

# Wireless Printing on Your PC

<http://sbplibrary.org/wireless.htm>

To print from your laptop you will need to download EnvisionWare's LPT:One Print Client software. Please follow the instructions below:

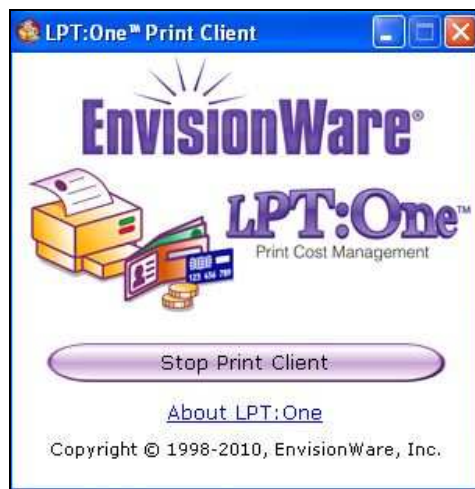

1. Go to <http://sbplibrary.org/wireless.htm>  
Click on **Windows** to begin downloading client.

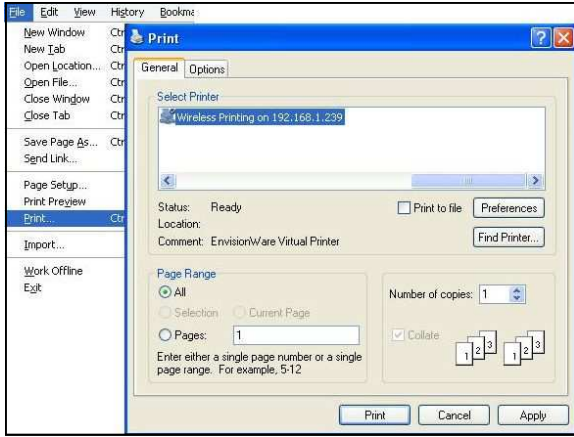

2. Select **Run** to run the file instantly or **Save** to keep the file for future use.

3. Once download completes, select **Run**. If a warning pops up, select **Run** again.

4. The box above will display after a short wait. **NOTE: Wait may be 5 minutes.** Click **Stop Print Client** only if you want to uninstall the software from your computer. You are now ready to print.

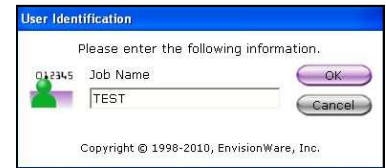

5. To print, select Print from the File menu, then select **Wireless Printing**. Click on **Print**.

6. Enter and confirm a print job name.

Confirm the cost of printing.

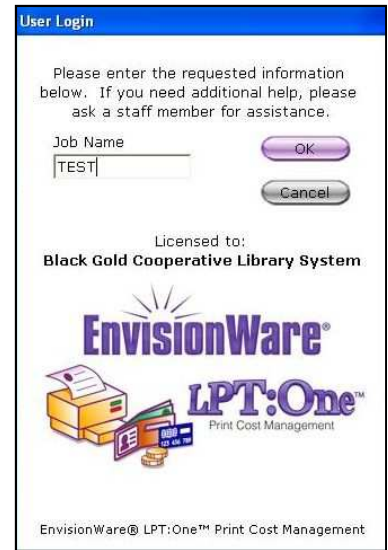

Confirm that the job has been sent to the Wireless Print Station on the Main Level.

7. Release your print job at the **Wireless Print Station** on the Main Level of the library.

- At the Release Station, select **Release a Print Job**
- Enter the print job name
- Select the print job and click **Print**
- Select **Pay from Vending Device**
- Insert payment and click **OK**
- Collect print job
