Construction Notice

Water Main Tie-In on Castillo Street

PROJECT: The Desalination Plant will be connecting a new facility on Castillo Street to the existing water main.

LOCATION: 2100 block of Castillo Street, between Los Olivos and Padre Streets

PROJECT SCHEDULE: Monday and Tuesday, December 19 and 20, 2016

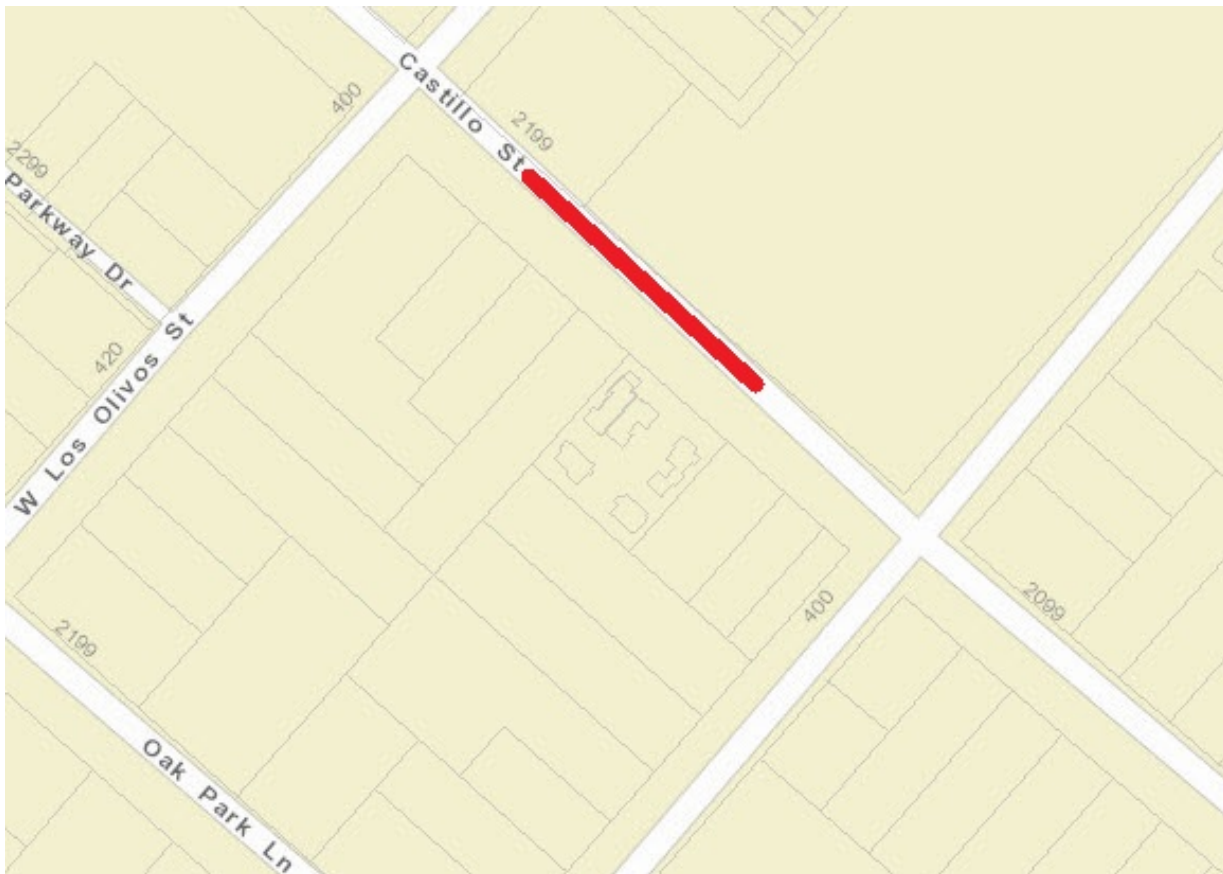

BENEFITS: Connecting the water mains will allow desalinated water to be distributed to more areas of the City.

WHAT TO EXPECT: During construction, you will notice heavy equipment, construction workers, and traffic at the construction site (see map). Temporary traffic control measures will be installed, including No Parking signs and sidewalk closures in front of the facility to allow vehicles and pedestrians to safely pass through.

There may be short delays as construction equipment is being moved. During construction hours (7:00 am to 5:00 pm), expect noise from construction vehicles and equipment. Water service will not be disrupted during this work.

Project Contact: Linda Sumansky, Principal Civil Engineer, 805-564-5361, LSumansky@SantaBarbaraCA.gov

Información en Español: Laura Yanez, Ingeniera, (805) 897-2615, LYanez@SantaBarbaraCA.gov

2100 block of Castillo Street
