

Las Positas and Modoc Roads Multiuse Path Update

Video by Power Curber 5700-C Pouring Curb & Gutter

C.A. Rasmussen continues to make construction progress along Modoc Road between Calle De Los Amigos and Las Positas Road. The contractor will complete pouring the first retaining wall segment between Calle De Los Amigos and the private entrance to the Vista Del Monte Retirement Community by Friday, November 20. Beginning on Thursday, November 19, the contractor will also begin installing approximately 3,600 linear feet of curb and gutter using a machine to facilitate its placement. For an example of what this will look like, see video here: <https://www.youtube.com/watch?v=TNIVF06rmOs>

C.A. Rasmussen has also reconstructed the median island on the south leg of the Las Positas and Modoc intersection, and is nearly complete with the water services relocation and storm drain installation on the east side of Las Positas Road between Modoc Road and Meadows Lane. Curb, gutter, and sidewalk will be installed on this stretch of Las Positas beginning November 23 through December 3.

Traffic control is implemented to ensure worker, pedestrian, and cyclist safety. Drivers are advised to be alert and proceed cautiously within the Modoc corridor and through the Las Positas and Modoc Road intersection during construction. The City thanks the public for their continued cooperation and patience during construction of this important Vision Zero Project. For more information, please visit the Project website:
