

Cabrillo Boulevard Bridge Replacement

Project Update: February 2016

Crews continue to make progress with roadway and pedestrian improvements. On the mountain side of the Cabrillo Boulevard Bridge, crews have poured the new 9' wide sidewalks over the new bridge. Bridge railing and roadway work continues throughout February. Between Garden Street and Helena Avenue, crews are also expanding the sidewalks and improving the crossing at Anacapa Street in a separate but concurrent City project.

Upcoming work:

In February, crews will continue sidewalk, roadway, and storm drainage improvements. This includes improving the northeast sidewalk corner at State Street, which will require a temporary sidewalk diversion. Utility relocations will continue with work by Southern California Gas Company throughout the month. Utilities will be temporarily relocated to the temporary pedestrian bridge in preparation for the beach side replacement of the Cabrillo Boulevard Bridge. Some nighttime work may occur and temporary detours of the beach sidewalk and multipurpose paths will be implemented for the gas line relocation.

Crews are working hard to finish up the mountain side of Cabrillo Boulevard Bridge and move into Stage 3 construction. Depending on weather, crews hope to finish up Stage 2 construction by the end of March and reopen Helena Avenue to vehicles. An updated construction schedule is available online at www.SantaBarbaraCA.gov/CabrilloBridge.

Closures:

Throughout Stage 2, the mountain side of Cabrillo Boulevard will remain closed near the bridge. One lane in each direction remains open during daytime construction. Helena Avenue is closed to vehicles at Cabrillo Boulevard with access remaining for pedestrians, bikes, and segways.

To accommodate the work area, the left turn lane from westbound Cabrillo Boulevard to Stearns Wharf is closed. Motorists can enter Stearns Wharf from State Street and eastbound Cabrillo Boulevard. Detour signs are in place to highlight access around the closures.

Fall 2014 - Spring 2017:

The Cabrillo Boulevard Bridge Replacement Project includes a new bridge, enhanced Mission Creek banks, and improved pedestrian areas. Cabrillo Boulevard, surrounding businesses, parks, Stearns Wharf, and the Arts and Crafts Show will remain open throughout construction.
