structure within the time limits set forth in Subsections A, B and C above, Community Development Department Staff shall cause to be issued a Notice of Order to Abate describing the real property, naming the property owner thereof, describing the violation and giving notice of a City Council hearing. Community Development Department Staff shall give written notice by personal delivery or mail to the property owner that the City intends to carry out the removal of the sign and supporting structure and have the cost of said removal be made a charge against the property owner and lien against the property, unless the sign is removed, repaired or reconstructed so as to eliminate the condition that is violative of this Chapter. Community Development Department Staff shall also advise the property owner that he has a right to a scheduled hearing before the City Council of the City of Santa Barbara for the purpose of final determination that the sign is non-current, illegal or unsafe as defined under this Section. Said hearing shall begin no later than thirty (30) days after the date of the personal delivery or mailing of the notice and may be continued by the City Council.

E. FINDINGS. Upon completion of the hearing, the City Council shall find as to the fact that the sign is a non-current, illegal or unsafe sign and upon such fact being found shall determine that the sign shall be removed, repaired, or reconstructed by the property owner within a prescribed time or the City shall cause the sign and supporting structure to be removed. Said determination shall be made based upon the evidence presented and a report from the Community Development Director regarding the existing condition of the sign, the estimated costs of repair, reconstruction and/or removal. If the City Council makes such a determination, written findings and an order shall be approved. After said hearing, the City Clerk shall cause to be filed a Notice of Order to Abate with the County Recorder and shall give all parties who have a recorded interest in the property notice of such recordation by mail.

F. DUTIES OF PUBLIC WORKS DIRECTOR. The Public Works Director shall, after completion of the hearing and approval of the findings by the City Council that the sign is non-current, illegal or unsafe, and after the failure of property owner to remove, repair or reconstruct the sign within the prescribed time as set forth in the order, obtain the necessary services by contract or by using City forces to carry out the removal of the sign and its supporting structure as directed by the City Council. A record shall be kept of all costs incurred by the City including time spent for the preparation of plans and the supervision of the work to carry out the removal of the sign and supporting structure. Upon completion of said efforts, the Public Works Director shall file a report with the City Council as to the costs incurred. The property owner shall be provided a copy of said report, notice of a hearing before the City Council, and an opportunity to appear before the City Council to be heard regarding the reasonableness of the costs incurred by the City.

G. COSTS TO BE BORNE BY PROPERTY OWNER, PERSON BENEFITED BY THE SIGN. Upon completion of the hearing before the City Council as to the reasonableness of the costs, the City Council shall determine the reasonable costs incurred by the City to remove the non-current, illegal or unsafe sign and in the case of private property, the property owner shall be advised of said amount which shall be due and payable to the City. Upon request of the property owner, the City may agree to a mutually acceptable payment schedule. In the case of signs on public property, the costs of removal shall be borne by the person benefited by the sign.

H. LIEN. In the event the amount determined to be due and payable to the City is not paid within thirty (30) days after the determination by the City Council or as otherwise agreed, said amount shall become a charge against the property involved. The City Administrator shall thereafter cause the amount of said charge to be recorded on the assessment roll as an assessment and lien against and upon the property. Any portion of said assessment remaining unpaid after the due date for payment thereof shall be subject to the penalties and proceedings then in effect for property taxes due within the City of Santa Barbara.

I. INTEREST CHARGES. The City shall be entitled to interest at the rate applicable for unpaid taxes on all costs incurred by the City as determined pursuant to Subsection F.

J. SIGNS ON PUBLIC PROPERTY. Any sign, including its supporting structure, which is installed, placed or maintained on public property, other than a sign installed by, or with the permission of a public agency, is illegal and subject to removal. The person benefited by the sign shall receive notice of the violation and must remove the sign within the time stated in the notice. If the sign remains at the end of the stated period, the sign will be removed in accordance with the provisions of Section 22.70.090.E. Costs for such removal shall be borne by the person benefited by the sign. (Ord. 4917, 1995; Ord. 4484, 1987; Ord. 4259, 1984; Ord. 4101, 1981.)
A. VENDING MACHINES WITHIN THE PUBLIC RIGHTS-OF-WAY. No owner of real property shall install, operate, or maintain a vending machine which is located on or encroaches within or over a City public right-of-way, such as a City street, sidewalk, paseo, or alleyway except for those machines which encroach in the public right-of-way on the date of the enactment of this amendment to Chapter 22.70, provided that the owner or operator of such an encroaching vending machine obtains a vending machine license agreement pursuant to the requirements of Santa Barbara Municipal Code Chapter 9.48 within one year of the adoption of this amendment and provided that such machine dispenses drinking water only.

B. VENDING MACHINES IN A CITY LANDMARK DISTRICT. No owner of real property located within a City Landmark District (as such districts are designated by Santa Barbara Municipal Code Chapter 22.22) shall install, operate, or maintain a vending machine upon such real property under circumstances where the vending machine is readily visible from an area accessible to public.

C. VENDING MACHINES – NON-RESIDENTIAL USES.

1. Generally. No owner of real property located outside of a City Landmark District shall install, operate, or maintain a vending machine on such real property under circumstances where the vending machine is readily visible from an area accessible to public.

2. Residential Properties. No owner of real property used exclusively for residential purposes shall install, operate, or maintain a vending machine upon such property.

D. REVIEW AND ISSUANCE OF VENDING MACHINE PERMITS.

1. Machine Locations with Not More Than Two (2) Vending Machines. A vending machine which is visible from an area readily accessible to the public may be installed, operated, and maintained on real property zoned or being used for non-residential purposes and located outside of a City Landmark District only under the following circumstances:
   a. No More Than Two (2) Machines. The real property upon which the machine will be located will have no more than two (2) vending machines installed or operated upon the same location at any one time; and
   b. Necessary Permits. The owner or operator of the vending machine has obtained a building permit from the City Building and Safety Division and a vending machine sign permit from the City Sign Committee in accordance with the procedures established for sign permits set forth herein; and
   c. Size and Machine Panel Design. The size, design, and the use of illumination for the vending machine is installed in full compliance with the City’s Outdoor Vending Machine Design Guideline requirements for unscreened vending machines.
   d. Signage Illumination. A vending machine may not have signage which is internally illuminated.

2. Machine Locations with More Than Two (2) Vending Machines. A vending machine which is readily visible from an area accessible to the public may be installed, operated, and maintained on non-residential real property located outside of a City Landmark District where the real property will have more than two vending machines but less than five (5) machines only under the following circumstances:
   a. ABR Design Review. The owner or operator of the vending machine has obtained design and screening review and approval from the City Architectural Board of Review and the machine is installed in full compliance with the City’s Outdoor Vending Machine Design Guidelines; and
   b. Required Permits. The owner or operator of the vending machine has obtained both a building permit from the City Division of Building and Safety and a sign permit in accordance with the procedures established for sign permits set forth herein from the City Sign Committee for the machine; and
   c. Compliance with Conditions of Approval. The vending machine is installed and maintained in accordance with any conditions of approval issued by either the Sign Committee or the ABR in connection with the approved permits or design review.
   d. Automobile Service Station Locations. The real property is not being used as a gasoline service or automobile service station.

3. Vending Machines in a Shopping, Office, or Industrial Center. Vending machines located on real property being used as a Commercial, Office, or Industrial Complex [as defined in Section 22.70.020(I)] may be permitted only pursuant to a Complex Vending Machine Program approved by the Sign Committee in a manner similar to the Sign Committee’s review and approval of Complex Sign Programs pursuant to Subsection (A)(3)(b) of Section 22.70.040 hereof and where such machines are designed and located in accordance with the City’s Outdoor Vending Machine Design Guidelines.

E. OUTDOOR VENDING MACHINE DESIGN GUIDELINES.

1. Adoption of Machine Design and Locational Guidelines. Within thirty (30) days of the adoption of the ordinance enacting this Section, the City Council shall approve Outdoor Vending Machine Design Guidelines which shall be approved pursuant to a resolution of the City Council.

2. Exceptions to Guideline Requirements. Upon the written request of an applicant for an outdoor vending machine permit, the Sign Committee, or, where applicable, the City’s Architectural Board of Review may grant appropriate exceptions to the Outdoor Vending Machine Design Guidelines provided that all of the following grounds for the exception are determined to be applicable:
a. There are exceptional or extraordinary circumstances or conditions applicable to the real property involved which do not apply generally to other real properties in the vicinity.

b. The granting of the exception will not be materially detrimental to the public welfare or injurious to the properties or improvements in the vicinity.

c. The proposed vending machine installation is in conformance with the stated purpose and general intent of the Outdoor Vending Machine Design Guidelines and this Chapter.

d. A public benefit will be derived from the proposed outdoor vending machine location and a hardship otherwise exists due to the physical constraints of the site which make the strict application of City vending machine requirements impractical or not readily feasible.

F. COMPLIANCE ESTABLISHED BY VENDING MACHINE PERMIT STICKER. Compliance with the requirements of this Section shall be conclusively established by the City’s issuance of an appropriate permit sticker which shall be posted or affixed to and maintained on the permitted vending machine by the operator thereof and which shall serve as conclusive proof of compliance with the requirements of this Section.

G. VENDING MACHINES INSTALLED PRIOR TO ADOPTION. Except with respect to the prohibition on internally illuminated signage contained in subparagraph (D)(1)(d) hereof, the requirements of this Section (including the Outdoor Vending Machine Design Guidelines) shall be applicable to any vending machines installed prior to the adoption of the ordinance enacting this Section upon the expiration of one year after the effective date of the Ordinance. Permit applicants may be granted additional time for compliance with the requirements of this Chapter (not to exceed one year) by the Community Development Director upon a showing by the applicant of due diligence in seeking to obtain the permits and design review required by this Chapter.

H. APPEALS. A decision of the Sign Committee or a decision of the Architectural Board of Review made pursuant to this Section may be appealed in accordance with the applicable appeal procedures of subsection (I) of Section 22.70.050.

I. DEFINITION OF “READILY VISIBLE TO THE PUBLIC.” For the purposes of this Section, the phrase “readily visible to the public” shall mean that a majority of the face panel of a vending machine can typically, reasonably, and usually be observed by an average person standing or traveling upon a City public right-of-way or visible from a parking or other area generally open for public use, including those vending machines which are located indoors but visible and less than four (4) feet from a window. Where necessary whether a machine is “readily visible to the public” may be determined by the Community Development Director. (Ord. 5236, 2002.)

22.70.100 Sign Enforcement and Penalties.

A. ENFORCEMENT.
1. Every sign erected in the City shall be subject to inspection by the Community Development Director, or his deputy, to insure compliance with all provisions of the Sign Ordinance.

2. With respect to all signs existing on the effective date of this Chapter, and to all signs constructed, maintained, displayed, or altered after the effective date of this Chapter, it shall be the duty of the Community Development Director to enforce this Chapter.

3. It shall be the duty of the Community Development Director to enforce this Chapter for any signs installed contrary to the approved plans or to any conditions imposed by the Sign Committee.

4. The Community Development Director or any of his deputies shall have the right to enter upon any premises upon which any sign has been erected to enforce compliance with the provisions of this Chapter and to cause the removal of any sign maintained in violation of this Chapter. Whenever a sign is installed, erected or maintained in violation of this Chapter, the same shall constitute prima facie evidence that the person benefited by the sign placed or authorized the placement of the sign and shall be held responsible therefore.

B. PENALTIES. Any person who violates the provisions of this Chapter shall be subject to the penalties described on Chapter 1.28 of the Santa Barbara Municipal Code. (Ord. 4484, 1987; Ord. 4259, 1984.)
Chapter 22.75
OUTDOOR LIGHTING

### 22.75.010 Purpose.

In order to preserve and enhance the unique qualities of Santa Barbara's residential neighborhoods and its visual environment, it is essential to encourage the highest quality of outdoor night-time lighting through the adoption of lighting standards.

This ordinance is intended to reduce problems created by improperly designed and incorrectly installed outdoor lighting, particularly in the City's residential zones. It is intended to provide for safety and security concerns, without contributing to the problems associated with glare, light trespass, or skyglow, and to promote the efficient use of energy.

This ordinance establishes certain regulations and design review requirements intended to limit the uses of outdoor lighting to certain appropriate land uses and to prohibit the use of certain lighting fixtures.

This ordinance recognizes the benefits of outdoor night-time lighting and provides clear guidelines for its design and installation to help maintain and complement Santa Barbara's character.

### 22.75.020 Definitions.

For the purposes of this Title, the following words and phrases shall have the meanings set forth herein:

A. **ADJACENT.** Immediately next to.

B. **AMBIENT LIGHTING.** The general character and overall level of illumination in a particular area.

C. **DIRECT UPWARD LIGHT EMISSION.** Light rays that are emitted from a fixture that are above a horizontal plane intersecting that light source or fixture.

D. **GLARE.** Brightness in the field of view that is sufficiently greater than the amount to which the eye is adapted, causing annoyance, discomfort, or loss of visual performance and visibility.

E. **LASER LIGHTS.** A laser source light, or any similar high intensity light, used for outdoor advertising or entertainment, when projected above the horizontal.

F. **LIGHT SOURCE.** Any man-made light source, or collection of light sources that produce light by any means.

G. **LIGHT TRESPASS.** Light produced by a Lighting Fixture that illuminates a surface beyond the boundaries of the property on which it is located.

H. **LIGHTING FIXTURE.** A complete unit consisting of a Light Source together with a housing and parts designed to distribute and aim the light, located outside a building, including but not limited to, fixtures attached to any part of a structure, located on the surface of the ground, or located on free standing poles.

I. **LOW VOLTAGE.** Operating at 24 volts or less or as defined by Section 551-2 of the National Electrical Code (1993 edition) or as such Code is subsequently amended from time to time.

J. **NUISANCE LIGHTING.** Includes, but is not limited to, Glare, Light Trespass, and Skyglow.

K. **OUTDOOR LIGHTING.** The night time illumination of an outside area or object, or any man-made light emitting object located outdoors.

L. **OUTDOOR RECREATIONAL COURT.** Includes, but is not limited to, a field, court, or other area, whether permanent or temporary, designed or used for playing any sport or game, such as tennis, volleyball, basketball, or badminton, or similar outdoor game or sport, but not including lighting for a swimming pool which is located beneath the surface of the water.

M. **SEARCHLIGHT.** A mobile or fixed projector designed to produce an approximately parallel beam of light which is aimed above the horizontal plane, the use of which includes, but is not limited to, advertising for special events.

N. **SHIELDED.** A Lighting Fixture having a configuration of the housing or optics that prevents a direct view to the light source from normal viewing angles (i.e., less than 20° above the horizontal plane).

O. **SKYGLOW.** The adverse effect of brightening of the night sky due to man-made lighting.
22.75.030 Certain Lighting Prohibited.

A. GENERAL PROHIBITIONS. The use of the following Lighting Fixtures shall be prohibited in all zones of the City:
   1. Mercury vapor and low-pressure sodium fixtures and lamps except when used for landscape lighting accent purposes.
   2. Searchlights, Laser Lights, or similar high intensity outdoor lights except pursuant to a special lighting event permit granted pursuant to subsection C hereof.
   3. Lighting Fixtures mounted in such a way as to illuminate a roof or an awning.
   4. Lighting Fixtures mounted to aim light only towards a property line.
   5. Lighting Fixtures mounted in a way that is distracting to motorists or in a way that interferes with the safe operation of a motor vehicle, as may be determined by the City Engineer.
   6. Lighting that is blinking, moving, or which changes in intensity except small temporary lighting fixtures installed and used only during the period between the last week of November and first week of January of the following year.

B. OUTDOOR RECREATIONAL COURT LIGHTING IN RESIDENTIAL AREAS. The lighting of an Outdoor Recreational Court is prohibited in all residential zones of the City except where such a Court is located on a property used for non-residential purposes in accordance with the applicable provisions of Title 28 for non-residential uses in residential zones.

C. SPECIAL LIGHTING EVENTS. Upon the application of a property owner or a business within the City, the Community Development Director may grant a temporary permit for the use of a searchlight, laser light or other similar lighting fixture for a period not to exceed eight (8) consecutive hours, provided that no such permit shall be granted for any one property (or business location) within the City more often than five (5) times during any 180 day period and provided further that in no case shall a searchlight, laser light, or other similar lighting fixture be operated pursuant to such a permit between midnight and sunrise.

22.75.040 Certain Lighting Exempted.

The use of the following Lighting Fixtures and Light Sources are exempted from regulation pursuant to this Chapter:

A. LOW VOLTAGE FIXTURES. Low Voltage lighting except for those Fixtures regulated pursuant to subsection 22.75.030A(6) above.

B. CONTROLLED FIXTURES. A Lighting Fixture controlled by a motion detector in a residential zone provided the motion detector is predominantly in the off mode and it is installed to minimize Nuisance Lighting.

22.75.050 Outdoor Lighting Review by the Architectural Board of Review, the Single Family Design Board, and the Historic Landmarks Commission.

Those projects for which design review is required by the Architectural Board of Review pursuant to Chapter 22.68, the Single Family Design Board pursuant to Chapter 22.69, or the Historic Landmarks Commission pursuant to Chapter 22.22, shall also be reviewed for consistency with the City Outdoor Lighting Design Guidelines approved by resolution of the City Council. (Ord. 5416, 2007; Ord. 5035, 1997.)

22.75.060 Control of Nuisance Lighting In and Adjacent to Residential Zones.

A. GENERALLY. Outdoor lighting in residential zones and outdoor lighting on real properties adjacent to residential zones shall be designed, installed, and operated so that it is compatible with the ambient lighting of the neighborhood in which it is located. Such lighting shall be designed, installed, and operated to control glare, prevent light trespass onto adjacent areas, minimize direct upward light emission, promote effective security, avoid interference with safe operation of motor vehicles. The minimum intensity needed for the intended purpose shall be used.

B. ENFORCEMENT. The staff of the Community Development Department shall be responsible for the enforcement of this Section provided, however, that enforcement shall occur only upon a written complaint and upon a determination by City enforcement staff that the light or lights constitutes Nuisance Lighting which is unreasonably and negatively affecting a neighboring resident. Upon such a determination, the light or lights shall constitute a public nuisance which may be abated by the City and which, if necessary, may be enjoined by a court of competent jurisdiction.

C. ENFORCEMENT MEASURES. Prior to the initiation of legal measures for the enforcement of this Section, the staff of the Community Development Department shall attempt to remedy a reasonable complaint concerning Nuisance Lighting by recommending or, if necessary, by requiring the property owner of the property from which the light emanates to take appropriate steps to eliminate the Nuisance Lighting. Such steps may include, but are not limited to, each of the following (or any combination thereof) in the priority listed herein:
   1. The use and application of appropriate lighting equipment, fixture locations, shielding, light sources and illumination intensities, and through the elimination of unnecessary lighting.
2. Nuisance Lighting control through the use of vegetation, landscaping, fences or similar screening methods and fixture aiming adjustments.

3. Restrictions on the hours of operation or by requiring the use of motion detector switches or timers to trigger the lights only on an as needed basis.

4. The preparation and implementation of a professional lighting plan designed to avoid Nuisance Lighting which plan is reviewed by and acceptable to the Architectural Board of Review or the Historic Landmarks Commission, as applicable.

D. **PRIVATE RIGHT OF ACTION.** Any aggrieved person may enforce the provisions of this Section by means of a civil action seeking injunctive relief in a court of competent jurisdiction.

(Ord. 5035, 1997.)
CHAPTER 22.76
VIEW DISPUTE RESOLUTION PROCESS

22.76.120 Hierarchy of Restoration Actions. Action and Subsequent Maintenance.
22.76.130 Responsibility for Restoration Maintenance.
22.76.140 Liability.

22.76.010 Findings.

The City Council finds and declares as follows:

A. Both views and trees and vegetation contribute to the aesthetic value, quality of life, ambiance and economic value of properties within the City of Santa Barbara. Similarly, access to sunlight across property lines contributes to the health and well being of community members, enhances property values and provides an opportunity to utilize solar energy. Utilization of passive solar energy reduces air pollution, visual blight and promotes the general health and welfare of the residents of the City.

B. Views, whether of the Pacific Ocean, the Channel Islands, the City, the Santa Ynez Mountains, the surrounding hillsides and canyons, or other natural and man-made landmarks produce a variety of significant and tangible benefits for both residents and visitors. Views contribute to the aesthetic visual environment of the City of Santa Barbara by providing scenic vistas and inspiring distinctive architectural design.

C. Trees and vegetation produce a wide variety of significant psychological and tangible benefits for both residents and visitors to the community. Trees and vegetation provide privacy, modify temperatures, screen winds, replenish oxygen to the atmosphere, maintain soil moisture, mitigate soil erosion and provide wildlife habitat. Trees and vegetation contribute to the visual environment and aesthetics by blending, buffering and reducing the scale and mass of architecture. Trees and vegetation within the City provide botanical variety and a sense of history. Trees and vegetation also create shade and visual screens and provide a buffer between different land uses.

D. The benefits derived from views, trees and vegetation and sunlight may come into conflict. The planting of trees and other vegetation and their subsequent growth, particularly when such trees are not properly maintained, can produce unintended harmful effects both on the property on which they are planted or on neighboring properties. (Ord. 5220, 2002.)

22.76.020 Intent and Purpose.

The intent and purpose of this Chapter is to accomplish the following:

A. **Right to Scenic View and Sunlight Access.** Establish the right of a real property owner to preserve scenic views and access to sunlight free from unreasonable obstructions caused by the growth of trees under circumstances where such views and sunlight access existed prior to the growth of the unreasonable obstruction.

B. **Dispute Resolution Process.** Establish that real property owners are in need of a process to resolve disputes among themselves concerning view or sunlight access within the immediate vicinity of their property.

C. **Evaluation Procedures.** Establish procedures and evaluation criteria by which private real property owners may seek a mutually acceptable resolution of such views or sunlight access disputes.

D. **Protect Trees.** Discourage ill-considered damage to trees and vegetation and promote proper use of trees and landscaping establishment and maintenance.

E. **Not a Covenant or Servitude.** It is not the intent and purpose of this Chapter for the City to create either a covenant running with the land or an equitable servitude.

F. **Right Exclusive to this Chapter.** Nothing herein shall be deemed to establish a general right of a homeowner to affect or restrict the lawful development or use (including the use and maintenance of landscaping) of a neighboring property under circumstances where such development or use is otherwise permitted, approved, or allowed under the provisions of the Santa Barbara Municipal Code. In addition, nothing herein shall be deemed or construed to provide a homeowner with any thing other than the rights specified in this Chapter for the restoration of a view or access to sunlight and a right to utilize the dispute resolution process for addressing unreasonable tree or vegetation view obstructions, as such claim process is established herein. (Ord. 5220, 2002.)
For the purpose of this Chapter, the following words and phrases shall have the meanings set forth herein:

A. **ALTER.** To take action that changes a tree or vegetation, including but not limited to extensive pruning of the canopy area, topping, cutting, girdling, interfering with the water supply, applying chemicals or re-grading around the feeder root zone of the tree or vegetation.

B. **ARBITRATION.** A voluntary legal procedure for settling disputes and leading to a determination of rights of parties, usually consisting of a hearing before an arbitrator where all relevant evidence may be freely admitted as set forth in California Code of Civil Procedure Section 1280 et. seq.

C. **ARBITRATOR.** A mutually agreed upon neutral third party professional intermediary who conducts a hearing process and who hears testimony, considers evidence, and makes a decision for the disputing parties. The arbitrator may be chosen from a list available from the City of qualified and professionally trained arbitrators, including but not limited to members of the American Association of Arbitrators.

D. **ARBORIST, CERTIFIED.** A person who has passed a series of tests by the International Society of Arboriculture (ISA), is governed by ISA's professional code of ethics and possesses the technical competence through experience and related education and training to provide for or supervise the management of trees and other woody plants.

E. **AUTHORIZED AGENT.** A person, as defined herein, who has been designated and approved in writing by a real property owner of record to act on his or her behalf in matters pertaining to the processing of a view or sunlight claim as outlined in this Chapter.

F. **CANOPY.** The umbrella-like structure created by the overhead leaves and branches of a tree which create a sheltered area below.

G. **CITY MAINTAINED TREES.** Trees which are specifically designated for maintenance by the City Council for City maintenance under SBMC Section 15.20.050 in the Master Street Tree Plan adopted pursuant to SBMC Section 15.20.030.

H. **CITY PROPERTY.** Real property of which the City is the fee simple owner of record.

I. **CLAIM, VIEW OR SUNLIGHT.** Documentation, as set forth in Section 22.76.050, that outlines the basis of view or sunlight access diminishment and the specific restoration action that is being sought which shall serve as the written basis for arbitration or a legal cause of action under the provisions of this Chapter.

J. **COMPLAINANT.** Any property owner, group of property owners (or an authorized agent thereof) who allege that tree(s)/vegetation located within the immediate vicinity of their property as set forth in Section 22.76.040 is causing unreasonable obstruction of the view or blocking the sunlight benefiting the real property of the Complainant.

K. **CROWN.** The rounded top of the tree.

L. **CROWN REDUCTION/SHAPING.** A method of comprehensive trimming that reduces a tree's height or spread. Crown reduction entails the reduction of the top, sides, or individual limbs of a tree by means of removal of leaders or the longest portion of limbs to a lateral large enough to assume the terminal.

M. **DESTROY.** To take action that endangers the health or vigor of a tree or vegetation, including but not limited to, cutting, girdling, interfering with the water supply, applying chemicals or re-grading around the base of the trunk of a tree.

N. **DIRECTOR.** The Director of the City Community Development Department.

O. **HEADING BACK.** The overall reduction of the mass of a tree by modification to its major limbs.

P. **HISTORIC or SPECIMEN TREE.** Any tree or stand of trees that have been designated as either an Historic Tree or a Specimen Tree pursuant to the authority of the Santa Barbara Municipal Code Chapters 15.20 and 15.24.

Q. **LACING or THINNING.** A comprehensive method of trimming that systematically and sensitively removes excess foliage and improves the structure of a tree.

R. **LANDSCAPE CONSULTANT.** A landscape professional retained to provide advice and information regarding landscape plans, view or sunlight claims, and landscaping techniques and maintenance procedures.

S. **MAINTENANCE PRUNING.** Pruning with the primary objective of maintaining or improving tree health and structure; includes "crown reduction/shaping" or "lacing," but not ordinarily "topping" or "heading back."

T. **MEDIATOR.** A neutral, objective third party professional negotiator to help disputing parties reach a mutually satisfactory solution regarding a view or sunlight claim. The mediator may be chosen from a list available from the City of qualified and professionally trained (arbitrators/mediators), including but not limited to members of the American Association of Arbitrators.

U. **OBSTRUCTION.** The blocking or diminishment of a view or sunlight access attributable to growth, improper maintenance or location of trees or vegetation.

V. **PERSON.** Any individual, individuals, corporation, partnership, firm or other legal entity.

W. **PRUNING.** The removal of plant material from a tree or from vegetation.

X. **REAL PROPERTY.** Rights or interests of ownership of land and all appurtenances to the land including buildings, fixtures, vegetation and improvements erected upon, planted, or affixed to the land.

Y. **RESTORATION ACTION.** Any specific steps taken affecting trees or vegetation that would result in the restoration of a view or sunlight access across real property lines.
Z. **SEVERE PRUNING.** The cutting of branches or trunk of a tree in a manner which substantially reduces the overall size of the tree or destroys the existing symmetrical appearance or natural shape of the tree and which results in the removal of main lateral branches leaving the trunk and branches of the tree in a stub appearance. "Topping" and "heading back" as defined herein are considered to be severe pruning.

AA. **STAND THINNING.** The selective removal of a portion of trees from a grove of trees.

BB. **STREET.** The portion of a right-of-way easement used for public purposes, such as roadway improvements, curbs, gutters and sidewalks, dedicated to the City, and formally accepted by the City into the City public street system for maintenance purposes.

CC. **SUNLIGHT.** The availability or access to light from the sun across property lines.

DD. **TOPPING.** Eliminating the upper portion of the trunk or main leader of a tree.

EE. **TREE.** Any woody perennial vegetation that generally has a single trunk and reaches a height of at least eight feet at maturity.

FF. **TREE or VEGETATION OWNER.** Any person owning real property in the City whereon tree(s) or vegetation is located.

GG. **VIEW.** A vista of features, including but not limited to, bodies of water, beaches, coastline, islands, skylines, ridges, hillside terrain, canyons, geologic features, mountains, and landmarks. The term "view" does not necessarily include an unobstructed panorama of these features.

HH. **VISTA PRUNING.** The selective thinning of framework limbs or specific areas of the crown of a tree to allow a view from a specific point. (Ord. 5220, 2002.)

22.76.040 View or Sunlight Claim Limitations.

A. **PRIVATE VIEW DISPUTE RESOLUTION.** Subject to the other provisions of this Chapter, the owner or owners of real property within the City (as the “Complainant”) may initiate the private view dispute resolution process provided for in this Chapter. However, a request for view or sunlight access dispute resolution may only be made if such a claim has not been initiated against the same real property by the Complainant with respect to the same tree or vegetation obstruction within a two-year time period prior to the initiation of the most recent request.

B. **CITY OWNED AND MAINTAINED TREES.** Nothing herein shall provide any authority or process for the permitting of alterations to or the removal of City Maintained Trees or the alteration or removal of those trees regulated by SBMC Chapters 15.20 and 15.24. (Ord. 5220, 2002.)

22.76.050 Private View or Sunlight Claim.

A. **NOTICE TO CITY OF COMPLAINT.** A Complainant shall notify the City Community Development Department of any request for mediation or arbitration pursuant to the provisions of this Chapter and shall provide the City with the claim documentation materials described in subsection B hereof. Such notification and documentation shall be for the purposes of City record-keeping regarding the use of this Chapter only and shall not obligate the City to assist or advise a property owner or participate in the dispute resolution process in any way.

B. **CONTENTS OF CLAIM.** A view or sunlight restoration dispute resolution process claim shall consist of all of the following documentation and evidence:

1. **Evidence of Prior View.** A written description of the nature and extent of the alleged obstruction, including pertinent and corroborating photographic evidence. Evidence may include, but is not limited to, documented and dated photographic prints or slides as well as written testimony or declarations from residents living in the area. Such evidence should, if possible, show the extent to which the view or sunlight access has been diminished over time by the excessive growth of the trees or vegetation;

2. **Evidence Regarding Unreasonable Tree Blockage.** The location of all trees or vegetation alleged to cause the obstruction, the address of the property upon which the trees or vegetation are located, and the present tree/vegetation owner's name and address;

3. **Desired Action.** The specific view or sunlight access restoration actions being requested by the Complainant in order to resolve the allegedly unreasonable view obstruction;

4. **Evidence of Attempted Resolution.** Evidence that an initial discussion between the two property owners (as described in Section 22.76.060) has been made and has failed. Evidence may include, but is not limited to, copies of receipts for certified or registered mail correspondence;

5. **Evidence of Ownership.** Evidence confirming the ownership and the date of acquisition of the Complainant’s property.

(Ord. 5220, 2002.)

22.76.060 Initial Discussions.

A. **INITIAL CONTACT.** A Complainant who believes that a tree or some other vegetation which has grown on another person's real property has caused unreasonable obstruction of a view or sunlight access from the Complainant's property shall first advise the tree or vegetation property owner of such view or sunlight blockage concerns. This notification shall request personal discussions to enable the Complainant and tree/vegetation property owner to attempt to reach a mutually agreeable solution and shall be followed up with a written confirmation of any agreed-upon resolution and schedule for the required work of view restoration.
B. NOTIFICATION REQUIREMENTS. The initial notification from the Complainant to the owner of the tree/vegetation shall provide a copy of the View Preservation Ordinance (Santa Barbara Municipal Code Chapter 22.76). In the initial notification, the Complainant shall invite the tree/vegetation owner to view the alleged obstruction from the Complainant's property, and the tree/vegetation owner is urged to invite the Complainant to view the situation from the owner's property. Failure of the tree/vegetation owner to respond to the written request for initial discussion within thirty (30) days from the date of posting shall be deemed a refusal by the owner to participate in the initial discussion phase of the process.

C. FAILURE TO AGREE. After the initial discussion, if the parties do not agree as to the existence and nature of the Complainant's obstruction or to the appropriate restoration action or if the initial discussion is refused, the Complainant may proceed with the subsequent dispute resolution process outlined herein with respect to mediation, arbitration, and court action. (Ord. 5220, 2002.)

22.76.070 Mediation.

A. MEDIATION REQUEST. If initial discussion under Section 22.76.060 fails to achieve agreement between the tree/vegetation owner and Complainant, the Complainant may send to the tree/vegetation owner a request that the tree/vegetation owner accept participation in a mediation process in an effort to resolve the view or sunlight blockage claim. Acceptance of mediation by the tree/vegetation owner shall be voluntary. However, the request may inform the tree/vegetation owner that failure to participate in mediation may be brought to the court's attention in the event of subsequent legal action by the Complainant. Failure of the tree/vegetation owner to respond to the notice requesting mediation within thirty (30) days from the date of posting shall be deemed formal refusal of the mediation process by the tree/vegetation owner.

B. SELECTION OF MEDIATOR. If the tree/vegetation owner agrees to participate in a mediation process, the parties shall agree in writing to the selection of an individual mediator, which may be chosen from a list of professional mediators available from the City Community Development Department.

C. AUTHORITY OF MEDIATOR. The mediator is encouraged to be guided by the provisions of this Chapter, including the claim evaluation criteria and the hierarchy of restoration actions set forth in Sections 22.76.110 and 22.76.120, respectively, in attempting to mediate a resolution of the view or sunlight blockage claim. The mediator may request a consultation or information from a certified arborist (chosen from a list of such arborists made available by the Community Development Director) regarding any questions involving landscape techniques or maintenance procedures, with the expense of such consultation payable as a mediation expense in accordance with the provisions of this Chapter.

D. ROLE OF THE MEDIATOR; COSTS; FAILURE TO RESPOND. The role of the mediator shall be advisory in nature and shall not be binding in establishing view or sunlight restoration action. Any agreement reached between the two parties as a result of the mediation process described herein shall be reduced to writing by the mediator and signed by the mediator and all of the parties. The cost of mediation shall be paid by the Complainant or shared in a manner set by mutual agreement between the parties. The failure of the tree/vegetation owner to respond to implement (or allow the implementation of) a mediated resolution within thirty (30) days of the submission of the mediated resolution to the owner (as established by the posting date) shall be deemed a refusal by the tree/vegetation owner to accept mediation. (Ord. 5220, 2002.)

22.76.080 Arbitration.

A. REQUEST FOR ARBITRATION. If the initial discussion under Section 22.76.060 or a mediated resolution pursuant to Section 22.76.070 fails to achieve agreement between the tree/vegetation owner and the Complainant, the Complainant may advise the tree/vegetation owner in writing that the Complainant is requesting participation in a formal arbitration process. Acceptance of arbitration by the tree/vegetation owner shall be voluntary. However, the request may inform the tree/vegetation owner that failure to participate in the arbitration process may be brought to the court's attention in the event of subsequent legal action by the Complainant pursuant to Section 22.76.090.

The tree/vegetation owner shall have thirty (30) days from posting of the arbitration notice to either accept or decline arbitration. Failure to respond within thirty (30) days shall be deemed a formal refusal of arbitration. If accepted, the parties shall agree in writing to the selection of an individual arbitrator, who may be chosen from a list of professional arbitrators available from the City, within thirty (30) days of such acceptance. If the parties do not agree on a specific arbitrator within thirty days, either party may petition a court of competent jurisdiction to appoint an arbitrator.

B. AUTHORITY OF ARBITRATOR. The arbitrator is encouraged to be guided by the provisions of this Chapter, including the claim evaluation criteria and the hierarchy of restoration actions set forth in Sections 22.76.110 and 22.76.120, respectively, in attempting to help resolve the view or sunlight blockage claim and shall submit a complete written decision to the Complainant and the tree/vegetation owner. An arbitrator is encouraged to request a report from a certified arborist with respect to the view obstruction dispute. Any decision of the arbitrator shall not be binding and shall only be enforceable pursuant to the provisions of California Code of Civil Procedure Section 1285 et seq.

C. ACCEPTANCE OF THE ARBITRATOR'S DECISION; COSTS OF ARBITRATION. The failure of the tree/vegetation owner to implement the arbitrator's decision within thirty (30) days of the posting of the written decision shall be deemed a refusal to accept arbitration. The costs of arbitration shall be paid by the Complainant or shared by mutual agreement between the parties. (Ord. 5220, 2002.)
22.76.090 Private Cause of Action – View Restoration.

A. INITIAL COMPLAINT. If a Complainant has pursued and has been unsuccessful in attempting to obtain an acceptable restoration under Section 22.76.060 ("Initial Discussion"), Section 22.76.070 ("Mediation"), or Section 22.76.080 ("Arbitration"), the Complainant may initiate a civil action in Superior Court for the County of Santa Barbara for resolution of owner’s view or sunlight claim under the provisions of this Chapter. The Complainant is encouraged to provide the Court the results of the view or sunlight claim resolution process, particularly any proposed mediator’s or arbitrator’s decision, as well as any report or study prepared by a certified arborist prepared in connection with the view obstruction dispute. At the discretion of the judge issuing a judgment pursuant to this section, the judgment may be recorded in the official records of Santa Barbara County.

B. SUBSEQUENT COMPLAINTS. A Complainant who has initiated a Complaint and obtained Restoration Action through mediation or arbitration under this Chapter with respect to a particular Obstruction within two (2) years of a subsequent Complaint shall not be required to seek mediation or arbitration on the subsequent Complaint for the same obstruction prior to initiating legal action pursuant to this Section. (Ord. 5220, 2002.)

22.76.100 Restoration Action Limitations.

Except as otherwise authorized by law, no tree or vegetation on real property owned or controlled by another person may be removed, destroyed, or otherwise altered unless the Complainant either enters into a written agreement with the tree/vegetation owner allowing the Complainant to enter the property to do so or the Complainant obtains a judicial determination specifying, in detail, the nature and timing of the restoration action, the Complainant’s right to enter the property, and designating the parties responsible for performing such restoration action. In all cases, restoration actions shall be structured and implemented in accordance with the hierarchy established by Section 22.76.120. (Ord. 5220, 2002.)

22.76.110 View or Sunlight Claim Evaluation Criteria.

In evaluating and resolving a view or sunlight claim, the following unranked criteria shall be considered:

A. The vantage point(s) in the Complainant’s home from which the view or sunlight is obtained or received;
B. The extent of the view or sunlight obstruction;
C. The quality of the view or sunlight access, including the existence of landmarks or other unique view features, or the extent to which these views or sunlight access are blocked by tree(s) or vegetation;
D. The extent to which the view or sunlight access is diminished by factors other than tree(s) or vegetation;
E. The extent to which the tree(s) or vegetation have grown to obscure the enjoyment of view or sunlight access from the Complainant's property compared with the view or sunlight access which was available at the time the Complainant acquired his or her home;
F. The number of existing trees or amount of vegetation in the area, the number of healthy trees that a given parcel of land will support, and the current effects of the tree(s) and their removal on the neighboring vegetation;
G. The extent to which the tree(s) or vegetation provide:
   1. Screening or privacy;
   2. Energy conservation or climate control;
   3. Soil stability, as measured by soil structure, degree of slope, and extent of the tree's root system when a tree is proposed for removal;
   4. Aesthetics;
   5. Community or neighborhood quality or significance;
   6. Shade;
   7. Historical context due to the age of the tree/vegetation;
   8. Rare and interesting botanical species;
   9. Habitat value for wildlife; and
   10. Blending, buffering or reduction in the scale and mass of adjacent architecture;

H. The date the Complainant purchased his or her property and circumstances which existed at that time with respect to the view;
I. The date the tree/vegetation owner purchased his or her property and circumstances which existed at that time with respect to the view;
J. The distance between the Complainant’s home and the tree or vegetation Obstruction for which Restoration Action is sought;
K. Whether the tree or vegetation Obstruction is located within a City-designated “High Fire Hazard” zone and constitutes the type of trees or vegetation not generally encouraged for new residential construction within such zones;
L. The extent to which the City has an interest in the preservation of an affected tree in its present form due to its unique character, its historical importance, or other specific factors as may be identified by a certified arborist. (Ord. 5220, 2002.)
22.76.120 Hierarchy of Restoration Actions.

View or sunlight restoration actions must be consistent with all other provisions of this Chapter and SBMC Title 22 generally. Severe pruning should be avoided due to the damage such practice causes to the tree's form and health. Restoration actions may include, but are not limited to the following, in order of preference:

A. **Lacing or Thinning.** Lacing/thinning is the most preferable pruning technique that removes excess foliage and can improve the structure of the tree.

B. **Vista Pruning.** Vista pruning of branches may be utilized where possible, if it does not adversely affect the tree's growth pattern or health. Topping should not be done to accomplish vista pruning.

C. **Crown Reduction.** Crown reduction is preferable to topping or tree removal, if it is determined that the impact of crown reduction does not destroy the visual proportions of the tree, adversely affect the tree's growth pattern or health, or otherwise constitute a detriment to the tree(s) in question.

D. **Stand Thinning.** The removal of a portion of the total number of trees from a grove of trees, without any replacement plantings.

E. **Topping.** Eliminating the upper portion of a tree's trunk or main leader. Topping is only to be permitted for trees specifically planted and maintained as a hedge, espalier, bonsai or in pollard form and if restoration actions (A) through (D) of this section will not accomplish the determined restoration and the subsequent growth characteristics will not create a future obstruction of greater proportions.

F. **Heading Back.** Eliminating the outer extent of the major branches throughout the tree. Heading back is only to be permitted for trees specifically planted and maintained as a hedge, espalier, bonsai or in pollard form and if restoration actions (A) through (E) of this section will not accomplish the determined restoration and the subsequent growth characteristics will not create a future obstruction of greater proportions.

G. **Tree/Vegetation Removal.** Tree or vegetation removal, which may be considered when the above-mentioned restoration actions are judged to be ineffective and may be accompanied by replacement plantings or appropriate plant materials to restore the maximum level of benefits lost due to tree removal. (Ord. 5220, 2002.)

22.76.130 Responsibility for Restoration Action and Subsequent Maintenance.

The costs of restoration action and subsequent maintenance shall be determined either by agreement between the tree or vegetation owner and the Complainant or as required pursuant to any final arbitration decision or court order. (Ord. 5220, 2002.)

22.76.140 Liability.

A. **NON-LIABILITY OF CITY.** The City shall not be liable or responsible for any damages, injury, costs or expenses which are the result of any recommendations or determinations made by City Staff or mediator, or decisions made by other persons (e.g., arbitrator or judge) concerning a view or sunlight claim or a Complainant's assertions pertaining to views or sunlight access granted or conferred herein.

B. **CITY ENFORCEMENT.** Under no circumstances shall the City have any responsibility or obligation to enforce or seek any legal redress, civil or criminal, for any decision made concerning a view or sunlight claim.

C. **NO CRIMINAL RESPONSIBILITY.** Notwithstanding Chapter 1.28 of the Santa Barbara Municipal Code, a failure to comply with the provisions of this Chapter is not a criminal offense, and the enforcement of this Chapter shall be only by the affected and interested private parties. (Ord. 5220, 2002.)

22.80.010 Plumbing Standards for Water Conservation.

Plumbing standards for water conservation shall be as contained in the Californai Plumbing Code as adopted and amended by the City of Santa Barbara in Chapter 22.04 of this Code. (Ord. 5460, 2008; Ord. 4558, 1989.)

22.80.020 Landscape Design Standards for Water Conservation.

Each development proposal that proposes new landscaping or alterations to existing landscaping and that is subject to review by the Architectural Board of Review, the Historic Landmarks Commission, or the Single Family Design Board shall be required to comply with the City's Landscape Design Standards for Water Conservation as adopted by resolution of the City Council. (Ord. 5460, 2008; Ord. 4847, 1994; Ord. 4558, 1989.)

22.82.010 Purpose.

This Chapter ("Energy Efficiency Standards") sets forth increased minimum energy efficiency standards within the City of Santa Barbara for all new construction of any size, additions to existing buildings or structures over a certain size threshold, and the installation of new heaters or circulation pumps for swimming pools, spas and water features. This Chapter is intended to supplement the 2005 California Building Energy Efficiency Standards, as specified in California Code of Regulations, Title 24, Parts 1 and 6 (Standards). Compliance with the 2005 California Building Energy Efficiency Standards is required even if the increased minimum energy efficiency standards specified in this Chapter do not apply. (Ord. 5446, 2008.)

22.82.020 Definitions.

For purposes of this Chapter 22.82, words or phrases used in this Chapter that are specifically defined in Parts 1, 2, or 6 of Title 24 of the California Code of Regulations shall have the same meaning as given in the Code of Regulations. In addition, the following words and phrases shall have the meanings indicated, unless context or usage clearly requires a different meaning:

A. **2005 BUILDING ENERGY EFFICIENCY STANDARDS.** The standards and regulations adopted by the California Energy Commission contained in Parts 1 and 6 of Title 24 of the California Code of Regulations as such standards and regulations may be amended from time to time.

B. **EXISTING + ADDITION + ALTERATION.** An approach to modeling the time dependent valuation energy use of an addition including the existing building and alterations as specified in the Residential Compliance Manual and Nonresidential Compliance Manual.

C. **NONRESIDENTIAL COMPLIANCE MANUAL.** The manual developed by the California Energy Commission, under Section 25402.1(e) of the Public Resources Code, to aid designers, builders, and contractors in meeting the requirements of the state’s 2005 Building Energy Efficiency Standards for nonresidential, high-rise residential, and hotel/motel buildings.

D. **PHOTOVOLTAIC CREDIT.** A TDV Energy credit that may be used under certain conditions to demonstrate compliance with the City’s general compliance requirements as specified in Section 22.82.070. This credit is available if the solar photovoltaic energy system is capable of generating electricity from sunlight, supplying the electricity directly to the building, and the system is connected, through a reversible meter, to the utility grid. The methodology used to calculate the time dependent valuation energy equivalent to the photovoltaic credit shall be the CECPV Calculator Version 2.1 or higher which may be found at the following web site: http://www.gosolarcalifornia.ca.gov/nshpcalculator/download_calculator.html

E. **RESIDENTIAL COMPLIANCE MANUAL.** The manual developed by the California Energy Commission, under Section 25402.1(e) of the Public Resources Code, to aid designers, builders, and contractors in meeting the requirements of the state’s 2005 Building Energy Efficiency Standards for low-rise residential buildings.

F. **SOLAR PHOTOVOLTAIC ENERGY SYSTEM.** A photovoltaic solar collector or other photovoltaic solar energy device that has a primary purpose of providing for the collection and distribution of solar energy for the generation of alternating current rated peak electricity. The installation of any solar photovoltaic energy system must meet all installation criteria of the current edition of the California Electrical Code and the California Energy Commission’s Guidebook “Eligibility Criteria and Conditions for Incentives for Solar Energy Systems Senate Bill 1”.

G. **SWIMMING POOL.** Any structure intended to contain water over 18 inches deep.

H. **TIME DEPENDENT VALUATION ENERGY or (“TDV ENERGY”).** The time varying energy caused to be used by the building or addition to provide space conditioning and water heating and, for specified buildings, lighting. TDV energy accounts for the energy used at the building site and consumed in producing and in delivering energy to a site, including, but not limited to, power generation, transmission and distribution losses. TDV Energy is expressed in terms of thousands of British thermal units per square foot per year (kBtu/sq.ft.-yr).

I. **WATER FEATURE.** Any structure intended to contain water over 18 inches deep. Examples of water features include, but are not limited to, ponds and fountains. (Ord. 5446, 2008.)

436  rev. 3/31/08
A. The provisions of this Chapter apply to any of the following buildings or improvements for which a building permit is required by this Code:
   1. Any new building or structure of any size,
   2. Any addition to an existing building or structure where the addition is greater than 100 square feet of conditioned floor area,
   3. Indoor lighting alterations in conditioned spaces greater than 100 square feet of floor area within nonresidential buildings,
   4. All new mechanical heating or cooling systems, and
   5. All new heaters or circulation pumps for swimming pools, spas, and water features.

B. Subject to the limitations specified in this section 22.82.030, the coverage of this Chapter shall be determined in accordance with the scope and application section of either the Residential Compliance Manual or Nonresidential Compliance Manual, as appropriate for the proposed occupancy. (Ord. 5446, 2008.)

22.82.040 Compliance.

A building permit application subject to the requirements of this Chapter will not be issued a building permit by the Building Official unless the energy compliance documentation submitted with the permit application complies with the requirements of this Chapter. A final inspection for a building permit subject to the requirements of this Chapter will not be approved unless the work authorized by the building permit has been constructed in accordance with the approved plans, conditions of approvals, and requirements of this Chapter. (Ord. 5446, 2008.)

22.82.050 Mandatory Energy Efficiency Requirements.

In addition to meeting all requirements of 2005 Building Energy Efficiency Standards, all applications for building permits that include buildings or improvements covered by this Chapter shall include the following mandatory energy efficiency measures as may be applicable to the proposed building or improvement:

A. RESIDENTIAL BUILDINGS. Any appliance (excluding HVAC equipment and water heaters) to be installed in a residential building shall be Energy Star rated, if the appliance installed is of a type that is Energy Star rated.

B. SWIMMING POOL AND SPA HEATERS AND PUMPS. Any heater or circulation pump to be installed for any swimming pool, spa, or water feature shall incorporate the following energy conservation features:
   1. All natural gas heaters shall have an annual fuel utilization efficiency of 90% or higher; and
   2. All circulating pump motors and filtration pump motors with a nominal rating of 0.75 horsepower or greater (except pump motors only serving spa jets) shall be two-speed or variable speed motors. The installation of all two-speed and variable speed motors shall include the installation of a controller which shall be time-based and shall be programmed to alternate the speed of the motor between low and high to make effective use of the energy savings potential of the unit's multi-speed capability.

C. MECHANICAL HEATING OR COOLING SYSTEMS. All fan motors and pump motors associated with mechanical heating or cooling systems that are single-speed, poly-phase, 1.0 nominal horsepower to 500 nominal horsepower, 2-, 4-, and 6-pole squirrel cage induction, NEMA Design A or B, continuous duty-rated motors must be NEMA Premium motors by the National Electrical Manufacturers Association. (Ord. 5446, 2008.)

22.82.060 General Compliance Requirements.

In addition to any applicable mandatory requirements specified in Section 22.82.050 and the requirements of the 2005 Building Energy Efficiency Standards, the following general compliance requirements shall apply to permit applications subject to this Chapter as follows:

A. LOW-RISE RESIDENTIAL BUILDINGS. Applications for building permits that involve new low-rise residential buildings or additions to existing low-rise residential buildings where the additions are greater than 100 square feet of conditioned floor area shall demonstrate compliance with the general compliance requirements as follows:
   1. New Low-Rise Residential Buildings. When an application for a building permit involves a new low-rise residential building, the performance approach specified in Section 151 of the 2005 Building Energy Efficiency Standards must be used to demonstrate that the TDV Energy of the proposed building is at least 20.0% less than the TDV Energy of the standard building.
   2. Additions to Low-Rise Residential Buildings. When an application for a building permit involves an addition to an existing low-rise residential building, this general compliance requirement may be met by either of the following methods:
      a. Using the performance approach specified in Section 151 of the 2005 Building Energy Efficiency Standards to demonstrate that the TDV Energy of the proposed addition is at least 20.0% less than the TDV Energy of the standard design, or
b. Using the “Existing+Addition +Alteration” calculation methodology to demonstrate that the TDV Energy of the proposed building is at least 20.0% less than the TDV Energy of the standard design, as calculated in accordance with the performance approach specified in Section 151 of the 2005 Building Energy Efficiency Standards. In modeling buildings under the Existing+Addition+Alteration method, domestic hot water energy use must be included in the calculation model unless the application does not involve a change to the building’s existing water heater(s).

B. HIGH-RISE RESIDENTIAL BUILDINGS. Applications for building permits that involve new high-rise residential buildings or additions to existing high-rise residential buildings where the additions are greater than 100 square feet of conditioned floor area shall demonstrate compliance with the general compliance requirements as follows:

1. New High-Rise Residential Buildings. When an application for a building permit involves a new high-rise residential building, the applicant shall use either the Prescriptive Approach or the Performance Approach to demonstrate compliance as specified below:

   a. **Prescriptive Approach.** If the building permit applicant chooses the prescriptive approach, the applicant shall use the Overall Envelope Approach in specified in Section 143(b) of the 2005 Building Energy Efficiency Standards to demonstrate that the Overall Heat Gain of the proposed building is at least 10.0% less than the Overall Heat Gain of the standard building; and the Overall Heat Loss of the proposed building is at least 10.0% less than the Overall Heat Loss of the standard building.

   b. **Performance Approach.** If the applicant chooses the performance approach, the applicant shall select one of the following energy budget calculation methodologies to demonstrate compliance with the general compliance requirements:

      (1) **Building Envelope Only.** Model the building envelope only using a state-approved energy compliance software program and demonstrate that the TDV Energy of the sum of the Space Heating, Space Cooling and Indoor Fans energy components of the proposed building is at least 15.0% less than the TDV Energy of the sum of the Space Heating, Space Cooling and Indoor Fans energy components of the standard building; or,

      (2) **Building Envelope and Mechanical System.** Model the building envelope and mechanical system using a state-approved energy compliance software program and demonstrate that the TDV Energy of the sum of the Space Heating, Space Cooling, Indoor Fans, Pump and Heat Rejection energy components of the proposed building is at least 15.0% less than the TDV Energy of the sum of the Space Heating, Space Cooling, Indoor Fans, Pump and Heat Rejection energy components of the standard building.

2. **Additions to High-Rise Residential Buildings.** When an application for a building permit involves an addition to an existing high-rise residential building, this general compliance requirement may be met by either of the following methods:

   a. Using the performance approach specified in Section 151 of the 2005 Building Energy Efficiency Standards to demonstrate that the TDV Energy of the proposed addition is at least 15.0% less than the TDV Energy of the standard design, or

   b. Using the “Existing+Addition +Alteration” calculation method to demonstrate that the TDV Energy for the sum of the energy components for the proposed building specified in either b(1) or b(2) above is at least 15.0% less than the TDV Energy for the sum of the same energy components of the standard design.

C. NONRESIDENTIAL AND HOTEL/MOTEL OCCUPANCIES. Applications for building permits that involve new nonresidential buildings or hotel/motel occupancies or additions to existing nonresidential buildings or hotel/motel occupancies where the additions are greater than 100 square feet of conditioned floor area shall demonstrate compliance with the general compliance requirements as follows:

1. New Nonresidential Buildings or Hotel/Motel Occupancies. When an application for a building permit involves a new nonresidential building or a new building housing a hotel/motel occupancy, compliance with the general compliance requirements established by this Chapter may be demonstrated by using either the prescriptive approach or performance approach as specified below:

   a. **Prescriptive Approach.** Subject to the exceptions listed below and the provisions of the 2005 Building Energy Efficiency Standards, the prescriptive approach requires compliance with the prescriptive envelope requirement and/or the prescriptive indoor lighting requirement, depending upon the work proposed in the permit application, as specified below:

      (1) **Prescriptive Envelopment Requirement.** The Overall Envelope Approach in Section 143(b) of the 2005 Building Energy Efficiency Standards shall be used to demonstrate that the Overall Heat Gain of the proposed building is at least 10.0% less than the Overall Heat Gain of the standard building; and the Overall Heat Loss of the proposed building is at least 10.0% less than the Overall Heat Loss of the standard building, and

      (2) **Prescriptive Indoor Lighting Requirement.** The “Prescriptive Requirements for Indoor Lighting” contained in Section 146 of the 2005 Building Energy Efficiency Standards that apply to conditioned spaces shall be used to demonstrate that the Adjusted Actual (Installed) Watts are at least 10.0% less than the Total Allowed Watts.

   (i) **Tailored Method Exception.** When using the Tailored Method in retail stores to determine compliance with the prescriptive requirements for indoor lighting, Display Lighting watts may be omitted from the above calculation.

   (ii) **Small Alterations Exception.** Lighting alterations which encompass a gross conditioned floor area equal to or less than 100 square feet are exempt from the prescriptive indoor lighting requirement.
b. **Performance Approach.** When using the performance approach to demonstrate compliance with the general compliance requirements, the permit applicant shall select one of the following calculation methodologies:

(1) **Building Envelope Only.** Model the building envelope only for compliance using a state-approved energy compliance software program and demonstrate that the TDV Energy of the sum of the Space Heating, Space Cooling, and Indoor Fans energy components of the proposed building is at least 10.0% less than the TDV Energy of the sum of the Space Heating, Space Cooling, and Indoor Fans energy components of the standard building; or,

(2) **Building Envelope and Mechanical System.** Model the building envelope and mechanical system for compliance using a state-approved energy compliance software program and demonstrate that the TDV Energy of the sum of the Space Heating, Space Cooling, Indoor Fans, Pump and Heat Rejection energy components of the proposed building is at least 10.0% less than the TDV Energy of the sum of the Space Heating, Space Cooling, Indoor Fans, Pump and Heat Rejection energy components for the standard building, or,

(3) **Building Envelope and Lighting.** Model the building envelope and lighting for compliance using a state-approved energy compliance software program and demonstrate that the TDV Energy of the sum of the Space Heating, Space Cooling, Indoor Fans and Lighting energy components of the proposed building is at least 10.0% less than the TDV Energy of the sum of the Space Heating, the Space Cooling, Indoor Fans and Lighting energy components of the standard building; or,

(4) **Building Envelope, Lighting, and Mechanical System.** Model the building envelope, lighting and mechanical system for compliance using a state-approved energy compliance software program and demonstrate that the TDV Energy of the sum of the Space Heating, Space Cooling, Lighting, Indoor Fans, Pump and Heat Rejection energy components of the proposed building is at least 10.0% less than the TDV Energy of the sum of the Space Heating, Space Cooling, Lighting, Indoor Fans, Pump and Heat Rejection energy components of the standard building.

2. **Additions to Existing Nonresidential Buildings or Hotel/Motel Occupancies.** When an application for a building permit involves an addition to an existing nonresidential building or an existing building housing a hotel/motel occupancy, this general compliance requirement may be met by either of the following methods:

a. Using one of the performance approach methodologies specified above in subparagraph 1.b above to demonstrate that the TDV Energy of the sum of the energy components for the proposed addition specified in any one of the paragraphs 1.b.(1)-(4) above is at least 10.0% less than the sum of the same energy components of the standard design, or

b. Using the “Existing+Addition +Alteration” calculation method to demonstrate that the TDV Energy of the sum of the energy components for the proposed building specified in any one of the paragraphs 1.b.(1)-(4) above is at least 10.0% less than the sum of the same energy components of the standard design.

**D. DOCUMENTATION.** In order to demonstrate compliance with the requirements of this Section, a permit applicant may be required to submit supplementary forms and documentation in addition to the building drawings, specifications, and standard Title 24 report forms, as deemed appropriate by the Building Official. (Ord. 5446, 2008.)

**22.82.070 Credit for Solar Photovoltaic Energy Systems.**

A. **NOT ALLOWED TO DEMONSTRATE COMPLIANCE WITH STATE STANDARDS.** A photovoltaic TDV Energy credit shall not be used to demonstrate compliance with the 2005 Building Energy Efficiency Standards.

B. **CREDIT ALLOWED TO SATISFY A PORTION OF THE GENERAL COMPLIANCE REQUIREMENTS.** A photovoltaic credit may be used to reduce the TDV Energy use of a proposed building or addition in order to satisfy the general compliance requirements of this Chapter as follows:

1. **Low-Rise Residential Buildings.** An application for a new low-rise residential building or an addition to an existing low-rise residential building may use a photovoltaic credit in order to demonstrate compliance with the general compliance requirements of this Chapter only after the TDV Energy of the proposed building or addition, calculated without the photovoltaic credit, is at least 15.0% less than the TDV Energy of the standard building or design.

2. **High-Rise Residential Buildings.** An application for a new high-rise residential building or an addition to an existing high-rise residential building may use a photovoltaic credit in order to demonstrate compliance with the general compliance requirements of this Chapter only after the TDV Energy of the proposed building or addition, calculated without the photovoltaic credit, is at least 10.0% less than the TDV Energy of the standard building or design.

3. **Nonresidential Buildings and Hotel/Motel Occupancies.** An application for a new nonresidential building or a new hotel/motel occupancy or an addition to an existing nonresidential building or an existing hotel/motel occupancy may use a photovoltaic credit in order to demonstrate compliance with the general compliance requirements of this Chapter only after the TDV Energy of the proposed building or addition, calculated without the photovoltaic credit, is at least 5.0% less than the TDV Energy of the standard building or design.

C. **CALCULATION OF PHOTOVOLTAIC CREDIT.**

1. **Performance Approach Required.** In order to request a photovoltaic credit pursuant to this Section, an applicant for a building permit must use an applicable performance approach methodology specified in Section 22.82.050 to demonstrate compliance with the general compliance requirements of this Chapter.
2. **Calculation Inputs.** When using the CECPV Calculator to calculate a photovoltaic credit, the permit applicant shall input “Site-Specific Detailed Input” including roof pitch (or tilt), the azimuth and the site shading conditions.

3. **Documentation.** In order to receive a photovoltaic credit, an applicant for a building permit must include a copy of the CF-1R-PV form generated by the CECPV Calculator on the plans submitted for a building permit. (Ord. 5446, 2008.)

**22.82.080 Expiration.**

This Chapter 22.82 shall expire upon the date that the state’s 2008 Building Energy Efficiency Standards take effect. (Ord. 5446, 2008.)

### 22.85.010 Permit Required for Grading.

It shall be unlawful for any person to perform any grading or for any property owner to allow anyone to perform any grading on any lot within the City that requires a grading permit under the provisions of the California Building Code, as adopted and amended pursuant to Section 22.04.020 of this Code, without first obtaining a grading permit or building permit from the Building Official. (Ord. 5607, 2012.)

### 22.85.020 Erosion and Sedimentation Control Plan.

The Building Official shall not issue any grading permit or building permit unless the applicant has submitted an erosion and sedimentation control plan prepared in accordance with the City of Santa Barbara Erosion and Sedimentation Control Program adopted by resolution of the City Council, and the Building Official has approved the erosion and sedimentation control plan. (Ord. 5607, 2012.)

### 22.85.030 Installation of Erosion and Sedimentation Control Measures.

It shall be unlawful for any person to perform any work pursuant to a grading permit or building permit or for any property owner to allow anyone to perform any work pursuant to a grading permit or building permit on any lot within the City without installing or implementing the erosion and sedimentation control measures required for such work in accordance with the approved erosion and sedimentation control plan. (Ord. 5607, 2012.)

### 22.85.040 Maintenance of Erosion and Sedimentation Control Measures.

It shall be unlawful for any person to perform any work pursuant to a grading permit or building permit or for any property owner to allow anyone to perform any work pursuant to a grading permit or building permit on any lot within the City without maintaining the erosion and sedimentation control measures required for such work in accordance with the approved erosion and sedimentation control plan. No person shall be deemed to have satisfied the requirements of an approved erosion and sedimentation control plan until a final inspection of the work has been approved. (Ord. 5607, 2012.)

### 22.85.050 Additional Erosion and Sedimentation Control Measures.

The Building Official may require additional erosion and sedimentation control measures to be installed or implemented if an inspection of the lot demonstrates that the erosion and sedimentation control measures shown on the approved erosion and sedimentation control plan are insufficient to prevent sediment or other materials from leaving the lot, or the construction activities occurring on the lot differ from those indicated on the approved erosion and sedimentation control plan. Any additional erosion and sedimentation control measures required by the Building Official shall be incorporated into the approved erosion and sedimentation control plan. (Ord. 5607, 2012.)
Chapter 22.87

STORM WATER MANAGEMENT

Sections:

22.87.010 Definitions. 22.87.050 Maintenance of Storm Water Runoff Requirements.
22.87.020 Storm Water Runoff Requirements. 22.87.060 Inspection and Monitoring.
22.87.030 Scope of Project Evaluation. 22.87.070 Enforcement.
22.87.040 Installation of Storm Water Runoff Requirements.

22.87.010 Definitions.

For the purposes of this Chapter 22.87, the following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning:

A. BEST MANAGEMENT PRACTICES (BMPs). Those activities, practices, and procedures to prevent, control, reduce, or remove the discharge of pollutants directly or indirectly to the storm drain system, surface waters, or waters of the State. BMPs include, but are not limited to, treatment practices and facilities to remove pollutants from storm water; operating and maintenance procedures; facility management practices to control site runoff, spillage, or leaks of non-storm water, water disposal, or drainage from raw materials storage; erosion and sediment control practices; and the prohibition of specific activities, practices, and procedures, and such other provisions as the City determines appropriate for the control of pollutants.

B. CREEKS DIVISION. The City of Santa Barbara Parks and Recreation Department Creeks Division.

C. GUIDANCE MANUAL. The City of Santa Barbara Storm Water Best Management Practices (BMP) Guidance Manual approved by resolution of the City Council dated as of July 2013 and on file with the Santa Barbara City Clerk’s Office.

D. IMPERVIOUS SURFACE. A hard surface which either prevents or retards the entry of water into soil, as would occur under natural conditions, or which causes water to run off the surface in greater quantities or at an increased rate of flow than would occur under natural conditions. Common impervious surfaces include, but are not limited to, roof tops, walkways, patios, driveways, parking lots, concrete or asphalt paving, gravel roads, compacted earthen materials, macadam, or other surfaces which impede the natural infiltration of storm water into the soil mantle. Open, uncovered retention/detention facilities (i.e., swimming pools, fountains, etc.) are not considered impervious surfaces.

E. MAINTENANCE OF PAVING. Maintenance of paving includes the following:
   1. slurry sealing,
   2. fog sealing,
   3. crack sealing,
   4. pothole and square cut patching,
   5. overlaying existing asphalt or concrete paving with asphalt or concrete without expanding the size of the impervious area,
   6. resurfacing with in-kind material without expanding the size of the impervious area,
   7. shoulder grading,
   8. practices to maintain the original line and grade, hydraulic capacity, and overall footprint of the road or parking lot, or
   9. repair or reconstruction of a road or parking lot due to slope failures, natural disasters, acts of God or other man-made disaster.

F. NEW DEVELOPMENT. Any land disturbing activity that includes site alteration (e.g., paving, grading, excavating, filling, or clearing), or the construction or installation of new structures, roads, driveways, parking, storage facilities, or other impervious surfaces on a lot that requires a building permit under the provisions of the California Building Code, as adopted and amended pursuant to Section 22.04.020 of this Code. Maintenance of paving is not considered new development or redevelopment of impervious area, even if a building permit is required.

G. POLLUTANT. An elemental or physical material that can be mobilized or dissolved by water or air and creates a negative impact to human health or the environment. Pollutants include suspended solids (sediment), heavy metals (such as lead, copper, zinc, and cadmium), bacteria and viruses, organics (such as oil, grease, hydrocarbons, pesticides, and fertilizers), floatable debris, and increased temperature.

H. PROJECT SITE. For new development or redevelopment on private property, the project site is determined by the boundaries of the parcel. For new development or redevelopment on public property or the public right-of-way, the project site is determined on a case-by-case basis.

I. PROJECT TIER. The designation assigned to a development or redevelopment project based upon the scope and nature of the project pursuant to Section 1.4 and Appendix J of the City of Santa Barbara Storm Water Best Management Practices (BMP) Guidance Manual.
J. REDEVELOPMENT. Any land disturbing activity that includes the construction or installation of structures, parking, or other impervious surfaces that replaces or adds to existing structures, parking, or other impervious surfaces on a lot that requires a building permit under the provisions of the California Building Code, as adopted and amended pursuant to Section 22.04.020 of this Code. Maintenance of paving is not considered new development or redevelopment of impervious area, even if a building permit is required.

K. STORM WATER MANAGEMENT PROGRAM. The storm water management program is the City of Santa Barbara Storm Water Management Program dated as of January 2009 and approved by the Central Coast Regional Water Quality Control Board in satisfaction of the City’s obligations under the statewide permit for California under the National Pollutant Discharge Elimination System (NPDES) Phase II Regulations.

L. STORM WATER RUNOFF REQUIREMENTS. Storm water runoff requirements are site design elements and best management practices that are determined by the Community Development Department or the Public Works Department (in consultation with the Creeks Division) to satisfy the Storm Water Management Program’s standards for: 1) peak runoff discharge management, 2) runoff volume reduction, and 3) water quality treatment as specified in Chapter 6 of the Storm Water Best Management Practices (BMP) Guidance Manual and Section 4.5 of the Storm Water Management Program. (Ord. 5628, 2013.)

22.87.020 Storm Water Runoff Requirements.

New development or redevelopment within the City of Santa Barbara shall comply with the Storm Water Runoff Requirements applicable to the Project Tier to which the development or redevelopment project is assigned. The Storm Water Runoff Requirements for a particular new development or redevelopment will depend upon the Project Tier to which the new development or redevelopment is assigned pursuant to Section 1.4 and Appendix J of the Guidance Manual. (Ord. 5628, 2013.)

22.87.030 Scope of Project Evaluation.

A. MAINTAINING OR REDUCING PEAK RUNOFF DISCHARGE RATE. If the new development or redevelopment is subject to the requirement to maintain or reduce peak runoff discharge rates, then the discharge rate of the entire lot is considered when determining the pre-development and post-development runoff discharge rate.

B. VOLUME REDUCTION REQUIREMENTS. If the development or redevelopment is subject to the requirement for runoff volume reduction, the calculation of the runoff volume includes the change in discharge volume pre-development and post-development for the entire parcel.

C. WATER QUALITY TREATMENT. If the development or redevelopment is subject to the Storm Water Management Program water quality treatment requirement, the project site includes all impervious surfaces on the lot, not just the area of the new development or the redevelopment. (Ord. 5628, 2013.)

22.87.040 Installation of Storm Water Runoff Requirements.

The owner of a lot on which new development or redevelopment triggers Storm Water Runoff Requirements shall install the site-specific Storm Water Runoff Requirements in accordance with the approved plans for the new development or redevelopment. (Ord. 5628, 2013.)

22.87.050 Maintenance of Storm Water Runoff Requirements.

The owner of any lot shall maintain and operate all Storm Water Runoff Requirements approved for the new development or redevelopment of the lot in accordance with their approved specifications. (Ord. 5628, 2013.)

22.87.060 Inspection and Monitoring.

A. Whenever the City Code Enforcement Officer has reasonable cause to believe that there exists, potentially exists, or has occurred in or upon any premises any condition which constitutes a violation of this Chapter 22.87, the City Code Enforcement Officer may seek consent from the responsible party to enter such premises to inspect the same to determine compliance with this Chapter.

B. If the City Code Enforcement Officer has been refused consent from the responsible party to enter any part of the premises, the City Code Enforcement Officer may seek issuance of an inspection warrant in accordance with California Code of Civil Procedure Section 1822.50, set eq., from any court of competent jurisdiction.

C. The City Code Enforcement Officer may require by written notice that any responsible party engaged in any activity or owning or operating any facility that may cause or contribute to pollution or illegal discharges to the storm drain system or waters of the State to undertake monitoring and analysis and to furnish reports regarding such monitoring and analysis to the City, at the responsible party’s expense, as deemed necessary by the City Code Enforcement Officer to determine compliance with this Chapter.

D. The City Code Enforcement Officer may, in accordance with this section, take any samples and perform any testing deemed necessary by the City Code Enforcement Officer to determine compliance with this Chapter. (Ord. 5628, 2013.)
22.87.070 Enforcement.

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this chapter. Violations of this Chapter may be enforced in the methods specified in Chapters 1.25 and 1.28 of this Code. (Ord. 5628, 2013.)
Chapter 22.90

CONSTRUCTION PROHIBITED IN THE VICINITY
OF THE CONEJO ROAD LANDSLIDE

Sections:

22.90.010 Purpose. 22.90.050 Parcels Within Slide Mass C.
22.90.020 Definitions. 22.90.060 Septic Tanks Prohibited.
22.90.030 New Construction Prohibited; 22.90.065 Map of Conejo Slide Drainage
Exceptions. Area.
22.90.040 Exception: Designs by Engineering 22.90.070 Parcels Within Conejo Slide
Geologist. Drainage Area.
22.90.045 Map of the Conejo Slide Area. 22.90.080 Special Geological Provisions.

22.90.010 Purpose.

By reason of special geologic hazard, unstable soils condition, and lack of suitable support, new construction must be prohibited within the area known as the "Conejo Slide." A landslide that occurred in the vicinity of Conejo Road within the City of Santa Barbara revealed unstable conditions in the area depicted on the Map of the Conejo Slide Area adopted as part of this Chapter. The area was the subject of a report (dated April, 1984) by Geotechnical Consultants, Inc. and has been under observation since. Three separate landslide masses were identified as being subject to special geologic hazard, designated as Slide Mass A, Slide Mass B, and Slide Mass C, all located within Slide Mass C on the Map of the Conejo Slide Area adopted as part of this Chapter. The earth within the boundary of Slide Mass C is unstable; structures and other property on Slide Mass A, Slide Mass B, and Slide Mass C have been damaged because of that instability; and further damage to structures and property within the boundary of Slide Mass C is highly probable. Excessive groundwater has been identified as a major cause of instability. Septic tanks have contributed sewage effluent to that excessive groundwater. The provisions of this Chapter are necessary to maintain the public safety and welfare and to protect against hazardous local geologic and soils conditions. (Ord. 5030, 1997.)

22.90.020 Definitions.

For the purposes of this title, the following words and phrases shall have the meanings indicated, unless the context or usage clearly requires a different meaning:

A. "CESSPOOL" means an excavation in the ground which receives discharge from any sanitation plumbing facilities.
B. "CONEJO SLIDE DRAINAGE AREA" means the area within the boundary depicted on the map identified as the Map of the Conejo Slide Drainage Area adopted by Section 22.90.065 of this Chapter.
C. "NEW CONSTRUCTION" means any man-made change to improved or unimproved real property after June 11, 1991, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations, which requires a building permit.
D. "SEPTIC TANK" means a structure for private treatment of sewage before disposal into a cesspool, seepage hole or leaching system.
E. "SLIDE MASS C" means the landslide mass so described in the report by Geotechnical Consultants, Inc. (dated April, 1984) concerning geotechnical investigations of the Conejo Road Landslide, the boundary to which is depicted on the Map of the Conejo Slide Area adopted by Section 22.90.045 of this Chapter. (Ord. 5030, 1997.)

22.90.030 New Construction Prohibited; Exceptions.

A. All new construction is prohibited on the parcels which are located entirely or partially within the boundary of Slide Mass C, except as provided in this Chapter 22.90. The existing parcels located entirely or partially within Slide Mass C are identified in Section 22.90.050, Parcels Within Slide Mass C.
B. It shall be unlawful to erect, produce, permit, maintain or keep any new construction on a parcel which is located entirely or partially within the boundary of Slide Mass C, in violation of the provisions of this Chapter.
C. The following new construction is excepted from the prohibitions of this section:
   (i) routine repairs and maintenance to residential structures and to road, drive, and utilities improvements,
   (ii) remodeling of the interior of an existing residential structure, and
   (iii) additions to an existing building which do not exceed one hundred and fifty (150) square feet of enclosed area during any twenty-four (24) month period.
D. As used in this section, the term “new construction” shall not include the construction of a home on any legal parcel located entirely within Slide Mass C where the parcel contained a home which was destroyed by fire or other casualty after November 12, 2008. (Ord. 5582, 2012; Ord. 5030, 1997.)
22.90.040 Exception: Designs by Engineering Geologist.

A. The Chief of Building and Safety may approve, or approve with conditions, new construction on any portion of such affected parcels which is located at least 25 feet outside of the boundary of Slide Mass C, upon plans that incorporate the accepted findings and recommendations of a licensed engineering geologist, based upon adequate site investigations, borings, soil samples, laboratory tests and a review of all record data for the parcel and slide area, to the satisfaction of the Chief of Building and Safety and in compliance with all other applicable codes and regulations.

B. A preliminary evaluation of the engineering geologist for the suitability of improvements on such area shall be submitted for review by the Chief of Building and Safety before the preparation of plans pursuant to this section. The Chief of Building and Safety may employ expert peer review in reaching a decision as to whether to accept or reject the findings of the evaluation.

C. The decision of the Chief of Building and Safety may be appealed to the Building and Fire Code Board of Appeals, whose decisions shall be final.

D. Such approval may require submission and/or recording of a release and agreement, approved by the City Attorney, to indemnify the City, its officers and employees, from liability related to such new construction.

E. New construction in accordance with such approved plans shall not be unlawful under the provisions of this Chapter.

F. NON-HABITABLE IMPROVEMENTS. Non-habitable building improvements may be constructed within twenty-five (25) feet of the Slide Mass C boundary but not closer than ten (10) feet. For the purposes of this subparagraph, non-habitable improvements shall include walkways, retaining and non-retaining walls, driveway paving, portable storage sheds, and other non-habitable improvements as deemed appropriate by the Chief Building Official. However, septic systems, building sewers, sewer laterals, water piping, and landscaping sprinklers remain prohibited when within the 25 feet of the boundary of Slide Mass C. (Ord. 5522, 2010; Ord. 5030, 1997.)

22.90.045 Map of the Conejo Slide Area.

The Map of the Conejo Slide Area, as depicted in the Grover-Hollinsworth Geotechnical Report dated May 29, 2009, and depicting the parcels of real property that are located entirely or partially within the boundary of Slide Mass C of the Conejo Slide Area is hereby amended to be consistent with the boundaries described in above-referenced Report. The City Clerk and the Chief Building Official shall each keep a copy of the Map of the Conejo Slide Area and a full copy of the May 29, 2009, Grover-Hollinsworth Geotechnical Report on file as received by the City. A facsimile example of such map shall be reproduced and codified with this section as an exhibit to this section. (Ord. 5522, 2010; Ord. 5030, 1997.)
22.90.050 Parcels Within Slide Mass C.

The parcels of real property that are entirely or partially within the Conejo Slide Area, Slide Mass C, are as follows:

(Ord. 5030, 1997.)

22.90.060 Septic Tanks Prohibited.

No person shall construct or install a septic tank or increase the use of a septic tank on any parcel located entirely or partially within the Conejo Slide Drainage Area. Such parcels are identified in the listing of parcels adopted as Section 22.90.070 of this Chapter, entitled "Parcels Within Conejo Slide Drainage Area." (Ord. 5030, 1997.)

22.90.065 Map of Conejo Slide Drainage Area.

The Map of the Conejo Slide Drainage Area, dated November 6, 1997 and depicting the limits of the Conejo Slide Drainage Area and the parcels located entirely or partially within the Conejo Slide Drainage Area, is hereby adopted. The City Clerk and the Chief of Building and Safety shall each keep a copy of the Map of the Conejo Slide Drainage Area on file as adopted. An example of such map shall be reproduced and codified with this section. (Ord. 5030, 1997.)

## Special Geological Provisions

Those residential structures identified in the report dated December 17, 2009, prepared by Frank J. Kenton for the City’s Chief Building Official (hereinafter the “2009 Kenton Report”), which are listed as being appropriate for reconstruction, may be reconstructed by their owners in the manner consistent with the recommendations contained with the 2009 Kenton Report, including, specifically, the applicable construction recommendations contained in the Grover Hollinsworth and Associates, Inc., report dated May 29, 2009, both of which reports shall be on file with the City Clerk. Upon the date of taking effect, this ordinance repeals Ordinance 4698, Ordinance 4344, and Ordinance 4293. (Ord. 5030, 1997.)
Chapter 22.91

SOLAR ENERGY SYSTEM REVIEW PROCESS

Sections:
22.91.010 Definitions.
22.91.020 Administrative Approval Process.

22.91.010 Definitions.

The following words and phrases as used in this Chapter 22.91 are defined as follows:

A. “Electronic submittal” means the utilization of one or more of the following:
   1. e-mail, or
   2. the internet, or
   3. facsimile.

B. “Feasible method to satisfactorily mitigate or avoid the specific, adverse impact” includes, but is not limited to, any cost-effective method, condition, or mitigation imposed by the City on another similarly situated application in a prior successful application for a permit. The City shall use its best efforts to ensure that the selected method, condition, or mitigation meets the conditions of subparagraphs (A) and (B) of paragraph (1) of subdivision (b) of Section 714 of the Civil Code, as such section or subdivision may be amended, renumbered, or redesignated from time to time.

C. “Small residential rooftop solar energy system” is a solar energy system that satisfies all of the following elements:
   1. A solar energy system that is no larger than 10 kilowatts alternating current nameplate rating or 30 kilowatts thermal;
   2. A solar energy system that conforms to all applicable state fire, structural, electrical, and other building codes as adopted or amended by the City and paragraph (iii) of subdivision (c) of Section 714 of the Civil Code, as such section or subdivision may be amended, renumbered, or redesignated from time to time;
   3. A solar energy system that is installed on a single residential unit or two-residential unit (as defined in Chapter 28.04 of this Code); and
   4. A solar panel or module array that does not exceed the maximum legal building height as defined by the authority having jurisdiction.

D. “Solar energy system” has the same meaning set forth in paragraphs (1) and (2) of subdivision (a) of Section 801.5 of the Civil Code, as such section or subdivision may be amended, renumbered, or redesignated from time to time.

E. “Specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified, and written public health and safety standards, policies, or conditions as they existed on the date the application was deemed complete. (Ord. 5713, 2015.)

22.91.020 Administrative Approval Process.

The City shall administratively approve applications to install solar energy systems pursuant to the provisions of this Chapter 22.91. If an application for a solar energy system satisfies all of the requirements of the Small Residential Rooftop Solar Energy System checklist, the application shall receive expedited review pursuant to Section 22.91.030. Otherwise, all applications to install solar energy systems shall be processed pursuant to this Section 22.91.020.

A. Application. Prior to submitting a solar energy system permit application and checklist to the City, the applicant shall:
   1. Verify to the applicant’s reasonable satisfaction through the use of standard engineering evaluation techniques that the support structure for the solar energy system is stable and adequate to transfer all wind, seismic, and dead and live loads associated with the system to the building foundation; and
   2. Verify that the existing electrical system’s current or proposed configuration will accommodate all new photovoltaic electrical loads in accordance with the edition of the California Electrical Code in effect at the time the solar energy system permit application is submitted; and
   3. Verify that the proposal is exempt from, or otherwise complies with, the coastal development permit requirements pursuant to Public Resources Code 30610, Sections 13250 to 13253 of Title 14 of the California Administrative Code, and Chapter 28.44 of the Santa Barbara Municipal Code.
B. Extent of Review. The review of all applications to install a solar energy system shall be limited to the Building Official’s review of whether the proposed solar energy system meets all health and safety requirements of local, state, and federal law, and the City Planner’s review of applicable building height, open yard requirements, and zoning setbacks pursuant to Title 28 of the Santa Barbara Municipal Code. If the Building Official makes a finding, based on substantial evidence, that the solar energy system could have a specific, adverse impact upon the public health and safety, the City shall require the applicant to obtain a Performance Standard Permit.

C. Standards for Solar Energy Systems. All solar energy systems proposed for installation within the City of Santa Barbara shall meet the following standards, as applicable:

1. All solar energy systems shall meet applicable health and safety standards and requirements imposed by state and local permitting authorities, including building height, zoning setback, minimum open yard, and permitted construction standards.

2. Solar energy systems for heating water in single-family residences and solar collectors used for heating water in commercial or swimming pool applications shall be certified by an accredited listing agency as defined in the California Plumbing and Mechanical Codes.

3. A solar energy system for producing electricity shall meet all applicable safety and performance standards established by the California Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories and, where applicable, rules of the Public Utilities Commission regarding safety and reliability.

4. Solar energy systems may be installed on a property with outstanding violations of the City’s Municipal Code so long as both of the following requirements are satisfied:
   a. The proposed solar energy system installation will not rely upon prior construction that was identified as a violation in an unresolved City notice or document; and
   b. In the course of conducting the building inspection for a solar energy system, a health or life-safety hazard is not observed. Examples of such hazards include, but are not limited to, conditions that could lead to structural failure, electrical shock, and sanitary sewer failures.

D. Performance Standard Permit. In the case where the Building Official makes a finding, based on substantial evidence, that the solar energy system could have a specific, adverse impact upon the public health and safety, the solar energy system shall not be installed until a Performance Standard Permit has been issued for the solar energy system pursuant to Chapter 28.93 of this Code. The Performance Standard Permit shall require the installation or incorporation of methods or conditions necessary to minimize or avoid the specific, adverse impact.

E. Appeal. The Building Official’s decision that a proposed solar energy system could have a specific, adverse impact upon the public health and safety is appealable in accordance with the following procedures:

1. Who May Appeal. The decision of the Building Official may be appealed to the Planning Commission by the applicant. No other persons can appeal.

2. Timing for Appeal. The applicant must file a written appeal with the Community Development Director no more than 10 calendar days following the Building Official’s decision. The appeal shall include the grounds for appeal.

3. Grounds for Appeal. The decision of the Building Official may be appealed on the grounds that the Building Official’s decision that a proposed solar energy system could have a specific, adverse impact upon the public health and safety is not supported by substantial evidence.

4. Scheduling an Appeal Hearing. The Community Development Department shall assign a date for an appeal hearing before the Planning Commission no earlier than 10 calendar days after the date on which the appeal is filed with the Community Development Director. The appeal hearing shall generally be held within 60 calendar days following the filing of the application for the hearing.

5. Power to Act on the Decision at Appeal Hearing. The Planning Commission may affirm, reverse, or modify the Building Official’s decision that a proposed solar energy system could have a specific, adverse impact upon the public health and safety in accordance with the following:
   a. A decision to affirm the decision of the Building Official shall require a finding based on substantial evidence in the record that the proposed solar energy system could have a specific, adverse impact upon the public health and safety.
   b. If the Planning Commission determines that there is not substantial evidence that the solar energy system could have a specific adverse impact upon the public health and safety, then the decision of the Building Official shall be reversed and the project shall be approved.
   c. If the Planning Commission determines that conditions of approval would mitigate the specific adverse impact upon the public health and safety, then the decision of the Building Official shall be reversed and the project shall be conditionally approved. Any conditions imposed shall mitigate at the lowest cost possible, which generally means the permit condition shall not cause the project to exceed 10 percent of the cost of the small rooftop solar energy system or decrease the efficiency of the small rooftop solar energy system by an amount exceeding 10 percent.

6. The decision of the City Planning Commission is final. (Ord. 5713, 2015.)

In compliance with Government Code Section 65850.5, the City has developed an expedited and streamlined permitting process for qualifying Small Residential Rooftop Solar Energy Systems. The submittal requirements and review procedures for applications of Small Residential Rooftop Solar Energy Systems are as follows:

A. Application Checklist. In order to be eligible for expedited review, prior to submitting a solar energy system permit application and checklist to the City, the applicant shall:

1. Verify to the applicant’s reasonable satisfaction through the use of standard engineering evaluation techniques that the support structure for the solar energy system is stable and adequate to transfer all wind, seismic, and dead and live loads associated with the system to the building foundation; and
2. Verify that the existing electrical system’s current or proposed configuration will accommodate all new photovoltaic electrical loads in accordance with the edition of the California Electrical Code in effect at the time the solar energy system permit application is submitted; and
3. Verify that the proposal is exempt from, or otherwise complies with, the coastal development permit requirements pursuant to Public Resources Code 30610, Sections 13250 to 13253 of Title 14 of the California Administrative Code, and Chapter 28.44 of the Santa Barbara Municipal Code.

B. Application Submission. The City accepts the submission of applications for Small Residential Rooftop Solar Energy Systems and the associated checklist and documentation in person at the Building Permit counter or by electronic submittal. The City shall accept signatures electronically for electronic submittals.

C. Standards for Solar Energy Systems. All solar energy systems proposed for installation within the City of Santa Barbara shall meet the following standards, as applicable:

1. Solar energy systems shall meet applicable health and safety standards and requirements imposed by state and local permitting authorities, including building height, zoning setback, minimum open yard, and permitted construction standards.
2. Solar energy systems for heating water in single-family residences and solar collectors used for heating water in commercial or swimming pool applications shall be certified by an accredited listing agency as defined in the California Plumbing and Mechanical Codes.
3. A solar energy system for producing electricity shall meet all applicable safety and performance standards established by the California Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories and, where applicable, rules of the Public Utilities Commission regarding safety and reliability.
4. Solar energy systems may be installed on a property with outstanding violations of the City’s Municipal Code so long as both of the following requirements are satisfied:
   a. The proposed solar energy system installation will not rely upon prior construction that was identified as a violation in an unresolved City notice or document; and
   b. In the course of conducting the building inspection for a solar energy system, a health or life-safety hazard is not observed. Examples of such hazards include, but are not limited to, conditions that could lead to structural failure, electrical shock, and sanitary sewer failures.

D. Application Review. The Building and Safety Division shall confirm whether the application and supporting documents are complete and meet the requirements of the City’s Small Residential Rooftop Solar Energy System checklist. The Building and Safety Division shall review applications for Small Residential Rooftop Solar Energy Systems within 24 working hours (3 working days) of submission. Mounting the solar panels on the plane of the roof with the California Solar Permitting Guide “Flush Mount” standards, will eliminate the need for confirmation of maximum building height.

E. Complete Application. An application that satisfies the information requirements specified in the City’s Small Residential Rooftop Solar Energy System checklist shall be deemed complete.

F. Incomplete Application. If the Building and Safety Division determines that an application for a Small Residential Rooftop Solar Energy System is incomplete, the Building and Safety Division shall issue a written correction notice detailing all deficiencies in the application and any additional information required to be eligible for expedited permit issuance. Alternatively, if the Building and Safety Division determines that the proposed solar energy system, as proposed, will not qualify as a Small Residential Rooftop Solar Energy System, the Building and Safety Division may recommend that the applicant resubmit his or her application pursuant to Section 22.91.020.

G. Permit Approval. Upon confirmation by the Building and Safety Division that the application and supporting documents are complete and meet the requirements of the Small Residential Rooftop Solar Energy System checklist, the Building Official shall approve the application and issue all required permits or authorizations electronically.

H. Inspections. The installation of a Small Residential Rooftop Solar Energy System shall only require one building inspection which, if a fire inspection is required, shall be consolidated with the fire inspection. If the installation of the Small Residential Rooftop Solar Energy System fails the inspection, a subsequent inspection or inspections shall be required, at the applicant’s expense, until the installation passes inspection or is cancelled and the solar energy system is removed to the satisfaction of the Building Official. (Ord. 5713, 2015.)

22.92.010  Penalty for Violation.

It shall be unlawful for any person, firm or corporation, whether as principal, agent, employee or otherwise, to explore for, prospect for, or drill for, or to permit or to commence the exploration, prospecting or drilling for, oil, gas or other hydrocarbon substances within the corporate limits of the City. Any such activity shall be deemed to constitute a nuisance.

The violation of any provision of this section, or of any provision of Section 1500 of the Charter prohibiting drilling for oil, gas, or other hydrocarbon substances within the corporate limits of the City shall be deemed a misdemeanor and shall be punished by a fine of not exceeding five hundred dollars ($500.00) or imprisonment for a term of not exceeding six (6) months, or by both such fine and imprisonment.

Every day on which any violation of this section or of such section of the Charter occurs shall constitute a separate offense for any day upon which the same occurs. (Ord. 3077 §1, 1965; prior Code §33.1.)

22.92.020  Drilling, Etc., Declared Nuisance - Abatement.

Any use of property within the corporate limits of the City for the exploration, prospecting or drilling for oil, gas or other hydrocarbon substances, and any equipment or structure set up, erected, built or maintained or used thereon or therein, for the exploration, prospecting or drilling for oil, gas or other hydrocarbon substances, is declared to be a public nuisance, and the City Attorney shall, upon order of the City Council, immediately commence action proceedings for the abatement and removal and enjoinder thereof in the manner provided by law and shall take such other steps and shall apply to such court as may have jurisdiction to grant such relief as will abate, remove, restrain and enjoin the use of any such property within the corporate limits of the City and the erection, maintenance or use of any such equipment or structure for any such purposes contrary to the provisions of this chapter. (Prior Code §33.2.)

22.92.030  Nonconforming Uses.

The lawful use of land existing on June 27, 1953, although such use does not conform to the provisions of this chapter may be continued, but if such nonconforming use is abandoned any future use of the land shall be in conformity with the provisions of this chapter. (Prior Code §33.3)

22.96.010 Legislative Intent.

The City Council, having found that the existence of closed, vacant and inoperative automobile service stations which are not properly maintained constitutes a danger to public health, safety, comfort and welfare in that such conditions lead to unsightliness, blight, vandalism, trespass, and decreasing values to surrounding properties, and that such abuses entitle this City to exercise its Police powers to protect the health, safety, comfort and welfare of the community, intends the following regulations to provide for the property maintenance of closed, vacant and inoperative automobile service stations. (Ord. 3765 §1, 1975.)

22.96.020 Definitions.

A. "Abandoned service station" means an automobile service station where the owner or lessee has failed to operate such station for the retail sale of gasoline and other petroleum products to the general public for at least ninety (90) consecutive days and where the property has not been converted to another commercial use permitted by Title 28 of this Code.

An automobile service station which is used only as a storage facility for gasoline and other petroleum products is an abandoned service station for the purposes of this chapter.

B. "Automobile service station" means any site where the buildings are designed, built and operated for the purpose of dispensing and selling fuels for internal combustion engines of any automotive vehicles. (Ord. 3765 §1, 1975.)

22.96.030 Maintenance Requirements.

All abandoned service stations in the City of Santa Barbara shall be maintained in compliance with the following requirements:

A. The windows, doors and any and all openings in all buildings on the site shall be securely covered with plywood or other comparable material at least 3/4 inches in thickness which shall be painted to match the color of the building;

B. Vehicular access to the site shall be prevented by the installation of chain barriers firmly affixed to the ground;

C. All trees, shrubs, bushes and other landscaping on the site shall be properly watered and otherwise maintained. (Ord. 3765 §1, 1975.)

22.96.040 Public Nuisance.

Any abandoned service station which is not maintained in compliance with the requirements set forth in Section 22.96.030 is hereby declared to be a public nuisance. (Ord. 3765 §1, 1975.)

22.96.050 Abatement Procedure.

Upon discovery of conditions constituting a public nuisance as defined in Section 22.96.040, the Chief of Building and Zoning shall give notice to cause abatement of the public nuisance. Notification shall be personally served or sent by certified mail to all persons, firms, corporations and other entities which the records of the Recorder of the County of Santa Barbara disclose a claim or interest in the automobile service station. The notification shall be in the...
NOTICE IS HEREBY GIVEN that as of ____________ day of ____________, 19 ___, the Chief of Building and Zoning of the City of Santa Barbara has found and determined that conditions exist on the real property described as County Assessor's Parcel No. __________, located at __________ in the City of Santa Barbara, which constitute a public nuisance and a violation of Title 22, Chapter 22.96, of the Santa Barbara Municipal Code, in that an abandoned service station is located thereon and is not being maintained pursuant to the requirements of §22.96.030 of Chapter 22.96 of Title 22 of the Santa Barbara Municipal Code.

Notwithstanding any other provisions of this Code, if the nuisance is not abated by properly maintaining the abandoned service station in accordance with the provisions of §22.96.030 within thirty (30) days from the date of delivery of this notice, enforcement proceedings for the abatement of said public nuisance shall be commenced pursuant to the provisions of §22.96.080.

DATED: ____________________

Chief of Building and Zoning

(Ord. 3765 §1, 1975.)

22.96.060 Effect of Voluntary Abatement.

If the public nuisance is abated by the owner or lessee of any abandoned service station within the thirty (30) day period allowed in the Notice of Violation, further abatement proceedings shall be terminated. (Ord. 3765 §1, 1975.)

22.96.070 Extension of Abatement Period.

If the abatement of the public nuisance is commenced within the thirty (30) day period provided in §22.96.050, but not completed, the Chief of Building and Zoning may grant a single extension of fifteen (15) days for good cause shown, such as delays beyond the control of the affected party or parties. (Ord. 3765 §1, 1975.)

22.96.080 Abatement Hearing; Setting and Notice.

A. In the event the owner of an abandoned service station which is not maintained in compliance with this chapter fails to abate the public nuisance within the time allowed, the City Council shall set a public hearing to consider its abatement.

B. The Chief of Building and Zoning shall cause notification of the hearing to be personally served or sent by certified mail to the persons, firms, corporations and other entities which the records of the Recorder of the County of Santa Barbara disclose claim an interest in the automobile service station. The notification shall be in the following form:

NOTICE OF HEARING

ABATEMENT OF PUBLIC NUISANCE

NOTICE IS HEREBY GIVEN that on ______ day of ____________, 19 ___, at the hour of ______, of said day, the City Council of the City of Santa Barbara will hold a public hearing at Council Chambers, City Hall, to ascertain whether the maintenance of an abandoned service station in the City of Santa Barbara at __________ constitutes a public nuisance as defined in §22.96.040 of Chapter 22.96 of the Santa Barbara Municipal Code and requires abatement as prescribed in said chapter.

The conditions which shall be the subject of the public hearing are as follows:

That if the condition of maintenance is found to constitute a public nuisance as defined in Section 22.96.040 of said Code, and the public nuisance has not been abated by the owner or owners of such service station, such public nuisance may be ordered by the City Council to be abated by such owner or owners, or may be ordered to be abated by the duly constituted authorities of this City and the cost thereof charged to such owner or owners or placed as a lien against the property;
That all persons having any objection to or interest in said matters are hereby notified to attend the meeting stated in this Notice, when their testimony and evidence will be heard and given consideration.

DATED: ________________

(Title and Address of Enforcement Authority)

(c) A copy of the Notice of Hearing shall be posted conspicuously on each of the premises and buildings affected.

(d) A copy of said Notice of Hearing shall be served personally or by certified mail and posted at least fifteen (15) days before the time fixed for the hearing. Proof of service and posting of such notice shall be made by written declaration under penalty of perjury and be filed with the City Council. (Ord. 3675 §1, 1975.)

22.96.090 Abatement Hearing by City Council.

A. At the time stated in the notices, the City Council shall hear and consider all relevant evidence, objections or protests, and shall receive testimony from owners, witnesses, City personnel and interested persons relative to such alleged public nuisance. Said hearing may be continued from time to time.

B. Upon the conclusion of said hearing, the City Council shall, based upon such hearing, determine whether the premises, or any part thereof, as maintained constitutes a public nuisance as defined in §22.96.040. If the City Council finds that such public nuisance does exist, the City Council shall adopt a resolution declaring such premises to be a public nuisance and ordering the abatement of the same within a reasonable period of time to be determined by Council, by having such premises, buildings or structures maintained in compliance with §22.96.030. (Ord. 3765 §1, 1975.)

22.96.100 Service on Owner of Resolution to Abate.

A copy of the resolution of the City Council ordering the abatement of said nuisance shall be served upon the owners of said property in accordance with the provisions of Section 22.06.050 and shall contain a list of needed corrections and abatement methods. Any property owner shall have the right to have any such premises maintained in accordance with said resolution and at his own expense provided the same is done prior to the expiration of the designated abatement period. Upon such abatement in full by the owner, then proceedings hereunder shall terminate. (Ord. 3765 §1, 1975.)

22.96.110 Abatement by City.

If such nuisance is not completely abated by the owner as directed within the designated abatement period, then the Chief of Building and Zoning may cause the same to be abated by City forces or private contract and the Chief (or his designated agents) is expressly authorized to enter upon said premises for such purpose. (Ord. 3765 §1, 1975.)

22.96.120 Record of Cost for Abatement.

The Chief of Building and Zoning shall keep an account of the cost (including incidental expenses) of abating such nuisance on each separate lot, or parcel of land where the work is done and shall render an itemized report in writing to the said City Council showing the cost of abatement, provided, that before said report is submitted to said City Council, a copy of the same shall be posted for at least five (5) days upon such premises, together with a notice of the time when said report shall be heard by the City Council for confirmation; a copy of said report and notice shall be mailed to the owners of said property, in accordance with the provisions of Section 22.96.050 at least five (5) days prior to submitting the same to the City Council. The term "incidental expenses" shall include, but not be limited to, the actual and overhead expenses and costs of the City in the preparation of notices, specifications and contracts, and in inspecting the work, and the costs of printing and mailing required hereunder. (Ord. 3765 §1, 1975.)

22.96.130 Report - Hearing and Proceedings.

At the time and place fixed for receiving and considering said report, the City Council shall hear and pass upon the report of the Chief of Building and Zoning together with any objections or protests. Thereupon the City Council may make such revision, correction or modification in the report as it may deem just, after which the report, as submitted or revised, corrected or modified, shall be confirmed. The decision of the City Council on all protests and objections which may be made shall be final and conclusive. (Ord. 3765 §1, 1975.)
22.96.140 Assessment of Costs Against Property; Lien.

The total cost of abating such nuisance, as so confirmed by the City Council, shall constitute a special assessment against the respective lot or parcel of land to which it relates, and upon recordation in the Office of the County Recorder of a Notice of Lien, as so made and confirmed, shall constitute a lien on said property for the amount of such assessment.

A. After such confirmation and recordation, a copy may be turned over to the Tax Collector for the County, whereupon it shall be the duty of said Tax Collector to add the amounts of the respective assessments to the next regular tax bills levied against said respective lots and parcels of land for municipal purposes, and thereafter said amounts shall be collected at the same time and in the same manner as ordinary municipal taxes are collected, and shall be subject to the same penalties and the same procedure under foreclosure and sale in case of delinquency as provided for ordinary municipal taxes; or

B. After such recordation such lien may be foreclosed by judicial or other sale in the manner and means provided by law.

C. Such Notice of Lien for recordation shall be in form substantially as follows:

NOTICE OF LIEN

(Claim of City of Santa Barbara)

Pursuant to the authority vested by the provisions of Section 22.96.110 et seq. of the Santa Barbara Municipal Code, the Chief of Building and Zoning did on or about the _______ day of ____________, 19___, cause the premises hereinafter described to be maintained in compliance with §22.96.030, in order to abate a public nuisance on said real property; and the City Council of the City of Santa Barbara did on the _______ day of ____________, 19___, assess the cost of such maintenance upon the real property hereinafter described; and the same has not been paid nor any part thereof; and that said City of Santa Barbara does hereby claim a lien on such maintenance in the amount of said assessment, to wit: the sum of $ __________; and the same shall be a lien upon said real property until the same has been paid in full and discharged of record.

The real property hereinafter mentioned, and upon which a lien is claimed, is that certain parcel of land lying and being in the City of Santa Barbara, County of Santa Barbara, State of California, and particularly described as follows:

(DESCRIPTION)

DATED: This _______ day of ____________, 19___.

Chief of Building and Zoning
of the City of Santa Barbara, California

(Ord. 3765 §1, 1975.)

22.96.150 Alternate Enforcement Measures.

Nothing in the foregoing sections shall be deemed to prevent the City Council from ordering the City Attorney to commence a civil or criminal proceeding to abate a public nuisance under applicable Civil or Penal Code provisions as an alternative to the proceedings set forth herein.  (Ord. 3765 §1, 1975.)

22.96.160 Limitation of Action.

Any party aggrieved with the proceedings, decision, or action taken by the City Council or the Chief of Building and Zoning under this chapter in ordering the abatement of a public nuisance or other order, must bring an action to contest such proceeding, decision, action or order within thirty (30) days after the date of the proceeding, decision, action or order of the City Council or Chief of Building and Zoning.  (Ord. 3765 §1, 1975.)

MOBILEHOME AND RECREATIONAL VEHICLE PARKS - RESIDENTS' RIGHTS

Sections:
26.04.010 Mobilehome and Recreational Vehicle Parks - Residents' Rights.

26.04.010 Mobilehome and Recreational Vehicle Parks - Residents' Rights.

All tenancies in any mobilehome or permanent recreational vehicle park (as defined in Title 28) within the City of Santa Barbara existing on the effective date of the ordinance adopting this Section or created thereafter shall be protected by the provisions of Chapter 2.5 (Sections 798 through 799.6) of the California Civil Code regardless of whether said park is registered with the State of California as a "mobilehome park" or a "recreational vehicle park." (Ord. 4269, 1984.)

Chapter 26.08
MOBILEHOME AND RECREATIONAL VEHICLE PARK LEASE REGULATIONS

Sections:
26.08.010 Short Title.
26.08.020 Findings and Purpose.
26.08.030 Definitions.
26.08.035 Exemptions.
26.08.040 Lease Provisions.
26.08.050 Lease Negotiation; Arbitration.
26.08.060 Rent Increase Upon Transfer of Ownership.
26.08.070 Notices by Park Owner.
26.08.080 Enforcement.

26.08.010 Short Title.

Chapter 26.08 of Title 26 of the Santa Barbara Municipal Code may be cited as the "Mobilehome and Recreational Vehicle Park Lease Ordinance of the City of Santa Barbara." (Ord. 4285, 1984.)

26.08.020 Findings and Purpose.

A. The City Council finds and determines that there is a critical shortage of low and moderate income housing within the City and on the south coast of Santa Barbara County.

B. The City Council further finds and determines that mobilehome parks and recreational vehicle parks (also known as trailer parks) are a significant part of the remaining supply of low and moderate income housing in the City, and are frequently occupied by residents on a permanent basis. Many of the residents of these facilities are senior citizens on fixed incomes or other persons with limited economic means.

C. The City Council further finds and determines that rent increases in mobilehome and recreational vehicle parks represent a significant threat to the continued ability of park residents to afford to maintain residency in such parks. The economic impact of unaffordable rent increases on park residents is much more severe than rent increases on other tenants inasmuch as many park residents own their mobilehomes, recreational vehicles or trailers and, if forced to move because of rent increases, must bear the additional and substantial burden of paying to move those
vehicles or mobilehomes to another site. There are very few places on the south coast of Santa Barbara County to which such mobilehomes or vehicles can be moved.

D. The purpose of this ordinance is therefore to regulate the rent charged for mobilehome and recreational vehicle spaces used on a permanent basis to prevent severe and inordinate rent increases, to protect certain persons of limited economic means from the disruption and expense of relocation and to provide increased certainty to park residents of their ability to maintain their current status while at the same time providing park owners with a fair return on their investment and the continuing ability to maintain their parks. (Ord. 4285, 1984.)

26.08.030 Definitions.

The following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning.

A. CAPITAL IMPROVEMENT. Any addition or betterment made to a mobilehome or recreational vehicle park which consists of more than a mere repair or replacement of an existing facility or improvement and which has a useful life of five or more years.

B. CONSUMER PRICE INDEX. The Urban Wage Earners and Clerical Workers Index, Los Angeles-Long Beach-Anaheim average, all items, as published by the United States Bureau of Labor Statistics, or such other index as may be approved by resolution of the City Council.

C. DEPARTMENT. The Community Development Department of the City of Santa Barbara.

D. MOBILEHOME. As defined in Section 28.04.465 of this Code.

E. MOBILEHOME PARK. As defined in Section 28.04.470 of this Code.

F. MOBILEHOME PARK SPACE. As defined in Section 28.04.475 of this Code.

G. MOBILEHOME RESIDENT. A person who rents a space in a mobilehome park.

H. PARK OWNER. The owner or operator of a mobilehome or recreational vehicle park or an agent or representative authorized to act on said owner's or operator's behalf in connection with the maintenance or operation of the park.

I. RECREATIONAL VEHICLE. As defined in Section 28.04.555 of this Code.

J. RECREATIONAL VEHICLE PARK. As defined in Section 28.04.560 of this Code.

K. RECREATIONAL VEHICLE SPACE. As defined in Section 28.04.575 of this Code.

L. RECREATIONAL VEHICLE RESIDENT. A person who rents a space in a recreational vehicle park.

M. REHABILITATION WORK. Any renovation or repair work completed on or in a mobilehome or recreational vehicle park which was performed in order to comply with an order of a public agency, or to repair damage resulting from fire, earthquake, or other casualty.

N. RENT. The consideration, including any bonus, benefits or gratuity, demanded or received by a park owner for or in connection with the use or occupancy of a space, including but not limited to monies demanded or paid for the following: meals where required by the park owner as a condition of the tenancy, parking, furnishings, other housing services of any kind, subletting, or security deposits. (Housing services are defined as those services connected with the use or occupancy of a space including, but not limited to, utilities (light, heat, water and telephone), utility connections, ordinary repairs or replacement and maintenance, including painting. This term shall also include the provision of laundry facilities and privileges, common recreational facilities, janitor service, resident manager, refuse removal, storage facilities and any other benefits, privileges or facilities.)

O. RESIDENT. A mobilehome resident and a recreational vehicle resident.

P. SPACE. A mobilehome park space and a recreational vehicle park space.

Q. TENANCY. The right of a resident to use or occupy a space.

(Ord. 5459, Section 3, 2008; Ord. 4285, 1984.)

26.08.035 Exemptions.

This Chapter shall apply as of its effective date to all tenancies in mobilehome and recreational vehicle parks located in the City of Santa Barbara, except:

A. Tenancies used primarily for commercial purposes.

B. Tenancies in parks of four spaces or fewer, where one space is occupied by the park owner.

C. Tenancies in parks placed in operation after the effective date of this ordinance; provided, however, that such exemption shall continue in effect for only four (4) years after such creation.

D. Tenancies in spaces which a government agency owns, manages or operates.

E. Tenancies which both the park owner and the resident do not expect to exceed thirty (30) days. (Ord. 4285, 1984.)

26.08.040 Lease Provisions.

A lease shall include, at a minimum, the following provisions:

A. TERM; TERMINATION. No term shall be specified. The lease may be terminated only for one of the following reasons:

1. Failure of the resident to comply with a local ordinance or state law or regulation relating to mobilehomes or recreational vehicles within a reasonable time after the resident received a notice of noncompliance.
from the appropriate governmental agency.
2. Conduct by the resident, upon the park premises, which constitutes a substantial annoyance to other residents.
3. Failure of the resident to comply with a lease provision or reasonable rule or regulation of the park. No act or omission of the resident shall constitute such a failure to comply unless and until the park owner has given the resident written notice of the alleged violation and the resident has failed to adhere to the lease provision or rule or regulation within seven (7) days.
4. Nonpayment of rent, utility charges, or reasonable incidental service charges.
5. Condemnation of the park.
6. Change of use of the park, provided that the provisions of subsection f of Section 798.56 of the California Civil Code and any applicable local ordinances are followed.
7. Cessation of occupancy by the tenant with (i) sixty (60) days prior notice to the park owner, or (ii) waiver of such notice by the park owner.

B. NOTICE. Notice of termination must be given in writing in the manner prescribed by Section 1162 of the Code of Civil Procedure at least sixty (60) days prior to the termination date of the tenancy. Said notice shall state the date the lease terminates, the reason for the termination or refusal to renew, and the specific facts upon which the park owner is relying.

C. RENT INCREASES. A provision placing the following restrictions on a park owner's ability to increase the rent most recently and lawfully charged:
1. Rent for a space shall not be increased more frequently than once per year and all increases within any particular park shall occur at the same time each year.
2. Except as provided in Paragraph 3 of this Subsection C, a rent increase may not exceed the greater of (i) three-quarters of the percentage increase in the Consumers Price Index since the date of the last rent increase, or (ii) three (3) percent times the number of complete months since the date of the last rent increase divided by twelve.
3. A rent increase in excess of that allowed under Paragraph 2 of this Subsection C shall be allowed only to the extent it is approved by (i) the resident or (ii) an arbitrator acting pursuant to the provisions of Subsection D of this Section.

D. ARBITRATION. A provision establishing an arbitration mechanism for resolving disputes over (i) rent increase under Paragraph 3 of Subsection C of this Section, and (ii) any other issues which the parties agree to subject to arbitration. At a minimum, this provision shall specify as follows:
1. An impartial arbitrator shall be authorized to make final and binding decisions on disputed matters.
2. Arbitration shall be as expeditious as feasible and, whenever possible, should not exceed sixty (60) days from the date the arbitrator is selected to the date of the arbitrator's decision.
3. In the case of rent increase disputes:
   a. The Department shall select a qualified arbitrator and shall prepare a contract to be executed by the arbitrator and park owner; and
   b. The costs of the arbitrator shall be (i) paid by the park owner, and (ii) considered a reasonable operating expense within the meaning of clause (9) of Subparagraph d of this Paragraph 3 if the arbitrator approves the requested increase or any portion thereof; and
   c. The arbitrator shall be authorized to examine all financial data relating to the park which is relevant to the dispute, and receive testimony (oral and written) from any affected resident of the park, the park owner or their representatives at a meeting open to all park residents affected by the proposed increase; and
   d. The arbitrator shall approve such rent increase, if any at all, as is determined to be fair, just and reasonable within five days of the close of the arbitration hearing. The arbitrator's decision shall be mailed to the Department to the park owner and the affected residents or their designated representatives. In reaching that determination, the arbitrator shall consider the following factors, in addition to any other factors he or she considers relevant:
      (1) Changes in the Consumer Price Index.
      (2) The Voluntary Pay and Price Standards promulgated by the President of the United States or any other lawfully established state or federal government wage and price guidelines.
      (3) The rent lawfully charged for comparable spaces in the County of Santa Barbara.
      (4) The length of time since the last rent increase for the space or spaces specified in the rent increase proposal and the length of time necessary to receive consideration by the arbitrator.
      (5) Any proposed capital improvements or rehabilitation work related to the space or spaces specified in the rent increase application, and the cost thereof, including such items as materials, labor, construction interest, permit fees and other items as the arbitrator deems appropriate.
      (6) Changes in property taxes or other taxes related to the subject park.
      (7) Changes in the rent paid by the park owner for the lease of the land on which the subject park is located.
      (8) Changes in the utility charges for the subject park paid by the park owner and the extent, if any, of reimbursement from the residents.
      (9) Changes in reasonable operating and maintenance expenses, including interest and other expenses relating to the acquisition of the land and improvements of the park.
(10) The need for repairs caused by circumstances other than ordinary wear and tear.
(11) A change in the amount and quality of services provided by the park owner to the affected residents.

e. The arbitrator shall not consider changes in operating or other expenses caused by the park owner's refinancing of the park occurring after the date of adoption of this ordinance, except where the refinancing is both reasonable and necessary to make capital improvements to the park or is the result of prior financial commitments specific to the park becoming due.

f. The arbitrator may provide that an increase in rent or a portion of an increase in rent granted by the arbitrator be limited to the length of time necessary to allow the park owner to reasonably amortize the cost of a capital improvement, including interest and a reasonable profit.

E. NO ASSIGNMENT. A provision stating that the lease is not assignable to a successor of the tenant in the absence of mutual consent of the parties. (Ord. 4285, 1984.)

26.08.050 Lease Negotiation; Arbitration.

A. MANDATORY PROVISIONS. The park owner shall offer each resident a lease which contains each of the provisions specified in Section 26.08.040, except to the extent that the parties have voluntarily agreed to modify or waive any such provision. The parties shall bargain in good faith to reach agreement on the language used to express the mandatory provisions, and shall submit any dispute which remains after such bargaining to arbitration as set forth in Paragraph C. These provisions shall be identified in the lease as "mandatory provisions."

B. OPTIONAL PROVISIONS. The lease may contain any additional provisions to which the parties agree. Either party may propose inclusion of optional provisions. The parties shall bargain in good faith with respect to the inclusion of any such optional provisions and shall submit any dispute which remains after such bargaining to arbitration as set forth in Paragraph C. The arbitrator may impose on the parties any optional provisions which the arbitrator finds will render the lease reasonable, equitable and consistent with other leases commonly used in similar facilities. These provisions shall be identified in the lease as "optional provisions."

C. ARBITRATION. Any disputes arising between a park owner and resident under this Section shall be deemed submitted to arbitration upon the expiration of sixty (60) days after commencement of negotiations. Either party may request arbitration. The arbitrator shall be selected as set forth in Section 26.08.040,D. The costs of the arbitrator shall be paid by the park owner. One half of such costs shall be considered a reasonable operating expense under clause (9) of subparagraph d of Paragraph 3 of subsection D of Section 26.08.040. The arbitrator shall render a decision within thirty (30) days, and the decision shall be final and binding upon the parties. (Ord. 4285, 1984.)

26.08.060 Rent Increase Upon Transfer of Ownership.

If a space is voluntarily vacated by all the existing tenants as a result of a transfer of legal ownership of the mobilehome or recreational vehicle, and it is not removed from the space, then the rent may be increased. (Ord. 4592, 1989; Ord. 4285, 1984.)

26.08.070 Notices by Park Owner.

Within thirty days of the adoption of this ordinance, and upon the renting of each park space thereafter, a park owner shall give each resident a written statement advising the resident of the existence of this ordinance. The park owner shall also maintain a current copy of the ordinance available for review at the manager's premises or other convenient location within the park. (Ord. 4285, 1984.)

26.08.080 Enforcement.

A. RENT INCREASES. A park owner may not collect rent in excess of the rent most recently and lawfully charged for a park space until (i) a lease is executed by both parties with respect to that space, or (ii) a resident fails to execute a lease in a form approved by the arbitrator within thirty (30) days of the arbitrator's decision, which failure shall constitute a waiver by the resident of his or her rights under this Chapter.

B. COURT ORDER. Either party may bring an action in the Superior Court compelling the other party or the arbitrator to comply with the terms of this Chapter. Violation of this Chapter shall not be a misdemeanor, nor punishable by the imposition of civil penalties. (Ord. 4285, 1984.)
Chapter 26.20
REPORT OF NOTICE TO QUIT

Sections:

26.20.010 Findings and Purposes.

The City Council finds and determines that, in order to effectively study the number of notices to quit which are
given to tenants in the City of Santa Barbara, it is necessary that landlords who issue a notice to quit to a tenant send a
report of the notice to quit to the City. The City Council finds that the requirement for such a report would not
materially affect a landlord's ability to regain possession of the leased property pursuant to California law. (Ord.
4291, 1984; Ord. 4244, 1983.)

26.20.020 Definitions.

"Landlord and rental unit," when used in this Chapter, shall be construed as defined herein. Other words and
phrases used herein shall have the meaning stated elsewhere in this Code.

A. LANDLORD. An owner, lessor, or sublessor (including any person, firm, corporation, partner-ship, or other
entity) who receives or is entitled to receive rent for the use of any rental unit, or the agent, representative or
successor of any of the foregoing.

B. RENTAL UNIT. A dwelling unit, as defined in Section 28.04.260 of this Code, rented or offered for rent for
living or dwelling purposes, the land and buildings appurtenant thereto, and all housing services, privileges,
furnishings and facilities supplied in connection with the use or occupancy thereof, including garage and parking
facilities. This term shall include a dwelling unit in a condominium or similar project. The term shall not include:
1. A dwelling unit on a lot with four or fewer dwelling units, provided one such dwelling unit is occupied
by a record owner of the property.
2. A single family residential structure where there is only one such structure on the lot.
3. Housing accommodations in hotels and boarding houses, provided that at such time as an
accommodation has been occupied by one or more of the same tenants for sixty (60) days or more, such
accommodation shall become a rental unit subject to the provisions of this chapter.
4. A dwelling unit in a nonprofit or limited equity stock cooperative while occupied by a share-holder
tenant of the stock cooperative.
5. Housing accommodations in any hospital; state licensed community care facility; convent, monastery,
extended medical care facility; asylum; fraternity or sorority house; or housing accommodations owned, operated or
managed by an institution of higher education, a high school, or an elementary school for occupancy by its students or
teachers.
6. Housing accommodations which a governmental agency, or authority owns, operates, or manages, or as
to which rental or mortgage assistance is paid pursuant to 24 C.F.R. 882 ("HUD Section 8 Federal Rent Subsidy
Program") or a similar federal rental assistance program.
7. Housing accommodations operated by an organization exempt from federal income tax is under section
501(c)(3) of the Internal Revenue Code provided that the gross income derived therefrom does not constitute
unrelated business income as defined in Section 512 of the Internal Revenue Code, or a nonprofit public benefit
corporation under California Corporations Code Section 5110 et seq., whose principal purpose is to provide low or
moderate income housing. (Ord. 5459, Section 3, 2008; Ord. 4291, 1984; Ord. 4244, 1983.)

26.20.030 Notices to Quit.

Prior to or at the same time as the written notice of the landlord's intention to terminate the tenancy required by
Code of Civil Procedure §1161 is served on the tenant of a rental unit, the landlord shall file with the City Clerk an
executed statement in the form provided by resolution of the City Council. (Ord. 4291, 1984; Ord. 4244, 1983.)

26.20.040 Enforcement.

In any action by a landlord to recover possession of a rental unit, the tenant may raise as an affirmative defense
any failure by the landlord to comply with the requirements of Section 26.20.030.

The affirmative defense provided for by this Section shall be null and void upon the execution and filing with the
City Clerk of a Rental Housing Data Collection Form regarding the unit which is the subject of the action. (Ord.
4291, 1984; Ord. 4244, 1983.)
Chapter 26.30

HOUSING DISCRIMINATION

Sections:
- 26.30.010 Findings and Purpose.
- 26.30.035 Occupancy Standards Permitted; Limitations.
- 26.30.040 Exemptions.
- 26.30.050 Penalties/Remedies.

26.30.010 Findings and Purpose.

The City Council finds and declares that:
A. Arbitrary discrimination in rental housing exists in the city.
B. The existence of such discrimination poses a substantial threat to the public health and welfare of a large segment of the community.
C. Such discrimination cuts across all racial, ethnic, and economic lines, but falls most heavily on minority and single-parent families with children.
D. It is consistent with the Housing Element of the General Plan to promote and ensure open and free choice of housing without discrimination.
E. Because housing is a fundamental necessity of life, it is against the public policy of the city to discriminate in rental housing on any arbitrary basis. (Ord. 4446, 1987; Formerly §9.150.010, Ord. 4268, 1984).

For the purposes of this chapter, certain terms are defined as follows:
A. BEDROOM. As defined in Title 28 of this Code.
B. INFANT. A child less than one year of age.
C. LANDLORD. An owner, lessor, or sublessor (including any person, firm, corporation, partner-ship, association, trust, estate or other entity) who receives or is entitled to receive rent for the use of any rental unit, or the authorized agent, representative or successor of any of the foregoing.
D. MINOR CHILD. A natural person under the age of sixteen years.
E. PERSON. An individual, firm, partnership, joint venture, association, corporation, estate or trust.
F. RENTAL UNIT. A dwelling unit, as defined in Section 28.04.260 of this Code, rented or offered for rent for living or dwelling purposes, the land and buildings appurtenant thereto, and all housing services, privileges, furnishings and facilities supplied in connection with the use or occupancy thereof, including garage and parking facilities. This term shall include a dwelling unit in a condominium or similar project.
G. SENIOR ADULT. A person sixty-two years of age or older.
H. UNRUH ACT. The Unruh Civil Rights Act, California Civil Code Sections 51 et seq., as construed by the California Supreme Court and courts of appeal. (Ord. 5459, Section 3, 2008; Ord.4446, 1987; formerly §9.150.020, Ord. 4268, 1984).

26.30.030 Prohibited Activities.

It is unlawful for a person to do or attempt to do any of the following acts, where the act constitutes discrimination on a basis prohibited by the Unruh Act:
A. Refuse to rent or lease a rental unit, refuse to negotiate for the rental or lease of a rental unit, or otherwise deny to or withhold from any person or persons a rental unit.
B. Discriminate against any person in the terms, conditions, or privileges of the rental or lease of a rental unit, or in the provision of services, facilities or benefits in connection therewith. However, nothing in this chapter shall preclude any person from imposing reasonable restrictions on the use of common areas, facilities, and services which are necessary to protect the health and safety of a tenant.
C. Represent to any person that a rental unit is not available for inspection, rental, or lease when such is, in fact, available.
D. Make, print, or publish, or cause to be made, printed, or published any notice, statement, sign, advertisement, application, or contract with regard to a rental unit offered by that person that indicates any preference, limitation, or discrimination.
E. Include in any rental agreement or lease for a rental unit, a clause or condition providing that as a condition of continued tenancy, the tenants shall remain childless or shall not bear children or otherwise not maintain a household with a person of a certain age.
F. Refuse to rent after making a bona fide offer, or to refuse to negotiate for the rental of, or otherwise make
unavailable or deny, rental unit to any person.
G. Discriminate by means of arbitrary occupancy standards. This subsection shall not prohibit enforcement of an occupancy standard in compliance with Section 26.30.035 of this Code.
I. Charge additional rent for persons living in a rental unit.
J. Discriminate by means of arbitrary income restrictions. There is a rebuttable presumption of discrimination where a landlord refuses to rent to a person who can demonstrate by prior rental history or by other means that he or she is able to pay the required rent. (Ord. 4446, 1987; formerly §9.150.030, Ord. 4268, 1984).

26.30.035 Occupancy Standards Permitted; Limitations.

It is unlawful for a person to enforce an occupancy limit unless it satisfies all of the following criteria:
A. It is uniformly imposed on all comparably-sized rental units on the premises.
B. It is conspicuously posted on the premises or contained in a written policy, rule or notice which is given to each tenant and prospective tenant.
C. Minor children are not counted in enforcing the occupancy standard, except that:
   1. No provision of this chapter shall be construed to require a landlord to accept occupancy of a rental unit by more than two persons (including minor children) per bedroom; and
   2. No provision of this Chapter shall be construed to authorize occupancies in violation of the floor-area standards of Section 503(b) of the Uniform Housing Code.
D. It does not apply to infants. (Ord. 4446, 1987.)

26.30.040 Exemptions.

Nothing contained in this chapter shall apply to or be construed to apply to or affect:
A. SENIOR FACILITIES.
   1. A housing project or development where the landlord has publicly established and implemented a policy of renting exclusively to senior adults and their spouses. Deviance from or abandonment of that policy shall automatically terminate this exemption and subject the owner to all the provisions of this Chapter.
   2. A state-licensed residential care facility for the elderly.
B. NURSING HOMES. A state licensed nursing home, convalescent home, or community care facility.
C. OWNER-OCCUPIED UNIT. A rental unit occupied by the owner.
D. SUBLEASES. A rental unit occupied by a tenant who subleases any portion of that accommodation to another tenant.
E. GOVERNMENT HOUSING. A rental unit owned, operated or managed by a governmental agency. (Ord. 4446, 1987; formerly §9.15.0.040; Ord. 4268, 1984).

26.30.050 Penalties/Remedies.

A. CRIMINAL. A violation of this Chapter shall constitute an infraction.
B. CIVIL. Any person who violates the provisions of this Chapter shall be liable (i) to each party injured by such violation for actual damages sustained by such person, costs and reasonable attorneys' fees; and (ii) for civil penalties pursuant to §1.28.050 of this Code. In addition, the court may award punitive damages.
C. INJUNCTIVE RELIEF.
   1. Any person who commits, or proposes to commit, an action in violation of this Chapter may be enjoined therefrom by any court of competent jurisdiction.
   2. Any action for injunctive relief under this Chapter may be brought by the City Attorney, by an aggrieved person, by other law enforcement agencies, by the District Attorney or by any person or entity which will fairly and adequately represent the interests of the protected class. (Ord. 4446, 1987; formerly §9.150.050; Ord. 4268, 1984).

GENERAL PROVISIONS

Sections:
27.01.010 Title.
27.01.020 Authority.
27.01.030 Coverage.
27.01.040 Enforcement.
27.01.050 Severability.

27.01.010 Title.

This title shall be known as the "Subdivision Ordinance of the City of Santa Barbara". (Ord. 3790 §1, 1975.)

27.01.020 Authority.

(a) This ordinance is adopted pursuant to the Subdivision Map Act of the State of California, Title 7, Division 2 of the Government Code, commencing with Section 66410 (hereinafter referred to as the Subdivision Map Act).
(b) Any amendments to the Subdivision Map Act, adopted subsequent to the effective date of this ordinance, shall not invalidate any provisions of this ordinance. Any amendments to the Subdivision Map Act that may be inconsistent with this ordinance shall govern.
(c) This ordinance shall govern in relation to all other ordinances of the City of Santa Barbara and rules and regulations pursuant thereto. In the event of any inconsistency or conflict between the provisions of this ordinance and other provisions of the Municipal Code, the most restrictive shall prevail. (Ord. 3790 §1, 1975.)

27.01.030 Coverage.

(a) The necessity for tentative maps, final maps and parcel maps shall be governed by this section and the Subdivision Map Act.
(b) For subdivisions creating five (5) or more parcels or units, a tentative map and a final map or parcel map shall be required pursuant to this ordinance and the Subdivision Map Act.
   (1) A tentative map and a final map shall be required for all such subdivisions except those coming within the exceptions set forth in Section 66426 of the Subdivision Map Act.
   (2) A tentative map and a parcel map shall be required for all such subdivisions coming within the exceptions set forth in Section 66426 of the Subdivision Map Act.
(d) For subdivisions creating fewer than five (5) parcels or units, a tentative map and a parcel map shall be required containing the information specified by this ordinance and the Subdivision Map Act. Said parcel map shall be filed and recorded according to the procedure set forth in this ordinance.
(e) No tentative map, final map or parcel map shall be required for those specific types of subdivisions exempted by Sections 66412 and 66428 of the Subdivision Map Act.
(f) No tentative map, final map or parcel map shall be required for land conveyed to a public agency or public utility when such conveyance is for public use. (Ord. 3790 §1, 1975.)

27.01.040 Enforcement.

(a) It is unlawful for any person, firm, corporation, partnership or association to offer to sell or lease, contract to sell or lease any subdivision or any part thereof until a final map or a parcel map thereof, in full compliance with the provisions of this ordinance and the Subdivision Map Act, has been duly recorded in the Office of the County Recorder.
(b) Any person, firm, corporation, partnership or association who violates the provisions of this ordinance or any conditions imposed by this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be fined in an amount not exceeding five hundred dollars ($500.00) or be imprisoned for a period not exceeding six (6) months or be both so fined and imprisoned. Each day such violation is committed or permitted to continue shall be punishable as such hereunder.

(c) The Public Works Director shall have the authority to enforce the provisions of this ordinance and the Subdivision Map Act in the City of Santa Barbara.

(d) The City Attorney is authorized to maintain an action to restrain or enjoin any action in violation of this ordinance or the Subdivision Map Act or any of the terms and conditions imposed on the approval of any tentative, final or parcel map.

(e) All departments, officials and public employees of the City, vested with the duty or authority to approve or issue permits, shall conform to the provisions of this ordinance and shall not approve nor issue any permit or license for use, construction, or purpose in conflict with the provisions of this ordinance. Any such permit or license issued in conflict with the provisions of this ordinance shall be null and void.

(f) Pursuant to Section 66499.35 of the Subdivision Map Act, any person owning real property, or a vendee of that person pursuant to a contract of sale of the real property, may request a certificate of compliance to determine whether such real property complies with this ordinance and the Subdivision Map Act. Applications for certificates shall be filed with the City Engineer who shall be responsible for the issuance and recordation of same. The form of the application shall be prescribed by the City Engineer. A non-refundable fee in an amount established by resolution of the City Council shall accompany the application for each lot or parcel for which a certificate is sought. Applications for certificates of compliance shall be processed in accordance with the provisions of section 66499.35 of the Subdivision Map Act.

(g) Any officer or employee of the City who has knowledge that real property has been divided in violation of the Subdivision Map Act or this ordinance shall immediately notify the City Engineer. Upon receipt of said information, the City Engineer shall file with the County Recorder the notice of violation required by Chapter 7 of the Subdivision Map Act.

(h) Illegal subdivisions: No board, commission, officer or employee of the City shall issue any certificate, permit or grant any approval necessary to develop any real property within the City which has been divided, or which resulted from a division, in violation of the provisions of the Subdivision Map Act or of this ordinance. Any such certificate, permit or grant issued in conflict with the provisions of this ordinance or the Subdivision Map Act shall be null and void.

(i) To the extent permissible by the Subdivision Map Act, the aforementioned provisions of this ordinance shall not apply to any subdivision for which a tentative map has been filed with the Community Development Department prior to the effective date of this ordinance when either of the following conditions exists on said effective date:

1. The tentative map is under consideration by the Advisory Agency or City Council and has not been acted upon by the Council; or

2. The tentative map has been approved by the City Council, no final map or parcel map thereof has been filed, and said approval, or any extension thereof, has not expired by lapse of time.

As to any such subdivision, the final map or parcel map shall be filed and processed as provided herein, but in all other respects said subdivision, to the extent permitted by the Subdivision Map Act, shall be governed by the provisions of this ordinance as it read on the day immediately preceding the effective date of this ordinance; provided, that the approval or conditional approval given to maps described in (1) above after the effective date of this ordinance shall expire eighteen (18) months after said approval and shall not thereafter be extended, and the approval given to maps described in (2) above shall not hereafter be extended. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.01.050 Severability.

(a) If any article, section, subsection, paragraph, sentence, clause or phrase of this ordinance, or any part thereof, is for any reason held to be unconstitutional or invalid or ineffective by any court of competent jurisdiction, or other competent agency, such decision shall not affect the validity or effectiveness of the remaining portions of this ordinance or any part thereof. The City Council hereby declares that it would have passed each article, section, subsection, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one (1) or more articles, sections, subsections, paragraphs, sentences, clauses or phrases be declared unconstitutional or invalid or ineffective.

(b) If the application of any provision or provisions of this ordinance to any person, property or circumstances is found to be unconstitutional or invalid or ineffective in whole or in part by any court of competent jurisdiction, or other competent agency, the effect of such decision shall be limited to the person, property or circumstances immediately involved in the controversy, and the application of any such provision to other persons, properties and circumstances shall not be affected.

(c) This section shall apply to this ordinance as it now exists and as it may exist in the future, including all modifications thereof and additions and amendments thereto. (Ord. 3790 §1, 1975.)

#### 27.02.010 General.

In addition to the terms defined in Article 2, Chapter 1 of the Subdivision Map Act, the following definitions shall apply. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

#### 27.02.015 Advisory Agency.

Advisory Agency is the designated official or the official body charged with the duty of making investigations and reports on the design and improvement of proposed divisions of real property, the imposing of requirements or conditions thereon, or having the authority by local ordinance to approve, conditionally approve or disapprove maps. As specified in Chapter 27.03, the Planning Commission and the Staff Hearing Officer shall serve as the Advisory Agency for the City of Santa Barbara. (Ord. 5380, 2005.)

#### 27.02.020 Agent.

Any person, firm, partnership, association, joint venture, corporation or any other entity or combination of entities who represent or act for or on behalf of a developer in selling or offering to sell any subdivision unit. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

#### 27.02.025 Appeal Board.

The Appeal Board is the official body charged with the duty of hearing and making determinations upon appeals with respect to divisions of real property, the imposition of requirements or conditions thereon, or the kinds, nature and extent of the design or improvements, or both, recommended or decided by the Advisory Agency. As specified in Chapter 27.03, the Planning Commission and the City Council shall serve as the Appeal Board for the City of Santa Barbara. (Ord. 5380, 2005.)

#### 27.02.030 Association.

Association means a nonprofit corporation or unincorporated association created for the purpose of managing a common interest development. (Ord. 5380, 2005; Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

#### 27.02.036 Common Area.

Common Area means the entire common interest development except the separate interests therein. (Ord. 5380, 2005; Ord. 3952 §1, 1978.)

#### 27.02.038 Common Interest Development.

Common interest development means any of the following: (1) a community apartment project, (2) a condominium project, (3) a planned development, or (4) a stock cooperative. (Ord. 5380, 2005.)

#### 27.02.040 Community Apartment.

As defined in Section 11004 of the Business and Professions Code. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)
27.02.050  Condominium.

As defined in Sections 783 and 1351 of the Civil Code. (Ord. 5380, 2005; Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.080  Condominium Unit.

The elements of a condominium which are not owned in common with the owners of other condominiums in the project. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.090  General Plan.

The comprehensive General Plan of the City of Santa Barbara together with all specific plans adopted by the City Council. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.100  Lot.

A parcel of land created in conformance with the provisions of the Subdivision Map Act and this Title 27, or that was created in compliance with or exempt from any law, including any City ordinance, regulating the design and improvement of subdivisions in effect at the time the subdivision was established. All newly created lots shall contain at least one building site that complies with the requirements of the Zoning Ordinance and the General Plan. Any parcel hereafter created by lot line adjustment or by division or sale of property not in conformance with the provisions of the Subdivision Map Act and this Title 27 shall not be deemed a lot. (Ord. 5380, 2005; Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.103  Lot Line Adjustment.

A lot line adjustment is the adjustment of the boundary of existing parcels where the number of parcels existing after the adjustment is the same as the number of parcels that existed prior to the adjustment. (Ord. 5380, 2005.)

27.02.105  Organizational Documents.

Organizational Documents are the Declaration of Covenants, Conditions, and Restrictions, articles of incorporation, by-laws, and any contracts for the maintenance, management, or operation of all or any part of a project. (Ord. 3952 §1, 1978.)

27.02.110  Owner.

Any individual, firm, association, syndicate, co-partnership, corporation, trust or any other legal entity having sufficient proprietary interest in the land sought to be subdivided to commence, maintain and complete proceedings to subdivide the same under this ordinance. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.120  Parcel.

A general term including all plots of land shown with separate identification on the latest Equalized County Assessment Roll. Parcels may or may not be lots, depending upon whether or not such parcels are created as herein provided. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.140  Project.

For purposes of this Title 27, project means a common interest development or a subdivision. (Ord. 5380, 2005; Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.150  Public Utilities.

The general classification for public water, gas, sewer, electrical, cable television and telephone lines and facilities; does not include natural or improved drainage facilities. (Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.155  Public Works Director.

Public Works Director means the Public Works Director or any of his deputies or assistants. (Ord. 3952 §1, 1978.)
27.02.165 Recreational Open Space.

Recreational Open Space is open space on the project (exclusive of the required front setback area and driveway), which shall be used exclusively for leisure and recreational purposes, for the use and enjoyment of occupants (and their visitors) of units on the project and to which such occupants (and their visitors) shall have the right of use and enjoyment. Accessory structures such as swimming pools, recreational buildings, and landscaped areas may be included as open space. (Ord. 3952 §1, 1978.)

27.02.168 Staff Hearing Officer.

The Staff Hearing Officer means the Community Development Director or his or her designee. For purposes of this Title 27, the Staff Hearing Officer shall serve as the Advisory Agency for the City as specified in Chapter 27.03. (Ord. 5380, 2005.)

27.02.170 Stock Cooperative.

Stock cooperative means a development in which a corporation is formed or availed of, primarily for the purpose of holding title to, either in fee simple or for a term of years, improved real property, and all or substantially all of the shareholders of the corporation receive a right of exclusive occupancy in a portion of the real property, title to which is held by the corporation. (Ord. 5380, 2005; Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

27.02.180 Tree.

A woody, self-supporting, main trunk, perennial plant. (Ord. 5380, 2005; Ord. 3952 §1, 1978; Ord. 3790 §1, 1975.)

Chapter 27.03
GENERAL PROCEDURAL PROVISIONS

Sections: 27.03.010 Advisory Agency. 27.03.020 Appeal Board. 27.03.030 Public Hearing Procedures. 27.03.040 Fees.

27.03.010 Advisory Agency.

The Planning Commission or the Staff Hearing Officer shall serve as the Advisory Agency for the City of Santa Barbara as designated below:

A. THE PLANNING COMMISSION. The Planning Commission is hereby designated as the Advisory Agency for the purposes of this Title 27 and the Subdivision Map Act, except as such duties are assigned to the Staff Hearing Officer pursuant to Subsection B below.

B. THE STAFF HEARING OFFICER. The Staff Hearing Officer is hereby designated as the Advisory Agency for the purposes of this Title 27 and the Subdivision Map Act for the following types of applications, unless the application requires another discretionary approval from the Planning Commission under any other provision of this Code:

1. Lot line adjustments between four (4) or fewer existing adjoining parcels, where the land taken from one parcel is added to an adjoining parcel, and where a greater number of parcels than originally existed is not thereby created.

2. Subdivisions that will result in four (4) or fewer parcels or condominium units, unless any of the following conditions apply to the application:
   a. Any portion of the real property within the proposed subdivision is located in a Hillside Design District, as defined in Chapter 22.68 of this Code;
   b. The proposed subdivision requires a public street waiver pursuant to Section 22.60.300 of this Code;
   c. Any of the following creeks traverse or are immediately adjacent to the proposed subdivision: Arroyo Burro Creek, Arroyo Hondo Creek, Cieneguitas Creek, Laguna Creek/Channel, Lighthouse Creek, Mission Creek or Sycamore Creek, or their tributaries as shown on the City of Santa Barbara Creek and Tributaries Map for Tentative Subdivision Maps that require Planning Commission action adopted by resolution of the City Council.
3. Residential condominium conversions pursuant to Chapter 28.88 of this Code involving four (4) or fewer residential units.
4. New commercial condominiums of up to 3,000 square feet of floor area.
5. Non-residential condominium conversions.
6. Requests for extensions of the time at which an approved tentative map expires for all approved tentative maps. (Ord. 5380, 2005.)

27.03.020 Appeal Board.

The Planning Commission or the City Council shall serve as the Appeal Board for the City of Santa Barbara as designated below:

A. THE PLANNING COMMISSION. The Planning Commission is hereby designated as the Appeal Board charged with the duty of hearing and making determinations upon appeals from decisions of the Staff Hearing Officer serving as the Advisory Agency. Decisions of the Planning Commission acting as the Appeal Board may be appealed to the City Council.

B. THE CITY COUNCIL. The City Council is hereby designated as the Appeal Board charged with the duty of hearing and making determinations upon appeals from decisions of the Planning Commission serving as the Advisory Agency or the Appeal Board. (Ord. 5380, 2005.)

27.03.030 Public Hearing Procedures.

Whenever a provision of this Title 27 or the Subdivision Map Act requires a public hearing, notice of such public hearing shall comply with the following provisions:

A. REQUIRED METHODS OF NOTICE. Notice shall be given in each of the following ways:
   1. Notice of the hearing shall be sent by first class mail at least 10 calendar days prior to the hearing to the owner of the subject real property or the owner's duly authorized agent, and to the project applicant;
   2. Notice of the hearing shall be sent by first class mail at least 10 calendar days prior to the hearing to all owners of real property as shown on the latest equalized assessment roll within 300 feet of the real property that is the subject of the hearing. If the number of owners to whom notice would be mailed pursuant to this paragraph is greater than 1,000, the City, in lieu of mailed notice, may provide notice by placing a display advertisement of at least one-eighth page in at least one newspaper of general circulation within the City at least 10 calendar days prior to the hearing; and
   3. Notice of the hearing shall be published once in a newspaper of general circulation within the City at least 10 calendar days prior to the hearing.

B. SUPPLEMENTAL METHODS OF NOTICE. In addition to the required methods of notice specified in Subsection A above, the City may also require notice of the hearing in any other manner it deems necessary or desirable, including, but not limited to, posted notice on the project site. Such additional noticing methods are only intended to supplement the required methods of notice specified in Subsection A above, and the claim of any person or entity that they did not receive such supplemental notice or that supplemental notice was not given pursuant to this Subsection B shall not constitute grounds for any court to invalidate the actions of the City for which the notice was given.

C. CONTENT OF NOTICE. The notice shall include all of the following information:
   1. The date, time, and place of the public hearing;
   2. The identity of the hearing body or officer;
   3. A general explanation of the matter to be considered; and
   4. A general description, in text or by diagram, of the location of the real property, if any, that is the subject of the hearing.

D. REQUEST FOR NOTICE. When a provision of this Chapter or the Subdivision Map Act requires a public hearing, notice of such public hearing shall also be mailed at least 10 days prior to the hearing to any person who has filed a written request for notice with either the City Clerk or with any other person designated to receive such requests. The City may charge a fee for providing this service as set by resolution of the City Council. Any request to receive such notice shall be renewed annually. The members of the Planning Commission shall receive notice of all public hearings scheduled before the Staff Hearing Officer.

E. CONTINUANCES. Any public hearing noticed pursuant to this Section may be continued to a time certain without further notice. (Ord. 5380, 2005.)

27.03.040 Fees.

A processing fee in an amount established by resolution of the City Council shall be paid for every application filed pursuant to this Title 27. Such fee will be due and payable at the time the application is filed unless another time is specified by this Code or by resolution of the City Council. This processing fee shall be charged in addition to any other fees required by any other provision of this Code. (Ord. 5380, 2005.)
Chapter 27.04

SPECIAL PROVISIONS

Sections:
27.04.010 Special Treatment Areas.

27.04.010 Special Treatment Areas.

The City Council has recognized that the general provisions, definitions, procedures, improvements and design requirements, standards and principles set out in this ordinance, although adequate for most subdivisions, need modification and supplementation to protect and preserve the public health, safety, welfare and/or wildlife in regard to certain areas. The Council further recognized that when many areas are subdivided or developed such features as hillside terrain, special soil and geologic conditions, water frontage, highly combustible native vegetation and other conditions may cause one or more serious consequences such as increased fire, flood and erosion hazards, traffic circulation problems, property damage from expansive soil, slippage, subsidence, or seismic disturbance, and adverse effects on the economy of the community from destruction of the natural scenic beauty. Therefore, upon a finding of Council that any of the aforementioned conditions do exist, a parcel or parcels may be designated a special treatment area subject to the special terms, requirements and conditions established by the City Council or the Advisory Agency. Determination of special treatment consideration shall occur prior to the filing date for the tentative map. (Ord. 3790 §1, 1975.)

Chapter 27.05

DEDICATIONS AND RESERVATIONS

Sections:
27.05.010 Public Easements.
27.05.020 School Site Dedication.

27.05.010 Public Easements.

(a) Public Easements. As a condition of approval of a map, the subdivider shall dedicate or make an irrevocable offer of dedication of all parcels of land within the subdivision or development that are needed for streets, alleys, including access rights and abutters' rights, drainage, public utility easements, and other public easements. The subdivider shall improve or agree to improve all streets, alleys, including access rights and abutters' rights, drainage, public utility easements and other public easements.

(b) Bicycle Paths. As a condition of approval of a map containing two hundred (200) or more parcels, whenever the subdivider is required to dedicate roadways to the public pursuant to §27.05.010(a), he may also be required to dedicate such additional land as may be necessary and feasible to provide bicycle paths for the use and safety of the residents of the subdivision.

(c) Waiver of Direct Access to Streets. A condition of approval of a map may impose a requirement that any dedication or offer of dedication of a street shall include a waiver of direct access rights to such street from any property shown on a final map as abutting thereon, and that if the dedication is accepted such waiver shall become effective in accordance with the provisions of the waiver of direct access. (Ord. 3790 §1, 1975.)

27.05.020 School Site Dedication.

As a condition of approval of a map, the subdivider may be required to dedicate to the school district, or districts, within which the subdivision is to be located, such land as the City Council shall deem to be necessary for the purpose of constructing thereon such elementary schools as are necessary to assure the residents of the subdivision adequate public school service. The procedures and conditions of such dedication shall be in accordance with Article 3 of Chapter 4 of the Subdivision Map Act. (Ord. 3790 §1, 1975.)
27.05.030 Reservations.

(a) **Requirements.** As a condition of approval of a map, the subdivider shall reserve sites, appropriate in area and location, for parks, recreational facilities, fire stations, libraries or other public uses according to the standards and formula contained in this section.

(b) **Standards and Formula for Reservation of Land.** Where a park, recreational facility, fire station, library, or other public use is shown on an adopted specific plan or adopted General Plan containing a community facilities element, recreation and parks element and/or a public building element, the subdivider may be required by the City to reserve sites as so determined by the City in accordance with the definite principles and standards contained in the above specific plan or General Plan. The reserved area must be of such size and shape as to permit the balance of the property within which the reservation is located to develop in an orderly and efficient manner. The amount of land to be reserved shall not make development of the remaining land held by the subdivider economically unfeasible. The reserved area shall conform to the adopted specific plan or General Plan and shall be in such multiples of streets and parcels as to permit an efficient division of the reserved area in the event that it is not acquired within the prescribed period.

(c) **Procedure.** The public agency for whose benefit an area has been reserved shall at the time of approval of the final map or parcel map enter into a binding agreement to acquire such reserved area within two (2) years after the completion and acceptance of all improvements, unless such period of time is extended by mutual agreement.

(d) **Payment.** The purchase price shall be the market value thereof at the time of the filing of the tentative map plus the taxes against such reserved area from the date of the reservation and any other costs incurred by the subdivider in the maintenance of such reserved area, including interest costs incurred on any loan covering such reserved area.

(e) **Termination.** If the public agency for whose benefit an area has been reserved does not enter into such a binding agreement, the reservation of such area shall automatically terminate. (Ord. 3790 §1, 1975.)

---

Chapter 27.06

PUBLIC FACILITIES FEES

**Sections:**
27.06.010 Drainage and Sewer Facilities.
27.06.020 Bridge Crossings and Major Thoroughfares.

27.06.010 Drainage and Sewer Facilities.

(a) **Payment of Fees Required.** Prior to filing of any final map or parcel map, the subdivider shall pay or cause to be paid any fees for defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas or sanitary sewer facilities for local sanitary sewer areas established pursuant to Section 66483 of the Government Code. (Ord. 3790 §1, 1975.)

27.06.020 Bridge Crossings and Major Thoroughfares.

(a) **Purpose.** The purpose of this section is to make provision for assessing and collecting fees as a condition of approval of a final map or as a condition of issuing a building permit for the purpose of defraying the actual or estimated costs of constructing bridges or major thoroughfares pursuant to Section 66484 of the Government Code.

(b) **Payment of Fees Required.** Prior to filing any final map or parcel map, the subdivider shall pay or cause to be paid any fees established by the City pursuant to Section 66484 of the Government Code to defray the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares. (Ord. 3790 §1, 1975.)
Chapter 27.07

TENTATIVE MAPS

Sections:

27.07.010 General. 27.07.080 Advisory Agency Action.
27.07.020 Pre-Application Conference. 27.07.090 Appeals and Suspensions.
27.07.030 Tentative Map Requirements. 27.07.100 Requirements for Approval.
27.07.040 Non-Compliance. 27.07.110 Expiration and Extensions of Tentative Maps.
27.07.050 Optional Report.
27.07.070 Staff Review and Referral.

27.07.010 General.

All divisions of land that require a final or parcel map pursuant to any provision of this Title 27 or the Subdivision Map Act shall require the submission of a tentative map. The procedures set forth in this chapter shall govern the filing, processing, approval, conditional approval or disapproval of tentative maps for all divisions of land. (Ord. 5380, 2005; Ord. 4494, 1988; Ord. 3790, 1975.)

27.07.020 Pre-Application Conference.

Prior to the filing of a tentative map for a project where the Planning Commission is designated as the Advisory Agency pursuant to Section 27.03.010, the subdivider shall apply to the Community Development Department for conceptual evaluation by the Pre-Application Review Team of a preliminary map, plan or other data concerning a proposed subdivision. This conceptual review does not constitute a filing. The Pre-Application Review Team, whose membership is outlined in Section 27.07.070(b), sits at such time only to advise the developer in proceeding with his project. (Ord. 5380, 2005; Ord. 4494, 1988; Ord. 3790, 1975.)

27.07.030 Tentative Map Requirements.

(a) Tentative maps shall be prepared by a registered civil engineer, or licensed surveyor, or by a licensed architect insofar as such maps fall within the practice of architecture.

(b) The tentative map shall be clearly and legibly drawn. The dimensions of the map shall be eighteen inches (18") by twenty-six inches (26") or multiples thereof. The scale of the map shall be large enough (not smaller than one inch (1") equals one hundred feet (100')) to show clearly all details thereof, and shall contain the following information:

(1) Total acreage of the subdivision; subdivision number; north point; basis of elevation (using the City datum) and the basis of bearing used in survey; scale; date; boundary lines; existing and proposed lot lines; approximate dimensions and areas of proposed lots; proposed land use; land use zone district; identification of adjoining subdivisions or parcels.

(2) Name, address, telephone number and signature of the owner and subdivider; name, address, telephone number and registration or license number of the preparer of the map.

(3) Contours at five foot (5') intervals, smaller intervals may be required by the Chief of Building and Zoning. Contours shall extend one hundred feet (100') beyond the boundary of the subdivision when necessary to determine the adequacy of the proposed subdivision design.

(4) Location, name, width, approximate grades, cross sections of improvements, and approximate radii of curves of existing and proposed streets and alleys, including adjacent streets; location of street lights to be installed; proposed bikeways and trails.

(5) Existing culverts and drain pipes in subdivision and contiguous areas; approximate boundaries of land subject to overflow, inundation or flood hazard; the location, width, and direction of flow of all watercourses in the subdivision and contiguous area; proposed drainage facilities.

(6) Proposed water system and source of water supply; proposed sewer system including elevations at proposed connections; proposed fire protection system.

(7) Location, width and purpose of all existing and proposed rights-of-way and easements; railroads; land for park and recreational areas and other public uses to be dedicated or reserved for public use.

(8) Existing structures within the proposed subdivision; those setback lines that are different from or in addition to those required by the Zoning Ordinance; existing trees larger than four inches (4") in diameter measured two feet (2') above the base.

(9) Location of all existing public utility facilities; location of any proposed above ground collective public utility facilities. (Ord. 3790 §1, 1975.)
27.07.040 Non-Compliance.

The subdivider shall list on the tentative map any proposed noncompliance with the Municipal Code, the General Plan, and any applicable specific plans. Failure to do so shall be evidence that full compliance with the provisions of this ordinance is intended and no variance or waiver of any provisions of the Municipal Code, General Plan or specific plans is contemplated as a condition of approval. (Ord. 3790 §1, 1975.)

27.07.050 Optional Report.

In addition to the tentative map, the subdivider may submit a supplemental report containing any additional information pertinent to the consideration by the Advisory Agency. Such reports may include: covenants to be recorded, special land uses proposed, or an explanation of noncompliance as listed on the tentative map. (Ord. 3790 §1, 1975.)

27.07.070 Staff Review and Referral.

A. The Pre-Application Review Team shall meet to review the project and associated reports and advise applicants of City standards for subdivisions.

B. The following City officials shall be members of the Pre-Application Review Team: Chief Building Official, Water Resources Manager, City Engineer, City Planner, Transportation Engineer, and Fire Chief. Other City officers and their assistants or deputies may sit as advisory members.

C. Applicants and their representatives shall be entitled to adequate notice of the meetings, to be present at meetings, and to discuss with the Team its recommendations and proposed reports. The Pre-Application Review Team is hereby authorized to establish such additional rules of procedure as it deems necessary and appropriate to carry on its business. (Ord. 5380, 2005; Ord. 4494, 1988; Ord. 3790, 1975.)

27.07.080 Advisory Agency Action.

A. **PUBLIC HEARING.** Prior to taking any action on an application for a tentative map, the Advisory Agency shall conduct a public hearing at which time the Advisory Agency shall: (1) receive a report on the design and improvement of the proposed subdivision from the Community Development Department with staff recommendations, (2) at the election of the applicant, receive a presentation regarding the proposed subdivision, and (3) receive public comment from interested persons. Following the close of the public hearing, the Advisory Agency shall approve, conditionally approve or disapprove the tentative map for the proposed subdivision.

B. **COMPATIBILITY CRITERIA.** In the course of taking action on an application for a tentative map, the Advisory Agency shall take into consideration the comments of the Architectural Board of Review provided pursuant to the requirements of Section 22.68.045 or the comments of the Historic Landmarks Commission provided pursuant to Section 22.22.145 (as the appropriate case may be) and, in issuing a decision on the application for a tentative map, the Advisory Agency shall provide a written indication on how the ABR or HLC comments affected the Advisory Agency's decision.

C. **TIME FOR CONSIDERATION.** The time limits for reporting and acting on tentative maps shall be consistent with the Subdivision Map Act and any other pertinent state law. The time limits specified in this Section for reporting and acting on tentative maps may be extended by mutual consent of the subdivider and the Advisory Agency. In the event the Advisory Agency continues its consideration of a map beyond such time limit, the consent of the subdivider to such extension shall be presumed when the subdivider has notice of the continuance and fails to file a timely protest.

D. **AUTHORITY.** The Advisory Agency is authorized to require dedications or reservations of land within the subdivision for public uses such as streets, highways, parks, schools, drainage, flood control, access easements or other uses as a condition for the approval of the tentative map. (Ord. 5464, 2008; Ord. 5380, 2005; Ord. 4494, 1988; Ord. 4066, 1980; Ord. 3790, 1975.)

27.07.090 Appeals and Suspensions.

A. **FROM DECISIONS OF THE STAFF HEARING OFFICER.**

1. **Suspensions.** The Chairperson, Vice Chairperson or other designated member of the Planning Commission may take action to suspend any decision of the Staff Hearing Officer serving as the Advisory Agency and to schedule a public hearing before the Planning Commission to review said decision. The notice of suspension must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision. The Community Development Department shall prepare a report to the Planning Commission with Staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. In the case of such suspension and review of the Staff Hearing Officer's decision, the Planning Commission shall serve as the Advisory Agency. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer.
2. Appeals. The decisions of the Staff Hearing Officer serving as the Advisory Agency may be appealed to the Planning Commission serving as the Appeal Board by the applicant or any interested party adversely affected by the decision of the Advisory Agency. The appeal must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision unless a longer appeal period is allowed for other actions taken concurrently with the decision on the application, in which case the longer appeal period shall prevail. The appellant shall state specifically in the appeal how the decision of the Staff Hearing Officer is not in accord with the provisions of this Title or the Subdivision Map Act or how it is claimed that there was an error or an abuse of discretion by the Staff Hearing Officer. The Community Development Department shall prepare a report to the Planning Commission with staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer following a public hearing. When acting as the Appeal Board, the Planning Commission shall comply with the requirements of Subsection B of Section 27.07.080 of this Code regarding the consideration of compatibility criteria in the course of its action on the application. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant.

B. FROM DECISIONS OF THE PLANNING COMMISSION. The decisions of the Planning Commission, including decisions on suspensions or appeals from decisions of the Staff Hearing Officer, may be appealed to the City Council serving as the Appeal Board by the applicant or any interested party adversely affected by the decision of the Planning Commission. The appeal must be filed with the City Clerk within ten (10) calendar days of the date of the Planning Commission's decision unless a longer appeal period is allowed for other actions taken concurrently with the decision on the application, in which case the longer appeal period shall prevail. The appellant shall state specifically in the appeal how the decision of the Planning Commission is not in accord with the provisions of this Title or the Subdivision Map Act or how it is claimed that there was an error or an abuse of discretion by the Planning Commission. Prior to the hearing on said appeal, the City Clerk shall inform the Community Development Department that an appeal has been filed thereon, and the Community Development Department shall prepare a report to the City Council with staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Planning Commission's decision. The City Council shall affirm, reverse, or modify the decision of the Planning Commission following a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Planning Commission; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant.

C. TIME FOR CONSIDERATION. The time limits for acting on appeals from decisions of the Advisory Agency regarding tentative maps shall be consistent with the Subdivision Map Act and any other pertinent state law. The time limits for acting on suspensions shall conform with the time limits for appeals. The time limits specified in this Section for reporting and acting on tentative maps may be extended by mutual consent of the subdivider and the Appeal Board.

D. FEES. Each appeal shall be accompanied by the appeal fee in the amount established by resolution of the City Council. No fee shall be charged for a suspension of a Staff Hearing Officer action by the Chairperson, Vice Chairperson or other designated member of the Planning Commission. (Ord. 5464, 2008; Ord. 5380, 2005; Ord. 4494, 1988; Ord. 4195, 1983; Ord. 4066, 1980; Ord. 3955, 1978; Ord. 3790, 1975.)
g. The design of the development or the type of improvement will conflict with easements, acquired by the public at large, for access through or use of property within the proposed development; provided however, approval may be granted if it is found that alternative easements, for access of or use, will be provided, and that these will be substantially equivalent to the ones previously acquired by the public.

D. ACCESS TO PUBLIC RESOURCES. Approval shall be denied to any map which does not provide for, have available, or offer dedication of reasonable public access to public natural resources as required by Article 3.5 of Chapter 4 of the Subdivision Map Act.

E. WATER QUALITY REQUIREMENTS. Approval may be denied to any map if discharge of waste from the proposed development into an existing community sewer system would result in violation of existing requirements prescribed by a California regional water quality control board. The determination of water quality control requirements relating to every subdivision shall be made at the time of map approval consideration. (Ord. 5380, 2005; Ord. 4494, 1988; Ord. 3790, 1975.)

27.07.110 Expiration and Extensions of Tentative Maps.

A. EXPIRATION. The approval or conditional approval of a tentative map shall expire twenty-four (24) months from the date the map was approved or conditionally approved.

B. EXTENSION. The subdivider may request an extension of the tentative map approval or conditional approval by written application to the Staff Hearing Officer filed with the Community Development Department, such application to be filed before the expiration of the tentative map. The application shall state the reasons for requesting the extension. The Staff Hearing Officer shall grant or deny the request for an extension. In granting an extension, the Staff Hearing Officer may impose new conditions or revise existing conditions.

C. APPEAL. If the Staff Hearing Officer denies the subdivider's application for an extension, the subdivider may appeal said denial to the City Council within fifteen (15) days after the Staff Hearing Officer action.

D. TIME LIMIT ON EXTENSIONS. An extension or extensions of tentative map approval or conditional approval shall not exceed an aggregate of three (3) years beyond the expiration of the twenty-four (24) month period provided in Subsection A above.

E. EFFECT OF MAP MODIFICATION ON EXTENSION. Modification of a tentative map after approval or conditional approval shall not extend the time limits imposed by this section.

F. LITIGATION TOLLING PURSUANT TO THE SUBDIVISION MAP ACT. The period of time specified in this section for the validity of a tentative map, including any extension thereof, granted pursuant to the state Subdivision Map Act, shall not include the period of time during which a lawsuit involving the approval or conditional approval of the tentative map is or was pending in a court of competent jurisdiction, provided that such litigation tolling does not exceed a period of five (5) years.

For the purposes of compliance with subsection (c) of Government Code Section 66452.6 (a part of the state Subdivision Map Act), this subsection shall be deemed the local agency’s express approval of the tolling of the period of time during which a tentative map’s approval is subject to litigation. The Community Development Director may adopt administrative procedures for requiring an applicant to advise the City of litigation challenging the validity of a tentative map’s approval or conditional approval and for documenting the period of time involved in such litigation. (Ord. 5537, 2010; Ord. 5380, 2005; Ord. 4494, 1988; Ord. 4135, 1982; Ord. 3790, 1975.)
Chapter 27.08

IMPROVEMENT REQUIREMENTS

Sections:
27.08.010 General. 27.08.030 Construction.
27.08.020 Improvement Plans. 27.08.040 Improvement Reimbursement.
27.08.025 Underground Utilities Required. 27.08.050 Maintenance of Improvements.

27.08.010 General.

(a) The subdivider shall provide for the construction and installation of all improvements in the subdivision.
(b) The improvements shall be constructed and installed in compliance with the Subdivision Design and Improvement Standards prescribed by resolution of the City Council which standards are incorporated herein by reference. Said standards have been prepared in booklet form and are available for public use and examination in the Office of the City Clerk. (Ord. 3790 §1, 1975.)

27.08.020 Improvement Plans.

(a) Prior to filing the final or parcel map, the subdivider shall submit to the City Engineer for approval improvement plans for all improvements required as a condition of the approval of the tentative map.
(b) Improvement plans shall be prepared under the direction of a registered civil engineer.
(c) Improvement plans shall conform to the Subdivision Design and Improvement Standards.
(d) Within twenty (20) days after submittal by the subdivider’s engineer the City Engineer shall return to the subdivider a set of the submittal improvement plans noting thereon his approval, disapproval or conditional approval of said plans. This time limit may be extended by mutual agreement. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.08.025 Underground Utilities Required.

All service connections, new distribution facilities and related facilities for electrical, telephone, street lighting, communication, and cable television to serve newly created subdivisions shall be located underground and this requirement shall be a condition of approval for all such subdivisions except for utility wires, poles and related facilities if (i) said utility wires, poles and related facilities exist at the time of approval of a tentative subdivision map by the Advisory Agency or the Appeal Board on appeal, (ii) the property owner obtains a hardship waiver pursuant to Chapter 22.38 of the Code or relief under Section 22.38.065 and (iii) there is compliance with all conditions of the waiver, including but not limited to payment of fees. (Ord. 5380, 2005; Ord. 4907, 1995; Ord. 4399, 1986; Ord. 4318, 1985.)

27.08.030 Construction.

(a) No construction shall commence until the improvement plans have been submitted to the City Engineer and have been approved by him.
(b) Construction of improvements which are to be accepted by the City for maintenance shall be subject to inspection by the City Engineer.
(c) Any work done by the subdivider prior to approval of the improvement plans, including changes thereto, or without the inspection and testing required by the City Engineer is subject to rejection. Such work shall be deemed to have been done at the risk and peril of the subdivider.
(d) Installation of underground facilities. All underground facilities including sewerage and drainage facilities and excepting survey monuments installed in streets, alleys or pedestrian ways shall be constructed prior to the surfacing of such streets, alleys or pedestrian ways. Service connections for all underground utilities and sewers shall be laid to such lengths as will obviate the necessity for disturbing the street, alley or pedestrian way when service connections are completed to properties in the subdivision. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.08.040 Improvement Reimbursement.

As a condition of approval of a tentative map, it may be required that improvements installed by the subdivider for the benefit of the subdivision be of a supplemental size, capacity or number for the benefit of property not within the subdivision, and that said improvement be dedicated to the public. If such a condition is imposed, provisions shall be made for reimbursement to the subdivider in the manner provided by Article 6 of Chapter 4 of the Subdivision Map Act. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.08.050 Maintenance of Improvements.

All improvements required to be constructed and installed pursuant to this ordinance shall be maintained in a manner satisfactory to the City Engineer until all lots in the subdivision have been sold. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)
Chapter 27.09

FINAL AND PARCEL MAPS

Sections:

27.09.010 General.
27.09.020 Preparation of Final and Parcel Maps.
27.09.030 Contents.
27.09.040 Accompanying Data.
27.09.050 Review by City Engineer.
27.09.060 City Council Action.
27.09.070 Agreement to Complete Required Improvements.
27.09.080 Transmittal of Map.

27.09.010 General.

In accordance with Article 1 of Chapter 2 of the Subdivision Map Act, a final map shall be required for all subdivisions creating five (5) or more parcels, five (5) or more condominiums, or a community apartment project containing five (5) or more parcels except under those circumstances listed in Section 66426 of the Subdivision Map Act. Parcel maps are required for all divisions of land not requiring a final map except as exempted by Sections 66412 and 66428 of the Subdivision Map Act. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.09.020 Preparation of Final and Parcel Maps.

Subsequent to the approval or conditional approval of a tentative map by the Advisory Agency or the Appeal Board, the subdivider shall cause a final or parcel map and all other maps and plans in connection therewith to be prepared by a registered civil engineer or licensed land surveyor in accordance with a completed survey of the subdivision, in substantial compliance with the approved tentative map, and in full compliance with State law and the Municipal Code. For parcel maps, in lieu of a completed survey of the subdivision, the map may be compiled from recorded or filed data when sufficient survey information exists on filed maps to locate and retrace the exterior boundary lines of the parcel map if the location of at least one (1) of these boundary lines can be established from an existing monumented line. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.09.030 Contents.

The contents and form of final maps shall be governed by Article 2 of Chapter 2 of the Subdivision Map Act. The contents and form of parcel maps shall be governed by Article 3 of Chapter 2 of the Subdivision Map Act. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.09.040 Accompanying Data.

(a) The final or parcel map and construction plans shall be accompanied by such certifications, test results, reports, and other data required to establish compliance with conditions of approval of the tentative map and all provisions of the Municipal Code and applicable State law.

(b) In addition to the requirements described in the Subdivision Map Act, the final or parcel map shall contain or be accompanied by the following information:

1. A title sheet. Below the title shall be a subtitle consisting of a general description of all the property being subdivided, by reference to deeds, subdivisions, or sectional surveys. References to tracts and subdivisions shall be identical to the original records, with proper notation as to the book and page of the record. The map shall give the basis of bearing, north point, scale, graphic scale and location of setback lines different from or in addition to those required by the Zoning Ordinance. Maps filed for the purpose of reverting subdivided land to acreage shall be conspicuously so marked.

2. Easements and rights-of-way. The final or parcel map shall show all easements to which the lots are subject. The easements shall be clearly identified and proper reference to the records given. Easements being dedicated shall be so indicated in the certificate of dedication. If the easement is not definitely located of record, a statement as to the easement shall appear on the title sheet.

3. Accompanying data. The final or parcel map shall be accompanied by:

   A. Where applicable, traverse sheets and work sheets showing the closure, within allowable limits of error, of the exterior boundaries and of each block and lot of the subdivision.

   B. A final grading plan, where required by the Advisory Agency or Appeal Board, including slope protection specifications.

   C. A copy of the protective covenants, if any, to be recorded.

   D. All fees, bonds or guarantees required by the provisions of the Subdivision Map Act and this ordinance.

   E. A letter from each of the various utility companies stating that service is available to the subdivision.

4. Fees. All fees for map checking, plan checking and inspection shall be established by resolution of the City Council. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)
27.09.050 Review by City Engineer.

Prior to the submission of a final or parcel map to the City Council for approval, the final or parcel map and accompanying data which satisfy the Subdivision Map Act and the Municipal Code shall be submitted to the City Engineer. Once all required fees have been paid and all required maps, plans, calculations, and other data have been filed with the Public Works Department, the City Engineer shall examine the final or parcel map and the accompanying data as to correctness of surveying data and computations, and such other matters as require checking to insure compliance with the provisions of State law and the Municipal Code. Within twenty (20) days of receipt of the final or parcel map and all required accompanying data, the City Engineer shall either (1) endorse his approval and transmit one (1) copy to the City Council and one (1) copy to the Community Development Department, together with such other matters as are required to enable the City Council to consider the map, or (2) return the map to the subdivider, together with a statement setting forth the grounds for its return. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.09.060 City Council Action.

(a) The City Council shall, within a period of ten (10) days after its receipt of the final or parcel map for approval or at its next regular meeting after the meeting at which it receives the map, whichever is later, approve the map if it conforms to all the requirements of the Subdivision Map Act and the Municipal Code applicable at the time of approval or conditional approval of the tentative map and any rulings made thereunder or, if it does not so conform, disapprove the map. The City Council shall not deny approval of a final or parcel map if there is a previously approved tentative map for the proposed subdivision and if it finds that the final or parcel map is in substantial compliance with the previously approved tentative map.

(b) If the City Council does not approve or disapprove the map within the prescribed time, or any authorized extension thereof, and the map conforms to all said requirements and rulings, it shall be deemed approved, and the Clerk of the City Council shall certify its approval thereon. (Ord. 3790 §1, 1975.)

27.09.070 Agreement to Complete Required Improvements.

If, at the time of approval of the final or parcel map by the City Council, any public improvements required by the City pursuant to the provisions of the Subdivision Map Act or the Municipal Code have not been completed and accepted in accordance with standards established by the City and applicable at the time of approval or conditional approval of the tentative map, the City Council, as a condition precedent to the approval of the final or parcel map, shall require the subdivider to enter into one (1) of the following agreements:

(a) An agreement with the City upon mutually agreeable terms to thereafter complete such improvements at the subdivider's expense.

(b) An agreement with the City to thereafter (1) initiate and consummate proceedings under an appropriate special assessment act for the financing and completion of all such improvements, or (2) if not completed under such special assessment act, to complete such improvements at the subdivider's expense.

Performance of such agreements described herein shall be guaranteed by a security specified in Chapter 5 of the Subdivision Map Act and Section 27.11.030 of this ordinance. (Ord. 3790 §1, 1975.)

27.09.080 Transmittal of Map.

Subsequent to the approval of the final or parcel map by the City Council and the execution of required agreements, the City Clerk shall transmit the map to the Clerk of the County Board of Supervisors or County Recorder in accordance with Article 6 of Chapter 3 of the Subdivision Map Act. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)
Chapter 27.10
MONUMENTS

Sections:
27.10.010 General.  27.10.060 Replacement of Destroyed Monuments.
27.10.020 Boundary Monuments.  27.10.070 Survey Data and Information to be Shown on Final or Parcel Map.
27.10.030 Interior Monuments.  27.10.080 Survey Control Network.
27.10.040 Deferred Monuments.
27.10.050 Monument Type and Positioning.

27.10.010 General.

(a) The provisions in this chapter shall govern the monumentation required for final and parcel maps.
(b) In making the survey of a subdivision for a final or parcel map, the engineer or surveyor shall set sufficient permanent monuments so that the survey, or any part thereof, may be readily retraced. The survey shall include measured connections (ties) into the City's Survey Control Network approved by the City Engineer, in accord with the provisions of Section 27.10.080 of this Code. (Ord. 5120, 1999; Ord. 3790 §1, 1975.)

27.10.020 Boundary Monuments.

(a) Monuments shall be set on the exterior boundary of the subdivision at all corners, angle points, beginnings and ends of curves and at intermediate points approximately one thousand feet (1,000') apart. The locations of inaccessible points may be established by ties and shall be so noted on the final map or parcel map.
(b) All exterior boundary monuments shall be set prior to recordation of the final or parcel map unless extensive grading operations or improvement work makes it impractical to set such monuments. In the event any or all of the boundary monuments are to be set after recordation of the final map or parcel map, prior to the submission of such map to the City Engineer for filing, the engineer or surveyor making the survey shall, in addition to furnishing field notes showing the boundary survey, furnish evidence acceptable to the City Engineer to substantiate his reasons for deferring the setting of such monuments until after recordation of such map. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.10.030 Interior Monuments.

Monuments shall be set at all block and lot corners and angle points and at the beginnings and ends of curves, and along street and alley centerlines at the beginnings and ends of curves, at points of intersection with centerlines of other existing and proposed streets and alleys, and at the points of intersection with the exterior boundary lines. Interior property line and centerline monuments and ties may be set after the final map or parcel map is recorded. (Ord. 3790 §1, 1975.)

27.10.040 Deferred Monuments.

(a) In the event any or all of the required monuments are to be set after recordation of the final map or parcel map, the engineer's or surveyor's certificate shall specify the date, established by the City Engineer, by which the monuments will be set and the field notes thereon furnished, and the subdivider shall, prior to the submission of such map to the City Engineer for filing, furnish to the City Engineer a security as required by Section 27.11.020. In lieu thereof, provision for the setting of said monuments may be included in the agreement prepared in accordance with Section 66462 of the Subdivision Map Act.
(b) In the event the deferred monuments are not set within the period of time specified on the engineer's or surveyor's certificate, or within any approved extended period of time, and provided that all improvement work has been completed, the City Engineer shall by written notice forthwith direct the engineer or surveyor of record to within sixty (60) days of the date of such directive set such monuments and furnish such field notes as were agreed to be set and furnished on said certificate. If the engineer or surveyor fails to comply with said directive within the specified time, and if no request for an extension of time has been submitted in writing and granted within such time, the City Engineer shall without further notice submit a written complaint and request for disciplinary action against said engineer or surveyor to the State Board of Registration for Civil and Professional Engineers. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.10.050 Monument Type and Positioning.

All monuments set as required herein shall be permanently and visibly marked or tagged with the registration or license number of the engineer or surveyor who signs the engineer's or surveyor's certificate and under whose supervision the survey was made. (Ord. 3790 §1, 1975.)
27.10.060 Replacement of Destroyed Monuments.

Any monument set as required herein which is disturbed or destroyed before acceptance of all improvements by the City shall be replaced by the subdivider's engineer or surveyor. (Ord. 3790 §1, 1975.)

27.10.070 Survey Data and Information to be Shown on Final or Parcel Map.

The following survey data and information shall be shown on each final or parcel map for which a field survey was made pursuant to the provisions of these regulations:
(a) Stakes, monuments (together with their precise position) or other evidence found on the ground to determine the boundaries of the subdivision.
(b) Corners of all adjoining properties identified by lot and block numbers, subdivision names, numbers and page of record or by section, township and range or other proper designation.
(c) All information and data necessary to locate and retrace any point or line without unreasonable difficulty.
(d) The location and description of any required monuments to be set after recordation of the final map, and the statement that they are "to be set".
(e) Bearing and length of each lot line, block line and boundary line and each required bearing and distance.
(f) The centerlines of any street or alley in or adjoining the subdivision which have been established by the City Engineer together with reference to a field book or map showing such centerline and the monuments which determine its position. If determined by ties, that fact shall be stated.
(g) Such other survey data or information as may be required to be shown by the City Engineer or by the provisions of this section. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)

27.10.080 Survey Control Network.

The following standards shall apply to each final map and each parcel map for which a field survey is made pursuant to these regulations:
(a) The engineer or surveyor shall be required to tie the boundary of a final map or parcel map into the City of Santa Barbara 1995 Survey Control Network, filed with the Santa Barbara County Surveyor and recorded in the office of the Santa Barbara County Recorder in Book 147, Pages 70, 71, 72, 73 and 74, or other Survey Control Network approved by the City Engineer and recorded in the office of the Santa Barbara County Recorder. The map shall include measured connections (ties) to no less than two recorded locations, on opposite sides of the boundary, or as otherwise approved by the City Engineer.
(b) The provisions of this section are satisfied if the boundary of the parcel map or final map being submitted is a parcel or lot of a map which is already tied, in accord with professional surveying practice, to the City of Santa Barbara 1995 Survey Control Network or Survey Control Network approved by the City Engineer and recorded with the office of the Santa Barbara County Recorder. (Ord. 5120, 1999.)
Chapter 27.11
SECURITIES TO SECURE
SUBDIVIDER'S PERFORMANCE

Sections:
27.11.010 Improvement Security. 27.11.030 Types of Security.
27.11.020 Monument Security.

27.11.010 Improvement Security.

(a) As a guarantee to secure faithful performance of any agreement with City to construct or install required improvements after the approval of the final or parcel map, subdivider shall furnish to City prior to the approval of the final or parcel map one (1) of the types of securities described in §27.11.030, as approved by City, in an amount equal to one hundred percent (100%) of the total estimated costs of the improvements.

(b) As a guarantee securing payment to the contractor, its subcontractors or persons furnishing the labor, materials, equipment or services required to install and construct said improvements, the subdivider shall furnish one (1) of the securities described in §27.11.030, as approved by City, in an amount equal to not less than fifty percent (50%) of the total estimated costs of said improvements.

(c) The subdivider may request a partial release of the improvement security to guarantee faithful performance of the agreement based upon its partial completion of the improvements. The subdivider is allowed to request three partial releases. No single partial release shall be for less than twenty-five percent (25%) of the total estimated cost of the improvements nor shall the aggregate of such partial releases exceed seventy-five percent (75%) of the total estimated cost of the improvements. The determination of the amount of the improvement security to be partially released shall be made by the City Engineer, his determination shall be final and conclusive and any such release shall not reduce the obligations of the subdivider to the City under the agreement. (Ord. 4017, 1979; Ord. 3790 §1, 1975.)

27.11.020 Monument Security.

As a guarantee of good faith to furnish and install the required survey monuments and to pay the subdivider's engineer or surveyor for said work, the subdivider shall furnish one (1) of the securities described in §27.11.030 or combination thereof, as approved by City, in an amount equal to one hundred percent (100%) of the estimated cost of such work. Such work shall consist of satisfactorily furnishing and installing the said survey monuments and of accurately fixing exact survey points thereon. (Ord. 3790 §1, 1975.)

27.11.030 Types of Security.

Whenever any provision of this Title 27 or the Subdivision Map Act authorizes or secures the furnishing of security in connection with the performance of any act or agreement, such security shall be one (1) of the following at the option of and subject to the approval of the City:

(a) Bond or bonds by one (1) or more duly authorized corporate sureties. Said bond or bonds shall be in substantially the same form as provided in §66499.1 and §66499.2 of the Subdivision Map Act.

(b) A deposit, either with the City or a responsible escrow agent or trust company, at the option of the City, of money or negotiable bonds of the kind approved for securing deposits of public moneys.

(c) An instrument of credit from one (1) or more financial institutions subject to regulating by the State or Federal government and pledging that the funds necessary to carry out the act or agreement are on deposit and guaranteed for payment. (Ord. 5380, 2005; Ord. 3790 §1, 1975.)
Chapter 27.12

REVERSIONS TO ACREAGE

Sections:

27.12.010 Authority.
27.12.020 Initiation.
27.12.030 Reversion of Contiguous Parcels Under the Same Ownership.

27.12.010 Authority.

Subdivided land may be reverted to acreage pursuant to the provisions of Article 1, Chapter 6 of the Subdivision Map Act. (Ord. 3790 §1, 1975.)

27.12.020 Initiation.

Proceedings for reversion to acreage may be initiated by the City Council on its own motion or by petition of all the owners of record of the real property within the subdivision. (Ord. 3790 §1, 1975.)

27.12.030 Reversion of Contiguous Parcels Under the Same Ownership.

A. PARCEL MAP, WAIVER OF TENTATIVE MAP PROCEDURE. Four (4) or less contiguous parcels under the same ownership may be reverted to acreage by the submission of a parcel map to the City Council for approval. Any map so submitted shall be accompanied by evidence of title and non-use or lack of necessity of any streets or easements which are to be vacated or abandoned. Any streets or easements to be left in effect after the reversion shall be adequately delineated on the map. Any tentative map procedures or requirements for a parcel map used solely to complete a reversion to acreage are waived automatically upon approval of the reversion by the City Council unless the City Council expressly conditions the reversion upon compliance with all or a part of those procedures and requirements.

B. RECORDATION OF PARCEL MAP. After approval of the reversion by the City Council, the map shall be delivered to the County Recorder. The recording of the map shall constitute legal reversion to acreage of the land affected thereby, and shall constitute abandonment of all streets and easements not shown on the map. The recording of the map shall also constitute a merger of the separate parcels into one (1) parcel for the purposes of this Title and the Subdivision Map Act. (Ord. 4412, 1986; Ord. 3790 §1, 1975.)

Chapter 27.13

RESIDENTIAL CONDOMINIUM DEVELOPMENT

Sections:

27.13.010 Scope.
27.13.020 Definition - Residential Condominium.
27.13.030 Purpose and Intent.
27.13.040 Where Permitted.
27.13.050 Requirements.
27.13.060 Physical Standards for Condominiums.
27.13.070 Application.
27.13.080 Findings.

27.13.010 Scope.

This Chapter shall apply to common interest developments that have at least one residential unit. (Ord. 5380, 2005; Ord. 4058, 1980.)

27.13.020 Definition - Residential Condominium.

For the purposes of this Chapter, condominium shall include any residential condominium, community apartment or stock cooperative. (Ord. 4058, 1980.)
Purpose and Intent.

The City Council finds and determines that residential condominiums differ from apartments in numerous respects and, for the benefit of public health, safety and welfare, such projects, which are subject to the subdivision regulations of the State of California, should be treated differently from apartments. The City Council, therefore, declares its express intent to treat such projects differently from apartment and like structures and to adopt development standards for the protection of the community and the purchasers of condominiums to:

(a) insure that condominium developments achieve a high quality appearance and safety, and are consistent with the goals of the City's General Plan and conform with the density requirements of the General Plan's Land Use Element; and
(b) attempt to provide a reasonable variety of choice for type and location of housing in Santa Barbara; and
(c) establish criteria for development of condominiums. (Ord. 4058, 1980.)

Where Permitted.

A. GENERALLY. Condominium projects may be permitted in the single-family residential zones subject to the issuance of a Conditional Use Permit as set forth in Chapter 28.36 of this Code. Condominium projects may be permitted in the R-2, R-3 and R-4 zones subject to the requirements and standards set forth in this Chapter. In addition, condominium projects may be permitted in all other zones where appropriate and generally permitted except in the C-X and M-1 zones.

B. ACCESSORY DWELLING UNITS ON CERTAIN R-2 LOTS. Notwithstanding subsection (A) above, dwelling units constructed or permitted pursuant to the authority of Subsection (E) of Santa Barbara Municipal Code Section 28.18.075 may not be subdivided as a condominium project due to the lack of consistency with General Plan requirements as mandated by Section 27.13.080 of this Chapter and the state Subdivision Map Act, Government Code Sections 66410-66499.58. (Ord. 5271, 2003; Ord. 4058, 1980.)

Requirements.

No condominium project or portion thereof shall be approved in whole or in part, unless it complies with all requirements of Title 27 of this Code and has been reviewed and approved by the Advisory Agency. Prior to approval and recordation of the final map, the required conditions, covenants and restrictions shall be submitted to, be reviewed by and approved by the City Attorney. These conditions, covenants and restrictions shall contain the following:

(a) allocation of parking spaces within the project;
(b) restrictions regarding the storage of recreation vehicles;
(c) provision for the Homeowners Association to maintain all open spaces and/or common areas within the project;
(d) waiver to protest formation of public improvement districts. (Ord. 4058, 1980.)

Physical Standards for Condominiums.

In addition to the requirements of the zone in which a project is located, the following standards shall be required for all condominium projects:

1. Parking. The off-street parking requirements for a condominium development shall be in accordance with Chapter 28.90.100 of this Code.
2. Private Storage Space. Each unit shall have at least 300 cubic feet of enclosed, weatherproofed and lockable private storage space provided in one location in addition to the guest, linen, pantry, and clothes closets that are customarily provided. This requirement may be waived for a unit if an enclosed garage is provided for that unit.
   (a) The consumption of gas and electricity within each unit shall be separately metered so that the unit's owner can be separately billed for each utility.
   (b) A water shut-off valve shall be provided for each unit or for each plumbing fixture.
   (c) Each unit having individual meter(s) or heater(s) shall have access to its meter(s) and heater(s) which shall not require entry through another unit.
   (d) Each unit shall have its own panel, or access thereto, for all electrical circuits which serve the unit.
   (e) An exception may be granted to the above restrictions when heat or power is provided by means of solar energy.
4. Laundry Facilities. A laundry shall be provided in each unit; or if common laundry areas are provided, such facilities shall consist of not less than one automatic washer and one dryer for each five (5) units or a fraction thereof.
5. Public Improvement Districts. The applicant shall waive the right, through deed restriction, to protest the formation of public improvement districts as deemed appropriate by the Advisory Agency.
6. Density. The maximum number of dwellings may not exceed the zone in which the project is located (including slope density requirements where applicable).
7. Unit Size. The enclosed living or habitable area of each unit shall be not less than 400 square feet.
8. Outdoor Living Space. Outdoor living space shall be provided as set forth in Section 28.18.060 for R-2 zoned lots and Section 28.21.081 for R-3 or less restrictive zoned lots of this Code pertaining to outdoor living space.

9. Storage of Recreational Vehicles. The provision for storage space of recreational vehicles shall be determined by the Advisory Agency at the time of the approval of the tentative map. (Ord. 5380, 2005; Ord. 4912, 1995; Ord. 4085, 1980; Ord. 4058, 1980.)

27.13.070 Application.

The Community Development Department shall prepare a listing of required information that must be contained in applications for a condominium development as the Department deems necessary to comply with the intent of this Chapter and other parts of this Code. This listing of required information that must be contained in applications for condominium developments, shall be made available to architects, developers, engineers, property owners and other interested individuals. No application for development need be processed until the required information is submitted. (Ord. 5380, 2005; Ord. 4058, 1980.)

27.13.080 Findings.

The Advisory Agency shall review each condominium development as to its effect upon sound community planning, the ecological, cultural, and aesthetic qualities of the community, on the community's public health, safety, and welfare. The Advisory Agency shall not approve a condominium development unless it finds that:

(a) There is compliance with all provisions of this Chapter; and
(b) The proposed development is consistent with the General Plan of the City of Santa Barbara; and
(c) The proposed development is consistent with the principles of sound community planning and will not have an adverse impact upon the neighborhood's aesthetics, parks, streets, traffic, parking and other community facilities and resources. (Ord. 5380, 2005; Ord. 4498, 1988; Ord. 4058, 1980.)
Chapter 27.20

VESTING TENTATIVE MAPS

Sections:

27.20.010 Citation and Authority.
27.20.020 Purpose and Intent.
27.20.030 Definitions.
27.20.040 Application.
27.20.050 Filing and Processing.
27.20.060 Fees.
27.20.070 Expiration.
27.20.080 Vesting on Approval of Vesting Tentative Map.
27.20.090 Development Inconsistent With Zoning--Conditional Approval.
27.20.100 Applications Inconsistent with Current Policies.

27.20.010 Citation and Authority.

This Chapter is enacted pursuant to the authority granted by Chapter 4.5 (commencing with Section 66498.1) of Division 2 of Title 7 of the Government Code of the State of California (hereinafter referred to as the Vesting Tentative Map Statute), and may be cited as the Vesting Tentative Map Ordinance. (Ord. 4371, 1985.)

27.20.020 Purpose and Intent.

It is the purpose of this Chapter to establish procedures necessary for the implementation of the Vesting Tentative Map Statute, and to supplement the provisions of the California Subdivision Map Act and this Title 27. Except as otherwise set forth in this Chapter, the provisions of Title 27 shall apply to vesting tentative maps.

The regulations outlined in this Chapter are determined to be necessary for the preservation of the public health, safety and general welfare, and for the promotion of orderly growth and development. (Ord. 5380, 2005; Ord. 4371, 1985.)

27.20.030 Definitions.

The following words and phrases shall have the meaning indicated, unless context or usage clearly requires a different meaning:

A. VESTING TENTATIVE MAP. A tentative map for a residential subdivision that shall have printed conspicuously on its face the words "Vesting Tentative Map" at the time it is submitted for approval in accordance with Section 27.20.060.

B. All other definitions set forth in Title 27 are applicable. (Ord. 4371, 1985.)

27.20.040 Application.

A. Whenever a provision of the Subdivision Map Act or this Title 27 requires approval of a tentative map, a vesting tentative map may instead be submitted for approval in accordance with the provisions hereof.

B. If a subdivider does not seek the rights conferred by the Vesting Tentative Map Statute, the submission of a vesting tentative map shall not be a prerequisite to any approval for any proposed subdivision, permit for construction, or work preparatory to construction. (Ord. 5380, 2005; Ord. 4371, 1985.)

27.20.050 Filing and Processing.

A vesting tentative map shall (i) be submitted for approval in the same form, (ii) have the same contents and accompanying data and reports, and (iii) shall be processed in the same manner as a tentative map except as hereinafter provided:

A. VESTING TENTATIVE MAP - IDENTIFICATION. At the time a vesting tentative map is submitted for approval, it shall have printed conspicuously on its face the words "Vesting Tentative Map."

B. SPECIAL REQUIREMENTS FOR VESTING TENTATIVE MAP. At the time a vesting tentative map is submitted for approval, the subdivider shall also supply the following information:

1. A preliminary plot plan of the proposed development, drawn to scale, showing, as a minimum:
   a. Boundaries of the property;
   b. The location, dimensions, and uses of all existing and proposed buildings and structures on the subject property;
   c. Location, size and number of parking spaces and loading spaces;
   d. All interior circulation patterns including streets, walkways, bikeways, and connections to existing or proposed arterial or connector roads and other major roads;
   e. Location and use of all buildings and structures within 50 feet of the property's boundaries;
f. Location, height, and material of all existing and proposed walls and fences;
g. Location of areas of geologic, seismic, flood and other hazards;
h. Location of areas of prime scenic quality, habitat resources, archaeological sites, water bodies, and significant existing vegetation;
i. Location and amount of land devoted to public purposes, open space, landscaping and recreation.

3. Improvement plans for construction of public improvements as required by the Public Works Department. The improvement plans shall be prepared by a registered civil engineer and shall include but not be limited to:
   a. Street improvements, including but not limited to curb, gutter, sidewalk, sewer system, water system, street lighting, traffic controls and undergrounding of utilities;
   b. Existing and proposed drainage;
   c. Right of way and other dedications;
   d. Existing contours and proposed grading;

4. Preliminary building elevations;

5. Preliminary landscaping and irrigation plans indicating proposed trees, shrubs, and ground cover; and delineating species, size, and placement;

6. Statistical Data:
   a. Net and gross acreage and square footage of the property;
   b. Height, ground floor area, and total floor area of each building;
   c. Number and type of dwelling units in each building, i.e., single-family dwelling, condominium, apartment, etc., and number of bedrooms in each dwelling, where applicable;
   d. Building coverage expressed as a percent of the total net area of the property;
   e. Percentage of the net or gross land area of the property devoted to landscaping, open space and/or recreation, whichever is appropriate;
   f. Parking requirements for the entire development with a computation showing the requirements for each dwelling, unit in the development and total parking requirements;
   g. Estimated number of potential residents in each residential category;
   h. Number of employees and potential new employees, if applicable;
   i. Average slopes, if parcel contains any slope in excess of 20 percent;

7. Three-dimensional perspective drawings and renderings to scale sufficient to show the architectural design, including colors and materials, of buildings and structures proposed to be constructed;

8. The off-site circulation pattern, including right-of-way dedication, street improvements, traffic control measures and acceleration and deceleration lanes;

9. A statement of intent as to the establishment of utilities, services, and facilities including water, sewage disposal, fire protection, police protection, schools, transportation, i.e., proximity to transit or provision of bike lanes;

10. A statement of energy and water conservation measures and/or devices incorporated into the construction and occupancy phases of the development;

11. The on-site illumination plan emphasizing access, walkways, buildings, parking, landscaping, and signs; illumination intensity shall be subject to approval from the Advisory Agency after on-site inspection;

12. Any signs, including size and location, if applicable;

13. Measures to be used to prevent a reduced nuisance effect such as noise, dust, odor, smoke, fumes, vibration, glare, traffic congestion, and to prevent danger to life and property;

14. If development is to occur in stages, the sequence and timing of construction of the various phases;

15. Proposed homeowners association (if applicable) indicating CC & R’s, deeds, restrictions, and methods of open-space maintenance;

16. Any other data requested by the Community Development or Public Works Departments.

C. PRIOR APPROVALS NECESSARY. Where a vesting tentative map application is submitted for approval in conjunction with a development plan, conditional use permit, modification, or variance for the same property, the vesting tentative map shall be processed concurrently with such discretionary approvals. If the applicant is seeking a modification, variance, or conditional use permit, a vesting tentative map shall not be approved or conditionally approved until all other discretionary approvals have been granted or conditionally granted. A vesting tentative map processed in conjunction with a development plan shall not be approved or conditionally approved until the preliminary development plan has been approved or conditionally approved by City.

D. DEVELOPMENT ALLOCATION SYSTEM. Every vesting tentative map shall contain a statement that the issuance of any building or grading permit for the real property shown on the vesting tentative map is subject to the requirements and restrictions of the City's Development Allocation System existing at the time of any such issuance. (Ord. 5380, 2005; Ord. 4371, 1985.)
27.20.060 Fees.

Upon filing a vesting tentative map, the subdivider shall pay the fees required for filing and processing a tentative map and any other reviews, plan checks or permits necessary to be completed or approved prior to or at the time of the approval of the vesting tentative map. The City Council may, by resolution, establish fees for filing, processing and other matters pertaining to vesting tentative maps. (Ord. 4371, 1985.)

27.20.070 Expiration.

The approval or conditional approval of a vesting tentative map shall expire at the end of the same time period, and shall be subject to the same extensions, established by Section 27.07.110 of this Code for the expiration of the approval or conditional approval of a tentative map. (Ord. 5380, 2005; Ord. 4371, 1985.)

27.20.080 Vesting on Approval of Vesting Tentative Map.

A. The approval or conditional approval of a vesting tentative map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies, and standards described in Government Code Section 66474.2, subject to compliance with requirements and restrictions of the City's Development Allocation System in effect at the time any building or grading permit is sought for the property.

However, if Section 66474.2 of the Government Code is repealed, the approval or conditional approval of a vesting tentative map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies, and standards in effect at the time the vesting tentative map is approved or conditionally approved.

B. Notwithstanding Subsection A of this Section, a permit, approval, extension, or entitlement may be made conditional or denied if the Advisory Agency or Appeal Board on appeal determines that any of the following exist:
   1. A failure to do so would place the residents of the subdivision or the immediate community, or both, in a condition dangerous to their health or safety, or both; or
   2. The condition or denial is required, in order to comply with state or federal law.

C. The rights referred to herein shall expire if a final or parcel map is not approved prior to the expiration of the vesting tentative map as provided in Section 27.20.070. If the final or parcel map is approved, these rights shall last for the following periods of time:
   1. An initial time period of one (1) year. Where several final maps are recorded on various phases of a project covered by a single vesting tentative map, this initial time period shall begin for each phase when the final map for that phase is recorded. This initial time period shall be automatically extended by any time used by the City for processing a complete application for a grading permit or for design or architectural review, if the time used by the City to process the application exceeds 30 days from the date that a complete application is filed.
   2. A subdivider may apply to the Advisory Agency for a one-year extension at any time before the initial time period set forth in Subsection C.1 expires. If the extension is denied, the subdivider may appeal that denial to the City Council within 15 days subject to timely filing with the City Clerk and payment of the required fees.
   3. If the subdivider submits a complete application for a building permit during the periods of time specified in Subsections C.1 and C.2, the rights referred to herein shall continue until the expiration of that permit, or any extension of that permit. (Ord. 5380, 2005; Ord. 4371, 1985.)

27.20.090 Development Inconsistent With Zoning--Conditional Approval.

A. Whenever a subdivider files a vesting tentative map for a subdivision whose intended development is inconsistent with the Zoning Ordinance in existence at that time, that inconsistency shall be noted on the map. The Advisory Agency or Appeal Board may deny such a vesting tentative map or approve it conditioned on the subdivider, or his or her designee, obtaining the necessary change in the Zoning Ordinance to eliminate the inconsistency. If the change in the Zoning Ordinance is obtained, the approved or conditionally approved vesting tentative map shall, notwithstanding Subsection 27.20.080A, confer the vested right to proceed with the development in substantial compliance with the change in the Zoning Ordinance and the map, as approved.

B. The rights conferred by this section shall be for the time periods set forth in Subsection 27.20.080.C. (Ord. 5380, 2005; Ord. 4371, 1985.)

27.20.100 Applications Inconsistent with Current Policies.

Notwithstanding any provision of this Chapter, a property owner or his or her designee may seek approvals or permits for development which depart from the ordinances, policies, and standards described in Subsection 27.20.080.A and Section 27.20.090 and the City may grant these approvals or issue these permits to the extent that the departures are authorized under applicable law. (Ord. 5380, 2005; Ord. 4371, 1985.)
Chapter 27.30
MERGER OF PARCELS

Sections:

27.30.010 Voluntary Merger.
27.30.020 Concurrent Filing of Record of Survey.
27.30.030 Merger of Parcels.
27.30.040 Recording of Merger Without Approval Prohibited.
27.30.050 Fees.

27.30.010 Voluntary Merger.

Pursuant to the provisions of California Government Code Section 66499.20-3/4, a merger and certificate of merger of existing contiguous parcels of real property may be approved by the Director of the Department of Public Works and a certificate of merger filed for record by the County Recorder only where the Director of the Department of Public Works makes all of the following findings:

A. The merger will not affect any fees, grants, easements, agreements, conditions, dedications, offers to dedicate or security provided in connection with any approvals of divisions of real property or lot line adjustments.

B. The boundaries of the merged parcel are well-defined with adequate monumentation in existing recorded documents or filed maps.

C. The document used to effect the merger contains an accurate description of the boundaries of the resulting parcel.

D. All parties having any record title interest in the real property affected have consented to the merger upon a form and in a manner approved by the Director of the Department of Public Works of the City of Santa Barbara according to the terms, provisions, reservations and restrictions provided in Government Code Section 66436 for such consent, excepting those interests that are excepted by statute from the consent requirement.

E. There has been compliance with all requirements and all fees have been paid, including a fee for recording the certificate of merger. (Ord. 4412, 1986.)

27.30.020 Concurrent Filing of Record of Survey.

Where determined to be necessary by the Director of the Department of Public Works in order to monument and define the boundaries of the merged parcel, a record of survey in compliance with all legal requirements shall be filed at the same time as the certificate of merger. The City standard for such record of survey shall include measured connections (ties) of the monuments and boundaries of such record of survey to the approved City Survey Control Network in the same manner as is provided for maps under Section 27.10.080 of this Code. (Ord. 5120, 1999; Ord. 4412, 1986.)

27.30.030 Merger of Parcels.

The recordation of a certificate of merger shall constitute a merger of the separate parcels shown thereon into one parcel for the purpose of the Subdivision Map Act and this Title 27, and the parcels shall thereafter be treated in all respects as a single parcel. (Ord. 5380, 2005; Ord. 4412, 1986.)

27.30.040 Recording of Merger Without Approval Prohibited.

No person shall record a document merging separate legal parcels into a single legal parcel for the purposes of the Subdivision Map Act and this Title 27 except in conformity with the provisions of this Chapter. (Ord. 5380, 2005; Ord. 4412, 1986.)

27.30.050 Fees.

The City Council may establish by resolution such fees as may be required for the review and processing of a proposal for voluntary merger. (Ord. 4412, 1986.)
Chapter 27.40
LOT LINE ADJUSTMENTS

Sections:
27.40.010 Scope.  
27.40.020 Application.  
27.40.030 Public Hearing.  
27.40.040 Findings.  
27.40.050 Time for Consideration.  
27.40.060 Appeals and Suspensions.  
27.04.070 Agreement to Complete Required Improvements.  
27.40.080 Documentation of Lot Line Adjustment.  
27.04.090 Review by City Engineer.  
27.40.100 Expiration and Extension.

27.40.010 Scope.

The procedure set forth in this Chapter shall govern the processing of and requirements for approval and recordation of lot line adjustments between four or fewer existing adjoining parcels, where the land taken from one parcel is added to an adjoining parcel, and where a greater number of parcels than originally existed is not thereby created. All other lot line adjustments shall require a tentative map pursuant to Chapter 27.07 and a final or parcel map pursuant to Chapter 27.09. (Ord. 5380, 2005.)

27.40.020 Application.

An application for a lot line adjustment pursuant to this Chapter 27.40 shall be filed with the Community Development Department. The application shall be on a form prescribed by the Community Development Director and accompanied by a fee established by resolution of the City Council. The Community Development Director shall prepare a listing of required information that must be contained in applications for lot line adjustments as the Director deems necessary to comply with the intent of this Chapter and other parts of this Code. This listing of required information that must be contained in applications for lot line adjustments shall be made available to architects, developers, engineers, property owners and other interested individuals. (Ord. 5380, 2005.)

27.40.030 Public Hearing.

The Advisory Agency shall conduct a public hearing regarding the application for a lot line adjustment at which time the Advisory Agency shall: (1) receive a report on the design and improvement of the proposed lot line adjustment from the Community Development Department with staff recommendations, (2) at the election of the applicant, receive a presentation regarding the proposed lot line adjustment, and (3) receive public comment from interested persons. Following the close of the public hearing, the Advisory Agency shall approve, conditionally approve or disapprove the lot line adjustment. (Ord. 5380, 2005.)

27.40.040 Findings.

The Advisory Agency shall limit its review of the lot line adjustment to a determination of whether or not the parcels resulting from the proposed lot line adjustment will conform to the general plan, any applicable coastal plan, and the zoning and building ordinances. The Advisory Agency shall not approve a lot line adjustment unless it finds that the resulting lots will conform with the general plan, any applicable coastal plan, and the zoning and building ordinances. The Advisory Agency shall not impose conditions or exactions on its approval of a lot line adjustment except as necessary to conform to the general plan, any applicable coastal plan, and zoning and building ordinances, or to facilitate the relocation of existing utilities, infrastructure, or easements. (Ord. 5380, 2005.)

27.40.050 Time for Consideration.

The time limits for acting on lot line adjustments shall be consistent with the time limits for acting on tentative maps pursuant to the Subdivision Map Act and any other pertinent state law. The time limits specified in this Section for acting on lot line adjustments may be extended by mutual consent of the applicant and the Advisory Agency. (Ord. 5380, 2005.)
27.40.060 Appeals and Suspensions.

A. FROM DECISIONS OF THE STAFF HEARING OFFICER.

1. Suspensions. The Chairperson, Vice Chairperson or other designated member of the Planning Commission may take action to suspend any decision of the Staff Hearing Officer serving as the Advisory Agency and to schedule a public hearing before the Planning Commission to review said decision. The notice of suspension must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision. The Community Development Department shall prepare a report to the Planning Commission with staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. In the case of such suspension and review of the Staff Hearing Officer’s decision, the Planning Commission shall serve as the Advisory Agency. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer.

2. Appeals. The decisions of the Staff Hearing Officer serving as the Advisory Agency may be appealed to the Planning Commission serving as the Appeal Board by the applicant or any interested party adversely affected by the decision of the Advisory Agency. The appeal must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision unless a longer appeal period is allowed for other actions taken concurrently with the decision on the application, in which case the longer appeal period shall prevail. The appellant shall state specifically in the appeal how the decision of the Staff Hearing Officer is not in accord with the provisions of this Title or the Subdivision Map Act or how it is claimed that there was an error or an abuse of discretion by the Staff Hearing Officer. The Community Development Department shall prepare a report to the Planning Commission with staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer following a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant.

B. FROM DECISIONS OF THE PLANNING COMMISSION. The decisions of the Planning Commission on suspensions or appeals from decisions of the Staff Hearing Officer may be appealed to the City Council serving as the Appeal Board by the applicant or any interested party adversely affected by the decision of the Planning Commission. The appeal must be filed with the City Clerk within ten (10) calendar days of the date of the Planning Commission's decision unless a longer appeal period is allowed for other actions taken concurrently with the decision on the application, in which case the longer appeal period shall prevail. The appellant shall state specifically in the appeal how the decision of the Planning Commission is not in accord with the provisions of this Title or the Subdivision Map Act or how it is claimed that there was an error or an abuse of discretion by the Planning Commission. Prior to the hearing on said appeal, the City Clerk shall inform the Community Development Department that an appeal has been filed, and the Community Development Department shall prepare a report to the City Council with staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Planning Commission's decision. The City Council shall affirm, reverse, or modify the decision of the Planning Commission following a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Planning Commission; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant.

C. TIME FOR CONSIDERATION. The time limits for acting on suspensions or appeals of decisions concerning lot line adjustments shall be consistent with the time limits set for acting on appeals of decisions concerning tentative maps pursuant to the Subdivision Map Act and any other pertinent state law. The time limits specified in this Section for acting on lot line adjustments may be extended by mutual consent of the applicant and the Appeal Board.

D. FEES. Each appeal shall be accompanied by the appeal fee in the amount established by resolution of the City Council. No fee shall be charged for a suspension of a Staff Hearing Officer action by the Chairperson, Vice Chairperson or other designated member of the Planning Commission. (Ord. 5380, 2005.)

27.40.070 Agreement to Complete Required Improvements.

If any public improvements are required by the Advisory Agency or Appeal Board as a condition of approval for the lot line adjustment, the applicant shall enter into one (1) of the following agreements:

A. An agreement with the City upon mutually agreeable terms to thereafter complete such improvements at the applicant’s expense.

B. An agreement with the City to thereafter (1) initiate and consummate proceedings under an appropriate special assessment act for the financing and completion of all such improvements, or (2) if not completed under such special assessment act, to complete such improvements at the applicant’s expense. Performance of such agreements described herein shall be guaranteed by a security specified in Chapter 5 of the Subdivision Map Act and Section 27.11.030 of this ordinance. (Ord. 5380, 2005.)
27.40.080 Documentation of Lot Line Adjustment.

A. Following the approval or conditional approval of a lot line adjustment by the Advisory Agency or the Appeal Board, and prior to the recording of documents accomplishing or implementing the lot line adjustment, the applicant shall submit the following to the City Engineer:
   1. Documents necessary to convey each and every property interest required to accomplish or implement the lot line adjustment, such as: agreement relating to the lot line adjustment, quitclaim deeds and acceptance thereof, or a declaration of lot line adjustment.
   2. Legal descriptions of each lot before and after the lot line adjustment, prepared by a licensed surveyor.
   3. Copies of all documents pertinent to the lot line adjustment (i.e., easements, deeds of trust, leases, agreements, etc.).

B. At the time the documentation of the lot line adjustment is submitted to the City Engineer, the applicant shall pay all fees for the review and processing of the documents in accordance with the current City Council fee resolution.

C. No record of survey map shall be required for a lot line adjustment unless required by Section 8762 of the Business and Professions Code. However, a record of survey map, prepared by a registered civil engineer or land surveyor, is strongly recommended. (Ord. 5380, 2005.)

27.40.090 Review by City Engineer.

Once all required fees have been paid and all required documentation has been submitted, the City Engineer shall examine the documentation and accompanying data as to correctness of surveying data and computations, and such other matters as require checking to insure compliance with the provisions of State law and the Municipal Code. Within twenty (20) days of receipt of the documentation and all required accompanying data, the City Engineer shall either: 1. endorse his approval and transmit one (1) copy to the applicant and one (1) copy to the Community Development Department, or 2. return the documentation to the applicant together with a statement setting forth the grounds for its return. (Ord. 5380, 2005.)

27.40.100 Expiration and Extension.

A. EXPIRATION. The approval or conditional approval of a lot line adjustment shall expire twenty-four (24) months from the date on which final action is taken approving or conditionally approving the lot line adjustment.

B. EXTENSION. The applicant may request an extension of the approval or conditional approval of a lot line adjustment by written application to the Staff Hearing Officer filed with the Community Development Department, such application to be filed before the expiration of the lot line adjustment. The application shall state the reasons for requesting the extension. An extension or extensions of a lot line adjustment approval shall not exceed an aggregate of three (3) years beyond the expiration of the 24-month period provided in Section 27.40.100.A.

C. APPEAL. If the Staff Hearing Officer denies the applicant’s application for an extension, the applicant may appeal said denial to the City Council within fifteen (15) days after the Staff Hearing Officer action. (Ord. 5380, 2005.)

TITLE

28.01.001 Title.

A Zoning Ordinance establishing classifications and districts or zones and regulating therein the use of property within the City of Santa Barbara, California, defining terms used in said ordinance, adopting a zoning map, providing for the adjustment, enforcement, and amendment thereof, and prescribing penalties for its violation.

The Council of the City of Santa Barbara, California, does ordain as follows:

An Official Land Use Zoning Ordinance for the City of Santa Barbara is hereby adopted and established to serve the public health, safety, comfort, convenience and general welfare and to provide the economic and social advantages resulting from an orderly planned use of land resources, and to encourage, guide and provide a definite plan for the future growth and development of said City. This ordinance shall be known as "The Zoning Ordinance". (Ord. 3710 §1, 1974.)

**28.04.005 Definitions Generally.**

Words used in the present tense include the future, except where the natural construction of this title otherwise indicates; words in the singular number include the plural and words in the plural include the singular; the word "building" includes the word "structure" and the word "shall" is mandatory and not directory. The word "Council" when used herein shall mean the Council of the City of Santa Barbara and "Planning Commission" shall mean the City Planning Commission of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 2585, 1957.)
28.04.010 Accessory Building.

A subordinate building or portion of the main building, the use of which is incidental to that of the main building on the same lot. Where an accessory building is attached to and made a part of the main building, not less than eight feet (8') in length of one (1) of the walls or roof of such accessory building, or not less than one hundred percent (100%) of any wall of such accessory building less than eight feet (8') in length, shall be an integral part of the main building and such accessory building shall comply in all respects with the requirements of this ordinance applicable to a main building. An accessory building, unless attached to and made a part of the main building, as above provided for, shall be not closer than five feet (5') to the main building. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.015 Accessory Use.

A use customarily incidental and accessory to the principal use of a lot or of a main building or structure located upon the same lot as the accessory use. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.020 Addition.

An extension of or increase in the floor area of a building or structure. (Ord. 5416, 2007.)

28.04.025 Agent.

Any person, firm, partnership, association, joint venture, corporation, or any other entity or combination of entities who represent or act for or on behalf of a applicant in selling or offering to sell any dwelling unit. (Ord. 4000 §1, 1979.)

28.04.030 Agriculture.

The tilling of the soil, the raising of crops, horticulture and the harvesting, sorting, cleaning, packing and shipping of agricultural products produced on the premises preparatory to sale or shipment in their natural form including all activities or uses customarily incidental thereto, but not including a slaughter house, fertilizer works, commercial dairying, pasturage agriculture, commercial viticulture, commercial animal and poultry husbandry, retail sales, the commercial packing or processing of products not grown on the premises or operations for the reduction of animal matter or any other use which is similarly objectionable because of odor, smoke, dust, fumes, vibration or danger to life or property. (Ord. 4878, 1994.)

28.04.035 Alley.

A public or private way 25 feet or less in width that is primarily used for vehicular access to the back or side of properties. Alleys typically do not meet standard requirements for City streets, which include curbs, gutters, sidewalks, or similar improvements. Typically, alleys are separated from adjacent parcels by a lot line. An alley may have an official name and may be shown on the official street map of the City of Santa Barbara. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.040 Alteration.

An exterior change or modification. For the purposes of this title, an alteration shall include, but not be limited to, exterior changes to or modification of a structure, including the architectural details or visual characteristics such as paint color and surface texture, grading, surface paving, new structures, a structural addition, cutting or removal of trees and other natural features, disturbance of archaeological or paleontological sites or areas, and the placement or removal of any exterior objects such as signs, plaques, light fixtures, street furniture, walls, fences, steps, plantings and landscape accessories affecting the exterior visual qualities of the property. (Ord. 5416, 2007.)

28.04.045 Antenna.

Any system of wires, poles, rods, reflecting discs or similar devices used for the transmission or reception of electromagnetic waves, including devices having active elements extending in any direction, and directional beam-type arrays having elements carried by and arranged from a generally horizontal boom. It may be mounted upon and rotatable through a vertical mast interconnecting the boom and a support for the antenna. (Ord. 4147, 1982.)

Any radio or microwave repeating structure, and associated equipment and structures including microcells, used for transmitting or receiving radio signals for cellular telephones and pagers. (Ord. 4891, 1994.)

28.04.055 Antenna, Height Above Grade.

The vertical distance from the ground to the point to be measured through the axis of the antenna, antenna support, or antenna tower. (Ord. 4147, 1982.)

28.04.060 Antenna, Radio or Television.

Any antenna, and associated equipment and structures, used for transmission of commercial television and broadcast radio. (Ord. 4891, 1994.)

28.04.065 Antenna Support.

Any devices for supporting an antenna which is other than a tower. (Ord. 4147, 1982.)

28.04.070 Antenna Tower.

Any substantial wood or metal structure used to support one or more antennas and which is affixed to the ground or an existing structure. A tower may be self-supporting or supported by an existing structure or by guy wires. (Ord. 4147, 1982.)

28.04.075 Antennas, Emergency Service.

Any antenna, and associated equipment and structures, used principally for communications related to government provided emergency services, including but not limited to, police, fire, and paramedic services. (Ord. 4891, 1994.)

28.04.080 As-Graded.

The extent of surface conditions on completion of grading. (Ord. 5416, 2007.)

The organization of persons who own a lot, parcel, area, condominium or right of exclusive occupancy in a project. (Ord. 4000 §1, 1979.)

An electronic device from which a person is able to withdraw cash, make a deposit, or undertake other financial transactions. (Ord. 5072, 1998.)
28.04.095  Automobile Service Station.

A retail business establishment primarily supplying gasoline, other types of fuel, oil, minor accessories and services for motor vehicles, excluding painting, body work and steam cleaning.  (Ord. 4033 §1, 1980; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.100  Automobile Service Station/Mini-Market.

A retail business establishment supplying gasoline, other types of fuel, oil and services for motor vehicles which also sells other products, merchandise or services that are not directly related to the operation of motor vehicles where such sale is by means other than vending machines.  (Ord. 4033 §2, 1980.)

28.04.105  Balcony.

A cantilevered platform that projects from the wall of a building above the ground and is surrounded by a railing, balustrade, or parapet.  (Ord. 5459, 2008.)

28.04.110  Basement.

That portion of a building between floor and ceiling which is partly below and partly above grade (as defined in this chapter), but so located that the vertical distance from grade to the floor below is less than the vertical distance from grade to ceiling.  A basement shall be counted as a story.  (Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.115  Bed and Breakfast Inn.

The definitions of "Bed and Breakfast Inn" and "Hotel" are synonymous.  See Section 28.04.395.  (Ord. 5459, 2008; Ord. 4199, 1983.)

28.04.120  Bedroom.

Any habitable room in a dwelling other than a bathroom, a kitchen or a living room (except in studios, where a living room is considered a habitable room).  (Ord. 3950 §2, 1978.)

28.04.125  Birth Center.

A structure that contains facilities to assist in human births, but is not licensed as a hospital.  (Ord. 4152, 1982.)

28.04.130  Boarding House.

A building, group of buildings or a portion of a building which is designed for or occupied as sleeping quarters for five (5) or more paying guests and where meal service is included in the price of the lodging.  A boarding house is not considered a single residential unit.  (Ord. 5459, 2008; Ord. 4199, 1983; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.135  Building.

Any structure having a roof supported by columns or walls for the shelter, housing or enclosure of persons, animals, chattels or property of any kind.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.140  Building Height.

The maximum vertical height of a building or structure at all points measured from natural or finished grade, whichever is lower.  Architectural elements that do not add floor area to a building, such as chimneys, vents, antennae, and towers, are not considered a part of the height of a building, but all portions of the roof are included.  (Ord. 5416, 2007; Ord. 4641, 1990; Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.145  Building, Main.

A building in which the principal use of the lot is conducted.  (Ord. 5459, 2008.)

28.04.150  Bungalow Court.

Three (3) or more detached single or duplex dwellings located upon a single lot under one (1) ownership, together with all open spaces as required by this ordinance.  (Ord. 3710, 1974; Ord. 2585, 1957.)
28.04.155 Car Wash.

Any business whose activity involves washing, steam cleaning, or detailing motor vehicles. (Ord. 5459, 2008.)

28.04.160 Carport.

A building with a solid weatherproof roof that is permanently open on at least two sides and is designed to shelter one or more vehicles. A carport may be freestanding or attached to another structure. A trellis or other similar structure is not considered a carport. (Ord. 5459, 2008.)

28.04.165 Cellar.

That portion of a building between floor and ceiling which is wholly or partly below grade (as defined in this chapter) and so located that the vertical distance from grade to the floor below is equal to or greater than the vertical distance from grade to ceiling. A cellar shall not be counted as a story if the vertical distance from grade to ceiling is four feet (4') or less on all sides. (Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.170 Child Care Center.

Any State-licensed child care facility other than a family day care home in which less than 24-hour per day non-medical care and supervision is provided in a group setting for children under 18 years of age. (Ord. 4858, 1994.)

28.04.175 Club.

Any organization, group or association supported by the members thereof, the purpose of which is to render a service customarily rendered for members and their guests, but shall not include any organization, group or association, the chief activity of which is to render a service customarily carried on as a business. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.180 Commercial.

Managed on a business basis for profit derived from the promise or delivery of compensation, money, rent, or other bargained-for consideration in exchange for: (a) goods; (b) services; (c) rights or interests in property; or (d) any other valuable consideration. (Ord. 4924, 1995.)

28.04.185 Common Area.

Common area is an entire project excepting all units therein granted or reserved. (Ord. 4000 §1, 1979.)

28.04.190 Community Apartment.

As defined in Section 11004 of the Business and Professions Code. (Ord. 4000 §1, 1979.)

28.04.195 Community Care Facility.

A State-licensed facility, place or building which is maintained and operated to provide non-medical residential care, day treatment, adult day care, or foster family agency services for children, adults, or children and adults, including, but not limited to, the physically handicapped, mentally impaired, incompetent persons, and abused or neglected children, as further defined in Chapter 3 of Division 2 of the California Health and Safety Code; but not including a group home. (Ord. 4924, 1995; Ord. 4858, 1994.)

28.04.200 Compaction.

The act of increasing the density of a fill by mechanical means. (Ord. 5416, 2007.)

28.04.205 Condominium.

As defined in Sections 783 and 1350 of the Civil Code. (Ord. 4000 §1, 1979.)

28.04.210 Condominium, Community Apartment.

The development of land and attached structures as a condominium or community apartment project, regardless of the present or prior use of such land and structures, and regardless of whether substantial improvements have been made to such structures. (Ord. 4000 §1, 1979.)
28.04.215 Condominium or Community Apartment Project.

A plan by a developer to sell residential condominium or community apartment units in a building through conversion to condominium or community apartment status. (Ord. 4000 §1, 1979.)

28.04.220 Condominium Unit.

The elements of a condominium which are not owned in common with the owners of other condominiums in the project. (Ord. 4000 §1, 1979.)

28.04.225 Congregate Dining Facility.

A room or rooms which contain suitable space for group dining to feed all the residents of the facility in one or two sittings, accessible to and for the primary use of the residents of a State licensed residential facility for the elderly or similar residential facility. Such a facility shall provide full meal service for the residents which shall include at least two meals per day for seven days per week. (Ord. 4413, 1986.)

28.04.230 Court.

An area open to the sky that is enclosed on at least three sides by walls, sometimes referred to as a courtyard. (Ord. 5459, 2008; Ord. 5416, 2007.)

28.04.235 Deck.

An outdoor platform wholly or partially supported from the ground below, which may be surrounded by a railing, balustrade, or parapet. A deck can be freestanding or attached to a building. (Ord. 5459, 2008.)

A deck constructed above any top plate of a structure and which is designed to function as useable outdoor area. (Ord. 5459, 2008.)

28.04.245 Distance Between Buildings.

The shortest distance measured from the exterior wall or supporting post(s) of a building to the nearest exterior wall or supporting post(s) of another building. (Ord. 5459, 2008.)

28.04.250 Drive-Through Facility.

Drive-through facility means a motor vehicle drive-through facility which is a commercial building or structure or portion thereof which is designed or used to provide goods or services to the occupants of motor vehicles. It includes, but is not limited to, banks and other financial institutions, fast food establishments, and film deposit/pick-up establishments, but shall not include drive-in movies, gasoline stations, or car-wash operations. (Ord. 4001, 1979.)

28.04.255 Driveway.

A minor private way that provides vehicular access from a street or alley to an on-site parking facility. Driveways may provide vehicular access for up to four lots or to multiple buildings on the same lot. Driveways are usually differentiated from private streets by shorter lengths, narrower widths, and the lack of curbs, gutters, sidewalks, street lights, and similar improvements. Driveways are usually differentiated from alleys in that they are located on the lots to which they provide vehicular access, while alleys are normally separated from adjacent real property by a lot line. Except as otherwise specified in this Title, setbacks do not apply to driveways. (Ord. 5459, 2008.)

28.04.260 Dwelling Unit.

As used in this title, the terms dwelling unit and residential unit are synonymous. (Ord. 5459, 2008; Ord. 4858, 1994; Ord. 4199, 1983; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.265 Earth Material.

Any rock, natural soil or fill or any combination thereof. (Ord. 5416, 2007.)
28.04.270  Educational Institution.

An institution of learning giving general academic instruction equivalent to the standards prescribed by the State Board of Education; or, a non-profit institution or center of advanced study and research in the field of learning equivalent to or higher than the level of standards prescribed by the State Board of Education. An educational institution may include administrative offices, classrooms, technical and other support services directly related to the operations of the institution. (Ord. 4181, 1982; Ord. 3710, 1974; Ord. 2729, 1959.)

28.04.273  Emergency Shelter.

Housing for homeless persons with minimal supportive services that is limited to a length of occupancy of not more than six months. Minimal supportive services shall mean administrative offices, intake and waiting areas, kitchen and dining facilities, and laundry facilities as long as the facilities are directly related to the operation of the emergency shelter or for the exclusive use of the residents of the emergency shelter. Homeless shelters providing more than minimal supportive services or supportive services to persons other than the residents of the shelter shall require a conditional use permit pursuant to Section 28.94.030.W of this Title. (Ord. 5662, 2014.)

28.04.275  Erosion.

The wearing away of the ground surface as a result of the movement of wind, water or ice. (Ord. 5416, 2007.)

28.04.280  Excavation.

The mechanical removal of earth material. (Ord. 5416, 2007.)

28.04.285  Existing Grade.

The grade prior to grading. (Ord. 5416, 2007.)

28.04.290  Family.

A single residential unit or a person or group of persons living together as a domestic unit in a single residential unit. (Ord. 4858, 1994; Ord. 3710, 1974; Ord. 3648, 1974.)

28.04.295  Family Day Care Home.

A State-licensed home which regularly provides care, protection, and supervision of children under 18 years of age in the provider's own home, for periods of less than 24 hours per day, while the parents or guardians are away, as further defined and permitted pursuant to the California Health and Safety Code and other applicable State Regulations. The term "Family Day Care Home" includes the terms “Large Family Day Care Home” and “Small Family Day Care Home” as such terms are defined in Sections 1597.465 and 1597.44 of the California Health and Safety Code. (Ord. 5459, 2008; Ord. 4858, 1994.)

28.04.300  Fast Food Restaurant.

Any establishment whose principal business is the sale of foods, frozen desserts or beverages to the customer in a ready-to-consume state for consumption either within the restaurant building or for carry-out with consumption off the premises, and whose design or principal method of operation includes foods, frozen desserts, or beverages that are usually served in edible containers or in paper, plastic, or other disposable containers. (Ord. 4063, 1980.)

28.04.305  Fill.

A deposit of earth material placed by artificial means. (Ord. 5416, 2007.)

28.04.310  Finished Grade.

The final grade of the site that conforms to the approved plan. (Ord. 5416, 2007.)

28.04.315  Floor Area, Net.

The net floor area of a building shall be calculated in accordance with the following general rule and any applicable special rules:

A. **GENERAL RULE.** Net floor area shall be defined as the area in square feet of all floors confined within the exterior walls of a building, but not including the area of the following: exterior walls, vent shafts, courts, and any areas with a ceiling height of less than five (5) feet above the finished floor.
B. SPECIAL RULES.
1. The area occupied by stairs or an elevator shaft within the exterior walls of a building shall be counted only on one floor of the building. (Ord. 5459, 2008; Ord. 5416, 2007.)
2. Freestanding accessory buildings that do not require a building permit for construction or installation are excluded from the net floor area calculation. (Ord. 5459, 2008; Ord. 5416, 2007.)

28.04.320 Frontage of Block.
That dimension along one (1) side of a street between two (2) intersecting streets, or between an intersecting street and the end of a street where such frontage is not between two (2) intersecting streets. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.325 Garage, Private.
A building or portion of a building in which motor vehicles used by the occupants or tenants of the main building or buildings on the premises are stored or kept. (Ord. 3710, 1974; Ord. 2585, 1957.)

A multiple-family residence development of four (4) or more dwelling units of high quality designed to provide greater amenities than are normally provided in R-3 apartment developments, the plans and specifications, site development plans, landscaping plans and general appearance of which meet the approval of the Board of Land Use Controls. (Ord. 3710, 1974; Ord. 3117, 1966.)

28.04.335 Gazebo.
A freestanding, open-sided, roofed structure. (Ord. 5459, 2008.)

The comprehensive General Plan of the City of Santa Barbara together with all Specific Plans adopted by the City Council. (Ord. 4000 §1, 1979.)

28.04.345 Grade.
The lowest point of elevation of the finished surface of the ground, paving or sidewalk within the area between the building and the property line or, when the property line is more than five feet (5') from the building, between the building and a line five feet (5') from the building. In case walls are parallel to and within five feet (5') of a public sidewalk, alley or public way, the grade shall be the elevation of the sidewalk, alley or public way. The term exterior wall shall include columns or other supporting members, whether free-standing or connected to a wall. (Ord. 5416, 2007; Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.350 Grading.
Any excavating or filling or combination thereof. (Ord. 5416, 2007.)

The residence of a group of persons with mental or other handicaps, or otherwise disabled, which is organized as a single, relatively stable, bonafide housekeeping unit. Residents of a group home are a "household" for purposes of this Code, and a group home is one residential unit.
The term "group home" does not include any center for the medical treatment of non-handicapped persons, halfway house, club, fraternity or sorority house, boarding house, dormitory, or the commercial use of property as a bed and breakfast, hostel, hotel, inn, lodging, motel, resort, timeshare project or other temporary lodging where the term of occupancy, possession, or tenancy is fewer than thirty (30) days. (Ord. 4924, 1995.)

28.04.360 Guest Room.
Any habitable room, except a kitchen, designed or used for occupancy by one or more persons and not in a dwelling unit. (Ord. 4199, 1983.)

A waste, or combination of wastes, which because of the quantity, concentration or physical and chemical characteristics may either a) cause or significantly contribute to an increase in mortality or an increase in serious irreversible or incapacitating reversible illness, or b) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed or otherwise managed. Hazardous waste also includes those materials described in Title 22, Division 4.5, Chapter 11, California Code of Regulations (CCR). (Ord. 4825, 1993.)

28.04.370 Hazardous Waste Management Facility, Off-Site.

An "Off-site Hazardous Waste Management Facility" means a facility that accepts hazardous wastes from more than one generator, and may also be referred to as a Commercial or Specified Hazardous Waste Facility.

An Off-site Hazardous Waste Management Facility shall include the following:

A. Hazardous Waste Transfer Station. "Hazardous Waste Transfer Station" means a facility where hazardous waste from more than one source is collected and consolidated for shipment to a treatment, recycling and/or disposal facility or facilities. Transfer stations which handle only latex paint, used oil, antifreeze, spent lead acid batteries and/or small household batteries in accordance with provisions of California Health and Safety Code Section 25201(c) and meet all conditions for exemption outlined in California Health and Safety Code Section 25201(c), and are known as a household hazardous waste collection facility, are specifically excluded from this definition.

B. Hazardous Waste Storage Facility. "Hazardous Waste Storage Facility" means a hazardous waste facility at which hazardous waste is contained for a period greater than 96 hours at an off-site facility with specified exceptions provided in the California Health and Safety Code, Section 25123.3. On-site facilities which store hazardous wastes for periods of greater than 90 days shall be considered to be an Off-site Hazardous Waste Storage Facility.

C. Hazardous Waste Treatment Facility. "Hazardous Waste Treatment Facility" means a facility where the toxicity, chemical form and/or volume of a hazardous waste is altered to render the waste less toxic, less chemically active, or of a reduced volume.

E. Hazardous Waste Residuals Repository. "Hazardous Waste Residuals Repository" means a disposal facility for the long-term storage of the byproducts of treated hazardous waste for which there is no further means of practical treatment to render them less toxic or less chemically reactive. (Ord. 4825, 1993.)

28.04.375 Hazardous Waste Management Facility, On-Site.

A facility that stores, treats, recycles and/or disposes of hazardous waste generated only within the facility's boundaries. (Ord. 4825, 1993.)

A plan prepared, adopted and amended from time to time, pursuant to Section 25135 of the California Health and Safety Code by Santa Barbara County to direct the management of hazardous wastes within the boundaries of the County. It is also known as the Hazardous Waste Element of the Santa Barbara County Comprehensive Plan. (Ord. 4825, 1993.)

28.04.385 Home Occupation.

Any use customarily conducted entirely within the dwelling and carried on by the inhabitants thereof, which use is clearly incidental and secondary to the use of the dwelling for dwelling purposes, and does not change the character thereof or adversely affect the use or uses permitted in the zone in which the dwelling is located, and in connection with which there shall be no exterior display, no display windows, no stock in trade or commodity stored or sold upon the premises, no persons employed, and no mechanical, electrical or other specialized equipment used except such as is necessary for ordinary housekeeping purposes. Clinics, hospitals, barber shops, beauty parlors, tea rooms, tourist courts, rest homes, insurance and real estate offices, dancing schools, retail stores, commercial manufacturing, animal hospitals, kennels, among others, and any business which requires a City permit or license, except licenses issued for revenue purposes only, shall not be deemed home occupations. (Ord. 3710, 1974; Ord. 2938, 1963.)

28.04.390 Hospice.

A State-licensed facility which provides 24-hour nursing and supportive care and other services in a home-like setting to persons who have a medical diagnosis of terminal illness. (Ord. 4858, 1994.)
28.04.395 Hotel.

A building, group of buildings or a portion of a building which is designed for or occupied as the temporary abiding place of individuals for less than thirty (30) consecutive days including, but not limited to establishments held out to the public as auto courts, bed and breakfast inns, hostels, inns, motels, motor lodges, time share projects, tourist courts, and other similar uses. (Ord. 4199, 1983; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.400 Household.

A person, or a group of persons living together as a single, relatively permanent, bonafide housekeeping unit in a residential unit. Any reference in this Code to "family" means "household".

The term "Household" does not include any center for the medical treatment of non-handicapped persons, halfway house, club, fraternity or sorority house, boarding house, dormitory, or the commercial use of property as a bed and breakfast, hostel, hotel, inn, lodging, motel, resort, timeshare project or other temporary lodging where the term of occupancy, possession, or tenancy is fewer than thirty (30) consecutive calendar days. (Ord. 4924, 1995.)

A facility run by, or under contract to, a public agency which only accepts certain types of hazardous materials and then only for transport to an authorized recycling facility or to a permitted hazardous waste collection facility. The types of wastes that can be accepted are latex paint, used oil, antifreeze, spent lead-acid batteries and small household batteries in accordance with all provisions of California Health and Safety Code Section 25201(c). The materials cannot be stored for more than 180 days. Such facilities shall be accessible to individuals, households or small businesses. (Ord. 4825, 1993.)

The term junk yard includes automobile wrecking yards and includes any area of more than two hundred (200) square feet for the storage, keeping or abandonment of junk including scrap metals or other scrap materials, or for the dismantling, demolition or abandonment of automobiles or other vehicles, or machinery or parts thereof. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.415 Kitchen.

Any room used or intended or designed to be used for cooking and/or preparation of food. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.420 Lot.

A parcel of land shown with a separate and distinct number on a plot or map recorded or filed with the Recorder of the County or a parcel of land held under separate ownership on the effective date of this ordinance. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.425 Lot, Corner.

A lot situated at the intersection of two (2) or more streets having an angle of intersection of not more than one hundred thirty-five degrees (135°). (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.430 Lot, Interior.

A lot other than a corner lot. (Ord. 3710, 1974; Ord. 2585, 1957.)

The line or lines dividing a lot from a public or private street. The line or lines that divide a lot from an alley or a driveway shall not be considered front lot lines. On lots that abut multiple streets, all lines that divide the lot from a street shall be considered front lot lines. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3444, 1970; Ord. 2763, 1963.)

Any lot lines other than front lot lines. (Ord. 3710, 1974; Ord. 3587, 1973.)

A lot having frontage on two (2) parallel or approximately parallel streets. (Ord. 3710, 1974; Ord. 2585, 1957.)
28.04.450 Mezzanine.

Mezzanine or mezzanine floor is an intermediate floor placed in any story or room. When the total area of any such mezzanine floor exceeds thirty-three and one-third percent (33-1/3%) of the total floor area in that room, it shall be considered as constituting an additional story. The clear height above or below a mezzanine floor construction shall be not less than seven feet (7’).  (Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.455 Microcell.

A small cellular transceiver facility installed at or below ground level and comprised of a utility cabinet, one or more small antennas mounted on a steel pipe, an existing public utility pole or existing structure, and transmitters with an effective radiated power not exceeding five watts per channel and not to exceed a total of 200 watts per facility.  (Ord. 4891, 1994.)

28.04.460 Mixed Use Development.

A development in which both nonresidential and residential uses are permitted on the same lot.  (Ord. 4946, 1996.)

28.04.465 Mobilehome.

A structure designed for human habitation and for being moved on a street or highway under permit pursuant to Section 35790 of the California Vehicle Code. Mobilehome includes a manufactured home, as defined in Section 18007 of the California Health and Safety Code, and a mobilehome as defined in Section 18008 of the California Health and Safety Code, but does not include a recreational vehicle as defined in Section 28.04.555 of this Code and Section 18010 of the California Health and Safety Code, or a commercial coach as defined in Section 18001.8 of the California Health and Safety Code.  (Ord. 5459, 2008; Ord. 4269, 1984; Ord. 4113, 1981.)

28.04.470 Mobilehome Park.

An area of land where two or more mobilehome spaces are rented, or held out for rent, to accommodate mobilehomes for more than thirty (30) days.  (Ord. 4269, 1984.)

28.04.475 Mobilehome Park Space.

That portion of a mobilehome park set aside and designated for the occupancy of one (1) mobilehome, including any contiguous area designed or used for automobile parking, carport, storage, awning, cabana or other use which is clearly incidental and accessory to the primary use of the space.  (Ord. 4269, 1984.)

28.04.480 Modular Cooking Unit.

A self-contained cooking and food preparation area shall be permitted when located in a state-licensed residential care facility for the elderly, community care facility, or hospice after a performance standard permit or conditional use permit is obtained pursuant to either Chapter 28.93 or Chapter 28.94 of this Code. The modular cooking unit shall contain no more than a two-burner stove, oven or microwave oven, single compartment sink, refrigerator, utensil drawer(s), and cabinet(s) in one detachable module. The modular cooking unit shall not be larger than eighteen (18) square feet. Dishwashers and garbage disposals shall not be allowed. The modular cooking unit shall not be located in a room separated from other living areas, but could be located in a small recessed opening off other living areas.  (Ord. 5380, 2005; Ord. 4858, 1994.)

28.04.485 Motel.

The definitions of "Motel" and "Hotel" are synonymous. See Section 28.04.395.  (Ord. 5459, 2008; Ord. 4199, 1983.)

28.04.490 Multiple Residential Unit.

A building, or portion thereof, configured and/or occupied as three (3) or more residential units and including apartment houses, but not including hotels.  (Ord. 4858, 1994.)

28.04.495 Nonconforming Building.

A building, structure or portion thereof which does not conform to the regulations of this ordinance and which lawfully existed at the time the regulations with which it does not conform became effective.  (Ord. 3710, 1974; Ord. 2585, 1957.)
28.04.500 Nonconforming Use.

A use of a building or land which does not conform to the regulations of this ordinance and which lawfully existed at the time the regulations with which it does not conform became effective. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.505 Non-Transient Tenant.

A person who has resided in a residential hotel for a period of more than 30 days as of the time a development application is submitted for that residential hotel. (Ord. 4984, 1996.)

28.04.510 Owner.

Any individual, firm, association, syndicate, copartnership, corporation, trust or any other legal entity having sufficient proprietary interest in the land sought to be converted to commence, maintain, and complete proceedings to convert the same under this ordinance. (Ord. 4000 §1, 1979.)

28.04.515 Parcel.

A general term including all plots of land shown with separate identification on the latest equalized county assessment roll. Parcels may or may not be separate lots, depending upon whether or not such parcels are created as required by the Subdivision Ordinance. (Ord. 4000 §1, 1979.)

28.04.520 Patio.

A hardscaped (e.g., concrete, tile, brick, stone, etc.) space, constructed on the ground, usually adjoining a building and intended for indoor-outdoor living and recreation. A patio may be surrounded by walls or roofed, but not both. (Ord. 5459, 2008.)

28.04.525 Planned Residence Development.

One (1) or more contiguous parcels of land in a single ownership or planning control which shall be planned and developed as a single unit, under provisions of this ordinance, in a manner which shall be in harmony with the basic characteristics of the land use zone district in which it is located. (Ord. 3710, 1974; Ord. 2892, 1962.)

28.04.530 Porch.

A raised platform, usually roofed and sometimes partly enclosed with low walls, that extends along an outside wall of a building, usually at an entrance to a dwelling. A porch may also be referred to as a veranda. (Ord. 5459, 2008.)

28.04.535 Public Facility.

A facility open to the public and owned or operated by a governmental entity. (Ord. 4152, 1982.)

28.04.540 Public Utilities.

The general classification for public water, gas, sewer, electrical, cable television and telephone lines and facilities; does not include natural or improved drainage facilities. (Ord. 4000 §1, 1979.)

28.04.545 Public Works Director.

The Public Works Director or any of his deputies or assistants. (Ord. 4000 §1, 1979.)

A facility that is open to the public and has a public purpose but is not owned or operated by a governmental entity. A community center, a public museum, and an art gallery are examples of a quasi-public facility. (Ord. 4152, 1982.)

28.04.555 Recreational Vehicle.

A. RECREATIONAL VEHICLE. A motor home, slide-in camper, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational or emergency occupancy.

B. CAMPING TRAILER. A vehicular portable unit mounted on wheels and constructed with collapsible partial sidewalls which fold for towing by another vehicle and unfold at the campsite and designed for human habitation for recreational or emergency occupancy.
C. MOTOR HOME. A vehicular unit built on or permanently attached to a self-propelled motor vehicle chassis, chassis cab or van, which becomes an integral part of the completed vehicle, designed for human habitation for recreational or emergency occupancy.

D. SLIDE-IN CAMPER. A portable unit, consisting of a roof, floor and sides, designed to be loaded onto and unloaded from the bed of a pickup truck, and designed for human habitation for recreational or emergency occupancy and shall include a truck camper.

E. TRAVEL TRAILER. A portable unit, mounted on wheels, of such a size and weight as not to require special highway movement permits when drawn by a motor vehicle and for human habitation for recreational or emergency occupancy. (Ord. 4269, 1984.)

Recreational vehicle park includes a permanent recreational vehicle park and overnight recreational vehicle park as defined in this Chapter. (Ord. 4269, 1984.)

28.04.565 Recreational Vehicle Park (Overnight).

Any area of land where two (2) or more recreational vehicle spaces are rented, or held out for rent, to owners or users of recreational vehicles used for travel or recreational purposes for less than thirty (30) days. (Ord. 4269, 1984.)

28.04.570 Recreational Vehicle Park (Permanent).

An area of land where two (2) or more recreational vehicle spaces are rented, or held out for rent, to accommodate recreational vehicles for residential purposes for thirty (30) or more days. (Ord. 4269, 1984.)

28.04.575 Recreational Vehicle Space.

That portion of a recreational vehicle park set aside and designated for the occupancy of one (1) recreational vehicle, including any contiguous area designed or used for automobile parking, carport, storage, awning, cabana or other use which is clearly incidental and accessory to the primary use of the space. (Ord. 4269, 1984.)

28.04.580 Residential Care Facility for the Elderly.

A housing arrangement where the residents are at least sixty years of age and where varying levels of care, supervision, or health-related services are provided to the residents based on their varying needs. Persons under 60 years of age with compatible needs may be allowed to be admitted or retained in such a facility, not to exceed 25 percent of the residents, as further defined in Chapter 3.2 of Division 2 of the California Health and Safety Code. (Ord. 4858, 1994.)

28.04.585 Residential Hotel.

A hotel or boarding house or similar residential facility where, on the date of the adoption of this ordinance, the average duration of stay for the residents thereof exceeds thirty (30) days. (Ord. 4984, 1996.)

28.04.590 Residential Unit.

A. A building or portion thereof designed or occupied for residential purposes, containing not more than one (1) kitchen per residential unit, but not including hotels or boarding houses.

B. A residential unit may be declared by the Community Development Director when a building or portion thereof is configured or occupied for residential purposes, whether permanent or temporary, and contains elements evidencing separate residential occupancy. Elements to be considered may include, but are not limited to, the proximal arrangement and various combinations of:

1. Sink or bar sink;
2. Garbage disposal;
3. Dishwasher;
4. Toilet;
5. Bathing facility;
6. Interior locking doors;
7. Exterior entrance;
8. Exterior staircase;
9. Separate yard, patio, deck or balcony;
10. Separate phone line, cable line, or utility line;
11. Separate garage or parking area (covered or uncovered) or carport;
12. Countertops or cupboards;
13. Sleeping loft; or
14. Separate address/mail box designation.

Issuance of a building permit or other approvals does not, of itself, establish that a building or portion thereof
is not a residential unit.

C. Notwithstanding this Section, a building or portion thereof configured or occupied for residential purposes,
whether permanent or temporary, containing a modular cooking unit shall not be deemed a residential unit providing:
1. A performance standard permit or conditional use permit has been issued pursuant to either Chapter
28.93 or Chapter 28.94 of this Code; and
2. The facility has current, valid state licenses to operate a residential care facility for the elderly,
community care facility or hospice; and
3. There is a staffed congregate kitchen and dining facility on-site providing regular meals to all residents.
(Ord. 5380, 2005; Ord. 4858, 1994.)

28.04.595 Rough Grade.

The stage at which the grade approximately conforms to the approved plan. (Ord. 5416, 2007.)

28.04.600 School, Elementary or High.

An institution of learning which offers instruction in the several branches of learning and study required to be
taught in the public schools by the Education Code of the State of California. High schools include junior and senior,
parochial and private. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.605 Secondary Dwelling Unit.

A separate, complete housekeeping unit consisting of two (2) or more rooms for living and sleeping purposes, one
of which is a kitchen, and having a maximum square footage of six hundred (600) square feet, that is substantially
contained within the structure of a one-family dwelling. (Ord. 4225, 1983.)

28.04.610 Self-Service Laundry.

Any establishment for laundering where there is no pick-up or delivery service and no steam or hand laundry of
any type; provided, however, that all washing machines and accessory extractors and dryers shall be installed on a
single floor and there shall be no intermingling of customers' laundry. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.615 Service Station.

Service station includes both automobile service stations and automobile service station/mini-markets. (Ord. 4033
§3, 1980.)

28.04.620 Setback, Front.

An area between the front lot line and a line parallel to the front lot line bounded by the interior lot lines of the lot
that are roughly perpendicular to the front lot line, the depth of such area being the distance required by this zoning
ordinance. The front setback is to be provided and maintained as an open space on a lot or parcel of land, unoccupied
and unobstructed from the ground upward, except as otherwise provided in this title. (Ord. 5459, 2008.)

An area between an interior lot line and a line parallel to the interior lot line bounded by the two lot lines adjacent
to the interior lot line from which the setback is measured, the depth of such area being the distance required by this
zoning ordinance. The interior setback is to be provided and maintained as an open space on a lot or parcel of land,
unoccupied and unobstructed from the ground upward, except as otherwise provided in this title. (Ord. 5459, 2008.)

28.04.630 Single Residential Unit.

A residential building configured as not more than one (1) residential unit and occupied by not more than one
household. (Ord. 4924, 1995; Ord. 4858, 1994.)

28.04.635 Skilled Nursing Facility.

A State-licensed health facility or a distinct part of a hospital which provides continuous skilled nursing care and
supportive care to patients whose primary need is for the availability of skilled nursing care on an extended basis. It
provides 24-hour inpatient care and, as a minimum, includes physician, nursing, dietary, pharmaceutical services and
an activity program. Intermediate care programs which provide skilled nursing and supportive care for patients on a
less than continuous basis shall be considered skilled nursing facilities for the purposes of this Ordinance. "Skilled
Nursing Facility" and "Intermediate Care Facilities" are further defined in Chapter 2, Division 2 of the California
Health and Safety Code. (Ord. 4858, 1994.)
28.04.640  Stock Cooperative.

As defined in Section 11003.2 of the Business and Professions Code.  (Ord. 4000 §1, 1979.)

28.04.645  Story.

That portion of a building included between the surface of any floor and the surface of the floor next above it, or if there be no floor above it then the space between such floor and the ceiling next above it. The number of stories in a building shall be construed to be the maximum number of stories through which any one (1) of an unlimited number of possible vertical lines can pass, without passing through a wall, excluding certain mezzanines as provided in Section 28.04.410.  (Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.650  Street.

A public or private way constructed for the primary purpose of vehicular travel. An alley or a driveway is not a street. The term "street" describes the entire legal right-of-way or easement (public or private), including, but not limited to, the traffic lanes, bike lanes, curbs, gutters, sidewalk whether paved or unpaved, parkways, and any other grounds found within the legal street right-of-way. The name given to the right-of-way (avenue, court, road, etc.) is not determinative of whether the right-of-way is a street. (Ord. 5459, 2008.)

28.04.655  Street Frontage.

The length of the front lot line along an adjacent street. For the purpose of computing the street frontage of an irregularly shaped lot which is narrower at the front than at the rear, said measurement shall be along a straight line approximately parallel to the street and at a distance from the front property line equal to the front setback. (Ord. 5459, 2008.)

28.04.660  Street, Private.

A street that is privately owned. Private streets do not appear on the official dedicated street map of the City of Santa Barbara. Private streets generally provide access to multiple lots or units and are usually named, unlike driveways. Private streets may be constructed to public street standards. Private streets are generally differentiated from driveways by larger widths, longer lengths, and may include public or private utilities. A private street may also be referred to as private road, lane, or drive. (Ord. 5459, 2008.)

28.04.665  Street, Public.

Any street shown on the official dedicated street map of the City of Santa Barbara, as such map may be amended from time to time. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.670  Structural Alterations.

Anything constructed or erected and the use of which requires more or less permanent location on the ground or attachment to something having a permanent location on the ground. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.675  Structure.

The definitions of "Tourist Court" and "Hotel" are synonymous. See Section 28.04.395. (Ord. 5459, 2008; Ord. 4199, 1983; Ord. 3710, 1974; Ord. 2585, 1957.)
28.04.690 Trellis.

A structure or frame supporting open latticework, sometimes referred to as a pergola or arbor. A trellis is not considered an accessory building. (Ord. 5459, 2008.)

28.04.695 Two-Residential Unit.

A building configured and/or occupied as not more than two (2) residential units. (Ord. 4858, 1994.)

28.04.700 Vertical.

Perpendicular to the plane of the horizon. (Ord. 3710, 1974; Ord. 3540, 1972.)

28.04.705 Yard.

A yard is an open space, on a lot or parcel of land, unoccupied and unobstructed from the ground upward, except as otherwise provided in this title.

It is the intent of this ordinance to require yard area in all residential zones, which shall be adequate to provide light and air, separation of buildings, privacy of occupancy, reduction of fire hazards, control of building density, enjoyment of occupants, and preservation of residential amenities.

For the purpose of this title, open parking of automotive vehicles, trailers and boats shall be considered as an obstruction. (Ord. 3710, 1974; Ord. 3587, 1973; Ord. 2763, 1960.)

28.04.710 Yard, Front.

A yard extending across the full width of the lot between the front lot line and the nearest wall of any main building on the lot. This yard shall be measured by extending perpendicular lines from each point of the front lot line to the nearest wall of any main building on the lot. Where there is no wall of any main building on the lot which intercepts said perpendicular lines, said yard will terminate at a point determined by extending a line parallel to the front lot line from the corner of the front elevation of the main building to the nearest lot line. The front elevation of a building is any elevation that faces a street. If the corner of the front elevation is rounded (i.e., a tower), the corner of the elevation shall be established by drawing the smallest square or rectangle that will enclose the round element and extend the line from the corner of the superimposed square or rectangle that is closest to the front lot line. (Ord. 5459, 2008; Ord. 3806, 1975; Ord. 3710, 1974; Ord. 2585, 1957.)

28.04.715 Yard, Open.

A required yard, the purpose of which is to provide usable outdoor living space and/or visual open space. (Ord. 5459, 2008.)

28.04.720 Yard, Primary Front.

A front yard, on a lot with multiple front yards, designated by the property owner and approved by the Community Development Director or the Director’s designee as the primary front yard. All other front yards on the lot shall be secondary front yards. (Ord. 5459, 2008.)

28.04.725 Yard, Remaining Front.

The area of the front yard outside the required front setback. (Ord. 5459, 2008.)

Any front yard on a lot with multiple front yards that is not designated as the primary front yard. (Ord. 5459, 2008.)
Chapter 28.05

STAFF HEARING OFFICER

Sections:
28.05.010 Staff Hearing Officer; Project Compatibility Criteria.
28.05.020 Suspensions and Appeals of Decisions of the Staff Hearing Officer to the Planning Commission.

28.05.010 Staff Hearing Officer; Project Compatibility Criteria.

A. STAFF HEARING OFFICER AUTHORITY. The Staff Hearing Officer means the Community Development Director or his or her designee. For purposes of this Title 28, the Staff Hearing Officer shall have the authority to investigate, approve, approve with conditions, or deny applications for development as specified in this Title 28. Notwithstanding any provision of this Code designating the Staff Hearing Officer as the reviewing body, if an application requires review by the Planning Commission under any provision of this Code, then all discretionary review of the application shall be conducted by the Planning Commission.

B. COMPATIBILITY CRITERIA. In making those land use decisions authorized for the Staff Hearing Officer by Title 28 of the Municipal Code, the Staff Hearing Officer shall take into consideration the comments of the Architectural Board of Review provided pursuant to the requirements of Section 22.68.045 or the comments of the Historic Landmarks Commission pursuant to Section 22.22.145 (as the appropriate case may be) and, in issuing a project approval or a project denial, the Staff Hearing Officer shall provide written comments on how the ABR or HLC comments affected the Staff Hearing Officer’s land use decision. (Ord. 5464, 2008; Ord. 5380, 2005.)

28.05.020 Suspensions and Appeals of Decisions of the Staff Hearing Officer to the Planning Commission.

Where authorized by this Title 28, decisions of the Staff Hearing Officer may be suspended or appealed in accordance with the following procedures:

A. SUSPENSIONS. The Chairperson, Vice Chairperson or other designated member of the Planning Commission may take action to suspend any decision of the Staff Hearing Officer and to schedule a public hearing before the Planning Commission to review said decision. The notice of suspension must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision. The Community Development Department shall prepare a report to the Planning Commission with staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer. Any review of a decision of the Staff Hearing Officer pursuant to this Subsection A shall be consolidated with and heard at the same time as any timely appeal of said decision.

B. APPEALS. The decisions of the Staff Hearing Officer may be appealed to the Planning Commission by the applicant or any aggrieved person. The appeal must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision. The appellant shall state specifically in the appeal how the decision of the Staff Hearing Officer is not in accord with the provisions of this Title or how it is claimed that there was an error or an abuse of discretion by the Staff Hearing Officer. Except for appeals of actions taken pursuant to Chapter 28.44, the appellant shall pay at the time the appeal is filed a fee for such appeal as provided by resolution of the City Council. The Planning Commission shall prepare a report to the Planning Commission with staff recommendations, including a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant.

C. APPEALS OF DECISIONS OF PLANNING COMMISSION ON SUSPENSIONS OR APPEALS FROM THE STAFF HEARING OFFICER. The decisions of the Planning Commission on suspensions or appeals from decisions of the Staff Hearing Officer may be appealed to the City Council by the applicant or any aggrieved person pursuant to the provisions of Chapter 1.30. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Planning Commission regarding a decision of the Staff Hearing Officer shall be provided in the same manner as notice was provided for the hearing before the Planning Commission. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council. (Ord. 5380, 2005.)
Chapter 28.06
PLANNING COMMISSION

Section:
28.06.010 Powers and Duties.

28.06.010 Powers and Duties.

The Planning Commission of the City shall exercise the following functions:
1. All actions provided by the Zoning Ordinance to be performed by the Planning Commission in connection with applications for modifications, variances, special use permits, conditional use permits, site plans, plot plans, development plans and planned residence developments.
2. Make recommendations to the City Council for amendments to the text of the Zoning Ordinance.
3. Act as Advisory Agency for subdivisions as provided for in Title 27 of this Code.
4. In making those land use decisions authorized for the Planning Commission by Title 28 of the Municipal Code, the Commission shall take into consideration the comments of the Architectural Board of Review provided pursuant to the requirements of Section 22.68.045 or the Historic Landmarks Commission pursuant to Section 22.22.145 (as the appropriate case may be) and, in issuing a project approval or a project denial, the Commission shall provide written comments on how the ABR or HLC comments affected the Commission’s decision.
5. Such other functions as may be assigned by the City Council. (Ord. 5464, 2008; Ord. 5380, 2005; Ord. 3904 §10, 1977.)

Chapter 28.07
GENERAL PLAN AMENDMENT

Section:
28.07.010 General Plan Amendment Fee.

28.07.010 General Plan Amendment Fee.

In the event that the Planning Commission agrees to hold a hearing on a General Plan amendment, other than upon its own initiative or upon request of the City Council, the person seeking the General Plan amendment shall pay to the City the fee established by resolution of the City Council. Said fee shall be paid within five (5) days of the Planning Commission decision to hold the public hearing. (Ord. 3955, 1978.)

Chapter 28.08
SPECIFIC PLANS

Sections:
28.08.010 Procedures. 28.08.020 Issuance of Building Permits.

28.08.010 Procedures.

The procedure for the preparation, adoption and administration of specific plans shall be as provided by Articles 8, 9, and 10 of Chapter 3 of Division 1 of Title 7 of the California Government Code (commencing with Section 65450 et seq.), as most recently amended, except that a specific plan may only be approved or amended in the same manner that the general plan may be approved or amended pursuant to Section 1507 of the City Charter. (Ord. 4279, 1984.)

28.08.020 Issuance of Building Permits.

A building permit shall not be issued for any structure, alteration or use that is inconsistent with an adopted specific plan unless an exception is granted by the Community Development Director upon finding that the project allowed by the building permit would not impair the City's ability to complete or implement the Specific Plan. (Ord. 4279, 1984.)
Chapter 28.10

ZONES

Sections:
28.10.001 Establishing and Naming Zones.
28.10.010 Boundaries of Zones.
28.10.030 Uses Permitted in Zones.

28.10.001 Establishing and Naming Zones.

In order to classify, regulate, restrict and segregate the uses of land, buildings and structures; to regulate and restrict the height and bulk of buildings; to regulate the area of setbacks, open yards, courts and other open spaces about buildings; and to regulate the density of population; the territory of the City of Santa Barbara is hereby divided into the following zone classifications:

(Ord. 5459, 2008; Ord. 5417, 2007; Ord. 5343, 2005; Ord. 5319, 2004; Ord. 4900, 1995; Ord. 4825, 1993; Ord. 4172, 1982; Ord. 4171, 1982; Ord. 4169, 1982; Ord. 3710, 1974; Ord. 2585, 1957.)

28.10.010 Boundaries of Zones.

Upon the effective date of amendment, boundaries of all areas to be zoned or rezoned, whether by application or initiated by the City, including zoning in areas to be annexed to the City shall be described and documented as follows:

1. a. Metes and bounds (bearings and distances in feet) covering all courses and distances around the boundaries of each area to be zoned or rezoned; or
2. Where the proposed boundary lines are coincident with existing parcel lines, the legal description of the property to be zoned or rezoned may be done by referencing the current assessor's block and parcel numbers or
c. Combination of the above as determined by the Community Development Director; or

d. When the preferred methods indicated above are determined to be impractical by the Community
Development Director, a map which is drawn to scale may be used.

2. The description of subject boundary shall also include, but not be limited to, references to contiguous lines of
public alleys, public streets, highways, freeways, and railroad property existing at the time of said zoning or rezoning.

3. The zone boundary description shall be prepared by the applicant and shall be made part of the application
submitted to the Planning Commission. In the event that the rezoning is initiated by the City, the zone boundary
description shall be prepared by the Public Works Director immediately following approval of zoning or rezoning by
the City Council and shall be submitted to the City Attorney for preparation of the Zoning Ordinance amendment.

4. Said zoning and rezoning boundary descriptions shall hereafter be incorporated in each ordinance authorizing
each zoning or rezoning classification including land use zones resulting within areas to be annexed to the City.

5. Applications for zoning or rezoning shall be submitted to the Planning Commission as required in Chapter
28.92, on standard forms prepared therefor and shall include one (1) copy of the current City parceling map showing
all property involved and currently zoned in said application with the boundary of the portion requested to be rezoned
outlined in red color.

6. In addition to documenting zone boundary descriptions, the zoning maps of the City of Santa Barbara, drawn
to scale, shall also show the current boundaries of all zoned areas, including such zones documented by descriptions.
Dimensions, if shown on the zoning map, shall concur with the dimensions (distances) cited in the corresponding
documented zone descriptions.

7. Where uncertainty exists as to the boundary of any zone created and shown on the zoning map after the
effective date of this amendment, the corresponding documented zoning description shall govern.

8. In the case of uncertainty as to interpretation of a zone boundary either documented by description or by the
zone map in the absence of a documented boundary description, the City Council shall, after recommendation of the
Planning Commission, determine the location of the boundary in question.

9. Where a zone boundary, not documented by description as set forth herein, crosses unsubdivided property or
any lot and unless the location of such boundary is specified by dimensions shown on the zoning map, said boundary
shall be determined by reference to City parceling maps maintained by the Chief of Building and Zoning and on
which, in this instance, specific boundary locations shall be shown.

10. Where any public street, alley, or thoroughfare is officially vacated or abandoned and use of the land therein
is conveyed to the contiguous property, the zoning regulations applicable to the contiguous property shall apply to the
areas so vacated or abandoned.

11. Where any private right-of-way or easement of any railroad, railway, canal, transportation or public utility
company is vacated or abandoned, the zoning regulations applicable to the contiguous property shall apply to such
vacated or abandoned property.

12. All property in the City of Santa Barbara not otherwise classified, and all property hereafter annexed and not
zoned upon annexation, is hereby classified as A-1 Zone.

13. At the time of any zoning or rezoning, the new zone boundary shall follow existing lot lines as shown on the
Official Parceling Maps of the City of Santa Barbara, unless otherwise recommended by the Planning Commission.
(Ord. 5380, 2005; Ord. 4190, 1982; Ord. 3632, 1974; Ord. 3020, 1965.)

28.10.030 Uses Permitted in Zones.

Except as hereinafter provided:

A. No building or structure shall be erected, moved, added to or enlarged, nor shall any land, building,
structure or premises be used, designed, or intended to be used, for any purpose or in any manner other than is
permitted in the zones in which such land, building, structure or premises are located.

B. No building or structure shall be erected, moved, reconstructed or structurally altered to exceed in height the
limit established for the zone in which such building or structure is located.

C. No building or structure shall be erected nor shall any existing building or structure be moved, altered,
enlarged or rebuilt, nor shall any open spaces surrounding any building be encroached upon or reduced in any manner
except in conformity with the lot area, setback, and open yard regulations established for the zone in which such
building or structure is located, except as otherwise provided in this title.

D. No setback, open yard, or other open space provided about any building or structure for the purpose of
complying with these regulations shall, by reason of change in ownership or otherwise, be considered as providing a
setback, open yard, or open space for any other building or structure. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 2585,
1957.)
Chapter 28.11
PROTECTION AND ENHANCEMENT OF SOLAR ACCESS

Sections:
28.11.010 Definitions.
28.11.020 Height Limitation.
28.11.030 Exemptions.
28.11.040 Rules and Regulations.

28.11.010 Definitions.

For the purposes of this Chapter, the following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning:

A. BASE ELEVATION. The elevation of the highest point of contact of a structure with the adjacent ground. For the purposes of this determination, all fences, covered and uncovered walkways, driveways, patio covers and other similar elements shall be considered separate structures.

B. NORTHERLY LOT LINE. Any lot line, of which there may be more than one per lot, that forms a generally north facing boundary of a lot and has a bearing greater than or equal to forty degrees from either true north or true south. For curved lot lines, the bearing of the lot line at any point shall be the bearing of the tangent to the curve at that point.

C. PLAN VIEW. A plot plan of the parcel which shows the horizontal dimensions of a parcel and each structure on the parcel.

D. RESIDENTIAL ZONE. An A-1, A-2, E-1, E-2, E-3, R-1, R-2, R-3 or R-4 zone as defined in Title 28 of the Santa Barbara Municipal Code.

E. SHADOW PLAN. A plot plan which shows the extent of shading caused by a proposed structure and is in compliance with the Rules and Regulations approved pursuant to Section 28.11.040 of this Chapter.

F. SOLAR ACCESS. The ability of a location to receive direct sunlight as provided by the height limitations of Section 28.11.020 of this Chapter. (Ord. 4426, 1986.)

28.11.020 Height Limitation.

The maximum elevation of each point on a structure in a residential zone as measured from the base elevation shall not exceed the sum of (i) eighteen (18) feet in an R-3 or R-4 zone or twelve (12) feet in all other residential zones and (ii) fifty-eight percent (58%) of the shortest distance from that point to the nearest northerly lot line as measured horizontally on the plan view of the structure. Any height limitation imposed by this Section shall be in addition to any other height limitation imposed in the Charter or this Code, such that the more restrictive height limitation shall apply. (Ord. 4426, 1986.)

28.11.030 Exemptions.

The following shall be exempt from the height limitations of Section 28.11.020:

A. Any portion of a structure in existence, or for which a valid building permit was issued, prior to the effective date of the ordinance first enacting this Chapter.

B. Any portion of a structure which received Preliminary Approval by the Architectural Board of Review prior to the effective date of the ordinance first enacting this Chapter.

C. Any flagpole, antenna, ornamental spire, chimney, or other building element less than four (4) feet along each horizontal dimension.

D. A utility pole and line.

E. Any portion of a structure for which a shadow plan is prepared and submitted by the applicant demonstrating that shadows cast by that portion of the structure at 9:00 a.m., noon, and 3:00 p.m., Pacific Standard Time on December 21 will:
   1. Not exceed the boundaries of a simultaneous shadow cast by a legally existing structure, or by a hill or other topographical feature other than trees or other vegetation; or
   2. Not shade that portion of any adjacent residentially-zoned lot which is occupied by a dwelling or which could legally and without modification of required setbacks be occupied in the future by a dwelling; or
   3. Fall entirely within the boundaries of an existing covered or uncovered paved off street parking area, or paved driveway leading thereto. (Ord. 5459, 2008; Ord. 4426, 1986.)

28.11.040 Rules and Regulations.

The Community Development Director may promulgate and administer rules and regulations necessary for the administration and interpretation of this Chapter, subject to approval by the City Council. (Ord. 4426, 1986.)
Chapter 28.12

ZONE MAP

Section:
28.12.001 Title.

The boundaries of the zones provided in Chapter 28.10 are shown upon the zone map which is entitled as follows: "Sectional Zoning Map of the City of Santa Barbara". All notations, references and other information shown on said map are incorporated by reference herein and made a part hereof. (See end of this title.) (Ords. 5625 and 2626, 2013; Ord. 5138, 1999; Ord. 3710, 1974; Ord. 2585, 1957.)

Chapter 28.15

A-1, A-2, E-1, E-2, E-3 and R-1
ONE-FAMILY RESIDENCE ZONES

Sections:
28.15.001 In General.
28.15.005 Legislative Intent.
28.15.030 Uses Permitted.
28.15.035 Uses Permitted Upon Issuance of Conditional Use Permit or Performance Standard Permit.
28.15.040 Locations Allowed for Mobilehomes.
28.15.045 Prohibition of Shiny Roofing and Siding.
28.15.050 Building Height.
28.15.060 Setback and Open Yard Requirements.
28.15.065 Reduction of Setback Requirements.
28.15.070 Distance Between Buildings on the Same Lot.
28.15.080 Lot Area and Frontage Requirements.
28.15.083 Maximum Net Floor Area (Floor to Lot Area Ratio).
28.15.085 Regulations for Non-Residential Buildings, Structures and Uses.
28.15.100 Off-street Parking.
28.15.110 Signs.

28.15.001 In General.

The following regulations shall apply in A-1, A-2, E-1, E-2, E-3 and R-1 One-Family Residence Zones unless otherwise provided in this chapter. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.15.005 Legislative Intent.

These zones are restricted residential districts of low density in which the principal use of land is for single residential units; together with recreation, assembly and education facilities required to serve the community. The regulations for these districts are designed and intended to establish, maintain and protect the essential characteristics of the districts, to develop and sustain a suitable environment for domestic life including the raising of children, and to prohibit all activities which would tend to be inharmonious with or injurious to the preservation of a residential environment. Commercial uses are strictly limited because commercial uses may result in adverse impacts on surrounding residential uses including, but not limited to, increased levels of commercial and residential vehicle traffic, parking demand, light and glare, and noise.

The City Council intends that buildings within these residential districts may be used for housing a person or persons with disabilities, as defined in the Federal Fair Housing Act of 1989 and State Housing Law. Group Home residences of persons with disabilities or handicaps are an allowed use in all residential districts, and are not required to obtain a variance or a conditional use permit in order to operate unless a variance or conditional use permit would be required for a residential unit under the same circumstances. (Ord. 4924, 1995; Ord. 3710, 1974; Ord. 2868, 1962;
28.15.030 Uses Permitted.

A. A single residential unit occupying a single lot, or a group home.

B. Accessory buildings or uses as follows:
   1. A private garage, carport or parking spaces.
   2. Work or storage sheds for any non-commercial use or equipment.
   3. The keeping of horses and necessary outbuildings in conjunction with the residential use of a lot and subject to the following conditions:
      a. The keeping of horses shall be permitted only on lots having an area of twenty thousand (20,000) square feet or more, but in no event for commercial purposes, and provided that the number of animals on any one (1) lot shall be limited to one (1) for every ten thousand (10,000) square feet of lot area, but not more than five (5) per lot.
      b. The keeping of such animals shall conform to all other provisions of law governing same, and no such animals nor any pen, stable, barn or corral shall be kept or maintained within thirty-five feet (35') of any dwelling or other building used for human habitation, or within seventy-five feet (75') of the front lot line of the lot upon which it is located, or within seventy-five feet (75') of any public park, school, hospital or similar institution.
      c. The keeping of any other animal is only permitted pursuant to the provisions of Title 6 of the Santa Barbara Municipal Code.

C. A Home Occupation.

D. A State-licensed Small Family Day Care Home.

E. A State-licensed Large Family Day Care Home, subject to the provisions in Chapter 28.93 of this Title.

F. State authorized, licensed or certified use to the extent it is required by State Law to be an allowed use in residential zones.

G. A Mobilehome which has been certified under the National Mobilehome Construction and Safety Standards Act of 1974 (42 U.S.C. Section 5401 et seq.), as amended from time to time, on an approved permanent foundation.

H. Agriculture, as defined in Section 28.04.030 of this Title, subject to administrative guidelines necessary to monitor and carry out these standards which may be adopted and amended from time to time by resolution of the City Council and subject to the following performance standards:
   1. Accessory Buildings. Accessory buildings for agricultural purposes shall not exceed five hundred (500) square feet in aggregate and shall be located a minimum of one hundred (100) feet from any property line. Accessory buildings used for agricultural purposes may be placed on a parcel without a main building. Accessory buildings shall not be placed on ridgelines or in such a manner that the peak of the roof exceeds the ridgeline elevation by more than six (6) feet. All accessory buildings shall be placed outside of the 100-year floodplain of any creeks or drainages on the property. Building siding and roof colors shall be in earth or vegetation tones to minimize visibility unless otherwise approved by the Architectural Board of Review or the Historic Landmarks Commission. If an applicant proposes an agricultural accessory building in excess of five hundred (500) square feet in area, the applicant may apply for a modification under Chapter 28.92 of this Title.
   2. Storage Requirements. All flammables, pesticides and fertilizers shall be stored in accordance with the regulations of the California Fire Code and Santa Barbara County Department of Health Services or successor agency. At a minimum, any area where such materials are stored shall have a continuous concrete floor and lip which is tall enough to contain one hundred and ten percent (110%) of the volume of all the materials stored in the area. No pesticides, chemical fertilizers or other hazardous materials shall be stored outside of buildings.
   3. Large Vehicles. No vehicles in excess of five (5) tons shall be kept, stored or parked on the property, except that such vehicles may be on the property as necessary for completion of grading performed in accordance with a grading permit issued by the City of Santa Barbara.
   4. Sanitation. Sanitary facilities shall be provided for agricultural workers as required by the Santa Barbara County Division of Environmental Health and the California Occupational Safety and Health Administration.
   5. Water Meters. All agricultural operations involving an area of one-half (½) acre or greater shall be placed on "Irrigation" water meters, as defined by authorization of Title 14 of this Code.
   6. Irrigation Systems. All new or retrofitted agricultural irrigation systems for agricultural uses other than those carried out in greenhouses, shall be designed in accordance with the standards of the Soil Conservation Service for water conserving irrigation.

I. Improvements and additions of 500 square feet or less to existing Public Works Facilities including, but not limited to, sewer lift stations, pump stations, water wells, pressure reducing stations, generator enclosures, minor improvements to existing water storage reservoirs and other miscellaneous structures incidental to or improving the existing use. Standard construction conditions may be imposed on the building permit as deemed appropriate by the Community Development Director. (Ord. 5459, Section 3, 2008; Ord. 5380, 2005; Ord. 4924, 1995; Ord. 4878, 1994; Ord. 4858, 1994; Ord. 4346, 1985; Ord. 4269, 1984; Ord. 4113, 1981; Ord. 3710, 1974; Ord. 3613, 1974; Ord. 2868, 1962.)

28.15.035 Uses Permitted Upon Issuance of Conditional Use Permit or Performance Standard Permit.

As provided in Chapters 28.93 and 28.94 of this Code. (Ord. 5380, 2005; Ord. 2585, 1957.)
A. USE OF MOBILEHOMES GENERALLY. Mobilehomes installed in accordance with Section 28.15.030.G may be only allowed on lots located in One-Family Residence Zones, except where the lot is located within:

1. City-designated high fire hazard area (as designated in Chapter 22.04 of this Code).
2. Any landmark district established in accordance with Chapter 22.22 of this Code.

B. INTERIM USE OF A MOBILEHOME TO PROVIDE FIRE SERVICE. Notwithstanding Subsection A hereof, a mobilehome may be used at City Fire Station No. 7 (Sheffield/Stanwood Station) in accordance with Santa Barbara Municipal Code Section 28.15.030.G for the purposes of providing fire protection services, provided the following conditions apply: 1. that such use does not continue for a period of time in excess of five (5) years from its initiation; 2. that the mobilehome is not installed on a permanent foundation; 3. that the requirements of Santa Barbara Municipal Code Section 28.15.085.A and B regarding the required setback and lot coverage regulations are observed to the greatest extent feasible. (Ord. 5459, 2008; Ord. 5275, 2003; Ord. 4269, 1984; Ord. 4134, 1982; Ord. 4113, 1981.)

28.15.045 Prohibition of Shiny Roofing and Siding.

The materials used for roofing and siding on single-family dwellings shall be of a nonreflective nature. A shiny, mirrorlike or glossy metallic finish for such materials is prohibited. (Ord. 4113, 1981.)

28.15.050 Building Height.

No building in these zones shall exceed a height of thirty feet (30’) nor exceed the height limitations imposed for the protection and enhancement of solar access by Chapter 28.11 of this Code. (Ord. 4426, 1986; Ord. 3710, 1974; Ord. 3540, 1972.)

Residential buildings and structures shall be subject to design review and approval, disapproval or conditional approval as required in Chapter 22.69 of this Code. (Ord. 5416, 2007; Ord. 4726, 1991.)

28.15.060 Setback and Open Yard Requirements.

The following setbacks and open yard requirements shall be observed on all lots within these zones:

A. Front Setback. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures, and parking on every lot within the indicated zones as follows:

1. A-1 Zone (All buildings, structures, and parking): 35 feet
2. A-2 Zone (All buildings, structures, and parking): 30 feet
3. E-1 Zone (All buildings, structures, and parking): 30 feet
4. E-2 Zone (All buildings, structures, and parking): 25 feet
5. E-3 Zone (All buildings, structures, and parking): 20 feet
6. R-1 Zone:
   a. Ground floor of any building or structure: 15 feet
   b. Upper story portion of any building or structure: 20 feet
   c. Garage or carport with an opening that does not face an adjacent street or uncovered parking that does not back out onto the street: 15 feet
   d. Garage or carport with an opening that faces an adjacent street or uncovered parking that backs out onto the street: 20 feet

B. Interior Setback. An interior setback of not less than the indicated distance shall be provided between any interior lot line and all buildings, structures, and parking on every lot within the indicated zones as follows:

1. A-1 Zone: 15 feet
2. A-2 Zone: 10 feet
3. E-1 Zone: 10 feet
4. E-2 Zone: 8 feet
5. E-3 Zone: 6 feet
6. R-1 Zone: 5 feet

C. Open Yard. An open yard shall be provided on every lot within the A-1, A-2, E-1, E-2, E-3, and R-1 zones. The required open yard shall observe the following general rules regarding dimension, location, and configuration, except as such general rules may be altered by any applicable additional rules or exceptions specified within this Subsection C:

   a. Minimum size: One area of at least 1,250 square feet of lot area.
   b. Minimum dimensions: At least 20 feet long and 20 feet wide measured in perpendicular directions.
c. Location and Configuration. The open yard may consist of any combination of ground level areas such as patios, ground floor decks, pathways, landscaped areas, natural areas, flat areas, or hillsides, so long as the overall size and dimensions of the open yard area meet the requirements specified in these general rules and the open yard is not located in any of the following locations:

1. Any portion of the front yard,
2. Any areas designated for use by motor vehicles, including, but not limited to, driveways and parking areas, or
3. On decks, patios, terraces, or similar improvements where the maximum height of the improvement above existing or finished grade, whichever is lower, is greater than 36 inches.

2. Additional Rules for Sloped Open Yards. If the average slope of the open yard is greater than 20% (as calculated pursuant to Section 28.15.080), the lot shall contain at least one flat area (which may be provided on grade or on a deck or patio) that observes the following dimensions and configurations:
   a. Minimum Size: 160 square feet of area.
   b. Minimum dimensions: At least 10 feet long and 10 feet wide measured in perpendicular directions.
   c. Maximum slope: 2%.

3. Exception for Lots with Multiple Front Yards. On lots with multiple front yards, the following exception to the location requirement is available: an open yard may include area in a secondary front yard as long as the open yard observes a 10 foot setback from the front lot line.

4. Exceptions for Lots of Less than 6,000 Square Feet of Net Lot Area. On lots of less than 6,000 square feet of net lot area and which are sloped less than 20% (as calculated pursuant to Section 28.15.080), the following exceptions to the general rules regarding size and location shall apply:
   a. Size. The 1,250 square feet of open yard area may be provided in one area or in multiple areas; however, each area of open yard shall be at least 20 feet long and 20 feet wide measured in perpendicular directions.
   b. Location. Up to 850 square feet of open yard area may be provided in the remaining front yard of the lot. (Ord. 5459, 2008.)

28.15.065 Reduction of Setback Requirements.

It is hereby declared that under the following conditions a physical hardship exists on all E-1, E-2, E-3 and R-1 single-family residence zone lots, and that the listed exceptions are hereby granted where the stated conditions exist:
Where the average natural slope of the front half of a lot is more than one foot (1') rise or fall in five feet (5') horizontal, the front setback required by Section 28.15.060 is reduced by five feet (5').

Other provisions of this chapter notwithstanding, a conforming addition may be made to an existing non-conforming single-family dwelling where such non-conformance is due to inadequate front setback or interior setback, providing said single-family dwelling complied with the setbacks required by ordinance at the time of construction. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3587, 1973.)

28.15.070 Distance Between Buildings on the Same Lot.

No main building shall be closer than twenty feet (20') to any other main building on the same lot. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.15.080 Lot Area and Frontage Requirements.

A-1 Zone. Each single-family dwelling with its accessory building hereafter erected shall be located upon a lot having a net area of not less than one (1) acre (43,560 square feet) and not less than one hundred feet (100') of frontage on a public street, except that where the zone designation A-1 is preceded by a number, such as 2-A-1, 5-A-1, 10-A-1, etc., the minimum lot area, in acres, shall be equal to the preceding number, and the minimum frontage on a public street shall be equal to one hundred feet (100') times the preceding number, except that street frontage in excess of 300 feet shall not be required for any lot.

Every lot hereafter created in an A-1 Zone, or in an A-1 Zone preceded by a number, shall have an average width which is not less than the number of feet of public street frontage required nor less than one-third (1/3) the depth of the lot.

A-2 Zone. Each single-family dwelling with its accessory building hereafter erected shall be located upon a lot having an area of not less than twenty-five thousand (25,000) square feet, and not less than one hundred feet (100') of frontage on a public street.

E-1 Zone. Each single-family dwelling with its accessory buildings hereafter erected shall be located upon a lot having an area of not less than fifteen thousand (15,000) square feet, and not less than ninety feet (90') of frontage on a public street.

E-2 Zone. Each single-family dwelling with its accessory buildings hereafter erected shall be located upon a lot having an area of not less than ten thousand (10,000) square feet, and not less than seventy-five feet (75') of frontage on a public street.

E-3 Zone. Each single-family dwelling with its accessory buildings hereafter erected shall be located upon a lot having an area of not less than seven thousand five hundred (7,500) square feet, and not less than sixty feet (60') of frontage on a public street.
R-I Zone. Each single-family dwelling with its accessory buildings hereafter erected shall be located upon a lot having an area of not less than six thousand (6,000) square feet, and not less than sixty feet (60') of frontage on a public street.

Any lot of less than the required area or frontage for the district in which such lot is located at the time this ordinance becomes effective may be used as a building site by such owner or his successors in interest, provided all other regulations of the zone prescribed by this ordinance are observed.

With the exception of those parcels having frontage on the Pacific Ocean, the minimum lot areas and densities specified in this section shall be increased by the following factors where the average slope of the parcels falls within the percent of average slope ranges given:

<table>
<thead>
<tr>
<th>Factor</th>
<th>Percent of Average Slope</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.5 times minimum lot area</td>
<td>10% up to and including 20%</td>
</tr>
<tr>
<td>2.0 times minimum lot area</td>
<td>over 20% up to &amp; including 30%</td>
</tr>
<tr>
<td>3.0 times minimum lot area</td>
<td>over 30%</td>
</tr>
</tbody>
</table>

"Average slope" of a parcel of land or any portion thereof shall be computed by applying the formula (S=.00229 IL divided by A) to the natural slope of the land, before grading is commenced as determined from a topographic map conforming to National Mapping Standards and having a scale of not less than 1 inch equals 200 feet and a contour interval of not less than five feet (5'). The letters in this formula shall have the following significance:

S = The average slope of the land in percent.
I = The contour interval in feet.
L = The combined length of all contours in feet, excluding the length of contours in drainage channels and in natural water courses below the 25 year flood level.
A = The net area of parcel or portion thereof, in acres, after deducting all areas in drainage channels below the 25 year flood level, for which the slope is to be determined. (Ord. 4726, 1991; Ord. 3753, 1975; Ord. 3710, 1974; Ord. 2585, 1957.)

28.15.083 Maximum Net Floor Area (Floor to Lot Area Ratio).

A. APPLICATION. The provisions of this Section shall only apply to lots within these zones that have less than 15,000 square feet of net lot area and which are, or are proposed to be, developed with a main or accessory building that is either: (1) two or more stories tall, or (2) has a building height of seventeen feet (17') or more.

B. DEFINITIONS. For purposes of this Section, the following definitions shall apply:

1. Net Floor Area of a Building. The net floor area of a building shall be calculated in accordance with the following general rule and any applicable special rules:
   a. General Rule: Net floor area is the area in square feet of all floors confined within the exterior walls of a building, but not including the area of the following: exterior walls, vent shafts, courts, and any areas with a ceiling height of less than five (5) feet above the finished floor.
   b. Special Rules: (i) Stairs and Elevators. The area occupied by stairs or an elevator shaft within the exterior walls of a building shall be counted only on one floor of the building. (ii) Small Accessory Buildings. Freestanding accessory buildings that do not require a building permit for construction or installation are excluded from the net floor area calculation. (iii) Basements and Cellars. The net floor area calculation for a basement or cellar shall be reduced by 50% if the vertical distance from grade to ceiling is four feet (4') or less for at least one-half of the length of the perimeter of the basement or cellar. The floor area of a basement or cellar shall be excluded from the calculation of net floor area if the vertical distance from grade to the ceiling is four feet (4') or less for the entire length of the perimeter of the basement or cellar. For purposes of the exclusion of floor area, one (1) section of the basement or cellar perimeter length, not exceeding five (5) feet in length, may have a distance from grade to ceiling greater than four feet in order to allow for an exterior door, and the basement or cellar may still qualify for the exclusion if the door is located outside the required front setback. (iv) Secondary Dwelling Units. Net floor area within a portion of a building that is designed and permitted as a secondary dwelling unit pursuant to Section 28.94.030.Z of this Code shall be excluded from the net floor area calculation. (v) Carports. The area within the exterior walls or supporting columns of a carport shall be included in the calculation of net floor area.

2. Net Floor Area on a Lot. The net floor area on a lot shall be the sum of the net floor area of all existing and proposed buildings on the lot.

3. Net Lot Area. The total horizontal area within the lot lines of a lot subtracting the horizontal area within any public rights-of-way on the lot.

C. MAXIMUM NET FLOOR AREA (Floor to Lot Area Ratio). For purposes of this Section, the maximum net floor area of a lot shall be calculated according to the following formulae:

<table>
<thead>
<tr>
<th>NET LOT AREA (SQ. FT.)</th>
<th>MAXIMUM NET FLOOR AREA (SQ. FT.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 4,000</td>
<td>2,200</td>
</tr>
<tr>
<td>4,000 to 9,999</td>
<td>1,200 + (.25 multiplied by the net lot area)</td>
</tr>
<tr>
<td>10,000 to 14,999</td>
<td>2,500 + (.125 multiplied by the net lot area)</td>
</tr>
</tbody>
</table>

480-2 rev. 6/30/10
D. PRECLUDED DEVELOPMENT. No application for a building permit may be approved for any project that will: (1) result in an increase of the net floor area on the lot, (2) change the location of any floor area on the second or higher story of any building on the lot, or (3) increase the height of any portion of a building on the lot to a building height of seventeen feet (17\textquotesingle) or higher if either of the following is true regarding the project:

1. The net floor area on the lot will exceed the maximum net floor area for the lot as calculated pursuant to this Section, or
2. The net floor area on the lot will exceed eighty-five percent (85\%) of the maximum net floor area for the lot as calculated pursuant to this Section and any of the following conditions apply to the lot:
   a. The average slope of the lot or the building site (as calculated pursuant to Section 28.15.080 of this Code) is thirty percent (30\%) or greater, or
   b. The building height of any new or existing building or structure on the lot is in excess of twenty-five feet (25\'), or
   c. The lot is located in the Hillside Design District established in Section 22.68.080 of this Code and the application proposes five hundred (500) or more cubic yards of grading outside the footprint of the main building (soil located within five feet (5\') of an exterior wall of a main building that is excavated and recompacted shall not be included in the calculation of the volume of grading outside the building footprint). (Ord. 5518, 2010; Ord. 5444, 2008; Ord. 5416, 2007.)

28.15.085 Regulations for Non-Residential Buildings, Structures and Uses.

A. SETBACKS. Setbacks for all buildings and structures used for nonresidential purposes shall be double the setback requirements for a dwelling as required for the zone in which such building or structure is located.

B. LOT COVERAGE. Not more than twenty-five percent (25\%) of the area of a lot may be covered by buildings used for nonresidential purposes.

C. ARCHITECTURAL APPROVAL. All buildings used for nonresidential purposes shall be subject to the approval of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark.

D. OTHER REQUIREMENTS. The City Council may impose other requirements as may be deemed necessary to preserve the residential character of the neighborhood, including the mailing of notices to property owners and the holding of a public hearing. (Ord. 5459, 2008; Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.15.100 Off-street Parking.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3753, 1975; Ord. 3710, 1974; Ord. 2585, 1957.)

28.15.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 3116, 1966.)
Chapter 28.18

R-2 TWO-FAMILY RESIDENCE ZONE

Sections:

28.18.010 R-2 Zone - In General.
28.18.020 Uses Permitted.
28.18.050 Building Height.
28.18.065 Reduction of Setback Requirements.
28.18.070 Distance Between Buildings on the Same Lot.
28.18.075 Lot Area and Frontage Requirements.
28.18.090 Other Requirements.
28.18.100 Off-street Parking.
28.18.110 Signs.

28.18.010 R-2 Zone - In General.

The regulations described in this Chapter shall apply in the R-2 Two-Family Residence Zone of the City unless otherwise expressly provided in this Title.

The R-2 Zone is a restricted residential district of medium density in which the principal use of the land is for two-family dwellings, together with recreational, religious and educational facilities required to serve the community.

The regulations for this zone are designed and intended to establish, maintain and protect the essential characteristics of the zone, to develop and sustain a suitable environment for family life, and to prohibit activities of a commercial nature and those which would tend to be inharmonious with or injurious to the preservation of a residential environment.

For the purposes of this Chapter, the term "lot" shall be used as defined in Santa Barbara Municipal Code Section 27.02.100. (Ord. 5271, 2003; Ord. 3710, 1974; Ord. 2585, 1957.)

28.18.020 Uses Permitted.

The land uses permitted in the R-2 Zone shall be as follows:

1. One and two family dwellings;
2. Any use permitted in the R-1 Zone and subject to the restrictions, limitations and conditions contained therein as an expressly permitted land use in the R-2 Zone except that the construction and use of a parcel for more than one dwelling unit (including buildings and uses accessory thereto) shall be subject to the specific restrictions of the R-2 Zone as established in this Chapter.
3. Buildings and uses accessory to the residential uses allowed under subparagraphs (1) and (2) above. (Ord. 5271, 2003; Ord. 4912, 1995; Ord. 3710, 1974; Ord. 2585, 1957.)

The land uses which are conditionally allowed in the R-2 Zone shall be as provided in Chapters 28.93 and 28.94 of this Title. (Ord. 5380, 2005; Ord. 5271, 2003; Ord. 3710, 1974; Ord. 2585, 1957.)

28.18.050 Building Height.

No building in the R-2 Zone shall exceed a height of thirty feet (30') nor exceed the height limitations imposed for the protection and enhancement of solar access by Chapter 28.11 of this Code. (Ord. 4426, 1986; Ord. 3710, 1974; Ord. 3587, 1973.)

The following setback, open yard, and private outdoor living space requirements shall be observed on all lots within the R-2 zone:

A. Front Setback. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures, and parking on the lot as follows:
1. Ground floor of any building or structure: 15 feet
2. Upper story portion of a multiple story building or structure: 20 feet
3. Garage or carport with an opening that does not face an adjacent street or uncovered parking that does not back out onto the street: 15 feet

480-5  rev. 9/30/08
4. Garage or carport with an opening that faces an adjacent street or uncovered parking that backs out onto the street: 20 feet

B. Interior Setback. An interior setback of not less than the indicated distance shall be provided between the interior lot line and all buildings, structures, and parking on the lot as follows:
   1. Buildings and structures other than covered parking: 6 feet
   2. Covered or uncovered parking: 3 feet

C. Open Yard and Private Outdoor Living Space. An open yard shall be provided on all lots within this zone. The required open yard shall observe the following general rules regarding dimension, location, and configuration, except as such general rules may be altered by any applicable additional rules or exceptions specified within this Subsection C:
   1. General Rules. In this zone, open yards shall conform to the following dimension, location, and configuration requirements:
      a. Minimum size: Total area of at least 1,250 square feet of lot area.
      b. Minimum dimensions: The open yard may be provided in one area or in multiple areas; however, each area of open yard shall be at least 20 feet long and 20 feet wide measured in perpendicular directions.
      c. Common Area or Assigned. The open yard may be provided as a common open yard or as private open yard assigned to individual units.
      d. Location and Configuration. The open yard may consist of any combination of ground level areas such as patios, ground floor decks, pathways, landscaped areas, natural areas, flat areas, or hillsides, so long as the overall size and dimensions of the open yard area meet the requirements specified in these general rules and the open yard is not located in any of the following locations:
         (1) Any portion of the front setback; however, up to 850 square feet of the open yard may be provided in the remaining front yard,
         (2) Any areas designated for use by motor vehicles, including, but not limited to, driveways and parking areas, or
         (3) On decks, patios, terraces, or similar improvements where the maximum height of the improvement above existing or finished grade, whichever is lower, is greater than 36 inches.
   2. Additional Open Yard and Private Outdoor Living Space Requirements for Lots Developed with Four or More Dwelling Units.
      a. Common Open Yard. On lots developed with four or more dwelling units, a common open yard shall be provided that meets the size, dimensional, and location requirements specified in the general rules.
      b. Private Outdoor Living Space. In addition to the required common open yard, lots developed with four or more dwelling units shall provide private outdoor living space for each dwelling unit of not less than the size specified below based on the number of bedrooms in the dwelling unit:
         (1) Studio Unit: 100 square feet
         (2) 1 Bedroom Unit: 120 square feet
         (3) 2 Bedroom Unit: 140 square feet
         (4) 3+ Bedroom Unit: 160 square feet.

   The minimum dimensions of the private outdoor living space shall be at least 10 feet long and 10 feet wide measured in perpendicular directions. In addition, private outdoor living space provided pursuant to this paragraph shall observe the requirements specified in subparagraphs (c), (e), (f), (g), and (h) of paragraph 28.21.081.A.1 of this Code.

3. Alternative Open Yard and Private Outdoor Living Space Requirements for Lots Developed with Accessory Dwelling Units Pursuant to Section 28.18.075.E.
   a. Common Open Yard. On any lot developed with an Accessory Dwelling Unit pursuant to Section 28.18.075.E, a common open yard shall be provided that meets the following size, dimension, and location and configuration requirements:
      (1) Minimum size: The open yard may be provided in one area of at least 600 square feet, or two areas, each of which must be at least 300 square feet.
      (2) Minimum dimensions: Each area of open yard shall be at least 10 feet long and 10 feet wide measured in perpendicular directions.
      (3) Location and configuration: The common open yard shall observe the location and configuration requirements specified in the general rules, except that any amount of the common open yard may be located in the remaining front yard.
   b. Private Outdoor Living Space. In addition to the required common open yard, any lot developed with an Accessory Dwelling Unit pursuant to Section 28.18.075.E shall provide private outdoor living space for each dwelling unit of not less than the size specified below, based on the number of bedrooms in the dwelling unit:
      (1) Studio Unit: 60 square feet
      (2) 1 Bedroom Unit: 72 square feet
      (3) 2 Bedroom Unit: 84 square feet
      (4) 3+ Bedroom Unit: 96 square feet
The minimum dimensions of the private outdoor living space shall be at least 6 feet long and 6 feet wide measured in perpendicular directions. The private outdoor living space may be provided by a patio, balcony, porch, deck, or similar improvement on the ground or on any upper floor. The private outdoor living space may be provided in the primary or secondary front setback, provided that it observes a setback of at least 9 feet from the front lot line. In addition, private outdoor living space provided pursuant to this paragraph shall observe the requirements specified in subparagraphs (c), (e), (f), (g), and (h) of paragraph 28.21.081.A.1 of this Code.

4. Exception to Location Requirement for Lots with Multiple Front Yards. On lots with multiple front yards, the following exception to the location requirement specified in the general rules or any applicable additional requirements is available: an open yard may include area in a secondary front yard as long as the open yard observes a 10 foot setback from the front lot line. (Ord. 5459, 2008.)

28.18.065 Reduction of Yard Requirements.

It is hereby declared that, under the following conditions, a physical hardship exists on all R-2 Two-Family Residence Zone lots, and that the modifications described below are hereby granted where the stated conditions exist:

A. REDUCTION OF FRONT SETBACK. Where the average natural slope of the front half of a lot is more than one foot (1') rise or fall in five feet (5') horizontal, the required front setback may be reduced to ten feet (10').

B. CONFORMING ADDITIONS. Other provisions of this title notwithstanding, a conforming addition may be made to an existing nonconforming single-family or two-family dwelling where such nonconformity is due to inadequate front setback or interior setback, providing the existing dwelling complied with the setbacks required by this Code at the time of its construction.

C. NONCONFORMING ADDITIONS. Other provisions of this Title notwithstanding, where an existing building has been constructed five (5) feet from an interior property line, a ground level addition to the building may be made or constructed so long as the addition is also constructed no less than five (5) feet from the same interior property line. (Ord. 5459, 2008; Ord. 5271, 2003; Ord. 3710, 1974; Ord. 3587, 1973.)

28.18.070 Distance Between Buildings on the Same Lot.

A. GENERAL SEPARATION REQUIREMENTS. No main building shall be closer than fifteen feet (15') to any other main building on the same lot, except that a one (1) story building shall be no closer than ten feet (10') to another one (1) story building.

B. ACCESSORY DWELLING UNIT SEPARATION. Notwithstanding subsection (A) above, no portion of a one story accessory dwelling unit constructed pursuant to subsection (E) of SBMC Section 28.18.075 may be closer than five (5) feet to another one story main building nor may a two story accessory dwelling unit or a main building be closer than ten (10) feet to another two story accessory or main building. (Ord. 5271, 2003; Ord. 3710, 1974; Ord. 2585, 1957.)

28.18.075 Lot Area and Frontage Requirements.

A. NEWLY-CREATED LOTS. Every lot hereafter created in an R-2 Zone shall contain at least seven thousand (7,000) square feet and sixty feet (60') of frontage on a public street.

B. lots BETWEEN 6,000 AND 6,999 SQUARE FEET. Existing lots between 6,000 and 6,999 square feet of net lot area, inclusive, may be used as if it had seven thousand (7,000) square feet of lot area.

C. LOTS WITH LESS THAN 6,000 SQUARE FEET. Existing lots of less than six thousand (6,000) square feet of net lot area may be used as a building site for a one-family dwelling, provided that all other regulations of the zone prescribed by this ordinance are observed.

D. MINIMUM AREA PER DWELLING UNIT FOR STANDARD LOTS. For lots of seven thousand (7,000) square feet or more, there shall be provided a lot area of three thousand five hundred (3,500) square feet or more for each dwelling unit hereafter erected.

E. ACCESSORY DWELLING UNITS ON CERTAIN R-2 LOTS. Notwithstanding other requirements of this Chapter, for an R-2 lot with a total lot area of between 5,000 and 6,000 square feet, two dwelling units on such lot may be allowed subject to the following requirements:

1. Unit Size. One dwelling unit may have no more than three (3) bedrooms and no more than 1,200 square feet of Habitable Dwelling Space and the other dwelling unit may have no more than one (1) bedroom and no more than 600 square feet of Habitable Dwelling Space, provided that where appropriate in the determination of the Community Development Director, such maximum Habitable Dwelling Space square footage may be allocated differently between the two units provided the amount of Habitable Dwelling Space on one lot in no case exceeds a total of 1,800 square feet.

2. Private Storage Space. Each dwelling unit shall have at least 200 cubic feet of enclosed, weatherproof, lockable, and separate storage space in addition to the guest, linen, pantry, and clothes closets customarily provided exclusively for the use of the occupants of the dwelling unit. Such storage space shall be accessible from the exterior of the unit for which it is provided.
3. **Accessory Unit Parking Requirements.** Notwithstanding the parking requirements established for Two-Family Dwelling units on standard-sized lots in excess of 6,000 square feet as provided in Paragraph (2) of Subsection (G) of Section 28.90.100, a two dwelling unit development that meets the criteria delineated in this subsection shall provide not less than two (2) covered and one (1) uncovered parking spaces. Two of such parking spaces shall be allocated to the larger unit and the remaining space shall be allocated to the smaller unit through the use of appropriate signage on the site. Any such uncovered parking space may be provided in a tandem parking arrangement provided that both of the tandem parking spaces are allocated to the larger dwelling unit. Tandem parking spaces may be constructed within a non-conforming interior setback area under circumstances where the setback of the parking area remains consistent with the setback of a pre-existing non-conforming garage structure. The Community Development Director may require the recordation of a parking site plan in the official records of Santa Barbara County with respect to the lot involved for the purposes of memorializing the permanent use and availability of the required parking spaces as allocated to each permitted dwelling unit.

4. **Non-Conforming Garages.** Notwithstanding other provisions of this Chapter to the contrary, a lot containing a garage or parking structure which is non-conforming as to its interior setback may be maintained or reconstructed in its same location in accordance with the requirements of subsection (d) of SBMC Section 28.87.030 or, in connection with the construction of an accessory dwelling unit pursuant to this subsection, it may be expanded in size along the non-conforming setback line so long as the expansion is to make the structure more in conformance with the City’s Uniform Construction Code requirements or with City Parking Design Standards for Accessory Dwelling Units in R-2 Zone adopted pursuant to this subsection.

5. **Condominium Units Not Allowed; ABR Review.** Notwithstanding other provisions of this Code, including specifically but not limited to subsection (B) of Santa Barbara Municipal Code Section 28.88.120, the subdivision of a development of two family dwellings pursuant to this subsection, either as a new development or as a conversion of an existing two-family dwelling, shall be governed by the requirements of Santa Barbara Municipal Code Section 27.13.040. In addition, an application to develop a lot with an accessory dwelling unit pursuant to this subsection shall receive design review approval from the Architectural Board of Review in accordance with the requirements of subsection B of Santa Barbara Municipal Code Section 22.68.020 as noticed in accordance with the requirements of Santa Barbara Municipal Code Section 22.68.040.

6. **Not Applicable To Sloped Lots.** The provisions of this Subsection E shall not apply to any lot with an average slope of ten percent (10%) or greater as calculated pursuant to the formula specified in Subsection F below.

**F. R-2 LOT SLOPE DENSITY.** The minimum lot areas specified in this section shall be increased by the following factors where the average slope of the parcels falls within the percent of average slope ranges given:

<table>
<thead>
<tr>
<th>Factor</th>
<th>Percent of Average Slope</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.5 times minimum lot area</td>
<td>10% to 20%</td>
</tr>
<tr>
<td>2.0 times minimum lot area</td>
<td>20% to 30%</td>
</tr>
<tr>
<td>3.0 times minimum lot area</td>
<td>over 30%</td>
</tr>
</tbody>
</table>

"Average slope" of a parcel of land or any portion thereof shall be computed by applying the formula ($S = \frac{0.00229 \times I \times L}{A}$ divided by $A$) to the natural slope of the land, before grading is commenced, as determined from a topographic map conforming to National Mapping Standards and having a scale of not less than 1 inch equals 200 feet and a contour interval of not less than five feet (5’). The letters in this formula shall have the following significance:

- $S =$ The average slope of the land in percent.
- $I =$ The contour interval in feet.
- $L =$ The combined length of all contours in feet, excluding the length of contours in drainage channels and in natural water courses below the 25 year flood level.
- $A =$ The net area of parcel or portion thereof, in acres, after deducting all areas in drainage channels below the 25 year flood level, for which the slope is to be determined.

**G. HABITABLE DWELLING SPACE - DEFINED.** For the purpose of this Section, the term “Habitable Dwelling Space” shall be calculated to include all building square footage as measured from the inside of the walls of the building, excluding the square footage of the garage. (Ord. 5459, 2008; Ord. 5416, 2007; Ord. 5271, 2003; Ord. 4632, 1990; Ord. 3753, 1975; Ord. 3710, 1974; Ord. 2585, 1957.)

A. **SETBACKS.** Setbacks for all buildings and structures used for nonresidential purposes shall be double the setback requirements for a dwelling as required for the zone in which such building or structure is located.

B. **LOT COVERAGE.** Not more than twenty-five percent (25%) of the area of a lot may be covered by buildings used for nonresidential purposes.
C. **ARCHITECTURAL APPROVAL.** All buildings used for nonresidential purposes shall be subject to the approval of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. (Ord. 5459, 2008; Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.18.090 Other Requirements.

The City Council may impose other requirements as may be deemed necessary to preserve the residential character of the neighborhood including the mailing of notices to property owners and the holding of a public hearing. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.18.100 Off-street Parking.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.18.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 3117, 1966.)

Chapter 28.20

**AVERAGE UNIT-SIZE DENSITY INCENTIVE PROGRAM**

**28.20.010 Purpose.**

The Average Unit-Size Density Incentive Program carries out a key program directed by the 2011 General Plan. The Program facilitates the construction of smaller housing units by allowing increased density and development standard incentives in selected areas of the City. Housing types that provide housing opportunities to the City’s workforce are encouraged and facilitated by the program. The Average Unit-Size Density Incentive Program will be in effect for a trial period of either eight years or until 250 residential units have been constructed in the areas designated for High Density residential [as defined in SBMC §28.20.060(B)] or the Priority Housing Overlay [as defined in SBMC §28.20.060(C)], as shown on the City’s Average Unit-Size Density Incentive Program Map, whichever occurs earlier. (Ord. 5630, 2013.)

**28.20.020 Definitions.**

For purposes of this Chapter 28.20, the following words or phrases shall have the respective meanings assigned to them in the following definitions unless, in a given instance, the context in which they are used indicates a different meaning:

A. **Affordable Housing.** Residential units that are sold or rented at values defined as being affordable by the City of Santa Barbara’s Affordable Housing Policies and Procedures, as such policies and procedures may be approved by the City Council from time to time.

B. **Average Unit Size.** The total of the net floor area of each of the residential units in a project and divided by the number of residential units in that project.

C. **Community Benefit Housing.** Residential development that has a public benefit including the following housing types:

1. Priority Housing;
2. Housing affordable to low, moderate, or middle income households as defined in SBMC Chapter 28.43;

3. Transitional Housing, affordable efficiency dwelling units (as described in Section 28.87.150 of this
   Code), and supportive housing which supports special needs populations such as housing for seniors, the physically
   or mentally disabled, the homeless, or children aging out of foster care.

D. Employer-Sponsored Housing. Residential units which are developed, owned, maintained, and initially
   sold or rented to employees of a local Employer (or group of employers) where each residential unit is occupied as a
   primary residence (as defined by federal income tax law) by a household that includes at least one person who works
   in the south coast region of Santa Barbara County.

E. Net Floor Area. For purposes of this Average Unit-Size Density Program, net floor area is the area in
   square feet of all floors confined within the exterior walls of a residential unit, but not including the area of the
   following: exterior walls, vent shafts, courtyards, garages, carports, common areas not controlled by the occupant
   of an individual residential unit, and any areas with a ceiling height of less than five (5) feet above the finished floor. In
   addition, the area occupied by stairs or an elevator shaft within the exterior walls of a residential unit shall be counted
   only on one floor of the residential unit.

F. Limited-Equity Housing Cooperative. A corporation organized on a cooperative basis that meets the
   requirements of state Civil Code § 817 and which restricts the resale price of the cooperative’s shares in order to
   maintain a specified level of affordability to any new shareholder.

G. Local Employer. A person, business, company, corporation or other duly formed legal entity which
   employs persons whose primary place of employment is located within the South Coast region of Santa Barbara
   County.

H. Priority Housing. Priority Housing includes the following three categories of housing: 1. Employer-
   Sponsored Housing; 2. Limited-Equity Housing Cooperatives; and 3. Rental Housing.

I. Project Site. All lots included within a project proposed in accordance with the Average Unit-Size Density
   Incentive Program.

J. Rental Housing. Housing developed and maintained as multiple dwelling units on the same lot for
   occupancy by separate households pursuant to a lease or other rental agreements where all dwelling units are owned
   exclusively by the same legal entity.

K. Transitional Housing. That type of Supportive Housing that is re-circulated to other eligible program
   participants as specified and defined in state Health and Safety Code Section 50675.2(h). (Ord. 5671, 2014; Ord.
   5630, 2013.)

28.20.030 Permitted Zones for the Program.

The Average Unit-Size Density Incentive Program as established herein is a density incentive program available in
the following zones of the City: R-3, R-4, HRC-2, R-O, C-P, C-L, C-1, C-2, C-M, and OC Zones, as shown on the
City of Santa Barbara Average Unit-Size Density Incentive Program Map attached hereto as Exhibit A. The fact that
a lot may be subject to an overlay zone, including, but not limited to, the S-D-2 or S-D-3 Overlay Zones, does not
preclude the application of the Average Unit-Size Density Incentive Program on that lot if the Average Unit-Size
Density Incentive Program is otherwise allowed in the base zoning of that lot. Development Projects developed in
accordance with the provisions of the Average Unit-Size Density Incentive Program shall comply with the
development standards specified in this Chapter 28.20. (Ord. 5630, 2013.)

28.20.040 Program Duration.

A. Initial Program Period. The Average Unit-Size Density Incentive Program shall have an initial duration of
   eight years after the effective date of the ordinance codifying this Chapter or until 250 new residential units under this
   program are constructed (as evidenced by the issuance of a Certificate of Occupancy) within the areas of the City
   designated for High Density Residential or the Priority Housing overlay (as shown on the City of Santa Barbara
   Average Unit-Size Density Incentive Program Map attached to this Chapter as Exhibit A), whichever occurs sooner.

B. Exclusion of Low and Very Low Housing Units. Housing projects that are affordable to low-income and
   very low-income households, as defined in the City’s Affordable Housing Policies and Procedures, will not count
   towards the 250 unit Program limit established in subsection A above.

C. Pending Applications. Any application for new development that is deemed complete prior to the expiration
   of the Program term established in subsection A or the issuance of the certificate of occupancy for the 250th
   residential unit (whichever occurs sooner) may continue to be processed and potentially approved under the Average
   Unit-Size Density Incentive Program. (Ord. 5630, 2013.)

28.20.050 Status of R-3 and R-4 Residential Density.

Notwithstanding the provisions of SBMC Section 28.21.080 of this Title, for the duration of the Average Unit-
Size Density Incentive Program established in Section 28.20.040(A) above, the following incentive program is
available regarding the residential density of new development projects in zones of the City which otherwise would
apply the R-3 residential density:
A. Average Unit-Size Density Incentive Program. Projects developed in accordance with the provisions of the Average Unit-Size Density Incentive Program established in Section 28.20.060 hereof are exempt from the standard R-3 residential density provisions specified in Subsections B through E of Section 28.21.080 of this Title.

B. Variable Density. The variable density provisions specified in Subsection F of Section 28.21.080 of this Code shall be suspended for the period of time the Average Unit-Size Density Incentive Program established by this Chapter is available. Projects developed or approved in accordance with the terms of variable density prior to the effective date of this Chapter shall remain legal conforming land uses. During the suspension of Subsection F of SBMC Section 28.21.080, alterations and additions to variable density projects are permitted provided the alterations or additions do not add new residential units or add bedrooms to existing residential units in excess of the number of bedrooms that could have been developed on the real property under the Variable Density Program.

C. Development of Affordable Housing. Projects that meet the affordability criteria of the State Density Bonus Law or the City’s Affordable Housing Policies and Procedures may continue to propose development pursuant to the density incentives established in Section 28.87.400 of this Title. (Ord. 5630, 2013.)

28.20.060 Average Unit Size Density Incentives.

The Average Unit-Size Density Incentive Program offers project applicants dwelling unit density incentives as alternatives to the base residential densities specified for the particular City zones in which the program is available. The Average Unit-Size Density Incentive Program consists of three density tiers which may apply based upon the City’s General Plan land use designation for the lot and the nature of the development being proposed as follows:

A. Medium-High Density. The Medium-High density tier applies to those lots with a City General Plan land use designation of Medium High Density Residential. The Medium-High density tier allows the development of projects at residential densities ranging from fifteen (15) to twenty-seven (27) dwelling units per acre. The maximum average unit size within the Medium-High density tier varies from 1,450 square feet of floor area to 905 square feet of floor area, depending upon the number of units per acre being developed, as specified in the Average Unit-Size Density Incentive Program Table attached to this Chapter as Exhibit B.

B. High Density. The High Density tier applies to those lots with a City General Plan land use designation of High Density Residential. The High Density tier allows the development of projects at residential densities ranging from twenty-eight (28) to thirty-six (36) dwelling units per acre. The maximum average unit size within the High Density tier varies from 1,245 square feet of floor area to 970 square feet of floor area, depending upon the number of units per acre being developed, as specified in the Average Unit-Size Density Incentive Program Table attached to this Chapter as Exhibit B.

C. Priority Housing Overlay. The Priority Housing Overlay applies to lots within the City with a City General Plan land use designation of High Density Residential and lots zoned C-M (regardless of the General Plan land use designation) as shown on the City of Santa Barbara Average Unit-Size Density Incentive Program Map attached to this Chapter as Exhibit A. The Priority Housing Overlay allows the development of projects at residential densities ranging from thirty-seven (37) to sixty-three (63) dwelling units per acre. The maximum average unit size within the Priority Housing Overlay varies from 970 square feet of floor area to 811 square feet of floor area, depending upon the number of units per acre being developed, as specified in the Average Unit-Size Density Incentive Program Table attached to this Chapter as Exhibit B. The Priority Housing Overlay is only available for Rental Housing, Employer-Sponsored Housing, or Limited-Equity Housing Cooperative. A project developed under the Priority Housing Overlay may have a mixture of Priority Housing categories (i.e., a portion of the project may be Rental Housing while another portion of the project may be Employer-Sponsored housing).

D. Process to Establish Priority Housing. For the purposes of this Chapter, the different forms of Priority Housing shall be established in the following manner:

1. Employer-Sponsored Housing. In order to qualify for the density incentives allowed under the Average Unit-Size Density Incentive Program, the applicant for a proposed Employer-Sponsored Housing project should typically propose a project which contains a range of dwelling unit sizes and which offers a range of rents or purchase prices, some of which are affordable to a household earning 200% of the Area Median Income or less at the time of the initial occupancy of the project. The owner of an approved Employer-Sponsored Housing project must record a written instrument against the real property, in a form acceptable to the City Attorney, by which the employer sponsor(s) that owns the real property agrees to limit the occupancy of each residential unit to a household who occupies the unit as their primary residence and which includes at least one person who is primarily employed at a place of employment located within the south coast region of Santa Barbara County for as long as the property is developed and maintained at the incentive densities.

2. Limited-Equity Housing Cooperative. In order to qualify for the density incentives provided under the Average Unit-Size Density Program, all of the dwelling units within the Limited-Equity Housing Cooperative must be affordable to households earning up to 250% of the Area Median Income measured at the time of purchase, as affordability is defined in the City’s Affordable Housing Policies and Procedures, and a covenant containing this requirement (in a form acceptable to the City Attorney) shall be recorded against the real property to this effect.
3. Rental Housing. In order to qualify for the Priority Housing Overlay density incentives allowed under the Average Unit-Size Density Incentive Program, the owner of real property developed with Rental Housing must record a written covenant, in a form acceptable to the City Attorney, by which the owner agrees to maintain the rental housing use for as long as the property is developed and maintained at the incentive densities provided for in this Chapter.

E. Dwelling Unit Sizes. The unit sizes shown in the Average Unit-Size Density Incentive Program Table are the maximum average unit sizes allowed for the corresponding residential densities specified in the applicable density tier. Projects may be developed under the Average Unit-Size Density Incentive Program at a residential density that is greater than the base density for the zone in which the lot is located, but at a residential density that is less than the density range specified in the density tier assigned to the lot by its City General Plan land use designation. However, the average unit size of any project that is developed at a residential density which exceeds the SBMC Chapter 28.21 base density for the zone in which the lot is located through the application of the Average Unit-Size Density Incentive Program may not exceed the maximum average unit size for the applicable residential density tier as specified in the Average Unit-Size Density Incentive Program Table attached to this Chapter as Exhibit B. (Ord. 5630, 2013.)

28.20.065 Average Unit Size and Inclusionary Housing Projects.

If a project developed in accordance with the Average Unit-Size Density Incentive Program of this Chapter is required to comply with the City’s Inclusionary Housing Ordinance (SBMC Chapter 28.43), and if the owner of the Project elects to provide the inclusionary units on-site as part of the project (as opposed to paying the allowed in-lieu fee allowed by SBMC Chapter 28.43), the increased number of dwelling units to which the owner is entitled under SBMC Chapter 28.43 shall also comply with the maximum average unit size for the base density of the project under the Average Unit-Size Density Incentive Program. (Ord. 5630, 2013.)

28.20.070 Additional Development Incentives.

A. Development Standards Generally. In order to further encourage the development of projects in accordance with the provisions of this Average Unit-Size Density Incentive Program, the development standards listed in this Section 28.20.070 are allowed for those projects developed and maintained in accordance with the Average Unit-Size Density Incentive Program. Except as otherwise specified in this Section, projects developed in accordance with the provisions of the Average Unit-Size Density Incentive Program shall otherwise comply with the development standards applicable to the base zone in which the lot is located.

B. Market Rate Ownership Projects Within the S-D-2 Overlay Zone. Projects developed with market rate ownership units on lots with a City General Plan land use designation of Medium-High Density and subject to the S-D-2 overlay zone shall comply with S-D-2 zone development standards as required by Section 28.45.008 of this Title.

C. Building Height. Projects developed and maintained in accordance with the Average Unit-Size Density Incentive Program shall conform to the building height standards specified within the zone in which the lot is located, except that Average Unit-Size Density Incentive Program projects in the R-3, R-4, HRC-2, R-O, C-P, C-L, C-1, S-D-2, and OC Zones may be built with up to four stories so long as such buildings do not exceed a maximum of 45 feet in building height; provided, however, that projects developed with market rate ownership units on lots with a City General Plan land use designation of Medium-High Density and subject to the S-D-2 overlay zone shall comply with S-D-2 zone building height and building story limitations of Section 28.45.008 of this Title.

D. Setbacks. Projects developed and maintained in accordance with the Average Unit-Size Density Incentive Program shall observe the following building setback standards:

1. R-O, C-P, C-L, C-1, C-2, C-M, and S-D-2 Zones. Projects developed in accordance with the Average Unit-Size Density Incentive Program in the R-O, C-P, C-L, C-1, C-2, C-M, and S-D-2 Zones shall observe the following building setback standards:
   a. Front Setback.
      i. State Street and First Blocks of Cross Streets. Projects on lots fronting State Street between Montecito Street and Sola Street, and lots fronting the first block east or west of State Street on streets that cross State Street between and including Montecito Street and Sola Street, shall not be required to provide a front building setback.
   ii. Commercially-Zoned Lots Subject to the S-D-2 Overlay Zone. Projects developed on commercially-zoned lots within the S-D-2 overlay zone shall observe a front setback of ten (10) feet; provided, however, that projects on commercially zoned lots in the Medium-High Density designation and developed with market rate ownership units shall observe the front setback standards of the S-D-2 overlay zone required by Section 28.45.008 of this Title.
   iii. All Other Lots. Projects on lots that do not front on the streets specified in Section 28.20.070(D)(1)(a)(i) shall observe the following front building setback standard: A uniform front setback of five (5) feet shall be provided except where that portion of the structure which intrudes into the required five (5) foot front setback is appropriately balanced with a front building setback area that exceeds the minimum five (5) foot front setback. The additional compensating setback area shall not be located farther from the adjacent front lot line than one half of the length of the front lot line.
b. **Interior Setback Adjacent to Nonresidential Zone.** No interior setback is required for those projects adjacent to a nonresidential zone; provided, however, that projects on commercially-zoned lots in the Medium-High Density designation within the S-D-2 overlay zone and developed with market rate ownership units shall observe the interior setback standards required by the applicable base zone.

c. **Interior Setback Adjacent to Residential Zone.** A uniform interior setback of six (6) feet shall be provided except for those projects where that portion of the structure which intrudes into the required six (6) foot interior setback is appropriately balanced with an interior setback area that exceeds the minimum six (6) foot interior setback; provided, however, that projects developed on commercially-zoned lots in the Medium-High Density designation within the S-D-2 overlay zone and developed with market rate ownership units shall observe the interior setback standards required by the applicable base zone.

2. **R-3 and R-4 Zones.** Projects on lots developed in accordance with the Average Unit-Size Density Incentive Program in the R-3 and R-4 Zones (except for market rate ownership projects within the S-D-2 overlay zone) shall observe the following building setbacks:

a. **Front Setback.** A front setback of not less than the indicated distance indicated below shall be provided between the front lot line and all buildings, structures, and parking areas on the lot as follows:

i. One or two story buildings or structures: ten (10) feet

ii. Three or more story buildings or structures:

   (1) Ground floor portions: ten (10) feet

   (2) Second story portions: ten (10) feet

   (3) Third or more story portions: twenty (20) feet

b. **Interior Setback.** An interior setback of not less than the distance indicated below shall be provided between the interior lot line and all buildings, structures, and parking on the lot as follows:

i. One or two story buildings or structures: six (6) feet

ii. Three or more story buildings or structures:

   (1) Ground floor portions: six (6) feet

   (2) Second story portions: six (6) feet

   (3) Third or more story portions: ten (10) feet

   (4) Garages, carport or uncovered parking: As required by Section 28.21.060.B.3. of this Title.

c. **Rear Setback.** A rear setback of not less than the indicated distance shall be provided between the rear lot line and all buildings, structures, and parking on the lot as follows:

i. Ground floor portions: six (6) feet

ii. Second story portions: ten (10) feet

iii. Third or more story portions: ten (10) feet

iv. Garage, carport, or uncovered parking: three (3) feet.

3. **HRC-2 and O-C Zones.** Lots developed in accordance with the Average Unit-Size Density Incentive Program in the HRC-2 and OC Zones shall observe the setback standards required by the applicable base zone.

E. **Distance Between Buildings on the Same Lot.**

No main building (as defined in SBMC Section 28.04.145) shall be closer than ten (10) feet to any other main building on the same lot; provided, however, that projects on lots in the Medium-High Density designation subject to the S-D-2 overlay zone and developed with market rate ownership units shall observe the building separation standards required by the applicable base zone.

F. **Parking.**

As an alternative to the residential parking requirements specified in Subsections G and H of Section 28.90.100 of this Title, projects developed under the Average Unit-Size Density Incentive Program may observe the following residential parking requirements; provided, however, that projects on lots in the Medium-High Density designation subject to the S-D-2 overlay zone and developed with market rate ownership units shall observe the parking requirements required by the applicable base zone:

1. **Residential Units.** A minimum of one covered or uncovered parking space shall be provided for each residential unit.

2. **Bicycle Parking.** A minimum of one covered and secured bicycle parking space shall be provided for each residential unit.

3. **Guest Parking.** Guest parking is not required.

4. **Other Parking Standards.** Other than the residential parking requirements specified in Subsections G and H of Section 28.90.100, projects developed under the Average Unit-Size Density Incentive Program shall observe the parking standards specified in Chapter 28.90 of this Title.

G. **Outdoor Living Space.**

Projects developed in accordance with the Average Unit-Size Density Incentive Program shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Title with the following exceptions:

1. All projects on lots in the Medium-High Density designation within the S-D-2 overlay zone and developed with market rate ownership units shall observe the Outdoor Living Space requirements specified by the applicable base zone.
2. All projects in commercial zones electing to provide outdoor living space pursuant to the Private Outdoor Living Space Method specified in Subsection A of SBMC Section 28.21.081 are required to provide both the Private Outdoor Living Space specified in SBMC Section 28.21.081(A)(1) and the Common Open Area specified in SBMC Section 28.21.081(A)(3). Projects developed under the Average Unit-Size Density Incentive Program which elect to provide outdoor living space pursuant to the Private Outdoor Living Space Method of SBMC Section 28.21.081(A)(1) may, but are not required to, provide the Open Space specified in SBMC Section 28.21.081(A)(2).

3. All projects in commercial zones electing to provide outdoor living space pursuant to the Common Outdoor Living Space Method specified in Subsection B of SBMC Section 28.21.081 shall provide common outdoor living space in accordance with Subsection B of that Section. In addition, for projects developed in accordance with the Average Unit-Size Density Incentive Program, the required common outdoor living space may be located at either grade or on any floor of the building(s), notwithstanding SBMC Section 28.21.081(B)(4) to the contrary. (Ord. 5630, 2013.)

A. Planning Commission Review. The Planning Commission shall review all rental housing projects proposed in accordance with the provisions of the Average Unit-Size Density Incentive Program when both of the following criteria are satisfied:

1. Any lot within the project site has a High Density Residential land use designation or the project is being proposed under the Average Unit-Size Density Incentive Program Priority Housing Overlay, and
2. The project site has a combined net lot area of 15,000 square feet or greater.

B. Review by Pre-Application Review Team. All Average Unit-Size Density Incentive Program projects subject to Planning Commission review pursuant to this Section 28.20.080 shall be reviewed by the Pre-Application Review Team as provided in Section 27.07.070 of this Code.

C. Timing of Review. The Planning Commission review pursuant to this Section 28.20.080 shall occur after the initial concept review by the Architectural Board of Review or Historic Landmarks Commission, as applicable. The project applicant may elect to have additional concept reviews by the applicable design review body, prior to the review by the Planning Commission. If an Average Unit-Size Density Incentive Program project requires a discretionary approval by the Planning Commission pursuant to any other provision of this Code, then the review required pursuant to this Section 28.20.080 may be combined with the hearing for the other discretionary approval required for the project.

D. Hearing Procedures. The Planning Commission shall conduct its review at a public hearing noticed in accordance with Section 28.87.380 of this Code. The Planning Commission shall receive a written report from the Pre-Application Review Team concerning the proposed design and improvement of the project and the project’s consistency with the City’s General Plan. The Planning Commission shall provide comment and recommendation by majority vote regarding the proposed design and improvement of the project and the project’s consistency with the City’s General Plan. The Planning Commission comments and recommendations are intended for use by the applicable design review body in their deliberations.

E. Communication to Design Review Body. Following the Planning Commission review hearing, the Community Development Department staff shall communicate the Planning Commission’s comments and recommendations to the applicable design review body.

F. Additional Planning Commission Review. If a project is subject to Planning Commission review pursuant to this Section 28.20.080, the Historic Landmarks Commission cannot elect to refer the project to the Planning Commission pursuant to Section 22.22.133, and the Architectural Board of Review cannot elect to refer the project to the Planning Commission pursuant to Section 22.68.050. However, the project applicant may request an additional concept review of the project by the Planning Commission. (Ord. 5671, 2014.)

### 28.21.001 In General.

The following regulations shall apply to both the R-3 Limited Multiple-Family Residence Zone and the R-4 Hotel-Motel-Multiple-Residence Zone unless otherwise provided in this ordinance. (Ord. 3710, 1974; Ord. 2585, 1957.)

### 28.21.005 General Description and Legislative Intent.

1. **R-3 ZONE.**
   
   This is a restricted residential district of high density in which the principal use of land is for multiple-family dwellings, together with recreational, religious and educational facilities required to serve the community. The regulations for this district are designed and intended to establish, maintain and protect the essential characteristics of the district, to develop and sustain a suitable environment for family life and to prohibit activities of a commercial nature and those which would tend to be inharmonious with or injurious to the preservation of a residential environment.

2. **R-4 ZONE.**
   
   This is a hotel-motel multiple residence district in which the principal use of land is intended to be for multiple housing, together with recreational, religious and educational facilities required to serve the community. The provisions of this ordinance are intended to provide a pleasant and healthful environment by establishing provisions for usable open spaces.

   It is the intent of this district to allow hotels and similar establishments, including related recreational, conference center and other auxiliary uses primarily for use by hotel guests, while protecting the existing housing stock, and to preserve the residential character of those neighborhoods which are still primarily residential. In addition, the preservation of buildings of architectural and/or historical significance shall be encouraged. A conversion permit will be required in order to convert existing dwelling units for the purpose of providing hotel or similar uses.

   Regulations for this district are designed to control activities of a retail commercial nature and those which would tend to be inharmonious with housing. Restaurants intended to serve the visitors using the established hotels and motels in the immediate vicinity are permitted subject to approval of a conditional use permit. (Ord. 4199, 1983; Ord. 4018 §1, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

### 28.21.030 Uses Permitted.

A. **R-3 ZONE.**
   
   1. Any use permitted in the R-2 Zone and subject to the restrictions and limitations contained therein, except that any use specifically mentioned hereafter shall be subject to the restrictions of the R-3 Zone.
   2. One-, two-, and multiple-family dwellings.
   3. Community care facilities, residential care facilities for the elderly and hospices serving 7 to 12 individuals subject to the provisions in Chapter 28.93.

B. **R-4 ZONE.**
   
   1. Any use permitted in the R-3 Zone and subject to the restrictions and limitations contained therein, except that any such use specifically mentioned hereafter shall be subject to the restrictions of the R-4 Zone.
2. Hotels and related recreational, conference center and other auxiliary uses primarily for use by hotel guests. Any hotels, when units are designed or constructed with cooking facilities shall, as to such units, be subject to the lot area per unit requirements of the R-4 Zone and to the parking requirements for multiple family units required in Subsection 28.90.100.G.3 of this Code. Such hotels when designed, constructed or used for either twenty-four (24) or more dwelling units, or fifty (50) guest rooms or more may include a business, except a restaurant, conducted therein for the convenience of the occupants and their guests; provided entrance to such places of business be from the inside of such buildings; that the floor area used for all the businesses in the facility shall not exceed thirty percent (30%) of the total ground floor area of all the buildings comprising the hotel which are on a single lot or contiguous lots; and provided further that no street frontage of any such building shall be used for such business. Any hotel, regardless of the number of units or rooms therein, may include a restaurant for use by the hotel occupants and their guests only, provided that such facility conforms to all other requirements imposed on any "business" by this paragraph. A restaurant not conforming to all other requirements imposed on any "business" by this paragraph or not for use solely by hotel occupants and their guests may be established only if a conditional use permit is obtained for operation of a restaurant under Chapter 28.94 of this Code. (Ord. 4858, 1994; Ord. 4199, 1983; Ord. 3710, 1974; Ord. 2585, 1957.)

As provided in Chapters 28.93 and 28.94 of this ordinance. (Ord. 5380, 2005; Ord. 3710, 1974; Ord. 2585, 1957.)

28.21.050 Building Height.

Three (3) stories, which three (3) stories combined shall not exceed (i) forty-five feet (45') nor (ii) exceed the height limitations imposed for the protection and enhancement of solar access by Chapter 28.11 of this Code. (Ord. 4426, 1986; Ord. 3710, 1974; Ord. 2585, 1957.)

28.21.060 Setbacks.

The following setbacks shall be observed on all lots within these zones:

A. Front Setback. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures, and parking on the lot, as follows:
1. One or two story building or structure: 10 feet
2. Three story building or structure: 15 feet; however, if the net floor area of the third floor is less than fifty percent (50%) of the net floor area of the first floor building footprint, the front setback shall be reduced as follows:
   a. Ground floor portions: 10 feet
   b. Second story portions: 10 feet
   c. Third story portions: 20 feet
3. Parking that does not back out onto the street: 10 feet
4. Parking that backs out onto the street: 20 feet

B. Interior Setback. An interior setback of not less than the indicated distance shall be provided between the interior lot line and all buildings, structures, and parking on the lot as follows:
1. One or two story building or structure: 6 feet
2. Three story building or structure: 10 feet; however, if the net floor area of the third floor is less than fifty percent (50%) of the net floor area of the first floor building footprint, the interior setback shall be reduced as follows:
   a. Ground floor portions: 6 feet
   b. Second story portions: 6 feet
   c. Third story portions: 10 feet
3. Garage, carport or uncovered parking: 6 feet; however, if the width of the lot is less than fifty-five (55) feet at the opening of a garage or carport, the garage or carport opening does not face the street, and the interior depth of the garage or carport does not exceed twenty (20) feet, the setback may be reduced by up to 3 feet by the design review body that reviews the project.

C. Rear Setback. A rear setback of not less than the indicated distance shall be provided between the rear lot line and all buildings, structures, and parking on the lot:
1. Ground floor portions: 6 feet
2. Second story portions: 10 feet
3. Third story portions: 10 feet
4. Garage, carport, or uncovered parking: 3 feet

For purposes of this section, a rear setback shall be provided from the lot line opposite to the front lot line. In the event of two or more front lot lines, the rear setback shall be provided from the lot line opposite to any of the front lot lines. (Ord. 5459, 2008.)
28.21.065 Reduction of Setback Requirements.

It is hereby declared that under the following conditions a physical hardship exists on all R-3 and R-4 Zone lots, and that the listed modifications are hereby granted where the stated conditions exist.

Other provisions of this title notwithstanding, a conforming addition may be made to an existing nonconforming dwelling where such nonconformance is due to inadequate front setback or interior setbacks, providing said dwelling complied with the setbacks required by ordinance at the time of construction. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3587, 1973.)

28.21.070 Distance Between Buildings on the Same Lot.

No main building shall be closer than fifteen feet (15') to any other main building on the same lot, except that a one-story building shall be no closer than ten feet (10') to another one-story building. (Ord. 3710, 1974; Ord. 2585, 1957.)

A. Minimum Lot Size and Frontage for New Lots. Every lot hereafter created in an R-3 and R-4 Zone shall contain at least fourteen thousand (14,000) square feet and sixty feet (60') of frontage on a public street.

B. Lots Less Than 5,000 Square Feet. Existing lots of less than five thousand (5,000) square feet of net lot area may be used as a building site for a one-family dwelling, provided that all other regulations of the zone prescribed by this title are observed.

C. Lots of 5,000 to 6,999 Square Feet. Existing lots of 5,000 to 6,999 square feet of net lot area, inclusive, may be used as a building site for two (2) dwelling units, provided that all other regulations of the zone prescribed by this title are observed.

D. Lots of 7,000 to 13,999 Square Feet. Existing lots of 7,000 to 13,999 square feet of net lot area, inclusive, may be used as a building site for three (3) units, provided that all other regulations of the zone prescribed by this title are observed.

E. Lots of 14,000 Square Feet or More. For lots of fourteen thousand (14,000) square feet or more of net lot area, a minimum of three thousand five hundred (3,500) square feet of net lot area shall be provided for each dwelling unit hereafter erected.

F. Variable Density in Certain Zones. Lots in the R-3, R-4, C-1, C-2, C-M and R-O Zones, as well as lots in the HRC-2 and OC Zones where residential uses are allowed by the Local Coastal Plan, may be used as a building site for more units than permitted in paragraphs B, C, D and E above if the number of bedrooms in the dwelling unit is limited in accord with the following:

1. Studio unit - one (1) unit per 1,600 square feet of lot area;
2. 1 bedroom unit - one (1) unit per 1,840 square feet of lot area;
3. 2 bedroom unit - one (1) unit per 2,320 square feet of lot area;
4. 3 or more bedroom unit - one (1) unit per 2,800 square feet of lot area.

Existing lots with less than 5,000 square feet of net lot area shall not be used as a building site under this Subsection (F) for more than two (2) dwelling units. This Subsection (F) shall be applicable in the R-3, R-4, C-1, C-2, C-M, R-O, HRC-2 and OC Zones and not in any other zone. The fact that a lot may be subject to an overlay zone, including, but not limited to, the S-D-2 or S-D-3 Overlay Zones, does not prohibit the application of variable density if variable density is otherwise allowed in the base zoning of the lot. (Ord. 5459, 2008; Ord. 5343, 2005; Ord. 4772, 1992; Ord. 3950 §1, 1978; Ord. 3753, 1975.)

28.21.081 Outdoor Living Space.

Every lot in this zone shall provide outdoor living space in accordance with either of the following methods:

A. Private Outdoor Living Space Method. Lots providing outdoor living space in accordance with this method shall provide each of the spaces described in paragraphs 1-3 below:

1. Private Outdoor Living Space. Private outdoor living space shall be provided for each dwelling unit as follows:

   a. Minimum size. The private outdoor living space shall be not less than the size specified below based on the number of bedrooms in the dwelling unit and the location where the private outdoor living space is provided:

   (1) Ground floor:
        (a) Studio unit - 100 square feet
        (b) 1 Bedroom unit - 120 square feet
        (c) 2 Bedroom unit - 140 square feet
        (d) 3 or more Bedroom unit - 160 square feet

   (2) Second or higher story:
        (a) Studio unit - 60 square feet
        (b) 1 Bedroom unit - 72 square feet
        (c) 2 Bedroom unit - 84 square feet
b. Minimum Dimensions. The private outdoor living space shall have minimum dimensions as specified below, measured in perpendicular directions based on the location where the private outdoor living space is provided:

(1) Ground floor: 10 feet
(2) Second or higher story: 6 feet

c. Connectivity. Private outdoor living space shall be contiguous to and accessible from the dwelling unit for which it is provided.

d. Multi-story dwelling units. Dwelling units that occupy more than one story may provide the required private outdoor living space on any story.

e. Allowed amenities. Private outdoor living space may include planter areas totaling no more than fifty (50) square feet, patio areas, balconies, and decks.

f. Exclusions. Private outdoor living space shall not include stairs, entrance decks, or landings. In addition, private outdoor living space shall not include areas located under eaves, balconies, or other cantilevered architectural or building projections not providing additional floor area where the vertical clearance under the architectural or building projection is less than seven feet.

g. Allowed setback encroachments. Private outdoor living space may encroach into setbacks as follows:

(1) Private outdoor living space provided on grade may encroach into interior and rear setbacks up to the property line.
(2) Private outdoor living space provided on grade may be located up to ten (10) feet from the front lot line, subject to the following conditions:
   (a) The area of the private outdoor living space located in the front yard may not exceed more than 50% of the front yard area, excluding driveways.
   (b) The private outdoor living space provided in the front yard shall be enclosed by a solid fence having a minimum height of five (5) feet and a maximum height of six (6) feet. The exterior of the fence shall be landscaped. However, the design review body that reviews the project may reduce or waive the requirement for a fence or landscaping in order to preserve substantial views from the unit being served by the private outdoor living space or if the area does not abut a street.

2. Open Space. In addition to all setbacks, every lot satisfying the outdoor living space requirement in accordance with this private outdoor living space method shall provide on grade open space of an area not less than ten percent (10%) of the net lot area in accordance with the provisions of this paragraph 2. The intent of this provision is to provide relief from building volume, driveways and parking beyond that afforded by setbacks.

a. Examples of Permitted Open Space Improvements. The required open space may consist of landscaped or hardscaped areas unobstructed from the ground upwards, including, but not limited to:

(1) Walks,
(2) Patios,
(3) Planted areas,
(4) Decks no more than 18” above grade at all points, and
(5) Swimming pool areas.

b. Examples of Open Space Improvements Not Permitted. The required open space shall not consist of the following:

(1) Garages,
(2) Carports,
(3) Driveways,
(4) Loading areas,
(5) Parking and turnaround areas,
(6) Balconies,
(7) Porches,
(8) Decks higher than 18” above grade at any point,
(9) Roof decks, or
(10) Areas located under trellises, arbors, eaves, balconies, bay windows, window seats, or other cantilevered architectural or building projections not providing additional floor area where the vertical clearance under the structure or architectural or building projection is less than seven feet.

3. Common Open Area. The common open area requirement specified in this Paragraph 3 shall only apply to lots developed with four (4) or more dwelling units. Every lot satisfying the outdoor living space requirement in accordance with this private outdoor living space method shall provide a common open area in accordance with this paragraph 3. The common open area shall have a minimum dimension of fifteen (15) feet measured in perpendicular directions and shall be accessible to all dwelling units on the lot. The common open area may be located on grade, on the second or higher story, or on a roof deck. On grade common open area may include portions of the interior setback or rear setback. On grade common open area may include portions of any remaining front yard, but shall not include any portion of the front setback. The common open area required in this paragraph 3 may be counted as part of the open space required in paragraph 2 as long as the other conditions of paragraph 2 are satisfied.
B. Common Outdoor Living Space Method. Lots providing outdoor living space in accordance with this method shall provide common outdoor living space in accordance with the following:

1. Accessibility. The common outdoor living space shall be accessible to all dwelling units on the lot.

2. Minimum Size. The common outdoor living space shall consist of at least fifteen percent (15%) of the net lot area.

3. Minimum Dimensions. The common outdoor living space may be provided in multiple locations on the lot, but at least one location shall have a minimum dimension of twenty (20) feet measured in perpendicular directions.

4. Location. Common outdoor living space must be located on grade. On grade common outdoor living space may be located in an interior setback or rear setback. On grade common outdoor living space may be located in the remaining front yard but shall not include any portion of the front setback.

5. Exclusions. Common outdoor living space shall not include any of the following areas:
   a. Areas designed for use by motor vehicles, including, but not limited to, driveways, parking, and turnaround areas.
   b. Areas located under trellises, arbors, eaves, balconies, bay windows, window seats, or other architectural or building projections not providing additional floor area where the vertical clearance under the structure or architectural or building projection is less than seven feet. (Ord. 5630, 2013; Ord. 5459, 2008.)

A. SETBACKS. Setbacks for all buildings and structures used for nonresidential purposes shall be double the setback requirements for a dwelling as required for the zone in which such building or structure is located. Notwithstanding the foregoing, the following shall be exempt from the double setback requirement:
   1. Conversions of existing residential structures to structures that contain nonresidential uses specifically allowed in Paragraph 28.21.030.B.2, and

B. LOT COVERAGE. Not more than twenty-five percent (25%) of the net area of a lot may be covered by buildings used for nonresidential purposes. Notwithstanding the foregoing, the following shall be exempt from the lot coverage limitation:
   1. Conversions of existing residential structures to structures that contain nonresidential uses specifically allowed in Paragraph 28.21.030.B.2, and

C. ARCHITECTURAL APPROVAL. All buildings used for nonresidential purposes shall be subject to the approval of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. (Ord. 5459, 2008; Ord. 4946, 1996; Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.21.090 Other Requirements.

The City Council may impose other requirements as may be deemed necessary to preserve the residential character of the neighborhood including the mailing of notices to property owners and the holding of a public hearing. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.21.100 Off-street Parking.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.21.110 Signs.

Signs shall be permitted in these zones only as prescribed in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.21.120 Public Street Requirements.

A. When any person proposes to construct one (1) or more multiple-family dwellings, wherein the number of dwelling units is controlled by Section 28.20.060, on a lot or combination of lots, the size, shape, dimensions or topography of which, in relation to existing abutting public streets, require that there be an adequate access or internal circulation roadway for vehicular traffic, including, but not limited to, emergency vehicles and equipment traffic, the City’s Chief Building Official may, prior and as a condition to the issuance of a building permit for such dwelling or dwellings, require the submission by the owner or applicant of a plot plan of such lot or combination of lots showing the location of all existing buildings and all buildings proposed to be constructed thereon and showing the location, width, and extent of improvements of an adequate access or internal circulation roadway thereon designed to connect with the abutting public street or streets.
The term adequate access or internal circulation roadway shall mean a dedicated public street established and improved to City standards and so located as to provide convenient and orderly traffic movement, ingress and egress and circulation upon, through and within the lot or combination of lots in relation to abutting streets, the multiple-family dwelling or dwellings, and the off-street parking areas required in connection with such dwelling or dwellings.

The plot plan and adequate access or internal circulation roadway shall be required by the Chief Building Official where:

1. The lot or combination of lots which is the site of the proposed construction exceeds five (5) acres; or
2. The maximum possible number of dwelling units which could be constructed on such lot or combination of lots, pursuant to Section 28.20.060 exceeds one hundred (100); or
3. Any portion of a multiple-family dwelling proposed to be constructed on the lot or combination of lots will be more than two hundred and fifty feet (250') from the right-of-way line of an abutting street.

When none of the three (3) foregoing categories are applicable to the lot or combination of lots, the adequate access or internal circulation roadway as defined herein shall not be required where the lot or combination of lots abut on a previously dedicated street or streets and where the private driveway access from the nearest entry to the required off-street parking area to the point of connection with such street or streets does not exceed one hundred and fifty (150) lineal feet.

B. When the plot plan required by the Chief Building Official is filed, the Building Official shall forthwith submit the same to the Community Development Department and the Public Works Department for investigation, report and recommendation. Such reports and recommendations shall be submitted to the Planning Commission for hearing at its earliest convenience, and such Planning Commission shall, following such hearing, approve, modify or reject such proposed adequate access or internal circulation roadway in respect to location and connection with existing abutting street or streets.

C. The owner or applicant may appeal any decision of the Planning Commission to the City Council in the manner provided by Chapter 1.30 of this Code.

D. Following approval by the Planning Commission or the City Council, as the case may be, of the proposed adequate access or internal circulation roadway shown on the plot plan, the owner or applicant shall:

1. By formal instrument offer to dedicate said proposed roadway as a public street; and
2. Either complete the required improvement of such public street to the satisfaction of the City Engineer or agree to complete such improvement within a period of one (1) year, such agreement to be secured by a good and sufficient surety bond in a principal sum equivalent to the estimated cost of such public street on the basis of estimates to be provided by the Department of Public Works, and conditioned on final completion of the construction of said street.

E. Upon completion of such public street improvement to the satisfaction of the City Engineer, or the execution and acceptance of an agreement to complete, secured by bond, a building permit shall then be issued if the requirements of other applicable ordinances have been met. The offer of dedication shall continue until, and shall not be accepted until, the required improvements have been completed to the satisfaction of the City Engineer.

(Ord. 5630, 2013; Ord. 3710, 1974; Ord. 3119, 1966; Ord. 3118, 1966.)

28.21.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982.)

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

28.22.010 In General.

This is a zone which, because of its proximity to the shoreline and its location along two major arteries, strives to promote, maintain and protect visitor-serving and commercial recreational uses. Tourist and traveler related uses shall be encouraged in this zone in a manner which does not detract from the desirability of the shoreline as a place to visit. Residential uses are appropriate in certain areas of the HRC-2 zone.

Land classified in the HRC-2 zone may also be overlaid with a second classification of being in the Ocean-Oriented Commercial zone (hereinafter referred to as the “OC zone.”) The OC zone regulations shall apply to all development projects on land with a dual HRC-2 / OC zoning designation. (Ord. 5343, 2005; Ord. 4320, 1985; 4172, 1982.)

28.22.030 Land Uses Permitted.

The following land uses are allowed in the HRC zones indicated:

A. HRC-1 ZONE:
   Hotels, motels and tourist courts, including related recreational, conference center and other auxiliary uses primarily for use by hotel guests and as permitted in Section 28.21.030.B.2 of this code. In addition, restaurants, including those with entertainment facilities used in conjunction with the restaurant, are allowed.

B. HRC-2 ZONE:
   1. General. Any use permitted in the HRC-1 Zone and subject to the restrictions and limitations contained therein.
   2. Specific. Any of the following uses which are primarily visitor-serving or of a commercial recreational nature specific to the Coastal Zone are allowed:
      a. Bicycle, roller skating, moped, dive gear and other recreational equipment rental stores.
      b. Stores which sell liquor, groceries and food, which do not exceed 2,500 sq. ft. in gross floor area.
      c. Specialty and gift shops.
      d. Art galleries.
      e. Bait and tackle shops, sales of boats, marine supplies and related equipment.
      f. Other visitor-serving or commercial recreational uses deemed appropriate by the Planning Commission.
   3. General Office Use. The second and third floors of commercial buildings are allowed to be used for general office uses upon issuance of a Conditional Use Permit. A Conditional Use Permit may be granted by the Planning Commission or City Council on appeal for such uses in accordance with the provisions of Chapter 28.94 of this Code, subject to the following additional findings:
      a. The use is compatible with visitor-serving uses;
      b. Visitor-serving uses remain the primary use of the building; and
      c. Non-visitor-serving uses shall not exceed fifty (50) percent of the total square footage of the building.
   4. Restriction on Residential Use. Residential use is prohibited in the HRC-2 Zone except in the following areas:
      a. The area bounded by Cabrillo Boulevard on the southeast, Los Patos Way on the southwest and the existing railroad right-of-way on the north.
      b. The area identified as Area A of the Cabrillo Plaza Specific Plan as specified in Resolution No. 83-155.
      Any use permitted in the R-3 Zone is allowed in these areas subject to the restrictions and limitations contained therein.
   5. Special Treatment Area. The following additional restrictions shall apply in the area bounded by Cabrillo Boulevard on the southeast, Los Patos Way on the southwest and the existing railroad right-of-way on the north, due to concerns about protection of the sensitive habitat character and aesthetics of the Andree Clark Bird Refuge:
      a. High Intensity Uses. The following high-intensity uses shall be prohibited:
         i. fast food restaurants.
ii. stores which sell liquor, groceries and food, except that off-site sale of beer and wine and picnic items may be allowed only when incidental to and related to the primary use of the establishment.

iii. automobile service station.

b. Front Setback. There shall be a front setback of not less than:
   i. Ten (10) feet for one-story buildings that do not exceed fifteen (15) feet in height; and
   ii. one hundred (100) feet for the second-story portion of any building that exceeds fifteen (15) feet in height.

c. Building Height. Three-story buildings and buildings in excess of thirty (30) feet in height shall be prohibited. (Ord. 5678, 2014; Ord. 5459, 2008; Ord. 5343, 2005; Ord. 4320, 1985; Ord. 4172, 1982.)

In the HRC-2 Zone, automobile rentals, parking lots, automobile service stations and automobile service station/mini-markets shall be permitted with a conditional use permit issued in accordance with the provisions of Chapter 28.94 of this Code, except where specifically prohibited elsewhere in this Chapter. (Ord. 4320, 1985; Ord. 4172, 1982.)

28.22.040 Coastal Zone Review.

All development in the Coastal Overlay Zone (S-D-3) is subject to review pursuant to Chapter 28.44 of this Code. (Ord. 5417, 2007; Ord. 4320, 1985; Ord. 4172, 1982.)

28.22.045 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

28.22.050 Building Height Standards.

No building or structure in an HRC zone shall exceed three (3) stories or exceed forty-five (45) feet in height. (Ord. 5343, 2005; Ord. 4320, 1985; Ord. 4172, 1982.)

28.22.060 Setbacks.

A. FRONT SETBACK. There shall be a front setback of not less than:
   1. Ten (10) feet for one-story buildings that do not exceed fifteen (15) feet in height; and
   2. Twenty (20) feet for all other buildings.

B. INTERIOR SETBACK. Buildings on property immediately adjacent to residentially-zoned property shall have an interior setback of no less than ten (10) feet or one-half (½) the height of the building, whichever is greater. (Ord. 5459, 2008; Ord. 4320, 1985; Ord. 4172, 1982.)
Chapter 28.27

R-H RESORT-RESIDENTIAL HOTEL ZONE

Sections:
28.27.001 Title.
28.27.005 Legislative Intent.
28.27.010 Dual Zoning Classifications.
28.27.015 Regulations Applicable to R-H Zone/Exclusive Development and Use.
28.27.030 Uses Permitted.
28.27.040 Minimum Site Area.
28.27.050 Building Regulations.

28.27.001 Title.

R-H Resort-Residential Hotel Zone.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.005 Legislative Intent.

The purpose of the R-H Zone is to provide for the highly specialized uses that are associated with the development and operation of resort-residential hotels and to insure the least possible conflict with or disturbance of the amenities attached to and associated with adjoining residential areas.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.010 Dual Zoning Classifications.

Land classified and zoned as R-H shall also be classified and zoned as E-1, E-2, E-3, R-1, R-2 or R-3.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.015 Regulations Applicable to R-H Zone/Exclusive Development and Use.

The regulations contained in this part shall apply to property zoned R-H and developed for the uses permitted in Section 28.27.030.  Property classified and zoned R-H shall be developed and used either exclusively under the regulations contained in this part, or exclusively under the regulations applicable to the underlying residential zone.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.030 Uses Permitted.

The following uses are permitted in R-H Zones:
1. Resort-residential hotels, consisting of a main building containing dwelling units, and regularly maintained, customary and usual hotel facilities conducted for the convenience of the occupants and their guests including, without limitation, dining rooms, cocktail lounges, news stands and similar facilities, all of which have their main entrance from the lobby; and
2. Together with, and operated under the same ownership as the main building, separate residential structures, hereinafter called guest buildings.
   a. Dwelling units in guest buildings may be equipped with kitchens.
   b. A single guest building may not contain in excess of twelve (12) bedrooms, nor in excess of six (6) dwelling units.
   c. At least fifty percent (50%) of the total number of dwelling units shall be located in guest buildings.
(Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.040 Minimum Site Area.

Property shall not be zoned R-H nor be used for R-H purposes unless the site so zoned and used consists of not less than four (4) acres.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.050 Building Regulations.

A. SETBACK. All buildings and structures shall be separated from interior lot lines and front lot lines a distance equal to or greater than twice the maximum front setback requirement for the underlying residential zone, and in no case less than thirty feet (30') nor less than the height of the building or structure.
B. DISTANCE BETWEEN BUILDINGS. No part of any building shall be located nearer to any part of any other building than the height of the taller of them, and in no case less than fifteen feet (15').

C. HEIGHT LIMITATION, MAIN BUILDING. The main building shall not be higher in number of feet than the building height limitation for the underlying residential zone.

D. HEIGHT LIMITATIONS, ALL OTHER BUILDINGS. Buildings, other than the main building, shall not exceed two (2) stories in height. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.060 Land Coverage.

No more than thirty-three and one-third percent (33-1/3%) of the property zoned and used as R-H may be covered with buildings and structures, to include parking structures, exclusive of porches, balconies and patios.

Not more than thirty-three and one-third percent (33-1/3%) of the property zoned and used as R-H may be covered by open parking spaces, turn-around areas and driveways. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.070 Sleeping Unit Density.

For the purpose of this section a sleeping unit is a room designed in whole or part for sleeping purposes for not more than two (2) persons. (For example, a two-bedroom apartment would contain two (2) sleeping units, a studio apartment would contain one (1) sleeping unit, a hotel room would be also one (1) sleeping unit, etc.)

The number of sleeping units per acre which may be constructed or maintained, or both, on property zoned and used as R-H shall be determined by the following formula:

<table>
<thead>
<tr>
<th>BASIC UNDERLYING RESIDENTIAL ZONE</th>
<th>MAXIMUM NUMBER OF SLEEPING UNITS PER ACRE</th>
</tr>
</thead>
<tbody>
<tr>
<td>E-1</td>
<td>5</td>
</tr>
<tr>

<td>8</td>
</tr>
<tr>
<td>E-3</td>
<td>10</td>
</tr>
<tr>
<td>R-1</td>
<td>15</td>
</tr>
<tr>
<td>R-2</td>
<td>20</td>
</tr>
<tr>
<td>R-3</td>
<td>40</td>
</tr>
</tbody>
</table>

(Ord. 3710, 1974; Ord. 2585, 1957.)

28.27.090 Development Plan as Prerequisite to R-H Zoning.

R-H zoning shall not be applied to any property until after a development plan and perspective renderings and elevations have been submitted to the Community Development Department for study and subsequently approved by the Planning Commission or City Council on appeal. The development plan shall include all existing and proposed buildings, driveways, turn-around and parking areas and a landscape plan. The landscape plan shall include the description and location of all landscaping features such as walls, patios, pools, recreation areas, walks, statuary, rockwork and areas to be planted.

Two (2) copies of the approved development plan shall be retained in the files of the Community Development Department. Subsequent development of the property under the regulations contained in this part shall comply with such approved development plan, except that such development plan shall be altered as necessary to conform to amended or added regulations and shall not be deemed nor held to give, convey or provide the source of vested rights to proceed in accord with the approved development plan. (Ord. 4361, 1986; 3948, 1978; Ord. 3710, 1974; Ord. 3068, 1965.)

28.27.100 Development Plan as Prerequisite to Development.

As a prerequisite to construction or relocation of any new buildings, structures, parking lot(s) or facilities, on any property zoned R-H, a development plan containing the information set forth in Section 28.27.090 pertaining to existing conditions and proposed construction or alteration of the property shall be submitted to the Planning Commission for approval or to the City Council on appeal. (Ord. 4361, 1986; 3948, 1978.)

28.27.101 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991)

28.27.110 Signs.

All signs on property zoned and used as R-H shall be subject to the requirements and limitations set out in the Sign Ordinance for signs in the R-4 Zone and shall be approved by the Sign Committee. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)
Chapter 28.30

GARDEN APARTMENT DEVELOPMENTS

Sections:
- 28.30.001 Title.
- 28.30.005 Legislative Intent.
- 28.30.070 Distance Between Buildings.

28.30.001 Title.

Garden Apartment Developments. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.30.005 Legislative Intent.

Now, therefore, it is declared to be the legislative intent of the City of Santa Barbara to provide for greater flexibility in the development of residential properties and for greater amenities and open space related thereto when in the public interest and welfare; to encourage a more creative approach to the development of land; to protect and enhance property values and to provide more desirable spatial relationships between buildings and structures on the land than would be possible under strict adherence to ordinance requirements of the basic zone; and to encourage the preservation and enhancement of natural beauty and the provision of landscaped open spaces for visual and recreational enjoyment.

As a further declaration of the legislative intent of this chapter, it is hereby declared that the provisions hereinafter contained for the computation of the allowable maximum number of dwelling units shall not be used as a means of creating density higher than that allowed under Chapter 28.18, nor a density higher than would be possible by way of the usual subdivision procedure.

Garden apartment developments shall provide for close visual and physical relationship between dwelling units and the landscaped open areas which must dominate the site development, such landscaped open areas to include substantial usable areas for passive and/or active recreational use; from public view the development shall present a landscaped open space effect; parking areas and building masses shall not dominate the scene. (Ord. 3710, 1974; Ord. 2585, 1957.)

Garden apartment developments may be permitted in R-2 Two-family Residence Zones upon the issuance of a conditional use permit pursuant to Chapter 28.94 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.30.060 Setbacks.

A. FRONT SETBACK. There shall be a front setback of not less than thirty feet (30').

B. INTERIOR SETBACK. There shall be interior setbacks of not less than thirty feet (30'). (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3587, 1973.)

28.30.070 Distance Between Buildings.

No building containing dwelling units shall be located closer to another building containing dwelling units than one-half (1/2) the sum of the heights of both such buildings, and in no case less than fifteen feet (15'). (Ord. 3710, 1974; Ord. 2585, 1957.)

28.30.080 Lot Area Requirements.

Each garden apartment development hereafter approved shall be located on a site of not less than twenty-five thousand (25,000) square feet of net area.

There shall be a minimum of three thousand (3,000) square feet of lot area per dwelling unit. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.30.090 Units Per Building.

No building shall contain more than eight (8) dwelling units. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.30.100 Off-street Parking.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.30.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 2585, 1957.)
Chapter 28.33

PLANNED RESIDENCE DEVELOPMENTS

Sections:
28.33.001 Title. 28.33.030 Uses Permitted.
28.33.005 Legislative Intent. 28.33.045 Property Development Standards.
28.33.010 Procedures.

28.33.001 Title.

Planned Residence Developments. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.33.005 Legislative Intent.

Whereas, Title 1, Division 7, Chapter 12, Sections 6950 - 6954 of the Government Code of the State of California do provide that a city may acquire by purchase, bequest, devise, grant, gift, or otherwise, any interest or right in real property in order to preserve, through limitation of their future use, open spaces and areas for public use and enjoyment; and

Whereas, Section 6953 of said Government Code does provide that the acquisition of such open area constitutes a public purpose, and that the City may acquire the fee or any lesser interest, development right, easement, covenant or other contractual right necessary to achieve the purposes of Chapter 12 of said Government Code;

Now, therefore, it is declared to be the legislative intent of the Council of the City of Santa Barbara to provide for greater flexibility in the development of residential properties, and for greater amenities and open spaces related thereto, when in the public interest and welfare; to encourage a more creative approach to the development of land; to protect and enhance property values and to provide more desirable spatial relationships between buildings and structures on the land than would be possible under strict adherence to ordinance requirements of the basic zone; and to encourage the preservation and enhancement of natural beauty and the provision of landscaped open spaces for visual and recreational enjoyment. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.33.010 Procedures.

Prior to submission of an application for a conditional use permit for a planned residential development, the applicant shall submit to the Chief of Building and Zoning basic site information including aerial photos where deemed necessary by the Chief of Building and Zoning, generalized development plans including lot sizes and open spaces proposed, existing and proposed deed restrictions and easements, existing neighborhood development and any other information which may be reasonably required by the Chief of Building and Zoning to assist the Division of Land Use Controls in its initial consideration of the planned residential development.

1. After completion of preliminary conference(s), the applicant shall file a request for a conditional use permit, submitting therewith:
   a. A preliminary title report showing vested ownership and all covenants, restrictions and reservations of record.
   b. Statement of intent indicating:
      (1) Reason why the subject property may be suitable for planned residential development;
      (2) Type and class of residence to be constructed;
      (3) Any deed restrictions contemplated or proposed;
      (4) Method and schedule of development and improvement of the tract;
      (5) Purpose and proposed use of the open space to be provided.
   c. Site (plot) plans drawn to a scale of not greater than one hundred feet (100') to the inch showing:
      (1) Proposed lots and lot size;
      (2) Street rights-of-way, existing and proposed;
      (3) Street improvements proposed including any proposed modification of City standards;
      (4) Contours at intervals not greater than five feet (5') extending a distance of one hundred feet (100') beyond the boundaries of the development;
      (5) Existing and proposed easements;
      (6) Proposed open spaces.
   d. Landscaping plan drawn to a scale of forty feet (40') or less to the inch showing:
      (1) All mature trees, indicating those to be retained, removed or relocated;
      (2) Special landscape features to be retained or created such as rocks, walls, fences, etc.;
      (3) Recreation areas and facilities to be provided, if any;
      (4) Proposed grading in contour intervals of not less than five feet (5').
e. Other information reasonably required by the Chief of Building and Zoning to assist the Division of Land Use Controls in a proper consideration of the proposal.

2. The procedure for consideration of a conditional use permit shall be as outlined in Chapter 28.94. If such permit be approved, the Planning Commission and City Council shall first state their finding that the proposed development is consistent with the purposes and objectives outlined herein; and the Planning Commission and the Council may impose such conditions as are necessary to protect the public welfare and to insure proper development under the approved plans.

3. Upon approval of a conditional use permit the applicant may submit a tentative subdivision map which shall conform to the approved conditional use permit plans and conditions. (Ord. 3710, 1974; Ord. 2892, 1962.)

28.33.030 Uses Permitted.

A. Single-family dwellings.
B. Private parks, public parks, open spaces and areas for public or private use and enjoyment.
C. A State-licensed Small Family Day Care Home.
D. A State-licensed Large Family Day Care Home, subject to the provisions in Chapter 28.93.
E. State authorized, licensed, or certified uses to the extent they are required by State Law to be allowed in residential zones. (Ord. 4858, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.33.045 Property Development Standards.

1. MINIMUM LOT SIZE: To preserve and protect the value of properties adjacent to the proposed development and to provide for an orderly and uniform transition, lots which will adjoin existing developments shall be required to provide an amount of street frontage not less than that of existing lots but not greater than minimum requirements for the zone in which located.

The Planning Commission may, upon its own motion or upon verified application of the developer, permit lot sizes in a planned residential development to be reduced below the minimum standards required by the Zoning Ordinance. As a prerequisite and condition to the granting of such a permit, the developer shall demonstrate to the Planning Commission that there is a reasonable relationship between the requested lot size and the proposed open areas within the development; that such lot sizes are compatible with the comprehensive plan for the residential development and are necessary to assure that the spirit and intent of this Chapter, as set forth in Section 28.33.005 is observed. Reduction in lot size shall only be permitted as an incident to the exercise of discretion by the Planning Commission and not as consideration for an arbitrary exercise of the zoning power; however, lot area and frontage shall not be reduced below the following minimum requirements, except as otherwise provided:

<table>
<thead>
<tr>
<th>MINIMUM LOT AREA</th>
<th>MINIMUM LOT FRONTAGE</th>
</tr>
</thead>
<tbody>
<tr>
<td>R-1</td>
<td>5,000 sq. ft.</td>
</tr>
<tr>
<td>E-3</td>
<td>6,000 sq. ft.</td>
</tr>
<tr>
<td>E-2</td>
<td>8,000 sq. ft.</td>
</tr>
<tr>
<td>E-1</td>
<td>10,000 sq. ft.</td>
</tr>
<tr>
<td>A-2</td>
<td>15,000 sq. ft.</td>
</tr>
<tr>
<td>A-1</td>
<td>25,000 sq. ft.</td>
</tr>
</tbody>
</table>

Exception: Where justified by improved subdivision design, building placement or natural terrain features, the Planning Commission, on recommendation of the Chief of Building and Zoning, may permit interior lots with usable lot area not less than the minimum lot area herein prescribed, and with not less than twenty-five feet (25') of frontage on a public street, provided that such approval shall be consistent with the spirit and intent of this Chapter.

2. STREETS: In order to provide greater flexibility of development and to preserve natural terrain features and open areas the City Council, may, upon the favorable recommendation of the Planning Commission and Public Works Director, grant such modifications of City street design standards as may be deemed necessary to assure that the spirit and intent of this Chapter are observed and the public welfare and safety secured.

3. YARDS AND SETBACKS: Yards or setback lines for individual lots shall be not less than the minimum required in the basic zone district in which the lots are located, except:

| a. Where buildings are so offset that no portion of one (1) building falls within the projection of the outer walls of another, the common space between then may be reduced to not less than twenty feet (20'); and |
| b. Where buildings face on, or back to, any other residential building, the minimum distance between them shall be thirty feet (30'). |

4. DISTANCE BETWEEN BUILDINGS: No main or accessory buildings in a planned residence development shall be located closer to each other than one-half (1/2) of the aggregate height of both buildings, such height to be determined as provided in Section 28.04.140 of this Title, except:

a. Where buildings are so offset that no portion of one (1) building falls within the projection of the outer walls of another, the common space between then may be reduced to not less than twenty feet (20'); and
5. **DENSITY OF DEVELOPMENT:** Density of development (permissible number of dwelling units) shall be computed by the following formula: Total net acreage within the planned residential development area divided by the minimum lot area required in the basic zone district. Total net acreage shall mean the total site area exclusive of existing and proposed public street rights-of-way, existing public or quasi-public open spaces, historical sites, schools, churches and similar institutions and land unacceptable for development or open space purposes. Quasi-public open spaces shall be considered to include areas such as golf courses, cemeteries, private parks and recreation areas and similar open uses which are not publicly owned but which provide similar amenities.

6. **OPEN SPACES:**
   
a. Control of the design of open spaces is vested in the Planning Commission subject to review as to reasonableness by the City Council; design shall mean size, shape, location and useability for proposed public or quasi-public purposes and development.

   b. Approval of such open spaces by the Planning Commission and City Council shall be expressly conditioned upon a conveyance by the developer to the City of Santa Barbara of the development rights, the fee or any lesser interest, any other contractual right or a combination of any of the foregoing necessary to achieve the purposes set forth in Section 28.33.005.

   c. No planned residential development shall be approved prior to the submission of a legal document or documents setting forth a plan or manner of care and maintenance of such open spaces, recreational areas and communally owned facilities. No such document shall be acceptable until approved by the City Attorney as to legal form and effect and the Planning Commission as to suitability for the proposed use of the open areas. (Ord. 5459, Section 3, 2008; Ord. 4633, 1990; Ord. 3710, 1974; Ord. 2585, 1957.)
Chapter 28.36

PUD PLANNED UNIT DEVELOPMENT ZONE

Sections:

28.36.001 In General.

28.36.120 Street Requirements.
28.36.135 Development Stages.
28.36.195 Open Space and Landscaping Requirements.
28.36.220 PUD Zone Exclusive.

28.36.001 In General.

Land classified in a PUD Zone shall also be classified in an A, E or R-1 Zone and the following regulations shall apply in the PUD Zone unless otherwise provided in this chapter.

Land areas approved for planned unit development in accordance with this chapter shall be shown on the Official Zoning Map by the symbol 'PUD' and a maximum allowable density figure in dwelling units per acre following the symbol of the basic zone classification for the property, such as A-1-PUD-.8 or R-1-PUD-5.6. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.005 Legislative Intent.

Whereas, Title 1, Division 7, Chapter 12, Sections 6950 - 6954 of the Government Code of the State of California provide that a city may acquire by purchase, bequest, grant, gift or otherwise, and through the expenditure of public funds the fee of any lesser interest or right in real property in order to preserve, through limitation of their future use, open spaces and areas for public use and enjoyment; and

Whereas, rapid growth and spread of urban development is encroaching upon, or eliminating many open areas and spaces of varied sizes and character, including many having significant economic or aesthetic values, which areas and spaces if preserved and maintained in their present open state would constitute important physical, social, aesthetic or economic assets to existing or impending urban development; and

Whereas, Section 6953 of said Government Code specifically declares that the acquisition of interests or rights in real property for the preservation of open spaces and areas constitutes a public purpose for which public funds may be expended or advanced and that a city may acquire by purchase, gift, grant, devise lease or otherwise, the fee or any lesser interest, development right, easement, covenant, or other contractual right necessary to achieve the above purpose and may acquire the fee to any property for the purpose of conveying or leasing said property back to the original owner or other person under such covenants or other contractual arrangements as will limit the future use of the property in accordance with the above public purpose.

Now, therefore, it is declared to be the legislative intent of the Council of the City of Santa Barbara to provide for greater flexibility in the development of residential properties, and for greater amenities and open spaces related thereto, when in the public interest and welfare; to encourage a more creative approach to the development of land; to protect and enhance property values and to provide more desirable spatial relationships between buildings and structures on the land than would be possible under strict adherence to ordinance requirements of the basic zone; and to encourage the preservation and enhancement of natural beauty and the provision of landscaped open spaces for visual and recreational enjoyment.

As a further declaration of the legislative intent of this chapter, it is hereby declared that the provisions hereinafter contained for the computation of the allowable maximum number of dwelling units shall not be used as a means of creating density higher than that allowed under Section 28.36.045 of this chapter nor a density higher than would be possible by way of the usual subdivision procedure, with the exception of affordable housing developments which may be granted a density increase of up to 25% over the otherwise allowable units when consistent with Section 28.87.400 of the Zoning Ordinance. Further, planned unit developments shall provide for close visual and physical relationship between dwelling units and the landscaped open areas which must dominate the site development. Such landscaped open areas must include substantial usable areas for passive and/or active recreational use. From public view the development must present a landscaped open space effect. Parking areas and building masses must not dominate the scene. (Ord. 4912, 1995; Ord. 3710, 1974; Ord. 2585, 1957.)
28.36.010 Procedure.

1. Procedure for establishing a Planned Unit Development Zone in combination with one (1) of the basic A, E or R-1 Zone classifications shall be the same as set forth under Zone Changes in Chapter 28.92 of this title. The applicant shall also demonstrate that development to the PUD standards contained in this chapter constitutes the best use from the community point of view for the land for which the application is made, consistent with Section 28.36.005 hereof.

2. The development plan for a planned unit development project shall be processed as a condition use permit in accordance with the provisions of Title 28, Chapter 28.94 and may be processed concurrently with the request for the PUD Zone change as required above.

3. Prior to submission of an application for a conditional use permit for a planned unit development plan, the applicant(s) shall submit to the Chief of Building and Zoning basic site information, including aerial photos where deemed necessary by the Chief of Building and Zoning; generalized development plans, including lot sizes and open spaces proposed, existing easements, existing neighborhood development, and any other information which may be reasonably required by the Chief of Building and Zoning to aid and assist the Planning Commission in an initial consideration of the preliminary PUD plan. The preliminary plan shall be presented to the Planning Commission at a regular meeting for discussion by the individual commissioners. No formal action shall be taken by the Planning Commission regarding the preliminary plan.

4. After completion of preliminary conference(s), the applicant(s) shall file a request for a conditional use permit. A professional team approach in the preparation of the planned unit development plan is required. This team should include, but is not limited to, a registered architect, registered landscape architect, and registered civil engineer. The following shall be submitted:
   a. A preliminary title report showing vested ownership and all covenants, conditions, restrictions and reservations of record.
   b. Statement of intent indicating:
      (1) Reason why the subject property is suitable for planned unit development.
      (2) Type of residences to be constructed.
      (3) Method and time schedule of development and improvement of the project.
      (4) Purpose and proposed use of the open space(s) to be provided.
      (5) State the manner in which the units will be sold, i.e., type of condominium or cooperative, according to the planned unit development types permitted under Section 28.36.030 of this chapter.
   c. Development plans drawn to a scale of not greater than one hundred feet (100') to the inch showing: the boundaries of the site, topography and a proposed grading plan; the width, location and name of surrounding streets, proposed street sections and improvements; existing and proposed sewer lines; existing and proposed surface and improved drainage; the topography, location, dimensions and uses on adjacent property of all existing buildings and structures within one hundred feet (100') of the boundary line of the subject site; the location, dimensions, ground floor area and uses of all existing and proposed buildings and structures on the subject site; landscaping; parking areas, including the size and number of stalls and the internal circulation pattern; signs, including location, size and height; pedestrian, vehicular and service ingress and egress; location, height and material of walls and fences; and other specific uses of the site.
   d. Schematic drawings and renderings to scale showing the architectural design of all buildings and structures.
   e. Statistical information including the following:
      (1) Total acreage of site area.
      (2) Height, ground floor area and total floor area of each building.
      (3) Number of dwelling units in each building.
      (4) Building coverage expressed as a percent of the site area.
      (5) Area of land devoted to landscaping and/or open space usable for recreation purposes, and its percentage of the site area and net area.
   f. The sequence of construction of various portions of the development if the construction is to occur in stages.
   g. A statement as to the source of water and method of sewage disposal.
   h. Landscaping plan(s), showing:
      (1) All mature trees, indicating those to be retained, removed or relocated.
      (2) Special landscape features to be retained or created, such as rocks, walls, fences, etc.
      (3) Recreation areas and facilities to be provided, if any.
      (4) Proposed grading in contour intervals of not less than five feet (5').
      (5) Other landscaping.
   i. Other information reasonably required by the Planning Commission for a proper consideration of the proposal including, but not limited to, geological and soil reports.

5. All architectural plans relative to planned unit developments shall be in accordance with the policy of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark.
6. Where subdivision of land is intended, City Ordinance Number 2872, as amended or superseded, shall apply and tentative subdivision maps may be processed concurrently with the conditional use permit application. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.013 Conditions, Restrictions and Modifications.

As a condition of the approval of a development plan hereunder, the Planning Commission may impose such other appropriate and reasonable conditions and restrictions, and permit such modifications as it may deem necessary for the protection of property in the neighborhood or in the interests of public health, safety and welfare in order to carry out the purposes, spirit and intent of this chapter. However, no variance or modification shall be granted for building height, maximum number of dwelling units per building (four) or maximum dwelling units per acre of site area, as set forth in this chapter. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.025 Action.

1. Upon receipt of fifteen (15) copies of the development plan, together with the required supplemental data, the Division of Land Use Controls shall transmit one (1) copy to each of the following agencies: Public Works Director, Water Superintendent, Chief of the Fire Department, County Assessor, County Health Officer, Clerk of the City Council, City Park and Recreation Commissions, and City Board of Education. Within fifteen (15) days, each such agency shall file with the Division of Land Use Controls recommendations for improvements and revisions to be required as a condition of approval of the development plan. The Division of Land Use Controls shall correlate departmental recommendations and submit them to the developer or his authorized agent not later than one (1) week prior to the Planning Commission meeting at which the plan is to be considered. Within six (6) weeks of receipt of the development plan, the Planning Commission shall consider said plan and the recommendations of the above mentioned agencies and of the Division of Land Use Controls and shall approve, conditionally approve or disapprove the development plan within a reasonable time thereafter.

2. A conditional approval may specify the limits within which the dimensions shown on the development plan may vary. The Planning Commission action shall be final, subject to appeal to the City Council.

Upon approval or conditional approval of the development plan, permits may be issued for grading, uses, buildings and structures which are in substantial conformity with the approved development plan and the conditions imposed.

3. No grading shall be commenced nor shall any building or structure be erected, moved, altered, enlarged, or rebuilt on a planned unit development site except in substantial conformity with the approved development plan and said conditions, except as otherwise provided herein. Substantial conformity shall be determined by the Chief of Building and Zoning, or in case of disagreement with the developer, by the Planning Commission.

4. Revised development plans shall be submitted and processed in the same manner as the original development plan. When approved, such revised development plan shall automatically supersede any previously approved plan. (Ord. 3710, 1974; Ord. 3045, 1965.)

28.36.030 Uses Permitted.

A. Any use permitted in the basic zone classification.

B. Planned unit developments containing:
   1. Single-family and/or two-family dwellings.
   2. Multiple-family dwellings, provided no building shall contain more than four (4) dwelling units.
   3. Accessory buildings and uses, such as recreation facilities, parking lots, carports and garages, private and public parks, open spaces and areas for public and private use.

C. A State-licensed Small Family Day Care Home.

D. A State-licensed Large Family Day Care Home, subject to the provisions in Chapter 28.93.

E. State authorized, licensed, or certified uses to the extent they are required by State Law to be allowed in residential zones. (Ord. 4912, 1995; Ord. 4858, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.045 Property Development Standards.

1. Planned Unit Development Site. A planned unit development site is a lot, or combination of lots which comprise an area of land under, or committed to, a development plan which has been filed with the Planning Commission in accordance with the terms of this chapter.

2. Site Area. The site area shall exclude existing public street rights-of-way and any non-residential use; however, open recreation, such as golf courses, putting greens, swimming pools, cabana areas, tennis and badminton courts and like facilities, shall not be construed as non-residential uses.
3. Maximum Number of Dwelling Units. The maximum number of dwelling units allowable in planned unit development shall not exceed the number of lots which could be developed by way of the usual subdivision procedure, utilizing the existing zoning on the property and all subdivision design standards as outlined in Title 27 and Title 28 of this Code. The slope density provisions of Section 28.15.080 of this Code shall be considered when making this determination. Exception: when consistent with Section 28.87.400 of the Zoning Ordinance, up to 25% density bonus units may be allowed in developments if the developer has agreed to construct affordable units.

The Planning Commission may recommend and the City Council may approve a numerical density of dwelling units per acre of site area less than the maximum indicated, based on consideration of the individual site characteristics such as topography, soil, relationship to existing neighborhoods, and similar characteristics. (Ord. 4912, 1995; Ord. 4049, 1980; Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.050 Building Height.

1. Two (2) stories, except in hillside development as provided in (2) hereinafter.
2. In hillside development, a multi-level building may be constructed following the natural topography in steps, split levels or full story levels, provided no vertical section of the building shall contain more than two (2) stories. The plane of a bearing wall may not be used as such vertical section. In no case shall a vertical section through the building measure more than thirty five feet (35'). (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.070 Distance Between Buildings.

No building containing dwelling units shall be located closer to the opposing walls of another building containing dwelling units on the property than one-half (1/2) the sum of the heights of both such buildings, provided however that such distance between buildings shall in no case be required to exceed one hundred feet (100'). The distance between two (2) such adjacent buildings so located that the walls of one (1) building do not face the walls of another building shall be not less than fifteen feet (15'). (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.075 Setback Requirements.

In lieu of setback requirements as set forth in the base zone, the following setbacks shall be provided:

A. FRONT SETBACK. There shall be a front setback or setbacks not less than twice the required front setback in the base zone in which the site is located.

B. INTERIOR SETBACK. There shall be an interior setback of not less than forty feet (40'). (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.100 Parking Requirements.

The following permanently maintained off-street parking spaces so designed that a car need not be moved to gain access to any other space nor that any car need back out into a public street, shall be provided:

1. For each dwelling unit, not less than two (2) parking spaces, either in a garage or a carport.
2. One (1) additional off-street uncovered parking space shall be provided for every two (2) dwelling units. Uncovered parking areas and driveways shall be paved in accordance with Chapter 28.90 of this Code. Uncovered parking areas shall be provided with one (1) tree for every ten (10) parking spaces in order to break up the continuity of paved areas.
3. No more than five (5) spaces shall adjoin each other without intervening landscaped areas. Except for necessary access, no part of the paved parking area shall be within the public street right-of-way. The area between the parking area and the public street curb or pavement shall be appropriately landscaped and improved to the satisfaction of the Chief of Building and Zoning to provide visual screening of the parking area and necessary pedestrian ways.

It is the spirit and intent of this chapter that parking areas shall not dominate open spaces and landscaping as defined hereunder. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.120 Street Requirements.

In order to provide flexibility of development and to preserve natural terrain features and open spaces, Planning Commission may grant such modifications of City street design standards as may be deemed necessary to assure that the spirit and intent of this chapter are observe and the public welfare and safety secured. (Ord. 4496, 1988; Ord. 3710, 1974; Ord. 2585, 1957.)
28.36.135 Development Stages.

If the sequence of construction of various portions of the development is to occur in stages then the open space and/or recreational facilities shall be developed, or committed thereto, in proportion to the number of dwelling units intended to be developed during any given stage of construction as approved by the Planning Commission. Furthermore, at no time during the construction of the project shall the number of constructed dwelling units per acre of developed land exceed the overall density per acre established by the approved conditional use permit. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.195 Open Space and Landscaping Requirements.

1. Not less than fifty percent (50%) of the net area of the property shall be open space devoted to planting, patios, walkways and recreational areas, but excluding areas covered by dwelling units, garages, carports, parking areas or driveways. Net area is defined as the site area less all land covered by buildings, streets, parking lots or stalls, driveways, and all other paved vehicular ways and facilities. Any driveway or uncovered parking area shall be separated from the peripheral boundary line of the property by a landscaped area of not less than ten feet (10') in width. Development rights to all or any open space shall be required to be deeded permanently to the City before any permanent occupancy permit to any building or units in any planned unit development shall be granted.

2. Control of the design of open spaces is vested in the Planning Commission. Design shall mean size, shape, location and usability for proposed private, public or quasi-public purposes and development. Approval of such open spaces by the Planning Commission shall be expressly conditioned upon a conveyance by the developer to the City of Santa Barbara of the development rights, or the right to prohibit the construction of additional buildings or other contractual rights, necessary to achieve the purposes set forth in Section 28.36.005 of this ordinance.

3. Planned unit developments shall provide for close visual and physical relationship between dwelling units and the landscaped open areas which must dominate the site development, such landscaped open areas to include substantial usable areas for passive and/or active recreational use. Further, from public view, the development should present a landscaped open space effect to the end that parking areas and building masses shall not dominate the scene.

4. Planned unit developments shall be approved subject to the submission of a legal instrument or instruments setting forth a plan or manner of permanent care and maintenance of such open spaces, recreational areas and communally owned facilities. No such instrument shall be acceptable until approved by the City Attorney as to legal form and effect, and the Planning Commission as to suitability for the proposed use of the open areas. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.36.220 PUD Zone Exclusive.

Notwithstanding anything in Section 28.36.005 to the contrary, when Planned Unit Development Zoning is requested by an owner or developer, or when, on the basis of competent engineering or geological reports furnished to either such body, the City Council, upon recommendation of said Planning Commission or upon its own motion, then finds and determines that the development of the land under standard subdivision procedure would, by reason of its steep topography, soil instability or other natural characteristics create hazardous or dangerous erosion or drainage problems, then upon such finding and determination being duly made the City Council may classify the land in a PUD Zone without also classifying the land in any other zone. (Ord. 3710, 1974; Ord. 3159, 1966.)
Chapter 28.37
PR - PARK AND RECREATION ZONE

Sections:
28.37.001 In General. 28.37.030 Uses Permitted by Category.
28.37.005 Legislative Intent. 28.37.040 Development Standards.
28.37.007 Definitions. 28.37.090 Coastal Zone Review.
28.37.010 Procedure and Noticing. 28.37.131 Development Potential.
28.37.025 Findings.

28.37.001 In General.  

The Park and Recreation Zone is established in order to protect and preserve publicly owned park and beach lands for the benefit and enjoyment of present and future generations of residents and visitors. The zone is also established to promote uses of park lands which are compatible with the surrounding land uses and categories within which the respective parks are assigned and to encourage the protection of the City's open space through conservation and appropriate development. (Ord. 4919, 1995; Ord. 4169, 1982.)

28.37.005 Legislative Intent.  

The purpose and intent of this zone is to establish categories of park and recreation facilities and/or land and establish an appropriate system of review for proposed uses, improvements and/or development. The regulations of this zone are designed to maintain and protect neighborhoods that are adjacent to parks and recreation facilities, while providing for the appropriate types and/or intensity of land use of parks and recreation facilities, for the benefit of the community. (Ord. 4919, 1995.)

28.37.007 Definitions.  

A. ACTIVE RECREATION. Activities such as organized sports and drop-in sports, usually team oriented, which utilize equipment and are played on a field or court. Active Recreation includes, but is not limited to, soccer, football, swimming, baseball, softball, basketball, tennis, ultimate frisbee, volleyball and wheelchair football.

B. BALL FIELDS AND COURTS.  

1. Informal. Informal Ball Fields are usually open grass areas with no field or court delineation, or only bases, players' benches and backstop. Fields are not scheduled for league or tournament play. No dugouts, bleachers or lighting are provided. May include basketball courts with pavement striping, but without lighting.

2. Formal. Formal Ball Fields are often lighted and may include dressed infield area, baselines, pitcher's mound for baseball, large backstops, dugouts, players' benches and bleachers. Soccer fields are delineated, include players' benches and goals and may include lighting. Formal indoor courts for volleyball, basketball and other organized sports are also included. Formal ball fields may also include related food concessions.

C. COMMUNITY GARDEN. A Community Garden is a piece of urban land that is made available to residents of the community who may not have private yard area that is adequate to plant and maintain a private garden. This land is made available for the purpose of planting small personal gardens and usually consists of several small plots that are assigned to individuals or groups of people and which may be subject to an annual rental fee.

D. CONCESSION. A Concession is a rental or lease of land or space in a building by the City to an operator of the following types of retail outlets: snack bar, restaurant, push cart and miscellaneous sundries and equipment rental that relate to the uses of the facility where the concession is located.

E. COMMUNITY MEETING ROOMS.  

1. Small Community Meeting Room. A Small Community Meeting Room accommodates up to 75 people. Small Community Meeting Rooms may include food preparation areas and are used for meetings, seminars and small parties.

2. Large Community Meeting Room. A Large Community Meeting Room accommodates small or large groups of people. Large Community Meeting Rooms usually include food preparation facilities and may be used for large parties, banquets, dances and lectures.

F. LIGHTING.  

1. General Lighting. General Lighting is used for security, safety or decorative purposes.

2. Ball Field Lighting. Ball Field Lighting is used to illuminate formal ball fields and courts in order to allow evening use of such facilities.

G. MINOR BUILDINGS. Buildings which are not used for recreation programming or meetings. Minor buildings include restrooms, storage buildings, equipment sheds and caretakers' residences.
H. **OUTDOOR GAME AREA.** A delineated area designed specifically, and meeting established criteria, for a game. Outdoor Game Areas include, but are not limited to, volleyball, lawn bowling, horseshoe pitching, tether ball, hopscotch and handball.

I. **PARKING AREAS.**
   1. **Informal Parking Area.** Informal Parking Areas are unimproved, unpaved, include no striping or designated stalls and are not lighted. They may serve as overflow for an existing formal lot.
   2. **Small Formal Parking Area.** Small Formal Parking Areas include ten (10) or fewer spaces and are paved, usually striped and sometimes lighted. They are subject to City standards outlined in Chapter 28.90 of this Title.
   3. **Large Formal Parking Area.** Large Formal Parking Areas include more than ten (10) parking spaces and are paved, usually striped and sometimes lighted. They are subject to City standards outlined in Chapter 28.90 of this Title.

J. **PASSIVE RECREATION.** Activities that are engaged in by individuals or small groups, usually not dependent on a delineated area designed for specific activities. Passive Recreation includes, but is not limited to, hiking, bicycling, jogging, frisbee catch, bird watching, walking, picnicking and horseback riding.

K. **PICNIC AREA.**
   1. **Individual Picnic Area.** Picnic tables generally set a minimum of ten feet (10') apart and intended for use by small groups requiring the use of only one (1) picnic table.
   2. **Small Group Picnic Area.** A Small Group Picnic Area consists of picnic tables intentionally arranged to accommodate use by a group of up to thirty (30) people. Small Group Picnic Areas often include a single barbecue sized to accommodate a group meal.
   3. **Large Group Picnic Area.** A Large Group Picnic Area consists of picnic tables intentionally arranged to accommodate use by more than thirty (30) people, which may be subject to reservation. Large Group Picnic Areas often include one or more barbecues and food preparation tables sized to accommodate a group meal.

L. **PLAYGROUND.** A playground is an area which includes, but is not limited to, swings, slides, climbing structures, sand play, spring riders and other play structures.
   1. **Small Playground.** A Small Playground includes up to 4000 square feet of area.
   2. **Large Playground.** A Large Playground includes 4001 or more square feet of area.

M. **TRAIL.** A Trail is a passageway for hikers, equestrians and/or bicyclists. Uses of individual trails shall be determined by the Parks and Recreation Director. (Ord. 4919, 1995.)

28.37.010 Procedure and Noticing.

A. **DESIGNATION OF PARKS BY CATEGORY.** The City Council shall adopt a resolution that designates or assigns all City parks and recreation facilities to one of the categories listed in §28.37.030. In addition, the resolution shall include an exhibit that summarizes review and approval procedures for park and recreation facility uses.

In the future, if a new facility is proposed to be designated or an existing facility assigned to another category, the Parks and Recreation Commission and Planning Commission shall make a recommendation on such a designation to the City Council. The City Council shall hold a noticed public hearing prior to making a decision on the proposed category designation and amending said resolution.

B. **PARKS AND RECREATION COMMISSION REVIEW.** The Parks and Recreation Commission, or City Council on appeal, shall review and may approve, conditionally approve or deny applications based upon the required findings specified in §28.37.025 for the following:

1. **Noticed Public Hearing.** For the following facilities, a noticed public hearing shall be required as outlined in Subsection E of this Section:
   a. Additions to or new community buildings that may have the potential to impact the surrounding neighborhood due to a change in the intensity of use resulting in traffic, noise or lighting impacts.
   b. Formal ball fields and courts.
   c. Large playgrounds.
   d. Large group picnic areas.
   e. New community gardens.
   f. New ball field lighting for previously unlit formal ball fields and courts.
   g. New parking areas with more than 10 spaces or additions of more than 10 spaces to existing parking areas.
   h. Child care centers.
   i. Carousels and similar amusements.
   j. Concessions.

2. **Public Meeting.** For the following facilities, a public meeting shall be held:
   a. Informal ball fields and courts.
   b. Small playgrounds.
   c. Parking Areas/Improvements involving ten (10) or fewer spaces.
   d. General Lighting, except new ball field lighting in previously unlit areas.
e. Minor buildings, except temporary restrooms.

f. Swimming and wading pools.

g. Miscellaneous projects including but not limited to artwork, memorials and shade structures.

C. PLANNING COMMISSION REVIEW. The Planning Commission, or City Council on appeal, shall review and may approve, conditionally approve or deny applications based upon the required findings specified in §28.37.025 for the following:

1. Projects that are located within or outside the Coastal Zone (S-D-3 Overlay Zone):
   a. Additions to or new community buildings pursuant to Chapter 28.85 of this Title.
   b. New formal ball fields and courts.
   c. New swimming or wading pools.

2. Projects that are located in the Coastal Zone. Such projects that meet the definition of "development" as defined in Chapter 28.44 of this Title may require a noticed public hearing pursuant to said Chapter.

D. DESIGN REVIEW. Design review is required to the extent provided for by Chapters 22.22 (Historic Structures) and 22.68 (Architectural Board of Review) of this Code.

E. NOTICING. The public notice for projects specified above in Subsections A, B.1 and C of this Section shall be mailed and posted at least ten (10) days prior to the hearing date and shall include the following:

   1. Posting of signs at all park entrances and along adjacent streets at a sign spacing interval of 150 feet; and
   2. Mailed notice to all property owners within 300 feet of the park property shall be required if the project involves a new park or recreational facility or changes to an existing Sports Facility or Regional Park, as defined in §28.37.030 of this Chapter. If the proposed project involves changes to any other existing park or recreation facility, mailed notice shall be provided to all property owners within one hundred feet (100') of the park or recreation facility property.

F. APPEAL - NOTICE OF HEARING. Decisions by the Park and Recreation Commission or the Planning Commission are appealable to the City Council pursuant to Section 1.30.050 of this Code. If noticing was required pursuant to Subsection E of this Section before either the Parks and Recreation Commission or the Planning Commission, such notice shall also be provided as delineated in said Subsection E for the hearing on the appeal.

G. COMMUNITY DEVELOPMENT DIRECTOR REVIEW. Determinations as to whether a use or a change in the intensity of use is allowed in a particular park category and the appropriate review process shall be made by the Community Development Director. (Ord. 5609, 2013; Ord. 5380, 2005; Ord. 5136, 1999; Ord. 4919, 1995; Ord. 4849, 1994; Ord. 4701, 1991; Ord. 3944, 1978; Ord. 3646 §1, 1974.)

28.37.025 Findings.

The Parks and Recreation Commission and/or Planning Commission, where applicable, or City Council on appeal, shall review and make the following findings when approving or denying a project pursuant to §28.37.010.B and §28.37.010.C:

A. That the proposed park and recreation improvements are appropriate or necessary for the benefit of the community and visitors;

B. That the proposed park and recreation facilities including lighting, play areas, parking facilities and associated landscaping, will be compatible with the character of the neighborhood;

C. That the total area of the site and the setbacks of all facilities from the property lines and street are sufficient, in view of the physical character of the land, proposed development and neighborhood, to avoid significant negative effects on surrounding properties;

D. That the intensity of park use is appropriate and compatible with the character of the neighborhood;

E. That the proposed park and recreation facilities are compatible with the scenic character of the City; and

F. That any proposed structures or buildings are compatible with the neighborhood in terms of size, bulk and scale or location. (Ord. 4919, 1995.)

28.37.030 Uses Permitted by Category.

A. The following categories of park and recreation facilities reflect the diversity of such facilities within the community. Parks and recreation facilities with similar use characteristics have been grouped into the following categories to establish an orderly system of inventory and allowed uses within the respective categories and to make property owners aware of the uses allowed in such nearby facilities.

1. UNDEVELOPED PARKLAND. The future use of these undeveloped parklands has not been determined. These are properties that the City owns that may or may not be appropriate for parks and/or recreation use.

2. OPEN SPACE. This land is intended to be protected and managed as a natural environment with passive recreation usage and minimal development.
3. PASSIVE PARK. These are developed parks of natural, cultural or ornamental quality suited to passive outdoor recreation such as bird watching, walking and picnicking.

4. NEIGHBORHOOD PARK. These are small parks that typically serve a limited geographic area and nearby population.

5. BEACH. These are areas that provide access to the ocean and sand areas for passive and active recreation.

6. COMMUNITY PARK. These multi-use parks are usually larger than Neighborhood Parks. These are parks where special, pre-arranged activities and special events and functions occur. These are specialized facilities that serve a concentrated or limited population or specific group from a wide geographic area of the City.

7. SPORTS FACILITIES. These are outdoor facilities where intense recreational activities and organized sports and tournaments occur and which may include related buildings and parking areas.

8. COMMUNITY BUILDINGS. These are indoor facilities where intense recreational activities and organized sports and tournaments, meetings and gatherings and other community oriented activities occur. Community Buildings may also include related parking and grounds.

9. REGIONAL PARK. These are facilities where major organized events occur that draw people from throughout the region. They may also include areas of diverse environmental, cultural, educational or scientific quality with a variety of opportunities for both passive and active recreation activities.

B. The following chart sets out the uses allowed in the park and recreation categories defined above. "Yes" means the use or improvement is allowed. "No" means the use or improvement is prohibited.

</table>
If an improvement is proposed that is not specifically called out as an allowed use in the category, the Community Development Director will determine if the improvement is allowed or whether the park or recreation facility would be required to move to another category.

C. SPECIAL PROVISIONS. In addition to the uses and improvements allowed in the categories of uses stated in Subsection B of this Section, the following special provisions apply:

1. Formal courts for volleyball only are allowed at Beaches.
2. Zoological gardens that are classified as a Regional Park are also allowed to include the following uses: animal exhibits/habitats and related animal care, medical and holding areas for animals, class rooms including indoor educational exhibit space, gift shops, restaurants, snack bars and administrative offices and service facilities related to zoological garden operations.
3. Outdoor performance areas, including band shells and amphitheaters, existing or approved prior to June 30, 1995, are allowed uses and may be maintained and improved without a Conditional Use Permit as long as: a. no expansion in seating occurs; or, b. no improvements occur which allow amplified music where it did not previously exist. Future outdoor performance areas and expansions of existing ones may be allowed in Community and Regional Parks, subject to issuance of a Conditional Use Permit as outlined in Chapter 28.94 of this Title. (Ord. 4919, 1995; Ord. 4169, 1982.)

28.37.040 Development Standards.

A. SETBACKS. The following setbacks shall apply to parking areas, buildings, structures, outdoor game areas, playground equipment and formal/informal ball fields:

1. Front Setback. The required front setback shall be the same as that specified for the residential zone of the property on the abutting parcels on each side of the subject property. Where the setbacks on the abutting parcels are different from each other, the front setback shall be the least restrictive residential setback of the abutting zones. In the event the park property is bounded by a street, the front setback shall be the same as the least restrictive front setback on the adjacent properties on the same side of the street. In no case shall the front setback be less than ten (10) feet.

2. Interior and Rear Setbacks. There shall be interior and rear setbacks of not less than ten (10) feet.

B. LIGHTING. All exterior lighting shall be directed such that it will not cast light or glare onto adjacent properties. Any lighting shall be hooded or shielded so that no direct beams fall upon adjacent residential property. Indirect diffused lights and low garden lights shall be used wherever possible and shall be required as necessary to assure compatibility with adjacent and surrounding properties.

C. LOCATION OF PLAY AREAS. Outdoor playgrounds and informal ball fields and courts shall be located in a manner that is compatible with the character of the surrounding area and that minimizes significant detrimental noise impacts to adjacent properties while promoting visibility and safety.

D. PARKING REQUIREMENTS. Parking within the Park and Recreation Zone shall be in accordance with requirements set forth in Chapter 28.90 - Automobile Parking Requirements. (Ord. 5459, 2008; Ord. 4919, 1995; Ord. 4169, 1982.)

28.37.090 Coastal Zone Review.

All development in the Coastal Overlay Zone is subject to review pursuant to Chapter 28.44 of this Code. (Ord. 5417, 2007; Ord. 4169, 1982.)

28.37.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85 of this Title. (Ord. 5609, 2013; Ord. 4919, 1995; Ord. 4670, 1991.)
Chapter 28.39

P-D PLANNED DEVELOPMENT ZONE

Sections:

28.39.001 In General.
28.39.005 Legislative Intent.
28.39.050 Building Height.
28.39.060 Setbacks.
28.39.100 Parking Requirements.
28.39.110 Signs.
28.39.130 Development Plan Approval.

28.39.001 In General.

Land classified in a P-D Zone shall also be classified in another zone and the following regulations shall apply in the P-D Planned Development Zone unless otherwise provided in this chapter. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.39.005 Legislative Intent.

These regulations are intended to implement the orderly development of land in conformance with the comprehensive General Plan of the City of Santa Barbara, and in particular the provision for planned centers provided therein, by providing for uses and restrictions other than those contained in other zone districts in this title where justified by one (1) or more of the following circumstances:

1. Unusual topographic conditions.
2. Proximity to public parks, buildings, major traffic carriers, bodies of water, watercourses, open spaces and other similar improvements or land features.
3. Disparity between adjacent zoning district (e.g., single-family residential adjacent to commercial) warranting special features to protect the more restricted district.
4. Areas designated by the General Plan for planned center or other special or unique land use. (Ord. 3710, 1974.)

1. Any use permitted in the other zone in which the land is classified and when so used subject to the restrictions and limitations contained therein.
2. Any of the following uses and subject to the restrictions and limitations contained in this chapter.
   (1) New automobile sales, rental and leasing, including trucks of not more than one (1) ton capacity, and including the following accessory uses:
      (a) Used car sales;
      (b) Automotive repair and servicing conducted entirely within a building. Repair bays shall not be visible from a public street;
      (c) Motor home and camper sales;
      (d) Incidental sales, servicing and repair of trucks, truck trailers and buses greater than one (1) ton capacity.
   (2) Automobile washing and polishing.
   (3) Automobile diagnostic center.
   (4) Automobile service station and accessory uses limited to incidental tire and tube repairing, battery servicing, automobile lubrication and other minor automotive service within the building, not including auto body repair.
   (5) Bank.
   (6) Boat sales.
   (7) Church.
   (8) Club or lodge.
   (9) Hospital.
   (10) Hotel, motel.
   (11) Museum.
   (12) Offices: general, administrative, business, professional and public.
   (13) Parking lots.
   (14) Public building.
   (15) Recreational vehicle storage.
   (16) Research and development.
   (17) Restaurant.
   (18) Schools: art, music, dance, vocational and public.
(19) Sports centers.
   (20) Tennis, swimming, lawn bowling or other sporting club.
   (21) Theatre or auditorium.
   (22) Trailer sales.
   (23) Mini-warehouse, designed and used exclusively for storage of privately owned household articles and vehicles not in inventory for resale; individual storage compartments not to exceed 400 square feet in area. (Ord. 3853, 1976.)

28.39.050 Building Height.

   A maximum three (3) stories not exceeding forty-five feet (45'). (Ord. 3710, 1974; Ord. 2585, 1957.)

28.39.060 Yards.

   1. FRONT YARD. There shall be a front yard of not less than ten feet (10').
   2. INTERIOR YARDS, LOT AREA, FRONTAGE, DISTANCE BETWEEN BUILDINGS ON THE SAME LOT. None, except as may be required pursuant to Section 28.39.125. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.39.100 Parking Requirements.

   Off-street parking and loading space shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.39.110 Signs.

   Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 2585, 1957.)

   The architectural and general appearance of all buildings and grounds shall be in accordance with the action of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another Landmark district or if the structure is a designated City Landmark. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.39.130 Development Plan Approval.

   Before any building or structure is hereafter erected or any land hereafter used in the P-D Zone under the provisions of this Chapter, a development plan shall be submitted for the approval of the Planning Commission showing proposed building location, size, setbacks, floor area and elevations, proposed parking lot design and landscaping plan.
   
   It is hereby declared that most of the uses allowed in the P-D Zone are special uses and of such a nature that it is impractical to establish in advance of development the minimum requirements for parking, site area, setbacks, hours or manner of operation, lighting, landscaping or other standards usually applied to each individual facility or planned center proposed to be established under these provisions.
   
   The Planning Commission may, therefore, further limit the allowed uses and building height and require additional setbacks in the P-D Zone where necessary to secure an appropriate development.
   
   In lieu of prescribing herein minimum performance and development standards, the Planning Commission shall make the following findings and impose conditions necessary to secure and perpetuate the basis for such findings:
   1. That the total area of the site and the setbacks of all facilities from property and street lines are of sufficient magnitude in view of the character of the land and of the proposed development that significant detrimental impact on surrounding properties is avoided;
   2. That prescribed hours and days of operation of the facilities are such that the character of the area is not inappropriately altered or disturbed;
   3. That the design and operation of outdoor lighting equipment will not be a nuisance to the use of property in the area;
   4. That the appearance of the developed site in terms of the arrangement, height, scale and architectural style of the buildings, location of parking areas, landscaping and other features is compatible with the character of the area and of the City. (Ord. 4361, 1985; 3710, 1974; Ord. 3617, 1974.)

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 28.42

S-H SENIOR HOUSING ZONE

Sections:
- 28.42.001 In General.
- 28.42.005 Legislative Intent.
- 28.42.006 Senior Citizen and Elderly Person Defined.

- 28.42.060 Setbacks.
- 28.42.070 Distance Between Buildings.
- 28.42.100 Off-street Parking.
- 28.42.110 Signs.
- 28.42.127 Regulations, Limitations and Restrictions.
- 28.42.128 Termination of S-H Senior Housing Zone Classification.
- 28.42.130 Development Plan.
- 28.42.132 Precise Plan.
- 28.42.150 Maximum Permitted Occupancy.

28.42.001 In General.

Land classified in a S-H Zone shall also be classified in an A, E, R-1 or R-2 Zone and the following regulations shall apply in the S-H Senior Housing Zone unless otherwise provided in this chapter. (Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.005 Legislative Intent.

These regulations are designed and intended to insure the orderly development of land in conformance with the comprehensive scheme contemplated by the General Plan of the City of Santa Barbara by permitting the enforcement of restrictions other than those imposed by the other zone districts in this title where justified by the existence of the following findings:

1. The Planning Commission finds that a substantial need exists in the community for additional housing facilities for elderly persons of low and moderate incomes.
2. The Planning Commission finds that the characteristics of the site development proposed are such that the surrounding properties will not be adversely affected by the proposed senior housing project.
3. The Planning Commission finds that sufficient safeguards exist which will assure the long term continued use of the premises in accordance with the intent of this section and the conditions of approval of the development.
4. The design of the buildings shall be such that it is compatible and/or convertible to uses consistent to the zone in which the buildings are located.

These regulations are further designed and intended to insure that development occurs substantially in conformance with the developer's plans submitted as a basis for a proposed rezoning; to avoid the possibility of providing an excessive area of land zoned for the same uses as a result of failure to fully develop the land so zoned; and to minimize the use of rezoning primarily as a method of appreciating the value of a specific parcel of land for speculative purposes when such rezoning excludes comparable rezoning of other properties.

These regulations recognize that more than one (1) parcel or group of parcels of land may be suitable for a specified use but that if all such suitable parcels are zoned for such use there would result an imbalance in the area zoned for various types of uses to the detriment of the community or the district as a whole. (Ord. 3877, 1977; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.006 Senior Citizen and Elderly Person Defined.

For purposes of this part, elderly persons or senior citizens are defined as follows: Low and moderate income persons, sixty-two (62) years of age or older. (Ord. 3710, 1974; Ord. 3407, 1970.)
28.42.010 Procedure.

1. Adoption of an amendment applying the provisions of this section to any property shall be accomplished only following application by the property owner in accord with the procedure established herein and, where effective, shall be indicated on the zoning map by the symbol S-H in combination with the symbol for the basic A, E, R-1 or R-2 Zone.

2. To apply for a S-H Zone, the applicant shall file with the Division of Land Use Controls a rezoning request and fee together with a development plan as hereinafter described. After review by the Division of Land Use Controls for compliance with applicable ordinances the application shall be considered by the Planning Commission which may approve, modify or deny the application. Action of the Planning Commission shall be subject to appeal to the City Council in the manner set forth in Chapter 28.92 of this title.

3. After approval of the development plan by the Planning Commission the City Council may adopt the development plan as an amendment to the Zoning Ordinance, incorporating such modifications and conditions as have been recommended by the Planning Commission. At the same time the zoning map shall be changed to show the S-H symbol on the subject property.

4. Subsequent to the effective date of the amendment and within any time limitations established in the amendment or any time extensions granted by the Planning Commission, the applicant shall file with the Planning Commission a precise plan incorporating all buildings and structures proposed to be constructed in the first stage of development. The precise plan shall not be considered unless it is in a form acceptable to the Division of Land Use Controls for processing building permits thereon and conforming to the City Building Division for processing building permits thereon and conforming to the conditions of the approved development plan or any approved modifications thereof. The Planning Commission shall review the precise plan for substantial conformance with the development plan and the requirements of the amendment incorporating the development plan; no grading or building permits for buildings or structures proposed for construction under this section shall be issued prior to approval of the precise plan by the Planning Commission.

5. The plans and elevations for all buildings and structures to be erected in a S-H Zone shall be reviewed in the manner and according to the procedure as set forth in Chapter 22.68 or 22.69 of the Santa Barbara Municipal Code, depending on whether the proposed buildings are single family residences or multi-family residences. (Ord. 5416, 2007; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.013 Limited to Housing for Elderly.

In order to insure continued use of the development for affordable housing for elderly persons, prior to the approval of any precise plan for development under this Chapter, the applicant shall submit evidence satisfactory to the Planning Commission that an enforceable regulatory agreement exists to assure the continued operation of the facility for its intended use for not less than thirty years. Said agreement shall be reviewed by the Office of the City Attorney.

No variance, modification or other waiver to this Section shall be granted. (Ord. 4364, 1985; Ord. 3877, 1977; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.030 Uses Permitted.

1. Any use permitted in the basic zone in which the land is classified, and when so used subject to all of the provisions contained in sections defining said zone.

2. Housing developments for elderly persons, including group dining and recreation facilities accessory thereto subject to the provisions of this chapter. (Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.045 Basic Standards and Requirements.

Neither the Planning Commission nor the Division of Land Use Controls shall accept for filing an application and development plan which does not comply with all of the following provisions:

1. No building shall exceed a height of two (2) stories.

2. No building shall contain more than four (4) units.

3. No building containing residence units shall exceed a gross floor area of two thousand two hundred (2,200) square feet exclusive of garages or carports.

4. The total number of residence buildings in the development shall not exceed the product of the net area of the site in acres multiplied by the following appropriate density factor for the basic zone in which the site is located:
<table>
<thead>
<tr>
<th>BASIC ZONE</th>
<th>RESIDENCE BUILDINGS</th>
<th>DWELLING UNITS PER ACRE</th>
</tr>
</thead>
<tbody>
<tr>
<td>A-1</td>
<td>0.8</td>
<td>3.2</td>
</tr>
<tr>
<td>A-2</td>
<td>1.5</td>
<td>6.0</td>
</tr>
<tr>
<td>E-1</td>
<td>2.3</td>
<td>9.2</td>
</tr>
<tr>
<td>E-2</td>
<td>3.6</td>
<td>14.4</td>
</tr>
<tr>
<td>E-3</td>
<td>4.6</td>
<td>18.4</td>
</tr>
<tr>
<td>R-1</td>
<td>5.6</td>
<td>22.4</td>
</tr>
<tr>
<td>R-2</td>
<td>5.6</td>
<td>22.4</td>
</tr>
</tbody>
</table>

This provision shall not be construed as granting any right to the applicant to the maximum number of buildings and units represented by the above density factors. The Planning Commission and/or City Council may, in order to carry out the intent of this chapter, further limit the total number of buildings in the development and/or density of buildings per acre of net site area.

5. Any single uncovered parking area shall not provide more than ten (10) parking spaces. A parking area containing spaces on both sides of a common aisle shall be counted as one (1) parking area.

6. Carports and garages shall be attached to and made a part of a main building. No carport or garage shall provide more than three (3) auto parking spaces.

7. No more than ten percent (10%) of the number of buildings in a development shall have a flat roof. All other roofs shall be hipped or gabled.

The intent of this provision is to minimize the contrast between the architectural character of the development and the typical or standard architectural style of single-family dwellings in the community.

8. All buildings shall be located on the site in a manner similar to the way residences might be located in the zone in which the property is classified. For example, if PUD, they may be clustered; if single-family, they should be laid out like a standard subdivision. To demonstrate this, the applicant shall submit, in rough form, a practical subdivision scheme for the proposed buildings shown thereon. Lot sizes, frontages, street alignments, setbacks and all other aspects of such hypothetical subdivision shall be in accordance with applicable Zoning Ordinances and Subdivision Ordinance requirements. (Ord. 3877, 1977; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.060 Setbacks.

Setback requirements shall be the same as in the base zone in which the property is located. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.070 Distance Between Buildings.

The minimum distance between buildings shall be the same as required in the basic zone in which the property is located. (Ord. 3710, 1974.)

28.42.100 Off-street Parking.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.110 Signs.

Signs shall be permitted as provided in the basic zone in which the property is located. (Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.127 Regulations, Limitations and Restrictions.

The Planning Commission may recommend and the City Council may adopt as part of the development plan, and may require in the precise plan, requirements, regulations, limitations and restrictions more restrictive than those specified elsewhere in this title, and designed to protect property values in the vicinity of the subject property and the public peace, health, safety and general welfare of persons residing, working in and passing through the neighborhood. (Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.128 Termination of S-H Senior Housing Zone Classification.

Any ordinance amendment establishing an S-H classification under this chapter shall establish a time limitation within which a precise plan or a substantial portion thereof must be approved by the Planning Commission, provided that such time limitation shall not exceed two (2) years from the effective date of said ordinance amendment.
An ordinance amendment establishing an S-H classification shall terminate and the affected property shall automatically revert to the district classification represented by the basic symbol at the end of the time limitation if the precise plan or a substantial portion thereof has not been approved by the Planning Commission. For good cause shown, the Planning Commission may extend such time limitation for not to exceed a total additional time of six (6) months. Any precise plan which has not been disapproved within sixty (60) days from the date that it was submitted to the Planning Commission shall be deemed approved unless the applicant agrees to a time extension.

Any ordinance amendment adopted under the provisions of this section terminates and the affected property shall automatically revert to the district classification represented by the basic symbol if, within eighteen (18) months after Planning Commission approval of a precise plan, the construction incorporated in the precise plan has not been substantially commenced. Such eighteen (18) month period may be extended by the City Council upon the showing of good cause. (Ord. 3877, 1977; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.130 Development Plan.

Any application for the establishment of an S-H Senior Housing Zone shall be accompanied by a development plan drawn to scale together with supporting data and showing the following:

1. The boundaries of the property, the width, location and names of surrounding streets and uses of adjacent properties.
2. A plot plan drawn to scale showing the location and dimensions of all existing and proposed structures, landscaping, parking areas and other proposed uses on the subject property supplemented by a narrative description of all improvements proposed to be installed and the general types of uses on each portion of the property.
3. Schematic drawings and renderings showing the architectural design of buildings and structures proposed to be constructed.
4. A schedule of time for construction of various portions of the development if the construction is to occur in stages.

The development plan and any supplemental data shall be filed as a permanent record in the Office of the Division of Land Use Controls. (Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.132 Precise Plan.

The precise plan shall consist of a map or maps together with supplemental descriptive data which shall show the location of all buildings and structures to be constructed or maintained upon the property or properties and such other information as may be needed to fully describe and locate all features of the proposed development. The precise plan and any supplemental data shall be filed as a permanent record in the Office of the Division of Land Use Controls.

After the effective date of the amendment applying the S-H symbol to a parcel of property, no grading shall be commenced, nor shall any building or structure be erected, moved, altered, enlarged or rebuilt on such property except in compliance with the precise plan approved by the Planning Commission. (Ord. 4364, 1985; Ord. 3710, 1974; Ord. 3407, 1970.)

28.42.150 Maximum Permitted Occupancy.

The maximum permitted occupancy of units developed in an S-H Overlay Zone is restricted as follows:

1. Efficiency or studio unit: One (1) resident.
2. One (1) bedroom unit: Two (2) residents.
3. Two (2) bedroom unit: Four (4) residents.
4. For units having three (3) or more bedrooms, the maximum permitted occupancy of such units shall be restricted to two (2) persons per bedroom per unit. (Ord. 3710, 1974; Ord. 3407, 1970.)
Chapter 28.43
INCLUSIONARY HOUSING ORDINANCE

28.43.120 Adjustments and Waivers.
28.43.130 Affordable Housing Inclusionary Fund.

28.43.010  Purposes and Intent.

A. The purposes and intent of this Chapter, which shall be known as the “City of Santa Barbara Inclusionary Housing Ordinance,” are the following:
1. To encourage the development and availability of housing affordable to a broad range of Households with varying income levels within the City;
2. To promote the City’s goal to add affordable housing units to the City’s housing stock;
3. To increase the availability of housing opportunities for Middle Income and Upper-Middle Income households within the City limits in order to protect the economic diversity of the City’s housing stock, reduce traffic, commuting and related air quality impacts, and reduce the demands placed on transportation infrastructure in the region; and
4. To implement policies of the Housing Element of the General Plan which include: a. adopting an inclusionary housing program to meet the housing needs of those not currently served by City Housing and Redevelopment Agency programs; and b. encouraging the development of housing for first time home buyers, including moderate and Middle Income households. (Ord. 5310, 2004.)

28.43.020  Definitions.

As used in this Chapter, the following terms shall have the meaning and usage indicated below:
A. AFFORDABLE HOUSING POLICIES AND PROCEDURES. The City’s Affordable Housing Policies and Procedures as adopted by the City Council of the City of Santa Barbara and amended from time to time.
B. AFFORDABLE HOUSING INCLUSIONARY FUND. That special fund of the City established by the City as provided in Section 28.43.130.
C. AREA MEDIAN INCOME. The median household income as provided in Section 50093(c) of the California Government Code, as it is currently enacted or hereinafter amended.
D. APPLICANT. Any person, firm, partnership, association, joint venture, corporation, or any entity or combination of entities, which seeks City approvals for all or part of a Residential Development.
E. HOUSEHOLD. One person living alone or two or more persons sharing residency whose income is considered for housing payments.
F. INCLUSIONARY HOUSING PLAN. A plan for a residential development submitted by an Applicant as provided by Section 28.43.090(b).
G. INCLUSIONARY UNIT. An Ownership Unit that must be offered to eligible purchasers (in accordance with eligibility requirements set by the City) at a City-approved affordable sale price according to the requirements herein.
H. MARKET-RATE UNIT. An Ownership Unit in a Residential Development that is not an Inclusionary Unit.
I. MIDDLE INCOME HOUSEHOLD. A Household whose income is between one hundred twenty percent (120%) and one hundred sixty percent (160%) of the Area Median Income, adjusted for household size.
J. OFF-SITE INCLUSIONARY UNIT. An Inclusionary Unit that will be built separately or at a different location than the main development.
K. ON-SITE INCLUSIONARY UNIT. An Inclusionary Unit that will be built as part of the main development.
L. OWNERSHIP UNIT. A dwelling unit that may be sold separately under the requirements of the State Subdivision Map Act. For purposes of this Chapter, a dwelling unit may be designated as an Ownership Unit whether or not it is rented by the owner thereof. The following shall be considered to be a single Ownership Unit: 1. a dwelling unit together with an attached Secondary Dwelling Unit approved under Chapter 28.94, or 2. a dwelling unit...
together with an additional dwelling unit on the same lot approved under Chapter 28.93 of the City’s Municipal Code.
M. RESIDENTIAL DEVELOPMENT. The proposed development of any single family, duplex or condominium Dwelling Units in residential or mixed-use developments requiring a tentative subdivision map under the City’s Subdivision Ordinance. Residential Development shall include the conversion of rental housing to condominiums or similar uses as described in Chapter 28.88 of this Municipal Code.

N. RESIDENTIAL LOT SUBDIVISION. The subdivision of land into individual parcels where the application to the City for the subdivision approval does not include a concurrent request for City design approval of the residential dwelling units or homes to be constructed upon on such lots.

O. TARGET INCOME. A number, expressed as a percentage of Area Median Income, used in calculating the maximum sale price of an affordable housing unit. It is the household income to which the unit is targeted to be affordable.

P. UNIT SIZE. All of the usable floor area within the perimeter walls of a dwelling unit, exclusive of open porches, decks, balconies, garages, basements, cellars that extend no more than two (2) feet above finished grade, and attics that do not exceed a floor-to-ceiling height of five (5) feet.

Q. UPPER-MIDDLE INCOME HOUSEHOLD. A Household whose income is between one hundred sixty percent (160%) and two hundred percent (200%) of the Area Median Income, adjusted for household size.

(Ord. 5380, 2005; Ord. 5310, 2004.)

28.43.030 Inclusionary Requirements.

A. GENERAL REQUIREMENTS.

1. Developments of Ten (10) or More Units. For all Residential Developments of ten (10) or more dwelling units, at least fifteen percent (15%) of the total units must be constructed and offered for sale as Inclusionary Units restricted for owner-occupancy by Middle Income Households or, in the case of Residential Lot Subdivisions for the construction of single family homes, by Upper-Middle Income Households as specified herein.

2. Developments of Less Than Ten (10) Units But More Than One Unit – Payment of an In-Lieu Fee. For all Residential Developments of less than ten units and more than one unit, the Applicant shall, at the Applicant's election, either provide at least one unit as an owner-occupied Middle Income restricted Unit, or pay to the City an in-lieu fee equal to five percent (5%) of the in-lieu fee specified by Section 28.43.070B herein, multiplied by the total number of dwelling units of the Residential Development; provided, however, that for those Residential Developments which are not a condominium conversion project (as defined by SBMC Chapter 28.88) and which propose to construct two (2) to four (4) dwelling units, the required in-lieu fee shall equal five percent (5%) of the in-lieu fee specified by Section 28.43.070B herein multiplied by the number of units in the Residential Development which exceed one dwelling unit.

B. RESIDENTIAL LOT SUBDIVISIONS.

1. Subdivisions of Ten or More Parcels. For all Residential Lot Subdivisions where the lots to be approved would permit the eventual development of ten (10) or more Dwelling Units, the Applicant shall pay an in-lieu fee corresponding to fifteen percent (15%) of the number of Dwelling Units that might eventually be built on the lots, or the Applicant may propose an alternative means of compliance with this Chapter pursuant to Section 28.43.080 below.

2. Subdivisions of Less Than Ten Parcels. For all Residential Lot Subdivisions where the real property parcels to be approved would result in the eventual development of less than ten (10) Dwelling Units but more than one (1) Dwelling Unit, the Applicant shall, at the Applicant's election, either provide that one Dwelling Unit will be constructed as an owner-occupied Middle Income Household restricted Unit, or pay an in-lieu fee corresponding to five percent (5%) of the in-lieu fee specified by Section 28.43.070B multiplied by the number of Dwelling Units that might eventually be built as part of the subdivision. At the option of the Applicant, the Applicant may propose an alternative means of compliance with this Chapter pursuant to Section 28.43.080 below.

C. EXISTING DWELLING UNITS. Existing Ownership Units that are to be retained shall be included in the number of units in the Residential Development for purposes of calculating the number of Inclusionary Units required under this Section; however, the number of such existing units to be included in the calculation shall not exceed the number of proposed new Ownership Units to be added.

D. DENSITY BONUS UNITS. Any additional owner-occupied units authorized and approved as a density bonus under the City’s Affordable Housing Policies and Procedures will not be counted in determining the required number of Inclusionary Units.

E. ROUNDING. In determining the number of Inclusionary Units required by this Section, any decimal fraction less than 0.5 shall be rounded down to the nearest whole number, and any decimal fraction of 0.5 or more shall be rounded up to the nearest whole number.

F. PRICE LIMITS FOR INCLUSIONARY UNITS. Inclusionary Units must be restricted for sale at affordable prices as follows:

1. Except as provided in the following subsections, Inclusionary Units must be restricted to and sold at prices affordable to Middle Income Households, calculated according to procedure specified in the City’s Affordable Housing Policies and Procedures [applicable as of the date of Planning Commission’s approval] using a Target Income of one hundred twenty percent (120%) of the then current Area Median Income.

2. The Community Development Director may approve a Target Income of one hundred thirty percent (130%) of Area Median Income for Inclusionary Units built as duplexes, or exceptionally large condominiums, in accordance with the City’s Affordable Housing Policies and Procedures.

(Ord. 5380, 2005; Ord. 5310, 2004.)
3. Inclusionary Units built as detached single family homes, each on its own separate lot, must be restricted to and sold at prices affordable to Upper-Middle Income Households, with sale prices calculated according to the procedure specified in the City’s Affordable Housing Policies and Procedures using a Target Income of one hundred sixty percent (160%) of Area Median Income.

4. Nothing herein shall preclude an Applicant/Owner from voluntarily agreeing to restrict the Inclusionary Units for sale to very-low, low or moderate income households at the Target Incomes specified for such income categories in the City’s Affordable Housing Policies and Procedures.

G. COMBINING RESIDENTIAL DEVELOPMENTS. If two proposed Residential Developments that share a common boundary are under development review by the City simultaneously, such developments will be treated under this Chapter as if they were combined for purposes of determining the number of Inclusionary Units or Inclusionary Lots required under this Chapter, provided they are proposed by the same Applicant or by joint Applicants which share a substantial legal commonality of ownership and control. Applicants which are related partnerships or corporations will be deemed to share a substantial commonality of ownership and control if more than sixty percent (60%) of the natural persons who are general partners are the same for each partnership or, in the case of corporate ownership, the applicant individual or entity controls sixty percent (60%) of more of the voting stock or shares of each corporation. (Ord. 5488, 2009; Ord. 5310, 2004.)

28.43.040 Exemptions.

A. PROJECTS EXEMPTED FROM INCLUSIONARY REQUIREMENTS. The requirements of this Chapter shall not apply to the following types of development projects:

1. **Rental Units.** A project constructing Dwelling Units which may not be separately owned, transferred, or conveyed under the state Subdivision Map Act.

2. **Casualty Reconstruction Projects.** The reconstruction of any residential units or structures which have been destroyed by fire, flood, earthquake or other act of nature, which are being reconstructed in a manner consistent with the requirements of Santa Barbara Municipal Code Section 28.87.038.

3. **Voluntarily Affordable Projects.** Residential Developments which propose that not less than thirty percent (30%) of the units of the development will be deed restricted for occupancy by families qualifying as Upper Middle Income (or lower income) households pursuant to and in accordance with the City's Affordable Housing Policies and Procedures.

4. **Employer-Sponsored Housing Projects.** Employer-Sponsored Housing Projects developed in accordance with the Average Unit-Size Density Incentive Program of SBMC Chapter 28.20. (Ord. 5630, 2013; Ord. 5488, 2009; Ord. 5310, 2004.)

28.43.050 Incentives for On-Site Housing.

A. PROVIDING UNITS ON-SITE. An Applicant for a Residential Development of ten or more dwelling units who elects to satisfy the inclusionary housing requirements of this Chapter by producing owner-occupied Inclusionary Housing units on the site of a Residential Development shall be entitled to a density bonus for the number of Inclusionary Units to be provided on-site, in accordance with the City’s density bonus program for owner-occupied units as described in the City’s Affordable Housing Policies and Procedures without the need for the Applicant to separately apply for a lot area modification for the density bonus.

B. USE OF ZONING ORDINANCE MODIFICATIONS. The City may provide modifications in zoning requirements that will facilitate increased density for the purpose of accomplishing the goals of this Chapter, including modifications to parking, setback, yard area, open space and solar access requirements as specified in Section 28.92.110 of this Municipal Code. (Ord. 5488, 2009; Ord. 5380, 2005; Ord. 5310, 2004.)

28.43.060 Affordable Housing Standards.

A. CONSTRUCTION STANDARDS FOR INCLUSIONARY UNITS. Inclusionary Units built under this Chapter must conform to the following standards:

1. **Design.** Except as otherwise provided in this Chapter, Inclusionary Units must be dispersed evenly throughout a Residential Development and must be comparable in construction quality and exterior design to the Market-Rate Units constructed as part of the Development. Inclusionary Units may be smaller in aggregate size and may have different interior finishes and features than Market-Rate Units so long as the interior features are durable, of good quality and consistent with contemporary standards for new housing.

2. **Size.** The average number of bedrooms in the Inclusionary Units must equal or exceed the average number of bedrooms in the Market-Rate Units of the Development. Absent a waiver from the Community Development Director, two-bedroom Inclusionary Units shall generally have at least one and one-half bathrooms, and three-bedroom Inclusionary Units shall generally have at least two bathrooms. However, the required number of bathrooms shall not be greater than the number of bathrooms in the Market-Rate Units. The minimum Unit Size of each Inclusionary Unit shall be in conformance with the City’s Affordable Housing Policies and Procedures.

3. **Timing of Construction.** All Inclusionary Units must be constructed and occupied concurrently with or prior to the construction and occupancy of Market-Rate Units of the Development. In phased developments, Inclusionary Units may be constructed and occupied in proportion to the number of units in each phase of the Residential Development.
4. **Duration of Affordability Requirement.** Inclusionary Units produced under this Chapter must be legally restricted to occupancy by Households of the income levels for which the units were designated pursuant to and in conformance with the City’s Affordable Housing Policies and Procedures. (Ord. 5310, 2004.)

**28.43.070 In-Lieu Fees.**

A. **PAYMENT OF IN-LIEU FEE TO CITY.** The requirements of this Chapter may also be satisfied by paying an in-lieu fee to the City for deposit into the City’s Affordable Housing Inclusionary Fund as such fund is provided for in Section 28.43.130.

B. **CALCULATION OF IN-LIEU FEE.** The in-lieu fee for each required Inclusionary Unit that is not constructed on-site will be calculated as of the date of Planning Commission final approval in a manner sufficient to make up the monetary difference between the following: 1. the Estimated Production Cost of a two-bedroom condominium unit in the City as defined in this Section, and 2. the price of a two-bedroom dwelling unit affordable to a Low-Income Household calculated according to the procedure specified in the City’s Affordable Housing Policies and Procedures for a two-bedroom unit. The target income for this calculation shall be seventy percent (70%) of Area Median Income, and the housing-cost-to-income ratio for this calculation shall be thirty percent (30%). The Estimated Production Cost shall be deemed to be the median sale price of two-bedroom condominium units in the City less a fifteen percent (15%) adjustment to reflect an Applicant/Developer’s anticipated profit. The median sale price of two-bedroom condominium units in the City shall be established by the City Council, based on data provided by the Santa Barbara Association of Realtors or other source selected by the City Council, for sales during the four most recent calendar quarters prior to the calculation. The City Council may annually review the median sale price of two-bedroom condominium units in the City, and may, based on that review, adjust the in-lieu fee amount.

As of the date of the adoption of this Chapter, the median sale price of two-bedroom condominium units in the City for the four most recent calendar quarters was $500,000, the Estimated Production Cost was $425,000, the Area Median Income was $64,700, the price of a two-bedroom dwelling unit affordable to a Low-Income Household was $115,000, and the in-lieu fee based on the above calculation was $310,000.

C. **PRORATING.** If the calculation for the required number of Inclusionary Units as provided in Section 28.43.030 results in a fraction of a unit, the amount of in-lieu fee for such fractional unit shall be prorated.

D. **REDUCTION OF IN-LIEU FEE FOR SMALLER UNITS.** For Residential Developments, the amount of the in-lieu fee shall be reduced where the average Unit Size of the Market-Rate Units is less than 1700 square feet, according to the following:

1. If the average Unit Size of the Market-Rate Units is between 1,400 and 1,699 square feet, the in-lieu fee shall be reduced by fifteen percent (15%).
2. If the average Unit Size of the Market-Rate Units is between 1,100 and 1,399 square feet, the in-lieu fee shall be reduced by twenty percent (20%).
3. If the average Unit Size of the Market-Rate Units is between 800 and 1,099 square feet, the in-lieu fee shall be reduced by twenty-five percent (25%).
4. If the average Unit Size of the Market-Rate Units is below 800 square feet, the in-lieu fee shall be reduced by thirty percent (30%).

E. **TIMING OF PAYMENT OF IN-LIEU FEE.** The timing of payment of the in-lieu fee varies according to the type of development and the number of units to be developed, as follows:

1. **New Construction of Five or More Units.** For new construction of five or more dwelling units, the in-lieu fee shall be paid prior to the issuance of a building permit for the Development; for phased-construction developments, payment of the applicable in-lieu fees shall be made for each portion of the Development prior to the issuance of a building permit for that phase of the Development. In the event that the Applicant/Developer intends to pay the in-lieu fee from proceeds of a bank construction loan, and such bank requires the issuance of a building permit prior to funding the construction loan, the Applicant/Developer may request that the Community Development Director issue the building permit prior to payment of the fee. The Community Development Director may approve such request provided the Applicant/Developer agrees in writing that the fee will be paid within ten (10) days after the issuance of the building permit, and further agrees that the building permit will be deemed revoked by the City and work undertaken pursuant to the building permit stopped if the in-lieu fee is not paid within such ten-day period.
2. **Condominium Conversions.** For condominium conversions, payment of the in-lieu fee shall be made prior to recordation of the Final Subdivision Map.
3. **Residential Lot Subdivisions.** For Residential Lot Subdivisions, payment of the in-lieu fee shall be made prior to recordation of the Final Subdivision Map.
4. **Residential Developments of Four Units or Less.** For Residential Developments of four units or less which are subject to this Chapter and which elect to pay an in-lieu fee under the requirements of this Chapter, the in-lieu fees shall be paid to the City prior to the issuance of a Certificate of Occupancy by the Chief Building Official of the City.
5. **DELAYED PAYMENT.** When payment is delayed, in the event of default, or for any other reason, the amount of the in-lieu fee payable under this Section will be based upon the greater of the fee schedule in effect at the time the fee is paid or the fee schedule in effect at the time of Planning Commission approval. (Ord. 5488, 2009; Ord. 5310, 2004.)
28.43.080 Alternative Methods of Compliance.

A. ALTERNATIVE METHODS OF COMPLIANCE - APPLICANT PROPOSALS. An Applicant, at the Applicant’s option, may propose an alternative means of compliance with this Chapter by submitting to the City an Inclusionary Housing Plan prepared in accordance with the following alternative compliance provisions:

1. Off-Site Construction. All or some of the required Inclusionary Units may be constructed off-site if the Planning Commission (or the City Council on appeal) finds that the combination of location, unit size, unit type, pricing, and timing of availability of the proposed off-site Inclusionary Units would provide equivalent or greater benefit than would result from providing those Inclusionary Units on-site as might otherwise be required by this Chapter. Prior to the recordation of the Final Subdivision Map for the Residential Development subject to the inclusionary requirements of this Chapter, the Applicant shall post a bond, bank letter of credit, or other security acceptable to the Community Development Director, in the amount of the in-lieu fee per Section 28.43.070, which the City may call and may deposit in the Affordable Housing Inclusionary Fund and may spend in accordance with the terms of that Fund in the event that the off-site inclusionary units are not completed (as evidenced by the issuance of a certificate of occupancy for such units) according to the schedule stated in the Inclusionary Housing Plan submitted by the Applicant and prior to the completion and occupancy of the Residential Development.

2. Dedication of Land For Affordable Housing Purposes. In lieu of building Inclusionary Units on or off-site or the payment of in-lieu fees, an Applicant may choose to dedicate land to the City [or a City-designated non-profit housing developer] under circumstances where the land is suitable for the construction of Inclusionary Units and under circumstances which the Planning Commission (or the City Council on appeal) reasonably has determined to be of equivalent or greater value than would be produced by applying the City’s current in-lieu fee to the Applicant’s inclusionary housing obligation.

3. Combination of Approaches. The Planning Commission (or the City Council on appeal) may accept any combination of on-site construction, off-site construction, in-lieu fees and land dedication which, in the Planning Commission’s or City Council’s determination, would provide equivalent or greater benefit than that which might result from providing Inclusionary Units on-site.

B. DISCRETION OF PLANNING COMMISSION OR CITY COUNCIL. The Planning Commission (or the City Council on appeal) may approve, conditionally approve or reject any alternative proposed by an Applicant as part of an Affordable Housing Plan. Any approval or conditional approval must be based on a finding that the purposes of this Chapter would be better served by implementation of the proposed alternative. In determining whether the purposes of this Chapter would be better served under the proposed alternative, the Planning Commission (or the City Council on appeal) should consider the extent to which other factors affect the feasibility of prompt construction of the Inclusionary Housing Units, such as site design, zoning, infrastructure, clear title, grading and environmental review. (Ord. 5310, 2004.)

28.43.090 Inclusionary Housing Plan Processing.

A. GENERALLY. The submittal of an Inclusionary Housing Plan and recordation of an approved City affordability control covenant shall be a pre-condition on the City approval of any Final Subdivision Map, and no building permit shall be issued for any Development to which this Chapter applies without full compliance with the provision of this Section. This Section shall not apply to exempt projects or to projects where the requirements of this Chapter are satisfied by payment of an in-lieu fee under Section 28.43.070.

B. INCLUSIONARY HOUSING PLAN. Every residential development to which this Chapter applies shall include an Inclusionary Housing Plan as part of the application submittal for either development plan approval or subdivision approval. No application for a tentative map, subdivision map, or building permit for a development to which this Chapter applies may be deemed complete until an Inclusionary Housing Plan is submitted to and approved by the Community Development Director as being complete. At any time during the formal development review process, the Community Development Director may require from the Applicant additional information reasonably necessary to clarify and supplement the application or determine the consistency of the Project’s proposed Inclusionary Housing Plan with the requirements of this Chapter.

C. REQUIRED PLAN ELEMENTS. An Inclusionary Housing Plan must include the following elements or submittal requirements:

1. The number, location, structure (attached, semi-attached, or detached), and size of the proposed Market-Rate and Inclusionary Units and the basis for calculating the number of Inclusionary Units;
2. A floor or site plan depicting the location of the Inclusionary Units and the Market-Rate Units;
3. The income levels to which each Inclusionary Unit will be made affordable;
4. The methods to be used to advertise the availability of the Inclusionary Units and select the eligible purchasers, including preference to be given, if any, to applicants who live or work in the City in conformance with the City’s Affordable Housing Policies and Procedures;
5. For phased Development, a phasing plan that provides for the timely development of the number of Inclusionary Units proportionate to each proposed phase of development as required by Section 28.43.060.A.3 of this Chapter;
6. A description of any modifications as listed in Section 28.92.110 that are requested of the City;
7. Any alternative means designated in Section 28.43.080.A proposed for the Development along with information necessary to support the findings required by Section 28.43.080.B for approval of such alternatives; and
8. Any other information reasonably requested by the Community Development Director to assist with evaluation of the Plan under the standards of this Chapter.

D. AFFORDABILITY CONTROL COVENANTS. Prior to issuance of a grading permit or building permit, whichever is requested first, a standard City affordability control covenant must be approved and executed by the Community Development Director, executed by the Applicant/Owners, and recorded against the title of each Inclusionary Unit. If subdivision into individual property parcels has not been finalized at the time of issuance of a grading permit or building permit, an overall interim affordability control covenant shall be recorded against the Residential Development, and shall be replaced by separate recorded affordability control covenants for each unit prior to issuance of a Certificate of Occupancy by the City for such units. (Ord. 5310, 2004.)

28.43.100 Eligibility for Inclusionary Units.

A. GENERAL ELIGIBILITY FOR INCLUSIONARY UNITS. No Household may purchase or occupy an Inclusionary Unit unless the City has approved the Household’s eligibility, and the Household and City have executed and recorded an affordability control covenant in the chain of title of the Inclusionary Unit. Such affordability control covenant is in addition to the covenant required in Section 28.43.090 above. The eligibility of the purchasing household shall be established in accordance with the City’s Affordable Housing Policies and Procedures and any additional eligibility requirements agreed upon in writing by the Applicant and the City.

B. OWNER OCCUPANCY. A Household which purchases an Inclusionary Unit must occupy that unit as a principal residence, as that term is defined for federal tax purposes by the United States Internal Revenue Code. (Ord. 5310, 2004.)

28.43.110 Owner-Occupied Units; Sales Price; Long-Term Restriction.

A. INITIAL SALES PRICE. The initial sales price of an Inclusionary Unit must be set in accordance with the City’s Affordable Housing Policies and Procedures, using the Target Income requirements specified in this Chapter.

B. TRANSFERS AND CONVEYANCES. A renewal of the affordability controls covenant will be entered into upon each change of ownership of an Inclusionary Unit and upon any transfer or conveyance (whether voluntarily or by operation of law) of an owner-occupied Inclusionary Unit as such covenants are required in accordance with the City’s Affordable Housing Policies and Procedures.

C. RESALE PRICE. The maximum sales price and qualifications of purchasers permitted on resale of an Inclusionary Unit shall be specified in the affordability control covenant and shall be in conformance with the City’s then approved and applicable Affordable Housing Policies and Procedures. (Ord. 5310, 2004.)

28.43.120 Adjustments and Waivers.

A. ADJUSTMENTS AND WAIVERS. The requirements of this Chapter may be adjusted to propose an alternative method of compliance with this Chapter in accordance with Section 28.43.080 or waived (in whole or in part) by the City if the Applicant demonstrates to the Planning Commission (or the City Council on appeal) that applying the requirement of this Chapter would be contrary to the requirements of the laws of the United States or California or the Constitutions thereof.

B. TIMING OF WAIVER REQUEST. To receive an adjustment or waiver, the Applicant must make an initial request of the Planning Commission for such an adjustment or waiver and an appropriate demonstration of the appropriateness of the adjustment or waiver when first applying to the Planning Commission for the review and approval of the proposed Residential Development development plan or subdivision review as such review and approval is required by either Title 28 or Title 27 of the Santa Barbara Municipal Code.

C. WAIVER AND ADJUSTMENT CONSIDERATIONS. In making a determination on an application to adjust or waive the requirements of this Chapter, the Planning Commission (or the City Council on appeal) may assume each of the following when applicable: (i) that the Applicant is subject to the inclusionary housing requirement or in-lieu fee; (ii) the extent to which the Applicant will benefit from inclusionary incentives under Section 28.43.050; and (iii) that the Applicant will be obligated to provide the most economical Inclusionary Units feasible in terms of construction, design, location and tenure.

D. WRITTEN DECISION. The Planning Commission (or the City Council on appeal) will determine the application and issue written findings and a decision within sixty (60) days of the public hearing on the Adjustment/Waiver Request.

E. APPEAL TO THE CITY COUNCIL. Upon a decision by the Planning Commission on the proposed overall residential development plan, any action taken by the Commission made pursuant to a request for an adjustment for an alternative method of compliance under Section 28.43.080, or for a waiver pursuant to this Section, may be appealed to the City Council in accordance with the appeal procedures of Santa Barbara Municipal Code Section 1.30.050. (Ord. 5310, 2004.)
A. **INCLUSIONARY FUND.** There is hereby established a separate City Affordable Housing Inclusionary Fund (“Fund”) maintained by the City Finance Director. This Fund shall receive all fees contributed under Sections 28.43.070 and 28.43.080 and may, at the discretion of the City Administrator, also receive monies from other sources.

B. **PURPOSE AND LIMITATIONS.** Monies deposited in the Fund must be used to increase and improve the supply of housing affordable to Upper-Middle, Middle, Moderate-, Low-, and Very Low-Income Households in the City and to ensure compliance of such Households with the City's Affordable Housing Policies and Procedures. Monies may also be used to cover reasonable administrative or related expenses associated with the administration of this Section, including, but not limited to, the City's purchase and resale of affordable housing units that are in default of the affordable control covenant recorded against that property, provided that the City shall, at all times, comply with the applicable provisions and requirements of the state Mitigation Fee Act, Govt. Code Sections 66000 - 66025.

C. **ADMINISTRATION.** The Fund shall be administered by the Community Development Director, who may develop procedures to implement the purposes of the Fund consistent with the requirements of this Chapter and any adopted budget of the City.

D. **EXPENDITURES.** Fund monies shall be used in accordance with the City’s Housing Element, Redevelopment Plan, the City's Affordable Housing Policies and Procedures, or subsequent plan adopted by the City Council to construct, rehabilitate or subsidize affordable housing or assist other governmental entities, private organizations or individuals to do so. Permissible uses include, but are not limited to, assistance to housing development corporations, equity participation loans, grants, pre-home ownership co-investment, pre-development loan funds, participation leases or other public-private partnership arrangements. The Fund may be used for the benefit of both rental and owner-occupied housing in accordance with the applicable requirements of the state Mitigation Fee Act, Govt. Code Sections 66000 - 66025.

E. **COMMUNITY DEVELOPMENT DIRECTOR’S ANNUAL REPORT.** The Community Development Director, with the assistance of the City Finance Director, shall report annually to the City Council on the status of activities undertaken with the Fund. The report shall include a statement of income, expenses, disbursements and other uses of the Fund. The report should also state the number and type of Inclusionary Units constructed during that year. (Ord. 5488, 2009; Ord. 5310, 2004.)
Chapter 28.44
COASTAL OVERLAY ZONE – S-D-3 ZONE DESIGNATION

Sections:
28.44.010 Legislative Intent.
28.44.020 Location.
28.44.030 Compliance.
28.44.040 Definitions.
28.44.050 Application for Development.
28.44.060 Permit Required.
28.44.070 Exclusions and Exemptions.
28.44.080 Record of Categorical Exclusion Determinations.
28.44.100 Permit for Emergency Work.
28.44.110 Authority to Review.
28.44.120 Public Hearing.
28.44.130 Notice.
28.44.140 Notice When Hearing is Continued.
28.44.150 Findings.
28.44.160 Suspensions and Appeals.
28.44.170 Finality of City Action.
28.44.180 Notice of Final Action by the City.
28.44.190 Effective Date of City Final Action on Appealable Items.
28.44.200 Appeals to the Coastal Commission.
28.44.220 Development Within Coastal Commission Permit Jurisdiction.
28.44.230 Time for Commencement of Approved Development; Extensions.
28.44.240 Amendments to Coastal Development Permits.
28.44.250 General Provisions.

28.44.010 Legislative Intent.

The Coastal Overlay Zone is established for the purpose of implementing the Coastal Act of 1976 (Division 20 of the California Public Resources Code) and to insure that all public and private development in the Coastal Zone of the City of Santa Barbara is consistent with the City's Certified Local Coastal Program and the Coastal Act.  
(Ord. 5417, 2007.)

28.44.020 Location.

The S-D-3 Zone is applied to the "Coastal Zone" which is defined as generally all of the land 1,000 yards from the mean high tide line as established by the Coastal Act of 1976 and as it may subsequently be amended, which lies within the City of Santa Barbara (including the Santa Barbara Municipal Airport and Goleta).  
(Ord. 5417, 2007.)

28.44.030 Compliance.

Any person (including the City, any utility, any federal, state or local government, or special district or any agency thereof) wishing to perform or undertake any development within the Coastal Overlay Zone of the City of Santa Barbara shall comply with the provisions of this Chapter 28.44.  If there is a conflict between a provision of the City of Santa Barbara Local Coastal Program (including the Land Use Plan and the Coastal Overlay Zone Ordinance) and a provision of the General Plan or any other City-adopted plan, resolution or ordinance not included in the City of Santa Barbara Local Coastal Program, and it is not possible for the proposed development to comply with both the Local Coastal Program and such other plan, resolution or ordinance, the Local Coastal Program shall take precedence and the development shall not be approved unless it complies with the Local Coastal Program provision.  
(Ord. 5417, 2007.)

28.44.040 Definitions.

For the purposes of this Chapter 28.44, the following words and phrases shall be construed as set forth below in this Section 28.44.040 unless it is apparent from the context that a different meaning is intended:

A. ACCESS.
   1. Lateral. An area of land providing public access along the water's edge.
   2. Vertical. An area of land providing a connection between the first public road or use area nearest the sea and the publicly-owned tidelands or established lateral access way.

B. AGGRIEVED PERSON. Any person who, in person or through a representative, appeared at a public hearing of the City in connection with the decision or action appealed, or who, by other appropriate means prior to the hearing, informed the City of the nature of his concerns or who for good cause was unable to do either.

C. APPEALABLE DEVELOPMENT.
   1. Developments approved by the City between the sea and the first public road paralleling the sea or within 300 feet of the inland extent of any beach or of the mean high tide line of the sea where there is no beach, whichever is the greater distance.
2. Developments approved by the City not included within Paragraph 1 above located on tidelands, submerged lands, public trust lands, within 100 feet of any wetland, estuary, stream, or within 300 feet of the top of the seaward face of any coastal bluff.

3. Any development which constitutes a major public works project or a major energy facility. The Post-LCP Certification Permit and Appeal Jurisdiction Map, City of Santa Barbara, has been prepared to show where the California Coastal Commission retains permit and appeal jurisdiction pursuant to Public Resources Code Sections 30519(b), 30603(a)(1) and (a)(2) and 30600.5(d). In addition, development may also be appealable pursuant to Public Resources Code Sections 30603(a)(3), (a)(4), and (a)(5). If questions arise concerning the precise location of the boundary of any appealable area, the matter should be referred to the City of Santa Barbara and/or the Executive Director of the California Coastal Commission for clarification and information. The Post-LCP Certification Permit and Appeal Jurisdiction Map may be updated as appropriate and may not include all lands where post-LCP certification permit and appeal jurisdiction is retained by the Commission.

D. APPLICANT. The person, partnership, corporation or state or local government agency applying for a coastal development permit.

E. COASTAL COMMISSION. California Coastal Commission.

F. COASTAL DEVELOPMENT PERMIT. A permit for any development within the coastal zone that is required pursuant to subdivision (a) of Section 30600 of the California Public Resources Code and issued by the City in accordance with the provisions of this Section.

G. COASTAL ZONE. That land and water area of the City of Santa Barbara extending seaward to the State's outer limit of jurisdiction and extending inland to the boundary shown on the official Zoning Maps for the S-D-3 Coastal Overlay Zone, as amended from time to time and adopted by the Coastal Commission.

H. DEVELOPMENT. On land, in or under water, the placement or erection of any solid material or structure; discharge or disposal of any dredged material or of any gaseous, liquid, solid, or thermal waste; grading, removing, dredging, mining, or extraction of any materials; change in the density or intensity of use of land, including, but not limited to, subdivision pursuant to the Subdivision Map Act (commencing with Section 66410 of the Government Code), and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition or alteration of the size of any structure, including any facility of any private, public or municipal utility; and the removal or harvesting of major vegetation other than for agricultural purposes, kelp harvesting and timber operations which are in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511).

I. ENERGY FACILITY. Any public or private processing, producing, generating, storing, transmitting or recovering facility for electricity, natural gas, petroleum, coal or other source of energy.

J. ENVIRONMENTALLY SENSITIVE AREA. Any area in which plant or animal life or their habitats are either rare or especially valuable because of their special nature or role in an ecosystem and which could be easily disturbed or degraded by human activities and developments.

K. FEASIBLE. Capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors.

L. FILL. Earth or any other substance or material, including pilings placed for the purposes of erecting structures thereon, placed in a submerged area.

M. LAND USE PLAN. Maps and a text which indicate the kinds, location and intensity of land uses allowed in the Coastal Zone and includes resources protection and development policies related to those uses.

N. LOCAL COASTAL PROGRAM. The City's land use plan, zoning ordinances, zoning maps and other implementing actions certified by the Coastal Commission as meeting the requirements of the California Coastal Act of 1976.

O. MAJOR PUBLIC WORKS PROJECT OR MAJOR ENERGY FACILITY.

1. “Major public works” and “Major energy facilities” mean facilities that cost more than one hundred thousand dollars ($100,000) with an automatic annual increase every year following the baseline of one hundred thousand dollars in 1983 in accordance with the Engineering News Record Construction Cost Index, except for those facilities governed by the provisions of Public Resources Code Sections 30610, 30610.5, 30611 or 30624.

2. Notwithstanding the criteria in Paragraph 1 above, “major public works” also means publicly-financed recreational facilities that serve, affect, or otherwise impact regional or statewide use of the coast by increasing or decreasing public recreational opportunities or facilities.

P. NATURAL DISASTER. Any situation in which the force or forces which destroyed the structure to be replaced were beyond the control of the owner.

Q. OCEAN-DEPENDENT DEVELOPMENT OR USE. Any development or use which requires a site on, or adjacent to, the sea to be able to function at all.

R. OCEAN-RELATED DEVELOPMENT OR USE. Any development or use which is dependent on an ocean-dependent development or use.

S. OTHER PERMITS AND APPROVALS. Permits and approvals, other than a coastal development permit, required to be issued by the approving authority before a development may proceed.

T. PERSON. Any individual, organization, partnership, limited liability company, or other business association or corporation, including any utility, and any federal, state or local government, special district, or an agency thereof.
U. PUBLIC WORKS PROJECT. Any of the following development shall constitute a public works project:
1. All production, storage, transmission and recovery facilities for water, sewage, telephone and other similar utilities owned or operated by any public agency or by any utility subject to the jurisdiction of the Public Utilities Commission, except for energy facilities.
2. All public transportation facilities, including streets, roads, highways, public parking lots and structures, ports, harbors, airports, railroads, and mass transit facilities and stations, bridges, trolley wires, and other related facilities.
3. All publicly-financed recreational facilities, all projects of the State Coastal Conservancy and any development by a special district.
4. All community college facilities.

V. SEA. The Pacific Ocean and all harbors, bays, channels, estuaries, salt marshes, sloughs and other areas subject to tidal action through any connection with the Pacific Ocean, excluding non-estuarine rivers, streams, tributaries, creeks and flood control and drainage channels.

W. STRUCTURE. Anything constructed or erected, the use of which requires location on the ground or attachment to something having location on the ground. As used in this section, "structure" includes, but is not limited to, any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electrical power transmission and distribution line.

X. VISITOR-SERVING DEVELOPMENT OR USE. Stores, shops, businesses, temporary lodging and recreational facilities (both public and private) which provide accommodations, food and services for the traveling public, including, but not limited to, hotels, motels, campgrounds, parks, nature preserves, restaurants, specialty shops, art galleries and commercial recreational development such as shopping, eating and amusement areas.

Y. WETLAND. Lands within the Coastal Zone which may be covered periodically or permanently with shallow water and include saltwater marshes, freshwater marshes, open or closed brackish water marshes, swamps, mudflats and fens.

Z. WORKING DAY. Any day on which all City offices are open for business. (Ord. 5417, 2007.)

28.44.050 Application for Development.

A. APPLICATION. Except for development involving emergency work subject to the provisions of Section 28.44.100, an application for a coastal development permit shall be submitted prior to the commencement of any development within the Coastal Zone. The application for the coastal development permit shall be filed prior to or concurrent with other necessary City permits or approvals for said development. Such application shall be submitted to the Community Development Department and shall be accompanied by such filing fee as established by the City Council. The Community Development Department shall provide a written handout explaining the requirements for a completed coastal development application. The Community Development Department shall take the following actions:
1. Determine if the proposed project requires a coastal development permit and, if so, determine the category of permit for the project in accordance with this Chapter.
2. File the application and provide notice of action on the application in accordance with this Chapter.
3. For those projects requiring a public hearing, prepare and transmit a staff report and recommendation regarding the application to the Planning Commission or Staff Hearing Officer.

B. DETERMINATION OF APPLICABLE NOTICE AND HEARING PROCEDURES.
The determination of whether a development is categorically excluded, non-appealable or appealable for purposes of notice, hearing and appeals procedures shall be made by the Community Development Department at the time the application for the coastal development permit is submitted. This determination shall be made with reference to the certified Local Coastal Program, including any maps, categorical exclusions, land use designations and zoning laws which are adopted as part of the Local Coastal Program. Where an applicant, interested person, or the Community Development Department has a question as to the appropriate designation for the development, the following procedures shall establish whether a development is categorically excluded, non-appealable or appealable:
1. The Community Development Department shall make its determination as to what type of development is being proposed (i.e. categorically excluded, non-appealable or appealable) and shall inform the applicant of the notice and hearing requirements for that particular development.
2. If the determination of the Community Development Department is challenged by the applicant or an interested person, or if the City wishes to have a Commission determination as to the appropriate designation, the City shall notify the Coastal Commission by telephone of the dispute/question and shall request an opinion from the Executive Director of the Coastal Commission.
3. The Executive Director shall, within two (2) working days of the City's request (or upon completion of a site inspection where such inspection is warranted), transmit the determination as to whether the development is categorically excluded, non-appealable or appealable.
4. Where, after the Executive Director's investigation, the Executive Director's determination is not in accordance with the City determination, the Coastal Commission shall hold a hearing for purposes of determining the appropriate designation for the area. The Coastal Commission shall schedule the hearing on the determination for the next meeting (in the appropriate geographic region of the state) following the City's request. (Ord. 5417, 2007.)
**28.44.060 Permit Required.**

In addition to any other permits or approvals required by the City, a coastal development permit shall be required prior to commencement of any development in the coastal zone of the City, unless the development involves emergency work subject to the provisions of Section 28.44.100 or the development is subject to one of the exclusions or exemptions specified in Section 28.44.070. (Ord. 5417, 2007.)

**28.44.070 Exclusions and Exemptions.**

The following categories of development, through Subsection C, are categorically excluded from the coastal development permit requirements of this Chapter 28.44 pursuant to Categorical Exclusion Order E-86-03 as amended by Categorical Exclusion Order E-06-1 and certified by the California Coastal Commission:

A. TIME-SHARE CONVERSION EXCLUSION. Any activity anywhere in the coastal zone that involves the conversion of any existing multiple-unit residential structure to a time-share project, estate, or use, as defined in Section 783 of the Civil Code, shall not be considered a time-share project, estate, or use for purposes of this subdivision.

B. VESTED RIGHTS EXCLUSION. Any development which, on the effective date of this subsection, has a valid approval from the Coastal Commission shall be considered to have a vested right until such time as said approval expires or lapses; provided, however, that no substantial change may be made in any such development without prior Coastal Commission and City approval having been obtained by the developer.

C. SINGLE FAMILY RESIDENCE EXCLUSIONS.

1. Construction of one (1) single family residence on an existing vacant parcel in the area designated as Non-Appealable on the Post-LCP Certification Permit and Appeal Jurisdiction Map, City of Santa Barbara.

2. Demolition and reconstruction of an existing single family residence in the area designated as Non-Appealable on the Post-LCP Certification Permit and Appeal Jurisdiction Map, City of Santa Barbara. Notwithstanding the exclusion specified in this paragraph, if an application for demolition and reconstruction of an existing single family residence is submitted for a lot that either: (1) contains a City Landmark or Structure of Merit, (2) contains or is within 100 feet of archeological or paleontological resources, or (3) contains or is within 100 feet of an environmentally sensitive habitat area, stream, wetland, marsh, or estuary, regardless of whether such resources are mapped or unmapped, then the application shall require a coastal development permit.

The following categories of development, through the end of this Section 28.44.070, are exempt from the coastal development permit requirements of this Chapter 28.44 pursuant to Section 30610 of the Public Resource Code and Sections 13250-13253 of Title 14 of the California Administrative Code.

D. SINGLE FAMILY RESIDENCE EXEMPTION. Improvements to existing single family residences; provided, however, that those improvements which involve a risk of adverse environmental effect shall require a coastal development permit, as provided in Section 13250 of Title 14 of the California Administrative Code, as amended from time to time.

E. OTHER CONSTRUCTION EXEMPTION. Improvements to any structure other than a single family residence or a public works facility; provided, however, that those improvements which involve a risk of adverse environmental effect; or adversely affect public access; or result in a change in use contrary to any policy of the Coastal Act; shall require a coastal development permit, as provided in Section 13252 of Title 14 of the California Administrative Code, as amended from time to time.

F. MAINTENANCE OF NAVIGATION CHANNEL EXEMPTION. Maintenance dredging of existing navigation channels or moving dredged material from such channels to a disposal area outside the Coastal Zone, pursuant to a permit from the United States Army Corps of Engineers.

G. REPAIR OR MAINTENANCE EXEMPTION. Repair or maintenance activities that do not result in an addition to, or enlargement or expansion of the object of such repair or maintenance activity; provided, however, that extraordinary methods of repair and maintenance that involve a risk of substantial adverse environmental impact shall require a coastal development permit, as provided in Section 13252 of Title 14 of the California Administrative Code, as amended from time to time.

H. UTILITY CONNECTIONS EXEMPTION. The installation, testing and placement in service or the replacement of any necessary utility connection between an existing service facility and any development approved pursuant to the California Coastal Act of 1976 and this Chapter; provided that the Community Development Director may, where necessary, require reasonable conditions to mitigate any adverse impacts on coastal resources, including scenic resources.

I. REPLACEMENT OF EXISTING STRUCTURES DESTROYED BY NATURAL DISASTER EXEMPTION. The replacement of any structure, other than a public works facility, destroyed by a disaster. The replacement structure shall conform to applicable existing zoning requirements, shall be for the same use as the destroyed structure, shall not exceed either the floor area, height, or bulk of the destroyed structure by more than 10 percent, and shall be sited in the same location on the affected property as the destroyed structure. As used in this Subsection I, the term: 503-3 rev. 6/30/07
1. "Disaster" means any situation in which the force or forces which destroyed the structure to be replaced were beyond the control of its owner.
2. "Bulk" means total interior cubic volume as measured from the exterior surface of the structure.
3. "Structure" includes landscaping and any erosion control structure or device which is similar to that which existed prior to the occurrence of the disaster.

J. TEMPORARY EVENT EXEMPTION.

1. Definitions. For the purposes of this Subsection J, the following words and phrases shall be construed as set forth below:

   a. Exclusive Use. A use that precludes public uses in the area of the temporary event for recreation, beach access or access to coastal waters other than for or through the temporary event itself.
   b. Limited Duration. A period of time that does not exceed a two-week period on a continual basis, or does not exceed a consecutive four-month period on an intermittent basis.
   c. Non-permanent Structure(s). Include, but are not limited to, bleachers, perimeter fencing, vendor tents/canopies, judging stands, trailers, portable toilets, sound/video equipment, stages, booths, platforms, movie/film sets, which do not involve grading or landform alteration for installation.
   d. Temporary Event. An activity or use that constitutes development as defined in Section 30106 of the California Coastal Act; and is an activity or function of limited duration; and involves the placement of non-permanent structures; and/or involves exclusive use of a sandy beach, parkland, filled tidelands, water, streets or parking area which is otherwise open and available for general public use.
   e. Coastal Resources. Include, but are not limited to, public access opportunities, visitor and recreational facilities, water-oriented activities, marine resources, biological resources, environmentally sensitive habitat areas, agricultural lands, and archaeological or paleontological resources.
   f. Sandy Beach Area. Includes publicly-owned and privately-owned sandy areas fronting on coastal waters, regardless of the existence of potential prescriptive rights or a public trust interest.

2. General Rule. Except as provided in Paragraph 4 below, every temporary event is excluded from the coastal development permit requirements under this Chapter 28.44, unless the temporary event meets all of the following criteria:

   a. The event is to be held between Memorial Day weekend and Labor Day, inclusive; and,
   b. The event occupies all or a portion of a sandy beach area; and,
   c. The event involves a charge for general public admission or seating where no fee is currently charged for use of the same area (not including booth or entry fees).

3. Other Exclusions. The Community Development Director may also exclude a temporary event that satisfies all of the criteria specified in Paragraph 2 above, if:

   a. The fee is for preferred seating only and 75% of the provided seating capacity is available free of charge for general public use; or,
   b. The event is held on a sandy beach area in a remote location with minimal demand for public use, and there is no potential for adverse effect on sensitive coastal resources; or,
   c. The event is less than one day in duration; or,
   d. The event has previously received a coastal development permit and will be held in the same location, at a similar season, and for a similar duration, with operating and environmental conditions substantially the same as those associated with the previously-approved event.

4. Special Circumstances. The Community Development Director, or the Planning Commission or City Council through direction to the Community Development Director, may determine that a temporary event shall require a coastal development permit, even if the criteria specified in Paragraph 2 above are not met, if the Community Development Director determines that unique or changing circumstances exist relative to the particular temporary event that have the potential for significant adverse impacts on coastal resources. Such circumstances may include, but shall not be limited to, the following:

   a. The event, either individually or together with other temporary events scheduled before or after the particular event, precludes the general public from use of a public recreational area for a significant period of time;
   b. The event and its associated activities or access requirements will either directly or indirectly impact environmentally sensitive habitat areas, rare or endangered species, significant scenic resources, or other coastal resources as defined in Paragraph 1 above;
   c. The event is scheduled between Memorial Day weekend and Labor Day and would restrict public use of roadways or parking areas or otherwise significantly impact public use or access to coastal waters; or
   d. The event has historically required a coastal development permit to address and monitor associated impacts to coastal resources. (Ord. 5417, 2007.)
28.44.080 Record of Categorical Exclusion Determination.

The Community Development Department shall maintain a record of all determinations made which shall be made available to the Coastal Commission or any interested person upon request. This record must include the applicant's name, the location of the project, a brief description of the project, the site plan, the date upon which the determination was made, and all terms and conditions imposed by the City in granting its approval. Notice of each exclusion determination shall be made to the Coastal Commission within five (5) working days of the determination by the Community Development Department. The City is not required to give the Coastal Commission notice of exemption determinations. (Ord. 5417, 2007.)

28.44.100 Permit for Emergency Work.

The Community Development Director may issue an emergency permit without compliance with the procedures for the issuance of a coastal development permit specified in this Chapter 28.44 in cases of an emergency, as the term emergency is defined in Section 13009 of Title 14 of the California Administrative Code. Where persons or public agencies seek a permit for emergency work pursuant to Section 30624 of the California Public Resources Code or this Section 28.44.100, the following procedures shall apply:

A. APPLICATION. Applications for permits for emergency work shall be made to the Community Development Director by letter or facsimile during business hours if time allows, or by telephone or in person if time does not allow. The information to be reported during the emergency, if it is possible to do so, or to be reported fully in any case after the emergency, shall include the following:
1. The nature of the emergency;
2. The cause of the emergency, insofar as this can be established;
3. The location of the emergency;
4. The remedial, protective, or preventive work required to deal with the emergency;
5. The circumstances during the emergency that appeared to justify the course(s) of action taken, including the probable consequences of failing to take action;
6. The identity of other public agencies alerted to the emergency; and,
7. Access routes to the emergency; and,
8. Any other information deemed necessary by the Community Development Director.

B. VERIFICATION OF EMERGENCY. The Community Development Director shall verify the facts, including the existence and nature of the emergency, insofar as time allows.

C. COORDINATION AND PUBLIC NOTICE. Prior to issuance of an emergency permit, when feasible, the Community Development Director shall notify, and coordinate with, the South Central Coast District Office of the California Coastal Commission as to the nature of the emergency and the scope of the work to be performed. This notification shall be in person or by telephone. The Community Development Director shall provide public notice of the proposed emergency action required by Section 13329.3 of Title 14 of the California Administrative Code, with the extent and type of notice determined on the basis of the nature of the emergency itself.

D. ISSUANCE. The Community Development Director may grant a permit for emergency work upon reasonable terms and conditions, including an expiration date and the requirement for a regular permit application later, if the Community Development Director finds that:
1. An emergency exists and requires action more quickly than permitted by the procedures for ordinary permits, and the development can and will be completed within 30 days unless otherwise specified by the terms of the permit;
2. Public comment on the proposed emergency action has been reviewed if time allows;
3. The work proposed would be consistent with the requirements of the City’s Local Coastal Program and the California Coastal Act of 1976;
4. The work proposed is the minimum action necessary to address the emergency and, to the maximum extent feasible, is the least environmentally damaging temporary alternative for addressing the emergency. This finding shall be made with the maximum information and analysis possible given the expedited review demanded by the emergency situation;
5. The Community Development Director shall not issue an emergency permit for any work that falls within the provisions of Public Resources Code Section 30519(b) since a coastal development permit application for this type of work must be reviewed by the California Coastal Commission pursuant to the provisions of Public Resources Code Sections 30519(b) and 30600(d).

E. FORMAT OF PERMIT. The emergency permit shall be a written document that includes the following information:
1. The date of issuance;
2. An expiration date;
3. The scope of work to be performed;
4. Terms and conditions of the permit. The emergency permit may contain conditions for removal of existing development or structures if they are not authorized in a coastal development permit, or the emergency permit may require that a subsequent coastal development permit must be obtained to authorize the removal of such existing unpermitted development or structures;
5. A provision stating that within ninety (90) days of issuance of the emergency permit, a coastal development permit application shall be submitted and properly filed consistent with the requirements of this Chapter seeking authorization to retain structures erected pursuant to the emergency permit, to remove such structures, or some other alternative;

6. A provision stating that any development or structures constructed pursuant to an emergency permit shall be considered temporary until authorized by a subsequent coastal development permit and that issuance of an emergency permit shall not constitute an entitlement to the erection of permanent development or structures; and

7. A provision that states that the development authorized in the emergency permit must be removed unless a complete application for a coastal development permit is filed within ninety (90) days of approval of the emergency permit. If all or any portion of the application for the coastal development permit seeking authorization for permanent retention of the development authorized pursuant to the emergency permit is denied, the portion of the development that is denied must be removed.

F. NOTICE TO THE PLANNING COMMISSION.

1. The Community Development Director shall report in writing to the Planning Commission at each meeting of the Commission the emergency permits applied for or issued since the last report. The report shall contain a description of the nature of the emergency and the work involved. Copies of this report shall be available at the meeting and shall have been mailed at the time the application summaries and staff recommendations are normally distributed to all persons who have requested such notification in writing. Copies of this report shall also be sent to the South Central Coast District Office of the California Coastal Commission.

2. All emergency permits issued after completion of the agenda for the Planning Commission meeting shall be briefly described by the Community Development Director at the meeting, and the written report required by Paragraph 1 above shall be distributed prior to the next meeting of the Planning Commission.

3. The report of the Community Development Director shall be informational only. The decision to issue an emergency permit is solely at the discretion of the Community Development Director. (Ord. 5417, 2007.)

28.44.110 Authority to Review.

Where a coastal development permit is required pursuant to Section 28.44.060, the authority to review an application for a coastal development permit is designated as follows:

A. APPEALABLE DEVELOPMENT.

1. Planning Commission. The Planning Commission shall review all applications for coastal development permits for proposed development in the appealable area unless authority is granted to the Staff Hearing Officer pursuant to Paragraph 2 below.

2. Staff Hearing Officer. The Staff Hearing Officer shall review applications for coastal development permits for development proposed in the appealable area when:

   a. The proposed development requires another discretionary action by the Staff Hearing Officer under any other provision of this Code; or
   b. The proposed development involves single family residential development unless the proposed development:
      (1) is located less than 50 feet from the edge of any coastal bluff or the inland extent of any beach; or
      (2) is located seaward of the seacliff retreat line as defined in the City of Santa Barbara Coastal Plan; or
      (3) involves an improvement that increases the internal floor area of any structure by more than 500 square feet; or
      (4) involves a second story improvement; or
      (5) requires a discretionary action by the Planning Commission under another provision of this Code.

B. NON-APPEALABLE DEVELOPMENT.

1. Planning Commission. The Planning Commission shall review applications for coastal development permits for development proposed in the non-appealable area when the proposed development requires another discretionary action by the Planning Commission under any other provision of this Code.

2. Staff Hearing Officer. The Staff Hearing Officer shall review applications for coastal development permits for development proposed in the non-appealable area when the proposed development does not require another discretionary action by the Planning Commission under another provision of this Code.
C. SECONDARY DWELLING UNITS. When a proposed development only involves the addition of a secondary dwelling unit to an existing single family residence, the application shall be reviewed by the Staff Hearing Officer without a public hearing in accordance with subdivision (j) of Government Code Section 65852.2. The Staff Hearing Officer shall not issue a decision on the application until at least ten (10) calendar days after notice having been given pursuant to Section 28.44.130. The Staff Hearing Officer may receive written comments regarding the application and consider such written comments during the review of the application, but the Staff Hearing Officer shall not conduct a public hearing on the application. The decision of the Staff Hearing Officer concerning an application for a coastal development permit pursuant to this subsection C shall constitute the final action of the City. In the appealable area, decisions of the Staff Hearing Officer made pursuant to this subsection C may be appealed to the Coastal Commission in accordance with Section 28.44.200. Actions on applications to construct secondary dwelling units shall be consistent with the provisions of the applicable zone and the policies and development standards of the City of Santa Barbara’s certified Local Coastal Program and Chapter 3 of the California Coastal Act. Review of a coastal development permit application for a secondary dwelling unit as an addition to an existing single family residence shall comply with all procedures and development standards of this Chapter, aside from the requirements to conduct a public hearing and City appeals as described in Sections 28.44.120, 28.44.140, and 28.44.160. (Ord. 5417, 2007.)

28.44.120 Public Hearing.

At least one public hearing shall be held on each application requiring a coastal development permit, with the exception of applications that only include the addition of a secondary dwelling unit to an existing single family residence pursuant to Section 28.44.110.C. The Planning Commission or the Staff Hearing Officer, as designated in Section 28.44.110, shall hold the public hearing regarding the coastal development permit concurrently with any other required public hearing or hearings before the reviewing body for any other applications regarding the proposed development. (Ord. 5417, 2007.)

28.44.130 Notice.

A. TIMING AND METHOD. At least ten (10) days prior to the public hearing on the application for a coastal development permit, the Community Development Department shall provide written notice of the public hearing in the following manner:
   1. Notice shall be published in a newspaper of general circulation in the City;
   2. Notice shall be sent by first class mail to any person who has filed a written request therefore;
   3. Notice shall be sent by first class mail to property owners within 300 feet of the exterior boundary of the project parcel;
   4. Notice shall be sent by first class mail to occupants of residences, including apartments, on or within 100 feet of the affected parcel;
   5. Notice shall be sent by first class mail to the Coastal Commission; and
   6. In addition to the required methods of notice above, the Community Development Department may provide for supplemental noticing methods including, but not limited to, posted notice on the project site. However, the failure to receive notice pursuant to any supplemental noticing method shall not constitute a basis for invalidating any action taken on the coastal development permit application.

B. CONTENT. The written notice of the public hearing shall contain all of the following information:
   1. A statement that the development is within the coastal zone;
   2. The date of filing of the application and the name of the applicant;
   3. The permit number assigned to the application;
   4. A description of the development and its proposed location;
   5. The date, time and place at which the application will be heard by the Planning Commission or the Staff Hearing Officer;
   6. A brief description of the general procedure of the Planning Commission or the Staff Hearing Officer concerning the conduct of hearings, submission of public comment either in writing or orally, and local action; and
   7. The system for City and Coastal Commission appeals. (Ord. 5417, 2007.)

28.44.140 Notice when Hearing is Continued.

If a public hearing regarding an application for a coastal development permit is continued by the Planning Commission or the Staff Hearing Officer to a date which is neither (1) previously stated in the notice provided pursuant to Section 28.44.130, nor (2) announced at the public hearing as being continued to a date certain, the Community Development Department shall provide notice of the continued hearing in the same manner, and within the same time limits as established in Section 28.44.130. (Ord. 5417, 2007.)

28.44.150 Findings.

In order to approve a coastal development permit, all of the following findings shall be made:
A. The project is consistent with the policies of the California Coastal Act; and
B. The project is consistent with all applicable policies of the City's Local Coastal Plan, all applicable implementing guidelines, and all applicable provisions of the Code. (Ord. 5417, 2007.)

28.44.160 Suspensions and Appeals.

A. FROM THE STAFF HEARING OFFICER.
   1. Suspensions. The Chairperson, Vice Chairperson or other designated member of the Planning Commission may take action to suspend any decision of the Staff Hearing Officer and to schedule a public hearing before the Planning Commission to review said decision. The notice of suspension must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision. The Community Development Department shall prepare a report to the Planning Commission with Staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer.
   2. Appeals. The decisions of the Staff Hearing Officer may be appealed to the Planning Commission by the applicant, an aggrieved person or any two (2) members of the Coastal Commission. The appeal must be filed with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision unless a longer appeal period is allowed for other actions taken concurrently with the decision on the application for a coastal development permit, in which case the longer appeal period shall prevail. The appellant shall state specifically in the appeal wherein the decision of the Staff Hearing Officer is not in accord with the provisions of this Chapter or wherein it is claimed that there was an error or an abuse of discretion by the Staff Hearing Officer. The Community Development Department shall prepare a report to the Planning Commission with Staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Staff Hearing Officer's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Staff Hearing Officer after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Staff Hearing Officer; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant. (Ord. 5417, 2007.)

B. FROM THE PLANNING COMMISSION. The decisions of the Planning Commission, including decisions on suspensions or appeals from decisions of the Staff Hearing Officer, may be appealed to the City Council by the applicant, an aggrieved person or any two (2) members of the Coastal Commission. The appeal must be filed with the City Clerk within ten (10) calendar days of the date of the Planning Commission's decision unless a longer appeal period is allowed for other actions taken concurrently with the decision on the coastal development permit, in which case the longer appeal period shall prevail. The appellant shall state specifically in the appeal wherein the decision of the Planning Commission is not in accord with the provisions of this Section or wherein it is claimed that there was an error or an abuse of discretion by the Planning Commission. Prior to the hearing on said appeal, the City Clerk shall inform the Community Development Department that an appeal has been filed wherein said Department shall prepare a report to the Planning Commission with Staff recommendations, including all maps and data and a statement of findings setting forth the reasons for the Planning Commission's decision. The Planning Commission shall affirm, reverse, or modify the decision of the Planning Commission after conducting a public hearing. Notice of the time and place of the public hearing shall be given in accordance with the notice required for the public hearing before the Planning Commission; however, in addition to any other required notice, written notice shall be sent by first-class mail to the appellant. (Ord. 5417, 2007.)

28.44.170 Finality of City Action.

A local decision on an application for a coastal development permit shall be deemed final when:
   A. The local decision on the application has been made and all required findings have been adopted, including specific factual findings supporting the legal conclusions that the proposed development is or is not in conformity with the certified Local Coastal Program and, where applicable, with the public access and recreation policies of Chapter 3 of the California Coastal Act, Public Resources Code; and
   B. When all local rights of appeal have been exhausted as defined in Section 28.44.160. (Ord. 5417, 2007.)

28.44.180 Notice of Final Action by the City.

Within seven (7) calendar days of a final City decision on an application for a coastal development permit, the Community Development Department shall provide notice of the action by first class mail to the Coastal Commission and to any persons who specifically requested such notice and provided a self-addressed, stamped envelope. Such notice shall include conditions of approval, written findings and the procedures for appeal of the City decision to the Coastal Commission. (Ord. 5417, 2007.)

28.44.190 Effective Date of City Final Action on Appealable Items.

A final decision of the City on an application for an appealable development shall become effective after the ten (10) working day appeal period to the Coastal Commission has expired unless any of the following occur:
A. An appeal is filed in accordance with Section 28.44.200; or
B. The notice of final City action has not been given pursuant to Section 28.44.180.

When either of the above circumstances occurs, the Coastal Commission shall, within five (5) working days of receiving notice of that circumstance, notify the City and the applicant that the effective date of the City action has been suspended. (Ord. 5417, 2007.)

28.44.200 Appeals to the Coastal Commission.

For those actions taken by the City on applications for coastal development permits that are approved for development defined as "appealable" under California Public Resources Code Section 30603(a) and Subsection 28.44.030.C, an appeal may be filed with the Coastal Commission by an aggrieved party, the applicant, or two (2) members of the Coastal Commission. Such appeals must be filed in the office of the Coastal Commission not later than 5:00 p.m. of the tenth working day following the Commission’s receipt of sufficient notice of the final local governmental action. In the case of an appeal by an applicant or aggrieved party, the appellant must have first pursued appeal to the City Council, as established in Section 28.44.160, to be considered an aggrieved party. (Ord. 5417, 2007.)

28.44.220 Development Within Coastal Commission Permit Jurisdiction.

Notwithstanding other permit and appeal provisions of this Chapter, development proposals which are located on lands identified as tidelands, submerged lands or public trust lands as identified on the Post-LCP Certification Permit and Appeal Jurisdiction Map, City of Santa Barbara, adopted by the Coastal Commission, shall, pursuant to the requirements of California Public Resources Code Section 30519(b), require a coastal permit from the Coastal Commission. Upon submittal to the City of an application for a coastal development permit, the Community Development Department shall determine if the development may be located on land identified as tidelands, submerged lands and/or public trust lands. Such determination shall be based upon maps and other descriptive information identifying such lands which the Coastal Commission and/or State Lands Commission may supply. Upon a determination that the proposed coastal development involves such lands, the Community Development Department shall notify the applicant and the Coastal Commission of the determination that a State coastal permit is required for the development. In conjunction with the City's review and decision on the development in accordance with the requirements of this Chapter and other City codes, the City shall also make a recommendation to the Coastal Commission regarding the development’s conformance with the certified Local Coastal Program, including this Chapter. The City's determination of development conformance with the objectives and requirements of the Local Coastal Program shall be advisory only and not a final action under this Chapter. Development shall not proceed until the Coastal Commission grants a coastal permit for such a development.

A. PLANNING COMMISSION RECOMMENDATION. If proposed development within the permit jurisdiction of the Coastal Commission requires discretionary review by the Planning Commission under any other provision of this Code, the Planning Commission shall conduct a public hearing regarding the development’s conformance with the certified Local Coastal Program including this Chapter. The public hearing shall be held concurrently with any other required public hearing or hearings for any other applications regarding the proposed development. Following approval of the development by the City, the Community Development Department shall forward the City approval, the application, supporting file documents and the City’s recommendation regarding the issuance of the coastal development permit to the Coastal Commission for its action on the coastal development permit application.

B. STAFF HEARING OFFICER RECOMMENDATION. If proposed development within the permit jurisdiction of the Coastal Commission requires discretionary review by the Staff Hearing Officer under any other provision of this Code, the Community Development Department shall review the proposed development’s conformance with the certified Local Coastal Program including this Chapter and shall forward the application, supporting file documents and the Community Development Department’s recommendation regarding the issuance of the coastal development permit to the Coastal Commission for its action on the coastal development permit application. (Ord. 5417, 2007.)
28.44.230  Time for Commencement of Approved Development; Extensions.

A.  TIME FOR COMMENCEMENT OF APPROVED DEVELOPMENT.  The time for commencement of the approved development shall be two years from the date of the final action upon the application, unless a different time is specified in the conditions of approval for the coastal development permit.

B.  EXTENSIONS.  Prior to the time that commencement of development must occur under the terms of the coastal development permit or Subsection A, the applicant may apply to the Community Development Director for an extension of time not to exceed an additional one-year period.  Such an extension of time may be granted no more than three (3) times, and under no circumstances shall the time for commencement of development be more than five (5) years after the date of the final action on the application.  Extensions of time may be granted by the Community Development Director upon findings that the development continues to be in conformance with the certified Local Coastal Program, that the applicant demonstrated due diligence to implement and complete the proposed development as substantiated by competent evidence in the record, and that there are no changed circumstances that may affect the consistency of the development with the certified Local Coastal Program, the General Plan and applicable City ordinances, resolutions and other laws.  (Ord. 5417, 2007.)

28.44.240  Amendments to Coastal Development Permits.

On the request of an applicant, a coastal development permit may be amended in the same manner specified for the initial review of an application for a coastal development permit.  (Ord. 5417, 2007.)

28.44.250  General Provisions.

A.  CONFLICTING PERMITS AND LICENSES TO BE VOIDED.  All departments, officials, and public employees of the City vested with the duty and authority to issue permits or licenses shall conform to the provisions of this zone and shall issue no permits or licenses for uses, buildings, or any purpose in conflict with the provisions of this Section.  Any such permit or license issued in conflict with this Section shall be null and void.

B.  CONFLICT WITH OTHER REGULATIONS.  Where conflicts occur between the regulations contained in this Section and the California Building Code as adopted and amended by the City, other sections of Title 28 of this Code, or other regulations effective within the City, the more restrictive of such laws, codes or regulations shall apply.

It is not intended that this Section shall interfere with, abrogate or annul any easement, covenant, or other agreement now in effect; provided, however, that where this Section imposes a greater restriction upon the use of buildings or land or upon new construction than are imposed or required by other ordinances, rules, or regulations, or by easements, covenants, or agreements, the provisions of this Section shall apply.

Nothing contained in this Section shall be deemed to repeal or amend any regulation of the City requiring a permit, license, and/or approval, for any business, trade, or occupation, nor shall anything in this Section be deemed to repeal or amend the building code.  If provisions of this Section overlap or conflict, the most protective provision relating to coastal resources shall apply.

C.  FAILURE TO ACT NOTICE.

1.  Notification by Applicant:  If the City has failed to act on an application within the time limits set forth in Article 5 ("Approval of Development Permits") of Title 7, Division I, Chapter 4.5 of the Government Code, commencing with 65950, thereby approving the development by operation of law, the person claiming a right to proceed pursuant to Government Code Section 65950 et seq. shall notify, in writing, the City and the Coastal Commission of the claim that the development has been approved by operation of law.  Such notice shall specify the application which is claimed to be approved.

2.  Notification by City.  Upon determination that the time limits established pursuant to Government Code Section 65950 et seq. have expired, the Community Development Department shall, within five (5) working days of such determination, notify those persons entitled to receive notice that it has taken final action by operation of law pursuant to Government Code Section 65956.  The appeal period for projects approved by operation of law shall begin only upon receipt of the City's notice in the office of the Coastal Commission.

D.  AMENDMENTS TO A CERTIFIED LOCAL COASTAL PROGRAM.  The purpose of this Subsection is to provide for changes in the land use and/or zoning designation on properties where such change is warranted by consideration of location, surrounding development and timing of development; to provide for text amendments to this Section and/or the City's Local Coastal Plan as the City may deem necessary or desirable; and to provide for amendments to any ordinances or implementation measures carrying out the provisions of the City's Local Coastal Plan.  The intent of this Subsection is to provide the mechanism, consistent with the Coastal Act, for amending the City's certified Local Coastal Program.

1.  Initiation.  An amendment to the certified Local Coastal Program may be initiated by any member of the public, the Planning Commission or the City Council.  All amendments proposed to the Commission for final certification must be initiated by resolution of the City Council.

2.  City Review and Processing.  Processing of amendments to the certified Local Coastal Program shall proceed in the same manner as that required for an amendment to the:
   a.  General Plan, if that amendment is intended to amend the text or map of the City's Coastal Plan.
b. Municipal Code or Zoning Map, if that amendment is intended to amend the Municipal Code or Zoning Map.

3. Noticing. Notice of the hearing shall be given at least ten (10) calendar days before the hearing.
   a. For any amendment, notice shall be:
      (1) Published in a newspaper of general circulation in the City.
      (2) Mailed to any person who has filed a written request therefore and has supplied the City with self-addressed, stamped envelopes.
      (3) Mailed to the Coastal Commission.
   b. In addition, for a proposed rezoning or change of land use designation, notices shall be mailed:
      (1) To the owners of the affected property and also the owners of all property within 300 feet of the exterior boundaries of the affected property, using for this purpose the name and address of such owners shown on the tax rolls of Santa Barbara County.
      (2) To occupants of residences, including apartments on or within 100 feet of the affected property.
      (3) In the event that the rezoning or change of land use designation affects a portion of the City which has an area equivalent to more than four (4) square City blocks, the City may, instead, provide notice by placing a display advertisement in a newspaper of general circulation, published and circulated in the City.

E. COASTAL COMMISSION CERTIFICATION. Any proposed amendment to the Local Coastal Program shall not take effect until it has been certified by the Coastal Commission. Therefore, any approval by the City of such a proposed amendment to the Local Coastal Program shall be submitted to the Coastal Commission within fourteen (14) days of the final approval by the City Council in accordance with Sections 30512 and 30513 of the Coastal Act.

F. DEVELOPMENT POTENTIAL. Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989, unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.

G. DEVELOPMENT WITHIN THE GOLETA SLOUGH. Any development within the Goleta Slough Reserve Zone is required to obtain a Goleta Slough Coastal Development Permit pursuant to the provisions of Chapter 29.25 unless specifically exempted.

H. HAZARDOUS WASTE MANAGEMENT FACILITIES. Approval for construction or use of any off-site hazardous waste management facilities, as defined in Section 28.04.370 of this Title, shall require preparation and approval of an amendment to the Local Coastal Program by the City Council and the California Coastal Commission. Such facilities shall also require approval of a change in zone to the HWMF Overlay Zone and any other required permits in accordance with Chapter 28.75 of this Title. (Ord. 5609, 2013; Ord. 5459, Section 3, 2008; Ord. 5451, Section 5, 2008; Ord. 5417, 2007.)
Chapter 28.45

S-D SPECIAL DISTRICT ZONE

Section 28.45.001 In General.

Land classified in an S-D Zone shall also be classified in a basic zone and the following regulations shall apply in the S-D Special District Zone unless otherwise provided in this chapter. (Ord. 3710, 1974; Ord. 3559, 1972.)

Section 28.45.005 Legislative Intent.

These regulations are designed and intended to provide a method of increasing particular zoning standards in a certain area or neighborhood in the community wherein the Planning Commission finds that the standards contained in the basic zone or zones in which the land is classified are not sufficiently restrictive to assure appropriate development in that area or to protect the residents therein against inappropriate land uses or activities otherwise permitted in the basic zone category. These regulations are further designed and intended to be used only in circumstances where the standards to be affected by the special district zone are a minor portion of the total standards applicable to the basic zone so that rezoning of the area to another basic zone category to achieve the desired results would introduce other inappropriate standards. (Ord. 3710, 1974; Ord. 3559, 1972.)

Section 28.45.006 S-D Zone Standards Not Less Restrictive.

The standards required by any S-D Zone shall in no case be less restrictive than the comparable standard required in the basic zone in which the land is classified. In the event that there be no comparable standard in the basic zone, the Planning Commission shall find that the S-D Zone standard in no way permits development or use of land which is in any way more intense than that permitted by the basic zone.

Each special district zone hereafter created shall be designated by the letters S-D followed by a number for the purpose of identifying the particular standards required in each S-D Zone. These special standards shall be contained in separate sections of this chapter. (Ord. 3710, 1974; Ord. 3559, 1972.)

Section 28.45.007 S-D-1 Zone Designation.

A. LOCATION. The S-D-1 Zone is applied to the San Roque Park Subdivision, which is located northerly of State Street between San Roque Road and Ontare Road.

B. LEGISLATIVE INTENT. It is the purpose of the S-D-1 Zone to require front setbacks greater than those required in the base zones in which lots in the San Roque Park Subdivision are classified. The San Roque Park Subdivision was created in 1926, at which time a deed restriction was imposed requiring that buildings be set back at least forty feet (40') from the front property line. This restriction was in effect until 1941, at which time it expired. Development since 1941 has largely respected this increased front setback, in spite of the fact that the Zoning Ordinance requirements are less restrictive. A majority of the property owners in the San Roque Park Subdivision have expressed the desire for the City, through zoning, to increase the front setback requirement in this area to conform with the original deed restrictions.

C. S-D-1 STANDARDS.

1. FRONT SETBACK. There shall be a front setback of not less than forty feet (40') in depth, with the following exceptions:
   a. For front yards abutting San Roque Road or Ontare Road, or any front yard abutting that portion of Canon Drive where land on both sides of the streets is not classified in the S-D-1 Zone category, the front setback shall be as provided in the base zone.
   b. Any front yard abutting Madrona Drive shall provide a front setback of not less than thirty feet (30') in depth.

2. INTERIOR SETBACK. The interior setback requirement shall be as provided in the base zone.
(Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3578, 1973.)
A. LOCATION. The S-D-2 zone is applied to the "Upper State Street Area" which is defined as the area bounded by Alamar Avenue, U.S. Highway 101, Foothill Road and State Highway 154.

B. LEGISLATIVE INTENT. It is the purpose of the S-D-2 Zone to impose certain traffic related restrictions greater than those provided in the base zones in which lots in the "Upper State Street Area" are classified. State Street is the only major east-west surface street serving the Upper State Street Area and it is one of the most heavily traveled streets in the City. In order to prevent the volumes of traffic on State Street from exceeding acceptable limits and to limit increased air pollution, due to vehicular traffic, it is necessary to impose the traffic related restrictions contained in this section on new developments in the area. In order to ensure the appropriateness of developments in said area, and the mitigation of traffic impacts where possible, it is necessary that development plans for said developments be reviewed.

C. DEVELOPMENT POTENTIAL. Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.

D. STANDARDS. The following standards shall apply to all projects in the S-D-2 Zone:

1. Parking Requirements. Off-street parking shall be provided as required in Chapter 28.90 of this Title.

2. Drive-through Facilities. No building or structure hereafter erected, reconstructed, structurally altered or enlarged in the S-D-2 Zone shall be designed or used, in whole or in part, as a motor vehicle drive-through facility. As used herein, "motor vehicle drive-through facility" means a commercial building or structure or portion thereof which is designed or used to provide goods or services to the occupants of motor vehicles. Such term shall include, but not be limited to, banks and other financial institutions, fast food establishments, and film deposit/pick-up establishments, but shall not include drive-in movies, gasoline stations, or car wash operations.

3. Building Height. Three (3) stories not exceeding forty-five (45) feet and not exceeding the total floor area of a two (2) story building (thirty (30) feet) which could be constructed on the lot in compliance with all applicable regulations.

4. Front Setbacks. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings and structures on the lot as follows:
   a. One-story building or structure not exceeding fifteen feet (15’) of building height: 10 feet
   b. Two- or three-story building or structure or any one story building or structure in excess of fifteen feet (15’) of building height: 20 feet (Ord. 5609, 2013; Ord. 5459, 2008; Ord. 4896, 1994; Ord. 4696, 1991; Ord. 4670, 1991; Ord. 4361, 1985; Ord. 4015, 1979; Ord. 3989, 1979; Ord. 3979, 1979.)

### 28.46.005 Legislative Intent.

It is the purpose of the SP-5 Zone to establish a single residential unit district where affordability of the housing is ensured and where specific development standards are established to protect the natural environment and neighborhood values on property adjacent to Westmont College. (Ord. 4900, 1995.)

### 28.46.010 Uses Permitted.

The uses permitted in the SP-5 Zone in the SP-5 Land Use Map depicted on Map A shall be as follows:

- **Land Use A - Single Residential Units**: Uses permitted in Area A are:
  1. Single Residential units;
  2. Recreational uses including, but not limited to, spas, jacuzzis, and children's play areas;
  3. Private open space including, but not limited to, patios, decks, and yards for the private use of the residents of individual homes; and
  4. Uses, buildings, and structures incidental, accessory and subordinate to the permitted uses.

- **Land Use B - Dedicated Open Space**: This area is to be maintained in a natural state to pre-serve the creek habitat, protect the steep slopes from erosion, and maintain the scenic quality of these areas. Uses permitted in Area B are:
  1. Installation of storm drain systems;
  2. Flood control projects; and

- **Land Use C - Common Passive Open Space**: This area is to be used for passive recreation. Uses permitted in Area C are:
  1. Walking trails;
  2. Bicycle paths; and
  3. Utilities, storm drains, flood control and other infrastructures as approved by the City.

- **Land Use D - Private Active Recreation**: This area is to be used as common recreation for the residents. Uses permitted in Area D are:
  1. One recreation building not to exceed 1,500 square feet for the exclusive use of residents and their guests for private social functions;
  2. Outdoor decks and picnic areas, barbecue, volleyball court, active recreation lawn area, playground equipment, parking and other incidental amenities appropriate to this use;
  3. Landscaped areas for common use; and
  4. Drainage detention areas and related facilities.
Land Use E - Neighborhood Recreation: This area is to be developed as a common recreation facility available for use by residents of adjoining neighborhood. Uses permitted in Area E are:
1. Playground equipment, picnic areas, active recreation lawn areas, and other incidental amenities appropriate to this use;
2. Landscaped areas for common use;
3. Open areas required for the protection of scenic, habitat or other resources; and
4. Storm drainage improvements and detention areas and related facilities.

Land Use F - Circulation: This area is to be used for roads and on-street parking. Uses permitted in Area F are:
1. Roads;
2. Sidewalks; and
3. On-street parking areas.

(Ord. 4900, 1995.)

28.46.020 Conditions, Restrictions and Modifications.

The Planning Commission may impose such appropriate and reasonable conditions and restrictions as it may deem necessary for the protection of property in the neighborhood or in the interest of public health, safety and welfare in order to carry out the purposes and intent of this chapter. However, no variance, modification, or other approval shall be granted for building height, maximum number of residential dwelling units, or maximum residential dwelling units per acre. (Ord. 4900, 1995.)

28.46.025 Building Height.

No building in this zone shall exceed a height of thirty feet (30’) nor exceed the height limitations imposed for the protection and enhancement of solar access by Chapter 28.11 of this Title. (Ord. 4900, 1995.)

28.46.035 Front and Interior Setback Requirements.

Residential lots fronting a public or private street shall have a front setback from curb face of the roadway of not less than twenty-five feet (25’). Residential lots fronting common open space or driveways shall have a front setback of not less than ten feet (10’). There shall be interior setbacks of not less than ten feet (10’). (Ord. 5459, 2008; Ord. 4900, 1995.)

28.46.040 Residential Lot Area Requirements for Parcels in the Zone.

Residential lots shall have no less than 6,500 square feet. (Ord. 4900, 1995.)

28.46.045 Off-Street Parking.

Off-street parking shall be provided as required in Chapter 28.90 of this Title. Notwithstanding Chapter 28.90, no more than five spaces shall adjoin each other without intervening landscaping areas. It is the intent of this Chapter that parking areas shall not dominate open space and landscaping areas. (Ord. 4900, 1995.)

28.46.050 Street Requirements.

If necessary to preserve natural terrain features and open space, the Planning Commission may grant modifications of City street design standards as may be deemed necessary to assure that the intent of this Chapter is observed and the public welfare and safety secured. (Ord. 4900, 1995.)

28.46.055 Restrictions on Usage of Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance, Chapter 22.70 of this Title. (Ord. 4900, 1995.)

28.46.060 Architectural Review Requirements for Development.

Notwithstanding the applicability standards of Chapter 22.68 of this Title, all development within the SP-5 Zone shall be subject to the review and approval of the Architectural Board of Review. (Ord. 4900, 1995.)
28.46.065 Allowable Density of Development and Maximum Number of Dwelling Units Allowed.

The maximum density shall be no greater than 1.4 residential units per gross acre. The maximum number of residential units in this zone shall be no greater than 41 units. (Ord. 4900, 1995.)

28.46.070 Requirements for Construction Phasing.

Phasing of development is permitted consistent with an approved Tentative Subdivision Map. If the sequence of construction of residential portions of the development is to occur in stages (phases) then the open space and/or recreational facilities shall be developed in proportion to the number of residential units intended to be developed during any given stage of construction as approved by the Planning Commission. (Ord. 4900, 1995.)

28.46.075 Affordability Requirement for Residential Units.

All residential units shall be affordable to moderate income households as defined by the City of Santa Barbara Housing Program or its successor. Affordability requirements for every residential unit shall be subject to the review and approval of the Community Development Director. The maximum household income level shall not exceed the moderate income level as determined by the Community Development Director. (Ord. 4900, 1995.)

28.46.080 Open Space and Landscaping.

Not less than 50 percent of the gross area of the property in this zone shall be a combination of Dedicated Open Space, Common Open Space, Private Active Recreation and Neighborhood Recreation, as defined in the land uses permitted section (28.46.010), Land Uses B, C, D and E. Open space and landscaped areas shall dominate the site development. Such open space and landscaped areas shall include substantial useable areas for passive and/or active recreational use. Further, from public view, the development should present an open space and landscaped effect so that parking areas and building masses shall not dominate the scene. (Ord. 4900, 1995.)

28.46.085 Mitigation Monitoring Program.

Prior to the approval of any development on the property, a Mitigation Monitoring Program consistent with the California Environmental Quality Act shall be approved by the Planning Commission. (Ord. 4900, 1995.)
Chapter 28.47
RIVIERA CAMPUS SPECIFIC PLAN
SP-7 ZONE

Sections:

28.47.010 Permitted Land Uses.
28.47.020 Uses Permitted Upon the Granting of a Conditional Use Permit.
28.47.030 Operating Standards.
28.47.040 Site Area Standards.
28.47.050 Building Height.
28.47.060 Front and Interior Setback Requirements.
28.47.070 Site Coverage.
28.47.080 Limited Special Events for Outside Entities.
28.47.090 Parking Requirements.
28.47.100 Architectural Control.
28.47.110 Street Frontage Requirements.
28.47.120 Construction and Maintenance of Site and Buildings.
28.47.130 Area Map.

28.47.010 Permitted Land Uses.

The following land uses are permitted in the Riviera Campus Specific Plan Zone:

A. Research and development establishments and related administrative operations, provided that no manufacturing is permitted, and further provided that such uses or operations are not hazardous, offensive or obnoxious by reason of the emission of odor, dust, heat, glare, gas fumes, smoke, vibrations, electromagnetic or other radiation resulting in radio or television interference, or by reason of the storage or disposal of waste materials or other products of such operations.

For the purposes of this Section, the word manufacturing shall mean the fabrication, assembly or production of articles other than prototypes or models used for experimentation or research. The word prototype is hereby defined as an original or model or pattern from which manufactured, fabricated or assembled products are developed or copied. No prototype, model or pattern shall be built, erected or constructed to a scale exceeding the ceiling height of the building in which it or they are erected, constructed or developed, and the erection, fabrication or assembly thereof shall be confined to the interior of the building. Product storage related to the research and development business shall be incidental to the research and development use.

B. Administrative offices, provided that such offices are not open to or visited by the general public for the purpose of receiving or disbursing goods, services, information, payments or other such routine or frequent activities. Offices performing personnel employment activities shall be limited to those involving persons actually working at the site and not the general public.

C. Classes or training program activities shall be incidental to the administrative office use of the premises. The number of persons attending such classes shall not exceed ten percent (10%) of the total number of employees regularly (daily) present at the site.

D. Product storage related to the business shall be incidental to the office use only.

E. Movie Theater limited to 6,665 square feet (approximately 453 seats).

F. Professional Offices, including those of an architect, engineer or therapist, provided that no activity is carried on catering to retail trade with the general public and there is no stock of goods for sale to customers (e.g. architect, engineer, counselor).

G. Arts-Related Uses, including but not limited to, photography studio, artist studio, film development/production, music recording/editing. Product or raw material storage shall be incidental to the arts-related use. (Ord. 5319, 2004.)

28.47.020 Uses Permitted Upon the Granting of a Conditional Use Permit.

Only the following uses shall be allowed in the Riviera Campus Specific Plan Area subject to the issuance of a Conditional Use Permit, provided that the Planning Commission has made the findings stated in 28.94.020 for such use.

A. Educational facilities.

B. Child care center.

C. Up to three (3) manager/caretaker residential units within or attached to an existing non-residential structure. (Ord. 5319, 2004.)
28.47.030 Operating Standards.

Any use in the Riviera Campus Specific Plan Area (“SP-7”) shall comply with the following standards of performance and operation:

A. Fire and Explosion Hazards. There shall be provided and maintained in good workable condition adequate and sufficient safety and fire suppression equipment and devices in such locations on the premises as may be necessary to prevent and suppress fire and explosion hazards wherever inflammable or explosive materials are used or stored.

B. Incineration. There shall be no rubbish or refuse incineration on the premises.

C. Radiation. All devices emitting radio frequency energy shall be operated in such a manner as to cause no interference with any activity carried on beyond the boundary of the premises of such establishment, including but not limited to, radio and television interference. Radio frequency energy is electromagnetic energy at any frequency in the radio spectrum between ten (10) kilocycles and three (3) million megacycles.

D. Noise. Noise shall be restricted in accordance with Chapter 9.16 of the Santa Barbara Municipal Code.

E. Vibration. No equipment, machinery or facility in such establishment shall be operated so as to produce or generate vibration which is perceptible without the aid of instruments to a person of ordinary sensibilities at or beyond the boundary line of the premises.

F. Emission of Dust, Heat and Glare. No such establishment shall be operated in a manner resulting in the emission of dust or other substances susceptible of being transmitted through the air, or heat or glare to an extent or degree permitting such emission or emissions to extend beyond the boundary line of the premises.

G. Outdoor Storage and Waste Disposal. All fuel, raw materials, equipment and products used outside the building of such establishment shall be enclosed by a fence, wall or shrubbery planting adequate to conceal such facility from adjacent or nearby residential property. The removal or transference from the premises of such establishment of any such fuel, raw materials or products by natural forces or causes shall be prevented. Suitable closed containers shall be provided and used for the storage of any materials or water products which by their nature are combustible, volatile, dust or odor producing or edible or attractive to rodents, vermin or insects. (Ord. 5319, 2004.)

28.47.040 Site Area Standards.

The Riviera Campus Specific Plan Area (“SP-7”) shall consist of a lot or lots for the uses allowed by this Specific Plan, and in the aggregate the Area shall have a minimum lot area of not less than two (2) acres. (Ord. 5319, 2004.)

28.47.050 Building Height.

No building in the Riviera Campus Specific Plan Area shall exceed 35 feet in height with exception of the following structures that are allowed to be maintained or repaired at the heights indicated:

A. Furse Hall/Administration building (51.5 feet).
B. Brooks Hall/Men’s Gymnasium (44 feet).
C. Quadrangle Building (39 feet).
D. Ebbets Hall (49 feet).

In the event that the nonconforming buildings are destroyed by a natural casualty, reconstruction of the Area buildings shall be carried out in accordance with the provisions contained within 28.87.030.D and 28.87.038. Any additions to such structures shall adhere to the standards of this zone. (Ord. 5319, 2004.)

28.47.060 Front and Interior Yard Requirements.

All structures within the Riviera Campus Specific Plan Area shall have a front setback of not less than 35 feet and an interior setback of not less than 25 feet. Pine Hall, the Cafeteria/Music building, and Ebbets Hall shall be considered nonconforming to the front setback requirement. Furse Hall (Administration building) shall be considered nonconforming to the interior setback requirement. Structures designed to replace these demolished or destroyed structures on substantially the same footprint may meet or be consistent with the existing structure setback, and additions to the structures shall not be closer than the line of the existing building parallel to the front property line at any point. Any approved additions to these buildings should generally be consistent with current requirements. (Ord. 5459, 2008; Ord. 5319, 2004.)

28.47.070 Site Coverage.

Not more than twenty-five percent (25%) of the net site area of the Riviera Campus Specific Plan Area shall be covered with buildings and structures. Not more than thirty-five percent (35%) of the net site shall be used for open vehicle access, parking, loading and delivery. A minimum of 40% of the Riviera Campus Specific Plan Area shall be preserved in open space (including landscaped areas, landscape features, and public walkways). (Ord. 5319, 2004.)
28.47.080 Limited Special Events for Outside Entities.

Activities on the campus of the Riviera Campus which are sponsored or conducted by entities other than tenants of Riviera Campus shall be limited as indicated below:

A. **Weddings.** No more than 12 per year with a maximum of 250 attendees at each wedding. The wedding event shall end no later than ½ hour after sunset (dusk) or 8:30 p.m., whichever is earlier.

B. **Non-Profit Benefit Events.** Benefit events shall be conducted by or to support non-profit community organizations. No more than four such events per year shall be allowed, with a maximum of 400 attendees per event. Each event shall end no later than ½ hour after sunset (dusk) or 8:30 p.m., whichever is earlier.

C. **Additional Events.** Up to two additional special events beyond those outlined above may be approved by the Community Development Director upon a showing that adequate parking will be provided and a community benefit will result. These special events shall be subject to the same operating standards and limitations as outlined for Non-Profit Benefit Events. (Ord. 5319, 2004.)

28.47.090 Parking Requirements.

Off-street parking for uses within the Riviera Campus Specific Plan Area shall be provided as required in Chapter 28.90 of this Title. (Ord. 5319, 2004.)

28.47.100 Architectural Control.

The plans and elevations for all buildings and structures to be erected and all exterior alterations as defined in Chapter 22.22 of this Code for buildings or structures within the Riviera Campus Specific Plan Area shall be subject to review and approval by the Historic Landmarks Commission. (Ord. 5319, 2004.)

28.47.110 Street Frontage Requirements.

All parcels in the Riviera Campus Specific Plan (SP–7) Area shall have street frontage and single side dimensions of not less than one hundred fifty feet (150') each. (Ord. 5319, 2004.)

28.47.120 Construction and Maintenance of Site and Buildings.

The owner or developer of the Riviera Campus (SP-7) Plan site shall construct buildings and install landscaping in strict accordance with approved plans and without substantial deviation therefrom. In addition, all buildings and landscaping shall be maintained in a clean and orderly condition. (Ord. 5319, 2004.)

28.47.130 Area Map.

The map attached hereto and labeled the “Riviera Campus Specific Plan Area” is hereby approved and incorporated in this Chapter by this reference. (Ord. 5319, 2004.)
Chapter 28.48

R-O RESTRICTED OFFICE ZONE

Sections:

28.48.001 In General.
28.48.030 Uses Permitted.
28.48.050 Building Height.
28.48.060 Setbacks.
28.48.080 Lot Area and Frontage Requirements.
28.48.081 Outdoor Living Space.
28.48.100 Parking Requirements.
28.48.110 Signs.
28.48.115 Architectural Treatment.
28.48.130 Development Plan Approval.
28.48.131 Development Potential.

28.48.001 In General.

This is a restricted zone which, because of its proximity to major commercial zones and/or public uses, is a transitional zone between such uses and residential zones and is deemed suitable for use either for offices or residences under the following regulations. This zone also strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities.

Land classified in an R-O Zone may also be classified in another zone and the following regulations shall apply in the R-O Restricted Office Zone, unless otherwise provided in this chapter. (Ord. 4005 §1, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.48.030 Uses Permitted.

A. Any use permitted in the R-3 Limited Multiple-family Residence Zone except as otherwise provided in Subsection B. herein.
B. When land classified in an R-O Zone is also classified in another zone, as provided by Section 28.48.001, the following uses shall be permitted:
   1. Any use permitted in the other zone in which the land is classified and when so used subject to the restrictions and limitations contained therein.
   2. Any use permitted in the following subsections and subject to the restrictions and limitations contained in this Chapter.
C. Office buildings in which no activity is carried on catering to retail trade with the general public and no stock of goods is maintained for sale to customers, for the following office uses: accountant, architect, attorney, branch bank, dentist, engineer, insurance broker, physician, real estate broker or stock broker.
D. Research and development establishments and related administrative operations, subject to provisions and definitions contained in Section 28.60.005, 28.60.030 and 28.60.040 of this Title.
E. Community care facilities, residential care facilities for the elderly and hospices serving 7 to 12 individuals.
F. State-licensed Large Family Day Care Homes. (Ord. 4858, 1994; Ord. 3710, 1974; Ord. 3120, 1966.)

As provided in Chapter 28.94 of this Title. (Ord. 4414, 1986.)

28.48.050 Building Height.

Three (3) stories and not to exceed forty-five feet (45'). Building height immediately adjacent to a residential zone(s) shall not exceed that allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of twenty-three (23) feet or one-half (1/2) the height of the proposed structure, whichever is less. (Ord. 4005 §2, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.48.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:
A. FRONT SETBACK. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures, and parking on the lot as follows:
   1. One- or two-story building or structure or uncovered parking: 10 feet
   2. Three-story building or structure: 15 feet; however, if the net floor area of the third floor is less than fifty percent (50%) of the net floor area of the first floor building footprint, the front setback shall be reduced as follows:
a. Ground floor portions: 10 feet
b. Second story portions: 10 feet
c. Third story portions: 20 feet

3. Covered parking: the setback applicable to the building in which the parking is provided as specified in A.1 or A.2 above.

B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. One- or two-story building or structure or uncovered parking: 6 feet
   2. Three-story building or structure: 10 feet; however, if the net floor area of the third floor is less than fifty percent (50%) of the net floor area of the first floor building footprint, the interior setback shall be reduced as follows:
      a. Ground floor portions: 6 feet
      b. Second story portions: 6 feet
      c. Third story portions: 10 feet
   3. Covered parking: the setback applicable to the building in which the parking is provided as specified in B.1 or B.2 above.

C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. Any building, structure or covered parking: 10 feet or ½ of the building height, whichever is greater.
   2. Driveways to parking areas serving exclusively residential uses: R-3/R-4 interior setback requirements.
   3. Driveways and uncovered parking areas serving nonresidential uses: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project. (Ord. 5459, 2008.)

28.48.080 Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used for dwelling purposes shall comply with the provisions of the R-3 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.48.081 Outdoor Living Space.

Any lot in this zone developed exclusively for residential use or developed with a mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

28.48.100 Parking Requirements.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 3272, 1968.)

28.48.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 3272, 1968.)

28.48.115 Architectural Treatment.

All office buildings shall be so designed as to be compatible with existing and possible future adjacent residential uses, to the satisfaction of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 3272, 1968.)

28.48.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982; Ord. 3710, 1974; Ord. 3272, 1968.)

28.48.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991)
Chapter 28.49

SP-8 HOSPITAL ZONE

28.49.010 Permitted Land Uses.

The land uses permitted in the SP-8 Zone with respect to the three zone areas shown, as depicted on the SP-8 Land Use Map/Site Plan (dated as of April 26, 2005) on file with the City Clerk of the City, shall be as follows:

A. Land Use Area A – General Acute Care Hospital Facility.
   The principal intended uses and structures allowed in Land Use Area A are as follows:
   1. General acute care hospital facility licensed by the State of California providing medical, surgical, psychiatric and obstetrical care primarily for inpatients.
   2. Emergency medical services and clinical care for outpatient treatment and diagnosis.
   3. Uses which are customarily associated with a general acute care hospital, including, but not limited to the following:
      a. Offices for hospital administrators and hospital employees, including physicians who work for or are under contract with the hospital;
      b. Hospital support facilities, such as medical laboratories, diagnostic testing centers, physical therapy and inpatient pharmaceutical facilities;
      c. Storage facilities for medical equipment and supplies;
      d. Hospital operations, such as food service and laundry facilities;
      e. Maintenance facilities, such as housekeeping and maintenance storage areas;
      f. Extended care facilities;
      g. Overnight accommodations for on-duty hospital employees and medical residents;
      h. Overnight accommodations within the patients’ room for patients’ families;
      i. Medical libraries, research and educational facilities;
      j. Cogeneration, incineration, water, electrical and heating and cooling equipment facilities;
      k. Cafeteria facilities for hospital employees, medical residents, physicians and patients’ visitors;
      l. Off-street parking facilities;
      m. Helicopter landing site for the reception and transport of emergency and trauma patients;
      n. Pharmacies, gift stores, ATM facilities, restaurants and retail or personal service shops, provided that primary access is only from within the hospital building;
      o. Child-care centers and associated recreational facilities;
      p. Chapels and places of worship;
      q. Auditoriums;
      r. Telecommunications facilities;
      s. Employee services, such as credit unions; and,
      t. Office uses customary and ancillary to an acute care hospital facility.
   4. Those permitted uses provided for in the C-O Medical Office Zone, specifically Section 28.51.030, subsections B through H, as codified at the time of the adoption of the ordinance creating this Chapter.

B. Land Use Area B – Parking Structure, Medical Office Building.
   The uses and structures allowed in Land Use Area B are as follows:
   1. Open parking lots, single or multi-story parking structures;
   2. Uses customary and ancillary to medical office buildings, including, but not limited to, medical laboratories and prescription pharmacies;
   3. Office uses customary and ancillary to an acute care hospital facility; and,
   4. Pharmacies, gift stores, ATM facilities, restaurants and retail or personal service shops.
   5. Those permitted uses provided for in the C-O Medical Office Zone, specifically Section 28.51.030, as codified at the time of the adoption of the Ordinance creating this Chapter.

C. Land Use Area C – Parking Structure; Child Care Facility.
   The uses and structures allowed in Land Use Area C are:
   1. Child Care Facilities; and,
   2. Open parking lots, single or multi-story parking structures.
   3. Those permitted uses provided for in the C-O Medical Office Zone, specifically Section 28.51.030, as codified at the time of the adoption of the Ordinance creating this Chapter.

(Ord. 5359, 2005.)
28.49.020 Building Height.

A. In Land Use Area A, no new building shall exceed 60 feet in height. Existing buildings in Land Use Area A which exceed 60 feet in height (“Nonconforming Buildings”) are allowed to be maintained or repaired at their existing heights as permitted in accordance with this Code. In the event that the Nonconforming Buildings are damaged or destroyed, reconstruction shall be carried out in accordance with the provisions contained in Sections 28.87.030.D and 28.87.038 of this Title.

B. In Land Use Areas B and C, no building shall exceed 45 feet in height.

C. Building elements that do not add floor area to the acute care hospital building, such as vents, elevator penthouses, helipads, chimneys, mechanical equipment, antennae and towers are not considered a part of the height of the building. (Ord. 5359, 2005.)

28.49.030 Front and Interior Setback Requirements.

There shall be a front setback and interior setbacks of not less than ten (10) feet for all buildings and parking structures in Land Use Areas A, B & C. Notwithstanding the foregoing, however, for a parking structure in Land Use Area C there shall be interior setbacks of no less than ten (10) feet provided that, if the area of the building that encroaches into the interior setback is compensated for by having an equal or greater unobstructed area outside the interior setback, the ten (10) foot setback may be reduced to 4.5 feet for a distance of up to 80 lineal feet. (Ord. 5459, 2008; Ord. 5359, 2005.)

28.49.040 Off-Street Parking.

Notwithstanding Chapter 28.90, the parking needs for development within the SP-8 zone shall be evaluated on a project-specific site and use basis. Parking shall be provided to meet parking needs as justified through a written parking analysis and evaluation prepared by a transportation engineer and subject to review and approval by the Planning Commission or Transportation and Parking Manager as appropriate.

The parking evaluation shall consider both peak and non-peak parking demands considering the number of employees, doctors and nursing staff, patients, visitors and other relevant data, including parking and transportation demand management practices. Parking for development projects shall be provided in parking structures or parking lots within the SP-8 zone.

Parking may be provided within the SP-8 zone for other real properties outside the SP-8 zone so long as such parking is consistent with a parking and transportation management plan which has been reviewed and approved by the Planning Commission or City Transportation and Parking Manager, as deemed appropriate by the Community Development Director. (Ord. 5359, 2005.)

28.49.050 Development Plan Approval.

All new development proposed in this zone shall be subject to Development Plan review and approval in the manner and as required by Chapter 28.85 of this Code. At the time such development projects are reviewed, the Planning Commission may impose such appropriate and reasonable conditions and restrictions as it may deem necessary for the protection of property in the neighborhood or in the interest of public health, safety and welfare, in order to carry out the purposes and intent of this Chapter. The Planning Commission shall approve any new development for the uses enumerated in Section 28.49.010 upon a finding that the appearance of the developed site in terms of the arrangement, height, scale, and architectural style of the buildings, location of parking areas, landscaping and other features is compatible with the character of the existing SP-8 area and the neighborhood. (Ord. 5609, 2013; Ord. 5359, 2005.)
Chapter 28.50

SP-9 ZONE – VERONICA MEADOWS SPECIFIC PLAN

Sections:
28.50.005 Legislative Intent.
28.50.030 Uses Permitted.
28.50.035 Uses Permitted Upon the Granting of a Conditional Use Permit.
28.50.040 Conditions, Restrictions and Modifications.
28.50.045 Prohibition of Shiny Roofing and Siding.
28.50.050 Building Height.
28.50.060 Setback and Open Yard Requirements.
28.50.065 Reduction in Setback Requirements.
28.50.070 Distance Between Buildings.
28.50.080 Lot Area and Frontage Requirements.
28.50.085 Allowable Density of Development.
28.50.090 Open Space and Landscaping.
28.50.095 Street Requirements.
28.50.100 Off-Street Parking.
28.50.105 Garages and Accessory Buildings.
28.50.115 Architectural Control.
28.50.120 Exemption from SBMC Chapter 28.43.
28.50.130 Affordable Housing Provision.
28.50.140 Fencing.
28.50.150 Area Map.

28.50.005 Legislative Intent.

It is the purpose of the SP-9 Zone to establish a single-family residence district where specific development standards are established to cluster development, maintain a semi-rural setting, restore a section of degraded creek and riparian corridor, and protect the natural environment. (Ord. 5456, 2008.)

28.50.030 Uses Permitted.

The uses permitted in the SP-9 Zone as depicted on attached Map A (attached as an exhibit to the Chapter and dated as of June 24, 2008) shall be as follows:

A. Area A – Residential Development: Uses permitted in Area A (as depicted on Map A) are:
   1. A single residential unit occupying a single lot.
   2. Uses, buildings, and structures typically allowed by the City incidental, accessory and subordinate to the permitted residential uses.
   3. A Home Occupation.
   5. A State-licensed Large Family Day Care Home, subject to the provisions in Chapter 28.93 of this Title.
   6. State authorized, licensed or certified uses to the extent such a use is required by state law.
   7. Creek stabilization, habitat restoration, and related maintenance.
   8. Private open space including, but not limited to, patios, decks, and yards for the private use of the residents of individual homes.
   9. Common open space and passive recreational areas.
   10. Public trails as approved by the City.
   12. Utilities, storm drain system, flood control projects or other infrastructures as approved by the City.
   13. The gazebo structure required by the Environmental Impact Report as mitigation for potentially significant impacts to cultural resources.

B. Area B – Open Space: Area B (as depicted on Map A) shall be maintained in its natural state to preserve the steep slopes from erosion or landslide, preserve the creek environment, and maintain the scenic quality of the area. Uses permitted in Area B are the following:
   1. Public trails along the Arroyo Burro Creek corridor.
   2. Brush removal, not including trees, for fire protection purposes, subject to Municipal Code provisions for vegetation removal.
   3. Subsurface utilities, flood control projects or other infrastructure as approved by the City.

(Ord. 5456, 2008.)
28.50.035 Uses Permitted Upon the Granting of a Conditional Use Permit.

The uses allowed by conditional use permit shall be as provided in Chapter 28.94 of this Title. However, no development is permitted in Area B under any circumstances. (Ord. 5456, 2008.)

28.50.040 Conditions, Restrictions and Modifications.

In connection with any development approval required to be issued by the City, the City may impose such appropriate and reasonable conditions and restrictions as it may deem necessary for the protection of property in the neighborhood or in the interest of public health, safety and welfare, in order to carry out the purposes and intent of this Chapter. While the provisions of Chapter 28.92 (Variances, Modifications and Zone Changes) shall be applicable within this zone, it is the intent of this Specific Plan that no variance, modification, or other approval shall be granted that would result in a number of residential units within Area A that exceeds the maximum number of residential dwelling units originally specified in Section 28.50.085, and that Area B be permanently maintained in its natural state. (Ord. 5456, 2008.)

28.50.045 Prohibition of Shiny Roofing and Siding.

The materials used for roofing and siding on any building shall be of a non-reflective nature, and any shiny, mirror-like or glossy metallic finish for such materials is prohibited. (Ord. 5456, 2008.)

28.50.050 Building Height.

No building in this zone shall exceed a height of thirty feet (30’) nor exceed the height limitation imposed for the protection and enhancement of solar access by Chapter 28.11 of this Title. (Ord. 5456, 2008.)

28.50.060 Setback and Open Yard Requirements.

A. FRONT SETBACK. Each lot shall provide a front setback of not less than twenty feet (20’), except as permitted by Section 28.50.065.

B. INTERIOR SETBACKS. Each lot shall provide interior setbacks of not less than six feet (6’), except as permitted by Section 28.50.065.

C. REAR YARD SETBACKS. Each lot shall provide a rear setback of not less than six feet (6’), except that those lots abutting the open space drainage (identified as Lot 31 in Figure 4-7 of the 2008 Final Revised EIR) may be permitted to have a zero setback.

D. OPEN YARD:

1. Minimum Size: One area of 1,250 square feet
2. Minimum Dimensions: 20 feet by 10 feet
3. Maximum Slope: None
4. Location and Configuration:
   a. Open yard may consist of any combination of ground level areas such as: patios, ground floor decks, pathways, landscaped areas, natural areas, flat areas, or hillsides, so long as the overall size and dimensions of the open yard meet the requirements described in Section 28.50.060.D.1 and 2 above, and it is not located in any of the following areas:
      (1) A portion of the front yard; or
      (2) Any areas designed for use by motor vehicles, including, but not limited to, driveways and parking areas; or
      (3) On decks, patios, terraces or similar improvements, where the average height above grade is greater than 36”. Average height shall be calculated by measuring the height of each corner of the deck, adding those heights together, and dividing by the number of corners.
   b. If the open yard is provided on a slope greater than 20%, the open yard shall contain a flat area as follows:
      (1) Minimum size: 160 square feet
      (2) Minimum dimensions: 10 feet by 10 feet
      (3) Maximum slope: 2%
      (4) The flat area may be provided at grade, or on decks pursuant to Section 28.50.060.D.4.a.
   c. Lots with multiple frontages shall have a primary front yard designated by the property owner and agreed to in writing by the Community Development Director. All other front yards shall be designated as secondary front yards. Ground level open yard may be provided in the secondary front yard, up to ten feet (10’) from the front property line, provided that it is unobstructed and meets all other requirements.
      d. On lots of less than 7,000 square feet and an average slope of 20% or less, the following is required:
         (1) The open yard may be provided in one area, or in separate areas of not less than 400 square feet each (minimum dimensions of 20 feet by 10 feet required), and
         (2) Up to 850 square feet of the open yard may be provided in the remaining front yard, provided that it is unobstructed and meets the minimum dimensions required. (Ord. 5456, 2008.)
28.50.065 Reduction in Setback Requirements.

   A. FRONT SETBACK REDUCTION. The required front setback may be reduced to 15 feet when:
      1. The lot is less than 7,000 square feet and the required parking is provided in a detached garage in the rear
         yard; or
      2. The lot is a triangular lot of less than 7,000 square feet; or
      3. The subject lot abuts a private street.

   B. ATTACHED MAIN BUILDINGS. Main buildings may be constructed on an interior property line when
      attached to another main building on an adjacent property, as follows:
      1. The buildings are attached by not less than eight feet (8’) in length of one of the walls or roof, or not less
         than one hundred percent (100%) of any wall less than eight feet (8’) in length; and
      2. Said configuration shall be allowed for no more than four (4) lots within the zone, resulting in no more
         than two buildings containing two dwelling units.

   C. ACCESSORY BUILDINGS. Interior setbacks are not required for detached accessory buildings, screened
      trash areas, or attached porte cocheres not exceeding 14 feet wide by 18 feet long where three of the four sides are
      open, as approved by the City’s Single Family Design Board. (Ord. 5456, 2008.)

28.50.070 Distance Between Buildings.

   No main building shall be closer than twenty feet (20’) to any other main building on the same lot.
   (Ord. 5456, 2008.)

28.50.080 Lot Area and Frontage Requirements.

   Each single-family dwelling with its accessory buildings hereafter erected shall be located upon a lot having the
   following:
   A. A net area, excluding street rights-of-way and other publicly dedicated improvements, of not less than 5,000
      square feet, provided that a minimum average net lot area of 7,000 square feet shall be provided for all residential lots
      in Area A.
   B. Not less than 60 feet of frontage on a public or private street, except as the Planning Commission or City
      Council may allow by subdivision map approval at the Alan Road cul-de-sac, or by Modification. (Ord. 5456, 2008.)

28.50.085 Allowable Density of Development.

   The maximum number of residential units in this zone shall be twenty-three (23). However, if at least two
   affordable units are provided, the maximum number of residential units in this zone may be increased to twenty-five
   (25) units. (Ord. 5456, 2008.)

28.50.090 Open Space and Landscaping.

   Not less than 50 percent (50%) of the gross acreage of Area A shall be common open space devoted to planting,
   walkways, natural drainage features (e.g., bioswales, retention basins), riparian corridor, public agency access and
   passive recreational areas. (Ord. 5456, 2008.)

28.50.095 Street Requirements.

   In order to maintain a semi-rural ambiance, and where necessary to preserve natural terrain features or open space,
   the Planning Commission or City Council may grant exceptions to City street design standards as may be deemed
   necessary to assure that the intent of this Chapter is observed, that adequate public parking is provided, and the public
   welfare and safety secured. (Ord. 5456, 2008.)

28.50.100 Off-Street Parking.

   Off-street parking shall be provided as required in Chapter 28.90 of this Title. (Ord. 5456, 2008.)

28.50.105 Garages and Accessory Buildings.

   A. Detached accessory buildings shall not exceed two (2) stories or thirty feet (30’) in height.
   B. Accessory buildings, excluding garages, shall not have a total aggregate square footage in excess of 500
      square feet.
   C. Garages shall not have a total aggregate square footage in excess of 600 square feet. (Ord. 5456, 2008.)

A. Notwithstanding any other provision of this Code, residential structures in this zone, except as provided by Section 28.50.110.B below, shall not exceed a total net square footage of 3,800 square feet, excluding garages and accessory structures.

B. Notwithstanding any other provision of this Code, residential structures in this zone located adjacent to and with access from Alan Road shall not exceed a total net square footage of 2,500 square feet, excluding garages and accessory structures. Home size in this area shall be massed and designed to provide an appropriate transition to existing adjacent homes along Alan Road as determined appropriate by the Single Family Design Board.

C. All residential structures shall be located within the “Grading and Landscaping” envelope shown on the Conceptual Site Plan exhibit as approved by the City in connection with the subdivision of this real property.

D. All residential structures shall be located a minimum of one-hundred feet (100’) from the top of creek bank, which is defined as the Adjusted Top of Bank in Figure 4-4 of the certified Final Revised Environmental Impact Report for the Veronica Meadows Specific Plan, dated May 2008.

E. For the purposes of this Chapter, the term “net square footage” shall be defined and calculated in the manner which that term is used and calculated pursuant to SBMC Section 28.15.083. (Ord. 5456, 2008.)

28.50.115 Architectural Control.

All development within the SP-9 Zone shall be subject to the review and approval of the Single Family Design Board for consistency with the City’s Single Family Design Guidelines; however, home sizes shall not be subject to height or size limitations beyond those identified in Sections 28.50.050, 28.50.105 and 28.50.110, and no Floor Area Ratio maximums shall apply to the homes initially constructed within Area A, but shall apply thereafter. The grades of individual lots and roads shall blend with the natural topography of the site, minimize site grading, and balance on site earthwork to the maximum extent feasible. Where the Single Family Design Guidelines conflict with this Chapter, this Chapter shall govern proposed development, with emphasis on the Legislative Intent of the Zone (Section 28.50.005). (Ord. 5456, 2008.)

28.50.120 Exemption from SBMC Chapter 28.43.

Development within the SP-9 Zone shall be exempt from the Inclusionary Housing requirements of SBMC Chapter 28.43 – the “City of Santa Barbara Inclusionary Housing Ordinance.” (Ord. 5456, 2008.)

28.50.130 Affordable Housing Provision.

If Affordable Housing units are provided, the lots on which they are located shall be no less than 3,000 square feet in size. Said lots and associated development shall comply with the provisions of this Zone in all other aspects, unless said provisions are reduced through a Modification, pursuant to Chapter 28.92 of this Title. (Ord. 5456, 2008.)

28.50.140 Fencing.

Fencing within fifty feet (50’) of the top of creek bank, which is defined as the Adjusted Top of Bank in the certified Final Environmental Impact Report for the Veronica Meadows Specific Plan dated May 2008, shall be approved by the Community Development Director after being reviewed for comments only by the Single Family Design Board. Fencing abutting the open space drainage (identified as Lot 31 in Figure 4-7 of the Final Revised EIR) shall be open. All other fencing shall be subject to the provisions of Section 28.87.170 of this Title. (Ord. 5456, 2008.)

28.50.150 Area Map.

The map attached hereto as Exhibit A (dated as of June 24, 2008) and labeled “Veronica Meadows Specific Plan Area” is hereby approved and incorporated in this Chapter by this reference. (Ord. 5456, 2008.)
Chapter 28.51

C-O MEDICAL OFFICE ZONE

Sections:

28.51.001 In General.  
28.51.030 Uses Permitted.  
28.51.050 Building Heights.  
28.51.060 Setbacks.  
28.51.065 Area Requirements.  
28.51.081 Outdoor Living Space.  
28.51.100 Parking Requirements.  
28.51.110 Signs.  
28.51.115 Architectural Treatment.  
28.51.130 Development Plan Approval.  
28.51.131 Development Potential.

28.51.001 In General.

This is a zone which, because of its proximity to a major medical facility and its conformity with the General Plan, is deemed suitable for use for medical, dental and related professional offices as well as residences, under the following regulations. This zone also strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities. (Ord. 4005 § 4, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.51.030 Uses Permitted.

A. Any residential use permitted in the R-3 Limited Multiple-family Residence Zone.
B. Professional offices offering medical and related services, including the following: chiropodists, chiropractors, clinics, dentists, opticians, optometrists, osteopaths, physicians, surgeons and other similar medical offices as approved by the Planning Commission.
C. Hospitals, skilled nursing facilities and other similar buildings and facilities for the treatment of human ailments where facilities are provided for the keeping of patients overnight or longer, subject to the issuance of a conditional use permit and subject to the special procedural provisions prescribed in Chapter 28.94 of this Code.
D. Accessory buildings and accessory uses such as medical laboratories and prescription pharmacies.
E. Medical equipment and supply stores of no more than 3,000 square feet of net floor area. Medical equipment and supply stores of more than 3,000 square feet of net floor area are subject to the issuance of a Conditional Use Permit under Chapter 28.94 of this Code.
F. Banks of no more than 1,000 square feet of net floor area. Banks of more than 1,000 square feet of net floor area are subject to the issuance of a Conditional Use Permit issued under Chapter 28.94 of this Code.
G. Community care facilities, residential care facilities for the elderly, and hospices serving up to 12 individuals.
H. State-licensed Large Family Day Care Homes.
I. Birth Centers.
J. Other businesses and occupations that are substantially similar to the uses enumerated above, as determined and documented by the Community Development Director in a manner similar to the substantial conformance determination process provided in the adopted Planning Commission Guidelines. (Ord. 5459, 2008; Ord. 4858, 1994; Ord. 3943, 1978; Ord. 3882, 1977; 3413, 1970; Ord. 3398, 1970; Ord. 2868, 1962; Ord. 2585, 1957.)

28.51.050 Building Heights.

Three (3) stories and not to exceed forty-five feet (45'). Building height immediately adjacent to a residential zone(s) shall not exceed that allowed in the most restrictive adjacent residential zone for that part of the structure constructed a distance of twenty-three (23) feet or one-half (1/2) the height of the proposed structure, whichever is less. (Ord. 4005 § 5, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.51.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:

A. FRONT SETBACK. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures, and parking on the lot as follows:
   1. One- or two-story building or structure or uncovered parking: 10 feet
   2. Three-story building or structure: 15 feet; however, if the net floor area of the third floor is less than fifty percent (50%) of the net floor area of the first floor building footprint, the front setback shall be reduced as follows:
      a. Ground floor portions: 10 feet
      b. Second story portions: 10 feet
      c. Third story portions: 20 feet
   3. Covered parking: the setback applicable to the building in which the parking is provided as specified in A.1 or A.2 above.
B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. One- or two-story building or structure or uncovered parking: 6 feet
   2. Three-story building or structure: 10 feet; however, if the net floor area of the third floor is less than fifty percent (50%) of the net floor area of the first floor building footprint, the interior setback shall be reduced as follows:
      a. Ground floor portions: 6 feet
      b. Second story portions: 6 feet
      c. Third story portions: 10 feet
   3. Covered parking: the setback applicable to the building in which the parking is provided as specified in B.1 or B.2 above.

C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. Any building, structure or covered parking: 10 feet or ½ of the building height, whichever is greater.
   2. Driveways to parking areas serving exclusively residential uses: R-3/R-4 interior setback requirements.
   3. Driveways and parking areas serving nonresidential uses: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project. (Ord. 5459, 2008.)

28.51.065 Area Requirements.

None, except that all buildings or portions thereof used for dwelling purposes shall comply with the provisions of the R-3 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.51.081 Outdoor Living Space.

Any building in this zone developed exclusively for residential use or any mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

28.51.100 Parking Requirements.

Off-street parking shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 3413, 1970.)

28.51.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 3413, 1970.)

28.51.115 Architectural Treatment.

All buildings shall be designed to be compatible with the adjacent residential uses, to the satisfaction of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.51.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982; Ord 3413, 1970.)

28.51.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)
Chapter 28.54
C-P RESTRICTED COMMERCIAL ZONE

Sections:

28.54.001 In General.
28.54.030 Uses Permitted in the C-P Zone.
28.54.050 Building Height.
28.54.060 Setbacks.
28.54.070 Distance Between Buildings on the Same Lot.
28.54.080 Lot Area and Frontage Requirements.
28.54.081 Outdoor Living Space.
28.54.100 Parking Requirements.
28.54.110 Signs.
28.54.115 Architectural Control.
28.54.120 Development Plan Approval for Larger Buildings and Structures.
28.54.130 Development Plan Approval.
28.54.131 Development Potential.

28.54.001 In General.

The following regulations shall apply in the C-P Restricted Commercial Zone unless otherwise provided in this chapter. The zone strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities.

Land classified in a C-P Zone may also be classified in another zone and the following regulations shall apply in the C-P Restricted Commercial Zone unless otherwise provided in this chapter. (Ord. 4005 §7, 1979; Ord. 3710, 1974; Ord. 3499, 1972.)

28.54.030 Uses Permitted in the C-P Zone.

A. Any use permitted in the R-4, R-O and C-O Zones and subject to the use restrictions and limitations contained in the respective zone and in Section 28.54.130.

B. Any of the following uses:
   1. Art school.
   2. Automobile parking areas.
   3. Automobile service station or automobile service station/mini-market containing not more than six (6) pumps and limited to incidental tire and tube repairing, battery servicing, automobile lubrication and other minor automotive service and repair with a conditional use permit issued pursuant to Subsection 28.94.030.U of this Code.
   4. Bakery employing not more than ten (10) persons.
   5. Bank.
   7. Beauty shop.
   8. Billiard parlor.
   11. Caterer.
   13. Confectionery store.
   15. Dressmaking or millinery shop.
   17. Dry cleaning, pressing and laundry agency.
   18. Dry goods or notion store.
   19. Florist shop.
   20. Garden nursery.
   22. Grocery, fruit and vegetable store.
   23. Hardware store.
   24. Household appliance store and repair.
   25. Ice storage house of not more than five (5) ton capacity.
   27. Liquor store.
   28. Meat market or delicatessen.
   29. Music and vocal schools.
   30. Pet shop.
   31. Photographic shop.
   32. Restaurant, bar, tearoom or cafe.
33. Self-service laundry or dry cleaning.
34. Shoe store or shoe repair shop.
35. Stationery store.
36. Tailor, clothing or wearing apparel shop.
37. Television, radio store and repair.
38. Veterinary hospital for small animals provided;
   a. That no animals are to be boarded overnight except for medical reasons.
   b. That the building shall be designed so as to prevent the escape of all obnoxious odors and noises.
39. Wig shop.
40. Household hazardous waste collection facility, as defined in Section 28.04.405.
41. Accessory buildings and accessory uses, including a storage garage for the exclusive use of the patrons
   of the above stores or businesses.
42. Automobile rental, restricted to passenger vehicles, not including trailers, campers, trucks, recreational
   vehicles, etc., with the specific location subject to approval by the Planning Commission.
43. Other businesses and occupations that are substantially similar to the uses enumerated above, as
determined and documented by the Community Development Director in a manner similar to the substantial
conformance determination process provided in the adopted Planning Commission Guidelines.

C. The above specified stores, shops or businesses, to the extent that they sell merchandise shall sell only at
retail, shall sell only new merchandise, except for the resale of used merchandise acquired incidentally in the sale of
new merchandise, and shall be permitted only under the following conditions:
1. Such store, shop or business, except automobile service station and nursery shall be conducted entirely
   within an enclosed building.
2. Products made incidental to a permitted use shall be sold at retail on the premises. (Ord. 5459, 2008;
   Ord. 5380, 2005; Ord. 5040, 1998; Ord. 4858, 1994; Ord. 4825, 1993; Ord. 4033 §4, 1980; Ord. 3727, 1975.)

28.54.050 Building Height.

Three (3) stories and not exceeding forty-five feet (45'). Building height immediately adjacent to a residential
zone(s) shall not exceed that allowed in the most restrictive adjacent residential zone for that part of the structure
constructed within a distance of twenty-three (23) feet or one-half (1/2) the height of the proposed structure,
whichever is less. (Ord. 4005 §8, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.54.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:
A. FRONT SETBACK. A front setback of not less than ten (10) feet shall be provided between the front lot
line and all buildings, structures and parking on the lot.
B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than
the indicated distance shall be provided between an interior lot line that abuts a nonresidentially-zoned parcel and all
buildings, structures and parking on the lot as follows:
1. Nonresidential or mixed use buildings or structures: No setback required.
2. Exclusively residential buildings or structures: R-3/R-4 interior setback requirement.
3. All parking and driveways: No setback required.
C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the
indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all
buildings, structures, and parking on the lot as follows:
1. All buildings and structures: 10 feet or ½ the building height, whichever is greater.
2. Residential parking and driveways: R-3/R-4 interior setback requirements.
3. Nonresidential or mixed use parking and driveways: 5 feet, landscaped. In addition, a minimum six (6)
foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel,
except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of
Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the
design review body that reviews the project. (Ord. 5459, 2008.)

28.54.070 Distance Between Buildings on the Same Lot.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the
provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.54.080 Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the
provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)
28.54.081 Outdoor Living Space.

Any lot in this zone developed exclusively for residential use or developed with a mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

28.54.100 Parking Requirements.

Off-street parking and loading space shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.54.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.54.115 Architectural Control.

The architectural and general appearance of all buildings and grounds shall be substantially in accordance with the actions of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 3529, 1972; Ord. 2585, 1957.)

28.54.120 Development Plan Approval for Larger Buildings and Structures.

A. C-P Zone Development Plan Approval. Prior to the permitting and construction of any building or structure of 10,000 square feet or more of total floor area within the C-P Zone, a Development Plan shall be submitted for approval by the Planning Commission pursuant to the procedural and public noticing requirements of Santa Barbara Municipal Code Section 28.85.030.

B. C-P Development Plan Submittal Requirements. A Development Plan submitted pursuant to this Section shall, at a minimum, show the proposed building location on the site, the size, setbacks, floor area, floor plan and elevations, proposed parking lot design, footprints of adjacent structures, landscaping plan, and other information as prescribed by the Community Development Director, provided that such information is reasonably related to meeting the requirements of this Chapter.

C. Planning Commission Review. The Planning Commission may limit the allowed uses and the permissible building height for buildings and structures approved pursuant to this Section, and may impose additional setbacks requirements, where deemed necessary by the Planning Commission in order to secure an appropriate development and as deemed necessary to mitigate adverse impacts upon neighboring residential uses.

D. Required Findings. The Planning Commission, or City Council on appeal, shall make the following findings and impose conditions necessary to secure and perpetuate the basis for such findings, in order to approve a Development Plan submitted pursuant to this Section:

1. The proposed development complies with all of the provisions of this Title; and
2. The proposed development is consistent with the General Plan and the principles of sound community planning; and
3. The total area of the site and the setbacks of all facilities from the property and street lines are of sufficient magnitude in view of the character of the land and of the proposed development that major detrimental impact on surrounding properties is avoided to the greatest extent possible; and
4. The design and operation of the project and its components, including outdoor lighting and noise-generating equipment, will not be a nuisance to the use of property in the area, particularly residential use; and
5. Adequate access and off-street parking is provided in a manner and amount so that the demands of the development are met without altering the character of the public streets in the area; and
6. The appearance of the developed site in terms of the arrangement, height, size, bulk, scale and architectural style of the buildings, location of the parking areas, landscaping, and other features is compatible with the character of the area and of the City.

E. Appeals. A decision by the Planning Commission pursuant to this Section may be appealed in the manner provided for such appeals in Santa Barbara Municipal Code Section 28.85.070.

F. Expiration of Development Plans. The provisions of Santa Barbara Municipal Code Section 28.85.090 shall be applicable to Development Plans approved pursuant to this Section. (Ord. 5609, 2013; Ord. 5040, 1998.)

28.54.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982; Ord. 3529, 1972.)
28.54.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 28.57
C-L LIMITED COMMERCIAL ZONE

28.57.001 In General.

The following regulations shall apply in the C-L Limited Commercial Zone unless otherwise provided in this chapter. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.57.005 Legislative Intent.

The C-L Limited Commercial Zone is designed to be applied to a particular area of the City because of that area's unique characteristics and its relation to other zones and activities in the community. The land classified in this zone is located on State Street, which is described by the General Plan as being the principal street in the community reflecting the character of Santa Barbara and requiring, therefore, special treatment. State Street connects the Shoreline and Harbor areas, the Central Business District and Civic Center and the northside commercial and residential district.

The particular section of State Street for which this zone is designed is located above and adjacent to the Central Business District in close proximity to residential areas. General office, hotel and related commercial uses are appropriate and the General Plan so indicates. Also, certain commercial activities of a low intensity nature may be compatible in the commercial community established by this zone.

In all developments in this area, however, the City must exercise sufficient design, construction and operation controls to assure that the desirable characteristics of State Street in this area are maintained and enhanced and that the adjacent residential environment is protected and preserved, especially in terms of light, air and existing visual amenities. (Ord. 4005 §10, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.57.030 Uses Permitted in the C-L Zone.

A. Any use permitted in the R-O, C-O and R-4 Zones and subject to the use restrictions and limitations contained in the respective zone, except that any such use specifically mentioned hereafter shall be subject to the use restrictions of the C-L Zone.

B. Any of the following uses:
1. Antique shop.
2. Bank.
3. Barber, beauty shop, including hair stylist.
4. Candy, ice cream, pastry shop.
5. Caterer.
6. Child Care Center.
7. Delicatessen and specialty food store, including convenience grocery items.
8. Drug store and pharmacy, limited to stores carrying primarily drugs, personal care and health products.
10. Funeral parlor.
12. Household hazardous waste collection facility, as defined in Section 28.04.405 of this Title.
13. Interior decorating shop.
15. Liquor, wine store.
16. Photographic studio.
17. Restaurant.
18. Other businesses and occupations that are substantially similar to the uses enumerated above, as determined and documented by the Community Development Director in a manner similar to the substantial conformance determination process provided in the adopted Planning Commission Guidelines.

C. The above-specified stores, shops or businesses shall be permitted only under the following conditions:
   1. Merchandise shall be sold only at retail;
   2. Except for restaurants and child care centers, all activities shall be conducted entirely within an enclosed building;
   3. Products made incidental to a permitted use shall be sold at retail on the premises.

D. Accessory buildings and uses. (Ord. 5459, 2008; Ord. 4825, 1993; Ord. 3710, 1974; Ord. 2585, 1957.)

28.57.050 Building Height.

Three (3) stories and not exceeding forty-five feet (45'). Building height immediately adjacent to a residential zone(s) shall not exceed that allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of twenty-three (23) feet or one-half (1/2) the height of the proposed structure, whichever is less. (Ord. 4005 §11, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.57.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:

A. FRONT SETBACK. A front setback of not less than ten (10) feet shall be provided between the front lot line and all buildings, structures and parking on the lot.

B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially-zoned parcel and all buildings, structures and parking on the lot as follows:
   1. Nonresidential or mixed use buildings or structures: No setback required.
   2. Exclusively residential buildings or structures: R-3/R-4 interior setback requirement.
   3. All parking and driveways: No setback required.

C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. All buildings and structures: 10 feet or ½ the building height, whichever is greater.
   2. Residential parking and driveways: R-3/R-4 interior setback requirements.
   3. Nonresidential or mixed use parking and driveways: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project. (Ord. 5459, 2008.)

28.57.070 Distance Between Buildings on the Same Lot.

All buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.57.080 Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.57.081 Outdoor Living Space.

Any lot in this zone developed exclusively for residential use or developed with a mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

28.57.100 Parking Requirements.

Off-street parking and loading space shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)
28.57.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara.  (Ord. 3710, 1974; Ord. 3531, 1972; Ord. 2585, 1957.)

28.57.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code.  (Ord. 5609, 2013; Ord. 4140, 1982; Ord. 3710, 1974; Ord. 3531, 1972.)

28.57.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.  (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 28.60

C-X RESEARCH AND DEVELOPMENT
AND ADMINISTRATIVE OFFICE ZONE

28.60.150 Description of Operation and Number of Employees.  
28.60.200 Landscaping Requirements.

28.60.001 In General.

Land classified in a C-X Zone shall also be classified in another zone and the following regulations shall apply to the C-X Zone unless otherwise provided in this chapter; provided, however, that any area classified as a C-X Zone prior to May 11, 1967, shall remain so classified until an underlying zone shall have been applied to such previously existing C-X Zone.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.60.005 Legislative Intent.

It is the intent of this chapter to permit uses in the C-X Zone of the type described below at which the level and intensity of activity is commensurate with that of the surrounding residential area and the basic zone in which the site is located. The intensity of activity of a C-X facility may be considered to be directly related to the number of persons and vehicles traveling to and from the site during a given period of time. The appropriate maximum level of activity for a C-X site will vary considerably depending upon the location of the site, the basic zone category, access to appropriate collector and arterial streets and other similar factors. It is intended that the Planning Commission shall make the determination that the level of activity proposed for a C-X site is appropriate.  (Ord. 3710, 1974; Ord. 2585, 1957.)

28.60.030 Uses Permitted.

1. Research and development establishments and related administrative operations; provided that no manufacturing is permitted in a C-X Zone and further provided that such uses or operations are not hazardous, offensive or obnoxious by reason of the emission of odor, dust, heat, glare, gas fumes, smoke, vibrations, electromagnetic or other radiation resulting in radio or television interference, or by reason of the storage or disposal of waste materials or other products of such operations.
The word manufacturing as used herein shall mean the fabrication, assembly or production of articles other than prototypes or models used for experimentation or research. The word prototype is hereby defined as an original or model or pattern from which manufactured, fabricated or assembled products are developed or copied. No prototype, model or pattern shall be built, erected or constructed in a C-X Zone to a scale exceeding the ceiling height of the building in which it or they are erected, constructed or developed, and the erection, fabrication or assembly thereof shall be confined to the interior of the building.

2. Administrative offices, provided that:
   a. Such offices are not open to or visited by the general public for the purpose of receiving or disbursing goods, services, information, payments or other such routine or frequent activities.
   b. Personnel employment activities shall be limited to those involving personnel to be working at the C-X site.
   c. Classes or training program activities shall be incidental to the administrative use of the premises. The number of persons shall not exceed ten percent (10%) of the total number of employees regularly (daily) present at the site.
3. Radio and television transmitting and broadcasting stations, provided that:
   a. The height of any antenna or similar device exceeding the maximum allowable height established in Section 28.87.260 shall require a Conditional Use Permit (CUP) pursuant to Municipal Code Chapter 28.94. It is the intent of these administrative office provisions and restrictions to prohibit the conduct of retail, wholesale, service, professional or other business with the general public. These are activities which would cause a large increase in traffic to and from the facility. Necessary visits by service personnel and tradesmen, business calls and other activities normal to a strictly administrative function are intended to be allowed. (Ord. 4891, 1994; Ord. 3710, 1974; Ord. 3703, 1974; Ord. 2808, 1961.)

28.60.040 Operating Standards.

Any research and development or administrative office establishment situated in a C-X Zone shall comply with the following standards of performance and operation:
1. FIRE AND EXPLOSION HAZARDS. There shall be provided and maintained in a good and workable condition adequate and sufficient safety and fire suppression equipment and devices in such locations on the premises as may be necessary to prevent and suppress fire and explosion hazards wherever flammable or explosive materials are used or stored.
2. INCINERATION. There shall be no rubbish or refuse incineration on the premises.
3. RADIATION. All devices emitting radio frequency energy shall be operated in such a manner as to cause no interference with any activity carried on beyond the boundary of the premises of such establishment including but not limited to radio and television interference. Radio frequency energy is electromagnetic energy at any frequency in the radio spectrum between ten (10) kilocycles and three (3) million megacycles.
4. NOISE. See Chapter 9.16 of this Code for noise standards.
5. VIBRATION. No equipment, machinery or facility in such establishment shall be operated so as to produce or generate vibration which is perceptible without the aid or instruments to a person of ordinary sensibilities at or beyond the boundary line of the premises.
6. EMISSION OF DUST, HEAT AND GLARE. No such establishment shall be operated in a manner resulting in the emission of dust or other substances susceptible of being transmitted through the air, or heat or glare to an extent or degree permitting such emission or emissions to extend beyond the boundary line of the premises.
7. OUTDOOR STORAGE AND WASTE DISPOSAL. All fuel, raw materials, equipment and products used outside the building of such establishment shall be enclosed by a fence, wall or shrubbery planting adequate to conceal such facility from adjacent or nearby residential property. The removal or transference from the premises of such establishment of any such fuel, raw materials or products by natural forces or causes shall be prevented. Suitable closed containers shall be provided and used for the storage of any materials or water products which by their nature are combustible, volatile, dust or odor producing or edible or attractive to rodents, vermin or insects. (Ord. 4159, 1982; Ord. 3710, 1974; Ord. 3409, 1970; Ord. 2808, 1961.)

28.60.045 Site Area Standards.

A C-X site shall consist of a lot or lots for the location of a single C-X establishment and in the aggregate such site shall consist of not less than two (2) acres in area, provided that in the event topographic features involving steep slopes, gullies or ravines render such two (2) acre minimum size inadequate for the restrictive purposes of this article, the Planning Commission may recommend and the City Council may require additional area to be included in the site as may be reasonably necessary to effect the purpose and intent of this chapter. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.60.050 Building Height.

No building in a C-X Zone shall exceed one (1) story or twenty feet (20') in height. (Ord. 3710, 1974; Ord. 2808, 1961; Ord. 2585, 1957.)
28.60.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:
A. FRONT SETBACK. A front setback of not less than thirty five (35) feet shall be provided between the front lot line and all buildings, structures and parking on the lot.
B. INTERIOR SETBACK. An interior setback of not less than twenty five (25) feet shall be provided between the interior lot line and all buildings, structures and parking on the lot. (Ord. 5459, 2008.)

28.60.063 Maximum Site Coverage.

Not more than twenty-five percent (25%) of the total area comprising the site of a C-X establishment shall be covered with buildings or structures and not more than thirty percent (30%) of such area shall be used for open parking, loading or delivery uses. (Ord. 3710, 1974; Ord. 2808, 1961; 2585, 1957.)

28.60.100 Parking Requirements.

Off-street parking shall be provided as required in Chapter 28.90 of this ordinance. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.60.115 Architectural Control.

The plans and elevations for all buildings and structures to be erected in a C-X Zone shall be reviewed by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, and alterations are proposed. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.60.120 Street Frontage Requirements.

Each C-X site shall have street frontage and single side dimensions of not less than one hundred fifty feet (150') each. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.60.130 Development Plan.

Before any building or structure is hereafter erected on a C-X site a development plan of said site shall be prepared and submitted by the owner or developer, drawn to a scale of not less than one inch (1") to equal thirty feet (30'), and showing the proposed development of such site. Such development plan shall show the following information:
1. All buildings existing and proposed, together with the elevation thereof, and showing the outline of exterior walls and roof overhang, including covered walkways.
2. All outside walkways, driveways, service areas and other developments existing and proposed to the centerline of any adjoining street.
3. Parking lot layout, showing detail of stalls and landscaping.
4. Site grading, showing detail of slope treatment including but not limited to planting and erosion control, provided that said grading plan and layout may be submitted on a separate plan.
5. Said plan shall be submitted for approval to the Planning Commission. (Ord. 4361, 1986; 3710, 1974; Ord. 3538, 1972; Ord. 2808, 1961.)

28.60.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

28.60.140 Construction and Maintenance of Site and Buildings.

Following approval of the foregoing required development plan and landscaping plan as aforesaid, the owner or developer of such C-X site shall construct said buildings and install such landscaping in strict accordance with said plans and without material or substantial deviation therefrom, and said buildings and landscaping shall be thereafter maintained in a clean and orderly condition. In order that said premises or establishment, or any part thereof, shall not become offensive or obnoxious to persons occupying residential properties in sight thereof. (Ord. 4361, 1986; Ord. 3710, 1974; Ord. 2808, 1961.)
28.60.150  Description of Operation and Number of Employees.

Before a C-X site or portion thereof is occupied for any purpose permitted by this chapter, the owner or his agent shall submit to the Division of Land Use Controls a description of the operation proposed for the site together with a statement of the maximum number of employees to be present at the site. The Planning Commission shall review these submissions for conformance with the intent of this chapter and may approve, approve with conditions or disapprove the occupancy as described. Following any such approval by the Planning Commission, the premises shall only be occupied in a manner substantially in accordance with such approval and, specifically, at no time shall the number of employees at the site exceed the maximum number approved. (Ord. 3710, 1974; Ord. 3409, 1970.)

28.60.200  Landscaping Requirements.

The portion of the C-X establishment site area not covered by buildings or structures, parking, driveways or walkways, shall be landscaped according to a plan for such landscaping approved by the City Park and Recreation Commission, as hereinafter provided. There shall also be prepared and submitted by the owner or developer, a landscaping plan and layout prepared by a licensed landscape architect or a licensed landscape contractor, and such plan shall cover all of the site not used for buildings, parking or service areas. The landscaping plan shall be submitted to the Planning Commission with the site development plan, and to the Board of Park and Recreation Commissioners for the recommendation of each of such commissions to the City Council. (Ord. 3710, 1974; Ord. 2585, 1957.)

### 28.63.001 In General.

The following regulations shall apply in the C-1 Limited Commercial Zone unless otherwise provided in this chapter. This zone strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities.

Land classified in a C-1 Zone may also be classified in another zone and the following regulations shall apply in the C-1 Zone, unless otherwise provided in this chapter. (Ord. 4005 §13, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

### 28.63.030 Uses Permitted in the C-1 Zone.

A. Any use permitted in the R-4, R-O and C-O Zones and subject to the use restrictions and limitations contained in the respective zone and in Section 28.63.130, except as otherwise provided in Subsection B. herein.

B. When land classified in a C-1 Zone is also classified in another zone, as provided in Section 28.63.001, uses shall be limited to the following:

1. Any use permitted in Subsection C. herein;
2. Any use permitted in the other zone in which the land is classified and when so used subject to the restrictions and limitations contained therein.

C. Any of the following uses:

1. Antique shop.
2. Bank.
3. Barber shop.
4. Beauty shop.
5. Billiard parlor.
7. Caterer.
8. Child Care Center.
9. Clothing store.
10. Club or lodge.
11. Confectionery store.
12. Dressmaking or millinery shop.
14. Dry cleaning, pressing and laundry agency.
15. Dry goods or notion store.
16. Florist.
17. Garden nursery.
18. Gift shop.
19. Grocery, fruit and vegetable store.
20. Hardware store.
23. Household hazardous waste collection facility, as defined in Section 28.04.405 of this Title.
24. Ice storage house of not more than five (5) ton capacity.
25. Interior decorator.
29. Liquor store.
30. Meat market or delicatessen store.
31. Offices: general, administrative, business, professional, public.
32. Pet store.
33. Photographer.
34. Photographic store.
35. Research and development.
36. Restaurant and bar.
37. Self-service laundry and dry cleaning.
38. Shoe store, shoe repair.
39. Stationery store.
40. Tailor.
41. Television and radio store and repair.
42. Veterinary hospital for small animals, provided:
   a. That no animals are to be boarded overnight except for medical reasons.
   b. The building shall be designed so as to prevent the escape of all obnoxious odors and noises.
43. Wig shop.
44. Accessory buildings and accessory uses, including a storage garage for the exclusive use of the patrons of the above stores or businesses.
45. Other businesses and occupations that are substantially similar to the uses enumerated above, as determined and documented by the Community Development Director in a manner similar to the substantial conformance determination process provided in the adopted Planning Commission Guidelines.

D. The above-specified stores, shops or businesses shall be permitted only under the following conditions:
   1. Such stores, shops or businesses, except automobile service stations, child care centers, and nurseries, shall be conducted entirely within an enclosed building.
   2. Products made incidental to a permitted use shall be sold at retail on the premises.  (Ord. 5459, 2008; Ord. 5380, 2005; Ord. 4825, 1993; Ord. 4033 §5, 1980; Ord. 3710, 1974; Ord. 3461, 1970; Ord. 3421, 1970; Ord. 3398, 1970.)

28.63.050 Building Height.

Three (3) stories and not exceeding forty-five feet (45'). Building height immediately adjacent to a residential zone(s) shall not exceed that allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of twenty-three (23) feet or one-half (1/2) the height of the proposed structure, whichever is less.  (Ord. 4005 §14, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.63.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:
A. FRONT SETBACK. A front setback of not less than ten (10) feet shall be provided between the front lot line and all buildings, structures and parking on the lot.
B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially-zoned parcel and all buildings, structures and parking on the lot as follows:
   1. Nonresidential or mixed use buildings or structures: No setback required.
   2. Exclusively residential buildings or structures: R-3/R-4 interior setback requirement.
   3. All parking and driveways: No setback required.
C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. All buildings and structures: 10 feet or 1/2 the building height, whichever is greater.
   2. Residential parking and driveways: R-3/R-4 interior setback requirements.
   3. Nonresidential or mixed use parking and driveways: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project.  (Ord. 5459, 2008.)

28.63.070 Distance Between Buildings on the Same Lot.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone.  (Ord. 3710, 1974; Ord. 2585, 1957.)
28.63.080 Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.63.081 Outdoor Living Space.

Any lot in this zone developed exclusively for residential use or developed with a mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

28.63.100 Parking Requirements.

Off-street parking and loading space shall be provided as required in Chapter 28.90 of this title. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.63.110 Signs.

Signs shall be permitted in this zone only as provided in the Sign Ordinance of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 3531, 1972.)

28.63.115 Architectural Control.

The architectural and general appearance of all buildings and grounds shall be in accordance with the action of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. (Ord. 4851, 1994; Ord. 3710, 1974; Ord. 2585, 1957.)

28.63.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982; Ord. 3710, 1974; Ord. 2585, 1957.)

28.63.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 28.66

C-2 COMMERCIAL ZONE

Sections:
28.66.001 In General. 28.66.080 Lot Area and Frontage Requirements.
28.66.030 Uses Permitted. 28.66.081 Outdoor Living Space.
28.66.050 Building Height. 28.66.082 Development Plan Approval.
28.66.060 Setbacks. 28.66.070 Distance Between Buildings on the Same Lot. 28.66.131 Development Potential.

28.66.001 In General.

The following regulations shall apply in the C-2 Commercial Zone unless otherwise provided in this chapter. This zone strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities. (Ord. 4005 §16, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)
28.66.030 Uses Permitted.

A. Any use permitted in the C-P Zone and subject to the use restrictions and limitations contained in that zone, except that any such use specifically mentioned hereafter shall be subject to the restrictions of the C-2 Zone.

B. Such use shall not be inimical to the public health, welfare, safety or morals by reason of the offering to distribute, or distributing or exhibition to members of the public of any obscene matter as defined in Section 311 of the Penal Code of the State of California.

C. Any of the following uses:
   1. Retail, wholesale or service store or business provided that there shall be no manufacturing, assembly, processing or compounding or products other than such as are customarily incidental or essential to such establishments and provided further that there shall be not more than ten (10) persons engaged in any such manufacture, processing or treatment of products, and not more than fifty percent (50%) of the floor area of the building is used in the treatment, manufacture or processing of products, and that such operations are not objectionable due to noise, odor, dust, smoke, vibration or other similar causes.
   2. Advertising sign board or structure.
   3. Automobile parking area.
   4. Automobile super service station or automobile service station/mini-market including automobile laundry or car wash and auto steam cleaning establishment provided that all tire and tube repairing, battery, servicing and steam cleaning shall be conducted wholly within a building with a conditional use permit issued pursuant to Subsection 28.94.030.U of this Code.
   5. Bakery employing not more than twenty (20) persons on premises.
   6. Bath, Turkish and the like.
   7. Billiard or pool hall or bowling alley.
   8. Blueprinting and photostating shop.
   9. Church.
   10. Cleaning and pressing establishment using non-inflammable and non-explosive cleaning fluid.
   11. Conservatory of music.
   12. Contractor - no outside storage or storage of heavy equipment.
   13. Department store.
   15. Electric distributing substation.
   16. Funeral parlor.
   17. Furniture warehouse for storing personal household goods.
   19. Hospital, clinic or skilled nursing facility.
   20. Interior decorating shop.
   21. Medical laboratory.
   22. Parking garage, public.
   23. Pest control.
   24. Plumbing shop.
   25. Printing, lithographing or publishing establishment.
   26. Public parking area.
   27. Radio and television store.
   29. Restaurant, tea room or cafe.
   30. Skating rink.
   31. Storage garage, including repairing and servicing.
   32. Studio.
   33. Taxidermist.
   34. Telephone exchange.
   35. Theater or auditorium (except drive-in theater).
   36. Trade school, not objectionable due to noise, odor, dust, smoke, vibration or other similar causes.
   37. Trailer and equipment sales and rental - non-industrial use.
   38. Upholstery shop.
   39. Used car sales area, provided that no repair or reconditioning of automobiles shall be permitted, except when enclosed in a building.
   40. Wedding chapel.
   41. Other businesses and occupations that are substantially similar to the uses enumerated above, as determined and documented by the Community Development Director in a manner similar to the substantial conformance determination process provided in the adopted Planning Commission Guidelines.

28.66.050 Building Height.

A. Maximum Building Height. No building in this zone shall exceed a height of four (4) stories, nor shall any building exceed a height of sixty feet (60').

B. Community Benefit Projects. Notwithstanding the maximum building height specified in subsection A above, no building constructed in this zone after the effective date of the ordinance enacting this Chapter shall exceed a height of forty five feet (45') unless the project qualifies as a Community Benefit Project or a Community Benefit Housing Project, and the Planning Commission expressly makes all of the following findings:

1. Demonstrated Need. The applicant has adequately demonstrated a need for the project to exceed 45 feet in building height that is related to the project’s benefit to the community, or due to site constraints, or in order to achieve desired architectural qualities;

2. Architecture and Design. The project will be exemplary in its design;

3. Livability. If the project includes residential units, the project will provide amenities to its residents which ensure the livability of the project with particular attention to good interior design features such as the amount of light and air, or ceiling plate heights;

4. Sensitivity to Context. The project design will complement the setting and the character of the neighboring properties with sensitivity to any adjacent federal, state, and City Landmarks or any nearby designated Historic Resources, including City-designated Structures of Merit.

C. Buildings Adjacent to Residential Zones. The building height of a building which will be immediately adjacent to a residential zone shall not exceed the height allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of thirty (30) feet or one-half (1/2) the height of the proposed structure, whichever is less, provided, however, a project which qualifies as a Community Benefit Project or a Community Benefit Housing Project under Subsection B above need not comply with this requirement.

D. Theater Additions. Notwithstanding the provisions of SBMC Section 28.04.140, a stage addition to a live performance theater shall not be considered as part of the height of the building under the following circumstances:

1. the stage addition is devoted solely to rigging fly systems;
2. the addition is made to a theater that existed as of December 31, 2003, and
3. the stage addition does not exceed the height of the theater as such theater existed on December 31, 2003.

E. Timing and Procedure for Projects Requiring the Planning Commission Building Height Findings.

1. Conceptual Design Review. Prior to the Planning Commission considering an application for a Community Benefit Project or a Community Benefit Housing Project pursuant to this section, a project shall receive conceptual design review by the Historic Landmarks Commission or the Architectural Board of Review as required by SBMC Title 22.

2. Planning Commission Consideration of Findings.
   a. Design Review Projects. If a project only requires design review by the ABR or HLC under SBMC Title 22, the Planning Commission shall review and consider the building height findings of this Section after conceptual design review and before consideration of the project by the ABR or ABR for Project Design approval.
   b. Staff Hearing Officer Projects. If a project requires the review and approval of a land use permit by the Staff Hearing Officer, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for the consideration of the land use permit by the Staff Hearing Officer.
   c. Planning Commission Projects. If a project requires the review and approval of a land use permit by the Planning Commission, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for review by the Development Application Review Team (DART) and before the consideration of the land use permit by the Planning Commission.
   d. Appeals from the Planning Commission Determination. A decision of the Planning Commission regarding the building height findings is appealable to the City Council pursuant to the provisions of Chapter 1.30 of this Code. (Ord. 5630, 2013; Ord. 5459, Section 3, 2008; Ord. 5341, 2004; Ord. 4005, 1979; Ord. 3710, 1974; Ord. 3587, 1973.)

28.66.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:

A. FRONT SETBACK. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures and parking on the lot as follows:

1. Nonresidential or mixed use buildings, structures and parking: No setback required.
2. Exclusively residential buildings, structures and parking: R-3/R-4 front setback requirement.

B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially-zoned parcel and all buildings, structures and parking on the lot as follows:

1. Nonresidential or mixed use buildings or structures: No setback required.
2. Exclusively residential buildings or structures: R-3/R-4 interior setback requirement.
3. All parking and driveways: No setback required.
C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures, and parking on the lot as follows:
1. All buildings and structures: 10 feet or ½ the building height, whichever is greater.
2. Residential parking and driveways: R-3/R-4 interior setback requirements.
3. Nonresidential or mixed use parking and driveways: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project. (Ord. 5459, 2008.)

28.66.070 Distance Between Buildings on the Same Lot.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.66.080 Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.66.081 Outdoor Living Space.

Any lot in this zone developed exclusively for residential use or developed with a mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

28.66.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982.)

28.66.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 28.69
C-M COMMERCIAL MANUFACTURING ZONE

Sections:
28.69.001 In General. 28.69.081 Outdoor Living Space.
28.69.030 Uses Permitted. 28.69.081 Lot Area and Frontage Requirements.
28.69.050 Building Height. 28.69.130 Development Plan Approval.
28.69.060 Setbacks. 28.69.131 Development Potential.
28.69.070 Distance Between Buildings on the Same Lot. 28.69.001 In General.

The following regulations shall apply in the C-M Commercial Manufacturing Zone unless otherwise provided in this chapter. This zone strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities. (Ord. 4005 §19, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)
28.69.030 Uses Permitted.

A. Any use permitted in the C-2 Zone and subject to the use restrictions and limitations contained in that zone, except that any such use specifically mentioned hereafter shall be subject to the restrictions of the C-M Zone.

B. Any of the following uses, provided that such operations, manufacturing, processing or treatment of products are not obnoxious or offensive by reason of emission of odor, dust, gas, fumes, smoke, liquids, wastes, noise, vibrations, disturbances or other similar causes which may impose hazard to life or property:

1. Automobile body shop.
2. Automobile paint shop.
5. Building contractor and material storage.
6. Cabinet shop.
7. Canvas and canvas products manufacturing.
8. Car wash.
10. Cleaning and dyeing.
12. Draying and truck yard or terminal.
14. Emergency Shelters in compliance with Chapter 28.79.
15. Equipment and trailer rental and storage.
17. House moving.
18. Laundry.
19. Lumber yard.
21. Plating works.
22. Produce warehouse.
23. Research and development establishment and related administrative operations.
24. Rug cleaning.
25. Sheet metal shop.
27. Storage warehouse.
28. Tire retreading.
29. Veterinary hospital.
30. Other businesses and occupations that are substantially similar to the uses enumerated above, as determined and documented by the Community Development Director in a manner similar to the substantial conformance determination process provided in the adopted Planning Commission Guidelines.

C. Accessory buildings and accessory uses. (Ord. 5662, 2014; Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3398, 1970; Ord. 3120, 1966.)

28.69.050 Building Height.

A. Maximum Building Height. No building in this zone shall exceed a height of four (4) stories, nor shall any building exceed a height of sixty feet (60').

B. Community Benefit Projects. Notwithstanding the maximum building height specified in subsection A above, no building constructed in this zone after the effective date of the ordinance enacting this Chapter shall exceed a height of forty five feet (45') unless the project qualifies as a Community Benefit Project or a Community Benefit Housing Project, and the Planning Commission expressly makes all of the following findings:

1. Demonstrated Need. The applicant has adequately demonstrated a need for the project to exceed 45 feet in building height that is related to the project’s benefit to the community, or due to site constraints, or in order to achieve desired architectural qualities;

2. Architecture and Design. The project will be exemplary in its design;

3. Livability. If the project includes residential units, the project will provide amenities to its residents which ensure the livability of the project with particular attention to good interior design features such as the amount of light and air, or ceiling plate heights;

4. Sensitivity to Context. The project design will complement the setting and the character of the neighboring properties with sensitivity to any adjacent federal, state, and City Landmarks or any nearby designated Historic Resources, including City-designated Structures of Merit.

C. Buildings Adjacent to Residential Zones. The building height of a building which will be immediately adjacent to a residential zone shall not exceed the height allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of thirty (30) feet or one-half (1/2) the height of the proposed structure, whichever is less, provided, however, a project which qualifies as a Community Benefit Project or a Community Benefit Housing Project under Subsection B above need not comply with this requirement.
D. Timing and Procedure for Projects Requiring the Planning Commission Building Height Findings.

1. Conceptual Design Review. Prior to the Planning Commission considering an application for a Community Benefit Project or a Community Benefit Housing Project pursuant to this section, a project shall receive conceptual design review by the Historic Landmarks Commission or the Architectural Board of Review as required by SBMC Title 22.

2. Planning Commission Consideration of Findings.
   a. Design Review Projects. If a project only requires design review by the ABR or HLC under SBMC Title 22, the Planning Commission shall review and consider the building height findings of this Section after conceptual design review and before consideration of the project by the HLC or ABR for Project Design approval.
   b. Staff Hearing Officer Projects. If a project requires the review and approval of a land use permit by the Staff Hearing Officer, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for the consideration of the land use permit by the Planning Commission.
   c. Planning Commission Projects. If a project requires the review and approval of a land use permit by the Planning Commission, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for review by the Development Application Review Team (DART) and before the consideration of the land use permit by the Planning Commission.
   d. Appeals from the Planning Commission Determination. A decision of the Planning Commission regarding the building height findings is appealable to the City Council pursuant to the provisions of Chapter 1.30 of this Code. (Ord. 5630, 2013; Ord. 4005 §20, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.69.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:

A. FRONT SETBACK. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures and parking on the lot as follows:
   1. Nonresidential or mixed use buildings, structures and parking: No setback required.
   2. Exclusively residential buildings, structures and parking: R-3/R-4 front setback requirement.

B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially-zoned parcel and all buildings, structures and parking on the lot as follows:
   1. Nonresidential or mixed use buildings or structures: No setback required.
   2. Exclusively residential buildings or structures: R-3/R-4 interior setback requirement.
   3. All parking and driveways: No setback required.

C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures and parking on the lot as follows:
   1. All buildings and structures: 10 feet or ½ the building height, whichever is greater.
   2. Residential parking and driveways: R-3/R-4 interior setback requirements.
   3. Nonresidential or mixed use parking and driveways: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project. (Ord. 5459, 2008.)

28.69.070 Distance Between Buildings on the Same Lot.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.69.080 Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.69.081 Outdoor Living Space.

Any lot in this zone developed exclusively for residential use or developed with a mixed use development shall provide outdoor living space in accordance with the provisions of the R-3/R-4 Zone as stated in Section 28.21.081 of this Code. (Ord. 5459, 2008.)

520-1  rev. 12/31/14
28.69.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982.)

28.69.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)
Chapter 28.70
HC - HARBOR COMMERCIAL ZONE

Sections:
28.70.001 In General.
28.70.030 Uses Permitted in the Harbor and Shoreline Area.
28.70.050 Building Height Standards.
28.70.090 Coastal Zone Review.
28.70.131 Development Potential.

28.70.001 In General.

The regulations contained in this Chapter shall apply in the Harbor Commercial Zone unless otherwise provided in this Title. The Zone strives to assure that the harbor will remain primarily a working harbor with visitor-serving and ocean-related uses secondary to ocean-dependent uses, and that Stearns Wharf will consist of a mixture of visitor-serving, and ocean-dependent and ocean-related uses. In addition, this zone is intended to provide a desirable environment by preserving and protecting surrounding land uses in terms of light, air and existing visual amenities. (Ord. 4428, 1986; Ord. 4170, 1982.)

28.70.030 Uses Permitted in the Harbor and Shoreline Area.

In all areas of the Harbor Commercial Zone the following uses are permitted provided that such operations, manufacturing, processing or treatment of products are not obnoxious or offensive by reason of emission of odor, dust, gas, fumes, smoke, liquids, waste, noise, vibrations, disturbances or other similar causes which may impose a hazard to life and property. Within the Harbor Commercial Zone the primary uses listed below shall be the predominant uses for the harbor and shoreline area.

A. Primary harbor uses:
   1. Marinas, boat moorings, marine service stations, boat yard/repair facilities and related activities.
   3. Seafood processing.
   4. Services necessary for commercial fishing activities, including such facilities as net repair areas, hoists and ice machines and storage areas.
   5. Other ocean-dependent uses as deemed appropriate by the Planning Commission.

B. Secondary harbor uses:
   1. Museums and other cultural displays relating to the ocean.
   2. Bait and tackle shops.
   3. Boat sales, storage, construction and/or repair.
   4. Diving gear, boat, surfing and other ocean-related equipment rental.
   5. Fast food restaurants, other restaurants, and restaurants with entertainment and meeting facilities used in conjunction with the restaurant.
   6. Marine equipment and accessories sales and/or repair.
   7. Marine storage.
   9. Offices of businesses or persons engaged exclusively in ocean-related activities.
   11. Sail manufacturing and/or repair.
   12. Seafood sales and processing.
   13. Marine oriented specialty and gift shops.
   14. Stores which sell liquor, groceries and food which do not exceed 2,500 square feet in gross floor area.
   15. Household hazardous waste collection facilities as defined in Section 28.04.405 of this Title and exclusively serving the area within the H-C Zone.
   16. Other ocean-related uses as deemed appropriate by the Planning Commission.

C. Stearns Wharf uses:
   1. Art galleries.
   2. Bait and tackle shops.
   3. Boat sales, storage, construction and/or repair.
   4. Diving gear, boat, surfing and other ocean-related equipment rental.
   5. Fast food restaurants, other restaurants and restaurants with entertainment facilities used in conjunction with the restaurant.
   6. Marine equipment and accessories sales and/or repair.
   7. Marine service stations.
10. Museums and other cultural displays relating to the ocean.
11. Offices of businesses or persons engaged in ocean-related activities.
12. Sail manufacturing and/or repair.
13. Seafood sales and processing.
14. Specialty and gift shops.
15. Stores which sell liquor, groceries and food which do not exceed 2,500 square feet in gross floor area.
16. Other ocean-dependent, ocean-related and visitor-serving uses as deemed appropriate by the Planning Commission.

D. Five year review of uses:
At least once every five (5) years from March 30, 1993, the Board of Harbor Commissioners shall review the extent and nature of the uses existing in the Harbor and shoreline area of the HC Zone and make a recommendation to the Planning Commission regarding the adequacy of ocean-dependent uses (Harbor primary uses) in relation to ocean-related and visitor-serving uses (Harbor secondary uses) in order to assure that the harbor remains a working harbor. A review of the mix of uses may occur at any other time at the direction of the Board of Harbor Commissioners or Planning Commission. Subsequent reviews shall be at five (5) year intervals thereafter. The Coastal Commission shall receive a copy of the recommendation and accompanying background materials associated with each review. (Ord. 5459, Section 3, 2008; Ord. 4825, 1993; Ord. 4808, 1993; Ord. 4428, 1986; Ord. 4170, 1982.)

28.70.050 Building Height Standards.

Two (2) stories not to exceed thirty (30) feet. (Ord. 4428, 1986; Ord. 4170, 1982.)

28.70.090 Coastal Zone Review.

All development in the Coastal Overlay Zone S-D-3, is subject to review pursuant to Chapter 28.44 of this Code. (Ord. 5417, 2007; Ord. 4428, 1986; Ord. 4170, 1982.)

28.70.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 28.71

OC Ocean-Oriented Commercial Zone

Sections:

28.71.010 In General.
28.71.020 Uses Permitted.
28.71.040 Coastal Zone Review.
28.71.050 Development Potential.
28.71.060 Building Height Standards.
28.71.070 Lot Area, Frontage, and Outdoor Living Space Requirements.
28.71.080 Parking Requirements.

28.71.010 In General.

The regulations contained in this Chapter shall apply in the OC Zone unless otherwise provided in this Title. This zone strives to achieve balanced use of the City's Waterfront and maintain the small scale, local character that is unique to the Waterfront area. Land uses shall be encouraged in this zone that maintain and enhance the desirability of the Waterfront as a place to work, visit, and live. This zone is intended to foster a vital, mixed use neighborhood and preserve and protect the coastal environment in terms of light, air, and visual amenities.

Land classified in the OC zone may also be classified in the HRC-2 (Hotel and Related Commerce 2) zone and those land uses authorized within the HRC-2 zone are also allowed uses within the dual OC/HRC-2 zone. (Ord. 5343, 2005.)
28.71.020 Uses Permitted.

Any of the following uses are permitted, provided that such operations, manufacturing, processing, or treatment of products are not obnoxious or offensive by reason of emission of odor, dust, gas, fumes, smoke, liquids, wastes, noise, vibrations, disturbances, or other similar causes which may impose hazard to life or property:

1. Ocean-dependent and ocean-oriented uses such as:
   a. Aquaculture facilities.
   b. Boat and boat trailer rental.
   c. Marine equipment and accessories manufacturing, sales, repair, storage, or rental.
   d. Marine-oriented government facilities.
   e. Marine research and development facilities.
   f. Offices of businesses engaged in ocean-related activities.
   g. Boat and sail manufacturing and repair.
   h. Seafood processing, wholesaling, storage, and related activities.
   i. Services necessary for commercial fishing activities, including such facilities as net repair areas, ice machines, and storage areas.
   j. Ocean-oriented educational facilities.

2. Commercial recreational uses such as:
   a. Bicycle, roller skating, moped, dive gear, boating, surfing, and other recreational equipment rental, sales, manufacturing, and repair.
   b. Public or private parks or recreational facilities.

3. Arts related uses such as:
   a. Art galleries (may include sales).
   b. Art schools.
   c. Art studios/workspaces (may include sales).
   d. Blueprinting, photostatting, printing, lithographing, or publishing establishments.
   e. Industrial arts and crafts uses, including, but not limited to, framing, jewelry making, metallurgy, pottery, sculpture, specialty sewing/monogramming, and weaving (industrial arts and crafts uses may include sales).
   For the purposes of this Chapter, the term "art" shall be defined as the creative application of a specific skill, the purpose of which is to create objects of form or beauty.

4. Restaurants.

5. Residential Uses.
   a. Generally. Any use permitted in the R-3 zone is allowed in the area bounded by Helena Avenue on the west, the existing railroad right-of-way on the south, Garden Street on the east and Highway 101 on the north, subject to the restrictions and limitations contained in this Chapter so long as the R-3 use is constructed as a project providing a mix of allowed non-residential and residential use where the residential use will not exceed 70 percent of the total building floor area of the development project.

5. Residential Uses.
   a. Generally. Any use permitted in the R-3 zone is allowed in the area bounded by Helena Avenue on the west, the existing railroad right-of-way on the south, Garden Street on the east and Highway 101 on the north, subject to the restrictions and limitations contained in this Chapter so long as the R-3 use is constructed as a project providing a mix of allowed non-residential and residential use where the residential use will not exceed 70 percent of the total building floor area of the development project.

   Any parcel of 5500 square feet or less which exist as of the date of the adoption of the ordinance codifying this amendment to Chapter 28.71 and which is not contiguous to another adjacent parcel(s) which is held in common ownership shall be exempt from the above-described mixed-use requirements.

   b. Affordable Housing Projects. Development projects comprised exclusively of units affordable to very low, low, or moderate income households (as evidenced by the recordation of long-term affordability covenants consistent with the City’s Affordable Housing Policies and Procedures) shall be exempt from the above-stated mixed-use requirements for this zone.

   c. Existing Residential Buildings. Residential buildings which exist at the time of the adoption of the Ordinance enacting this Chapter (as established by the existence of a valid certificate of occupancy issued by the City), shall not be deemed non-conforming to the requirements of this Chapter and such buildings may be rehabilitated or remediated (but not demolished) and expanded so long as any such permitted expansion (or expansions in total) does not exceed twenty percent (20%) of the floor area of the existing dwelling unit with the floor area and percentage calculated as of the date of the adoption of the Ordinance enacting this Chapter.

6. Small Stores. Stores that sell liquor, groceries, or food that do not exceed 2,500 square feet in gross floor area.

7. OC Uses Found Consistent. Other ocean-dependent, ocean-oriented, commercial recreational, or arts-related uses that are found to be consistent with the intent of the OC zone by the Planning Commission. (Ord. 5343, 2005.)

A. Automobile Related Uses. In the OC Zone, automobile rentals and parking lots shall be permitted with a conditional use permit issued in accordance with the provisions of Chapter 28.94 of this Code.

B. Small Hotels. In the OC zone, small hotels shall be permitted upon the issuance of a conditional use permit in the OC zone area designated for "small hotel" on the map attached to this Chapter as Exhibit A subject to the following express limitations:
   1. A small hotel may not have more than six (6) guest rooms;
2. The size of each hotel guest room shall be limited to a maximum of 300 square feet of floor area (including hallways, closets, baths, interior circulation and other similar floor area) and the room may not include an individual kitchen area;
3. A common kitchen / dining / lobby area is allowed but may not be located within a guest room;
4. A manager’s residential unit is allowed with a maximum of 600 square feet of floor area provided that the manager’s unit is located adjacent to, or with immediate access to, the common or lobby area and provided that it not have a separate access from outside the common area.
C. Findings Required for Small Hotels. Planning Commission approval of small hotels in the area of the OC zone for which they are authorized by subsection B hereof shall be subject to all of the following CUP findings:
   That the small hotel:
   1. will support the goals of the Local Coastal Plan and OC zone to promote a vital, mixed use neighborhood in the Waterfront comprised of a diversity of land uses;
   2. is part of a mixed-use project and in a mixed-use setting within a property having pre-existing legal uses or permitted OC uses;
   3. is compatible with the surrounding land uses and OC uses;
   4. may include a manager’s unit if it is necessary to support the hotel or other improvements on the site;
   5. will not be materially detrimental to the public peace, health, safety, comfort and general welfare and will not materially affect property values in the particular neighborhood involved;
   6. has a sufficient area for the site and has a design for the facilities of an appropriate magnitude in view of the character of the land and in view of the proposed development that significant detrimental impact on surrounding properties is avoided;
   7. will provide adequate access and off-street parking in a manner and amount so that the demands of the development for such facilities are adequately met without altering the character of the public streets in the area at any time; and
   8. will have an appearance (in terms of its arrangement, height, scale, and architectural style of the buildings, location of parking areas, landscaping, and other features) which is compatible with the character of the area.  (Ord. 5343, 2005.)

28.71.040 Coastal Zone Review.

   All development in the Coastal Overlay Zone (S-D-3) is subject to review pursuant to Chapter 28.44 of this Code.  (Ord. 5417, 2007; Ord. 5343, 2005.)

28.71.050 Development Potential.

   Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.  (Ord. 5609, 2013; Ord. 5343, 2005.)

28.71.060 Building Height Standards.

   No building or structure in the OC zone shall exceed three (3) stories nor exceed forty-five (45) feet in height.  (Ord. 5343, 2005.)

28.71.070 Lot Area, Frontage, and Outdoor Living Space Requirements.

   A. Lot Area and Frontage Requirements. All buildings or portions thereof used for dwelling purposes shall comply with the lot area and frontage provisions of the R-3 Zone.
   B. Outdoor Living Space. All buildings or portions thereof used for dwelling purposes shall comply with the outdoor living space provisions of the R-3 zone.  (Ord. 5343, 2005.)

28.71.080 Parking Requirements.

   Off-street parking and loading space shall be provided as required in Chapter 28.90 of this title.  (Ord. 5343, 2005.)
Chapter 28.72
M-1 LIGHT MANUFACTURING ZONE

Sections:
28.72.001 In General.
28.72.030 Uses Permitted.
28.72.050 Building Height.
28.72.060 Setbacks.
28.72.070 Distance Between Buildings on the Same Lot.
28.72.080 Lot Area and Frontage Requirements.
28.72.130 Development Plan Approval.
28.72.131 Development Potential.

28.72.001 In General.

The following regulations shall apply in the M-1 Light Manufacturing Zone unless otherwise provided in this chapter. This zone strives to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities. (Ord. 4005 §22, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.72.030 Uses Permitted.

A. Any use permitted in the C-M Zone subject to the use restrictions and limitations contained in that zone, except that any such use specifically mentioned hereafter shall be subject to the restrictions of the M-1 Zone. Furthermore, no building or any portion of a building shall be erected or used as a dwelling except for a caretaker or night watchperson’s residence of no more than four hundred (400) square feet of net floor area.

B. Any of the following uses are permitted provided that such operations, manufacturing, processing or treatment of products are not obnoxious or offensive by reason of emission of odor, dust, gas, fumes, smoke, liquids, wastes, noise, vibrations, disturbances or other similar causes which may impose a hazard to life or property:

1. Agricultural equipment rental.
2. Alcohol and alcoholic beverages manufacture.
3. Assembly plant.
4. Automobile body and fender works, painting and upholstery and automobile laundry.
5. Awning manufacturing.
7. Battery manufacturing and rebuilding.
13. Building materials, new and used.
15. Candy manufacturing.
16. Cannery (except fish and meat products).
20. Church.
22. Cleaning and dyeing, wholesale.
23. Clock factory.
27. Contractor, farming equipment.
29. Cornice works.
32. Covenant or monastery, subject to the issuance of a Conditional Use Permit issued under Chapter 28.94 of this Code.
33. Creamery.
34. Dextrine manufacturing.
35. Distribution plant.
36. Dog kennel, boarding, breeding or training.
37. Draying and truck yard or terminal.
38. Drug manufacturing.
39. Educational facility, subject to the issuance of a Conditional Use Permit issued under Chapter 28.94 of this Code.
40. Electrical appliance and equipment manufacturing.
41. Electric utility warehouse and service yard or electric transmission substation.
42. Electronic instruments and devices manufacturing.
43. Feather products, manufacturing or renovation.
44. Felt products manufacturing.
45. Fiber products manufacturing.
46. Fixture manufacturing, gas, electric.
47. Fumigating contractor.
48. Furniture manufacturing.
49. Hay barn.
50. Horn products manufacturing.
51. Ice manufacturing and storage.
52. Ink manufacturing.
53. Insecticides manufacturing.
54. Iron works, ornamental (no casting).
55. Knitting mill.
56. Laboratory for research, testing and experimental purposes.
57. Leather products manufacturing (no tanning).
58. Machinery, farm and repair.
59. Malt products manufacturing.
60. Medicine manufacturing.
61. Metal spinning.
62. Milk pasteurization.
63. Millinery manufacturing.
64. Novelty manufacturing.
65. Packing plant, fruit and vegetables.
66. Paint mixing (no boiling).
68. Perfume manufacturing.
69. Phonograph manufacturing.
70. Plastic products manufacturing.
71. Plating.
72. Pottery and statuary manufacturing.
73. Produce yard or terminal.
74. Pumping plant.
75. Refrigerating plant.
76. Rope plant.
77. Rubber products manufacturing.
78. Rug manufacturing.
79. Sandpaper manufacturing.
80. Sea shell products manufacturing.
81. Sheet metal products.
82. Starch mixing and bottling.
83. Stone grinding, cutting and dressing.
84. Tool manufacturing (no drop hammer or punch presses).
85. Toy manufacturing.
86. Venetian blind manufacturing.
87. Wood products manufacturing.
88. Other businesses and occupations that are substantially similar to the uses enumerated above, as determined and documented by the Community Development Director in a manner similar to the substantial conformance determination process provided in the adopted Planning Commission Guidelines.

C. Accessory buildings and accessory uses. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3398, 1957.)

28.72.050 Building Height.

A. Maximum Building Height. Four (4) stories and not to exceed sixty feet (60').
B. Community Benefit Projects. Notwithstanding the maximum building height specified in subsection A above, no building constructed in this zone after the effective date of the ordinance enacting this Chapter shall exceed a height of forty-five feet (45') unless the project qualifies as a Community Benefit Project or a Community Benefit Housing Project, and the Planning Commission expressly makes all of the following findings:

1. Demonstrated Need. The applicant has adequately demonstrated a need for the project to exceed 45 feet in building height that is related to the project’s benefit to the community, or due to site constraints, or in order to achieve desired architectural qualities;
2. Architecture and Design. The project will be exemplary in its design;
3. Livability. If the project includes residential units, the project will provide amenities to its residents which ensure the livability of the project with particular attention to good interior design features such as the amount of light and air, or ceiling plate heights;
4. Sensitivity to Context. The project design will complement the setting and the character of the neighboring properties with sensitivity to any adjacent federal, state, and City Landmarks or any nearby designated Historic Resources, including City-designated Structures of Merit.

C. Buildings Adjacent to Residential Zones. The building height of a building which will be immediately adjacent to a residential zone shall not exceed the height allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of thirty (30) feet or one-half (1/2) the height of the proposed structure, whichever is less, provided, however, a project which qualifies as a Community Benefit Project or a Community Benefit Housing Project under Subsection B above need not comply with this requirement.

D. Timing and Procedure for Projects Requiring the Planning Commission Building Height Findings.

1. Conceptual Design Review. Prior to the Planning Commission considering an application for a Community Benefit Project or a Community Benefit Housing Project pursuant to this section, a project shall receive conceptual design review by the Historic Landmarks Commission or the Architectural Board of Review as required by SBMC Title 22.

2. Planning Commission Consideration of Findings.
   a. Design Review Projects. If a project only requires design review by the ABR or HLC under SBMC Title 22, the Planning Commission shall review and consider the building height findings of this Section after conceptual design review and before consideration of the project by the HLC or ABR for Project Design approval.
   b. Staff Hearing Officer Projects. If a project requires the review and approval of a land use permit by the Staff Hearing Officer, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for the consideration of the land use permit by the Staff Hearing Officer.
   c. Planning Commission Projects. If a project requires the review and approval of a land use permit by the Planning Commission, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for review by the Development Application Review Team (DART) and before the consideration of the land use permit by the Planning Commission.
   d. Appeals from the Planning Commission Determination. A decision of the Planning Commission regarding the building height findings is appealable to the City Council pursuant to the provisions of Chapter 1.30 of this Code. (Ord. 5630, 2013; Ord. 4005 §23, 1979; Ord. 3710, 1974; Ord. 2585, 1957.)

28.72.060 Setbacks.

The following setback requirements shall be observed on all lots within this zone:

A. FRONT SETBACK. A front setback of not less than the indicated distance shall be provided between the front lot line and all buildings, structures and parking on the lot as follows:
   1. Nonresidential or mixed use buildings, structures and parking: No setback required.
   2. Exclusively residential buildings, structures and parking: R-3/R-4 front setback requirement.

B. INTERIOR SETBACK ADJACENT TO NONRESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a nonresidentially-zoned parcel and all buildings, structures and parking on the lot as follows:
   1. Nonresidential or mixed use buildings or structures: No setback required.
   2. Exclusively residential buildings or structures: R-3/R-4 interior setback requirement.
   3. All parking and driveways: No setback required.

C. INTERIOR SETBACK ADJACENT TO RESIDENTIAL ZONE. An interior setback of not less than the indicated distance shall be provided between an interior lot line that abuts a residentially-zoned parcel and all buildings, structures, and parking on the lot as follows:
   1. All buildings and structures: 10 feet or ½ the building height, whichever is greater.
   2. Residential parking and driveways: R-3/R-4 interior setback requirements.
   3. Nonresidential or mixed use parking and driveways: 5 feet, landscaped. In addition, a minimum six (6) foot high solid fence or decorative wall shall be provided along the property line abutting a residentially-zoned parcel, except where such fence or wall will interfere with traffic safety or would be inconsistent with the provisions of Section 28.87.170 of this Code. However, the requirement for a fence or wall may be reduced or waived by the design review body that reviews the project. (Ord. 5459, 2008.)
28.72.070  Distance Between Buildings on the Same Lot.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.72.080  Lot Area and Frontage Requirements.

None, except all buildings or portions thereof used exclusively for dwelling purposes shall comply with the provisions of the R-4 Zone. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.72.130 Development Plan Approval.

Development plan review and approval by the Planning Commission are sometimes required by Chapter 28.85 of this Code. (Ord. 5609, 2013; Ord. 4140, 1982.)

28.72.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991)

Chapter 28.73

OM-1 OCEAN-ORIENTED LIGHT MANUFACTURING

Sections:
28.73.010  In General.
28.73.030  Uses Permitted in the OM-1 Zone.
28.73.050  Building Height.
28.73.060  Setbacks.
28.73.070  Distance Between Buildings on the Same Lot.
28.73.080  Lot Area and Frontage Requirements.
28.73.090  Coastal Zone Review.
28.73.131  Development Potential.

28.73.010  In General.

The regulations contained in this Chapter shall apply in the OM-1 Ocean-Oriented Light Manufacturing Zone unless otherwise provided in this Title. This zone strives to provide for appropriate ocean-dependent and-related industrial uses in close proximity to the Harbor/Wharf Complex. The City, while recognizing that buildings existing at the time this Chapter was adopted are allowed to maintain M-1 uses, encourages the establishment of ocean-oriented uses in such buildings in keeping with the policies of the California Coastal Act and the City's Coastal Plan. In addition, this zone is intended to provide a desirable living environment by preserving and protecting surrounding residential land uses in terms of light, air and existing visual amenities. (Ord. 4429, 1986; Ord. 4171, 1982.)

28.73.030  Uses Permitted in the OM-1 Zone.

A.  Any of the following uses provided that such operations, manufacturing, processing or treatment of products are not obnoxious or offensive by reason of emission of odor, dust, gas, fumes, smoke, liquids, wastes, noise, vibrations, disturbances or other similar causes which may impose a hazard to life or property:
   1.  Boat sales, storage, construction and/or repair;
   2.  Marine storage;
   3.  Public parking lots;
   4.  Sail manufacturing and repair;
   5.  Seafood processing and wholesaling;
   6.  Household hazardous waste collection facility as defined in Section 28.04.405 of this Title.
   7.  Other ocean-related uses deemed appropriate by the Planning Commission.

B.  Any use other than those permitted in Subsection 28.73.030.A above and permitted in the M-1 Zone subject to the restrictions and limitations contained therein and issuance of a Conditional Use Permit. A Conditional Use Permit may be granted by the Planning Commission or City Council on appeal, for such uses in the OM-1 Zone in accordance with the provisions of Chapter 28.94 of this Code, subject to the following additional findings:
1. The use is compatible with ocean-dependent or ocean-related uses; and
2. The property would have no feasible economic value if limited to ocean-dependent or ocean-related uses. This finding shall be substantiated by competent evidence determined by the Planning Commission to be objective which includes no present or future demand for ocean-dependent or ocean-related uses.

C. Structures in existence or developments which have a valid and unexpired approval from the Coastal Commission on the effective date of this Sub-section may be used for all uses permitted in the M-1 Zone.

D. Wastewater/sanitation treatment facilities and other essential public service facilities owned and operated by the City of Santa Barbara. (Ord. 5459, Section 3, 2008; Ord. 4825, 1993; Ord. 4429, 1986; Ord. 4171, 1982.)

28.73.050 Building Height.

A. Maximum Building Height. No building in this zone shall exceed a height of four (4) stories, nor shall any building exceed a height of sixty feet (60').

B. Community Benefit Projects. Notwithstanding the maximum building height specified in subsection A above, no building constructed in this zone after the effective date of the ordinance enacting this Chapter shall exceed a height of forty five feet (45’) unless the project qualifies as a Community Benefit Project or a Community Benefit Housing Project, and the Planning Commission expressly makes all of the following findings:

1. Demonstrated Need. The applicant has adequately demonstrated a need for the project to exceed 45 feet in building height that is related to the project’s benefit to the community, or due to site constraints, or in order to achieve desired architectural qualities;

2. Architecture and Design. The project will be exemplary in its design;

3. Livability. If the project includes residential units, the project will provide amenities to its residents which ensure the livability of the project with particular attention to good interior design features such as the amount of light and air, or ceiling plate heights;

4. Sensitivity to Context. The project design will complement the setting and the character of the neighboring properties with sensitivity to any adjacent federal, state, and City Landmarks or any nearby designated Historic Resources, including City-designated Structures of Merit.

C. Buildings Adjacent to Residential Zones. The building height of a building which will be immediately adjacent to a residential zone shall not exceed the height allowed in the most restrictive adjacent residential zone for that part of the structure constructed within a distance of thirty (30) feet or one-half (1/2) the height of the proposed structure, whichever is less, provided, however, a project which qualifies as a Community Benefit Project or, a Community Benefit Housing Project under Subsection B above need not comply with this requirement.

D. Timing and Procedure for Projects Requiring the Planning Commission Building Height Findings.

1. Conceptual Design Review. Prior to the Planning Commission considering an application for a Community Benefit Project or a Community Benefit Housing Project pursuant to this section, a project shall receive conceptual design review by the Historic Landmarks Commission or the Architectural Board of Review as required by SBMC Title 22.

2. Planning Commission Consideration of Findings.

a. Design Review Projects. If a project only requires design review by the ABR or HLC under SBMC Title 22, the Planning Commission shall review and consider the building height findings of this Section after conceptual design review and before consideration of the project by the HLC or ABR for Project Design approval.

b. Staff Hearing Officer Projects. If a project requires the review and approval of a land use permit by the Staff Hearing Officer, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for the consideration of the land use permit by the Staff Hearing Officer.

c. Planning Commission Projects. If a project requires the review and approval of a land use permit by the Planning Commission, the Planning Commission shall review and consider the building height findings after conceptual design review pursuant to SBMC Title 22, but before the preparation of a full application for review by the Development Application Review Team (DART) and before the consideration of the land use permit by the Planning Commission.

d. Appeals from the Planning Commission Determination. A decision of the Planning Commission regarding the building height findings is appealable to the City Council pursuant to the provisions of Chapter 1.30 of this Code. (Ord. 5630, 2013; Ord. 4429, 1986; Ord. 4171, 1982.)

28.73.060 Setbacks.

Setback requirements shall be the same as those provided for the M-1 Zone, Chapter 28.72 of this Code. (Ord. 5459, 2008; Ord. 4429, 1986; Ord. 4171, 1982.)

28.73.070 Distance Between Buildings on the Same Lot.

Restrictions shall be the same as those provided for the M-1 Zone, Chapter 28.72 of this Code. (Ord. 4429, 1986; Ord. 4171, 1982.)
28.73.080 Lot Area and Frontage Requirements.

Restrictions shall be the same as those provided for the M-1 Zone, Chapter 28.72 of this Code. (Ord. 4429, 1986; Ord. 4171, 1982.)

28.73.090 Coastal Zone Review.

All development in the Coastal Overlay Zone is subject to review pursuant to Chapter 28.44 of this Code. (Ord. 5417, 2007; Ord. 4429, 1986; Ord. 4171, 1982.)

28.73.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

28.75.001  In General.

Land classified in a HWMF Overlay Zone shall also be classified in a C-M, M-1, or OM-1 Zone and the following regulations shall apply in the HWMF Overlay Zone unless otherwise provided in this Chapter.

Land areas approved for Hazardous Waste Management Facilities in accordance with this Chapter shall be shown on the Official Zoning Map by the symbol "HWMF". (Ord. 4825, 1993.)

28.75.005  Legislative Intent.

The purpose and intent of this overlay zone is to provide a mechanism for the siting of specified off-site hazardous waste management facilities and to ensure that such facilities are sited consistent with the requirements of the Hazardous Waste Management Plan adopted by Chapter 22.05 of Title 22 of this Code, the base zone over which the HWMF Overlay Zone is applied and the existing and future uses in the area surrounding such facilities. (Ord. 4825, 1993.)

28.75.010  Procedures.

A. The procedure for establishing a Hazardous Waste Management Facility Overlay Zone in combination with one of the underlying zones listed in Section 28.75.001 of this Chapter shall be the same as set forth under Zone Changes in Chapter 28.92 of this Title, except as otherwise outlined in this Chapter.

B. If a development plan is required for a hazardous waste management facility, it shall be processed as outlined in Chapter 28.85, concurrently with the request for the HWMF Overlay Zone as required above. In addition, a Conditional Use Permit in accordance with the provisions of Title 28, Chapter 28.94, shall be required and shall be processed concurrently with the request for the HWMF Overlay Zone change as required above.

C. In addition to the application requirements for a zone change, development plan, conditional use permit and any other necessary applications for land use permits, an application for uses in the HWMF Overlay Zone shall include:

1. An evaluation of the consistency of the proposed project with the siting criteria for offsite hazardous waste management facilities set forth in the Hazardous Waste Management Plan.
2. An evaluation of alternative sites for the project.
3. Map(s) showing the area within a half-mile radius of the project site which indicate:
   a. All dwelling units and other sensitive land uses such as schools, hospitals, convalescent hospitals, rest homes, day care facilities, libraries, parks, etc.;
   b. Other buildings and structures;
   c. Environmentally sensitive areas;
   d. Location of major highways and access routes;
   e. Available emergency services; and
   f. All significant topographic features.
4. Map(s) showing the area within a quarter-mile radius of the project site which indicate:
   a. All sanitary sewer systems;
   b. All storm drains; and
   c. The prevailing wind direction.
5. Information on the types and maximum and average expected quantities of wastes proposed to be stored, treated or transferred by the facility and the physical and chemical characteristics of those wastes.
6. A Risk Assessment that estimates the level of risk to human health and the environment. Sufficient detail shall be provided so that decision-makers have an adequate basis from which to consider alternatives. The Risk Assessment shall include, but not be limited to, the following items:
   a. The use of worst case incident scenarios;
b. The identification of the maximum volumes expected of different classes or types of hazardous materials or wastes;

c. The identification of physical and chemical characteristics of the wastes that will be handled;

d. A discussion of the size and composition of any residential or populated areas nearby and the potential for impacting these areas;

e. An evaluation of potential impacts to air quality, water resources, crops, vegetation and wildlife;

f. An evaluation of the project's effect on immobile populations;

g. An analysis of emergency response capabilities;

h. An evaluation of emissions from routine operations;

i. The evaluation of different transportation options; and

j. A discussion of the proposed detection and monitoring systems, auditing and inspection programs and other risk reduction controls with regard to protection of human health and the environment.

7. A preliminary Risk Management Prevention Plan (RMPP) if such RMPP is required by reason of Section 65850.2 of the Government Code.

8. A preliminary emergency response plan that addresses the potential actions to be taken in the event of a release or a threatened release of a hazardous waste.

9. Measures or plans to ensure site security.

10. Analysis of depth to groundwater.

11. Data needed to evaluate need for the hazardous waste management facility as identified by Policy 2-1 of the Hazardous Waste Management Plan, including but not limited to, data from the state manifest records, data from the Santa Barbara County Department of Environmental Health Services, other current data and any intergovernmental agreements into which the County of Santa Barbara has entered.

12. A site characterization and geotechnical investigation which evaluates geologic hazards and other disaster potential. This shall include, but not be limited to, assessment of soils, faults, slopes, landslide potential, ground and surface waters and floods.

14. Architectural and visual analysis which shows how the project will be designed to protect public views and to be compatible with the neighborhood.

15. An assessment of the project's expected demand for water, sewer and energy including availability of the required resources and any conservation measures incorporated into the project design.

16. A closure and post-closure plan detailing measures to be taken to restore, evaluate and monitor conditions at the site at the time the applicant or successor owners/operators cease operation of the hazardous waste management facility, to ensure the elimination of any adverse environmental condition related to the operation of the facility or any condition which could pose a hazard to human health, affect community welfare, or which could affect existing or potential development in the vicinity. The plan will include demonstration of binding commitments to guarantee implementation of the plan. The adequacy of the plan will be determined by the Director of the Community Development Department.

17. An analysis of the project's potential fiscal impact on the City and any other affected jurisdictions along with financial assurances that show that the operator has included a funding system that will cover the costs of construction, operation, emergency, closure and post-closure cleanup and monitoring.

18. Any other information that the Community Development Department deems necessary to evaluate and process the application.

(Ord. 5609, 2013; Ord. 4825, 1993.)

28.75.013 Findings.

In addition to the findings required for the approval of rezones, development plans, conditional use permits and any other necessary approvals, no rezone to the HWMF Overlay Zone shall be approved unless the City Council, upon the recommendation of the Planning Commission, also makes the following findings:

A. The hazardous waste management facility is consistent with the Hazardous Waste Management Plan.

B. There is a need for the offsite treatment, storage or transfer hazardous waste management facility as determined pursuant to Policy 2-1 of the Hazardous Waste Management Plan.

C. The rezone and/or proposed facility is consistent with the siting criteria for offsite hazardous waste management facilities set forth in the Hazardous Waste Management Plan and with the development standards set forth in Section 28.75.045 below.

D. A risk assessment has been prepared for the rezone and/or development plan which adequately evaluates the risks to human health and safety and the environment under both routine operations and upset conditions.

E. The risks to human health and the environment have been minimized to the maximum extent feasible and the remaining risks are considered acceptable.

F. The facility will be operated using the best feasible hazardous waste management technologies.

G. The significant environmental impacts have been addressed as required under the provisions of the California Environmental Quality Act of 1970, as amended from time to time.
H. The proposed facility is consistent with the City General Plan in that the facility is in an area designated by
the General Plan and zoned for industrial use and the area is substantially developed with other industrial facilities
which are served by the same transportation routes as the proposed facility. In addition, the land uses authorized in
the General Plan and by zoning in the vicinity of the project are compatible with the project.
I. The proposed facility is within reasonable proximity to industrial facilities which produce or treat hazardous
waste on-site as outlined in the Hazardous Waste Management Plan.
J. The alternative locations for the proposed facility, as identified in the environmental impact report for the
project and in the Hazardous Waste Management Plan, have been adequately considered in determining the location
chosen for the facility.
K. A closure and post-closure plan has been submitted which adequately describes and guarantees
implementation of measures to be taken to restore, evaluate and monitor conditions at the site upon cessation of
operations, to ensure elimination of adverse environmental conditions and potential hazards to human health and
other effects.
L. The project will not create a financial burden for the City or the County.
M. The proposed facility operator has demonstrated financial responsibility for the operation, monitoring,
closure and post-closure requirements of the facility. (Ord. 4825, 1993.)

28.75.025 Action.

In addition to the application and public hearing process required by this Title for any change of zone, conditional
use permit, development plan or other land use permit, offsite hazardous waste management facilities are subject to
the procedures outlined in Article 8.7 (commencing with Section 25199.1) of the California Health and Safety Code,
including, but not limited to, the following:
A. NOTICE OF INTENT. At least 90 days before filing an application for the addition of a HWMF Overlay
Zone to a property and for a Conditional Use Permit for an offsite hazardous waste management facility and, if
necessary, a coastal development permit and/or development plan approval with the City, the applicant shall file a
Notice of Intent to make such application with the Office of Permit Assistance in the Governor's Office of Planning
and Research and with the City of Santa Barbara. The Community Development Department shall publish a notice in
a newspaper of general circulation in the City, shall post notices in the location where the proposed project is located
and shall notify, by direct mailing, the owners of all property within four hundred and fifty (450) feet of the proposed
project, as shown on the latest equalized assessment roll. The Notice of Intent is not transferable to a location other
than the location specified in the notice and shall remain in effect for one (1) year from the date it is filed with the
City or until it is withdrawn by the applicant, whichever is earlier. The Notice of Intent filed with the City shall
include the following:
1. A complete description of the nature, function and scope of the project.
2. Labels containing the names, addresses and assessor's parcel numbers of all property owners within four
hundred and fifty (450) feet of the affected parcel, as shown in the latest equalized assessment roll.
3. A fee to cover the costs of processing the Notice of Intent and carrying out the required notification
procedures, as adopted by a resolution of the City Council.
B. PUBLIC INFORMATION MEETING. Within ninety (90) days of filing a Notice of Intent with the Office
of Permit Assistance, the Office shall convene a public meeting in the City of Santa Barbara in order to inform the
public of the nature, function and scope of the proposed offsite hazardous waste management facility project and the
procedures that are required for approving applications for such projects.
C. SELECTION AND COSTS OF LOCAL ASSESSMENT COMMITTEE. The City Council shall appoint a
seven (7) member Local Assessment Committee to advise it in considering an application for an offsite hazardous
waste management facility, subject to the following requirements:
1. The Local Assessment Committee shall be appointed not later than thirty (30) days after the application
for an offsite hazardous waste management facility is accepted as complete by the Community Development
Department.
2. A fee adequate to cover the costs of establishing and convening the Local Assessment Committee, as
adopted by a resolution of the City Council, shall be paid by the applicant at the time the application is submitted.
3. The committee shall be broadly constituted to reflect the makeup of the community and shall include
three (3) representatives of the community at large, two (2) representatives of environmental or public interest groups
and two (2) representatives of affected businesses or industries. Members of the committee shall have no direct
financial interest, as defined in Section 87103 of the Government Code, in the proposed offsite hazardous waste
management facility.
D. DUTIES OF LOCAL ASSESSMENT COMMITTEE. The Local Assessment Committee shall, as its
primary function, advise the City Council of the terms and conditions under which the proposed offsite hazardous
waste management facility project may be acceptable to the community. To carry out this function, the Committee
shall do all of the following:
1. Enter into a dialogue with the applicant to reach an understanding with the applicant on both of the following:
   a. The measures that should be taken by the applicant in connection with the operation of the proposed
      offsite hazardous waste management facility to protect the public health, safety and welfare and the environment
      of the City.
   b. The special benefits and remuneration the facility applicant will provide the City as compensation
      for the local costs associated with the facility.
2. Represent generally, in meetings with the project applicant, the interests of the residents of the City and
   the residents of adjacent communities.
3. Receive and expend any technical assistance grants made available pursuant to Subsection H of this
   Section.
4. Adopt rules and procedures which are necessary to perform its duties.
5. Advise the Planning Commission and City Council of the terms, provisions and conditions for project
   approval which have been agreed upon by the Committee and the project applicant, and any other information
   the Committee deems appropriate. The Planning Commission and City Council may use this advice for their independent
   consideration of the project.
6. The City Council shall assure that staff resources are provided to assist the Local Assessment Committee
   in performing its duties.

E. TERM OF THE LOCAL ASSESSMENT COMMITTEE. A Local Assessment Committee established
   pursuant to this Section shall cease to exist after final administrative action by state and local agencies has been taken
   on the permit applications for the project for which the Committee was convened.

F. NOTIFICATION OF THE OFFICE OF PERMIT ASSISTANCE AND SCHEDULING OF PUBLIC
   HEARING. The Community Development Department shall notify the Office of Permit Assistance within ten (10)
   days after the application for an offsite hazardous waste management facility is accepted as complete by the City.
   Within sixty (60) days after receiving such notice, the Office of Permit Assistance shall convene a meeting of the lead
   and responsible agencies for the project, the project applicant, the Local Assessment Committee and the interested
   public, for the purpose of determining the issues which concern the agencies that are required to approve the project
   and the issues which concern the public.

G. LOCAL ASSESSMENT COMMITTEE MEET AND CONFER. Following the public hearing required in
   Subsection F. of this Section, the project applicant and the Local Assessment Committee shall meet and confer on the
   offsite hazardous waste management facility proposal for the purpose of establishing the terms and conditions under
   which the project will be acceptable to the community.

H. TECHNICAL ASSISTANCE GRANTS. If the Local Assessment Committee finds that it requires assistance
   and independent advice to adequately review a proposed offsite hazardous waste management facility project, it may
   request technical assistance grants from the City Council to enable the Committee to hire a consultant.
   1. The Committee may use technical assistance grant funds to hire a consultant to do either, or both, of the
      following:
      a. Assist the Committee in reviewing and evaluating the application for the project, the environmental
         document prepared for the project and any other documents, materials and information that are required by the City
         and responsible agencies in connection with the application.
      b. Advise the Committee in its meetings and discussions with the facility applicant to seek agreement
         on the terms and conditions under which the project will be acceptable to the community.
   2. The City shall require the applicant for the proposed offsite hazardous waste management facility to pay
      a fee equal to the amount of any technical assistance grant provided the Committee under Paragraph 1 of this
      Subsection. The funds received as a result of the imposition of the fee shall be used to make technical assistance
      grants exclusively for the purposes described in Paragraph 1 of this Subsection.
   3. The City shall deposit any fee imposed pursuant to Paragraph 2 of this Subsection in the City treasury,
      maintain records of all expenditures from the account and return any unused funds and accrued interest to the project
      applicant upon completion of review of the proposed project.

I. FAILURE TO RESOLVE DIFFERENCES. If the Local Assessment Committee and the project applicant
   cannot resolve any differences through their meetings, the Office of Permit Assistance may assist in this resolution
   pursuant to Health and Safety Code Section 25199.4.

J. APPEAL OF DECISION OF CITY COUNCIL. A decision of the City Council to approve or deny an
   application for an offsite hazardous waste management facility may be appealed to the Governor of the State of
   California or the Governor's designee pursuant to Health and Safety Code Sections 25199.9, 25199.10, 25199.11 or
   25199.13, as appropriate.

(Ord. 4825, 1993.)
28.75.030 Uses Permitted in the HWMF Overlay Zone.

A. Any use permitted in the underlying zone classification, except residential use.
B. Offsite Hazardous Waste Management Facilities including:
   1. Hazardous Waste Transfer Station.
C. Hazardous Waste Residual Repositories are prohibited within the incorporated limits of the City of Santa Barbara. (Ord. 4825, 1993.)

28.75.045 Project Development Standards.

A. A buffer adequate to protect the public health and safety and environmentally sensitive areas shall be established. The size and location of the buffer shall be based upon a thorough assessment of the risk to human health and the environment.
B. All offsite hazardous waste management facilities shall be designed and constructed so as to contain spills, leaks and other accidental releases of waste. Containment shall provide protection to air quality and surface and groundwater resources and shall be based on a site characterization and geologic report.
C. All offsite hazardous waste management facilities shall use public services.
D. Offsite hazardous waste management facilities shall include measures for adequate site security.
E. Offsite hazardous waste management facilities shall be visually compatible with existing and anticipated surrounding land uses.
F. No noxious odors associated with an offsite hazardous waste management facility shall be detectable at or beyond the property boundary.
G. The level of noise generated by facility operation at the property boundary shall not exceed 65 dB(A).
H. All offsite hazardous waste management facilities shall comply with Santa Barbara County Air Pollution Control District rules and regulations and shall be consistent with the Air Quality Attainment Plan.
   I. Project construction shall include mitigation of construction impacts including, but not limited to, dust suppression, emissions controls, sedimentation controls and restricted construction hours.
   J. Grading and alteration of natural drainages shall be minimized and adequate provisions shall be made to prevent erosion and flood damage.
   K. A monitoring system to measure offsite impacts including, but not limited to, noise, odors, vibration and air and water quality degradation shall be in operation throughout the construction, operation, closure and post-closure of the facility.
   L. All outside lighting shall be shielded and no unobstructed beam of light shall shine off the premises. In addition, lighting shall not draw attention to the facility. All lighting shall be of an overall level and type compatible with surrounding uses. (Ord. 4825, 1993.)

28.75.050 Building Height.

Building height shall be subject to the same height limitation as that found in the underlying zone. (Ord. 4825, 1993.)

28.75.060 Setbacks.

Required setbacks shall be subject to the same limitations as those found in the underlying zone, except as outlined by Section 28.75.045 above. (Ord. 5459, 2008; Ord. 4825, 1993.)

28.75.070 Distance Between Buildings on the Same Lot.

Distance between buildings on the same lot shall be subject to the same limitations as those found in the underlying zone, unless a greater distance between buildings is determined to be necessary during review of the project. (Ord. 4825, 1993.)

28.75.100 Parking Requirements.

Parking shall be provided in accordance with Chapter 28.90 of this Code. (Ord. 4825, 1993.)
28.75.128 Termination of HWMF Overlay Zone Classification.

Any ordinance amendment establishing a HWMF Overlay Zone classification under this Chapter shall terminate and the affected property shall automatically revert to the district classification represented by the basic symbol if the conditional use permit, coastal development permit, development plan approval and/or other land use permit expire. (Ord. 4825, 1993.)

28.75.130 Development Potential.

Notwithstanding any provision of law to the contrary, nonresidential construction must comply with Chapter 28.85 and no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4825, 1993.)
Chapter 28.78

MOBILEHOME AND PERMANENT RECREATIONAL VEHICLE PARK CONVERSION REGULATIONS

Sections:
28.78.010 Permit Required for Conversion of Mobilehome and Permanent Recreational Vehicle Parks; Conversion Defined.
28.78.020 Issuance of Conversion Permits.
28.78.030 Physical Standards for Conversion of Mobilehome and Permanent Recreational Vehicle Parks to Condominiums or Overnight Recreational Vehicle Parks.
28.78.040 Application Requirements for Conversion Permits.
28.78.050 Acceptance of Reports.
28.78.060 Public Hearing.
28.78.070 Findings - Mobilehome and Permanent Recreational Vehicle Park Conversion Permit.

28.78.010 Permit Required for Conversion of Mobilehome and Permanent Recreational Vehicle Parks; Conversion Defined.

A. PERMIT REQUIRED. No person, firm, corporation, partnership or other entity shall convert the use of any existing mobilehome park or permanent recreational vehicle park without first having said conversion tentatively approved by the Planning Commission, or the City Council on appeal, and having been issued a conversion permit by the Chief of Building and Zoning.

B. CONVERSION DEFINED. For purposes of this Chapter, "conversion" shall mean use of a mobilehome or permanent recreational vehicle park or a portion of a mobilehome or permanent recreational vehicle park for a purpose other than the rental, or the holding out for rent, of two (2) or more mobilehome or recreational vehicle spaces to accommodate mobilehomes or recreational vehicles and shall not mean the adoption, amendment or repeal of a park rule or regulation. "Conversion" may affect an entire park or any portion thereof, and such "conversion" shall include, but is not limited to, a conversion of a park or any portion thereof to a condominium, stock cooperative, residential development, commercial use, office use, manufacturing use or vacant land. Any conversion to condominiums shall be subject to Sections 28.88.050, 28.88.060, 28.88.070, 28.88.080, 28.88.090 and Section 28.88.100 of this Title, in addition to the provisions of this Chapter. For the purposes of this Chapter, condominiums shall be deemed to include community apartments and stock cooperatives. (Ord. 4269, 1984.)

28.78.020 Issuance of Conversion Permits.

A. CRITERIA. The Chief of Building and Zoning shall issue a conversion permit when he determines that:
   1. The applicant has complied with all the applicable City, state and federal laws and regulations in effect at the time that the conversion was approved; and
   2. The applicant has complied with all of the conditions of approval.

B. REVOCATION. Once issued, the conversion permit may be revoked if the applicant or his successors in interest fails to comply with the conditions of approval or other applicable laws.

C. EXPIRATION. For a conversion involving a subdivision, a tentative conversion approval shall expire when the tentative subdivision map expires. For a conversion not involving a subdivision a tentative approval shall expire after the same period of time as if it were a project requiring a tentative subdivision map. (Ord. 4269, 1984.)

28.78.030 Physical Standards for Conversion of Mobilehome and Permanent Recreational Vehicle Parks to Condominiums or Overnight Recreational Vehicle Parks.

A. STANDARDS. In order to convert the use of a mobilehome or permanent recreational vehicle park to mobilehome or recreational vehicle condominiums, said park shall be brought up to the standards for construction of new mobilehome or permanent recreational vehicle parks as established in Section 28.94.040 and 28.94.045 of this Code. In cases where (i) the applicant can demonstrate that the standards cannot or should not reasonably be met, and (ii) 75% of the current residents of an applicant's park have expressed a written intent to purchase the park from the applicant, said standards may be waived or modified by the Planning Commission.

B. CONVERSION. In order to convert the use of a mobilehome or permanent recreational vehicle park to an overnight recreational vehicle park, said overnight recreational vehicle park shall meet all standards required by Section 28.94.050 of this Code. (Ord. 4269, 1984.)
In addition to such other application requirements as the Planning Commission may deem necessary, no application for a conversion permit shall be accepted for any purpose unless it includes the following:

A. CONCEPT PLAN. A written statement and concept plan indicating the use the park site is intended to accommodate, including the approximate number of proposed residential units, if any; approximate square footage and use of any buildings proposed; and the probable impacts/benefits to the community created by the proposed project.

B. SITE PLAN. A site plan of the existing mobilehome or permanent recreational vehicle park showing all existing mobilehome and recreational vehicle spaces, identified by number and indicating whether the space is currently occupied.

C. RESIDENTS LIST. A list of the names and addresses of all residents of the mobilehome or permanent recreational vehicle park.

D. IMPACT REPORT. A report on the housing and financial impacts of the removal of the mobilehomes and recreational vehicles upon all displaced residents. The report shall include but not be limited to the following six items except where the applicant can demonstrate that such is not available.
   1. Rental rate history for each space for the previous five (5) years;
   2. Monthly vacancy rate for each month during the preceding two years;
   3. Makeup of existing resident households, including family size, length of residence, age of residents, estimated household income, and whether receiving federal or state rent subsidies;
   4. The date of manufacture and size of each mobilehome and recreational vehicle in the park;
   5. A list of those mobilehomes or recreational vehicles that cannot qualify for relocation to another park within reasonable proximity to the City; and
   6. A statement of availability and location of equivalent replacement space in mobilehome or recreational vehicle parks within reasonable proximity to the City.

E. RELOCATION ASSISTANCE PLAN. A relocation assistance plan shall be prepared by the applicant which states all measures proposed by the applicant to mitigate any identifiable adverse impacts of the conversion on the displaced permanent residents of the mobilehome or permanent recreational vehicle park. Every relocation assistance plan shall provide, at a minimum, that displaced permanent residents will be provided relocation benefits equal to those required by Section 28.88.100 of this Code. A permanent resident (a) is a person (i) for whom the unit he owns is his sole residence, or (ii) who has rented the mobilehome or recreational vehicle for a period of at least nine consecutive months, and (b) does not include a person who has resided in the park for one year or less prior to the date of application for the conversion permit, provided the person was given written notice of the owner’s intention to convert prior to agreeing to reside in the park.

F. EVIDENCE OF NOTICE. The applicant shall submit evidence that a notice of intent to convert was delivered to each resident for whom a signed copy of said notice is not submitted.

G. OTHER INFORMATION. Any other information which, in the opinion of the Community Development Department, will assist in determining whether the proposed project will be consistent with the purpose and intent of this Chapter. (Ord. 4269, 1984.)

Acceptance of Reports.

The housing and financial impact report, the relocation assistance plan, the notice of intent to convert, and other documents shall not be deemed filed until approved in writing by the Community Development Department. (Ord. 4269, 1984.)

Public Hearing.

A. NOTICE OF INTENT. A notice of intent to convert the use of the park shall be delivered to each resident's dwelling unit a minimum of sixty (60) days prior to submittal of an application to convert the use. Evidence of delivery shall be submitted with the application for conversion. The form of the notice shall be as approved by the Community Development Department and shall inform the resident of the following:
   1. Name and address of current owner;
   2. Name and address of the applicant;
   3. Approximate date on which the application for the conversion is to be filed;
   4. Anticipated date on which the conversion permit is to be issued;
   5. Approximate date on which the space is to be vacated by the resident;
   6. Provisions for special cases;
   7. Each resident will receive notice for each hearing and right to appear and be heard at any such hearing;
   8. Each resident will receive a copy of the housing and financial impact report and relocation assistance program; and
   9. Other information as may be deemed necessary by the Community Development Department.

B. RESIDENT NOTICE. Prior to the approval, the Planning Commission shall hold a public hearing. Notice of the hearing shall be mailed at least ten (10) days prior to the hearing date to the affected residents and conspicuously posted on the parcel. The public hearing notice shall describe the general nature of the application, and include notice of time and place of the public hearing, and notification of the residents’ rights to attend and to be heard.
C. STAFF REPORT. Any report or recommendation on a proposed conversion of a mobilehome or permanent recreational vehicle park by the Staff to the Planning Commission shall be in writing and a copy shall be sent to the applicant and to each resident of the subject park at least three (3) days prior to any hearing or action on such conversion by the Planning Commission.

D. IMPACT REPORT AND RELOCATION ASSISTANCE PLAN. A copy of the housing and financial impact report and relocation assistance plan shall be delivered to each permanent resident, as defined in Section 28.78.040E, of the subject mobilehome or permanent recreational vehicle park by the applicant a minimum of fifteen (15) days prior to the public hearing and evidence of delivery shall be submitted to the Community Development Department. (Ord. 4269, 1984.)

28.78.070 Findings - Mobilehome and Permanent Recreational Vehicle Park Conversion Permit.

The Planning Commission shall not approve an application for the conversion of a mobilehome or permanent recreational vehicle park unless the Planning Commission finds that:

A. All provisions of this Chapter are met and the issuance of the conversion permit will not be detrimental to the health, safety and general welfare of the City. In making this finding, the Planning Commission shall not consider the impact of the conversion on the City's affordable housing stock.

B. With respect to conversions of an existing park to a mobilehome or recreational vehicle subdivision, that the benefits to be derived from providing increased low-to-moderate cost home ownership opportunities outweigh the loss of rental housing opportunities.

C. In the case of conversion to condominiums, the proposed conversion will conform to the Santa Barbara Municipal Code in effect at the time of approval, except as otherwise provided in this Chapter.

D. The park owner has made reasonable efforts to prepare a relocation assistance program which (i) mitigates any significant adverse impact on the ability of displaced permanent mobilehome or permanent recreational vehicle park residents to find adequate space in a mobilehome or permanent recreational vehicle park, or (ii) in the event such a space is not available, provides other reasonable and comparable relocation assistance, and there are sufficient assurances that the measures in the program will be implemented.

E. In a park where the majority of permanent residents have incomes at or below low and moderate levels, as defined by the federal government and as established by the most recently filed federal income tax returns or some other document deemed acceptable by the Community Development Department, the Redevelopment Agency for the City of Santa Barbara has been offered the right to purchase the mobilehome or recreational vehicle park at fair market value, as determined by an independent real property appraiser selected by the Agency, and has declined the offer or has failed to act on the offer within one hundred eighty (180) days of the park owner's mailing to the Agency a "Notice of Intent to Convert". This finding may be waived where the applicant can demonstrate, to the satisfaction of the Planning Commission or City Council on appeal, that the applicant has made reasonable efforts to obtain necessary income information from a majority of the permanent residents in the park and has been unable to do so.

F. The applicant has not engaged in coercive action toward the residents, such as an unreasonable rent increase, after submission of the first application for City review through the date of approval. In making this finding, consideration may be given to:

1. Rent increases at a rate greater than the rate of increase in the Consumer Price Index (Urban Wage Earners and Clerical Workers, Los Angeles-Long Beach-Anaheim Average, all items, as published by U.S. Bureau of Labor Statistics) unless provided for in leases or contracts in existence prior to the submittal of the first application for City review, and

2. Any other action by the applicant which is taken against residents to coerce them to refrain from opposing the issuance of the conversion permit including, but not limited to, any violation of Chapter 26.04 of this Code. An agreement with residents which provides for benefits to the residents after the approval shall not be considered coercive action.

G. That all notice requirements of the City and the state have been met.

H. All permanent buildings shall, on the date of change of use, be in compliance with the exit and occupancy requirements and the height and area requirements for the type of construction and occupancy involved as required by the California Building Code as adopted and amended by the City, and other applicable laws. (Ord. 5451, Section 5, 2008; Ord. 4275, 1984; Ord. 4269, 1984; Ord. 3710, 1974, Ord. 2763, 1960; Ord. 2585, 1957.)
Chapter 28.79

EMERGENCY SHELTER REGULATIONS

Sections:
28.79.010 Use Permitted.
28.79.020 Development and Management Standards.

28.79.010 Use Permitted.

An emergency shelter, as defined in SBMC Section 28.04.273, is a permitted use in the C-M Zone subject to the development and management standards specified in Section 28.79.020. Notwithstanding any other provision within this Title 28, without the approval of a conditional use permit pursuant to Chapter 28.94, an emergency shelter is not a permitted use in any other zone of the City. (Ord. 5662, 2014.)

28.79.020 Development and Management Standards.

In addition to all other development standards generally applicable within the zone in which the emergency shelter is located, an emergency shelter shall comply with the following development and management standards:

A. Capacity. An emergency shelter located within the C-M Zone may provide a maximum of 100 beds and shall serve no more than 100 homeless persons per night.
B. Length of Stay. A resident of an emergency shelter shall not reside in the emergency shelter for more than 180 consecutive nights.
C. Intake/Waiting Area. An emergency shelter shall provide at least 10 square feet of interior intake and waiting space per bed. Intake and waiting areas shall be located within the building.
D. Outdoor Area/Activity. Outdoor gathering areas shall be screened from the public right-of-way and adjacent properties. An emergency shelter shall not allow prospective residents to queue on the public right-of-way or parking areas.
E. Parking. An emergency shelter shall provide the following parking:
   1. One parking space for every 8 beds; and
   2. One covered and secure bicycle parking space for every 4 beds.
   3. Exceptions. An emergency shelter may propose fewer parking spaces if the emergency shelter can demonstrate by a parking study that the proposed parking will satisfy the anticipated parking demand for the project to the satisfaction of the Public Works Transportation Planning Division. In any case, the required parking for an emergency shelter shall not be more than that which is required for similar residential or commercial uses within the zone.
F. Lighting. Subject to compliance with the Lighting Ordinance (SBMC Chapter 22.75), adequate external lighting shall be provided on-site in order to maintain a safe and secure environment.
G. Concentration of Uses. No emergency shelter or homeless shelter shall be permitted within 300 feet of another emergency shelter or homeless shelter. The distance between shelters shall be measured in a straight line without regard to intervening structures or objects from the nearest point on the property line of one shelter to the nearest point on the property line of the other.
H. On-Site Management. On-site management shall be present at all times that the shelter is in operation. A Management Plan for the operation of the emergency shelter must be submitted with the master application and shall be subject to approval by the Community Development Department Director. As appropriate, the Management Plan shall address:
   1. Hours of operation
   2. On-site management and security procedures
   3. Neighborhood relations and communication
   4. Cooking and dining facilities (for residents only)
   5. Shower and laundry facilities (for residents only)
   6. Smoking areas and policies
   7. Outdoor gathering areas and policies
I. Ability to Pay. No individual or household may be denied emergency shelter due to an inability to pay.

(Ord. 5662, 2014.)

28.80.010 Purpose and Intent.

It is the purpose and intent of this Chapter to regulate the storefront distribution of medical marijuana in order to ensure the health, safety, and welfare of the residents of the City of Santa Barbara. The regulations in this Chapter, in compliance with the State Compassionate Use Act of 1996 and the State Medical Marijuana Program Act (“the SB 420 statutes”), are not intended and do not interfere with a patient’s right to use medical marijuana as authorized under the Compassionate Use Act or the SB 420 statutes, nor do they criminalize the possession or cultivation of medical marijuana by specifically defined classifications of persons, as authorized under the Compassionate Use Act. Under the Compassionate Use Act of 1996 and the SB 420 statutes, only qualified patients, persons with identification cards, and primary caregivers may legally cultivate medical marijuana collectively and provide it to qualified patients or persons with identification cards. Therefore, medical marijuana collectives within the City which choose to operate storefront dispensary locations must comply with all provisions of the Santa Barbara Municipal Code (“SBMC”) for obtaining a permit for the storefront dispensary as well as complying with the Compassionate Use Act, the SB 420 statutes, and all other applicable local and state laws. Nothing in this Chapter purports to permit activities that are otherwise illegal under federal, state, or local laws. (Ord. 5526, 2010.)

28.80.020 Definitions.

For the purposes of this Chapter, the following words and phrases shall have the following meanings:

A. **Applicant.** A person who is required to file an application for a Medical Marijuana Storefront Collective Dispensary permit under this Chapter, including an individual owner, managing partner, officer of a corporation, or any other dispensary operator, Management Member, employee, or agent of a Medical Marijuana Storefront Collective Dispensary.

B. **Drug Paraphernalia.** As defined in California Health and Safety Code Section 11014.5, and as may be amended from time to time.

C. **Identification Card.** As defined in California Health and Safety Code Section 11362.71, and as may be amended from time to time.

D. **Management Member.** A Medical Marijuana Collective member with responsibility for the establishment, organization, registration, supervision, or oversight of the operation of a Collective including, but not limited to, members who perform the functions of president, vice president, director, operating officer, financial officer, secretary, treasurer, or manager of the Collective.
E. Medical Marijuana Storefront Collective Dispensary or Storefront Collective Dispensary. An incorporated or unincorporated association which is composed of four (4) or more Qualified Patients and their designated Primary Caregivers who associate at a particular location or Property within the City in order to collectively or cooperatively cultivate marijuana for medical purposes and who, acting through Management Members, distribute the collectively-cultivated medical marijuana to the members of their Collective at a storefront dispensary located within a nonresidential zone of Santa Barbara, all in accordance with the Compassionate Use Act of 1996 (California Health and Safety Code section 11362.5) and Health and Safety Code sections 11362.7 through 11362.9. For the purposes of this Chapter, the term “Medical Marijuana cooperative” (or “cooperative”) shall have the same meaning as a “Medical Marijuana collective” (or a “collective”), and the term “cooperative” shall have the definition and formation requirements established for it by state law.

A Storefront Collective Dispensary shall not include the dispensing of medical marijuana by primary caregivers to qualified patients in the following locations so long as the location and operation of the clinic, health care facility, hospice, or residential care facility is otherwise permitted by the Municipal Code and is operated in the manner required by applicable state laws:

1. a clinic licensed pursuant to Chapter 1 of Division 2 of the state Health and Safety Code,
2. a health care facility licensed pursuant to Chapter Two of Division 2 of the state Health and Safety Code,
3. a residential care facility for persons with chronic life-threatening illness licensed pursuant to Chapter 3.01 of Division 2 of the state Health and Safety Code,
4. residential care facility for the elderly licensed pursuant to Chapter 3.2 of Division 2 of the state Health and Safety Code,
5. a residential hospice or a home health agency licensed pursuant to Chapter 8 of Division 2 of the state Health and Safety Code,

provided that any such clinic, health care facility, hospice or residential care facility also fully complies with applicable laws including, but not limited to, the Compassionate Use Act of 1996 and the SB 420 statutes.

F. Permittee. The Management Member or Members identified to the City by an Applicant as such, and to whom a City Storefront Collective Dispensary permit has been issued, and someone who also qualifies as a primary caregiver.

G. Person with an Identification Card. A person as described in California Health and Safety Code Section 11362.71 through 11362.76, and as amended from time to time.

H. Physician. A licensed medical doctor, including a doctor of osteopathic medicine as defined in the California Business and Professions Code.

I. Primary Caregiver. A person as defined and described in either subdivision (d) or (e) of California Health and Safety Code Section 11362.7 as it may be amended from time to time.

J. Property. The location or locations within the City at which Medical Marijuana Collective members and Management members associate to collectively or cooperatively cultivate or to distribute Medical Marijuana exclusively to their Collective members.

K. Qualified Patient. A person as defined and described in California Health and Safety Code Section 11362.5 et seq., and as it may be amended from time to time. For the purposes of this Chapter, a Qualified Patient shall also include a Person with an Identification Card.

L. Reasonable Compensation. Compensation commensurate with reasonable wages and benefits paid to employees of federal Internal Revenue Code-qualified nonprofit organizations, which employees have similar job descriptions and duties, as well as a comparable required level of experience and education, similar prior earnings or wage history, and number of hours typically worked per week. The payment of a bonus shall not be considered reasonable compensation.

M. School. An institution of learning for minors, whether public or private, offering a regular course of instruction required by the California Education Code. This definition includes an elementary school, middle, or junior high school, senior high school, or any special institution of education for persons under the age of eighteen years, whether public or private. (Ord. 5526, 2010.)

28.80.030 Storefront Collective Dispensary - Permit Required to Operate.

It shall be unlawful for any person to engage in, to conduct or carry on (or to permit to be engaged in, conducted or carried on) in or upon his or her Property located within the City, the operation of a Storefront Collective Dispensary unless an Applicant has first obtained and continues to maintain in full force and effect a valid Storefront Collective Dispensary Permit issued by the City for that Property pursuant to this Chapter. (Ord. 5526, 2010.)

28.80.040 Imposition of Medical Marijuana Storefront Collective Dispensary Permit Fees.

Every application for a Storefront Collective Dispensary permit shall be accompanied by an application fee (in an amount established by resolution of the City Council) at an amount calculated to recover the City’s full cost of reviewing and issuing the Storefront Collective Dispensary permit) and the filing of a complete required application pursuant to this Chapter. The application fee shall not include the standard City fees for fingerprinting, photographing, and background check costs and shall be in addition to any other business license fee or permit fee imposed by this Code or other governmental agencies. (Ord. 5526, 2010.)
28.80.050 Limitations on the Permitted Location of a Storefront Collective Dispensary.

A. Permissible Zoning for Storefront Collective Dispensaries. Storefront Collective Dispensaries may only be permitted and located on parcels within the City which are zoned for commercial uses and on those street block faces listed in the exhibit to this Chapter designated as “Medical Marijuana Storefront Collective Dispensaries – Allowed Locations,” dated as of June 22, 2010.

B. Storefront Locations. Except for those locations shown as allowed within the West Pueblo Medical Area on the exhibit attached to this Chapter which have been specifically approved by the Staff Hearing Officer as non-storefront locations pursuant to this Chapter, a Storefront Collective Dispensary shall only be located in a visible storefront type ground-floor location which provides good public views of the Dispensary entrance, its windows, and the entrance to the Storefront Collective Dispensary premises from a public street.

C. Commercial Areas and Zones Where Storefront Collective Dispensaries Not Permitted. Notwithstanding subparagraph (A) above, a Storefront Collective Dispensary shall not be allowed or permitted on a parcel located within 1000 feet of another permitted or allowed Storefront Collective Dispensary.

D. Locational Measurements. The distance between a Storefront Collective Dispensary and above-listed restrictions shall be calculated as a straight line from any parcel line of the Property on which the Storefront Collective Dispensary is located to the parcel line the real property on which the facility, building, or structure, or portion of the building or structure, in which the above-listed use occurs or is located.

   For the purposes of determining compliance with the locational restrictions imposed by this section, the permissibility of a proposed Storefront Collective Dispensary location shall be determined by City staff based on the date the permit application has been deemed complete by the City, with the earliest complete applications deemed to have priority over any subsequent Storefront Collective Dispensary application for any particular permissible location.

E. One Collective Dispensary for Each Area of the City. No more than one Storefront Collective Dispensary may open or operate in each of the areas of the City designated as allowed or permissible Collective Dispensary location areas in the exhibit attached to this Chapter, except for those areas which, at the time of the adoption of the ordinance amending this Chapter, already have more than one Storefront Collective Dispensary on a legal non-conforming basis and which are allowed to continue to operate on a legal non-conforming basis under Section Two of the Ordinance amending this Chapter--in which case a legal non-conforming Dispensary may be allowed to continue to operate in such an area.

F. Maximum Number of Medical Marijuana Storefront Collective Dispensaries Allowed Permits. Notwithstanding the above, the City may not issue a total of more than three (3) Collective Dispensary permits at any one time and, subject to the amortization allowance period contained within the uncodified portions of the City ordinance adopting amendments to this chapter, no more than three (3) permitted or allowed Collective Dispensaries may legally operate within the City, including specifically those dispensaries which are open and operating in a legal nonconforming manner at the time of the adoption of the ordinance amending this Chapter. (Ord. 5526, 2010.)

28.80.060 Storefront Collective Dispensary – Permit Application Requirements.

A. Application Filing. A complete Performance Standard Permit application submittal packet is required for a Storefront Collective Dispensary permit, and it shall be submitted (along with all required fees) and all other information and materials required by this Chapter in order to file a complete application for a Storefront Collective Dispensary Permit for a specific Property. All applications for Storefront Collective Dispensary permits shall be filed with the Community Development Department using forms provided by the City. It is the responsibility of the Applicant to provide all of the information required for approval of the permit. The application shall be signed by a Management Member under penalty of perjury.

B. Eligibility for Filing. If a Storefront Collective Dispensary permit application is filed by a non-owner of the Property, it shall also be accompanied by a written affirmation from the Property owner expressly allowing the Applicant and Management Member to apply for the Permit and acknowledging the Applicant’s right to use and occupy the Property for the intended Medical Marijuana Storefront Collective Dispensary use.

C. Filing Date. The filing date of any application shall be the date when the City officially receives the last submission of information or materials required in compliance with the submittal requirements specified herein, and the application has been deemed complete in writing by the City.

D. Effect of Incomplete Filing. Upon notification that an application submittal is incomplete, the Applicant shall be granted an extension of time to submit all materials required to complete the application within thirty (30) days. If the application remains incomplete in excess of thirty (30) days, the application shall be deemed withdrawn and new application submittal shall be required in order to proceed with the subject request.

E. Filing Requirements – Proposed Operational Plan. In connection with a permit application, an Applicant for a Storefront Collective Dispensary permit shall provide a detailed “Operations Plan” for the proposed Dispensary and, upon issuance of the Storefront Collective Dispensary permit by the City, shall operate the Storefront Collective Dispensary in accordance with the Operations Plan, as approved, at all times. A required Operations Plan shall consist of at least the following:
1. **Site Plan and Floor Plan.** A Storefront Collective Dispensary application shall have a proposed site plan and floor plan which shows a lobby waiting area at the entrance to the Storefront Collective Dispensary used to receive qualified patients or primary caregivers, and a separate and secure designated area for dispensing medical marijuana to qualified patients or designated primary caregiver members of the Collective. The primary entrance shall be located and maintained clear of barriers, landscaping and similar obstructions so that it is clearly visible from public streets, sidewalks or site driveways.

2. **Storage.** A Storefront Collective Dispensary shall have suitable locked storage on the premises, identified and approved as a part of the operational security plan for the after-hours storage of medical marijuana.

3. **Security Plans.** A Storefront Collective Dispensary shall provide a plan to provide adequate security on the premises of the Dispensary which shall be maintained in accordance with the Dispensary security plan approved by the Chief of Police and as reviewed by the Staff Hearing Officer. This plan shall include provisions for adequate lighting and alarms in order to ensure the safety of persons and to protect the premises from theft. All security guards used by dispensaries shall be licensed and employed by a state-licensed private-party operator security company retained by the Storefront Collective Dispensary, and each security guard used shall possess a valid state Department of Consumer Affairs “Security Guard Card” at all times. Security guards shall not possess or carry firearms or tazers while working at a Collective Dispensary.

4. **Security Cameras.** The Security Plan shall show how the Property will be monitored at all times by closed-circuit television for security purposes. The camera and recording system must be of adequate quality, color rendition and resolution to allow the ready identification of an individual on or adjacent to the Property. The recordings shall be maintained at the Property for a period of not less than thirty (30) days.

5. **Alarm Systems.** The Operations Plan shall provide that professionally monitored burglary and fire alarm systems shall be installed, and such systems shall be maintained in good working condition within the Storefront Collective Dispensary at all times.

6. **Emergency Contact.** An Operations Plan shall provide the Chief of Police with the name, cell phone number, and facsimile number of a Management Member to act as an on-site community relations staff person to whom the City may provide notice of any operating problems associated with the Storefront Collective Dispensary.

7. **Public Nuisance.** The Operations Plan shall provide for the Management Members of the Collective Dispensary to take all reasonable steps to discourage and correct objectionable conditions that constitute a public or private nuisance in parking areas, sidewalks, alleys and areas surrounding the premises and adjacent properties during business hours, if directly related to the patrons of the subject Storefront Collective Dispensary.

8. **Loitering Adjacent to a Dispensary.** The Operations Plan shall provide that the Management Members will take all reasonable steps to reduce loitering by Collective members in public areas, sidewalks, alleys and areas surrounding the Property and adjacent premises during the business hours of the Storefront Collective Dispensary.

9. **Trash, Litter, Graffiti.** The Operations Plan shall provide that the Management Members will keep an area which includes the sidewalks adjoining the Dispensary plus ten (10) feet beyond property lines (as well as any parking lots under the control of the Dispensary) clear of litter, debris, and trash.

10. **Removal of Graffiti.** The Operations Plan shall provide a method for the Management Members to promptly remove all graffiti from the Property and parking lots under the control of the Collective within 72 hours of its appearance.

**F. Filing Requirements – Information Regarding Storefront Collective Dispensary Management.** A Storefront Collective Dispensary Applicant shall also provide the following Management Member and Collective information as part of a Storefront Collective Dispensary application:

1. The name, address, telephone number, title and function(s) of each Management Member;
2. For each Management Member, a fully legible copy of one (1) valid government-issued form of photo identification, such as a state driver’s license or identification card. Acceptable forms of government-issued identification include, but are not limited to, driver’s license or photo identity cards issued by the state Department of Motor Vehicles (or equivalent) that meet REAL ID benchmarks, a passport issued by the United States or by a foreign government, U.S. Military ID cards (active duty or retired military and their dependents) or a Permanent Resident card.
3. Written confirmation as to whether the Collective or a Management Member of the Collective previously operated in this or any other county, city or state under a similar license or permit, and whether the Collective or Management Member Applicant ever had such a license or permit revoked or suspended and the reason(s) therefore.
4. If the Collective is a corporation or a cooperative, a certified copy of the Collective’s Secretary of State Articles of Incorporation, Certificate(s) of Amendment, Statement(s) of Information and a copy of the Collective’s By Laws;
5. If the Collective is an unincorporated association, a copy of the articles of association;
6. The name and address of the Applicant’s or Collective’s current designated Agent for Service of Process;
7. A statement dated and signed by each Management Member of the Collective, under penalty of perjury, that the Management Member has personal knowledge of the information contained in the Dispensary Application, that the information contained therein is true and correct, and that the application has been completed under the supervision of the identified Management Member(s);
8. Whether edible medical marijuana products will be prepared and distributed at the proposed Dispensary Property;
The Collective members and Management Members. (Ord. 5526, 2010.)

28.80.070 Criteria for Review of Collective Dispensary Applications by the City Staff Hearing Officer.

A. Decision on Application. Upon an application for a Storefront Collective Dispensary permit being deemed complete, the Staff Hearing Officer shall either issue a Storefront Collective Dispensary permit, issue a Storefront Collective Dispensary permit with conditions in accordance with this Chapter, or deny a Storefront Collective Dispensary permit.

B. Criteria for Issuance. The Staff Hearing Officer, or the City Council on appeal, shall consider the following criteria in determining whether to grant or deny a Medical Marijuana Storefront Collective Dispensary permit:

1. That the Collective Dispensary permit and the operation of the proposed Dispensary will be consistent with the intent of the Compassionate Use Act of 1996 and the SB 420 Statutes for providing medical marijuana to qualified patients and primary caregivers, and with the provisions of this Chapter and the Municipal Code, including the application submittal and operating requirements herein.

2. That the proposed location of the Storefront Collective Dispensary is not identified by the City Chief of Police as an area of increased or high crime activity.

3. For those applicants who have operated other Storefront Collective Dispensaries within the City, that there have not been significant numbers of calls for police service, crimes or arrests in the area of the applicant’s former location.

4. That issuance of a Collective Dispensary permit for the Collective Dispensary size requested is appropriate to meet needs of the community for access to medical marijuana.

5. That issuance of the Collective Dispensary permit would serve needs of City residents within a proximity to this location.

6. That the location is not prohibited by the provisions of this Chapter or any local or state law, statute, rule, or regulation, and no significant nuisance issues or problems are likely or anticipated, and that compliance with other applicable requirements of the City’s Zoning Ordinance will be accomplished.

7. That the Dispensary’s Operations Plan, its site plan, its floor plan, the proposed hours of operation, and a security plan have incorporated features necessary to assist in reducing potential crime-related problems and as specified in the operating requirements section. These features may include, but are not limited to, security on-site; procedure for allowing entry; openness to surveillance and control of the premises; the perimeter, and surrounding properties; reduction of opportunities for congregating and obstructing public ways and neighboring property; illumination of exterior areas; and limiting furnishings and features that encourage loitering and nuisance behavior.

8. That all reasonable measures have been incorporated into the Dispensary security plan or consistently taken to successfully control the establishment’s patrons’ conduct resulting in disturbances, vandalism, crowd control inside or outside the premises, traffic control problems, marijuana use in public, or creation of a public or private nuisance, or interference of the operation of another business.

9. That the Storefront Collective Dispensary is likely to have no potentially adverse affect on the health, peace, or safety of persons living or working in the surrounding area, overly burden a specific neighborhood, or contribute to a public nuisance, and that the Dispensary will generally not result in repeated nuisance activities including disturbances of the peace, illegal drug activity, marijuana use in public, harassment of passerby, excessive littering, excessive loitering, illegal parking, excessive loud noises, especially late at night or early in the morning hours, lewd conduct, or police detentions or arrests.

10. That any provision of the Municipal Code or condition imposed by a City-issued permit, or any provision of any other local or state law, regulation, or order, or any condition imposed by permits issued in compliance with those laws, will not be violated.

11. That the Applicant has not made a false statement of material fact or has omitted to state a material fact in the application for a permit.

12. That the Applicant has not engaged in unlawful, fraudulent, unfair, or deceptive business acts or practices with respect to the operation of another business within the City. (Ord. 5526, 2010.)

28.80.080 Ongoing Management Requirements for Medical Marijuana Storefront Collectives.

Storefront Collective Dispensary operations shall be maintained and managed on a day-to-day basis only in compliance with the following operational standards and requirements:

A. Criminal History. A Storefront Collective Dispensary permittee, including all Management Members of that permittee, shall not have been convicted of a felony or be on probation or parole for the sale or distribution of a controlled substance and shall remain free of such a conviction or probation during the period of time in which the Storefront Collective Dispensary is being operated.

B. Minors. It shall be unlawful for any Storefront Collective Dispensary permittee, a Management Member of the permittee, or any other person effectively in charge of any Storefront Collective Dispensary to employ any person who is not at least 18 years of age. Persons under the age of eighteen (18) years shall not be allowed on the premises of a Medical Marijuana Collective Dispensary unless they are a qualified patient member of the Collective and they are accompanied by a parent or guardian at all times. The entrance to a Storefront Collective Dispensary shall be clearly and legibly posted with a notice indicating that persons under the age of eighteen (18) are precluded from entering the premises unless they are a qualified patient member of the Collective and they are in the presence of their parent or guardian.
C. Storefront Collective Dispensary Size and Access. The following access restrictions shall apply to all Storefront Collective Dispensaries permitted by this Chapter:

1. A Storefront Collective Dispensary shall not be enlarged in size (i.e., increased floor area) without prior review and approval of the change from the Staff Hearing Officer and an approved amendment to the existing Storefront Collective Dispensary permit pursuant to the requirements of this Chapter.

2. An expressly designated Management Member or Members shall be responsible for monitoring the Property of the Storefront Collective Dispensary for any nuisance activity (including the adjacent public sidewalk and rights-of-way) which may occur on the block within which the Storefront Collective Dispensary is operating.

3. Only Collective members as primary caregivers or qualified patients shall be permitted within a Storefront Collective Dispensary building for the purposes of cultivating, processing, distributing, or obtaining medical marijuana.

4. A qualified patient or a primary caregiver shall not visit a Storefront Collective Dispensary without first having obtained a valid written recommendation from his or her licensed physician recommending the use of medical marijuana or, in the case of a primary caregiver, without first having been expressly designated a primary caregiver to a qualified patient as required by the Compassionate Use Act.

5. A qualified patient or primary caregiver may not obtain medical marijuana upon their first in-person visit to a Storefront Collective Dispensary and, instead, may only become a member of the Collective at the first visit to a particular Dispensary. Upon joining the Collective, a registered member of a Collective may obtain medical marijuana as a qualified patient or primary caregiver only after an initial waiting period of 24 hours after their initial in-person visit to the Dispensary for the purposes of joining the Collective.

6. Only a primary caregiver and qualified patient members of the Collective Dispensary shall be allowed within the designated marijuana dispensing area of a Storefront Collective Dispensary (as shown on the site plan required by the Application) along with only necessary Management Members.

7. Restrooms within the Storefront Collective Dispensary shall remain locked and under the control of Collective Dispensary Management Members at all times.

D. Medical Marijuana Dispensing Operations. The following medical marijuana distribution restrictions and conditions shall apply to all of the day-to-day medical marijuana dispensing operations which occur within a City-permitted Storefront Collective Dispensary:

1. A Storefront Collective Dispensary shall only dispense to qualified patients or primary caregivers with a currently valid physician’s approval or recommendation in compliance with the criteria of the Compassionate Use Act of 1996 and the SB 420 Statutes to those persons who are registered as active members of that Collective, and may do so only during storefront dispensary operating hours of between eight o’clock in the morning (8:00 a.m.) through six o’clock in the evening (6:00 p.m.), Monday through Saturday only. The days and hours of the dispensary’s operation shall be posted in a sign located on the street frontage of the dispensary premises in a manner consistent with the City’s Sign Ordinance. Storefront Collective Dispensaries shall require such persons receiving medical marijuana to provide valid official identification, such as a Department of Motor Vehicles driver’s license or State Identification Card, each time they seek to obtain medical marijuana.

2. Prior to dispensing medical marijuana, a Management Member of the Storefront Collective Dispensary shall obtain a re-verification from the recommending physician’s office personnel that the individual requesting medical marijuana is or remains a qualified patient or a primary caregiver.

3. A Storefront Collective Dispensary shall not have a physician on-site to evaluate patients and provide a Compassionate Use Act recommendation for the use of medical marijuana.

4. Every Storefront Collective Dispensary shall display, at all times during its regular business hours, the permit issued pursuant to the provisions of this Chapter for such Collective Dispensary in a conspicuous place so that the same may be readily seen by all persons entering the Storefront Collective Dispensary.

5. No Storefront Collective Dispensary shall hold or maintain a license from the State Division of Alcoholic Beverage Control for the sale of alcoholic beverages, or operate a business on the premises of the Dispensary that sells alcoholic beverages. No alcoholic beverages shall be allowed or consumed on the premises.

6. Storefront Collective Dispensaries shall be considered a commercial use relative to the parking requirements imposed by Santa Barbara Municipal Code Section 28.90.100(I).

7. A notice shall be clearly and legibly posted in the Storefront Collective Dispensary indicating that smoking, ingesting, or consuming marijuana on the premises or in the vicinity of the Dispensary is prohibited. Signs on the premises shall not obstruct the entrance or windows. Address identification shall comply with Fire Department illuminated address sign requirements.

8. Business identification signage for Storefront Collective Dispensaries shall comply with the City’s Sign Ordinance (SBMC Chapter 22.70) and be limited to that needed for identification only, consisting of a single window sign or wall sign that shall not exceed six square feet in area or 10 percent of the window area, whichever is less.

E. Dispensary Medical Marijuana On-Site Consumption and Re-Distribution Restrictions. The following medical marijuana consumption restrictions shall apply to all permitted Storefront Collective Dispensaries:

1. Medical marijuana shall not be consumed by qualified patients on the Property or on the premises of the Storefront Collective Dispensary.
The term “premises” includes the actual building, as well as any accessory structures, parking lot or parking areas, or other surroundings within 200 feet of the Collective Dispensary’s entrance. Collective Dispensary Management Member employees who are qualified patients may consume marijuana within the enclosed building area of the premises, provided such consumption occurs only via oral consumption (i.e., eating only) but not by means of smoking or vaporization.

2. Storefront Collective Dispensary operations shall not result in illegal re-distribution or sale of medical marijuana obtained from the Collective Dispensary, or the use or distribution in any manner which violates state law.

F. Retail Sales of Other Items by a Storefront Collective Dispensary. The retail sales of related marijuana use items at a Storefront Collective Dispensary may be allowed only under the following circumstances:

1. With the approval of the Staff Hearing Officer, a Collective Dispensary may conduct or engage in the commercial sale of specific products, goods, or services (except drug paraphernalia) in addition to the provision of medical marijuana on terms and conditions consistent with this Chapter and applicable law.

2. No Collective Dispensary shall sell or display for sale any drug paraphernalia or any implement that may be used to administer medical marijuana.

G. Storefront Collective Dispensary – Compliance with the Compassionate Use Act of 1996 and SB 420 Statutes.

1. State Law Compliance Warning. Each Collective Dispensary shall have a sign posted in a conspicuous location inside the Storefront Collective Dispensary advising the public of the following:
   a. The diversion of marijuana for non-medical purposes is a criminal violation of state law.
   b. The use of marijuana may impair a person’s ability to drive a motor vehicle or operate heavy machinery.
   c. The sale of marijuana and the diversion of marijuana for non-medical purposes are violations of state law.

2. Not-For-Profit Operation of the Storefront Collective Dispensary. No Medical Marijuana Storefront Collective Dispensary shall operate for profit. Cash and in-kind contributions, reimbursements, and reasonable compensation for services provided by Management Members and Collective Members toward the Collective’s actual expenses for the growth, cultivation, processing, and provision of Medical Marijuana to qualified patients of the Collective shall be allowed, provided that such reimbursements are in strict compliance with the applicable provisions of the SB 420 Statutes. All such cash and in-kind reimbursement amounts and items shall be fully and properly documented in the financial and accounting records of the Collective Dispensary in accordance with and as required by the recordkeeping requirements of this Chapter.

3. Cultivation of Medical Marijuana by the Collective. The collective cultivation of medical marijuana shall be limited to the Collective Members and Management Members. Cultivation of medical marijuana by the Collective Members and the Management Members shall occur exclusively within the boundaries of the counties of Santa Barbara, Ventura, or San Luis Obispo and only at the real property identified for such cultivation on the approved Storefront Collective Dispensary Permit application.

No cultivation of medical marijuana at any Property where the marijuana will be visible with the un-aided eye from any public or other private property, nor shall cultivated medical marijuana or dried medical marijuana be visible from the building exterior on the Property. No cultivation shall occur at the Property of the Collective unless the area devoted to the cultivation is secured from public access by means of a locked gate and any other security measures necessary to prevent unauthorized entry.

4. Distribution of Medical Marijuana Within Santa Barbara Only. Distribution of the medical marijuana collectively cultivated by some Collective Members to other Collective Members shall occur exclusively within the boundaries of the city of Santa Barbara and only at the real property identified as the permitted Dispensary location on the approved Storefront Collective Dispensary Permit application.

5. Membership Limited to One Collective. Membership in a Collective which operates a Storefront Collective Dispensary within the City shall be limited to one Collective per qualified patient or primary caregiver. Each Collective shall also consist only of individuals residing within Santa Barbara County, as the term “principal residence” is defined in the federal Internal Revenue Code.

H. Maintenance of Appropriate Collective Records Regarding Cultivation and Compliance with the SB 420 Statutes.

1. Cultivation Records. Every permitted Storefront Collective Dispensary shall maintain on-site (i.e., at the Property designated for the operation of the Storefront Collective Dispensary) the medical marijuana cultivation records of the Collective. These records shall be signed under penalty of perjury by each Management Member responsible for the cultivation and shall identify the location or locations within the counties of Santa Barbara, Ventura, or San Luis Obispo at which the Collective’s medical marijuana is being cultivated. Such records shall also record the total number of marijuana plants cultivated or stored at each cultivation location. The Storefront Collective Dispensary shall also maintain an inventory record documenting the dates and amounts of medical marijuana cultivated or stored at the Dispensary Property, if any, as well as the daily amounts of Medical Marijuana distributed from the permitted Dispensary.
2. **Membership Records.** Every Storefront Collective Dispensary shall maintain full and complete records of the following membership information: a. the full name, date of birth, residential address, and telephone number(s) of each Collective Member and Management Member; b. the date each Collective Member and Management Member joined the Collective; c. the exact nature of each Collective Member’s and Management Member’s participation in the Collective; and d. the current status of each member and Management Member as a Qualified Patient or Primary Caregiver.

3. **Financial Records.** The Collective Dispensary shall also maintain a written accounting record or ledger of all cash, receipts, credit card transactions, reimbursements, (including any in-kind contributions), and any and all reasonable compensation for services provided by the Management Members or other members of the Collective, as well as records of all operational expenditures and costs incurred by the Storefront Collective Dispensary in accordance with generally accepted accounting practices and standards typically applicable to business records.

4. **Dispensary Record Retention Period.** The records required above by subparagraphs (1), (2), and (3) of this subsection shall be maintained by the Medical Marijuana Collective Dispensary for a period of three (3) years and shall be made available to the City upon a written request, subject to the authority set forth in Section 28.80.090. (Ord. 5526, 2010.)

**28.80.090 City Access to and Inspection of Required Storefront Collective Dispensary Records.**

A duly designated City Police Department or Community Development Department representative may enter and shall be allowed to inspect the premises of every Storefront Collective Dispensary as well as the financial and membership records of the Collective required by this Chapter between the hours of eight o’clock (8:00) A.M. and six o’clock (6:00) P.M., or at any appropriate time to ensure compliance and enforcement of the provisions of this Chapter, except that the inspection and copying of the private medical records of a Collective Member shall be made available to the Police Department only pursuant to a properly executed search warrant or inspection warrant by a court of competent jurisdiction, or a court order for the inspection of such records.

It shall be unlawful for any property owner, landlord, lessee, Medical Marijuana Collective Dispensary Member or Management Member or any other person having any responsibility over the operation of the Storefront Collective Dispensary to refuse to allow, impede, obstruct or interfere with an inspection of the Storefront Collective Dispensary or the required records thereof. (Ord. 5526, 2010.)

**28.80.100 Sale, Distribution, or Exchange of Medical Marijuana with a Non-Medical Marijuana Collective Member.**

A. **Transfers to or from a Non-Collective Member.** A Storefront Collective Dispensary, including the Management Member operating the Dispensary, shall not cause or permit the sale, distribution, or exchange of medical marijuana or of any edible medical marijuana product to any non-Collective Member or Management Member. No Storefront Collective Dispensary shall possess medical marijuana that was not collectively cultivated by its Management Members or members either at the Property designated for the cultivation or at its prior location allowed in accordance with this Chapter.

B. **Assistance for Edible Marijuana Products.** Sales of edible medical marijuana products may be permitted at a Storefront Collective Dispensary and an individual or business within the City which assists a Dispensary in preparing and processing such a product will be deemed by the City as an “individual who provides assistance to a qualified patient or person with an identification card, or his or her designated primary caregiver, in administering medical marijuana to a qualified patient …” as that phrase is used in state Health and Safety Code section 11362.765(b)(3). (Ord. 5526, 2010.)

**28.80.110 Appeal from Staff Hearing Officer Determination.**

A. **Appeal to the Planning Commission and the City Council.** An applicant or any interested party who disagrees with the Staff Hearing Officer’s decision to issue, issue with conditions, or to deny or revoke a Storefront Collective Dispensary permit may appeal the Staff Hearing Officer’s decision to the City Planning Commission in accordance with the appeal provisions of subsection (B) of Santa Barbara Municipal Code section 28.05.020 and, thereafter, to the City Council by filing an appeal pursuant to the requirements of section 1.30.050 of the Municipal Code.

B. **Notice of Appeal Hearing.** Upon the filing of an appeal pursuant to subparagraph (A) above, the Community Development Director or the City Clerk shall provide public notice of the appeal hearing in accordance with the notice provisions of SBMC Section 28.87.380. (Ord. 5526, 2010.)

**28.80.120 Suspension and Revocation by Staff Hearing Officer.**

A. **Authority to Suspend or Revoke a Storefront Collective Dispensary Permit.** Consistent with Section 28.87.360, any Storefront Collective Dispensary permit issued under the terms of this Chapter may be suspended or revoked by the Staff Hearing Officer if it shall appear to that Officer that the Dispensary permittee has violated any of the requirements of this Chapter, or the Dispensary is being operated in a manner which violates the operational requirements or operational plan required by this Chapter, or it is operated in a manner which conflicts with state law.
B. Annual Review of Collective Dispensary Operations. The staff of the Community Development Department and the Police Department are hereby authorized to conduct an annual review of the operation of each permitted Storefront Collective Dispensary within the City for full compliance with the operational and recordkeeping requirements of this Chapter, including specifically, annual verification that all persons employed or volunteering at the Storefront Collective Dispensary have not been convicted of or on probation for a crime related to the possession, sale, or distribution of controlled substances. A fee in an amount established by resolution of the City Council may be established in order to reimburse the City for the time involved in the annual review process. The staff may initiate a permit suspension or revocation process for any Storefront Collective Dispensary which, upon completion of an annual review, is found not to be in compliance with the requirements of this Chapter or which is operating in a manner which constitutes a public nuisance.

C. Suspension or Revocation – Written Notice. Except as otherwise provided in this Chapter, no permit shall be revoked or suspended by the Staff Hearing Officer under the authority of this Chapter until written notice of the intent to consider revocation or suspension of the permit has been served upon a Management Member or the person to whom the permit was granted at least ten (10) days prior to the date set for such review hearing. Such revocation or suspension notice shall state the specific reasons for the proposed suspension or revocation and must have been provided to the permittee in writing prior to the hearing. Such notice shall contain a brief statement of the grounds to be relied upon for revoking or suspending such permit. Notice may be given either by personal delivery to the permittee, or by depositing such notice in the U.S. mail in a sealed envelope, postage prepaid (via regular mail and return receipt requested), addressed to the person to be notified at his or her address as it appears in his or her application for a Storefront Collective Dispensary permit. (Ord. 5526, 2010.)

28.80.130 Transfer of Collective Dispensary Permits.

A. Permit – Site Specific. A permittee shall not operate a Storefront Collective Dispensary under the authority of a Storefront Collective Dispensary permit at any place other than the address of the Collective Dispensary stated in the application for the permit. All Collective Dispensary permits issued by the City pursuant to this chapter shall be non-transferable to a different location.

B. Transfer of a Permitted Collective Dispensary. A permittee shall not transfer ownership or control of a Storefront Collective Dispensary or attempt to transfer a Collective Dispensary permit to another person unless and until the transferee obtains an amendment to the permit from the Staff Hearing Officer pursuant to the permitting requirements of this Chapter stating that the transferee is now the permittee. Such an amendment may be obtained only if the transferee files an application with the Community Development Department in accordance with all provisions of this Chapter accompanied by the required transfer review application fee.

C. Request for Transfer with a Revocation or Suspension Pending. No Storefront Collective Dispensary permit may be transferred (and no permission for a transfer may be issued) when the Community Development Department has notified the permittee in writing that the permit has been or may be suspended or revoked for non-compliance with this Chapter and a notice of such suspension or revocation has been provided.

D. Transfer without Permission. Any attempt to transfer a Storefront Collective Dispensary permit either directly or indirectly in violation of this Chapter is declared void, and the permit shall be deemed revoked. (Ord. 5526, 2010.)

28.80.140 Medical Marijuana Vending Machines.

No person shall maintain, use, or operate a vending machine which dispenses marijuana to a qualified patient or primary caregiver unless such machine is located within the interior of a duly permitted Collective Dispensary. (Ord. 5526, 2010.)

28.80.150 Business License Tax Liability.

An operator of a Storefront Collective Dispensary shall be required to apply for and obtain a Business Tax Certificate pursuant to Chapter 5.04 as a prerequisite to obtaining a Storefront Collective Dispensary permit pursuant to the terms of this Chapter. When and as required by the State Board of Equalization, Storefront Collective Dispensary transactions shall be subject to sales tax in a manner required by state law. (Ord. 5526, 2010.)
1. **Outer State Street Area:**
   a. 3400–3900 blocks of State Street
   b. All parcels on south La Cumbre Road
   c. All parcels on south La Cumbre Lane
   d. All parcels on La Cumbre Plaza Lane
   e. 00–100 blocks of south Hope Avenue

2. **Upper De la Vina Area:**
   a. 2600–2900 blocks of De la Vina Street

3. **Mission Street Area:**
   a. 1900-2000 blocks of De la Vina Street
   b. 100 block of west Mission Street
   c. 1800 block of State Street
   d. 1400 block of Chapala Street

4. **Milpas Street:**
   a. 00–400 blocks of north Milpas Street

5. **West Pueblo Medical Facility Area:**
   a. 200 block of Nogales
   b. 200-400 blocks of west Pueblo
   c. 2400-2500 blocks of Bath
   d. 2300 block of Castillo
   e. 300 block of west Junipero
Chapter 28.81

ADULT ENTERTAINMENT FACILITIES

Sections:
28.81.010 Purpose.
28.81.020 Definitions.
28.81.030 Location of Adult Entertainment Businesses.
28.81.040 Design and Performance Standards.
28.81.050 Legally Existing Non-Conforming Uses.
28.81.060 Severance Clause.

28.81.010 Purpose.

It is the purpose of this Chapter to regulate adult entertainment businesses to promote the health, safety and welfare of the citizens of the City of Santa Barbara and to establish reasonable and uniform regulations to prevent the concentration of adult entertainment businesses within the City. In adopting this Chapter, it is recognized that certain types of adult entertainment businesses possess certain characteristics which when concentrated can have a deleterious effect upon adjacent areas. It is also recognized that locating the adult entertainment businesses covered by this chapter in the vicinity of facilities frequented by minors will cause the exposure of minors to adult material which, because of their immaturity, may adversely affect them. Special regulation of these uses is necessary to insure that these adverse effects will not contribute to the blighting or downgrading of the surrounding neighborhood and to an adverse effect on minors. The uses subject to these regulations are as follows:

Adult bookstore, adult novelty store, or adult video store;
Adult live entertainment theater;
Adult motion picture or video arcade; and
Adult motion picture theater.

The purpose of this ordinance is not to limit or restrict the content of any communicative materials, including sexually oriented materials, to restrict or deny access by adults to sexually oriented materials protected by the United States or California Constitutions, or to deny access by distributors and exhibitors of sexually oriented materials and entertainment to their intended market. (Ord. 4867, 1994; Ord. 3870, 1976.)

28.81.020 Definitions.

For purposes of this Chapter the following terms shall be defined as follows:

A. **Adult Entertainment Business** shall mean those businesses defined as follows:

1. **Adult Bookstore, Adult Novelty Store, or Adult Video Store** is an establishment with a majority of: a) its floor area devoted to; or b) stock-in-trade consisting of; or c) gross revenues derived from, and offering for sale for any form of consideration, any one or more of the following:
   a. Books, magazines, periodicals or other printed matter, photographs, drawings, motion pictures, slides, films, tapes, video cassettes, records, or other visual or audio representations which are characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."
   b. Instruments, devices or paraphernalia which are designed to be used in connection with "specified sexual activities;" or
   c. Goods which are replicas of, or which simulate "specified anatomical areas," or goods which are designed to be placed on or in "specified anatomical areas;" or to be used in conjunction with "specified sexual activities."

2. **Adult Live Entertainment Theater** means any place, building, enclosure or structure, partially or entirely used for "live adult entertainment" performances or presentations characterized by an emphasis on depicting, exposing, displaying, describing or relating to "specified sexual activities" or "specified anatomical areas" for observation by patrons therein.

"Live adult entertainment" means any physical human body activity, whether performed or engaged in alone or with other persons, including but not limited to singing, walking, speaking, dancing, acting, posing, simulating, wrestling or pantomiming, in which the performer or performers expose to public view without opaque covering "specified anatomical areas" for entertainment value for any form of consideration.

3. **Adult Motion Picture or Video Arcade** means any business wherein coin, paper note or token operated, or electronically, electrically, or mechanically controlled still or motion picture machines, projectors, or other image-producing devices are maintained to show images to four or fewer persons per machine, at any one time, and where the predominant character or theme of the images so displayed is distinguished or characterized by its emphasis on matter depicting, or relating to "specified sexual activities" or "specified anatomical areas."
4. **Adult Motion Picture Theater** means any business, other than a hotel or motel, with the capacity of five or more persons where, for any form of consideration, films, motion pictures, video cassettes, slides, or similar photographic reproductions in which the predominant character and theme is distinguished or characterized by its emphasis on matter depicting, or relating to "specified sexual activities" or "specified anatomical areas" as defined in this section. This includes, without limitation, showing any such slides, motion pictures or videos by means of any video tape system which has a display, viewer, screen, or a television set.

5. **Exception to Adult Entertainment Business.** An "Adult entertainment business" shall not include:
   a. Bona fide medical establishments operated by properly licensed and registered medical and psychological personnel with appropriate medical or professional credentials for the treatment of patients.
   b. Persons depicting "specified anatomical areas" in a modeling class operated:
      1. By a college, junior college, or university supported entirely or partly by public revenue; or
      2. By a private college or university which maintains and operates educational programs in which credits are transferable to a college, junior college, or university supported entirely or partly by public revenue; or
      3. In a structure operated either as a profit or not-for-profit facility:
         a) Which has no sign visible from the exterior of the structure and no other advertising that indicates a nude person is available for viewing; and
         b) Where, in order to participate in a class a student must enroll at least three days in advance of the class.
   c. The practice of massage in compliance with Chapter 5.76 of this Code.

B. **Employee.**
"Employee" of an adult entertainment business shall mean a person who works or performs in and/or for an adult entertainment business, regardless of whether or not said person is paid a salary, wage or other compensation by the operator of said business.

C. **Establish.**
"Establish" shall mean and include any of the following:
1. The opening or commencement of any adult entertainment business as defined in this Section; or
2. The conversion of an existing business, whether or not an adult entertainment business, to any adult entertainment business as defined in this Section; or
3. The relocation of any adult entertainment business; or
4. The expansion or enlargement of the premises by 15% or more of the existing floor area as the area legally existed on March 1, 1994.

D. **Operate.**
"Operate" shall mean to own, lease (as lessor or lessee), rent (as landlord or tenant or as agent for the purpose of representing a principal in the management, rental or operation of the property of such principal), manage, conduct, direct, or be employed in an adult entertainment business.

E. **Operator.**
"Operator" shall mean and include the owner, custodian, manager or person in charge of any adult entertainment business.

F. **Person.**
"Person" shall mean an individual, proprietorship, partnership, corporation, association, or other legal entity.

G. **Public Park, Beach or Recreation Area.**
"Public Park, Beach or Recreation Area" shall mean public land which has been designated for park, beach, recreational, or arts activities including but not limited to a park, beach, playground, nature trails, swimming pool, reservoir, athletic field, basketball or tennis courts, pedestrian/bicycle paths, open space, wilderness areas, or similar public land within the City which is under the control, operation, or management of the City Department of Parks and Recreation. "Recreation area" shall also include the Santa Barbara Zoological Gardens, the Santa Barbara Museum of Art and the Santa Barbara Museum of Natural History.

H. **Religious Institution.**
"Religious Institution" shall mean any church, synagogue, mosque, temple, or building which is used primarily for religious worship, religious education incidental thereto and related religious activities.

I. **Residential Zone.**
"Residential Zone" shall mean property which has a zoning designation of A-1, A-2, E-1, E-2, E-3, R-1, R-2, R-3, R-4 or such other residential zones as may be created by ordinance, or a Mobilehome Park or subdivision or Recreational Vehicle Park as defined in this Code.

J. **School.**
"School" shall mean any public or private educational facility primarily attended by minors, including but not limited to, large family day care homes, nursery schools, preschools, kindergartens, elementary schools, primary schools, intermediate schools, junior high schools, middle schools, high schools, secondary schools, continuation schools and special education schools. School includes the school grounds, but does not include the facilities used primarily for another purpose and only incidentally as a school.
K. Sensitive Uses.
"Sensitive Uses" shall include public parks, beaches or recreation areas, religious institutions, residential zones and schools.

L. Specified Anatomical Areas.
"Specified Anatomical Areas" shall include the following:
1. Less than completely and opaquely covered human genitals, pubic region, buttock, anus, and/or the female breast below a point immediately above the top of the areola; and
2. Human male genitals in a discernibly turgid state, even if completely and opaquely covered.

M. Specified Sexual Activities.
"Specified Sexual Activities" shall include the following:
1. Actual or simulated sexual intercourse, oral copulation and intercourse, oral-anal copulation, bestiality, direct physical stimulation of unclothed genitals, flagellation or torture in the context of sexual relationship, or the use of excretory functions in the context of a sexual relationship, and any of the following sexually oriented acts or conduct: anilingus, buggery, coprophagia, coprophilia, cunnilingus, fellatio, necrophilia, pederasty, pedophilia, piquerism, sapphism, zooerasty; or
2. Clearly depicted human genitals in a state of sexual stimulation, arousal or tumescence; or
3. Human or animal masturbation, sodomy, oral copulation, coitus, ejaculation; or
4. Fondling or touching of nude human genitals, pubic region, buttocks or female breast; or
5. Masochism, erotic or sexually oriented torture, beating or the infliction of pain; or
6. Erotic or lewd touching, lewd fondling or other lewd contact with an animal by a human being; or
7. Human excretion, urination, menstruation, vaginal or anal irrigation. (Ord. 4867, 1994; Ord. 3870, 1976.)

28.81.030 Location of Adult Entertainment Businesses.

A. GENERAL RESTRICTIONS. No person shall operate or establish an "adult entertainment business," as defined in this Code, in any area of the City of Santa Barbara, except the C-2 zone, C-M zone, or the M-1 zone but excluding the El Pueblo Viejo Landmark District as defined in Section 22.22.100B of the Santa Barbara Municipal Code.

B. VALID PERMITS. No building permit or zoning clearance, business license, or other permit or entitlement for use shall be legally valid if issued to any adult entertainment business proposed to operate or be established in any area of the City except allowed portions of the C-2 zone, C-M zone, or the M-1 zone but excluding those areas of the City within the El Pueblo Viejo Landmark District as defined in Section 22.22.100B of the Santa Barbara Municipal Code.

C. LOCATIONAL RESTRICTIONS. Any adult entertainment business proposed to be operated or established in allowed portions of the C-2 zone, C-M zone, or the M-1 zone shall be subject to the following restrictions:
1. The establishment or operation of an adult entertainment business shall be subject to the locational criteria setting forth minimum distances from sensitive uses and zones as follows:
   a. Residential zone: 500 feet,
   b. Religious institution: 500 feet,
   c. Public park, public beach, recreation area: 500 feet,
   d. School: 500 feet,
   e. Another adult entertainment business: 500 feet.
2. For the purposes of this Chapter, all distances shall be measured in a straight line, without regard for intervening structures, from the nearest exterior wall of the unit or building containing the adult entertainment business to the nearest property line of a sensitive use or zone as listed in this Chapter.
3. For the purposes of this Chapter, the distance between any two adult entertainment businesses shall be measured in a straight line, without regard to intervening structures or objects, from the closest exterior wall of the unit or structure in which each business is located.
4. An adult entertainment business may not be operated in the same building, structure, or portions thereof containing another adult entertainment business or use as defined in this Chapter. Each business defined in 28.81.020.A.1-4 shall constitute a separate business for purposes of this Chapter. (Ord. 5105, 1999; Ord. 4867, 1994; Ord. 4838, 1993; Ord. 3911, 1977; Ord 3870, 1976.)

28.81.040 Design and Performance Standards.

The establishment or operation of an adult entertainment business shall comply with the applicable site development standards, including, but not limited to, parking, design review, the technical codes adopted pursuant to section 22.04.010 of the Santa Barbara Municipal Code, and as may be amended from time to time, and the California Fire Code adopted pursuant to Chapter 8.04 of the Santa Barbara Municipal Code, and as may be amended from time to time. An adult entertainment business shall comply with the applicable City of Santa Barbara permit and inspection procedures. In addition, adult entertainment businesses shall comply with the following design and performance standards:
A. Signs, advertisements, displays, or other promotional materials depicting or describing "specified anatomical areas" or "specified sexual activities" or displaying instruments, devices, or paraphernalia which are designed for use in connection with "specified sexual activities" shall not be shown or exhibited so as to be discernible by the public beyond the walls of the building or portion thereof in which the adult entertainment business is conducted.

B. Each adult entertainment business shall have a business entrance separate from any other non-adult business located in the same building.

C. All building openings, entries, and windows for an adult entertainment business shall be located, covered or screened in such a manner as to prevent a view into the interior of an adult entertainment business from any area open to the general public.

D. No adult entertainment business shall be operated in any manner that permits the observation by the public of any material depicting, describing, or relating to "specified sexual activities" or "specified anatomical areas" from any public way or from any location beyond the walls of the building or portion thereof in which the adult entertainment business is conducted.

E. The building entrance to the adult entertainment business shall be clearly and legibly posted with a notice indicating that minors are precluded from entering the premises.

F. No loudspeakers or sound equipment shall be used by adult entertainment businesses for amplification of sound to a level discernible by the public beyond the walls of the building or portion thereof in which the adult entertainment business is conducted.

G. Each adult entertainment business shall be provided with a manager's station which shall be used for the purpose of supervising activities within the business. A manager shall be on duty on the premises during all times that the adult entertainment business is open to the public.

H. Off-street parking shall be provided for the adult entertainment business as specified in accordance with the parking provisions of Santa Barbara Municipal Code Chapter 28.90.

I. An on-site security program shall be prepared and implemented including the following items:
   1. All off-street parking areas and building entries serving the adult entertainment business shall be illuminated during all hours of operation with a lighting system which provides a minimum maintained horizontal illumination of one (1) footcandle of light on the parking surface and/or walkway.
   2. All interior portions of the adult entertainment business, except those areas devoted to mini-motion or motion pictures, shall be illuminated during all hours of operation with lighting system which provides a minimum maintained horizontal illumination of not less than two (2) footcandles of light on the floor surface. (Ord. 4867, 1994.)

28.81.050 Legally Existing Non-Conforming Uses.

Notwithstanding any other provision of this Title, any legally existing adult entertainment business operating on March 1, 1994, not in compliance with the locational requirements in Section 28.81.030 may continue as a non-conforming use. The legally non-conforming status of an adult entertainment business shall terminate if voluntarily discontinued for thirty (30) or more consecutive days. (Ord. 4867, 1994.)

28.81.060 Severance Clause.

If any section, subsection, paragraph, subparagraph or provision of this Chapter or the application thereof to any person, property or circumstance is held invalid, the remainder of the Chapter and the application of such to other persons, properties or circumstances shall not be affected thereby. (Ord. 4867, 1994.)
Chapter 28.82

ESTABLISHING PROCEDURE FOR STREET WIDENING SETBACK LINES

Sections:

28.82.009 Determining Authority.
28.82.022 Issuing Building Permits During Interim Period.
28.82.023 Resolution - Notice of Hearing.

28.82.009 Determining Authority.

Whenever the public peace, health, safety, comfort, convenience, interest or welfare may require, the City Council is hereby authorized and empowered to determine the minimum distance back from the street line for the erection of buildings or structures along any portion of any street, public way or place in the City and to order the establishment of a line to be known and designated as a street widening setback line between which line and the street line no building or structure shall be erected or constructed. The street widening setbacks and the procedures relating to street widening setbacks specified in this Chapter 28.82 and Chapters 28.83 and 28.84 are to be distinguished from the general setbacks defined in Chapter 28.04 and established elsewhere in this Title 28. (Ord. 5459, 2008; Ord. 3769, 1975; Ord. 2585, 1957; Ord. 1157 §1, 1923.)

28.82.022 Issuing Building Permits During Interim Period.

After the adoption of the Resolution of Intention, and prior to the time the ordinance establishing setback line or lines in such proceedings becomes effective, no building permit shall be issued for the erection of any building or structure between any proposed setback line and the street line and any permit so issued shall be void. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 1157 §3, 1923.)

28.82.023 Resolution - Notice of Hearing.

Before ordering the establishment of any setback line authorized by Section 28.82.009, the Council shall pass a resolution of intention so to do, designating the distance in from the street, the setback line or lines proposed, shall be established; which resolution shall be published once in a daily newspaper published and circulated in the City, and designated by the City Council for the purpose; and one (1) copy of the resolution shall be posted conspicuously upon the street in front of each block or part of block of any street, public way or place where such setback line is proposed to be established. The resolution shall contain, also, a notice of the day, hour and place when and where any and all persons having any objection to the establishment of the proposed setback line or lines may appear before the Council and present any objection or protest which they may have to the establishment of the proposed setback line or lines as set forth in the Resolution of Intention. The time of hearing shall not be less than fifteen (15) nor more than forty (40) days from the date of the adoption of the Resolution of Intention; and the publication and posting of the Resolution shall be made at least ten (10) days before the time of the hearing, and shall be deemed to be and shall constitute the only notice to be given of such hearing. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 1157 §2, 1923.)

28.82.024 Hearing.

At any time not later than the hour set for hearing objections and protests to the establishment of the proposed setback line or lines, any person having any interest in any land upon which the setback line is proposed to be established, may file with the City Clerk a written protest or objection against the establishment of the setback line or lines designated in the Resolution of Intention. Such protest must be in writing, must contain a statement of the facts or reasons constituting the owner's objections and be delivered to the Clerk not later than the hour set for the hearing, and no other protests or objections shall be considered. All protestants may appear before the Council at the hearing, either in person or by attorney, and be heard in support of their protests or objections. At the time set for hearing, or at any time to which the hearing may be continued, the Council shall proceed to hear and pass upon all protests or objections so made, and its decision shall be final and conclusive, both as to the protestants and all other persons.

The Council shall have power and jurisdiction to sustain any protest or objection and abandon the proceeding, or to deny any and all protests or objections, and order by ordinance the establishment of the setback line or lines described in the Resolution of Intention, or to order the same established with such changes or modifications as the Council may deem proper. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 1157 §4, 1923.)
28.82.140 Construction Between Street and Setback Lines - Prohibited.

From and after the taking effect of such ordinance establishing any setback line or lines, it shall be unlawful for any person, firm or corporation to construct any building, wall, fence or other structure within the space between the street line and the setback line, so established, and no permit for any building or structure to be erected within such space shall be issued. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 1157 §5, 1923.)

28.82.142 Penalty for Violation.

Any person, firm or corporation violating any of the provisions of any ordinance establishing any setback line pursuant to this chapter, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punishable by a fine of not more than five hundred dollars ($500.00), or by imprisonment in the County Jail for a period of not more than six (6) months, or by both such fine and imprisonment. Each such person, firm or corporation shall be deemed guilty of a separate offense for each day during any portion of which any violation of such ordinance is permitted, continued or committed by such person, firm or corporation, and shall be punishable therefor as provided by this chapter. (Ord. 3710, 1974; Ord. 2585, 1957; Ord. 1157 §6, 1923.)
Chapter 28.83

STREET WIDENING SETBACK LINES ESTABLISHED

Sections:

28.83.007  Canon Perdido Street - Northwesterly Between Quarantina and Milpas Street.

28.83.027  Canon Perdido Street - Southeasterly Between Quarantina Street and Milpas Street.

28.83.057  Chapala Street - Northeasterly Between Montecito Street and Cabrillo Boulevard.

28.83.067  Chapala Street - Southwesterly Between Montecito Street and Cabrillo Boulevard.

28.83.077  Cliff Drive.

28.83.117  East Cabrillo Boulevard.

28.83.127  Gutierrez Street - Northwesterly Between De la Vina Street and Milpas Street.

28.83.137  Gutierrez Street - Southeasterly Between De la Vina Street and Milpas Street.

28.83.147  Hollister Avenue - Northeasterly Between Calle Laureles and Mission Street.

28.83.157  Hollister Avenue - Between City Limits and Mission Street.

28.83.167  Milpas Street - Northeasterly Between Anapamu Street and Cabrillo Boulevard.

28.83.177  Milpas Street - Southeasterly Between Anapamu Street and Cabrillo Boulevard.

28.83.187  Montecito Street - Northeasterly Between Bath Street and Rancheria Street.

28.83.197  Montecito Street - Southeasterly Between Bath Street and Rancheria Street.

28.83.227  Carrillo Street Extension.

28.83.007  Canon Perdido Street - Northwesterly Between Quarantina and Milpas Street.

A straight line drawn from the northeasterly line of Quarantina Street produced northwesterly, to southwesterly line of Milpas Street ten feet (10') northwesterly from the northeasterly line of Canon Perdido Street is established as a setback line, between which line and such northwesterly line of Canon Perdido Street no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(5).)

28.83.027  Canon Perdido Street - Southeasterly Between Quarantina Street and Milpas Street.

A straight line drawn from the northeasterly line of Quarantina Street to the southwesterly line of Milpas Street, ten feet (10') southeasterly from the southeasterly line of Canon Perdido Street is established as a setback line, between which line and such southeasterly line of Canon Perdido Street no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(6).)

28.83.057  Chapala Street - Northeasterly Between Montecito Street and Cabrillo Boulevard.

A straight line drawn from the southeasterly line of Montecito Street to the northwesterly line of Cabrillo Boulevard, ten feet (10') northwesterly from the northwesterly line of Chapala Street is established as a setback line between which line and such northeasterly line of Chapala Street no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(9).)

28.83.067  Chapala Street - Southwesterly Between Montecito Street and Cabrillo Boulevard.

A straight line drawn from the southeasterly line of Montecito Street to the northwesterly line of Cabrillo Boulevard, ten feet (10') southwesterly from the southwesterly line of Chapala Street is established as a setback line between which line and such southwesterly line of Chapala Street no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(10).)
28.83.077 Cliff Drive.

Two (2) setback lines, drawn parallel to each other and to the centerline of Cliff Drive, separated from each other by the centerline of Cliff Drive, the one (1) being drawn on one (1) side of the centerline of Cliff Drive and the other being drawn on the other side of such centerline of Cliff Drive, each such setback line being fifty-five feet (55') distant from the centerline of Cliff Drive, and one hundred ten feet (110') distant from the other such setback line, at all points, and running for a distance extending from the existing West Montecito Street widening setback line on the east, to and including all portions of Cliff Drive, to the easterly side of the entrance to Arroyo Burro Beach, between which two (2) setback lines no building or structure shall hereafter be erected, constructed or placed. (Ord. 5274, 2003; prior Code Appendix II, Article II §1(11).)

28.83.117 East Cabrillo Boulevard.

A line drawn parallel to and distant ten feet (10') northwesterly from the line of East Cabrillo Boulevard between the northeasterly line of State Street and the southwestwesterly line of Santa Barbara Street is established as a setback line, between which line and such northeasterly line of East Cabrillo Boulevard no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(14).)

28.83.127 Gutierrez Street - Northwesterly Between De la Vina Street and Milpas Street.

A straight line drawn from the northeasterly line of De la Vina Street to the southwestwesterly line of Milpas Street, ten feet (10') northwesterly from the northwesterly line of Gutierrez Street is established as a setback line, between which line and such northwesterly line of Gutierrez Street no building or structure shall hereafter be erected or placed. (Ord. 3028 §1(part), 1965; prior Code Appendix II, Article II §1(15).)

28.83.137 Gutierrez Street - Southeasterly Between De la Vina Street and Milpas Street.

A straight line drawn from the southwesterly line of De la Vina Street to the northeastwesterly line of Gutierrez Street, ten feet (10') southwesterly from the southwesterly line of Gutierrez Street is established as a setback line, between which line and such southwesterly line of Gutierrez Street no building or structure shall hereafter be erected or placed. (Ord. 3028 §1(part), 1965; prior Code Appendix II, Article II §1(16).)

28.83.147 Hollister Avenue - Northeasterly Between Calle Laureles and Mission Street.

A line drawn from the easterly line of Calle Laureles to the northwesterly line of Mission Street, parallel to and ten feet (10') northeasterly from the northeasterly line of Hollister Avenue is established as a setback line, between which line and such northwesterly line of Hollister Avenue no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II &1(17).)

28.83.157 Hollister Avenue - Between City Limits and Mission Street.

A line drawn from the City limits to the northwesterly line of Mission Street, parallel to and ten feet (10') southwesterly from the southwesterly line of Hollister Avenue is established as a setback line, between which line and such southwesterly line of Hollister Avenue no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(18).)

28.83.167 Milpas Street - Northeasterly Between Anapamu Street and Cabrillo Boulevard.

A straight line drawn from the southwesterly line of Anapamu Street to the northwesterly line of Cabrillo Boulevard, ten feet (10') northeasterly from the northeasterly line of Milpas Street is established as a setback line, between which line and such northwesterly line of Milpas Street no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(19).)

28.83.177 Milpas Street - Southeasterly Between Anapamu Street and Cabrillo Boulevard.

A straight line drawn from the southeasterly line of Anapamu Street to the northwesterly line of Cabrillo Boulevard, ten feet (10') southwesterly from the southwesterly line of Milpas Street, is established as a setback line, between which line and such southwesterly line of Milpas Street no building or structure shall hereafter be erected or placed. (Prior Code Appendix II, Article II §1(20).)
28.83.187  **Montecito Street - Northeasterly Between Bath Street and Rancheria Street.**

A straight line drawn from the southwesterly line of Bath Street to the northeasterly line of Rancheria Street, ten feet (10') northwesterly from the northwesterly line of Montecito Street, is established as a setback line, between which line and such northwesterly line of Montecito Street no building or structure shall hereafter be erected or placed. (Ord. 5153, 2000; prior Code Appendix II, Article II §1(21)).

28.83.197  **Montecito Street - Southeasterly Between Bath Street and Rancheria Street.**

A straight line drawn from the southwesterly line of Bath Street to the northeasterly line of Rancheria Street, ten feet (10') southeasterly from the southeasterly line of Montecito Street is established as a setback line between which line and the southeasterly line of Montecito Street no building or structure shall hereafter be erected or placed. (Ord. 5153, 2000; prior Code Appendix II, Article II §1(22)).

28.83.227  **Carrillo Street Extension.**

A line parallel with and forty feet (40') easterly of the centerline of Carrillo Street extension between engineer's station 49+00 and station 52+00, said centerline as shown on approved plan number C-1-2672, sheet 2 of 31 sheets, on file in the Office of the City Engineer, is established as a setback line, between which line and such easterly side of Carrillo Street extension no building or structure shall hereafter be erected or placed. (Ord. 3205 §1, 1967.)
Chapter 28.84

VARIANCES FOR STREET WIDENING SETBACK LINES

Sections:
28.84.003 Variance by Resolution Authorized.
28.84.010 Basis for Allowing Variances.
28.84.013 Prerequisites to Granting Variance.
28.84.025 Council's Decision to be Final.
28.84.033 Petition to State Grounds for Variance.
28.84.073 Resolution to be Entered in Minutes.
28.84.142 Compliance.

28.84.003 Variance by Resolution Authorized.

Where there is need to allow variance to avoid unreasonable practical difficulties or unreasonable and unnecessary hardships resulting or arising from any setback line established by ordinance in the City, the City Council upon its own motion or upon verified petition, filed with the Clerk of the City Council, of any property owner whose property is directly affected by such setback line, shall have power to allow by its resolution upon such reasonable terms and conditions as the City Council may deem proper and under the circumstances and subject to the conditions and provisions hereinafter specified, variance from the restrictions and prohibitions of any such setback line. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062 §1, 1946.)

28.84.010 Basis for Allowing Variances.

Variance shall be allowed and permitted under this chapter only in consonance with the general purpose and objective of whatever setback line may be involved; and, only in such instances and only to such extent that the public welfare, safety and convenience shall be duly secured, with substantial justice done with respect to all concerned. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062, §3, 1946.)

28.84.013 Prerequisites to Granting Variance.

Moreover, variance shall be authorized under this chapter upon the following additional provisions and conditions:

1. That whatever improvements may be constructed, erected or made pursuant to any variance authorized under this chapter shall be and must be wholly removed in the event of any future public acquisition by condemnation of the real property wherein such improvements may be constructed, erected or made at the sole expense of the property owner to whom leave for such variance was granted the owner of the property at the time of the condemnation by the City.

2. That variance shall be allowed by the City Council only upon the filing with the Clerk of the City of a written agreement and undertaking signed and acknowledged by the property owner involved and by its term binding the property owner or whoever shall be the owner of the property involved at the time of any future condemnation such as that abovementioned, to wholly remove whatever improvements may be constructed, erected or made under or pursuant to the leave granted under this ordinance, which removal shall be at the sole cost and expense of the property owner.

3. That variance shall be allowed under this chapter only upon the further express condition and provision that if the property owner signing the aforementioned written agreement and undertaking any other owner of such property at the time of condemnation thereof shall fail to wholly remove all improvements constructed, erected or made under this chapter, the same may be removed by the City if it acquires by condemnation the land involved as contemplated by this chapter, at the sole expense of such property owner or owners.

4. That variance shall be authorized under this chapter only upon the express provision and condition of the property owner or owners involved evidenced as above stated and expressly waiving and renouncing any and all right or claim to damages or compensation in favor of any such property owner or owners involved or otherwise arising by reason of the severance of any improvement constructed, erected or made under this chapter from any other or remaining improvement or by reason of the removal of any such improvement constructed, erected or made pursuant to leave authorized by this chapter, if the City acquires the land involved by condemnation.

5. That variance shall be authorized by the City Council under this chapter by resolution of the City Council setting forth the written findings of fact required by Subsection "A" next following:

Subsection "A": In order to justify any variance under the provisions of this chapter, the three (3) following qualifications must be shown relative to the property involved in the application for such variance; and, the City Council's resolution of approval in connection with any such applications must contain written findings of fact showing wherein the property involved meets the three (3) following qualifications:
(1) That there are exceptional or extraordinary circumstances or conditions applicable to the property involved that do not apply generally to all property affected by the setback line involved, and which produce unreasonable practical difficulties or unreasonable and unnecessary hardships in the way of adhering to the setback line or lines as established without the granting of leave for any variance therefrom.

(2) That such variance is necessary for the preservation and enjoyment of a substantial property right of the petitioner in consonance and harmony with the enjoyment of their property by other neighboring owners, subject to the setback line involved.

(3) That the granting of such variance will not be materially detrimental to the public welfare or injurious to the property or improvements subject to the setback line involved. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062 §4, 1946.)

28.84.025 Council’s Decision to be Final.

The decision of the City Council in granting or refusing any petition for any variance under this ordinance or any granting on its own motion any variance under this chapter pursuant to the provisions of this chapter, shall be final and conclusive without any right of appeal. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062 §6, 1946.)

28.84.033 Petition to State Grounds for Variance.

Every petition filed under this chapter shall state fully the grounds upon which leave for variance is sought and the facts warranting the proposed allowance of variance. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062 §2, 1946.)

28.84.073 Resolution to be Entered in Minutes.

Every resolution hereafter allowing variance from any setback line shall be entered in full in the minutes of the City Council. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062 §5, 1946.)

28.84.142 Compliance.

Save and except under and as allowed pursuant to the provisions and procedure prescribed by this chapter, no improvements shall be constructed, erected or made in violation of any setback line ordinance of this City within the prescribed limits established by such setback line ordinance. (Ord. 3769, 1975; Ord. 3710, 1974; Ord. 2585, 1957; Ord. 2062 §7, 1946.)
Chapter 28.85  
NONRESIDENTIAL GROWTH MANAGEMENT PROGRAM

Sections:

28.85.010 Nonresidential Development Limitation.
28.85.020 Definitions.
28.85.060 Development Plan Notice and Hearing.
28.85.070 Appeals.
28.85.080 Fees.
28.85.090 Development Plan Time Limits.
28.85.100 Multiple Development Plans.

28.85.010 Nonresidential Development Limitation.

No application for a land use permit for a nonresidential construction project, as defined in Section 28.85.020 of this Chapter, will be accepted or approved on or after December 6, 1989, unless all of the new nonresidential floor area within the project is allocated from one or more of the categories specified in this Section and the project is consistent with the City’s Traffic Management Strategy (as approved by City Resolution No. 13-010 dated as of March 12, 2013, and as filed with the City Clerk) as implemented in Section 28.85.050.

A. DEVELOPMENT LIMIT. From the effective date of this ordinance until December 31, 2033, the amount of new nonresidential floor area available for nonresidential construction projects shall be restricted to no more than one million three hundred fifty thousand (1,350,000) square feet. This allowable floor area shall be allocated from the following categories, as defined in Section 28.85.020 of this Chapter:

<table>
<thead>
<tr>
<th>Category</th>
<th>Square Footage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Community Benefit</td>
<td>600,000 s.f.</td>
</tr>
<tr>
<td>Small Addition Floor Area</td>
<td>400,000 s.f.</td>
</tr>
<tr>
<td>Vacant Property</td>
<td>350,000 s.f.</td>
</tr>
</tbody>
</table>

Except as otherwise provided in this Section and as allocated on an annual basis by a resolution of the Planning Commission, Small Additions shall be limited to no more than twenty thousand (20,000) square feet of nonresidential floor area during each calendar year from the effective date of this ordinance through December 31, 2033. Any unused, expired, or withdrawn development square footage remaining from each annual allotment from the Small Additions category may be rolled over to the following year’s Small Additions allotment or allocated to another category by a resolution of the Planning Commission. Procedures for allocating square footage under these categories shall be established by resolution of City Council.

B. NONRESIDENTIAL FLOOR AREA EXCLUDED FROM THE DEVELOPMENT LIMIT. Nonresidential floor area may be constructed or converted from residential floor area without requiring an allocation from the allowable square footage specified in Subsection A of this Section so long as the nonresidential floor area falls within the following categories, as defined in Section 28.85.020 of this Chapter:

2. Government Displacement Floor Area.
3. Hotel Room for Room Replacement.
4. Minor Addition Floor Area.
5. Prior-Pending Projects.
7. Prior-Approved Specific Plan Project.
8. Transfers of Existing Development Rights, as defined in Section 28.95.020 of this Code.

(Ord. 5609, 2013.)

28.85.020 Definitions.

The following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning:

A. COMMUNITY BENEFIT PROJECT. A project which has been designated by the City Council as satisfying one or more of the following categories is a Community Benefit Project:

1. Community Priority Project. A Community Priority Project is a project that has a broad public benefit, is not principally operated for private profit, and is necessary to meet a present or projected need directly related to public health, safety or general welfare (e.g., museums, childcare facilities, health clinics).
2. Economic Development Project. An Economic Development Project is a project that is consistent with the City Charter, General Plan and this Title, will enhance the standard of living for City and South Coast residents, and will strengthen the local or regional economy by either creating new permanent employment opportunities or enhancing the City’s revenue base. An Economic Development Project should also accomplish one or more of the following:

a. Support diversity and balance in the local or regional economy by establishing or expanding businesses or industries in sectors which currently do not exist on the South Coast or are present only in a limited manner; or

b. Provide new recreational, educational, or cultural opportunities for City residents and visitors; or

c. Provide products or services which are currently not available or are in limited supply either locally or regionally; or

d. Support a small and local business in the Santa Barbara community which is being started, maintained, relocated, redeveloped or expanded.

For purposes of this Section, "standard of living" is defined as wages, employment, environment, resources, public safety, housing, schools, parks and recreation, social and human services, and cultural arts.

3. Planned Development – New Automobile Sales Project. A Planned Development – New Automobile Sales Project is a project within a Planned Development zone that proposes a project involving new automobile sales, rental and leasing as allowed in Chapter 28.39 of this Code.

B. DEVELOPMENT AREA. A Development Area is a portion of the City that the City of Santa Barbara Traffic Model (as approved by the City Council by Resolution No. 13-010 dated as of March 12, 2013, and as filed with the City Clerk) has shown to have distinct traffic generation patterns, as identified on the Development Area Map. The City of Santa Barbara Development Areas are shown on the map labeled "Growth Management Program Development Areas" (as approved by City Resolution No. 13-010 dated as of March 12, 2013). All notations, references and other information shown on said map are incorporated by reference herein and made a part hereof.

C. EXISTING NONRESIDENTIAL FLOOR AREA. Existing Nonresidential Floor Area is nonresidential floor area that existed on a lot as of October 1, 1988, or nonresidential floor area that was approved and constructed or converted from residential floor area after October 1, 1988, in compliance with, or exempt from, a City development plan or nonresidential growth management program ordinance.

D. FLOOR AREA. Floor Area is the area included within the surrounding exterior walls of a building, or a portion thereof, excluding the area occupied by the exterior walls, vent shafts and courts, stairway landings, or areas or structures used exclusively for parking. Enclosed spaces that contain building “infrastructure” (e.g., mechanical equipment enclosures, trash and recycling enclosures, air conditioners, forced air units, electric vaults, water heaters and softeners, cellular telephone equipment, and other similar uses) shall not count toward the calculation of floor area if such areas are designed in the minimum size necessary to screen or enclose such equipment, and the space cannot be converted to storage or another non-infrastructure use. The area occupied by an elevator shaft or stairs shall only be counted in the calculation of floor area on one floor. A building, or a portion thereof, occupied exclusively by public utility equipment constitutes floor area for purposes of development plan review, but shall not count toward the calculation of floor area for purposes of the development limit specified in Subsection 28.85.010.A. Any floor area which was constructed, approved, demolished or converted in violation of any provision of this Municipal Code shall not give rise to any right to rebuild or transfer floor area.

E. GOVERNMENT BUILDING. A Government Building is a building owned or leased by the city of Santa Barbara, excluding buildings or portions of buildings that are leased to private entities conducting non-governmental activities (e.g., the private leaseholds at the Harbor or Airport).

F. GOVERNMENT DISPLACEMENT FLOOR AREA. Government Displacement Floor Area is nonresidential floor area that is constructed or converted from residential floor area to replace nonresidential floor area that was acquired, removed or damaged by direct condemnation or negotiated acquisition by a governmental entity (federal, state or local), provided the nonresidential floor area of the project constructed to replace a building acquired or removed by the government does not exceed the nonresidential floor area of the building so acquired or removed, unless the additional nonresidential floor area is allocated from another available category.

G. HOTEL ROOM FOR ROOM REPLACEMENT. A Hotel Room for Room Replacement is a project which consists of the replacement of existing hotel rooms at the same location, or transferred from another location as part of an approved Transfer of Existing Development Rights pursuant to Chapter 28.95 of this Code, on a room for room basis. A Hotel Room for Room Replacement does not include nonresidential floor area outside the hotel rooms.

H. LAND USE PERMIT. A Land Use Permit is a governmental decision concerning a permit, license, certificate, or other entitlement for use of land, including a conditional use permit, variance, modification, development plan, specific plan, general plan amendment, coastal development permit, conversion permit, subdivision map (except those creating new single family lots), building permit, grading permit, demolition permit, water service connection or any similar approval or use.

I. MINOR ADDITION FLOOR AREA. Minor Addition Floor Area is the first 1,000 square feet of new nonresidential floor area, over the amount of nonresidential floor area that existed on the lot as of December 6, 1989. Procedures for allocating and accounting for Minor Addition Floor Area shall be established by resolution of the City Council.
J. NONRESIDENTIAL CONSTRUCTION PROJECT. A Nonresidential Construction Project is a project, or portion thereof, which consists of the construction of new nonresidential floor area or the conversion of existing residential floor area to nonresidential use. The repair, replacement, or reconstruction of Existing Nonresidential Floor Area (including existing development rights that are transferred from another site) is not considered new nonresidential floor area for the purpose of the nonresidential development limitation specified in Subsection 28.85.010.A. A nonresidential construction project may occur in the following forms:

1. The addition of new nonresidential floor area to an existing structure; or
2. The construction of new nonresidential floor area in a free standing structure on real property containing another structure; or
3. The construction of new nonresidential floor area as a portion of a mixed use building; or
4. The conversion of residential floor area to nonresidential floor area; or
5. A new building on vacant real property that contains nonresidential floor area.

K. NONRESIDENTIAL FLOOR AREA RATIO. The Nonresidential Floor Area Ratio of a lot is a ratio of the nonresidential floor area on the lot to the net lot area of the lot.

L. PRIOR-APPROVED PROJECTS. A Prior-Approved Project is a project for which a land use permit (other than an application for Specific Plan approval) was approved on or before April 11, 2013, and where the approval remains valid.

M. PRIOR-APPROVED SPECIFIC PLAN PROJECT. A Prior-Approved Specific Plan Project is a project that implements a specific plan that was approved prior to April 16, 1986, the specific plan required the construction of substantial circulation system improvements, and the required circulation system improvements were either:

1. Installed prior to April 11, 2013; or
2. Constructed after April 11, 2013, pursuant to an Owner Participation Agreement and installed prior to the approval of any development plan(s) related to the approved specific plan.

N. PRIOR-PENDING PROJECT. A Prior-Pending Project is a nonresidential construction project for which an application for a land use permit was deemed complete by the City before April 11, 2013, and the application: i. has not been denied by the City; ii. has not been withdrawn by the applicant; and iii. has not yet received City approval.

O. SMALL ADDITION FLOOR AREA. Small Addition Floor Area is the 2,000 square feet of new nonresidential floor area over the amount of nonresidential floor area that existed on the lot on December 6, 1989, and any floor area that has been constructed or approved as Minor Addition Floor Area pursuant to this Chapter or any preceding development plan ordinance since December 6, 1989. Procedures for allocating Small Addition Floor Area shall be established by resolution of the City Council.

P. VACANT PROPERTY. A Vacant Property is a lot of land that was not developed with a permanent building containing floor area as of October 1, 1988, and has not since been developed with any permanent building containing floor area. A vacant property may be allocated new nonresidential floor area from the Vacant Property category up to a maximum nonresidential floor area ratio of .25. Any nonresidential development proposed for the lot over the .25 floor area ratio must be allocated from another development category available for allocation on the lot. (Ord. 5609, 2013.)

A. DEVELOPMENT PLAN APPLICATION SUBMISSION. Before any project requiring approval of a development plan pursuant to this Chapter is hereafter permitted in any zone, including zones at the Santa Barbara Municipal Airport, a complete development plan application for the proposed development shall be submitted to the Community Development Department for review and consideration in accordance with the provisions of this Chapter.

B. REVIEW BY PRE-APPLICATION REVIEW TEAM. All nonresidential construction projects involving the construction, addition, or conversion of more than 3,000 square feet of nonresidential floor area and all transfers of existing development rights, regardless of size, shall be reviewed by the Pre-Application Review Team as provided in Section 27.07.070 of this Code.

C. DEVELOPMENT PLAN APPROVAL REQUIREMENTS. Except as otherwise specified in this Subsection C, all nonresidential construction projects and all Transfers of Existing Development Rights require approval of a Development Plan.

1. Design Review Approval. Any nonresidential construction project that involves the construction, addition, or conversion of more than one thousand (1,000) square feet of new nonresidential floor area and not more than three thousand (3,000) square feet of new nonresidential floor area shall require approval of the design of a development plan from the Architectural Board of Review, or from the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district, or if the structure is a designated City Landmark.

2. Staff Hearing Officer Approval. Any nonresidential construction project that involves the construction, addition, or conversion of more than one thousand (1,000) square feet of new nonresidential floor area and not more than three thousand (3,000) square feet of new nonresidential floor area, and which also requires approval of a City discretionary land use permit from the Staff Hearing Officer, shall require approval of a development plan from the Staff Hearing Officer.

3. Planning Commission Approval. The following projects shall require approval of a development plan from the Planning Commission:
a. Any nonresidential construction project (including a public utility facility) that involves the
construction, addition, or conversion of more than three thousand (3,000) square feet of new nonresidential floor area,
or
b. Any transfer of existing development rights that involves the construction, addition, or conversion of
more than one thousand (1,000) square feet of nonresidential floor area (as an aggregate total of all development
categories) on the receiving site, or
c. Any nonresidential construction project that involves the construction, addition, or conversion of
more than one thousand (1,000) square feet of new nonresidential floor area and not more than three thousand (3,000)
square feet of new nonresidential floor area, and which requires approval of another land use permit from the
Planning Commission, shall require approval of a development plan from the Planning Commission.
d. Notwithstanding the review assignments specified in Paragraphs 1 and 2 above, any nonresidential
construction project or transfer of existing development rights that requires the preparation of an Environmental
Impact Report shall be reviewed by the Planning Commission.

4. Exceptions. Unless the project requires the preparation of an Environmental Impact Report, the
following projects do not require the approval of a development plan:
   a. Any nonresidential construction project that involves the construction, addition, or conversion of
not more than 1,000 square feet of nonresidential floor area (as an aggregate total of all development categories), or
   b. A Transfer of Existing Development Rights that involves the construction, addition, or conversion of
nonresidential floor area so long as the project will not result in more than 1,000 square feet of nonresidential floor
area over the amount of nonresidential floor area that existed on the lot as of April 11, 2013. This exception is not
available for a Transfer of Existing Development Rights that involves the transfer of a hotel room on a room-for-
room basis. (Ord. 5609, 2013.)

The following findings shall be made prior to approving any development plan pursuant to this Chapter:
A. The proposed development complies with all provisions of this Title; and
B. The proposed development is consistent with the principles of sound community planning; and
C. The proposed development will not have a significant adverse impact upon the community's aesthetics or
character in that the size, bulk or scale of the development will be compatible with the neighborhood based on the
Project Compatibility Analysis criteria found in Sections 22.22.145 or 22.68.045 of this Code; and
D. The proposed development is consistent with the policies of the City of Santa Barbara Traffic Management
Strategy (as approved by City Resolution No. 13-010 dated as of March 12, 2013) as expressed in the allocation
allowances specified in SBMC Section 28.85.050. (Ord. 5609, 2013.)

In order to utilize the City’s existing transportation capacity efficiently and to prioritize constrained transportation
capacity for high priority land uses, the City has established a Traffic Management Strategy (as approved by City
Resolution No. 13-010 dated as of March 12, 2013). In furtherance of the Traffic Management Strategy and
recognizing the differential rates of traffic generation observed in the City of Santa Barbara Traffic Model
methodology (as used in connection with the preparation of the General Plan FEIR) between the different
Development Areas, only certain categories of nonresidential development are available for allocation within the
Development Areas identified in this Section.

A. DOWNTOWN DEVELOPMENT AREA. If all of the floor area for a project is proposed from a category
or categories of development that are available for allocation within the development area in which the proposed
project is located, the project’s contribution to a potentially significant adverse cumulative traffic impact may be
overridden by the Planning Commission. Within the Downtown Development Area, unless specifically authorized
below, a project-specific potentially significant adverse traffic impact cannot be overridden by the Planning
Commission. The following categories of nonresidential development are available for allocation to lots within the
Downtown Development Area:
   1. Prior-Approved Projects. Prior-Approved Projects do not require further environmental review.
   2. Prior-Pending Projects.
   3. Prior-Approved Specific Plan Projects. A Prior-Approved Specific Plan Project that presents a project-
specific potentially significant adverse traffic impact may be approved by the Planning Commission following the
adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.
   4. Minor Addition Floor Area. A project constructing, adding, or converting Minor Addition Floor Area
that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning
Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by
C.E.Q.A.
   5. Small Addition Floor Area.
   6. Vacant Property. A Vacant Property Project that presents a project-specific potentially significant
adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of
Overriding Considerations in the manner authorized by C.E.Q.A.
7. Community Priority Projects. A Community Priority Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

9. Transfers of Existing Development Rights (TEDR), as defined in Section 28.95.020 of this Code, from any Development Area.
   a. A Transfer of Existing Development Rights between lots within the same Development Area that will result in the construction, addition, or conversion of not more than 1,000 square feet of nonresidential floor area over the amount of nonresidential floor area that existed on the receiving lot as of the effective date of this ordinance and that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

   b. All other Transfers of Existing Development Rights (including Hotel Room for Room Replacements) that result in a project-specific potentially significant adverse traffic impact cannot be overridden.

10. Hotel Room for Room Replacement. An on-site Hotel Room for Room Replacement that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

11. Demolition and Reconstruction of Existing Nonresidential Floor Area on the same lot. The Demolition and Reconstruction of Existing Nonresidential Floor Area on the same lot that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

12. City Government Buildings. A government building project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

13. Government Displacement Floor Area. A Government Displacement Floor Area Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

14. Public Utility Facilities. A Public Utility Facility that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

B. UPPER STATE STREET, MESA, COAST VILLAGE ROAD, AND RIVIERA DEVELOPMENT AREAS (OUTLYING DEVELOPMENT AREAS). If all of the floor area for a project is proposed from a category or categories of development that are available for allocation within the development area in which the proposed project is located, the project’s contribution to a significant cumulative traffic impact may be overridden. Within the Outlying Development Areas, unless specifically authorized below, a project-specific potentially significant adverse traffic impact cannot be overridden by the Planning Commission. The following categories of nonresidential development are available for allocation to lots within the Outlying Development Areas:

2. Prior-Pending Projects.

3. Prior-Approved Specific Plan Projects. A Prior-Approved Specific Plan Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

4. Minor Addition Floor Area. A project constructing, adding, or converting Minor Addition Floor Area that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

5. Vacant Property. A Vacant Property Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

6. Community Priority Projects. A Community Priority Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

7. Transfer of Existing Development Rights (including Hotel Room for Room Replacements), as defined in Section 28.95.020 of this Code, from and to lots within the same Development Area. No receiving site located in an Outlying Development Area may receive a Transfer of Existing Development Rights from a sending site that is located in another Development Area.

   a. A Transfer of Existing Development Rights between real properties within the same Development Area that will result in the construction, addition, or conversion of not more than 1,000 square feet of nonresidential floor area over the amount of nonresidential floor area that existed on the receiving lot as of April 11, 2013, and that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.
b. All other Transfers of Existing Development Rights (including Hotel Room for Room Replacements) that result in a project-specific potentially significant adverse traffic impact cannot be overridden by the Planning Commission.

8. Demolition and Reconstruction of Existing Nonresidential Floor Area on the same parcel. The Demolition and Reconstruction of Existing Nonresidential Floor Area on the same lot that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

9. Government Buildings. A Government Building that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

10. Government Displacement Project. A Government Displacement Floor Area Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

11. Hotel Room for Room Replacement. An on-site Hotel Room for Room Replacement that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

12. Public Utility Facilities. A Public Utility Facility that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

13. Planned Development – New Automobile Sales Project. A Planned Development – New Automobile Sales Project that presents a project-specific potentially significant adverse traffic impact may be approved by the Planning Commission following the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A.

C. AIRPORT DEVELOPMENT AREA. If all of the floor area for a project is proposed from a category or categories of development that are available for allocation within the development area in which the proposed project is located, the project’s contribution to a significant cumulative adverse traffic impact may be overridden by the Planning Commission. Within the Airport Development Area, unless specifically stated below, a project-specific potentially significant adverse traffic impact may be overridden by the Planning Commission with the adoption of a Statement of Overriding Considerations in the manner authorized by C.E.Q.A. The following categories of nonresidential development are available for allocation to real properties within the Airport Development Area:

1. Prior-Approved Projects.
2. Prior-Pending Projects.
4. Minor Addition Floor Area.
5. Small Addition Floor Area.
6. Vacant Property.
9. Transfers of Existing Development Rights (including Hotel Room for Room Replacements), as defined in Section 28.95.020 of this Code, from and to lots within the Airport Development Area are available for allocation. No Receiving Site located in the Airport Development Area may receive a Transfer of Existing Development Rights (including Hotel Room for Room Replacements) from a Sending Site that is located in another Development Area.
10. Demolition and Reconstruction of Existing Nonresidential Floor Area on the same lot.

28.85.060 Development Plan Notice and Hearing.

If a nonresidential construction project or transfer of existing development rights requires the approval of a development plan by the Architectural Board of Review, Historic Landmarks Commission, Staff Hearing Officer, Planning Commission, or the City Council on appeal, the Architectural Board of Review, Historic Landmarks Commission, Staff Hearing Officer, Planning Commission, or City Council shall hold a public hearing prior to taking action on any development plan. Notice of the public hearing shall be given in accordance with Section 28.87.380. (Ord. 5609, 2013.)

28.85.070 Appeals.

A decision by the Architectural Board of Review, the Historic Landmarks Commission, or the Planning Commission under this Chapter may be appealed according to the provisions of Chapter 1.30. A decision by the Staff Hearing Officer under this Chapter may be appealed according to the provisions of Section 28.05.020 of this Code. (Ord. 5609, 2013.)
Fees for filing applications and appeals in accordance with this Chapter shall be established by resolution of the City Council. (Ord. 5609, 2013.)

28.85.090 Development Plan Time Limits.

Subject to the adjustments for projects with multiple approvals specified in Section 28.87.370 of this Code, development plan approvals shall have the following time limits:

A. TIME LIMIT. A development plan approved pursuant to any provision of this Title shall expire four (4) years from the date of its approval, except as otherwise provided herein. No building or grading permit for any work authorized by a development plan shall be issued following expiration of that plan.

B. CONDITIONS. Any condition imposed on a development plan may, in the discretion of the body approving the development plan, also constitute (i) a condition to the issuance of and continued validity of any building or grading permit issued to implement that development plan, (ii) a condition to the issuance of the certificate of occupancy with respect to any improvements authorized by the development plan and (iii) if recorded with the County Recorder, to the continued validity of the certificate of occupancy. Violation of any such condition shall be grounds for suspension or revocation of any building or grading permit or certificate of occupancy issued with respect to the development plan.

C. EXTENSION OF TIME PERIOD. Upon application of the developer filed prior to the expiration of the development plan, the time at which the development plan expires may be extended by the Community Development Director for one (1) year. An extension of the expiration date of a development plan shall be granted if it is found that there has been due diligence to implement and complete the proposed project as substantiated by competent evidence in the record.

D. SUSPENSION OF TIME DURING MORATORIUM. The period of time specified in Subsection A, including any extension thereof granted pursuant to Subsection C, shall not include any period of time during which a moratorium, imposed after approval of the development plan, is in existence, provided, however, that the length of the moratorium does not exceed five (5) years. For purposes of this Subsection, a development moratorium shall include (i) a water or sewer moratorium, (ii) a water and sewer moratorium, and (iii) a building or grading permit moratorium, as well as other actions of public agencies which regulate land use, development, or the provision of services to the land other than the City, which thereafter prevents, prohibits, or delays the completion of the development. Once a moratorium is terminated, the development plan shall be valid for the same period of time as was left to run on the development plan at the time that the moratorium was imposed. However, if the remaining time is less than 120 days, the development plan shall be valid for 120 days following the termination of the moratorium.

E. SUSPENSION OF TIME DURING LITIGATION. The period of time specified in Subsection A, including any extension thereof granted pursuant to Subsection C, shall not include the period of time during which a lawsuit involving the approval of the development plan or related approvals is or was pending in a court of competent jurisdiction. After service of the initial petition or complaint in the lawsuit upon the City, the applicant may advise the City of the need for a litigation tolling stay pursuant to the City's adopted procedures.

F. DEVELOPMENT PLANS ALREADY APPROVED.

1. Beginning Date – Development Plan Approvals. The adoption of this ordinance shall not alter the date of approval of a Development Plan approved prior to the adoption of this ordinance.

2. Specific Plan Development Plan Approvals. For the purposes of calculating the expiration date of a Specific Plan project Development Plan approved in accordance with Santa Barbara Municipal Code Chapter 29.30, Development Plan approvals shall be deemed to expire eight (8) years after the date of the final City action approving the project Development Plan and shall include any related project approvals or modifications granted by the City in connection therewith.

G. DISPOSITION OF FLOOR AREA ALLOCATED TO EXPIRED PROJECTS. For projects with floor area allocated from the Small Addition category, the unused floor area shall be made available for allocation to Small Addition or Community Benefit Projects, as determined by Planning Commission Resolution, upon expiration of the development plan. For projects with floor area allocated from the Community Benefit and Vacant Property categories, the unused floor area shall revert to the category from which the floor area was allocated upon expiration of the development plan. Floor area that was excluded from the development limit specified in Section 28.85.010 under the Prior-Approved or Prior-Pending categories shall expire upon expiration of the project’s Development Plan and shall not be available for another allocation. (Ord. 5609, 2013.)

28.85.100 Multiple Development Plans.

When more than one valid approved development plan exists for a lot, upon issuance of a building or grading permit for any work authorized by one of the approved development plans, all other development plans approved for that lot are deemed abandoned by the property owner. No building or grading permit shall be issued for any work authorized by a development plan following abandonment of that plan. For projects with floor area allocated from the Small Addition category, any unused floor area shall be made available for allocation to the Small Addition category or the Community Benefit Project category upon abandonment of a development plan. For projects with floor area allocated from the Community Benefit and Vacant Property categories, any unused floor area shall revert to the category from which the floor area was allocated upon abandonment of a development plan. (Ord. 5609, 2013.)

### 28.87.001 In General.

The regulations specified in this chapter shall be subject to the following interpretations and exceptions. (Ord. 3710, 1974; Ord. 2585, 1957.)

### 28.87.005 Conflicting Regulations.

Where any provision of this chapter imposes more stringent requirements, regulations, restrictions or limitations than are imposed or required by the provisions of any other law or ordinance, then the provisions of this chapter shall govern. (Ord. 3710, 1974; Ord. 2585, 1957.)

### 28.87.030 Uses Permitted.

A. **LESS RESTRICTIVE USES PROHIBITED.** The express enumeration and authorization in this title of a particular class of building, structure, premises or use in a designated zone shall be deemed a prohibition of such building, structure, premises or use in all zones of more restrictive classification, except as otherwise specified.

B. **ADDITIONAL PERMITTED USES.** Uses other than those specifically mentioned in this title as uses permitted in each of the zones may be permitted therein provided such uses are similar to those mentioned and are in the opinion of the City Council no more obnoxious or detrimental to the welfare of the community than the permitted uses in the respective zones. The City Council may approve such uses by ordinance amendment after a recommendation has been received from the Planning Commission.

C. **EXCLUSION OF PERMITTED USES.** The City Council after a recommendation has been received from the Planning Commission may by ordinance amendment, exclude any permitted use from any zone if in the opinion of the City Council it is obnoxious or detrimental to the welfare of the community.

D. **NONCONFORMING BUILDINGS.** The following provisions shall apply to all nonconforming buildings and structures or parts thereof legally existing at the effective date of this title.

1. Any nonconforming building or structure may be maintained, improved, or altered only as follows:

   a. Improvements that do not change the use or the basic, exterior characteristics or appearance of the building or structure are allowed. Such improvements include but are not limited to the following:

      1. Interior alterations or upgrades to any portion of the nonconforming building or structure, including portions that exceed the current height limitation, such as:

         a. The replacement of wall coverings;
(b) The replacement of existing utilities, or the installation of new utilities;
(c) The replacement of existing interior walls, or the construction of interior walls;
(d) The replacement of existing insulation, or the installation of new insulation; or
(e) The replacement of existing floor coverings, or the installation of new floor coverings;

(2) The replacement of structural members, such as studs, rafters, joists, beams, or other structural members, except where it will result in an increase in roof pitch;
(3) The replacement or installation of new foundations and slabs under the existing building footprint;
(4) Seismic safety retrofit improvements;
(5) The demolition and replacement of the nonconforming building or structure, provided that the following conditions are met:
   (a) The basic, exterior characteristics of the replacement building or structure is not changed, except as allowed in this Section;
   (b) The new structure complies with all applicable height and building story limitations; and
   (c) The demolition and replacement of the nonconforming building or structure does not continue or perpetuate a nonconforming use.

(6) Additions that conform to the current Zoning standards for the zone.
(7) Solar energy systems, as defined in subdivision (a) of Civil Code section 801.5, that are installed roughly parallel to, and protrude no higher than ten inches (10") above (measured from the top of the roof or other structure perpendicularly to the highest point of the solar energy system), a roof or other similar structure that is legally nonconforming as to the required yard, may extend into a required yard to the extent of the legal nonconforming roof or other similar structure.

b. Minor improvements that change the exterior characteristics are allowed. Such minor improvements are limited to the following:
   (1) The replacement of exterior wall coverings with the same or different materials;
   (2) The replacement of roofing materials with the same or different materials, except those that require an increase in roof pitch;
   (3) Reduction in the number or size of window or door openings;
   (4) Replacement of existing windows or doors where there is no increase in opening size, or changes in the location of the windows or doors.
   c. Minor expansions of the net floor area on lots that are nonconforming as to the maximum net floor area or where the proposed expansion would otherwise be deemed precluded development as specified in Section 28.15.083 are allowed under the following conditions:
      (1) The expansion may not exceed 100 square feet of net floor area over the net floor area legally existing on the lot as of the effective date of section 28.15.083;
      (2) Only one expansion is allowed pursuant to this subparagraph (c) (even if the expansion is less than 100 square feet of net floor area); and
      (3) A minor expansion of net square footage pursuant to this subparagraph (c) is not permitted in connection with the demolition and replacement of a nonconforming building.

2. Nothing in the above provisions shall be construed to prohibit any additions or alterations to a nonconforming structure as may be reasonably necessary to comply with any lawful order of any public authority, such as seismic safety requirements, the Americans with Disabilities Act, or a Notice and Order of the Building Official, made in the interest of the public health, welfare, or safety, provided that modification approvals pursuant to Chapter 28.92 of this Title may be required for such additions or alterations.

E. NONCONFORMING USES. Any nonconforming use of a conforming or nonconforming building may be maintained and continued, provided there is no increase or enlargement of the floor area of the buildings or structures on site which are occupied or devoted to such nonconforming use except as provided in this Subsection, and further provided there is no increase in the intensity of such nonconforming use except as otherwise provided in this title. When a building containing a nonconforming use is demolished, the nonconforming use shall be deemed discontinued, and such nonconforming use shall not be continued or perpetuated in any replacement building, except as provided in this Subsection. For the purposes of this section, an increase in intensity of use shall include but not be limited to the following: An increase in the number of required parking spaces for the use, or increase in the amount of traffic, noise, odors, vibration, air pollution including dust and other particulate matter, hazardous materials or other detrimental effects on the surrounding community that are generated by the use.

1. Properties with Nonconforming Residential Density. Improvements or alterations to a residential structure are not allowed if the improvement or alteration does any of the following: 1. increases residential density, 2. increases floor area of any main or accessory building on the lot (except garages and carports), or 3. increases the amount of habitable space. For the purpose of this paragraph, residential density shall be defined as the number of dwelling units on a property, except in the R-3, R-4, R-O, C-1, C-2, C-M, HRC-2, and OC Zones, where residential uses are allowed, the residential density shall be defined as a combination of the number of dwelling units and the number of bedrooms per unit on a property. The following improvements are allowed, provided that any portion of a building or structure that is nonconforming as to the physical standards of the zone shall only be improved consistent with the provisions in SBMC §28.87.030.D.:
a. New fences;
b. New windows;
c. New doors;
d. Replace windows with doors;
e. New ground floor or upper floor decks;
f. New utilities;
g. Re-roof, including changes in pitch up to 4 in 12;
h. New interior or exterior wall coverings;
i. New insulation;
j. New foundations;
k. Structural upgrades;
l. Seismic Safety retrofit improvements;
m. New exterior water heater enclosures;
n. Interior floor plan changes, including converting existing floor area to bathrooms or laundry rooms, subject to the limitations specified above regarding residential density, floor area, and habitable space;
o. New covered or uncovered parking spaces, up to the minimum number required by this Title for the existing dwelling units;
p. Demolition and replacement, pursuant to the conditions in Section 28.87.038.B of this Title; or
q. Other improvements which neither increase the residential density on site, add floor area, nor increase the amount of habitable space.

2. **Residential Uses in the M-1 Zone.** Buildings or structures containing residential uses in the M-1 Zone may be improved and upgraded as allowed in Paragraph 28.87.030.E.1., above, provided the following conditions are met:
   a. There is no increase in floor area, including accessory buildings;
   b. There is no increase in residential density;
   c. If a proposal to upgrade or improve a residential property in the M-1 zone requires discretionary review by the City, notice of such discretionary review shall be given as required by SBMC Sections 22.22.132, 22.68.040, 22.69.040 or 28.92.060, depending on the reviewing body.

3. **Neighborhood Markets in Residential Zones.** Nonconforming neighborhood markets in residential zones that are properly permitted as of September 1, 1998 may be improved and upgraded as allowed in Paragraph 28.87.030.E.1. above, subject to the following additional conditions:
   a. There is no increase in floor area;
   b. If a proposal to upgrade or improve a neighborhood market in a residential zone requires discretionary review by the City, notice of such discretionary review shall be given as required by SBMC Sections 22.22.132, 22.68.040, or 28.92.060, depending on the reviewing body.
   
   For the purpose of this Section, a neighborhood market shall be defined as a small-scale market that may sell a full range of food and convenience products, including meat, dairy, vegetables, fruits, dry goods, beverages, and prepared food for off-site consumption.

4. Any part of a building, structure or land occupied by such a nonconforming use which is changed to or replaced by a use conforming to the provisions of this title shall not thereafter be used or occupied by a nonconforming use.

5. Any part of a building, structure or land occupied by such a nonconforming use, which use is discontinued or ceases for a period of one (1) year or more, shall not again be used or occupied except by a use allowed by the applicable zoning. This time limit shall not apply to a nonconforming use in a building or structure or on land located in an area which the City Council has, by resolution, found to be impacted by governmental action provided (i) the nonconforming use is resumed within one year of the completion of the governmental action and (ii) the nonconforming use is no more intense than the use which existed prior to the governmental action.

6. If no structural alterations are made, a nonconforming use of a building may be changed to another nonconforming use of the same or a more restrictive classification. In areas found by the City Council to be impacted by governmental action, any interim use not conforming to the zoning designation but found appropriate by the Planning Commission may be established upon issuance of a conditional use permit.

7. The foregoing provisions of this section shall also apply to buildings, structures, land or uses which hereafter become nonconforming due to any reclassification of zones under this title or any subsequent change in the regulations of this title.

8. The provisions of this Chapter 28.87 concerning the physical change, abandonment, structural alteration, removal, discontinuance, reconstruction, repairing or rebuilding of nonconforming buildings, structures and uses shall not apply to public utility buildings, structures and uses. Nothing in this part shall be construed or applied so as to prevent the expansion, modernization or replacement of public utility buildings, structures, equipment and facilities where there is no change of use or increase in area of the property so used.

9. An existing educational institution may use, for all educational purposes, buildings existing on the date that this subsection is adopted. (Ord. 5459, 2008; Ord. 5444, 2008; Ord. 5416, 2007; Ord. 5412, 2007; Ord. 5380, 2005; Ord. 5072, 1998; Ord. 4896, 1994; Ord. 4582, 1989; Ord. 4181, 1982; Ord. 3710, 1976; Ord. 3679, 1974; Ord. 2628, 1957; Ord. 2585, 1957.)
28.87.036 Nonconforming Uses Resulting from Amendments.

The provisions of this chapter shall apply to uses which become nonconforming by reason of any amendment to this title, as of the effective date of such amendment. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.87.038 Reconstruction of Damaged Nonconforming Structures.

A. Nonresidential Structures. A nonconforming building or structure used for nonresidential purposes, which is damaged or partially destroyed by fire, flood, wind, earthquake or other calamity or act of God or the public enemy to the extent of not more than seventy-five percent (75%) of its market value immediately prior to the damage, as determined by the Community Development Director or designee, may be restored and the occupancy or use of such building, structure or part thereof which existed at the time of such partial destruction may be continued or resumed, provided that reconstruction, restoration or rebuilding shall commence within a period of one (1) year of the occurrence of the damage or destruction. The applicant shall demonstrate due diligence to complete the proposed reconstruction as determined by the Community Development Director. In the event such damage or destruction exceeds seventy-five percent (75%) of the market value of such nonconforming building or structure immediately prior to the damage, as determined by the Community Development Director or designee, no repairs or reconstruction shall be made unless every portion of such building is made to conform to all the regulations for new buildings in the zone in which it is located. The Community Development Director or designee may require the applicant to have the property appraised by a licensed real estate appraiser in order to determine the market value of such nonconforming building or structure immediately prior to the damage.

B. Residential Structures. Any nonconforming building or structure used for residential purposes, which is damaged or destroyed by fire, flood, wind, earthquake or other calamity or act of God or the public enemy may be restored or rebuilt and the occupancy and use may be continued or resumed provided the following conditions are met:

1. The net square footage of the replacement building or structure shall not exceed the net square footage of the building or structure that was legally permitted prior to the damage or destruction;
2. The number of dwelling units shall be not greater than the number existing prior to the damage or destruction;
3. In R-3, R-4, R-O, C-1, C-2, and C-M zones, the number of bedrooms per dwelling unit shall not be greater than the number existing prior to the damage or destruction;
4. The building setbacks shall not be less than those which existed prior to the damage or destruction;
5. The number of parking spaces shall be no less than the number of parking spaces in existence prior to the damage or destruction;
6. The building, plot and landscaping plans shall be reviewed and approved by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, or the City Council on appeal, if such review would normally be required, except as allowed in this Section;
7. Any such reconstruction, restoration or rebuilding shall conform to all applicable adopted Uniform Codes in effect at the time of reconstruction, unless otherwise excused from compliance as a historic structure, pursuant to the Uniform Code for Building Conservation;
8. All permits required under the California Building Code as adopted and amended by the City shall be obtained. The Community Development Director or designee shall review and determine prior to issuance of said permits that the plans conform to the above;
9. Plans existing in the City’s archives shall be used to determine the size, location, use, and configuration of nonconforming buildings and structures. Notwithstanding anything to the contrary above, if a property owner proposes to rebuild the building or structure in accordance with the City’s archive plans, a building permit shall be the only required permit or approval. However, any exterior alterations shall be subject to design review, if such review would normally be required by the Santa Barbara Municipal Code. If plans do not exist in the City’s archives, the City shall send a notice to all owners of property within 100 feet of the subject property, advising them of the details of the applicant’s request to rebuild, and requesting confirmation of the size, location, use, and configuration of the nonconforming building that is proposed to be rebuilt. The public comment period shall be not less than 10 calendar days as calculated from the date that the notice was mailed.

10. The building permit for the reconstruction, restoration or rebuilding must be issued within three (3) years of the occurrence of the damage or destruction. (Ord. 5503, 2009; Ord. 5451, Section 5, 2008; Ord. 5072, 1998; Ord. 4851, 1994; Ord. 3916, 1977; Ord. 3915, 1977; Ord. 3710, 1974.)

28.87.045 Demolition and Replacement of Potentially Hazardous Nonconforming Buildings Which are Subject to the Seismic Safety Ordinance.

A. OWNER MAY ELECT TO DEMOLISH AND REPLACE. This section applies to potentially hazardous, nonconforming buildings which are required to, but have not yet complied with Chapter 22.18 of this Code as of the effective date of this amendment. An owner of a potentially hazardous, nonconforming building may elect to demolish that building, and construct a new building in order to meet the requirements of the Seismic Safety Ordinance provided that:
1. If the potentially hazardous, nonconforming building is a Landmark designated pursuant to the authority of Chapter 22.22, demolition of that building shall comply with the requirements contained in Chapter 22.22; and
2. The amount of interior building space (i.e., square footage) shall not be greater than the amount which is contained within the existing building; however, nothing herein shall preclude an addition of square footage pursuant to Chapter 28.85 of this Title; and
3. Setbacks shall not be less than those which currently exist; and
4. The number of parking spaces shall be no less than the number of parking spaces which currently exist; and
5. The number of stories in the building shall be no more than the number of stories which currently exist or which are allowed in the zone, whichever is greater; and
6. Any other existing elements or uses of the building or property which do not conform with the current applicable requirements of the Municipal Code shall not be increased or expanded, but may be retained; and
7. The building, site and landscaping plans shall be subject to the review and approval of the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district, or if the structure is a designated City Landmark, or the City Council on appeal.

Nothing herein shall be deemed to exempt such demolition and replacement of a building from full compliance with the requirements of Charter Section 1506 with respect to the height of buildings in certain zones.

B. TENANT RELOCATION ASSISTANCE PLAN. Prior to an approval of the demolition of a residential hotel project pursuant to the provisions of this Section, the property owner shall submit a proposed Tenant Relocation Assistance Plan. The plan, which shall be subject to the review and approval of the Planning Commission shall include, but not be limited to, the following components:

1. Notice: A certification that each non-transient tenant will receive a written Notice of Displacement not less than 180 days prior to issuance of a demolition permit for the unit occupied by that tenant.
2. Relocation Services: A description of how the property owner will provide relocation services to assist non-transient tenants in finding and securing suitable and comparable replacement housing.
3. Relocation Assistance: A description of the amount of monetary assistance (either in the form of cash, a rent credit or other similar credit or free relocation services or a combination thereof) each non-transient tenant will receive prior to the actual displacement of that tenant.
4. Schedule for Implementation: A relocation implementation schedule indicating when completion of the Tenant Relocation Plan will be accomplished.

C. PLANNING COMMISSION REVIEW. The Planning Commission shall hold a public hearing to review any request to demolish a nonconforming, potentially hazardous building, and construct a new building which may retain one or more nonconformities pursuant to this Subsection. The public hearings shall be held pursuant to Section 28.92.050 of this Title.

1. Notice of Planning Commission Public Hearing. Not less than 10 days before the date of the Planning Commission Public Hearing, a notice of the date, time and place of such hearing, the location of the property and the nature of the request shall be given in the following manner, unless otherwise directed by the Planning Commission:

   a. By publishing once in a newspaper of general circulation in the City; and
   b. By mailing a notice, postage prepaid, to the applicant, to each member of the Planning Commission, to the owners of all property within 300 feet of the exterior boundaries of the property involved, using for this purpose the last known name and address of such owners as shown upon the last Assessment Roll of the County of Santa Barbara.

If the proposed project involves the demolition of a residential hotel, a notice shall be mailed to all tenants of the residential hotel not less than 28 days before the date of the Planning Commission Public Hearing.

2. Findings. The Planning Commission may approve the demolition and replacement of such buildings upon finding that:

   a. Seismic upgrading of the building is necessary to increase the level of public safety in the event of an earthquake; and
   b. Demolition and replacement of the nonconforming building is the most effective method of significantly increasing the level of public safety for the building occupants and the community; and
   c. The new building or uses will not be materially detrimental to the public peace, health, safety, comfort and general welfare and will not materially affect property values in the particular neighborhood involved; and
   d. Adequate access and circulation is provided in a manner so that the demands of the new development are adequately met without adversely altering the character of the public streets, sidewalks and walkways in the area; and
   e. The appearance of the developed site in terms of the arrangement, size, bulk, scale and architectural style of the buildings, location of parking areas, landscaping and other features is compatible with the character of the area; and
   f. If the project involves the demolition of nonconforming residential hotels, the Tenant Relocation Assistance Plan is adequate to meet the needs of the tenants of the residential hotel which is proposed for demolition and replacement.
g. The parking demands of the replacement project (when contrasted with the demands of the demolished project) do not create a new and significant adverse impact on the parking resources located in the area of the project. If the replacement project results in a new and significant adverse impact on parking resources, the applicant shall make reasonable efforts to mitigate the impact. In such cases, the Planning Commission, or City Council on appeal, shall consider the parking impacts and proposed mitigation measures and may override the impacts if the benefits of the project outweigh the impact. (Ord. 5609, 2013; Ord. 5380, 2005; Ord. 4984, 1996.)

28.87.060 Swimming Pool Requirements.

In any zone that has required setbacks, a swimming pool shall not be located closer than 15 feet to a front lot line or closer than five feet (5’) to an interior lot line unless the zone in which the pool is to be constructed has a smaller setback; then, the pool shall observe this lesser setback. The setback shall be measured from the front and interior lot lines to the closest water area of the pool. (Ord. 3804, 1975; Ord. 3710, 1974; Ord. 2585, 1957.)

28.87.062 Setback, Open Yard, Common Outdoor Living Space, and Distance Between Main Buildings Encroachments.

A. Where setbacks, open yards, common outdoor living space, and minimum distances between main buildings are required in this title, they shall be not less in depth or width than the minimum dimensions specified for any part, and they shall be at every point unobstructed by structures from the ground upward, except as follows:

1. Encroachments allowed in the specific zone.
2. Cantilevered architectural features at least three feet (3’) above adjacent grade or finished floor (whichever is higher), and which do not provide additional floor space within the building (such as cornices, canopies, or eaves), or chimneys may encroach up to two feet (2’). However, no cantilevered architectural feature or chimney shall be located closer than three feet (3’) from any property line, except roof eaves, which may be located as close as two feet (2’) from any property line.
3. Uncovered balconies not providing additional floor space within the building may encroach up to two feet (2’). However, an uncovered balcony shall not encroach into an interior setback on a lot located in any single family zone.
4. Solar energy systems, as defined in subdivision (a) of Civil Code section 801.5, that are installed roughly parallel to, and protrude no higher than ten inches (10") above (measured from the top of the roof perpendicularly to the highest point of the solar energy system), a roof eave, may encroach the same amount as the roof eave.

B. The following structures may encroach into setbacks as specified:

1. Decks that are no more than 10 inches (10") in height above existing grade may encroach into any setback.
2. Uncovered porches, terraces and outside steps, not extending above the finished floor level of the first floor, may encroach up to three feet (3’) into any interior setback.
3. Covered or uncovered entrance landings not extending above the finished floor level of the ground floor and not exceeding three feet (3’) measured in perpendicular dimensions (excluding the area under any handrail required under the California Building Code as adopted and amended by the City) may encroach three feet into any setback.
4. Bay windows at least three feet (3’) above adjacent grade or finished floor (whichever is higher), and which do not provide additional floor space within the building may encroach up to two feet (2‘) into the front setback.
5. Accessible uncovered parking spaces, access aisles, and accessibility ramps necessary to make an existing building accessible to persons with disabilities may encroach into required setbacks to the extent reasonably necessary to accommodate the existing building. This encroachment is not available for new buildings or additions to existing buildings where the addition precludes the development of a conforming accessible improvement.

C. The following types of structures may encroach into the required open yard in the One-Family Residence Zone and the Two-Family Residence Zone (SBMC Section 28.15.060.C and 28.18.060.C.1 and 3a) or common outdoor living space in the R-3/R-4 Zones (SBMC Section 28.21.081.A.3 and 28.21.081.B), provided the total area of all such structures on the property does not occupy more than 20% of the total required open space or common outdoor living space on the lot, that no structure or structures occupy more than 20% of any individual area of required open space or common outdoor living space (if provided in multiple locations):

1. Detached, unenclosed structures (e.g., gazebos, trellises, hot tubs, spas, play equipment, or other freestanding structures).
2. Unenclosed structures which are attached to a wall or walls of a main building (e.g., patio covers, trellises, canopies, or other similar structures).

D. The following types of structures may encroach into the required minimum distance between main buildings on the same lot. However, at no time shall any structure be located closer than five (5) feet to any other structure on the lot, with the exception of: planters less than ten (10) inches in height above finished grade, fences, walls, and roof eaves.

1. Detached accessory structures.
2. Uncovered parking.
3. Planters less than ten (10) inches in height from finished grade.
4. Paving.
5. Fences, hedges, and walls.
6. Uncovered bicycle parking areas including bicycle racks and posts, but excluding bicycle locker parking.
7. The following structures may encroach a maximum of three feet:
   a. Balconies, decks, porches, and terraces that do not provide additional floor area. These improvements may be roofed or unroofed. If such improvements are provided above the first floor, they must be cantilevered, and the area below the structure shall not be enclosed.
   b. Structures built to enclose trash, recycling, water heaters, or water softeners.
   c. Exterior stairways, as long as the stairways are not enclosed by solid walls.
(Ord. 5630, 2013; Ord. 5459, 2008; Ord. 5416, 2007; Ord. 5412, 2007; Ord. 2585, 1957.)

28.87.080 Location of Building.

Except where otherwise provided for in this title, every main building shall face or have frontage upon a public street or permanent means of access to a street. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.87.140 Buildings Under Construction.

Any building or structure for which a building permit has been issued, and actual construction has begun, prior to the effective date of this title, may be completed and used in accordance with the plans, specifications and permits on which said building permit was granted, if construction is diligently prosecuted to completion, and provided further that such building or structure shall be completed within two (2) years from the effective date of this chapter. (Ord. 3710, 1974; Ord. 2585, 1957.)

28.87.150 Dwelling and Other Occupancies.

A. DWELLING UNIT MINIMUM FLOOR AREA REQUIREMENTS. Every dwelling unit hereafter created shall contain not less than four hundred (400) square feet of usable floor area. Such usable floor area shall be exclusive of open porches, garages, basements, cellars and unfinished attics.

B. EXCEPTION FOR AFFORDABLE EFFICIENCY DWELLING UNITS. For projects constructed or operated by a nonprofit or governmental agency providing housing as an "Affordable Housing Cost" to "Lower Income Households" (as those terms are defined in sections 50052.5 and 50079.5 of the state Health and Safety Code), the City may permit efficiency dwelling units (as defined in Section 310.7 of the California Building Code as adopted and amended by the City) for occupancy by no more than two persons who qualify as either very low or low income households at the time of their initial occupancy under circumstances where the unit will have a minimum useable floor area (excluding floor area in the kitchen, bathroom and closet) of not less than 150 square feet. In all other respects, such efficiency dwelling units shall conform to the minimum standards specified in the California Building Code (2001 Edition) and other applicable provisions of this Code. (Ord. 5459, 2008; Ord. 5336, 2004; Ord. 4912, 1995; Ord. 4225, 1983; Ord. 4152, 1982; Ord. 3680, 1974.)

28.87.160 Accessory Buildings.

The following regulations shall apply to the size and location of accessory buildings unless otherwise provided in this title.

A. No detached accessory buildings in the A-1, A-2, E-1, E-2, E-3, R-1, R-2, R-3 or R-4 Zones may exceed two (2) stories or thirty feet (30') in height.

B. Setback requirements contained in this title shall apply to all accessory buildings and structures as well as main buildings and structures, except that no accessory buildings, except garages, shall be located in a front yard.

C. Accessory buildings, excluding garages, shall not have a total aggregate floor area in excess of 500 square feet.

D. Garages in the A-1 and A-2 Zones shall not have a total aggregate floor area in excess of 750 square feet. Garages in the E-1, E-2, E-3, and R-1 Zones shall not have a total aggregate floor area in excess of 500 square feet, except that garages on lots in excess of 20,000 square feet shall not have a total aggregate floor area in excess of 750 square feet. (Ord. 5459, 2008; Ord. 4780, 1992; Ord. 3788, 1975; Ord. 3710, 1974; Ord. 2585, 1957.)

28.87.170 Fences, Screens, Walls and Hedges.

A. DEFINITIONS. As used in this Section 28.87.170, the following terms and phrases shall have the indicated meanings:

1. Arbor. An open structure typically constructed of latticework or metal that often provides partial shade or support for climbing plants, sometimes referred to as a trellis or pergola. An arbor is not considered an accessory building.

2. Fence. An upright structure serving as an enclosure, barrier, or boundary or that visually divides or conceals a parcel, usually made of posts, boards, wire, or rails.

3. Hedge. A row of closely planted shrubs, bushes, or any other kind of plant material that forms a boundary or substantially continuous visual barrier.
4. **Parkway.** An area between the curb and sidewalk in a fully improved right-of-way, typically landscaped.

5. **Screen.** Vegetation, including, but not limited to, trees, shrubs, bushes, and other plantings, that visually divides or conceals a parcel.

6. **Wall.** An upright structure of masonry, wood, plaster, or other building material serving to enclose, divide, or protect an area.

B. **GENERAL RULES.** The following guidelines and standards apply in any zone within the City:

1. **Guidelines.** The Fences, Screens, Walls and Hedges Guidelines, as adopted by resolution of the City Council, shall provide direction and guidance to decision makers and City staff in connection with applications reviewed pursuant to this Section.

2. **Required Reduction for Safety.** If the height of any fence, screen, wall or hedge obstructs the sightlines required for the safe operation of motor vehicles, the Public Works Director (or Director’s designee) may declare the fence, screen, wall or hedge to be a public nuisance and require the reduction of the height of the fence, screen, wall or hedge in order to provide for the safe operation of motor vehicles.

3. **Height Measurement.** The height of a fence, screen, wall or hedge shall be measured in a vertical line from the lowest point of contact with the ground directly adjacent to either side of the fence, screen, wall or hedge to the highest point of the fence, screen, wall or hedge along said vertical line.

4. **Separation.** Unless there is a horizontal separation of at least five feet (5') between a fence, screen, wall or hedge, the combined height of a fence, screen, wall or hedge and any adjacent fence, screen, wall or hedge shall be measured from the lowest point of the lowest such fence, screen, wall or hedge to the highest point of other fences, screens, walls or hedges.

5. **Schools.** A chain link or open mesh type fence of any height necessary to enclose an elementary or high school site may be located and maintained in any required yard.

6. **Barbed Wire, Concertina Wire, Sharp Wire or Points.** No barbed wire or concertina wire shall be used or maintained in or about the construction of a fence, screen, wall or hedge along the front or interior lot lines of any lot, or within three feet (3') of said lot lines. No sharp wire or points shall project at the top of any fence or wall less than six feet (6') in height.

7. **RULES APPLICABLE TO FENCES AND WALLS ON RESIDENTIALLY-ZONED PARCELS.** On parcels zoned A-1, A-2, A-3, E-1, E-2, E-3, R-1, R-2, R-3, or R-4, the following standards apply to fences and walls:

   1. **Required Setbacks.** Except as otherwise provided in this Section, no fence or wall located in the required setbacks shall exceed a height of eight feet (8').

   2. **Front Lot Lines.** Except as otherwise provided in this Section, no fence or wall located within ten feet (10') of a front lot line shall exceed a height of three and one-half feet (3-1/2').

   3. **Driveways.** Except as otherwise provided in this Section, no fence or wall exceeding a height of three and one-half feet (3-1/2') shall be located within a triangular area on either side of a driveway as follows:

      a. When a driveway directly abuts a portion of a street improved with a sidewalk and a parkway, the triangle is measured on two sides by a distance of ten feet (10') from the side of a driveway and ten feet (10') back from the front lot line.

      b. When a driveway directly abuts a portion of a street without a sidewalk or parkway, the triangle is measured on two sides by a distance of twenty feet (20') from the side of a driveway and ten feet (10') back from the front lot line.

4. **Corner Lots.** Within the required “Intersection Sight Distance”, as depicted in the Fences, Screens, Walls and Hedges Guidelines, no fence or wall may obstruct the sightlines required for the safe operation of motor vehicles. This paragraph does not apply to parcels located adjacent to intersections controlled by an all-way stop.

5. **Guardrails.** A guardrail may extend above the maximum height limit for a fence or wall without requiring an exception or modification, only to the minimum extent required for safety by the California Building Code, and only if the guardrail is predominately transparent.

6. **Decorative Elements.** Notwithstanding the above provisions, decorative elements not wider than nine inches (9") by nine inches (9"), such as pilaster caps, finials, posts, lighting fixtures, or similar decorative features as determined by the Community Development Director (or the Director’s designee), may exceed the maximum height of any fence or wall by not more than twelve inches (12"), provided such features are spaced not less than six feet (6') apart, measured on-center.

7. **Entryway Arbors.** Notwithstanding the above provisions, one entryway arbor, substantially open (no solid walls or roof) and not exceeding a maximum of eighteen (18) square feet in area and eight feet (8') in height, is permitted in any front yard. The square footage of the arbor shall be determined by the area located within the rectangle formed around the posts of the arbor or the roof portion of the arbor, whichever dimension is larger. This exception shall only apply to an entryway arbor used in combination with and attached to a fence or wall. No arbor shall be located on a street corner in conflict with the provisions of Section 28.87.170.C.4.

D. **RULES APPLICABLE TO SCREENS AND HEDGES ON RESIDENTIALLY-ZONED PARCELS.** On parcels zoned A-1, A-2, A-3, E-1, E-2, E-3, R-1, R-2, R-3, or R-4, the following standards apply to screens and hedges:

   1. **Required Setbacks.** Except as otherwise provided in this Section, no screen or hedge located in the required setbacks shall exceed a height of eight feet (8').

   2. **Front Lot Lines.** Except as otherwise provided in this Section, no screen or hedge located within ten feet (10') of a front lot line shall exceed a height of eight feet (8').
3. **Driveways.** Except as otherwise provided in this Section, no screen or hedge exceeding a height of three and one-half feet (3-1/2') shall be located within a triangular area on either side of a driveway as follows:
   a. When a driveway directly abuts a portion of a street improved with a sidewalk and a parkway, the triangle is measured on two sides by a distance of ten feet (10') from the side of a driveway and ten feet (10') back from the front lot line.
   b. When a driveway directly abuts a portion of a street without a sidewalk or parkway, the triangle is measured on two sides by a distance of twenty feet (20') from the side of a driveway and ten feet (10') back from the front lot line.

4. **Corner Lots.** Within the required “Intersection Sight Distance”, as depicted in the Fences, Screens, Walls and Hedges Guidelines, no screen or hedge may obstruct the sightlines required for the safe operation of motor vehicles. This paragraph does not apply to parcels located adjacent to intersections controlled by an all-way stop.

E. **ADMINISTRATIVE REVIEW AND APPROVAL OF MINOR EXCEPTIONS.**

1. **Exceptions to the Fence and Wall Standards by the Community Development Director.** The Community Development Director (or the Director’s designee) may grant minor exceptions, as specified in the Fences, Screens, Walls and Hedges Guidelines, to Paragraphs C.1, C.2, C.5, C.6, and C.7 above, if the Community Development Director finds that:
   a. If the subject fence or wall is located on, or within the required setback of, an interior property line, the adjacent property owner(s) that share a common property line nearest to the fence or wall have agreed to the requested exception;
   b. The granting of such exception will not create or exacerbate an encroachment into the necessary sightlines for safe operation of motor vehicles;
   c. As applicable, the subject fence or wall will be compatible with other similarly situated and approved structures in the neighborhood; and
   d. The granting of such exception will not be detrimental to the use and enjoyment of other properties in the neighborhood.

2. **Exceptions to the Screen and Hedge Standards by the Community Development Director.** The Community Development Director (or the Director’s designee) may grant minor exceptions, as specified in the Fences, Screens, Walls and Hedges Guidelines, to Paragraphs D.1 and D.2 above, if the Community Development Director finds that:
   a. If the subject screen or hedge is located on, or within the required setback of, an interior property line, the adjacent property owner(s) that share a common property line nearest to the screen or hedge have agreed to the requested exception;
   b. The granting of such exception will not create or exacerbate an encroachment into the necessary sightlines for safe operation of motor vehicles;
   c. The screen or hedge will be compatible with the character of the neighborhood (the Community Development Director may seek advice from the appropriate design review body when considering this finding);
   d. The proposed height of the screen or hedge will respect the height limitation applicable to structures for the protection of solar access as specified in Section 28.11.020 of this Code; and
   e. The granting of such exception will not be detrimental to the use and enjoyment of other properties in the neighborhood.

3. **Exceptions to Corner Lot and Driveway Sightline Standards by the Public Works Director.** The Public Works Director (or the Director’s designee) may grant minor exceptions, as specified in the Fences, Screens, Walls and Hedges Guidelines, to Paragraphs C.3, C.4, D.3 and D.4 above, if the Public Works Director finds that:
   a. The granting of such exception will not create or exacerbate an encroachment into the necessary sightlines for safe operation of motor vehicles; and
   b. The granting of such exception will not be detrimental to the use and enjoyment of the other properties in the neighborhood.

F. **NONCONFORMING.** Any fence, screen, wall or hedge which is nonconforming to the provisions of this section and which existed lawfully on January 10, 1957 (the effective date of the ordinance adopting the provisions of this section), may be continued and maintained, provided there is no physical change other than necessary maintenance and repair in such fence or wall, except as permitted in other sections of this title. A hedge shall be determined to be nonconforming by the Community Development Director upon receipt of sufficient evidence indicating that the hedge existed in its present location on January 10, 1957. Notwithstanding the foregoing, no more than ten percent (10%) of the length of a nonconforming fence or wall may be replaced within any twelve-month period, unless: 1) such fence or wall is a significant structure or feature associated with a designated City Landmark or Structure of Merit and the extent of repair or maintenance occurs pursuant to Santa Barbara Municipal Code Section 22.22.070; or 2) such fence or wall is necessary to retain or support soil in a vertical or near vertical slope of earth. If a nonconforming fence, screen, wall or hedge has been determined to be a safety hazard by the Public Works Director, the Public Works Director (or Director’s designee) may declare the fence, screen, wall or hedge to be a public nuisance and require the reduction of the height of the fence, screen, wall or hedge in order to provide for the safe operation of motor vehicles.
G. RELATIONSHIP WITH THE VIEW DISPUTE RESOLUTION PROCESS. The fact that a hedge or screen does not violate the standards set forth in this Section 28.87.170 or the fact that a property owner has received an administrative exception or modification from the standards set forth in this Section for a hedge or screen shall not preclude another property owner from alleging an unreasonable obstruction of a view and availing himself or herself of the protections and procedures of the City’s View Dispute Resolution Process found in Chapter 22.76 of this Code. (Ord. 5650, 2014; Ord. 5459, 2008; Ord. 4162, 1982; Ord. 3513, 1972; Ord. 3234, 1967; Ord. 2585, 1957; Ord. 2346, 1951.)

28.87.180 Recreational Vehicles, Mobilehomes and Modular Units.

A. RESIDENTIAL USE OF RECREATIONAL VEHICLES AND MOBILEHOMES. No recreational vehicle shall be used or occupied for living or sleeping purposes unless it is located in a recreational vehicle park and complies with all provisions of any ordinance of the City of Santa Barbara regulating such park.

B. TEMPORARY OVERNIGHT USE. Notwithstanding subsection (A) above or any other provision of this Code, the overnight use of a paved parking area by the registered owner of a recreational vehicle (as defined in Section 18010 of the state Health & Safety Code) is allowed under the following expressly limited circumstances:

1. Church and Nonprofit Parking Lots. A church or other public benefit nonprofit corporation (which utilizes its real property for a permitted church or nonprofit institutional use) may allow the overnight use of an adjacent paved vehicular parking portion of their real property by the registered owner of a recreational vehicle as a transitional housing alternative under the following limited circumstances:
   a. Such overnight use does not conflict with express conditions imposed by the City on a permit for the church or non-profit institutional use.
   b. No more than five (5) recreational vehicles are on the church or institutional real property for overnight accommodation use at any one time.
   c. During the overnight use, each recreational vehicle is sited at a location not less than fifty (50) feet from any real property being used for residential purposes.
   d. Such recreational vehicles are properly and currently licensed for operation on the highway in accordance with the California Vehicle Code.
   e. The church or non-profit organization has sole and exclusive control of the parking being used for this purpose.
   f. The church or non-profit organization makes adequate and sanitary bathroom facilities (as approved by the Santa Barbara County Health Officer) available to the occupants of the recreational vehicles.
   g. No rent is received by the church or non-profit organization for this overnight accommodation use, as the term “rent” is defined in SBMC Section 26.08.030(N).
   h. The owner of the RV has been issued a permit for such use of the RV by a non-profit entity designated by the City for supervising the Safe RV Parking Program and designated by the City to assist such RV owners in transitioning to permanent housing.

2. Parking of RVs in Certain Areas of Certain Zones. An owner of real property in the M-1 zone, north of the U.S. Highway 101, and the C-M zone, east of Santa Barbara Street to the City limits (as depicted on the map attached to this chapter entitled “RV Overnight Parking in Certain Areas of M-1 and C-M Zones, Dated February 6, 2007”), may allow the overnight use of a paved parking portion of their real property by the registered owner of a recreational vehicle as a transitional housing alternative under the following limited circumstances:
   a. Such overnight use does not conflict with express conditions imposed by the City on a use permit for the use of the real property.
   b. No more than one (1) recreational vehicle is on the real property for overnight accommodation use at any one time.
   c. During the overnight use, each recreational vehicle is parked at a location not less than fifty (50) feet from any real property being used for residential purposes.
   d. Such recreational vehicles are properly and currently licensed for operation on the highway in accordance with the California Vehicle Code.
   e. The owner of the real property makes adequate and sanitary bathroom facilities (as approved by the Santa Barbara County Health Officer) available to the occupants of the recreational vehicles.
   f. No rent is received by the owner of real property for this overnight accommodation use, as the term “rent” is defined in SBMC Section 26.08.030(N), so long as the occupant of the recreational vehicle serves as nighttime security personnel.
   g. The owner of the RV has been issued a permit for such use of the RV by a non-profit entity designated by the City for supervising the Safe RV Parking Program and designated by the City to assist such RV owners in transitioning to permanent housing.

3. City Parking Lots. The recreational vehicle being used is located within a City public parking lot as such lots (including the locations thereon) as may be designated by a resolution of the City Council under use conditions and permit restrictions which shall be expressly established in the City Council resolution. Such Council resolution shall also establish criteria for and a process to certify the continuing need for the occupants of a recreational vehicle to use the recreational vehicle as a transitional housing alternative pending an eventual transition to an acceptable and safe housing alternative.
C. **COMMERCIAL USE.** No recreational vehicle, mobilehome, or modular unit shall be used for office, retail or any other commercial purpose except in the following situations:

1. A recreational vehicle or mobilehome may be used as a sales office for a new or used recreational vehicle or mobilehome sales business if such recreational vehicle or mobilehome is on the same lot or parcel of land where the business is located and if, on such same lot or parcel of land, new or used recreational vehicles or mobilehomes, other than that used for a sales office, are normally kept for display to the public;
2. A recreational vehicle or mobilehome may be used as a sales office for a new or used auto sales business conducted on the same lot or parcel of land in areas other than a City designated landmark district;
3. A recreational vehicle or mobilehome may be used as a construction building or office at the site of a construction project for the duration of such project;
4. A mobilehome in a residential zone may be used for the conduct of a home occupation upon the same conditions and regulations as apply to single family residences in the zone;
5. A modular unit or mobilehome in a residential zone may be used for temporary office purposes in connection with the use of real property as a dedicated public park provided that the owner of the property or the operator of the park has received the required City approvals to construct a permanent park office building and all of the following conditions exist:
   a. All required building permits are obtained.
   b. Each modular unit or mobilehome is located outside the construction zone.
   c. No required parking spaces are eliminated by the placement of the modular units or mobilehome.
   d. No retail sales are made from the modular units.
6. One or more modular units may be used during the term of a construction project by employees of an existing business which has been displaced due to the project, provided all of the following conditions exist:
   a. All required building permits are obtained.
   b. Each modular unit is located outside the construction zone.
   c. No required parking spaces are eliminated by the placement of the modular units.
   d. No retail sales are made from the modular units.
7. A mobilehome or modular unit may be used as an office for the initial sale, rental or leasing of lots and dwellings in a project on the site provided all of the following conditions exist:
   a. All required building permits are obtained.
   b. All necessary street improvements and off-street parking spaces are provided to the satisfaction of the Public Works Director and Community Development Director.
   c. The sales office is closed after a period of two years, unless the time period is extended by the Community Development Director.
8. A modular unit or mobilehome in a residential zone may be used for interim fire protection purposes in connection with the use of City Fire Station No. 7 (Sheffield/Stanwood Station) provided that such use complies with the requirements of Santa Barbara Municipal Code Section 28.15.040. (Ord. 5411, 2007; Ord. 5368, 2005; Ord. 5275, 2003; Ord. 5222, 2002; Ord. 4525, 1988; Ord. 4269, 1984; Ord. 3710, 1974; Ord. 3001, 1964.)

### 28.87.190 Storage.

A. No portion of any front yard or any required interior setback, open yard, private outdoor living space or front porch shall be used for the permanent storage of motor vehicles, trailers, airplanes, boats, parts of any of the foregoing, appliances, loose rubbish or garbage, junk, tents, garbage or rubbish receptacles, building materials, compost pile, or any similar item, except as hereinafter provided. Permanent storage, as used in this section, shall mean storage for a period of forty-eight (48) or more consecutive hours.

B. No portion of any vacant or undeveloped lot in a residential zone where no main building exists shall be used for permanent storage.

C. Building materials for use on the same premises may be stored thereon during the time that a valid permit is in effect for construction on the premises. (Ord. 5459, 2008; Ord. 3710, 1974; Ord. 3115, 1966.)

### 28.87.200 Landscape or Planting Plan Approvals - Standards.

Whenever in the Zoning Ordinance, as amended, the administrative duty of reviewing and approving landscaping or planting plans is placed upon any officer or employee of the City, such officer or employee may disapprove such plans, or any part of them, if:

1. Any or all of the proposed plant materials are of the type having root structures which, in their natural and anticipated extension and growth and in relation to their location as shown on the plans, may damage or interfere with the normal use and enjoyment of:
   a. Public or private lines, cables, conduits, pipes or other underground structures; or
   b. Public or private sidewalks, curbs, gutters or hard surfaced roads, streets, driveways, parking and turn around areas, easements or like things designed and constructed to accommodate vehicles; or
   c. Contiguous, adjacent or abutting structures, foundations or landscape materials.
2. Any or all of the proposed plant materials:
   a. Are noxious or dangerous to persons or domestic animals; or
b. Exude or emit substances or things which because of proposed location will probably injure or damage real or personal property in the area of their effect; or
c. Are weeds which bear seeds of a downy or wingy nature.
3. Any or all of the proposed plant materials, because of proposed location and type, will contribute to the spread of or make more hazardous the possibility of a brush or forest fire; or
4. Any or all of the proposed plant materials which are designed for relatively permanent emplacement will probably die because of proposed locations unrelated to their ecological requirements; or
5. Any or all of the proposed plant materials, as affected by normal growth, will probably block the view, sunlight or fresh air flow otherwise available at a window or other opening in the walls of a building on the property or of a building on adjacent property; or
6. Any or all of the proposed plant materials are so arranged or placed so as not to produce the aesthetic result desired by the property owner; or
7. Any or all of the proposed plant materials are in such combinations as to promote a natural competition for the elements necessary to their healthy growth and thus seriously affect their stability or permanence; or
8. Any or all of the proposed plant materials, as affected by normal growth, will tend to become a nuisance to or otherwise interfere with the free use and enjoyment of neighboring property; or
9. Any or all of the proposed plant materials, as affected by normal growth, and with reference to their proposed location, will probably become obstructions to the vision of vehicle operators or to other uses of public streets and places, as such obstructions are defined and regulated under provisions contained in the Code of the City of Santa Barbara. (Ord. 3710, 1974; Ord. 3008, 1964.)

28.87.205 Automobile Service Stations - Site Development Regulations.

For the promotion and preservation of the health, safety, peace and general mental, economic and physical welfare, the following regulations, in addition to other requirements of law, are established for automobile service station site development, primarily to provide opportunity for the dissipation of and to reduce noise, glare or lights and gas and oil fumes, to provide safe barriers between adjacent pedestrian ways and vehicle maneuvering areas on the site, and to provide adequate separation from adjoining residential properties so as to preserve their residential amenities and incidentally, to carry out such primary purposes in a manner that will enhance and assure maintenance of the aesthetic appeal of service station sites to aid and preserve the unique character and quality of the environment of the City which draws tourists and visitors, consequently, both directly and indirectly promoting the business of service station owners and operators as well as benefitting the general economy of the City of which the tourist and visitor element is of predominant importance.

1. When a lot is developed for automobile service station purposes, the following requirements shall be met:
   a. Where such lot abuts property used or zoned for residential purposes, such lot shall be separated from such abutting property by an ornamental masonry wall six feet (6') high; provided that from the front property line to a depth along the abutting lot line of twenty feet (20') such wall shall be three feet (3') high. There shall also be provided individual planting areas no less than five feet (5') square along and adjacent to the side of such wall which faces the service station facilities, such planting areas to be planted with trees.
   b. Where such lot abuts property other than that used or zoned for residential purposes there shall be provided individual planting areas no less than five feet (5') square along and adjacent to such property, such planting areas to be planted with trees.
   c. Along and abutting all street rights-of-way, except in those areas encompassed within the driveway exits and entrances, there shall be provided planted planter areas three (3') or more feet wide.
   d. No part of any building or structure or any part of a parked vehicle shall be permitted to protrude or intrude into any required planting areas from ground level up. Parking spaces shall be provided with approved tire stops, bumper stops or other barriers for this purpose.
   e. Except where buildings abut planting areas, all planting areas shall be separated from adjoining unplanted areas by a curb that is no less than four inches (4") above pavement level.
   f. All planting areas shall be maintained in a manner that will sustain normal growth.
2. Prior to the issuance of a building permit for an automobile service station, a planting plan showing above required planting areas, showing that the requirements of this section have been met, and showing compliance with the following additional matters shall be submitted to the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, for a determination that all of such requirements and matters have been met and upon such determination, approved:
   a. The plan shall show the botanical and common names of the plants to be used, their number, and proposed spacing and location.
   b. The plan shall show combinations of trees and shrubs or ground cover. Ground covers or shrubs alone are not acceptable as a separation from adjoining residential property, but will be sufficient for areas abutting streets.
   c. The plan shall show all parking spaces, paved areas and driveways.
   d. The plan shall show an adequate method of irrigating all planted areas. Irrigation may be by a permanent watering system or by hose.
3. Approval upon final inspection under a building permit shall not be given until the approved planting has been completed to the satisfaction of the Chief of Building and Zoning or his delegate.
4. Compliance with Section 28.87.205 shall not be required for automobile service stations and automobile service station/mini-markets that have a conditional use permit issued pursuant to Subsection 28.94.030.U of this Code. (Ord. 5380, 2005; Ord. 4851, 1994; Ord. 4033 §7, 1980; Ord. 3710, 1974; Ord. 3034, 1965.)

28.87.210 Substandard Lots Created by Action of Public Agency.

Where any existing parcel of land is reduced in size or lot dimensions below those required by this title by reason of the acquisition of a portion thereof along any perimeter of such parcel for any public purpose by any public agency, such parcel as so reduced shall be considered as conforming to the provisions of this title as a legal lot. In such case, minimum lot area and lot dimensions required by this title shall not apply. Lot area per dwelling unit requirements and all other provisions of this title shall apply. This section shall not apply to property acquired by a public agency as part of subdivision or lot split proceedings. (Ord. 3710, 1974; Ord. 3040, 1965.)

A. STATEMENT OF LEGISLATIVE INTENT.

These regulations are intended to require a Zoning Information Report for purchasers of residential property, setting forth matters of City record pertaining to the authorized use, occupancy, zoning and the results of a physical inspection of the property. Primary purpose of the report is to provide information to the potential buyer of residential property concerning the zoning and permitted use of the property.

B. DEFINITIONS.

1. "Owner" shall mean any person, co-partnership, association, corporation or fiduciary having legal or equitable title or any interest in any real property.

2. "Residential property" shall mean any improved real property, designed or permitted to be used for any residential purpose, situated in the City and shall include the building or structures located on said improved real property.

3. "Agreement of sale" shall mean any agreement or written instrument which provides that title to any property shall thereafter be transferred for consideration from one (1) owner to another owner.

C. REPORT REQUIRED.

1. Application. Except where a sale is exempt from the requirements of this section pursuant to Subsection G below, no later than five (5) days after entering into an "agreement of sale" of any residential property, the owner or owner's authorized representative shall make application to the City for a Zoning Information Report to the Community Development Director on a form provided, and pay a fee as established by resolution of the City Council.

Under normal circumstances the report will be available no later than fifteen (15) working days after the application is received by the Community Development Director.

2. Copy to Buyer. Said owner or owner's authorized representative shall provide a copy of the report to the buyer or buyer's authorized representative no later than three (3) days prior to consummation of the transfer of title. The buyer or buyer's authorized representative may waive in writing the requirement for delivery three (3) days prior to consummation of the transfer of title but in any event the report shall be provided to the buyer or buyer's authorized representative prior to the consummation of the transfer of title.

3. Proof of Receipt. Proof of receipt of a copy of the report shall be obtained by the owner or owner's authorized representative prior to consummation of the transfer of title. Said proof shall consist of a statement signed by the buyer or buyer's authorized representative stating that the report has been received, the date of the report and the date it was received. City shall provide a receipt form with each zoning information report. The original of the signed proof of receipt shall be mailed or delivered to the Community Development Director of the City no later than the consummation of the transfer of title.

D. CONTENTS OF ZONING INFORMATION REPORT.

The Community Development Director shall review the applicable City records and provide the applicant the following information on the Zoning Information Report:

1. Street address and parcel number of the property.

2. The zone classification and permitted uses as set forth in the Zoning Ordinance of the City of Santa Barbara.

3. Occupancy and use permitted as indicated and established by records.

4. Variance, special use permits, conditional use permits, modifications and other administrative acts of record.

5. Any special restrictions in use or development which are recorded in City records and may apply to the property.

6. Any known nonconformities or violations of any ordinances or law.

7. The results of a physical inspection for compliance with the Zoning Ordinance and for compliance with Chapter 14.46 of this Code.
8. A statement of whether the real property has had a Building Sewer Lateral Report prepared for the real property pursuant to the requirements of Santa Barbara Municipal Code Chapter 14.46 within the five (5) year period prior to the preparation of the Zoning Information Report and, if so, that a copy of the Building Sewer Lateral Report is available from the City for the buyer’s inspection. All Zoning Information Reports shall also contain an advisory statement (in bold not less than 10 point typeface) prepared by the Public Works Director which advises a purchaser of residential real property regarding the potential problems and concerns caused by an inadequate, failing, or poorly-maintained Building Sewer Lateral. In addition, the standard required advisory statement shall indicate the advisability of a purchaser obtaining a recently-prepared Building Sewer Lateral Inspection Report.

E. VIOLATION OF LAW NOT PERMITTED.

Any report issued pursuant to this section shall not constitute authorization to violate any ordinance or law, regardless of whether the report issued pursuant to this section purports to authorize such violation or not.

F. EXPIRATION OF REPORT.

Each report shall be valid for a period of twelve (12) months after date of issue or until a transfer of title occurs, whichever is sooner.

G. EXEMPTIONS.

The provisions of this section shall not apply to the following sales:

1. The first sale of each separate residential building located in a subdivision where the final subdivision or parcel map has been approved and recorded in accordance with the Subdivision Map Act not more than two (2) years prior to the first sale.
2. The sale of any residential property on which a new home is under construction pursuant to a valid building permit; or
3. The sale of any residential property where the final building permit inspection on a new home was issued within three (3) months of the date on which the owner entered into the agreement for the sale of a home to the buyer.
4. The sale of a condominium unit.

H. EFFECT OF NONCOMPLIANCE.

It shall be unlawful for any owner to consummate the transfer of title to any residential property without providing the transferee with a Zoning Information Report as required in this Section 28.87.220. The failure to comply with the provisions of this Section shall not invalidate the transfer or conveyance of real property to a bona fide purchaser or encumbrancer for value. (Ord. 5537, 2010; Ord. 5396, 2006; Ord. 4932, 1995; Ord. 4106, 1981; Ord. 3986, 1979; Ord. 3843, 1976; Ord. 3826, 1976.)

28.87.230 Zoning Plan Check - Fee.

Prior to issuance of a building permit, the development and construction plans shall be reviewed to determine consistency with the Zoning Ordinance. Application for a zoning plan check shall be accompanied by the fee in the amount established by resolution of the City Council. (Ord. 3955 §4, 1978.)

28.87.240 Drive-Through Facility.

No new or expanded drive-through facility shall be permitted in any zone of the City. Existing financial institution drive-through facilities may be replaced in kind with automated teller machines as long as the number of drive-through lanes does not increase. (Ord. 4837, 1993; Ord. 4001, 1979.)

28.87.250 Development Along Creeks.

A. Legislative Intent. The purpose of this Section is to provide controls on development adjacent to the bed of Mission Creek within the City of Santa Barbara. These controls are necessary:

1. to prevent undue damage or destruction of developments by flood waters;
2. to prevent development on one parcel from causing undue detrimental impact on adjacent or downstream properties in the event of flood waters;
3. to protect the public health, safety and welfare.

B. Limitation on Development. No person may construct, build, or place a development within the area described in Subsection 28.87.250.C unless said development has been previously approved as provided in Subsection 28.87.250.E.

C. Land Area Subject to Limitation. The limitations of this Section shall apply to all land within the banks and located within twenty-five (25) feet of the top of either bank of Mission Creek within the City of Santa Barbara. "Top of bank" means the line formed by the intersection of the general plane of the sloping side of the watercourse with the general plane of the upper generally level ground along the watercourse; or, if the existing sloping side of the watercourse is steeper than the angle of repose (critical slope) of the soil or geologic structure involved, "top of bank" shall mean the intersection of a plane beginning at the toe of the bank and sloping at the angle of repose with the generally level ground along the watercourse. The angle of repose is assumed to be 1.5 (horizontal) : 1 (vertical) unless otherwise specified by a geologist or soils engineer with knowledge of the soil or geologic structure involved.
"Toe of bank" means the line formed by the intersection of the general plane of the sloping side of the watercourse with the general plane of the bed of the watercourse.

D. Development Defined. Development, for the purposes of this Section, shall include any building or structure requiring a building permit; the construction or placement of a fence, wall, retaining wall, steps, deck (wood, rock, or concrete), or walkway; any grading; or, the relocation or removal of stones or other surface which forms a natural creek channel.

E. Approval Required. Prior to construction of a development in the area described in Subsection 28.87.250.C, the property owner shall obtain approvals as follow:

1. Any development subject to the requirement for a building permit shall be reviewed and approved by the Chief of Building and Zoning or the Planning Commission on appeal prior to the issuance of a building permit.
2. Any development not requiring a building permit shall be reviewed and approved by the Chief of Building and Zoning or his designated representative or the Planning Commission on appeal. A description of the development shall be submitted showing the use of intended development, its location, size and manner of construction.

F. Development Standards. No development in the area subject to this Section shall be approved unless it is found that it will be consistent with the purposes set forth in Subsection 28.87.250.A.

1. The Chief of Building and Zoning or the Planning Commission on appeal shall consider the following in determining whether the development is consistent with Subsection 28.87.250.A:
   a. That the proposed new development will not significantly reduce existing floodways, re-align stream beds or otherwise adversely affect other properties by increasing stream velocities or depths, or by diverting the flow, and that the proposed new development will be reasonably safe from flow-related erosion and will not cause flow-related erosion hazards or otherwise aggravate existing flow-related erosion hazards.
   b. That proposed additions, alterations or improvements comply with Subparagraph 1.a above.
   c. That proposed reconstruction of structures damaged by fire, flood or other calamities will comply with Subparagraph 1.a above, or be less nonconforming than the original structure and will not adversely affect other properties.
   d. The report, if any, of a qualified soils engineer or geologist and the recommendations of the Santa Barbara County Flood Control and Water Conservation District.
   e. After review of that report, whether denial of approval would cause severe hardship or prohibit the reasonable development and use of the property.
2. The Chief of Building and Zoning, or the Planning Commission on appeal may consider the following factors as mitigating possible hazards which might otherwise result from such development:
   a. Where the development is located on a bank of the creek which is sufficiently higher than the opposite bank to place the development outside a flood hazard area.
   b. Where the creek bed adjacent to the development is sufficiently wide or the creek bank slope sufficiently gradual that the probability of flood hazard is reduced.
   c. Where approved erosion or flood control facilities or devices have been installed in the creek bed adjacent to the development.
   d. Where the ground level floor of the development is not used for human occupancy and has no solid walls.
   e. Where the development is set on pilings so that the first occupied floor lies above the 100-year flood level, and such pilings are designed to minimize turbulence.
3. The Chief of Building and Zoning or the Planning Commission on appeal may allow development into required setbacks if he makes the finding that the encroachment would not be necessary except for the development controls required by this section and that the modification of the required setback is necessary to secure an appropriate improvement on a lot, to prevent unreasonable hardship or to promote uniformity of improvement.

G. Procedures. The following procedures shall apply to developments in the area defined in Subsection 28.87.250.C:

1. All applicants shall receive an environmental assessment.
2. All applications shall be referred to the Santa Barbara County Flood Control and Water Conservation District and the City Public Works Department for review and comment.
3. Upon completion of the above review and comment, the proposed development shall be reviewed by the Chief of Building and Zoning as provided in Subsection 28.87.250.E. The Chief of Building and Zoning shall give the applicant and any other person requesting to be heard, an opportunity to submit oral and/or written comments to him prior to his decision. The Chief of Building and Zoning shall send by mail notice of his decision to the applicant. The decision of the Chief of Building and Zoning shall be final unless appealed by the applicant or any interested person to the Planning Commission within ten (10) days by the filing of a written appeal with the Department of Community Development. The Department of Community Development shall schedule the matter for a hearing by the Planning Commission and shall mail the applicant and any interested person requesting notice written notice of the hearing ten (10) days before the hearing. The decision of the Planning Commission shall be final. (Ord. 5459, 2008; Ord. 4056, 1980.)
28.87.260 Antenna Height Limitation.

A. Basic Height Limitation. Except as otherwise conditionally permitted herein, no radio, television or other antenna or mast or related screening shall be permitted if at the highest point the height above grade is more than forty-five (45) feet in any one-family or two-family residence zone, fifty-five (55) feet in any multiple-family residence, office, restricted or limited commercial zone or seventy (70) feet in any other commercial, commercial-manufacturing or limited manufacturing zone.

B. Exceptions. Permitted exceptions to height limits:
   1. Amateur or Citizen's Band Antennas. Amateur or Citizen's Band transmitting or receiving antennas used in the Amateur Radio Service or the Citizen's Radio Service by licensed amateur or citizen's band radio operators may exceed the basic height limitation provided that:
      a. No antenna tower shall extend to a height above grade of more than sixty-five (65) feet in any residential, office, restricted or limited commercial zone or one hundred (100) feet in any other commercial or manufacturing zone.
      b. No antenna support which is not a tower or part of a tower shall be installed and thereafter maintained whose height above grade is more than forty-five (45) feet unless such support is a part of an approved structure or a naturally existing object.
   2. Cellular Telephone and Emergency Service Antennas. A Cellular Telephone or Emergency Service Antenna and related screening may exceed the basic height limitation provided that it is placed on an existing building and the top of the antenna is no more than fifteen (15) feet above the highest point of the building. (Ord. 4891, 1994; Ord. 4851, 1994; Ord. 4147, 1982.)

28.87.270 Emergency Service Antennas.

Emergency Service antennas shall be a permitted use in all zones. (Ord. 4891, 1994.)

28.87.280 Automated Teller Machines.

A. PROHIBITION ADJACENT TO RESIDENTIAL ZONES. Except as provided in Subsection B. of this Section, Automated Teller Machines (ATMs) shall not be installed, operated or maintained under the following circumstances:
   1. Where the ATM is located on a parcel that is immediately adjacent to a parcel zoned for residential purposes, and
   2. Where the ATM is less than one hundred feet from the lot line of the adjacent residentially zoned lot, and
   3. Where the ATM is either:
      a. Located on an exterior wall of a structure, which wall is visible from the adjacent residential lot, or
      b. Accessible through a door installed in such an outside wall which is open other than during normal hours of the business which otherwise is conducted in said building.

B. NONCONFORMING ATMs; AMORTIZATION PERIOD. Any Automated Teller Machine existing on the effective date of the ordinance first enacting this Section 28.87.280 and which is located as described in Subsection A hereof shall be either removed, or moved to a location that conforms to the provisions of Subsection A hereof within six years of the date of its original installation. During such six (6) year period, such ATM must also comply with the following conditions:
   1. Such ATM shall not be replaced, improved or upgraded during said period, and
   2. Such ATM and associated security lighting shall not be operated between the hours of 10:00 p.m. and 7:00 a.m. daily.
   3. An illuminated sign stating the hours of operation of the ATM shall be placed in a location visible to potential users of the ATM, subject to Chapter 22.70 (Sign Ordinance) of this Title. (Ord. 5072, 1998.)

28.87.290 Seasonal Holiday Sales.

Notwithstanding any provisions of this Title to the contrary, the annual retail sale of Christmas trees or Halloween pumpkins (holiday sales) is permitted in the C-P, C-2, C-M, M-1, and P-D zones subject to the following requirements:
   A. The person, firm, or organization conducting holiday sales shall first obtain a permit from the Community Development Department. The Community Development Department shall develop appropriate application requirements for holiday sales permits.
   B. No holiday sales permitted under this section shall be maintained or operated for more than six weeks.
   C. The space in which holiday sales are conducted shall not displace any parking spaces or loading areas required for other uses on the lot pursuant to this Code.
   D. The operator of the holiday sales shall comply with all other applicable provisions of the Santa Barbara Municipal Code, including, but not limited to, the Sign Ordinance, the Outdoor Lighting Ordinance, applicable Building and Fire Codes, and any applicable design review of buildings or structures.
   E. The lot on which the holiday sales are conducted shall be restored to the condition in which it existed prior to the conduct of the holiday sales within one week following the respective holiday. (Ord. 5459, 2008.)
28.87.300 Cannabis Cultivation.

A. Definitions.
For the purposes of this section, the following words and phrases shall be defined as set forth below:
1. “Cannabis” shall have the meaning set forth in California Business and Professions Code section 19300.5(f), the Medical Marijuana Regulation and Safety Act, as it was enrolled in 2015 in A.B. 266.
2. “Commercial” shall have the meaning set forth in section 28.04.180 of the Zoning Ordinance.
3. “Cultivation” shall have the meaning set forth in California Business and Professions Code section 19300.5(l) of the Medical Marijuana Regulation and Safety Act, as it was enrolled in 2015 in A.B. 266.
4. “Cultivation site” means a facility where medical cannabis is planted, grown, harvested, dried, cured, graded, or trimmed, or that does all or any combination of those activities.
5. “Parcel” shall have the meaning set forth in section 28.04.515 of the Zoning Ordinance.
6. “Personal Medical Use” shall mean non-commercial cannabis cultivation by a qualified patient for their personal use.
7. “Qualified Patient” shall have the meaning set forth in California Health and Safety Code section 11362.7, and shall not include primary caregivers.
8. “Residential unit” shall have the meaning set forth in section 28.04.590 of the Zoning Ordinance.

B. Cannabis Cultivation for Personal Medical Use. A qualified patient is permitted to engage in indoor or outdoor cannabis cultivation for personal medical use on a single contiguous cultivation site, existing in a horizontal plane not exceeding a footprint of one hundred (100) square feet in area, in any zone, provided that the parcel is occupied by the qualified patient living in a lawful residential unit, but in no event may more than one cultivation site be permitted at any single lawful residential unit.

C. Commercial Cannabis Cultivation Prohibited. Commercial cannabis cultivation for any purpose or use is prohibited in all zones.

D. All Other Cannabis Cultivation Prohibited. Except to the extent expressly permitted by this section, cannabis cultivation of any kind and for any purpose shall not be construed as a permitted agricultural or other use in any zone under the Zoning Ordinance.

E. Permissive Zoning. For the purposes of California Health and Safety Code section 11362.777(b)(3), the Zoning Ordinance shall be construed as establishing permissive zoning so that cannabis cultivation is permitted only where expressly allowed by this section.

F. Nuisance. Nothing in this section shall be construed to permit the establishment or maintenance of any use which constitutes a public nuisance. (Ord. 5733, 2016.)

28.87.360 Abandonment and Revocation of Staff Hearing Officer or Planning Commission Approvals.

A. ABANDONMENT OR NON-USE OF APPROVAL. The validity of a Staff Hearing Officer or Planning Commission action approving a modification, conditional use permit, variance, or Performance Standard Permit shall terminate if (i) a building permit for the use authorized by the approval is not issued within twenty-four (24) months of granting the approval, unless an extension is granted by the Community Development Director, and the construction authorized by the permit diligently pursued to completion and issuance of a Certificate of Occupancy, or (ii) the use authorized by the approval is discontinued, abandoned or unused for a period of six (6) months following the earlier of (a) issuance of a Certificate of Occupancy for the use, or (b) two (2) years from granting the approval.

B. SUSPENSION OF TIME DURING LITIGATION. The period of time specified in Subsection A shall not include the period of time during which a lawsuit involving the approval of the modification, conditional use permit, variance, or Performance Standard Permit or related approvals is or was pending in a court of competent jurisdiction. After service of the initial petition or complaint in the lawsuit upon the City, the applicant may advise the City of the need for a litigation tolling pursuant to the City's adopted procedures.

C. VIOLATION OF CONDITIONS OF APPROVAL. If the conditions of approval of any variance, modification, conditional use permit or performance standard permit have not been met within any time limits established in such conditions, or have been violated as determined by the Community Development Director, the Staff Hearing Officer or Planning Commission may revoke these permits or approvals. A decision to revoke shall be made following a hearing, using the same noticing requirements that were applicable to the original permit or application.

D. APPEALS. 1. A decision of the Staff Hearing Officer to revoke a permit or other approval under this Section may be suspended or appealed pursuant to Section 28.05.020.
2. A decision of the Planning Commission to revoke a permit or other approval under this Section may be appealed to the City Council pursuant to Chapter 1.30. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Planning Commission regarding a decision of the Staff Hearing Officer shall be provided in the same manner as notice was provided for the hearing before the Planning Commission. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council. (Ord. 5537, 2010; Ord. 5380, 2005; Ord. 4532, 1988.)
A. **TIMELINES TRACK LONGEST LAND USE APPROVAL.** If a project requires multiple discretionary applications pursuant to Titles 22, 27 or 28 of this Code, the expiration date of all discretionary approvals (i.e., such as Title 22 design review, Title 27 subdivision map approval, or Title 28 land use approvals) shall correspond with the longest expiration date specified by any of the land use discretionary applications (including any extensions that are granted for such approval and any applicable tolling or suspensions granted pursuant to this Chapter), unless such extension would conflict with state or federal law. The expiration date of all approvals shall be measured from date of the final action of the City on the longest discretionary land use approval related to the application, unless otherwise specified by state or federal law.

B. **EXCLUSIONS OF TIME.** The periods of time specified in this Section shall not include any period of time during which either: 1. a moratorium ordinance on the issuance of building permits, imposed by the City after the project received project design approval, is or was in effect; or 2. a lawsuit involving the project design approval or the land use approvals for the project is or was pending in a court of competent jurisdiction. The maximum length of any exclusion of time under this subsection shall be five (5) years. If the project requires the approval of a tentative subdivision or parcel map pursuant to Title 27 of this Code, the length of any exclusion of time pursuant to this subsection shall be equal to the length of the exclusion approved by the local agency upon a request of the subdivider pursuant to Government Code Section 66452.6(c) and subsection (F) of SBMC 27.07.110.

C. **APPROVALS RUN CONCURRENTLY.** When any City discretionary approval is extended by operation of this Section, such approval shall run concurrently with, not consecutively to, the term of the longest discretionary land use approval for the project. If a building permit for the project has not been issued prior to the expiration of the longest discretionary land use approval for the project (including any extensions granted for that approval), all discretionary approvals for the project shall expire and become null and void upon the expiration of the longest discretionary land use approval. A design review approval shall not operate to extend a land use approval.

D. **COMMENCEMENT OF TIMING FOR APPROVALS CONTINGENT UPON ACTION OF OTHER GOVERNMENTAL BODIES.** When a discretionary approval by the City made pursuant to Titles 27 or 28 is contingent upon an action by another governmental body (i.e., for example, the approval of an annexation by the Local Agency Formation Commission or certification of an amendment to the Local Coastal Plan by the California Coastal Commission), the timeline for all discretionary approvals related to the project shall not commence until all such outside agency contingencies are satisfied. The suspension of project timelines allowed in this subsection shall not exceed two (2) years from the date of the final City action on the discretionary approval that is contingent upon the action of another governmental body. This suspension shall not run consecutively to a moratorium or litigation exclusion unless the moratorium or litigation legally prevented the applicant from processing the application before the other governmental body. (Ord. 5537, 2010; Ord. 5380, 2005.)

28.87.380 **Notice of Hearing.**

When a provision of this Code requires notice of a public hearing to be given pursuant to this Section, said notice shall comply with the following provisions:

A. **REQUIRED MANNER OF NOTICE.** Notice shall be given in each of the following ways:
   1. Notice of the hearing shall be sent by first class mail at least 10 calendar days prior to the hearing to the owner of the subject real property or the owner's duly authorized agent, and to the project applicant; and
   2. Notice of the hearing shall be sent by first class mail at least 10 calendar days prior to the hearing to all owners of real property as shown on the latest equalized assessment roll within 300 feet of the real property that is the subject of the hearing.
   3. Notice of the hearing shall be published once in a newspaper of general circulation within the City at least 10 calendar days prior to the hearing; and
   4. Notice of the hearing shall be published once in a newspaper of general circulation within the City at least 10 calendar days prior to the hearing.

B. **ADDITIONAL NOTICING METHODS.** In addition to the required manners of notice specified in Subsection A above, the City may also require notice of the hearing in any other manner it deems necessary or desirable, including, but not limited to, posted notice on the project site. However, the failure of any person or entity to receive notice given pursuant to these additional noticing methods shall not constitute grounds for any court to invalidate the actions of the City for which the notice was given.

C. **CONTENT OF NOTICE.** The notice shall include all of the following information:
   1. The date, time, and place of the public hearing;
   2. The identity of the hearing body or officer;
   3. A general explanation of the matter to be considered; and
   4. A general description, in text or by diagram, of the location of the real property, if any, that is the subject of the hearing.
D. REQUEST FOR NOTICE. When a provision of this Code requires notice of a public hearing to be given pursuant to this Section, the notice shall also be mailed at least 10 days prior to the hearing to any person who has filed a written request for notice with either the City Clerk or with any other person designated to receive such requests. The City may charge a fee for providing this service as set by resolution of the City Council. Any request to receive such notice shall be renewed annually. The members of the Planning Commission shall receive notice of all public hearings scheduled before the Staff Hearing Officer.

E. CONTINUANCES. Any public hearing noticed pursuant to this Section may be continued to a time certain without further notice. (Ord. 5380, 2005.)

28.87.400 Density Bonus and Development Incentives.

A. INTENT. The intent of this section is to provide incentives for the development of housing affordable to very-low income, low income, senior and other qualifying households. State law mandates the provision of density bonuses to senior, very-low, and low income households under certain circumstances. The City of Santa Barbara has created a separate density bonus program for certain other households. Both the State mandated and City created density bonus programs use terms defined in this section.

B. DEFINITIONS. The following words and phrases have the meaning indicated unless the context or usage clearly requires a different meaning:

1. Density. The number of residential units allowed on a parcel based on the lot area requirements specified in the zone and General Plan.

2. Density Bonus. A density increase over the otherwise maximum allowable residential density under the applicable Zoning Ordinance and Land Use Element of the General Plan as of the date of application by the developer to the City.

C. PROJECTS WHICH MEET THE CRITERIA SET FORTH IN STATE DENSITY BONUS LAW.

1. Qualifying housing developments as defined in Government Code Section 65915. When a developer of housing agrees or proposes to construct at least:
   a. 20% of the total units of a housing development for low income households; or
   b. 10% of the total units of a housing development for very low income households; or
   c. 50 percent of the total dwelling units of a housing development for senior citizens;
      The applicant must submit the project for review by the Community Development Director or his/her designee to determine whether the project meets the criteria set forth in State density bonus law. If the Director determines that the project meets the criteria of State law, the project may be granted a density bonus and at least one other incentive as required by State law, and processed as required by State law unless otherwise requested by the applicant. The incentives and processing provisions required by State law are described in Government Code Section 65915.

   Procedure for review of projects submitted under State density bonus law. A project which meets all the requirements of State law shall be processed according to the usual discretionary review procedure, subject to the following exceptions:
      a. LOT AREA MODIFICATION. Notwithstanding any other section in this Code, when a proposed project complies with all of the requirements of State density bonus law, and the density bonus requested is no more than the density bonus mandated by State law, the Community Development Director or his/her designee shall deem the project’s density consistent with the Zoning Ordinance, and exempt from the requirement for a lot area modification as set forth in Section 28.92.110.

      b. NOTICE OF DESIGN REVIEW BOARD HEARING. When the Community Development Director determines that a proposed project meets all the requirements of State law and the requirements of the residential zoning category in which the project is proposed, and does not cause any unavoidable, significant, environmental impacts, and requires design review as its only City discretionary approval, the appropriate Design Review Board (Historic Landmarks Commission or Architectural Board of Review) will review the project. Notice of the meeting at which the project is considered by the Design Review Board will be provided in accordance with the requirements for noticing of public hearings in Municipal Code Section 28.92.060.

2. Procedure for approval of projects which are consistent with the City density bonus program. A project which does not meet all the requirements of State law, but does meet the standards of the City density bonus program will be processed according to the discretionary review procedures in effect and applicable to the project. (Ord. 5380, 2005; Ord. 4912, 1995.)
28.87.500 Denial of Affordable Housing Projects.

A. Affordable Housing Projects May Be Denied by the Planning Commission or City Council on Appeal. If at least 20% of a housing development’s units are sold or rented to low income households, and the balance of the units are sold or rented to either low- or moderate-income households, it shall not be disapproved or conditioned in a manner which renders the project infeasible for development for the use of low- and moderate-income households unless the decision making body finds, based upon substantial evidence, one of the following, pursuant to California Government Code Section 65589.5:

1. The project is not needed for the City to meet its share of the regional need of low and/or moderate income housing as outlined in the adopted Housing Element to the General Plan; or
2. The project as proposed would have a specific, adverse impact upon the public health and safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the project unaffordable to low and/or moderate income households; or
3. Denial of the project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the project unaffordable to low and/or moderate income households; or
4. Approval of the project would increase the concentration of low income households in a neighborhood that already has a disproportionately high number of low income households and there is no feasible method of approving the development at a different site, including sites identified in the adopted Housing Element, without rendering the development unaffordable to low and/or moderate income households; or
5. The project is proposed on land zoned for resource preservation which is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project; or
6. The project is inconsistent with the land use designation as outlined in the adopted General Plan or in any General Plan element as it existed on the date the application for the project was deemed complete.

B. Findings. When a proposed housing development project complies with the applicable General Plan, Zoning and development policies in effect at the time that the housing development project’s application is determined to be complete, but the local agency proposes to disapprove the project or to approve it upon the condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by substantial evidence in the record that both of the following conditions exist:

1. The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density, and
2. There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph 1, other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(Ord. 4912, 1995.)
### Purpose

A. To establish criteria for the conversion of existing multiple family rental housing to condominiums, community apartments, cooperative apartments, hotels or similar uses.

B. To reduce the impact of such conversions on residents in rental housing who may be required to relocate due to the conversion of apartments to condominiums, community apartments, and stock cooperatives, hotels or similar uses by providing procedures for notification and adequate time and assistance for such relocation.

C. To insure that the purchasers of converted housing have been properly informed as to the physical condition of the structure which is offered for purchase.

D. To attempt to balance the opportunity for housing ownership of all types, for all levels of income and in a variety of locations with the need to maintain a supply of rental housing which is adequate to meet the housing needs of the community.

E. To attempt to maintain a supply of rental housing for low and moderate income persons and families. (Ord. 4716, 1991; Ord.4606, 1989; Ord. 4199, 1983; Ord. 4014 §1, 1979; Ord. 4000 §2, 1979.)

### Date of Conversion

As used in this Chapter, the "date of conversion" for condominium conversions shall mean the date the final or parcel map for the project is filed with the County Recorder following its approval by the Staff Hearing Officer or Planning Commission or, if an appeal is filed, by the City Council. For hotels or similar uses, the "date of conversion" is the date of issuance of the conversion permit by the Chief Building Official after the Staff Hearing Officer or Planning Commission, or the City Council on appeal, approves the conversion. (Ord. 5380, 2005; Ord. 4606, 1989; Ord. 4199, 1983;Ord. 4048, 1980; Ord. 4000 §2, 1979.)

### Permit Required; Exceptions

A. **PERMIT REQUIRED.** No person, firm, corporation, partnership or other entity shall convert existing dwelling units to a condominium, hotel or similar use without first having said conversion approved by the Planning Commission or the City Council on appeal, and having been issued a conversion permit by the Chief Building Official. For conversions of dwelling units to condominium units, the body that shall serve as the Advisory Agency for the required subdivision, as specified in Section 27.03.010 of this Code, shall review the application for the conversion pursuant to this Chapter 28.88.
B. EXCEPTIONS TO REQUIREMENTS FOR CONVERSION PERMITS.

The following shall be exempt from the provisions of this Chapter:

1. A project creating a condominium, hotel or similar use and using no more than one (1) existing dwelling unit as part of said project shall not be considered a conversion. To qualify for this exception, the number of dwelling units on the project site shall not have been previously reduced by use of this exception clause. For the purposes of this exclusion, the number of existing dwelling unit(s) shall be determined on the date of application for the permit. If the project calls for destruction of the structure housing the dwelling unit(s), those units shall not be counted as existing unit(s).

2. A stock cooperative or community apartment which has received final approval from the California Department of Real Estate or has otherwise been legally created prior to the adoption date of the ordinance establishing this Chapter.

No exception under this Subsection shall affect the applicability of the Zoning Ordinance, the California Building Code as adopted and amended by the City, or other applicable ordinances or regulations. (Ord. 5451, Section 5, 2008; Ord. 5380, 2005; Ord. 4716, 1991; Ord.4606, 1989; Ord. 4199, 1983; Ord. 4000 §2, 1979.)

28.88.029 Issuance of Permits.

The Chief of Building and Zoning shall issue a conversion permit when he determines that:

A. The applicant has complied with all the applicable City or State regulations in effect at the time the conversion application was deemed to be complete, and
B. The applicant has complied with the conditions of approval.

Once issued, the conversion permit can be revoked only because of the failure of the applicant or his successors in interest to comply with the conditions of approval.

An approval shall expire if the tentative subdivision map expires. For hotels or similar uses, an approval shall expire in the same period of time as projects requiring a tentative map unless a conversion permit has been issued by the Chief of Building and Zoning. (Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4048, 1980; Ord. 4000 §2, 1979.)

28.88.030 Requirements and Procedures.

No existing building containing a dwelling unit shall be approved for conversion to a condominium or hotel unless it meets the standards set forth in the following requirements:

A. All residential buildings shall, on the date of conversion, be in compliance with the minimum standards of the Uniform Housing Code as adopted by the City of Santa Barbara and those of the State of California.
B. All buildings shall, on the date of conversion, be in compliance with the exit and occupancy requirements and the height and area requirements for the type of construction and occupancy involved as outlined in the California Building Code as adopted and amended by the City.
C. All buildings sought to be converted are, on the date of conversion, in all respects in compliance with the Zoning Ordinance and the goals and policies of the General Plan, or legally nonconforming therewith.
D. All condominium projects differentiated from hotels or similar uses, shall be subject to all applicable provisions of the Subdivision Map Act and Title 27 of this Code.
E. Once a building permit has been issued, a building may not be converted unless the certificate of occupancy for the building was issued more than five (5) years prior to the date the owner files with the City an application for the approval of a tentative condominium map or conversion to a hotel or similar use, unless the building satisfies the City's requirements for new condominium construction. (Ord. 5451, Section 5, 2008; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4000 §2, 1979.)

28.88.040 Physical Standards for Condominium Conversions.

To achieve the purpose of this article, the Staff Hearing Officer or Planning Commission, prior to the date of conversion, shall require that all condominium conversions conform to the Santa Barbara Municipal Code in effect at the time of approval except as otherwise provided in this Chapter. The Staff Hearing Officer or Planning Commission, prior to the date of conversion, shall require conformance with the standards of this section in approving an application for conversion.

A. **UNIT SIZE.** The enclosed living or habitable area of each unit shall be not less than 600 square feet.

B. **FIRE PREVENTION.**

1. **Smoke Detectors.** Each living unit shall be provided with approved detectors of products of combustion other than heat conforming to standards of the California Building Code as adopted and amended by the City, mounted on the ceiling or wall at a point centrally located in the corridor or area giving access to rooms used for sleeping purposes.

2. **Maintenance of Fire Protection Systems.** All on-site fire hydrants, fire alarm systems, portable fire extinguishers, and other fire protective appliances shall be retained in an operable condition at all times, maintained by the Homeowner's Association and delineated in the Covenants, Conditions and Restrictions.
C. **SOUND TRANSMISSION.**

Wall and floor-ceiling assemblies shall conform to Title 25, California Code of Regulations, Section 1092, or its successor, or permanent mechanical equipment, including domestic appliances, which is determined by the Chief Building Official to be a potential source of vibration or noise, shall be shock mounted, isolated from the floor and ceiling, or otherwise installed in a manner approved by the Chief Building Official to lessen the transmission of vibration and noise. Floor covering may only be replaced by another floor covering that provides the same or greater insulation. The requirements of this paragraph shall not apply to a unit in a building with no other unit(s).

D. **UTILITY METERING.**

1. The consumption of gas and electricity within each unit shall be separately metered so that the unit owner can be separately billed for each utility. Each unit shall have its own electrical panel, or access thereto, for all electrical circuits which serve the unit. A gas shut-off valve shall be provided for each unit and for each gas appliance.

2. Each dwelling unit shall be served by a separate City water meter. An additional separate City meter shall be provided to serve the landscaped areas in projects that include five or more dwelling units.

3. All plumbing fixtures shall conform to the standards for water saving devices as contained in the Uniform Plumbing Code as adopted and amended by the City of Santa Barbara in Chapter 22.04 of this Code.

4. An exception to any requirement of this subsection may be granted by the Staff Hearing Officer or Planning Commission if the following requirements are met:
   a. A licensed engineer has determined that compliance with the requirement cannot practically be accomplished and the applicant has included alternative measures to accomplish conservation equivalent to that which would be expected through compliance with the requirement;
   b. The Public Works Director has reviewed the proposed exception and the proposed alternative measures and has concurred that equivalent conservation is likely to be accomplished as a result thereof. Measures proposed as alternatives to the water conservation requirements of this subsection may include, but are not limited to, installation of privately owned sub-meters on each dwelling unit, conversion of existing landscaped areas to conform with current standards for water conserving landscaping, and installation of additional separate City meters to serve groups of dwelling units.

E. **PRIVATE STORAGE SPACE.** Each unit shall have at least 200 cubic feet of enclosed weatherproofed and lockable private storage space, in addition to guest, linen, pantry, and clothes closets customarily provided. Such space shall be for the sole use of the unit owner. Such space shall be accessible from the garage or parking area for the units it serves.

F. **LAUNDRY FACILITIES.** A laundry area shall be provided in each unit; or if common laundry areas are provided, such facilities shall consist of not less than one automatic washer and dryer for each five units or fraction thereof.

G. **CONDITION OF EQUIPMENT AND APPLIANCES.** The applicant shall provide written certification to the buyer of each unit on the initial sale after conversion that any dishwashers, garbage disposals, stoves, refrigerators, hot water tanks, and air-conditioners that are provided are in working condition as of the close of escrow. At such time as the Homeowner's Association takes over management of the development, the applicant shall provide written certification to the Association that any pool and pool equipment and any appliances and mechanical equipment to be owned in common by the Association is in working condition.

H. **PUBLIC EASEMENTS.** The applicant shall make provisions for the dedication of land or easements for street widening, public access or other public purpose in connection with the project where necessary and in accordance with established planned improvements.

I. **REFURBISHING AND RESTORATION.** All main buildings, structures, fences, patio enclosures, carports, accessory buildings, sidewalks, driveways, landscaped areas, irrigation systems, and additional elements as required by the Staff Hearing Officer or Planning Commission shall be refurbished and restored as necessary to achieve high quality appearance and safety.

J. **PARKING STANDARDS.** The off-street parking requirements for a conversion project shall be one and one-half (1½) parking spaces per unit for one bedroom or efficiency units and two (2) parking spaces per unit for units containing two or more bedrooms.

K. **PHYSICAL ELEMENTS.** Any physical element identified in the Physical Elements Report as having a useful life of less than two (2) years shall be replaced.

L. **OUTDOOR LIVING SPACE.** Outdoor living space for a conversion project shall be provided as required in MC §28.21.081.

M. **HANDICAPPED ACCESSIBILITY AND ADAPTABILITY.** All conversions involving five or more units shall meet the accessibility and adaptability requirements of the State Housing and Community Development Commission.

N. **EXCEPTIONS.** The Staff Hearing Officer or Planning Commission may grant an exception to the physical standards set forth in Subsections A, E, F, J, L, and M of this Section if it makes any of the following findings:

1. The economic impact of meeting the standard is not justified by the benefits of doing so.
2. The project includes design features or amenities which offset the project's failure to meet the standard.
3. The project includes provisions for low-, or moderate-income sales restrictions on the converted units beyond what is otherwise required in this Chapter that offset the project's failure to meet the standard.
4. The project's proximity to public open space could partially offset the project's lack of on-site open space. (Ord. 5380, 2005; Ord. 4716, 1991; Ord. 4606, 1989; Ord. 4000 §2, 1979.)
Conversions of existing dwelling units to hotels or similar uses in the R-4 Zone and zones in which R-4 uses are allowed shall be subject to all applicable Sections of this Chapter and of Chapter 28.21 of this Code. In addition, the following standards shall apply:

A. **LIGHTING.** All outdoor lighting shall be hooded or shielded so that no direct beams fall on adjacent property. When outdoor lighting is provided, indirect soft lighting and low garden lighting shall be used whenever possible, and shall be required as necessary to assure compatibility with adjacent and surrounding properties.

B. **PARKING.** Off-street parking shall be provided as required in Chapter 28.90 or Subsection 28.88.045.C.5 of this Chapter if applicable, subject to Subsection 28.88.120.1.4 of this Chapter.

C. **TIME SHARE PROJECTS.** If a proposed time share project retains kitchens in the individual units, they shall be subject to all physical standards under Section 28.88.040 of this Code. The conversion of a dwelling unit to a time share project, wherein the converted unit consists of a suite of no more than two (2) rooms and provides no individual kitchens or cooking facilities is exempt from the following Subsections of Section 28.88.040:

1. 28.88.040A. Unit Size;
2. 28.88.040D.1. Utility metering, if a water shut-off valve is provided for each unit or for each plumbing fixture in that unit;
3. 28.88.040E. Private Storage Space;
4. 28.88.040F. Laundry Facilities; and
5. 28.88.040J. Parking Standards, provided that there shall be provided one-and-one quarter (1¼) spaces for each unit. This requirement may be modified if the applicant can demonstrate that additional parking is not needed.

D. **USE OF AMENITIES - TIME SHARE PROJECTS.**
   A provision shall be included in the "Declaration of Time Share Plan" or similar instrument restricting the use of the project or its amenities by individual owners/users of a unit to the period of the time share interval(s) or right-to-use. (Ord. 4716, 1991; Ord. 4606, 1989; Ord. 4199, 1983)

28.88.050 Application Requirements for Condominium and Time Share Conversions.

In addition to such other application requirements as the Staff Hearing Officer or Planning Commission may deem necessary and those requirements as set forth in Section 28.88.030 above, no application for a conversion to condominiums or time share projects shall be accepted for any purpose unless the application includes the following:

A. A development plan of the project including:
   1. The location, height, gross floor area, and proposed uses for each existing structure to remain and for each proposed new structure;
   2. The location, use, and type of surfacing for all open storage areas;
   3. The location and type of surfacing for all driveways, pedestrian ways, vehicle parking areas, and curb cuts;
   4. The location, height, and type of materials for walls or fences;
   5. The location of all landscaped areas, the type of landscaping, and a statement specifying the method by which the landscaped areas shall be maintained;
   6. The location and description of all recreational facilities and a statement specifying the method of the maintenance thereof;
   7. The location and size of the parking facilities to be used in conjunction with each unit;
   8. The location, type and size of all drainage pipes and structures depicted or described to the nearest public drain or watercourse;
   9. The location and type of the nearest fire hydrants;
   10. The location, type and size of all on-site and adjacent street overhead utility lines;
   11. A lighting plan of the project;
   12. Existing and proposed exterior elevations;
   13. The location of any provisions for any unique natural or vegetative features.

B. A physical elements report which shall include but not be limited to:
   1. A report detailing the condition and estimating the remaining useful life of each element of the project proposed for conversion: roofs, foundations, exterior paint, paved surfaces, mechanical systems, electrical systems, plumbing systems, including sewage systems, swimming pools, sprinkler systems for landscaping, utility delivery systems, central or community heating and air-conditioning systems, fire protection systems including automatic sprinkler systems, alarm systems, or standpipe systems, and structural elements. Such report shall be prepared by an appropriately licensed contractor or architect or by a registered civil or structural engineer other than the owner. For any element whose useful life is less than five (5) years, a replacement cost estimate shall be provided.
   2. A structural pest control report. Such report shall be prepared by a licensed structural pest control operator pursuant to Section 8516 of the Business and Professions Code.
   3. A building history report including the following:
      a. The date of construction of all elements of the project;
      b. A statement of the major uses of said project since construction;
c. The date and description of each major repair or renovation of any structure or structural element since the date of construction. For the purposes of this subsection a "major repair" shall mean any repair for which an expenditure of more that $1,000 was made;

d. Statement regarding current ownership of all improvements and underlying land;

e. Failure to provide information required by subsections a. through d., inclusive, shall be accompanied by an affidavit, given under penalty of perjury, setting forth reasonable efforts undertaken to discover such information and reasons why such information cannot be obtained. (Ord. 5380, 2005; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4000 §2, 1979.)

28.88.055 Application Requirements for Conversions to Hotels or Similar Uses.

In addition to such other application requirements as the Planning Commission may deem necessary and those requirements as set forth in Section 28.88.030 of this Code, no application for conversion of a building containing a dwelling unit to a hotel or similar use shall be accepted for any purpose unless the application includes a development plan of the project containing:

A. The location, height, gross floor area, and proposed uses for each existing structure to remain and for each proposed new structure;

B. The location and type of surfacing for all driveways, pedestrian ways, vehicle parking areas, and curb cuts;

C. The location, use, and type of surfacing for all open storage areas;

D. The location, height, and type of materials for walls or fences;

E. The location of all landscaped areas, the type of landscaping, and any proposed changes thereto;

F. The location and description of all recreational and other hotel-related facilities, and any proposed changes thereto;

G. The location and size of the parking facilities to be used in conjunction with each guest room and other related uses on-site;

H. A drainage plan for the site;

I. A lighting plan of the project;

J. Existing and proposed exterior elevations; and

K. The location of and provisions for any unique natural or vegetative site features. (Ord. 4606, 1989; Ord. 4199, 1983.)

28.88.060 Additional Submittals for Conversions to Condominiums or Hotel Units.

A. A statement of any unique provisions of the proposed Covenants, Conditions and Restrictions which would be applied on behalf of any and all owners of condominium units within the project. With regard to stock cooperatives, this submission shall consist of a summary of proposed management, occupancy and maintenance policies on forms approved by the City Attorney.

B. Specific information concerning the characteristics of any conversion project, including but not limited to the following:

1. Square footage and number of rooms in each existing and proposed unit or guest room;

2. Rental rate history for each type of unit for previous five (5) years;

3. Monthly vacancy rate for each month during preceding two (2) years;

4. Makeup of existing tenant households, including family size, length of residence, age of tenants, and whether receiving federal or state rent subsidies;

5. Names and addresses of all tenants; and

6. Applications for conversion to time share projects shall include the length of every time share interval and maintenance period.

When the developer can demonstrate that such information is not available, this requirement may be modified by the Community Development Department.

C. The developer shall submit evidence that notification of intent to convert was sent to each tenant in accordance with Section 28.88.100.

D. Any other information which, in the opinion of the Community Development Department, will assist in determining whether the proposed project will be consistent with the purposes of this article. (Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4000 §2, 1979.)

28.88.070 Acceptance of Reports.

The final form of the Physical Elements Report and other documents shall be as approved by the Chief Building Official. The reports in their acceptable form shall remain on file with the Community Development Department for review by any interested persons. The report shall be referenced in the subdivision report to the Staff Hearing Officer or Planning Commission. (Ord. 5380, 2005; Ord. 4606, 1989; Ord. 4000 §2, 1979.)
28.88.080 Copy to Buyers.

The seller shall provide each purchaser of a condominium or time share unit with a copy of all reports (in their final, acceptable form), along with the Department of Real Estate Final Subdivision Public Report, when required, except the information required by Subsections B. and C. of Section 28.88.060, prior to the purchaser completing an escrow agreement or other contract to purchase a unit in the project, and the developer shall give the purchaser sufficient time to review the reports. Copies of the reports shall be made available at all times at the sales office and shall be posted at various locations, as approved by the City, at the project site. (Ord. 4716, 1991; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4000, 1979.)

28.88.090 Hearing.

A. TENANT NOTICE. Prior to action on the application, the Staff Hearing Officer or Planning Commission shall hold a hearing. Notice of the hearing shall be mailed at least ten (10) days prior to the hearing date to tenants of the proposed conversion and posted on the property. The public hearing notice shall include, in addition to the notice of the time and place of the public hearing, notification of the tenant's rights to appear and be heard.

B. STAFF REPORT. Any report or recommendation from the staff on a proposed tentative map for a residential condominium conversion submitted to the Staff Hearing Officer or Planning Commission or City Council on appeal shall be in writing and a copy shall be sent to the subdivider at least six (6) calendar days prior to any hearing or action on the map by the Staff Hearing Officer or Planning Commission and City Council. The subdivider shall be responsible for providing a copy of any such report to each tenant of the subject property at least three (3) days prior to any hearing or action on such map by the Staff Hearing Officer, Planning Commission or City Council. (Ord. 5380, 2005; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4000, 1979.)

A. NOTICE OF INTENT. A notice of intent to convert shall be provided to each tenant a minimum of sixty (60) days prior to the filing of the application for Tentative Map approval. Notice shall be provided either by (i) personal delivery, or (ii) mailing the notice, postage prepaid, by certified letter with return receipt requested. Evidence of compliance with this Section shall be submitted with the application for conversion. The form of the notice shall be as approved by the Community Development Department and shall contain at a minimum the following:

1. Name and address of current owner;
2. Name and address of the proposed subdivider;
3. Approximate date on which the tentative map/conversion permit application is proposed to be filed;
4. Tenant's right to purchase condominium, if applicable;
5. Tenant's right of notification to vacate;
6. Tenant's right of termination of lease;
7. Statement of limitations on rent increase;
8. An explanation of all provisions made by the subdivider for special cases;
9. An explanation of all provisions made by the subdivider for moving expenses of displaced tenants;
10. Tenant's right to receipt of notice for each hearing and right to appear and be heard at any such hearing;

and

11. Other information as may be deemed necessary by the Community Development Department.

B. TENANT'S RIGHT TO PURCHASE.

1. As provided in Government Code Section 66427.1 (d) any present tenant or tenants of any unit shall be given an exclusive right to contract for the purchase of the unit occupied or equivalent unit at a price no greater than the price offered to the general public or terms more favorable to the tenant, whichever is less. The exclusive right to contract shall extend for at least ninety (90) days from the date of issuance of the Subdivision Public Report or commencement of sales, whichever date is later, unless the tenant gives prior written notice of his or her intention not to exercise the right.

2. In addition, the present tenant or tenants shall have the right of first refusal to purchase the unit occupied or equivalent unit at the same price as that offered by a buyer and accepted by the applicant, whenever such accepted price is lower than the price required to be offered to the tenant under Paragraph B.1 of this Subsection. The tenant must exercise the tenant's right of first refusal within forty-five (45) days of receipt of notice from the applicant.

3. If the tenant exercises his right to purchase under this Subsection, then the applicant is not required to provide moving expenses as outlined in Subsection G of this Section, except to the extent required by State law.
4. The manner in which any exclusive right to contract or right of first refusal shall be exercised shall be in accordance with regulations established by resolution of the City Council. This Subsection does not apply to conversions to hotels or similar uses.
C. VACATION OF UNITS. Each non-purchasing tenant, not in default under the obligations of the rental agreement or lease under which the unit is occupied, shall have not less than one hundred eighty (180) days from the date of approval of the conversion by the Staff Hearing Officer or Planning Commission or, if an appeal is filed, by the City Council, to find substitute housing and to relocate. Applicant shall give written notice of the approval containing an explanation of any and all conditions of approval which affect the tenants to each tenant within fifteen (15) days of the approval. Such notice shall be prepared in accordance with procedures established by resolution of the City Council setting forth the manner and contents of such notice.

D. TENANT’S RIGHT OF TERMINATION OF LEASE. Any present tenant or tenants of any unit shall be given the right to terminate their lease or rental agreement without penalty, following the receipt of the notification from the owner of the intent to convert.

E. SPECIAL CASES. For purposes of this Section, a "special case" tenant is one who is over age 62, handicapped, low income, a single parent with custody of minor children, or otherwise likely to experience difficulty finding suitable replacement housing. The subdivider shall afford special consideration to each "special case" tenant which special consideration, at a minimum, shall include the following:
   1. Each "special case" tenant shall be allowed an additional period of time, not exceeding six (6) months beyond the period specified in Subsection C of this Section, in which to relocate.
   2. A tenant with school age children shall not be required to vacate the unit prior to the end of the school year in which the one hundred eighty (180) day period specified in Subsection C begins to run.

F. INCREASE IN RENTS. From the date of approval of the application to convert until the date of conversion, no tenant's rent shall be increased more frequently than once annually nor at a rate greater than the rate of increase in the Consumer Price Index (all items, Los Angeles - Long Beach), on an annualized basis, for the same period. This limitation shall not apply if rent increases are provided for in leases or contracts in existence prior to the filing date of the application to convert.

G. MOVING EXPENSES. The subdivider shall provide moving expenses of one and one-half (1½) times the monthly rent or $2000, whichever is greater, to any tenant who relocates from the building to be converted after approval of the condominium conversion by the City, except when the tenant has given notice of intent to move prior to receipt of notification from the subdivider of the intent to convert.

H. NOTICE TO NEW TENANTS. After the issuance of the Notification of Intent to Convert, any prospective tenants shall be notified in writing of the intent to convert prior to leasing or renting any unit and shall not be subject to the provisions of subsections B.2, F and G. The form of the notice shall be as approved by the Community Development Department, subject to Government Code Section 66452.8(b) and 66452.8(c). Failure by a subdivider to give such notice shall not be grounds to deny the proposed conversion. Further, the subdivider shall pay to each prospective tenant who becomes a tenant and who was entitled to such notice, and who did not receive such notice, an amount equal to the sum of: (1) actual moving expenses incurred when moving from the subject property, but not to exceed $1000, and (2) the first month's rent on the tenant's new rental unit, if any, immediately after moving from the subject property, but not to exceed $1000.

I. NOTICE OF FINAL MAP. Each of the tenants of the proposed condominium conversion shall be given written notification within ten (10) days of approval of a final map for the proposed conversion and proof of such notification shall be submitted to the Public Works Department.

J. NOTICE OF DEPARTMENT OF REAL ESTATE REPORT. Each of the tenants of the proposed condominium conversion shall be given written notification that an application for a public report will be, or has been submitted to the Department of Real Estate, and that such report will be available upon request. (Ord. 5380, 2005; Ord. 4716, 1991; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4086, 1980; Ord. 4000 §2, 1979.)

28.88.110 Effect of Proposed Conversion on the City's Low- and Moderate-Income Housing Supply.

A. If any of the units in the project have been "affordable rental units" for at least twenty-four of the previous forty-eight months preceding the conversion application, the application for condominium conversion may be approved only if a condition is imposed requiring that the same number and type of units in the project after conversion will be subject to a recorded affordability covenant placing maximum sales price limits on each such unit in accordance with the City's affordability criteria. For purposes of this Chapter, "affordable rental unit" shall be defined by resolution of the City Council. All units subject to this affordability restriction shall be owner-occupied, except as otherwise set forth by Council resolution. Any such units that are retained by the original owner and not sold shall be subject to affordable rental restrictions as defined by resolution of the City Council.

B. If the Staff Hearing Officer or Planning Commission determines that vacancies in the project have been increased for the purpose of preparing the project for conversion, the conversion shall be disapproved. In evaluation of the current vacancy level under this subsection, the increase in rental rates for each unit over the preceding five (5) years and the average monthly vacancy rate for the project over the preceding two (2) years shall be considered.

28.88.120 Findings.

The Staff Hearing Officer or Planning Commission shall not approve an application for condominium conversion unless the Staff Hearing Officer or Planning Commission finds that:

A. All provisions of this Chapter are met and the project will not be detrimental to the health, safety, and general welfare of the community.
B. The proposed conversion is consistent with the General Plan of the City of Santa Barbara or legally nonconforming with the density requirement of its Land Use Element.

C. The proposed conversion will conform to the Santa Barbara Municipal Code in effect at the time the application was deemed to be complete, except as otherwise provided in this Chapter.

D. The overall design (including project amenities) and physical condition of the conversion will result in a project which is aesthetically attractive, safe and of quality construction.

E. If required by Subsection 28.88.110 A above, the proposed conversion has mitigated impacts to the City's low and moderate income housing supply through an agreement to record affordability control covenants on the specified number of units.

F. The applicant has not engaged in coercive retaliatory action regarding the tenants after the submittal of the first application for City review through the date of approval. In making this finding, consideration shall be given to:
   1. Rent increases at a rate greater than the rate of increase in the Consumer Price Index (all items, Los Angeles - Long Beach) unless provided for in leases or contracts in existence prior to the submittal of the first application for City review, or
   2. Any other action by applicant which is taken against tenants to coerce them to refrain from opposing the project. An agreement with tenants which provides for benefits to the tenants after the approval shall not be considered a coercive or retaliatory action.

G. The applicant has made a reasonable effort to assist those tenants wishing to purchase their units for purposes of minimizing the direct effect on the rental housing market created by relocating such tenants.

H. The requirements of Section 28.88.130 have been met.

I. The following additional findings shall be made by the Staff Hearing Officer or Planning Commission in order to approve conversions to hotels or similar uses:
   1. The use will not be materially detrimental to the public peace, health, safety, comfort and general welfare and will not materially decrease property values in the neighborhood involved;
   2. The total area of the site and the setbacks and location of all facilities in relation to property and street lines are adequate in view of the characteristics of the site.
   3. The conversion will not have a significant adverse impact on the surrounding properties.
   4. Adequate access and off-street parking, including parking for guests and employees, are provided so that there is no adverse impact on the character of the public streets in the neighborhood. (Ord. 5380, 2005; Ord. 4716, 1991; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4014, 1979; Ord. 4000, 1979.)

28.88.130 Maximum Number of Conversions.

A. MAXIMUM NUMBER OF CONVERSIONS.
   1. Annual Quota. The maximum number of conversions to condominiums to be approved during any calendar year shall not exceed the greater of:
      a. fifty (50) units; or
      b. the number of unassisted new dwelling units in two family and multiple family rental projects issued certificates of occupancy during the previous calendar year minus the number of dwelling units in two family and multiple family rental units to be demolished pursuant to permits issued in that same year.
   2. In the event that the annual conversion quota determined pursuant to paragraph 1 of this Subsection A exceeds the aggregate number of units approved for conversion to condominiums during any year any excess shall be available in the following twelve (12) month period for conversions to hotels or similar uses only, after which time any remaining excess shall not be included in the annual conversion quota permitted for any following year.
   3. A condominium project consisting of more dwelling units than the maximum number which can be approved in the applicable calendar year, may be approved for a phased conversion. The approval of a phased conversion shall specify the number of units which may be converted in each year (which number may not exceed the annual conversion quota for that year), and shall specify that the units approved for conversion in a given year shall have priority for conversion over units in other projects approved for conversion in that year.

B. PROCESSING OF APPLICATIONS. Applications shall be processed in accordance with procedures established by resolution of the City Council setting forth the manner and method of prioritizing applications for conversions.

C. EXCEPTIONS.
   1. This section shall not be applicable to:
      a. A project consisting of four (4) or less units.
      b. A project as to which the tenants of more than fifty percent (50%) of the rental units have made a commitment to purchase their units.
      c. A project involving conversions for a non or limited equity cooperative or condominium for low-to-moderate income residents.
      d. A project involving the conversion of dwelling units which, at the time the application for condominium conversion was filed, were legally rented as hotel units.
      e. A project involving conversions in which not less than 75% of the dwelling units are subject to the City's standard affordability controls. (Ord. 4716, 1991; Ord. 4606, 1989; Ord. 4199, 1983; Ord. 4014 §1, 1979; Ord. 4000 §2, 1979.)
Chapter 28.89

TENANT DISPLACEMENT ASSISTANCE ORDINANCE

28.89.010 Definitions.

Except where the context or particular provisions require otherwise, the following definitions shall govern the construction of this Chapter.

A. **Application.** Any application required to be submitted to the City of Santa Barbara for discretionary or ministerial approval of a land use change or improvement of real property that will result in a displacement of a resident household.

B. **Displacement.** The vacating of a rental unit by a resident household upon notice from the property owner as the result of or to enable any of the following: 1. the demolition of any rental unit on the lot, 2. the alteration of any structure on the lot in a manner that requires a permit from the City and which reduces the number of rental units on the lot, 3. the conversion of a single residential unit to a condominium unit, or 4. a change of use of real property from a residential use to a non-residential use that requires a permit from the City. For purposes of this Chapter, a displacement does not include a vacation of a rental unit as the result of the following: 1. a condominium conversion regulated and processed pursuant to Chapter 28.88 of this Code, 2. a conversion of any portion of a mobilehome park or a permanent recreational vehicle park regulated and processed pursuant to Chapter 28.78 of this Code, 3. a property owner’s compliance with an enforcement order of the City Building Official for which the property owner has been ordered to pay relocation expenses pursuant to Health and Safety Code section 17980.7 or any other state or federal law, or 4. a vacation of a rental unit resulting from the damage or destruction of the unit which is caused by a natural disaster.

C. **Eligible Resident Household.** A resident household occupying a rental unit at the time an application is filed with the City. There shall be a rebuttable presumption that any resident household which received a notice to quit pursuant to Section 1946 of the Civil Code within the six (6) month period preceding the filing of an application is an eligible resident household for purposes of receiving displacement assistance pursuant to this Chapter. The presumption specified in the preceding sentence shall not apply where the property owner provides evidence of either of the following: 1. the resident household’s occupancy ended due to the expiration of a term lease and the tenancy was not extended by the operation of Section 1945 of the Civil Code, or 2. the resident household was found to have committed an unlawful detainer pursuant to Subdivisions 2, 3, 4 or 5 of Section 1161 of the Code of Civil Procedure as evidenced by a final judgment of a court of competent jurisdiction.

D. **Immediate Family.** Immediate family includes a spouse, registered domestic partner, children, parents, and the spouses or registered domestic partners of children of a property owner.

E. **Median Advertised Rental Rate.** An estimate of rental rates for residential rental units within the City prepared annually by the staff of the Community Development Department. For the purposes of this Chapter, the median advertised rental rate shall be calculated annually based on the median of a representative sample of rental units advertised in a newspaper of general circulation for one Sunday during the month of April. The median advertised rental rate shall be published by the City each May 1 and shall remain in effect for the next twelve (12) months or until a new median advertised rental rate is provided by the City. The median advertised rental rate shall be calculated and published for the following categories of rental units: 1. studio units (no bedrooms), 2. one bedroom units, 3. two bedroom units, and 4. units with three or more bedrooms. As used in this Chapter, the applicable median advertised rental rate shall be determined based on the number of bedrooms in the rental unit to be vacated by the residential household. The methodology for calculating the median advertised rental rate shall be approved by the Community Development Director and described in detail in the City’s Affordable Housing Policies and Procedures.

F. **Rental Unit.** A structure (or part thereof) used as a place of permanent or customary and usual abode of a resident household. A rental unit shall not include a room or any other portion of any residential unit which is occupied by the property owner or a member of the property owner’s immediate family.

G. **Resident Household.** Any person or group of persons entitled to occupy a rental unit under a valid lease or rental agreement (written or oral) including all persons who are considered residents under the Civil Code, but not including the owner of the rental unit or members of the owner’s immediate family.

H. **Special Needs Resident Household.** An eligible resident household with any of the following characteristics: 1. at least one member who is 62 years of age or older, 2. at least one member qualifies as a disabled person pursuant to section 295.5 of the Vehicle Code, or 3. the household qualifies as a low income household pursuant to the City’s Affordable Housing Policies and Procedures. (Ord. 5401, 2006.)
28.89.020 Submittal Requirements.

A. **Notice of Intent.** At least sixty (60) days prior to filing an application, either the property owner or the owner’s agent shall notify each resident household residing on the subject real property of the owner’s intent to file an application. The notice shall be provided by either: 1. personal delivery, or 2. certified mail, postage prepaid, with return receipt requested. Evidence of compliance with this section must be submitted to the City in order for the application to be deemed complete. The form of the notice shall be approved by the Community Development Department and shall contain at least the following information:

1. The name and address of current owner;
2. The name and address of the proposed applicant;
3. The approximate date on which the application is to be filed;
4. The resident’s right to purchase a resulting residential unit, if applicable;
5. The resident’s right of notice before being required to vacate the rental unit;
6. The resident’s right to terminate lease without obligation for future rent;
7. A statement regarding the applicable limitations on rent increases;
8. An explanation of displacement assistance available for eligible resident households and special needs resident households under this Chapter (i.e., monetary assistance, relocation counseling, contact information for the Rental Housing Mediation Task Force, qualifications for Special Needs Resident Households, etc.);
9. The resident household’s right to receive written notice for each hearing and right to appear and be heard at land use hearings, if applicable; and
10. Other information as may be deemed necessary or desirable by the Community Development Department.

B. **Resident Information.** Concurrent with the filing of the application, either the property owner or the owner’s agent shall provide the Community Development Department with all of the following information for each rental unit that will be subject to a displacement as a result of the application:

1. The name of every member of the resident household who is a signatory on a written lease or the name of every person the property owner considers to be a resident under an oral lease; and
2. The names of all members of resident households that were issued a notice to vacate within the six (6) months preceding the filing of the application. (Ord. 5401, 2006.)

28.89.030 Displacement Assistance.

A. **Monetary Assistance.** As a condition of the City approval of any application that will result in a displacement, the property owner is obligated to pay to each eligible resident household monetary displacement assistance in an amount equal to four (4) times the median advertised rental rate or $5,000, whichever is greater. The displacement assistance to be paid to an eligible special needs resident household shall be equal to five (5) times the median advertised rental rate or $6,000, whichever is greater.

The displacement assistance shall be calculated on a “per rental unit” basis and shall be paid jointly, in one lump sum, to all members of the eligible resident household occupying the rental unit.

B. **Waiver of Assistance.** The payment of the monetary displacement assistance required pursuant to subsection A above, or the right of first refusal provided for in Section 28.89.050, may be waived or otherwise altered by mutual written agreement of the property owner and all members of the eligible resident household; provided, the waiver is executed after the members of the resident household have received notice of the application and notice of the provisions of this Chapter pursuant to Section 28.89.020. (Ord. 5401, 2006.)

28.89.040 Certification of Displacement Assistance.

Prior to any displacement or the issuance of any permit pursuant to the application, whichever occurs first, the property owner shall provide the Community Development Director with either: 1. a copy of a cancelled check evidencing payment of the displacement assistance required by this Chapter to the members of the eligible resident household or 2. a copy of a written waiver or modification of the displacement assistance obligation executed by the property owner and all of the members of the eligible resident household. In order to satisfy the requirements of this Section 28.89.040, the written waiver must be executed after the members of the resident household have received notice of the application and the provisions of this Chapter pursuant to Section 28.89.020. (Ord. 5401, 2006.)
28.89.050 Protections for Resident Households.

A. **Right to Purchase (Right of First Refusal).** The members of any eligible resident household or eligible special needs resident household shall be given an exclusive right to contract for the purchase of a residential unit within any resulting development upon the same terms and conditions that the residential unit will be initially offered to the general public or on terms more favorable to the members of the eligible resident household or eligible special needs resident household. The exclusive right to contract shall be valid for at least ninety (90) days from the date of issuance of a Subdivision Public Report or the commencement of sales, whichever date is later. The manner in which any exclusive right to contract shall be exercised shall be in accordance with administrative rules established by the Community Development Department in the City’s affordable housing policies and procedures. This Subsection shall not apply to applications for conversions of rental units to hotels or similar commercial uses.

B. **Right to Terminate Lease.** After receipt of the notice required pursuant to subsection 28.89.020.A and until the applicant’s withdrawal of the application or the displacement of the resident household, the resident household shall have the right to terminate the lease or rental agreement without obligation for any rent that would accrue under the lease or rental agreement after the vacation of the residential unit by the resident household. An eligible resident household’s election to terminate the lease and relinquish possession of the rental unit following receipt of the notice required pursuant to subsection 28.89.020.A shall not constitute a waiver of the eligible resident household’s right to assistance pursuant to subsection 28.89.030.A.

C. **Notice to New Residents.** Any prospective resident household that applies for residency after an application has been filed shall be notified in writing of the pending application and the potential for displacement prior to occupying any rental unit. The form of this notice shall be approved by the Community Development Department. The failure of the property owner or applicant to give notice in accordance with this subsection shall not be a ground to deny the proposed land use action; however, the property owner shall pay monetary displacement assistance in the manner specified in Section 28.89.030 to each resident household that was entitled to notice pursuant to this subsection and who did not receive such notice. (Ord. 5401, 2006.)

Chapter 28.90

**AUTOMOBILE PARKING REQUIREMENTS**

Sections:

| 28.90.001 | In General. |
| 28.90.045 | Parking Design Standards. |
| 28.90.050 | Landscaping and Lighting. |
| 28.90.060 | Availability of Parking Spaces and Maneuvering Areas. |
| 28.90.070 | Handicapped Facilities. |
| 28.90.100 | Parking Requirements. |

28.90.001 In General.

A. **MINIMUM REQUIREMENTS.** This chapter provides the minimum requirements and standards for the provision of off-street parking for all buildings, structures and uses in the City of Santa Barbara.

B. **EXISTING PARKING SPACE.** Where automobile parking space provided and maintained on a lot in connection with a main building or structure at the time this title becomes effective is insufficient to meet the requirements for the use with which it is associated, or where no such parking has been provided, said building or structure may be altered or enlarged, provided additional automobile parking spaces are provided to meet the standards for use in conformity with the requirements set forth in this chapter for the enlargement, extension or addition proposed. However, if an enlargement is more than fifty percent (50%) of the existing net floor area (excluding the garage), then parking shall be brought up to the current standards for the entire lot.

C. **COLLECTIVE USE OF SPACE.** Nothing in this Title shall prohibit the collective use of space for off street parking. The collective space shall remain available to all occupants and users of structures for which said permit is issued.

D. **PROGRAM FOR ALTERNATIVE TRANSPORTATION MODES.** A method for reducing the number of parking spaces required by this chapter for any land use is by granting a modification in accordance with Municipal Code Section 28.92.110 if the property owner files and obtains approval of a program of alternative transportation modes or other approved measures for employees working on the parcel and pays the City for any periodic verification procedures and expenses associated therewith.
E. No building permit for any structure referred to in the preceding subsections (C) and (D) shall be issued without the written approval of the Community Development Director as to compliance with the provisions of this chapter. In connection with the issuance of any modification, building permit, variance or conditional use permit, the City of Santa Barbara shall have continuing jurisdiction over any such permit for the purpose of requiring, upon thirty (30) days written notice given, off-street parking of like kind and quantity, whenever it appears to the Community Development Director that any collective parking rights or privileges of any permittee under any modification, variance, conditional use permit or building permit previously granted have expired or are about to do so. Any failure of any such permittee to provide such substitute off-street parking, effective as of the date of such expiration, together with the filing of documentary evidence of the right to the same with the Building and Safety Division, as herein provided, shall be deemed to be grounds for the revocation of any such permit, or in the alternative, the City of Santa Barbara may enforce such parking requirements by any legal remedy available to it.

F. LOADING SPACE. On the same premises with every building, structure or part thereof erected or occupied for any use, truck loading space shall be required if loading interferes with short-term or visitor parking. The requirements for such loading space shall be determined and approved in writing by the City's Transportation Engineer.

G. DRIVEWAY ACCESS. In any zone, for other than single- or two-family dwellings, driveway access from a public street to the required off-street parking area shall be as follows, provided that in no zone shall minimum access to the premises be by paved driveway of lesser width than is required by the California Fire Code as amended and adopted by ordinance of this City.

1. Where such parking area contains less than twenty-five (25) parking spaces, driveway access shall be not less than ten feet (10') in width plus a minimum of three feet (3') in width of planting strip abutting any main building on the same lot or served by such driveway.

2. Where such parking area contains twenty-five (25) or more parking spaces, or a projected total of twenty-five (25) or more parking spaces, a two-way driveway shall be required with a minimum paving surface width of at least eighteen feet (18') plus a three foot (3') width of planting strip abutting any main building on the same lot or served by such driveway. Two (2) one-way driveways may be substituted for one (1) two-way driveway, in which event the requirements of Paragraph 1. above shall be applicable to each such driveway.

The design review body that reviews the project may reduce or waive the requirement regarding the three (3) foot planting strip where alternative landscaping and designs are presented that result in landscaping and designs that are equally effective.

H. PARKING IN SETBACK PROHIBITED. In any zone, there shall be no parking space provided in any setback, except that uncovered parking or turnaround areas may be allowed in interior setbacks in an R-3 or less restrictive zone for lots containing three or more residential units, commercial buildings, or office buildings if at least five percent (5%) of the total area used for parking, turnaround and driveway is landscaped.

I. PARKING IN FRONT SETBACK PROHIBITED. Parking is prohibited in the front setback in any zone. Parking may be allowed in the remaining front yard, whether covered or uncovered, if screened by a decorative wall or fence and planting.

J. HARD-SURFACED DRIVEWAYS REQUIRED. All required off-street automobile parking areas and driveways shall be fully hard surfaced with asphaltic concrete of minimum thickness of two inches (2"), or other techniques or materials providing equivalent service. In order to comply with this subsection, such alternative techniques and materials must be approved in writing by the Fire Department and Transportation Engineer.

K. ENTRANCES AND EXITS - PARKING LOTS. Each entrance and exit to a parking lot shall be constructed and maintained so that a pedestrian within ten feet (10') of the driveway is visible to the driver when the vehicle is stopped at the property line.

L. DESIGN REVIEW. All plans for improvement of parking areas shall be specifically reviewed and approved in accordance with the provisions of Chapter 22.22, 22.68, or 22.69 where applicable.

M. MOTOR VEHICLES INCAPABLE OF MOVEMENT UNDER THEIR OWN POWER, UNREGISTERED VEHICLES. All motor vehicles incapable of movement under their own power, other than in cases of emergency, and vehicles not currently registered for use on the street shall be stored in an entirely enclosed space. This provision shall not apply in the case of auto wrecking establishments.

N. CHANGE OF USE. Whenever the type of use of any existing building is changed to another type of use that requires more parking spaces under this Chapter than were required for the prior use, there shall be provided additional permanently maintained parking spaces as required by this chapter for said building and any other existing buildings located on the parcel or parcels. The number of required additional parking spaces under this subsection shall be computed by determining if the number of parking spaces required for the new use is greater than that required for the previous use under this Chapter. If there is an increased number of parking spaces required for the new use, that increased number of additional parking spaces shall be added to the number of parking spaces required for the prior legal conforming or non-conforming use and the total of these two numbers shall be the number of parking spaces required for the new use.

O. CONVERSION OF GARAGES. Where required off-street parking spaces for one-family and/or two-family dwellings are provided in a garage or carport, and where it is proposed by the owner to convert said garage or carport to other use and to provide the required parking spaces elsewhere, a building permit for such conversion shall not be issued until all necessary clearing and grading of the new parking area has been accomplished and access has been provided thereto from a public street and such work has been approved by the Chief Building Official.
P. BICYCLE PARKING. Bicycle parking spaces shall be provided for all commercial and industrial uses as indicated herein.

Q. PARKING OF COMMERCIAL VEHICLES. The parking of commercial vehicles off-street in A, R, and E zones, that are developed with dwelling units, is not permitted except for those times it is necessary in the course of transacting business at the residence and then only for such time as is necessary to complete deliveries or provide services. For the purpose of this section, a commercial vehicle is defined as any truck, bus, truck-tractor, cargo trailer, or other motorized or towed vehicle which has a rated capacity of more than fifteen (15) passengers, a rated capacity of more than one (1) ton by the manufacturer, or which exceeds a length of 20 feet or a height of 10 feet.

R. OFF SITE PARKING. Required off street parking spaces shall be located on the same lot as the use served, or for office, commercial, industrial and mixed use developments only, on a lot within a walking distance of five hundred (500) feet. Walking distance of up to 1,250 feet may be approved by the Transportation and Parking Manager. Walking distance shall mean the distance from an outside entrance of a structure or use or part thereof to each off street parking space which serves such structure or use or part thereof, along the shortest, most convenient public pedestrian walkway available for such purpose. Whenever any off street automobile parking spaces required by this Chapter are provided on a different lot from that on which the use they are to serve is located, as a prerequisite to the issuance of any required building permit or certificate of occupancy, the following shall occur:

1. An agreement, in a form satisfactory to the City Attorney, shall be executed and recorded by each owner of the lot on which the parking space is to be provided and each owner of the lot on which the use the off site parking spaces are to serve is located. The agreement may be in the form of an easement, covenant running with the land, or other satisfactory agreement, and shall provide that the off site parking spaces shall be maintained so long as the use they are intended to serve is maintained. The agreement shall not be amended, modified or rescinded without the prior written consent of the City.

2. The certificate of occupancy for the use served by the off site parking spaces shall bear a notation that it is valid only while each such parking space is so maintained. The Community Development Director shall keep a record of each lot on which the required automobile parking spaces are provided for a use located on another lot, and whenever it is found that each required automobile parking space is no longer so maintained, the persons having ownership of the lot on which the use served by the off site parking shall be notified of that fact.

If at any time each automobile parking space required by this Code is not maintained, the certificate of occupancy shall automatically be cancelled and the building or use served by the off site parking spaces shall not thereafter be occupied or used until each required automobile parking space is again provided and a new certificate of occupancy is issued. (Ord. 5459, 2008; Ord. 5416, 2007; Ord. 5380, 2005; Ord. 4946, 1996; Ord. 4912, 1995; Ord. 4851, 1994; Ord. 4427, 1986; Ord. 4063, 1980; Ord. 3947, 1978; Ord. 3705, 1974; Ord. 3556, 1972; Ord. 3341, 1969; Ord. 2585, 1957.)

28.90.045 Parking Design Standards.

A. REQUIREMENTS. All parking facilities must be designed and constructed pursuant to the following:
1. Backing out onto a public street or sidewalk from a parking space shall be permitted only for a one-family or two-family dwelling, where not more than four (4) spaces are provided.
2. All turnaround movements shall be accomplished in one (1) maneuver. One (1) maneuver is considered to be one (1) back up and one (1) forward movement.
3. The required dimensions and criteria for parking plans and vehicle ramps shall be as shown in the current City Standard for Parking Design as prepared by the Transportation Engineer and on file with the Public Works Department.
4. It shall be the duty of the Transportation Engineer to review and approve all parking plans.
B. VARIATION. Any variation from the above requirements must be approved pursuant to a waiver by the Public Works Director or his designee.
C. VEHICLE RAMPS.
1. A vehicle ramp is defined to be a sloping connection between a street level and a parking level or two (2) parking levels.
2. For multiple-family dwellings or nonresidential uses, all parking plans involving ramps shall be accompanied by a profile showing the ramp, ramp transitions and overhead and adjacent wall clearances.
3. The length of a ramp is defined as that portion of the ramp from the beginning of the transition at one end of the ramp to the end of the transition at the opposite end thereof.
4. For ramps longer than sixty-five feet (65’), the ramp grade shall not exceed twelve percent (12%) with the first and last eight feet (8’) of the ramp not exceeding six percent (6%).
5. For ramps sixty-five feet (65’) or less, the ramp grade shall not exceed sixteen percent (16%) with the first and last ten feet (10’) of the ramp not exceeding eight percent (8%).
6. The slopes of all parking areas shall not exceed five percent (5%), excluding ramps. (Ord. 3113, 1966.)
7. The maximum grade for the driveway (vehicle ramp) serving a one-family dwelling shall not exceed sixteen percent (16%), except when the distance from the street pavement to the rearmost portion of any structure on the subject parcel is one hundred fifty feet (150’) or less in which case the maximum grade shall not exceed twenty percent (20%).
D. TANDEM PARKING. Notwithstanding any other provision in this Title, parking for mixed use developments may be provided in a tandem configuration (one parking space behind the other) if each set of tandem parking spaces is assigned to a single residential unit, and the tandem parking spaces are provided either on the subject lot or on an immediately adjacent lot. Vehicle movements necessary to move cars parked in a tandem arrangement shall not take place on any public street or alley. Guest parking spaces shall not be provided in a tandem configuration.

E. BICYCLE PARKING. All bicycle parking facilities must be designed and constructed pursuant to the following:

1. All facilities intended for permanent use shall provide a method for securing or locking the bicycle. A rack or space shall be provided for locking both the frame and the wheels.
2. All bicycle areas shall be accessible and lighted, on an all-weather surface.
3. A typical bicycle space shall be a minimum of two and one-half (2-1/2) feet in width and six (6) feet in length or less, if a permanent device is provided to stand the bicycle on end. A backout or maneuvering space of approximately five feet (5') shall be provided. (Ord. 5459, 2008; Ord. 4946, 1996; Ord. 4945, 1996; Ord. 4063, 1980; Ord. 3834, 1976; Ord. 3710, 1974; Ord. 2585, 1957.)

28.90.050 Landscaping and Lighting.

1. GENERAL. In an effort to encourage the development of more attractive parking lots in commercial, industrial, and multiple-family use areas, to provide for attractive and durable screening between such parking lots and adjoining areas, and to lessen the effect of commercial and industrial uses upon adjoining residential uses, the following standards shall be met. Landscape plans shall be prepared by an architect or landscape architect registered in the State of California, unless said requirement is waived by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, in projects containing fewer than twenty (20) parking spaces. The landscaping standards set forth below are required for all parking areas, parking lots, automobile service stations and automobile service stations/mini-markets except for one- or two-family dwellings.

2. FENCES AND WALLS. Where any parking area is for commercial, multiple-family residential, or industrial use, and the parking area or driveway abuts property used for residential purposes, it shall be separated therefrom by an approved wall or fence at least six (6) feet in height, except no fence or wall shall exceed a height of three and one-half feet (3-1/2') within a triangular area on either side of a driveway as follows:

a. When a driveway directly abuts a portion of a street improved with a sidewalk and a parkway, the triangle is measured on two sides by a distance of ten feet (10') from the side of a driveway and ten feet (10') back from the front lot line.

b. When a driveway directly abuts a portion of a street without a sidewalk or parkway, the triangle is measured on two sides by a distance of twenty feet (20') from the side of a driveway and ten feet (10') back from the front lot line. The design of the wall or fence shall be subject to approval by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district, or if the structure is a designated City Landmark, said walls or fences may be lowered or eliminated in proportion to the degree of screening provided by differences in elevation, mounding, existing planting, and other similar factors.

3. PERIMETER PLANTERS. Where such parking areas and/or driveways abut a street, a planting area at least five (5) feet in depth shall be provided and an ornamental wall or fence three-and-one-half (3-1/2) feet in height shall be provided, except if the planting area is eight (8) feet or greater in depth and suitable screen planting is provided, the ornamental fence or wall may be omitted. Where parking areas or driveways abut a neighboring building or a property line not adjoining a street, a planting area at least five (5) feet in depth shall be provided. The Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, may reduce or waive the requirement regarding the five (5) foot planting area where alternative landscaping and designs are presented that result in landscaping and designs that are equally effective.

4. INTERIOR PLANTERS. In addition to the perimeter planters, there shall be planting areas to relieve the expanse of paving. Said interior planters shall be at least four (4) feet in width, and shall be located in such a way that there will be not more than eight (8) parking spaces without an intervening planter. Said planters shall have trees and either shrubs or ground cover. The Architectural Board of Review, or Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, may reduce or waive the requirement regarding the four (4) foot interior planter where alternative landscaping and designs are presented that result in landscaping and designs that are equally effective.

5. GRADING. Grading should be utilized as much as possible to screen parking lots, by lowering or raising the parking area or by providing earth mounds or berms. If approved by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, mounding or berms may be substituted for an ornamental wall or fence.

6. ORNAMENTAL WALLS OR FENCES. Ornamental walls or fences shall be subject to approval by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, and shall be constructed of materials compatible with adjacent buildings and surroundings.
7. PLANTING. Planting shall consist of trees, shrubs and ground cover. The use of drought tolerant plants is encouraged, as is the use of flowering vines on fences and walls. Trees shall be planted on a minimum ratio of one (1) tree per five (5) parking spaces, with at least two-thirds of the trees fifteen (15) gallon size or larger, and the balance not less than five (5) gallon.

8. CURB PROTECTION. Planters adjoining vehicular traffic areas shall be protected by concrete curbs or the equivalent, as approved by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. The minimum dimensions listed herein may include the protecting curb.

9. RETAINING WALLS. Retaining walls shall be set back at least three (3) feet from parking areas and driveways and the footing design shall allow for appropriate planting in such intervening spaces.

10. PARKING LOT LIGHTING. Parking lot light fixtures placement shall be subject to approval by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. Excessive glare shall not be permitted and the lights shall be arranged to reflect light away from adjoining residential property and streets.

11. IRRIGATION PLAN. A sprinkler system or drip irrigation system designed to provide complete coverage of all planted areas is required. (Ord. 5650, 2014; Ord. 4912, 1995; Ord. 4851, 1994; Ord. 4192, 1983; Ord. 4063, 1980.)

28.90.060 Availability of Parking Spaces and Maneuvering Areas.

All required parking spaces and areas for maneuvering of vehicles on all parking lots shall be available for parking and maneuvering of motor vehicles and shall not be used for storage of any items inconsistent with such availability. (Ord. 4063, 1980.)

28.90.070 Handicapped Facilities.

A. All parking areas, for other than one- and two-family dwellings, shall provide parking spaces which are accessible to handicapped persons in accordance with the requirements of the Public Works Department as set forth in the City Standard for Parking Design.

B. The conversion of an existing parking space to an accessible parking space or access aisle for an accessible parking space does not require a modification of the parking requirement pursuant to Section 28.92.110, even if the conversion results in fewer parking spaces on the lot than required under Section 28.90.100, as long as the accessible parking requirement is not triggered by a change of use or an expansion of the existing use. (Ord. 5459, 2008; Ord. 4063, 1980.)

28.90.100 Parking Requirements.

A. GENERAL. Parking shall be provided for any use in the City of Santa Barbara.

B. DEFINITIONS. As used in this section of the code, certain words and phrases have the following meanings:

1. INDUSTRIAL USE. An industrial use is a use permitted in the C-M or M-1 zones, but not permitted in more restrictive zones.

2. SENIOR HOUSING. Senior Housing is housing that is restricted to residential uses by elderly and senior persons, sixty-two (62) years of age or older. In order to qualify, such restrictions must be made by recorded instrument, regulations of the United States Department of Housing and Urban Development or by similar enforceable methods.

3. LOW INCOME SENIOR HOUSING. Low income Senior Housing is housing that is restricted to residential uses by low income elderly and senior persons, sixty-two (62) years of age or older, and/or disabled or handicapped persons at affordable low income rents or sale prices in conformance with the City's adopted affordability criteria. In order to qualify, such restrictions must be for at least thirty (30) years, and be made by recorded instrument, regulations of the United States Department of Housing and Urban Development or by similar enforceable methods.

C. CUMULATIVE REQUIREMENTS. All standards set forth herein are cumulative in nature. For properties containing more than one use, the requirements for each use shall be met.

D. BUILDINGS IN EXCESS OF 10,000 SQUARE FEET. For industrial and office uses, a reduction of the required parking will be allowed for those buildings or building complexes containing in excess of 10,000 square feet of net floor area at the following rate:

1. Buildings containing 10,000 to 30,000 square feet of net floor area shall provide 90% of the required parking.

2. Buildings containing 30,000 to 50,000 square feet of net floor area shall provide 80% of the required parking.

3. Buildings in excess of 50,000 square feet of net floor area shall provide 70% of the required parking.

E. FRACTIONS. Fractions of one-half (½) or greater shall be considered to require one space.

F. SMALL CARS. Thirty percent (30%) of all required parking may be for small cars for parking lots containing more than 10 spaces with the layout to be approved by the City Transportation Engineer.
G. RESIDENTIAL PARKING REQUIREMENTS. In any zone, for every residential unit or units, and every residential building or structure occupied or intended to be occupied as sleeping quarters or dwellings, all of the required parking spaces shall be made available for all occupants to use as parking spaces on an assigned or unassigned basis. There shall be provided on the same lot or parcel of land a minimum ratio of parking space for each unit or occupant as follows:

1. Single Residential Unit or Group Home.
   a. General Rule. Two (2) required. Both of the required spaces shall be provided within a garage or carport located on the lot. If two or more single family dwellings legally exist, or are proposed on a single lot in any zone except the A, E, or R-1 zones, one covered space and one uncovered space may be provided for each single family dwelling.
   b. Exception for One Uncovered Space. Any lot developed with less than 85% of the maximum net floor area for the lot (as calculated pursuant to Section 28.15.083), whether or not the maximum net floor area specified in Section 28.15.083 applies to the lot as a standard, may provide the required parking in one covered space and one uncovered space under the following conditions:
      (1) The uncovered space shall not be located in any front yard on the lot, and
      (2) If new pavement is proposed for the uncovered space and the site has an appropriate slope for permeable paving, then the new pavement shall be permeable.
      (3) If the lot is located in the A, E, or R-1 zones and has less than 15,000 square feet of net lot area, the uncovered space may encroach up to three feet (3') into a required interior yard if a landscaped buffer is provided between the uncovered space and the adjacent interior lot line.
      (4) All other provisions of this Title shall apply to the required parking.
   c. Exception for Two Uncovered Spaces. Any lot developed with less than 80% of the maximum net floor area for the lot (as calculated pursuant to Section 28.15.083), whether or not the maximum net floor area specified in Section 28.15.083 applies to the lot as a standard, may provide the required parking in two uncovered spaces under the following conditions:
      (1) The uncovered spaces shall not be located in any front yard on the lot,
      (2) The uncovered spaces shall be screened from public view,
      (3) If new pavement is proposed for any of the uncovered spaces and the site has an appropriate slope for permeable paving, then the new pavement shall be permeable,
      (4) Storage space with exterior access of at least 150 square feet of net floor area shall be provided on the lot, and
      (5) The location of the parking and the design of the screening shall be reviewed and approved by the Single Family Design Board or Historic Landmarks Commission, as applicable.
   d. Exception for Three Uncovered Spaces. Any lot developed with less than 75% of the maximum net floor area for the lot (as calculated pursuant to Section 28.15.083), whether or not the maximum net floor area specified in Section 28.15.083 applies to the lot as a standard, may provide the required parking in three uncovered spaces under the following conditions:
      (1) The uncovered spaces shall not be located in any front yard on the lot,
      (2) The uncovered spaces shall be screened from public view,
      (3) If new pavement is proposed for any of the uncovered spaces and the site has an appropriate slope for permeable paving, then the new pavement shall be permeable,
      (4) Storage space with exterior access of at least 150 square feet of net floor area shall be provided on the lot, and
      (5) The location of the parking and the design of the screening shall be reviewed and approved by the Single Family Design Board or Historic Landmarks Commission, as applicable.
      (6) If the lot is located in the A, E, or R-1 zones and has less than 15,000 square feet of net lot area, the uncovered spaces may encroach up to three feet (3') into a required interior yard if a landscaped buffer is provided between the uncovered spaces and the adjacent interior lot line.
      (7) All other provisions of this Title shall apply to the required parking.

2. Two-Residential Unit. Four (4) required. Two (2) of the required spaces shall be provided within a garage or carport located on the lot. A development in which 100% of the units are rental units which are affordable to very low or low income households may reduce the number of parking spaces to one uncovered parking space per unit if the following conditions are met:
   a. Each unit shall have at least 200 cubic feet of enclosed weatherproofed and lockable private storage space in addition to guest, linen, pantry, and clothes closets customarily provided. Such space shall be for the sole use of the unit tenant. Such space shall be accessible from the exterior of the unit it serves;
   b. A covenant is recorded in the County Land Records against the title, which states that all of the dwelling units on the Real Property shall be rented to very low or low income households; the maximum rent and the maximum household income of tenants shall be determined as set forth in the Affordable Housing Policies and Procedures Manual of the City of Santa Barbara, which is adopted by City Council Resolution from time to time.
   c. The rents shall be controlled through recorded documents to assure continued affordability for at least thirty (30) years from the initial occupancy of the dwelling unit. The City shall be a party to the covenant.

3. Multiple Residential Unit.
   a. Studio: one and one quarter (1-1/4) spaces per residential unit.
   b. One bedroom: one and one-half (1-1/2) spaces per residential unit.
   c. Two (2) or more bedrooms: two (2) spaces per residential unit.
   d. When there are six (6) or more residential units on a lot or parcel, one (1) space for every four residential units shall be provided for guests.
f. A development in which 100% of the units are rental units which are affordable to very low or low income households: one uncovered parking space per unit if the following conditions are met:

   (1) A covenant is recorded in the County Land Records against the title, which states that all of the residential units on the Real Property shall be rented to very low or low income households; the maximum rent and the maximum household income of tenants shall be determined as set forth in the Affordable Housing Policies and Procedures Manual of the City of Santa Barbara, which is adopted by City Council Resolution from time to time. The rent shall be controlled through recorded documents to assure continued affordability for at least thirty (30) years from the initial occupancy of the residential unit. The City shall be a party to the covenant; and

   (2) A covenant is recorded in the County Land Records against the title which states that the development has received a reduction in the amount of parking required because it is a project with 100% affordable units. In the event that the Real Property, or any portion thereof, is not or cannot be used solely for very low or low income rental housing, either (i) the structure(s) shall be redesigned and possibly reconstructed and the number of residential units shall be reduced so that the maximum number of residential units on the Real Property does not exceed the number of residential units that would be allowed if there is compliance with the City's parking requirements then in effect, or (ii) the owner shall provide the number of spaces required by the Zoning Ordinance for the new use pursuant to Chapter 28.90. The City shall be a party to the covenant.

4. Planned Unit Developments for Residential Uses.
   a. For each residential unit, not less than two (2) parking spaces, either in a garage or a carport and one-half (1/2) uncovered space.
   b. Mobilehome on a permanent foundation: two (2) covered spaces for each mobilehome.
   c. Mobilehome or permanent recreational vehicle park: two (2) parking spaces on each mobilehome and recreational vehicle space. Tandem parking is acceptable. Guest parking shall be provided at the ratio of one (1) parking space per four (4) mobilehome and recreational vehicle spaces. Each mobilehome and recreational vehicle space shall be within one hundred (100) feet of at least one (1) guest parking space. On-street parking on internal roadways may be counted toward meeting the guest parking requirement.
   d. Mobilehomes and Recreational Vehicles.
   e. When the parking referred to in Subsections 28.90.100.G.3.a-d. is provided for a condominium, community apartment or stock cooperative, at least one parking space that is in a garage or carport shall be allocated to each residential unit.

5. Senior Housing: one (1) uncovered space per residential unit.
6. Low Income Senior Housing: one-half (1/2) uncovered space per residential unit.
7. Mobilehomes and Recreational Vehicles.
   a. Mobilehome on a permanent foundation: two (2) covered spaces for each mobilehome.
   b. Mobilehome or permanent recreational vehicle park: two (2) parking spaces on each mobilehome and recreational vehicle space. Tandem parking is acceptable. Guest parking shall be provided at the ratio of one (1) parking space per four (4) mobilehome and recreational vehicle spaces. Each mobilehome and recreational vehicle space shall be within one hundred (100) feet of at least one (1) guest parking space. On-street parking on internal roadways may be counted toward meeting the guest parking requirement.
8. Boarding House, club, fraternity house, sorority house, and dormitory: one (1) space for each bedroom.
9. Community care facility: one (1) space for each two (2) bedrooms.

H. MIXED USE DEVELOPMENTS.
1. Residential Uses. Parking spaces shall be provided in accordance with Subsection 28.90.100.G, subject to the following exceptions:
   a. In any mixed use development, where residential uses occupy up to fifty percent (50%) of the development, residential parking requirements may be reduced by fifty percent (50%) and covered parking will not be required, although it will be encouraged. If the residential use is changed to a non-residential use, the full number of parking spaces as required in this Chapter shall be added.
   b. In the delineated areas of the Central Business District (CBD) shown on the map (Figure A) which is part of this code, the residential parking requirement for mixed use developments is one uncovered parking space per dwelling unit, and guest parking is not required. If the residential use is changed to a non-residential use, the full number of parking spaces as required in this Chapter shall be added.
2. Nonresidential Uses. Parking spaces shall be provided in accordance with Subsections 28.90.100.I., 28.90.100.J, and 28.90.100.K.

I. OFFICE, COMMERCIAL AND INDUSTRIAL USES. In any zone, except as provided in Sections 28.90.100.J and 28.90.100.K of this Chapter, for all office and commercial buildings, one (1) parking space shall be provided for each two hundred fifty (250) square feet of net floor area or fraction thereof. For all general industrial uses, one (1) parking space shall be provided for each five hundred (500) square feet of net floor area or fraction thereof.

J. PARKING REQUIREMENTS FOR SPECIFIC USES. In any zone, for the following uses, parking spaces shall be in the following ratios for specific types of use:

   1. CENTRAL BUSINESS DISTRICT. Any nonresidential use in the delineated areas of the Central Business District (CBD) shown on the map (Figure A) which is a part of this code: one space per 500 square feet of net floor area. However, any property located in whole or in part in the Central Business District (CBD) and which has a designated “zone of benefit” as shown on Figure A shall also be exempt from the requirements of this chapter (as to the number of parking spaces required) to the extent of the percentage of the zone of benefit shown for such property on Figure A.

   In other words, in applying this subsection, the parking space requirement for the property shall be computed on the basis of floor area ratios as initially required herein. The resulting number of required spaces shall then be reduced by the percentage applicable to the zone of benefit designated for that property, rounded to the nearest whole number. Bicycle parking shall also be required as necessary.
2. Automobile service stations: three (3) parking spaces for each grease rack. Grease racks, pump blocks and other service areas shall not be considered as parking spaces. Bicycle parking not required.

3. Auto repair: As much paved area for outside storage and parking of vehicles as there is area used for servicing of vehicles. Bicycle parking not required.

5. Churches, theaters, auditoriums, funeral parlors, stadiums, arenas and similar places of assembly: One (1) parking space shall be provided for every four (4) seats provided in such building. A seat shall mean eighteen (18) lineal inches of seating space when seats are arranged in rows or pews. For auditoriums with no permanent seats, a seat shall mean seven (7) square feet of net floor area. Bicycle parking required.

6. Amusements:
   a. Dance halls and clubs: One (1) parking space shall be provided for each two hundred (200) square feet of net floor area or fraction thereof. Bicycle parking required.
   b. Bowling alleys, tennis courts and similar recreation facilities: Two (2) parking spaces shall be provided for each alley, tennis court or similar activity unit. For any restaurant, retail or assembly use within the building, the requirements for that use shall apply in addition to the requirements for each activity unit. Bicycle parking required.
   c. Spas and skating rinks: Three (3) spaces per 1000 square feet. Bicycle parking required.

7. Fast food restaurant: one (1) space per 100 square feet. Bicycle parking required.

8. Furniture and antique stores: one (1) space per 1000 square feet. Bicycle parking not required.

9. Hospitals: At least one (1) parking space shall be provided for each bed in the total capacity of such institution. Bicycle parking required.

10. Hotels, motels, and resort hotels: one (1) space per sleeping unit. Bicycle parking required.

11. Liquor store: three (3) spaces per 1000 square feet. Bicycle parking required.

12. Lumber yard: one (1) space per 250 square feet of retail and office space only. Bicycle parking not required.

13. Manufacturing: one (1) space per 500 square feet. Bicycle parking required.

14. Mini-warehouse: one (1) space per 5000 square feet, except that any office space associated therewith must meet the standard office requirement. Bicycle parking not required.

15. Landscape nursery: one (1) space per 2000 square feet of lot area. Bicycle parking not required.

16. Restaurant: the greater of four (4) spaces per 1000 square feet or one (1) space per three (3) seats. Bicycle parking required.

17. Skilled nursing facilities, hospices serving more than six individuals, and similar institutions: one-half (1/2) space per bed. Bicycle parking required.

18. Schools, both public and private:
   a. Child Care Centers: one (1) space for each member of the faculty and employee, plus one additional space for every ten (10) children enrolled. In the case of part-time personnel, the requirement shall be equal to the maximum number of personnel present at the facility at any one time. Bicycle parking required, but at a rate determined by the school.
   b. Elementary and junior high schools: one (1) space for each member of the faculty and employee, plus one (1) additional space for each one hundred (100) students regularly enrolled. Bicycle parking required, but at a rate determined by the school.
   c. High schools: One (1) space for each member of the faculty and employee, plus one (1) additional space for each ten (10) students regularly enrolled. Bicycle parking required, but at a rate determined by the school.
   d. Colleges, universities and similar institutions: one (1) space for every two (2) employees, plus one (1) space for every two (2) full-time or equivalent regularly enrolled students in graduate or undergraduate courses. For places of assembly, the requirements of Subsection 28.90.100.J.5 shall apply. Where a university or college presents a development plan which conforms in general with the general parking requirements for employees, students and places of assembly, said plan may be approved by the Zoning Administrator as satisfying the requirements of this chapter. Consideration shall be given to parking spaces that can be utilized by the users of two (2) or more buildings. Bicycle parking required, but at a rate determined by the governing body of the educational institution.

19. Warehousing: one (1) space per 5000 square feet. Any office or retail space associated therewith must meet the standard office or retail requirements. Bicycle parking required.

20. Overnight Recreational Vehicle Parks. There shall be at least one (1) parking space on each recreational vehicle space. Guest parking shall be provided at the ratio of one (1) parking space per ten (10) recreational vehicle spaces. Each recreational vehicle space shall be within one hundred fifty (150) feet of at least one (1) guest parking space. On-street parking on internal roadways may be counted toward meeting the guest parking requirement.

K. PARKING REQUIREMENTS FOR SPECIFIC ZONES. For the following zones, parking spaces shall be on the same lot with the main building or on lots contiguous thereto, and shall be provided in the following ratios unless otherwise provided in Section 28.90.100.J.

1. C-P Zone: One (1) parking space for each two hundred (200) square feet of net floor area.

2. C-X Zone: One (1) parking space for each two hundred fifty (250) square feet of net floor area. No parking area shall be constructed or used within twenty-five feet (25') of any street adjacent to the premises and there shall be no loading or delivery facilities in a front yard on such premises.
3. **S-H Zone**: For units restricted to Low Income Senior Housing, one (1) parking space for each two (2) residential units. For other units, one (1) space per unit.

4. **S-D-2 Zone**: One (1) parking space for each two hundred fifty (250) square feet of net floor area. In the event the property is located in a zone or has a use with a requirement for more parking, the greater requirement shall apply.

5. **HWMF Overlay Zone**: Parking space requirements for Offsite Hazardous Waste Management Facilities shall be determined by the City Transportation and Parking Manager.

6. **PR Zone**: Except as otherwise provided in Section 28.90.100.J, parking space requirements for park and recreation facilities shall be determined by the City Transportation and Parking Manager in consultation with the Community Development Director.

**28.92.010 In General.**

The following regulations shall apply to the granting of variances, modifications and zone changes.  (Ord. 5380, 2005.)

**28.92.020 Initiation of Amendments and Changes of Zone Boundaries.**

Whenever the public necessity, convenience, general welfare or good zoning practice justify such action, either the Planning Commission or City Council may, upon its own motion, or the Planning Commission upon the verified application of any property owner or authorized agent and following a public hearing, may initiate proceedings to amend, supplement or change the zones, regulations or districts established by this title.

With the exception of amendments changing property from one zone to another, or changing the boundary of any zone, amendments may be made in the same manner as this title was adopted.  (Ord. 5380, 2005.)

**28.92.030 Applications.**

Applications for variances, modifications and changes of zone shall be made in writing to the Community Development Director.  The Community Development Director may provide forms for such purposes and may prescribe the type of information to be provided thereon.  No application shall be received unless it complies with such requirements.  Applications filed pursuant to this chapter shall be numbered consecutively in the order of their filing and shall become a part of the permanent official records of the City of Santa Barbara.  (Ord. 5380, 2005.)

**28.92.040 Filing Fees.**

Before accepting any application for filing pursuant to this chapter, the City shall charge and collect the fees established by resolution of the City Council.  (Ord. 5380, 2005.)

**28.92.050 Public Hearings.**

Prior to taking any action on an application for a variance, change of zone, or modification, a public hearing shall be held before the Staff Hearing Officer or Planning Commission as specified below:

- **A. VARIANCES.** All applications for variances shall be heard and approved, conditionally approved or denied by the Planning Commission.

- **B. CHANGE OF ZONE.** All applications for changes of zone shall be approved, conditionally approved or denied by the Planning Commission, which shall make a recommendation to the City Council regarding the change of zone, if approved or conditionally approved.

- **C. MODIFICATIONS.** Unless the application for a modification requires a discretionary action by the Planning Commission under another provision of this Code, all applications for modifications shall be heard and approved, conditionally approved or denied by the Staff Hearing Officer.  (Ord. 5380, 2005.)

**28.92.060 Notices.**

Notice of public hearings required pursuant to this Chapter 28.92 shall be provided in accordance with Section 28.87.380 of this Code.  (Ord. 5380, 2005.)
28.92.070 Community Development Department Report.

At the public hearing, the Staff Hearing Officer, Planning Commission, or City Council on appeal, shall receive a report from the Community Development Department regarding the application and the application’s consistency with the intent and purpose of this Title and with previous variances, changes of zone or modifications. (Ord. 5380, 2005.)

28.92.080 Resolution of Decision.

The decisions of the Staff Hearing Officer or Planning Commission shall be announced and recorded by a resolution reciting the findings on which the decision is based.

A. VARIANCES: Within five (5) days after final decision by the Planning Commission on an application for a variance, notice of the decision shall be mailed to the applicant at the address shown upon the application and to all other persons who have filed a written request therefor with the Community Development Department. The decision of the Planning Commission may be appealed in accordance with Chapter 1.30 of this Code. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Planning Commission regarding a variance shall be provided in the same manner as notice was provided for the hearing before the Planning Commission. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council.

No permit or license shall be issued for any use involved in an application for a variance until same shall have become final by reason of the failure of any person to appeal or by reason of the action of the City Council.

B. AMENDMENTS AND CHANGES OF ZONE: Within five (5) days after final decision by the Planning Commission on an application for an amendment or change of zone, notice of the decision shall be mailed to the applicant at the address shown upon the application and to all other persons who have filed a written request therefor with the Community Development Department.

1. Approval. Upon approval of an application for an amendment or change of zone by the Planning Commission, the Planning Commission shall submit its recommendation and complete record of the application to the City Council. The City Council shall hold a public hearing to consider the application for the amendment or change of zone and may approve, reverse or modify the action of the Planning Commission and may approve, reject or modify said ordinance accordingly. The City Attorney shall prepare an ordinance providing for the approved amendment or change of zone to the City Council for introduction and subsequent adoption.

2. Denial. The denial of an application for an amendment or change of zone by the Planning Commission shall be final unless appealed in accordance with Chapter 1.30 of this Code. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Planning Commission regarding a change of zone shall be provided in the same manner as notice was provided for the hearing before the Planning Commission. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council.

No permit shall be issued for any use involved in an application for a change of zone until the same shall have become final by the effective date of the ordinance.

C. MODIFICATIONS. Within five (5) days after final decision by the Staff Hearing Officer or Planning Commission on an application for a modification, notice of the decision shall be mailed to the applicant at the address shown upon the application and to all other persons who have filed a written request therefor with the Community Development Department.

1. Staff Hearing Officer. Decisions of the Staff Hearing Officer regarding modifications shall be final unless suspended or appealed in accordance with Section 28.05.020 of this Code.

2. Planning Commission. Decisions of the Planning Commission shall be final unless appealed in accordance with Chapter 1.30 of this Code. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Planning Commission regarding a modification shall be provided in the same manner as notice was provided for the hearing before the Planning Commission. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council.

No permit or license shall be issued for any use involved in an application for a modification until same shall have become final by reason of the failure of any person to appeal or by reason of the action of the City Council. (Ord. 5380, 2005.)

28.92.090 Variances.

When practical difficulties, unnecessary hardships or results inconsistent with the general purposes of this Title occur by reason of a strict interpretation of any of the provisions of this Title, either the Planning Commission or City Council may, upon its own motion, or the Planning Commission upon the verified application of any property owner or authorized agent, may, in specific cases, initiate proceedings for the granting of a variance from the provisions of this Title under such conditions as may be deemed necessary to assure that the spirit and purposes of this chapter will be observed, public safety and welfare secured, and substantial justice done. All acts of the Planning Commission and City Council under the provisions of this section shall be construed as administrative acts performed for the purpose of assuring that the intent and purpose of this Title shall apply in special cases, as provided in this section, and shall not be construed as amendments to the provisions of this Title or map. Individual economic circumstances are not a proper consideration for the granting of a variance. (Ord. 5380, 2005.)
28.92.100 Required Findings for Approval of Variances.

Before a variance may be granted, all of the following findings shall be made:

1. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved, or to the intended use of the property, that do not apply generally to the property or class of use in the same zone or vicinity.

2. That the granting of such variance will not be materially detrimental to the public welfare, or injurious to the property or improvements in such zone or vicinity in which the property is located.

3. That such variance is necessary for the preservation and enjoyment of a substantial property right of the applicant possessed by other property in the same zone and vicinity.

4. That the granting of such variance will not adversely affect the Comprehensive General Plan. (Ord. 5380, 2005.)

28.92.110 Modifications.

Modifications may be granted by the Planning Commission or Staff Hearing Officer as follows:

A. **BY THE PLANNING COMMISSION.** The Planning Commission may permit the following:

1. **Parking.** A modification or waiver of the parking or loading requirements where, in the particular instance, the modification will not be inconsistent with the purposes and intent of this Title and will not cause an increase in the demand for parking space or loading space in the immediate area.

2. **Setbacks, Lot Area, Floor Area, Street Frontage, Open Yard, Outdoor Living Space, and Distance Between Buildings.** A modification of setback, lot area, floor area, street frontage, open yard, outdoor living space, or distance between buildings requirements where the modification is consistent with the purposes and intent of this Title, and is necessary to (i) secure an appropriate improvement on a lot, (ii) prevent unreasonable hardship, (iii) promote uniformity of improvement, or (iv) the modification is necessary to construct a housing development containing affordable dwelling units rented or owned and occupied in the manner provided for in the City's Affordable Housing Policies and Procedures as defined in subsection (A) of Section 28.43.020 of this Code.

3. **Fences, Screens, Walls, and Hedges.** A modification of fence, screen, wall and hedge regulations where the modification is necessary to secure an appropriate improvement on a lot and is consistent with the purposes and intent of this Title.

4. **Solar Access.** A modification of height limitations imposed by Section 28.11.020 to protect and enhance solar access where the modification is necessary to prevent an unreasonable restriction. The Rules and Regulations approved pursuant to Section 28.11.040 shall contain criteria for use in making a finding of unreasonable restriction.

5. **Building Height.** A modification of building height limitations for existing buildings or structures that exceed the current building height limit, to allow the exterior of the portion of the building or structure that exceeds the building height limit to be improved or upgraded, provided that the improvements increase neither the height nor the floor area of any portion of the building or structure that exceeds the building height limit, except as otherwise allowed in the Code.

6. **Net Floor Area (Floor to Lot Area Ratio).** A modification of the net floor area standard imposed by Section 28.15.083 to allow a development that would otherwise be precluded by operation of Subsection 28.15.083.D where the Planning Commission makes all of the following findings:

   a. Not less than five (5) members of the Single Family Design Board or six (6) members of the Historic Landmarks Commission (on projects referred to the Commission pursuant to Section 22.69.030) have voted in support of the modification following a concept review of the project;
   b. The subject lot has a physical condition (such as the location, surroundings, topography, or the size of the lot relative to other lots in the neighborhood) that does not generally exist on other lots in the neighborhood; and
   c. The physical condition of the lot allows the project to be compatible with existing development within the neighborhood that complies with the net floor area standard.

7. **Accommodation of Disabilities.** A modification of any zoning regulation where the modification is necessary to allow improvements to an existing building in order to provide reasonable accommodations to individuals with disabilities. This modification is not available in the case of new buildings, demolitions and rebuilds, or additions where the proposed construction precludes a reasonable accommodation that would not require a modification.

B. **BY THE STAFF HEARING OFFICER.** The Staff Hearing Officer may permit modifications in accordance with subsections 1., 2., 3., 4., 5., and 7. above, if the Staff Hearing Officer finds that:

1. The requested modification is not part of the approval of a tentative subdivision map, conditional use permit, development plan, site plan, plot plan, or any other matter which requires approval of the Planning Commission; and

2. If granted, the modification would not significantly affect persons or property owners other than those entitled to notice. (Ord. 5488, 2009; Ord. 5416, 2007; Ord. 5380, 2005.)
28.92.120 Limitations on Refiling.

Whenever the Staff Hearing Officer, Planning Commission or City Council has rendered a decision under the provisions of this chapter upon any application, petition or appeal, which has become final after hearing before the Staff Hearing Officer or Planning Commission, or if appeal is taken to the City Council, after hearing on such appeal, or after hearing before the City Council on matters required to be heard by said body, the party or parties presenting such application, petition or appeal, shall not thereafter file another application or petition for the same purpose or relief unless:

1. Twelve (12) months have elapsed from and after the date of the final decision in said matter; or
2. New evidence or proof of changed conditions is furnished to the Staff Hearing Officer, Planning Commission or City Council in the new application or petition. (Ord. 5380, 2005.)

28.92.130 Minor Zoning Exceptions for Errors in Zoning Information Reports.

A. Purpose.

A Minor Zoning Exception is a method of resolving a discrepancy or error in a Zoning Information Report (ZIR) prepared by the City pursuant to Section 28.87.220 of this Code. If a discrepancy or error in a ZIR involves one or more of the zoning violations specified in Subsection B, the property owner may request a Minor Zoning Exception to obtain relief from the zoning standard up to the maximum amount of relief specified for the particular zoning standard, subject to the findings specified in Subsection C.

In order to qualify, the discrepancy or error in the ZIR must involve a failure of City staff to properly identify a zoning violation, or a mischaracterization of the legality or illegality of an existing improvement on the real property, that is related to the relief requested. A decision on a requested Minor Zoning Exception is an administrative action of the Staff Hearing Officer, without public notice or hearing. In order to grant a Minor Zoning Exception, the Staff Hearing Officer must make the findings specified in Subsection C.

The actions of the Staff Hearing Officer pursuant to this Section 28.92.130 are not subject to the provisions of Chapter 28.05 of this Code.

B. Unpermitted Improvements Eligible for Minor Zoning Exceptions.

If a discrepancy or error in a ZIR involves one of the unpermitted improvements listed below, the property owner may request a Minor Zoning Exception:

1. Unpermitted Alterations to Properties with Legal Nonconforming Buildings. The following unpermitted additions or alterations to existing structures that are legal nonconforming as to setbacks, open yard area, residential density, or distance between buildings are eligible to apply for a Minor Zoning Exception, subject to the findings specified in Subsection C:
   a. Conversion of an Encroaching Garage or Carport to Other Parking. Where a carport or garage encroaches into any setback or required open yard or does not meet the minimum separation between buildings, the conversion of the carport to a garage or the garage to a carport may be granted a Minor Zoning Exception, provided the number of parking spaces provided in the garage or carport is not increased and the proposed garage or carport meets required minimum interior dimensions or an exception from that standard is approved by the Public Works Director or his or her designee.
   b. Conversion of an Encroaching Garage to Another Use. The conversion of a garage that encroaches into a setback to a use other than parking (such as storage, workshop, bedroom, or similar) may be granted a Minor Zoning Exception, subject to the finding specified below in Section 28.92.130.C.2.b.
   c. Encroaching First Story Windows. If a building encroaches into an interior or rear setback, the addition of new windows to, or the enlargement or relocation of existing windows on, the first story of the encroaching wall may be granted a Minor Zoning Exception.
   d. Exterior Alterations in the Front Setback. If a building encroaches into the front setback, exterior alterations (i.e., windows, doors, skylights, façade changes, etc.) to the portion of the building that encroaches within the front setback may be granted a Minor Zoning Exception.
   e. Façade Alterations in the Interior Setback. If a building encroaches into the interior setback, façade alterations, excluding new doors and second floor windows, to the portion of the building that encroaches within the interior setback may be granted a Minor Zoning Exception.
   f. Encroaching Ground Floor Additions. If a building encroaches into an interior setback, a ground floor addition that encroaches into the same interior setback may be granted a Minor Zoning Exception, so long as the total square footage of the addition does not exceed 250 square feet and the addition does not result in a new residential unit or an increase in residential density.
   g. Alterations to Roof Height. If a structure encroaches into a setback, alterations to the roof height of the portion of the structure that is within a setback may be granted a Minor Zoning Exception as long as the alteration does not increase the building height of the portion of the building within the setback by more than one foot.
h. Cantilevered Architectural Features and Chimneys. New or altered cantilevered architectural
features (such as awnings, cornices, canopies, or eaves) that are unsupported from the ground below and do not
provide additional floor area within the building, or chimneys that encroach no more than an additional two feet into a
setback may be granted a Minor Zoning Exception. However, no cantilevered architectural feature or chimney shall
be located closer than three feet from any interior lot line or five feet from any front lot line, except roof eaves, which
may be located as close as two feet from any lot line.

i. Uncovered Balcony in the Front Setback. An uncovered balcony within the front setback that
does not provide additional floor area within the building and which does not extend more than an additional two feet
into the front setback may be granted a Minor Zoning Exception. However, no balcony shall be located closer than
five feet from the front lot line.

j. Bay Window in the Front Setback. A bay window within the front setback, that is at least three
feet above adjacent grade or finished floor (whichever is higher), does not provide additional floor area within the
building, and does not extend more than an additional three feet into the front setback may be granted a Minor Zoning
Exception. However, no bay window shall be located closer than five feet to the front lot line.

k. Addition of an Encroaching Landing or Front Porch. In the front setback, a covered or
uncovered front porch and any associated steps, not extending above the finished floor level of the ground floor, and
not exceeding six feet wide by four feet deep may be granted a Minor Zoning Exception, as long as it is no closer
than five feet from the front lot line. In the interior setback, an unenclosed, uncovered, entrance landing and outside
steps not extending above the finished floor level of the ground floor may be granted a Minor Zoning Exception to
encroach an additional three feet into a setback. However, no entrance landing shall be closer than two feet from the
interior lot line, and the size of the landing and steps may not exceed the minimum area required by the building code.

2. “As-Built” Addition or Expansion of Hardscape, Landscape or Site Improvements. The “as-built”
addition or expansion of the following hardscape, landscape, or site improvements that encroach into setbacks,
required open yard area, or the minimum distance between buildings may be granted a Minor Zoning Exception, subject to the findings specified in Subsection C:

a. Decks with a total area of not more than 200 square feet, attached to a main building, not extending
above the finished floor level of the ground floor, and no closer than two feet to an interior lot line;

b. Fountains, ponds, and similar water features;

c. Trash enclosures that are no closer than ten feet from a front lot line and two feet from an interior lot
line; and,

d. Decorative features, mailboxes, flagpoles, sculptures. The cumulative area of all such features shall
not exceed 50 square feet in the front yard or cover more than 20% of the required open yard. However, the
exceptions under this paragraph 2 are not available to allow the encroachment of BBQs, exterior fireplaces, or raised
fire pits into setbacks.

into an interior or rear setback may be granted a Minor Zoning Exception if it satisfies all of the following criteria and
subject to the findings specified in Subsection C:

a. The floor area of the building is not more than 120 net square feet; and

b. The accessory building is not a separate residential unit; and

c. The building was constructed prior to August 1, 1975; and

d. The building is not located within the front yard or required open yard or outdoor living space.

4. Oversized Accessory Buildings. Accessory building(s) or garage(s) which exceed the size limits
established by Section 28.87.160.C of this Code by no more than 100 square feet and were built prior to August 1,
1975, may be granted a Minor Zoning Exception, provided the accessory building meets the open yard and building
height standards of the Zoning Ordinance and subject to the findings specified in Subsection C.

5. Additions Exceeding the Maximum FAR. Additions of floor area to a residence that exceeded the
maximum allowed Floor to Lot Area Ratio (FAR) in effect at the time the errant ZIR was prepared may be granted a
Minor Zoning Exception, if the additional floor area is contained within the volume of the legally permitted building
(i.e., a loft, cellar, etc.) and subject to the findings specified in Subsection C.

C. Findings.

1. In order to grant a Minor Zoning Exception, the Staff Hearing Officer must make all of the following
five findings:

a. A material discrepancy or error has occurred in the preparation of a Zoning Information Report
regarding the subject property, and the discrepancy or error directly involves the zoning standard from which relief is
sought.

b. Substantial evidence has been provided that indicates the improvement for which relief is sought
existed in its current form on the site prior to January 1, 1980, or, in the case of accessory structures, August 1, 1975.

c. The Minor Zoning Exception does not involve the permanent removal of a significant component or
a character defining element from a historic resource, potential historic resource, or an un-surveyed building located
in a Demolition Review Study Area which is more than 50 years old.

d. Any as-built additions that are uniform extensions of the legal nonconforming portion of the
building and are generally no closer to the lot line in question than the legal non-onforming portions of the building.

e. The improvement is located in general compliance with the Single Family Design Board’s Good
Neighbor Guidelines.
2. The following additional findings shall be made, if applicable to the requested Minor Zoning Exception:
   a. For improvements in the required open yard or minimum distance between buildings, the site will maintain adequate yard areas to provide light and air, separation of buildings, and privacy and enjoyment of occupants.
   b. For garage conversions, the number and configuration of parking space(s) required at the time of the conversion is provided on site.
   c. For improvements that increase the height of the building, the final height of the altered building complies with the maximum building height and building story limitations for the applicable zone.
   d. For improvements within the front setback, the height and location shall comply with the corner lot and driveway sight line standards established by the Public Works Director.

D. Conditions.

In granting a Minor Zoning Exception, the Staff Hearing Officer may prescribe conditions necessary to minimize potential adverse impacts on neighboring properties that relate to the requested Minor Zoning Exception and are proportionate to the potential impacts on neighboring properties.

E. Decisions.

The Staff Hearing Officer shall issue a written decision on the Minor Zoning Exception request pursuant to this Section. The decision of the Staff Hearing Officer is final and effective when the decision is made, subject to appeal to the Community Development Director.

F. Appeals.

The decision of the Staff Hearing Officer regarding a Minor Zoning Exception may be appealed to the Community Development Director by the applicant. The appeal must be filed in writing with the Community Development Department within ten (10) calendar days of the date of the Staff Hearing Officer's decision. The appellant shall state specifically in the appeal how the decision of the Staff Hearing Officer is not in accord with the provisions of this Title or how it is claimed that there was an error or an abuse of discretion by the Staff Hearing Officer. The Community Development Director shall review the appellant’s written appeal letter and the Staff Hearing Officer’s written decision and shall affirm, reverse, or modify the decision of the Staff Hearing Officer. No hearing shall be conducted on the appeal. When granting a Minor Zoning Exception, the Community Development Director must make all applicable findings specified in Section 28.92.130.C. The Community Development Director shall issue a written decision on the appeal within ten (10) calendar days of receipt of the appeal. The decision of the Community Development Director is final without any right of further appeal. (Ord. 5730, 2016.)

Chapter 28.93

PERFORMANCE STANDARD PERMITS

Sections:
28.93.010 Filing of Applications. 28.93.015 Filing Fees.

28.93.001 In General.

The following regulations shall apply to the granting of Performance Standard Permits. (Ord. 4858, 1994.)

28.93.005 Legislative Intent.

It is hereby declared that the uses permitted under this Chapter are relatively minor in nature but have unique features that make it impractical to establish their suitability in a given location prior to their proposal. Because of their nature, these uses warrant individual consideration and review for which performance standards specific to that use are applied. This Chapter establishes a process which allows for individual consideration and review of each project and which requires public notice to neighbors and an opportunity for a public hearing while providing an expedient and economical review process consistent with the proposed degree of development. (Ord. 4858, 1994.)

28.93.010 Filing of Applications.

Applications for Performance Standard Permits shall be made to the Community Development Director in such form as approved by the Community Development Director. The Community Development Director may provide forms for such purposes and may prescribe the type of information to be provided thereon, provided that such information is reasonably related to meeting the requirements of this Chapter. No application shall be accepted unless it complies with such requirements. (Ord. 4858, 1994.)
28.93.015 Filing Fees.

Before accepting any application for filing pursuant to this Chapter, the City shall charge and collect the fees established by resolution of the City Council.  (Ord. 4858, 1994.)

A performance standard permit is granted subject to the following procedures:

A. The Staff Hearing Officer may grant a performance standard permit if the Staff Hearing Officer finds that the proposed use complies with all standards for the proposed use set forth in Section 28.93.030 and all requirements of the Zoning Ordinance, and may revoke a performance standard permit if compliance with any such standards and requirements is discontinued.

B. Notice of the proposed use shall be given pursuant to Section 28.87.380 of this Code.

C. The denial or approval of any application for a permit under this Section may be suspended or appealed pursuant to Section 28.05.020 of this Code.  (Ord. 5380, 2005; Ord. 4858, 1994.)

The following use(s) may be permitted subject to the approval of a Performance Standard Permit:

A. State-licensed Large Family Day Care Homes in the A, E, R-1, R-2, R-3, R-4 and PUD zones and in the HRC-2 zone where residential uses are permitted provided that the following performance standards are met:

1. There are no other State-licensed Large Family Day Care Homes within a 300 foot radius of the proposed Large Family Day Care Home measured from the nearest property lines of the affected Large Family Day Care Homes. A waiver from the 300-foot spacing requirement may be granted if it can be found that certain physical conditions exist and if the waiver would not result in significant effects on the public peace, health, safety and comfort of the affected neighborhood. Examples of physical conditions that may warrant granting of a waiver include intervening topography that creates a barrier or separation between the facilities such as hillsides or ravines, the presence of major non-residential uses or structures between facilities or the presence of a major roadway between the facilities.

2. The City finds that adequate off-street or on-street area in front of the residence is available for passenger loading and unloading. The passenger loading and unloading area shall be of adequate size and configuration and shall allow unrestricted access to neighboring properties.

3. Outdoor play shall be limited to the hours between 8:00 a.m. and 6:00 p.m.

4. One additional parking space for employee parking shall be provided unless a finding is made that adequate on-street or off-street parking is available to support the proposed use.

B. Community care facilities, residential care facilities for the elderly, and hospices serving 7 to 12 individuals in the A, E, R-1, R-2, R-3, R-4, and PUD zones and in the HRC-2 zone where residential uses are permitted, provided that the following performance standards are met:

1. Adequate off-street parking is provided pursuant to Section 28.90.100 or as modified pursuant to Section 28.92.110.

2. The facility conforms to the extent feasible to the type, character and appearance of other residential units in the neighborhood in which it is located. This provision shall in no way restrict the installation of any special feature(s) necessary to serve disabled residents (e.g., ramps, lifts, handrails).

3. The intensity of use in terms of number of people, hours of major activities and other operational aspects of the proposed facility is compatible with any neighboring residential use. (Ord. 4858, 1994.)

C. Public works treatment and distribution facilities that are greater than 500 square feet and no more than 1,000 square feet in the R-3, R-4, and P-R zones subject to the requirements of Section 28.37.010.B., and less restrictive zones, provided that the following performance standards are met:

1. The setbacks of the proposed facilities from property and street lines are of sufficient magnitude in view of the character of the land and of the proposed development that significant detrimental impact on surrounding residential properties is avoided.

2. The operation of the proposed facility is such that the character of the area is not significantly altered or disturbed.

3. The design and operation of non-emergency outdoor security lighting and equipment will not be a nuisance to the use of property in the area.

4. Construction (including preparation for construction work) is prohibited Monday through Friday before 8:00 a.m. and after 5:00 p.m., and all day on Saturdays, Sundays, and holidays observed by the City of Santa Barbara.

5. If construction work is necessary before 8:00 a.m. or after 5:00 p.m., Monday through Friday, it must be approved by the Chief Building Official. If approved by the Chief Building Official, the applicant shall provide written notice to all property owners and residents within 300 feet of the project and the City Planning and Building Divisions at least 48 hours prior to commencement of any noise-generating construction activity.

6. The project will incorporate standard dust control measures to minimize air quality nuisances to surrounding properties.
D. Rehabilitation of existing water storage reservoirs or sludge basins in any zone, that are owned and operated by the City, provided that the following performance standards are met:
   1. That the design and operation of non-emergency outdoor lighting and equipment will not be a nuisance to the use of property in the area.
   2. Construction (including preparation for construction work) is prohibited Monday through Friday before 8:00 a.m. and after 5:00 p.m., and all day on Saturdays, Sundays and holidays observed by the City of Santa Barbara.
   3. If construction work is necessary before 8:00 a.m. or after 5:00 p.m., Monday through Friday, it must be approved by the Chief Building Official. If approved by the Chief Building Official, the applicant shall provide written notice to all property owners and residents within 300 feet of the project and the City Planning and Building Divisions at least 48 hours prior to commencement of any noise-generating construction activity.
   4. The project will incorporate standard dust control measures to minimize air quality nuisances to surrounding properties.

E. Additional dwelling units. Notwithstanding any other provisions of this title, where a lot in an A-1, A-2, E-1, E-2, E-3, or R-1 Zone has an area of more than the required lot area for that zone and adequate provisions for ingress and egress, a Performance Standard Permit may be granted by the Staff Hearing Officer for the construction of additional one-family dwellings and allowable accessory buildings in these zones. However, the minimum site area per dwelling unit in these zones shall be the minimum lot area required for that zone, and the location of such additional dwellings shall comply with the provisions of all other applicable ordinances. (Ord. 5380, 2005; Ord. 4858, 1994.)

F. Solar Energy Systems. In the case where the Building Official makes a finding, based on substantial evidence, that a solar energy system could have a specific, adverse impact upon the public health and safety (as defined in Chapter 22.91 of this Code), the solar energy system shall not be issued a building permit until a Performance Standard Permit has been issued for the solar energy system.
   1. Conditions of Approval. The Performance Standard Permit shall require the installation or incorporation of measures or conditions necessary to minimize or avoid the specific, adverse impact.
   2. Grounds for Denial. The City shall not deny an application for a Performance Standard Permit to install a solar energy system unless it makes written findings based upon substantial evidence in the record that the proposed installation would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily minimize or avoid the specific, adverse impact. If the applicant proposes any potentially feasible alternatives for preventing the specific adverse impact, the findings accompanying the denial of the Performance Standard Permit shall include the basis for the rejection for potential feasible alternatives of preventing the specific, adverse impact.
   3. Appeal. The decision of the Staff Hearing Officer to deny an application for a Performance Standard Permit is appealable according to the following procedures:
      a. Who May Appeal. The decision of the Staff Hearing Officer may be appealed to the Planning Commission by the applicant. No other persons can appeal.
      b. Timing for Appeal. The applicant may appeal a decision of the Staff Hearing Officer by filing an appeal with the Community Development Director no more than 10 calendar days following the decision. The application shall include the grounds for appeal.
      c. Grounds for Appeal. The decision of the Staff Hearing Officer may be appealed on the grounds that the stated findings to deny the permit are not supported by substantial evidence.
      d. Scheduling an Appeal Hearing. The Community Development Department shall assign a date for an appeal hearing before the Planning Commission no earlier than 10 calendar days after the date on which the appeal is filed with the Community Development Director. The appeal hearing shall generally be held within 60 calendar days following the filing of the application for the hearing.
      e. Power to Act on the Decision at Appeal Hearing. The Planning Commission may affirm, reverse, or modify the Staff Hearing Officer’s decision to deny a solar energy system in accordance with the following:
         i. A decision to affirm the decision of the Staff Hearing Officer shall require a finding based on substantial evidence in the record that the proposed solar energy system would have a specific, adverse impact upon the public health and safety.
         ii. If the Planning Commission determines that there is not substantial evidence that the solar energy system would have a specific adverse impact upon the public health and safety, then the decision of the Staff Hearing Officer shall be reversed and the project shall be approved.
         iii. If the Planning Commission determines that conditions of approval would mitigate the specific adverse impact upon the public health and safety, then the decision of the Staff Hearing Officer shall be reversed and the project shall be conditionally approved. Any conditions imposed shall mitigate at the lowest cost possible, which generally means the permit condition shall not cause the project to exceed 10 percent of the cost of the small rooftop solar energy system or decrease the efficiency of the small rooftop solar energy system by an amount exceeding 10 percent.
      f. The decision of the City Planning Commission is final. (Ord. 5713, 2015; Ord. 5380, 2005; Ord. 4858, 1994.)

#### 28.94.001 In General.

Uses permitted by Conditional Use Permits and all matters directly related thereto are hereby declared to be special uses, and authority for the location and operation thereof, in certain zones, shall be granted only under the provisions of and upon compliance with the procedure outlined herein. (Ord. 4152, 1982.)

#### 28.94.005 Legislative Intent.

It is hereby declared that in addition to being special uses, the uses permitted under this section are of such a nature that it is impractical in many cases to establish, prior to development, the minimum requirements for parking, site area, setbacks, landscaping or other standards usually applied to classes or types of uses, and that distinct and different performance and development standards must be applied to each individual facility proposed to be established under these provisions. Setback requirements for individual projects shall be established by the Planning Commission by increasing the basic setback requirements of the zone in proportion to the mass of the proposed building or buildings. This declaration is based on the fact that the type of use permitted by these provisions will usually be unique to the zone in terms of the facilities provided, activities conducted, method and intensity of operation, relationship to topography and impact on surrounding urban development and potential, and that meaningful minimum standards can only be established in relation to the particular features of each individual development. (Ord. 4152, 1982.)

#### 28.94.017 Filing of Applications.

The procedure for filing applications, filing fees, investigation, notices, public hearings, findings and appeal shall be the same as herein provided for variances. The amount of fees shall be set by resolution of the City Council. (Ord. 4152, 1982; Ord. 3955 §2, 1978; Ord. 3710, 1974.)

#### 28.94.020 Findings.

In keeping therewith, the Planning Commission may permit, by issuance of a conditional use permit, any of the uses specifically enumerated in Section 28.94.030 upon a finding that:

1. Any such use is deemed essential or desirable to the public convenience or welfare and is in harmony with the various elements or objectives of the Comprehensive General Plan;
2. Such uses will not be materially detrimental to the public peace, health, safety, comfort and general welfare and will not materially affect property values in the particular neighborhood involved;
3. The total area of the site and the setbacks of all facilities from property and street lines are of sufficient magnitude in view of the character of the land and of the proposed development that significant detrimental impact on surrounding properties is avoided.
4. Adequate access and off-street parking including parking for guests is provided in a manner and amount so that the demands of the development for such facilities are adequately met without altering the character of the public streets in the area at any time.
5. The appearance of the developed site in terms of the arrangement, height, scale and architectural style of the
buildings, location of parking areas, landscaping and other features is compatible with the character of the area. The
Planning Commission shall have the authority to approve the design of open space. Design shall mean size, shape,
location and usability for proposed private, public, or quasi-public purposes and development. Approval of such open
spaces may be expressly conditioned upon an offer of conveyance by the owner to the City of Santa Barbara of the
development rights, the right to prohibit the construction of additional buildings, or other property rights, necessary to
achieve the purpose set forth in this title.

6. Compliance with any additional specific requirements for a conditional use permit.
The Planning Commission may impose such other conditions and restrictions upon the proposed use consistent
with the Comprehensive General Plan and may require security to assure satisfactory performance of all conditions
and restrictions. (Ord. 4945, 1996; Ord. 4152, 1982; Ord. 3710, 1974; Ord. 3045, 1965.)

28.94.030 Uses Permitted in Specific Zones.

The following uses may be permitted in the zones herein indicated upon the granting of a Conditional Use Permit,
except that where another section of this Title specifically allows such use in a zone in conflict with this section, the
provision of such other section shall apply and a Conditional Use Permit shall not be required.

A. Church in the A-1, A-2, E-1, E-2, E-3, R-1, R-2, R-3, R-4, C-1, C-P, C-L, C-O, R-O, C-X, H-C, HRC-1,
HRC-2, OM-1 and OC zones.

B. Convent and monastery in the A-1, A-2, E-1, E-2, E-3, R-1, R-2, C-X, H-C, HRC-1, HRC-2, OC, M-1, and
OM-1 zones.

C. Educational institution in the A-1, A-2, E-1, E-2, E-3, R-1, R-2, R-3, R-4, C-1, C-P, C-L, C-O, R-O, C-X,
H-C, HRC-1, HRC-2, OC, M-1, and OM-1 zones.

D. Golf course or driving range (but excluding miniature golf) in any zone.

E. Outdoor tennis club and lawn bowling club in the A, E and R Zones. Normal clubhouse facilities such as pro
shop, coffee shop, administrative offices, lounge, etc. may be allowed in connection with a private club only,
provided that such uses shall be clearly shown to be incidental and accessory to the outdoor recreational use of the
premises, and that the clubhouse facilities shall be available only to the club members and their guests.

It is hereby declared that in addition to being special uses as set forth in Sections 28.94.001 and 28.94.005, the
uses permitted under this subsection are of such nature that it is impractical to establish in advance of development
the minimum requirements for parking, site area, setbacks, hours or manner of operation, lighting, landscaping, or
other standards usually applied to classes or types of use, and that distinct and different performance and development
standards must be applied to each individual facility proposed to be established under these provisions.

This declaration is based on the fact that the type of club permitted by these provisions will usually be within the
City area, unique in terms of the facilities provided, activities conducted, method and intensity of operation,
relationship to topography and impact on surrounding urban development and potential, and that meaningful
minimum standards can only be established in relation to the particular features of each individual development.

In lieu of prescribing herein minimum performance and development standards, the Planning Commission shall,
as a part of any Conditional Use Permit issued to permit the establishment of outdoor tennis or lawn bowling clubs
under this subsection, make the following findings and impose conditions necessary to secure and perpetuate the
bases for such findings:

1. That the total area of the site and the setbacks of all facilities from property and street lines are of
sufficient magnitude in view of the character of the land and of the proposed development that significant detrimental
impact on surrounding properties is avoided.

2. That the prescribed hours and days of operation of the various facilities of the club are such that the
character of the area is not altered or disturbed.

3. That the design and operation of outdoor lighting equipment will not be a nuisance to the use of property
in the area.

4. That adequate access and off-street parking is provided in a manner and amount so that the demands of
the development for such facilities are adequately met without altering the character of the public streets in the area at
any time.

5. That the appearance of the developed site in terms of the arrangement, height, scale and architectural
style of the buildings, location of parking areas, landscaping and other features is compatible with the character of the
area.

F. Planned unit development in A, E and R-1 Zones in accordance with the provisions of Chapter 28.36 of this
Title.

G. Planned residence development in the A, E and R-1 Zones, subject to provisions of Chapter 28.33 of this
Title.

H. Child care centers in the A, E, R-1, R-2, R-3, R-4, R-O, C-O and C-X zones, subject to the following
conditions, standards and limitations:

1. Location of play areas. Outdoor play areas shall be located in a manner that is compatible with the
character of the surrounding area, that minimizes significant detrimental noise impacts to adjacent properties, and that
complies with the minimum standards of State Law.
2. Passenger loading. Facilities shall be provided for loading and unloading passengers, and shall be
subject to the review and approval of the Planning Commission taking into consideration the recommendation of the
Transportation Engineer.

I. Driveways and parking areas for nonresidential uses in residential zones.

J. Boarding house in the R-2, R-3 and R-4 Zones.

K. Club and lodge in the R-3, R-4 and R-O Zones.

L. Garden apartments in the R-2 Zone, subject to the provisions of Chapter 28.30 of this Title.

M. Hospitals, skilled nursing facilities and other similar buildings and facilities for the treatment of human
ailments where facilities are provided for the keeping of patients overnight or longer, in the R-4, C-O, C-P, C-1, C-2
and C-M Zones.

N. Restaurant in the R-4 Zone, provided there is a minimum of one hundred (100) established hotel-motel guest
rooms within five hundred feet (500') from the boundary of the proposed restaurant site. The one hundred (100)
established hotel-motel guest rooms within five hundred feet (500') may be used to support any number of restaurants
within the affected area.

O. Establishment or enterprises which involve large assemblages of people on more than four occasions per
year, including, but not limited to, any open air theater, Certified Farmers Market, street market, trade fair, trade
exchange, recreational or sport center, in the C Zones.

P. Automobile wrecking in the C-M and M-1 Zones.

Q. Car wash, auto polishing, auto steam cleaning establishment in the C-1, C-P and C-2 Zones, provided that
such installation shall be subject to the noise restrictions established in Chapter 28.60 of this Title.

R. State-licensed residential care facilities for the elderly, community care facilities and hospices serving more
than 12 individuals in the A, E, R, and C Zones.

1. STANDARDS.

   a. If a new residential care facility for the elderly, community care facility or hospice which is subject
to a Conditional Use Permit includes a staffed congregate kitchen and dining facility providing regular meals to
residents, living units may include modular cooking units without being counted as residential units.

   b. If an existing residential care facility for the elderly, community care facility or hospice as of the
effective date of this Ordinance, which is subject to a Conditional Use Permit includes a staffed congregate kitchen
and dining facility providing regular meals to residents, living units may be converted to include modular cooking
units without being counted as residential units under the provisions of a new Conditional Use Permit.

   c. If a new or existing residential care facility for the elderly, community care facility or hospice as of
the effective date of this Ordinance, which is subject to a Conditional Use Permit does not include a congregate
dining facility, but does include kitchens in its living units, living units shall be counted as residential units.

   d. Recreational facilities and skilled nursing facilities intended primarily for the residents may be
allowed in connection with residential care facilities for the elderly, community care facilities or hospices provided
that such uses are incidental and accessory thereto. The use of the facilities by persons other than residents and staff
may be limited.

2. FINDINGS:

   a. For new State licensed residential care facilities for the elderly, community care facility or hospice,
in addition to the findings required under Section 28.94.020, the Planning Commission or City Council on appeal
must find upon a showing of adequate information that:

      (1) The facility will generate a demand for resources such as water, traffic, and other public
services equivalent to no more than that which would be demanded by development of the property in accordance
with the underlying zone, and such resources are available in amounts adequate to service the proposed facility.

      (2) The intensity of use in terms of the number of people, hours of operation, hours of major
activities, and other operational aspects of the proposed facility is compatible with any neighboring residential use.

      (3) The proposed facility shall be able to be converted to a density which conforms to the
residential unit density of the underlying zone. Sufficient land area has been shown to be available to meet the
parking demand of a future use.

   b. For existing State-licensed residential care facilities for the elderly, community care facility or
hospice as of the effective date of this Ordinance requesting an alteration or modification, in addition to the findings
required under Section 28.94.020, the Planning Commission or City Council on appeal must find upon a showing of
adequate information that:

      (1) The proposal has been reviewed and approved by the City Fire Marshall and the City
Building Official.

      (2) The facility will generate a demand for resources such as water, traffic and parking
capacity, and other public services equivalent to no more than that which would be demanded by development of the
property in accordance with the underlying zone, or if existing resource use exceeds the underlying zone, then
resource use shall be equivalent to no more than that of the existing use.

      (3) The intensity of use in terms of the number of people, hours of operation, hours of major
activities and other operational aspects of the proposed facility is compatible with any neighboring residential use.

S. Facilities and equipment, not to include offices, used by public utilities or quasi-public utilities, e.g., cable
Television, to provide services to the general public in any zone, except for Radio and Television Antennas, Cellular
Telephone Antennas and Emergency Service Antennas and any facilities or equipment expressly permitted in the
zone or authorized pursuant to Chapter 28.93 of this Code.
T. Medical equipment and supply stores of more than 3,000 square feet of net floor area in the C-O Zone, subject to the following special provisions:

The Planning Commission shall find that the use is supportive and directly related to the providing of medical and related services. The Commission may permit a portion of the space to be used for non-medically related sales and/or a percentage of dollar volume of business for non-medically related sales, provided that said amount of non-medically related use is set forth in the Conditional Use Permit.

U. Banks of more than 1,000 square feet of net floor area in the C-O Zone, subject to the following:

The intent is to allow branch banks as a convenience to the medical community and neighborhood, so that there will be less traffic into the commercial areas for deposits, and as a cash source for patients in the area. It is not the intent to establish a banking community in the area. As a result, the limitations set forth below shall apply.

Prior to issuance, the Planning Commission shall find the following:
1. No similar facility is located on adjacent property or on a parcel within three hundred (300) feet of the subject property.
2. There shall not be more than one thousand (1,000) square feet of space accessible to customers for services.
3. There shall be no drive-up window, but a walk-up window may be permitted.
4. The signing of the operation is in a manner as to identify but not advertise, and to blend in with the neighborhood.
5. Services are limited to deposits, check cashing, cashier and travelers checks, acceptance of loan applications, and night deposits. The following services are excluded: loan applications processing and safety deposit boxes.
6. The permitted number of employees is consistent with the above.

V. Automobile service station, automobile service station/mini-market or conversion to an automobile service station/mini-market shall be subject to the following conditions, standards and limitations:

1. Conditions. Specific conditions may be imposed to carry out the purposes of this Code.
2. Lot Area. The minimum area of the parcel or lot shall not be less than eight thousand (8,000) square feet.
3. Street Frontage. Each lot shall have a minimum frontage of not less than one hundred (100) feet on one abutting street.
4. Architecture. The architecture of the service station structures and landscaping shall be reviewed and approved by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. The architectural theme shall be integrated into the design of all improvements of the site including canopies and fencing.
5. Driveways.
   a. New Service Stations. For service stations constructed after the effective date of this Subsection, driveway entrances to the service station shall not be within twenty (20) feet of the curb return (beginning of curve) on corner lots.
   b. Existing Service Stations. For driveway entrances of service stations that have been constructed prior to the effective date of this Subsection, relocation of driveway entrances may be required to minimize interference with the movement and safety of vehicular and pedestrian traffic.
6. Internal Circulation. Where access from an internal circulation system of a shopping center or public parking area is available, direct street access to a service station may be prohibited or restricted.
7. Parking. Parking shall conform to the minimum parking requirements as outlined in Section 28.90.100 or a minimum of five (5) parking spaces shall be provided or one (1) parking space for each two hundred fifty (250) square feet of gross floor area used for mini-market use and one (1) space for each employee shall be provided; whichever is greater.
8. Lighting. Any perimeter flood lighting shall be hooded or shielded so that no direct beams fall upon adjacent residential property. Indirect soft lights and low garden lights shall be used wherever possible, and shall be required as necessary to assure compatibility with adjacent and surrounding properties.
9. Landscaping. All landscaped areas shall be as follows:
   a. A planter shall be provided along all street-side property lines except for driveway openings.
   b. On corner lots, a minimum of one hundred fifty (150) square feet of planter area shall be provided on the property adjacent to the corner intersection.
   c. At least ten percent (10%) of the area not covered by buildings on the parcel shall be landscaped.
10. Restrooms. The entrance to all restrooms shall be screened from abutting properties by a decorative screen.
11. Fencing. A decorative fence six (6) feet in height from finished grade shall be provided on all property lines that do not abut a street, alley or parking area, with the exception that a fence may not be required for a service station that is an integral part of a commercial, industrial or office center or where combined landscaping will be achieved with such adjacent properties.
   a. Repair of vehicles is only permitted within an enclosed building.
   b. All servicing of vehicles other than minor servicing shall be conducted within an enclosed building.
c. All materials, products and merchandise shall be stored and displayed only within an enclosed building.

d. No used or discarded automotive parts or equipment or visible junk or wrecked vehicles shall be located or stored outside the service station building.

e. Trash shall be stored in areas screened from public view by a fence with a minimum height of six (6) feet. Trash shall not be stored or piled above the height of the fence.

13. Fire Department Approval. Prior to the issuance of any building permit for a service station or any portion thereof, the Fire Department shall review the plans and approve said plans if they comply with applicable Fire Department ordinances and regulations.

W. Public or quasi-public facility, including homeless shelters providing services and programs beyond the definition of minimal supportive services specified in Section 28.04.273 (subject to a separation of at least 300 feet from another emergency shelter or homeless shelter), in any zone, except those expressly permitted in the zone or authorized pursuant to Chapter 28.93 of this Code, and Radio and Television Antennas, Cellular Telephone Antennas and Emergency Service Antennas.

X. Any use other than those permitted by Section 28.73.030.A of the OM-1 Zone and permitted in the M-1 Zone and subject to those findings required in Section 28.73.030.B and Section 28.94.020.

Y. General office uses in the HRC-2 Zone as permitted by Subsection 28.22.030.2.c, and subject to the findings required in Subsection 28.22.030.2.c and Section 28.94.020.

Z. Secondary Dwelling Units in any A, E or R-1 Zone, subject to the following provisions:

1. The minimum lot size for any parcel containing a Secondary Dwelling Unit shall be seven thousand (7,000) square feet.

2. There shall be no more than one (1) existing single-family dwelling, hereinafter referred to as the primary dwelling, on the parcel.

3. The Secondary Dwelling Unit shall be attached to the primary dwelling by a common wall, floor or ceiling and not simply by an attached breeze-way or porch. Said unit shall involve no more than a ten percent (10%) increase in the square footage of the primary dwelling nor shall it constitute more than forty percent (40%) of the combined floor area of the primary dwelling and Secondary Dwelling Unit, exclusive of the garage or carport.

4. The maximum floor area of the Secondary Dwelling Unit shall not exceed six hundred (600) square feet.

5. Setbacks and height limitations for the Secondary Dwelling Unit shall be the same as for the primary dwelling.

6. One (1) off-street parking space, covered or uncovered, shall be required for a Secondary Dwelling Unit. In addition, if the primary dwelling does not provide parking as required by Subsection 28.90.100.G.1 of this Title, such parking shall be provided. The garage or carport for the primary dwelling shall not be converted to provide a Secondary Dwelling Unit.

7. There shall be no more than four (4) separate rooms in a Secondary Dwelling Unit, one of which shall be a kitchen and one a bathroom. The total number of rooms on the parcel shall not be increased by more than two (2), including the bathroom and kitchen for the Secondary Dwelling Unit. The Secondary Dwelling Unit shall also provide a separate entrance.

8. Both the primary dwelling and the Secondary Dwelling Unit shall comply with all requirements of the housing code in effect on the date of issuance of the building permit for the Secondary Dwelling Unit. Any alteration or addition shall comply with all requirements of the California Building Code as adopted and amended by the City.

9. A separate water meter shall be provided for the Secondary Dwelling Unit. The primary dwelling shall be retrofitted with water-conserving devices to the same extent as if the dwelling were being built under the California Building Code as adopted and amended by the City.

10. Before obtaining a building permit for a Secondary Dwelling Unit, the property owner shall file with the County Recorder, upon approval by the City Attorney as to form and content, a covenant containing a reference to the deed under which the property was acquired by the present owner and stating that:

a. The Secondary Dwelling Unit shall not be sold separately from the primary dwelling.

b. The Secondary Dwelling Unit is restricted to the approved size.

c. The conditional use permit for the Secondary Dwelling Unit shall be in effect only so long as either the primary dwelling or the Secondary Dwelling Unit is occupied by the owner of the lot on which the Secondary Dwelling Unit is located, except for bona fide temporary absences. The conditional use permit shall remain valid if disability or infirmity require the institutionalization of the owner.

d. The Secondary Dwelling Unit shall be rented at a rate that is affordable to low and moderate income families or to immediate family members as required under Subsection 28.94.030.Z.12 of this Title.

e. The conditional use permit, and any conditions imposed by said permit, shall lapse upon removal of the Secondary Dwelling Unit.

f. There shall be no more than two (2) inhabitants in any Secondary Dwelling Unit.

g. The above declarations are binding upon any successors in ownership of the property; any lack of compliance shall revoke the conditional use permit.

11. Secondary Dwelling Units shall be prohibited in High Fire Hazard Areas (as defined in the Fire Master Plan.)

12. The Secondary Dwelling Unit, or the primary dwelling if the owner chooses to live in the Secondary Dwelling Unit, shall be leased or rented to a person or persons falling within one or more of the following categories:
a. A household whose head is a member of the owner's immediate family. For purposes of this Section, "immediate family" shall be defined as parents, grandparents, children, grandchildren, sisters, brothers, and equivalent in-laws.

b. Low income households (incomes less than 80 percent of the median income for the City), as determined by the United States Department of Housing and Urban Development (HUD). The rent level will be no more than the Fair Market Rent levels for the City as determined and adjusted from time to time by HUD, and the owner shall give priority for occupancy to households referred by the Santa Barbara Housing Authority. If the unit is rented or leased to households not referred by the Housing Authority, the income level of the renter selected must be certified by the Housing Authority as to eligibility and this certification must be submitted to the Community Development Director. The Housing Authority may assess a fee for certification of renters other than those referred by the Housing Authority. The rent level for such low-income renters shall not exceed one twelfth (1/12) of thirty percent (30%) of the certified income of the renter. In addition, the owner must submit annually to the Housing Authority a copy of the lease or rental agreement in effect that identifies the rent level and the name and income level of the lessee/renter.

c. Moderate income households (incomes between 81 and 120 percent of the median income of the City), if the owner chooses not to rent to a family member and a sworn declaration supported by written documentation, such as loan documents, setting forth the financial reasons why the unit will not be rented to a low-income household is submitted to the City. Generally, the only acceptable financial reason would be that higher rent is required in order to meet the carrying costs of new construction. The rent levels will be not more than one-twelfth (1/12) of thirty percent (30%) of the median income for a family of four in the City adjusted for household/unit size according to the following factors:

<table>
<thead>
<tr>
<th>Unit Size</th>
<th>Factor</th>

<tbody>
<tr>
<td>Studio</td>
<td>.70</td>
</tr>
<tr>
<td>One-Bedroom</td>
<td>.80</td>
</tr>
<tr>
<td>Two-Bedroom</td>
<td>.95</td>
</tr>
<tr>
<td>Three-Bedroom</td>
<td>1.065</td>
</tr>
</tbody>
</table>

Prior to the rental or leasing of the unit, the income level of the household shall be certified by the Housing Authority. The Housing Authority may assess a fee for certification of renters other than those referred by the Housing Authority. In addition, the owner must submit annually to the Housing Authority a copy of the lease or rental agreement in effect that identifies the rent level and name and income of the lessee/renter.

13. Approved Secondary Dwelling Units shall be subtracted from the Density Reserve established by Policy 5-1.0 of the City's Housing Element, as adopted by the City of Santa Barbara on June 8, 1982. When there are no units available in the Density Reserve, no conditional use permits shall be granted for Secondary Dwelling Units.

14. Secondary Dwelling Units shall be prohibited if there is an accessory building containing additional dwelling space, an additional dwelling unit approved under Section 28.93.030.E, caretaker's residence or similar use on the parcel. Furthermore, no accessory building intended to provide additional dwelling space, additional dwelling unit under Section 28.93.030.E, caretaker's residence or similar use shall be constructed on a lot where there is an approved Secondary Dwelling Unit.

15. The Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, shall review all Secondary Dwelling Units which require exterior change to the primary dwelling to assure that there is minimal evidence of occupancy of the parcel by more than one (1) family and that any changes or additions to the exterior of the primary dwelling necessary to establish the Secondary Dwelling Unit blend architecturally with the primary dwelling.

16. In order to encourage the development of housing opportunities for disabled and handicapped individuals, the Planning Commission may allow reasonable deviation from the stated physical requirements where necessary to install features that facilitate access and mobility for disabled persons. Otherwise, no modification of the requirements for a Secondary Dwelling Unit shall be allowed unless specifically stated in this Section.

17. In addition to the findings required under Section 28.94.020, the Planning Commission, or City Council on appeal, must find that:

a. The Secondary Dwelling Unit does not overload the capacity of the neighborhood to absorb it or cause a concentration of such units sufficient to change the character of the single-family neighborhood in which it is located.

b. The Secondary Dwelling Unit does not detract from the privacy of the surrounding residents.

18. Modifications.

a. Parking. No modification of the required number of parking spaces shall be allowed. Modification of other parking-related requirements may be allowed subject to the provisions of Section 28.92.110 of this Code.

b. Setbacks and height limitations. Modification of these requirements may be allowed subject to the provisions of Section 28.92.110 of this Code.

AA. Any interim use deemed appropriate by the Planning Commission in those areas identified by resolution of the City Council as impacted by governmental action. Such interim uses shall be limited in duration as specified by the Planning Commission, provided all such uses are discontinued within two (2) years of the completion of the governmental action. Any authorization granted by the conditional use permit shall terminate at that time.
The conditional use permit granted pursuant to this Subsection shall not be effective until the property owner has duly executed and recorded an instrument binding itself, its successors in interest and any person holding thereunder, which contains (i) notice of the conditional use permit, (ii) notice of any conditions established thereunder, (iii) an agreement to comply with the terms and conditions of the conditional use permit, (iv) a waiver of any claim that a temporary use or any improvements on real property creates any vested right to continue a non-conforming use after completion of the governmental action, and (v) any other conditions as deemed necessary to comply with the purposes and intent of this Subsection. This instrument shall be subject to the review and approval of the City Attorney and the Community Development Director.

BB. Bed and Breakfast Inns in Designated Historic Structures.
1. R-O Zone
   a. Bed and Breakfast Inns in Structures of Merit or Landmarks in the R-O zone, in accordance with the provisions of Chapter 22.22 of this Title.
   b. Bed and Breakfast Inns in a structure located on a lot in the R-O zone, on which a Structure of Merit or Landmark used as a Bed and Breakfast Inn is also located.
2. R-3 Zone
   a. Bed and Breakfast Inns in Structures of Merit or Landmarks in the R-3 zone, in accordance with the provisions of Chapter 22.22 of this Title, subject to the following conditions.
      (1) The owner or manager of the Bed and Breakfast Inn shall maintain his or her primary residence on the property that contains the Bed and Breakfast Inn.
      (2) No meals shall be served to persons other than guests and residents of the Bed and Breakfast Inn.
      (3) No conference or meeting rooms/facilities shall be provided.
      (4) No outdoor swimming pool shall be provided; however, outdoor spas, hot tubs or similar facilities may be provided.
      (5) Other conditions imposed by the Planning Commission in order to ensure compatibility with the surrounding neighborhood.
   b. Bed and Breakfast Inns in a structure located on a lot in the R-3 zone, on which a Structure of Merit or Landmark used as a Bed and Breakfast Inn is also located, subject to the conditions listed in §28.94.030.BB.2.a. above.
3. Review by the Historic Landmarks Commission. Plans for new structures or alterations to existing structures under 1 and 2 above shall be submitted to the Historic Landmarks Commission for review and action in accordance with the provisions of Chapter 22.22 of this Title.

CC. Offsite Hazardous Waste Management Facilities in the C-M, M-1, and OM-1 zones, subject to the provisions in Chapter 28.75, HWMF Overlay Zone.

DD. Television, Radio and Cellular Telephone Antennas in all zones, subject to the following provisions:
1. Exemptions. The following are exempt from the requirement of a Conditional Use Permit, and shall be considered a permitted use in all zones:
   a. Repairs and maintenance of existing facilities, whether emergency or routine, or replacement of transmitters, antennas, or other components of existing permitted facilities, provided there is little or no change in the visual appearance or any increase in radio frequency emission levels.
   b. Satellite Dish Antennas designed or used for the reception of television or other electronic communications signal broadcast or relayed from an earth satellite.
   c. One or more cellular telephone antennas or paging antennas, provided that the Community Development Director finds as follows:
      (1) Height: The height of the antenna and supporting structure does not exceed Municipal Code height limits set forth in Sec. 28.87.260, except where said antenna is being installed on an existing structure, in which event the height limit is measured from the highest point of the building and cannot exceed 15 feet above the building height.
      (2) Separation: There is at least 100 feet between the base of the antenna support structure and the nearest dwelling unit.
      (3) Access Control: The applicant establishes that the general public will be excluded from an area at least 50 feet in all directions from the antenna if antenna is not at least 10 feet off the ground. If the antenna is at least 10 feet above grade, this distance may be reduced to 30 feet.
      (4) No Resource Impacts: The project will have no significant impact on any biological or archeological resources and will not generate additional traffic. The applicant may be required to provide information to the Community Development Director regarding these matters.
      (5) No Visual Impacts: The project has been reviewed by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located in the El Pueblo Viejo Landmark District or another landmark district or if the property contains a designated City Landmark. The Board and Commission may take action regarding the location of the antenna(s) on the site, color and size of the proposed antennas so as to minimize any adverse visual impacts.
d. A microcell, provided it has been reviewed by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located in the El Pueblo Viejo Landmark District or another landmark district or if the property or a structure thereon is a designated City Landmark. The Board and Commission may take action regarding the location of the antenna(s) on the site, color and size of the proposed antennas so as to minimize any adverse visual impacts.

2. Conditional Use Permit by Planning Commission. A Radio or Television Antenna shall be permitted only upon issuance of a conditional use permit by the Planning Commission, and only if each of the following findings has been made:
   a. Shared Use of Support Structure. The applicant had made a good faith effort to demonstrate that no existing or planned support structure, including an antenna tower, is available to accommodate the proposed antenna.
   b. Site Size. The site is of a size and shape sufficient to provide an adequate setback from the base of the antenna support structure to any property line abutting a residential use.
   c. Visual Impact. The project has been reviewed by the Architectural Board of Review, the Historic Landmarks Commission if the property is located in the El Pueblo Viejo Landmark District or another landmark district or if the property contains a designated City Landmark. The Board and Commission may take action on the location of the antenna(s) on the site, color and size so as to minimize any adverse visual impacts by requiring that the antenna and its supporting structure be designed and placed so as to be as visually unobtrusive as feasible, taking into consideration technical engineering and other pertinent factors. The Planning Commission may grant a waiver from height limitations if it finds that no feasible alternative location or design would not require such a waiver.
   d. Non-ionizing Electromagnetic Radiation (NIER) Emissions. Any new transmitters and/or antennas, when combined with existing sources of NIER emissions on or adjacent to the site and when operating as designed and licensed, shall not expose the general public to ambient radiation emissions which exceed American National Standards Institute (ANSI) C95.1-1992 standard (if the Federal Communications Commission (FCC) rulemaking committee adopts a revised standard, said standard shall apply).

EE. Outdoor performance areas involving structures such as bandshells or amphitheaters in the PR Zone.

28.94.034 Uses Prohibited.

Shooting clubs, any activities involving the discharge of firearms, and clubs providing primarily indoor recreation facilities rather than outdoor facilities are prohibited. (Ord. 4152, 1982; Ord. 3710, 1974.)

28.94.035 Mobilehome and Permanent Recreational Vehicle Parks.

The construction or expansion of a mobilehome or permanent recreational vehicle park (as those terms are defined in Sections 28.04.470 and 28.04.570 of this code, respectively) may be permitted in all zones where residential uses are allowed, except a city-designated high fire hazard area and a city landmark district established under Chapter 22.22 of this Code upon the granting of a conditional use permit. (Ord. 5459, Section 3, 2008; Ord. 4269, 1984.)

28.94.040 Standards for Mobilehome Parks and Permanent Recreational Vehicle Parks.

The following standards shall apply to the construction of a new mobilehome or permanent recreational vehicle park or the expansion of an existing park in the City.

A. MINIMUM SIZE. Any mobilehome or permanent recreational vehicle park developed under the provisions of this Chapter shall be located on a site of not less than two (2) acres.

B. DENSITY. Maximum density in a mobilehome or permanent recreational vehicle park shall not exceed the density allowable for any residential use in the same zone. Any restrictions applicable to standard residential development (for example, the slope density provisions of Section 28.15.080 of this Code) shall also apply when computing density for a mobilehome or permanent recreational vehicle park, except that Section 28.21.080.7 of this Code shall not apply in the R-3 and R-4 zones.

C. SETBACKS AND PERMITS. A mobilehome or permanent recreational vehicle park shall comply with the minimum setback regulations applicable to other residential developments in the zone in which the development is located.

D. INTERNAL ROADWAY WIDTH. Internal roadways shall provide direct access to each mobilehome or recreational vehicle space and shall be provided in such a pattern as to provide convenient and safe traffic circulation within the mobilehome or permanent recreational vehicle park. Such roadways shall be built to the following standards:
1. No roadway shall be less than twenty-six (26) feet in width if automobile parking is not permitted on the roadway; not less than thirty-two (32) feet if automobile parking is allowed on one (1) side of the roadway and not less than forty (40) feet in width if automobile parking is permitted on both sides of a roadway.

2. There shall be rolled concrete curbs and gutter installed on both sides of the roadway in accordance with standards established by the Public Works Department.

3. The roadways shall be paved according to standards established by the Public Works Department.

E. LIGHTING. Internal roadways and walkways shall be lit using low-intensity lighting directed away from surrounding residential uses.

F. LANDSCAPING REQUIREMENTS.

1. Wall, fence or screen. An ornamental wall, fence or screen planting acceptable to the Planning Commission and not less than six (6) feet in height shall be erected and maintained along the side and rear boundaries of a mobilehome or permanent recreational vehicle park. Where, in the opinion of the Planning Commission, it is unreasonable to require a wall, fence or screen planting due to the nature of the existing topography or other existing conditions that might render such wall, fence or screen ineffective, the Commission, at its discretion, may waive or modify the requirements as specified in this Section.

2. Ornamental planting. Ornamental planting at least six (6) feet in depth along the full width of the front of the mobilehome or permanent recreational vehicle park property, and acceptable to the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, shall be installed and maintained whether or not the property fronts along a public street. An ornamental wall or fence may be erected in conjunction with the above-mentioned ornamental planting, but shall not take the place of said ornamental planting.

3. Street trees and parkway planting. Street trees and parkway planting shall be installed and maintained along the full width of the front of the mobilehome or permanent recreational vehicle park property when said property fronts on a public street. All trees and plants installed within the street right-of-way shall be approved by the Parks Department.

G. GUEST PARKING. Guest parking shall be provided in accordance with Section 28.90.100.7 of this Code.

H. LAUNDRY FACILITIES. Common laundry facilities shall be provided. Such facilities shall consist of one (1) automatic washer and one (1) dryer for each ten (10) mobilehome or recreational vehicle spaces or fraction thereof. In such cases where the applicant can demonstrate that this standard cannot or should not reasonably be met, this standard may be modified by the Planning Commission. (Ord. 4851, 1994; Ord. 4269, 1984.)

28.94.045 Standards for Mobilehome and Permanent Recreational Vehicle Spaces.

The following standards shall apply to any newly constructed mobilehome or permanent recreational vehicle park.

A. SPACE DIMENSIONS. Each mobilehome and recreational vehicle space shall be a minimum of twenty-six (26) feet wider and ten (10) feet longer than the mobilehome or recreational vehicle placed in that space.

B. SPACE SETBACKS. Each mobilehome and recreational vehicle space shall have a minimum side setback of not less than three (3) feet and a front and rear setback of not less than five (5) feet.

C. LOT COVERAGE. In no case shall the area of a mobilehome or recreational vehicle space occupied by a mobilehome, recreational vehicle, cabana, carport, ramada or any accessory structure or awnings or combination thereof exceed sixty percent (60%) of the total area of that space.

D. ONE (1) MOBILEHOME OR RECREATIONAL VEHICLE PER SPACE. Not more than one (1) mobilehome or recreational vehicle shall be allowed on any mobilehome or recreational vehicle space.

E. DISTANCE BETWEEN STRUCTURES. The minimum distance required between mobilehomes or recreational vehicles and a building, or between mobilehomes or recreational vehicles and other mobilehomes or recreational vehicles shall be as established by Section 18611 of the California Health and Safety Code, as amended from time to time.

F. OBSTRUCTIONS. No obstruction of any kind shall be erected, placed or maintained on or about the mobilehome or recreational vehicle space which would impede the movement of a mobilehome or recreational vehicle to or from a space or prevent inspection of plumbing or electrical facilities.

G. OPEN SPACE. All mobilehome and recreational vehicle parks and spaces shall meet the minimum open space requirements of the zone in which the development is proposed.

H. PAD AND SURFACE. Each mobilehome and recreational vehicle shall be placed on a pad at least large enough to cover the entire area underneath any mobilehome or recreational vehicle placed thereon. Each such pad shall be surfaced with asphaltic concrete of minimum thickness of two inches, or an equivalent surfacing material to the length and width of the mobilehome or recreational vehicle placed on the space. There shall be provided on each mobilehome and recreational vehicle space a concrete patio of at least one hundred forty (140) square feet in area, and in no event less than nine (9) feet in width.

I. PARKING. Parking shall be provided in accordance with Section 28.90.100.7 of this Code.

J. SKIRTING. The underneath of all mobilehomes and recreational vehicles shall be enclosed from the bottom of the mobilehome or recreational vehicle to the ground with a solid metal skirt, wood skirt, block wall or equivalent material approved by the Community Development Director. (Ord. 5459, 2008; Ord. 4269, 1984.)
28.94.050 Overnight Recreational Vehicle Parks.

The construction or expansion of an overnight recreational vehicle park, as that term is defined in Section 28.04.565 of this Code, may be permitted in P-D, C-P, C-L, C-1, C-2, C-M and R-4 zones upon the granting of a conditional use permit subject to the requirements of this section and Sections 28.94.055, 28.94.060 and 28.94.065. (Ord. 5459, Section 3, 2008; Ord. 4269, 1984.)

28.94.055 Overnight Recreational Vehicle Park Standards.

The following standards shall apply to the construction of a new overnight recreational vehicle park or the expansion of an existing park in the City.

A. TEMPORARY USE. No overnight recreational vehicle park shall be occupied for more than thirty (30) days within a 60 day period by any park guest, nor shall any recreational vehicle space be occupied by other than a recreational vehicle or tent, except that a mobilehome, apartment or other dwelling unit may be located in the park for residential use by one park manager or caretaker and his family.

B. MINIMUM SIZE. Any overnight recreational vehicle park developed under these provisions shall be located on a site of not less than two (2) acres.

C. DENSITY. Maximum density in an overnight recreational vehicle park shall not exceed thirty (30) recreational vehicle spaces per acre.

D. SETBACKS. All recreational vehicles, buildings, and other structures shall be set back a minimum of twenty (20) feet from any street right-of-way and a minimum of ten (10) feet from any interior lot line, except that an ornamental screen wall or fence may be constructed within the setback area.

E. LANDSCAPING AND SCREEN PLANTING.

1. An ornamental wall, fence or screen planting acceptable to the Planning Commission and not less than six (6) feet in height shall be erected and maintained along the side and rear boundaries of an overnight recreational vehicle park. Where, in the opinion of the Planning Commission, it is unreasonable to require a wall, fence or screen planting due to the nature of the existing topography or other existing conditions that might render such wall, fence or screen ineffective, the Commission, at its discretion, may waive or modify the requirements as specified in this Subsection.

2. Ornamental planting, acceptable to the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark, shall be installed and maintained in all setback areas. Along the front property line, an ornamental wall or fence may be erected in conjunction with the above-mentioned ornamental planting.

3. Street trees and parkway planting shall be installed and maintained along the full width of the front of the overnight recreational vehicle park property when said park fronts on a public street. All trees and plants within the street right-of-way shall be approved by the Parks Department.

F. INTERNAL ROADWAY WIDTH. Internal roadways shall provide direct access to each recreational vehicle space and shall be provided in such a pattern as to provide convenient and safe traffic circulation within the overnight recreational vehicle park. Such roadways shall be built to the following standards:

1. No roadway shall be less than twenty (20) feet in width if automobile parking is not permitted on the roadway, not less than twenty-six (26) feet if automobile parking is allowed on one (1) side of the roadway only, and not less than thirty-two (32) feet in width if automobile parking is allowed on both sides of the roadway.

2. The roadways shall be paved according to standards established by the Public Works Department.

3. There shall be rolled concrete curbs and gutters installed on both sides of the roadway in accordance with standards established by the Public Works Department.

G. RECREATIONAL FACILITIES. Recreational facilities may be provided as part of the recreational vehicle park. If said facilities are constructed, they shall be available for use only by the occupants and their guests.

H. GUEST PARKING. Guest parking shall be provided in accordance with Section 28.90.100.9 of this Code.

I. LAUNDRY FACILITIES. Shall be required in the park at a ratio of one (1) washer/dryer combination per ten (10) recreational vehicle spaces or fraction thereof.

J. LIGHTING. Internal roadways and walkways shall be lit using low-intensity lighting directed away from surrounding uses. (Ord. 4851, 1994; Ord. 4269, 1984.)

28.94.060 Standards for Overnight Recreational Vehicle Spaces.

The following standards shall apply to any newly constructed overnight recreational vehicle space:

A. SPACE DIMENSIONS. Recreational vehicle spaces shall be a minimum of sixteen (16) feet wide and fifty (50) feet long.

B. SETBACKS. Each recreational vehicle space shall have a minimum setback of not less than three (3) feet on all sides.

C. LOT COVERAGE. In no case shall the area of a recreational vehicle space occupied by a recreational vehicle, automobile, storage locker or any accessory structure or awnings or combination thereof exceed seventy-five percent (75%) of the total space area.
D. ONE RECREATIONAL VEHICLE PER SPACE. Not more than one (1) recreational vehicle shall be allowed on a single recreational vehicle space, except that a camper or motor home towing another recreational vehicle may occupy a single space.

E. DISTANCE BETWEEN STRUCTURES. The minimum separation between recreational vehicles or between a recreational vehicle and a building shall be six (6) feet.

F. PARKING. Parking shall be provided in accordance with Section 28.90.100.9 of this Code.

G. LANDSCAPING. Any portion of a recreational vehicle space not occupied by an automobile or recreational vehicle parking space or other structure shall be planted with grass or other plant material approved by the Architectural Board of Review, or the Historic Landmarks Commission if the property is located within El Pueblo Viejo Landmark District or another landmark district or if the structure is a designated City Landmark. A minimum of one (1) shade tree of a minimum fifteen (15) gallon size shall be planted on each space. In addition, the use of landscaping to screen spaces from each other is encouraged. (Ord. 5459, 2008; Ord. 4851, 1994; Ord. 4269, 1984.)

28.94.065 Findings.

In addition to the findings required by Section 28.94.020 of this Chapter, the Planning Commission shall, prior to approving the construction, expansion or enlargement of an overnight recreational vehicle park, find that said park is located in close proximity to major streets and highways and will not encourage park occupants or prospective occupants to travel through residential neighborhoods or on streets with parking or traffic circulation problems in order to arrive at or to depart from said park. (Ord. 4269, 1984.)

28.94.070 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a conditional use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

28.94.080 Notice of Decision; Appeals from the Planning Commission to the City Council.

A. NOTICE OF DECISION. Within five (5) days after final decision by the Planning Commission on an application for a conditional use permit, notice of the decision shall be mailed to the applicant at the address shown upon the application and to all other persons who have filed a written request therefor with the Community Development Department.

B. APPEALS FROM THE PLANNING COMMISSION TO THE CITY COUNCIL. Any decision of the Planning Commission made pursuant to this Chapter 28.94 may be appealed to the City Council in accordance with Chapter 1.30 of this Code.

C. NOTICE OF APPEAL. In addition to the procedures specified in Chapter 1.30, notice of the public hearing before the City Council on an appeal from a decision of the Planning Commission regarding a variance shall be provided in the same manner as notice was provided for the hearing before the Planning Commission.

D. FEE FOR APPEAL. At the time of filing an appeal, the appellant shall pay a fee in the amount established by resolution of the City Council. (Ord. 5380, 2005.)
Chapter 28.95

TRANSFER OF EXISTING DEVELOPMENT RIGHTS

Sections:
28.95.010 Purposes.
28.95.020 Definitions.
28.95.030 Approval of Transfer of Existing Development Rights.
28.95.040 Amount of Existing Development Rights That Can Be Transferred from a Sending Site to a Receiving Site.
28.95.050 Development Plan Approval.
28.95.060 Review and Findings.
28.95.070 Conditions of Approval.
28.95.080 Elimination of Existing Development Rights from Sending Site.
28.95.090 Recordation and Disclosure to Transferees of Transfer of Existing Development Rights.
28.95.100 Expiration and Termination of Necessary Approvals.
28.95.110 Appeal Procedures.
28.95.115 Waterfront Hotel Development Agreement.
28.95.120 Enforceability.
28.95.130 Penalty.

28.95.010 Purposes.

A. To ensure a strong economy by providing a voluntary mechanism which would allow the transfer of existing nonresidential development rights from certain properties to certain other properties within the City, thereby encouraging economic vitality.

B. To encourage new development, but not new floor area, in a manner consistent with the City Nonresidential Growth Management Program Ordinance (SBMC Chapter 28.85) and Traffic Management Strategy (as approved by City Resolution No. 13-010 and dated as of March 12, 2013).

C. To promote the efficient use of under used space, and creative re-use of existing buildings.

D. To encourage uses compatible with surrounding areas.

E. To provide flexibility and opportunities for redirecting growth within the growth cap.

F. To encourage the development of a balanced community with economic diversity.

G. To stimulate revitalization of existing commercial areas of the City.

H. To accommodate large scale development that is consistent with the City Nonresidential Growth Management Program Ordinance (SBMC Chapter 28.85) and Traffic Management Strategy (as approved by City Resolution No. 13-010 and dated as of March 12, 2013).

I. To encourage the construction of housing. (Ord. 5609, 2013; Ord. 4790, 1992.)

28.95.020 Definitions.

A. Existing Development Rights consist of the following:

1. Existing Floor Area. The amount of nonresidential floor area of existing structures on a sending site; and

2. Approved Floor Area. Nonresidential floor area which has received all discretionary approvals from the City prior to the date of application for a transfer, provided that none of those approvals has expired prior to the date of such application; and

3. Demolished Floor Area. Nonresidential floor area of a structure, demolished after October 1988 and not subsequently reconstructed, and

4. Converted Floor Area. Nonresidential floor area of a structure, which has been permanently converted from nonresidential use to a residential use after October 1988.

Existing Development Rights may be aggregated from the above four categories but not so as to increase floor area above the amount allowed by the City Nonresidential Growth Management Program Ordinance (SBMC Chapter 28.85).

A transfer of Existing Development Rights shall transfer to the receiving site only nonresidential floor area regulated by the City Nonresidential Growth Management Program Ordinance (SBMC Chapter 28.85), and shall not transfer any other right, permit or approval. A transfer of Existing Development Rights shall not transfer credit for resource use by existing development on the sending site to the receiving site for purposes including, but not limited to, environmental review, development fees, or conditions of approval. The traffic impacts of a proposed transfer of Existing Development Rights shall be analyzed using the approved “City of Santa Barbara Traffic Model” as such Model has most recently been approved by a resolution of the City Council. Existing Development Rights shall be measured in square feet of floor area, except that hotel and motel rooms may be measured by room when Existing Development Rights are developed as hotel or motel rooms on the receiving site. Hotel and motel rooms which are approved but not constructed at the time of transfer approval shall be measured only in square feet of floor area.

B. Floor Area. "Floor area" is defined in Section 28.85.020.
C. Hotel or Motel Room. A hotel or motel room includes only that floor area within the walls of rooms let for the exclusive use of individuals as a temporary abiding place, and does not include any other areas. No replacement room shall be designed for rental or rented as more than one separate accommodation.

D. Nonresidential Floor Area. Floor area is "nonresidential" if the Community Development Director determines that the floor area was used exclusively for nonresidential purposes in October, 1988; or that the floor area was vacant in October of 1988, and the last use of the floor area prior to the proposed transfer was nonresidential; or that the floor area was approved for nonresidential purposes as described in Paragraph A.2 above.

E. Receiving Site. A site to which Existing Development Rights are transferred.

F. Sending Site. A site from which Existing Development Rights are transferred.

G. Transfer of Existing Development Rights. The transfer of Existing Development Rights as defined in Subsection A above from a sending site to a receiving site. Existing Development Rights may be transferred by sale, exchange, gift or other approved legal means, but such transfer shall not be effective until the City has approved the transfer in accordance with the provisions of this Chapter and the City’s Nonresidential Growth Management Program, as specified in SBMC Chapter 28.85, and the conditions of the transfer have been duly satisfied. (Ord. 5609, 2013; Ord. 4790, 1992.)

### 28.95.030 Approval of Transfer of Existing Development Rights.

A. Application Review. The application(s) and supporting documentation submitted by the applicant(s) shall be reviewed by the Community Development Department. If the application(s) for processing are determined to be complete by the Community Development Department, the applicant(s) shall proceed in accordance with the standard application process in place at the time of submittal.

B. Transfer Approval. Existing Development Rights may be transferred from Sending Site(s) to Receiving Site(s) pursuant to the provisions of this Chapter and any guidelines adopted by a resolution of the City Council in order to effectuate the purposes of this Chapter.

After approval, any change in the project, at either the Sending Site(s) or Receiving Site(s), which is not determined by the Planning Commission and/or the Community Development Director to be in substantial conformity with the approved project, shall be a new project and require a new application, review, and approval and/or disapproval. No transfer or receipt of Existing Development Rights shall be valid or effective unless the transfer and receipt, and development plans for both the Sending Site(s) and Receiving Site(s) comply with all requirements of this Municipal Code and have been reviewed and approved by the City in accordance with the provisions of this Chapter and the City’s Nonresidential Growth Management Program, as specified in SBMC Chapter 28.85, and all applicable conditions to the transfer have been satisfied.

C. Community Priorities. Any Existing Development Rights approved as a community priority on a sending site may be transferred only if the new development on the receiving site is also approved as a community priority.

D. Multiple Sending and Receiving Sites. Existing Development Rights may be transferred from more than one sending site to a single receiving site. Existing Development Rights may be transferred from one sending site to more than one receiving site.

E. Compliance with Approved Traffic Management Strategy. Every transfer of Existing Development Rights must comply with the City’s Council-approved Traffic Management Strategy as implemented in Section 28.85.050 of this Code. Any Existing Development Rights proposed for transfer must qualify for allocation at the Receiving Site. (Ord. 5609, 2013; Ord. 4790, 1992.)

### 28.95.040 Amount of Existing Development Rights That Can Be Transferred from a Sending Site to a Receiving Site.

A. The total amount of Existing Development Rights that can be transferred to a receiving site is subject to the applicable zoning of that receiving site, provisions of the Municipal Code, and any and all other applicable City rules and regulations.

B. The total amount of Existing Development Rights that can be transferred from a sending site to a receiving site is equal to the difference between the eliminated floor area on the sending site and the floor area of all nonresidential structures constructed or proposed to be constructed on the sending site. (Ord. 4790, 1992.)

### 28.95.050 Development Plan Approval.

The following Transfers of Existing Development Rights must receive Development Plan approval by the Planning Commission or the City Council on appeal:

A. Any transfer of more than 1,000 square feet of Existing Development Rights from a sending site.

B. Any transfer that involves the transfer of a hotel room on a room-for-room basis, and

C. Any project that is constructing, adding, or converting more than 1,000 square feet of nonresidential floor area on a Receiving Site and which includes any amount of transferred Existing Development Rights. Once a Development Plan is approved for a Sending Site, the Sending Site Development Plan approval may be used for subsequent transfers of Existing Development Rights from the Sending Site as long as the Community Development Director determines that the condition of the Sending Site following such subsequent transfers will substantially conform to the original Development Plan approval. (Ord. 5609, 2013; Ord. 4790, 1992.)
28.95.060 Review and Findings.

The Planning Commission, or the City Council on appeal, shall review each application for a transfer of Existing Development Rights and shall not approve any such transfer unless it finds that:

A. The proposed development plans for both the sending and receiving sites are consistent with the goals and objectives of the General Plan of the City of Santa Barbara and the Municipal Code; and

B. The proposed developments will not be detrimental to the site(s), neighborhood or surrounding areas; and

C. The floor area of proposed nonresidential development on the receiving site does not exceed the sum of the amount of Existing Development Rights transferred when added to the amount of Existing Development Rights on the receiving site, and does not exceed the maximum development allowed by the applicable zoning of the receiving site.

D. Each of the proposed nonresidential developments on the respective Sending Site(s) and Receiving Site(s) will meet all standards for review as set forth in Section 28.85.040 of the Municipal Code and all provisions of this Chapter, and will comply with any additional specific conditions for a transfer approval.

E. Development remaining, or to be built, on a sending site is appropriate in size, scale, use, and configuration for the neighborhood and is beneficial to the community. (Ord. 5609, 2013; Ord. 4790, 1992.)

28.95.070 Conditions of Approval.

A. The Planning Commission, or the City Council on appeal, shall require conditions of development plan approval for plans submitted for sending and receiving sites. Conditions may include, but are not limited to a development agreement, as defined in State law, executed by the City and the sending site owner or the receiving site owner, or both. The Planning Commission, or the City Council on appeal, may impose other conditions and restrictions upon the proposed development plans and transfer approval consistent with the General Plan and may require security to assure performance of all conditions and restrictions.

B. The Planning Commission, or City Council on appeal, shall require as conditions of development plan approval for plans submitted for the sending and receiving sites that:

1. Whenever a sending site owner is required by this Chapter to offer to dedicate the sending site to the City or other governmental entity approved by the City, and the floor area to be transferred will be eliminated by demolition, a sending site owner shall make such offer prior to issuance of a demolition permit for the sending site. If the City or other governmental entity approved by the City rejects said offer of dedication, the Planning Commission approval will be considered null and void; and

2. Any Existing Development Rights, measured in square feet of floor area, and/or number of hotel or motel rooms when appropriate, and whether such Existing Development Rights derive from existing, approved, demolished or converted floor area, shall be clearly and accurately designated on both the sending and receiving site development plans; and

3. Prior to issuance of any necessary permit relating to any Existing Development Rights approved for transfer from a sending site, the option, deed, easement, covenant, or other legal instrument by which the existing development rights are being transferred, and proof of recordation of the development plan for both sending and receiving sites shall be reviewed and approved by the Community Development Director.

4. Proof of the elimination of the transferred floor area from the sending site must be reviewed and approved by the Community Development Director prior to recordation of the approved instrument of transfer. The City shall be a party to the instrument of transfer in a manner acceptable to the City Attorney; and

5. Prior to the issuance of any building permit for the project proposed on the receiving site pursuant to this Chapter, proof of recordation of the transfer instrument, and proof of elimination of the Existing Development Rights on the sending site shall be accepted as satisfactory by the Community Development Director.

C. The Community Development Director, or the Director’s designee, shall require the satisfaction of the following conditions prior to the issuance of any necessary permit relating to any transfer of existing development rights that did not require the approval of the development plan pursuant to this Chapter or Chapter 28.85:

1. Whenever a Sending Site owner is required by this Chapter to offer to dedicate the Sending Site to the City or other governmental entity approved by the City, and the floor area to be transferred will be eliminated by demolition, a Sending Site owner shall make such offer prior to issuance of a demolition permit for the Sending Site. If the City or other governmental entity approved by the City rejects said offer of dedication, the transfer will be considered null and void; and

2. Any Existing Development Rights, measured in square feet of floor area, and whether such Existing Development Rights derive from existing, approved, demolished or converted floor area, shall be clearly and accurately designated on both the Sending and Receiving Site Development Plans; and

3. The option, deed, easement, covenant, or other legal instrument by which the Existing Development Rights are being transferred shall be reviewed and approved by the Community Development Director and the City Attorney as to form. The City shall be a party to the instrument of transfer; and

4. Proof of the elimination of the transferred floor area from the Sending Site must be reviewed and approved by the Community Development Director prior to recordation of the approved instrument of transfer; and

5. Proof of recordation of the transfer instrument, and proof of elimination of the Existing Development Rights on the Sending Site shall be accepted as satisfactory by the Community Development Director.

(Ord. 5609, 2013; Ord. 4790, 1992.)
28.95.080 Elimination of Existing Development Rights from Sending Site.

A. Prior to the transfer of Existing Development Rights from a sending site to a receiving site, all Existing Development Rights to be transferred shall be eliminated from the sending site.

1. Covenants and Methods of Elimination. The owner of a sending site shall eliminate floor area by one or more of the following methods and a covenant, in a form satisfactory to the City Attorney, shall be executed and recorded by each owner of the sending site. The covenant shall provide that such elimination shall continue until such time as the covenant may be released by the City, and the covenant shall be enforceable by the City.

   a. Existing floor area shall be eliminated by demolition or by converting such floor area from a nonresidential to a permanent residential use.
   b. Approved floor area shall be eliminated by relinquishing all development approvals relating to the development of such approved floor area on the sending site.
   c. Demolished floor area shall be eliminated by relinquishing all rights to rebuild such floor area on the sending site.
   d. Converted floor area shall be eliminated by preserving such floor area for residential use only.

2. Dedication of the Sending Site. If no nonresidential floor area is to remain on the sending site, one or more of the following conditions must be satisfied:

   a. The sending site is approved for residential development or conversion; or
   b. The sending site has been offered by the owner to be dedicated to the City, or other governmental entity approved by the City, for use as a park, parking lot or other public use, and the City or other approved governmental entity has accepted the dedication; or
   c. The sending site shall be used as parking or open space in conjunction with an approved development, and a covenant is recorded restricting development and use of the sending site, and all improvements are completed. If the City requires an owner to offer to dedicate a sending site to the City or other governmental entity approved by the City, such site shall be free of all defects and title shall be marketable at the time of the offer to dedicate and at the time of any acceptance. The City or other governmental entity approved by the City may accept or reject such offer in its discretion. Rejection of such offer constitutes disapproval of the proposed transfer. (Ord. 4790, 1992.)

28.95.090 Recordation and Disclosure to Transferees of Transfer of Existing Development Rights.

A. The legal instrument by which the Existing Development Rights are transferred shall be submitted with the development plan at the time of application for a transfer approval. That legal instrument, and any required development agreement shall be recorded with the County recorder after City approval of the transfer.

B. Prior to any conveyance of real property which has been approved as a sending site, the owner shall deliver to the prospective owner a written disclosure statement which shall contain all of the following:

   1. A legal description of the real property to be conveyed and if different, a legal description of the sending site; and
   2. The total amount of Existing Development Rights on the sending site prior to the transfer of existing development rights, and whether such Existing Development Rights derived from existing, approved, demolished, and/or converted floor area; and
   3. The total amount of Existing Development Rights that have been transferred from the sending site, and whether such Existing Development Rights derived from existing, approved, demolished and/or converted floor area; and
   4. A certification that the information is true and correct to the best of the owner's knowledge as of the date signed by the owner. The City shall not be liable for any error, omission, or inaccuracy contained in such disclosure. (Ord. 4790, 1992.)

28.95.100 Expiration and Termination of Necessary Approvals.

A. An approved development plan for either the sending site(s), the receiving site(s), or both, may be terminated by the City, after a noticed public hearing, if any condition of the approval of transfer of Existing Development Rights is violated or any other permit or approval necessary to approved development on either the sending or receiving site(s) or both expires or is otherwise terminated.

B. Recorded Transfers of Existing Development Rights pursuant to this Chapter shall not terminate when the approved development plan for either the sending site, receiving site(s) or both, expires or is otherwise terminated, and such transferred Existing Development Rights shall remain on the receiving site, and may either be developed pursuant to a newly approved development plan, or may be transferred to a new receiving site pursuant to this Chapter. (Ord. 4790, 1992.)
28.95.110 Appeal Procedures.

Determinations by the Planning Commission are appealable to the City Council pursuant to Section 1.30.050 of the Municipal Code. (Ord. 4790, 1992.)

28.95.115 Waterfront Hotel Development Agreement.

In the case of any conflict between the terms of this Chapter 28.95 and the provisions of the Development Agreement between the City of Santa Barbara and American Tradition, LLC dated June 23, 2016 (the “Development Agreement”), the provisions of the Development Agreement shall control. (Ord. 5750, 2016.)

28.95.120 Enforceability.

Enforcement of this Chapter shall be pursuant to Chapter 28.98 of the Municipal Code. (Ord. 4790, 1992.)

28.95.130 Penalty.

The penalty for violating any provision of this Chapter shall be pursuant to Chapter 28.98.002 of the Municipal Code. (Ord. 4790, 1992.)

Chapter 28.96
ZONING UPON ANNEXATION

Section:
28.96.001 In General.

In any petition for the annexation of property to the City, the petitioner may request the zoning desired by him for the property described in the application in the event the property is annexed to the City. Prior to the adoption by the Council of the resolution of intention to annex uninhabited territory, or in the case of an inhabited proceeding at the time of referral to the Planning Commission pursuant to Section 35108 of the Government Code, a copy of the annexation petition or request shall be referred to the City Planning Commission for investigation and report to the City Council as to the desirability of the annexation and the zoning classification to be placed thereon whether or not a zone classification has been requested. The Planning Commission shall consider the annexation of such property and the zoning to be placed thereon in the event of annexation to the City and upon completion of such consideration, the Planning Commission shall make its report and recommendations to the Council by resolution.

After receiving such report and recommendation, the City Council shall consider the zoning classification to be applied upon annexation to property to be annexed. The City Council may include any such zone consideration within any notice of hearing concerning the annexation of the property involved, and the hearing on the matter of zoning may be held in conjunction with any public hearing required by law to be held by the City Council in connection with the annexation proceedings.

Concurrent with or prior to final annexation of the territory, the City Council shall, by ordinance, classify the property for zoning purposes in accordance with its determination, and upon the effective date of such classification ordinance, or the annexation ordinance, whichever is the later, the zone classification shall be effective and a part of the General Plan of the City.

The Council may as an alternative to any of the foregoing proceedings for the zoning of annexed territory:

1. Allow the same to be finally annexed without zoning the land therein, and may initiate zoning thereof under other provisions of this title after annexation; or
2. The Council may provide by ordinance effective prior to completion of annexation proceedings upon recommendation of the Planning Commission that the territory to be annexed shall as a condition of annexation remain classified the same as it was classified or zoned as unincorporated territory where as such territory it was classified as to land use by the County of Santa Barbara pursuant to a general plan of zoning. (Ord. 3710, 1974; Ord. 2592, 1957.)
Chapter 28.97

OCCUPANCY

Section: 28.97.001 In General.

28.97.001 In General.

No vacant land shall be occupied or used, and no building hereafter erected, structurally altered or moved shall be occupied or used, until a Certificate of Occupancy shall have been issued by the Chief of Building and Zoning.

1. Certificates of Occupancy for a new building, or the enlargement, alteration or moving of an existing building, shall be applied for coincidentally with the application for a building permit and shall be issued within ten (10) days after the erection or alteration of such building shall have been completed in conformity with the provisions of the ordinance.

2. Certificates of Occupancy for the use of vacant land, or the change in use of land as herein provided, shall be applied for before any such land shall be occupied or used for any purpose except that of tilling the soil and the growing therein of farm, garden or orchard products, and a Certificate of Occupancy shall be issued within ten (10) days after the application has been made provided such use is in conformity with the provisions of this title.

3. Certificates of Occupancy shall state that the building, or proposed use of a building or land, complies with all the building and health laws and ordinances and with the provisions of this title. A record of all certificates shall be kept on file in the Office of the Chief of Building and Zoning and copies shall be furnished on request to any person having a proprietary or tenancy interest in the building or land affected. No fee shall be charged for an original Certificate; for all other Certificates or for copies of any original Certificates there shall be a charge of two dollars ($2.00) each.

4. Certificate of Occupancy for non-conforming uses existing at the time of passage of this title or any amendment thereto shall be issued by the Chief of Building and Zoning and the Certificate shall state that the use is a nonconforming use and does not conform with the provisions of this title.

5. No permit for excavation for any building shall be issued before an application has been made for a Certificate of Occupancy. (Ord. 3710, 1974.)
Chapter 28.98

ENFORCEMENT AND PENALTY

Sections:
28.98.001 Enforcement. 28.98.002 Penalty.

28.98.001 Enforcement.

It shall be the duty of the Chief of Building and Zoning, with respect to new construction, additions, alterations, changes of use or moving of existing buildings, to enforce this title by withholding of permits and Certificates of Occupancy where plan checks and field inspections reveal that completion of the project will result in a zoning violation. A Certificate of Occupancy shall not be issued until all work required by the building permit and all other conditions imposed by any officer, board, commission or other authority have been completed or satisfactorily met by bonding or other appropriate method. After a Certificate of Occupancy has been issued, and with respect to existing construction and all other sources of violations, it shall be the duty of the Division of Land Use Controls to enforce this title. In addition, all departments, officials and public employees of the City of Santa Barbara vested with the duty or authority to issue permits or licenses shall conform to the provisions of this title and shall issue no permit or license, except licenses issued for revenue purposes only, for uses, buildings or purposes in conflict with the provisions of this title; and any such permit or license issued in conflict with the provisions of this title shall be null and void.

The provisions of this title shall be interpreted by the City Attorney.

Any building or structure erected or maintained or any use of property contrary to the provisions of this title shall be, and the same is hereby declared to be, unlawful and a public nuisance and the City Attorney shall immediately commence action and proceedings for the abatement, removal and enjoinment thereof in the manner provided by law; and shall take such other steps and shall apply to any court as may have jurisdiction to grant such reliefs as will abate or remove such building, structure or use and restrain and enjoin any person, firm or corporations from erecting or maintaining such building or structure or using any property contrary to the provisions of this title.

This title may also be enforced in injunction issued out of the Superior Court upon the suit of the City or the owner or occupant of any real property affected by such violation or prospective violation. This method of enforcement shall be cumulative and in no way affect the penal provisions hereof. (Ord. 3710, 1974; Ord. 3547, 1972.)

28.98.002 Penalty.

Any person, firm or corporation, whether as principal, agent, employee or otherwise, violating any provision of this title shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than five hundred dollars ($500.00) or by imprisonment in the County Jail for a period of not more than six (6) months, or by both such fine and imprisonment. Each day that violation of this title continues shall be considered a separate offense. (Ord. 3710, 1974.)
Chapter 28.99
VALIDITY AND REPEALS

Sections:

28.99.001 Validity.

If any section, subsection, paragraph, sentence, clause or phrase of this title is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this title. The City Council hereby declares that it would have passed this title, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one (1) or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. (Ord. 3710, 1974.)

Ordinances 1493, 1663, 2069, 2070, 2118, 2158, 2194, 2250, 2268, 2320, 2326, 2332, 2333, 2346, 2358, 2369, 2386, 2389, 2390, 2397, 2405, 2456, 2463, 2464, 2465, 2466, 2467, 2479, 2480, 2489, 2512, 2514, 2522, 2562, 2578, 2581 of the City of Santa Barbara are hereby repealed and all ordinances of the City of Santa Barbara inconsistent herewith, to the extent of such inconsistency, and no further, are hereby repealed, provided that the procedure contained in this title pertaining to consideration of applications for change of zone shall not apply to any application upon which the City Council has held the final hearing pursuant to Ordinance No. 1493 prior to the effective date hereof. In any such case if the City Council approved the zone change such change may forthwith be included in the Comprehensive General Plan or zoning effective on the date of this title.

The repeal of any of the above mentioned ordinances does not revive any other ordinance or portion thereof repealed by said ordinance.

Such repeals shall not affect or prevent the prosecution or punishment of any person for the violation of any ordinance repealed hereby for any offense committed prior to the repeal. (Ord. 3710, 1974.)

TITLE

Section:
29.01.001 Generally.

An official Land Use Zoning Ordinance for the Santa Barbara Municipal Airport including the Goleta Slough is hereby adopted and established to:

A. Serve the public health, safety, comfort, convenience and general welfare;
B. Provide the economic and social advantages resulting from an orderly planned use of land resources;
C. Encourage, guide and provide a definite plan for the future growth and development of said Airport;
D. Provide for the protection, maintenance and, where feasible, enhancement of the Goleta Slough and other sensitive habitats, consistent with the intent and purpose of the Local Coastal Plan and California Coastal Act;
E. Provide the community with direct access to the National Air Transportation System;
F. Ensure that the Airport continues to be a vital economic contributor to the region by maintaining the Airport's economic self-sufficiency through effective use of its existing resources; and
G. Coordinate planning for the Airport and related facilities with the surrounding community.

This Title shall be known as "The Airport Zoning Ordinance". (Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986; Ord. 3690, 1974.)

**29.04.010 Generally.**

For the purpose of this ordinance certain words and terms are defined. Words used in the present tense include the future, except where the natural construction of the ordinance otherwise indicates; words in the singular number include the plural and words in the plural include the singular; the word "building" includes the word "structure", and the word "Council", when used herein shall mean the Council of the City of Santa Barbara. Words not defined herein but defined in the Municipal Code or the Zoning Ordinance of the City of Santa Barbara shall have the meanings set forth in said Code or Ordinance unless the context requires a different meaning. (Ord. 3690, 1974.)

**29.04.020 Aircraft Operations and Approach Area.**

Areas beneath the Approach Surface of runways and areas designated for the operation of air-craft, including runways and taxiways, runway protection zones, runway and taxiway safety areas, and other areas adjacent to the runways and taxiways. (Ord. 5025, 1997.)

**29.04.030 Airport.**

Santa Barbara Municipal Airport. (Ord. 5025, 1997; Ord. 3690, 1974.)

**29.04.040 Airport Commission.**

A board consisting of seven (7) members appointed by the Council, as provided in Section 812 of the Charter of the City of Santa Barbara. (Ord. 5025, 1997; Ord. 3690, 1974.)

**29.04.050 Airport Elevation.**

The established elevation of the highest point on the usable landing area. (Ord. 5025, 1997; Ord. 3690, 1974.)

**29.04.060 Airport Functions.**

Any area of land or water designed and set aside for the landing and taking off of aircraft, including all necessary facilities for the housing and maintenance of aircraft and related uses. (Ord. 5025, 1997; Ord. 3690, 1974.)

**29.04.070 Airport Hazard.**

Any structure, tree or use of land which obstructs the airspace required for, or is otherwise hazardous to, the flight of aircraft in landing or taking off at the Airport. (Ord. 5025, 1997; Ord. 3690, 1974.)
29.04.080 Airport Reference Point.

The point established as the approximate geographic center of the airport landing area, and so designated. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.04.090 Airport Zoning Commission.

The Planning Commission of the City of Santa Barbara. (Ord. 5025, 1997.)

29.04.100 Commercial Recreation.

Any use or development, either public or private, providing amusement, pleasure, sport, exercise or other resource affording relaxation or enjoyment, which is operated primarily for financial gain. Typical uses may include, but are not limited to, batting cages, cinemas, theaters, skating rinks, gymnasiums, athletic clubs, miniature golf course, bumper cars and go-cart tracks. (Ord. 5025, 1997.)

29.04.110 Development.

On land, in or under water, the placement or erection of any solid material or structure; discharge or disposal of any dredged material or of any gaseous liquid, solid, or thermal waste; grading, removing, dredging, mining, or extraction of any materials; change in the density or intensity of use of land, including but not limited to, subdivision pursuant to the Subdivision Map Act (commencing with Section 66410 of the Government Code), and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition or alteration of the size of any structure, including any facility of any private, public or municipal utility; and the removal or harvesting of major vegetation other than for agricultural purposes, kelp harvesting and timber operations which are in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg'Nejedly Forest Practice Act of 1973 (commencing with California Public Resources Code Section 4511). (See Chapter 28.44.) (Ord. 5417, 2007; Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)

29.04.120 Environmentally Sensitive Area.

Areas in which plant or animal life or their habitats are either rare or especially valuable because of their special nature or role in an ecosystem and which could be easily disturbed or degraded by human activities and developments. (See Section 28.04.099.4.k.) (Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)

29.04.130 Goleta Slough.

The area of wetland and adjacent upland habitats generally located between the Santa Barbara Municipal Airport, the University of California at Santa Barbara, and extending toward the fresh water outlet at Goleta Beach, including but not limited to, the area designated as recreational open space on the City of Santa Barbara's Local Coastal Plan Land Use Map. (Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)

29.04.140 Hangar.  

A covered and usually enclosed building designed and primarily used for the purpose of parking and/or repairing aircraft. Hangars may include offices and other uses related to aircraft usage. (Ord. 5025, 1997.)

29.04.150 Hangar Height.

The intent of a hangar height definition is to allow for the security, storage and maintenance of aircraft. The calculation of the height of a hangar shall be as provided in Section 28.04.140 of the Santa Barbara Municipal Code provided that those portions of a hangar utilized exclusively for the purposes of enclosing portions of an aircraft in accordance with federal regulations shall be considered an architectural element. (Ord. 5459, Section 3, 2008; Ord. 5025, 1997.)

29.04.160 Landing Area.

The area of the Airport used for the landing, taking off or taxiiing of aircraft. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.04.170 Maintenance.

Activities of upkeep that do not result in an addition to, or enlargement or expansion of the object of such maintenance activity. (Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)
29.04.180 Oil.

Where used in this ordinance, the word "oil" shall include gas and other hydrocarbon substances. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.04.190 Repair.

Activities that restore something to a previous state of efficiency, but do not result in an addition to or enlargement of the object of such repair. (Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)

29.04.200 Runway.

The paved surface of an airport landing strip. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.04.210 Runway Protection Zone.

Area defined by Federal Aviation Administration regulations beginning two hundred feet (200') from each end of the runway, the function of which is to enhance the protection of people and property on the ground by clearing the zone of incompatible objects and activities. The length and width of the Runway Protection Zone vary depending on the use of the runway. (Ord. 5025, 1997.)

29.04.220 Runway Safety Area.

A compacted smooth surface adjacent to a runway which is defined by Federal Aviation Administration regulations and is prepared or suitable for reducing the risk of damage to airplanes in the event of an undershoot, overshoot, or excursion from the runway. (Ord. 5025, 1997.)

29.04.230 Surface.

A. APPROACH SURFACE. A longitudinal surface defined by Federal Aviation Administration regulations as extending upward and outward from the ends of the runway.

B. HORIZONTAL SURFACE. A horizontal plane defined by Federal Aviation Administration regulations as being one hundred-fifty feet (150') above and parallel to the airport elevation.

C. TRANSITIONAL SURFACE. A surface defined by Federal Aviation Administration regulations as extending outward and upward at right angles to the runway centerline. (Ord. 5025, 1997.)

29.04.240 Taxiway.

A defined path established for the taxiing of aircraft from one part of an airport to another. (Ord. 5025, 1997.)

29.04.250 Taxiway Safety Area.

A compacted smooth surface which is defined by Federal Aviation Administration regulations as an area alongside the taxiway prepared or suitable for reducing the risk of damage to an airplane unintentionally departing from the taxiway. (Ord. 5025, 1997.)

29.04.270 Wetland.

Lands within the coastal zone which may be covered periodically or permanently with shallow water and include saltwater marshes, freshwater marshes, open or closed brackish water marshes, swamps, mudflats and fens. (See Chapter 28.44.) (Ord. 5417, 2007; Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)
Chapter 29.10
ZONES ESTABLISHED

Sections:
29.10.001 Establishing and Naming Zones.
29.10.010 Boundaries of Zones.
29.10.030 Uses Permitted in Zones.

29.10.001 Establishing and Naming Zones.

In order to classify, regulate, restrict and segregate the uses of land, buildings and structures; to regulate and restrict the height and bulk of buildings; to regulate the area of setbacks, yards and other open spaces about buildings; the territory of the Santa Barbara Municipal Airport is hereby divided into the following zone classifications:

- A-A-O Aircraft Approach and Operation Zone
- A-F Airport Facilities Zone
- A-C Airport Commercial Zone
- A-I-1 Airport Industrial-1 Zone
- A-I-2 Airport Industrial-2 Zone
- G-S-R Goleta Slough Reserve Zone
- C-R Commercial Recreation Zone
- P-R Park and Recreation Zone
- SP-6 Airport Industrial Area Specific Plan Zone
- S-D-3 Special District 3 - Coastal Overlay Zone

(Ord. 5459, 2008; Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986; Ord. 3690, 1974.)

29.10.010 Boundaries of Zones.

The boundaries of zones and the zone symbol are designated on the Zoning Map adopted as Chapter 29.11 of this ordinance. Combining zones are also designated on the Zoning Map. (Ord. 3690, 1974.)

29.10.030 Uses Permitted in Zones.

Except as hereinafter provided:

A. No building or structure shall be erected, moved, altered, added to or enlarged, nor shall any land, building, structure or premises be used, designed or intended to be used for any purpose or any manner, other than is permitted in the zone in which such land, building, structure or premises are located.

B. No building or structure shall be erected, moved, reconstructed or structurally altered to exceed in height the limit established for the zone in which such building or structure is located.

C. No building or structure shall be erected nor shall any existing building or structure be moved, altered, enlarged or rebuilt, nor shall any open spaces surrounding any building be encroached upon or reduced in any manner except in conformity with the lot area and setback regulations established for the zone in which such building or structure is located.

D. No setback or other open space provided about any building or structure for the purpose of complying with these regulations shall, by reason of change in ownership or otherwise, be considered as providing a setback or open space for any other building or structure. (Ord. 5459, 2008; Ord. 5025, 1997; Ord. 3690, 1974.)
Chapter 29.12

A-A-O AIRCRAFT APPROACH AND OPERATIONS ZONE

Sections:

29.12.001 Aircraft Approach and Operation Zone.

29.12.005 Legislative Intent.

29.12.030 Uses Permitted.

29.12.001 Aircraft Approach and Operation Zone.

The following regulations shall apply in the A-A-O Aircraft Approach and Operation Zone unless otherwise provided in this ordinance. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.12.005 Legislative Intent.

It is the intent of this Section to provide for suitable land uses in the areas beneath the approach surfaces, and the areas of aircraft operations adjacent to runways and taxiways, including Run-way Protection Zones, and Runway and Taxiway Safety Areas. These are areas where it is desirable to enhance safety by restricting incompatible objects and activities, where construction of buildings or structures is precluded by the necessity to preserve most of the air space for low flying aircraft, and where noise levels are not compatible with most land uses. (Ord. 5025, 1997; Ord. 3745, 1975; Ord. 3690, 1974.)

29.12.030 Uses Permitted.

The following uses are expressly permitted in the A-A-O Zone:

A. Runways and runway safety areas.
B. Taxiways and taxiway safety areas.
C. Lights and other aircraft control and guidance systems, but not including hangars, tie-down areas, buildings or other actively used facilities.
D. Open space, including vegetation, is also allowed provided that it does not conflict with Federal Aviation Regulations Part 77 and Part 139 and with FAA Advisory Circulars in the 150 series, or their successors.

The above-stated uses are permitted, providing they comply with allowed uses pursuant to the FAA Advisory Circulars in the 150 series, or their successors, for Runway Protection Zones and Runway and Taxiway Safety Areas. (Ord. 5025, 1997; Ord. 3745, 1975; Ord. 3690, 1974.)
Chapter 29.15
A-F AIRPORT FACILITIES ZONE

Sections:
29.15.001 Airport Facilities Zone.  29.15.060 Front Setback.
29.15.005 Legislative Intent.  29.15.100 Off-street Parking.
29.15.030 Uses Permitted.  29.15.131 Development Potential.
29.15.050 Building Heights.

29.15.001 Airport Facilities Zone.

The following regulations shall apply in the Airport Facilities Zone (A-F) unless otherwise provided in this ordinance.  (Ord. 3690, 1974.)

29.15.005 Legislative Intent.

It is the intent of this zone classification to establish an area in the immediate vicinity of the flight facilities at the Airport for aircraft and airport related uses and activities and to exclude from this area activities that do not use the flight facilities as an integral and necessary part of their function.  (Ord. 3690, 1974.)

29.15.030 Uses Permitted.

The following uses are expressly permitted in the A-F Zone:

A. Aircraft chartering and leasing.
B. Aircraft parking, tie-down and aircraft hangars and shelters.
C. Aircraft rescue and firefighting station.
D. Aircraft sales, manufacture, service and related administrative offices.
E. Air freight terminal.
F. Auto rentals.
G. Aviation equipment and accessories sales and/or repair.
H. Aviation storage.
I. Executive/General aviation terminal facilities with related offices and food service uses.
J. Federal Aviation Administration flight service facilities.
K. Fixed base operations.
L. Flying schools.
M. Fly-in offices.
N. Fueling facilities.
O. Museums and other cultural displays relating to aviation.
P. Passenger terminals with accessory uses such as restaurants and gift shops.
Q. Private parking lot, subject to the issuance of a Conditional Use Permit under Chapter 29.92 of this Title.
R. Public parking facilities.
S. Other aviation-related uses determined to be appropriate by the Planning Commission.
T. Non-aviation related uses consistent with the applicable regulations of the Federal Aviation Administration and determined not to be in conflict with the use of the adjacent Airport buildings as may be determined by the Community Development Director and the Airport Director.  (Ord. 5025, 1997; Ord. 3965, 1978; Ord. 3690, 1974.)

29.15.050 Building Heights.

Building height shall be established as defined in Section 29.87.050 of this Title.  (Ord. 5025, 1997; Ord. 3690, 1974.)

29.15.060 Front Yard.

The front setback shall be established as defined in Section 29.87.055 of this Title.  (Ord. 5459, 2008; Ord. 5025, 1997; Ord. 3690, 1974.)

29.15.100 Off-street Parking.

Off-street parking and loading space shall be provided as set forth in Chapter 29.90 of this ordinance.  (Ord. 3690, 1974.)

29.15.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.  (Ord. 5609, 2013; Ord. 4670, 1991.)
Chapter 29.18

A-C AIRPORT COMMERCIAL ZONE

Sections:
29.18.001 Airport Commercial Zone.
29.18.005 Legislative Intent.
29.18.030 Uses Permitted.
29.18.040 Performance Standards.
29.18.050 Building Height.
29.18.060 Front Setback.
29.18.100 Off-street Parking.
29.18.131 Development Potential.

29.18.001 Airport Commercial Zone.

The following regulations shall apply in the A-C Zone unless otherwise provided in this ordinance. (Ord. 3690, 1974.)

29.18.005 Legislative Intent.

This zone classification is designed to provide for recreational uses, general offices, automotive related commerce, certain other retail uses, and other similar places of employment characterized by a low intensity of operations. General retail commerce is excluded because these uses are adequately provided for in Old Town Goleta. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.18.030 Uses Permitted.

The following uses are expressly permitted in the A-C Zone:
A. Auto diagnostic center.
B. Automobile tire installation and repair conducted entirely within a building.
C. Branch bank or savings and loan, subject to the issuance of a Conditional Use Permit under Chapter 29.92 of this Title.
D. Commercial recreation.
E. Indoor theater.
F. Motorcycles and bicycles and accessories sales and repair.
G. Photographic shop including photographic developing.
H. Printing, lithographing, photocopying or publishing establishment.
I. Restaurant.
J. Other uses determined to be appropriate by the Planning Commission. (Ord. 5025, 1997; Ord. 4269, 1984; Ord. 3690, 1974.)

29.18.040 Performance Standards.

A. VIBRATION. No equipment, machinery or facility in such establishment shall be operated so as to produce or generate vibration which is perceptible without the aid of instruments, to a person of ordinary, normal sensibilities, at or beyond the boundary or leasehold line of the premises.
B. ODOR. No establishment shall be operated in a manner resulting in the emission of odors to an extent or degree permitting such odor to be detectable at or beyond the boundary or leasehold line of the premises.
C. ACCESSORY OUTDOOR STORAGE. There shall be no outdoor storage permitted, whether permanent or temporary. For the purpose of this Section, a storage tank, bin or other container placed outside shall be construed as constituting outside storage of the contents of such container. Trash containers may be stored outside if screened from public view. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.18.050 Building Height.

Building height shall be established as defined in Section 29.87.050 of this Title. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.18.060 Front Yards.

The front setback shall be established as defined in Section 29.87.055 of this Title. (Ord. 5459, 2008; Ord. 5025, 1997; Ord. 3690, 1974.)

29.18.100 Off-street Parking.

Off-street parking and loading space shall be provided as set forth in Chapter 29.90. (Ord. 3690, 1974.)
29.18.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85. (Ord. 5609, 2013; Ord. 4670, 1991.)

Chapter 29.21

A-I-1 AND A-I-2 AIRPORT INDUSTRIAL ZONES

Sections:
29.21.001 In General.
29.21.005 Legislative Intent.
29.21.030 Uses Permitted.
29.21.040 Performance Standards.
29.21.050 Building Height.
29.21.060 Front Setback.
29.21.100 Off-street Parking.
29.21.131 Development Potential.

29.21.001 In General.

The following regulations shall apply in the A-I-1 and A-I-2 Airport Industrial Zones unless otherwise provided in this ordinance. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.21.005 Legislative Intent.

It is the intent of the Airport Industrial Zones to provide area for light industrial and manufacturing uses, such as research and development, electronic products manufacture and similar uses, subject to performance and development standards, consistent with the policies contained in the Airport Industrial Area Specific Plan, also known as Specific Plan #6. Specific Plan #6 provides for a graduated change in intensity with more intense development closer to Hollister Avenue in the A-I-2 Zone, including commercial services, such as branch bank, printing and photographic shop, convenience store, secretarial service and restaurant, and light industrial uses. Intensity decreases in the A-I-1 Zone toward the railroad tracks where open yard uses, such as outdoor storage, and contractor's, lumber, sand and brick yards, are allowed. The A-I-1 and A-I-2 Zones define where different intensities of use are allowed in accordance with the Specific Plan. Establishment of commercial services to serve employees of businesses within the Airport Specific Plan area will help reduce traffic. The City of Santa Barbara believes that it is important to minimize direct conflicts between the Airport and Goleta commercial areas; therefore, general commercial retail uses are not allowed because these uses are available in Old Town Goleta and other nearby areas. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.21.030 Uses Permitted.

Any of the following uses, provided that such operations are not obnoxious or offensive by reason of emission or odor, dust, gas, fumes, smoke, liquids, wastes, noise, vibrations, disturbances or other similar causes which may impose hazard to life or property. Whether such obnoxious or offensive qualities exist or are likely to result from a particular operation or use shall be determined from the point of view of all immediately adjoining land and uses and considering the performance and development standards to which they are subject.

A. In the A-I-1 Zone:
   1. Appliance and equipment service and repair.
   2. Automobile tire installation and repair performed entirely in an enclosed building.
   3. Cabinet making or refinishing.
   4. Electronic products manufacturing and sales.
   5. Freight terminal.
   6. Household hazardous waste facility, subject to issuance of a Conditional Use Permit.
   7. Laboratory.
   8. Manufacture, assembly, processing and distribution of products.
   9. Office or retail sales incidental and accessory to any allowed use.
   10. Public and quasi-public utility or maintenance facilities, including pump plant, transformer yard, switching station, service and equipment yard and similar uses.
   11. Recycling business, subject to the issuance of a Conditional Use Permit.
   12. Research and development establishment and related administrative operations.
   13. Storage and distribution warehouse.
15. The following open yard uses are allowed north of Francis Botello Road only:
   a. Automobile repair and body shop.
   b. Brick yard.
   c. Concrete and asphalt products storage and manufacture.
   d. Contractor's yard.
   e. Lumber yard, including retail sales of lumber only.
   f. Metal products storage, manufacture and distribution.
   g. Open storage and rental of vehicles, trailers, recreational vehicles, mobilehomes, equipment and/or
      materials.
   h. Rock, sand and gravel yard.
16. The following additional uses are allowed in buildings designated as a Structure of Merit under the
    provisions of Chapter 22.22 of this Code or determined to be eligible for such designation:
    a. Any use allowed in the Airport Commercial (A-C) Zone.
    b. Any use allowed in the Commercial Recreation (C-R) Zone.
17. Other uses determined to be appropriate by the Planning Commission.
B. In the A-I-2 Zone:
The following uses are expressly permitted in the A-I-2 Zone:
   1. Any use allowed in the A-I-1 Zone, except household hazardous waste facility, recycling business and
      open yard uses.
   2. Auto diagnostic center.
   3. Bookkeeping, accounting and/or tax service.
   4. Branch bank, branch savings and loan office, credit union or automatic teller machine, subject to the
      following provisions:
      a. No similar facility is located within three hundred feet (300') of the subject facility.
      b. There shall be no drive-up window or drive-up automatic teller machine.
      c. Services are limited to deposits, check cashing, cashier and traveler checks issuance, acceptance of
         loan applications and night deposits. Loan applications processing is excluded.
   5. Convenience store not exceeding 2,500 square feet in size.
   6. Copying and duplicating service.
   7. Courier and small package delivery service.
   8. Dry cleaning establishment.
   9. Mailing service and supply.
   10. Motorcycle or bicycle and related accessories sales and repair.
   11. New car agency, including accessory repair conducted entirely within a building or enclosed area.
   12. Office supply sales.
   13. Photographic shop including photographic developing.
   14. Printing, lithographing, photocopying or publishing establishment.
   15. Restaurant.
   16. Secretarial service.
   17. Temporary employment service.
   18. Used car sales.
   19. Any use allowed in the C-R Zone on property immediately west of Frederic Lopez Road (adjacent to the
       C-R Zone) when developed in conjunction with a use in the area zoned C-R, immediately east of Frederic Lopez
       Road, as shown in the Airport Industrial Area Specific Plan.
   20. Other uses determined to be appropriate by the Planning Commission. (Ord. 5025, 1997; Ord. 4269,
       1984; Ord. 3690, 1974.)

29.21.040 Performance Standards.

   A. VIBRATION. No equipment, machinery or facility in such establishment shall be operated so as to produce
      or generate vibration which is perceptible without the aid of instruments, to a person of ordinary, normal sensibilities,
      at or beyond the boundary or leasehold line of the premises.
   B. ODOR. No establishment shall be operated in a manner resulting in the emission of odors to an extent or
      degree permitting such odor to be detectable at or beyond the boundary or leasehold line of the premises.
   C. ACCESSORY OUTDOOR STORAGE. There shall be no outdoor storage permitted, whether permanent or
      temporary, in the A-I-2 Zone. For the purpose of this Section, a storage tank, bin or other container placed outside
      shall be construed as constituting outside storage of the contents of such container. Trash containers may be stored
      outside if screened from public view. (Ord. 5025, 1997.)

29.21.050 Building Height.

   Building height shall be established as defined in Section 29.87.050 of this Title. (Ord. 5025, 1997; Ord. 3690,
   1974.)
29.21.060  Front Setback.

The front setback shall be established as defined in Section 29.87.055 of this Title.  (Ord. 5459, 2008; Ord. 5025, 1997; Ord. 3690, 1974.)

29.21.100  Off-street Parking.

Off-street parking and loading space shall be provided as set forth in Chapter 29.90 of this ordinance.  (Ord. 3690, 1974.)

29.21.131  Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989 unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.  (Ord. 5609, 2013; Ord. 4670, 1991.)
Chapter 29.23
C-R COMMERCIAL RECREATION ZONE

Sections:
29.23.001 In General.  
29.23.005 Legislative Intent.  
29.23.030 Uses Permitted.  
29.23.050 Building Height.  
29.23.060 Front Setback.  
29.23.100 Off-street Parking.  
29.23.131 Development Potential.

29.23.001 In General.

The following regulations shall apply in the C-R Commercial Recreation Zone unless other-wise provided in this ordinance.  (Ord. 5025, 1997.)

29.23.005 Legislative Intent.

It is the intent of this zone classification to provide areas for any use or development, either public or private, providing pleasure, sport, amusement, exercise or other resources affording relaxation or enjoyment, which is operated primarily for financial gain.  Because much of the area in the C-R Zone is in the floodway, many of the uses allowed are uses that would be compatible with al-lowed development in the floodway.  These include golf, miniature golf and other uses which involve minimal changes to the floodway.  (Ord. 5025, 1997.)

29.23.030 Uses Permitted.

The following uses are expressly permitted in the C-R Zone:
A. Commercial Recreation, as defined in this Title.
B. Game Arcade, subject to issuance of a Conditional Use Permit as outlined in Chapter 29.92.
C. Golf course or driving range and related facilities.
D. Health club.
E. Miniature golf course.
F. Outdoor vendor, in association with a commercial recreation use.
G. Pushcart, in association with a commercial recreation use.
H. Restaurant.
I. Restaurant, fast food.
J. Reverse vending machine.
K. Skating rink.
L. As shown in the Airport Industrial Area Specific Plan, any use allowed in the A-I-2 Zone on property immediately east of Frederic Lopez Road (adjacent to the A-I-2 Zone) when developed in conjunction with a use in the area zoned A-I-2, immediately west of Frederic Lopez Road.
M. Other uses determined to be appropriate by the Planning Commission.  (Ord. 5025, 1997.)

29.23.050 Building Height.

Building height shall be established as defined in Section 29.87.050 of this Title.  (Ord. 5025, 1997.)

29.23.060 Front Setback.

The front setback shall be established as defined in Section 29.87.055 of this Title.  (Ord. 5459, 2008; Ord. 5025, 1997.)

29.23.100 Off-street Parking.

Off-street parking and loading space shall be provided as set forth in Chapter 29.90 of this ordinance.  (Ord. 5025, 1997.)

29.23.131 Development Potential.

Notwithstanding any provision of law to the contrary, no application for a land use permit for a nonresidential construction project will be accepted or approved on or after December 6, 1989, unless the project complies with the provisions outlined in Development Plan Approval, Chapter 28.85.  (Ord. 5609, 2013; Ord. 5025, 1997.)
Chapter 29.25

GOLETA SLOUGH RESERVE ZONE

Sections:

29.25.010 In General.
29.25.020 Requirements and Procedures.
29.25.030 Uses Permitted with a Goleta Slough Coastal Development Permit.
29.25.040 Uses Permitted Without a Goleta Slough Coastal Development Permit.
29.25.050 Findings.

29.25.010 In General.

The Goleta Slough Reserve Zone is established in order to protect, preserve and maintain the environmentally sensitive habitat areas of the Goleta Slough for the benefit and enjoyment of future generations. The intent of this Chapter is to ensure that any development in or adjacent to any wetland area is designed to preserve the wetland as it exists or improve the habitat values of the Goleta Slough Reserve Zone.

Land classified in the G-S-R Zone may also be classified in another zone. Where a conflict occurs between the provisions in this chapter and other laws or other regulations effective within the City, the more restrictive of such laws or regulations shall apply. (Ord. 4674, 1991; Ord. 4375, 1986.)

29.25.020 Requirements and Procedures.

A. COASTAL DEVELOPMENT PERMIT REQUIRED. In addition to any other permits or approvals required by the City hereafter, a Goleta Slough Coastal Development Permit shall be required prior to commencement of any development within the Goleta Slough Reserve Zone, unless specifically excluded. A Coastal Development Permit under the provisions of Chapter 28.44, shall not be required if the proposed project is only in the G-S-R and S-D-3 Zones; however, a Goleta Slough Reserve Coastal Development Permit shall be required, unless specifically excluded. If a development is in another zone in addition to the G-S-R and S-D-3 zones, both a Coastal Development Permit under this Chapter and under Chapter 28.44 shall be required, unless specifically excluded. If a development is excluded from a Goleta Slough Coastal Development Permit, as stated in Section 29.25.040 of this Chapter, it shall also be excluded from a Coastal Development Permit under Chapter 28.44 of the Municipal Code.

B. PERMIT PROCESS. The regulations set forth in Chapter 28.44 of the Municipal Code, except as they pertain to the application for a separate Coastal Development Permit, shall apply to the processing of a Goleta Slough Coastal Development Permit application.

C. SUBMITTAL REQUIREMENTS. In addition to the information required to be submitted with an application for a Coastal Development Permit, or any other application requirements of the Community Development Department, the following information must be submitted with an application for a Goleta Slough Coastal Development Permit:

1. Development Plan: A development plan, clearly and legibly drawn, the scale of which shall be large enough to show clearly all details thereof and shall contain the following information:
   (a) Contour lines of existing grade with a minimum of two (2) foot intervals;
   (b) Dimensions of proposed development and location of proposed use with scale, date and north arrow;
   (c) Finished grade contours after completion of development or use clearly showing the location of all proposed grading, cut and fill;
   (d) The location of proposed access to the development site during construction and after the project is completed;
   (e) The location for the stockpiling of any dredged materials or storage of supplies and equipment during or after construction;
   (f) Habitat mapping and impact assessment by a qualified wetland biologist identifying all upland and wetland habitat locations within at least 100 feet from any development, access way, storage site or disturbed area and discussion of any impacts to the wetland or the 100 foot buffer along the periphery of the wetland. Wetland delineations shall be prepared in accordance with the definitions of Section 13577(b) of Title 14 of the California Code of Regulations;
   (g) An identification of habitat area that supports rare, threatened, or endangered species that are designated or candidates for listing under State or Federal law, “fully protected” species and/or “species of special concern,” and plants designated as rare by the California Native Plant Society;
   (h) Water Quality Mitigation Plan (WQMP) and Stormwater Pollution Prevention Plan (SWPP) details consistent with the criteria of LUP Policies C-12 and C-13.
2. Written description of the project including the purpose of the project and an anticipated schedule for construction and completion.
3. Elevations of the proposed structure from all sides.
4. Written comment on the proposed use or development from the State of California Department of Fish and Game. Review by the Department of Fish and Game shall be coordinated through the City of Santa Barbara Community Development Department Staff.
5. An identification and description of rare, threatened, or endangered species, that are designated or candidates for listing under State or Federal law, and identification of “fully protected” species and/or “species of special concern,” and plants designated as rare by the California Native Plants Society, and avoidance, mitigation, restoration and monitoring measures/plan details consistent with the criteria of LUP Policies C-14 and C-15; and
6. Written description and impact assessment of sensitive archaeological or other culturally sensitive resources and details of avoidance, mitigation and monitoring measures necessary to avoid potential impacts.
7. Other information reasonably required by the Community Development Department.

D. NOTICING. Refer to Chapter 28.44 for noticing requirements. (Ord. 5417, 2007; Ord. 5267, 2003; Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986.)

29.25.030 Uses Permitted with a Goleta Slough Coastal Development Permit.

The following uses are permitted in the Goleta Slough Reserve Zone upon the issuance of a Goleta Slough Coastal Development Permit unless specifically exempted.

A. Restoration projects in which restoration and enhancement are the sole purposes of the project.
B. Incidental public service purposes, including but not limited to, installation, burying cables and pipes or inspection of piers, and maintenance of existing intake and outfall lines, where the project is necessary to maintain an existing public service and where it has been demonstrated that there is no feasible less environmentally damaging alternative, and where feasible mitigation measures have been provided to minimize adverse environmental effects.
C. Nature study, bird watching, aquaculture, or other similar resource dependent activities.
D. Alteration of rivers or streams only for the following purposes:
   1. Necessary water supply projects; or
   2. Flood control projects where no other method for protecting existing structures in the flood plain is feasible and where such protection is necessary for public safety or to protect existing development; or
   3. Developments where the primary function is the improvement of fish and wildlife habitat.
E. Repair or maintenance activities of existing areas or facilities which do not result in an addition to or enlargement or expansion of the object of such repair or maintenance, unless exempted under Municipal Code Subsection 29.25.040.A.
F. Other uses deemed consistent with the intent and purposes of this Chapter and allowed under Public Resources Code Section 30233. (Ord. 5267, 2003; Ord.4674, 1991; Ord. 4375, 1986.)

29.25.040 Uses Permitted Without a Goleta Slough Coastal Development Permit.

A Goleta Slough Coastal Development Permit is not required for the following activities and uses:

A. Maintenance Activities:
   1. Trimming of vegetative growth within the extended runway safety area and flight control area in accordance with FAA regulations, as required.
   2. Mowing of grass and maintenance in accordance with FAA requirements of areas directly adjacent to and parallel to the runways and taxiways within 135 feet of the existing paved surface.
   3. Maintaining the existing approach lighting system and access road, the existing glide slope, the existing Airport Surveillance Radar and access road, the existing Airport patrol road running along the perimeter of the Slough, and safety related facilities and uses necessary to maintain existing airport capacity and operations.
   4. On-going mosquito abatement and related maintenance activities such as monitoring of adult and larval mosquito activity including weekly surveillance and collections at likely breeding locations and control measures which consist primarily of hand spraying of larvicidal oil.
   5. Utilities existing at the time of the initial adoption of this Section.
B. Public access to the Slough for educational purposes or bird watching when the individual or group has complied with the following Slough Public Access procedures. Any person wishing to enter the Goleta Slough who is not an employee of the City of Santa Barbara, the Goleta Valley Mosquito Abatement District, the Santa Barbara Flood Control District or the California Department of Fish and Game shall complete a "Santa Barbara Municipal Airport/Goleta Slough Access Release, Indemnity and Assumption of Risk Agreement" and have said form approved by the Santa Barbara Municipal Airport Director prior to entering the Goleta Slough.
C. Activities In Areas Designated as SBA-52:
   1. Maintenance of the Indian burial site as specified in Agreement #11,256 between the City of Santa Barbara and the Indian Center of Santa Barbara, Inc.; and
   2. Re-interment of Native American human burial remains found during archaeological work or from archaeological sites as specified in Agreement #11,256 between the City of Santa Barbara and the Indian Center of Santa Barbara, Inc.

Additional activities such as the clearing of channels, digging of ditches, desilting, and dredging activities shall require a Goleta Slough Coastal Development Permit. (Ord. 5267, 2003; Ord.4723, 1991; Ord. 4674, 1991; Ord. 4375, 1986.)
29.25.050 Findings.

Prior to the approval of a Goleta Slough Coastal Development Permit by the Planning Commission, or City Council upon appeal, all of the following must be found:

A. The project is consistent with the City's Coastal Land Use Plan and all applicable provisions of the Code.
B. The project is consistent with the policies of the California Coastal Act.
C. The proposed use is dependent upon the resources of the environmentally sensitive area or the proposed use is found to be consistent with Section 30233 of the Coastal Act.
D. Development in areas adjacent to an environmentally sensitive area shall be designed to prevent impacts which would significantly degrade such area and shall be compatible with the continuance of such habitat.
E. A natural buffer area of 100 feet will be maintained in an undeveloped condition along the periphery of all wetland areas. Where development of the Airfield Safety Projects renders maintenance of a 100 foot buffer area between new development and delineated wetlands infeasible, the maximum amount of buffer area is provided and all impacts to wetland habitat will be mitigated to the maximum extent feasible such that no net loss of wetland habitat occurs.
F. The proposed use shall be carried out in a manner that will sustain the biological productivity of coastal waters and that will maintain healthy populations of all species of marine organisms adequate for long-term commercial, recreational, scientific and educational purposes.
G. The proposed project includes adequate impact avoidance and mitigation measures to ensure protection of rare, threatened, or endangered species, that are designated or candidates for listing under State or Federal law, “fully protected” species and/or “species of special concern,” and plants designated as rare by the California Native Plan Society.
H. There is no less environmentally damaging alternative to the proposed development, all feasible mitigation measures have been provided to minimize adverse environmental effects and, if applicable:
   1. All dredged spoils shall be removed from the wetland area to avoid significant disruption to wildlife habitat and water circulation.
   2. Diking, filling or dredging in the Goleta Slough shall maintain or enhance the functional capacity of the wetland or estuary.
I. Channelizations or other substantial alteration of rivers and streams shall incorporate the best mitigation measures feasible.
J. Archaeological or other culturally sensitive resources within the Goleta Slough are protected from impacts of the proposed development.
K. The proposed use shall minimize any adverse effects of wastewater discharges, run-off and interference with surface water flow.
L. Sedimentation from the proposed development has been reduced to a minimum and is compatible with the maintenance of the wetland area.
M. The proposed project enhances public educational or recreational opportunities at the Goleta Slough including, but not limited to:
   1. Providing area(s) and facilities on the periphery of the wetland for recreational and educational use of the Slough; or,
   2. Developing educational tour routes and procedures for such tours in dry land areas of the Slough.
   Educational/explanatory signs shall be included as part of any walking tour or viewing facilities project. (Ord. 5267, 2003; Ord. 4674, 1991; 4375, 1986.)

The City shall enter into a binding agreement with the State Department of Fish and Game, or successor agency, to establish the Slough as a part of an ecological preserve system for the purpose of management, preservation, enhancement, and where feasible restoration of the Goleta Slough.

The City shall participate in a management plan for the ecological management of the Slough. The plan should provide for management, preservation, enhancement, and where feasible, restoration of the Goleta Slough. (Ord. 4674, 1991.)
Chapter 29.30
AIRPORT INDUSTRIAL AREA SPECIFIC PLAN (SP-6) ZONE

Sections:
29.30.005 Legislative Intent. 29.30.090 Other Regulations.
29.30.030 Uses Permitted.

29.30.005 Legislative Intent.

It is the purpose of the Airport Industrial Area Specific Plan (SP-6) Zone to establish the boundaries of a Specific Plan area on the northern portion of the Santa Barbara Municipal Airport property. The boundaries are included in the Specific Plan, which is a separate document and is incorporated herein by reference. This Specific Plan sets out development policies and actions for this area. (Ord. 5025, 1997.)

29.30.030 Uses Permitted.

The uses permitted in the SP-6 Zone are outlined in the various zones established at the Air-port. (Ord. 5025, 1997.)

29.30.090 Other Regulations.

A. The portion of the Specific Plan that is located north of Hollister Avenue shall be effective upon adoption of the Airport Industrial Area Specific Plan and the establishment of the SP-6 Zone. The portion of the Specific Plan that is located south of Hollister Avenue and, therefore, in the Coastal Zone, shall be effective upon certification by the California Coastal Commission.

B. For vacant parcels at the Santa Barbara Municipal Airport, development allowed on such vacant parcels under the provisions of Chapter 28.85 of this Code may be relocated to other City-owned parcels at the Airport if it can be found that the vacant parcel from which the potential square footage is being relocated shall be used for: 1) parking; 2) required open space; 3) Airport operations such as those allowed in the A-A-O Zone described in Chapter 29.12; 4) open space; or 5) wetland protection or mitigation in the G-S-R Zone described in Chapter 29.25 of this Code or other similar non-habitable uses. Otherwise, vacant land square footage is subject to all other provisions of Chapter 28.85 of Title 28 of this Code.

C. Small additions allowed at the Airport under Chapter 28.85 may be relocated to other City-owned parcels at the Airport even though such relocation may result in more than one small addition on a given parcel. Otherwise, small additions are subject to all other provisions of Chapter 28.85 of Title 28 of this Code. (Ord. 5609, 2013; Ord. 5025, 1997.)
Chapter 29.87

GENERAL PROVISIONS

Sections:
29.87.001 General Provisions.
29.87.003 Conflicting Regulations.
29.87.010 Construction and Maintenance of Site and Buildings.
29.87.031 Less Restrictive Uses Prohibited.
29.87.032 Additional Permitted Uses.
29.87.033 Exclusion of Permitted Use.
29.87.035 Nonconforming Buildings and Uses.
29.87.038 Reconstruction of Damaged Nonconforming Buildings.
29.87.040 Building Under Construction.
29.87.046 Location of Building.
29.87.050 Building Height.
29.87.055 Required Front Setbacks.
29.87.060 Setback Encroachments.
29.87.068 Landscaping in Front Setback.
29.87.150 Utilities.
29.87.170 Fences, Walls and Hedges.
29.87.180 Mobilehomes and Recreational Vehicles - Prohibited Uses.
29.87.190 Storage.
29.87.195 Landscaping Requirements.
29.87.200 Landscape or Planting Plan Approvals - Standards.

29.87.001 General Provisions.

The regulations specified in this ordinance shall be subject to the following interpretations and exceptions. (Ord. 3690, 1974.)

29.87.003 Conflicting Regulations.

Where any provisions of this ordinance impose more stringent requirements, regulations, restrictions or limitations than are imposed or required by the provisions of any other law or ordinance, then the provision of this ordinance shall govern. (Ord. 3690, 1974.)

29.87.010 Construction and Maintenance of Site and Buildings.

Following approval of the required plot plan and landscaping plan, the lessee of such site shall construct said buildings and install such landscaping in accordance with said plans and without material or substantial deviation therefrom. In addition, said buildings and landscaping shall be thereafter maintained in a clean and orderly condition in order that said leasehold or establishment, or any part thereof, shall not become offensive or obnoxious to persons occupying properties in sight or view thereof, or traveling on the adjacent streets. (Ord. 5025, 1997.)

29.87.031 Less Restrictive Uses Prohibited.

The express enumeration and authorization in this ordinance of a particular class of building, structure, premises or use in a designated zone shall be deemed a prohibition of such building, structure, premises or use in all zones of more restrictive classification, except as otherwise specified. (Ord. 3690, 1974.)

29.87.032 Additional Permitted Uses.

Uses other than those specifically mentioned in this ordinance as uses permitted in each of the zones may be permitted therein, provided such uses are similar to those mentioned and are in the opinion of the City Council not more obnoxious or detrimental to the welfare of the community than the permitted uses in the respective zones. The City Council may approve such uses by ordinance amendment after a recommendation has been received from the Airport Zoning Commission. (Ord. 3690, 1974.)

29.87.033 Exclusion of Permitted Use.

The City Council after a recommendation has been received from the Airport Zoning Commission may, by ordinance amendment, exclude any permitted use from any zone if in the opinion of the City Council it is obnoxious or detrimental to the welfare of the community. (Ord. 3690, 1974.)
29.87.035 Nonconforming Buildings and Uses.

The following regulations shall apply to all nonconforming buildings and structures or parts thereof and uses legally existing at the effective date of this ordinance:

A. Any such nonconforming building or structure may be continued and maintained provided there is no physical change other than necessary maintenance and repair in such building or structure, except as permitted in other sections of this Chapter.

B. Any such nonconforming use of a conforming building may be maintained and continued provided there is no increase or enlargement of the area, space or volume occupied or devoted to such nonconforming use, except as otherwise provided in this Chapter.

C. Any part of a building, structure or land occupied by such a nonconforming use which is changed to or replaced by a use conforming to the provisions of this Chapter shall not thereafter be used or occupied by a nonconforming use.

D. Any part of a building, structure or land occupied by such a nonconforming use, which use is abandoned, shall not again be used or occupied for a nonconforming use. Any part of a building structure or land occupied by such a nonconforming use, which use is discontinued or ceases for a period of one (1) year or more, shall not again be used or occupied for a nonconforming use.

E. If no structural alterations are made, a nonconforming use of a building may be changed to another nonconforming use of the same or a more restrictive classification.

F. The foregoing provisions of this Section shall also apply to building, structures, land or uses which hereafter become nonconforming due to any reclassifications of zones under this Title or any subsequent change in the regulations of this Title; provided, however, that where a period of years is specified in this Section for the removal of nonconforming uses, said period shall be computed from the date of such reclassification or change.

G. The provisions of this Chapter concerning the physical change, abandonment, structural alteration, removal, discontinuance, reconstruction, repairing or rebuilding of nonconforming buildings, structures and uses shall not apply to public utility buildings, structures and uses. Nothing in this Chapter shall be construed or applied so as to prevent the expansion, modernization or replacement of public utility buildings, structures, equipment and facilities where there is no change of use or increase in area of the property so used.

H. Nothing in the above provisions shall be construed to prohibit any additions or alterations to a nonconforming structure as may be reasonably necessary to comply with any lawful order of any public authority made in the interest of the public health, welfare, safety or morals.

I. Nonconforming uses resulting from amendments. The provisions of this Chapter shall apply to uses which become nonconforming by reason of any amendment to this Title, as of the effective date of such amendment. (Ord. 5025, 1997; Ord. 4674, 1991; Ord. 4375, 1986; Ord. 3690, 1974.)

29.87.038 Reconstruction of Damaged Nonconforming Buildings.

A nonconforming building or structure which is damaged or partially destroyed by fire, flood, wind, earthquake or other calamity or act of God or the public enemy, to the extent of not more than seventy-five percent (75%) of its occupancy or use of such building, structure or part thereof which existed at the time of such partial destruction may be continued or resumed, provided the total cost of such restoration as determined by the Chief of Building and Zoning does not exceed seventy-five percent (75%) of the current market value according to the Assessor’s records of the County of Santa Barbara of the building or structure at the time of such damage, and that such restoration is started within a period of one (1) year and is diligently prosecuted to completion. In the event such damage or destruction exceeds seventy-five percent (75%) of the current market value of such nonconforming building or structure, no repairs or reconstruction shall be made unless every portion of such building is made to conform to all the regulations for new buildings in the zone in which it is located. (Ord. 3690, 1974.)

29.87.040 Building Under Construction.

Any building or structure for which a building permit has been issued, and actual construction has begun, prior to the effective date of this ordinance, may be completed and used in accordance with the plans, specifications and permits on which said building permit was granted, if construction is diligently pursued to completion, and provided further that such building or structure shall be completed within two (2) years from the effective date of this ordinance. (Ord. 3690, 1974.)

29.87.046 Location of Building.

Except where otherwise provided for in this ordinance, every main building shall face or have frontage upon a public street or permanent means of access to a public street. (Ord. 3690, 1974.)
29.87.050 Building Height.

A. No building or structure shall contain more than three (3) stories nor exceed a height of forty-five feet (45'), as defined in Chapter 28.04 of Title 28 of this Code. In any case, if the height limit in Subsection C. below is more restrictive, it shall supersede the height limit stated in this Sub-section A.

B. Aircraft hangars may not exceed sixty feet (60') in height, as defined by Section 29.04.150 (Hangar Height) of this Title. In any case, if the height limit in Subsection C. below is more restrictive, it shall supersede the height limit stated in this Sub-section B.

C. The height limits are modified by the approach, transitional and horizontal surfaces, the dimensions of which are determined by the FAA in the Federal Aviation Regulations Part 77, or their successors. No structure shall be erected, moved, altered or reconstructed, nor shall any plant or tree be allowed to grow in such a manner that the height thereof, including all superstructures and appurtenances, will exceed the height limits imposed in this Section. The Airport Director shall verify compliance with this requirement. These height limits are declared necessary in order to reduce to a minimum the hazard to safe landing and take-off of aircraft using the Airport. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.87.055 Required Front Setbacks.

A. Measurement of all front setbacks shall be taken from the face of the curb. If there is no existing curb, the measurement shall be as listed below plus one-half of the width of the adjacent street, measured from the center of the travelled way.

B. A front setback shall be required for all buildings, as follows:
   1. The minimum front setback on Hollister Avenue, Fairview Avenue, Los Carneros Road and the first 200 feet north of Hollister Avenue on David Love Place and Frederic Lopez Road shall be twenty feet (20').
   2. The minimum front setback on all other roads shall be ten feet (10') for the first story of any structure and twenty feet (20') for the second and third stories of all buildings. (Ord. 5459, 2008; Ord. 5025, 1997.)

29.87.060 Setback Encroachments.

Where setbacks are required in this ordinance, they shall not be less in depth or width than the minimum dimensions specified for any part, and they shall be at every point unobstructed by structures from the ground upward, except as follows:

A. Cornices, canopies, chimneys, eaves or other similar architectural features not providing additional floor space within the building may extend into any required setback not to exceed two feet (2').

B. Porches, terraces and outside stairways, unroofed, unenclosed above and below floor or steps, and not extending above the level of the first floor, may project not more than three feet (3') into any required interior setback. (Ord. 5459, 2008; Ord. 3690, 1974.)

29.87.068 Landscaping in Front Setback.

The front setback shall be used only for landscaping, except that such area may contain pedestrian walkways and reasonable vehicular ways of ingress and egress to and from abutting streets. (Ord. 5459, 2008; Ord. 5025, 1997; Ord. 3690, 1974.)

29.87.150 Utilities.

A. All utility, transmission and communication lines, wires, cables, pipes and conduits, together with all related equipment, shall be installed underground or within a building unless outside exposure is necessary to the proper functioning of such equipment (e.g., telephone utility lines and gas meters must be inside a building or underground, whereas antennae and fireplugs may be outside).

B. Antennas shall be subject to all applicable provisions of Title 28 of this Code. (Ord. 5025, 1997.)

29.87.170 Fences, Walls and Hedges.

A. In the A-C, A-F and A-A-P Zones, no fence, screen, wall or hedge located in a setback shall exceed a height of six feet (6').

B. In the A-C, A-F and A-A-P Zones, no fence, screen, wall or hedge exceeding a height of three and one-half feet (3-1/2') shall be located:
   1. Within ten feet (10') of a front lot line.
   2. Within ten feet (10') of either side of a driveway for a distance of twenty feet (20') back from the front lot line.
C. In the A-C and A-F Zones, no fence, screen, wall or hedge located within fifty feet (50') of a street corner and within the front setback shall exceed a height of three and one-half feet (3-1/2') measured from the edge of the vehicular travelled way as determined by the Traffic Engineer; provided that where any fence, screen, wall or hedge within fifty feet (50') of any corner impairs the visions of drivers of vehicles approaching on the intersecting street, the Community Development Director may further limit the height of construction by the terms of the permit issued to the applicant so as to prevent such impairment of vision.

D. In any zone, no barbed wire shall be used or maintained in or about the construction of a fence, screen, wall or hedge along any lines of any lot, or within three feet (3') of said lines, and no sharp wire or points shall project at the top of any fence or wall six feet (6') or less in height. (Ord. 5459, 2008; Ord. 3690, 1974.)

29.87.180 Mobilehomes and Recreational Vehicles - Prohibited Uses.

A. No recreational vehicle or mobilehome shall be used or occupied for living or sleeping purposes.

B. No recreational vehicle or mobilehome shall be used for office, retail or any other commercial purpose except in the following situations:
   1. A mobilehome or commercial coach may be used as a sales office for a new or used mobile-home or recreational vehicle sales business if such mobilehome or commercial coach is on the same lot or parcel of land where the business is located and if, on such same lot or parcel of land, new or used mobilehomes or recreational vehicles, other than the mobilehome or commercial coach used for a sales office, are normally kept for display to the public.
   2. A mobilehome, recreational vehicle or commercial coach may be used as a construction shack at the site of a construction project for the duration of such project.

C. The conforming use of a mobilehome, recreational vehicle or commercial coach which is made non-conforming by the provisions of this ordinance shall be terminated and discontinued by the owner or possessor of such mobilehome, recreational vehicle or commercial coach within six (6) months of the effective date of this ordinance.

D. For the purposes of this Section, commercial coach has the definition set forth in Section 18001.8 of the California Health and Safety Code, as same may be amended from time to time. (Ord. 4269, 1984; Ord. 3690, 1974.)

29.87.190 Storage.

A. No portion of any front yard shall be used for the permanent storage of motor vehicles, trailers, airplanes, boats, parts of any of the foregoing, loose rubbish or garbage, junk, tents, garbage or rubbish receptacles, or building materials except as hereinafter provided. Permanent storage, as used in this section, shall mean storage for a period of forty-eight (48) or more consecutive hours. No portion of any vacant or undeveloped lot shall be used for permanent storage.

B. Building materials for use on the same premises may be stored thereon during the time that a valid permit is in effect for construction on the premises. (Ord. 3690, 1974.)

29.87.195 Landscaping Requirements.

A. The landscape development plan shall include a landscaped area equal to not less than fifteen percent (15%) of the area of the leasehold or parcel, including landscaping, within required setbacks, walkways and bikeways, but excluding paved areas for vehicular use. At least one (1) shade tree for each two thousand (2,000) square feet of such paved area shall be provided. Paved areas used for movement and storage of aircraft shall not be included in the area of the leasehold or parcel for purposes of calculating required landscaped area.

B. All planting areas shall be maintained in a manner that will sustain normal growth. (Ord. 5459, 2008; Ord. 5025, 1997; Ord. 3690, 1974.)

29.87.200 Landscape or Planting Plan Approvals - Standards.

Whenever in the Airport Zoning Ordinance, as amended, the administrative duty of reviewing and approving landscaping or planting plans is placed upon any officer, board, commission or employee of the City, such officer, board, commission or employee may disapprove such plans, or any part of them if:

A. Any or all of the proposed plant materials are of the type having root structures which, in their natural and anticipated extension and growth, and in relation to their location as shown on the plans, may damage or interfere with the normal use and enjoyment of:
   1. Clear Zones and aircraft traffic areas.
   2. Public or private lines, cables, conduits, pipes or other underground structures.
   3. Public or private sidewalks, curbs, gutters or hard surfaced roads, streets, driveways, parking and turnaround areas, easements or like things designed and constructed to accommodate vehicles.
   4. Adjacent structures, foundations or landscape materials;

B. Any or all of the proposed plant materials:
   1. Are noxious or dangerous to persons or domestic animals.
   2. Exude or emit substances or things which, because of proposed location, will probably injure or damage real or personal property in the area of their effect.
3. Are weeds which bear seeds of a downy or wingy nature.

C. Any or all of the proposed plant materials, because of proposed locations and type, will contribute to the spread of or make more hazardous the possibility of a brush fire;

D. Any or all of the proposed materials which are designed for relatively permanent emplacement will probably die because of proposed locations poorly related to their ecological requirements;

E. Any or all of the proposed plant materials, as affected by normal growth, will probably block the view, sunlight or fresh air flow otherwise available at a window or other opening in the walls of a building on the property or of a building on adjacent property;

F. Any or all of the proposed plant materials are so arranged or placed so as not to produce the aesthetic result desired by the property owner or lessee;

G. Any or all of the proposed plant materials are in such combinations as to promote a natural competition for the elements necessary to their healthy growth and thus seriously affect their stability or permanence;

H. Any or all of the proposed plant materials, as affected by normal growth, will tend to become a nuisance to or otherwise interfere with the free use and enjoyment of neighboring property;

I. Any or all of the proposed plant materials, as affected by normal growth, and with reference to their proposed location, will probably become obstructions to the vision of vehicle operators or to other uses of public streets and places, as such obstructions are defined and regulated under the provisions contained in Chapter 12.08 of the Code of the City of Santa Barbara. (Ord. 3690, 1974.)
Chapter 29.90
AUTOMOBILE PARKING REQUIREMENTS

Sections:
29.90.001 General.
29.90.012 Parking Requirements.

29.90.001 General.

The standards and regulations for parking as set forth in Title 28, Chapter 28.90 of the Zoning Ordinance of the City of Santa Barbara, shall apply to the Santa Barbara Municipal Airport. (Ord. 5025, 1997; Ord. 3690, 1974.)

29.90.012 Parking Requirements.

A. PARKING REQUIREMENTS FOR SPECIFIC USES: In any zone, parking space requirements for new or expanded uses shall be provided in the following ratios for specific types of use:

<table>
<thead>
<tr>
<th>USE</th>
<th>PARKING REQUIREMENT1</th>
<th>BICYCLE PARKING REQUIRED2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Automobile Repair</td>
<td>3</td>
<td>No</td>
</tr>
<tr>
<td>Aviation Facilities</td>
<td>1 space/250 sf for office and retail square footage only</td>
<td>Yes</td>
</tr>

<tr>
<td>Warehouse</td>
<td>1 space/250 sf of office and retail plus 1 space/2,000 sf</td>
<td>Yes</td>
</tr>
</tbody>
</table>

1. Parking space requirements are for building square footage unless otherwise indicated.
2. Bicycle parking requirement is one (1) space for every seven (7) automobile parking spaces.
3. As much paved area for outside storage and parking of vehicles as there is area used for servicing of vehicles.
4. Parking requirements shall be determined on a case by case basis by the City Transportation and Parking Manager in consultation with the Community Development Director.
B. PARKING REQUIREMENTS FOR SPECIFIC ZONES:
   1. A-A-O Zone: Parking is not allowed in this zone.
   2. G-S-R Zone: Parking is not allowed in this zone, except in association with an allowed use which requires parking.

C. BUILDINGS IN EXCESS OF 10,000 SQUARE FEET. For industrial, manufacturing, research and development and office uses, a reduction of the required parking will be allowed for those buildings or building complexes containing in excess of 10,000 square feet of floor area at the following rate:
   1. Buildings or building complexes containing 10,000 to 30,000 square feet shall provide ninety percent (90%) of the required parking.
   2. Buildings or building complexes containing 30,001 to 50,000 square feet shall provide eighty percent (80%) of the required parking.
   3. Buildings or building complexes containing in excess of 50,000 square feet shall provide seventy percent (70%) of the required parking.

   If a project is developed in phases, parking shall be provided to meet the full demand of the initial phase or phases. The reduction will occur as later phases are built. (Ord. 5025, 1997; Ord. 3690, 1974.)

Chapter 29.92

VARIANCES, MODIFICATIONS, CONDITIONAL USE PERMITS AND ZONE CHANGES

Section:
29.92.001 Variances, Modifications, Conditional Use Permits and Zone Changes.

29.92.001 Variances, Modifications, Conditional Use Permits and Zone Changes.

   The regulations set forth in Chapters 28.92 and 28.94 of Title 28, the Zoning Ordinance, shall apply to the granting of variances, modifications, conditional use permits and zone changes. (Ord. 5025, 1997; Ord. 3690, 1974.)

Chapter 29.96

ZONING UPON ANNEXATION

Section:
29.96.001 Zoning Upon Annexation.

29.96.001 Zoning Upon Annexation.

   The regulations set forth in Chapter 28.96 of Title 28, the Zoning Ordinance, shall govern zoning upon annexation. (Ord. 5025, 1997; Ord. 3690, 1974.)
Chapter 29.97

OCCUPANCY

Section:
29.97.001 Certificate of Occupancy.

Certificates of Occupancy shall be required as set forth in Chapter 28.97 of Title 28, the Zoning Ordinance (Part 27 of Ordinance No. 2585). (Ord. 3690, 1974.)

Chapter 29.98

ENFORCEMENT

Section:
29.98.001 Enforcement.

The duties and procedures for enforcement shall be as set forth in Chapter 28.98 of Title 28, the Zoning Ordinance. (Ord. 5025, 1997; Ord. 3690, 1974.)

Chapter 29.99

VALIDITY

Sections:

If any section, subsection, paragraph, sentence, clause or phrase of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one (1) or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. (Ord. 3690, 1974.)
