

# OverDrive eBooks and Audiobooks for Android

What you need:

- Your library card number
- An Android device with Android 4.0 or higher

## Step 1: Install OverDrive

Search for **OverDrive** in the Google Play Store. **Install**. Open the app & follow the prompts to sign up for an OverDrive account using your library card.

## Step 2: Search & Download

At the top left of the OverDrive menu, tap **Manage libraries** and then **+**. Enter your zip code. **Search**. Select any SBPL branch and then choose **Black Gold Cooperative Library System**. Tap the star to remember it on your device.

Tap **Black Gold** to open the library's OverDrive catalog. Sign in with your library card number.

Enter a title or author in the search box, or browse by subject. Use the Advanced Search to limit results by format, subject, language, etc.

If a title is already checked out, the box above the cover will say **WAIT LIST**. Request it by tapping on **PLACE A HOLD**. You will be notified by email when the title is available.

To check out an **AVAILABLE** title, click on **BORROW**. A message will appear to show the book has been checked out. To download, go to your **Loans** page, select a format (*EPUB eBook/MP3 audio*), and then **ADD TO APP**.

Tap the app's **menu** button  in the upper left corner and then choose **Bookshelf** to view your title after it downloads. Tap the cover to start reading or listening.

## Step 3: Renew & Return

To return a downloaded item early, open the app's Bookshelf. Press and hold the cover image until the return option appears.

To renew a title, go to your Loans page. The option will appear under the book cover three days before the due date. Click on **Request again** and enter your email address. You will need to download the title again. If there are holds, use the **Request again** option to rejoin the waiting list.

Note: Instructions may vary by device.
