MASON STREET BRIDGE

REPLACEMENT PROJECT

LOCATION

PROJECT OVERVIEW
The Mason Street Bridge Replacement Project is one of three bridges being replaced over Mission Creek in the lower State Street vicinity. The bridge, built in 1946, has been deemed structurally deficient by CALTRANS and will be replaced to meet current structural standards. The new bridge design will:

- Increase flood capacity
- Increase habitat for the steelhead trout & tidewater gobies
- Improve safety
- Improve street lighting, sidewalks, landscape, & bridge railings

MAISON STREET BRIDGE OVER MISSION CREEK BETWEEN STATE ST. & CHAPALA ST.

CONSTRUCTION SCHEDULE
WINTER 2016

FUNDING
FEDERAL HIGHWAY BRIDGE PROGRAM

COST
$7 MILLION

RENDERING OF MASON ST. BRIDGE
MAISON STREET BRIDGE REPLACEMENT PROJECT

Construction will include:

- Building demolition
- Bridge replacement
- New channel walls
- Expanded habitat zones
- Kimberly Ave. realignment

There will be area closures during the Mason Street Bridge improvements and detour signage to reduce neighborhood impacts as much as possible. Please see detour map at:
