

# Mission Creek/Train Depot Project

## 2003A Bond Fund

### Project Description

This project involves the proposed construction of a high-flow culvert under portions of the Agency-owned Train Depot parking lot and connecting back to Mission Creek. The project is proposed to be funded jointly by the RDA and the County. Public Works is in the lead role and is currently working with County Flood Control to implement this important portion of the Mission Creek Flood Control Enhancement program.
