

Construction Along Santa Barbara Street

Pavement Grind and Overlay Work on Las Positas Road

Beginning Monday, August 31, Granite Construction will perform sidewalk concrete improvements and pavement grind and overlay work on Santa Barbara Street from Gutierrez Street to Victoria Street as a part of the FY20B Pavement Maintenance Project.

Detours in the surrounding areas will be in effect to minimize construction duration and ensure the least disruption to normal traffic flow. Traffic control and temporary delays should be expected along this downtown corridor including at the intersections of Santa Barbara Street and associated cross-streets. Access will be maintained for residents and businesses, although temporary disruptions should be anticipated, especially while paving is taking place.

No parking signs will be posted at least 72 hours prior to construction and detour signs will also be provided.

Construction will start on Santa Barbara Street at Gutierrez Street and continue north towards Victoria Street. The City has contracted with Granite Construction to perform work, which is funded primarily by Measure C. For more information about your local sales tax at work, visit www.SantaBarbaraCA.gov/MeasureC.
