Legend

- Existing Soundwall Locations
- 250 foot distance from edge of nearest travel lane
- Parcels that intersect 250 foot distance

Note: Existing soundwall locations are provided by Caltrans at http://avctenvrms.dot.ca.gov/soundwall_gis/

250 foot setback line was digitized by the City Planning Division using 2012 aerials to find the edge of nearest travel lane. The nearest travel lane does not include on-ramps or off-ramps.

Highway 101 250 Foot Area and Soundwall Locations
