

## Plaza de La Guerra Infrastructure Improvements

### 2003A Bond Fund

#### Project Description

Historically, Plaza de la Guerra has served as the City's cultural center. Over the last several years, stakeholders in the Plaza have determined that simple, people-oriented improvements to the infrastructure would complement the surrounding businesses and facilities and promote its use by community organizations. The project includes replacement of the roadway surface and sidewalks, replacement and upgrade of underground utilities (electrical, gas, water, sewer), relocation of the electrical panel off the lawn, replacement of trash/recycling receptacles, bicycle parking posts, newspaper cabinets and minor changes to parking.

#### Funding

Original RDA Funding	\$1,000,000
<u>Addition RDA Funding</u>	<u>1,400,000</u>
Total RDA Funding	\$2,400,000
