

Sebastian Aldana Jr.

Hello my name is Sebastian Aldana Jr.

I am running for Santa Barbara City Council.

Issues I feel that are important

- Real solutions regarding our homeless issues
- Public Health & Safety
- Promoting community development to prevent youth violence
- Our city budget
- Plan Santa Barbara
- Affordable & Low-cost housing
- Continuing with our capitol improvements
- Having our Latino population represented properly
- And regreening

Other issues that come to mind are.

Calpers pension fund. You can not restructure time that they have already put in. That would be like the employees saying I need more salary for work I did for the past. Before anything, I would audit the managing company to see if the numbers are correct. I have been doing some research and it seems to me that the managing company is not being straight. Calpers is one of the largest pension funds. This year they brought in 20.7%. The system works, but the numbers don't.

Gang Injunction

I do not support the gang injunction. The last time I looked, we have a .77% of a problem with gangs and that report came from the Police. That equals to 99.23% of some other type of problems. I agree we have situations, fights, stabbings, but this is not a everyday occurrence. I do not feel it is fair to punish neighborhoods to be labeled as a gang injunction neighborhood. If a homeowner wanted to sell his home, the seller would have to disclose that he or she is selling a home in a gang injunction neighborhood. No parent with young teens would want to live in that neighborhood.

I have volunteered over the past 4 years, been involved or held positions in various committees

- Santa Barbara Moose lodge
- Franklin center advisory committee
- Co-founder & VP of The Milpas Community Association
- Looking good Santa Barbara- Adopt a block program

- And the New Neighborhood Advisory Council

The community is asking

How do you keep Santa Barbara, Santa Barbara?
