

PROJECT TITLE: **Fiscal Year 2019-A Pavement Maintenance Project**

PROJECT OVERVIEW: The Fiscal Year 2019-A Pavement Maintenance Project will address high priority pavement maintenance needs throughout the City. The Project consists primarily of removing and replacing failed sections of asphalt pavement followed by crack sealing and slurry sealing, and replacement of sidewalk and access ramps in various City streets.

PROJECT BENEFITS: The Project includes work on high-priority locations throughout the City, including a number of intersections at Highway 101 on/off ramps. Slurry seals extend the life of existing pavements by protecting the undersurface from the effects of aging and the environment. Additionally, slurry seal gives asphalt surfaces a bright black appearance, improving the roadway aesthetics.

QUICK FACTS

Locations: see page two for planned locations

Construction Schedule: winter 2018-fall 2019

Total Project Costs: \$6.7M

Funding Source: In addition to a Measure C contribution of \$6,000,000, the Project is funded by Measure A, Waterfront funds and Downtown Parking funds.
