

**City of Santa Barbara, Public Works Department  
Engineering Division  
Construction Notification**

**Temporary Closure of  
El Camino De La Luz Pedestrian Bridge**

**April 1, 2014** – The City of Santa Barbara’s Public Works Department will be repairing a sewer main, located **between El Camino De La Luz and La Mesa Park from April 7, 2014, to April 25, 2014**. Construction work hours will be Monday through Friday, from 7:00 A.M. to 5:00 P.M. Nearby residents may experience minor construction noise; however, access to driveways will not be impacted.

**During construction, it will be necessary to close the bridge to pedestrian traffic; however, to assist with the closure:**

1. Pedestrian and bicyclist detours will be posted in the surrounding areas of the project.
2. Bridge closure signs have been posted in advance at each end of the bridge.
3. Nearby residents along El Camino De La Luz will be notified by the contractor 72 hours in advance of the start of construction.

Throughout the El Camino Sewer Main Rehabilitation Project, we will continue to provide you with timely information and try to reduce the impacts of construction as much as possible. Thank you for your patience while we make the repairs necessary to provide residents on the Mesa with reliable sewer service.

If you have questions or concerns, please contact Heidi Braunger, Project Engineer, at (805) 897-1902. Información en español es disponible al (805) 897-2615.
