

## West Downtown Pedestrian Improvements

### 2003A Bond Fund

#### Project Description

The project scope was developed by the City's Transportation Planning Division with a primary focus on the Anapamu Street and Ortega Street pedestrian corridor. The firm of Conceptual Motion has provided final design services. The scope of work will include landscape design that creates a consistent theme and walkable corridors between the Westside and downtown. The top priorities of the project include pedestrian-oriented street lighting, sidewalk improvements including bulbouts at intersections, and landscaping.
