Recreation
After-school
Program  IS BACK!

About the Recreation After-School Program
The City of Santa Barbara Parks and Recreation Department's popular fee-based afterschool program, RAP!, provides homework assistance, recreational activities, sports, crafts, and special programs to 1st-6th graders at Adams, Monroe, Roosevelt, and Washington Elementary Schools.

RAP begins immediately following the regular school day and operates until 5:30pm, keeping your child active and engaged in healthy, enriching activities while you finish your workday. Our goal is to provide a supervised, fun program where children can make new friends and hang out with current friends in a relaxed afterschool environment. RAP is intended to offer convenience, affordability, and safety, along with the knowledge that your child is working on homework and being cared for by highly trained program staff. Each RAP site has between 6-8 program leaders and one site director with a staff to student ratio of 1:14.

RAP Hours and Days of Operation
RAP operates from 2:30pm-5:30pm on all school days. This includes early release days and conference weeks. RAP is closed on all school holidays and non-school days. Please refer to the school district calendar for those dates.
