

## Essential Road Repairs Continue with Fewer Vehicles on City Streets

The Governor's Executive Shelter in Place Order has resulted in a significant reduction in the number of vehicles using City streets, thereby allowing the City to continue essential pavement maintenance repairs in a more efficient manner with less disruption to the community.

The City's contractor, Lash Construction, will implement road asphalt repairs as part of the FY2020A Pavement Maintenance Project on Alameda Padre Serra (APS) on Tuesday, April 14 through Thursday, April 16 from 7 a.m. to 5 p.m.

APS will remain open to traffic, but will be subject to slight delays, with flaggers assisting vehicles to pass through the construction area during the paving operation.

The public is advised to shelter in place, but should take an alternative route, if possible, during these three days if they need to make essential trips.
