Project Name: Laguna Lot Permeable Paver Project

Contact Information:

City Project Engineer: Andrew Grubb, P.E.

Phone: (805) 564-5404

E-mail: AGrubb@SantaBarbaraCA.gov

Project Description:

The Laguna Lot Permeable Paver Project will retrofit the two City-owned parking lots located on the 600 block of Laguna Street that serve as employee and public parking, as well as maintenance fleet parking for several Parks and Recreation Department and Public Works Department divisions. This project will replace almost 62,000 square feet of existing asphalt and concrete with permeable pavers, allowing for stormwater and urban runoff to infiltrate into the soil.

Project Location:

600 block of Laguna Street

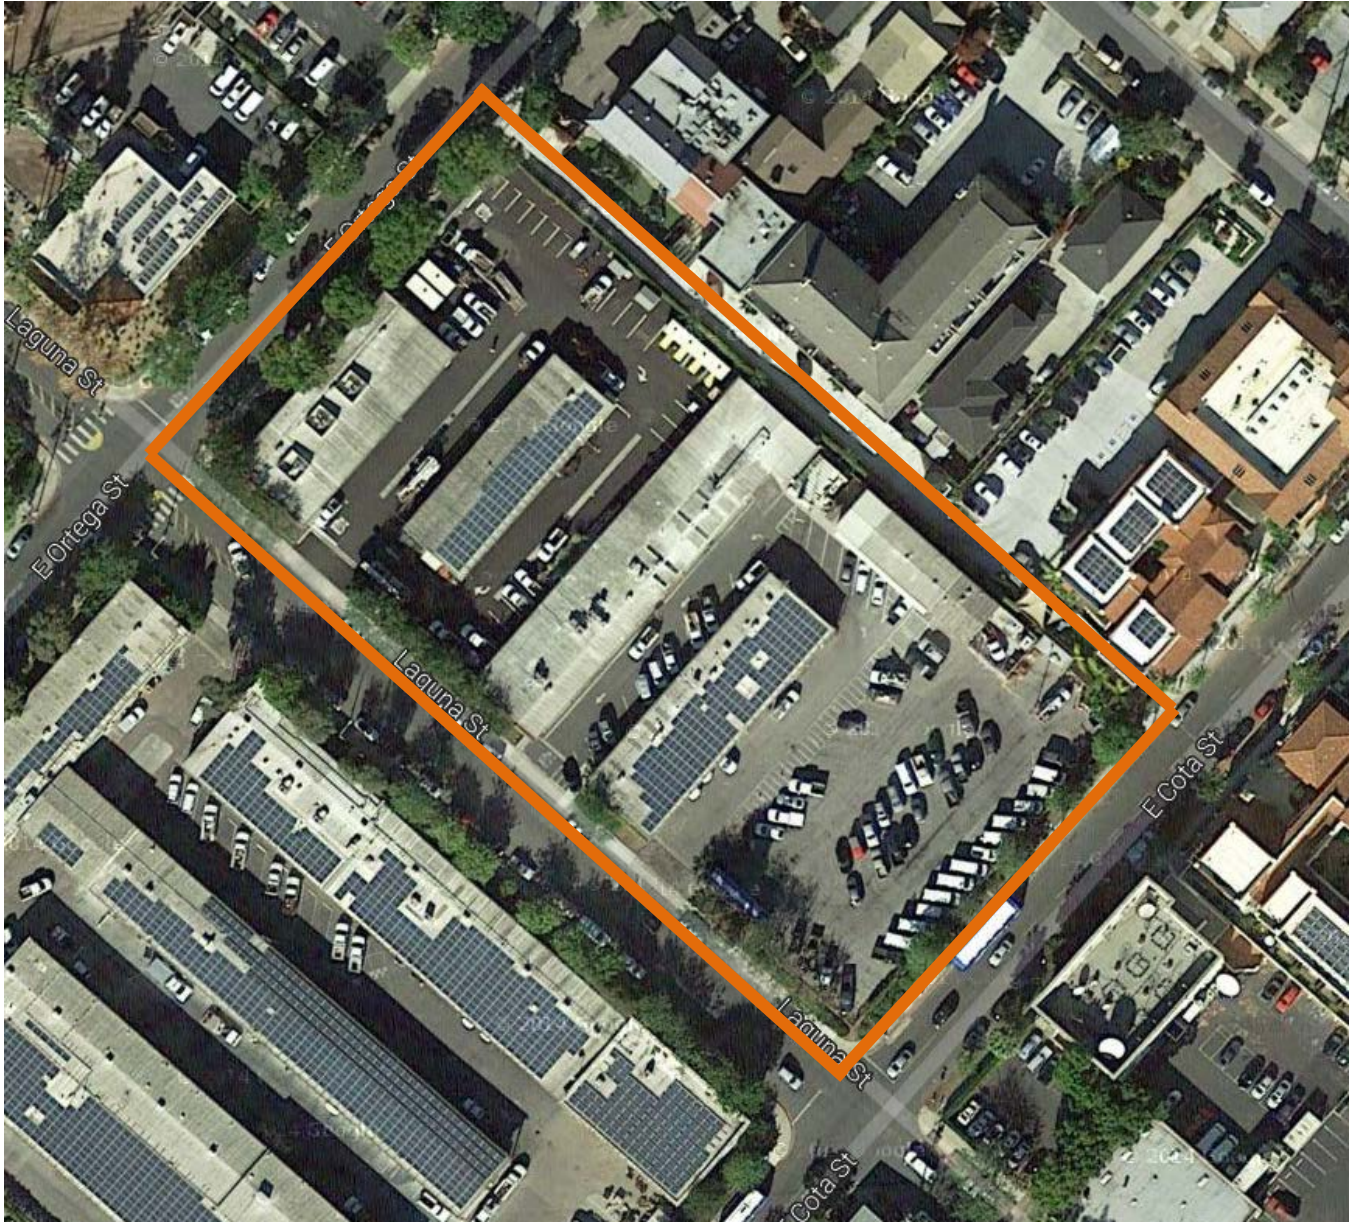

Project Progress:

The City received a grant for \$1,151,630 from the Proposition 84 Storm Water Grant fund. On July 15, 2014, City Council approved a resolution to authorize the Public Works Director to negotiate and execute an agreement with the State of California and accept the Proposition 84 Storm Water Grant. This project is currently in design, with final design estimated to be completed Winter of 2015.

Current Schedule:

Construction Start: Summer 2015.

Estimated Project Cost: \$1,151,630
