

**City of Santa Barbara, Public Works Department
Engineering Division**

**Conejo Road Sewer Main
Extension Project
Begins in November 2013**

The City of Santa Barbara's Public Works Department will begin construction on a new public sewer main at 450 Conejo Road starting November 11, 2013, and continuing through mid-December 2013. Construction hours will be limited to 7:00 A.M. until 5:00 P.M., Monday through Friday. Tierra Contracting will be the contractor for the project.

The project is necessary to reroute the sewer main line to avoid the active Conejo landslide area. The new sewer main will be constructed primarily by boring upslope, with some minor trenching. The width of Conejo Road will be temporarily reduced to accommodate the boring pit. No road closures will occur; however, minor traffic delays can be expected. Residents are advised to use detours to avoid the construction area.

If you have any questions or would like additional information, please contact Roger Rodefeld, Project Engineer, at (805) 564-5508 or visit the map at <http://www.santabarbaraca.gov/constmap>.
