

PROJECT TITLE: Fiscal Year 2021- C Pavement Maintenance (Concrete Improvements) Project

WHY THIS PROJECT:

The City's annual pavement maintenance program is an opportunity to address asphalt dig outs, repair failed areas, prune tree roots, remove and replace concrete curbs, gutters and sidewalks, and, reconstruct existing, non-compliant curb ramps and construct new curb ramps where they don't exist.

PROJECT BENEFITS: This project will upgrade access ramps to meet Americans with Disabilities Act requirements and will make repairs to sidewalks, curbs, and gutters, which will be performed on streets prior to City crew's pavement maintenance work. These ramps are intended to allow easy access to crosswalks for pedestrians with disabilities, families with young children, seniors, and other travelers crossing the street. The ramps have a gentle slope that assists wheelchairs, families with strollers, as well as pedestrians with compromised mobility. A "detectable warning surface" pad is placed and used to alert those with vision impairment that the sidewalk makes a transition to the street. Sidewalk repairs will improve pedestrian accessibility and mobility throughout the city as well as safety by reducing walking along roadways.

QUICK FACTS

Locations: see page two for planned locations

Construction Schedule: spring 2021 - summer 2021

Total Project Costs: Fiscal Year 2021C –\$1,636,000

Funding Source: The project is funded by Measure C and Measure A
