

## **PROJECT TITLE:** **Fiscal Year 2019-B Pavement Maintenance Project**

**PROJECT OVERVIEW:** The Fiscal Year 2019-B Pavement Maintenance Project will address high priority pavement maintenance needs throughout the City. Streets will be evaluated and recommended for repair and maintenance, including treatments such as pavement preparation, pavement grind and overlay. The type of treatment recommended for each street is based on current pavement condition, traffic volume, and available funds. The work will also include minor utility work and minor concrete construction to construct missing or noncompliant curb ramps adjacent to the streets that are designated for overlay, as required to achieve Americans with Disabilities Act compliance.

**PROJECT BENEFITS:** This project will upgrade access ramps, repair sidewalks, curbs and gutters, and repair road surfaces. In order to most efficiently deliver the Pavement Maintenance Program, the Fiscal Year 2019 Project has been split into two separate projects. Construction for the first project (A) which consisted of concrete work, spot repairs and slurry seal resurfacing has been completed. Construction for the second project (B) began on July 15 and consists of concrete work, grind and overlay is anticipated to be complete by December 24, 2019.

### **QUICK FACTS**

**Locations:** see page two for planned locations

**Construction Schedule:** Fiscal Year 2019 B – summer / fall 2019

**Total Project Costs:** Fiscal Year 19 B - \$6M

**Funding Source:** In addition to a \$6M Measure C contribution, the projects are funded by Measure A, Utility User Tax, \$2M from State Gas Tax (SB1), and Local Surface Transportation Program (LSTP) grant funds.
