

**City of Santa Barbara, Public Works Department
Engineering Division**

**City Street Pavement Maintenance Project (Zone 6)
Pavement Preparation and Slurry Seal Projects**

June 2013 – The Public Works Department’s Engineering Division has hired Granite Construction, Inc. to carry out spot repairs and asphalt overlay work in your neighborhood. Work will be conducted from 9:00 p.m. to 6:00 a.m., starting second or third week of August for approximately three nights. There will be no road closure and one lane traffic flow in each direction will be maintained during construction.

Carrillo Street from San Andres Street to La Coronilla Drive will be constructed with asphalt overlay. The same area will be sealed with slurry during September – November, 2013, by Valley Slurry Seal International Inc.

Contractors will give notice of the specific dates for each street at least 72 hours prior to repair work. “No parking” signs will be posted simultaneously. There will be no road closure during construction.

If you have questions regarding the inspections, please contact Max Kashanian, Project Engineer, at (805) 564 5450.
