As part of the Alliance for Living and Dying Well’s mission to foster meaningful conversations surrounding end-of-life issues, the organization is taking the lead locally in Santa Barbara County to help inform and educate the community about the recent California End of Life Option Act, which took effect June 9 in California, the fifth state in the United States to pass such legislation.

Please join us for an educational presentation with a panel of physicians, social workers and chaplains who will discuss the potential implications for the terminally ill in the Santa Barbara community.
