

APPENDIX B. ACCESSIBILITY SURVEY

This Accessibility Survey was distributed to Santa Barbara residents in October 2003.

The City of Santa Barbara is preparing a Pedestrian Master Plan to improve conditions for pedestrians. A key component of this plan is improving conditions for people who have disabilities. We are circulating this survey in order to better understand access issues facing disabled people. Please take a few moments to fill it out and return it to ---- by October 27.

1. Please identify and rank the improvements, from most important to least important (1, 2, etc.) that would benefit you in Santa Barbara:

- ____ more curb ramps
 - ____ two curb ramps at intersections that allow wheelchairs direct crossing of streets
 - ____ textured strips that identify the edge of the ramp or curb
 - ____ smoother pavement surface
 - ____ better maintained sidewalks
 - ____ audible signals at intersections
 - ____ simple intersections with 90-degree angles
 - ____ easier communication with public agencies about my concerns
 - ____ a hotline for reporting complaints about accessibility in public places ____ other (please specify)
- _____

2. Please identify and rank up to five specific locations in Santa Barbara, from most important to least important (1 through 5), that you feel need improvement. Please identify the location and the major issue.

Location 1: _____ The Major Issue: _____

Location 2: _____ The Major Issue: _____

Location 3: _____ The Major Issue: _____

Location 4: _____ The Major Issue: _____

Location 5: _____ The Major Issue: _____

Thank you.
