1.25.120 Right to Judicial Review.
1.25.130 Collection of Unpaid Fines.

1.25.010 Purpose; Adoption of Administrative Guidelines.

A. **Purpose.** The purpose of this Chapter is to enable the City, acting as a charter city pursuant to Article XI, Sections 5 and 7 of the state Constitution, to impose and collect civil administrative fines in conjunction with the enforcement of provisions of this Code. Notwithstanding the provisions herein, the City has and shall continue to employ the philosophy of voluntary compliance when seeking compliance with this Code. Prior to the implementation of the enforcement policies and penalties stated herein, voluntary compliance approaches shall first be used in order to educate City property owners and businesses concerning the requirements of this Code and the corrective action necessary to correct a violation of this Code, unless an immediate danger to health or safety exists.

B. **Administrative Guidelines Approved by the City Council.** Concurrently with the adoption of the ordinance establishing this Chapter, the City Administrator shall prepare and promulgate administrative guidelines which shall, among other things, establish policies for providing appropriate and adequate warnings with respect to possible Municipal Code violations to those persons who may receive an administrative citation, to provide direction to City staff for the correct process of issuing a Notice of Administrative Citation, and to establish the proper format of the Notice of Administrative Citation and for service of that Notice in a manner consistent with the requirements of due process (hereinafter referred to as the "Administrative Guidelines"). Such Administrative Guidelines shall be adopted by a resolution of the City Council.  (Ord. 5272, 2003; Ord. 5113, 1999.)

1.25.020 Applicability.

A. **ENFORCEMENT OF THE MUNICIPAL CODE.** This Chapter makes any violation of the provisions of the Santa Barbara Municipal Code, including but not limited to all uniform construction codes adopted by reference and as amended pursuant to Chapter 22.04 of the Code, subject to administrative fines.

B. **ADMINISTRATIVE AUTHORITY.** This Chapter establishes the procedures for the imposition, enforcement, collection, and review of civil administrative fines pursuant to California Government Code section 53069.4 and pursuant to the City's plenary police powers as a charter city.

C. **REMEDIES NOT EXCLUSIVE.** The use of the administrative enforcement remedies provided by this Chapter is solely at the City's discretion. By adopting this Chapter, the City does not intend to limit its discretion to exercise any other remedy, civil or criminal, or other administrative procedures, for the abatement of such violations that the City may select in a particular case, including procedures for the imposition of civil or criminal penalties.

D. **STRICT LIABILITY OF THE OWNER.** Because serious Code violations may impact public health, welfare, safety, and the adequacy and safety of housing, this Chapter is intended to impose strict civil liability upon the owners of real property (or the owner of a business where the violation is caused by or relates to the operation of a business) for all violations of the Santa Barbara Municipal Code which may occur in the City of Santa Barbara regardless of the existence of specific or general intent or prior knowledge of such violations and, further, regardless of any intent (or lack thereof) to violate the Code.  (Ord. 5272, 2003; Ord. 5113, 1999.)
1.25.030 Definitions.

The following definitions apply to the use of these terms for the purposes of this chapter:

B. DIRECTOR. The City Department Head (or an expressly designated representative thereof) with responsibility for a particular title of this Code.

C. HEARING ADMINISTRATOR. The person or committee appointed by the City Administrator to serve as the hearing officer or committee for administrative appeal hearings.

D. ISSUED. Giving, mailing, or posting a Notice of Administrative Citation to a person where "issuance" is deemed to have occurred on the earlier of the date when a Notice of Administrative Citation is personally served on a person, the date it is mailed to a person by posting in the regular United States mail, or the date it is physically posted on real property where a property related Code violation is occurring or has occurred.

E. NOTICE OF ADMINISTRATIVE CITATION. An official City Municipal Code violation notice issued to a person(s) notifying them that they are in violation of the Santa Barbara Municipal Code with respect to certain real property or the operation of a certain business. In the case of an initial notice, if the violation has not been corrected by a specified date, a civil administrative fine will be imposed. Subsequent notices regarding the same or similar type of violation, within any twelve-month period, may be cause for imposing additional administrative fines without warning.

F. PERSON. Any of the following:
   1. An individual who causes a Code violation to occur.
   2. An individual who maintains or allows a Code violation to continue, by his or her action or failure to act in a lawful manner.
   3. An individual whose agent, employee, or independent contractor causes a Code violation by its action or failure to act in a lawful manner.
   4. An individual who is an owner of real property where a property related Code violation occurs.
   5. An individual who is an owner of a business or who is the on-site manager of a business and who normally works at the site when the business is open and is responsible for the activities at such premises.

For purposes of this subsection "person" includes a natural person or a legal entity, including but not limited to the owners, majority stockholders, corporate officers, trustees, and general partners of a legal entity. There shall be a legally rebuttable presumption that the record owner of a parcel as listed on the County's latest equalized property tax assessment rolls is the person responsible for a Code violation on such parcel. In addition, where applicable, a commercial lessee, sublessee, or operator of a business on a parcel shall be presumed responsible for Code violations relating to the operation of the business (for example, sign ordinance violations) on that parcel. (Ord. 5272, 2003; Ord. 5113, 1999.)

1.25.040 Maintaining Public Nuisances Prohibited.

Pursuant to the authority of California Government Code section 38771 and the City Charter, any continuing violation of the Santa Barbara Municipal Code constitutes a public nuisance. Therefore, any person owning or having possession of any real property in the City of Santa Barbara who is in violation of any provision of the Santa Barbara Municipal Code may be determined to be maintaining a public nuisance provided, however, that it shall not be the intent of the City that this Chapter preempt any private nuisance right of action or any and all other legal remedies available to private parties to abate such nuisances. (Ord. 5272, 2003; Ord. 5113, 1999.)

1.25.050 Abatement of Unlawful Conditions - Notice.

A. INSPECTIONS. Whenever the Director has inspected a property and finds that conditions constituting a violation of the Municipal Code exist thereon, the Director may use the procedures set forth in this Chapter to enforce the provisions of the Municipal Code as authorized by law.

B. NOTICE OF ADMINISTRATIVE CITATION ISSUANCE. The Director may issue a Notice of Administrative Citation for a violation to any person or persons whom the Director deems appropriate if the Director has determined, through investigation, that a violation exists. A person to whom a Notice of Administrative Citation is issued shall be liable for and shall pay to the City the administrative fine or fines described in the Notice of Administrative Citation when due pursuant to the provision of this Chapter.

C. DEVELOPMENT REVIEW CONDITIONS. Every person who applies for and receives a permit, license, or any type of land use approval (such as, but not limited to, a development review approval, a coastal development permit, a subdivision map approval, a conditional or special use permit, a zoning requirement modification, a variance, or other discretionary approval under Title 22, Title 27 or Title 28 of the Code) shall comply with all mandatory approval conditions imposed upon the issuance of the permit, license, or other such approval. If a person violates any condition of such permit, license, or similar land use approval, that person may be issued a Notice of Administrative Citation and may be held responsible for administrative fines under the provisions of this Chapter.
D. CONTINUING VIOLATIONS. Each day a violation of this Code exists shall be a separate and distinct violation and may be subject to a separate administrative fine. A Notice of Administrative Citation may charge a violation for one or more days on which a violation exists and for violation of one or more applicable Code sections.

E. PRIOR VIOLATIONS. The City may take into consideration the fact that a person has been previously issued a Notice of Administrative Citation when the City is determining whether to accept an application or to grant any permit, license or any similar type of land use approval for that person, and such Notice of Administrative Citation may be used as evidence that the person has committed acts that are not compatible with the health, safety, and general welfare of other persons and businesses within the City.

F. CONTENTS OF NOTICE. The administrative guidelines as approved by the City Council pursuant to Section 1.25.010 hereof shall, among other things, identify those items of information which must be contained in the Notice of Administrative Citation issued to persons and allege a violation of the Municipal Code.

G. SERVICE OF NOTICE. The Notice of Administrative Citation and any amended Notice of Administrative Citation shall be served by mail, personal service, or posting in the manner provided for in the approved Administrative Guidelines.

H. PROOF OF SERVICE. Proof of personal service of the Notice of Administrative Citation shall be documented as provided for in the approved Administrative Guidelines. (Ord. 5272, 2003; Ord. 5113, 1999.)

1.25.060 Extensions of Time.

If the Director receives a request from any person required to comply with a Notice of Administrative Citation, the Director may grant an extension of any fine due date and abatement deadline if the Director determines that such an extension of time will not create or perpetuate imminent danger to public health and safety. The Director shall have the authority to place reasonable conditions on such an extension. (Ord. 5113, 1999.)

1.25.070 Amount of Civil Fines.

A. FINE SCHEDULE. The amount of fines for violating particular provisions of the Code shall be set in a schedule of fines adopted by resolution by the City Council concurrently with the ordinance adopting this Chapter. The schedule may include escalating fine amounts for repeat Code violations occurring within specified periods of time.

B. DUE DATE FOR FINES. Fines are due on the day specified in the Notice of Administrative Citation, or, in the event of an appeal, as determined by the Hearing Administrator. (Ord. 5113, 1999.)

1.25.080 Manner of Payment - Civil Fines.

A. PAID BY MAIL. Fines shall be paid to the Director within thirty (30) days of the due date. Payment shall be made by check or money order. The Director, for purposes of convenience and ease of processing, may authorize payment to be made in accordance with any other method, including designating a location within the City for such payments.

B. FURTHER VIOLATIONS. Payment of an administrative fine shall not excuse the person from correcting the Code violation. The issuance of a Notice of Administrative Citation or the payment of a fine does not preclude the City from taking any other enforcement or legal action regarding a Code violation that is not corrected, including issuing additional Notices of Administrative Citation or the initiation of criminal or Superior Court civil abatement proceedings. (Ord. 5113, 1999.)

1.25.090 Appeal of Notice of Administrative Citation.

A. APPEAL TO HEARING ADMINISTRATOR. Any person aggrieved by the action of the Director in issuing a Notice of Administrative Citation pursuant to the provisions of this chapter may appeal such notice to the Hearing Administrator. If no appeal is filed within ten (10) days of the date of issuance of the Notice of Administrative Citation, the order of the Director shall be deemed final.

B. CORRECTIONS. Revocation of the Notice of Administrative Citation by the Hearing Administrator or voluntary abatement of the nuisance either on or prior to the Notice of Administrative Citation due date, and any authorized extensions thereto, shall cause the case to be closed.

C. CONTESTED APPEALS. To appeal a Notice of Administrative Citation, the person receiving the Notice (the "appellant") shall file a signed written request following the appeal procedures outlined in the Notice of Administrative Citation. An appellant may contest the Notice of Administrative Citation by denying that a violation occurred, by denying that it was not corrected within the required correction period or, if applicable, by establishing that he or she is not the owner of the real property or the owner of the business at the time the violation should have been corrected.
D. RECEIPT OF AN APPEAL REQUEST. To be effective, the appeal request must be received by the Director within ten (10) days of the date the Notice of Administrative Citation was issued. Where a request is mailed by the appellant, the request shall be deemed filed on the date received by the Director. The Director is authorized to designate an address on the Notice of Administrative Citation to which such appeal requests shall be mailed. (Ord. 5113, 1999.)

1.25.100 Hearing Procedures.

A. APPLICABLE HEARING ADMINISTRATOR. The Hearing Administrator shall be designated by the City Administrator in the Administrative Guidelines.

B. TIME AND PLACE OF HEARINGS. Hearings shall be conducted by the Hearing Administrator on the date, time, and place specified by the City.

C. APPEAL RECORDS. The Director shall ensure that the pertinent Notice of Administrative Citation is delivered to the Hearing Administrator in sufficient time prior to the appeal hearing. Before the hearing, the Director shall also make available to the appellant a copy of any additional information concerning the Notice of Administrative Citation which will be provided to the Hearing Administrator.

D. PRESENTATION OF EVIDENCE. The appellant shall be given the opportunity to testify and to present evidence relevant to the Code violation specified in the Notice of Administrative Citation.

E. USE OF REPORTS AS EVIDENCE. The Notice of Administrative Citation and any other reports prepared by City staff or by the Director concerning a Code violation or attempted correction of a Code violation that are provided to the Hearing Administrator shall be accepted by the Hearing Administrator as prima facie evidence of the Code violation and the facts stated in such documents.

F. STAFF WITNESSES/ADDITIONAL EVIDENCE. Neither City staff nor any other representative of the City shall be required to attend the appeal hearing, nor shall the Hearing Administrator require that there be submitted any evidence, other than the Notice of Administrative Citation, that may exist among the public records of the City with respect to the violation. However, any such appearance or submission may be made at the discretion of the Director.

G. CONTINUANCES. The Hearing Administrator may continue an appeal hearing if a request is made showing good cause by the appellant or the Director. All continuance requests shall either: (1) be made in person at the hearing by the appellant or his or her representative if the appellant is physically unable to attend, or (2) be made by a written request by the Director or the appellant. If the continuance is granted, a new hearing date shall be set within thirty (30) days. If the continuance is denied, the hearing shall proceed as originally scheduled, and if the appellant is not present at the hearing, the request(s) shall be deemed abandoned in accordance with subsection I below.

H. RULES OF EVIDENCE. The appeal hearing shall be conducted informally and the legal or formal rules of evidence need not be followed. The Hearing Administrator does not have the authority to issue a subpoena.

I. FAILURE TO APPEAR. The failure of the appellant to appear at the hearing, unless the hearing was continued per subsection G above, shall constitute an abandonment of the appeal, and shall constitute a failure to exhaust administrative remedies concerning the violations set forth in the Notice of Administrative Citation. (Ord. 5272, 2003; Ord. 5113, 1999.)

1.25.110 Appeal Decision.

A. NOTICE OF DECISION. After considering all the evidence and testimony submitted at an appeal hearing, the Hearing Administrator shall issue a Notice of Decision within ten (10) business days to either uphold or revoke the Notice of Administrative Citation based upon the Hearing Administrator’s conclusion of whether a violation occurred. The Notice of Decision shall be mailed by first class and certified mail, postage prepaid, return receipt requested, to the appellant or their designated representative within one (1) business day subsequent to the Hearing Administrator's issuance of the Notice of Decision. The failure by the appellant to appear at the appeal hearing shall be noted on the Notice of Decision by the Hearing Administrator. The Hearing Administrator may reduce or cancel the amount of any administrative fine or revoke the Notice of Administrative Citation in unusual cases when extenuating circumstances make doing so appropriate and in the interest of justice. The decision of the Hearing Administrator shall be final.

B. PAYMENT OF FINE AFTER APPEAL DECISION. The filing of an appeal shall suspend any fine assessed in the Notice of Administrative Citation. In the event that the Notice of Administrative Citation is revoked, the fine shall also be revoked. In the event that the Notice of Administrative Citation is upheld, the appellant shall both abate the violation(s) and pay the fine immediately. (Ord. 5272, 2003; Ord. 5113, 1999.)
1.25.120 Right to Judicial Review.

A. APPLICABILITY OF GOVERNMENT CODE SECTION 53069.4. The appellant may seek judicial review of the Hearing Administrator's decision by filing a further appeal with Santa Barbara Superior Court within twenty (20) calendar days after the appellant receives a copy of the Notice of Decision, in accordance with the provisions of California Government Code section 53069.4. The appeal filed with the Court must also contain a proof of service showing a copy of the appeal was served upon the City of Santa Barbara City Attorney. The appellant must pay to the Superior Court the appropriate court filing fee when the appeal is filed.

B. FAILURE TO EXHAUST ADMINISTRATIVE APPEAL. No appeal is permitted from a decision where the appellant is deemed to have abandoned the contest of the Notice of Administrative Citation by an unexcused failure to appear at the appeal hearing or by the failure to request an administrative appeal hearing before the Hearing Administrator.

C. FORWARDING OF RECORDS TO SUPERIOR COURT. The City Attorney or the City Attorney's designee shall forward to the Superior Court within fifteen (15) days of the Court's request, the pertinent Notice of Administrative Citation documents for any case appealed to that Court. If the Superior Court revokes any Notice of Administrative Citation, the City will refund to the appellant the Superior Court filing fee paid by the appellant. (Ord. 5272, 2003; Ord. 5113, 1999.)

1.25.130 Collection of Unpaid Fines.

A. CITY REMEDIES. The City, at its discretion, may pursue any and all legal, equitable, and administrative remedies for the collection of unpaid civil administrative fines.

1. Remedies Cumulative. Pursuit of one remedy does not preclude the pursuit of any other remedies until the total fines owed by a person under this Chapter have been collected.

2. Refusal to Issue Permits. A City department may refuse to accept an application for a City permit or license or to refuse to issue, extend, or renew to any person, who has unpaid delinquent fines, liens, or assessments, any city permit, license, or other City approval pertaining to the property that is the subject of a Notice of Administrative Citation and an unpaid administrative fine.

3. Suspension of Issued Permits. Notwithstanding any other provision of the Code, any permit, license, or any type of land use approval issued by the City to a person who has unpaid administrative fines totalling $500.00 or more which remain delinquent for thirty (30) days or longer may be suspended by the department which issued the permit or other entitlement. The suspension becomes effective ten (10) days after the date the notice of the suspension is placed by the issuing department in the United States mail, postage prepaid, addressed to the person, and continues until the administrative delinquency is paid in full. The person may request an appeal/or review hearing pursuant to the specific permit, license, or other City approval procedures or ordinance if such a request is filed before the ten (10) day period ends. Continuing to operate under a suspended permit, license, or approval shall also be grounds for the Planning Commission to act pursuant to Section 28.87.360 of this Code to revoke the permit, license, or approval.

4. Criminal Remedies. The City Attorney, at his or her discretion, may also issue a criminal citation or complaint (infraction or misdemeanor) to any person for a Code violation when the applicable fine has not been paid.

B. VIOLATIONS CONSTITUTE A PUBLIC NUISANCE. The Director may pursue the remedies described in this Section whether or not the City is pursuing any other action to terminate an ongoing Code violation that was the basis for an administrative fine or to otherwise abate the violation or sanction the property owner. To compel Code compliance, the City may also seek to collect assessed fines by means of a nuisance abatement lien or special assessment against the property where a property related violation occurred in accordance with the procedures in Government Code Sections 38773.1 and 38773.5.

C. LIEN CONDITIONS. To recover any delinquent administrative fines as a lien or special assessment on real property, the following conditions must be met:

1. The Director must submit to and receive approval from the City Council for a resolution certifying the amounts of the liens and special assessments sought to be collected from each property owner; and
2. The total amount of the delinquent fine against the property owner must be delinquent for 60 days or more.

D. LIEN COLLECTIONS. The Director is authorized to take any steps necessary to enforce collection of the lien or special assessment, including but not limited to the following:

1. Request the County Recorder to record a notice of any lien or special assessment certified by resolution of the City Council.
2. Request the County Tax Collector on behalf of the City to collect any special assessments certified by resolution of the City Council.
E. NOTICE OF LIEN COLLECTION PROCEDURES. All Notices of Administrative Citation shall contain a notice that unpaid fines are subject to the assessment and lien collection procedures of this Chapter. This notice shall satisfy the notice requirements of Government Code Sections 38773.1 and 38773.5 when a Notice of Administrative Citation is served on the person. In addition, the Director shall by first class mail send notice to each property owner at least ten (10) days before the City Council considers the resolution to certify the amounts of the liens and special assessments stating the date, time, and location of the meeting. The lien or special assessment shall be imposed on the date the Notice of Administrative Citation for the Code violation is issued to the responsible person and shall become effective upon the recording of a Notice of Lien or Special Assessment by the County Recorder.

F. CONTESTING CERTIFICATION OF A LIEN. A person may contest the amount or the validity of any lien or special assessment for a civil fine at the public hearing when the City Council considers the resolution to certify the liens or assessments. Such contests shall be limited to the issue of the amount or validity of the lien or assessment and may not consider whether the underlying Code violation occurred. Pursuit of such a contest by a person is necessary to exhaust the administrative remedies concerning a legal challenge to the validity of any such lien or special assessment. (Ord. 5113, 1999.)

D. Each candidate who rejects the voluntary expenditure ceiling established by this Chapter shall be subject to the contribution limit set forth in Government Code Section 85301, as the same may be amended from time to time.

E. Each candidate who accepts the voluntary expenditure ceiling established in this section shall be subject to the contribution limit set forth in Government Code Section 85402, and not the contribution limit set forth in Government Code Section 85301, as either section may be amended from time to time. In addition, as to each such candidate, the City Clerk shall provide notification to voters that the candidate has accepted the voluntary expenditure ceiling established herein, as required by Government Code Section 85602 and applicable regulations adopted pursuant to that Section.

Chapter 3.04
PERSONNEL AND SALARY CLASSIFICATION

3.04.010 Short Title.

This chapter shall be known as the "Basic Salary Ordinance". (Ord. 2906 §1, 1963.)

3.04.020 Definition of Terms.

The words and terms defined in this section shall have the following meanings in this chapter and in any other ordinance classifying and fixing the salaries and compensation or authorizing the employment of personnel in any department or office of the City.

(1) "City service" or "service of the City" means all positions in all departments as herein defined, that are subject to control and regulation by the City Council.

(2) "Classified service" means all positions in the City service except those specifically placed in the exempt service.

(3) "Exempt service" means all positions of elective and appointive officials specifically designated by the City Council to be exempt from the classification plan.

(4) "Class" or "class of positions" means a definitely recognized kind of employment in the City service designated to embrace all positions having duties and responsibilities sufficiently similar so that the same requirements as to education, experience, knowledge and ability may be demanded of incumbents and so the same schedule of compensation may be made to apply with equity.

(5) "Title", "class title" or "title of class" means the designation given to or name applied to a class or to each position allocated to the class and to the legally appointed incumbent of each position allocated to the class. Its meaning is set forth in the corresponding definition and the class specification, and it is always to be used and understood in that sense, even though it may, previously have had a broader, narrower or different significance.

(6) "Position" means a group of current duties and responsibilities assigned or delegated by competent authority, requiring the full or part-time services of one (1) person.
(7) "Employee" means a person legally occupying a position in the City service.
(8) "Allocation" means the official determination of the class in which a position shall be deemed to exist and the assignment of an individual position to an appropriate class.
(9) "Reallocation" means a reassignment or change in allocation of any individual position by raising it to a higher class, reducing it to a lower class, or moving it to another class at the same level on the basis of substantial changes in the kind, difficulty or responsibility of duties performed in such a position.
(10) "Compensation" means the salary, wages, allowance, and all other forms of valuable consideration earned by or paid to any employee by reason of service in any position, but does not include any allowance authorized and incurred as incidents to employment.
(11) "Continuous service" means employment with the City without break or interruption; in computing continuous service for the purposes of this chapter, neither military leaves nor leaves of absence on account of illness, whether with or without pay, shall be construed as a break in employment or service. Other absences aggregating in excess of ninety (90) days in any period of twelve (12) months, including layoffs on account of lack of work, lack of funds, or abolishment of positions shall be construed as breaking "continuous service".
(12) "Anniversary date" means the existing anniversary date for present officers and employees, and the first date of the month following date of employment of subsequent officers and employees unless the employment begins on the first day of the month in which case day of employment applies.
(13) "Base pay" means the minimum compensation regularly payable to an employee as set forth in the current salary resolution or ordinance at the time that added compensation is paid under this chapter, but shall not include overtime, expenses, hazardous duty pay (motorcycle), service betterment pay, or any other allowance added to the base pay. (Ord. 3654 §1, 1974; Ord. 2906 §2, 1963.)

3.04.030 Qualifications of Employees - Advancement for Extraordinary Qualifications.

No person shall be hereafter employed in or appointed to any position requiring full-time or part-time service, and which position is included in the classified plan for which a class specification exists establishing desirable qualifications, unless said person possesses in full the desirable qualifications prescribed for that class; provided, however, if qualified persons cannot be recruited, the City Administrator, with the approval of the Council, shall authorize the appointment of persons having less than the desirable qualifications.

In the event an employee entering upon City employment is found to possess extraordinary qualifications for a position through former training and/or experience, the City Administrator with the approval of the Council, may authorize the employment at any step of the appropriate salary range above Step "A". In such event, the employee shall serve a probationary period as elsewhere provided but he shall not succeed to the next higher step in the pay range until he has completed one (1) continuous year of service in the step at which he entered, and upon written recommendation of the department head to the City Administrator as provided in Section 3.04.070(c); provided, that department heads may at any time be advanced to a step other than the next succeeding step upon recommendation of the City Administrator and concurrence by the City Council, and provided further that in the event the City Administrator fails or refuses to make such recommendation, the Council may, by four-fifths (4/5) vote, advance such department head to a step other than such next succeeding step, and this chapter shall be deemed to be retroactive in its operation to January 1, 1965. (Ord. 3849, 1976; Ord. 3030, 1965; Ord. 2906, 1963.)

3.04.040 Classification of Positions.

(a) The provisions of this chapter shall apply to both the unclassified and classified services except as the unclassified service is exempt by the Charter.

(b) The classification of positions for the purposes of this chapter shall be as contained in the official book of class specifications. The official book of specifications shall be maintained by the City Administrator or Personnel Officer.

(c) The classification of positions may be amended by the addition, division, consolidation or abolishment of classes on recommendation of the City Administrator and adoption by the City Council. (Ord. 2906 §4, 1963.)

3.04.050 Allocation of Positions.

Each position shall be allocated to its appropriate class on the basis of duties and responsibilities. The present allocation of positions may be changed by the City Administrator provided the proposed change conforms with this chapter, with the established classification plan, and with the approved budget. (Ord. 2906 §5, 1963.)
3.04.055 Trainee-Level Positions.

Provision is hereby made for trainee-level positions in the unclassified service of the City. Such positions may be utilized temporarily only in lieu of filling regular authorized full-time and/or permanent part-time vacancies in either the classified or the unclassified service. Trainee appointments may be made upon the recommendation of the Personnel Director and approval of the City Administrator for periods of one (1) year or less.

Positions may be filled at the trainee level only by persons who possess or will gain during the period of their appointment the minimum qualifications for regular appointment. Such trainees must, however, qualify for regular or permanent part-time employment as provided elsewhere in this chapter. A trainee who fails to so qualify will be terminated upon or before the expiration of the appointment.

The intent of the trainee provision is to provide entry level employment opportunities in the City service in furtherance of positive employee development and affirmative action.

Trainee-level positions shall be compensated at a rate not to exceed eighty percent (80%) of the wage rate established by ordinance or resolution for the appropriate regular position. Trainee responsibilities shall be those outlined in substance on the appropriate regular position job descriptions recognizing, however, that employee development and skills acquisition are involved. (Ord. 3780, 1975.)

3.04.060 Use of Class Titles.

The title of the class to which any position is allocated shall be used in all official personnel records and in all official personnel transactions of the City. (Ord. 2906 §6, 1963.)

3.04.070 Application of Compensation Plan to Positions.

(a) The salaries or rates of compensation prescribed are fixed on the basis of full-time service in full-time positions, unless otherwise designated.

(b) The rates of pay prescribed shall be deemed to include pay in every form, except for necessary expenses authorized and incurred incident to employment, or except as herein provided.

(c) The letters A, B, C, D and E, respectively, denote the various steps in the pay range. The entrance step shall be A, except as provided in Section 3.04.030. Advancement to the second higher step above the entrance step shall be made upon successful completion of a probationary period of six (6) months, and on the basis of a written recommendation by the department head to the City Administrator. Thereafter, advancement to higher salary range steps shall be made on the basis of a written recommendation by the department head to the City Administrator, following the completion of a year of service in the lower step of the range.

(d) Where a salary range for a given class or for several classes is revised upward or downward, the incumbents of positions in classes affected shall have their existing salary adjusted to the same relative step in the new salary range. (Ord. 2906 §7, 1963.)

3.04.080 Initial Adjustments to Compensation Plan.

Subject to the provisions of this chapter, the salary ranges set out in this chapter shall be applicable to all positions allocated to classes listed in this chapter. From and after the date the ordinance codified in this chapter becomes effective, each employee in the City service shall be paid the salary or compensation for services rendered in behalf of the City in accordance with the salary range prescribed for the class of position to which his position is allocated.

Persons who are employees on the effective date of the ordinance codified in this chapter shall be allocated to the class and position deemed proper and shall be placed at a salary step in the applicable salary range, all in accordance with a resolution of the City Council. (Ord. 2906 §8, 1963.)

In case of the promotion of any employee in the City service to a position in a class with a higher salary range, such employee shall be entitled to receive the rate of compensation in the entrance step of the class to which he has been promoted, provided that in the event such employee possesses extraordinary qualifications through long tenure and previous experience in his department, the City Administrator may, with the approval of the City Council, authorize the promotion of such employee to be at any step other than such entrance step. In cases where the salary range overlaps, promotion shall be effected at the next higher step in the range of the new class. (Ord. 2913 §1(part), 1963; Ord. 2906 §9(a), 1963.)

The employee shall be eligible to receive two (2) additional days leave with pay, up to a maximum of five (5) days, subject to the approval of the department head. Employees of the Fire Department assigned to shift work shall be granted leave not to exceed two (2) shifts off with pay.

Immediate family is defined as mother, father, brother, sister, spouse, child, grandparents by blood or marriage, mother-in-law, father-in-law, brother-in-law, sister-in-law, daughter-in-law, son-in-law or person standing in loco parentis.

The intent of bereavement leave is to provide employees with adequate time to be with their immediate family during a period of anguish, whether it be at the time of death, preparation of funeral arrangements and/or to attend a funeral.

Responsibility for proper administration of this section shall rest with each department head. (Ord. 3655 §1, 1974.)

3.08.210 Leave of Absence - Schedule - Granting by City Administrator - Compensation.

Whenever any person entitled to benefits under the provisions of Sections 3.08.140 through 3.08.190 shall have been in the service of the City continuously for five (5) years or more, upon his written application approved by his department head or the City Administrator and accompanied by a report from a medical doctor, stating the extent and nature of the illness of the applicant and approximate time required for recovery, the City Administrator may grant to such person an extra leave of absence because of illness in addition to that provided by Sections 3.08.140 through 3.08.190. Such leave of absence shall be in accordance with the following schedule:
During such period of extra leave, such person shall receive an amount equal to fifty percent (50%) of his regular salary or wages. (Ord. 3655 §1, 1974.)

### 3.08.220 Injury in the Course of Employment - Workers' Compensation - Payments from City.

Where sickness or injury is sustained in the course of employment with the City, such officer or employee shall be compensated under the provisions of the Workers' Compensation Insurance and Safety Act of the State and not under the provisions of this chapter; provided, however, that if during the first three (3) calendar days of necessary absence for such cause, the disabled person shall be qualified for and receive payments under the above-mentioned act, he shall also receive from the City a sum which, when added to the disability payment under the aforesaid act, shall make a total equal to the full salary of such officer or employee at the time of his injury. However, if during the first three (3) day period he does not qualify for disability payments under the Act, such officer or employee shall receive one hundred percent (100%) of his salary or wages for that period. If said absence is subsequently determined not to have been sustained in the course of employment with the City, it shall be charged against the employee's accumulated sick leave. Such benefit shall accrue for each such disability but shall not entitle a person to more than one (1) week's pay in cases of recurring disability from the same cause; it is further provided that in the event any employee sustains such illness or injury from the performance of duties within the scope of his employment with the City, he shall also receive from the City during such disability for an additional period not exceeding twelve (12) months for policemen or firemen, and not exceeding three (3) months for other full-time employees, in addition to the disability payment payable under the Workers' Compensation Insurance and Safety Act of the State, a sum which, when added to the disability payment payable under the aforesaid act shall make a total equal to the full salary of such employee at the time of his injury; provided, however, that when any such employee shall be retired from active service or employment because of such disability, then in such event, the provisions of this chapter shall not apply and such person shall be entitled only to the benefits set forth in the City Charter. (Ord. 3655 §1, 1974.)

### 3.08.230 Payment of Salaries and Filling of Positions During Absences.

Where an officer or employee is absent from the duties of his position because of vacation or illness and receives any moneys whatsoever from the City pursuant to the provisions of this chapter, such sums shall be paid from moneys appropriated for the payment of the salary or wage of the position such person fills. The position of an officer or employee who is absent on an approved leave which shall include but not be limited to sick leave, vacation, or leave without pay shall be considered filled for the duration of such approved leave. Notwithstanding the above, where an officer or employee is absent from the duties of his position because of an industrial injury or illness and he has exhausted his leave rights under Section 4850 of the Labor Code of the State of California and is receiving benefits pursuant to Section 21025.2 of the Government Code of the State of California prior to the effective date of retirement, his position shall be considered vacant and may be filled by the appointing authority pursuant to Chapter 3.16 of the Municipal Code of the City of Santa Barbara. (Ord. 3925 §2, 1977.)

### 3.08.240 Leave of Absence Without Pay - Approval of City Administrator.

A leave of absence without pay may be granted to any officer or employee of the City by appointing officer or board; provided, that in the event such leave be requested for a longer period than seven (7) calendar days, such request in all cases shall be presented to and approved by the City Administrator before it may be granted. (Ord. 3655 §1, 1974.)

### 3.08.250 Computing Continuous Service.

For the purpose of computing continuous service, leaves of absence on account of illness whether with or without pay shall not be construed as a break or interruption in service. Other leaves of absence or layoffs on account of lack of work or funds or other reasons totalling in excess of ninety (90) consecutive calendar days shall be construed as breaking continuous service. (Ord. 3655 §1, 1974.)
3.08.260 Transportation Allowance for Officials and Employees for Use of Privately Owned Vehicles.

Each official or employee, other than the Mayor and City Councilmembers using any vehicle not owned by the City, for transportation purposes in the proper discharge of his duties as such official or employee, shall be allowed and shall receive a transportation allowance in addition to compensation paid such official or employee as salary or wages. Said allowance shall be established by resolution of the City Council. (Ord. 4047, 1980; Ord. 3931, 1977; Ord. 3655, 1974.)

3.08.265 Reimbursement to Mayor and City Councilmembers for Local Use of Privately Owned Automotive Vehicles.

Due to increased and increasing activity by the Mayor and City Councilmembers in the local pursuit of public business requiring the use of automotive vehicles, it is deemed that such use by said elected officials of City-owned vehicles for City business is a justifiable utilization of public property. A study of relative costs by the City's financial staff indicates that the cost of providing such City-owned vehicles to the Mayor and Councilmembers for local use, however, would appreciably exceed the cost of fair and reasonable reimbursement to said elected officials for such portion of their use of privately owned vehicles as is devoted to duties on behalf of the public.

Pursuant to Section 502 of the Charter of the City of Santa Barbara, therefore, the Mayor and each Councilmember is entitled to a vehicle allowance to cover the routine and ordinary costs, including mileage and depreciation, of operating privately owned automotive vehicles in the necessary local performance of public duty. The vehicle allowance shall be paid to the Mayor and each City Councilmember monthly by the City. The base monthly vehicle allowance for the Mayor will be $405 per month and for Councilmembers will be $280 per month. Said vehicle allowances will henceforth be indexed, on a percentage basis, with changes in the standard mileage rate as established by Internal Revenue Service (IRS) regulations. Therefore, when the IRS increases the mileage reimbursement rate, the monthly vehicle allowance will be adjusted upward or downward by an equal percentage.

Payments made pursuant to this section are hereby determined to constitute reimbursement for actual costs and expenses incurred in the official and regular discharge and performance of duties pertaining to City business. No such payment shall be deemed to represent compensation, salary, allowance, bonus, or any other form of payment for the rendering of personal services on behalf of the City. (Ord. 4612, 1990; Ord. 4324, 1985; Ord. 4276, 1984; Ord. 4047, 1980; Ord. 3655 §1, 1974.)

3.08.270 Presentment of Mileage Claims and Vouchers.

Mileage claims authorized by Section 3.08.260 shall be duly presented and filed each month for mileage of the preceding month. (Ord. 3655 §1, 1974.)

3.08.280 Authority to Use Automobile on City Business - City Administrator.

Prior to the use by any official or employee, other than the Mayor and City Councilmembers of the City of an automobile, allowance for which is to be paid for as provided by this chapter, there shall first be certified to such official or employee by the City Administrator, written authority to use an automobile in the performance of such official's or employee's duties as an official or employee of the City and to receive the transportation allowance therefor provided for by this chapter and a copy of such written authority shall be upon the issuance thereof by the City Administrator filed with the City Auditor and with the City Treasurer. (Ord. 3655 §1, 1974.)

3.08.290 Record of Mileage.

Each official or employee, other than the Mayor and City Councilmembers, receiving the allowance provided for by this chapter shall keep records of the mileage allowed by this chapter in such a way as to enable verification thereof being made. (Ord. 3655 §1, 1974.)

3.08.300 Additional Compensation Not Allowed.

No official or employee of the City using an automobile as allowed by this chapter shall receive from the City any other allowance for compensation for such use than that provided by this chapter, except that the City may reimburse up to a maximum of One Hundred Dollars ($100) for repair expense incurred by the official or employee when a privately owned vehicle is damaged by collision or receives other accidental damage subject to the following conditions:

1. Vehicle was used with the written permission or authorization of the City Administrator under Section 3.08.280 of the Code.
2. The amount claimed is actual loss to the official or employee because it is not recoverable either directly from or through the insurance coverage of any of the parties involved in the accident.
3. Claim is presented within one hundred (100) days of date of accident. (Ord. 3714 §1, 1974; Ord. 3655 §1, 1974.)
3.08.310 Bonds Required by Persons Handling City Funds.

Any and all employees of the City of the different departments thereof, who in the regular course of their employment, handle funds belonging to the City shall give a bond to the City.  (Ord. 3655 §1, 1974.)

3.08.320 Amount of Bonds.

The following named officers of the City shall give bonds in the following amounts:

1. City Administrator $ 5,000.00
2. City Treasurer 100,000.00
3. Director of Finance 100,000.00
4. City Attorney 5,000.00
5. City Clerk 5,000.00
6. Chief of Police 5,000.00
7. Public Works Director 5,000.00

(Ord. 3714 §1, 1974;  Ord. 3655 §1, 1974.)

3.08.330 Excluded Personnel - Temporary, Part-Time, Seasonal.

Temporary, part-time or seasonal employees paid on an hourly basis are excluded from the provisions of §§3.08.080 to 3.08.120 inclusive.  (Ord. 3655 §1, 1974.)

3.08.340 Officers Who Must Live Within City Limits.

In accordance with the provisions of the City Charter, the Mayor, members of the City Council, the City Administrator, and any member of an appointed board or commission of the City shall have his permanent residence within the City, except as otherwise provided in this Code.  (Ord. 3655 §1, 1974.)

3.08.350 Permanent Residence Defined.

For the purpose of this chapter the words "permanent residence" shall be deemed to be that place where the officer or employee maintains his home for himself and his family, and from which he has no present intention of removing or to which he has a general intention to return from any temporary location.  (Ord. 3655 §1, 1974.)

Such written proof shall be submitted for confirmation to the Municipal Employee Relations Officer or to a mutually agreed upon disinterested third party.

3.12.090 Appropriate Unit.

(a) The Municipal Employee Relations Officer, after reviewing the petition filed by an employee organization seeking formal recognition as majority representative, shall determine whether the proposed unit is an appropriate unit. The principal criterion in making this decision is whether there is a community of interest among such employees. The following factors are to be considered in making such determination:
(1) Which unit will assure employees the fullest freedom in the exercise of rights set forth under this Chapter;
(2) The history of employee relations:
   (i) In the unit,
   (ii) Among other employees of the City, and
   (iii) In similar public employment;
(3) The effect of the unit on the efficient operation of the City and sound employer-employee relations;
(4) The extent to which employees have common skills, working conditions, job duties or similar educational requirements
(5) The effect on the existing classification among two (2) or more units.
   Provided, however, no unit shall be established solely on the basis to the extent to which employees in the proposed unit have organized.
(b) In the establishment of appropriate units:
(1) Professional employees shall not be denied the right to be represented separately from non-professional employees, and
3.12.095   Procedure for Modification of Established Appropriate Unit.

Requests by employee organizations or groups of employees for modifications of established appropriate unit may be considered by the Municipal Employee Relations Officer only during the open period specified in Sec. 3.12.120. Such requests shall be submitted in the form of a Petition for Recognition pursuant to the requirements set forth in Sections 3.12.080, 3.12.090. The Municipal Employee Relations Officer shall process such petitions as other Petitions for Recognition under Sec. 3.12.080 and Sec 3.12.090, including the right of appeal contained in 3.12.090(c).

Any other employee organization may file an intervener petition pursuant to Section 3.12.120(c) when a petition includes a request for recognition.

The Municipal Employee Relations Officer may propose during the open period specified in Sec. 3.12.120 that an appropriate unit be modified. The Municipal Employee Relations Officer shall give written notice of each proposed modification to any affected employee organization and shall hold a meeting concerning proposed modification, at which time all affected employee organizations shall be heard. Thereafter the Municipal Employee Relations Officer shall determine the composition of the appropriate unit or units in accordance with Sec. 3.12.090, and shall give written notice of such determination to the affected employee organizations. The Municipal Employee Relations Officer's determination may be appealed as provided in Section 3.12.090(c). If a unit is modified pursuant to the motion of the Municipal Employee Relations Officer hereunder, an employee organization may thereafter file a Petition for Recognition seeking to become the recognized employee organization for such new appropriate unit or units pursuant to Sec. 3.12.080.

3.12.100   Recognition of Employee Organizations as Majority Representative - Formal Recognition.

(a) The Municipal Employee Relations Officer may:

(1) Determine the majority representative of City employees in an appropriate unit by arranging for a secret ballot election or by any other reasonable method which is based upon written proof, and is designed to ascertain the free choice of a majority of such employees. The employee organization found to represent a majority of the employees in an appropriate unit shall be granted formal recognition and is the only employee organization entitled to meet and confer in good faith on matters within the scope of representation. This shall not preclude other employee organizations, or individual employees, from consulting with management representatives on employer-employee relations matters of concern to them;

(2) Revoke the recognition rights of a majority representative which has been found by secret ballot election no longer to be the majority representative pursuant to Section 3.12.120.

(b) The recognition rights of the majority representative designated in accordance with this section shall not be subject to challenge for a period of twelve (12) months following the date of such recognition. (Ord. 4537, 1988; Ord. 3467 §1(part), 1971.)

3.12.120   Revocation of Recognition.

(a) Initiated by Petition. Any group of employees of an appropriate unit represented by a formally recognized employee organization may initiate the process of revoking that organization's recognition by filing a revocation of recognition petition with the Municipal Employee Relations Officer. Said petition shall meet the requirements set forth in Section 3.12.080. The petition may only be filed during an "open period", defined as (i) the month of March of any year following the first twelve months of recognition, or (ii) the thirty (30) day period beginning one hundred twenty (120) days prior to the termination date of the Memorandum of Understanding affecting that unit then having been in effect less than three years, whichever is later.
A revocation of recognition petition may be combined with a petition for recognition by adhering to the requirements of Section 3.12.080 as well as those requirements in this section. Following receipt of a revocation of recognition petition the Municipal Employee Relations Officer shall make a written determination to accept or reject the petition. The Employee Relations Officer shall notify the affected labor organizations of his determination. An appeal of this determination may be filed with the Board of Civil Service Commissioners, as provided in Section 3.12.090(c).

(b) Election. Upon the determination of a revocation petition's acceptance or rejection, or upon decision by the Board, the Municipal Employee Relations Officer shall promptly schedule an election among the employees of each affected unit to decide the question in accordance with Section 3.12.100. Such election shall take place no sooner than thirty (30) days following the determination of the Municipal Employee Relations Officer or alternately the decision of the Board of Civil Service Commissioners.

(c) Intervener Petition. Within fifteen (15) days of the filing of a revocation petition which combines a request for recognition, any other employee organization may file an intervener petition for recognition as to the affected unit pursuant to Section 3.12.080. Such a petition must include written proof dated within six months of the date of filing, of employee approval equal to at least ten percent (10%) of employees within the unit.

(d) New Representative. Within fifteen (15) days of the filing of a revocation of recognition petition or issuance of a notice by the Municipal Employee Relations Officer that revocation proceedings have commenced, any other employee organization may file a Petition for Recognition as to any affected appropriate unit pursuant to Section 3.12.080. Any election to be held as to that Petition may be held concurrently with the election on the issue or revocation of recognition.

(e) No Impact on MOU. Neither the revocation of recognition of an employee organization, nor the recognition of a different employee organization, shall have any effect on an Memorandum of Understanding then in effect. Any employee organization which is formally recognized as to a unit during the term of an MOU shall be bound by all of the terms and conditions of that MOU. (Ord. 4537, 1988.)

3.12.130 Memorandum of Understanding.

When the meeting and conferring process is concluded between the City and a formally recognized employee organization representing a majority of the employees in an appropriate unit, all agreed upon matters shall be incorporated in a written memorandum of understanding signed by the duly authorized City representative and the majority representatives.

As to those matters within the authority of the City Council, the memorandum of decision shall be submitted to the City Council for determination. (Ord. 4537, 1988; Ord. 3467 §1(part), 1971.)

The City Council may adopt such rules and regulations necessary to implement the provisions of this Chapter and Chapter 10, Division 4, Title 1 of the Government Code of the State of California (Sections 3500, et seq.). (Ord. 4537, 1988; Ord. 3467 §1(part), 1971.)

3.12.150 Construction.

(a) Nothing in this Chapter shall be construed to deny any person or employee the rights granted by Federal and State laws and City Charter provisions.

(b) The rights, powers and authority of the City Council in all matters, including the right to maintain any legal action, shall not be modified or restricted by this Chapter.

(c) Nothing contained in this Chapter shall abrogate any Written agreement between any employee organization and the City in effect on the effective date of this Chapter. All such agreements shall continue in effect for the duration of the term specified therein unless modified or rescinded by mutual agreement of the parties thereto.

(d) The provisions of this Chapter are not intended to conflict with the provisions of Chapter 10, Division 4, Title 1 of the Government Code of the State of California (Sections 3500, et seq.), as amended in 1968. (Ord. 4537, 1988; Ord. 3467 §1(part), 1971.)

(a) Employee representatives shall be allowed reasonable time off to meet and confer with employer representatives.

(b) One (1) member from each formally recognized employee association shall be granted up to three (3) working days or two (2) shifts off in the case of members of the Fire Department, with pay, once annually to attend state, regional or national conferences or conventions of employee associations of which said employee is a member. No other expense incurred by attendance at said conference or convention shall be paid by the City. (Ord. 4537, 1988; Ord. 3467 §1(part), 1971.)
3.12.170 Separability.

If any provision of this Chapter, or the application of such provision to any person or circumstance, shall be held invalid, the remainder of this Chapter, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby. (Ord. 4537, 1988; Ord. 3467 §1(part), 1971.)

3.16.050 Announcement.

All examinations for classes in the classified service shall be publicized by posting announcements in the City Hall, on official bulletin boards, and by such other methods as the Personnel Director deems advisable. (Ord. 3925 §3, 1977; Ord. 3525, 1972.)

3.16.070 Disqualification.

The Personnel Director shall reject any application which indicates on its face that the applicant does not possess
the minimum qualifications required for the position. Applications shall be rejected if the applicant is physically unfit
for the performance of duties of the position to which he seeks appointment; is addicted to the use of narcotics or
drugs; habitually uses intoxicating liquor in excess; has been dismissed or has resigned in order to avoid dismissal, for

certify as an eligible and for removal from an employment list.

Except as otherwise provided herein, conviction (including pleas of guilty and nolo contendere) of a felony or a
misdemeanor shall be prima facie disqualification of an applicant for employment by the City of Santa Barbara;
provided, however, that the Personnel Director may disregard such conviction if it is
found and determined by the Personnel Director that mitigating circumstances exist. In making such determination,
the Personnel Director shall consider the following factors:

(a) the classification, including its sensitivity, to which the person is applying or being certified and whether the
classification is unrelated to the conviction;
(b) the nature and seriousness of the offense;
(c) the circumstances surrounding the conviction;
(d) the length of time elapsed since the conviction;
(e) the age of the person at the time of the conviction;
(f) the presence or absence of rehabilitation or efforts at rehabilitation.

The Personnel Director shall give notice of disqualification to an applicant disqualified under this provision. Such
notice shall be in writing and delivered personally or mailed to the applicant at the address shown on the application
for employment. (Ord. 3910, 1977; Ord. 3376 §1, 1969; Ord. 3267 §1(part), 1968.)

Personnel and Risk Management, and his deputies, and legal counsel. (Ord. 3910, 1977; Ord. 3376, 1969; Ord.
3267, 1968.)

3.16.072 Inquiries Regarding Spouses and Relatives.

A. IMPERMISSIBLE INQUIRIES. It is unlawful to ask an applicant for City employment to disclose his or
her marital status as part of a pre-employment inquiry unless pursuant to a legally permissible inquiry.

B. PERMISSIBLE INQUIRIES. It is lawful to ask an applicant to state whether he or she has a spouse or
relative who is presently employed by the City or whether he or she has ever used another name, but such information
may not be used as a basis for an employment decision except as stated in City Charter Section 710 or Section
3.16.073 of this Code. (Ord. 4564, 1989.)

3.16.073 Employee Selection.

A. EMPLOYMENT OF SPOUSE, REGISTERED DOMESTIC PARTNER, AND RELATIVES. An
employment decision shall not be based on whether an individual has a spouse, registered domestic partner, or
relative presently employed by the City except in accordance with City Charter Section 710 and the following
criteria:

1. For business reasons of supervision, safety, security or morale, the City Administrator, after consulting
with the Personnel Officer and the department head, may refuse to place a spouse, registered domestic partner, or
relative under the direct supervision of the other spouse, registered domestic partner, or a relative.

2. For business reasons of supervision, safety, security or morale, the City Administrator, after consulting
with the Personnel Officer and the department head, may refuse to place both spouses, both registered domestic
partners, or the two relatives in the same department, division or facility if the work involves potential conflicts of
interest or other hazards greater for married couples, registered domestic partners, or relatives than for other persons.
B. **ACCOMMODATIONS FOR CITY EMPLOYEES WHO MARRY OR WHO REGISTER AS DOMESTIC PARTNERS.** If two (2) City employees marry or register as domestic partners, the City Administrator shall make reasonable efforts to assign job duties so as to minimize problems of supervision, safety, security, or morale. If the City Administrator is unable to make an acceptable accommodation which sufficiently minimizes the problems of supervision, safety, security or morale, it may require the two City employees who have married or who have registered as domestic partners to decide which one of them will resign from City employment within 60 days of being notified of the City Administrator's inability to make a reasonable accommodation.

C. **REGISTERED DOMESTIC PARTNERS – DEFINED.** For the purposes of this section, a “registered domestic partner” shall refer to domestic partners who have registered in any of the following ways:

1. with the Santa Barbara City Clerk’s Office pursuant to Chapter 9.135 of the Santa Barbara Municipal Code;
2. with the State of California Secretary of State’s Office as the term is defined in State Family Code Section 297; or
3. with another municipal, county, or state domestic partner registry authorized and maintained by a governmental entity within the United States.

D. **CHARTER SECTION 710 AND NEPOTISM.** For the purposes of City Charter Section 710, use of the term “marriage” shall include those persons who are registered domestic partners as defined and used in this Section 3.16.073. (Ord. 5520, 2010; Ord. 4564, 1989.)

### 3.16.075 Physical Standards.

The Board, with the recommendation of the Personnel Director, shall establish medical and physical standards for the various classes of positions in the classified service. Each person receiving an original appointment to a permanent position in the classified service shall be required to meet the medical and physical standards prescribed by the Board and shall be required to take a medical and physical examination, at no expense to the person, to determine whether or not he meets such standards; provided, however, that the Board may waive the requirement for such examination in the case of temporary employment. The Personnel Director shall designate the physician to make an examination. If the person is found by a designated physician not to meet the prescribed standards, his name shall be:

(a) Withheld from placement on the employment list by the Personnel Director; or
(b) Removed from the employment list by the Personnel Director; or
(c) Withheld from certification by the Personnel Director.

In the event of employment in advance of medical and physical examination, a person found by a designated physician not to meet the prescribed standards shall be separated unless granted an adequate waiver.

The board may in the exercise of its discretion grant a waiver of medical and physical standards. Such waiver may be:

(a) Permanent in nature in cases where a waiver of minor physical defects will clearly serve the interests of the City and such waiver is recommended by the examining physician and the Personnel Director, or
(b) Temporary in nature, subject to the attainment of the required standards within such period of time and upon such conditions as may be prescribed by the Board. A person failing to comply with the terms of such temporary waiver shall be separated on order of the Personnel Director. (Ord. 3267 §1(part), 1968.)

### 3.16.080 Nature and Types of Examinations.

The selection techniques used in the examination process shall be impartial, of a practical nature and shall relate to those subjects which, in the opinion of the Personnel Director and the department head, fairly measure the relative capacities of the class to which they seek to be appointed. Examination shall consist of selection techniques which will test fairly the qualifications of candidates such as, but not necessarily limited to achievement and aptitude tests, other written tests, personal interviews, performance tests, physical agility tests, evaluation of daily work performance, work samples, medical tests, or any combination of these or other tests. (Ord. 3267 §1(part), 1968.)

### 3.16.085 Pre-employment Information.

In an examination for employment, the Personnel Director shall require as a prerequisite to such employment the taking of fingerprints of all applicants achieving a position on the employment list. The Personnel Director may make special inquiry into past records of all applicants and any other investigation deemed necessary. (Ord. 3267 §1(part), 1968.)

### 3.16.090 Promotional Examinations.

Promotional examinations shall be conducted whenever the needs of the service require. Promotional examinations may include any of the selection techniques mentioned in Section 3.16.080 of this chapter, or any combination of them. Only City employees who meet the requirements set forth in the promotional examination announcements may compete in promotional examinations. (Ord. 3704 §1, 1974; Ord. 3267 §1(part), 1968.)
3.16.100 Continuous Examination.

Open competitive examinations may be administered periodically for a single class as the needs of the service require. Names shall be placed on employment lists, and shall remain on such lists, as prescribed in Sections 3.16.140 to 3.16.170, inclusive. (Ord. 3267 §1(part), 1968.)

3.16.110 Conduct of Examination.

The City Council may contract with any competent agency or individual for the preparing and/or administering of examinations. In the absence of such a contract, the Personnel Director shall insure that such duties are performed. The Personnel Director shall arrange for the use of public buildings and equipment for the conduct of examinations. (Ord. 3267 §1(part), 1968.)

3.16.120 Scoring Examinations and Qualifying Scores.

A candidate's score in a given examination shall be the average of his scores on each competitive part of the examination, weighed as shown in the examination announcement. Failure in one (1) part of the examination may be grounds for declaring such applicants as failing in the entire examination or as disqualified for subsequent parts of an examination.

The Personnel Director may, at his discretion, include as a part of the examination, tests which are qualifying only. (Ord. 3267 §1(part), 1968.)

3.16.130 Notification of Examination Results.

Each candidate in an examination shall be given written notice of the results thereof, and if successful, of his final earned score and/or rank on the employment list. (Ord. 3267 §1(part), 1968.)

3.16.140 Employment Lists.

As soon as possible after the completion of an examination, the Personnel Director shall prepare and keep available an employment list consisting of the names of candidates who qualified in the examination, arranged in order of final scores, from the highest to the lowest qualifying score. (Ord. 3267 §1(part), 1968.)

3.16.150 Duration of Lists.

The Personnel Director may extend an employment list for additional periods, but in no event shall an employment list remain in effect for more than two (2) years.

Promotional lists shall remain in effect for one (1) year unless sooner exhausted, open competitive lists shall remain in effect six (6) months unless sooner exhausted or extended, but in no event shall an employee list (open or promotional) remain in effect for more than two (2) years except that eligibles selected for acting positions from a specific eligibility list pursuant to Section 3.04.130, who have held that position for a period of not less than twelve (12) months, shall retain the same relative ranking on said list or any new list replacing said list.

Names placed on continuous lists shall be merged with any others already on the list in order of final scores and shall remain on the list for six (6) months if the eligible is not an employee, and shall remain on the list for one (1) year if the eligible is an employee. (Ord. 3838, 1976.)

3.16.155 Test Review.

All candidates who take a written test (other than a form or standardized test) will be allowed to look at the key copy of the test for five (5) City Hall working days immediately following the date the written test was proctored.

A second review period will occur after candidates are notified of the results of the examination. After candidates receive notice that they did not qualify on a written test, they will have five (5) City Hall working days after receiving such notice to review the key copy and their own test paper. For purposes of this second review period, those who passed the written test will not be allowed to review the test nor to see their test paper until they have been notified of the final result of the entire examination.

Candidates may spend no more time reviewing the key copy and their test papers than half of the time that was allowed for the written test. (Ord. 3525 §3, 1972.)

3.16.160 Reinstatement Lists.

The names of probationary and permanent employees who have been laid off shall be placed on appropriate reinstatement lists, as provided in Section 1008 of the Charter. (Ord. 3925 §3, 1977; Ord. 3267 §1(part), 1968.)
3.16.170 Removal of Names from List.

The name of any person appearing on an employment, reinstatement, or promotional list shall be removed by the Personnel Director, if the eligible person requests that his name be removed and the request is confirmed in writing by the eligible person or the Personnel Department, or if he fails to respond to a notice of certification mailed to his last known address, or for any of the reasons specified in Section 3.16.070 of this chapter. The person affected shall be notified of the removal of his name by a notice mailed to his last known address. The names of persons on promotional employment lists who resign from the service shall automatically be dropped from such lists. (Ord. 3956 §1, 1978; Ord. 3838, 1976.)

3.16.175 Inactive List.

Notwithstanding the provisions of Section 3.16.170 of this chapter the name of an eligible who is not available for immediate certification may, upon request in writing to the Personnel Director, be placed on an inactive list, and may be restored to the active list from which it was removed upon request of the eligible provided the list is still in existence. (Ord. 3267 §1(part), 1968.)

3.16.180 Types of Appointment.

All vacancies in the classified service shall be filled by transfer, demotion, re-employment, reinstatement, or from eligibles certified by the Personnel Director from an appropriate employment list, if available. In the absence of persons eligible for appointment in these ways, provisional appointments may be made in accordance with this chapter. (Ord. 3267 §1(part), 1968.)

3.16.190 Notice to Personnel Director.

Whenever a vacancy in the classified service is to be filled, the appointing power shall notify the Personnel Director in the manner prescribed. If there is no reinstatement list available for the class, the appointing power shall have the right to decide whether to fill the vacancy by re-employment, transfer, demotion, appointment from a promotional employment list, or appointment from an open employment list. (Ord. 3956 §2, 1978; Ord. 3267 §1(part), 1968.)

3.16.200 Certification of Eligibles.

If it is not possible to fill a vacancy by reinstatement, the appointing power may fill such vacancy by re-employment, transfer, or demotion, or by certification from an appropriate employment list, provided that eligibles are available.

When the appointing power requests a vacancy be filled by appointment from a promotional employment list or from an open employment list, the Human Resources Manager shall certify to the appointing authority, in alphabetical order, the names (according to final score) of nine (9) more eligibles (including tie scores) than the number of vacancies.

In the case of Fire Inspector I, the Human Resources Manager shall certify from either a promotional employment list or from an open employment list, in alphabetical order, the names (according to final score) of nineteen (19) more eligibles (including tie scores) than the number of vacancies.

In the case of Firefighter, Police Officer, Public Safety Dispatcher I, Public Safety Dispatcher II, and Parking Enforcement Officer, the Human Resources Manager shall certify from either a promotional employment list or from an open employment list, the names of all eligibles in final score order.

For the positions of Fire Engineer, Fire Captain, Fire Inspector II and Fire Inspector III, the Human Resources Manager shall certify to the appointing authority, in alphabetical order, the names of four (4) more eligibles (including tie scores) than the number of vacancies.

Any eligible whose name is certified three (3) times to an appointing power, and has not been appointed, may be removed from the eligible list at the discretion of the Human Resources Manager. Whenever there are fewer than three (3) names of individuals willing to accept appointment on a promotion employment list or on an open employment list, the appointing power may make an appointment from among such eligibles or may request the Human Resources Manager to establish a new list. When so requested the Human Resources Manager shall hold a new examination and establish a new employment list.

Those persons whose names are placed on an eligible list by reasons of transfer, reinstatement, or by virtue of being on another eligible list which is at a higher salary range and for which the qualifications are substantially similar, shall be certified at the request of the appointing authority in addition to the names certified from the appropriate employment list, except vacancies in the Treatment and Patrol bargaining unit shall not be filled from eligibles placed on the certification list by virtue of being on another eligible list which is at a higher salary range and for which the qualifications are substantially similar. Such additional names shall have no rank or standing on the eligible list. (Ord. 5553, 2011; Ord. 5346, 2005; Ord. 5176, 2001; Ord. 5174, 2001; Ord. 5066, 1998; Ord. 4578, 1989; Ord. 4462, 1987; Ord. 3956 §3, 1978; Ord. 3525 §4, 1972.)
3.16.210 Appointment.

After interview and investigation, the appointing power shall make appointments from among those certified, and shall immediately notify the Personnel Director of the persons appointed. The person accepting appointment shall present himself to the Personnel Director, or his designated representative, for processing on or before the date of appointment. If the applicant accepts the appointment and presents himself for duty within such period of time as the appointing power shall prescribe he shall be deemed to be appointed, otherwise, he shall be deemed to have declined the appointment. (Ord. 3267 §1(part), 1968.)

3.16.220 Provisional Appointment.

When there are less than three (3) individuals willing to accept appointment on appropriate employment lists, a provisional appointment may be made by the appointing power of a person meeting the minimum training and experience qualifications for the position. An employment list shall be established within six (6) months for any permanent position filled by provisional appointment. The City Administrator, with the approval of the City Council, may extend the period for any provisional appointment for not more than thirty (30) days by any one action. When a provisional appointment is to be extended the City Council shall direct the City Clerk to record such action in the minutes of the meeting of the Council.

No special credit shall be allowed in meeting any qualification or in the giving of any test or the establishment of any open competitive promotional lists, for service rendered under a provisional appointment.

A provisional employee may be removed at any time without the right of appeal or hearing. (Ord. 3267 §1(part), 1968.)

3.16.230 Appointment Pending Suspension or Period of Review.

During the period of suspension of an employee or pending final action or proceedings to review suspension, demotion or discharge of an employee, such vacancy may be filled by the appointing power subject to the provisions of this chapter and the Charter. (Ord. 3267 §1(part), 1968.)

3.16.240 Regular Appointment Following Probationary Period.

All original and promotional appointments shall be tentative and subject to a probationary period of one (1) year of actual service. If the service of the probationary employee has been satisfactory to the appointing power, then the appointing power shall file with the Personnel Director a statement in writing to such effect and stating that the retention of such employee in the service is desired. If such a statement is not filed (prior to the expiration of the probationary period) the employee will be deemed to be unsatisfactory and his employment terminated at the expiration of the probationary period. (Ord. 3267 §1(part), 1968.)

3.16.250 Objective of Probationary Period.

The probationary period shall be regarded as a part of the testing process and shall be utilized for closely observing the employee's work and for securing the most effective adjustment of a new employee to this position. (Ord. 3267 §1(part), 1968.)

3.16.260 Rejection of Probationer.

During the probationary period, an employee may be rejected at any time by the appointing power without cause and without the right of appeal. Notification of rejection in writing shall be served on the probationer and a copy filed with the Personnel Director. A rejected probationer must make a request in writing to the Personnel Director within fifteen (15) days to be returned to the eligible list, as provided in Section 1004 of the Charter. (Ord. 3267 §1(part), 1968.)

3.16.270 Rejection Following Promotion.

Any employee rejected during the probationary period following a promotional appointment, or at the conclusion of the probationary period by reason of failure of the appointing power to file a statement that his services have been satisfactory, shall be reinstated to the position from which he was promoted unless charges are filed and he is discharged in the manner provided in this chapter and in the Charter. (Ord. 3267 §1(part), 1968.)
3.16.280 Transfer.

No person shall be transferred to a position for which he does not possess the minimum qualifications. Upon notice to the Personnel Director, an employee may be transferred by the appointing power at any time from one position to another position in a comparable class. For transfer purposes, a comparable class is one with the same maximum salary, involves the performance of similar duties and requires substantially the same basic qualifications. If the transfer involves a change from one department to another, both department heads must consent thereto unless the City Administrator orders the transfer for purposes of economy or efficiency. Transfer shall not be used to effectuate a promotion, demotion, advancement or reduction, each of which may be accomplished only as provided in this chapter and the Charter. (Ord. 3267 §1(part), 1968.)

3.16.290 Promotion.

Insofar as consistent with the best interests of the service, all vacancies in the classified service shall be filled by promotion from within the classified service, after a promotional or open competitive examination has been given and an employment list established. (Ord. 3425 §4, 1970; Ord. 3267 §1(part), 1968.)

3.16.300 Demotion.

The appointing power may demote a permanent employee for any ground authorized by Section 1007 of the Charter. Upon request of the employee, and with the consent of the appointing power, demotion may be made to a vacant position. No employee shall be demoted to a position for which he does not possess the minimum qualifications. Written notice of the demotion shall be given the employee before or within three (3) days after the effective date of the demotion, and a copy filed with the Personnel Director. (Ord. 3267 §1(part), 1968.)

3.16.310 Suspension.

The appointing power may suspend a permanent employee from his position at any time for grounds specified in Section 1007 of the Charter. Written notice of the suspension shall be given the employee before or within three (3) days after the effective date of the suspension, and a copy filed with the Personnel Director. Suspension without pay shall not exceed sixty (60) calendar days, during any continuous twelve (12) month period; provided, however, that an employee may be suspended for a period of time in excess of sixty (60) days pending a court determination of criminal charges brought against such employee. (Ord. 3267 §1(part), 1968.)

3.16.320 Re-employment.

With the approval of the appointing power and the Personnel Director, a permanent or probationary employee who has resigned with a good record may be re-employed within one (1) year of the effective date of resignation, to a vacant position in the same, comparable, or lower related class for which the qualifications are substantially similar or less than those qualifications for the position from which the employee resigned. The Personnel Director shall determine whether or not the employee meets the qualifications for a comparable or lower related class as set forth on the appropriate job description. (Ord. 3925 §3, 1977; Ord. 3267 §1(part), 1968.)

3.16.330 Disability.

The appointing power may require an employee or a prospective employee to submit to medical, physical, or psychiatric examination(s), to be paid for by the City, to evaluate the capacity of the employee to perform the work of his position. The employee may submit medical or other evidence to the examining physician or to the appointing power. When the appointing power, after considering the conclusions of the medical, physical and psychiatric examination(s) and other pertinent information, concludes that the employee is unable to perform the work of his present position, the appointing power may demote or transfer the employee to another position or may terminate the employment of the employee. The employee may appeal an action of demotion, transfer or dismissal taken under this section, to the Board of Civil Service Commissioners. The proceedings specified in Section 1007 of the Charter shall govern any such appeal. (Ord. 3525 §5, 1972; Ord. 3267 §1(part), 1968.)

3.16.340 Discharge.

A permanent employee in the classified service may be discharged at any time by the appointing power for grounds specified in Section 1007 of the Charter. Whenever it is the intention of the appointing power to discharge an employee in the classified service, the Personnel Director shall be notified. Any employee who has been discharged shall be entitled to receive a written statement of the reasons for such action and to a hearing if he so requests, as provided in this chapter and the Charter. (Ord. 3267 §1(part), 1968.)
3.16.350 Lay-off.

An employee may be laid off in accordance with provisions of Section 1008 of the Charter. In reducing personnel and laying off any employee in the classified service through the abolition of his position, the City Council shall observe the seniority rule by department, by classification and by total time with the City.

In the case of the larger departments of Community Development and Public Works the seniority rule by division, by classification and by total time with the City shall be observed.

Any employee laid off will not necessarily move to a lower related classification unless there is a vacancy. Every effort will be made to place employees affected in other City positions, and inter-departmental transfers will take place whenever possible. An appointing authority, however, will retain the right not to appoint an employee laid off from another department than his own.

In accordance with the provisions of the City Charter, any employee laid off shall have return rights to the position from which he was laid off for a period of two (2) years, if such position is reinstated in the classified service. The Personnel Department shall retain the names of those employees laid off, and shall notify such employees by registered mail if the position is reinstated within the two (2) year period. Upon receipt of the notice by registered mail the employee shall have ninety (90) days within which he may accept or reject the offer of reinstatement. If the offer of reinstatement is accepted, such employee shall be rehired at the same salary step he was in at the time of being laid off. If the offer of reinstatement is rejected, the employee shall be considered to have waived his rights to reinstatement, and his name shall be removed from the reinstatement list. (Ord. 3925 §3, 1977; Ord. 3820, 1976; Ord. 3525, 1972.)

3.16.360 Right of Appeal.

In accordance with the provisions of Section 3.16.370 of this chapter, any employee in the classified service shall have the right of appeal on any decision which affects the employment of the individual employee. This right of appeal shall not apply to matters which affect all employees equally, in part or whole, or those matters necessary for the operation of the department nor those for which appeal is provided by Sections 3.16.300 through 3.16.350 inclusive, and Section 1007 of the Charter. (Ord. 3267 §1(part), 1968.)

3.16.365 Pre-discipline Procedures.

Prior to the discharge, demotion, or suspension of any permanent employee in the classified service pursuant to provisions of the City Charter and this Code, the following procedures shall be complied with:

1. Written notice of the proposed disciplinary action shall be given to the employee. Such notice shall include a statement of the reason(s) for the proposed action and the charge(s) being considered.

2. The employee shall be given an opportunity to review the documents or materials upon which the proposed disciplinary action is based, and, if practicable, he shall be supplied with a copy of the documents.

3. Within five (5) working days after the employee has had the review opportunity provided above, he shall have the right to respond, orally or in writing, or both, at his option, to the appointing authority concerning the proposed action.

Notwithstanding the provisions of this section, upon the recommendation of the Personnel Director, the City Administrator may approve the temporary assignment of an employee to a status of leave with pay pending conduct or completion of such investigations or hearings as may be required to determine if disciplinary action is to be taken. (Ord. 3830, 1976.)

3.16.370 Settling Grievances.

Any employee who has a grievance shall first try to get it settled through discussion with his immediate supervisor without undue delay. Every effort shall be made to find an acceptable solution at the lowest possible level of supervision.

If after such discussion the employee does not believe the grievance has been satisfactorily resolved, he may file a formal appeal in writing to his department head within ten (10) calendar days after receiving the informal decision of his immediate supervisor.

The department head receiving the formal appeal shall render his written decision and comment to the employee within ten (10) calendar days after receiving the appeal.

If after receipt of the written decision of the department head the employee is still dissatisfied he may appeal the decision of the department head to the City Administrator. Such appeal shall be made by filing a written appeal to the City Administrator within five (5) days after receipt of the written decision of the department head. The City Administrator shall review the decision of the department head, and his decision, which shall be rendered within fifteen (15) days after the appeal is made, shall be final. The City Administrator may request the advice of the Board in any grievance proceeding, but he shall not be bound to follow any recommendation of the Board. (Ord. 3267 §1(part), 1968.)
3.16.380 Extension of Time Limits.
The time limits specified in Section 3.16.370 may be extended to a definite date by mutual agreement of the employee and the reviewer concerned. Employees shall be assured freedom from reprisal for using the grievance procedure. (Ord. 3267 §1(part), 1968.)

3.16.410 Existing Rules.
All rules and regulations relating to City personnel or to the personnel of particular departments in the City which are not in conflict with this chapter or the Charter shall remain in full force and effect. (Ord. 3267 §1(part), 1968.)

3.16.420 Subpoena Power of the Board.
The Board shall have the power and authority to compel the attendance of witnesses, to examine them under oath and to compel the production of evidence before it. Subpoenas shall be issued in the name of the City and be attested by the City Clerk. They shall be served and complied with in the same manner as subpoenas in civil actions. Disobedience of such subpoenas, or the refusal to testify (upon other than constitutional grounds), constitutes a misdemeanor, and shall be punishable as provided by Section 515 of the Charter. (Ord. 3267 §1(part), 1968.)

3.16.430 Effective Date of System.
The Civil Service System of the City shall be deemed to have commenced on the effective date of the Charter of the City. (Ord. 3267 §1(part), 1968.)

3.16.440 Hearing Procedures.

(a) **Right to a Hearing.** Any person entitled to a hearing before the Board of Civil Service Commissioners under Section 1007 and Section 808(d) of the Charter or this chapter may petition for a hearing before the Board.

(b) **Petition for Hearing.** Such petition shall be in writing, signed by the petitioner or his representative, giving his mailing address, the action which he appeals, and shall detail the facts upon which his case is based. A general denial of the allegations contained in the Statement of Charges furnished petitioner pursuant to Section 1007 of the Charter shall be deemed an adequate statement of the required facts and reasons.

(c) **Time Within Which Petition Must Be Filed.** A petition for hearing must be filed with the City Clerk for delivery to the Board of Civil Service Commissioners within ten (10) days of receipt of the Statement of Charges by the petitioner. The Board may extend the time or grant a hearing where the petition is filed after said ten (10) day period, where good cause is shown, and it is shown that other parties are not likely to suffer substantial hardship from the delay.

(d) **Hearing Board.** On receiving a petition which complies with the foregoing rule, the Board shall determine whether the matter will be heard before the entire Board or by three (3) or more members of the Board as designated by the chairman.

The term "Hearing Board" as used in this chapter shall mean the Board of Civil Service Commissioners, or those members thereof named or appointed under this section to hear any appeal.

(e) **Hearing Officer.** For all hearings on the discharge, suspension, or demotion of a City employee, a hearing officer shall be appointed. The hearing officer shall be an attorney admitted to practice in the State of California. The hearing officer shall preside at the hearing, rule on the admission and exclusion of evidence, and advise the Hearing Board on matters of law.

(f) **Notice.** The Hearing Board shall set the matter for hearing and shall give petitioner at least ten (10) days' notice in writing of the date and place of such hearing. In hearings in which an action of a department or division head is at issue similar notice shall be given to the department head.

(g) **Evidence.** The following evidentiary rules shall apply to hearings conducted under this section:

1. Oral evidence shall be taken only under oath.
2. Each party shall have the right to call and examine witnesses, to introduce exhibits, to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination, to impeach any witness regardless of which party first called him to testify, and to rebut the evidence against him. If petitioner does not testify in his own behalf he may be called and examined as if under cross-examination.
3. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common--law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. The rules of privilege shall be effective to the extent that they are otherwise required by statute to be recognized at the hearing, and irrelevant and unduly repetitious evidence shall be excluded.
(h) **Burden of Proof.** In hearings on discharges, reductions, or suspensions, the burden of proof shall be on the appointing power. In all other types of hearings the burden of proof shall be on the petitioner.

(i) **Exclusion of Witnesses.** The Board may at its discretion exclude witnesses not under examination, except the Personnel Director, the petitioner or person to be discharged or reduced, the appointing power and counsel.

(j) **Appearance of Petitioner.** The appearance of the petitioner shall be required at all hearings, provided, however, the Hearing Board shall have discretion to consent to the absence of the petitioner upon a showing of good cause therefor.

Unexcused absence of the petitioner at such a hearing may, in the discretion of the Hearing Board, be deemed a withdrawal of the petition and consent to the action or ruling from which the appeal was taken.

(k) **Findings and Decision.** If the hearing, as hereinbefore described, is not before the full Board, the Hearing Board shall submit a written or oral report to the full Board for its approval. If the Board accepts such report, it need not read the record of the hearing. If the Board declines to accept such report, it must read the record or hold a hearing de novo.

The Board may either adopt the report made by the Hearing Board and reduce the same to writing to serve as findings, or it may draft its own findings. The findings shall not be signed by the Board until five (5) business days after they have been posted to the petitioner. Notice of the decision and findings of fact and conclusions of law shall be mailed promptly to the petitioner. The petitioner shall have five (5) business days after the Board mails the findings of fact and conclusions of law to object in writing to said findings of fact and conclusions of law.

If objections to the findings are filed with the Board within the time specified above and the Board believes that the objections or parts thereof have validity, then the Board may amend said findings, or take such further action as it deems appropriate.

If no objection to said findings and conclusions is received by the Board within said five (5) business days, the findings and conclusions and decision shall be final and conclusive.

(l) **Report of Hearings.** Hearings on discharges, reductions, and suspensions shall be conducted with a stenographic reporter and whenever possible a mechanical recording machine.

(m) **Transcripts of Hearings.** Transcripts of hearings shall be furnished to any person on payment of the cost of preparing such transcripts.

(n) **Continuances.** The Hearing Board may grant a continuance of any hearing upon such terms and conditions as it may deem proper, including in its discretion the condition that the petitioner shall be deemed to have waived salary for the period of the continuance, if the continuance is at the petitioner's request. Any request for continuance made less than twenty-four (24) hours prior to the time set for the hearing will be denied unless good cause is shown for the continuance.

(o) **Class Actions.** The Board may, at its discretion, grant to any two (2) or more persons whose appeals are heard pursuant to this chapter, or to the appointing power, the right to consolidate such appeals as a class action.

The granting of authority for such class action shall be contingent upon showing by petitioners or their representatives or by the appointing power that the appeals in question present common questions of fact and law, and the separate hearings upon such appeals would result in unnecessary multiplicity of hearings before the Board of its appointed hearing officers.

Any petitioner who would otherwise be included in a proposed class action hearing shall have the right to appear before the Board and request that his appeal be heard separately from appeals involved in the class action. Such request must be filed with the City Clerk not less than five (5) days prior to the date set for the consolidated hearing and may be denied by the Board if it determines that good cause does not exist for holding a separate hearing. (Ord. 3713 §1, 1974.)

### 3.16.450 Investigations.

(a) **Authority.** Pursuant to Section 808(c) of the Charter the Board shall have the power, upon request of the City Council or upon its own motion, to make investigations concerning the administration of personnel or conditions of employment in the municipal service and report its findings to the City Council and City Administrator.

(b) **Procedures.** When an investigation is initiated, either by City Council request or by the Board's own motion, the Board shall initially take the following actions:

1. Direct the Personnel Director to investigate the matter and report his findings to the Board; or

2. Direct one (1) or two (2) of its members to investigate the matter and report their findings to the full Board.

Except as provided hereafter, the Board shall accept the findings of either of the above and forward it to the City Council and the City Administrator. In the event that the report received by the Board from either of the above is determined by the Board to be incomplete or unsatisfactory, the Board as a whole may conduct its own investigation and forward its findings to the City Council and the City Administrator. (Ord. 3713 §1, 1974.)

### 4.04.010 Establishment of Annexation "Buy-In" Fee Requirement.

Prior to the annexation of real property to the City of Santa Barbara, the owner or owners of such property shall pay an annexation "buy-in" fee based exclusively on the number of potential dwelling units which may be constructed upon the annexed real property, as such number of units may be determined by the Community Development Director. (Ord. 5133, 1999.)

### 4.04.020 Calculation of Annexation "Buy-In" Fee - Value of Existing Municipal Improvements.

For the purposes of calculating, imposing, and collecting the annexation "buy-in" fee established pursuant to Section 4.04.010 above, the City Finance Director and the City Community Development Director shall reasonably and fairly estimate the value of all municipal improvements existing at the time of the adoption of the ordinance approving the amendments to this Chapter. The value of such municipal improvements so estimated shall be divided by the number of dwelling units then existing within the City and the resulting amount shall be utilized by the Community Development Department as the per dwelling unit annexation "buy-in" fee imposed pursuant to Section 4.04.010. In determining the number of dwelling units existing within the City at the time of the calculation, the Community Development Director shall utilize the estimates provided by the Department of Finance of the State of California.

Upon its calculation as provided for herein, the amount of the annexation "buy-in" fee shall be approved by resolution of the City Council. (Ord. 5133, 1999.)
4.04.030  Exemptions - Public Ownership - Initiation by City Council - Tax Exemption - Existing Development - Affordable Housing Units.

No Section 4.04.010 annexation fee shall be imposed under this chapter in the following cases:

(1)  On all publicly owned property in the annexed territory.
(2)  On all tax-exempt property in the annexed territory.
(3)  On all property in the annexed territory when the annexation is initiated by the City Council rather than by petition of the property owners.
(4)  On all property in the annexed territory when the number of registered voters in said territory is equal to or greater than fifty percent (50%) of the number of registered voters in the City and the City Council determines that the public interest would be served by waiving the annexation fees.
(5)  On real properties within the annexed territory with existing development that have no additional development potential, as determined by the Community Development Director.
(6)  On all housing units dedicated and occupied as low, moderate or middle income housing units as a result of a public subsidy or the City granting a land use incentive consistent with the City's Affordable Housing Policies and Procedures Manual.  (Ord. 5133, 1999; Ord. 4075, 1980; Ord. 4060, 1980; Ord. 3699, 1974.)

4.08.010 Title.

This Chapter shall be known as the Uniform Transient Occupancy Tax Ordinance of the City of Santa Barbara. (Ord. 4458, 1987; Ord. 2987 §1, 1964.)

4.08.020 Definitions.

For the purposes of this Chapter, the following words and phrases shall have the meaning indicated, unless the context or usage clearly requires a different meaning:

A. DIRECTOR OF FINANCE. The person who is the supervisor of the Finance Department or other person designated by the Director of Finance or the City Administrator.

B. HOTEL. Any structure, any portion of any structure, or any property or portion thereof which is occupied or intended or designed for occupancy by transients for dwelling, lodging or sleeping purposes, and includes any hotel, inn, tourist home or house, motel, studio hotel, bachelor hotel, lodging house, rooming house, apartment house, dormitory, public or private club, mobilehome or recreational vehicle park (as defined in Title 28 of this Code), or other similar structure or portion thereof.

C. OCCUPANCY. The use or possession, or the right to the use or possession of any room or rooms or portion thereof, in any hotel for dwelling, lodging or sleeping purposes.

D. OPERATOR. The person who is proprietor of the hotel, whether in the capacity of owner, lessee, sub-lessee, mortgagee in possession, licensee or any other capacity. Where the operator performs his functions through a managing agent of any type or character other than an employee, the managing agent shall also be deemed an operator for the purposes of this Chapter and shall have the same duties and liabilities as his principal. Compliance with the provisions of this Chapter by either the principal or the managing agent shall, however, be considered to be compliance by both.

E. PERSON. Any individual, firm, partnership, joint venture, association, social club, fraternal organization, joint stock company, corporation, estate, trust, business trust, receiver, trustee, syndicate or any other group or combination acting as a unit.

F. RENT. The consideration charged, whether or not received, for the occupancy of space in a hotel valued in money, whether to be received in money, goods, labor or otherwise, including all receipts, cash, credits and property and services of any kind or nature, without any deduction therefrom whatsoever.
G. TRANSIENT. Any person who exercises occupancy or is entitled to occupancy by reason of concession, permit, right of access, license or other agreement for a period of thirty (30) consecutive calendar days or less, counting portions of calendar days as full days. Any such person so occupying space in a hotel shall be deemed to be a transient until the period of thirty (30) days has expired unless there is an agreement in writing between the operator and the occupant providing for a longer period of occupancy; provided that an occupant of an apartment unit, constructed under a building permit as such, or in buildings which have been legally converted into apartments, shall not be deemed to be a transient if his occupancy is for a period of more than thirty (30) days and with or without such written agreement. (Ord. 4458, 1987; Ord. 4269, 1984; Ord. 3395 §1, 1969; Ord. 2987 §2, 1964.)

4.08.030 Tax Imposed - Payment - Debt.

For the privilege of occupancy in any hotel, each transient is subject to, and shall pay a tax in the amount of ten percent (10%) of the rent charged by the operator. The tax constitutes a debt owed by the transient to the City, which is extinguished only by payment to the operator or to the City. The transient shall pay the tax to the operator of the hotel at the time the rent is paid. If the rent is paid in installments, a proportionate share of the tax shall be paid with each installment. The unpaid tax shall be due upon the transient ceasing to occupy space in the hotel. If for any reason the tax due is not paid to the operator of the hotel, the Director of Finance may require that such tax shall be paid directly to the Director of Finance. (Ord. 4458, 1987; Ord. 4209, 1983; Ord. 3477 §1, 1971; Ord. 3262 §1, 1967.)

4.08.050 Operator's Duties - Collection.

Each operator shall collect the tax imposed by this Chapter to the same extent and at the same time as the rent is collected from every transient. The amount of tax shall be separately stated from the amount of the rent charged, and each transient shall receive a receipt for payment from the operator. No operator of a hotel shall advertise or state in any manner, whether directly or indirectly, that the tax or any part thereof will be assumed or absorbed by the operator, or that it will not be added to the rent, or that, if added, any part will be refunded in the manner provided. (Ord. 4458, 1987; Ord. 2987 §5, 1964.)

4.08.060 Registration - Certificate - Display.

Within thirty (30) days after commencing business, each operator of any hotel renting occupancy to transients shall register the hotel with the Director of Finance and obtain from the Director of Finance a "Transient Occupancy Registration Certificate" to be at all times posted in a conspicuous place on the premises. The certificate shall, among other things, state the following:

1. The name of the operator;
2. The address of the hotel;
3. The date upon which the certificate was issued;
4. This transient occupancy certificate signifies that the person named on the face hereof fulfilled the requirements of this Chapter by registering with the Director of Finance for the purpose of collecting from transients the transient occupancy tax and remitting the tax to the Director of Finance. This certificate does not authorize any person to conduct any unlawful business or to conduct any lawful business in an unlawful manner, nor to operate a hotel without strictly complying with all local applicable laws, including but not limited to those requiring a permit from any board, commission, department or office of this City. This certificate does not constitute a permit. (Ord. 4458, 1987; Ord. 2987 §6, 1964.)

4.08.070 Reporting and Remitting - Director of Finance.

Each operator shall, on or before the tenth (10th) day after the close of each calendar month, or at the close of any shorter reporting period which may be established by the Director of Finance, make a return to the Director of Finance, on forms provided by the Director of Finance, of the total rents charged and received and the amount of tax collected for transient occupancies. At the time the return is filed, the full amount of the tax collected shall be remitted to the Director of Finance. The Director of Finance may establish shorter reporting periods for any certificate holder if the Director of Finance deems it necessary in order to insure collection of the tax and the Director of Finance may require further information in the return. Returns and payments are due immediately upon cessation of business for any reason. All taxes collected by operators pursuant to this Chapter shall be held in trust for the account of the City until payment thereof is made to the Director of Finance. (Ord. 4458, 1987; Ord. 2987 §7, 1964.)
4.08.080 Penalties and Interest - Original Delinquency.

Any operator who fails to remit any tax imposed by this Chapter within the time required shall pay a penalty of ten percent (10%) of the amount of the tax in addition to the amount of the tax. (Ord. 4458, 1987; Ord. 2987 §8(a), 1964.)

4.08.090 Penalties and Interest - Continued Delinquency.

Any operator who fails to remit any delinquent remittance on or before a period of thirty (30) days following the date on which the remittance first became delinquent, shall pay a second delinquency penalty of ten percent (10%) of the amount of the tax in addition to the amount of the tax and the ten percent (10%) penalty first imposed. (Ord. 4458, 1987; Ord. 2987 §8(b), 1964.)

4.08.100 Penalties and Interest - Fraud.

If the Director of Finance determines that the non-payment of any remittance due under this Chapter is due to fraud, a penalty of twenty-five percent (25%) of the amount of the tax shall be added thereto in addition to the penalties stated in Sections 4.08.080 and 4.08.090. (Ord. 4458, 1987; Ord. 2987 §8(c), 1964.)

4.08.110 Penalties and Interest - Interest.

In addition to the penalties imposed, any operator who fails to remit any tax imposed by this Chapter shall pay interest at the rate of one-half of one percent (1/2 of 1%) per month or fraction thereof on the amount of the tax, exclusive of penalties, from the date on which the remittance first become delinquent until paid. (Ord. 4458, 1987; Ord. 2987 §8(d), 1964.)

4.08.120 Penalties Merged with Tax.

Every penalty imposed and such interest as accrues under the provisions of this Chapter shall become a part of the tax herein required to be paid. (Ord. 4458, 1987; Ord. 2987 §8(e), 1964.)

4.08.130 Failure to Collect and Report Tax - Determination of Tax by Director of Finance.

If any operator shall fail or refuse to collect the tax and to make within the time provided in this Chapter, any report and remittance of the tax or any portion thereof required by this Chapter, the Director of Finance shall proceed in such a manner as the Director of Finance may deem best to obtain facts and information on which to base the Director of Finance's estimate of the tax due. As soon as the Director of Finance shall procure such facts and information as the Director of Finance is able to obtain upon which to base the assessment of any tax imposed by this Chapter and payable by any operator who has failed or refused to collect the same and to make such report and remittance, the Director of Finance shall proceed to determine and assess against such operator the tax, interest and penalties provided for by this Chapter. In case such determination is made, the Director of Finance shall give a notice of the amount so assessed by serving it personally or by depositing it in the United States mail, postage prepaid, addressed to the operator so assessed at its last known place of address. Such operator may within ten (10) days after the serving or mailing of such notice make application in writing to the Director of Finance for a hearing on the amount assessed. If application by the operator for a hearing is not made within the time prescribed, the tax, interest and penalties, if any, determined by the Director of Finance shall become final and conclusive and immediately due and payable. If such application is made, the Director of Finance shall give not less than five (5) days written notice in the manner prescribed herein to the operator to show cause at a time and place fixed in said notice why said amount specified therein should not be fixed for such tax, interest and penalties. 1. To adopt a sales and use tax ordinance which complies with the requirements and limitations contained in Part 1.5 of Division 2 of the Revenue and Taxation Code;
2. To adopt a sales and use tax ordinance which incorporates provisions identical to those of the Sales and Use Tax Law of the State of California insofar as those provisions are not inconsistent with the requirements and limitations contained in Part 1.5 of Division 2 of the Revenue and Taxation Code;
3. To adopt a sales and use tax ordinance which imposes a tax and provides a measure therefor that can be administered and collected by the State Board of Equalization in a manner that adapts itself as fully as practicable to, and requires the least possible deviation from the existing statutory and administrative procedures followed by the State Board of Equalization in administering and collecting the California State Sales and Use Taxes;
4. To adopt a sales and use tax ordinance which can be administered in a manner that will, to the degree possible consistent with the provisions of Part 1.5 of Division 2 of the Revenue and Taxation Code, minimize the cost of collecting City sales and use taxes and at the same time minimize the burden of record keeping upon persons subject to taxation under the provisions of this ordinance. (Ord. 3604 §2, 1973.)

4.12.050 Contract with State.

Prior to the operative date this City shall contract with the State Board of Equalization to perform all functions incident to the administration and operation of this sales and use tax ordinance; provided, that if this City shall not have contracted with the State Board of Equalization prior to the operative date, it shall nevertheless so contract and in such a case the operative date shall be the first day of the first calendar quarter following the execution of such a contract rather than the first day of the first calendar quarter following the adoption of this ordinance. (Ord. 3604 §2, 1973.)

4.12.060 Sales Tax.

For the privilege of selling tangible personal property at retail a tax is hereby imposed upon all retailers in the City at the rate stated in §4.12.020 of the gross receipts of the retailer from the sale of all tangible personal property sold at retail in this City on and after the operative date. The gross receipts from such sales shall include delivery charges, when such charges are subject to the State sales and use tax, regardless of the place to which delivery is made. In the event a retailer has no permanent place of business in the State or has more than one (1) place of business, the place or places at which the retail sales are consummated shall be determined under rules and regulations to be prescribed and adopted by the State Board of Equalization. (Ord. 3604 §2, 1973.)

B. PREREQUISITE: APPLICATION AND APPROVAL. The exemption granted by this Section shall not eliminate the duty of the service supplier from collecting taxes from such exempt individuals, or the duty of such exempt individuals from paying such taxes to the service supplier; unless an exemption is applied for by the service user and granted in accordance with the provisions of this Section.

C. APPLICATION. Any service user exempt from the taxes imposed by this Chapter because of the provisions of Subsection A may file an application with the Tax Collector for an exemption. Failure to provide such evidence as is within the control of a service user to so provide, whether directly by him or by his consent or the consent of a member of his household when such evidence is requested of the service user in writing by the Tax Collector, shall be grounds for the immediate discontinuance of the service user's eligibility for exemption under the provisions of this Section. Evidence provided to the Tax Collector upon request, or voluntarily provided by the service user without request, may not be used against such service user as evidence of violation of the provisions of this Section; such evidence may only be used as grounds for termination of the exemption herein provided.

Any individual exempt from the tax shall notify the Tax Collector within ten (10) days of any change in fact or circumstance which might disqualify said individual from receiving such exemption. It shall be a misdemeanor for any person to knowingly receive the benefits of the exemptions provided by this Section, when the basis for such exemption either does not exist or ceases to exist.

I. DUTY OF SERVICE SUPPLIER. Notwithstanding any of the provisions hereof, any service supplier who determines by any means that a new or non-exempt service user is receiving service through a meter or connection exempt by virtue of an exemption issued to a previous user or exempt user of the same meter or connection, such service supplier shall immediately notify the Tax Collector of such facts; and the Tax Collector shall conduct an investigation to ascertain whether or not the provisions of this Section have been complied with, and where appropriate, order the service supplier to commence collecting the tax from the non-exempt service user.

The applicant shall thereafter have a right to file an amended application for exemption; or to appeal the Tax Collector's decision within a 10-day period after the mailing date of the Tax Collector's rejection. Any tax billed to a service user but not paid to the service supplier shall not be deemed an obligation of the service supplier unless such tax is thereafter paid to the service supplier. The Tax Collector shall mail a copy of such notice to the person selling the service and to the service user at least ten (10) days prior to the date of hearing and shall post such notices at the City Hall for at least five (5) continuous days prior to the date of the hearing. C. EVIDENCE. No refund shall be paid under the provisions of this Section unless the claimant establishes his right thereto by written records showing entitlement thereto. (Ord. 4289, 1984.)

4.24.170  Severability.

If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this Chapter or any part hereof is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this Chapter of any part hereof. Said application shall be made upon a form approved by the Tax Administrator and shall state those facts, declared under penalty of perjury, which qualify the applicant for an exemption, and shall include the names of all telecommunication and video service suppliers serving that service user. If deemed exempt by the Tax Administrator, such service user shall give the Tax Administrator timely written notice of any change in telecommunication or video service suppliers so that the Tax Administrator can properly notify the new telecommunication or video service supplier of the service user’s tax exempt status. A service user that fails to comply with this section shall not be entitled to a refund of telecommunication or video users’ taxes collected and remitted to the Tax Administrator from such service user as a result of such noncompliance. The decision of the Tax Administrator regarding an application may be appealed pursuant to Section 4.26.170 of this Chapter. The tax imposed by this section shall be at the rate of five and three-quarters percent (5.75 %) of the charges made for such services and shall be collected from the service user by the telecommunication services supplier or its billing agent. There is a rebuttable presumption that telecommunication services, which are billed to a billing or service address in the City, are used, in whole or in part, within the City's boundaries, and such services are subject to taxation under this Chapter. If the billing address of the service user is different from the service address, the service address of the service user shall be used for purposes of imposing the tax. As used in this Section, the term “charges” shall include the value of any other services, credits, property of every kind or nature, or other consideration provided by the service user in exchange for the telecommunication services.

The tax imposed by this section shall be collected from the service user by the video service supplier or its billing agent. There is a rebuttable presumption that video services, which are billed to a billing or service address in the City, are used, in whole or in part, within the City's boundaries, and such services are subject to taxation under this Chapter. If the billing address of the service user is different from the service address, the service address of the service user shall be used for purposes of imposing the tax.

As used in this section, the term "telecommunication services" shall include, but are not limited to, charges for the following: connection, reconnection, termination, movement, or change of telecommunication services; late payment fees; detailed billing; central office and custom calling features (including but not limited to call waiting, call forwarding, caller identification and three-way calling); voice mail and other messaging services; directory assistance; access and line charges; universal service charges; regulatory, administrative and other cost recovery charges; local number portability charges; and text and instant messaging.

E. Certain Exclusions From Telecommunications Services. As used in this section, the term "telecommunication services" shall not include digital downloads that are not "ancillary telecommunication services," such as music, ringtones, games, and similar digital products. Telecommunication services also does not include telecommunication services that are dedicated or used exclusively for internet access.

A. Establishment of Video Users' Tax. There is hereby imposed a tax upon every person in the City using video services. The tax imposed by this section shall be at the rate of five and three-quarters percent (5.75%) of the charges made for such services and shall be collected from the service user by the video service supplier or its billing agent. There is a rebuttable presumption that video services, which are billed to a billing or service address in the City, are used, in whole or in part, within the City's boundaries, and such services are subject to taxation under this Chapter. If the billing address of the service user is different from the service address, the service address of the service user shall be used for purposes of imposing the tax.

As used in this section, the term "telecommunication services" shall include, but is not limited to, charges for the following:

1. regulatory fees and surcharges, franchise fees, and access fees (e.g., "PEG" fees);
2. initial installation of equipment necessary for provision and receipt of video services;
3. late fees, collection fees, bad debt recoveries, and return check fees;
4. activation fees, reactivation fees, and reconnection fees;
5. video programming and video services:
6. ancillary video services (e.g., electronic program guide services, recording functions, search functions, or other interactive services or communications that are ancillary, necessary or common to the use or enjoyment of video services;
7. equipment leases (e.g., remote, recording or search devices, converters, remote devices); and,
8. service calls, service protection plans, name changes, changes of services, and special services.

B. Video Charges. As used in this section, the term "charges" shall include the value of any other services, credits, property of every kind or nature, or other consideration provided by the service user in exchange for video services.

C. Charges Further Defined. As used in this section, the term "charges" shall include the value of any other services, credits, property of every kind or nature, or other consideration provided by the service user in exchange for video services.

D. Administrative Rulings For Video Service Suppliers. The Tax Administrator may issue and disseminate to video service suppliers, which are subject to the tax collection requirements of this Chapter, an administrative ruling identifying those video services, or charges therefor, that are subject to or not subject to the tax of subsection (A) above.

E. Collection of Video Users’ Tax. The tax imposed by this section shall be collected from the service user by the video service supplier, its billing agent, or a reseller of such services. In the case of video service, the service user shall be deemed to be the purchaser of the bulk video service (e.g., an apartment owner), unless such service is resold to individual users, in which case the service user shall be the ultimate purchaser of the video service. The amount of tax collected in one (1) month shall be remitted to the Tax Administrator, and must be received by the Tax Administrator on or before the twentieth (20th) day of the following month. (Ord. 5471, 2008.)
4.26.060 Bundling Taxable Items with Non-Taxable Items.

If any nontaxable charges are combined with and not separately stated from taxable service charges on the customer bill or invoice of a service supplier, the combined charge is subject to tax unless the service supplier identifies, by reasonable and verifiable standards, the portions of the combined charge that are nontaxable and taxable through the service supplier's books and records kept in the regular course of business, and in accordance with generally accepted accounting principles, and not created and maintained for tax purposes. The service supplier has the burden of proving the proper apportionment of taxable and non-taxable charges. If the service supplier offers a combination of taxable and nontaxable services, and the charges are separately stated, then for taxation purposes, the values assigned the taxable and non-taxable services shall be based on its books and records kept in the regular course of business and in accordance with generally accepted accounting principles, and not created and maintained for tax purposes. The service supplier has the burden of proving the proper valuation of the taxable and non-taxable services. (Ord. 5471, 2008.)

For purposes of imposing a tax or establishing a duty to collect and remit a tax under this Chapter, “substantial nexus” and “minimum contacts” shall be construed broadly in favor of the imposition, collection and/or remittance of the telecommunication and video users’ tax to the fullest extent permitted by state and federal law, and as it may change from time to time by judicial interpretation or by statutory enactment. Any telecommunication service (including VoIP) used by a person with a service address in the City, which service is capable of terminating a call to another person on the general telephone network, shall be subject to a rebuttable presumption that “substantial nexus/minimum contacts” exists for purposes of imposing a tax, or establishing a duty to collect and remit a tax, under this Chapter. A service supplier shall be deemed to have sufficient activity in the City for tax collection and remittance purposes if its activities include, but are not limited to, any of the following: maintains or has within the City, directly or through an agent or subsidiary, a place of business of any nature; solicits business in the City by employees, independent contractors, resellers, agents or other representatives; solicits business in the City on a continuous, regular, seasonal or systematic basis by means of advertising that is broadcast or relayed from a transmitter with the City or distributed from a location with the City; or advertises in newspapers or other periodicals printed and published within the City or through materials distributed in the City by means other than the United States mail; or if there are activities performed in the City on behalf of the service supplier that are significantly associated with the service supplier’s ability to establish and maintain a market in the City for the provision of services that are subject to a tax under this Chapter. (Ord. 5471, 2008.)

A. Manner of Collection by Service Suppliers. The duty of service suppliers to collect and remit the taxes imposed by the provisions of this Chapter shall be performed as follows:

1. The tax shall be collected by service suppliers insofar as practicable at the same time as, and along with, the collection of the charges made in accordance with the regular billing practice of the service supplier. Where the amount paid by a service user to a service supplier is less than the full amount of the charge and tax which was accrued for the billing period, a proportionate share of both the charge and the tax shall be deemed to have been paid. In those cases where a service user has notified the service supplier of refusal to pay the tax imposed on said charges, Section 4.26.120 shall apply.

2. The duty of a service supplier to collect the tax from a service user shall commence with the beginning of the first regular billing period applicable to the service user where all charges normally included in such regular billing are subject to the provisions of this Chapter. Where a service user receives more than one billing, one or more being for different periods than another, the duty to collect shall arise separately for each billing period.

B. Filing Return and Payment. Each person required by this Chapter to remit a tax shall file a return to the Tax Administrator, on forms approved by the Tax Administrator, on or before the due date. The full amount of the tax collected shall be included with the return and filed with the Tax Administrator. The Tax Administrator is authorized to require such additional information as he or she deems necessary to determine if the tax is being levied, collected, and remitted in accordance with this Chapter. Returns are due immediately upon cessation of business for any reason. Pursuant to Revenue and Tax Code Section 7284.6, the Tax Administrator, and its agents, shall maintain such filing returns as confidential information that is exempt from the disclosure provisions of the Public Records Act. (Ord. 5471, 2008.)

A. Due Date for Taxes; Delinquencies. Taxes collected from a service user are delinquent if not received by the Tax Administrator on or before the due date. Should the due date occur on a weekend or legal holiday, the return must be received by the Tax Administrator on the first regular working day following the weekend or legal holiday. A direct deposit, including electronic fund transfers and other similar methods of electronically exchanging monies between financial accounts, made by a service supplier in satisfaction of its obligations under this subsection shall be considered timely if the transfer is initiated on or before the due date, and the transfer settles into the City’s account on the following business day.
4.26.100 Actions to Collect.

Any tax required to be paid by a service user under the provisions of this Chapter shall be deemed a debt owed by the service user to the City. Any such tax collected from a service user which has not been remitted to the Tax Administrator shall be deemed a debt owed to the City by the person required to collect and remit and shall no longer be a debt of the service user. Any person owing money to the City under the provisions of this Chapter shall be liable to an action brought in the name of the City for the recovery of such amount, including penalties and interest as provided for in this Chapter, along with any collection costs incurred by the City as a result of the person’s noncompliance with this Chapter, including, but not limited to, reasonable attorneys fees. Any tax required to be collected by a service supplier or owed by a service user is an unsecured priority excise tax obligation under 11 U.S.C.A. Section 507(a)(8)(C). (Ord. 5471, 2008.)

A. Tax Deficiency Determinations. The Tax Administrator shall make a deficiency determination if he or she determines that any service user or service supplier required to pay or collect taxes pursuant to the provisions of this Chapter has failed to pay, collect, and/or remit the proper amount of tax by improperly or failing to apply the tax to one or more taxable services or charges. Nothing herein shall require that the Tax Administrator institute proceedings under this Section 4.26.110 if, in the opinion of the Tax Administrator, the cost of collection or enforcement likely outweighs the tax benefit.

B. Notice of Deficiency. The Tax Administrator shall mail a notice of such deficiency determination to the person or entity allegedly owing the tax, which notice shall refer briefly to the amount of the taxes owed, plus interest at the rate of 75/100ths (0.75%) percent per month, or any fraction thereof, on the amount of the tax from the date on which the tax should have been received by the City. Within fourteen (14) calendar days after the date of service of such notice, the person or entity allegedly owing the tax may request in writing to the Tax Administrator for a hearing on the matter.

C. Hearing on Deficiency. If the person or entity allegedly owing the tax fails to request a hearing within the prescribed time period, the amount of the deficiency determination shall become a final assessment, and shall immediately be due and owing to the City. If such person or entity requests a hearing, the Tax Administrator shall cause the matter to be set for hearing, which shall be scheduled within thirty (30) days after receipt of the written request for hearing. Notice of the time and place of the hearing shall be mailed by the Tax Administrator to such person at least ten (10) calendar days prior to the hearing, and, if the Tax Administrator desires said person to produce specific records at such hearing, such notice may designate the records requested to be produced.

D. Determination after Hearing. At the time fixed for the hearing, the Tax Administrator shall hear all relevant testimony and evidence, including that of any other interested parties. At the discretion of the Tax Administrator, the hearing may be continued from time to time for the purpose of allowing the presentation of additional evidence. Within a reasonable time following the conclusion of the hearing, the Tax Administrator shall issue a final assessment (or non-assessment), thereafter, by confirming, modifying or rejecting the original deficiency determination, and shall mail a copy of such final assessment to person or entity owing the tax. The decision of the Tax Administrator may be appealed pursuant to Section 4.26.170 of this Chapter. Filing an application with the Tax Administrator and appeal to the City Manager pursuant to Section 4.26.170 of this Chapter is a prerequisite to a suit thereon.
4.26.120 Administrative Remedy – Non-Paying Service Users.

A. Administrative Remedies for the Obligation to Collect Tax. Whenever the Tax Administrator determines that a service user has deliberately withheld the amount of the tax owed by the service user from the amounts remitted to a person required to collect the tax, or whenever the Tax Administrator deems it in the best interest of the City, he or she may relieve such person of the obligation to collect the taxes due under this Chapter from certain named service users for specific billing periods. To the extent the service user has failed to pay the amount of tax owed for a period of two (2) or more billing periods, the service supplier shall be relieved of the obligation to collect taxes due. The service supplier shall provide the City with the names and addresses of such service users and the amounts of taxes owed under the provisions of this Chapter. Nothing herein shall require that the Tax Administrator institute proceedings under this Section 4.26.120 if, in the opinion of the Tax Administrator, the cost of collection or enforcement likely outweighs the tax benefit.

B. Delinquency Penalty. In addition to the tax owed, the service user shall pay a delinquency penalty at the rate of fifteen percent (15%) of the total tax that is owed, and shall pay interest at the rate of 75/100ths (0.75%) percent per month, or any fraction thereof, on the amount of the tax, exclusive of penalties, from the due date, until paid.

C. Notice to Non-Paying Service User. The Tax Administrator shall notify the non-paying service user that the Tax Administrator has assumed the responsibility to collect the taxes due for the stated periods and demand payment of such taxes, including penalties and interest. The notice shall be served on the service user by personal delivery or by deposit of the notice in the United States mail, postage prepaid, addressed to the service user at the address to which billing was made by the person required to collect the tax; or, should the service user have a change of address, to his or her last known address.

D. Additional Penalties. If the service user fails to remit the tax to the Tax Administrator within thirty (30) days from the date of the service of the notice upon him or her, the Tax Administrator may impose an additional penalty of fifteen percent (15%) of the amount of the total tax that is owed. (Ord. 5471, 2008.)

4.26.130 Additional Powers and Duties of the Tax Administrator.

A. Enforcement by Tax Administrator. The Tax Administrator shall have the power and duty, and is hereby directed, to enforce each and all of the provisions of this Chapter.

B. Administrative Regulations Regarding Payment. The Tax Administrator may adopt administrative rules and regulations consistent with provisions of this Chapter for the purpose of interpreting, clarifying, carrying out and enforcing the payment, collection and remittance of the taxes herein imposed. The administrative ruling shall not impose a new tax, revise an existing tax methodology as stated in this Section, or increase an existing tax, except as allowed by California Government Code Section 53750(h)(2). A copy of such administrative rules and regulations shall be on file in the Tax Administrator's office. To the extent that the Tax Administrator determines that the tax imposed under this chapter shall not be collected in full for any period of time from any particular service supplier or service user, that determination shall be considered an exercise of the Tax Administrator's discretion to settle disputes and shall not constitute a change in taxing methodology for purposes of Government Code section 53750 or otherwise. The Tax Administrator is not authorized to amend the City's methodology for purposes of Government Code section 53750 and the City does not waive or abrogate its ability to impose the telecommunication or video users tax in full as a result of promulgating administrative rulings or entering into agreements.

C. Administrative Agreements Regarding Billing Procedures. Upon a proper showing of good cause, the Tax Administrator may make administrative agreements, with appropriate conditions, to vary from the strict requirements of this Chapter and thereby: (1) conform to the billing procedures of a particular service supplier so long as said agreements result in the collection of the tax in conformance with the general purpose and scope of this Chapter; or, (2) to avoid a hardship where the administrative costs of collection and remittance greatly outweigh the tax benefit. A copy of each such agreement shall be on file in the Tax Administrator's office, and are voidable by the Tax Administrator or the City at any time.
D. Compliance Audits. The Tax Administrator may conduct an audit, to ensure proper compliance with the requirements of this Chapter, of any person required to collect and/or remit a tax pursuant to this Chapter. The Tax Administrator shall notify said person of the initiation of an audit in writing. In the absence of fraud or other intentional misconduct, the audit period of review shall not exceed a period of three (3) years next preceding the date of receipt of the written notice by said person from the Tax Administrator. Upon completion of the audit, the Tax Administrator may make a deficiency determination pursuant to Section 4.26.110(d) of this Chapter for all taxes (and applicable penalties and interest) owed and not paid, as evidenced by information provided by such person to the Tax Administrator. If said person is unable or unwilling to provide sufficient records to enable the Tax Administrator to verify compliance with this Chapter, the Tax Administrator is authorized to make a reasonable estimate of the deficiency. Said reasonable estimate shall be entitled to a rebuttable presumption of correctness.

E. Extension of Time. Upon receipt of a written request of a taxpayer, and for good cause, the Tax Administrator may extend the time for filing any statement required pursuant to this Chapter for a period of not to exceed forty-five (45) days, provided that the time for filing the required statement has not already passed when the request is received. No penalty for delinquent payment shall accrue by reason of such extension. Interest shall accrue during said extension at the rate of 75/100ths (0.75%) percent per month, prorated for any portion thereof.

F. Eligibility for Exemption. The Tax Administrator shall determine the eligibility of any person who asserts a right to exemption from, or a refund of, the tax imposed by this Chapter.

G. Waiver of Penalties and Interest. Notwithstanding any provision in this Chapter to the contrary, the Tax Administrator may waive any penalty or interest imposed upon a person required to collect and/or remit for failure to collect the tax imposed by this Chapter if the non-collection occurred in good faith. In determining whether the non-collection was in good faith, the Tax Administrator shall take into consideration industry practice or other precedence. (Ord. 5471, 2008.)

A. Retention of Necessary Tax Records. It shall be the duty of every person required to collect and/or remit to the City any tax imposed by this Chapter to keep and preserve, for a period of at least three (3) years, all records as may be necessary to determine the amount of such tax as he/she may have been liable for the collection of and remittance to the Tax Administrator, which records the Tax Administrator shall have the right to inspect at a reasonable time.

B. Administrative Subpoenas. The City may issue an administrative subpoena to compel a person to deliver, to the Tax Administrator, copies of all records deemed necessary by the Tax Administrator to establish compliance with this Chapter, including the delivery of records in a common electronic format on readily available media if such records are kept electronically by the person in the usual and ordinary course of business. As an alternative to delivering the subpoenaed records to the Tax Administrator on or before the due date provided in the administrative subpoena, such person may provide access to such records outside the City on or before the due date, provided that such person shall reimburse the City for all reasonable travel expenses incurred by the City to inspect those records, including travel, lodging, meals, and other similar expenses, but excluding the normal salary or hourly wages of those persons designated by the City to conduct the inspection.

C. Non-Disclosure Agreements. The Tax Administrator is authorized to execute a non-disclosure agreement approved by the City Attorney to protect the confidentiality of customer information pursuant to California Revenue and Tax Code Sections 7284.6 and 7284.7.

D. Use of Billing Agents. If a service supplier uses a billing agent or billing aggregator to bill, collect, and/or remit the tax, the service supplier shall: i) provide to the Tax Administrator the name, address and telephone number of each billing agent and billing aggregator currently authorized by the service supplier to bill, collect, and/or remit the tax to the City; and, ii) upon request of the Tax Administrator, deliver, or effect the delivery of, any information or records in the possession of such billing agent or billing aggregator that, in the opinion of the Tax Administrator, is necessary to verify the proper application, calculation, collection and/or remittance of such tax to the City.

E. Access to Necessary Records. If any person subject to record-keeping under this section unreasonably denies the Tax Administrator access to such records, or fails to produce the information requested in an administrative subpoena within the time specified, then the Tax Administrator may impose a penalty of $500 on such person for each day following: i) the initial date that the person refuses to provide such access; or, ii) the due date for production of records as set forth in the administrative subpoena. This penalty shall be in addition to any other penalty imposed under this Chapter. (Ord. 5471, 2008.)

4.26.150 Refunds.

Whenever the amount of any tax has been overpaid or paid more than once or has been erroneously or illegally collected or received by the Tax Administrator under this Chapter from a person or service supplier, it may be refunded as provided in this section as follows:
A. Written Claim for Refund. The Tax Administrator may refund any tax that has been overpaid or paid more than once or has been erroneously or illegally collected or received by the Tax Administrator under this Chapter from a person or service supplier, provided that no refund shall be paid under the provisions of this section unless the claimant or his or her guardian, conservator, executor, or administrator has submitted a written claim to the Tax Administrator within one year of the overpayment or erroneous or illegal collection of said tax. Such claim must clearly establish claimant's right to the refund by written records showing entitlement thereto. Nothing herein shall permit the filing of a claim on behalf of a class or group of taxpayers unless each member of the class has submitted a written claim under penalty of perjury as provided by this subsection.

B. Compliance with Claims Act. The filing of a written claim pursuant to Government Code Section 935 is a prerequisite to any suit thereon. Any action brought against the City pursuant to this section shall be subject to the provisions of Government Code Sections 945.6 and 946. The Tax Administrator, or the City Council where the claim is in excess of five thousand dollars ($5,000), shall act upon the refund claim within the time period set forth in Government Code Section 912.4. If the Tax Administrator/City Council fails or refuses to act on a refund claim within the time prescribed by Government Section 912.4, the claim shall be deemed to have been rejected by the City Council on the last day of the period within which the City Council was required to act upon the claim as provided in Government Code Section 913. The Tax Administrator shall give notice of the action in a form which substantially complies with that set forth in Government Code Section 913.

C. Refunds to Service Suppliers. Notwithstanding the notice provisions of subsection (A) of this Section, the Tax Administrator may, at his or her discretion, give written permission to a service supplier, who has collected and remitted any amount of tax in excess of the amount of tax imposed by this Chapter, to claim credit for such overpayment against the amount of tax which is due the City upon a subsequent monthly return(s) to the Tax Administrator, provided that: i. such credit is claimed in a return dated no later than one year from the date of the overpayment or erroneous collection of said tax; ii. the Tax Administrator is satisfied that the underlying basis and amount of such credit has been reasonably established; and, iii. in the case of an overpayment by a service supplier to the service user that has been remitted to the City, the Tax Administrator has received proof, to his or her satisfaction, that the overpayment has been refunded by the service supplier to the service user in an amount equal to the requested credit.

D. Overpayments as Credits. Notwithstanding subsections (A) through (C) above, a service supplier shall be entitled to take any overpayment as a credit against an underpayment whenever such overpayment has been received by the City within the three (3) years next preceding a deficiency determination or assessment by the Tax Administrator in connection with an audit instituted by the Tax Administrator pursuant to Section 4.26.130(D). A service supplier shall not be entitled to said credit unless it clearly establishes the right to the credit by written records showing entitlement thereto. Under no circumstances shall an overpayment taken as a credit against an underpayment pursuant to this subsection qualify a service supplier for a refund to which it would not otherwise be entitled under the one-year written claim requirement of this section. (Ord. 5471, 2008.)

4.26.160 Low Income, Senior, Disabled, or Other Consumer Exemption – Refunds.

Any individual who qualifies for an exemption under Santa Barbara Municipal Code section 4.24.080 shall be exempt from the tax imposed by this chapter and any such tax paid by any such individual is subject to refund under Section 4.26.150. Service suppliers are not required to implement this exemption; the sole remedy shall be a refund of paid taxes by the taxpayer, as provided herein. (Ord. 5471, 2008.)

4.26.170 Appeals.

A. Administrative Appeals. The provisions of this section apply to any decision (other than a decision relating to a refund pursuant to Section 4.26.150 of this Chapter), deficiency determination, assessment, or administrative ruling of the Tax Administrator. Any person aggrieved by any decision (other than a decision relating to a refund pursuant to Section 4.26.150 of this Chapter), deficiency determination, assessment, or administrative ruling of the Tax Administrator, shall be required to comply with the appeals procedure of this section. Compliance with this section shall be a prerequisite to a suit thereon. [See Government Code Section 935(b)]. Nothing herein shall permit the filing of a claim or action on behalf of a class or group of taxpayers.

B. Appeal to City Administrator. If any person is aggrieved by any decision (other than a decision relating to a refund pursuant to Section 4.26.150 of this Chapter), deficiency determination, assessment, or administrative ruling of the Tax Administrator; he or she may appeal to the City Administrator by filing a notice of appeal with the City Clerk within fourteen (14) days of the date of the decision, deficiency determination, assessment, or administrative ruling of the Tax Administrator which aggrieved the service user or service supplier.

C. Scheduling of Administrative Appeal Hearing. The matter shall be scheduled for hearing before an independent hearing officer selected by the City Administrator, no more than thirty (30) days from the receipt of the appeal. The appellant shall be served with notice of the time and place of the hearing, as well as any relevant materials, at least five (5) calendar days prior to the hearing. The hearing may be continued from time to time upon mutual consent. At the time of the hearing, the appealing party, the Tax Administrator, and any other interested person may present such relevant evidence as he or she may have relating to the determination from which the appeal is taken.
D. **Notice of Decision.** Based upon the submission of such evidence and the review of the City’s files, the hearing officer shall issue a written notice and order upholding, modifying or reversing the determination from which the appeal is taken. The notice shall be given within fourteen (14) days after the conclusion of the hearing and shall state the reasons for the decision. The notice shall specify that the decision is final and that any petition for judicial review shall be filed within ninety (90) days from the date of the decision in accordance with Code of Civil Procedure Section 1094.6.

E. **Manner of Notice.** All notices under this section may be sent by regular mail, postage prepaid, and shall be deemed received on the third calendar day following the date of mailing, as established by a proof of mailing. (Ord. 5471, 2008.)

4.26.180 **No Injunction/Writ of Mandate.**

No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this City or against any officer of the City to prevent or enjoin the collection under this Chapter of any tax or any amount of tax required to be collected and/or remitted. (Ord. 5471, 2008.)

4.26.190 **Notice of Changes to Ordinance.**

If a tax under this Chapter is added repealed, increased, reduced, or the tax base is changed, the Tax Administrator shall follow the notice requirements of California Public Utilities Code Section 799. (Ord. 5471, 2008.)

4.26.200 **Effect of State and Federal Reference/Authorization.**

Unless specifically provided otherwise, any reference to a state or federal statute in this Chapter shall mean such statute as it may be amended from time to time, provided that such reference to a statute herein shall not include any subsequent amendment thereto, or to any subsequent change of interpretation thereto by a state or federal agency or court of law with the duty to interpret such law, to the extent that such amendment or change of interpretation would require voter approval under California law, or to the extent that such change would result in a tax decrease (as a result of excluding all or a part of a communication service, or charge therefor, from taxation). Only to the extent voter approval would otherwise be required or a tax decrease would result, the prior version of the statute (or interpretation) shall remain applicable; for any application or situation that would not require voter approval or result in a decrease of a tax, provisions of the amended statute (or new interpretation) shall be applicable to the maximum possible extent.

To the extent that the City’s authorization to collect or impose any tax imposed under this Chapter is expanded or limited as a result of changes in state or federal law, no amendment or modification of this Chapter shall be required to conform the tax to those changes, and the tax shall be imposed and collected to the full extent of the authorization up to the full amount of the tax imposed under this Chapter. (Ord. 5471, 2008.)

4.26.210 **Independent Audit of Tax Collection, Exemption, Remittance, and Expenditure.**

The City shall annually verify that the taxes owed under this Chapter have been properly applied, exempted, collected, and remitted in accordance with this Chapter, and properly expended according to applicable municipal law. The annual verification shall be performed by a qualified independent third party and the review shall employ reasonable, cost-effective steps to assure compliance, including the use of sampling audits. The verification shall not be required of tax remitters where the cost of the verification may exceed the tax revenues to be reviewed. (Ord. 5471, 2008.)

4.26.220 **Interaction with Prior Tax.**

A. **Satisfaction of Tax Obligation by Service Users.** Any person who pays the tax levied pursuant to Sections 4.26.040 or 4.26.050 of this Chapter with respect to any charge for a telecommunication or video service shall be deemed to have satisfied his or her obligation to pay the tax levied pursuant to Sections 4.24.020 and 4.24.070 of this Code with respect to that charge. Likewise, prior to April 1, 2009, any person who pays the tax levied pursuant to Sections 4.24.020 and 4.24.070 of this Code with respect to any charge for a service subject to taxation pursuant to this Chapter shall be deemed to have satisfied his or her obligation to pay the tax levied pursuant to Sections 4.26.040 or 4.26.050 of this Chapter with respect to that charge. The intent of this paragraph is to prevent the imposition of multiple taxes upon a single utility charge during the transition period from the prior telecommunication and video users’ tax to the new telecommunication and video users’ tax (which transition period ends April 1, 2009) and to permit telecommunication and video service providers, during that transition period, to satisfy their collection obligations by collecting either tax.

B. **Collection of Tax by Service Providers.** Service providers shall begin to collect the tax imposed by this Chapter as soon as feasible after the effective date of the Chapter, but in no event later than permitted by Section 799 of the California Public Utilities Code.
C. Judicial Determinations. In the event that a final court order should determine that the election enacting this Chapter 4.26 is invalid for whatever reason, or that any tax imposed under this Chapter Section 4.26 is invalid in whole or in part, then the tax imposed under Sections 4.24.020 and 4.24.070 (unless repealed) shall automatically continue to apply with respect to any service for which the tax levied pursuant to this Chapter has been determined to be invalid. Such automatic continuation shall be effective beginning as of the first date of service (or billing date) for which the tax imposed by this Chapter is not valid. However, in the event of an invalidation, any tax (other than a tax that is ordered refunded by the court or is otherwise refunded by the City) paid by a person with respect to a service and calculated pursuant to this Chapter shall be deemed to satisfy the tax imposed under Section 4.24.020 and 4.24.070 on that service, so long as the tax is paid with respect to a service provided no later than six months subsequent to the date on which the final court order is published. (Ord. 5471, 2008.)

All remedies and penalties prescribed by this Chapter or which are available under any other provision of law or equity, including but not limited to the California False Claims Act (Government Code Section 12650 et seq.) and the California Unfair Practices Act (Business and Professions Code Section 17070 et seq.), are cumulative. The use of one or more remedies by the City shall not bar the use of any other remedy for the purpose of enforcing the provisions of this Chapter. (Ord. 5471, 2008.)

Chapter 4.52
PURCHASING

4.52.010 System Adopted - Purpose.

In order to establish efficient procedures for the purchase of equipment, supplies, and services at the lowest possible cost commensurate with quality needed, to exercise positive financial control over purchases, to clearly define authority for the purchasing function, and to assure the quality of purchases, a purchasing system is adopted. To the greatest extent practicable, the City shall endeavor to develop purchasing specifications that will result in the purchase of equipment, supplies, and services that are environmentally preferred. Competitive bidding for the purchase of equipment, supplies, and services is preferred as a matter of City policy and good purchasing practice. Even when competitive bids are not required by this Chapter, competitive proposals or bids should be obtained if reasonably practicable and compatible with the City’s interests. (Ord. 5494, 2009; Ord. 3760 §2, 1975; Ord. 3306 §2, 1968.)

4.52.020 Definitions.

The following words and phrases shall have the following meaning and construction for purposes of this chapter.

A. ENVIRONMENTALLY PREFERRED PURCHASES. A manner of purchasing equipment, supplies, and services that results in less harm to the natural environment. Environmentally preferred purchases involve the purchase of equipment, supplies, and services in a manner that uses less harmful materials, employs recycled or recovered materials (where appropriate and available), and utilizes techniques intended to result in less impact on the environment than other available methods.

B. EMERGENCY PURCHASE. A purchase made to address a situation that creates an immediate and serious need for equipment, supplies, or services which cannot be met through normal purchasing procedures and where the lack of such equipment, supplies, or services would seriously threaten the functioning of City government, the preservation of property, or the health or safety of any person.

C. WITHIN THE BUDGET APPROVED BY THE CITY COUNCIL. Purchases that fall within the annual financial budget adopted by the City Council for the Department against whose account the purchase will be applied. A particular purchase need not be a specific line item of the Department’s budget in order to be considered included within the budget approved by the City Council.

D. INFORMATION TECHNOLOGY. Includes, but is not limited to, all electronic technology systems and services, automated information handling, system design and analysis, conversion of data, computer programming, information storage and retrieval, telecommunications that include voice, video, and data communications, requisite system controls, simulation, electronic commerce, and all related interactions between people and machines.

E. MAINTENANCE AND REPAIR. The routine, recurring, or usual work for the restoration or preservation of the condition of an existing facility, structure, or equipment, as opposed to the purchase of a new or replacement facility, structure, or equipment. If a question arises as to the proper characterization of a purchase as maintenance and repair or a public work, the Purchasing Agent shall determine in writing whether the primary purpose of the purchase is to restore or preserve the condition of an existing facility, structure, or equipment or to obtain a new or replacement facility, structure, or equipment.

F. PERSONAL PROPERTY. All property other than real estate, including, but not limited to, equipment, supplies, and materials.

G. PROFESSIONAL SERVICES. Services that require specialty training, education, or experience, including, but not limited to, financial, economic, accounting, engineering, legal, or administrative matters.

H. PURCHASE. To obtain equipment, supplies, or services in exchange for money or its equivalent. For purposes of this Chapter, the term purchase shall also include the acquisition of equipment or supplies by lease.

I. PURCHASING AGENT. The general services manager of the City of Santa Barbara.
J. **REVERSE AUCTION.** A process where the City announces its need for equipment, supplies, or services on the Internet, or some other manner, and suppliers bid against one another in a real-time, open, and interactive bidding environment to supply the City with required equipment, supplies, or services.

K. **SERVICES INVOLVING PECULIAR ABILITY.** Services that typically require artistic or creative skill and advanced or specialized training or experience. For purposes of this Chapter, the construction trades are not services involving peculiar ability. (Ord. 5494, 2009.)

(Ord. 5494, 2009.)

(Ord. 5716, 2015; Ord. 5494, 2009; Ord. 5371, 2005; Ord. 4022, 1980; Ord. 3848, 1976; Ord. 3832, 1976; Ord. 3760 §2, 1975.)

4.52.070 Formal Contract Procedures (Purchases Greater than $75,000).

Except as otherwise provided herein, purchases of supplies (other than library books and library periodicals), nonprofessional services, services not involving peculiar ability, and equipment, of a value greater than seventy-five thousand dollars ($75,000.00), shall be by written contract with the lowest responsible bidder pursuant to the following procedures:

B. NOTICE INVITING BIDS. The Purchasing Agent shall issue a notice inviting bids that includes a general description of the articles to be purchased or the services sought, states where the bid forms and specifications may be secured, and announces the time and place for opening bids.

1. Published Notice. Notices inviting bids shall be published at least ten (10) working days before the date of opening of bids. Notices shall be published at least once in a newspaper of general circulation, published in the City of Santa Barbara.

2. Bidders' List. The Purchasing Agent shall also solicit sealed bids from all responsible prospective suppliers whose names are on the City's bidders' list or who have requested their names to be added thereto.

C. BIDDERS' SECURITY. When deemed necessary by the Purchasing Agent, bidders' security may be required. Bidders shall be entitled to a return of bid security upon execution of the contract or upon the re-advertisement for bids, provided that the successful bidder shall forfeit his bid security upon refusal or failure to execute the contract within ten (10) days after notice of contract has been deposited in the United States mail. The City Council may, on refusal or failure of the successful bidder to execute the contract, award it to the next lowest responsible bidder. If the City Council awards the contract to the next lowest responsible bidder, the bidder first awarded the contract shall forfeit only the portion of his security which is equal to the difference between his bid and the bid of the next lowest responsible bidder. If the next lowest responsible bidder is awarded the contract, he shall forfeit his bid security if he fails or refuses to execute the contract.

D. BID OPENING PROCEDURE. Bids may be submitted in physical form or electronically, as specified in the notice inviting bids. Physical bids shall be submitted to the Purchasing Agent in a sealed envelope and shall be identified as "bid" on the envelope. Bids submitted electronically shall be identified as "bid" in the subject line of the e-mail or by other conspicuous method. Bids shall be opened at a location open to the public at the time and place stated on the notice inviting bids or as may otherwise be announced to all bidders. A tabulation of all bids received shall be open for public inspection during regular City business hours for a period of not less than thirty (30) calendar days after the bid opening.
E. **REJECTION OF BIDS.** In its discretion, the City Council may reject any and all bids presented and re-advertise for bids pursuant to the procedure described herein. In cases where the Purchasing Agent is authorized to award a contract, the Purchasing Agent may, in his or her discretion, reject any and all bids presented and re-advertise for bids pursuant to the procedure described herein.

F. **AWARD OF CONTRACTS.** Contracts shall be awarded by the City Council to the lowest responsible bidder who submits a bid responsive to the specifications except as otherwise provided herein.

G. **AWARD OF CONTRACTS BY PURCHASING AGENT.** The Purchasing Agent is authorized to award contracts to the lowest responsible bidder when the City Council has approved a Departmental budget that includes funds specifically for the purchase of the item(s) and the amount of the award is not more than the budgeted amount.

H. **TIE BIDS.** If two (2) or more bids received are for the same total amount or unit price, quality, service and delivery being equal, and if the public interest will not permit the delay of re-advertising for bids, the City Council may in its discretion accept the one (1) it chooses or accept the lowest bona fide offer made by and after negotiation with the bidders who were tied at the time of the bid opening.

I. **NO BIDS RECEIVED.** If no bids are received within ten (10) days of the publication of the notice inviting bids or such other time specified in the notice inviting bids for the receipt of bids, the Purchasing Agent may either publish a new notice inviting bids or solicit bids without further publication.

J. **PERFORMANCE SECURITY.** The Purchasing Agent shall have the authority to require a performance security before entering into a contract in such amount as it shall find reasonably necessary to protect the best interests of the City. If the Purchasing Agent requires a performance security, the form and amount of the security shall be described in the terms, conditions or general provisions of bid documents.

K. **SOLE SOURCE PURCHASES.** Purchases of goods or services which can be obtained from only one (1) source may be made by the Purchasing Agent without advertising and after a determination by the City Council that the goods or services are only available from one source and approval of the purchase by the City Council.

L. **BEST INTEREST WAIVER.** The City Council may authorize purchase of equipment, supplies (other than library books and library periodicals), and nonprofessional services or services not involving peculiar ability without complying with the above procedures when, in the opinion of the Council, compliance with the procedure is not in the best interest of the City.

M. **ENCUMBRANCE OF FUNDS.** Except in cases of emergency, the Purchasing Agent shall not issue any purchase order for equipment, supplies, or services for which there is an insufficient appropriation in the budgetary account against which said purchase is to be charged. (Ord. 5716, 2015; Ord. 5494, 2009; Ord. 5371, 2005; Ord. 4022, 1979; Ord. 3832 §1, 1976; Ord. 3760 §2, 1975; Ord. 3306 §2, 1968.)

### 4.52.080 Emergency Purchases.

An emergency purchase of any equipment, supplies, or services shall be made in accordance with the following procedures:

A. **DECLARATION OF NEED TO MAKE AN EMERGENCY PURCHASE.** The City Administrator or a City department head must declare the need to make an emergency purchase in writing. The declaration shall specify the reasons why an emergency purchase of equipment, supplies, or services is necessary.

B. **SCOPE OF AUTHORITY.** When the need to make an emergency purchase is declared, the City Administrator or the department head declaring the need to make an emergency purchase may purchase any equipment, supplies, or services needed to address the emergency. Emergency purchases are only allowed as necessary to address an immediate need. Even when normal purchasing procedures are not followed for reasons relating to the emergency, competitive bidding shall be used to the greatest extent practicable under the circumstances.

C. **DOCUMENTATION.** All emergency purchases shall be documented in writing.

D. **ENCUMBRANCE OF FUNDS.** When emergency purchases are requested of equipment, supplies, or services for which no funds have been encumbered, the emergency requisition shall so state and the interested department head shall initiate a request for fund transfer within four (4) hours after the start of the next regular work day.

E. **REPORT TO CITY COUNCIL.** Any time the value of emergency purchases made without compliance with normal purchasing procedures exceeds $35,000 in the aggregate for a single emergency, a report shall be made to the City Council within thirty (30) days of the declaration of the need for an emergency purchase. (Ord. 5716, 2015; Ord. 5494, 2009.)

### 4.52.090 Inspection and Testing.

The Purchasing Agent may inspect supplies and equipment delivered to determine their conformance with the specifications set forth in the order or contract. The Purchasing Agent shall have authority to require chemical and physical tests of samples submitted with bids and samples of deliveries which are necessary to determine their quality and conformance with specifications. (Ord. 3760 §2, 1975; Ord. 3306 §2, 1968.)
4.52.100 Central Stores.

The Purchasing Agent is responsible for the City storage control program. Under direction of the Purchasing Agent, the City Stores Manager is responsible for the custody of and accounting for the supplies. This includes the maintenance of a perpetual inventory record for each item carried in stock and making quantity checks at frequent intervals to verify the ledger count and value. The City Stores Manager is to exercise full control and reporting of all materials received, withdrawn, or returned to stock. (Ord. 5494, 2009; Ord. 3760 §2, 1975; Ord. 3306 §2, 1968.)

4.52.110 Information Technology Purchases.

The City recognizes that purchasing information technology on the basis of lowest purchase price alone may not always serve the best interests of the City. Therefore, the Purchasing Agent is hereby authorized to purchase information technology, within the budget approved by the City Council, on a “best value basis.” In determining the best value for the City, the Purchasing Agent may consider the following factors:

A. The purchase price or cost;
B. The quality of the vendor’s goods or services;
C. The extent to which the vendor’s goods or services meet the City’s needs;
D. The total long-term cost to the City of the good or service;
E. The reputation of the vendor and the vendor’s goods or services;
F. The vendor’s past relationship with the City;
G. The impact of the proposed purchase on the City’s ability to comply with laws relating to the procurement of goods or services from persons with disabilities;
H. Any relevant criteria specifically listed in the request for proposals or bids.

The preceding list of factors is not listed in order of priority and not all factors will be relevant to all purchases. Unless the request for proposals or bids assigns a particular weight to one factor or another, the Purchasing Agent may assign priority of the factors as appropriate for the individual purchase based on the information available at the time of the purchase with the goal of obtaining the optimum combination of economy, quality, and effectiveness that is the result of fair, efficient, and practical procurement decision-making. (Ord. 5716, 2015.)

4.52.120 Contract Splitting Prohibited.

It is unlawful to split or separate any purchase into smaller increments for the purpose of evading the provisions of the Charter or this Chapter requiring advertising and competitive bidding. (Ord. 5494, 2009; Ord. 3760 §2, 1975; Ord. 3306 §2, 1968.)

4.52.130 Surplus Personal Property.

All City departments shall submit to the Purchasing Agent, at such times and in such forms as the Agent shall prescribe, reports showing all supplies, equipment or personal property of any nature which are no longer used or which have become obsolete or worn out. The Purchasing Agent shall have the authority to exchange or trade on new supplies and equipment, or to sell, all supplies and equipment which cannot be used by any department or which have become unsuitable for City use. The Purchasing Agent shall also have the authority to make transfers between departments of any usable surplus supplies or equipment. The Purchasing Agent, upon obtaining the specific written approval of the City Finance Director, may, without published notice of the intended sale or competitive bidding, sell items of surplus personal property to: 1. any interested party if the value of the item does not exceed $500, or 2. any governmental entity as long as the value of the item does not exceed $10,000. (Ord. 5716, 2015; Ord. 5494, 2009; Ord. 3760 §2, 1975; Ord. 3306 §2, 1968.)

4.52.140 Cooperative Purchasing.

A. COOPERATIVE PURCHASING AGREEMENTS. Nothing contained in this chapter shall prohibit the participation by the City of Santa Barbara in any voluntary cooperative purchasing agreement, agreements, or programs entered into between the City of Santa Barbara and any local, state, or federal government, or association of governmental agencies within the United States which is authorized by state or federal law or regulations.

B. SURROGATE BIDDING. Nothing contained in this chapter shall prohibit the participation by the City of Santa Barbara in a surrogate bidding process where the City purchases equipment, supplies, or services at the same price as a contract awarded by another local, state, or federal government, or association of governmental agencies within the United States following a competitive bidding process that substantially conforms to the City’s purchasing procedures.

C. CALIFORNIA MULTIPLE AWARD SCHEDULE CONTRACTS AND LEVERAGE PROCUREMENT AGREEMENTS. Nothing contained in this chapter shall prohibit the participation by the City of Santa Barbara in any purchase under a California Multiple Award Schedule Contract or Leverage Procurement Agreement.
D. AUTHORITY TO ACT. The Purchasing Agent is hereby empowered and authorized to act under the provisions of this chapter, to procure for the City supplies and equipment in conjunction with such voluntary cooperative purchasing agreement, surrogate bidding process, California Multiple Award Schedule Contract, or California Leverage Procurement Agreement to the extent such purchases are within the budget approved by the City Council. Sections 4.52.060 and 4.52.070 of this chapter shall not apply to the purchase of supplies or equipment pursuant to any voluntary cooperative purchasing agreement, surrogate bidding process, California Multiple Award Schedule Contract, or California Leverage Procurement Agreement entered into under the provisions of this section. All formal contract and bidding procedures to be followed in such cases shall be those specifically enumerated in the voluntary cooperative purchasing agreement, the surrogate bid, California Multiple Award Schedule Contract, or California Leverage Procurement Agreement. (Ord. 5716, 2015; Ord. 5494, 2009; Ord. 3760 § 2, 1975; Ord. 3620 § 1, 1974.)

4.52.150 Future Expenditures.

No contract to be executed in a future fiscal year or years for purchases of goods or services as described in this chapter shall be valid unless appropriations for such purchase shall have been made in the year in which the contract was entered into. (Ord. 5494, 2009; Ord. 3760 § 2, 1975.)

4.52.160 Public Works Contracts.

A. COMPLIANCE WITH THE CHARTER. Bidding and advertising and award of contracts for public works, excluding maintenance and repair, shall be as required by Section 519 of the City Charter.

B. PREVAILING WAGES REQUIRED IN COMPLIANCE WITH SB 7. The state prevailing wage law requires contractors on public works projects to be paid the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed. Under California Constitution, Article XI, Section 5, the laws of chartered cities supersede state law with respect to municipal affairs of the city. The City of Santa Barbara is a chartered city duly organized and validly existing under the laws of the State of California, and thus the city may exempt itself from prevailing wage requirements. California Senate Bill No. 7 (“SB 7”), approved October 13, 2013, provides that the state has limited financial resources and resolves only to extend financial assistance to construction projects of those chartered cities that require compliance with the prevailing wage law on all their municipal construction projects. Effective January 1, 2015, unless the contract was advertised for bid prior to that date, chartered cities are additionally disqualified from receiving financial assistance under SB 7 if the city has awarded, within the prior two (2) years, a public works contract without requiring the contractor to comply with prevailing wage requirements. Chartered cities that have charter provisions exempting city projects from prevailing wage requirements may adopt a local prevailing wage ordinance with requirements equal to or greater than state prevailing wage law in order to avoid disqualification.

For at least the last 25 years, the City has generally required prevailing wages to be paid on capital improvement projects. Compliance with SB 7, however, requires the adoption of an ordinance and the payment of prevailing wages beyond capital improvement projects to include maintenance and repair work, as described in the Labor Code. Notwithstanding the City’s constitutional right to exempt locally funded projects from prevailing wage, the City Council finds that the City’s financial interests are best served by complying with California’s prevailing wage law as delineated in SB 7.

C. Prevailing wages shall be paid on all public works contracts in accordance with Labor Code section 1782 (SB 7).

D. The provisions of this ordinance do not restrict the city from receiving or using state funding or financial assistance awarded prior to January 1, 2015, or from receiving or using state funding or financial assistance to complete a contract awarded prior to January 1, 2015. Further, this ordinance does not disqualify or amend any contracts awarded prior to January 1, 2015.

E. If SB 7 is, for any reason, held to be invalid or inapplicable to charter cities by any court of competent jurisdiction or is otherwise repealed, this ordinance shall automatically sunset and be of no further effect immediately thereafter. (Ord. 5676, 2014; Ord. 3832 § 1, 1976.)

4.52.165 Public Works Contracts.

A. Bidding and advertising and award of contracts for public works, excluding maintenance and repair, shall be as required by Section 519 of the City Charter.

B. Section 519 of the City Charter provides that certain water-related projects may be excepted from the requirements of Section 519 by the affirmative vote of a majority of the total members of the City Council.

1. The City Council may determine by resolution that such a project may be solicited and contracted for using alternate project delivery methods, including, but not limited to, design-build, and design-build-operate, or competitive negotiation. Any such resolution shall set forth the reasons supporting the use of the alternate project delivery method for the project and describe the solicitation method to be used and the criteria for determining the party to whom the contract should be awarded. The Council may also authorize the reimbursement of the costs of proposers in participating in solicitations for such projects.
2. The selection process shall, to the extent feasible, be fair and open, encourage creative and innovative solutions, and ensure that the City receives the best value possible. During the selection process, the City may meet individually with potential proposers prior to submission of proposals in order to encourage creative solutions. Such meetings shall be tape recorded and the recording shall be made available upon request after final contract award. (Ord. 5724, 2015.)

4.60.030 Liberal Construction of Chapter; Validity; Finality.

This Chapter shall be liberally construed to effectuate its purpose. Any proceedings taken under this Chapter and any assessment levied pursuant thereto shall not be invalidated for failure to comply with the provisions of this Chapter if such failure does not substantially and adversely affect the constitutional rights of any property owner. The exclusive remedy of any property owner so affected shall be appeal to the City Council in accordance with the provisions of this Chapter. All determinations made by the City Council pursuant to this Chapter shall be final and conclusive in the absence of fraud or prejudicial abuse of discretion. All proceedings undertaken by the City pursuant to this Chapter shall be undertaken in accordance with the provisions of Section 19 of Article XVI of the California Constitution, as such section may be amended or supplemented from time to time. (Ord. 4472, 1987.)

4.60.040 Benefit Assessment District; Benefited Territory.

Any resolution, notice, report, diagram, or assessment which is required to contain a description of the improvements, the boundaries of the benefit assessment district or any zones therein, or the lines and dimensions of any lot or parcel of land may, for a full and detailed description thereof, refer to any plan or map which is on file with the City Clerk, the county auditor, the county recorder or the county assessor and which is open to public inspection. In any proceeding authorized pursuant to this Chapter, the City Council may order any acquisition of land, rights-of-way, easements, or other interests therein necessary or appropriate in connection with such improvement, and assess the cost of such acquisition as a part of the costs of such improvement. The City Clerk shall give notice or cause the same to be given in accordance with this Section, unless the City Council delegates the duty of giving the notice to some other person, officer or board.

A. Published notice, when required, shall be made as provided in Section 6061 of the California Government Code, unless otherwise specified.

B. Posted notice, when required, shall be made by posting a copy of the notice upon any official bulletin board customarily used by the City for the posting of notices. Posted notices of hearings for the formation or consolidation of a benefit assessment district or for the annexation of territory to an existing benefit assessment district shall be posted at intervals of not more than 300 feet along all existing streets within the proposed benefit assessment district or within the territory proposed to be annexed to or consolidated with an existing benefit assessment district, as the case may be. Posting of notice of such hearings shall be completed at least ten (10) days prior to the date of hearing specified therein, if applicable.

C. Mailed notice, when required, shall be sent by first-class mail and deposited, postage prepaid, in the United States mails and shall be deemed given when so deposited.

The failure of the City Clerk or any person to whom the duty of giving notice was delegated to publish, post or mail any notice or the failure of any person to receive the same shall not affect in any way whatsoever the validity of any proceedings taken under this Chapter, nor prevent the City Council from proceeding with any hearing or other action so noticed. (Ord. 4472, 1987.)

4.60.100 Formation of a Benefit Assessment District.

A. INITIATION OF PROCEEDINGS. Proceedings for the formation of a benefit assessment district may be instituted by resolution of the City Council on its own initiative and shall be instituted by the City Council when a petition requesting the formation of a benefit assessment district is filed with the City Clerk. Such petition may consist of any number of separate instruments, each of which shall comply with all of the requirements set forth below with respect to the petition, except as to the number of signatures. Such petition shall:

1. Request the City Council to institute proceedings for the formation of a benefit assessment district pursuant to this Chapter;
2. describe the boundaries of the territory of the proposed benefit assessment district;
3. describe the proposed improvements; and
4. be signed by property owners of not less than sixty percent (60%) of the area of land proposed to be included within the benefit assessment district. If the City Council finds that the petition is signed by the requisite number of property owners proposed to be included within the benefit assessment district, that finding shall be final and conclusive.

B. Within 90 days after a petition described in Subsection (A) is filed with the City Clerk, the City Council shall adopt a resolution in the form specified in Subsection (C).
C. PRELIMINARY RESOLUTION. Proceedings for the formation of a benefit assessment district shall be initiated by a resolution of the City Council. Such resolution shall:

1. propose the formation of a benefit assessment district pursuant to this Chapter and specify a distinctive designation for the district;
2. describe the improvements;
3. describe the exterior boundaries of the proposed benefit assessment district; and
4. order the engineer to prepare and file a report in accordance with Subsection (D).

The descriptions in the resolution need not be detailed but shall be sufficient if they enable the engineer to generally identify the nature, location, and extent of the improvements and the location and extent of the benefit assessment district.

D. ENGINEER'S REPORT. The engineer shall prepare a report which shall contain all of the following:

1. A description of the proposed improvements which are not already installed. Such description need not be detailed, but shall be sufficient if it shows or describes the general nature, location, and extent of the improvements. If the benefit assessment district is divided into zones, the description shall indicate the class and type of improvements to be provided for each such zone.
2. A general description of improvements already installed and any other property necessary or convenient for the operation of the improvements if such property is to be acquired as part of the improvement.
3. An estimate of the costs of the improvements, including an estimate of any incidental expenses. The estimate of the costs of the improvements shall contain estimates for all of the following:
   a. the total costs for improvements to be made being the total costs of acquiring, installing, construction, reconstructing, extending, repairing or improving or otherwise enhancing all proposed public works plus, if the proposed benefit assessment district is to participate in maintenance, operation or servicing of the proposed public works, the total estimated costs of maintaining, operating and servicing all existing and proposed public works, including all incidental expenses;
   b. the amount of any contributions to be made from sources other than assessments levied pursuant to this Chapter; and
   c. the net amount to be assessed upon assessable lands within the benefit assessment district, being the total costs for improvements, as referred to in Subsection (a), decreased by the amounts, if any, referred to in Subsection (b).
4. A diagram for the benefit assessment district which shall show (a) the exterior boundaries of the benefit assessment district, and (b) the boundaries of any zones within the benefit assessment district. Each lot or parcel shall be identified by a distinctive number or letter.
5. Proposed assessments for the net estimated costs of the improvements and incidental expenses upon the several subdivisions of land in the benefit assessment district in proportion to the estimated benefits to be received by each subdivision, respectively, from the improvement.

The net amount to be assessed upon the lands within a benefit assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.

The diagram and assessment may classify various areas within a benefit assessment district into different zones where, by reason of variations in the nature, location and extent of the improvements and other factors which may be identified in the engineer's report, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements.

E. APPROVAL OF ENGINEER'S REPORT. Upon completion, the engineer shall file the report with the City Clerk for submission to the City Council. The City Council may approve the report, as filed, or it may modify the report in any particular and approve it as modified.

F. RESOLUTION OF INTENTION. After approval of the report, either as filed or as modified, the City Council shall adopt a resolution of intention which shall do all of the following:

1. Declare the intention of the Council to order the formation of a benefit assessment district to levy and collect assessments;
2. Generally describe the improvements;
3. Refer to the proposed benefit assessment district by its distinctive designation and refer to the report of the engineer, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the benefit assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the benefit assessment district; and
4. Give notice of, and fix a time and place for, a public hearing by the City Council on the question of the formation of the benefit assessment district and the levy of the proposed assessment at which hearing protests to the improvements or the assessment will be considered.
G. NOTICE OF PUBLIC HEARING. The City Clerk shall give notice of passage of the resolution of intention and of the public hearing by publishing, posting and mailing to each property owner, as provided in Section 4.60.090 of this Chapter, a notice containing the following information:

1. a reference to the resolution of intention adopted in accordance with Subsection (F);
2. a statement of the time, place and purpose of the public hearing;
3. an estimate of the total cost of the proposed improvement;
4. for purposes of the mailed notice only, the amount as shown by the engineer's report estimated to be assessed against the particular parcel covered by the notice;
5. a statement that any property owner interested may file a protest in writing stating all grounds of objection with the City Clerk at least 24 hours before the time set for the hearing and that any written protest must include a description of the property in which each signer of the protest is interested.

H. PUBLIC HEARING. The City Council shall hold the public hearing at the time and place fixed in the resolution of intention and in any order continuing the hearing. All interested persons shall be afforded the opportunity to hear and be heard.

I. CHANGES TO MATTERS IN ENGINEER'S REPORT. During the course or upon the conclusion of the hearing, the City Council may order changes in any of the matters provided in the engineer's report, including changes in the improvements, the boundaries of the proposed benefit assessment district and any zones therein, and the proposed diagram or the proposed assessment. The City Council may, without further notice, order the exclusion of territory from the proposed benefit assessment district, but shall not order the inclusion of additional territory within the benefit assessment district except upon written request by a property owner for the inclusion of his or her property or upon the giving of mailed notice of hearing to the owners of such additional territory upon the question of the inclusion of their property in the benefit assessment district.

J. MAJORITY PROTEST. Upon the conclusion of the hearing, the City Council shall determine whether a majority protest exists. For that purpose, the extent of the territory of the proposed benefit assessment district shall be adjusted in accordance with any orders excluding territory from or including additional territory within the benefit assessment district. A majority protest exists if, upon the conclusion of the hearing, written protests filed and not withdrawn represent property owners owning more than fifty percent (50%) of the area of land to be assessed for the improvements within the proposed benefit assessment district, unless the City Council in its Resolution of Intention with regard to any benefit assessment district determines that the majority protest shall be measured on a basis other than area of land.

K. ABANDONMENT UPON MAJORITY PROTEST; OVERRIDE. Proceedings for the formation of the benefit assessment district shall be abandoned if there is a majority protest unless, by a four-fifths vote of all members of the City Council, the protest shall be overruled.

L. RESOLUTION ORDERING IMPROVEMENTS, FORMING DISTRICT AND LEVYING AN ASSESSMENT. If a majority protest has not been filed, or, if filed, has been overruled, the City Council may adopt a resolution ordering the improvements and the formation of the benefit assessment district and confirming the diagram and assessment, either as originally proposed or as changed by order of the City Council. The adoption of the resolution shall constitute the levy of the assessment which may be collected in annual installments. The City Clerk shall record a notice and assessment diagram describing the assessment as provided in Part 2 of Division 4.5 (commencing with Section 3110) of the California States and Highways Code, as such Division may from time to time be amended or supplemented, except that the period for which the lien continues shall be 30 years instead of the period of 10 years shown in Streets and Highways Code § 3115(c).

M. ASSESSMENT LIEN. From the date of recordation, each assessment levied pursuant to this chapter is a lien upon the land upon which it is levied. This lien is paramount to all other liens, except prior assessments and tax liens. Unless sooner discharged, the lien continues for a period of 30 years from the date of recordation or, if bonds, notes or other instruments are issued to represent the assessment, until the expiration of four years after the due date of the last installment on such bonds, notes or other instruments. All persons have constructive notice of this lien from the date of recordation.

N. NOTICE OF RECORDATION AND ASSESSMENT. The City Clerk shall send mailed notice to the property owners, in accordance with Section 4.60.090 of this Chapter, of recordation of assessment. Such notice shall include:

1. a designation of the property assessed;
2. the amount of the assessment;
3. the date of recordation of the assessment;
4. if provided for in the resolution levying the assessment, that the payment of the sums assessed are due and payable and may be paid as provided by the City Council within 30 days after the date of recording the assessment and the effect of failure to pay within the 30-day period, all in accordance with the resolution of the City Council levying such assessment. (Ord. 4472, 1987.)
4.60.110 Changes of Organization for Benefit Assessment District.

A. The City Council, either in a single proceeding or by separate proceedings, may order one or any combination of the following changes of organization:
   1. The annexation of territory to an existing benefit assessment district formed pursuant to this Chapter;
   2. The detachment of territory from an existing benefit assessment district formed pursuant to this Chapter;
   3. The dissolution of an existing benefit assessment district formed pursuant to this Chapter; or
   4. The consolidation into a single benefit assessment district formed pursuant to this Chapter of two or more existing benefit assessment districts formed pursuant to this Chapter.

The City Council shall not, by annexation, detachment, dissolution, or consolidation, alter the obligation of property owners to pay assessments levied for which improvements were financed by bonds, notes or other instruments issued to represent the assessment. This section does not prevent the lawful refunding of any such bonds or financing or the apportionment of assessments upon the division of properties assessed.

B. Proceedings for a change of organization may be:
   1. Undertaken subsequent to or concurrently with proceedings for the formation of a benefit assessment district under this Chapter. Any or all such proceedings may be continued on the completion of any other or all such proceedings.
   2. Combined with proceedings for the formation of a benefit assessment district under this Chapter. In such case, any of the several resolutions, reports, notices, or other instruments provided for in this Chapter may be combined into single proceedings.

C. Except as otherwise provided herein, proceedings for a change of organization shall be initiated, conducted, and completed in substantial compliance with the procedure provided in Section 4.60.100 for the formation of a benefit assessment district.

D. In annexation proceedings, the resolutions, reports, notices of hearing, and right of majority protest shall be limited to the territory proposed to be annexed, unless the City Council determines that property owners in the benefit assessment district to which the subject annexation is proposed could be adversely affected by such annexation, in which case such property owners shall also be provided with notice of the hearing. Notice of hearing on the proposed annexation shall be published, posted, and mailed, as applicable, as provided in Section 4.60.090. (Ord. 4472, 1987.)

4.60.120 Collection and Enforcement of Assessments.

A. After the filing of the diagram and assessment, unless the City Council otherwise requests the county auditor or some other public agency official to enter on the county assessment roll or other public record opposite each lot or parcel of land the amount assessed thereupon, the City Finance Director or other such officer, employee or agent of the City as the City Council may determine, shall create a benefit assessment roll or other public record for each lot or parcel of land showing the amount or basis of calculating the amount assessed, as shown in the assessment.

B. Unless otherwise determined by the City Council, assessments shall be collected at the same time and in the same manner as county taxes are collected, and all laws providing for the collecting and enforcement of county taxes shall apply to the collection and enforcement of the assessments. If collection of any assessments is to be done by a public agency other than the City, the net amount of the assessments collected, after deduction of any compensation due such public agency for collection, if any, shall be paid to the City Treasurer.

C. The City may charge a penalty of up to two percent per month for delinquent assessments, unless a different penalty is provided for in the resolution levying the assessment for a particular benefit assessment district.

D. The City may bring an action in any court of competent jurisdiction against property owners to collect delinquent assessments and penalties thereon or to enforce the lien thereof.

(Ord. 4472, 1987.)

4.60.130 Financial Provisions.

A. Upon receipt of monies representing assessments, the City Treasurer shall deposit the monies in the treasury of the City to the credit of an improvement fund for the benefit assessment district from which they were collected, and the monies shall be expended only for the improvements or to repay financing incurred for the improvements authorized for such benefit assessment district.
B. If there is a surplus in the improvement fund for a benefit assessment district upon completion of the improvement, or, if later, upon repayment of the financing therefore, the City Council shall determine the amount of the surplus and shall direct such amount to be applied first to repay the City for any prior contribution or advance made to the fund (as contemplated in Subsection (C)), and second as a credit to the assessment in the proportion which each individual assessment bears to the total of all individual assessments. Where an individual assessment has been paid in cash, the credit shall be returned in cash to the person paying the same upon their furnishing satisfactory evidence of payment. Where any part of an individual assessment remains unpaid, the amount of the surplus apportioned to each parcel shall be credited against the next installment or installments. Any portion of a surplus which has not been paid or claimed by the persons entitled thereto within four years from such entitlement (or if bonds, notes or other instruments issued to represent the assessment have been issued, within four years after the due date of the last installment upon such bonds, notes or instruments) or a surplus or any portion thereof that amounts to $50 or less to an individual property owner shall be transferred to the City's general fund.

C. If there is a deficit in the improvement fund of a benefit assessment district during any fiscal year, the City Council, from any available and unencumbered funds of the City, may provide but has no obligation to provide for:
   1. A contribution to the improvement fund; or
   2. A temporary advance to the improvement fund and direct that the advance be repaid from the next annual assessments levied and collected within the benefit assessment district.

D. The City Council may accept contributions from any source toward payment of costs of the improvements for financing therefor. The City Council, at any time either before or after the confirmation of the assessment, may provide for contributions towards payment of improvement costs. All contributions shall be deposited in the improvement fund of the benefit assessment district for which the contribution was provided.

E. In determining an individual assessment, credit may be given for dedications and for improvements constructed at private expense.

F. All contributions authorized prior to confirmation of an assessment shall be deducted from the total improvement costs to be assessed within the benefit assessment district. (Ord. 4472, 1987.)

4.60.140 Bonds.

A. The City Council may, by resolution, determine and declare that bonds, notes or other instruments shall be issued to finance the estimated cost of the proposed improvements, including incidental expenses.

B. The resolution authorizing such issuance shall generally describe the proposed improvements, set forth the estimated cost thereof, specify the number of annual installments and the fiscal years during which they are to be collected, and fix or determine the maximum amount of each annual installment necessary to retire the bonds, notes or other instruments.

C. Notwithstanding any other provision of this Chapter, assessments levied to pay the principal of, and interest on, any bond, note or other instrument issued to represent an assessment levied pursuant to this Chapter, shall not be reduced or terminated if doing so would interfere with the timely retirement of the debt. (Ord. 4472, 1987.)

4.60.150 Limitation of Action.

The validity of an assessment levied under this chapter shall not be contested in any action or proceeding, unless the action or proceeding is commenced within thirty (30) days after the assessment is levied. (Ord. 4472, 1987.)

4.60.170 Judicial Validation.

An action to determine the validity of the acquisition or improvement of any public work, any assessment or any bonds, notes or other financing instituted pursuant to this Chapter may be brought by the City upon authorization of such action by the City Council or by any interested person pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the California Code of Civil Procedure. For such purposes, the "acquisition or improvement of any public work" or an "assessment" shall be deemed to be in existence upon adoption of the resolution ordering the improvements and confirming the assessment (as described in Section 4.60.100(C) of this Chapter). (Ord. 4472, 1987.)
4.60.180 Performance of Work.

A. The City Council, by contract or otherwise, shall provide for the performance of all work ordered by it pursuant to this Chapter, including the acquisition, installation, construction, extension, reconstruction, repair, maintenance, operation, servicing, improvement or other enhancement of any public works.

B. All or any part of the public works may be acquired, installed, constructed, extended, reconstructed, repaired, maintained, operated, serviced, improved or otherwise enhanced or owned by one or any combination of the following:
   (1) the City;
   (2) any other public agency; or
   (3) any public utility.

(Ord. 4472, 1987.)

Assessments may be levied and bonds may be issued in accordance with this Chapter for the purpose of funding rehabilitation and repair work necessary to bring buildings in the City into compliance with the Regulations (which shall be defined as the requirements of Chapter 22.18 of the Santa Barbara Municipal Code.). (Ord. 4735, 1991.)

### 4.65.020 Improvement District Procedures -- Municipal Improvement Act of 1913 and Improvement Bond Act of 1915 and Related Acts Adopted by Reference.

A. Establishing Improvement Districts. Subject to the provisions of Section 4.65.010, whenever the public interest and necessity so require, the City Council may, acting pursuant to this Chapter, by resolution or resolutions, establish improvement districts, levy assessments therein, issue bonds or other evidences of indebtedness, and take any and all other actions authorized hereby to provide funds to finance the acquisition, construction, establishment, improvement, installation, or renovation of any improvements of benefit to the improvement districts so established.

B. Necessary Procedures. A copy of the order of the legislative body determining the assessments remaining unpaid and upon the security of which bonds are issued shall be filed in the office of the county auditor. The county auditor shall keep a record in his or her office showing the several installments of principal and interest on the assessments which are to be collected in each year during the term of the bonds. The county auditor shall annually enter in his or her assessment roll on which taxes will next become due, opposite each lot or parcel of land affected in a space marked "seismic improvement assessment," or by other suitable designation, the several installments of the assessment coming due during the fiscal year covered by the assessment roll, including in each case the interest due on the total unpaid assessments. The county auditor shall also add a maximum of 5 percent of the amount of the installments and of the interest so entered, not to exceed the City treasurer's estimate of the expenses of collection. The expenses of collection shall include necessary administrative expenses of the City incurred in providing the county auditor with current information regarding the ownership or division of the affected lots or parcels of land to ensure the proper entry by the county auditor in his or her assessment roll of the several installments of the assessment coming due during the fiscal year covered by the assessment roll and the timely collection of the installments. The percentages, and the amount represented by the installments, when collected shall belong to the City and shall cover the expenses and compensation of the City treasurer incurred in the collection of the assessments, and of the interest and penalties added on to the assessments. Unless the legislative body shall by resolution adopt an alternative procedure, if a deficiency occurs in the redemption fund with which to pay past due bonds, past due interest, or bonds or interest which will become due during the current tax collecting year, but it does not appear to the treasurer that there will be an ultimate loss to the bondholders, he or she shall pay matured bonds as presented and make interest payments when due as long as there are available funds in the redemption fund, in the following order of priority:

1. All matured interest payments shall be made before the principal of any bonds is paid.
2. Interest on bonds of earlier maturity shall be paid before interest on bonds of later maturity.
3. Within a single maturity, interest on lower-numbered bonds shall be paid before interest on higher-numbered bonds.

4. The principal of bonds shall be paid in the order in which the bonds are presented for payment. Any bond which is presented but not paid shall be assigned a serial number according to the order of presentment and shall be returned to the bondholder. (Ord. 4735, 1991.)

4.65.090 Reference to Division.

Whenever reference is made in any of the statutes of the state incorporated herein to the issuance of bonds pursuant to a specified division of the California Streets and Highways Code, such reference shall also be deemed to include this Chapter in the issuance of bonds pursuant to the division referred to. (Ord. 4735, 1991.)

4.65.130 Inconsistent Provisions.

Any provisions of the Santa Barbara Municipal Code or appendices thereto or any other ordinances of the City inconsistent herewith shall not apply to proceedings or improvements hereunder.  (Ord. 4735, 1991.)

(Ord. 4834, 1993.)

4.70.020 Procedures for Establishing Local Community Facilities Districts.

The procedures for undertaking formation of a local community facilities district under this Chapter (except as otherwise expressly provided in this Chapter) shall be the procedures set forth in the Mello-Roos Community Facilities Act of 1982 (Chapter 2.5 of Part 1 of Division 2 of Title 5 of the California Government Code, beginning with §53311) and all other statutes of the State of California referred to therein or which refer to the Mello-Roos Community Facilities Act of 1982, as the same are in effect on the date of introduction of this Chapter and as such statutes may hereafter be amended; provided, that any provision of general law of the State of California amended, revised or deleted pursuant to Section 4.70.030 hereof shall only be further amended, revised or deleted by an amendment, a revision or a deletion to this Chapter made by the City Council. All of the provisions of said state statutes are incorporated in this Chapter by this reference and made a part hereof. References in the Mello-Roos Community Facilities Act of 1982 to "this chapter" shall, when the provisions of that Act are being used as incorporated in this Chapter of the Santa Barbara Municipal Code, be references to this Chapter of the Santa Barbara Municipal Code. (Ord. 4834, 1993.)

4.70.030 Mello-Roos Community Facilities Act of 1982 - Amendments and Deletions.

1. Section 53317(a) of the California Government Code is amended to provide that "Clerk" means the City Clerk of the City of Santa Barbara.

2. Section 53317(f) of the California Government Code is amended to provide that "Landowner" or "owner of land" may include, when votes are apportioned based on maximum special tax, pursuant to Section 53326 (a) or (b) and when the resolution of intention so indicates, a "business tenant."

3. Section 53317(g) of the California Government Code is amended to provide that "Legislative body" means the City Council of the City of Santa Barbara.

6. Section 53324 of the California Government Code is not incorporated in this Chapter, and shall not be applicable to proceedings conducted hereunder.

   b. when the legislative body so provides in the resolution of intention (§53321), the resolution of
      formation (§53325.1) and the resolution setting forth the proposed bonded indebtedness (if any, §53351), then in any

      responsible if the taxes were levied at the maximum initial rates proposed in the resolution of formation. In situations
      in which the rate and method of apportionment of the special tax provides that the maximum tax rates of the various
      parcels will change significantly in proportion to each other over time, the City Council may select the maximum tax
      rates from other than the initial year as the basis for the assignment of votes, in order to best approximate fairness in
      the sole judgment of the City Council.

4.70.040 Procedures for Conducting Landowner Elections for Local Community Facilities Districts.

A. Prior to the time the City Council calls an election under Govt. Code §53326(b), it shall have received a
   certification from an engineer, consultant, or member of City staff, based on information certified by the person to be
   correct or to be the best information reasonably available, setting forth the number of registered voters residing within
   the Local Community Facilities District as of any date within ninety days prior to the close of the public hearing.
B. Prior to the time the City Council calls an election under Govt. Code §53326(b) or (c), it shall have received
   a certification from an engineer, consultant, or member of City staff, based on information certified by the person to
   be correct or to be the best information reasonably available, setting forth the names and addresses of all owners of
   land within the Local Community Facilities District, the total number of acres owned by each such owner, and the
   number of votes each such owner is entitled to cast in accordance with this Chapter. The Council may make changes
   or corrections to the certification if it has or receives better or more current information than that on which the
   certification was based.
C. In calling an election pursuant to §53326(b) or (c), the City Council shall designate the qualified electors and
   the number of votes each is entitled to cast in accordance with the certification described in paragraph B hereof.
D. When an election is called pursuant to §53326(b) or (c), and it is proposed to issue bonds, the resolution
   setting forth the proposed bonded indebtedness (Govt. Code §53351) shall, in addition to the other requirements,
   specify a deadline for the receipt of ballot arguments by the elections official. Publication under Govt. Code §53352
   need be accomplished only once, but it must appear in the newspaper at least 10 days prior to the deadline specified.
   If no bonds are proposed, the resolution calling the election shall be published in place of the resolution setting forth
   the bonded indebtedness, and shall include the deadline.
E. The deadline for submittal of ballot arguments shall be publicly announced by the Mayor or Mayor Pro Tem
   at the time of the adoption of the resolution calling the election.
F. The general law governing ballot arguments for city elections shall govern the length of arguments, any
   limitations on their content, and the procedures for signatures and verification. There shall be no rebuttal arguments.
G. The City Attorney shall be responsible for preparing the impartial analysis. It shall be delivered to the
   elections official at least 5 days before the deadline for receipt of ballot arguments, and shall be immediately available
   for inspection by the public in the office of the elections official.
H. If the election is to be conducted by mailed-ballot, and if the City Clerk is appointed as the elections official,
   the ballots, ballot pamphlets, and ballot and return envelopes may be prepared by photocopy or similar process, and
   no special paper or format is required.
I. In an election pursuant to §53326(b) or (c), each ballot may be cast only by a single individual. Where property is in the sole ownership of a single individual, that owner may cast the ballot for that property. In all other cases, a written appointment of an individual (or any one of a group of named individuals) to cast the ballot in respect of property, as described in paragraph J or K, below, shall be required. Each ballot shall contain a declaration under penalty of perjury under the laws of the State of California that the person executing the ballot is the sole owner of the property to which the votes are assigned, or has been duly appointed to cast the ballot. A ballot will not be counted if this declaration is not properly completed.

J. Where property is in the sole ownership of an individual, that owner may, and all other property owners must, by executing an appointment form approved in advance by the City Council, appoint an individual (or any one of a group of named individuals) to cast the ballot appertaining to their property. The appointment form shall contain a declaration, under penalty of perjury under the laws of the State of California, that the person(s) executing the appointment form is (are) the owner(s) of the property, or is (are) otherwise authorized to act in the premises, which authority must be described on the appointment form as part of the declaration under penalty of perjury. To be effective, the appointment form must be delivered to the elections official prior to or at the time of the delivery of the ballot.

K. Where the property is owned by a corporation, the appointment form may be executed by an authorized officer, or a certified corporate resolution specially making the appointment may substitute for the appointment form. Where the property is owned by a general partnership, any general partner may execute the appointment form. A limited partnership may act by its general partner. A trust may act by a trustee or trustees so authorized under the trust indenture. Where property is owned by more than one person or entity, one owner may, if authorized by the other owners, act for all in executing the appointment form. Otherwise, one owner may execute the appointment form for all of the owners in the absence of objection to the elections official before the closing of the election from any other owner. In that event, the description of authority under penalty of perjury must include the statement that the person executing the appointment form has contacted all of the other owners of the property (or made reasonable efforts to do so in which case those efforts shall be described as part of the declaration under penalty of perjury), and none of the other owners expressed any objection to the execution, by the declarant, of the appointment form.

L. In the event of objections from or disagreements between joint-owners of property, the elections official may cancel the ballot issued and issue new ballots in its stead, dividing the total number of votes from the original ballot as nearly as possible in accordance with the sizes of the various ownership interest represented by the joint-owners (except that in the absence of information provided by the owners or otherwise available to the elections official to enable this determination to be made, the elections official may conclusively presume that all ownership interests are equal).

M. If a ballot, as cast, shows an "X", check, or other mark in the space designated for a "YES" or "NO" vote, and nothing more, all of the votes eligible to be cast by that ballot shall be cast in accordance with the "X", check or mark. Upon application for the issuance of an initial tax certificate, in all cases where the amount of tax to be paid is measured by applying a specified rate or amount to:

2. Number and/or type of vehicles used; or
3. Lineal feet of billboard; or
4. Number of coin-operated machines; or
5. Number of employees and/or agents; or

Such estimate, if accepted as reasonable, shall be used by the Tax and Permit Inspector in determining the amount of tax to be paid by such applicant during such twelve (12) month period; provided, however, that the amount of tax so determined shall be tentative only and such applicant shall, within twenty-eight (28) days after the expiration of the twelve (12) month period for which such estimate was made and taxes paid, submit to the Tax and Permit Inspector a certified or sworn statement upon a form furnished by the Tax and Permit Inspector, containing the actual gross income, number and/or type of vehicles, lineal feet of billboards, number of coin-operated machines, number of employees and/or agents, or increments of building values on building permits, or number of real estate transactions, as is appropriate, applicable to such person's business during the preceding twelve (12) month period. The taxes based upon such actual data shall be then finally ascertained and, if greater than amounts actually paid, the applicant shall pay the difference between the two (2) amounts. If such finally ascertained tax amount be less than taxes actually paid, such excess shall be credited against the tax required to be paid for the next year; or, if such excess shall be refunded to the payee upon his filing a claim therefor in the Finance Office within one (1) year from the expiration of the twelve (12) month period for which the taxes were paid. The Tax and Permit Inspector shall not issue to any such person another receipt for payment for the same or any other business until such person shall have furnished to him the written statement and paid the tax as required. (Ord. 3951, 1978; Ord. 2983 §3(part), 1964; Ord. 2930 §11(a), 1963.)

5.04.250 Fixed Sum Tax - Renewal.

(Ord. 2983 §4(part), 1964; Ord. 2930 §12(a), 1963.)

5.04.260 Variable Sum Tax - Renewal.

Any person required to pay an annual tax which is measured by applying a specified rate or amount to a variable factor, shall submit an application for renewal of such receipt of tax payment within twenty-eight (28) days following the expiration of the period for which such tax has been paid. The application for renewal shall be upon a form to be provided by the Tax and Permit Inspector, certified under penalties of perjury to be true and correct, setting forth such information concerning the applicant's business during the preceding year as may be required by the Tax and Permit Inspector to enable him to ascertain the amount of tax to be paid by such applicant for the renewal period. (Ord. 2983 §4(part), 1964; Ord. 2930 §12(b), 1963.)
5.04.270 Corrected Application and Statements.

The Tax and Permit Inspector may require a corrected statement or a corrected application to be filed for any period for which payment of a tax was made at any time within three (3) years from the expiration of such tax period in order to explain an unreasonable inconsistency between reported facts and facts gleaned from other sources. (Ord. 3951, 1978; Ord. 2983 §4(part), 1964; Ord. 2930 §12(c), 1963.)

5.04.280 Information Confidential - Disclosure.

Any willful and unwarranted disclosure or use of such confidential information by any officer or employee of the City shall constitute a misdemeanor. (Ord. 2983 §5, 1964; Ord. 2930 §13, 1963.)

5.04.290 Failure to File Application - Tax and Permit Inspector's Powers to Determine.

If any person fails to file any required application or statement within the time prescribed, or if after demand made by the Tax and Permit Inspector he fails to file a corrected statement or a corrected application, the Tax and Permit Inspector may determine the amount of tax due from such person by means of such information as he may be able to obtain, adding any accrued penalties computed with respect to the determined tax amount. (Ord. 2983 §6(part), 1964; Ord. 2930 §14(a), 1963.)

5.04.300 Tax and Permit Inspector - Notice of Tax Determination and Penalties.

In case such a determination is made, the Tax and Permit Inspector shall give notice of tax determination, together with accrued penalties, by serving such notice personally upon the person liable for payment, or by depositing it in the United States Post Office at Santa Barbara, or a mail box, sub-post office, substation or mail chute, or other like facility regularly maintained by the Government of the United States, in a sealed envelope, postage prepaid, addressed to such person at his last known address. Service by mail is complete at the date of deposit, except that one (1) additional day within which such person may respond to such notice as required shall be allowed for every full one hundred (100) miles distance between the place of deposit and the place of address. (Ord. 2983 §6(part), 1964; Ord. 2930 §14(b), 1963.)

5.04.310 Failure to Pay Determined Amount - Hearing - Notice.

Within ten (10) days after service of the notice of tax determination, the person served may pay the determined tax amount, together with accrued penalties. If such person does not pay the determined amount, together with accrued penalties, on or before the expiration of such tax (10) day period, the Tax and Permit Inspector must cause the matter to be set for hearing before the City Council within twenty-one (21) days. Notice of hearing shall be served by the Tax and Permit Inspector upon such person at least ten (10) days prior to the date set for such hearing in the manner prescribed above for service of notice of tax determination. It is the purpose of this chapter to reduce the quantity of emissions from commercial and fleet vehicles by providing a reduction in business tax to owners of such vehicles to encourage conversion to a gaseous fuel system emitting low levels of pollutant. Such reduction in tax shall commence with the original payment or repayment of a business tax following the effective date of this ordinance and upon such application being made. (Ord. 3588, 1973.)

5.06.040 Computation of Tax Reduction.

Business tax reduction pursuant to this chapter shall be computed at fifty percent (50%) of the vehicle day schedules set forth in Sections 5.04.480 and 5.04.490 of this Code. Such reduction, however, shall not be limited to individuals operating businesses of trucking, hauling or transporting persons for hire, but shall for the purpose of this chapter apply to all those who have paid business taxes. Notwithstanding the above, it is hereby provided:
(a) That no reduction pursuant to this chapter shall exceed an amount equal to fifty percent (50%) of the total business tax due before reduction, and
(b) That no reduction shall exceed the sum of fifty dollars ($50.00) on account of any one (1) motor vehicle during the total period of years during which said motor vehicle is operated. (Ord. 3588, 1973.)

5.06.050 Form of Application.

For the purposes of this chapter, a conversion must at least meet the standards set forth in California State Revenue & Taxation Code Section 8657. (Ord. 3588, 1973.)

5.06.080 Automatic Repeal of Chapter.

This chapter shall terminate, and shall have no further force or effect five (5) years from the date of its adoption unless extended prior to the expiration of said period; provided that, reduction in business tax first allowed prior to the expiration of said period shall continue beyond said period until the maximum reduction of fifty dollars ($50.00) is obtained for any one (1) motor vehicle. (Ord. 3588, 1973.)

5.06.090 Effect of Transfer of Motor Vehicle.

If a converted motor vehicle is transferred from one (1) business tax payee to another, the transferee shall receive, in the manner prescribed above, the balance, if any, of the reduction of business tax up to the maximum of fifty dollars ($50.00) allowed for one (1) motor vehicle. 2. The applicant or any person designated by the applicant to exercise on-site managerial control over the nightclub has been convicted of a crime which is substantially related to the qualifications, functions, or required duties of a permittee, within the past five years.

3. 4. The building within which the nightclub will be located is inappropriate or unworkable for its intended nightclub use because it will be inadequate for some or all of the following reasons: a. it will not provide adequate noise control necessary to restrict the noise of the dance club to within the structure; or b. it lacks the appropriate and necessary ingress and egress for entering or exiting the structure in terms of its occupany limitations and the applicable fire code requirements.

5. The proposed plan for maintaining security at the nightclub is inadequate. (Ord. 5445, 2008.)

(Ord. 5445, 2008.)

5.20.110 Renewal of Dance Permits.

D. REFERRAL OF RENEWAL APPLICATION TO BOARD. Notwithstanding the above, the Police Chief may refer a decision on the renewal or non-renewal of a Nightclub Dance Permit to the Board of Fire and Police Commissioners for a hearing and decision on renewal application in the first instance and in a manner consistent with the requirements for an original Nightclub Dance Permit application. (Ord. 5445, 2008.)

5.20.150 Suspension or Revocation of a Dance Permit.

A. SUSPENSION OF PERMIT BY POLICE CHIEF. The Police Chief may act to temporarily suspend any dance permit issued pursuant to this Chapter when, in the Chief’s determination, a person holding a permit has violated any condition imposed on the issuance of the permit, or where the operation of the dance establishment has occurred in a way that constitutes an ongoing public nuisance.

A suspension shall be valid for a period not to exceed sixty (60) days from the date of the suspension unless, in the case of a Nightclub permit, a suspension is appealed by the permittee to the Board of Fire and Police Commissioners pursuant to this section, or the permittee has received a notice of revocation during the sixty (60) day suspension period, in which case the suspension shall be until the Board completes a revocation hearing and issues a written decision on revocation if such a hearing is requested by the permittee in a timely fashion.

B. REVOCATION OF A DANCE PERMIT. The Police Chief may, at the Chief’s discretion, issue a written notice of intent to revoke a dance permit to a dance permittee. Such an intent to revoke shall be based only upon the Chief’s receipt of information that one of the grounds for revocation listed herein has occurred. A notice of revocation shall be effective not less than ten (10) days after the issuance of a notice of intent to revoke.

C. APPEAL OF A SUSPENSION/REVOCATION DETERMINATION. A permittee who has received a notice of intent to suspend or a notice of intent to revoke a dance permit may appeal the proposed suspension or revocation to the Board of Fire and Police Commissioners by filing a written notice of appeal with the Chief of Police within 10 days of the date of the mailing of the notice of revocation or of the notice of suspension.

D. SUSPENSION/REVOCATION APPEAL HEARING. An appeal of the proposed suspension or revocation of a dance permit shall be conducted by the Board in accordance with the requirements of SBMC Chapter 1.30.

5. That the Permittee has repeatedly failed to comply with the permit conditions imposed pursuant to this Chapter; or
6. That the Permittee has substantially altered or changed the approved interior site plan floor configuration or the security plan.

F. APPEAL OF REVOCATION OF NIGHTCLUB PERMIT; REQUIREMENT FOR PRIOR MEDIATION.

2. Required Participation In Mediation. No such Nightclub Permit appeal shall be heard by the City Council unless, prior to the Council appeal hearing date, the appellant (where the appellant is not the dance permittee) shall have offered to participate in a private mediation process with the permittee in order to determine if the appellant’s concerns with the permit application (or its operation) can be appropriately addressed by mutual agreement entered into by mediation, and such mediation has been completed. Such a mediation shall take the form described in Municipal Code Section 22.76.070 of this Code and the regulations adopted pursuant to this Chapter. The written recommendation of the mediator shall be forwarded to the City Council in connection with any Council appeal hearing. (Ord. 5445, 2008.)

C. **GRANTS NOT REQUIRED.** Consistent with applicable state and federal law, no provision of this Chapter requires the granting of a Franchise when, in the opinion of the Grantor, it is in the public interest not to do so.

D. **PURPOSE.** The purpose of a Franchise is to identify and authorize the operation of a Cable Communications System by a specific Grantee, and to identify and specify those terms, conditions, definitions, itemizations, specifications and other particulars of the agreement between the Grantor and Grantee. In so doing, a Franchise may clarify, extend, and interpret the provisions of this Chapter. Where a Franchise and this Chapter conflict, both shall be liberally interpreted to achieve a common meaning or requirement. In the event this is not possible within reasonable limits, the Franchise (together with the provisions of the authorizing ordinance) shall prevail. Unless otherwise specifically stated, no provision of this Chapter shall be deemed to be contractually incorporated into any Franchise granted hereunder.

E. **COMPLIANCE WITH LAW.** Neither this Chapter nor a Franchise granted under it relieves Grantee of any requirement of Grantor, or of any ordinance, rule, regulation, or specification of Grantor now or hereafter in effect pursuant to Grantor's police power, including, but not limited to, the obtaining of a business license, and the payment of all permit and inspection fees required from time to time by the Grantor.

F. **FRANCHISE NON-EXCLUSIVE.** Grantor may, at its option, grant one or more Franchises to construct, operate, maintain, and reconstruct a System. Said Franchises shall constitute both a privilege and an obligation to provide the System and Services required by this Chapter and the Franchise.

H. **USE OF PUBLIC STREETS AND RIGHTS-OF-WAY.** For the purposes of operating and maintaining a System in the franchised Service Area, a Grantee may place and maintain within the public rights-of-way such property and equipment as are necessary and appurtenant to the operation of the Cable Communications System. Prior to construction or alteration of the Plant in public rights of way, the Grantee shall apply for, pay all applicable fees, and receive all necessary permits.

I. **USE OF OTHER UTILITIES.** Any Person who provides a System or Services as defined herein shall be deemed a Grantee and must obtain a Franchise. If such Grantee uses distribution channels furnished by any telephone company, other public utility, or any other entity which are functionally equivalent to those used by a Cable Operator, said Grantee shall be required to comply with all of the provisions of this Chapter.

J. **ASSIGNMENT, TRANSFER OR SALE OF FRANCHISE.** There shall be no assignment of a Franchise, in whole or in part, or any change in Control of the Grantee without the prior express written approval of the Grantor. 1. **Prior Written Request.** At least one hundred twenty (120) days before a proposed assignment or change in Control of the Franchise is scheduled to become effective, the Grantee shall request in writing the Grantor's written consent. The Grantee shall submit to the Grantor a written application in a form specified by relevant federal or state law, or, in the absence of such specification, in a format specified by the Grantor together with:
   a. any other information or documentation required by the State or Federal government (including the FCC);
   b. the declaration required by subsection J(5) below;
   c. unedited and unredacted copies of the sale or transfer documents with all schedules and exhibits thereto; and
   d. information regarding the financial ability and stability of the proposed assignee with respect to being able to perform all obligations of the existing Franchise.

2. **Standard of Reasonableness.** The Grantor shall not unreasonably withhold its consent to such an assignment or change in control. However, in evaluating the request for assignment, transfer, sale, or change in Control, the Grantor may, in its sole discretion and among other things, undertake a technical inspection and audit of the System to determine whether the System complies with all applicable technical and safety codes, and with this Chapter and the Franchise.

3. **Lack of Compliance.** If the Grantor determines (as a result of the technical inspection and audit) that the System does not comply with federal, state, or local standards, then the Grantee shall be provided with an opportunity to correct or cure the non-compliance. In the alternative, the Grantor may work with both the current and proposed Grantee to cure the non-compliance.
4. **Review of Operational Reports.** If the Grantee has not previously supplied the Grantor with certain operational reports and data, then the Grantee shall submit to the Grantor the following reports at the time it submits the report required pursuant to subsection 5.62.020(J)(1) above:

   c. Subscriber logs in the format referenced in Section 5.62.040(E) of this Chapter.

5. **Written Acknowledgment of Franchise.** Before an assignment or change in Control is approved by the Grantor, the proposed assignee, transferee, or buyer shall execute a declaration acknowledging that it has read, understood, and will abide by both this Chapter and the applicable Franchise.

6. **Assumption of Franchise Obligations.** In the event of any approved assignment or change in Control, the assignee or transferee shall assume all obligations and liabilities of the former Grantee relating to the Franchise unless specifically relieved by the Grantor at the time the assignment or change in Control is approved.

7. **Disapproval.** If the Grantor disapproves a request for consent, then the Grantee may submit another request or an amended request for consent. In such a situation, the one hundred twenty (120) day time-frame begins to run anew.

8. **Reimbursement of Processing and Review Costs for Transfers and Renewals.** To the extent not prohibited by applicable law, Grantee shall reimburse Grantor for Grantor's reasonable processing and review expenses in connection with a transfer of the Franchise or a change in Control of the Franchise, including without limitation, costs of administrative review, financial, legal and technical evaluation of the proposed transferee, costs of consultants (including technical and legal experts), notice and publication costs, and document preparation expenses. In addition, prior to any transfer or change in Control, Grantee shall reimburse Grantor for all of Grantor's expenses in connection with evaluating or negotiating a renewal of Grantee's franchise, whether or not said renewal was ever finalized or granted. Grantor may send Grantee an itemized description of all such charges, and Grantee shall pay such amount within twenty (20) days after the receipt of such description. Any such reimbursement shall not be charged against any franchise fee due to the Grantor during the term of the franchise.

9. **Violation.** If the Grantee violates any provision of subsection J of this Section 5.62.020, the Franchise shall automatically terminate. The procedures contained in Section 5.62.100 shall not apply to an unlawful transfer or change in Control, and the Franchise shall automatically terminate upon the occurrence of such a violation. (Ord. 5004, 1997.)

**5.62.030 Rights Reserved to the Grantor.**

A. **RESERVATION OF RIGHTS.** Grantor reserves every right it may have in relation to its power of eminent domain over Grantee's Franchise and property.

B. **NON-WAIVER.** Neither the granting of any Franchise, nor any provisions of this Chapter, shall constitute or be construed as a waiver or bar to the exercise of any governmental right or power by Grantor.

C. **DELEGATION OF POWERS.** Any right or power in, or duty retained by or imposed upon Grantor, or any commission, officer, employee, department, or board of Grantor, may be delegated by Grantor to any officer, employee, department or board of Grantor, or to such other person or entity as Grantor may designate to act on its behalf.

D. **RIGHT TO INSPECT CONSTRUCTION.** The Grantor shall have the right to inspect all construction, installation, or other physical work performed by Grantee in connection with the Franchise, and to make such tests as may be necessary to ensure compliance with the terms of this Chapter and the Franchise, so long as said inspection and testing does not unreasonably interfere with Grantee's operations.

E. **RIGHT TO REQUIRE REMOVAL OF PROPERTY.** Consistent with applicable law, at the expiration of the term or any renewal term or extension for which the Franchise is granted, or upon its lawful revocation, expiration, or termination, the Grantor shall have the right to require the Grantee to remove, at Grantee's expense, all portions of its System and any other property from all streets and public rights-of-way within the Franchise service area within a reasonable period of time.

F. **RIGHT OF INTERVENTION.** The Grantor shall have the right of intervention in any suit, proceeding or other judicial or administrative proceeding in which the Grantor has any material interest, and to which the Grantee is party.

G. **PLACE OF INSPECTION.** The Grantor shall have the right to inspect Grantee's local premises, and to request copies of all relevant information that is reasonably necessary for the exercise of Grantor's regulatory authority, upon reasonable notice at any time during normal business hours. Any Grantee records kept at another place shall, within ten (10) days of Grantor's request, be made available at Grantee's local premises within the County of Santa Barbara for Grantor's inspection and copying. All reports and records required pursuant to this Chapter shall be furnished at the sole expense of Grantee, except as otherwise provided in this Chapter or the Franchise. (Ord. 5004, 1997.)
A. **DISCRIMINATORY PRACTICES PROHIBITED.** The Grantee shall not deny Cable Service or otherwise discriminate against Subscribers or others on the basis of race, color, religion, national origin, sex, age, handicap, or other protected classes. The Grantee shall strictly adhere to the equal employment opportunity requirements of federal, state, or local governments and shall comply with all applicable laws and executive and administrative orders relating to non-discrimination.

B. **TAPPING AND MONITORING.** The Grantee shall not tap or monitor, or permit any other person controlled by Grantee to tap or monitor, any cable, line, signal input device or subscriber outlet or receiver, for any purpose whatsoever without the express written consent of the Subscriber or a court order therefor; provided, however, that the Grantee may monitor customer service calls for quality control purposes and may conduct system-wide or individually addressed "sweeps" for the purpose of verifying system integrity, controlling return path transmission, or checking for unauthorized connections to the Cable Television System, service levels, or billing-for-pay services.

C. **DATA COLLECTION.**
   1. **Confidentiality of Customer Preferences.** Except for its own use, or in connection with the provision of Cable Services or for release of data to the Grantor, the Grantee shall not permit its system to be used for data collection purposes, nor shall it otherwise collect data which would reveal the commercial product or other preferences or opinions of an individual Subscriber, members of their families, or their guests, licensees or employees, unless the Grantee shall have received the prior written consent of such Subscriber.
   2. **Release of Aggregate Data Only.** In any event, the Grantee shall not disclose or permit the release or sale of data on individual Subscribers or groups thereof, but may disclose or permit the release or sale of aggregate data only.

D. **DISCLOSURE OF SUBSCRIBER PREFERENCES.**
   1. Grantee shall not disclose individual Subscriber preferences, viewing habits, beliefs, philosophy, creeds, or religious beliefs to any third person, firm, agency, governmental unit, or investigating agency without court authority or the prior written consent of the Subscriber.
   2. Such written consent, if given, shall be limited to a period of time not to exceed one year, or a term agreed upon by the Grantee and the Subscriber.
   3. The Grantee shall not condition the delivery or receipt of Cable Services to any Subscriber on any such consent.
   4. A Subscriber may revoke, without penalty or cost, any consent previously given by delivering to the Grantee in writing a statement of the Subscriber's intent to so revoke.

E. **DISCLOSURE OF SUBSCRIBER LISTS.** The Grantee shall not disclose, or sell, or permit the disclosure or sale of its subscriber list without the prior written consent of each Subscriber on such list; however, Grantee may use its subscriber list as necessary for the construction, marketing, and maintenance of the Grantee's services and facilities authorized by a Franchise, and the billing of Subscribers for Cable Services and Grantor may use Grantee's subscriber list for the purpose of communication with Subscribers in connection with matters relating to the operation, management, and maintenance of the Cable System.

F. **OTHER PERSONS AFFECTED.** The prohibitions contained in paragraphs A through E, inclusive, of this Section apply to Grantee, as well as to all of the following:
   1. Officers, directors, employees, agents and General and Limited Partners of the Grantee;
   2. Any person or combination of persons owning, holding, or controlling twenty percent (20%) or more of any corporate stock or other ownership interests in the Grantee;
   3. Any affiliated or subsidiary entity owned or controlled by Grantee, or in which any officer, director, stockholder, general, or limited partner, or person or group of persons owning, holding or controlling any ownership interest in the Grantee, shall own, hold or control twenty percent (20%) or more of any corporate stock or other ownership interests; and
   4. Any person, firm, or corporation acting or serving in the capacity of a holding or controlling company of the Grantee.

G. **SUBSCRIBER NOTICE OF RIGHTS.** Grantee shall provide to all Subscribers, at the time of initial connection and annually thereafter, a notice describing, in understandable language, the Subscriber's rights and obligations that are generally provided under the Franchise and federal law, including a description of how to contact the Grantee and, if necessary, the Grantor, in the event of an unresolved Subscriber complaint.

H. **NOTICE TO NEW SUBSCRIBERS.** Before providing Cable Service to any Subscriber, Grantee shall provide a written notice to the Subscriber containing substantially the following information:

   "Subscriber understands that Company uses public rights-of-way and other facilities of the City of Santa Barbara in providing service and that this continued use cannot be guaranteed. Subscriber agrees not to make any claims against the City of Santa Barbara or its officers or employees in the event that such use is denied for any reason, and Company is unable, in its discretion, to provide service over alternate routes."

I. **COMPLAINT ADVICE.** Grantor may require Grantee to advise its Subscribers that complaints of poor service should be made to Grantor's representative if such complaints are not resolved by Grantee to the satisfaction of a Subscriber. (Ord. 5004, 1997.)
5.62.050 Finance.

A. PAYMENTS TO THE GRANTOR.

1. Franchise Fee. As compensation for any Franchise to be granted, and in consideration of permission to use the Grantor's streets and public rights-of-way for the construction, operation, maintenance, and reconstruction of a System, the Grantee shall pay to the Grantor the amounts specified in the Franchise.

2. Monthly Payments and Reports. Payments due the Grantor shall be computed on a monthly basis and shall be paid to Grantor within fifteen (15) days after the close of each month. The payment shall be accompanied by a report showing the basis for the computation and such other relevant facts as may be required by the Grantor to determine the accuracy of the payment. A final annual reconciliation, and payment if any, shall be delivered to Grantor by Grantor within ninety (90) days after the end of each calendar year.

3. Late Payments and Reports. If any franchise payment or recomputed amount is not made on or before the dates specified above in subsection 2, Grantee shall pay as additional compensation the greater of the following:
   a. An interest charge, computed from the applicable due date, at an annual rate equal to the prevailing commercial prime interest rate in effect upon the due date, plus one percent (1%).
   b. A sum of money equal to ten percent (10%) of the overdue amount for each month, or part thereof, of delay, which sum shall also bear interest from the due date at an annual rate equal to the prevailing commercial prime interest rate in effect upon the due date, plus one percent (1%).

4. Late Penalty. In addition to any late payment made pursuant to subsection 3 above, if a payment is late by sixty days or more, Grantee shall pay a sum of money equal to five percent (5%) of the amount due in order to defray additional expenses and costs incurred by Grantor as a result of such delinquent payment.

5. No Release. No acceptance of any payment shall be construed as a release of, or an accord, or satisfaction of, any claim that the Grantor might have for further or additional sums payable under the terms of this Chapter, or for any other performance by Grantee of an obligation hereunder.

6. Not Taxes, Fees, or Assessments. Payments of compensation made by a Grantee to the Grantor pursuant to the provisions of this Chapter are in addition to, and exclusive of, any and all authorized taxes, business license fees, and other fees, levies, or assessments now in effect, or subsequently adopted.

B. SECURITY FUND.

1. Cash Security. Within thirty (30) days after the effective date of the Franchise, the Grantee shall deposit into a bank account established by the Grantee, for the benefit of Grantor, and shall maintain on deposit through the term of the Franchise, a sum specified in the Franchise as security for the faithful performance by Grantee of all of the provisions of the Franchise, and compliance with this Chapter and with all orders, permits and directions of the Grantor, or any designated representative of the Grantor having jurisdiction over Grantee's acts or defaults under the Franchise or this Chapter, and as security for the payment by the Grantee of any claims, fees, liens, or taxes due the Grantor which arise by reason of the construction, operation or maintenance of the System pursuant to the Franchise or this Chapter, and to satisfy any actual or liquidated damages arising out of a Franchise breach.

2. Use of Security Deposit. Except as otherwise provided in the Franchise, if the Grantee fails, after twenty (20) days written notice, to pay to the Grantor any fees that are due and unpaid, or fails to repay within such twenty (20) days, any damages, costs or expenses which the Grantor is compelled to pay by reason of any act or default of the Grantee in connection with its Franchise; or if Grantee fails to comply with any provision of the Franchise or this Chapter and the Grantor determines that such failure was without just cause and, in a manner consistent with the procedures specified in Section 5.62.130 of this Chapter, Grantor reasonably determines it can be remedied by a withdrawal from the security fund or is nevertheless subject to liquidated damages, then, in any such event, the Grantor may immediately withdraw the amount thereof from the security fund, with interest and any liquidated damages. Upon such withdrawal, the Grantor shall notify the Grantee of the amount and the date of withdrawal.

3. Restoration of Security. Within thirty (30) days after notice to Grantee that any amount has been withdrawn by Grantor from the security fund, the Grantee shall deposit a sum of money sufficient to restore such security fund to the original amount.

4. Release of Security. Grantee shall be entitled to the return of the security fund, or portion thereof, with interest, that remains on deposit at the expiration or termination of the Franchise, once all amounts due to the Grantor have been paid. Grantee shall also retain its right to challenge any withdrawal from such security fund.

5. Rights not Exclusive. The rights reserved to the Grantor with respect to the security fund are in addition to all other rights of the Grantor, and no action, proceeding or exercise of a right with respect to such security fund shall affect any other right the Grantor may have.

C. FAITHFUL PERFORMANCE BOND. Within thirty (30) days after the effective date of the Franchise, the Grantee shall furnish proof of the posting of a faithful performance bond in favor of the Grantor, with corporate surety approved by the Grantor (which approval shall not be unreasonably withheld) in the sum specified in the Franchise and conditioned that the Grantee shall well and truly observe, fulfill, and perform each term and condition of the Franchise; provided, however, that such bond shall not be required after certification by Grantor of the completion of construction of Grantee's Cable System. The corporate surety must be authorized to issue such bonds in the State of California, and the bond must be obtained and secured through an authorized agent within the state of California only. During the course of construction, the amount of the bond may from time to time be reduced, as provided in the Franchise. Written evidence of payment of premiums shall be filed with the Grantor.
D. LETTER OF CREDIT.

1. Bank Letter of Credit. At the option of the Grantor, the Grantee may be authorized, in lieu of creating a Security Fund or obtaining a Faithful Performance Bond, to post an irrevocable letter of credit, issued by a bank approved by the Grantor, in the amount specified in the Franchise. Said letter of credit shall incorporate wording approved by the Grantor enabling it to draw from time to time such funds as the Grantor may determine to be necessary to satisfy any material defaults of Grantee or to make any payments due Grantor under or in connection with this Chapter or Grantee's Franchise, upon ten (10) days written notice to the issuer of the letter of credit. Said letter of credit shall further provide for sixty (60) days written notice by certified mail from its issuer to Grantor of any pending expiration or cancellation, and said notice shall without further cause constitute reason for the Grantor to draw the full sum to be held in its own accounts until such letter of credit is re-established in a form satisfactory to Grantor.

2. Letter of Credit Fees. If Grantor requires such a letter of credit, Grantee shall pay all fees or other charges required to keep it in force and shall, within thirty (30) days of any draw by Grantor, restore its face value to the original amount.

3. Applicability of Prior Security Provisions. All provisions herein applicable to bonds or security funds shall also apply to letters of credit. (Ord. 5004, 1997.)

5.62.060 Services.

A. SERVICES TO BE PROVIDED. A Cable System shall provide, as a minimum, the broad programming categories specified in the Franchise.

B. CHANGES IN SERVICES. Grantee shall inform Grantor and its Subscribers at least thirty (30) days in advance of making any change in a Cable Service, or in the rates charged therefor, unless Grantor agrees to waive this requirement in writing.

C. NON-DISCRIMINATION. Grantee shall not discriminate between or among Subscribers within one type or class in the availability of services, at either standard or differential rates according to published rate schedules, except as otherwise authorized by law.

D. PREPAYMENT. Grantee may not charge Subscribers for services more than one (1) month in advance unless an individual Subscriber requests a longer period. Bills may be due and payable upon mailing but shall not be delinquent, and no late charge penalties shall be assessed, until the later of: (i) twenty-two (22) days from postmark; or (ii) service has actually been provided for the billed period. All bills and billing statements shall clearly indicate the billing period, the actual due date, and the delinquent or late payment or assessment.

E. DISCONNECT FOR CAUSE. Grantee may disconnect a Subscriber only for cause, which shall include, without limitation, the following:

1. Payment delinquency in excess of forty-five (45) days after the delinquent bill was mailed to the Subscriber.
2. Willful or negligent damage to or misappropriation of Grantee's property.
3. Monitoring, tapping, or tampering with Grantee's system, signals, or service.
4. Threats of violence to Grantee's employees or property.

F. RECONNECTION. Grantee shall, upon Subscriber's written request, reconnect service which has been disconnected for payment delinquency when payment has removed the delinquency. If authorized by applicable law, a published standard charge may be made for reconnection. Grantee shall not be required to make more than three (3) reconnections for the same subscriber if the disconnections involved were caused by payment delinquency within any previous twenty-four (24) month period. Reconnection for disconnects covered by subsection E(2), E(3), or E(4) above shall be at Grantee's sole discretion.

G. INSTALLATIONS.

1. Service within Franchise Service Area. Grantee shall promptly provide and maintain service to the residential, commercial, and industrial structures as specified in the Franchise Service Area, as defined in the Franchise, upon request of the lawful occupant or owner.

2. New Drops. In the case of a new drop, Grantee shall advise each Subscriber that the Subscriber has the right to require that installation be done over any route on the Subscriber's property, and in any manner the Subscriber may elect which is technically feasible and consistent with proper construction practices. If the Subscriber requests installation other than a standard installation, then the Subscriber may be required to pay a reasonable fee for the time and materials occasioned by that installation.

3. Standard Installation. For purposes of this paragraph, a standard installation shall include installation of drop cable with fittings up to one hundred and fifty feet (150) feet from the CATV distribution system measured along the cable from the center line of the street or utility easement through the house wall or, at the Subscriber's option, through the floor from a house vent or crawl space directly to the Subscriber's television set with eight feet of cable from the wall or floor entry to the TV set. Also included as part of a standard installation is the grounding cable, fine tuning of the television set, and the provision by the Grantee of the appropriate literature and information.
4. **Time for Delivery of Service.** After Cable Service has been established by activating trunk or distribution cables for any area, Grantee shall provide Service to any person requesting Service in that area within seven days from the date of request, provided that the Grantee is able to secure all rights-of-way necessary to extend service to that potential Subscriber within that seven (7) day period on reasonable terms and conditions.

H. **NON-STANDARD INSTALLATIONS.** For each non standard drop installed, the Grantee may charge the subscriber for the cost of material and labor in excess of that for a standard drop. Grantee shall provide to each Subscriber a written estimate of all charges prior to installation and obtain Subscriber's written authorization in advance for all non-standard drop charges.

I. **CONVERTER/TERMINALS.** At such time as a converter or terminal is required for Subscribers to have access to all services on its System, Grantee shall make them available to Subscribers. Grantee may require each Sub-scriber who elects to install a converter or terminal to furnish a security deposit therefor.

1. **Property of Grantee.** Each converter or terminal device shall be and remain the property of the Grantee unless Grantor approves or requires its sale to the Subscriber. Grantee shall be responsible for maintenance and repair of all equipment owned by Grantee and may replace it as Grantee may from time-to-time elect, except that Subscriber shall be responsible for loss of or damage to any such device while in the Subscriber's possession.

2. **Return of Converter/Terminal.** Upon termination or cancellation of Sub-scriber's service, Subscriber shall promptly return Grantee's property to Grantee in the same condition as received, reasonable wear and tear excepted.

3. **Use of Security Deposit.** Grantee may apply the security deposit against any sum due from Subscriber for loss of or damage to such converter or terminal exceeding reasonable wear and tear. In the event that no security deposit has been required, the Grantee may charge the Subscriber for any such damage exceeding reasonable wear and tear.

4. **Return of Security Deposit.** If Grantee has no claim against the Subscriber's security deposit, Grantee shall return it, or the balance, to the Subscriber within twenty (20) days of return of the converter or terminal. (Ord. 5004, 1997.)

**5.62.070 Design and Construction.**

A. **SYSTEM CONSTRUCTION.** The System shall be constructed in accordance with the provisions of the Franchise.

B. **CONSTRUCTION COMPONENTS AND TECHNIQUES.** Construction components and techniques shall be in accordance with the Franchise and all applicable law.

C. **TECHNICAL AND PERFORMANCE STANDARDS.** Grantee shall construct, install, operate and maintain its System in a manner consistent with all applicable federal and state laws, and all applicable local ordinances, construction standards, construction specifications, governmental requirements, FCC technical standards, and any standards set forth in the Franchise.

D. **CONSTRUCTION CODES.** The Grantee shall strictly adhere to all building and zoning codes currently or hereafter in force and shall obtain all necessary permits. The Grantee shall arrange its lines, cables, and other appurtenances, on both public and private property, in such a manner as to cause no unreasonable interference with the use of said property by any person. In the event of such interference, the Grantee shall arrange the removal of the Grantee's lines, cables, and appurtenances from the property in question. Grantor shall give at least forty-eight (48) hours advance notice to all property owners and to the Grantee prior to installing any above-ground or underground structures upon easements located on private property. Grantee shall be a member of Underground Service Alert. Grantee shall not modify its construction requirements subsequent to the completion of construction so as to require reconstruction or retrofit unless the public health and safety so requires.

E. **SYSTEM CONSTRUCTION SCHEDULE.**

1. The Grantee shall begin to offer Cable Service and any other service authorized by the Franchise no later than the date specified in the Franchise.

2. The Grantee shall provide a detailed construction plan indicating progress schedule, area construction or reconstruction maps, test plan, and projected dates for offering service.

F. **GEOGRAPHICAL COVERAGE.** The Grantee shall construct the Cable System to service every Residential Dwelling Unit and other structures specified in the Franchise within the Franchise Service Area and any future annexations thereto (as defined and provided by the Franchise), with any exceptions requiring specific Grantor approval. Service shall be provided to Subscribers in accordance with the schedules specified in the Franchise. The route of separate cables serving institutional subscribers shall be as approved by Grantor and specified in the Franchise.

G. **CONSTRUCTION DEFAULT.** Upon the failure, refusal or neglect of Grantee to cause any construction, repair, or the terms of any building permit, or other necessary work to comply with the terms of the Franchise, thereby creating an adverse impact upon public safety, Grantor may (but shall not be required to) cause such work to be completed in whole or in part, and upon so doing shall submit to Grantee an itemized statement of costs. Grantee shall be given reasonable advance notice of Grantor's intent to exercise this power, and fifteen (15) days to cure the default. Grantee shall, within thirty (30) days of billing, pay to Grantor the actual costs incurred.
H. VACATION OR ABANDONMENT. In the event any street, alley, public highway, or portion thereof used by the Grantee shall be vacated by the Grantor, or the use thereof discontinued by the Grantee, upon reasonable notice the Grantee shall forthwith remove its facilities therefrom unless specifically permitted to continue the same. On the removal thereof Grantee shall restore, repair or reconstruct the area where such removal has occurred, to such condition as may be required by the Grantor, but not in excess of the original condition. In the event of any failure, neglect or refusal of the Grantee, after thirty (30) days' notice by the Grantor, to do such work, Grantor may cause it to be done, and Grantee shall, within thirty (30) days of billing, pay to Grantor the actual costs incurred.

I. ABANDONMENT IN PLACE. Grantor may, upon written application by Grantee, approve the abandonment of any property in place by Grantee, under such terms and conditions as Grantor may approve. Upon Grantor-approved abandonment of any property in place, Grantee shall cause to be executed, acknowledged, and delivered to Grantor such instruments as Grantor shall prescribe and approve, transferring and conveying the ownership of such property to Grantor.

J. REMOVAL OF SYSTEM FACILITIES. In the event that Grantee's plant is deactivated for a continuous period of thirty (30) days (except for reasons outside Grantee's control), without prior written notice to and approval by Grantor, then Grantee shall, at Grantor's option and demand, and at the sole expense of Grantee, promptly remove from any streets or other areas all property of Grantee. Grantee shall promptly restore the streets or other areas from which such property has been removed to its condition existing prior to Grantee's use thereof; provided that Grantor shall not be required to remove conduit from underground, where Grantor has determined no damage to the surface of any structures will result from such non--removal.

K. MOVEMENT OF FACILITIES. In the event it is necessary at Grantor's discretion, to temporarily move or remove any of the Grantee's property to accommodate construction activity or a project of the Grantor, Grantee, upon reasonable notice, shall move, at the expense of Grantee, its property as may be required to facilitate such public purpose. No such movement shall be deemed a taking of Grantee's property. Nothing herein shall limit the right of Grantee to seek reimbursement from any party other than Grantor.

L. UNDERGROUNDING OF CABLE. Cables shall be in-stalled underground at Grantee's cost where either electricity or telephone utilities are already underground pursuant to the Grantor's adopted undergrounding policy. Previously installed aerial cable shall be installed underground at Grantee's pro rata cost in concert with other utilities only when such other utilities convert from aerial to underground construction.

M. FACILITY AGREEMENTS. No Franchise shall relieve Grantee of any obligations involved in obtaining pole or conduit space from any department of Grantor, any utility company, or from others maintaining utilities in Grantor's streets.

N. EXTENSION OF FRANCHISE SERVICE AREA. If Grantor elects to grant one or more Franchises hereunder, and if thereafter one or more of the Franchises expires or is otherwise terminated, Grantor may, if it so elects, require a remaining Grantee, or more than one, to extend its System to provide service to the Franchise Service Area previously served under the terminated Franchise, unless Grantee demonstrates to Grantor's reasonable satisfaction that it is not commercially practicable to do so; provided, however, that Grantee shall not be required to over-build any existing system. The terms and requirements of such extension shall not exceed those contained in this Chapter or in Grantee's Franchise.

O. REPAIR OF STREETS AND PUBLIC WAYS. Any and all streets and public ways, and improvements located within such streets and public ways, disturbed or damaged by the Grantee or its contractors during the construction, operation, maintenance, or reconstruction of the System, shall be restored at Grantee's expense, and within the time frame and limits specified by Grantor, to their original condition unless otherwise authorized in writing by Grantor.

P. ERECTION OF POLES PROHIBITED. The Grantee shall not erect any pole on or along any street or public way where there is an existing aerial utility system. If additional poles in an existing aerial route are required, Grantee shall negotiate with the public utility for their installation. Any such installation shall require the advance written approval of the Grantor. Subject to applicable federal and state law, the Grantee shall negotiate the lease of pole space and facilities from the existing pole owners for all aerial construction, under mutually acceptable terms and conditions.

Q. RESERVATION OF STREET RIGHTS. Nothing in a Franchise shall prevent the Grantor from constructing, repairing, or altering any public work. All such work shall be done, insofar as practicable, in such manner as not to unnecessarily obstruct, injure or prevent the free use and operation of any property of Grantee. However, if any property of Grantee shall interfere with the construction, maintenance, or repair of any public improvement, that property shall be removed or replaced in such manner as directed by Grantor so that the same shall not interfere with the public work, and such removal or replacement shall be at the expense of the Grantee. (Ord. 5004, 1997.)
A. MAINTENANCE AND COMPLAINTS.

1. Service Area Office. The Grantee shall maintain an office in the Franchise Service Area, or at such other location as is approved by the Grantor in writing, or as described in the Franchise. That office must be open during all usual business hours, but in no case less than forty eight (48) hours per week, including at least one weekend day per week. Grantor shall have a publicly listed, non-toll-charge telephone number that is in operation to receive Subscriber complaints and requests on a 24-hour basis. Current information shall be maintained of all complaints and their disposition, and a summary thereof shall be submitted to Grantor upon request, but no more often than monthly.

2. Response to Service Concerns. The Grantee shall respond to requests as follows: (i) within eight (8) hours after receipt of a request for repairs relating to a Service Interruption affecting at least ten (10) percent of the Subscribers of the System; (ii) within twenty-four (24) hours after receipt of requests for service related to all other Service Interruptions; (iii) and within forty-eight (48) hours for all other complaints and requests for repair. All Cable System related problems shall be resolved within five (5) business days unless technically infeasible. No charge shall be made to a Subscriber for such service or repairs, except that Grantee may charge for service calls not related to its Cable System, or that are caused by the Subscriber or members of its household, or the Subscriber's agents or guests.

3. Customer Service Telephone System. The Grantee shall provide a telephone service system to receive all construction and service complaints. A sufficient number of customer service representatives shall be provided so that callers are not required to wait more than thirty (30) seconds before being connected to a customer service representative ninety percent (90%) of the time, measured quarterly, or to receive busy signals more than three (3) percent of the time, measured quarterly. The telephone number of the local office shall be listed in the telephone directory serving the City of Santa Barbara. The telephone service system shall accept complaints twenty-four (24) hours a day, seven (7) days a week. The telephone service system shall be capable of generating reports relating to answer times, response times, hold times, and abandoned calls.

4. Identification. Customer service personnel shall identify themselves immediately.

5. Supervisors. Customers shall have the right to speak with a supervisor, and if none is available, a supervisor shall return the customer's call within one working day.

6. Grantee Identification. All officers, agents, or employees of the Grantee, including its contractors or subcontractors, who come into regular contact with members of the public shall wear on their outer clothing a photo-identification card in a form reasonably acceptable to Grantor during those periods of time they are dealing with members of the public. Grantee shall account for all identification cards at all times. Every vehicle of Grantee, or its major subcontractors, shall be clearly identifiable as working for Grantee.

7. Scheduling of Service Appointments. Grantee shall provide Subscribers with the option of scheduling a four (4) hour period, either in the morning or afternoon, in which a service call will be made.

8. Rescheduling of Late Appointments. If a Grantee representative is running late for an appointment with a customer, or will not be able to keep the appointment as scheduled, the customer will be contacted and the appointment will be rescheduled, as necessary, at a time which is convenient for the customer. The customer has the option of rescheduling the appointment within a specified two (2) hour period.

B. REMEDIES FOR INADEQUATE PERFORMANCE. Except for rebuild or planned Service Interruptions for which Grantee receives prior approval from the Grantor or except for system-wide outages in excess of six (6) consecutive hours or twelve (12) nonconsecutive hours within any thirty (30) day period (for which fee rebates shall be paid to Subscribers by Grantee without a request thereof), in the event that one--third or more of its service to any Subscriber is interrupted for six (6) consecutive hours, or for a total of twelve (12) nonconsecutive hours within any thirty (30) day period, and Subscriber notifies Grantee of said Service Interruption within twenty-four (24) hours of Subscriber discovery thereof and requests a rebate of fees as a result thereof, Grantee shall provide a ten percent (10%) rebate of the monthly fees to affected Subscribers for each such consecutive six-hour and/or nonconsecutive twelve-hour Service Interruption period. Grantee shall provide a fifty percent (50%) rebate of the monthly fees to all affected Subscribers for failure to make a service call within the specified four (4) hour period. In no case shall such rebate exceed the monthly fee charged to the Subscriber.

C. TRIENNIAL AUDIT OF PERFORMANCE.

1. Performance Audits. Grantor may require, at its option, that performance audits of the System be conducted every three (3) years by an independent technical consultant selected and employed by Grantor to verify that the System complies with all technical standards and other specifications of the Franchise.

2. Review of Audit. Upon completion of a performance audit, the Grantor and Grantee shall meet to review the performance of the Cable System. The reports required by this Chapter regarding Subscriber complaints, the records of performance audits and tests, and the opinion survey report shall be utilized as the basis for review. In addition, any Subscriber may submit complaints prior to or during the review meetings, either orally or in writing, and these shall also be considered.

3. Findings Regarding Compliance. Within thirty (30) days after the conclusion of the System performance review meetings, Grantor shall issue findings with respect to the compliance of the System and quality of service. If non-compliance is found, Grantor may direct Grantee to correct the inadequacies within such period of time as Grantor determines is reasonable.
4. **Non-Waiver of Rights.** Participation by the Grantor and the Grantee in this process shall not waive any rights they may possess under applicable federal or state law.

5. **Other Audits.** In addition to the triennial Audit described above, Grantor may conduct an annual audit of the same or lesser magnitude, at its sole expense, when and if determined necessary or appropriate by Grantor.

D. **SYSTEM EQUIPMENT LOCATION.** Grantee shall provide Grantor with a computer disk or other data storage device requested by Grantor, in format approved by Grantor, which details and documents all of Grantee's equipment and facilities and their geographic location in the City. Such computer disk or other device shall be updated annually and whenever there have been significant changes in the location of Grantee's equipment and facilities. In addition, Grantee shall maintain in its local office, a complete and up-to-date set of as-built system maps and drawings upon completion of construction or reconstruction, equipment specification and maintenance publications, and signal level diagrams for each active piece of electronic equipment in the system. As-built drawings shall show all lines and installed equipment, and tap valves and spigots. The scale of maps and drawings shall be sufficient to show the required details in easily readable form and size. Technical data at the local office shall also include approved pole applications, details and documentation of satellite and microwave equipment, mobile radio units, heavy construction vehicles and equipment, and video and audio equipment normally used in the operation of the system. If Grantor requires use of technical data in its own office, it may make copies of any items at Grantor's expense. To the extent Grantee designates the provided information as proprietary or confidential, Grantor will, to the extent allowed by applicable law, utilize reasonable efforts to protect the confidentiality or proprietary nature of such information provided, however, that in so doing, Grantor makes no representations or warranties to Grantee regarding its ability to maintain the confidentiality of such information.

E. **AVAILABILITY OF TECHNICAL DATA.** All technical data shall be available for Grantor's inspection during normal business hours and, upon reasonable notice. In the event of System failure or other operating emergency, the technical data will be made available at any time, so long as the provision of said data does not unreasonably interfere with Grantee's operations.

F. **EMERGENCY REPAIR CAPABILITY.** It shall be Grantee's responsibility to assure that its personnel, qualified to make repairs, are available at all reasonable times and that they are supplied with keys, equipment location instructions, and technical information necessary to begin repairs upon notification of the need to maintain or restore continuous service to the System.

G. **CUSTOMER SERVICE STANDARDS AND PROCEDURES.**

1. **Information to Customers.** The Grantee shall, at the time service is initiated, provide each new Subscriber with written information covering:
   a. The time allowed to pay outstanding bills.
   b. Grounds for termination of service.
   c. The steps the Grantee must take before terminating service.
   d. How the customer can resolve billing disputes.
   e. The steps necessary to have service reconnected after involuntary termination.
   f. The fact that customer service personnel must identify themselves immediately.
   g. The fact that Subscribers have the right to speak with a supervisor, and if none is available, a supervisor shall return the Subscriber's call within one (1) working day.
   h. The appropriate regulatory authority with which to register a complaint and how to contact that authority.

   In addition, at least once each calendar year, Grantee shall notify each Subscriber that information is available upon request concerning items (a) through (h) above.

2. **Written Notices.** Written notice of all terms of the customer agreement, the name, address and telephone number of the Cable Operator, all equipment and fee options, the availability of "A/B" switches, the availability of parental control devices, any reduced rates for seniors or other Subscribers, company billing and credit practices, company practices with respect to privacy of Subscribers, the telephone numbers for customer complaints, the telephone number of the Grantor, and other relevant information, shall be made by Grantee to Subscribers before service is commenced, at least once each calendar year, at any time upon the request of the Subscriber, and whenever changes to such policies are made.

3. **Advance Notice of Changes.** Except as otherwise provided by applicable law, advance notice of increases in fees or charges, and changes in channel lineup of stations or services, shall be sent to Grantor and to Subscribers at least thirty (30) days before the changes are made, except for changes not known sufficiently in advance by Grantee and not under Grantee's control, or where Grantor's waiver is obtained. Notices must be clearly identified and in print large enough to be easily readable.

4. **Billing.**
   a. **Billing Frequency and Format.** Bills for service shall be rendered monthly, unless otherwise authorized by the Subscriber and the Grantee or unless service is rendered for a period less than one (1) month. All bills shall contain a telephone number and a mailing address for billing inquiries or disputes and shall clearly delineate all charges and the basis for those charges.
b. **Disputed Bills.** In the event of a dispute between a Subscriber and the Grantee regarding the bill, the Grantee shall promptly make such investigation as is required by the particular case and report the results to the Subscriber. If the dispute is not resolved to the satisfaction of both parties, the Grantee shall inform the Subscriber of the Grantee's complaint procedures. If the Subscriber wishes to obtain the benefits of this subparagraph, notification of the disputed bill must be given by the Subscriber to the Grantee in writing within thirty (30) days after the bill date.

The Subscriber shall not be required to pay the disputed portion of the bill until the earlier of the following:

(i) Resolution of the dispute; or

(ii) Expiration of the forty-five (45) day period beginning on the date of the Subscriber's written notification.

Pending resolution of the bill dispute, Grantee shall exercise reasonable care to ensure that no termination notices are issued for the disputed portions of the bill, and that no other collection procedures are initiated for the disputed amount. Any such activity may be interpreted as an attempt to avoid the provisions of these rules and may constitute a violation of these rules.

5. **Referral of Accounts to Collection Agencies.** Uncollected accounts may be referred to private collection agencies for appropriate action if the bill has not been paid by the earlier of (i) thirty (30) days following date of involuntary termination; or (ii) the sixty--first (61st) day following the mailing date of the original uncollected amount, provided that no notification of a billing dispute has been made.

If the account was voluntarily terminated by Subscriber, for any reason, the account may not be referred to a private collection agency until at least thirty (30) days following mailing of the final bill. If notification of a billing dispute is made, all collection procedures shall be delayed as required in subsection 4(b) entitled "Disputed Bills." Referral to collection agent shall then occur no sooner than the ninety-first (91st) day following the billing date of the original uncollected amount.

5. **Refund.** When a Subscriber voluntarily discontinues service, Grantee shall refund, within 20 days of the discontinuance of service, the unused portion of any advance payments after deducting any charges currently due through the date of such discontinuance. Unused payment portions shall be the percentage of time for which Subscriber has paid for service and will not receive it because of the Subscriber's discontinuation of service. (Ord. 5004, 1997.)

5.62.090 Violations.

A. **USE OF PUBLIC STREETS.** From and after the effective date of this Chapter, it shall be unlawful for any person to construct, install, or maintain in any public place within Grantor's territory, or upon any easement owned or controlled by a public utility, or within any other public property of Grantor, or within any privately-owned area within Grantor's jurisdiction which is not yet, but is designated as, a proposed public place on a tentative subdivision map approved by Grantor, any equipment, facilities, or System for distributing signals or services through a Cable Television System, unless a Franchise has first been obtained hereunder, and is in full force and effect.

B. **UNAUTHORIZED CONNECTIONS.** It shall be unlawful for any person to make or use any unauthorized connection to, or to monitor, tap, receive or send any signal or service via a franchised System, or to enable anyone to receive or use any service, television or radio signal, picture, program, or sound, or any other signal without payment to the owner of said System.

C. **TAMPERING WITH FACILITIES.** It shall be unlawful, without the consent of the owner, to willfully attach to, tamper with, modify, remove or injure any physical part of or signals on a franchised Cable Television System. (Ord. 5004, 1997.)

5.62.100 Termination and Forfeiture.

A. **REVOCATION.** Consistent with applicable law, and in addition to any rights set out elsewhere in this Chapter, the Grantor reserves the right to revoke a Franchise, subject to the procedural guidelines set forth in Section 5.62.130 hereof in the event that:

1. The Grantee willfully or negligently violates any material provision of its Franchise.
2. The Grantee's construction schedule as set forth in this Franchise, is materially delayed, and such delay is within the control of Grantee.

B. **FORFEITURE.** Upon failure of the Grantee to comply with any material term of its Franchise, the Grantor may, subject to the procedural guidelines set forth in Section 5.62.130 hereof, declare a forfeiture. The Grantee may be required to remove its structures or property from the Grantor's streets and to restore those streets to their prior condition within a reasonable period of time. Upon failure to do so, the Grantor may perform the work and collect all costs, including direct and indirect costs, from the Grantee. At Grantor's discretion, the cost thereof may be placed as a lien upon all plant, property, or other assets of the Grantee. (Ord. 5004, 1997.)
5.62.110 Franchise Applications.

Applicants for a Franchise may submit to the Grantor, or to designated representative, written application in a format provided by the Grantor, at the time and place specified by the Grantor for accepting applications (including applications to renew a franchise) and accompanied by the designated application fee. A non-refundable application fee, in an amount established by resolution of the Grantor, shall accompany the application or re-application to cover all costs associated with processing the application, including without limitation, costs of administrative review, financial, legal and technical evaluation of the applicant, the costs of consultants (including technical and legal experts), notice and publication requirements, and document preparation expenses.

In the event such costs exceed the application fee, the applicant shall pay the difference to Grantor within twenty (20) days following receipt of an itemized statement of such costs. In the event such costs are less than the applicable fee, the Grantor shall pay the difference to the applicant within twenty (20) days of the determination of costs. This provision is procedural and shall not constitute the grant of any right to the Grantee. (Ord. 5004, 1997.)

5.62.120 Records, Reports; Right to Inspect and Audit.

A. GRANTEE TO PROVIDE RECORDS. All reports and records required under this Section shall be furnished at the sole expense of Grantee.

B. RECORDS. Grantor must maintain in its local offices, and make available for inspection during normal business hours, a separate and complete set of business records for the Franchise. The Grantee shall provide that information in such form as may be required by the Grantor, as well as copies of any records of Grantee upon Grantor's request, so long as said information is reasonably related to the scope of Grantor's rights under this Chapter, the Franchise, or Grantor's regulatory functions.

C. MAINTENANCE AND INSPECTION OF RECORDS. Grantee shall keep true and accurate books and records in conformity with generally accepted accounting principles, consistently applied, showing all income, expenses, borrowing, payments, investments of capital, and all other transactions relating to the System. Grantor shall, upon reasonable notice, have the right to inspect said records and receive copies thereof to the extent said information is reasonably related to the scope of the Grantor's rights under this Chapter, the Franchise, or the Grantor's regulatory functions. Any Grantee records kept at another place shall, within ten (10) days of Grantor's request, be made available at Grantee's local premises within the County of Santa Barbara.

D. REPORTS OF FINANCIAL AND OPERATING ACTIVITY.

1. Annual Reports. No later than ninety (90) days after the close of Grantee's fiscal year, Grantee shall submit an audited written report to the Grantor which shall include:
   a. Financial Report. A financial report, audited and certified by a financial officer of Grantee, for all Cable System activity during the previous fiscal year, including Gross Receipts from all sources and gross subscriber revenues from each Service. The report must set out separately all Gross Receipts from all sources in the City and Gross Subscriber Revenues from each Service in the City, and all payments, deductions, and computations of franchise fees.
   b. Previous Year's Activity. A summary of the previous year's activities, including, but not limited to, subscriber totals and new services.
   c. List of Officers and Directors. A current list of Grantee's officers, directors, and other principals which reflects any change in the previous year's list.
   d. Shareholders List. A list of stockholders or other equity investors holding twenty percent (20%) or more of the voting interests in Grantee which reflects any change from the previous year's list.
   e. Complaint Summary. A summary of complaints received and remedial actions taken.
   f. Rate Schedule. A current rate schedule for the various services offered by Grantee.

2. Performance Tests and Compliance Reports. No later than April 15 of each year, the Grantee shall provide a written report of any FCC or other performance tests required or conducted. In addition, the Grantee shall provide reports of the test and compliance procedures required by its Franchise, or by this Chapter, no later than thirty (30) days after the completion of those tests and compliance procedures.

3. Additional Reports. The Grantee shall prepare and furnish to the Grantor in writing, at the times and in the form reasonably prescribed by Grantor, such additional reports as may reasonably be required with respect to Grantee's compliance with the provisions of its Franchise and this Chapter.

E. COMMUNICATIONS WITH REGULATORY AGENCIES. Copies of all non-routine or material communications between the Grantee and the Federal Communications Commission, or any other agency having jurisdiction in respect to any matters affecting cable communications operations authorized pursuant to the Franchise, shall be submitted promptly to the Grantor upon receipt or mailing by Grantee.

F. EXAMINATION OF FACILITIES. Upon reasonable notice, and during normal business hours, Grantee shall permit examination, by any duly authorized representative of Grantor, of all Franchise property and facilities, together with any appurtenant property and facilities of Grantee situated within the City.
G.  **RIGHT TO AUDIT.**

1.  **Frequency of Audits.** In addition to any other inspection rights under this Chapter or the Franchise, upon ten (10) days prior written notice, during the term of a franchise and for a period of five (5) years thereafter, Grantor shall have the right to inspect, examine, or audit, during normal business hours, all documents pertaining to the Grantee or any Affiliated Person which are reasonably necessary to the Grantor's enforcement of its rights under the terms of this Chapter or the Franchise. All such documents shall be made available at the local office of the Grantor. All such documents pertaining to financial matters which may be the subject of an audit by the Grantor as set forth herein shall be retained by the Grantee for a minimum of five (5) years following the termination of the Franchise. Access by the Grantor to any of the documents covered by this paragraph G shall not be denied by the Grantor on grounds that such documents are alleged by the Grantee to contain proprietary information.

2.  **Written Certifications.** Grantor may require written certification by the Grantee's directors, officers, or other employees with respect to all documents referred to in this subsection G.

3.  **Costs of Audit.** Any audit conducted by the Grantor pursuant to this subsection G shall be conducted at the sole expense of the Grantor, and the Grantor shall prepare a written report containing its findings, a copy of which shall be mailed to the Grantee; provided, however, that the Grantor shall reimburse the Grantor for the expense of any such audit if, as the result of said audit, it is determined that there is a shortfall of more than two percent (2%) in the amount of franchise fees or other payments which have been made or will be made by the Grantee to the Grantor pursuant to the terms of the Franchise. Such reimbursement shall occur within thirty (30) days of Grantee's receipt of a written notice of a determination that a shortfall of greater than two percent (2%) exists.

H.  **RETENTION OF EXPERTS.** In the exercise of its rights under this Chapter, the Grantor shall have the further right to retain technical experts and other consultants on a periodic basis for the purpose of monitoring, testing, and inspecting any construction, operation, or maintenance of the System, and all parts thereof, or to ensure compliance with and enforcement of the provisions of this Chapter and the Franchise. The Grantor shall bear the cost of retaining such experts, provided that the Grantee shall reimburse the Grantor for all expenses related to the retention of said experts where this Chapter or the Franchise so provide, or under either of the following circumstances:

1.  The Grantee has initiated proceedings which would normally require the Grantor to retain such experts, such as the filing of a request for approval of a transfer or change in control, renewal to the extent allowed by law, expansion of the Franchise or Service Area, or the modification or amendment of the Franchise; 

2.  The reports of such experts submitted to the Grantor reveal that the Grantee has failed to substantially comply with the terms and conditions of this Chapter or of the Franchise.

If Grantee is required to reimburse Grantor pursuant to this subsection H, Grantor shall send Grantee an itemized description of such charges, and Grantee shall pay such amount within twenty (20) days after the receipt of such description. (Ord. 5004, 1997.)

5.62.130  **Enforcement Mechanisms.**

A.  **NOTICE AND HEARING FOR FRANCHISE DEFAULT.**

1.  **Written Demand for Corrections.** Except as otherwise provided in this Chapter or in the Franchise, prior to formal consideration by Grantor of termination, revocation, or forfeiture of Grantee's Franchise, or any other penalty or administrative remedy available to the Grantor, including liquidated damages, attributable to Grantee's failure, willful, negligent, or otherwise, to adhere to the terms and conditions of the Franchise or this Chapter, Grantor shall make written demand on Grantee to correct the alleged default. Grantor and Grantee shall expeditiously meet to discuss the alleged default, at which time Grantee shall indicate, in writing, the amount of time necessary to resolve the alleged problem. Giving due consideration to Grantee's request, Grantor shall, in writing, state the amount of time Grantor will allow Grantee to resolve the problem. During this time period, but in no event less than ten (10) days before the final date for correction, Grantee may request additional time to correct the problem, and Grantor shall grant said request if Grantor determines, in the exercise of its discretion, that such time is necessary due to delays beyond Grantee's control. If the default continues for a period of ten (10) days following the deadline for corrections, plus any extension thereof, a hearing shall be scheduled by Grantor on such Franchise termination, revocation, forfeiture, or any other penalty or administrative remedy.

2.  **Notice of Correction Hearing.** The Administrative Officer shall provide written notice of such hearing, including the grounds for the proposed action, to the Grantee no less than thirty (30) days before the hearing on the matter. In addition, the Administrative Officer, as part of said written notification, shall state the procedures to be followed by the Grantor to determine whether cause for termination, revocation, forfeiture, or other penalty exists. At a minimum, said procedures shall afford the Grantee adequate notice and a fair opportunity for full participation, including the right to introduce evidence, to require the production of evidence, to question witnesses, and to obtain a transcript of the proceeding at Grantee's expense. Within ten (10) days after the receipt of said notice, Grantee shall file any written objections to said procedures. The Administrative Officer shall notify Grantee of any modification to the procedures and provide another ten (10) day objection period. Any objections not raised within said ten (10) day periods shall be deemed waived. At the hearing, Grantor (or an appropriate hearing board or commission designated for that purpose by Grantor) shall hear Grantee, and any person interested in the matter, and shall determine, at that or subsequent meetings, an appropriate course of action for enforcement or termination of Grantee's Franchise.
5.62.140 Areawide Interconnection of CATV Systems.

The Grantee shall endeavor to interconnect access channels of the cable system with any or all other CATV systems in contiguous areas, upon the request of the City. Interconnection of systems may be done by direct cable connection, microwave link, satellite, or other appropriate method. Upon receiving the request of the City to interconnect, the Grantee shall immediately initiate negotiations with the other affected system or systems in order that all costs may be shared equally among cable operators for both construction and the operation of the interconnection link. The Grantee may be granted reasonable extensions of time to interconnect or the City may rescind its order to interconnect upon petition by the Grantee to the City. The City shall grant said request if it finds that the Grantee has negotiated in good faith and has failed to obtain an approval from the system or systems involved with the proposed interconnection, or that the cost of the interconnection would cause an unreasonable or unacceptable increase in subscriber rates. (Ord. 5004, 1997.)

5.62.150 Miscellaneous Provisions.

A. CAPTIONS. The section, subsection, paragraph, and subparagraph numbers and letters, and the captions throughout this Chapter, are intended to facilitate reading and reference. Such numbers, letters, and captions shall not affect the meaning or interpretation of any part of this Chapter.

B. FRANCHISE REFERENCES. A Franchise which cites, refers to, or otherwise incorporates this Chapter, or portions thereof, shall be deemed to be a Franchise issued under and subject to this Chapter.

C. FILINGS. When not otherwise specified in this Chapter, all documents required to be filed with Grantor shall be filed with the Grantor's representative as designated by Grantor.

D. NON-ENFORCEMENT BY THE GRANTOR. A Grantee shall not be relieved of its obligation to comply with all provisions of this Chapter, and of its Franchise, and all laws and regulations, by reason of any failure of the Grantor to demand prompt compliance.

E. CONTINUITY OF SERVICE. It is the right of all Subscribers to receive all available services authorized by the Franchise so long as their financial and other obligations to the Grantee are honored. In the event that the Grantee elects to rebuild, modify, or sell the System, the Grantee shall use due diligence and reasonable care to ensure that all Subscribers receive continuous, uninterrupted service. In the event of purchase by the Grantor, or a change of Grantee, the current Grantee shall cooperate with the Grantor or new Grantee to operate the System for a temporary period, in order to maintain continuity of service to all Subscribers. In the event that Grantee, through its own fault, discontinues system-wide service for seventy-two (72) continuous hours, and Grantee is in material default of its Franchise, or if the Franchise is revoked by Grantor (but not if Grantor fails to renew the Franchise), Grantor may, by resolution, when it deems reasonable cause to exist, assume operation of the System for the purpose of maintaining continuity of service. Grantor's operation of the System may continue until the circumstances which, in the judgment of the Grantor, threaten the continuity of service are resolved to Grantor's satisfaction. Grantor shall be entitled to the revenues for any period during which it operates the System.

F. OPERATION BY GRANTOR. During any period when the System is being operated by Grantor pursuant to paragraph E above, Grantor shall attempt to cause as little disruption of operations as is consistent with the maintenance of continuing service to Subscribers. Notwithstanding the foregoing, Grantor shall, as it may deem necessary, make any changes in any aspect of operations that, in Grantor's sole judgment, are required for the preservation of quality of service and its continuity.

G. MANAGEMENT BY GRANTOR. Grantor may, upon assuming operation of a System franchised hereunder, appoint a manager to act for it in conducting the System's affairs. Such manager shall have such authority as may be delegated by Grantor and shall be solely responsible to Grantor for management of the System. Grantee shall reimburse Grantor for all its reasonable costs, in excess of System revenues, incurred during Grantor's operation if the Franchise is in full force and effect during the period of Grantor's operation.

H. NOTICES. All notices and other communications to Grantee shall be addressed to it at the local address at which Grantee conducts its business. All notices and other communications to Grantor shall be addressed to Santa Barbara City Hall, or such other address as may be designated by Grantor.

I. FORCE MAJEURE; GRANTEE'S INABILITY TO PERFORM. In the event Grantee's performance of any of the terms, conditions, obligations, or requirements of this Chapter, or any Franchise granted hereunder, is prevented or impaired due to any cause beyond its reasonable control and not reasonably foreseeable, such inability to perform shall be deemed to be excused, and no penalties or sanctions shall be imposed as a result thereof. Such causes beyond Grantee's reasonable control and not reasonably foreseeable shall include, but not be limited to, any acts of God, civil emergencies, labor unrest, strikes, utility interruptions, inability to obtain gratis access to an individual's property, and any inability of the Grantee to secure all required authorizations or permits to utilize necessary poles or conduits, so long as Grantee uses due diligence to timely obtain said authorization or permits.
J. **APPLICATION.** All of the provisions of this Chapter shall be applicable to all Cable Operators and Cable Systems to the greatest extent permissible under applicable law.

K. **SEVERABILITY.** If any provision of this Chapter is determined to be void or invalid by any administrative or judicial tribunal, said provision shall be deemed severable and such invalidation shall not invalidate the entirety of this Chapter or any other provision thereof. (Ord. 5004, 1997.)

5.66.010 Purpose and Legislative Findings.

A. Purpose. The purpose of this Chapter is to promote the public health, safety, and welfare by establishing objective standards for locating news racks through the regulation of location, appearance, size, and maintenance of news racks on City rights-of-way in order to:

1. Protect the right to distribute information, protected by the United States and California Constitutions, through the use of news racks.
2. Provide for pedestrian and vehicular safety and convenience.
3. Minimize interference with the flow of pedestrian or vehicular traffic, including, but not limited to, ingress into or egress from any place of business or residence, from the street to the sidewalk or from parked vehicles to the sidewalk, by establishing objective standards for locating news racks.
4. Provide reasonable access for the use and maintenance of sidewalks, poles, posts, traffic signs and signals, hydrants, mailboxes, and similar appurtenances, and access to locations used for public transportation purposes,
5. Reduce visual blight on City streets, promote tourism, encourage well-designed and aesthetically compatible news racks, and protect the aesthetics and value of surrounding properties.

B. Legislative Findings. The City Council finds that, with the exception of those regulations governing the display of harmful matter, the time, place and manner restrictions established by this chapter are content-neutral, narrowly tailored to serve significant government interests, and leave open ample alternative channels of communication in that:

1. The news rack location, appearance, size, and maintenance regulations established in this chapter apply regardless of the content of the publication.
2. The news rack location, appearance, size, and maintenance regulations established in this chapter serve a substantial government interest by protecting the aesthetic appearance of the City, avoiding visual clutter, assuring safe and convenient pedestrian circulation, helping to promote tourism and economic vitality, and preventing dangerous installations of news racks.
3. The number, size, construction, placement and appearance of news racks can have a significantly adverse visual impact in designated a Landmarks District like El Pueblo Viejo and other aesthetically sensitive areas.
4. The Downtown Plaza has become very congested, with street furniture and other sidewalk encroachments, automobiles, and other means of travel competing with pedestrians for the public space; and that special standards for the design and location of news racks, in conjunction with a program for the furnishing and installation of uniform street furniture, and the enforcement of existing regulations for other encroachments in the downtown commercial area, will help to create a sense of order and provide a friendly environment for those who come to the area. The Downtown Plaza is both crucial and unique for the City because it is the congregating point for most tourism and establishes the basic character of the City.
5. The news rack location, appearance, size, and maintenance regulations established in this chapter for the Downtown Plaza leaves open ample alternative channels of communication in that only a small fraction of the City is subject to the required use of City-owned and maintained modular news rack cabinets, and hundreds, if not thousands, of locations remain available in the City for the installation of privately owned and maintained news racks.
6. With respect to the display of harmful matter, there is a compelling government interest in protecting the welfare of minors by preventing access to materials deemed obscene as to minors, as defined in Section 313 of the Penal Code, and that the use of blinder racks is a narrowly tailored solution to serve this interest.
7. Annual permit renewal fees for news racks located in City-owned modular cabinets within the Downtown Plaza will be higher than registration fees for independently owned and maintained news racks due to depreciation and maintenance during the useful life of the modular cabinets. (Ord. 5718, 2015; Ord. 4536, 1988; Ord. 4513, 1988; Ord. 4077, 1980; Ord. 3381 § 1, 1969).
5.66.020 Organization of This Chapter.

This Chapter establishes the sole regulations governing the placement and maintenance of news racks within the City on public property. This Chapter establishes application and permit requirements, including location, appearance, size, and maintenance standards for all news racks in the City. In addition, this Chapter establishes special time, place, and manner regulations for the Downtown Plaza where City-owned and maintained modular news rack cabinets have been installed. In the Downtown Plaza, freestanding private news racks are not permitted. This Chapter also establishes regulations governing the display of harmful matter in news racks. Finally, this Chapter establishes definitions of the significant terms it uses. (Ord. 5718, 2015.)

5.66.050 Application, Registration and Standards for Permit Issuance. 

A. Submittal of Applications. Applications for news rack permits shall be made to the Public Works Director on forms established by the City with payment of an annual permit application fee. Applications that are on file with the City that have current information may be used for subsequent annual permits.

1. Proposed New Installation or Relocation of News Rack. An application shall be approved and permit granted if the application proposes a new installation or relocation of a news rack in conformance with all requirements of this chapter. An application that proposes new installation of a news rack not in conformance with all requirements of this chapter shall be denied and no permit issued.

2. Existing News Rack With Current Permit. Existing news racks with evidence of an existing permit are subject to submittal of application and annual permit fee.

3. Existing News Rack Without Current Permit. News racks located within the City prior to enactment of this Ordinance, which have been verified by the current City Inventory, without evidence of a current permit will be required to submit an application and obtain an annual permit pursuant to subparagraph B below. Existing news racks that are affixed to a shared pedestal as of the effective date of this ordinance but are relocated to an adjacent area on a stand-alone mount during the initial application process set forth in subparagraph B below, shall be considered existing news racks for the purpose of this section.

4. Existing New Racks in City Modular Cabinets in the Downtown Plaza. News racks in the City modular cabinets in the Downtown Plaza prior to enactment of this Ordinance, which have been verified by the City Inventory upon the effective date of this Ordinance, may continue to remain in use in the same location by the same Owner and publication if an application is submitted and approved.

5. Existing City Modular Cabinets That Become Available in the Downtown Plaza After the Effective Date of the Ordinance. With respect to permits for news racks located in City-owned modular cabinets that become available due to abandonment, applications submitted shall be approved for that specific location on a first-come first-served basis.

6. New City Modular Cabinet Spaces for News Racks Located Within the City Downtown Plaza. With respect to permits for news racks that are newly installed by the City in the Downtown Plaza, an initial implementation period shall take place, at which time the City shall accept permit applications for the new spaces for a period of sixty (60) calendar days from the rack becoming installed. Permits shall be issued within twenty (20) days of the last day of the initial implementation period in accordance with subparagraphs a. and b. of this section.

a. Initial Implementation Period for Permit Applications Fewer Than the Number of Available Cabinets. Where fewer permit applications are received during the initial implementation period than the number of available cabinets, applications will be approved on a first-come first-served basis. If there is more than one application for a specific geographic location pending, then the priority for granting the applications shall be set forth in subparagraph b. of this section.

b. Initial Implementation Period for Permit Applications Greater Than the Number of Available Cabinets. If permit applications exceed the number of potential locations that are then available, priority shall be given based on frequency of publication, with the higher priority given to publications for which new editions or issues were published on a daily or weekly basis in the full calendar month preceding the date of application. If no applications are submitted by publications on a daily or weekly basis, then priority shall next be given based on frequency of publication, based on the number of new editions or issues published most frequently in the full calendar month preceding the date of application. Within groups of applicants with the same priority, permits shall be granted to the maximum allowable in a block by the drawing of lots in a process established by the Public Works Director. It shall be a condition of any permit granted according to a priority set forth in this section to maintain editions in the news rack according to the frequency for which the priority was given.

B. Registration and Application for Existing News Rack. Any Owner of existing news racks, including existing news racks located within City modular cabinets in the Downtown Plaza, shall within thirty (30) days of the effective date of this Chapter, provide the City with Owner’s news rack registration numbers and location consistent with the City Inventory. The registration of the existing news rack shall be the basis for accepting applications for the initial annual permit of existing news racks. Any Owner of an existing news rack shall then within ninety (90) days of registration, submit an application for an annual permit and pay fees to obtain a City annual permit pursuant to Section 5.66.050.C, and shall from the date of permitting be subject to the provisions of this Chapter. The Public Works Permit shall be signed by the applicant as the agreement to conform to the requirements of this ordinance. Permits shall be renewed per Section 5.66.060. Upon issuance of a permit for a new or replaced news rack, the City will provide a registration sticker and update the City Inventory. Each registration sticker provided shall be affixed to the top front metal door frame of each corresponding permitted news rack. (Ord. 5718, 2015; Ord. 4662, 1990; Ord. 4536, 1988.)

Any shared pedestal that has not been permitted to a single news rack Owner within one hundred twenty (120) days of the effective date of this Ordinance will be deemed abandoned and will result in the City posting and removing the shared pedestal and news racks in accordance with Section 5.66.100.

9. Shared pedestals shall be fully occupied by the maximum number of news racks designed to be affixed to the shared pedestal. The Owner shall notify the City in writing prior to removing units from a shared pedestal. Failure to maintain the shared pedestal with the maximum number of new racks for fourteen (14) consecutive days will result in its removal pursuant to Section 5.66.100. Shared pedestals may be modified to fit remaining news racks with City approval and revisions to the annual permit. Where a shared pedestal is not maintained in a fully occupied condition, it shall be removed and the location restored to its previous condition by the Owner of the shared pedestal, including, but not limited to, repair of any portion of the sidewalk or parkway damaged by the pedestal or its removal, and according to specifications provided by the Public Works Director. The Owner shall notify City Public Works of the in-kind substitution in writing prior to the substitution.

C. Costs. The costs of installation, maintenance, replacement, removal and relocation of news racks or shared pedestals shall be at the sole expense of the news rack Owner. Upon removal of a news rack, the Owner shall, at his or her sole expense, cause the public right-of-way and any improvements thereon to be promptly restored to the satisfaction of the Public Works Director in a condition which would have existed had the news rack not been placed at that location. If those repairs are not made within seven (7) days of removal of the news rack, the City may undertake that repair work and collect from the Owner the costs thereof, including reasonable attorneys’ fees and related costs of collection. (Ord. 5718, 2015; Ord. 4662, 1990; Ord. 4536, 1988; Ord. 4513, 1988; Ord. 3381 § 1, 1969.)

5.66.080 Downtown Plaza Requirements.

A. Finding of Special Circumstances. The City Council hereby finds that special circumstances require special design, placement and other standards for news racks located in the Downtown Plaza and any other area which may be designated by City Council upon findings that the special circumstances of the area require special design, placement and other standards for news racks.

B. Special Standards and Placement. Notwithstanding any contrary provisions in this chapter, no news rack shall be located in the Downtown Plaza except within a City modular news rack cabinet (hereinafter referred to as a “City news rack cabinet”) owned and provided by the City. All news racks to be inserted into a City news rack cabinet shall be provided by the applicant at its sole expense. (Ord. 5718, 2015; Ord. 4536, 1988; Ord. 4513, 1988; Ord. 3381 § 1, 1969.)

5.66.090 Prohibition on the Display of Harmful Matter.

No material which is harmful to minors, as defined in Section 313 of the Penal Code of the State, shall be displayed in a public place, other than a public place from which minors are excluded, unless blinder racks are placed in front of the material so that the lower two-thirds (2/3) of the material is not exposed to view. (Ord. 5718, 2015; Ord. 4838, 1993.)
5.66.100 Removal of News Racks; Required Hearing.

A. Removal by the City. Any news rack or shared pedestal, installed or maintained in violation of this chapter may be removed by the City for violation of the ordinance, subject to the notice and hearing procedures set forth in this section.

B. Notice of Violation. Before removal of any news rack, the City shall notify the Owner or distributor of the violation by written notification via first class mail to the address or addresses shown on the offending news rack and the permit, which shall constitute adequate notice. If available, the City will also send the written notice of violation by email. Before removal of any shared pedestal, written notification will be sent via first class mail to all Owners of the news racks affixed to the offending pedestal. The City may, but need not, affix an additional notice tag onto the offending news rack or shared pedestal. If no identification is shown on the news rack, posting of the notice on the news rack alone shall be sufficient. The written notice shall state the nature of the violation and the location, shall specify actions necessary to correct the violation, and shall give the Owner or distributor ten (10) business days from the date appearing on the notice to either remedy the violation or to request a meeting before the Public Works Director. The date on the notice shall be no earlier than the date on which the notice is mailed or affixed to the news rack, as the case may be.

C. Meeting and Decision. Any Owner or distributor notified under Subsection B may request a meeting with the Public Works Director by making a written request within ten (10) business days from the date appearing on the notice. The meeting shall be informal, but oral and written evidence may be given by both sides. The Public Works Director shall give his or her written decision within ten (10) business days after the date of the meeting. Any action by the City to remove the news rack shall be stayed pending the written decision of the Public Works Director following the meeting. If the Public Works Director is unable to conduct the hearing due to bias or legal disability, the City Administrator or mutually agreed upon third party shall conduct the hearing.

D. Removal and Impoundment. The City may remove and impound a news rack or shared pedestal in accordance with this section following the written decision of the Public Works Director upholding the determination of a violation, or if the Owner or distributor has neither requested a meeting nor remedied the violation within ten (10) business days from the date on the notice. An impounded news rack shall be retained by the City for a period of at least thirty (30) calendar days following the removal, and may be recovered by the Owner upon payment of a fee as may be established by resolution. An impounded news rack and its contents may be disposed of by the City after thirty (30) calendar days.

E. Summary Abatement. Notwithstanding the provisions of Subsections B and C, prior notice and an opportunity to be heard shall not be required before removal of any news rack or shared pedestal that is installed or maintained in such a place or manner as to pose an immediate or clear and present danger to persons, vehicles or property, or any news rack that is placed in any location without a permit. In such case, the City shall proceed in the following manner:

1. Within one (1) working day following removal, the City shall notify the Owner by telephone of the removal. In the case of an unpermitted news rack or shared pedestal, where possible, the City shall notify the Owner of the news rack, or a person whose name is shown on the news rack, by telephone of the removal. Within three (3) business days, the Public Works Director or designee shall send written confirmation of the telephoned notice. The written confirmation shall contain the reasons for the removal and information supporting the removal, and shall inform the recipient of the right to request, in writing or in person, a post-removal meeting within four (4) business days of the date of such written notice.

2. Upon timely request, the Public Works Director shall provide a meeting within two (2) working days of the request, unless the requesting party agrees to a later date. The proceeding shall be informal, but oral and written evidence may be given by both sides. The Public Works Director shall give his or her decision in writing to the requesting party within two (2) working days after such meeting. If the Public Works Director finds that the removal was in accordance with this chapter and City regulations, he or she shall notify the requesting party to pay any applicable penalties and costs and recover the news rack. If the Public Works Director finds that the removal was improper and that placement of the news rack was in accordance with City regulations and lawful, the Public Works Director shall order that the news rack be released and reinstalled without charge.

3. If the Owner of an unpermitted news rack cannot be determined and the news rack does not contain the required identification, no notice of the removal shall be required. (Ord. 5718, 2015; Ord. 4536, 1988)

5.66.110 Abandoned Newsracks.

An abandoned news rack or shared pedestal may be removed by the City and impounded, pursuant to the notice and hearing procedures set forth in Section 5.66.100. The City may dispose of the news rack or shared pedestal if the Owner does not claim the news rack and pay any required fees within thirty (30) days of its removal. (Ord. 5718, 2015; Ord. 4536, 1988.)
5.66.120 Public Nuisance.

The operation or maintenance of any news rack or shared pedestal contrary to the provisions of this chapter shall constitute a public nuisance, which in addition to or in lieu of criminal proceedings, may be abated, removed or enjoined by appropriate legal action brought by the City Attorney.  (Ord. 5718, 2015.)

5.66.130 Severability.

If any section, sentence, clause, phrase or provision of this chapter, or the application thereof to any person or circumstances, is for any reason held to be invalid, such invalidity shall not affect the validity of the remaining portions or provisions of this chapter or their applicability to distinguishable situations or circumstances. In enacting this chapter, it is the desire of the City Council to regulate validly to the full measure of its legal authority in the public interest. To that end, the City Council would have adopted this chapter and each section, sentence, clause, phrase, and portion thereof, irrespective of the fact that any one or more sections, sentences, clauses, phrases, or portions thereof might be invalid, in whole or in part, as applied to any particular situation or circumstance, and, to this end, the provisions of this chapter are intended to be severable.  (Ord. 5718, 2015.)

Provided, however, the Chief of Police may order any permits suspended pending such hearing, and it shall be unlawful for any person to carry on the business of a massage technician or to operate as a massage establishment depending upon the particular type of permit which has been suspended until the suspended permit has been reinstated by the said Board. The license fee authorized by this Chapter for unaltered cats shall be established by resolution of the City Council.

B. Unaltered Cats – Veterinarian Certificate. For those cats licensed as required by subsection (A) above, prior to the issuance by the City of the first license to such a cat, and upon the issuance of each City license thereafter, the owner of an unaltered cat shall present to the City a copy of a veterinary certificate (as such certificate is shown in the form attached to this Chapter as an exhibit) certifying that the owner has discussed the potential concerns which may arise in owning or keeping an unaltered cat with a duly-licensed veterinarian and that the owner has been counseled by the veterinarian on the owner’s responsibilities in keeping an unaltered cat.

C. License – Period of Validity. A license for an unaltered cat may be purchased for either a 6-month period, a 12-month period, a 24-month period, or a 36-month period. No unaltered cat license required by this Section shall be transferable.

   1. An event which occurs exclusively within a city park, which event is regulated by Title 15 of this Code.
   2. Funeral processions.
   3. A parade reasonably and apparently likely to involve a total of 75 or fewer pedestrians, as determined by the Chief of Police, and as to which the sponsor has agreed to the following restrictions: (i) the participants will march only on sidewalks, and (ii) will cross streets only at pedestrian crosswalks in accordance with traffic regulations and controls, in units of 15 or less, allowing vehicles to pass between each unit.    the day of the event.

      assemble.
   2. The proposed route to be traveled.
   3. Whether the parade or other event will occupy all or only a portion of the streets proposed to be
      traversed.
   4. The intervals of space to be maintained between units of the parade or other event.
   5. The number, types, and size of floats, if any.
   6. Material and maximum size of any signs or banners to be carried along the route.

C. SUPPLEMENTAL INFORMATION. Any supplemental information for a non-First Amendment event
   application, which the Chief of Police shall find reasonably necessary under the particular circumstances of the event
   application, to determine whether to approve or conditionally approve an event permit application pursuant to the
   provisions of this Chapter. (Ord. 5350, 2005; Ord. 4333, 1985.)

The Chief of Police shall approve, conditionally approve, or deny an application on the grounds specified in
Section 9.12.070. Such action shall be taken as expeditiously as possible and, in any case, (i) no later than four (4)
   days after the Chief receives a completed application pursuant to Section 9.12.040(B) or (C) unless the applicant
   agrees, upon the request of the Chief of Police, to extend the time for making decision to a later date, or (ii) no later
   than fifteen (15) days after the Chief receives a completed application for any other event.

If the application is denied, or approved on conditions other than those accepted by the applicant, the Chief of Police
   shall inform the applicant of the grounds for denial in writing, or the reason for the conditions imposed,
   simultaneously with notice of the decision, and shall further inform the applicant of his or her right of appeal. If the
   Chief of Police relied on information about the event other than that contained in the application, he shall also inform
   the applicant of the additional information he considered. The applicant shall be notified in writing of any permit
   conditions at the time the application is approved and of the applicant's right to appeal the permit conditions. If the
   Chief of Police determines that good cause to consider a late application does not exist under Section 9.12.040(B) or
   (C) within forty-eight (48) hours of receipt of the late application, the Chief of Police shall inform the applicant in
   writing of the reason for his determination regarding lack of good cause and of the applicant's right of appeal.
   (Ord. 5350, 2005; Ord. 4333, 1985.)

A. CONSIDERATIONS. The Chief of Police shall deny an application for an event permit only if he
determines from a consideration of the application and other pertinent information that one or more of the following
exists:
   1. Information contained in the application, or supplemental information requested from the applicant, is
      found to be materially false or misleading.
   2. The applicant fails to complete the application form after having been notified of the additional
      information or documents requested.
   3. The sole purpose of the event is the advertising of any product, good, ware, merchandise or event, and is
      designed to be held for private profit and not primarily for the purpose of expression protected by the First
      Amendment.
   4. The Chief of Police has earlier received an application to hold another event at the same time and place
      requested by the applicant, or so close in time and place as to cause undue traffic congestion, or the Police
      Department is unable to meet the needs for police services for both events.
   5. The time, route, or size of the event is reasonably likely to substantially interrupt the safe and orderly
      movement of traffic contiguous to the event site or route, or disrupt the use of a street at a time when it is usually
      subject to great traffic congestion.

204-1
rev. 6/30/15
6. The concentration of persons, animals and vehicles at the site of the event or the assembly and disbanding areas around an event, is reasonably likely to prevent proper police, fire, or ambulance services to areas contiguous to the event.

7. The size of the event is reasonably likely to require diversion of so great a number of police officers of the City to ensure that participants stay within the boundaries or route of the event, or to protect participants in the event, as to prevent normal protection to the rest of the City of Santa Barbara. Nothing herein authorizes denial of a permit because of the need to protect participants from the conduct of others, if reasonable permit conditions can be imposed to allow for adequate protection of event participants with the number of police officers available to police the event.

8. The parade, or other event moving along a route, is not reasonably likely to move from its point of origin to its point of termination in four hours or less.

9. The location of the event is reasonably likely to substantially interfere with any construction or maintenance work scheduled to take place upon or along the City streets, or with a previously granted encroachment permit.

10. The event is reasonably likely to occur at a time when a school is in session, or at a route or location adjacent to the school, and the noise created by the activities of the event would substantially disrupt the educational activities of the school.

B. CONDITIONAL APPROVALS. When the grounds for denial of an application for a permit specified in subsections A(4) through A(10) above can be corrected by altering the date, time, duration, route, or location of the event, the Chief of Police, instead of denying the application, shall conditionally approve the application pursuant to Section 9.12.080. The conditions imposed shall provide for only such modification of the applicant's proposed event as are necessary to achieve compliance with subsections A(4) through A(10) above, and shall be consistent with rules and regulations established by the Chief of Police and approved by a resolution of the City Council. (Ord. 5350, 2005; Ord. 4333, 1985.)

9.12.080 Permit Conditions.

The Chief of Police may condition the issuance of an events permit by imposing reasonable requirements concerning the time, place, and manner of the event, and such requirements as are necessary to protect the safety of persons and property, and to provide for adequate control of traffic, provided such conditions shall not unreasonably restrict the right of free speech. Such conditions may include, but need not be limited to the following:

A. Alteration of the date, time, route or location of the event proposed on the event application;
B. Conditions concerning the area of assembly and disbanding of parade or other events occurring along a route;
C. Conditions concerning accommodation of pedestrian or vehicular traffic, including restricting the event to only a portion of a street;
D. Requirements for the use of traffic cones or barricades;
E. Requirements for provision of first aid, sanitary or emergency facilities;
F. Requirements for use of event monitors and some method for providing notice of permit conditions to event participants;
G. Restrictions on the number and type of vehicles, animals, or structures at the event, and inspection and approval of floats, structures, and decorated vehicles for fire safety by the Santa Barbara Fire Department;
H. Compliance with animal protection ordinances and laws;
I. Requirements for use of garbage containers, cleanup and restoration of City property;
J. Restrictions on use of amplified sound;
K. An application for an event permit to conduct a block party event may be conditioned on notice and approval by 50% of the owners or tenants of dwellings or businesses along the affected street(s);
L. Compliance with any relevant ordinance or law in obtaining any legally required permit or license.
M. Restrictions on the sale of alcoholic beverages. (Ord. 5350, 2005; Ord. 4333, 1985.)

9.12.090 Permit Issuance.

The Chief of Police shall issue the events permit once the application has been approved, the applicant has agreed in writing to comply with the terms and conditions of the permit, and all of the requirements of this Chapter have been satisfied. (Ord. 5350, 2005; Ord. 4333, 1985.)

A. CITY COUNCIL. The applicant shall have the right to appeal (i) denial of a permit, (ii) a permit condition, (iii) a determination that good cause to consider a late or First Amendment application does not exist, and (iv) a determination by the City that the applicant's insurance policy does not comply with the requirements specified in Section 9.12.120. A notice of appeal stating the grounds of appeal with specificity shall be filed with the City Clerk pursuant to the provisions of Section 1.30.050 of this Code.
B. CITY ADMINISTRATOR. If there is insufficient time for a timely appeal to be heard by the City Council prior to the date on which the event is scheduled, the applicant may, at his option, request that the City Clerk schedule the appeal before the City Administrator. The City Administrator or his designee shall hold a hearing no later than two (2) business days after the filing of the appeal, and will render his decision no later than one (1) business day after hearing the appeal. If the appeal is heard before the City Administrator, the City Administrator's decision shall be final. (Ord. 5136, 1999; Ord. 4333, 1985.)

9.12.110 Indemnification Agreement.

A. Prior to the issuance of an event permit, the permit applicant or the authorized officer of the sponsoring organization must sign an agreement to reimburse the City of Santa Barbara for any costs incurred by it in repairing damage to City property occurring in connection with the permitted event and proximately caused by the actions of the permittee or sponsoring organization, its officers, employees, or agents, or any person who was under the permittee's or sponsoring organization's control insofar as permitted by law. The agreement shall also provide that the permittee or sponsoring organization shall defend the City against, and indemnify and hold the City harmless from, any liability to any persons resulting from any damage or injury occurring in connection with the permitted event proximately caused by the actions of the permittee or sponsoring organization, its officers, employees or agents, or any person who was under the permittee's or sponsoring organization's control insofar as permitted by law and in a form consistent with this requirement and acceptable to the City Attorney. For purposes of this Section, a person who merely joins in a parade or event is not considered, by reason of that act alone, to be "under the control" of the permittee or sponsoring organization.

B. The indemnification requirement of subsection (A) above shall be waived by the City for those applicants who have established a basis for the waiver of insurance pursuant to subsection 9.12.120 (C) hereof. (Ord. 5414, 2007; Ord. 5350, 2005; Ord. 4333, 1985.)

9.12.120 Insurance.

A. LIABILITY INSURANCE.

1. The applicant or sponsor of an event must possess or obtain public liability insurance to protect against loss from liability imposed by law for damages on account of bodily injury and property damage arising from the event. Such insurance shall name on the policy or by endorsement as additional insureds the City of Santa Barbara, its officers, employees, and agents. Insurance coverage must be maintained for the duration of the event.

2. Coverage shall include, but is not limited to, a Comprehensive General Liability Insurance Policy with minimum limits of $500,000 combined single-limit bodily injury and property damage for each occurrence.

3. If food or non-alcoholic beverages are sold or served at the event, the policy must also include an endorsement for products liability in an amount not less than $500,000. If alcoholic beverages are sold or served at the event, the policy must also include an endorsement for liquor liability in an amount not less than $500,000. At any time when the insurance coverage required under this section may be purchased by a permit applicant through a City-held insurance policy, such coverage shall be made available to all permit applicants at the rates stated in the policy premium schedule.

B. CERTIFICATES OF INSURANCE. A copy of the policy or a certificate of insurance along with all necessary endorsements must be filed with the City's Risk Manager no less than five days before the date of the event unless the City's Risk Manager for good cause waives the filing deadline. The event permit shall not be issued by the Chief of Police until after the insurance policy or certificate of insurance along with necessary endorsements have been filed by the applicant or sponsor and approved by the City's Risk Manager.

C. WAIVER OF INSURANCE REQUIREMENTS.

1. First Amendment Events. The insurance requirements of subsections A and B above shall be waived by the Chief of Police if the applicant or an officer of the sponsoring organization signs a verified statement that (i) he or she believes the event's purpose is First Amendment expression, and (ii) he or she has determined that (a) the cost of obtaining insurance is so financially burdensome that it would constitute an unreasonable burden on the right of First Amendment expression, or (b) it is impossible to obtain insurance coverage. Where the applicant submits the statement required under Paragraph 1, the City of Santa Barbara may, in its discretion and at no charge to the applicant, require the applicant or sponsor to apply for insurance coverage for the event under a policy selected or maintained by the City of Santa Barbara. The applicant or sponsor must provide any information necessary to apply for such insurance coverage.

2. Other Events. The insurance requirements of Subsections A and B above may be waived by the Chief of Police for other events if the applicant or an officer of the sponsoring organization establishes to the satisfaction of the Chief of Police that the cost of obtaining insurance is financially prohibitive or it is impossible to obtain insurance coverage. If the Chief of Police determines that a waiver of the insurance requirement is appropriate hereunder, the City of Santa Barbara may, in its discretion, require the applicant or sponsor to apply for insurance coverage for the event under a policy selected or maintained by the City of Santa Barbara, in which case the applicant or sponsor shall provide any information necessary to apply for such insurance coverage and shall pay, upon request of the City, all or a portion of the insurance premium attributable to the event. (Ord. 5414, 2007; Ord. 5350, 2005; Ord. 4333, 1985.)

The cleanup deposit shall be in the amount established in a cleanup fee schedule for events adopted by resolution of the City Council.

B. REFUND. The cleanup deposit shall be returned after the event if the area used for the permitted event has been cleaned and restored to the same condition as existed prior to the event. No person shall make, continue or cause to be made or continued, or permit or allow to be made or continued, any noise disturbance in such a manner as to be plainly audible by a person of ordinary sensitivity at a distance of fifty (50) feet from the noise source; provided, nothing in this section shall be construed to prohibit any noise which does not penetrate beyond the boundaries of the noise source’s own premises or does not constitute an unreasonable disturbance to people lawfully on those premises. (Ord. 5740, 2016.)

9.16.030 Specific Conduct Prohibited.

A. The following subsections set forth specific conduct which shall be unlawful:

1. Radios, Television Sets, Musical Instruments and Similar Devices. Operating, playing or permitting the operation or playing of any radio, television set, music player, drum, musical instrument, or similar device which produces or reproduces sound between the hours of ten (10) P.M. and seven (7) A.M. in such a manner as to create a noise disturbance audible by a person of ordinary sensitivity across a residential or commercial real property line.

2. Loudspeakers and Amplified Sound. Using or operating for any purpose any loudspeaker, loudspeaker system or similar device between the hours of ten (10) P.M. and seven (7) A.M. in such a manner that the sound creates a noise disturbance audible by a person of ordinary sensitivity across a residential real property line.

3. Animals and Birds. Keeping, maintaining or possessing or harboring any animal or bird which frequently or for long duration, howls, barks, meows, squawks or makes other sounds which create a noise disturbance audible by a person of ordinary sensitivity across a residential or commercial real property line.

B. EXCLUSIONS.

It shall be unlawful for any person, between the hours of 8:00 P.M. of any day and 7:00 A.M. of the following day to erect, construct, demolish, excavate for, alter or repair any building or structure unless a special permit has been applied for and granted by the Chief Building Official. In granting such special permit, the Chief Building Official shall consider if construction noise in the vicinity of the proposed work site would be less objectionable at night than during daytime because of different population levels or different neighboring activities, if obstruction and interference with traffic, particularly on streets of major importance, would be less objectionable at night than during daytime, if the kind of work to be performed emits noises at such a low level as to not cause significant disturbance in the vicinity of the work site, if the neighborhood of the proposed work site is primarily residential in character wherein sleep could be disturbed, if great economic hardship would occur if the work were spread over a longer time, if the work will abate or prevent hazard to life or property, if the proposed night work is in the general public interest; and he shall prescribe such conditions, working times, types of construction equipment to be used, and permissible noise emissions, as he deems to be required in the public interest. This section shall not be applicable to activities of public or private utilities when restoring utility service following a public calamity or when doing work required to protect persons or property from an imminent exposure to danger. (Ord. 5740, 2016; Ord. 4039, 1980.)

9.16.050 Leaf Blowers - Restriction on Use.

A. DEFINITIONS

1. Leaf Blower. Any device used, designed or operated to produce a current of air by fuel, electricity or other means to push, propel or blow cuttings, refuse or debris.

2. Noise Level Standards. Measured in accordance with those standards developed under the supervision of the American National Standards Institute's (ANSI) "Committee for Sound Level Labeling Standard for Hand Held and Back Pack Gasoline Engine Powered Blowers" presently adopted as ANSI B-175.2-1990 with the maximum noise level of 65 decibels.
B. PROHIBITION IN RESIDENTIAL ZONES.

It is unlawful for any person to operate a leaf blower within two hundred fifty feet (250') of any residential zone, as that term is defined in Title 28 of this Code, before 9:00 A.M. or after 5:00 P.M. Monday through Saturday, or at any time on Sundays or national holidays, provided that the City Parks and Recreation Department employees shall be allowed to use leaf blowers between the hours of 7:00 A.M. and 9:00 A.M. Monday through Saturday when cleaning parking lots adjacent to the City's Beachfront parks.

C. CLEANUP OF DEBRIS

It is unlawful for any person operating any type of leaf blower to blow cuttings, refuse or debris onto a neighboring property or into a street or gutter. It is also unlawful for any person operating any leaf blower to fail to properly dispose of accumulated debris, leaves, or refuse in a sealed trash or refuse container.

D. PHASE-OUT OF CERTAIN LEAF BLOWERS

1. Existing Leaf Blowers. The use of leaf blowers which are not manufactured to meet or exceed the Noise Level Standards is prohibited in all areas of the City, under all circumstances, after October 9, 1997.

2. Sale of New Leaf Blowers. It is unlawful to sell or offer for sale within the City of Santa Barbara leaf blowers which are not manufactured to meet or exceed the Noise Level Standards of 65 decibels.

E. CERTIFICATION.

Owners and operators will present equipment to the City Parks and Recreation Director or designee, with an application and reasonable fee, for noise testing according to ANSI testing criteria in the Noise Level Standards. Leaf blowers which generate 65 decibels or less according to the test will be issued a certification sticker, which is valid for one year following the date of testing. The use of a leaf blower, without a current and valid certification sticker affixed to it, within the City after July 1, 1998, is an infraction. All sound level measurements described in this section shall be taken with a Sound Level Meter.

F. GUIDELINES FOR THE PROPER USE OF LEAF BLOWERS.

The City Parks and Recreation Director is hereby authorized and directed to adopt guidelines for the proper use of leaf blowers, which guidelines shall promote the safe and efficient use of leaf blowers, while also mitigating, to the extent possible, the noise and nuisance effects of leaf blowers. The Finance Department is hereby directed to provide a copy of this ordinance and the leaf blower guidelines to each person obtaining a City business license for the operating of a gardening or landscaping maintenance service or business within the City. The operator of every business establishment selling leaf blowers within the City of Santa Barbara shall post in a conspicuous location and shall distribute to all purchasers a copy of this ordinance and the guidelines. (Ord. 5740, 2016; Ord. 5037, 1997; Ord. 5024, 1997; Ord. 4720, 1991; Ord. 4718, 1991; Ord. 4452, 1987.)

9.16.060 Use of Gasoline-Powered Leaf Blowers Prohibited.

Measure D97, adopted November 4, 1997, provides: In order to secure and promote the public health, comfort, safety and welfare, and to protect the rights of its citizens to privacy and freedom from nuisance, it is the purpose of this ordinance to prohibit unnecessary, excessive and annoying noises at levels which are detrimental to the health and welfare of the community, and to minimize airborne dust and pollen.

It shall be unlawful for any person within the City to use or operate any portable machine powered with a gasoline engine, or gasoline-powered generator, to blow leaves, dirt, and other debris off sidewalks, driveways, lawns, or other surfaces. (Ord. 5036, 1997.)

9.16.070 Regulation of Noise Affecting Parcels Zoned or Used for Residential Purposes.

A. HOURS OF OPERATION. Hours of operation on property zoned for agricultural use and used for planting, grading, vegetation removal, harvesting, sorting, cleaning, packing, shipping, and pesticide application shall be limited to 7:00 A.M. to 7:00 P.M. Monday through Saturday. Hours of operation for the above-stated activities shall be limited to 8:00 A.M. to 7:00 P.M. on Sunday and holidays.

B. MOTOR VEHICLE HORNS AND SIGNALING DEVICES. The following acts and the causing thereof are declared to be in violation of this ordinance:

1. The sounding of any horn or other auditory signaling device on or in any motor vehicle on any public right-of-way or public space, except as a warning of danger as provided in Section 27000 of the California Vehicle Code.

2. The sounding of any horn or other auditory signaling device which produces a sound level in excess of 60 dB(A) at a distance of 200 feet.

3. Exception. Emergency vehicles may be equipped with and use auditory signaling devices that do not comply with the requirements of this section.

C. MECHANICAL EQUIPMENT. Mechanical equipment other than vehicles and equipment which are operated by electricity obtained from an electricity utility company shall not be used outside before 8:00 A.M. or after 7:00 P.M. on Saturday, Sunday or holidays, or before 7:00 A.M. or after 7:00 P.M. Monday through Friday.
D. NOISE LIMITATIONS. All mechanical equipment other than vehicles (including heating, ventilation, and air conditioning systems) shall be insulated. Sound at the property line of any adjacent parcel used or zoned for residential, institutional, or park purposes shall not exceed sixty A-weighted decibels using the Community Noise Equivalent Level (60 dB(A) CNEL). All wind machines are prohibited in the City. (Ord. 5740, 2016; Ord. 4878, 1994.)

9.16.080 Sound Amplification.

No person shall amplify sound using sound amplifying equipment contrary to any of the following:

A. The only amplified sound permitted shall be either music or the human voice or both.
B. Sound emanating from any public park or place shall not be amplified above the ambient noise level so as to be audible within any hospital, rest home, convalescent hospital, or church while services therein are being conducted.
C. The volume of amplified sound shall not exceed 60dB(A) when measured outdoors at or beyond the property line of the property from which the sound emanates.
D. The volume of amplified sound inside a structure shall not exceed 45dB(A) when measured inside a building used for residential purposes. This maximum noise level shall not apply to the dwelling unit from which the sound is emanating.
E. The limits set forth above shall not apply to the following:
   1. Amplification of sound by a person as part of an event or activity sponsored or approved by the County of Santa Barbara on property owned by or leased to the County, provided the County has adopted or approved a sound control plan for the property which is applicable to the event or activity.
   2. Amplification of sound by a person as part of an event or activity sponsored or approved by the County of Santa Barbara on property owned by or leased to the County of Santa Barbara and for which property the County has not developed a sound control plan.
   3. Amplification of sound by a person as part of an activity or event sponsored or approved by the City of Santa Barbara on property owned by or leased to the City of Santa Barbara.

   5. Amplification of sound by a person as part of an activity or event sponsored by or approved by a public entity on property owned by or leased to said public entity. (Ord. 5740, 2016; Ord. 4039, 1980.)

9.16.090 Definitions.

Unless the context otherwise clearly requires, technical words and phrases used in this chapter are defined as follows:

A. SOUND AMPLIFYING EQUIPMENT. "Sound amplifying equipment" shall mean any machine or device for the amplification of the human voice, music, or any other sound. "Sound amplifying equipment" shall not include standard automobile radios when used and heard only by the occupants of the vehicle in which the automobile radio is installed. "Sound amplifying equipment" as used in this chapter shall not include warning devices on authorized emergency vehicles or horns or other warning devices on any vehicle used only for traffic safety purposes, and shall not include communication equipment used by public or private utilities when restoring utility service following a public calamity or when doing work required to protect persons or property from an imminent exposure to danger.

B. AMBIENT NOISE. "Ambient noise" is the all-encompassing noise associated with a given environment, being usually composed of sounds from many sources near and far. For the purpose of this ordinance, ambient noise level is the level obtained when the noise level is averaged over a period of five (5) minutes without inclusion of noise from isolated identifiable sources, at the location and time of day near that at which a comparison is to be made.

C. NOISE DISTURBANCE. "Noise disturbance" shall mean any sound which (a) endangers or injures the safety or health of human beings or animals, or (b) annoys or disturbs reasonable persons of normal sensitivities, or (c) endangers or injures personal or real property, or (d) violates the factors set forth in Section 9.16.010 of this Chapter. Compliance with the quantitative standards as listed in this Chapter shall constitute elimination of a noise disturbance.

D. DECIBEL. "Decibel" (dB) shall mean an intensity unit which denotes the ratio between two (2) quantities which are proportional to power; the number of decibels corresponding to the ratio is ten (10) times the common logarithm of this ratio.

E. SOUND LEVEL. "Sound level" (noise level) in decibels is the value of a sound measurement using the "A" weighting network of a sound level meter. Slow response of the sound level meter needle shall be used except where the sound is impulsive or rapidly varying in nature, in which case fast response shall be used.

F. PERSON. "Person" shall mean a person, firm, association, co-partnership, joint venture, corporation, or any entity, public or private in nature.

G. SOUND LEVEL METER. "Sound level meter" shall mean an instrument including a microphone, an amplifier, an output meter, and frequency weighting networks for the measurement of sound levels which satisfies the pertinent requirements in American National Standards Institute's specification S1.4 2014 or the most recent revision thereof for type S-2A general purpose sound level meters.
**H. SUPPLEMENTARY DEFINITIONS OF TECHNICAL TERMS.** Definitions of technical terms not defined herein shall be obtained from the American National Standards Institute's Acoustical Terminology S11 1994 or the most recent revision thereof. (Ord. 5740, 2016; Ord. 4039, 1980.)

9.16.100 Measurement Methods.

A. Any decibel measurement made pursuant to the provisions of this chapter shall be based on a reference sound pressure of twenty (20) microinertons per square meter (0.0002 microbar) as measured with a sound level meter using the "A" weighting, and using the slow meter response.

B. Unless otherwise provided, outdoor measurements shall be taken with the microphone located at any point on the property line of the noise source, but no closer than five (5) feet from any wall or vertical obstruction and three (3) to five (5) feet above ground level whenever possible.

C. Unless otherwise provided, indoor measurements shall be taken inside the structure with the microphone located at any point as follows: (1) no less than three (3) feet above floor level; (2) no less than five (5) feet from any wall or vertical obstruction; and (3) not under common possession and control with the building or portion of the building from which the sound is emanating. (Ord. 4039, 1980.)

9.16.110 Enforcement.

A. **PRIMA FACIE VIOLATION.** Any noise exceeding the noise level limits in Section 9.16.080, or the prohibited actions as provided in Sections 9.16.010, 9.16.020 and 9.16.030, shall be deemed to be prima facie evidence of a violation of the provisions of this Chapter.

B. **VIOLATIONS.** Any violation of the provisions of this Chapter shall be an infraction or be subject to administrative code enforcement pursuant to Chapter 1.25 of this code. Each hour such violation is committed or permitted to continue shall constitute a separate offense and shall be punishable as such.

C. **ABATEMENT ORDERS.**
   1. In lieu of issuing a notice of violation as provided for in subsection B of this section, the zoning enforcement or police department staff responsible for enforcement of any provision of this Chapter may issue an order requiring abatement of a sound source alleged to be in violation, within a reasonable time period and according to guidelines which the police department may prescribe.
   2. No complaint or further action shall be taken in the event that the cause of the violation has been removed, the condition abated or fully corrected within the time period specified in the written notice.

D. **CONTINUED VIOLATIONS.** Once a violation of any provision of this Chapter has been verified by zoning enforcement or police department staff, the owner(s) of the property where the violation occurred may be subject to administrative action or infraction citation for allowing a subsequent violation of this Chapter to occur on the property within nine (9) months after the date of a previous violation, provided the property owner has received notification from the City of the previous violation and at least fourteen (14) days have passed since the date the notification was mailed to the property owner(s). (Ord. 5740, 2016.)

9.16.120 Violations - Additional Remedies - Injunctions.

As an additional remedy, the operation or maintenance of any sound amplifying equipment, device, instrument, vehicle, or machinery in violation of any provision of this chapter, which operation or maintenance causes discomfort or annoyance to reasonable persons of normal sensitiveness or which endangers the comfort, repose, health or peace of residents in the area, shall be deemed and is declared to be a public nuisance and may be subject to abatement summarily by a restraining order or injunction issued by a court of competent jurisdiction. (Ord. 4039, 1980.)

Chapter 9.21
REGULATION OF TOBACCO RETAILERS

9.21.010 Findings.
The City Council of the City of Santa Barbara is reliably informed that:
A. State law prohibits the sale or furnishing of cigarettes, tobacco products and smoking paraphernalia to minors, as well as the purchase, receipt, or possession of tobacco products by minors.
B. State law requires tobacco retailers to check the identification of tobacco purchasers who reasonably appear to be under 18 years of age and provides procedures for onsite sting inspections of tobacco retailers using persons under 18 years of age.
C. The results of the 2000 California Youth Tobacco Purchase Survey demonstrate that 12.8% of retailers surveyed sold tobacco product to minors, however, the most recent local youth purchase survey showed youth buy rates of 38%.
D. The California courts in such cases as Cohen v. City Council, 40 Cal.3d 277 (1985), and Bravo Vending v. City of Rancho Mirage, 16 Cal.App.4th 383 (1993), have affirmed the power of cities to regulate business activity in order to discourage violations of state law.
E. The City has the power to regulate the operation of lawful businesses to avoid circumstances that facilitate violations of the state, federal, and local laws. (Ord. 5260, 2002.)

9.21.020 Purpose.
It is the intent of the City Council, in enacting this Chapter, to discourage violations of laws which prohibit or discourage sale or distribution of tobacco products to minors, but not to expand or reduce the degree to which the acts regulated by state or federal law are criminally proscribed. (Ord. 5260, 2002.)

A. A completed application and a copy of the completed application for a tobacco retailer license shall be submitted to the Licensing Agent in the name of the person proposing to conduct retail tobacco sales and shall be signed by such person or an authorized agent thereof. All applications shall be submitted on a form supplied by the Licensing Agent and shall contain the following information:

The transferee of the tobacco retailer license must apply for a tobacco retailer license in the transferee’s name before acting as a tobacco retailer. (Ord. 5260, 2002.)

Chapter 9.50

PROHIBITION OF ABUSIVE PANHANDLING

Sections:

9.50.010 Purpose.
9.50.020 Definitions.
9.50.030 Abusive Panhandling Prohibited; Specific Locations Where Active Panhandling is Restricted.
9.50.040 Use of Public Benches and Facilities on Certain Streets for Active Panhandling.
9.50.050 Penalty for Abusive Panhandling.

9.50.010 Purpose.

In order to protect and promote the rights of the general public to be free from inappropriate conduct and from the intimidating physical confrontations associated with panhandling, the City Council finds that there is a need to adopt a City ordinance which imposes reasonable and specific time, place, and manner limitations on those forms of inappropriate and unlawful conduct which may be associated with abusive and active panhandling. At the same time, the Council seeks to properly and duly recognize, as well as protect to the fullest extent possible, the First Amendment free speech rights of all concerned.

The Council finds that the need for public safety with the need to protect constitutional rights is especially critical in certain popular retail and visitor-serving areas of the City. Specifically, Cabrillo Boulevard, lower Milpas Street, and certain blocks of State Street (those within the City Central Business District) are popular public gathering spaces and are often crowded with members of the public and visitors to the Santa Barbara area. Moreover, these areas provide only limited public amenities, such as public seating and outdoor dining areas, and members of the public should be free to use those areas without fear of coercive panhandling with its attendant risk of fraud, intimidation and violence. The Council further finds that, because these areas of Santa Barbara often have thousands of visitors each day and because there is limited public seating and gathering areas available within these blocks of these streets, it is necessary and appropriate to provide panhandling regulations which prevent some persons from monopolizing the use of a public bench or a public seating area, as well as nearby sidewalk areas, for active panhandling. There is therefore a necessity for the City Council to adopt regulations which provide for the shared and reasonable use of these public facilities by all members of the public, especially the elderly and persons with special access needs.

The City Council further finds that panhandling near automated bank teller machines is particularly problematic because persons who use such machines may have large quantities of cash in their possession and generally feel vulnerable to attack or intimidation. Likewise, active panhandling on buses and other forms of public transportation threatens the person being solicited because they are in a confined space with no means of leaving the area in order to avoid being panhandled.

The City Council finds that these panhandling regulations will not prevent those persons who wish to solicit alms or charitable donations from appropriately using public benches and public seating facilities within these areas of the City for temporary respite purposes, nor will these panhandling regulations impact the content of any protected forms of expressive statements made by a panhandler or otherwise improperly restrict anyone’s First Amendment rights.

The City Council also finds that these panhandling regulations have been demonstrated, by careful mapping of the regulated areas which has been considered by Council, to leave open ample alternative locations within the City for active and passive panhandling. Active panhandling on or near public benches and seating areas is prohibited only in the most crowded and intensely used areas of the City’s commercial districts, and even with those areas many areas are open for active and passive panhandling. (Ord. 5689, 2015; Ord. 5499, 2009.)
The following words or phrases as used in this Chapter shall have the following meanings:

**A. Panhandling.** Panhandling may occur in two forms as follows:

1. **Active Panhandling.** Any verbal request made by one person to another person seeking a direct response of an immediate donation of money or other item of value.

2. **Passive Panhandling.** The act of only passively displaying a sign or using any other non-verbal indication that a person is seeking donations without addressing a verbal request or solicitation to any specific person, other than in response to an inquiry from that person.

**B. Donation.** A gift of money or other item of value and including the purchase of an item for an amount far exceeding its value under circumstances where a reasonable person would understand that the purchase is in substance a gift.

**C. Abusive Panhandling.** To do one or more of the following acts while engaging in panhandling or immediately thereafter:

1. Blocking or impeding the passage or the free movement of the person panhandled;
2. Following the person panhandled by proceeding behind, ahead or alongside of him or her after the person panhandled declines to make a donation;
3. Threatening, either by word or gesture, the person panhandled with physical harm or an assault;
4. Abusing the person being panhandled with words which are offensive and inherently likely to provoke an immediate violent reaction;
5. Touching the person being panhandled without that person’s consent; or
6. Engaging in Active Panhandling in any of the prohibited places or under any of the circumstances specified in subparagraph B of section 9.50.030 hereof. (Ord. 5499, 2009.)

**9.50.030 Abusive Panhandling Prohibited; Specific Locations Where Active Panhandling is Restricted.**

**A. Abusive Panhandling Prohibited.** Abusive Panhandling is unlawful and prohibited entirely within the city of Santa Barbara.

**B. Active Panhandling Restricted.** Active Panhandling is prohibited when the person being panhandled is in any of the following locations:

9.66.010 Title.
This Chapter shall be known as the City of Santa Barbara "Graffiti Removal and Abatement Ordinance." (Ord. 5349, 2005.)

9.66.020 Purpose and Intent.
The City Council hereby finds and declares that:
A. Graffiti is detrimental to the health, safety and welfare of the community in that it promotes a perception in the community that the laws protecting public and private property may be disregarded with impunity.
B. This perception fosters a sense of disrespect of the law that results in an increase in crime; is detrimental to property values, business opportunities and the enjoyment of life; is inconsistent with the City's property maintenance goals and aesthetic standards; and results in additional graffiti and in other properties becoming the target of graffiti unless it is quickly removed from public and private property.
C. Graffiti is a threat to public safety and must be quickly abated, as provided herein, to prevent its proliferation and harm to persons and property in the City as the re-application, and spread of, graffiti has been found to dramatically decrease when it is removed in a timely fashion.
D. This Chapter is intended to be consistent with Government Code sections 38772 et seq. and 53069.3 which authorize the enactment of ordinances for the use of City funds to remove graffiti from public or privately owned permanent structures located on public or privately owned real property from the city.
E. The enlistment of business and property owners in the City and their assistance, active resistance, and prior consent to allow the City to abate graffiti on their property is recognized and emphasized as a key element in combating graffiti crime.
F. It is the purpose of this Chapter to provide for a City sponsored program for the removal of graffiti from walls, pavement, structures and other improvements on both public and private property. Towards that end, the City Council hereby deems it appropriate for the Director of Public Works, acting under the supervision of the City Administrator, to utilize City funds and designate the City employees or City contractors necessary to establish a program of effective and prompt graffiti removal by the City for all real property within the City. Subject to the required appropriation of funds, this program may utilize City Public Works employees, materials, and equipment and other City resources which may be necessary to accomplish the graffiti abatement and removal purposes of the program, particularly with respect to graffiti on publicly owned property. The program shall also be made available to property owners within the City, on a cost reimbursement basis, for the removal of graffiti from private property pursuant to a standard agreement between the property owner and the City. (Ord. 5349, 2005.)

9.66.040 Graffiti - Public Nuisance.

Pursuant to the authority of California Government Code Section 38771, graffiti, whether on public property or on private property, is hereby declared a public nuisance in the City. (Ord. 5349, 2005.)

9.66.050 Prohibition of Graffiti on Property.

It shall be unlawful for the owner of any real property within the City, whether public or private, to allow graffiti to remain in place on such property or to maintain graffiti that has been placed upon such property. (Ord. 5349, 2005.)

9.66.060 Graffiti Abatement Procedures - Property Owner’s Consent.

A. Graffiti Removal by Public Works as Authorized by the Property Owner. With the prior written consent of a property owner and upon an agreement regarding any necessary reimbursement by the owner to the City, the Director may immediately remove any graffiti he or she determines to be in violation of Section 9.66.050 of this Chapter.

B. Standard Consent/Release Forms – Agreement to Pay for Abatement. In order to accomplish the purposes of this Section, the Director shall prepare and distribute to property owners within the City a standard City consent/release and reimbursement agreement (as prepared and approved by the City Attorney.) The consent/release and reimbursement agreement shall be sufficient for the purposes of authorizing graffiti abatement removal on that owner’s property by work crews designated by the City for the purposes of entering the property to abate the graffiti. The agreement shall also contractually commit the property owner to reimburse the City for the graffiti abatement costs incurred.

As a pre-condition for the City’s removal of graffiti, the property owner shall have provided the City with a fully-executed copy of the standard City release/consent and reimbursement agreement for each property owned by such owner(s). The prior consent/release and reimbursement agreement may be revoked or cancelled by the owner at any time by notifying the Director in writing. The standard release/consent and reimbursement agreement shall provide that the property owner agrees to be responsible to the City for the costs of graffiti abatement by the City in accordance with a standard graffiti abatement cost schedule to be made readily available by the City for review by a property owner.

After the graffiti is abated by the City, the City Finance Director will send the owner an itemized bill and an abatement accounting for the costs of the graffiti abatement. The property owner shall than pay the City the amount set forth in the abatement accounting within thirty (30) days of the date of the mailing.

C. Properties for Which the Property Owner Has Not Consented or Refuses to Consent. If the Director is otherwise unable to obtain consent from the property owner or if the property owner does not abate the graffiti voluntarily in accordance with the requirements of this Chapter, the Director may proceed with a graffiti abatement action as set forth in Section 9.66.070.

D. Graffiti on Public Property. Where property defaced by graffiti is owned by a public entity other than the City, the Director shall cause removal of the graffiti only after securing the consent of an authorized representative of the public entity that has jurisdiction over the property. However, any public entity may provide the City with a general standard consent agreement applicable to some or all of that entity’s property, as determined appropriate by the public entity. (Ord. 5349, 2005.)

A. Initiation of Abatement Action. Whenever the Director determines that graffiti exists in violation of Section 9.66.050 and the Director has been unable to obtain the owner's consent to remove the graffiti in accordance with Section 9.66.060 and the property owner has failed to abate graffiti on the property, the Director may initiate a graffiti abatement action by causing a graffiti abatement notice to be served on the Owner as follows:

1. One copy of the graffiti abatement notice shall be posted in a conspicuous place upon the public street frontage side of the building or property at or near the place of the graffiti.

2. One copy of the graffiti abatement notice shall be served upon each of the following by regular mail:
   a. The person, if any, in real or apparent charge and control of the premises or property involved, such as a tenant or occupant; and
   b. The owner of record as listed on the last equalized County assessment roll.
B. Time for Removal - Hearing Before Director. The graffiti abatement notice shall provide the property owner three (3) calendar days from the date of the graffiti abatement notice to do one of the following: 1. to remove the graffiti, or 2. to authorize the removal of the graffiti by the Director by notifying the Director in writing that he or she has consented or consents to the graffiti abatement and will reimburse the City for the removal costs (in accordance with Section 9.66.060, or 3. the property owner may demand a hearing before the Director regarding the abatement order.

If the property owner fails to take one of these actions within the above time period of three (3) days, the property shall thereafter be subject to abatement of the graffiti by the Director in accordance with Section 9.66.080.

If no hearing is requested or if the Owner provides the City with the required consent/release and reimbursement agreement within the three (3) day period required and if the graffiti has not been removed, then the Director may immediately remove the graffiti and bill the owner for the amount to be reimbursed. (Ord. 5349, 2005.)

9.66.080 Graffiti Abatement Action; Hearing.

A. Abatement Hearing with Director. If a property owner requests a hearing pursuant to Section 9.66.070B, the Director shall provide notice of the time and place of the hearing in accordance with the notice provisions of California Government Code Section 65094 at least seven (7) days prior to the scheduled hearing date.

At the Abatement Hearing, the owner shall be entitled to present written evidence relevant to show that his or her property does not contain graffiti. Upon the conclusion of the hearing, if the Director determines that the property contains graffiti, the Director may order that the graffiti be immediately abated. The determination of the Director at the Hearing shall be final and may not be appealed.

B. Abatement After Hearing. Upon the conclusion of an abatement hearing and before ordering abatement by City designated workers, the Director shall give written notice (a “graffiti abatement order”) which notice shall be served in accordance with Section 9.66.070(A) that, unless the graffiti is removed within) two (2) calendar days from the date of the graffiti abatement order, the City shall enter upon the property and cause the removal, painting over or such other abatement of the graffiti as the Director determines appropriate.

C. Procedures for Abatement. The following procedures shall apply to actions by the Director to abate graffiti pursuant to this Section and to recover costs for abatement of graffiti on private property:

1. Abatement Action. Not sooner than the expiration of the time specified in the graffiti abatement order, the Director shall immediately implement the graffiti abatement order and utilize the City’s own forces to remove the graffiti.

Thereafter, the City Finance Director, upon the written request of the Director, shall provide an abatement accounting to the owner of the costs of the abatement action on a full cost recovery basis not later than ten (10) days from the date the abatement action is completed. The abatement accounting shall include all administrative costs incurred by the Department in abating graffiti on the property. The total amount set forth in the abatement accounting shall be due and payable by the owner within 30 days from the date of the abatement accounting.

2. Lien on the Real Property. If all or any portion of the amount set forth in the abatement accounting remains unpaid by the owner after thirty (30) days of the mailing of the abatement accounting, such portion shall constitute a lien on the property which was the subject matter of the graffiti abatement action. Such a lien shall be levied and collected by the City in accordance with Section 1.25.130 of this code as if they were a fine imposed pursuant to that Section. Property owners seeking to challenge the amount of the abatement accounting may do so at the hearing authorized by Section 1.25.130. (Ord. 5349, 2005.)

9.66.090 Limitation of Liability.

By adopting this Graffiti Abatement and Removal Ordinance and in establishing a City graffiti abatement program, the City is assuming an undertaking only to promote the general welfare. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury. ### 9.95.010 Purpose.

The purpose of the regulations and standards in this chapter are to allow increased business and pedestrian traffic by providing safe and visually appealing opportunities for outdoor dining.  (Ord. 4820, 1993.)

### 9.95.020 Outdoor Dining - Defined.

"Outdoor dining" means the use of City sidewalks and public rights-of-way for the consumption of food or beverages in conjunction with the operation of a food service establishment properly licensed for such service under state and county health regulations and which provides on-premises customer seating.  (Ord. 4820, 1993.)

### 9.95.030 Outdoor Dining License Required.

A. Outdoor dining is not allowed without an outdoor dining license agreement with the City as set forth in this Chapter 9.95.

B. The owner or operator of a business or service which includes outdoor dining shall maintain such operation in compliance with all provisions of the outdoor dining license and the administrative regulations approved pursuant to this Chapter 9.95.  (Ord. 5130, 1999; Ord. 4820, 1993.)

Outdoor dining is not permitted where, in the opinion of the City Engineer, the speed, volume or nearness of vehicular traffic is not compatible with outdoor dining. All outdoor dining areas must be adjacent to and incidental to the operation of a food service establishment providing on-premises customer seating properly licensed for such service pursuant to state and county health regulations. Use of the sidewalk or public right-of-way must be confined to the actual sidewalk and public right-of-way frontage of the restaurant or food service building.  (Ord. 4820, 1993.)

### 9.95.050 Sidewalk Required to Accommodate Pedestrian Traffic.

Outdoor dining is permitted only where, in the opinion of the City Engineer, the sidewalk is wide enough to adequately accommodate both the usual pedestrian traffic in the area and the operation of the proposed outdoor dining. Along State Street, between Cabrillo Boulevard and Victoria Street, the outdoor dining area shall leave not less than eight (8) consecutive feet of sidewalk width which is clear and unimpeded at all points for pedestrian traffic. Outdoor dining operations must maintain adequate clearance for all normal uses of the sidewalk and any special or occasional uses that may arise from time to time.  (Ord. 5130, 1999; Ord. 5047, 1998; Ord. 5013, 1997; Ord. 4820, 1993.)

### 9.95.060 Alcoholic Beverage Restrictions.

The service of alcoholic beverages shall be restricted solely to on-premise consumption by customers within the outdoor dining area. Each of the following standards apply to outdoor dining areas which provide alcoholic beverage service:

A. The outdoor dining area must be immediately adjacent to and abutting an indoor restaurant which provides food and beverage service;

B. The outdoor dining area must be clearly and physically separated from pedestrian traffic;

C. The operator shall post a written notice to customers that the drinking or carrying of an open container of alcohol is prohibited outside the outdoor dining area;

D. The outdoor dining operations must be duly licensed by the state Department of Alcoholic Beverage Control.  (Ord. 4820, 1993.)
9.95.070 Special Closures.

Outdoor dining is an interruptible or terminable license granted by the City pursuant to a contract. The City shall have the right and power, acting through the City Engineer, to prohibit the operation of an outdoor dining area at any time because of anticipated or actual problems or conflicts in the use of the sidewalk area or right-of-way. Such problems and conflicts may arise from, but are not limited to, scheduled festivals and similar events, or parades or marches, or repairs to the street or sidewalk, or from demonstrations or emergencies occurring in the area.

To the extent possible, the licensee shall be given prior written notice of any time period during which the operation of the outdoor dining area will be prohibited by the City. (Ord. 4820, 1993.)

9.95.080 Issuance of License.

The City Engineer may issue an outdoor dining license pursuant to administrative regulations issued by the Public Works Director and approved by resolution of the City Council.

At a minimum such regulations shall determine and require the following:

1. The approval and execution of a standard license agreement in a form acceptable to the City Attorney;
2. Proof of insurance naming the City as an additional insured acceptable to the City Administrator;
3. Special site conditions as needed or desirable;
4. Whether the design for seating and signage meets the minimum standards of the established administrative regulations;
5. Such other conditions as are necessary for public safety or to protect public improvements, such as the posting of appropriate security to guarantee the restoration of the right-of-way upon termination of the license;
6. Conditions necessary to restore the appearance of the sidewalk or right-of-way on termination of use;
7. Compliance with the applicable City building, zoning and design review requirements, particularly those requirements with respect to automobile parking;
8. Some form of fair market rent as compensation to the public for use of the sidewalk or right-of-way in an amount established by a resolution of the City Council;
9. The payment of an appropriate license application fee in an amount established by resolution of the City Council;
10. Adequate setback and clearances for all expected pedestrian uses of the sidewalks, as well as for unusual or occasional public uses that can be anticipated. (Ord. 5130, 1999; Ord. 4820, 1993.)

9.95.090 Term and Renewal.

The maximum term of an outdoor dining license is one year. Thereafter, the City Engineer may extend the license for additional periods, not to exceed one year each, following review and approval of the operation. If the City Engineer considers additional or revised conditions desirable, such new conditions may be imposed upon the extension, including the imposition of a license renewal fee. (Ord. 4820, 1993.)

CHAPTER 9.126

NON-DISCRIMINATORY EMPLOYMENT PROVISIONS FOR ALL CONTRACTS OF THE CITY

Sections:

9.126.010 Certificate Generally.  
9.126.030 Application.

9.126.010 Certificate Generally.

Consistent with a policy of non-discrimination in employment on contracts of the City of Santa Barbara and in furtherance of the provisions of Sections 1735 and 1777.6 of the California Labor Code, a "Contractor's Obligation for Non-discriminatory Employment Certificate" as hereinafter set forth shall be attached and incorporated by reference as an indispensable and integral term of all bid specifications and contracts of the City for purchases, services, and the construction, repair, or improvement of public works. (Ord. 3500 §1(part), 1972.)

The "contractor's obligation for non-discriminatory employment" is as follows:

In performing the work of this contract, the Contractor agrees as follows:

1) The Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, national origin, ancestry, sexual orientation, political affiliation or beliefs, sex, age, physical handicap, medical condition, marital status or pregnancy (as those terms are defined by the California Fair Employment and Housing Act -- Government Code Section 12900-12996), except where such discrimination is based on a bona fide occupational qualification. The Contractor will take positive action or ensure that applicants are employed, and that employees are treated during employment, without regard to their race, creed, color, national origin, ancestry, sexual orientation, political affiliation or beliefs, sex, age, physical handicap, medical condition, marital status or pregnancy (as those terms are defined by the California Fair Employment and Housing Act -- Government Code Section 12900-12996), except where such discrimination is based on a bona fide occupational qualification. Such action shall include but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this non-discrimination clause.

2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, national origin, ancestry, sexual orientation, political affiliation or beliefs, sex, age, physical handicap, medical condition, marital status or pregnancy (as those terms are defined by the California Fair Employment and Housing Act -- Government Code Section 12900-12996), except where such discrimination is based on a bona fide occupational qualification.

3) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the City advising the said labor union or worker's representative of the Contractor's commitments under this provision, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
(4) The Contractor will permit access to his records of employment, employment advertisements, application forms, and other pertinent data and records by the City, the Fair Employment Practices Commission, or any other appropriate agency of the State designated by the City for the purposes of investigation to ascertain compliance with the Contractor's obligation for non-discriminatory employment provisions of this contract, or Fair Employment Practices statute.

(5) A finding of willful violation of the non-discriminatory employment practices article of this contract or of the Fair Employment Practices Act shall be regarded by the City as a basis for determining that as to future contracts for which the Contractor may submit bids, the Contractor is a "disqualified bidder" for being "non-responsible". The City shall deem a finding of willful violation of the Fair Employment Practices Act to have occurred upon receipt of written notice from the Fair Employment Practices Commission that it has investigated and determined that the Contractor has violated the Fair Employment Practices Act and has issued an order under Labor Code Section 1426 or obtained an injunction under Labor Code Section 1429.

Upon receipt of any such written notice, the City shall notify the Contractor that unless he demonstrates to the satisfaction of the City within a stated period that the violation has been corrected, he shall be declared a "disqualified bidder" until such time as the Contractor can demonstrate that he has implemented remedial measures, satisfactory to the City, to eliminate the discriminatory employment practices which constituted the violation found by the Fair Employment Practices Commission.

(6) Upon receipt from any person of a complaint of alleged discrimination under any City contract, the City Administrator shall ascertain whether probable cause for such complaint exists. If probable cause for the complaint is found, the Administrator shall request the City Council to hold a public hearing to determine the existence of a discriminatory practice in violation of this contract.

In addition to any other remedy or action provided by law or the terms of this contract, the Contractor agrees, that should the City Council determine after a public hearing duly noticed to the Contractor that the Contractor has not complied with the non-discriminatory employment practices provisions of this contract or has willfully violated such provisions, the City may, without liability of any kind, terminate, cancel or suspend this contract, in whole or in part. In addition, upon such determination the Contractor shall, as a penalty to the City, forfeit a penalty of $25.00 for each calendar day, or portion thereof, for each person who was denied employment as a result of such non-compliance. Such moneys shall be recovered from the Contractor. The City may deduct any such penalties from any moneys due the Contractor from the City.

(7) The Contractor certifies to the City that he has met or will meet the following standards for positive compliance, which shall be evaluated in each case by the City:

(a) The Contractor shall notify all supervisors, foremen and other personnel officers in writing of the content of the non-discrimination provision and their responsibilities under it.

(b) The Contractor shall notify all sources of employee referrals, (including unions, employment agencies, advertisements, Department of Employment) of the content of the non-discrimination provision.

(c) The Contractor shall file a basic compliance report as required by the City. Willful false statements made in such reports shall be punishable as provided by law. The compliance report shall also specify the sources of the work force and who has the responsibility for determining whom to hire, or whether or not to hire.

(d) The Contractor shall notify the City of opposition to the non-discrimination provision by individuals, firms or organizations during the period of this contract.

(8) Nothing contained in this Contractor’s Obligation for Non-discriminatory Employment Certificate shall be construed in any manner to prevent the City from pursuing any other remedies that may be available at law.

(9) (a) In the performance of the work under this contract, the Contractor will include the provisions of the foregoing paragraphs (1) through (8) in all subcontracts and in any supply contract to be performed within the State of California, so that such provisions will be equally binding upon each subcontractor and each supplier.

(b) The Contractor will take such action with respect to any subcontract or purchase order as the City may direct as a means of enforcing such provisions including sanctions for non-compliance; provided, however, that in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction by the City, the Contractor may request the City to enter into such litigation to protect the interests of the City. (Ord. 4465, 1987; Ord. 3500 §1(part), 1972.)

9.126.030 Application.

This chapter shall only apply to contracts entered into following the effective date of the ordinance codified in this chapter, provided that any existing contract which is renewed or extended pursuant to an option shall upon renewal or extension be subject to the terms of this chapter and, as a condition of renewal or extension, such contract shall be revised to incorporate the provisions required by this chapter. (Ord. 3500 §1,(part), 1972.)

2. An Employee pension or deferred compensation retirement plan under circumstances where the Service Contractor offers to make an Employer contribution to the plan of not less than five percent (5%) of the Employee’s average gross monthly wages for the previous twelve (12) months, and where the plan is regulated and recognized by the federal Employee Retirement Income Security Program Act (hereinafter referred to as “ERISA,” 29 USCA §1001 et seq.);

3. Child care or “dependent” care (or monetary assistance for child or dependent care needs) for a dependent(s) of the Employee under circumstances where the cost of the child or dependent care is funded or paid in full by the Employer and where the care is duly licensed and certified by the State. For the purposes of this Chapter, the term “dependent” shall be as that term is used and defined in the federal Internal Revenue Code.

4. The equivalent of Ten (10) Eight (8) hour days of Compensated Leave to the Employee over and above the Compensated Leave as such Compensated Leave is defined in Section 9.128.010(F) hereof.

3. Full-Time and Part-Time Employee Defined. For the purposes of this section, a “full-time” Employee shall mean an employee who has worked for the Service Contractor forty (40) or more hours per week on average for any ten (10) weeks of the previous twelve-week period. Any Employee who is not a full-time Employee is a part-time Employee.

“Compensated Leave” shall mean that the Employee is allowed leave time and is compensated at the same rate of pay which he or she would have received had they worked a regular day of work for each day of leave time used by the Employee.

Nothing herein shall preclude an Employee from imposing a minimum employment period upon the use of compensated leave provided such minimum period is consistent with the requirements of state law. (Ord. 5384, 2006.)

C. EMPLOYEES RECEIVING SUPPLEMENTAL EMPLOYEE BENEFITS IN ADDITION TO BASIC INSURANCE COVERAGE. (Ord. 5384, 2006.)

9.128.030 Supercession by Collective Bargaining Agreement.

The provisions of this Chapter, or any part thereof, may be waived in a bona fide collective bargaining agreement, but only if the waiver is set forth in such collective bargaining agreement in express written terms. Unilateral implementation of terms and conditions of employment by either party to a collective bargaining relationship shall not constitute an express waiver of all or any part of the provisions of this Chapter by the represented employees. (Ord. 5384, 2006.)

9.128.040 Enforcement of Chapter Requirements.

A. COMPLIANCE – CONTRACTUAL OBLIGATION. Every City Service Contract (or any amendment thereto) shall contain express contract provisions requiring the City Service Contractor (as well as all subcontractors, agents, or assignees of the Service Contractor which perform work for the City pursuant to the Service Contract) to comply with the requirements of this Chapter as they exist on the date when the Contractor entered into its Contract or the date when such Contract is amended.

A breach of the applicable requirements of this Chapter, as determined by the City, shall constitute a breach of the Service Contract and may, as shall be expressly provided in all City Service Contracts, be the basis for an immediate termination of the Service Contract in the sole discretion of the City. In the event of a breach of Service Contract for non-compliance with this Chapter, the City may also elect to preclude future City contracts with the non-complying Service Contractor.

B. PAYROLL AND OTHER RECORDKEEPING REQUIREMENTS. City Service Contractors shall maintain adequate payroll, tax, time sheets, personnel, and work records sufficient to allow the City to verify the Contractor’s compliance with the requirements of this Chapter. Such records shall be maintained for a period of two (2) years after the completion of the City’s contract and shall be made available for review by the City upon the City’s request.

C. AUDIT OF PAYROLL AND OTHER RECORDS. The City shall have the right of access to the employee time and work records required by this Section for the purposes of conducting an audit of such records to determine compliance with the requirements of this Chapter during the time the Service Contract is in effect and for a period of two (2) years after the completion of any City Service Contract.

D. PERIODIC CERTIFICATION OF COMPLIANCE. The standard City Service Contract provisions shall also require the Service Contractor to periodically provide an appropriate written certification to the City Finance Department certifying the Contractor’s compliance with the terms of this Chapter in a form deemed appropriate by the City Finance Director and at those regular times deemed appropriate by the Finance Director. Such certification may include copies of the Employee time and work records as the City deems appropriate and necessary to verify the Contractor’s full compliance with the terms of this Chapter.

E. EMPLOYEE PRIVATE RIGHT OF ACTION. Nothing in this Chapter shall be construed to limit an Employee’s right to initiate legal action for a violation of his or her rights under this Chapter. An Employee may bring an action in a court of appropriate jurisdiction of this State for damages caused by a Service Contractor’s violation of the requirements of this Chapter. A final court judgment in favor of an Employee establishing that a Service Contractor has violated the requirements of this Chapter shall be deemed a conclusive determination that the Contractor has violated this Chapter and shall allow the City, at the City’s discretion, to terminate a Service Contract for breach upon not less than five (5) days written notice to the Contractor. (Ord. 5384, 2006.)

9.128.050 Effective Date and Implementation.

9.132.010 Findings.

The City Council finds and declares that:

A. The medical condition known as Acquired Immune Deficiency Syndrome, (commonly known as AIDS/HIV infection), is a deadly communicable disease and has the potential to affect every segment of our City's population.

B. AIDS/HIV infection was first recognized in 1981 by the United States Public Health Service's Center for Disease Control.

C. AIDS, in the opinion of the scientific and medical community, is caused by a virus, known as HIV infection (Human Immunodeficiency Virus) (or in the past, HTLV-III or LAV), which attacks and cripples the body's immune system and neurological system, thereby leaving the body vulnerable to opportunistic infections, certain cancers and neurological diseases.

D. A person afflicted with AIDS/HIV infection can suffer a variety of bacterial, viral, and/or fungal caused illnesses, cancers, protozoan and neurological conditions which debilitate the body resulting in a high mortality rate within several years after diagnosis.

E. The transmission of the virus has occurred through transfer of body fluids, for example blood, blood by-products, body organs and semen. Body fluids can be transferred through intimate sexual contact, through the sharing of hypodermic needles used in drug injections and through to a fetus and/or newborn infant from the mother.

F. No evidence exists to indicate the spread of the virus through casual contact, such as contact at work or at school, through the air or water or through the handling of food by persons having the AIDS virus.

G. Medical studies of family groups in which one or more persons have been diagnosed with AIDS/HIV infection show no spread of the virus except through the exchange of body fluid such as through sexual intimacy, through mother's milk, or through the exchange of blood, such as mother to fetus.

H. A public health danger represented by the HIV virus and its subsequent manifestation as AIDS is caused by the lengthy incubation period during which period an apparently healthy but infected individual may spread the disease to other persons through the transfer of body fluids such as blood, blood by-products, body organs, semen, or vaginal/cervical secretions, perinatally or through the sharing of hypodermic needles used in drug injections.

I. AIDS has been recognized as a national public health emergency with a large proportion of the cases diagnosed in California.

J. AIDS, in the opinion of the scientific and medical community, will continue to increase at a high rate within our City for the foreseeable future.

K. Persons with AIDS, AIDS-related complex (ARC), including persons infected with the HIV virus who may not show AIDS symptoms, or those perceived to fall into one of the above STATED CATEGORIES, are faced with potential discrimination, and such potential for discrimination is sufficient to justify a City ordinance to prohibit those discriminatory practices which are not currently adequately addressed by federal and state law. (Ord. 4758; 1992.)

9.132.020 Purpose and Public Policy.

It is hereby declared as the public policy of the City of Santa Barbara that it is necessary to protect and safeguard the rights and opportunities of persons with AIDS, ARC or HIV infection in respect to discrimination in housing, business establishments, testing, access to medical services and in City facilities and services. (Ord. 4758, 1992.)
9.132.030 Definitions.

A. "AIDS" means Acquired Immune Deficiency Syndrome, a disease complex which occurs when an important part of the human immune system is destroyed by the action of a human immune deficiency virus known as HIV infection and previously referred to as HTLV-III or LAV and as it may be further defined by the United States Public Health Services Center for Disease Control. AIDS is manifested by infections, cancers or neurological diseases. (For purposes of this Chapter, a person is regarded as having AIDS, ARC, or being infected with the virus (HIV infection) that causes AIDS if such person is perceived and treated by an alleged violator of the provisions of this Chapter as having AIDS, ARC, or being infected with the virus that causes AIDS, whether such medical condition exists or not.)

B. "ARC" means AIDS-related complex. ARC occurs when the human immune system is weakened by the AIDS virus, and such conditions as enlarged lymph-nodes, fever, weight loss, malaise, and chronic diarrhea result. ARC may develop into AIDS.

C. "Business Establishment" includes any entity, however organized, which furnishes goods or services, including educational services, or accommodations to the general public; including any entity which has a membership requirement if its membership requirement consists only of the payment of a membership fee and a substantial number of residents within the City of Santa Barbara could qualify.

I. "Housing Services" shall mean services otherwise provided by the owner of any housing accommodations to persons renting or leasing such housing accommodation, including but not limited to, utilities such as light, heat, water and telephone; ordinary repairs or replacement, and maintenance, including painting; elevator services, laundry facilities and privileges, the use of common recreational facilities, janitorial services, resident manager, refuse removal, furnishings, food service, parking and other benefits, privileges or facilities provided.

A. It shall be unlawful for any owner of any housing accommodation or housing service to discriminate against any person because such person has AIDS, ARC or HIV infection.

B. Nothing in this Section shall:
   1. Apply to any housing accommodation in which the owner or any member of his or her family occupies the same housing accommodation in common with the prospective tenant. This exception shall not apply where the owner occupies a separate apartment, condominium or other housing unit in a multiple-unit complex.
   2. Permit or require the rental or occupancy of any housing accommodation otherwise prohibited by law.
   3. Otherwise interfere with any just cause for an owner to evict a person from any housing accommodation or permit the delay of any unlawful detainer action.
   4. Require the renting of any housing accommodation reserved for the housing of students to non-student persons with AIDS, ARC or HIV infection. (Ord. 4758, 1992.)

9.132.050 Business Establishments.

It shall be unlawful for any person to deny any person the full and equal enjoyment of the goods, services, facilities, privileges, advantages and accommodations of any business establishment on the grounds that such person has AIDS, ARC or HIV infection. (Ord. 4758, 1992.)
9.132.060 Medical Services.

It shall be unlawful for any paid or unpaid professional, or medical establishment, or institution, public or private, to deny any person full and equal medical services, advantages or accommodations based upon the grounds that such person has AIDS, ARC or HIV infection. (Ord. 4758, 1992.)

      b. To limit, segregate, or classify employees or applicants for employment in any way which would deprive or tend to deprive any person of employment opportunities or otherwise adversely affect any person's status as an employee, on the basis that such person has AIDS, ARC or HIV infection.
   2. For an employment agency to fail or refuse to refer for employment, or otherwise to discriminate against, any person, or to classify or refer for employment any person on the basis that such person has AIDS, ARC or HIV infection.
   3. For a labor organization:
      a. To exclude or to expel from its membership or otherwise to discriminate against, any person on the basis that such person has AIDS, ARC or HIV infection;
      b. To limit, segregate, or classify its membership or applicants for membership, or to classify or fail or refuse to refer for employment any person, in any way which would deprive or tend to deprive any person of employment opportunities, or would limit such employment opportunities or otherwise adversely affect a person's status as an employee or as an applicant for employment, on the basis that such person has AIDS, ARC or HIV infection; or
      c. To cause or attempt to cause an employer to discriminate against any person in violation of this Section.

B. Notwithstanding any other provision of this Chapter, it shall not be unlawful:
   1. For an employer to hire, employ, discharge, retire and reassign employees, for an employment agency to classify, or to refer for employment any person, for a labor organization to classify its membership or to classify or refer for employment any person, or for any employer, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining programs to admit or employ any person in any such program, on the basis that such person has AIDS, ARC or HIV infection in those certain instances where the employer can show that the absence of AIDS, ARC or HIV infection is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise.
   2. For an employer to apply different standards of compensation, or different terms, conditions, or privileges of employment pursuant to a bona fide seniority or merit system, or a system which measures earnings by quantity or quality of production or to employees who work in different locations, provided that such differences are not the result of an intention to discriminate against a person on the basis that such person has AIDS, ARC or HIV infection.
   3. For an employer to give and to act upon the results of any professionally developed ability test provided that such test, its administration or action upon the results of such tests is not designed, intended or used to discriminate against a person on the basis that such person has AIDS, ARC or HIV infection. (Ord. 4758, 1992.)
9.132.090 Advertising.

It shall be unlawful to make, print, publish, advertise or disseminate in any way, or cause to be made, printed, published, advertised or disseminated in any way, any notice, statement, sign, advertisement, application or contract which indicates an intent to engage in any practice made unlawful by this Chapter. (Ord. 4758, 1992.)

9.132.100 Testing.

A. It shall be unlawful for any person to require another person to take any test or undergo any medical procedure that may be useful to determine that a person has AIDS or ARC or HIV infection.

B. Nothing in this Chapter shall prohibit any act which is necessary to protect the health or safety of the general public. If a party to any action brought under this Chapter asserts that an otherwise discriminatory practice is justified as necessary to protect the health or safety of the general public, that party shall have the burden of proving:
   1. that the discrimination is in fact a necessary result of a necessary course of conduct pursued to protect the health or safety of the general public; and
   2. that there exists no less discriminatory means of satisfying the necessary protection of the health or safety of the general public. (Ord. 4758, 1992.)

D. Nothing in this Chapter shall preclude any aggrieved person from seeking any other remedy provided by law.

E. An action arising under this Chapter shall not be rendered moot because of the death or physical or mental incapacity of the person who was the subject of the claimed discrimination.

9.140.015 Legislative Purpose.

The purpose of this chapter is to protect the health and welfare of the general public and to promote safer and more efficient traffic flow by reasonably regulating the time, place, and manner of the solicitation of employment, business, or contributions of money or other property from pedestrians and occupants of vehicles on public streets. These regulations are intended to be content neutral and are not intended to restrict the right of free speech or alternative channels of such communication in other areas. (Ord. 5414, 2007.)

A. SOLICITATIONS BY PEDESTRIANS. Chapter 9.145

LOWEST LAW ENFORCEMENT PRIORITY POLICY ORDINANCE

Sections:
9.145.010 Title. 9.145.060 Community Oversight.
9.145.020 Purpose. 9.145.070 Notification of Federal and State
Policy.

9.145.010 Title.

This chapter shall be known as the Lowest Law Enforcement Priority Policy Ordinance. (Approved by election held November 7, 2006.)

9.145.020 Purpose.

The purpose of this chapter is:
A. To make investigations, citations, arrests, property seizures, and prosecutions for adult marijuana offenses, where the marijuana was intended for adult personal use, the city of Santa Barbara's lowest law enforcement priority; and
B. To transmit notification of the enactment of this initiative to state and federal elected officials who represent the city of Santa Barbara. (Approved by election held November 7, 2006.)

9.145.030 Findings.

A. The federal government's war on drugs has failed.
B. Santa Barbara should determine its marijuana policies locally, not hand them over to the federal Drug Enforcement Administration.
C. Otherwise law-abiding adults are being arrested and imprisoned for nonviolent marijuana offenses, which is clogging courts and jails in California.
D. Each year, California spends more than $150 million of taxpayer money enforcing marijuana laws.
E. Law enforcement resources would be better-spent fighting serious and violent crimes.
F. Making adult marijuana offenses Santa Barbara's lowest law enforcement priority will reduce the city's spending on law enforcement and punishment.
G. Decades of arresting millions of marijuana users have failed to control marijuana use or reduce its availability.
H. Current marijuana policies continue to needlessly harm medical marijuana patients, despite the passage of Proposition 215, which affirmed California voters' support for medical marijuana. (Approved by election held November 7, 2006.)

9.145.040 Definitions.

For the purposes of this chapter, the following words and phrases shall have the meanings respectively ascribed to them by this section:
A. "Adult" means an individual who is 21 years of age or older.
B. "Santa Barbara law enforcement officer" means a member of the Santa Barbara Police Department or any other city agency or department that engages in law enforcement activity.
C. "Lowest law enforcement priority" means a priority such that all law enforcement activities related to all offenses other than adult, personal-use marijuana offenses shall be a higher priority than all law enforcement activities related to marijuana offenses, where the marijuana was intended for adult personal use, other than the exceptions designated in this chapter.
D. "Marijuana" means all parts of the cannabis plant, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or its resin. (Approved by election held November 7, 2006.)

9.145.050 Lowest Law Enforcement Priority Policy.

A. Santa Barbara law enforcement officers shall make law enforcement activity relating to marijuana offenses, where the marijuana was intended for adult personal use, their lowest law enforcement priority. Law enforcement activities relating to marijuana offenses include, but are not limited to, investigation, citation, arrest, seizure of property, or providing assistance to the prosecution of adult marijuana offenses.
B. This lowest law enforcement priority policy shall not apply to use of marijuana on public property or driving under the influence.

C. The lowest law enforcement priority policy shall apply to cooperating with state or federal agents to arrest, cite, investigate, prosecute, or seize property from adults for marijuana offenses included in the lowest law enforcement priority policy.

D. Santa Barbara law enforcement officers shall not accept or renew formal deputization or commissioning by a federal law enforcement agency if such deputization or commissioning will include investigating, citing, arresting, or seizing property from adults for marijuana offenses included in the lowest law enforcement priority policy.

E. Santa Barbara shall not accept any federal funding that would be used to investigate, cite, arrest, prosecute, or seize property from adults for marijuana offenses included in the lowest law enforcement priority policy. (Approved by election held November 7, 2006.)

9.145.060 Community Oversight.

A. The committee will be composed of two city residents; one criminal defense attorney; one civil liberties advocate; one medical marijuana patient; one medical professional; and one drug abuse, treatment, and prevention counselor, each of whom shall be appointed by the Santa Barbara mayor. The committee members shall serve at the pleasure of the Santa Barbara mayor, who shall appoint replacement committee members on an as-needed basis. The Santa Barbara Police Department, the Santa Barbara County Public Health Department, and the Santa Barbara County District Attorney's Office shall each send one representative as a nonvoting liaison to each of the committee's meetings.

B. Responsibilities of the committee shall include:

1. ensuring timely implementation of this chapter, with the cooperation of the Santa Barbara County District Attorney's Office, the Santa Barbara Police Department, and any other Santa Barbara law enforcement agencies in providing needed data;

2. receiving any grievances from individuals who believe they were subjected to law enforcement activity contrary to the lowest law enforcement priority policy;

3. designing a supplemental report form for Santa Barbara law enforcement officers to use to report all adult marijuana arrests, citations, and property seizures and all instances of officers assisting in state or federal arrests, citations, and property seizures for any adult marijuana offenses. The supplemental report form shall be designed with the goal of allowing the committee to ascertain whether the lowest law enforcement priority policy was followed;

4. requesting additional information from any Santa Barbara law enforcement officer who engaged in law enforcement activity relating to one or more marijuana offenses under circumstances which appear to violate the lowest law enforcement priority policy. An officer's decision not to provide additional information shall not be grounds for discipline; and

5. submitting written reports semiannually to the Santa Barbara City Council on the implementation of this ordinance, with the first report being issued nine months after the enactment of this chapter. These reports shall include, but not necessarily be limited to: the number of all arrests, citations, property seizures, and prosecutions for marijuana offenses in Santa Barbara; the breakdown of arrests and citations by race, age, specific charge, and classification as infraction, misdemeanor, or felony; any instances of law enforcement activity that the committee believes violated the lowest law enforcement priority policy; and the estimated time and money spent by the city on law enforcement and punishment for adult marijuana offenses.

C. Santa Barbara law enforcement officers shall submit to the committee a supplemental report within two weeks after each adult marijuana arrest, citation, or property seizure or instance of assisting in a state or federal arrest, citation, or property seizure for any adult marijuana offense in Santa Barbara. (Approved by election held November 7, 2006.)

Beginning three months after the enactment of this chapter, the city clerk shall execute a mandatory and ministerial duty of sending letters on an annual basis to Santa Barbara voters' U.S. representative or representatives, both of California's U.S. senators, Santa Barbara voters' senators and Assembly members in the California State Legislature, the governor of California, and the president of the United States. This letter shall state, "The citizens of Santa Barbara have passed an initiative to de-prioritize adult marijuana offenses, where the marijuana is intended for personal use, and request that the federal and California state governments take immediate steps to enact similar laws." This duty shall be carried out until state and federal laws are changed accordingly. (Approved by election held November 7, 2006.)

9.145.080 Enforceability.

All sections of this chapter are mandatory. If any provision of this chapter is not carried out properly, any person who is registered to vote in Santa Barbara may seek a writ of mandate to ensure the law is fully implemented. (Approved by election held November 7, 2006.)
9.145.090 Severability.

If any provision of this chapter or the application thereof to any person or circumstance is held invalid, the remainder of the chapter and the application of such provisions to other persons or circumstances shall not be affected thereby. (Approved by election held November 7, 2006.)

The Transportation Engineer is authorized to place distinctive roadway markings as described in Section 525.2(21459) of the Vehicle Code on those streets or parts of streets where the volume of traffic, alignment or width of the roadway renders it hazardous to drive on the left side of such markings or signs and markings. Such markings or signs and markings shall have the same effect as set forth in Section 525.2(21459) of the Vehicle Code. (Ord. 2713 §1(part), 1959; prior Code §31.26.)

(Ord. 2713 §1(part), 1959; prior Code §31.35.)

#### 10.16.020 Obedience to Stop Signs at Intersections.

When stop signs are erected as provided, at the entrance to any intersection, every driver of a vehicle shall stop at every such sign, before entering the intersection. (Ord. 2713 §1(part), 1959; prior Code §31.36.)

2. A traffic signal is in operation and indicates that traffic may proceed.
3. The operator turns right into a highway from a separate right turn lane which lane is delineated by buttons, markers, or channelization, and no stop sign is in place at the intersection of such separate right turn lane and such highway. (Ord. 2713 §1(part), 1959; prior Code §31.37.)

#### 10.16.040 Emerging from Alley or Private Driveway.

The driver of a vehicle emerging from an alley, driveway or building shall stop such vehicle immediately prior to driving onto a sidewalk or into the sidewalk area extending across any alley-way, yielding the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway. (Ord. 2713 §1(part), 1959; prior Code §31.38.)

#### 10.16.050 Obedience to Signal Indicating Approach of Railroad Train.

Whenever any person driving a vehicle approaches a railroad grade crossing under any of the following circumstances stated in this section, the driver of such vehicle shall stop within fifty feet (50') but not less than ten feet (10') from the nearest rail of such railroad, and shall not proceed until he can do so safely. The foregoing requirements shall apply when:

1. A clearly visible electric or mechanical signal device gives a warning of the immediate approach of a railroad train.
2. A crossing gate is lowered or when a human flagman gives or continues to give signal of the approach or passage of a railroad train.
3. An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.
4. No person shall drive any vehicle through, around, or under any crossing gate or barrier at a railroad grade crossing while such gate or barrier is closed or is being opened or closed. (Ord. 2713 §1(part), 1959; prior Code §31.39.)

Pursuant to Section 22357 and 22358 of the Vehicle Code, the City Council hereby determines, upon the basis of engineering and traffic investigation, that a speed greater than 25 miles per hour would be reasonable and safe upon the streets designated in Section 10.60.015 of this Code which are otherwise subject to a prima facie speed limit of 25 miles per hour under the said Vehicle Code, and that the maximum limit of 55 miles per hour is more than is reasonable and safe upon the streets designated in Section 10.60.015, which are otherwise subject to a maximum speed limit of 55 miles per hour under the said Vehicle Code. The Public Works Department is hereby authorized and directed to establish appropriate signs giving notice of the prima facie speed limits established by Section 10.60.015. (Ord. 4069, 1980.)

10.58.100 Public Hearing - Request.

Upon request by the owner of the vehicle or owner of the land received by the City Administrator within 10 days after the mailing of the notices of intention to abate and remove, a public hearing shall be held by the City Council on the question of abatement and removal of the vehicle or parts thereof as an abandoned, wrecked, dismantled or inoperative vehicle, and the assessment of the administrative costs and the cost of removal of the vehicle or parts thereof against the property on which it is located.

If the owner of the land submits a sworn written statement denying responsibility for the presence of the vehicle on his land within such 10-day period, said statement shall be construed as a request for a hearing which does not require his presence. Notice of the hearing shall be mailed, by registered or certified mail, at least 10 days before the hearing to the owner of the land and to the owner of the vehicle, unless the vehicle is in such condition that identification numbers are not available to determine ownership. If such a request for hearing is not received within said 10 days after mailing of the notice of intention to abate and remove, the City shall have the authority to abate and remove the vehicle or parts thereof as a public nuisance without holding a public hearing. (Ord. 3609, 1973.)

10.58.110 City Council to Conduct Hearing - Decision.

All hearings under this chapter shall be held before the City Council which shall hear all facts and testimony it deems pertinent. The facts and testimony may include testimony on the condition of the vehicle or parts thereof and the circumstances concerning its location on the private property or public property. The City Council shall not be limited by the technical rules of evidence. The owner of the land on which the vehicle is located may appear in person at the hearing or present a written statement in time for consideration at the hearing, and deny responsibility for the presence of the vehicle on the land, with his reasons for such denial.

The City Council may impose such conditions and take such other actions as it deems appropriate under the circumstances to carry out the purpose of this chapter. It may delay the time for removal of the vehicle or parts thereof if, in its opinion, the circumstances justify it. At the conclusion of the public hearing, the City Council may find that a vehicle or parts thereof has been abandoned, wrecked, dismantled, or is inoperative on private or public property and order the same removed from the property as a public nuisance and disposed of as hereinafter provided and determine the administrative costs and the cost of removal to be charged against the owner of the land. The order requiring removal shall include a description of the vehicle or parts thereof and the correct identification number and license number of the vehicle, if available at the site.

If it is determined at the hearing that the vehicle was placed on the land without the consent of the owner of the land and that he has not subsequently acquiesced in its presence, the City Council shall not assess the costs of administration or removal of the vehicle against the property upon which the vehicle is located or otherwise attempt to collect such costs from such owner of the land.

If the owner of the land submits a sworn written statement denying responsibility for the presence of the vehicle on his land but does not appear, or if an interested party makes a written presentation to the City Council but does not appear, he shall be notified in writing of the decision. (Ord. 3609, 1973.)
10.58.120 Removal After Notice.

Five (5) days after adoption of the order declaring the vehicle or parts thereof to be a public nuisance, five (5) days from the date of mailing of notice of the decision if such notice is required by Section 10.58.010, the vehicle or parts thereof may be disposed of by removal to a scapyard or automobile dismantler's yard, or any suitable site operated by a local agency. After a vehicle has been removed it shall not thereafter be reconstructed or made operable. (Ord. 3609, 1973.)

10.58.130 Notice of Removal to Department of Motor Vehicles.

Within five (5) days after the date of removal of the vehicle or parts thereof, notice shall be given to the Department of Motor Vehicles identifying the vehicle or parts thereof removed. At the same time there shall be transmitted to the Department of Motor Vehicles any evidence of registration available, including registration certificates, certificates of title and license plates. (Ord. 3609, 1973.)

10.58.140 Refusal to Remove.

It is unlawful for any person to fail or refuse to remove an abandoned, wrecked, dismantled or inoperative vehicle or part thereof or refuse to abate such nuisance when ordered to do so in accordance with the abatement provisions of this chapter of State law where such State law is applicable. (Ord. 3338 §1(part), 1968.)

10.58.150 Assessment.

The Council may annually, at, or prior to, the time the levy is made, or at such other time as it shall determine, transfer to the bond fund or to the maintenance fund such amount or amounts as it shall determine. (Ord. 4062, 1980.)
10.70.880 Public Property.

If the special assessment formula so provides, public property (other than tax-deeded property), whether or not used in the performance of a public function, shall be exempt from the levy of special assessments under this chapter. (Ord. 4062, 1980.)

10.70.890 Omitted Property.

If any parcel of property is omitted from the tax roll for any year, it shall be added at the end of the roll and assessed as contained in the report. If any property is omitted in any such report it shall be assessed for the omitted amount in the next year after said omission is discovered, and appropriate provisions shall be made in the report for said year. (Ord. 4062, 1980.)

10.70.900 Reassessment.

When any court of competent jurisdiction or the Council, of its own volition, determines that any levy of special assessment pursuant to this chapter is void, invalid or unenforceable for any reason, or any court, for any reason, enjoins the collection of any such special assessment, the Council may levy a reassessment.

The engineer's report on reassessment shall be prepared and filed on order of the Council, notice given, hearing held and reassessment levied and confirmed, all in the same manner as the original special assessment, as nearly as may be, except that the formula to be used in the determination of benefits or the properties subject to special assessment, or both, may be other and different from that provided in the original report, if required in order to be consistent with the determinations and orders of the Council and/or court.

The reassessment shall be collected in the same manner as the original special assessment, except that it is levied too late for inclusion in regular city tax bills, it shall be collected on special bills to be prepared and mailed and collected in the same manner as regular tax bills. Section 10.70.850 shall apply just as if regular city tax bills were used.

The reassessment provisions of this section are alternative to the reassessment provisions elsewhere contained in this chapter.

If any reassessment levied under this section or any other part of this chapter is held invalid for any reason, the Council may conduct additional reassessment proceedings under this chapter, or any state law, to the end that the cost of the project is paid by the properties benefited thereby. (Ord. 4062, 1980.)

The lien of any reassessment shall attach at the same time and have the same priority as the lien of the original special assessment. (Ord. 4062, 1980.)

10.70.920 Security for Existing Bonds.

If any invalidity is not in the bonds themselves or in the issuance thereof, the Council may so declare and conduct a reassessment proceeding in the same manner as the proceedings for the formation of the original district, but without the issuance of new bonds. In such event, the reassessment proceedings shall constitute the proceedings providing a legal authority for the issuance of the outstanding bonds, and the bond fund created in any such reassessment proceeding shall constitute a trust fund for their payment. (Ord. 4062, 1980.)

10.70.930 Exchange of Existing Bonds.

If the invalidity is in the bonds themselves or in the issuance thereof, or if the Council shall so determine in the reassessment proceedings, new bonds shall be issued and exchanged for the outstanding bonds. The new bonds shall mature in the amounts and at the times provided for the outstanding bonds, as nearly as may be.

If the Council shall so determine, it may assign different bonds and allot maturities as it shall deem equitable. (Ord. 4062, 1980.)

10.70.960 Assessment Levy for Unsold Bonds; Use of Proceeds.

Chapter 5 (commencing with Section 5400), Division 6, Title 1 of the Government Code of the State of California shall apply to bonds issued pursuant to this chapter, except that the proceeds referred to in Section 5404 of the Government Code shall be used only for some purpose which is of special benefit to the district, including, but not limited to, the payment of or reimbursement for such of the costs and expenses shown in the report as have already been paid or incurred for the benefit of the district and which could have been included in determining the amount of bonds to be issued, or the payment of principal of or interest on bonds previously issued on behalf of the district. (Ord. 4062, 1980.)

Whenever the proceedings for the formation of the district and levy of special assessments have been conducted on the basis that bonds are not to be issued, annual special assessments may be levied and collected in the amounts, and in the manner provided in sections 10.70.980 to 10.70.990, inclusive. All of the provisions of sections 10.70.900 to 10.70.950, inclusive, except insofar as they relate to bonds, shall apply to special assessments collected under this article. (Ord. 4062, 1980.)

10.70.1000 Constitutionality.

If any article, section, subsection, sentence, clause, phrase or word of this chapter is held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this chapter. 14.20.215 Water Use Regulations During Water Shortage Conditions.

A. WATER SHORTAGE CONDITIONS. A Stage One Water Shortage Condition, a Stage Two Water Shortage Condition and a Stage Three Water Shortage Condition are defined as short-term conditions declared by resolution of the City Council upon being advised by staff that projected water supply conditions warrant response measures consistent with those associated with corresponding stages in the City’s adopted Water Shortage Contingency Plan. The Council resolution may identify and refer to such short-term conditions in terms or titles specific to the current water shortage.

B. REGULATIONS DURING WATER SHORTAGE CONDITIONS. Upon adoption by the City Council of a resolution declaring a Stage One Water Shortage Condition, a Stage Two Water Shortage Condition or a Stage Three Water Shortage Condition, or such other titles as may be selected by Council pursuant to subsection A, the City Council may adopt a resolution containing such rules and regulations as necessary to restrict and regulate use of water from the City’s water supply system in order to protect the public health and safety. Failure of any person or entity to comply with such rules and regulations as adopted by resolution of the City Council is a violation of this Code subject to the remedies and penalties provided herein and as provided by Chapter 1.28 and as otherwise provided by law.

C. EXEMPTIONS. Exemptions to the water use regulations set forth by City Council resolution during a declared Stage One, Stage Two or Stage Three Water Shortage Condition may be granted by the Public Works Director for specific uses of water on the basis of factually demonstrated need or undue hardship and in accordance with guidelines for exemptions as may be determined by the Public Works Director. If the Public Works Director denies a request for an exemption for a specific water use, a written request for reconsideration may be made to the Board of Water Commissioners. The decision of the Water Commission shall be final.

D. Upon the declaration of and during a Water Shortage Condition, the failure of a mobilehome park owner to introduce water into a swimming pool or spa located in a mobilehome park, in accordance with the City Council resolution, shall not be considered an increase in "rent" for purposes of Municipal Code Section 26.08.030.N.

(Ord. 5653, 2014; Ord. 4558, 1989.)

14.20.225 Violations.

B. Where the failure to comply with this Chapter is continuing and reasonably preventable by the person or entity failing to comply, each successive hour of such failure to comply shall be a separate and distinct violation.

(Ord. 5653, 2014; Ord. 4558, 1989.)

14.20.226 Penalties and Charges.

A. In addition to the penalties and other methods of enforcement provided in Santa Barbara Municipal Code Chapter 1.28, the following penalties may also be applied to any violation of any provision of this Chapter:

1. For the first violation within the preceding twelve (12) calendar months, the Director shall issue a written notice of the fact of such violation.

2. For a second violation within the preceding twelve (12) calendar months, the Director shall impose a penalty on the bill of the Account Holder for the property where the violation occurred or is occurring, in an amount not to exceed two-hundred and fifty dollars ($250.00).

   a. Shall impose a penalty on the bill of the Account Holder for the property where the violation occurred or is occurring, in an amount not to exceed two-hundred and fifty dollars ($250.00); and
   b. May install a flow restrictor on or shut off water service to the property where the violation occurred or is occurring, for a period to be determined by the Director.

B. If a flow restrictor is installed or water service shut off pursuant to subsection A of this section, prior to restoration of normal water service the Account Holder whose service is affected shall be required to reimburse the City for all costs it has incurred and will incur in installing and removing a flow restricter and in shutting off and turning on water service.

C. Any penalty imposed pursuant to this Section shall be added to the account of the Account Holder for the property where the violation occurred or is occurring and shall be due and payable on the same terms and subject to the same conditions as any other charge for regular water service.

(Ord. 5653, 2014; Ord. 4558, 1989.)
14.20.227 Notice of Violation - Hearing.

A. For each violation of this Chapter, the Director shall give notice as follows:
   1. By sending written notice through the U.S. mail to the Account Holder for the property where the violation occurred or is occurring, at the current billing address shown in the City's water billing records; and
   2. By personally giving written notice thereof to the person who committed the violation or by leaving written notice with some person of suitable age and discretion at the property where the violation occurred or is occurring; or

   6. The Account Holder's loss of the right to a hearing in the event the Account Holder fails to request a hearing within the time required.

C. Any Account Holder provided a notice of violation in accordance with the provisions of this Chapter shall have the right to request a hearing. The request must be made in writing and must be received by the Director within ten (10) calendar days of the date of the notice of violation. The Director shall conduct the hearing, at which both written and oral evidence may be presented, and shall decide whether a violation occurred and the appropriate penalty. In determining the appropriate penalty, the Director shall consider whether the Account Holder knew of the violation at the time it occurred and whether he or she took reasonable action to correct the violation upon notification of it. In addition, the Director shall exercise his or her discretion in accordance with such guidelines as the City Council may adopt by resolution.

   1. For a first, second or third violation within a twelve (12) month period, the decision of the Director shall be final.

   2. For a fourth or subsequent violation within a twelve (12) month period, the Account Holder shall have the right to appeal the decision of the Director by requesting a hearing before the Board of Water Commissioners ("Board"). At the hearing, the Board may receive and hear both written and oral evidence and shall have the authority to affirm, reverse, or modify the decision of the Director. The decision of the Board shall be final.

D. If an Account Holder fails to request a hearing before the Director or the Board within the period(s) provided in this Section, the action of the Director shall be deemed final.

WATER EFFICIENT LANDSCAPE AND RECLAIMED WATER USE REGULATIONS

Sections:
14.23.008 Water Efficient Landscapes, Purpose.
14.23.009 Regulation of New or Altered Landscapes.
14.23.010 Policy - Reclaimed Water.
14.23.030 Determination, Time Schedule for Compliance, Review.

14.23.008 Water Efficient Landscapes, Purpose.

The California State Legislature has found that the limited supply of state waters are subject to ever increasing demands; that California's economic prosperity depends on adequate supplies of water; that state policy promotes conservation and efficient use of water; that landscapes provide recreation areas, clean the air and water, prevent erosion, offer fire protection, and replace ecosystems displaced by development; and that landscape design, installation, and maintenance can and should be water efficient.

Consistent with the legislative findings, the purpose of this ordinance is to promote the values and benefits of landscapes while recognizing the need to invest water and other resources as efficiently as possible; to establish a structure for designing, installing, and maintaining water efficient landscapes in new projects; and to establish provisions for water management practices and water waste prevention for established landscapes. (Ord. 4787, 1992.)

14.23.009 Regulation of New or Altered Landscapes.

Each development proposal that proposes new landscaping or alterations to existing landscaping and that is subject to review by the Architectural Board of Review, the Historic Landmarks Commission, or the Single Family Design Board shall be required to comply with the City's Landscape Design Standards for Water Conservation as adopted by resolution of the City Council. (Ord. 5460, 2008; Ord. 4787, 1992.)

14.23.010 Policy - Reclaimed Water.

It is the policy of the City of Santa Barbara that reclaimed water be used wherever it is available in conformance with California Water Code Sections 13550 and 13551. (Ord. 4485, 1987)

A person or public agency, as used in California Water Code Section 13551, shall not use water from any source of quality suitable for potable domestic use for the irrigation of greenbelt areas when suitable reclaimed water is available as provided in Section 13550. (Ord. 4485, 1987)

14.23.030 Determination, Time Schedule for Compliance, Review.

The Public Works Director shall review the facts and make a preliminary determination pursuant to California Water Code Section 13550 if a parcel or parcels of land are required to comply with Section 14.23.020 and establish a time schedule for compliance. A notice of that preliminary determination and a time schedule for compliance shall be sent to the owner of the parcel(s) using for this purpose, the last known name and address of such owners as shown upon the last Assessment Roll of the County of Santa Barbara. Any notice by the Public Works Director under this Section shall be deemed given when properly addressed and deposited into the United States mail with postage fully pre-paid or personally delivered to the owner. The owner may file a notice of objection which must be in writing, must specify the reasons for the objections and must be filed with the Public Works Director within twenty (20) days after it is given or mailed to the owner. The preliminary determination and time schedule for compliance shall be final if the owner does not file a timely objection. The Public Works Director or his designee shall meet with the owner to attempt to resolve the objections. If the objections cannot be re-solved to the mutual satisfaction of the City and owner, the Public Works Director shall give the owner a final determination and make a request that the Regional Water Quality Control Board and any other appropriate agencies conduct a hearing to determine if the parcel or parcels must use reclaimed water pursuant to Water Code Sections 13550 and 13551. (Ord. 4485, 1987)

Chapter 14.28
WATER MAIN EXTENSIONS

14.28.010 Water Main Extension - Standard Size.

Water mains extended pursuant to this chapter shall be a standard pipe size of not less than eight inches (8") in diameter when further future extension of such mains is practical and feasible. (Ord. 3933 §2, 1977; Ord. 2931, 1963; prior Code §44.61.)

Owners of real property within and without the City desiring to have the City water system extended in accordance with the provisions of this chapter shall make written application therefor to the Director stating the location and limits of the requested water main extension together with a description of their property. The Director shall investigate each application and report to the City Administrator: (1) The feasibility and the practicality of the requested extension, (2) The estimated cost thereof including easement acquisition, fire hydrants and all other incidental expense, and (3) The proposed City contribution to the extension cost, if any; in determining the City's contribution, factors which may be taken into consideration are: zoning, land use, nature of terrain, nature of business and development of abutting property. The estimated extension cost shall be based upon the average cost of extending and laying water mains of the same size and type in the three (3) fiscal years immediately preceding the request as determined from cost records maintained by the City for said fiscal years. The petitioners may within ten (10) days from the date of receipt of the estimate from the Director, petition the City Council for reconsideration of the cost distribution. The City Council shall determine if the distribution of costs was made in accordance with the facts; shall review any additional facts presented by the petitioner; and shall, by appropriate motion confirm or reject the cost distribution. (Ord. 2931 §2(part), 1963; prior Code §44.62.)

14.28.030 To be Within Certain Boundaries.

All water main extensions as are mentioned in Section 14.28.020 shall be within the boundary lines of a public street or a recorded easement to the City. (Ord. 2931 §2(part), 1963; prior Code §44.63.)

After the application of the property owner requesting a water main extension together with the report from the Director as set forth in Section 14.28.020 has been received, the City Administrator may authorize the construction of the water main extension by public contract, by City forces or by private contract by the applicant subject to the approval of the applicant's plans and specifications and inspection by the Santa Barbara Public Works Department or subject to a deposit of the applicant's cost if constructed by public contract or City forces. Provided, however, the City Administrator shall not authorize the construction of any water main extension when the City's contribution to the project cost shall exceed twenty-five percent (25%) of the total project cost, unless such cost in excess of twenty-five percent (25%) is directly attributable to system improvement over and above that necessary to serve the abutting property directly benefited by the water main extension. Should the City's contribution exceed twenty-five percent (25%) of the project cost for which there is no system betterment other than that to the property directly benefited, approval for construction shall be authorized by the City Council. (Ord. 2931 §2(part), 1963; prior Code §44.64.)
14.28.050 Cost Distribution.

After the Department has received the deposit from the applicant for the main extension cost the Director shall prepare construction plans and specifications for main extension approved pursuant to Section 14.28.040, and cause the main extension to be constructed by force account, public contract, or, upon payment of engineering, inspection and incidental costs by applicant, authorize applicant to construct the approved main extension by private contract in lieu of deposit provisions of this section. (Ord. 2931 §2(part), 1963; prior Code §44.65.)

Upon completion and acceptance of the work by the City, performed pursuant to the provisions of this chapter, the Director shall prepare a statement of: (1) the final cost of the water main extension, and (2) the pro-rated distribution of such cost to the benefited properties. The cost distribution shall be made on either an area, building site, or frontage basis or a combination thereof as may be determined to be the most equitable basis by the Director. For purposes of contributions, cost distribution and refunds for mains extended by City forces, the Director shall use the average cost as defined in Section 14.28.020. (Ord. 2931 §2(part), 1963; prior Code §44.66.)

14.28.070 City Contribution for Oversize Mains.

A water main installed pursuant to an application under this chapter may be of larger size than the required standard pipe size of eight inches (8") in diameter when directed or approved by the Director of Public Works. The City shall pay the additional cost for the installation of the approved water mains of a larger size than the required standard pipe size of eight inches (8") in diameter. (Ord. 3933 §2, 1977; Ord. 2931, 1963; prior Code §44.67.)

14.28.080 Filing of Final Cost Sheet - Disposition of Deposit.

Upon compliance with the provisions of Section 14.28.060, the Director shall file the final cost sheet with the office manager-accountant and a copy forwarded to the applicant. (Ord. 2931 §2(part), 1963; prior Code §44.68.)

14.28.090 Connections for Non-Contributors to Cost Prohibited.

The owners of benefited property or their predecessors in interest, as shown on the final cost sheet filed by the Director, who have not theretofore contributed their proportionate share of the water main extension, as recorded on the final cost sheet, shall not be permitted to connect to such water main extension unless and until the amount recorded on the final cost sheet has been paid to the City. (Ord. 2931 §2(part), 1963; prior Code §44.69.)

14.28.100 Contributors to Cost by Owners of Existing Private Lines.

No property owner in a water main extension area formed pursuant to this chapter who has, previous to such water main extension, constructed a private water line to or for his property, at his own expense, shall be required to contribute to the cost of such water main extension, except where the private water line is abandoned and connection to the main extension is requested. Such property owner, or his successor in interest, shall pay the amount so determined before connecting his property to the water main extension. (Ord. 2931 §2(part), 1963; prior Code §44.70.)

14.28.110 Extension Charges Governed by Previous Ordinances.

Applicants requesting connection to a water main installed under the provisions of this title shall pay the water main extension charge set forth in the current ordinance as a condition precedent to the granting of a connection permit. (Ord. 2931 §2(part), 1963; prior Code §44.71.)

14.28.120 Extension Charges to be Levied for Connection to Existing Water Mains.

Applicants requesting connection to an existing water main installed subsequent to August 25, 1946, and financed in whole or in part from City funds, and where such applicant or his predecessor in interest of the land to be served has not paid a water main extension charge with respect to such water main, shall pay an extension charge to the City before the application may be approved. Replacement of any City water main existing on August 25, 1946, shall be deemed to constitute a main installed prior to such date. The extension charge shall be computed by the Director as provided in this chapter for a new main extension. The charge under this section is in addition to any permit, meter or connection fees and other regular charges made under this title or other ordinances. The charges collected pursuant to this section shall be credited to the proper revenue account in accordance with standard accounting practice. (Ord. 2931 §2(part), 1963; prior Code §44.72.)
14.28.130  Water Main Extension Recovery Trust Account.

Collection, pursuant to Sections 14.28.090 - 14.28.110 shall be credited to a Water Main Extension Recovery Trust Account on the general books of the City. Charges against this account shall be made only pursuant to the provisions of Sections 14.28.140 and 14.28.150. (Ord. 2931 §2(part), 1963; prior Code §44.73.)

14.28.140  Refunds Generally.

Periodically, but not less than twice a year the Department shall pay and refund to the persons originally paying for the water main, their proportionate share of the money paid by subsequent property owners who did not participate in the original cost and who were given permits to connect to the extended water main and who paid as provided in the Director's final cost sheet. Payments made hereunder shall be charged to the Water Main Extension Recovery Trust Account.

Payments under this section shall be made to the person originally paying for such water main at his address appearing in the records of the Public Works Department and shall constitute a discharge of its duty under this section to pay as to all sums so paid unless the City shall have received and consented to an assignment of such right to another giving the assignee's name and payment address. (Ord. 2931 §2(part), 1963; prior Code §44.74.)

14.28.150  Limitations on Refund Claims.

Any claim by a contributing property owner for a refund which is payable out of the Water Main Extension Recovery Trust Account shall be made within a period of fifteen (15) years from the date of the original contribution. All moneys remaining in the trust account after such fifteen (15) years shall have elapsed from the time of its deposit, shall forthwith be transferred to the proper water fund revenue account. (Ord. 2931 §2(part), 1963; prior Code §44.75.)

An Owner otherwise required to perform an inspection under Section 14.46.040(B) or (C) shall not be required to perform such an inspection if the Owner has either completed a remedial inspection (conducted in accordance with the Inspection requirements of this Chapter) or completed a permitted repair of the Building Sewer Lateral within the three (3) years prior to the date the inspection would otherwise be required. (Ord. 5451, Section 5, 2008; Ord. 5396, 2006.)

14.46.050 Requirements for a Proper Building Sewer Lateral Inspection Report.

A. INSPECTION REPORT STANDARDS. The Building Sewer Inspection Reports required by this Chapter shall be prepared in accordance with the following requirements and specifications:
   1. The Inspection Report shall be prepared by a licensed plumber;
   2. The Inspection Report shall identify all of the following:
      a. Any of the following conditions: displaced joints, open joints, root intrusion, substantial deterioration of the line, cracks, leaks, inflow or infiltration of extraneous water, root intrusion, grease and sediment deposits or other conditions likely to increase the chance for blockage of the Building Sewer.
      b. Whether any connection, by pipes or otherwise, allows rainwater or groundwater to enter the Building Sewer or public sewer.
      c. Whether the Building Sewer has an installed backwater device where any outlet or trap of the Building Sewer is below the level of the nearest manhole. If a backwater device is already installed, the report shall indicate whether the backwater device is functioning properly.
      d. Where the Building Sewer includes a Septic Tank, the report shall identify the extent to which the Septic Tank is deteriorated, corroded, damaged, whether the disposal field has failed or any other relevant deficiency.
   3. The Inspection Report shall contain an express certification from the certified inspector that the property has been inspected for any outdoor drain connection to the City sewer system and that no such unpermitted connection is present. It shall also contain either a videotape or DVD of the video inspection of the Building Sewer Lateral in a format acceptable to the City, as established by the City regulations.

B. COMPLIANCE WITH REGULATIONS. The Inspection Report shall, in all other aspects, comply with the requirements and specifications described in the Public Works Director’s specifications for a Building Sewer Lateral Inspection Report as established by the regulations authorized under Section 14.46.080 hereof. (Ord. 5396, 2006.)

14.46.060 Required Building Sewer Lateral Repairs.

A. NOTICE TO REPAIR. Upon receipt of the Building Sewer Inspection Report pursuant to this Chapter, the Public Works Director (or his or her designee) will determine whether it indicates any deficiencies in the operation of the Building Sewer Lateral and, thereafter, shall provide the Owner(s) with a Notice to Repair or Replace as may be deemed appropriate by the Director. The Notice to Repair/Replace shall specifically identify the deficiencies to be corrected and shall establish a deadline within which the Owner(s) shall complete the required corrective actions. The corrective action may include a requirement that the lateral be replaced altogether and also may include the installation of cleanouts and backwater valves if those devices are otherwise required by this Code or any uniform code adopted by the City.

B. OBLIGATIONS OF THE OWNER. The Owner shall repair his or her Building Sewer Lateral to the satisfaction of the Public Works Director, and, if a building permit is required for the repairs, the Owner shall obtain a final permit inspection and approval of the City Building Official.

C. REPAIRS UPON OTHER PROPERTIES NOT REQUIRED. If a Building Sewer Lateral traverses private property other than the Owner’s Property, the Owner shall only be responsible for the repairs to that portion of the Building Sewer Lateral that are upon the Owner’s Property and also to that portion of the Building Sewer within a public right-of-way. (Ord. 5396, 2006.)

14.46.070 Common Interest Developments.

The homeowners association of a Common Interest Development shall, along with the Owner, be jointly and severally liable for the duties and obligations imposed by this Chapter 14.46 in relation to any Building Sewer Lateral located within a common area of the Development. If no homeowners association exists, then the individual unit owners, both jointly and individually, shall be liable for the duties and obligations with respect to Building Sewer Laterals established by this Chapter. (Ord. 5396, 2006.)

14.46.080 Administrative Guidelines for Inspections.

Within ninety (90) days of the adoption of the ordinance enacting this Chapter, the Public Works Director shall prepare and promulgate the public administrative guidelines which shall, among other things, establish the following:
1. A certification program for licensed plumbers who will be accepted by the City to perform Inspections and the basis for obtaining and maintaining such a certification or for a decertification;
2. Develop a standard Inspection report form and specifications for Building Sewer Inspection reports; and
3. Establish a Notice format and standard enforcement timelines for the Notice to Repair and for repair and inspection service of that Notice in a manner consistent with the requirements of due process. Such administrative guidelines shall be approved by a resolution of the City Council. (Ord. 5396, 2006.)

The permit shall also state the name and address of the permittee, the owner of the property to be served, and the location and extent of the work or connection to be done. Every such permit for construction or connection shall be void unless construction pursuant to such permit is commenced within sixty (60) days of the date of such permit for house connection or within one (1) year of the date of such permit for public sewers and the work diligently prosecuted strictly pursuant to City specifications. (Prior Code §37.48.)

14.48.200  Permit - Soil Test - Health Department Approval of System.

Before issuing any permit under this chapter the Chief of Building and Zoning may require the applicant to furnish a report prepared by a registered, practicing civil engineer which may include soil tests, percolation tests, geological data and design of a disposal system based on such data which indicates that adequate capacity and percolation or leaching system is provided, and when deemed necessary by the Chief of Building and Zoning may require that such disposal system design be approved by the Health Department.  (Prior Code §37.49.)

Upon receipt of a written application, payment of all the required fees and approval of such application as provided for in Sections 14.48.180 - 14.48.200, the Chief of Building and Zoning shall issue a written permit to construct or put into use such private disposal facilities. 14.52.030 Submission of Application and Supporting Data - Deposit.
14.52.040 Determination of Application, Etc. - Costs - Generally.
14.52.050 Final Settlement of Installation, Etc. - Costs - Generally.

14.52.100 Refunds - Generally.
14.52.110 Refund - Limitations.
14.52.120 Temporary Contribution by City.

14.52.010 Purpose of Chapter.

The purpose of this section is to provide expedient means of financing sewer construction in cases where the property owner does not desire to proceed under the 1911 Improvement Act or other special assessment proceedings or where the property owner does not desire other financing, and yet provide equitable pro-ration of cost within a reasonable period of time among the parcels of real property benefited. Proceedings under this section for the original contributors are purely voluntary, but are compulsory when sewer connections are made by the properties benefited for which there was no initial contribution. (Prior Code §37.52.)

14.52.020 Trust Fund Created.

There is hereby established and created a special trust fund in the Office of the City Treasurer which shall be known and designated as "Public Sewer Extension and Connection Trust Fund". (Prior Code §37.53.)

14.52.030 Submission of Application and Supporting Data - Deposit.

Owners of real property within the City desiring to have the City sewer system extended in accordance with the provisions of this chapter shall make written application therefor to the Public Works Department, which application shall be accompanied by the following:

1. Completed plans and specifications and proposal agreement for the construction of such sewer prepared by a registered civil engineer.

2. A map showing the sewer extension and all properties directly benefited by the sewer extension. Those properties which can connect thereto with a side sewer not exceeding two hundred twenty-five feet (225') in length, and which cannot be more readily served with other existing sewers, shall be considered as benefiting properties within the meaning of this chapter.

3. A deposit equal to the total cost of the sewer extension as estimated by the Public Works Director plus the estimated cost of plan checking, processing and inspection.

4. A letter of participation, signed by the applicant and any other contributors to the project, which shall give a description of all properties benefited by the sewer extension that are contributing to the cost of constructing the sewer. (Prior Code §37.54.)

14.52.040 Determination of Application, Etc.

The Public Works Department after receiving the application, plans, specifications, proposal agreement and map, deposit and letter of participation required by Section 14.52.030 and after approving such plans, specifications, proposal agreement and application, shall submit a written report to the City Administrator concerning the feasibility and practicality of the proposed sewer extension, and the estimated cost of the project including all incidental expenses. Upon receipt of the report from the Public Works Director, the City Administrator shall make his recommendations to the City Council for its consideration. The City Council shall fix a date upon which it shall hold a hearing to determine whether or not the application submitted pursuant to Section 14.52.030 shall be granted. The Public Works Director, prior to such hearing, shall notify each owner of property which would be benefited by the sewer extension that application has been filed to extend the sewer under the provisions of this chapter and shall notify each, of the date and time of such hearing. If the City Council approves such sewer extension application, an appropriate resolution shall be adopted authorizing the construction of such extension, to be financed from the money deposited by the applicant pursuant to Section 14.52.030. If the City Council does not approve the sewer extension application, the total deposit made by the applicant shall be returned to the applicant. The City Council shall authorize the City Administrator to advertise for sealed proposals to be opened before the City Council for extension work authorized pursuant to Section 14.52.030. The contract for the construction of the sewer extension shall be left to the lowest responsible bidder subject to the approval of the City Council. (Prior Code §37.55.)
14.52.050  Final Settlement of Installation, Etc. - Costs - Generally.

Upon completion and acceptance of a sewer extension applied for under this chapter by the City Council, the Public Works Department shall prepare a cost distribution determination which shall include the final costs of such sewer construction and the pro-rated distribution of that cost to the various parcels of property benefited by the same. Such distribution of costs shall be made either on the basis of area or building sites or both, as may be determined by the Public Works Director to be the most equitable method. Upon completion of the cost distribution schedule, the Public Works Director shall submit a report to the City Administrator for his approval and recommendation to the City Council. If the City Council approves the proposed cost distribution, the Public Works Director shall prepare a written statement to be sent to the applicant for a sewer extension under this chapter which shall include the amount of the original deposit, the final costs of the sewer construction, the cost of plan checking, processing and inspection, the cost distribution, and any excess or deficiency in the original deposit, and shall deliver such statement together with any excess money or with a demand for payment of any deficiency to such applicant. (Prior Code §37.56.)

14.52.070  Recording Cost Data on Map.

Upon approval of the cost distribution schedule required by Section 14.52.050 by the City Council, the Public Works Department shall record upon the map required by Section 14.52.050 showing the properties benefiting from the sewer extension, all properties which participated in the cost of the relative sewer extension, and the pro-rated cost distribution to each property benefited thereby and shall file with the City Clerk, City Treasurer and the Public Works Director a copy of such map together with a written statement which shall include the final cost distribution schedule described in Section 14.52.030. (Prior Code §37.58.)

14.52.080  Collecting Costs from Benefited Property Owners.

Whenever the sewer system of the City has been extended in accordance with the provisions of this chapter, any owner of property benefited as shown on the map described in Section 14.52.030, or his successor in interest, who has not previously contributed his proportionate share of the cost of the sewer extension to the amount set forth in the approved cost distribution schedule mentioned in Section 14.52.050 shall not be permitted to connect with such sewer until he shall have paid into the Public Sewer Extension Trust Fund the amount in cash due by him as recorded on such map. All such payments shall be in addition to all permit fees required by this title and all other effective City ordinances. (Prior Code §37.59.)

14.52.090  Allocation of Cost to Owners of Private Sewers.

Any property owner in any public sewer extension district created under this chapter who has, previous to installation of the relative sewer extension, constructed a private sewer line to or for his property, at his own expense, shall not be required to contribute to the cost of such public sewer extension, except where such property derives increased benefits therefrom as shall be determined by the Public Works Director and as approved by the Council in the resolution granting the sewer extension application. Such property owner shall pay the amount so determined before connecting his property to the public sewer extension. (Prior Code §37.60.)

14.52.100  Refunds - Generally.

Periodically, but not more than twice a year, the City Treasurer shall pay and refund out of the Public Sewer Extension and Connection Trust Fund to the person originally paying for the sewer, or his heirs or assigns, his proportionate share of the money paid into such Trust Fund by subsequent property owners who did not participate in the original cost and who were given permits to connect to the extended sewer and who paid as provided in the approved cost distribution schedule referred to in Section 14.52.050. Payments under this section by the City shall be made to the person originally paying for such sewer at his address appearing in the records of the Public Works Department, and shall constitute a discharge of its duty hereunder to pay as to all sums so paid unless the City shall have received and consented to an assignment of such right to another which shall set forth the assignee's name and payment address. (Prior Code §37.61.)

14.52.110  Refund - Limitations.

Any claim by a property owner contributing under this chapter or his assignee for a refund which is payable out of the Public Sewer Extension and Connection Trust Fund shall be made within a period of twenty (20) years from the date of the original contribution. All moneys remaining in the Fund after such twenty (20) years shall have elapsed from the time of its deposit shall forthwith be deposited into the General Fund of the City. (Prior Code §37.62.)
14.52.120 Temporary Contribution by City.

Whenever due to economic impossibility, unique hardship, or special or insurmountable circumstances shall operate to prevent an otherwise feasible and approved sewer extension project, City may temporarily advance funds toward any project provided that the amount of such temporary contributions shall not exceed twenty percent (20%) of the engineer's estimate for the project, and further provided that the City shall participate first in proceeds received by the City from persons connecting benefiting lots who have not contributed their proportionate share according to the approved cost distribution.

If a temporary contribution has been advanced by the City hereunder, all sums received from later connections by benefited property owners who have not heretofore paid shall be paid into the General Fund of the City until the City's contribution has been repaid in full, and thereafter such sums shall be paid into the Sewer Extension Trust Fund as provided in Section 14.52.080 and shall be disbursed in accordance with Section 14.52.100. (Ord. 2606 §1, 1957; prior Code §24.1, 1956.)

(Ord. 2931 §2(part), 1963; prior Code §§37.64, 44.58(part).)

It shall be unlawful for any person owning or having control or possession of all, or any part of any watercourse on private property within the corporate limits of the City, to permit, maintain, retain or allow to remain in any such watercourse, or on any part thereof, any debris, garbage, rubbish, trash, brush, timber, waste products, or any combustible or incombustible material or commodities whatsoever, which obstructs, prevents, diverts or tends to obstruct, prevent or divert the normal, natural or ordinary flow of water in such watercourse, or which at any time may be in such watercourse whether or not the same has been previously dumped, placed, deposited, maintained or accumulated therein by reason of any act or omission of such person, or by anyone else with or without the knowledge, consent or permission of such person, and regardless of the cause or reason for the existence of the same in such watercourse. (Ord. 2931 §2(part), 1963; prior Code §§37.64, 44.58(part).)

### 14.56.040 Fill Material.

The placement of any fill material in any natural watercourse without provision for drainage conduit of adequate size and strength to replace the existing natural watercourse capacity, so as to provide sufficient capacity for storm waters of the contributing drainage area and so as to withstand the fill and building loads which may be placed thereon, shall be considered an unlawful obstruction of a natural watercourse. (Prior Code §37.65.)
14.56.050 Obstruction, Etc., by Buildings, Etc.

It shall be unlawful for any person to construct or maintain, or to permit to be constructed or maintained, in any watercourse, on public or private property, within the corporate limits of the City, any building or structure which obstructs, prevents or diverts, or tends to obstruct, prevent or divert the normal, natural or ordinary flow of water in such watercourse, or which at any time may be therein, in such manner as to endanger, or tending to endanger public property, including bridges, roads, buildings, structures or facilities, or the land crops, buildings or structures of other persons. 15.20.020 Definitions.

For the purpose of this chapter, certain terms and words are hereby defined as follows:

A. DIRECTOR. The person having control and management of the Parks and Recreation Department of the City or the Director’s designated representative.

B. GROUND COVER. Includes grass, turf or perennial plants that normally grow in a prostrate manner so as to conceal, or with the purpose of concealing, the ground surface, and that do not exceed eight inches in height, and that will tolerate light pedestrian traffic.

C. HISTORIC TREE. A tree which has been found by the Parks and Recreation Commission, the Historic Landmarks Commission, or the City Council to be a tree of notable historic interest and has been designated by resolution of the City Council as an “historic tree”. For purposes of this definition, trees designated by the City Council as an “historic tree” or an “historic landmark tree” shall be treated as “historic trees”.

D. MAINTENANCE or MAINTAIN. For purposes of this Chapter 15.20, maintenance or maintain shall mean the following: pruning, spraying, bracing, root pruning, staking, fertilizing, watering, treating for disease or injury, and other work performed to promote the health, beauty, or adaptability of trees and shrubs, but shall not include the watering of such trees in residential zones.

E. OFFICIAL TREE. A tree so designated by the Director because of its desirable characteristics of growth and beauty with reference to its crown, root structure, and adaptability to local climatic, soil and street conditions. The Director shall keep a list of official trees.

F. PARKWAY STRIP. Either (i) the area between the curb and sidewalk within a fully improved street right-of-way, or (ii) that area extending six feet from the curb towards the nearest right-of-way line in an area with no sidewalk, or (iii) any area within a street right-of-way in which an official or parkway tree is located.

G. PARKWAY TREE. A tree planted or caused to be planted by the City within a street right-of-way.

J. SPECIMEN TREE. A tree which has been found by the Parks and Recreation Commission to be of high value because of its type and/or age and which has been designated by resolution of the City Council as a “specimen tree”.

K. STREET. Shall have the meaning set forth in section 28.04.665 of this Code.

L. TREE. A usually tall, woody plant, distinguished from a shrub by having comparatively greater height and, characteristically, a single trunk rather than several stems.
M. TREE WELL. A planting area found in an otherwise paved street right-of-way. (Ord. 5505, 2009; Ord. 5459, Section 3, 2008; Ord. 5312, 2004; Ord. 4327, 1985; Ord. 4245, 1983.)

15.20.030 Master Street Tree Plan.

All trees within a parkway strip shall be planted and maintained according to the Master Street Tree Plan adopted by the City Council. The Director shall administer the Master Street Tree Plan and, with the approval of the Parks and Recreation Commission, shall have the authority to amend or add to the Master Street Tree Plan at any time that circumstances make such amendment or addition advisable. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4327, 1985; Ord. 4245, 1983.)

15.20.040 Other Plantings or Improvements in Parkway Strips.

It is unlawful to install or plant in a Parkway Strip any of the following without a written permit from the Director: (i) any tree not designated an official tree in the Master Street Tree Plan; (ii) any other plant whose ultimate growing height is over eight inches; or (iii) any other non-living ground cover. The Parks and Recreation Department shall maintain a list of plant materials which comply with the height requirements of this Title. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.050 Director Authority and Responsibility.

The Director is hereby made responsible for inspection, maintenance, removal and replacement of all trees planted in public areas, parkway strips, and tree wells.

The Director shall have authority to remove or replace any tree or other planted improvements within a parkway strip which does not conform to the "Master Street Tree Plan" or this Title.

The Director shall comply with the pruning standards published by the American National Standards Institute [ANSI A300] and the companion best management practices published by the International Society of Arboriculture in the inspection, maintenance, removal, and replacement of all trees planted in public areas, parkway strips, and tree wells with the following exceptions: (1) the Director has the discretion to determine whether or not to prepare written objectives or specifications for pruning activities; and (2) the Director has the discretion to determine the appropriate amount of pruning based on a tree’s species, age, health, site, or other factors. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4327, 1985; Ord. 4245, 1983.)

15.20.060 Development Activity - Tree Plans.

The applicant for any activity for which approval by the Architectural Board of Review, the Historic Landmarks Commission, the Single Family Design Board, or the Planning Commission is required by City law shall, concurrently with processing of such application, submit to the Director and the appropriate review body plans for the planting of official trees within any parkway strip on or adjacent to the lot, parcel or building site. The Director may designate the species, kind, number, spacing, and method of planting of such trees and may require the inclusion of root inhibiting barriers. (Ord. 5505, 2009; Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.070 New Subdivisions - Conformity with Master Street Tree Plan.

No subdivision shall be approved unless it is found to include planting of official trees within the parkway strips in conformity with the "Master Street Tree Plan" and under the Director's supervision. Any such approval shall assure that the costs of planting and first two years maintenance, including irrigation, for all official trees are borne by the subdivider. The Director may require the posting of a performance bond to secure faithful performance of the planting, maintenance, and irrigation obligations in a manner consistent with the security provisions of the Subdivision Map Act (Government Code section 66499 et seq.). (Ord. 5505, 2009; Ord. 4245, 1983.)

15.20.080 Street Improvements - Integration of Plans.

Any proposed change in the direction or width of a public street right-of-way or any proposed street improvement shall, where feasible, incorporate plans for installation of parkway strips. Plans and specifications for planting such areas shall be integrated into the general plan of improvements and it shall be the duty of the City Engineer to coordinate the design of such improvements with the Parks and Recreation Department prior to completion of final overall plans.

In order to provide for coordinating the multiple use of all street improvements, plans and specifications for street planting proposed by the Parks and Recreation Department shall be submitted to the City Engineer, Traffic Engineer and City Planner for their recommendations. (Ord. 5312, 2004; Ord. 4245, 1983.)
15.20.090 Maintenance Responsibility of Property Owner.

An owner of property adjoining a street right-of-way is responsible for maintaining all trees and other vegetation planted between the edge of the pavement nearest said property and the right of way line separating the property from the street, except those trees to be maintained by the Director pursuant to section 15.20.050. This maintenance obligation shall include keeping such area free from weeds or any obstructions inimical to public safety and or contrary to the Master Street Tree Plan. The placing of tar paper, plastic or other material over the ground, or the use of materials or chemicals intended to permanently sterilize the soil in these areas, is prohibited.

Nothing in this chapter shall be deemed to relieve the owner of any property from the duty to keep the property, including any adjacent sidewalks and parkway strip in front thereof, in a safe condition and so as not to be hazardous to public travel. For purposes hereof, "owner" shall include any occupant of property. (Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.100 Abatement of Dangerous Conditions - Authority of Director.

The Director may remove a limb from any tree, regardless of the location of such tree, if in the Director’s opinion such removal is necessary to maintain the safety of the public right of way. In the event such tree is on private property, the Director shall notify the property owner of the intent to remove a limb by written notice at least ten (10) days prior to such removal and, where possible, obtain the owner's consent for entry upon the property, except in the case of manifest public danger and immediate necessity. (Ord. 5312, 2004; Ord. 4245, 1983.)

15.20.110 Permit Required for Planting, Maintaining, or Removing any Tree Growing Within a Street Right-of-Way or Public Area.

A. PERMIT REQUIRED. Except for persons acting at the direction of the Director, a written permit shall be required for any person to plant, prune, trim, perform maintenance on, or remove any tree planted in a parkway strip, tree well, public area or street right-of-way. B. APPLICATION. Whenever a person desires to plant, prune, trim, perform maintenance on, or remove any tree planted in a parkway strip, tree well, public area or street right-of-way, an application shall be filed with the Parks and Recreation Department on forms provided for such purpose. The application shall show clearly, by diagram or plot plan and photograph(s), the location and identity of the tree or trees sought to be planted, maintained or removed; the name and address of the applicant; and such other information as indicated on the form provided.

C. PLANTING. When an application proposes the planting of a tree in a parkway strip, tree well, public area or street right-of-way, the Director shall consider whether the proposed planting conforms to the Master Street Tree Plan. The Director may designate the species, kind, number, spacing, and method of planting of such trees and may require the inclusion of root inhibiting barriers as necessary to conform to the Master Street Tree Plan. The Director may approve, conditionally approve, or deny the application. If the application does not conform to the Master Street Tree Plan, or the applicant does not agree to the Director’s conditions of approval, the Director shall deny the application.

D. MAINTENANCE. When an application is submitted for maintenance of a tree planted in a parkway strip, tree well, public area or street right-of-way, the Director shall consider whether the proposed maintenance will benefit the state of the urban forest and may approve, conditionally approve, or deny the application on the basis of that consideration in the sole discretion of the Director. The Director may require written specifications for the work proposed as part of the permit application.

E. REMOVAL. When an application is submitted for the removal of a tree planted in a parkway strip, tree well, public area or street right-of-way, the application shall be processed in accordance with the following procedures:

1. Notice. Any tree for which a removal permit has been requested must be posted with notice of the permit request by the Parks and Recreation Department for at least ten (10) days prior to issuing a permit for removal.

2. Administrative Review. The application shall first be reviewed by the Director to consider whether the removal would benefit the state of the urban forest considering the factors specified in paragraphs 3 and 4 below. If the Director finds that the removal is either: (i) beneficial to the state of the urban forest, or (ii) necessary for public safety, the Director may issue the permit. If the Director finds that the removal will not benefit the state of the urban forest and is not necessary for safety, the Director may deny the application. The Director may also refer the application to the Street Tree Advisory Committee for further review consistent with this Section. Except in cases where the Director finds removal is necessary for public safety, the applicant or any interested person may request review of the application by the Street Tree Advisory Committee and the Parks and Recreation Commission as provided in this Section.
