

Cabrillo Boulevard Bridge Replacement

Project Update: May 2016

After opening the mountain-side of the new Cabrillo Boulevard Bridge and the temporary pedestrian bridge in the park, crews have been working on initial removals on the beach-side replacement of the Cabrillo Boulevard Bridge.

Upcoming work:

Stage 3 construction continues on the beach-side of the Cabrillo Boulevard Bridge. Crews will continue removing portions of the old bridge deck, install sheet piles to create a work area, and then dewater the construction area near the end of May. Following this work, demolition of the old bridge will continue and then new bridge supports will be installed.

Closures:

Throughout Stage 3, the beach-side of Cabrillo Boulevard will remain closed near the bridge. One lane in each direction remains open during daytime construction on the new mountain-side of the bridge.

To accommodate the work area, the left turns from Cabrillo Boulevard to Stearns Wharf (westbound) and on to Helena Avenue (eastbound) are prohibited. Businesses on Helena Avenue remain open with both pedestrian access and vehicle access from westbound Cabrillo Boulevard. Motorists can enter Stearns Wharf from State Street and eastbound Cabrillo Boulevard. Detour signs are in place to highlight access around the closures.

Fall 2014 - Spring 2017:

The Cabrillo Boulevard Bridge Replacement Project includes a new bridge, enhanced Mission Creek banks, and improved pedestrian areas. Cabrillo Boulevard, surrounding businesses, parks, Stearns Wharf, and the Arts and Crafts Show will remain open throughout construction.
