27. Note any geospatial data available (indicate data format, content, and collection time information and labels): NIFC FTP											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Active											

Incident Status Summary (ICS-209)

Incident: **THOMAS**

**Uphill Runs
Wind Driven Runs
Long-range Spotting**

Narrative:
Southeast area of fire in Branch II displayed active burning in alignment with the topography and against the prevailing winds, as fire continues to move east towards the Sespe Condor Sanctuary and Wilderness.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Chaparral (6 feet)
Brush (2 feet)
Tall Grass (2.5 feet)**

Narrative:

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc): Damage inspection continues and reflects increasing numbers on 209 as inspectors reach previously inaccessible areas.	A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
	E. Single Residences	15,000	81	401

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):

Last night, weak Santa Ana winds continued across the fire with gusts between 15 and 30 MPH. With the continued offshore winds, relative humidity recovery was poor. For today, the northeast winds will diminish in the afternoon hours with even some weak southwesterly winds developing this afternoon. For tonight, weak northeast winds can be expected. Critical fire weather conditions will continue and a Red Flag Warning remains in effect for the area.

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

Fire will continue to threaten structures in various parts of the cities of Ventura, Ojai, Santa Paula, Casitas Springs, Carpinteria, unincorporated areas of Ventura County and Matilija Canyon. Under current and predicted weather, expect spread to the north and west towards Santa Barbara County. Growth also continues to the east towards the Sespe Condor Sanctuary and Wilderness.

24 hours: Fire will continue to threaten the cities of Ventura, Ojai, Santa Paula, Casitas Springs and

Incident Status Summary (ICS-209)

Incident: **THOMAS**

	unincorporated areas of Ventura County, and spread to the west toward the city of Ojai, and continue to move to the southeast into the City of Ventura, and northwest along the coast toward Santa Barbara County Line. Fire will continue to spread with forecasted northeast winds and low humidity.
48 hours:	Fire will continue to threaten the cities of Ventura, Ojai, Santa Paula, Casitas Springs and unincorporated areas of Ventura County, and spread to the west toward the city of Ojai, and continue to move to the southeast into the City of Ventura, and northwest along the coast toward Santa Barbara County Line. Fire will continue to spread with forecasted winds and low humidity.
72 hours:	Fire will continue to threaten the cities of Ventura, Ojai, Santa Paula, Casitas Springs and unincorporated areas of Ventura County, and spread to the west toward the city of Ojai, and continue to move to the southeast into the City of Ventura, and northwest along the coast toward Santa Barbara County Line. Fire will continue to spread with forecasted winds and low humidity.
Anticipated after 72 hours:	Fire will continue to threaten structures in various parts of the cities of Ventura, Ojai, Santa Paula, Casitas Springs, Carpenteria, Fillmore, unincorporated areas of Ventura County and Matilija Canyon. Under current and predicted weather, expect spread to the north and west towards Santa Barbara County.
37. Strategic Objectives (define planned end-state for incident): Keep the fire north of Hwy 126 and Hwy 101 Keep the fire South of Pine Mountain Road Keep the fire East of 9N11 to Pine Mountain Keep the fire west of Piru Canyon Road	
38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:	
12 hours:	More severe fire weather will continue to threaten structures in various part of the cities of Ventura, Ojai, Santa Paula, Casitas Springs, and unincorporated areas of Ventura County throughout Friday. Two Skilled Nursing Facilities previously sheltering-in-place evacuated patients to Ojai Hospital. Evacuation Centers in Ojai sheltered-in-place. Fire continues to threaten high voltage powerlines, oil resources in the Red Mountain, Sulphur Mountain areas as well high-pressure gas lines in the Barlow Canyon area. There is critical communication infrastructure on multiple peaks within the fire area that will affect public safety communications as well as cellular service. Agricultural crops of avocado and citrus orchards risk damage and large dollar loss with continued fire growth. The fire is approaching the Santa Barbara County Line and Lake Casitas which is the watershed for Ojai and Ventura City.
24 hours:	Fire will continue to threaten structures in various part of the cities of Ventura, Ojai, Santa Paula, Casitas Springs, Fillmore and unincorporated areas of Ventura County. Ojai Hospital will continue to shelter-in-place. Fire continues to threaten high voltage powerlines, oil resources in the Red Mountain, Sulphur Mountain areas as well high-pressure gas lines in the Barlow Canyon area. There is critical communication infrastructure on multiple peaks within the fire area that will affect public safety communications as well as cellular service. Agricultural crops of avocado and citrus orchards risk damage and large dollar loss with continued fire growth. The fire is approaching the Santa Barbara County Line and Lake Casitas which is the watershed for Ojai and Ventura City.
48 hours:	Fire will continue to threaten structures in various part of the cities of Ventura, Ojai, Santa Paula, Casitas Springs, Fillmore and unincorporated areas of Ventura County. Fire continues to threaten high voltage powerlines, oil resources in the Red Mountain, Sulphur Mountain areas as well high-pressure gas lines in the Barlow Canyon area. There is critical communication
