

Mission Creek Flood Control Project Park Development

2003A Bond Fund

Project Description

The acquisition of two residential properties at 633 and 635 Bath Street have furthered the City and Agency priorities set forth in the Mission Creek Flood Control Enhancements Project and the West Downtown Neighborhood Improvement Program. The properties are contiguous and adjacent to Mission Creek which makes them desirable for subsequent conversion to a West Downtown neighborhood park that would also serve as open space adjacent to Mission Creek. At this time, the Mission Creek Flood Control project has been delayed due to Federal funding issues.
