

A. TRANSITION PLAN PROGRAM AND FACILITY ACCESSIBILITY EVALUATIONS

An important part of the process of this ADA Transition Plan update was to conduct a Program and Facility Accessibility evaluations and analysis, with the objective to find out what barriers to access existed that limit the participation of persons with disabilities to the City of Santa Barbara's programs, services and activities. As discussed in **chapter 1.D** of this ADA Transition Plan update, Title II of the ADA applies to publicly funded facilities like the City of Santa Barbara, and requires that services, programs or activities conducted by a public entity, when viewed in its entirety, **be readily accessible to and usable by individuals with disabilities**, except where to do so would result in a fundamental alteration in the nature of the program or in undue financial and administrative burdens.

Program Accessibility and Facility General Evaluations were performed for General Fund and Enterprise City facilities with public access.

The Program Accessibility and Facility General Evaluation for General Fund Facilities can be found under separate cover in Technical Appendix TA-B.1.
