

DESIGN PROJECT SITE UPDATE

Last Updated: July 7, 2014

Project Name: Bridge Preventive Maintenance Program Phase II

Contact Information:

City Project Engineer: Adam Hendel
Phone: (805) 897-1921
E-mail: ahendel@santabarbaraca.gov

Project Description:

The work is anticipated to consist of deck treatments, railing repairs/replacements, structural concrete spall repairs, structural beam repairs, and Alkali-Silica Reaction Testing on James Fowler Road Bridge. The design phase will include environmental studies necessary for authorizing work in the creek; include scour measures as determined to be necessary.

Project Locations:

The work is located at seven bridges throughout the City, including five bridges over Mission Creek (upper State Street, Alamar Avenue, Montecito Street, Islay Street, and Valerio Street), one bridge over San Roque Creek (Ontare Road), and one bridge over San Pedro Creek (James Fowler Road near Santa Barbara Airport).

Current Schedule:

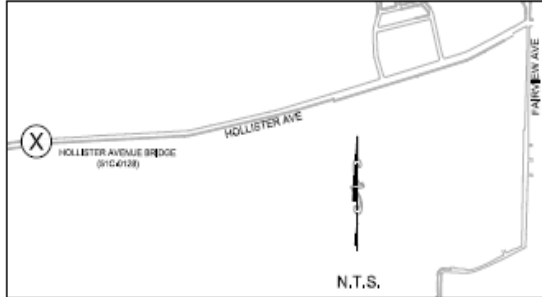

Construction planned for Spring 2015
